Rhino Off Road Industries, Inc. was incorporated on September 25, 2003 in the State of Nevada.

The accompanying unaudited interim financial statements have been prepared in accordance with United States generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB of Regulation S-B. They may not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material changes in the information disclosed in the notes to the financial statements for the year ended December 31, 2006 included in the Company's Annual Report on Form 10-KSB filed with the Securities and Exchange Commission. This summary of significant accounting policies of Rhino Outdoor International, Inc. is presented to assist in understanding the Company's financial statements. RHINO OUTDOOR INTERNATIONAL, INC.**(A Development Stage Company)****CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2007**Development Stage Activities

Since the inception of the current development stage (which began January 1, 2005), the Company has realized minimal revenue from operations. It expects to be engaged to provide management and sales support to businesses focused in the Extreme Sports/Lifestyle market segment.

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As shown in the financial statements, the Company has limited cash, no revenues, and an accumulated deficit since the inception of the Company. These factors indicate that the Company may be unable to continue in existence. The Company is currently putting business plans in place which will, if successful, mitigate these factors which raise substantial doubt about the Company's ability to continue as a going concern. Management's plans includes the following: (1) obtaining funding from private placement sources; (2) obtaining additional funding from the sale of the Company's securities; (3) establishing revenues from commercializing of its project; and (4) obtaining loans and grants from various financial institutions, where possible. The financial statements do not include any adjustments related to the recoverability and classification of recorded assets, or the amounts and classification of liabilities that might be necessary in the event the Company cannot continue existence.

Goodwill

Goodwill represents the excess of the purchase price and related direct costs over the fair value of net assets acquired as of the date of the acquisition of Rhino Off Road Industries, Inc. The Company reviews periodically its goodwill to assess recoverability based on projected undiscounted cash flows from operations. Impairments are recognized in operating results when a permanent diminution in value occurs. At March 31, 2007, no impairment was deemed necessary for the Company's goodwill.

Impaired Asset Policy

The Company adopted Statement of Financial Accounting Standards No. 144, "Accounting for Impairment or Disposal of Long-Lived Assets." In complying with this standard, the Company reviews its long-lived assets quarterly to determine if any events or changes in circumstances have transpired which indicate that the carrying value of its assets may not be recoverable. The Company determines impairment by comparing the undiscounted future cash flows estimated to be generated by its assets to their respective carrying amount whenever events or changes in circumstances indicate that an asset may not be recoverable.

Inventories

The Company records inventories at the lower of cost or market on a first-in, first-out basis.

	March 31, 2007	December 31, 2006
Raw materials and work-in-process	\$ 47,954	\$ 57,954

CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2007

Marketable Securities

The Company's investments in securities are classified as either trading, held to maturity, or available-for-sale in accordance with Statement of Financial Accounting Standards No. 115. Available-for-sale securities consist of equity securities not classified as trading securities or as securities to be held to maturity. Unrealized holding gains and losses, net of tax, on available-for-sale securities are reported as a net amount in a separate component of other comprehensive income. Gains and losses on the sale of available-for-sale securities are determined using the average cost method and are included in earnings. The Company determines the gain or loss on investment securities held as available-for-sale, based upon the accumulated cost basis of specific investment accounts. On the Company's balance sheet, short-term available for sale securities are classified as "marketable securities." See Note 12.

Property and Equipment

Property and equipment are stated at cost. Depreciation of property and equipment is calculated using the straight-line method over the estimated useful lives of the assets, which range from three to seven years. See Note 4.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Rhino Outdoor International, Inc. and its wholly owned subsidiaries: IDS Cellular, Inc. ("IDS") and Rhino Off Road Industries, Inc. All significant intercompany transactions and balances among the companies included in the consolidated financial statements have been eliminated. The operations of IDS are currently idle.

Reclassifications

Certain amounts from prior periods have been reclassified to conform to the current period presentation. This reclassification has resulted in no changes to the Company's accumulated deficit or net losses presented.

Revenue Recognition

The Company recognizes revenue for product sales when there is a mutually executed sales contract, when the products are shipped and title passes to customers, when the contract price and terms are fixed, and when collectibility is reasonably assured.

Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE 3 - BANK OVERDRAFTS

Bank overdrafts consist of checks written in excess of funds on deposit. The underlying bank is used as an imprest account with automatic transfers from the Company's general account as checks are presented.

RHINO OUTDOOR INTERNATIONAL, INC.**(A Development Stage Company)****CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS****MARCH 31, 2007****NOTE 4 - PROPERTY AND EQUIPMENT**

Property and equipment are stated at cost less depreciation taken. Depreciation is provided using the straight-line method over the estimated useful lives of the assets. The useful lives of property, plant and equipment for purposes of computing depreciation are three to seven years.

