PART I

ITEM 1. BUSINESS

Our Company

Good Times Restaurants Inc. operates and franchises Good Times Burgers & Frozen Custard (“GTBFC” or “Good Times”) restaurants and Bad Daddy’s Burger Bar concept (“BDBB” or “Bad Daddy’s”). Good Times Burgers & Frozen Custard and Bad Daddy’s Burger Bar are two distinctly different, yet complementary, restaurant concepts. Each is positioned as a high quality brand within its respective segment of the industry, has attractive unit-level economics, significant growth potential, and strong current sales momentum.

Since 2013, we have owned 48% of Bad Daddy’s Franchise Development, LLC (“BDFD”), the franchising entity for Bad Daddy’s Burger Bar. On May 7, 2015, we completed the acquisition of Bad Daddy’s International, LLC (“BDI”), which owns the other 52% of BDFD as well as the intellectual property associated with the BDBB concept. BDI operates four BDBB restaurants in which it owns a 100% interest in Charlotte, NC, and two BDBB restaurants in which it owns a 52% interest in Raleigh, NC. BDI also owns a 24% interest in one BDBB restaurant in Winston Salem, NC, and receives a royalty payment from the licensed BDBB restaurant located in the Charlotte-Douglas Airport. As of December 16, 2015 there are seven other BDBB restaurants, five of which we operate in Colorado and two of which are operated by third party franchisees in Greenville, South Carolina and Knoxville, Tennessee. As a result of the acquisition, the Company now maintains complete ownership of the brand and trademark rights to BDBB and of the BDI restaurant interests in North Carolina. The acquisition has also provided us with what we believe can be national expansion potential for BDBB with both company-operated and franchised restaurants.

During fiscal years 2014 and 2015, we significantly increased the equity of the Company through the exercise of certain warrants previously issued and from the completion of a public offering of our common stock described below in “Recent Developments.”

The terms “we,” “us,” “our,” the “Company,” “Good Times” and similar terms refer to Good Times Restaurants Inc., a Nevada corporation, and its consolidated subsidiaries, including BDFD, BDI, Good Times Drive-Thru Inc. (“Drive Thru”) and BD of Colorado LLC (“BD of Colo”). Drive Thru, BDI, BDFD and BD of Colo are wholly-owned subsidiaries of Good Times Restaurants Inc. Unless otherwise indicated or the context otherwise requires, financial and operating data in this prospectus reflect the consolidated business and operations of Good Times Restaurants Inc., BDFD, BDI, BD of Colo, and Drive Thru.

Financial & Brand Highlights

- The Good Times brand has had twenty-one consecutive quarters of same store sales growth.
- We had a 6.9% increase in same store sales for the fiscal year ended September 30, 2015 (“fiscal 2015”) in addition to the increase in same store sales for fiscal 2014 of 14.6%.
 - We ended fiscal 2015 with \$13.8 million in cash and total notes payable of \$3.7 million.
- Our net revenues for fiscal 2015 increased by \$16,314,000 (+58.8%) to \$44,057,000 from \$27,743,000 in fiscal year 2014, primarily due to increased same store sales at Good Times, the opening of two Good Times and one Bad Daddy’s locations during fiscal 2015, and the inclusion of revenues for the Bad Daddy’s locations acquired on May 7, 2015.

Edgar Filing: GOOD TIMES RESTAURANTS INC - Form 10-K

- Our loss from operations was \$239,000 in fiscal 2015 compared to \$219,000 in fiscal 2014. Fiscal 2015 included \$648,000 of acquisition costs related to the BDI acquisition.
- Our net loss was \$300,000 for fiscal 2015 compared to \$370,000 for fiscal 2014, including \$784,000 and \$669,000 of preopening costs in fiscal 2015 and fiscal 2014, respectively.
- During fiscal 2012, we began a reimagining and remodeling program for our older Good Times restaurants that continued through fiscal 2015 and that we plan to continue into fiscal 2016. In fiscal 2015 we spent approximately \$1,592,000 on recurring and remodeling capital expenditures and we plan to spend approximately \$1,250,000 on recurring and remodeling capital expenditures in fiscal 2016.
- We believe Good Times is the only quick service restaurant concept in Colorado offering all natural beef, chicken and bacon with no hormones, no steroids, no antibiotics and humanely raised, vegetarian fed animals with no animal byproducts in the feed in all of our hamburger, chicken and bacon menu items.
- We continued our television campaign in fiscal 2015 that began in March of 2013 with four distinct product windows, communicating Good Times' core brand attributes of fresh, all natural, hand crafted products with taste profiles available only at Good Times, which has contributed to our continued same store sales increases through fiscal 2015.

Table of Contents

- We opened two Good Times restaurants in fiscal 2015, each with new interior design finishes and décor that we believe continues to help set Good Times apart from mainstream hamburger quick service restaurants, utilizing finishes and design elements more commonly seen in fast casual restaurants. We plan to build additional Good Times Burgers & Frozen Custard company-owned restaurants in Colorado, utilizing our 2,200 square foot, 48 seat dining room design, our 2,400 square foot, 70 seat dining room design as well as converting buildings from other restaurant concepts.
- Our third Bad Daddy's restaurant in Colorado opened on January 7, 2015 and we completed the acquisition of BDI in May 2015, which added seven additional restaurants. We opened two additional Bad Daddy's restaurants subsequent to the end of fiscal 2015 and plan to open several more during fiscal 2016.

Recent Developments

In May 2015, we completed a public offering of 2,783,810 shares of our common stock, which included the full exercise of the underwriters' over-allotment option, at \$8.15 per share for net proceeds, after deducting underwriting discounts and commissions and offering expenses, of approximately \$20.6 million. Net proceeds were used for the acquisition of BDI, to fund the remodeling and reimagining of existing Good Times Burgers & Frozen Custard restaurants, for the development of new Bad Daddy's Burger Bar restaurants, as working capital reserves and for future investment at the discretion of our Board of Directors. See "Management's Discussion and Analysis of Financial Condition and Results of Operations - Acquisition of Bad Daddy's International, LLC."

The following table summarizes our interests in all Bad Daddy's locations before and after the acquisition. We acquired all of BDI's ownership interests.

Bad Daddy's Systemwide Current Restaurants:

Location	Date Opened	Type	Times Ownership		Good		Royalty Rate to BDFD

(1) 100% Company-owned stores no longer pay a royalty following completion of our acquisition of BDI

(2) Knoxville royalty escalates from 3% in 2015 to 4% in 2016 and 5% in 2017.

(3)

Charlotte airport pays a royalty fee of 4.25% of gross revenue directly to Good Times through its 100% ownership of BDI.

On April 6, 2015 we announced we had appointed James Zielke to be our Chief Financial Officer effective May 4, 2015. Mr. Zielke is a key addition to our management team as we prepare to take advantage of the growth opportunities of our two brands.

Concepts

Good Times Burgers & Frozen Custard

Good Times Burgers & Frozen Custard is an upscale, quick service restaurant concept offering fresh, 100% all natural, hand crafted products. We operate 27 and franchise 11 Good Times restaurants located primarily in the Denver market and along the front range of Colorado. We believe Good Times Burgers & Frozen Custard is the only quick service chain in our region, and one of a very few in the country, that offers a menu of fresh all natural Angus beef, all natural chicken, and all natural nitrate free bacon from animals that are humanely raised and vegetarian fed without the use of added hormones, steroids, or antibiotics. In addition to our all natural platform, we offer fresh, unique taste profiles such as Hatch Valley New Mexico green chile breakfast burritos, frozen custard made fresh every few hours in each restaurant, Wild Fries with Wild Dippin Sauce and hand breaded chicken tenders.

Table of Contents

We compete primarily on the quality of our products and we believe that our menu items are consistent with the quality found at fast casual restaurants, but served at close to the speed of quick service restaurants. Our brand positioning is based on “Taking a Better Food Stand” supported by the marketing headline “Happiness Made to Order” with three primary brand pillars of Innovation, Quality, and Connectedness. Within Innovation, we strive to create products and flavor profiles available only at Good Times and that challenge traditional quick service restaurant norms. We communicate Quality throughout our menu, from our made-to-order items to our fresh, all natural, handcrafted attributes. We strive for Connectedness with our customers based on strong emotional ties to our brand through social media, appealing to an outdoor and active lifestyle, promoting high quality ingredients, and through community support and involvement.

Our average per person check is approximately \$6.75, which we believe is lower than the average check at fast casual hamburger concepts such as Habit Burger, Five Guys, and Smashburger, but higher than the typical quick service restaurant average check. We do not offer a low-priced value menu like most national and multi-regional quick service chains, choosing to define our value proposition based on a range of price choices within each of our menu categories and the quality of our food.

