I. Operating Results and Financial Conditions

2016 in Review

Looking back at the global economy in 2016, the trend of recovery in the U.S. economy became stronger as employment conditions and consumer spending progressively improved from the latter half of the year. In Europe, although the economy grew moderately, centered on Germany, the outlook for the region's economy has grown increasingly uncertain due to concerns over the UK's decision to exit the EU and the political unrest in Syria. The Chinese economy continued its deceleration trend while the economies of emerging countries such as Russia and Brazil remained stagnant. In Japan, the economy remained weak due to weak consumer spending. Looking at the global economy as a whole, although higher growth than the previous year was expected at the beginning of the year, the global economy overall experienced its lowest level of growth since the financial crisis precipitated by Lehman Brothers' bankruptcy.

As for the markets in which Canon operates amid these conditions, regarding the demand for office multifunction devices (MFDs) and laser printers, the demand for color models enjoyed strong growth due to the trend of shifting from monochrome to color machines, while the demand for monochrome shrunk due to the continued economic slowdown in emerging countries. As for cameras, along with the ongoing contraction of the market, especially for digital compact cameras, the market suffered from a shortage of components arising from the earthquake in Kumamoto earlier in the year. Additionally, demand for inkjet printers continued to decline. Within the Industry and Other sector, demand for lithography equipment used in the production of flat panel displays (FPDs) and manufacturing equipment for organic LED (OLED) displays enjoyed strong growth thanks to active capital investment by panel manufacturers.

The average value of the yen during the year was ¥108.58 against the U.S. dollar, a year-on-year appreciation of approximately ¥13, and ¥120.25 against the euro, a year-on-year appreciation of approximately ¥14, which had a negative impact of ¥280.4 billion on net sales and of ¥101.8 billion on operating profit.

During 2016, color-model office MFDs achieved higher growth than the market average, making up for the continued decline of monochrome models, which led to the same level of unit sales as the previous year overall. Although the unit sales of laser printers were below level compared with the same period of the previous year until the third quarter, due to the sluggish economic conditions in the emerging countries, signs of bottoming out started to appear in the fourth quarter. Looking at the interchangeable-lens digital cameras, sales volume for the year exceeded that of the previous year, supported by sales of new products, while sales volume for digital compact cameras declined compared with the previous year amid the ongoing contraction of the market. Sales volume for inkjet printers declined for consumer products, while sales volume of wide format inkjet printers for business use exceeded the previous year. In contrast, sales of FPD lithography equipment and OLED panel manufacturing equipment increased, boosted by increased capital investment by panel manufacturers. Consequently, along with the negative impact of the appreciation of the yen, net sales for the year decreased 10.5% year on year to ¥3,401.5 billion. The gross profit ratio decreased by 1.7 points year on year to 49.2% mainly due to the negative effect of yen's appreciation. Despite a reduction in operating expenses of 8.5% year on year, partly due to Group-wide efforts to reduce spending, operating profit decreased by 35.6% to ¥228.9 billion. Other income (deductions) increased by ¥23.6 billion due to foreign currency exchange gains while income before income taxes decreased by 29.6% year on year to ¥244.7 billion and net income attributable to Canon Inc. decreased by 31.6% to ¥150.7 billion.

In December 2016, all shares of Toshiba Medical Systems Corporation (TMSC) were obtained following the completion of necessary clearance procedures by antitrust authorities, and TMSC joined the Canon Group.

Basic net income attributable to Canon Inc. shareholders per share for the year was ¥137.95, a year-on-year decrease of ¥63.70.