The following is a summary of property, equipment, and accumulated depreciation:

	March 31, 2007	December 31, 2006
Plant assets	\$ 122,734	\$ 120,234
Office furniture	4,858	4,858
Leasehold improvements	1,146	1,146
	128,738	126,238
Less accumulated depreciation	(27,515)	(18,284)
Net, property and equipment	\$ 101,223	\$ 107,954

Depreciation expense for the period ended March 31, 2007 and 2006 was \$9,231 and \$0, respectively. The Company evaluates the recoverability of property and equipment when events and circumstances indicate that such assets might be impaired. The Company determines impairment by comparing the undiscounted future cash flows estimated to be generated by these assets to their respective carrying amounts. Maintenance and repairs are expensed as incurred. Replacements and betterments are capitalized. The cost and related reserves of assets sold or retired are removed from the accounts, and any resulting gain or loss is reflected in results of operations.

NOTE 5 - CAPITAL STOCKPreferred Stock

The Company is authorized to issue 5,000,000 shares of preferred stock with a par value of \$0.001. These shares are convertible to common stock. As of March 31, 2007, the Company has issued 835,660 shares of preferred Series A, 1,000,000 shares of preferred Series B, and 2,250,000 shares of preferred Series C.

Common Stock

The Company is authorized to issue 500,000,000 shares of common stock. All shares have equal voting rights, are non-assessable and have one vote per share. Voting rights are not cumulative and, therefore, the holders of more than 50% of the common stock could, if they choose to do so, elect all of the directors of the Company.

During the period ending March 31, 2007, the Company issued 3,268,000 shares of common stock in exchange for \$164,688 in cash. OVERVIEW

Rhino Outdoor International, Inc. ("ROI") did not record revenues during 2005. We discontinued the third party affiliate sales of Cellular phones and services during 2004, and discontinued all cellular sales in 2005 due to the financial losses inherent with the commission structure paid to third party affiliates. The affiliate commissions were earned on "leads" provided, rather than on sales made, therefore the cancellations and returns on cellular phones were not recouped from the third party affiliate and the losses became ROI expense. During 2007, 2006 and 2005, we have focused on developing a new business plan in the extreme sports sector and marketing of its lifestyle. We engaged with three primary products during 2005: XBoard; Rhino; and Planet X TV.

In 2007 and 2006, we have focused our efforts on Rhino Off Road Industries, and its product the RTV. On June 21, 2006 we, acquired by share exchange agreement and plan of reorganization all the outstanding shares of capital stock of Rhino in exchange for shares of capital stock of ROI, formerly known as CyberAds. On August 30, 2006, the Company was renamed Rhino Outdoor International, Inc, to reflect a more accurate brand name for our business model. During 2006, we implemented sales and marketing strategies for the Rhino Off Road RTV, and invested in further development of new models which are designed to increase sales to consumers, and potentially to government agencies for the Search and Rescue requirements. During the first quarter of 2007, we have continued to focus on developing the Rhino RTV product line, and began marketing to consumers through trade advertising and direct sales through our web site.

RELATED PARTIES AND RELIANCE ON CERTAIN PROVIDERS

We rely on the suppliers of inventory to Rhino, for production of products specific to our reselling, or direct selling rights.

RECENT EVENTS

As noted above we entered into relationships with Aqua Xtremes, Inc., and its products XBoard, whereby the company was provided exclusive rights to resell distribution and dealers within a defined territory. During 2005, we developed a resell relationship with Rhino Off Road Industries whereby the company would recruit and demonstrate the Rhino product line to Distributors, Dealers, and consumers. During 2005, we developed a relationship with Planet X TV whereby the company would be compensated for recruiting advertisers and sponsors for the Planet X TV shows.

During 2006, we did not focus on either Planet X or XBoard as we expanded our efforts towards Rhino and the acquisition and subsequent development of the RTV and potential government Search and Rescue opportunities. In

2006, we entered into an LOI with Great West Vans (“GWV”). We have not concluded on the transaction and there is no guarantee that the company will raise the capital required to complete this specific transaction.

During the first quarter of 2007, we have continued to pursue the GWV acquisition. Further, we have developed a strategic relationship with Arizona Emergency products for the distribution to government agencies of our recently developed Emergency Response vehicle. Additionally, we are completing the design and prototype on a new 4-seater version of the RTV to expand our product line to meet the consumer demand.

PATENTS AND PROPRIETARY RIGHTS

We do not hold any trademark, copyright or patent protection.

RESULTS OF OPERATIONS**QUARTER ENDED March 31, 2007 AND 2006**

The increase in revenue from 2007 to 2006 is attributed to the acquisition of Rhino Off Road effective June 21, 2006 and our effort to develop into an Outdoor lifestyle sector company. The increase in losses was due to the developmental stage of the company, and our investment in developing the sales and marketing plan for Rhino Off Road.