The success of our strategy is evident in our strong same-store sales growth (sales growth over the prior year period at restaurants open more than 15 months, also referred to as comparable sales). Based on information from industry analysts and third party publications, our growth in comparable restaurant sales has outperformed the quick service restaurant industry average during each of the last five years. Fiscal 2015’s comparable sales growth of 6.9% followed comparable sales growth of 14.6% in fiscal 2014, 11.9% in fiscal 2013, 3.1% in 2012 and 6.2% growth in 2011. Comparable restaurant sales for fiscal 2015 reflects a three year compound growth rate in excess of 30%.

The growth in our comparable sales over the last several years has translated into significant expansion in our restaurant operating margin and growth in our restaurant operating profit. Although we tend to operate with slightly higher food costs as a percentage of sales than many quick service restaurant chains, our operating systems enable tight control of labor and other operating costs resulting in a competitive unit-level economic model.

Bad Daddy’s Burger Bar

Bad Daddy’s Burger Bar operates in the emerging “small box” better burger casual dining segment and is an upscale, chef driven, full service, full bar concept.

The menu consists of items made according to chef-driven recipes and with high quality ingredients that we believe have broad consumer appeal, yet are very distinctive within the upscale, casual dining segment. The menu is comprised of signature burgers, salads, sandwiches, and appetizers executed in unique flavor profiles. Regular “chef specials” are offered in each menu category that highlight unique flavor profiles whenever possible. Housemade sauces and dressings, a brioche bun, non-beef alternatives including buffalo, tuna, turkey and chicken and Create Your Own Burgers and Salads all help to differentiate Bad Daddy’s from other restaurants. The food menu is complemented by a full bar that focuses on local, craft microbrew beers and specialty cocktails. Alcoholic beverages account for approximately 14-21% of sales in our Bad Daddy’s restaurants. The quality positioning generates an average per person check of over \$16, slightly above traditional bar and grill competitors such as Chili’s and Red Robin. The lunch daypart represents approximately 40% and the dinner daypart represents approximately 60% of restaurant sales, with hours of operation from 11 am to 10 pm or 11 pm with restaurants open slightly later on weekends, depending on the surrounding trade area.

The restaurants have a high energy yet family friendly environment with iconic, pop culture design elements and a personal, ultra-friendly and informal service platform. BDBB’s menu, service and environment are designed around a slightly irreverent brand personality, such as our Bad Ass Burger and Bad Ass Margarita menu items, Don’t Touch My

Tots t-shirts and the iconic Farrah Fawcett and Paul Newman Cool Hand Luke posters in the men's and women's rooms.

A typical BDBB restaurant is approximately 3,500-4,000 square feet with an enclosed patio, smaller than most other casual dining restaurants. Based on average annual restaurant sales of approximately \$2.6 million (for restaurants open more than 15 months), BDBBs generate average sales per square foot of over \$700, which we believe is a key metric indicating the strength and expansion potential of the concept. While sharing common design elements, each restaurant has unique features intended to create the impression that each Bad Daddy's is local to its trade area and serves as a further point of differentiation from the larger casual dining chains. We believe BDBBs' innovative menu and personalized service combined with a unique, fun restaurant design enhance our customers' experience and differentiate BDBB from its competitors.

Table of Contents

Our Business Strengths

Our Brands are Complementary.

While operating in different segments of the restaurant industry, our two brands share the following qualities:

Each is positioned at the upper end of its respective segment with the value proposition primarily driven by quality and uniqueness. We believe Good Times Burgers and Frozen Custard is the only quick service chain in our region that offers beef, chicken, and bacon that is produced without added steroids, hormones, and antibiotics, are vegetarian fed, and from humanely-raised animals. Our quality positioning is further supported by serving hand breaded chicken tenders, fresh lemonade, and frozen custard made fresh every few hours with all natural cream and eggs, among other items. We do not offer a dollar menu that many national chains do, choosing to compete on a market position emphasizing quality and uniqueness and serving made-to-order products with quick service restaurant speed of service.

Bad Daddy's Burger Bar is an early entrant in the "small box" better burger casual dining segment. The menu contains chef-driven items with many made from scratch in our kitchens. Bad Daddy's resonates with consumers by consistently executing high quality menu items with unique flavor profiles that are delivered in a personalized, high energy environment with a slightly irreverent brand personality.

Our Brands Have a Common Culture and Operating Philosophy.

While each of our brands is led by separate operating teams, each shares a commitment to four pillars for success:

- **Values.** Each brand focuses on developing behaviors and expectations around our core values of Integrity, Respect, Continued Improvement, and Fun.
- **People.** Each brand seeks to hire high quality people throughout and provide them with comprehensive training programs designed to ensure that they deliver consistently superior products and service. Each has an incentive program at the restaurant level based on balanced metrics that drive customer service, personnel development, and financial performance.
- **Distinctive quality.** Each brand strives to offer unique, high quality menu items with distinctive taste profiles made with fresh, high quality ingredients.
- **Excellent systems.** Each brand takes a "best practices" approach, cross-pollinating the best ideas that are applicable to either brand. We seek to provide the best operating systems and processes to ease the administrative burden of management, enabling them to focus on leading their team members. Our philosophy is that systems and processes drive financial success and leadership serves as an example and motivating force to our crew members who interact with our guests, driving sales and customer loyalty.

Our Brands Share a Similar Customer Demographic.

Due to the common strategic focus on a quality positioning, both Good Times and Bad Daddy's appeal to a slightly higher income, more upscale consumer demographic profile. However, there is little, if any, overlap between the brands in how consumers use them. Good Times is convenience-driven, and the majority of its sales are derived from drive-through transactions with a \$6.75 per person average check, while Bad Daddy's provides a more destination-oriented, full service dining occasion with a \$16+ per person average check.

Our Brands Have Growth Potential.

We believe both of our brands are well positioned to take advantage of consumers' growing demand for restaurants with fresh, high quality, all natural products that offer fully customizable menu choices. Consumers want to know where their food comes from, want to be able to customize menu items to fit their individual preference and dining occasions, and place a higher value on perceived healthiness and on brands they can trust to execute on those attributes. We believe Good Times and Bad Daddy's are both well positioned to capitalize on those macro-trends.

Both of our brands currently operate with relatively small market penetration and overall development footprints, providing significant expansion potential. As we further develop our markets, we expect to realize efficiencies in supervision and development and training of our employees, as well as economies of scale in our supply chain cost structure. It is our goal to grow concentrically from our existing operating bases in order to maximize brand awareness and operating and distribution efficiencies.

During 2014 and 2015, we made investments in our information technology platform so that Good Times and Bad Daddy's operate with a common point of purchase system and we have implemented a common back office system for both brands. We are also continuing to invest in sophisticated video and digital training tools, making all of each brand's restaurant level processes, systems, recipes and management tools available in one commonly accessible database.

Table of Contents

We Have Assembled a Dedicated Management Team with Significant Experience.

Our core Good Times management team has worked together for over 20 years developing its concept and systems. Immediately after signing our license agreement to operate Bad Daddy's restaurants in Colorado, we hired a team experienced in the management and development of full service concepts to guide the growth of that brand. We also recently hired a Chief Financial Officer (see "Recent Developments") with significant finance and accounting experience in growing a public restaurant company, who also is committed to our culture and core values.

Each of our brands are operated under separately dedicated management teams utilizing shared support services in Administration, Finance, Accounting, Human Resources, Development, Marketing and Information Technology. We believe we have the processes and systems in place to support accelerated growth.

We Have Significant Operating Momentum.

Same-store sales at Good Times have increased 21 consecutive quarters after adjusting for construction related disruption at two restaurants in the fourth quarter of fiscal 2012. Our compound same-store sales growth rate was approximately 37% from fiscal 2012 to fiscal 2015. We believe this performance is largely the result of the evolution in our brand positioning, the re-imaging of several of our older restaurants, effective broadcast and social media marketing, and consistent execution of the customer experience. We plan to continue to re-image and remodel our remaining restaurants, innovate with new menu items in keeping with our brand strategy, and communicate our brand story to maintain our same-store sales growth.

The Bad Daddy's concept was started in 2007 in Charlotte, NC. Sales of the Bad Daddy's restaurants in which we acquired interests as a result of the BDI acquisition and which were open for at least 18 months averaged \$2.8 million for the fifty-two weeks ended September 30, 2015.

We believe that the strength of the Bad Daddy's unit economic model provides us with significant expansion potential, both in our existing markets of North Carolina and Colorado and in new markets.

Our Growth Strategies.

We are focused on continuing to improve the profitability of Drive Thru and developing additional Good Times Burgers & Frozen Custard restaurants in our home state of Colorado while developing the Bad Daddy's Burger Bar concept with company-owned restaurants in Colorado and North Carolina in addition to other markets in the U.S., allowing us to leverage these strengths and opportunities:

- Good Times is a 28 year old company with a vibrant, high quality brand position in Colorado.
- We have a relatively low level of bank debt, a healthy balance sheet with positive cash flow from operations and twenty-one consecutive quarters of same store sales growth at Good Times.
- We now own the Bad Daddy's Burger Bar concept, which we believe is an exciting new, emerging growth concept.
- We have an existing infrastructure with sophisticated systems and processes in place that can be significantly leveraged with a new growth concept.

