Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

On December 8, 2017, the Board of Directors (the Board) of Nicholas Financial, Inc. (the Company) appointed Douglas Marohn as President and Chief Executive Officer of the Company effective as of December 12, 2017.

Mr. Marohn most recently served as President / CEO of ML Credit Group, LLC (dba Metrolina Credit Company) since January 2014. Metrolina Credit Company is a branch-based indirect subprime auto finance company doing business in the Carolinas. Between August 2011 and November 2013, Mr. Marohn was Senior Vice President at TMX Finance, overseeing its consumer loan operations. Until July 2011, he spent 14 years with the Company in various positions, the majority of the time as Senior Vice President. He has a total of 25 years of experience in the subprime auto finance industry.

In connection with Mr. Marohn's appointment as President and Chief Executive Officer, the Company and Mr. Marohn entered into an employment agreement effective as of December 12, 2017 (the Employment Agreement). The Employment Agreement covers an initial term of 18 months, followed by automatic renewals for successive 12-month periods unless 60 days prior written notice of non-renewal is provided.

Salary and Bonus: Mr. Marohn's initial base salary will be \$350,000 per year. The Employment Agreement provides for the following bonus payments:

For the fiscal year ending March 31, 2018, a guaranteed bonus of \$30,000.

For the fiscal year ending March 31, 2019, a bonus equal to the greater of \$50,000 and the milestone bonus with respect to such fiscal year as calculated below.

For the fiscal year ending March 31, 2020, the milestone bonus with respect to such fiscal year as calculated below.

For the fiscal years ending March 31, 2021 and 2022, a bonus equal to the greater of the milestone bonus with respect to such fiscal year as calculated below and the sum of the cash component and the restricted stock component of the long-term bonus with respect to such fiscal year as calculated below.

Milestone Bonuses: For each of the fiscal years ending March 31, 2019, 2020, 2021 and 2022, the milestone bonus earned is based on the operating margin achieved by the Company in that fiscal year compared to the relevant target operating margin set forth below. For these purposes, operating margin is defined as operating income before income taxes divided by interest and fee income on finance receivables, adjusted in the sole discretion of the Compensation Committee, including without limitation for the following items: 1) changes resulting from a FASB Accounting Pronouncement, 2) dividends, 3) gain on sale and 4) provision for credit losses if less than charge-offs. The target operating margins are as follows:

Fiscal year ending March 31, 2019 7.5%

Fiscal year ending March 31, 2020 12.5%

Fiscal year ending March 31, 2021 20%

Fiscal year ending March 31, 2022 30%

If less than 80% of the target operating margin is achieved, no milestone bonus will be earned. If 80% or more of the target operating margin is achieved, the milestone bonus will equal the percentage of the target margin achieved multiplied by \$150,000. For example, if the operating margin in the fiscal year ending March 31, 2019 is 9%, the bonus is 120% of the target margin multiplied by \$150,000, or \$180,000.

Long Term Bonuses: For each of the fiscal years ending March 31, 2021 and 2022, the long-term bonus earned shall be based on the three-year rolling average annual growth in tangible book value per share over the three immediately preceding fiscal years, adjusted in the sole discretion of the Compensation Committee of the Board (the

Compensation Committee), including without limitation for the following items: 1) changes resulting from a FASB Accounting Pronouncement, 2) share buy-backs, 3) dividends, 4) stock splits, 5) gain on sale and 6) provision for credit losses if less than charge-offs. The long-term bonus consists of two components: a cash component and a restricted stock component (valued at the average closing price of the common stock over the 90 calendar days immediately preceding the final day of the fiscal year with respect to which the bonus is calculated). For example, if the Company were to grow book value per share at 12% on average over three years, Mr. Marohn would receive 100% of his salary as a bonus in cash and 100% of his salary in restricted stock (which will cliff-vest after three years).

| Three Year Average Growth in Book Value per Share | Award as Percentage of Base Salary (for each of the cash portion and the restricted stock portion) |
|--|---|
| Under 6% | 0% |
| 6 - 8% | 40% |
| 8 - 10% | 60% |
| 10 - 12% | 100% |
| 12 - 14% | 150% |
| 15 - 18% | 200% |
| Greater than 18% | Discretionary |

Discretionary Bonus: For each fiscal year specified above beginning with the fiscal year ending March 31, 2018, the Compensation Committee retains sole discretion to pay an additional bonus of up to 50% of actual salary earned for such fiscal year.

Stock Ownership and Matching Program: Starting on March 31, 2023, Mr. Marohn is required to own common stock of the Company equal to five times his then-effective annual salary. During the first 12 months of his employment, the Company will match 100% of the Company's stock purchased by Mr. Marohn (up to a cap of \$500,000), with such matching stock to vest three years after purchase.

Benefits: Mr. Marohn will be entitled to fringe benefits and perquisites consistent with the practices of the Company for similarly situated executives, except that premiums for Mr. Marohn's and his spouse's health insurance will be paid by the Company.

Termination without Cause or for Good Reason: In the event Mr. Marohn is terminated without Cause or terminates his employment for Good Reason (as such terms are defined in the Employment Agreement) he will receive a one-time, lump-sum severance payment equal to his base salary for the remainder of the then-current employment term. For example, if Mr. Marohn is terminated prior to the expiration of the initial 18-month term, he will receive a severance payment equal to his salary for the remainder of that term, and if Mr. Marohn is terminated during a 12-month renewal term, he will receive a severance payment equal to his salary for the remainder of that renewal term. If such termination occurs within 12 months of a Change of Control (as defined in the Employment Agreement), Mr. Marohn will instead receive a one-time, lump-sum severance payment equal to 200% of his base salary. Termination for Cause or for Good Reason, whether or not it occurs within 12 months of a Change of Control, will entitle Mr. Marohn to up to 18 months' COBRA benefits and reimbursement of up to \$15,000 in consultant/legal/accounting expenses, and will fully accelerate the vesting of all equity compensation except for restricted stock issued as part of the matching program described above. Restricted stock issued as part of the matching program will accelerate in increments of one-third: one-third will accelerate if termination occurs within one year after the purchase of such stock, two-thirds will accelerate if termination occurs within two years after the

purchase of such stock, and 100% will accelerate if termination occurs two years or more after the purchase of such stock. For these purposes, Change of Control is defined as a sale of 100% of the Company.

Non-Compete: Mr. Marohn will be subject to a non-compete for two years following his termination.

The foregoing description of Mr. Marohn's Employment Agreement is qualified in its entirety by reference to the Employment Agreement, which is attached to this Current Report as Exhibit 10.1 and incorporated by reference in its entirety into this Item 5.02.