Results by Segment

Looking at Canon's full-year performance by business unit, beginning with the Office Business Unit, unit sales of office MFDs increased overall from the previous year thanks to strong sales of color models, even with the continued decrease in sales of monochrome models. This growth was supported by steady sales of the color A3 (12 x18) imageRUNNER ADVANCE C5500-series models, which were released this year, and the small-office/home-office color A3 (12 x18) imageRUNNER C3300-series models, which were launched in the previous year, along with expanded sales of imagePRESS C10000VP-series models, which target the production printing market. Among high-speed continuous-feed printers, unit sales of the Océ-produced VarioPrint i300, a high-speed sheet-fed color inkjet press, increased year on year. Although the unit sales of laser printers had been below level against the same period of the previous year until the third quarter, due to the sluggish economic conditions in the emerging countries, unit sales exceeded the same period of the year at fourth quarter along with a smooth transition to new models as planned. These factors, coupled with the negative effect of unfavorable currency exchange rates, resulted in total sales for the business unit of ¥1,807.8 billion, a year-on-year decline of 14.4%, while operating profit totaled ¥169.5 billion, a year-on-year decline of 41.7%.

Within the Imaging System Business Unit, sales volume for interchangeable-lens digital cameras grew compared with the previous year owing to healthy demand for the EOS-1D X mark II and the EOS 5D mark IV, which were launched this year, and the launch of a new addition to the Company's strengthening compact-system camera lineup, the EOS M5, which features a built-in EVF. As for digital compact cameras, along with the ongoing contraction of the market, sales volume declined amid difficulties in procuring components due to the earthquake in Kumamoto earlier in the year, with much of the profitability generated by sales of high-added-value models that deliver high image quality and zoom capabilities. As for inkjet printers, although sales volume declined compared with the previous year due to a shrinking market for consumer products, sales of models equipped with large-capacity ink tanks that were launched in the fourth quarter of 2015 experienced healthy demand mainly in emerging countries, while demand was high mainly in Japan for newly designed models for home use that were launched in 2016. Additionally, wide format inkjet printers, new imagePROGRAF PRO-series models, which target the professional photo and graphic art market, saw an increase in unit sales. As a result of these factors, along with the negative effect of unfavorable currency exchange rates, sales for the business unit decreased by 13.3% to ¥1,095.3 billion while operating profit totaled ¥144.4 billion, a year-on-year decline of 21.3%.

In the Industry and Other Business Unit, unit sales of semiconductor lithography equipment decreased from the previous year amid the postponement of some capital investments by customers. As for FPD lithography equipment, unit sales of lithography systems employed in the fabrication of mid- and small-size panels increased in response to growing demand for high-definition OLED displays used in mobile devices. Also, sales of manufacturing equipment for OLED displays, which is sold by Canon Tokki, increased amid brisk capital investment by panel manufacturers. In addition, sales of network camera increased compared with the previous year thanks to efforts to strengthen the product lineup. Consequently, sales for the business unit increased 11.4% year-on-year to ¥584.7 billion while operating profit grew by ¥20.5 billion to ¥7.4 billion.

Cash Flow

During 2016, cash flow from operating activities totaled ¥500.3 billion, an increase of ¥25.6 billion compared with the previous year owing to improvements in working capital. Cash flow from investing activities increased ¥383.5 billion year on year to ¥837.1 billion mainly due to the acquisition of all of the shares of TMSK. Accordingly, free cash flow totaled negative ¥336.8 billion, a decrease of ¥357.9 billion compared with the previous year.

Cash flow from financing activities recorded proceeds of ¥355.7 billion, mainly owing to a bank borrowing related to the acquisition of TMSK.

Owing to these factors, as well as the negative impact from foreign currency translation adjustments, cash and cash equivalents decreased by ¥3.4 billion to ¥630.2 billion from the end of the previous year.

Non-consolidated Results

Non-consolidated net sales totaled ¥1,764.0 billion, a year-on-year decrease of 15.6%, while ordinary profit decreased by 41.3% to ¥158.4 billion and net income decreased by 37.2% to ¥133.1 billion.

Outlook

As for the outlook in 2017, the U.S. economy is expected to grow thanks to its continued gradual recovery as employment conditions improve and expectations surrounding the financial policy of the new administration. Looking at the European economy, the declining cohesion of the EU resulting from the U.K.'s decision to leave the EU has caused increasing uncertainty for economic growth projections. As for emerging economies, although the outlook indicates signs of recovery for Russia and Brazil whose economies have experienced negative growth so far, the economic slowdown in China is expected to be prolonged.