We believe that there are significant opportunities to develop new units, grow customer traffic and increase awareness of our brands. The following sets forth the key elements of our growth strategy.

1. Pursue Disciplined Growth of Company-operated Bad Daddy's Burger Bar Restaurants. We have opened two new Bad Daddy's restaurants in Colorado subsequent to September 30 2015, have additional restaurants under construction to open in fiscal 2016 and we are in various stages of lease negotiation for additional sites for development in 2016 and 2017. Additionally, we have one lease signed for a new restaurant in Charlotte, North Carolina and one in Raleigh, North Carolina with expected openings in 2017 and we plan to pursue additional sites for development in Charlotte, Raleigh and other cities in North Carolina. We intend to follow a disciplined strategy of initially developing restaurants in other metropolitan areas in the Mid-Atlantic region and in states contiguous to Colorado that meet our demographic, real estate and investment criteria in order to maximize the efficiency of our regional and brand management and cost control.

We believe that the broad appeal of Bad Daddy's concept and the high sales generated per square foot make it attractive to developers and provide us with the opportunity for continued expansion in other new markets across the country. We seek sites in upper middle income suburban areas in proximity to upscale retail developments, theaters and high levels of daytime employment.

Table of Contents

2. Develop joint venture and/or franchised Bad Daddy's. We believe Bad Daddy's market position and return on capital will attract considerable interest from experienced restaurateurs to franchise or joint venture the concept. Prior to aggressively pursuing this option, however, we intend to further demonstrate the brand's appeal through the development of additional company-operated restaurants. We believe that by further proving the consumer acceptance and successful financial performance of the brand we will attract the highest quality development partners. Our goal is to continue to explore and refine purchasing efficiencies, menu engineering and product development, labor efficiencies, restaurant staffing strategies and restaurant operating systems to reduce the total combined cost of sales and total labor and benefits costs ("Prime Costs") for the Bad Daddy's concept.
3. Remodel/Refresh our Good Times restaurants. There are two levels to our remodel program that began in fiscal 2012: a refreshing of the restaurant exterior that includes painting, landscaping, new exterior finishes, new graphics and signage and upgraded patio accoutrements; and a larger scale remodeling of the restaurant that includes new dining room finishes and décor and the rebuilding of select locations. We have remodeled one and refreshed thirteen company-owned restaurants, and refreshed four franchised restaurants to date, and plan on refreshing and remodeling additional company-owned and franchised locations during fiscal 2016 and 2017. We anticipate that Good Times will generate sufficient cash flow from operations in fiscal 2016 and 2017 to fund its refresh and remodel capital expenditures. The specific sales increases attributable to the remodel/refresh program are difficult to quantify due to the overall sales growth in all our restaurants. However, we believe that the refresh and remodel investment brings the restaurants up to our current brand standards, improves the appearance and street appeal of the restaurants, improves the overall customer experience and supports the brand's quality positioning.
4. Expand the number of Good Times Burger & Frozen Custard locations. We opened two new locations in Denver during fiscal 2015 and have one purchase agreement signed and additional sites under negotiation in Colorado for future development. In evaluating the cost of real estate, the competitive environment and the cost of labor in new markets outside of Colorado for potential development of Good Times, we believe it is in our best interest to continue to develop Good Times in Colorado as sites become available and focus our new unit growth on Bad Daddy's.
5. Increase same-store sales in both brands. We intend to continue to focus on increasing our same-store sales, although we believe the rate of increase is likely to moderate as we compare to a high rate of prior year increases. We plan to further strengthen our fresh, handcrafted, all natural brand position with menu innovation and quality improvements in each of our menu categories, such as our recent introduction of all natural Bacon, Smothered Fries, Summer Shakes, and all natural Flavored Tenders. We will also continue our broadcast marketing program while expanding our social media activities to elevate our online consumer facing conversation around the attributes of our all natural platform for each of our core products. We believe that the completion of the remodeling and reimagining of our Good Times restaurants will positively impact our same-store sales trends over time. We intend to increase Bad Daddy's same store sales through continual innovation in both ongoing menu engineering and chef-special temporary menu items that we believe drive increased customer visits as well as the per person average check. We also plan to promote our local, microbrew craft beer selections at each restaurant and increase our employees' knowledge of each beer's attributes and taste profile. Bad Daddy's marketing is targeted to individual trade areas, community involvement and "four wall" marketing activities that focus on optimizing the guests' food, bar and service experience.

Expansion strategy and site selection

Good Times Burgers & Frozen Custard

We believe that our highest return on investment opportunity in our Good Times Drive Thru, Inc. subsidiary is to focus our growth in Colorado for operating and marketing efficiencies off of our existing base of restaurants while

building new restaurants within the Denver marketing area.

Any development of new Good Times Burgers & Frozen Custard restaurants will involve our new prototype restaurant design on sites that are on or adjacent to big box or grocery store anchored shopping centers or in high activity and employment areas. Our site selection for new restaurants is oriented toward slightly higher income demographic areas than many of our urban locations and most of our targeted trade areas are in relatively high growth areas of the Denver and northern Colorado markets.

Table of Contents

We lease all of our sites. When we do purchase and develop a site, we intend to ultimately sell the developed site into the sale-leaseback market under a long term lease. Our primary site objective is to secure a suitable site, with the decision to buy or lease as a secondary objective. Our site criteria includes a mix of substantial daily traffic, density of at least 30,000 people within a three mile radius, strong daytime population and employment base, retail and entertainment traffic generators, good visibility and easy access.

Bad Daddy's Burger Bar

Our development of the Bad Daddy's Burger Bar concept in company-owned restaurants will focus on urban and suburban upper income demographic areas with median household incomes over \$60,000, with a high concentration of daytime employment, upscale retail, movie theaters and hospitals. We believe the Bad Daddy's Burger Bar concept has expansion potential in vibrant, growing, upper scale demographic markets, as additional restaurants are developed.

Bad Daddy's Burger Bar locations are primarily end-cap locations in new and existing shopping center developments using approximately 3,500 to 4,000 square feet. While our Good Times Burgers & Frozen Custard restaurants are free standing and require extensive site development and entitlement processes, Bad Daddy's Burger Bar restaurants can be developed much more quickly due to the requirement for only a building permit, signage approvals and liquor license without the need for extensive on- and off-site development or land and zoning submittals and modifications. We estimate that it will take approximately 90 to 105 days to develop a Bad Daddy's Burger Bar from the time a building permit is issued.

Restaurant locations: As of December 16, 2015 we operate or franchise a total of thirty-eight Good Times restaurants, of which thirty-six are in Colorado. Two of the restaurants are in Wyoming and are "dual brand," operated pursuant to a Dual Brand Test Agreement with Taco John's International. Additionally, we operate or franchise a total of fifteen Bad Daddy's Burger Bar locations, of which five are in Colorado, eight are in North Carolina, one is in South Carolina and one is in Tennessee. One of the North Carolina locations, at Charlotte Douglas International Airport, is operated pursuant to a License Agreement.

In May 2015 we opened a company-owned Good Times restaurant in Centennial, Colorado. We opened company-owned Bad Daddy's restaurants in Aurora, Colorado (January 2015), Greenwood Village, Colorado (October 2015), and Centennial, Colorado (December 2015). In addition, we acquired interests in seven Bad Daddy's restaurants from BDI in May 2015.

Menu

Good Times Burgers & Frozen Custard

The menu of a Good Times Burgers & Frozen Custard restaurant is limited to hamburgers, cheeseburgers, chicken sandwiches, French fries, onion rings, fresh lemonades, soft drinks and frozen custard products plus a breakfast menu consisting of breakfast burritos, orange juice and coffee. Each menu item is made to order at the time the customer places the order and is not pre-prepared.

Table of Contents

Our hamburger patties are made with Meyer All Natural, All Angus beef, served on a 4" bun. Hamburgers and cheeseburgers are garnished with fresh iceberg lettuce, fresh sliced sweet red onions, mayonnaise, guacamole, all natural, nitrate free bacon, and proprietary sauces. The chicken products include 100% All Natural tenderloins that are hand breaded in each restaurant daily. Signature chicken products include the "Hand Breaded Tenders," "Buffalo Chicken Tender," "Guacamole Bacon Chicken Tender," and a "Tuscan Chicken." Equipment has been automated and equipped with compensating computers to deliver a consistent product and minimize variability in operating systems.

All natural Angus beef, chicken and pork are raised without the use of any hormones, antibiotics or animal byproducts that are normally used in the open market. We believe that all natural beef, chicken and pork deliver a better tasting product and, because of the rigorous protocols and testing that are a part of the Meyer All Natural All Angus Beef, Springer Mountain Farms Chicken and Good Nature Farms pork processes, may also minimize the risk of any food-borne bacteria-related illnesses.

