**Item 2.02 Results of Operations and Financial Condition.**

On October 27, 2015, Baxter International Inc. (the Company) issued an earnings press release for the quarterly period ended September 30, 2015. The press release, including attachments, is furnished as Exhibit 99.1 to this report.

The press release furnished as Exhibit 99.1 contains financial measures that are not calculated in accordance with generally accepted accounting principles (GAAP). The non-GAAP financial measures include adjusted operating income, adjusted pre-tax income from continuing operations, adjusted income from continuing operations and adjusted earnings per diluted share, each excluding special items. Special items are excluded because they are highly variable, difficult to predict, and of a size that may substantially impact the Company's reported operations for a period. Non-GAAP financial measures may provide a more complete understanding of the Company's operations and can facilitate a fuller analysis of the Company's results of operations, particularly in evaluating performance from one period to another. In addition, beginning with the first quarter of 2014, the Company has reported adjusted earnings measures excluding intangible asset amortization expense. Intangible asset amortization is excluded as a special item to facilitate an evaluation of current and past operating performance, particularly in terms of cash returns, and is similar to how management internally assesses performance.

Management believes that non-GAAP earnings measures, when used in conjunction with the results presented in accordance with GAAP and the reconciliations to corresponding GAAP financial measures, may enhance an investor's overall understanding of the Company's past financial performance and prospects for the future. Accordingly, management uses these non-GAAP measures internally in financial planning, to monitor business unit performance, and in some cases for purposes of determining incentive compensation.

The Company strongly encourages investors to review its consolidated financial statements and publicly filed reports in their entirety and cautions investors that the non-GAAP measures used by the Company may differ from similar measures used by other companies, even when similar terms are used to identify such measures.