The outlook for the Japanese economy, despite signs of a recovery in employment conditions, indicates prolonged sluggish consumer spending and the market is expected to remain along a path of moderate growth. Overall, while the U.S. economy performs the role of the driving force of the world economy, the global economy is expected to move toward a moderate recovery.

In the businesses in which Canon is involved, among office MFDs, demand for color models makes up for the market contraction of monochrome models and demand is expected to remain in line with that of the previous year overall. Although demand for laser printers is expected to remain at the same level as that for the previous year, demand for color models and laser multifunction models with high potential consumable sales is expected to increase. As for interchangeable-lens digital cameras, although demand is waning mainly in developed countries, the sluggish demand condition is improving gradually, which is expected to bottom out. Projections for digital compact cameras indicate continued market contraction, centered mainly on low-priced models. With regard to inkjet printers, demand is expected to continue declining mainly for consumer models. Looking at industrial equipment, within the semiconductor lithography equipment segment, the market is expected to remain at the same level as the previous year while the outlook for FPD lithography equipment and OLED display manufacturing equipment points to continued active capital investment by panel manufacturers. The network camera market is also expected to grow in response to increasing marketing and production site efficiency-enhancing needs, in addition to disaster monitoring and crime prevention functions.

With regard to currency exchange rates for the year, on which the Company's performance outlook is based, Canon anticipates exchange rates of ¥110 to the U.S. dollar and ¥120 to the euro, representing a depreciation of approximately ¥1 against the U.S. dollar and approximately same level against the euro compared with the annual average rates of the previous year.

Upon taking into consideration the impact of the acquisition of TMSC and the current economic forecast, Canon projects full-year consolidated net sales in 2017 of ¥4,000.0 billion, a year-on-year increase of 17.6%; operating profit of ¥255.0 billion, a year-on-year increase of 11.4%; income before income taxes of ¥260.0 billion, a year-on-year increase of 6.3%; and net income attributable to Canon Inc. of ¥170.0 billion, a year-on-year increase of 12.8%.

Basic Policy Regarding Profit Distribution and Dividends for the Current Fiscal Year

Canon is being more proactive in returning profits to shareholders, mainly in the form of a dividend, taking into consideration medium-term profit forecasts along with planned future investments, cash flow and other factors.

In 2016, Canon undertook such large investments for future growth as the acquisition of TMSC. Thanks, however, to efforts to boost product competitiveness and strengthen the Company's financial position through a management focus

on profitability and cash flow, Canon was able to maintain its strong financial position. Taking this into consideration while seeking to actively provide a stable return to shareholders, Canon has decided to distribute a full-year dividend of ¥150 per share, (interim dividend of ¥75 per share [already distributed] and year-end dividend of ¥75), which is the same as the previous year's dividend.

This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management's views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as anticipate, believe, estimate, expect, intend, may, or should and similar expressions, as they relate to Canon, are intended to identify forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon's targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these and other risk factors is included in Canon's annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.

Subsidiaries	367	317	50	
Affiliates	9	5	4	
Total	376	322	54	

(2) Group structure and major companies

III. Management Policy

(1) Basic Policy

Under the corporate philosophy of kyosei (living and working together for the common good), Canon's basic management policy is to contribute to the prosperity and well-being of the world while endeavoring to become a truly excellent global corporation targeting continued growth and development.

(2) Management Goals

Based on this basic management policy, Canon launched the Excellent Global Corporation Plan in 1996 and, from Phase I through to Phase IV, has worked to strengthen its management base and improve corporate value. In 2016, under the slogan "Embracing the challenge of new growth through a grand strategic transformation," Canon embarked on a new five-year initiative: Phase V of the Excellent Global Corporation Plan. Under this plan, Canon aims to facilitate growth through structural transformation by reinforcing existing businesses and taking steps to cultivate and strengthen new businesses.