Fresh frozen custard is a premium ice cream (requiring in excess of 10% butterfat content and 1.4% egg yolks) with a proprietary vanilla blend that is prepared from highly specialized equipment that minimizes the amount of air that is added to the mix and that creates smaller ice crystals than other frozen dairy desserts. The custard is scooped similarly to hard-packed ice cream but is served at a slightly warmer temperature. The resulting product is smoother, creamier and thicker than typical soft serve or hard-packed ice cream products. We serve the frozen custard as vanilla and a flavor of the day in cups and cones, specialty sundaes and "Spoonbenders," a mix of custard and toppings, and we anticipate it will continue to be a significant percentage of sales as we continue to develop and promote custard products.

The breakfast menu is centered around Hatch Valley Green Chile Burritos made with our own proprietary green chile recipe using Hatch Valley, New Mexico roasted green chiles, eggs, potatoes, and cheese offered with the choice of bacon, sausage or chorizo. We also offer a premium coffee made by Daz Bog, a Colorado based coffee roaster, and pure 100% orange juice.

Bad Daddy's Burger Bar

The menu of Bad Daddy's Burger Bar consists of high quality, handcrafted burgers made from a proprietary chuck blend with unique toppings such as buttermilk country-fried bacon, housemade American cheese, scratch made pesto and our specialty Bad Daddy's sauce. The customizable menu options also include artisanal cheeses, tuna, turkey, buffalo and chicken sandwiches. We also offer recipe or customizable chopped salads, a full gluten free menu and regional menu items that incorporate local flavors. We also offer appetizers, hand cut fries, house made potato chips, hand spun ice cream milk shakes and desserts. We offer a variety of craft beers from local breweries and a full bar.

Signature recipes include the "Bad Ass Burger," "Mama Ricotta's Burger" and "Emilio's Chicken Sandwich." Chopped Salads include the "Texican Chicken Salad," the "Stella's Greek Salad" and create your own salad options. The craft beer and cocktail menus include local craft microbrews in each market. We've partnered with Full Sail Brewing Company for our own "Bad Daddy's Amber Ale". We offer a cocktail menu that uses fresh-squeezed housemade sours and fresh garnishes including the "Bad Ass Margarita", "Bad Betty" and "Southern Hospitalitea."

Bad Daddy's Burger Bar strives to provide proprietary flavors and recipes available nowhere else with fresh, handcrafted quality throughout the menu, including rotating chef specials with flavor profiles unique to Bad Daddy's.

Marketing & Advertising

Good Times Burgers & Frozen Custard

Our marketing strategy for Good Times Burgers & Frozen Custard focuses on: 1) driving same store restaurant sales through attracting new customers and increasing the frequency of visits by current customers; 2) communicating specific product news and attributes to build strong points of difference from competitors; and 3) communicating a unique, strong and consistent brand personality.

Media is an important component of building our brand awareness and distinctiveness. We spent most of our broadcast advertising dollars on cable television media during fiscal 2014 and fiscal 2015. The Colorado market is an expensive media market, so most of our advertising placement is not in prime time but in early and late fringe, prime access and late news time slots. We augment our cable television advertising with a social media presence that affords us a higher level of engagement with current customers and an increased level of product giveaways to support high sales opportunity products.

We plan to continue to be active in digital and social media in order to create more customer engagement with our brand and to target specific consumer segments. We anticipate leveraging our customer email database and website to create cost effective channels to target existing customers and increase their frequency.

Table of Contents

Bad Daddy's Burger Bar

Our marketing strategy for Bad Daddy's Burger Bar focuses on iconic, in-store merchandising materials and local store marketing to the surrounding trade area around each restaurant, including public relations and community based events. The focus is not on market wide promotions or marketing but on the in-store customer experience, building word of mouth reputation and recommendations and local public relations based on the prior awards and recognitions received by Bad Daddy's. We utilize trade area specific direct mail materials, particularly in support of new restaurant openings, to drive trial and initial awareness as well as targeted social media marketing. We have developed an expanded menu of rotating chef specials featuring unique taste profiles and local ingredients for burgers, salads, sandwiches and appetizers, supported by trade area specific beer offerings and bar promotions.

Operations

We maintain separate operating teams for each of our concepts and have extensive operating, training and quality control systems in place.

Restaurant Management

Each Good Times Burgers & Frozen Custard restaurant employs a general manager, one to two assistant managers and approximately 15 to 25 employees, most of whom work part-time during three shifts. An eight to ten week training program is utilized to train restaurant managers on all phases of the operation. Ongoing training is provided as necessary. We believe that incentive compensation of our restaurant managers is essential to the success of our business. Accordingly, in addition to a salary, managerial employees may be paid a bonus based upon proficiency in meeting financial, customer service and quality performance objectives tied to a monthly scorecard of measures. Most of our managers participate in a bonus plan based on their performance against their monthly financial, operating, customer and people development scorecard metrics.

Bad Daddy's Burger Bar was developed as a chef driven concept and utilizes a team of four to six managers in our operations at each restaurant. Managers are trained in back of the house skills (prep, kitchen positions, line management), front of the house service positions (host, server, bar) and all management functions. As a full service concept, the experience, qualifications and compensation differs from Good Times Burgers & Frozen Custard and we recruit and train a separate operating team for Bad Daddy's Burger Bar operations. Our managers participate in a bonus pool for each restaurant based on a percentage of sales. Bonuses are awarded based on achieving financial, customer service and people development goals and metrics.

Operational Systems and Processes

We believe that we have high level operating systems and processes relative to those in the industry for both of our concepts. Detailed processes have been developed for hourly, daily, weekly and monthly responsibilities that drive consistency across our system of restaurants and performance against our standards within different day parts. We utilize a labor program to determine optimal staffing needs of each restaurant based on its actual customer flow and demand. We also employ several additional operational tools to continuously monitor and improve speed of service, food waste, food quality, sanitation, financial management and employee development. The order system at each Good Times Burgers & Frozen Custard restaurant is equipped with an internal timing device that displays and records the time each order takes to prepare and deliver.

We use several sources of customer feedback to evaluate each restaurant's service and quality performance, including an extensive secret shopper program telephone surveys, website comments and a customer feedback tool that aggregates all social media comments as well as store by store surveys each week for each restaurant. We believe that

information will assist us in evaluating opportunities for improved execution of the customer experience.

Training

We strive to maintain quality and consistency in each of our restaurants for both Good Times and Bad Daddy's through the careful training and supervision of all our employees at all levels and the establishment of, and adherence to, high standards relating to personnel performance, food and beverage preparation and maintenance of our restaurants. Each manager must complete an eight to ten week training program, be certified on several core processes and is then closely supervised to show both comprehension and capability before they are allowed to manage autonomously. All of our training and development is based upon a "train, test, certify, re-train" cycle around standards and operating processes at all levels. We have a defined weekly and monthly goal setting process around service, employee development, financial management and store maintenance goals for every restaurant. Additionally we have a library of video training tools to drive training efficiencies and consistency at both brands.

Table of Contents

Recruiting and Retention

We seek to hire experienced restaurant managers and Operating Partners. We support employees by offering competitive wages and benefits, including a 401(k) plan, medical insurance, and incentive plans at every level that are tied to performance against key goals and objectives. We motivate and prepare our employees by providing them with opportunities for increased responsibilities and advancement. We also provide various other incentives, including vacations, car allowances, monthly performance bonuses and monetary rewards for managers who develop future managers for our restaurants. We have implemented an online screening and hiring tool that has proven to reduce hourly employee turnover.

Franchising

For Good Times Burgers & Frozen Custard, we have prepared form area rights and franchise agreements, a Franchise Disclosure Document (“FDD”) and advertising material to be utilized in soliciting prospective franchisees. However, we have not been actively soliciting new Good Times franchisees. We have historically sought to attract franchisees that are experienced restaurant operators, are well capitalized and have demonstrated the ability to develop one to five restaurants. We review sites selected for franchises and monitor performance of franchise units. We are not currently soliciting new franchisees and anticipate focusing on building additional company-owned Good Times Burgers & Frozen Custard restaurants.

We estimate that it will cost a Good Times Burgers & Frozen Custard franchisee on average approximately \$1,000,000 to \$1,300,000 to open a restaurant with dining room seating, including pre-opening costs and working capital, assuming the land is leased. A franchisee typically will pay a royalty of 4% of net sales, an advertising materials fee of at least 1.5% of net sales, plus participation in regional advertising up to an additional 4% of net sales, or a higher amount approved by the advertising cooperative, and initial development and franchise fees totaling \$25,000 per restaurant. Among the services and materials that we provide to franchisees are site selection assistance, plans and specifications for construction of the Good Times Burgers & Frozen Custard restaurants, an operating manual, which includes product specifications and quality control procedures, training, on-site opening supervision and advice from time to time relating to operation of the franchised restaurants.