Regarding new businesses, Canon is particularly focused on areas where market expansion is expected in the future, namely such B2B spheres as commercial printing, network cameras, healthcare and industrial equipment. As part of such efforts, Toshiba Medical Systems Corporation (TMSC), a leading company in the medical equipment industry, was made a Canon subsidiary in December of 2016, the first year of Phase V. Through this acquisition, Canon was able to make significant progress in establishing a foundation for new businesses.

(3) Business Challenges and Countermeasures

Although the IMF is projecting a modest pickup in the global economy in 2017, political and economic circumstances are expected to remain highly uncertain.

2017 marks not only the second year of Phase V of the Excellent Global Corporation Plan, but also Canon's 80th anniversary. To ensure that 2017 is a year befitting this milestone, Canon is addressing the following key challenges under the theme "Further promoting grand strategic transformation by accelerating reforms."

1. Thoroughly bolster existing business

In order to successfully transform its business structure, Canon will work to improve profitability by reinforcing the existing businesses that will support this transformation. Specifically, Canon will accelerate the development of Dantotsu Products, which are products with unique appeal and strengths that realize high profitability thanks to their difficulty to imitate. At the same time, Canon will advance such initiatives as automation, in-house production, and procurement reform, in order to achieve a cost-of-sales ratio of 45%. Additionally, Canon will expand its business domains, developing new business models in response to the internet of things (IoT) and cloud environments.

2. Strengthen and grow new businesses and create future businesses

For commercial printing, with the aim of becoming a comprehensive printing company, Canon will accelerate product development in order to make a full-scale entry into the fast-growing package printing market. Regarding network cameras, Canon will work to strengthen camera intelligence, by not only improving image quality, but leveraging the image-processing and image-analytics technologies at its disposal in order to create market-specific solutions. As for healthcare, Canon will formulate new growth strategies, built around TMSC, and will exert the Group's comprehensive

strength to provide innovative products and high-quality services on a global scale. For industrial equipment, such as IC lithography equipment that utilizes nanoimprint lithography, Canon will formulate new business strategies to pioneer a fourth industrial revolution driven by artificial intelligence and IoT.

3. Restructure the global sales network

In the B2B sphere, success or failure is determined by the capacity to devise and implement solutions. In addition to training highly skilled sales engineers with a breadth of technical knowledge spanning both hardware and software, Canon will establish a sales structure with networks that expand to corporations and governments. Additionally, Canon will formulate global sales strategies that take full advantage of the expansion and development of e-commerce.

4. Strengthen R&D through open innovation

Canon will enhance R&D efficiency in existing business fields and be selective in investment in promising new fields. On top of this, aiming to establish and expand service businesses, Canon will train software engineers, develop systems and accelerate the establishment of an external cooperation system.

5. Cultivate global human resources and reinvigorate the Canon spirit

An enterprising spirit and the San-ji (Three Selves) Spirit of self-motivation, self-management, and self-awareness, have been basic components of Canon's corporate DNA since its foundation. Canon is now working to re-instill these values as we promote the development of human resources that are able to exert leadership in a global environment.

IV. Basic Concept Regarding the Selection of Accounting Standards

Canon is listed on the New York Stock Exchange and, since registering its American Depositary Receipts on the OTC (over-the-counter) market in 1969, has prepared its consolidated financial statements in accordance with U.S. generally accepted accounting principles (GAAP) over the long term.

Canon has continued to adopt U.S. GAAP in order to maintain the continuity of financial statements from the past and to maintain international comparability.

CANON INC. AND SUBSIDIARIES

CONSOLIDATED

In addition to the disclosure requirements under Topic 280, Canon has disclosed the segment information, **SEGMENT INFORMATION BY GEOGRAPHIC AREA**, which is based on the location of Canon Inc. and its subsidiaries. Results from a survey of a representative sample of financial statement users, however, indicated that they consider the latter to be less useful than sales information based on the location where the product is shipped to customers, which is disclosed separately. For this reason, Canon decided to discontinue the disclosure of geographical segment information based on the location of Canon Inc. and its subsidiaries from this year, in order to avoid the risk of confusing users due to disclosing two similar types of geographical information and make disclosure more concise and transparent. Sales information based on the location where the products is shipped to customers is available on page 12 **3. DETAILS OF SALES** in **V. Financial Statements**.