After a Good Times Burgers & Frozen Custard franchise agreement is signed, we actively work with and monitor our franchisees to ensure successful franchise operations as well as compliance with our systems and procedures. During the development phase, we assist in the selection of sites and the development of prototype and building plans, including all required changes by local municipalities and developers. We provide an opening team of trainers to assist in the opening of the restaurant and training of the employees. We advise the franchisee on menu, management training, marketing, and employee development. On an ongoing basis we conduct standards reviews of all franchise restaurants in key areas including product quality, service standards, restaurant cleanliness and sanitation, food safety and people development.

We have entered into nine Good Times Burgers & Frozen Custard franchise agreements in the greater Denver metropolitan area and two dual-branded franchised restaurants operate in Gillette and Sheridan, Wyoming. In addition, seven joint-venture restaurants are operating in the Denver metropolitan area media market.

For Bad Daddy’s Burger Bar, we have a current FDD, form area rights and franchise agreements, and two existing franchise agreements signed. We anticipate that a franchisee will typically pay a royalty of 4% to 5% of net sales and will participate in an advertising fund and local advertising by contributing up to 2% of net sales. Initial development and franchise fees are projected to be \$35,000 per restaurant. We estimate that it will cost a Bad Daddy’s Burger Bar franchisee \$590,000 to \$1,382,000 to open a 3,000 to 3,800 square foot restaurant in an in-line or end-cap retail center, based on the BDFD Franchise Disclosure Document and our knowledge of the development costs of the

existing Bad Daddy's Burger Bar restaurants. We currently have two franchise agreements for one restaurant in South Carolina and one restaurant in Tennessee, and a license agreement for a location in the Charlotte International Airport.

Management Information Systems

Financial and management control is maintained through the use of automated data processing and centralized accounting and management information systems that we provide. Sales, labor and cash data is collected daily via a restaurant back office system which gathers data from the restaurant point-of-sale system. Management receives daily, weekly and monthly reports identifying food, labor and operating expenses and other significant indicators of restaurant performance. The major management information systems are divided by function:

- Restaurant point of sale;
- Restaurant back-of-house;
- Financial;
- Payroll/human resources; and
- Internal operational reports.

We believe that these reporting systems are sophisticated and enhance our ability to control and manage operations.

Table of Contents

Food Preparation, Quality Control & Purchasing

We believe that we have excellent food quality standards relative to the industry. Our systems are designed to protect our food supply throughout the preparation process. We inspect specific qualified manufacturers and work together with those manufacturers to provide specifications and quality controls. Our operations management teams are trained in a comprehensive safety and sanitation course provided by the National Restaurant Association. Minimum cook temperature requirements and line checks throughout the day ensure the safety and quality of both burgers and other items we use in our restaurants.

We currently purchase 100% of the food and paper supplies for our Good Times Burgers & Frozen Custard restaurants and the majority of the food and paper supplies for our Colorado Bad Daddy's restaurants from Food Services of America. In our North Carolina Bad Daddy's restaurants we currently purchase the majority of our food and paper supplies from US Foods. In addition, we maintain multiple approved suppliers for all key components of our menu to mitigate risk and ensure supply. Suppliers are chosen based upon their ability to provide (i) a continuous supply of product that meets all safety and quality specifications, (ii) logistics expertise and freight management, (iii) product innovation and differentiation, (iv) customer service, (v) transparency of business relationships and (vi) competitive pricing. Specified products are distributed to all restaurants through Food Services of America or US Foods under negotiated contracts directly to our restaurants two to four times per week depending on restaurant requirements. We do not believe that the current reliance on this sole distributor will have any long-term material adverse effect since we believe that there are a sufficient number of other suppliers from which food and paper supplies could be purchased with little or no interruption in service. We do not anticipate any difficulty in continuing to obtain an adequate quantity of food and paper supplies of acceptable quality and at acceptable prices.

Employees

At September 30, 2015, we had approximately 1,431 employees of which 1,232 are hourly employees and 199 are salaried employees working full time. We consider our employee relations to be good. None of our employees are covered by a collective bargaining agreement.

Competition

The restaurant industry, including the fast food segment, is highly competitive. Good Times Burgers & Frozen Custard competes with a large number of other hamburger-oriented fast food restaurants in the areas in which it operates. Many of these restaurants are owned and operated by regional and national restaurant chains, many of which have greater financial resources and experience than we do. Restaurant companies that currently compete with Good Times Burgers & Frozen Custard in the Denver market include McDonald's, Burger King, Wendy's, Carl's Jr., Sonic, Jack in the Box and Freddy's. Double drive-through restaurant chains such as Rally's Hamburgers and Checker's Drive-In Restaurants, which currently operate a total of over 800 double drive-through restaurants in various markets in the United States, are not currently operating in Colorado. Culver's and Freddy's are the only significant competitors offering frozen custard as a primary menu item operating in the Denver and Colorado Springs markets and both have a significant presence in Midwestern markets that may be targeted for expansion. Additional "fast casual" hamburger restaurants are being developed in the Colorado market, such as Smashburger and Five Guys; however, they do not have drive-through service and generate an average per person check that is approximately 50% higher than the average check at a Good Times Burgers & Frozen Custard restaurant.

We believe that Good Times Burgers & Frozen Custard may have a competitive advantage in terms of quality of product compared to traditional fast food hamburger chains. Early development of our double drive-through concept in Colorado has given us an advantage over other double drive-through chains that may seek to expand into Colorado because of our brand awareness and present restaurant locations. Nevertheless, we may be at a competitive

disadvantage to other restaurant chains with greater name recognition and marketing capability. Furthermore, most of our competitors in the fast-food business operate more restaurants, have been established longer, and have greater financial resources and name recognition than we do. There is also active competition for management personnel, as well as for attractive commercial real estate sites suitable for restaurants.

Bad Daddy's Burger Bar competes with both local and national grill and bar concepts and gourmet, "better burger" concepts. As the concept is expanded, Bad Daddy's Burger Bar will compete against concepts such as Red Robin, Chili's, Burger Lounge, The Counter, and Bobby's Burger Palace. There are other burger-centric fast casual concepts such as Five Guys Burgers & Fries and Smashburger that operate at a lower average customer check than Bad Daddy's Burger Bar and others such as Zinburger, Bare Burger and Five Napkin Burger that operate with a higher average customer check. We believe that Bad Daddy's Burger Bar has an advantage in the handcrafted quality of our food, distinctiveness of its atmosphere and uniqueness of its menu offerings. Nevertheless, Bad Daddy's Burger Bar may be at a competitive disadvantage to other restaurant chains with greater name recognition.

Table of Contents

Intellectual Property

We have registered our mark “Good Times Burgers & Frozen Custard” federally. We received approval of our federal registration of “Good Times” in 2003. In addition we own trademarks or service marks that have been registered, or for which applications are pending, with the United States Patent and Trademark Office including but not limited to: “Big Daddy Bacon Cheeseburger,” “Chicken Dunkers,” “Happiness Made To Order,” “Mighty Deluxe.” Our trademarks expire between 2016 and 2025.

We have registered the mark “Bad Daddy’s Burger Bar” with the United States Patent and Trademark Office.

Government Regulation

Each of our restaurants is subject to the regulations of various health, sanitation, safety and fire agencies in the jurisdiction in which the restaurant is located. Difficulties or failures in obtaining the required licenses or approvals could delay or prevent the opening of a new restaurant. Federal and state environmental regulations have not had a material effect on our operations. More stringent and varied requirements of local governmental bodies with respect to zoning, land use and environmental factors could delay or prevent development of new restaurants in particular locations. We are subject to the Fair Labor Standards Act, which governs such matters as minimum wages, overtime, and other working conditions. In addition, we are subject to the Americans with Disabilities Act, which requires restaurants and other facilities open to the public to provide for access and use of facilities by the handicapped. Management believes that we are in compliance with the Americans with Disabilities Act. Beginning in 2015, we became subject to the Affordable Care Act which requires us to have the required health insurance benefits for eligible employees.

We are also subject to federal and state laws regulating franchise operations, which vary from registration and disclosure requirements in the offer and sale of franchises to the application of statutory standards regulating franchise relationships. Many state franchise laws impose restrictions on the franchise agreements, including limitations on non-competition provisions and the termination or non-renewal of a franchise. Some states require that franchise materials be registered before franchises can be offered or sold in that state.

In addition, each Bad Daddy’s Burger Bar restaurant requires a liquor license and adherence to the attendant laws and requirements regulating the serving and consumption of alcohol. Alcoholic beverage control regulations govern various aspects of these restaurants’ daily operations, including the minimum age of patrons and employees, hours of operation, advertising, wholesale purchasing and inventory control, handling and storage. Typically, licenses to sell alcoholic beverages will require annual renewal and may be suspended or revoked at any time for cause, the definition of which varies by locality.