Tokyo Stock Exchange (1st section): Canon Marketing Japan Inc., Canon Electronics Inc.

(2) SIGNIFICANT ACCOUNTING POLICIES

Canon's consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles.

Recently Issued Accounting Guidance

In November 2015, the Financial Accounting Standards Board issued an amendment which requires deferred tax assets and liabilities be classified as noncurrent in the consolidated balance sheets. Canon early adopted this amended guidance from the quarter beginning January 1, 2016, on a prospective basis, and prior periods were not retrospectively adjusted. Canon's current deferred tax assets were ¥55,108 million and current deferred tax liabilities were ¥2,682 million as of December 31, 2015.

-Diluted	137.95	201.65

(2) ACQUISITIONS

As necessary clearance from competition regulatory authorities regarding the acquisition of Toshiba Medical Systems Corporation (TMSC) shares were obtained, Canon exercised the share options acquired for consideration of cash, through a Shares and Other Securities Transfer Agreement concluded with Toshiba Corporation dated March 17, 2016, and acquired all of the shares of TMSC. The acquisition date was December 19, 2016 and the purchase price was ¥665.5 billion.

Under Phase V of the Excellent Global Corporation Plan, a five-year initiative that Canon has been implementing since 2016, embracing the challenge of new growth through a grand strategic transformation has been set as a basic policy. With regard to strengthening and growing new businesses, and creating future businesses, a particularly important strategy, Canon intends to develop a health care business within the realm of safety and security, as a next-generation pillar of growth.

Since the acquisition date of TMSC was near the balance sheet date, the allocation of the purchase price to the assets acquired and liabilities assumed was incomplete and provisionally carried out as of December 31, 2016.

On January 23, 2017, regarding the borrowing that was provisionally raised in March 2016 for this acquisition, a contract was concluded to refinance with an unsecured loan with a repayment due in December 2021. The loan is ¥610 billion as of December 31, 2016, and is included in long-term debt in the consolidated balance sheet.

(3) FINANCE RECEIVABLES AND OPERATING LEASES, MARKETABLE SECURITIES, DEFERRED TAX ACCOUNTING, EMPLOYEE RETIREMENT AND SEVERANCE BENEFITS, STOCK OPTIONS, DERIVATIVE CONTRACTS AND OTHERS

The disclosure is omitted as it is not considered significant in this report.

(4) SUBSEQUENT EVENT

There is no significant subsequent event.

10. NOTE FOR NON-GAAP FINANCIAL MEASURES

We have reported our financial results in accordance with U.S. generally accepted accounting principles (U.S. GAAP). In addition, we have discussed our results using Free cash flow which is non-GAAP measure.

We believe this measure is beneficial to an investor's understanding on Canon's current liquidity and the alternatives of use in financing activities because it takes into consideration its operating and investing activities.

A reconciliation of this non-GAAP financial measure and the most directly comparable measures calculated and presented in accordance with GAAP are set forth on the following table.

	Billions of yen Year ended December 31, 2016
Net cash provided by operating activities	500.3
Net cash used in investing activities	(837.1)

This document contains forward-looking statements with respect to future results, performance and achievements that are subject to risk and uncertainties and reflect management's views and assumptions formed by available information. All statements other than statements of historical fact are statements that could be considered forward-looking statements. When used in this document, words such as anticipate, believe, estimate, expect, intend, may, or should and similar expressions, as they relate to Canon, are intended to identify forward-looking statements. Many factors could cause the actual results, performance or achievements of Canon to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements, including, among others, changes in general economic and business conditions, changes in currency exchange rates and interest rates, introduction of competing products by other companies, lack of acceptance of new products or services by Canon's targeted customers, inability to meet efficiency and cost reduction objectives, changes in business strategy and various other factors, both referenced and not referenced in this document. A detailed description of these

and other risk factors is included in Canon's annual report on Form 20-F, which is on file with the United States Securities and Exchange Commission. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described herein. Canon does not intend or assume any obligation to update these forward-looking statements.

	Year	4th quarter	Year	4th quarter	Year
Yen/US\$	110.00	109.48	108.58	121.60	121.13
Yen/Euro	120.00	118.10	120.25	132.81	134.20

(P)=Projection

(2) Impact of foreign exchange rates on sales**(Year over year)**

	2017 (P)	2016	
	Year	4th quarter	Year
US\$	+21.8	(31.9)	(144.2)
Euro	(1.0)	(27.1)	(90.3)
Other currencies	(4.5)	(10.7)	(45.9)
Total	+16.3	(69.7)	(280.4)

(P)=Projection

(3) Impact of foreign exchange rates per yen

	(Billions of yen)
	2017 (P)
	Year
On sales	
US\$	13.4
Euro	6.6
On operating profit	
US\$	4.9
Euro	2.4

(P)=Projection

11. STATEMENTS OF CASH FLOWS

	2017 (P)	2016	2015		
	Year	4th quarter	Year	4th quarter	Year
Net cash provided by operating activities	500,000	156,920	500,283	143,892	474,724
Net cash used in investing activities	(250,000)	(12,216)	(837,125)	(89,154)	(453,619)
Free cash flow	250,000	144,704	(336,842)	54,738	21,105

(Millions of yen)

Edgar Filing: CANON INC - Form 6-K

Net cash provided by (used in) financing activities	(267,200)	(80,647)	355,692	(244)	(210,202)
Effect of exchange rate changes on cash and cash equivalents	(13,000)	31,656	(22,270)	(2,128)	(21,870)
Net change in cash and cash equivalents	(30,200)	95,713	(3,420)	52,366	(210,967)
Cash and cash equivalents at end of period	600,000	630,193	630,193	633,613	633,613

12. R&D EXPENDITURE

(Millions of yen)

	2017 (P) Year	2016 Year	2015 Year
Office	-	94,440	105,298
Imaging System	-	91,752	90,236
Industry and Others	-	67,887	66,585
Corporate and Eliminations	-	48,297	66,381
Total	345,000	302,376	328,500
% of sales	8.6%	8.9%	8.6%

(P)=Projection

13. INCREASE IN PP&E & DEPRECIATION AND AMORTIZATION

(Millions of yen)

	2017 (P) Year	2016 Year	2015 Year
Increase in PP&E			
Office	-	67,675	70,887
Imaging System	-	23,482	35,634
Industry and Others	-	26,788	20,683
Corporate and Eliminations	-	53,652	67,916
Total	195,000	171,597	195,120
Depreciation and amortization			
Office	-	78,319	86,206
Imaging System	-	47,386	52,070
Industry and Others	-	41,053	45,064
Corporate and Eliminations	-	83,338	89,987
Total	270,000	250,096	273,327

(P)=Projection

14. INVENTORIES**(1) Inventories**

(Millions of yen)

	2016 Dec.31	2015 Dec.31	Difference
Office	205,656	225,327	(19,671)
Imaging System	127,386	155,767	(28,381)
Industry and Others	227,694	120,801	+106,893
Total	560,736	501,895	+58,841

(2) Inventories/Sales*

(Days)

	2016 Dec.31	2015 Dec.31	Difference
Office	42	39	+3
Imaging System	41	43	(2)
Industry and Others	152	86	+66
Total	59	47	+12

*Index based on the previous six months sales.

15. DEBT RATIO

	2016 Dec.31	2015 Dec.31	Difference
Total debt / Total assets	11.9%	0.0%	+11.9%

16. OVERSEAS PRODUCTION RATIO

	2016 Year	2015 Year
Overseas production ratio	44%	48%

17. NUMBER OF EMPLOYEES

	2016 Dec.31	2015 Dec.31	Difference
Japan	72,913	68,325	+4,588
Overseas	124,760	121,246	+3,514
Total	197,673	189,571	+8,102

* The effect of newly consolidated TMSC is included in Industry and Others, and appears in both fiscal 2016 results and fiscal 2017 projections.