Available Information

Our Internet website address is www.goodtimesburgers.com. We make available free of charge through our website’s investor relations information section our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and any amendments to those reports filed with or furnished to the SEC under applicable securities laws as soon as reasonably practical after we electronically file such material with, or furnish it to, the SEC. Our website information is not part of or incorporated by reference into this Annual Report on Form 10-K.

Special Note About Forward-Looking Statements

This Form 10-K may include “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the

“Exchange Act”), and such statements are subject to the safe harbors created thereby. A forward-looking statement is neither a prediction nor a guarantee of future events. We try, whenever possible, to identify these forward-looking statements by using words such as "anticipate," "assume," "believe," "estimate," "expect," "intend," "plan," "project," "may," "will," "would," and similar expressions. Certain forward-looking statements are included in this Form 10-K, principally in the sections captioned "Business," and "Management's Discussion and Analysis of Financial Condition and Results of Operations." Forward-looking statements are related to, among other things:

- the effects of our recent completion of the acquisition of BDI;
- realizing the synergies contemplated by the acquisition of BDI;
- effectively and timely integrating BDI;
- business objectives and strategic plans;
- operating strategies;

Table of Contents

- our ability to open and operate additional restaurants profitably and the timing of such openings;
- restaurant and franchise acquisitions;
- anticipated price increases;
- expected future revenues and earnings, comparable and non-comparable restaurant sales, results of operations, and future restaurant growth (both company-owned and franchised);
- estimated costs of opening and operating new restaurants, including general and administrative, marketing, franchise development and restaurant operating costs;
- anticipated selling, general and administrative expenses and restaurant operating costs, including commodity prices, labor and energy costs;
- future capital expenditures;
- our expectation that we will have adequate cash from operations and credit facility borrowings to meet all future debt service, capital expenditure and working capital requirements in fiscal year 2016;
- the sufficiency of the supply of commodities and labor pool to carry on our business;
- success of advertising and marketing activities;
- the absence of any material adverse impact arising out of any current litigation in which we are involved;
- impact of the adoption of new accounting standards and our financial and accounting systems and analysis programs;
- expectations regarding competition and our competitive advantages;
- impact of our trademarks, service marks, and other proprietary rights; and
- effectiveness of our internal control over financial reporting.

Although we believe that the expectations reflected in our forward-looking statements are based on reasonable assumptions, such expectations may prove to be materially incorrect due to known and unknown risks and uncertainties.

In some cases, information regarding certain important factors that could cause actual results to differ materially from any forward-looking statements appears together with such statement. In addition, the factors described under Critical Accounting Policies and Estimates in Part II, Item 7, and Risk Factors in Part I, Item 1A, as well as other possible factors not listed, could cause actual results to differ materially from those expressed in forward-looking statements, including, without limitation, the following: concentration of restaurants in certain markets and lack of market awareness in new markets; changes in disposable income; consumer spending trends and habits; increased competition in the quick service restaurant market; costs and availability of food and beverage inventory; our ability to attract qualified managers, employees, and franchisees; changes in the availability of capital or credit facility borrowings; costs and other effects of legal claims by employees, franchisees, customers, vendors, stockholders and others, including settlement of those claims; effectiveness of management strategies and decisions; weather conditions and related events in regions where our restaurants are operated; and changes in accounting standards, policies and

practices or related interpretations by auditors or regulatory entities.

All forward-looking statements speak only as of the date made. All subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which it is made or to reflect the occurrence of anticipated or unanticipated events or circumstances.

ITEM 1A. RISK FACTORS

You should consider carefully the following risk factors before making an investment decision with respect to our securities. You are cautioned that the risk factors discussed below are not exhaustive.

Risk Related to the Company

We have accumulated losses.

We have incurred losses in every fiscal year in our 28 years since inception except in four fiscal years. As of September 30, 2015 we had an accumulated deficit of \$20,804,000. We may have a loss for the current fiscal year ending September 30, 2016.

Table of Contents

If we are unable to continue to increase same store sales at existing restaurants, our ability to attain profitability may be adversely affected.

We have increased same-store sales for the past 21 consecutive quarters at Good Times. Additional same-store sales increases will depend in part on the success of our advertising and promotion of new and existing menu items and consumer acceptance. We cannot assure that our advertising and promotional efforts will in fact be successful. If our same-store sales decrease, and our other operating costs increase, our ability to attain profitability will be adversely affected.

New restaurants, when and if opened, may not be profitable, if at all, for several months.

We anticipate that our new restaurants, when and if opened, will generally take several months to reach normalized operating levels due to inefficiencies typically associated with new restaurants, including lack of market awareness, the need to hire and train a sufficient number of employees, operating costs which are often materially greater during the first several months of operation than thereafter, preopening costs and other factors. In addition, restaurants opened in new markets may open at lower average weekly sales volumes than restaurants opened in existing markets, and may have higher restaurant level operating expense ratios than in existing markets. Sales at restaurants opened in new markets may take longer to reach average annual company-owned restaurant sales, if at all, thereby affecting the profitability of these restaurants.

Our operations are susceptible to the cost of and changes in food availability which could adversely affect our operating results.

Our profitability depends in part on our ability to anticipate and react to changes in food costs. Various factors beyond our control, including adverse weather conditions, governmental regulation, production, availability, recalls of food products and seasonality may affect our food costs or cause a disruption in our supply chain. We enter into annual contracts with our chicken and other miscellaneous suppliers. Our contracts for chicken are fixed price contracts. Our contracts for beef are generally based on current market prices plus a processing fee. Changes in the price or availability of our all natural chicken or beef supply or other commodities could materially adversely affect our profitability. We cannot predict whether we will be able to anticipate and react to changing food costs by adjusting our purchasing practices and menu prices, and a failure to do so could adversely affect our operating results. In addition, we may not be able to pass along higher costs through price increases to our customers.

Macroeconomic conditions could affect our operating results.

If the economy experiences an economic downturn or there are uncertainties regarding economic recovery, consumer spending and the unemployment rate may be affected, which may adversely affect our sales in the future. A proliferation of heavy discounting by our major competitors may also negatively affect our sales and operating results.

Price increases may impact customer visits.

We may make price increases on selected menu items in order to offset increased operating expenses we believe will be recurring. Although we have not experienced significant consumer resistance to our past price increases, future price increases may deter customers from visiting our restaurants or affect their purchasing decisions.

The hamburger restaurant market is highly competitive.

The hamburger restaurant market is highly competitive. Our competitors in the QSR segment include many recognized national and regional fast-food hamburger restaurant chains, such as McDonald's, Burger King, Wendy's,

Carl's Jr., Sonic, Jack in the Box, Freddy's and Culver's. We also compete with small regional and local hamburger and other fast-food restaurants, many of which feature drive-through service. Most of our competitors have greater financial resources, marketing programs and name recognition than we do. Discounting by our QSR competitors may adversely affect the revenues and profitability of our restaurants.

While Bad Daddy's Burger Bar operates in the "better burger" restaurant segment, it offers a relatively broad menu and competes with other full service restaurants such as Chili's, Red Robin and other local and regional full service restaurants. Additionally, customers of both our Good Times Burgers & Frozen Custard restaurants and new Bad Daddy's Burger Bar restaurants are also customers of fast casual hamburger restaurants such as Five Guys Burgers & Fries and Smashburger.

Table of Contents

Sites for new restaurants may be difficult to acquire.

Locating our restaurants in high-traffic and readily accessible areas is an important factor for our success. Our Good Times Burgers & Frozen Custard drive-through restaurants require sites with specific characteristics and there are a limited number of suitable sites available in our geographic markets. We intend to continue to locate Bad Daddy's Burger Bar restaurants in leased in-line and end-cap retail locations in contrast to freestanding locations for Good Times Burgers & Frozen Custard locations. Since suitable locations are in great demand, in the future we may not be able to obtain optimal sites for either of our restaurant concepts at a reasonable cost. In addition, we cannot assure you that the sites we do obtain will be successful.

If our franchisees cannot develop or finance new restaurants, build them on suitable sites or open them on schedule, our growth and success may be impeded.

Franchisees may not be able to negotiate acceptable lease or purchase terms for the sites, obtain the necessary permits and government approvals or meet construction schedules. From time to time in the past, we have agreed to extend or modify development schedules and we may do so in the future. Any of these problems could slow our growth and reduce our franchise revenues. Additionally, our franchisees depend upon financing from banks and other financial institutions in order to construct and open new restaurants. Difficulty in obtaining adequate financing adversely affects the number and rate of new restaurant openings by our franchisees and adversely affects our future franchise revenues. We do not presently have any franchised restaurants under development.

Our franchisees could take actions that could harm our business.

Franchisees are independent contractors and are not our employees. We provide training and support to franchisees; however, franchisees operate their restaurants as independent businesses. Consequently, the quality of franchised restaurant operations may be diminished by any number of factors beyond our control. Moreover, franchisees may not successfully operate restaurants in a manner consistent with our standards and requirements, or may not hire and train qualified managers and other restaurant personnel. Our image and reputation, and the image and reputation of other franchisees, may suffer materially, and system-wide sales could significantly decline, if our franchisees do not operate successfully.

We depend on key management employees.

We believe our current operations and future success depend largely on the continued services of our management employees, in particular Boyd E. Hoback, our President and Chief Executive Officer Scott LeFever, our Vice President of Operations for Good Times Drive-Thru Inc. Although we have entered into an employment agreement with Mr. Hoback, he may voluntarily terminate his employment with us at any time. In addition, we do not currently maintain key-person insurance on Messrs. Hoback's, or LeFever's, life. The loss of Messrs. Hoback's or LeFever's services, or other key management personnel, could have a material adverse effect on our financial condition and results of operations.

Labor shortages could slow our growth or harm our business.

Our success depends in part upon our ability to attract, motivate and retain a sufficient number of qualified, high-energy employees. Qualified individuals needed to fill these positions are in short supply in some areas. The inability to recruit and retain these individuals may delay the planned openings of new restaurants or result in high employee turnover in existing restaurants, which could harm our business. Additionally, competition for qualified employees could require us to pay higher wages to attract sufficient employees, which could result in higher labor costs. Most of our employees are paid market wages on an hourly basis that are influenced by applicable minimum

wage regulations. Accordingly, any increase in the minimum wage, whether state or federal, could have a material adverse impact on our business.

We are subject to extensive government regulation that may adversely hinder or impact our ability to govern various aspects of our business including our ability to expand and develop our restaurants.

The restaurant industry is subject to various federal, state and local government regulations, including those relating to the sale of food. Our failure to maintain necessary governmental licenses, permits and approvals, including food licenses, could adversely affect our operating results. Difficulties or failures in obtaining the required licenses and approvals could delay, or result in our decision to cancel, the opening of new restaurants. Local authorities may suspend or deny renewal of our food licenses if they determine that our conduct does not meet applicable standards or if there are changes in regulations.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws govern minimum wage requirements, overtime pay, meal and rest breaks, unemployment tax rates, workers' compensation rates, citizenship or residency requirements, child labor regulations and sales taxes. Additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits may increase our operating costs.

Table of Contents

The federal Americans with Disabilities Act prohibits discrimination on the basis of disability in public accommodations and employment. Although our restaurants are designed to be accessible to the disabled, we could be required to make modifications to our restaurants to provide service to, or make reasonable accommodations for, disabled persons.

We are also subject to federal and state laws that regulate the offer and sale of franchises and aspects of the licensor-licensee relationship. Many state franchise laws impose restrictions on the franchise agreement, including limitations on non-competition provisions and the termination or non-renewal of a franchise. Some states require that franchise materials be registered before franchises can be offered or sold in the state.

Our Bad Daddy's Burger Bar restaurants are also subject to state and local laws that regulate the sale of alcoholic beverages. Alcoholic beverage control regulations govern various aspects of these restaurants' daily operations, including the minimum age of patrons and employees, hours of operation, advertising, wholesale purchasing and inventory control, handling and storage. Typically, licenses to sell alcoholic beverages require annual renewal and may be suspended or revoked at any time for cause, the definition of which varies by locality. The failure of any of our Bad Daddy's Burger Bar restaurants to timely obtain and maintain any required licenses, permits or approvals to serve alcoholic beverages could delay or prevent the opening of a new restaurant or prevent regular day-to-day operations, including the sale of alcoholic beverages, at a restaurant that is already operating, any of which would adversely affect our business.

Health concerns relating to the consumption of beef, chicken or other food products could affect consumer preferences and could negatively impact our results of operations.

Like other restaurant chains, consumer preferences could be affected by health concerns about the avian influenza, also known as bird flu, or the consumption of beef, the key ingredient in many of our menu items, or negative publicity concerning food quality, illness and injury generally, such as negative publicity concerning E. coli, "mad cow" or "foot-and-mouth" disease, publication of government or industry findings concerning food products served by us, or other health concerns or operating issues stemming from one restaurant or a limited number of restaurants. This negative publicity may adversely affect demand for our food and could result in a decrease in customer traffic to our restaurants. If we react to the negative publicity by changing our concept or our menu we may lose customers who do not prefer the new concept or menu, and we may not be able to attract a sufficient new customer base to produce the revenue needed to make our restaurants profitable. In addition, we may have different or additional competitors for our intended customers as a result of a concept change and may not be able to compete successfully against those competitors. A decrease in customer traffic to our restaurants as a result of these health concerns or negative publicity or as a result of a change in our menu or concept could materially harm our business.

Our ability to succeed with the Bad Daddy's Burger Bar restaurant concept will require significant capital expenditures and management attention.

We believe that new openings of Bad Daddy's Burger Bar restaurants are likely to serve as a contributor of our new unit growth and increased profitability over the longer term based on the unit economics of that concept. Our ability to succeed with this new concept will require significant capital expenditures and management attention and is subject to certain risks in addition to those of opening a new Good Times Burgers & Frozen Custard restaurant, including customer acceptance of and competition with the Bad Daddy's Burger Bar concept. If the "ramp-up" period for new Bad Daddy's Burger Bar restaurants does not meet our expectations, our operating results may be adversely affected. There can be no assurance that we will be able to successfully develop and grow the Bad Daddy's Burger Bar concept to a point where it will become profitable or generate positive cash flow. We may not be able to attract enough customers to meet targeted levels of performance at new Bad Daddy's Burger Bar restaurants because potential customers may be unfamiliar with the concept or the atmosphere or menu might not be appealing to them. If we cannot successfully

execute our growth strategies for Bad Daddy's Burger Bar, our business and results of operations may be adversely affected.

Our growth, including the development of Bad Daddy's Burger Bar restaurants, may strain our management and infrastructure.

In addition to new openings of Bad Daddy's Burger Bar restaurants, we also plan to remodel and reimage existing Good Times Burgers & Frozen Custard restaurants. In addition, we believe there may be opportunities to open or franchise new Good Times Burgers & Frozen Custard restaurants from time to time. This growth will increase our operating complexity and place increased demands on our management and infrastructure, including our current restaurant management systems, financial and management controls, and information systems. If our infrastructure is insufficient to support our growth, our ability to open new restaurants, including the development of the Bad Daddy's Burger Bar concept, would be adversely affected.

Table of Contents

Bad Daddy's Burger Bar is subject to all of the risks of a relatively new business, including competition, and there is no guarantee of a return on our capital investment.

Bad Daddy's Burger Bar is a relatively new business concept. Existing Bad Daddy's Burger Bar restaurants have been in existence for approximately six years and are currently located in Colorado, North Carolina, South Carolina and Tennessee. Because of the small number of existing Bad Daddy's Burger Bar restaurants and the relatively short period of time that they have been in operation, there is substantial uncertainty that additional restaurants in other locations will be successful. There is no guarantee that we will be successful in offering Bad Daddy's Burger Bar franchises throughout the U.S. or that, if and when such franchises are granted, the restaurants developed by franchisees will be successful. There is also substantial uncertainty that the franchising business will be successful in view of the facts that we have sold only two Bad Daddy's Burger Bar restaurant franchises to date and that the restaurant franchising business is very competitive.

We may be unable to integrate the BDI business successfully and realize the anticipated benefits of the acquisition.

The acquisition of BDI involves the combination of two companies that previously operated as independent companies. We must devote significant management attention and resources to integrating business practices, cultures and operations of each business. Potential difficulties we may encounter as part of the integration process include the following:

- the inability to successfully combine our business as it existed prior to the acquisition with BDI in a manner that permits us to achieve the synergies and other benefits contemplated by the acquisition;
- the challenge of integrating complex systems, operating procedures, regulatory compliance programs, technology, networks and other assets of BDI in a seamless manner that minimizes any adverse impact on customers, suppliers, employees and other constituencies;
- potential unknown liabilities, liabilities that are significantly larger than we anticipated and unforeseen increased expenses associated with the acquisition, including cash costs to integrate the two businesses that may exceed the cash costs that we anticipated; and
- challenges coordinating geographically separate organizations.

Accordingly, the contemplated benefits of the BDI acquisition may not be realized fully, or at all, or may take longer to realize than expected.

We have little familiarity with the geographic region in which BDI operates, which is different than the region we operated in prior to the acquisition.

BDBB restaurants have historically been concentrated in and around the mid-Atlantic region of the United States, whereas all of our Company-operated restaurants were historically located in Colorado. The mid-Atlantic region is a new market for us, and our unfamiliarity with the laws, regulatory environment, and employment conditions of a different geographic region may result in our having to devote significant expense as well as time and focus from our management team to effectively operate restaurants there.

We do not have a proven track record of operating in the "small box" better burger casual dining segment.

We have historically operated in the quick service restaurant segment, while BDBB operates in the "small box" better burger casual dining segment. We have operated a limited number of Bad Daddy's Burger Bar restaurants since

February 2014 and thus do not have a proven track record of operating in the “small box” better burger casual dining. Realizing the contemplated benefits from expanding into a new segment of casual dining may take significant time and resources and may depend upon our ability to successfully develop familiarity in the “small box” better burger casual dining segment.

Risks Related to the Ownership of Our Common Stock

Our principal stockholders have significant voting power and may take actions that may not be in the best interests of our other stockholders.

Small Island Investments Limited, Rest Redux, LLC, Manatuk Hill Partners, LLC and Hoak Public Equities, LP together beneficially own approximately 20% of our outstanding common stock. This concentration of ownership and voting power may have the effect of delaying or preventing a change in control and might adversely affect the market price of our common stock, and therefore may not be in the best interests of our other stockholders.

Table of Contents

Future changes in financial accounting standards may cause adverse unexpected operating results and affect our reported results of operations.

Changes in accounting standards can have a significant effect on our reported results and may affect our reporting of transactions completed before the change is effective. See Note 1 to our Consolidated Financial Statements for further discussion. New pronouncements and varying interpretations of pronouncements have occurred and may occur in the future. Changes to existing rules or differing interpretations with respect to our current practices may adversely affect our reported financial results.

Our NASDAQ Listing Is Important.

Our Common Stock is currently listed for trading on the NASDAQ Capital Market. The NASDAQ maintenance rules require, among other things, that our common stock price remains above \$1.00 per share and that we have minimum stockholders' equity of \$2.5 million.

Compliance with changing regulation of corporate governance and public disclosure may result in additional expenses.

Keeping abreast of, and in compliance with, changing laws, regulations and standards relating to corporate governance and public disclosure, including the Sarbanes-Oxley Act of 2002, new SEC regulations and The NASDAQ Market rules, has required an increased amount of management attention and expense. We remain committed to maintaining high standards of corporate governance and public disclosure. As a result, we intend to invest all reasonably necessary resources to comply with evolving standards, and this investment has resulted in and will continue to result in increased general and administrative expenses and a diversion of management time and attention from revenue-generating activities to compliance activities.

If our internal controls are not adequate, we may discover errors in our financial and other reporting that will require significant resources to remedy and could subject us to additional fines.

Public companies in the United States are required to review their internal controls as set forth in the Sarbanes-Oxley Act of 2002. It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving our stated goals under all potential future conditions, regardless of how remote. If the internal controls put in place by us are not adequate or in conformity with the requirements of the Sarbanes-Oxley Act of 2002, and the rules and regulations promulgated by the Securities and Exchange Commission ("SEC"), we may be forced to restate our financial statements and take other actions which will take significant financial and managerial resources, as well as be subject to fines and other government enforcement actions.

Because we currently qualify as a "smaller reporting company," our non-financial and financial information are less than is required by non-smaller reporting companies.

Currently we qualify as a "smaller reporting company." The "smaller reporting company" category includes companies that (1) have a common equity public float of less than \$75 million or (2) are unable to calculate their public float and have annual revenue of \$50 million or less, upon entering the system. A smaller reporting company prepares and files SEC reports and registration statements using the same forms as other SEC reporting companies, though the information required to be disclosed may differ and be less comprehensive. Regulation S-X contains the SEC requirements for financial statements, while Regulation S-K contains the non-financial disclosure requirements.

To locate the scaled disclosure requirements, smaller reporting companies will refer to the special paragraphs labeled “smaller reporting companies” in Regulation S-K. As an example only, smaller reporting companies are not required to make risk factor disclosure in Item 1A of Form 10-K. Other disclosure required by non-smaller reporting companies can be omitted in Form 10-K and Form 10-Q by smaller reporting companies.

The price of our common stock may fluctuate significantly.

The trading price of our shares of common stock has from time to time fluctuated widely and in the future may be subject to similar fluctuations. This volatility may affect the price at which you could sell your common stock. The market price of our common stock is likely to continue to be volatile and may fluctuate significantly in response to many factors, including:

- operating results that vary from the expectations of management, securities analysts and investors;
- developments in our business;

Table of Contents

- the operating and securities price performance of companies that investors consider to be comparable to us;
- announcements of strategic developments, acquisitions and other material events by us or our competitors;
- negative economic conditions that adversely affect the economy, commodity prices, the job market and other factors that may affect the markets in which we operate;
 - publication of research reports about us or the sectors in which we operate generally;
 - changes in market valuations of similar companies;
 - additions or departures of key management personnel;
 - actions by institutional shareholders;
 - speculation in the press or investment community; and
- the realization of any of the other risk factors included in this prospectus supplement or the prospectus.

Holders of our common stock will be subject to the risk of volatile and depressed market prices of our common stock. In addition, many of the factors listed above are beyond our control. These factors may cause the market price of our common stock to decline, regardless of our financial condition, results of operations, business or prospects. It is impossible to assure investors in our common stock that the market price of our common stock will not fall in the future.

Sales of a substantial number of shares of our common stock in the public market by our existing shareholders could cause our stock price to fall.

Sales of a substantial number of shares of our common stock in the public market, or the perception that these sales might occur, could depress the market price of our common stock and could impair our ability to raise adequate capital through the sale of additional equity securities. We are unable to predict the effect that sales may have on the prevailing market price of our common stock.

There may be future sales or other dilution of our equity, which may adversely affect the market price of the shares of our common stock and/or dilute the value of shares of our common stock.

We are not restricted from issuing, and stockholder approval is not required in order to issue, additional shares of common stock, including securities that are convertible into or exchangeable for, or that represent the right to receive, shares of common stock, except any stockholder approval required by The NASDAQ Capital Markets. We have in the past, and may in the future, sell such equity and equity-linked securities. Sales of a substantial number of shares of our common stock or other equity-related securities in the public market could depress the market price of our shares of common stock. We cannot predict the effect that future sales of our common stock or other equity-related securities would have on the market price of our shares of common stock. The market price of our common stock may be adversely affected if we issue additional shares of our common stock.

You may not receive dividends on the shares of our common stock.

Holders of our common stock are only entitled to receive such dividends as our board of directors may declare out of funds legally available for such payments. We have no plans to pay cash dividends on our common stock in the

foreseeable future.

Provisions in our articles of incorporation and bylaws and provisions of Nevada law may prevent or delay an acquisition of our company, which could decrease the trading price of our common stock.

We are subject to anti-takeover laws for Nevada corporations. These anti-takeover laws prevent a Nevada corporation from engaging in a business combination with any stockholder, including all affiliates and associates of the stockholder, who is the beneficial owner of 10% or more of the corporation's outstanding voting stock, for two years following the date that the stockholder first became the beneficial owner of 10% or more of the corporation's voting stock, unless specified conditions are met. If those conditions are not met, then after the expiration of the two-year period the corporation may not engage in a business combination with such stockholder unless certain other conditions are met.

Our articles of incorporation and our bylaws contain a number of provisions that may deter or impede takeovers or changes of control or management. These provisions:

- authorize our board of directors to establish one or more series of preferred stock the terms of which can be determined by the board of directors at the time of issuance;

Table of Contents

- do not allow for cumulative voting in the election of directors unless required by applicable law. Under cumulative voting a minority stockholder holding a sufficient percentage of a class of shares may be able to ensure the election of one or more directors;
- state that special meetings of our stockholders may be called only by the chairman of the board of directors, the president or any two directors and must be called by the president upon the written request of the holders of 25% of the outstanding shares of capital stock entitled to vote at such special meeting; and
- provide that the authorized number of directors is no more than seven, as determined by our board of directors.

These provisions, alone or in combination with each other, may discourage transactions involving actual or potential changes of control, including transactions that otherwise could involve payment of a premium over prevailing market prices to stockholders for their common stock.

We may issue debt and equity securities or securities convertible into equity securities, any of which may be senior to our common stock as to distributions and liquidation.

In the future, we may issue debt or equity securities or securities convertible into or exchangeable for equity securities, or we may enter into debt-like financing that is unsecured or secured by any or all of our properties. Such securities may be senior to our common stock with respect to distributions. In addition, in the event of our liquidation, our lenders and holders of our debt and preferred securities would receive distributions of our available assets before distributions to the holders of our common stock.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

We currently lease approximately 7,327 square feet of space for our executive offices in Lakewood, Colorado for approximately \$139,000 per year under a sublease agreement which expires in October 2016. We plan to lease new executive office space prior to October 31, 2016.

Most of our existing Good Times restaurants are a combination of free-standing structures containing approximately 880 to 1,000 square feet for the double drive thru format and approximately 2,100 to 2,400 square feet for our prototype building with a 45 to 70 seat dining room. We do not own any of the land underlying these restaurants and either lease the land or the land and building. In addition, we have several restaurants that are conversions from other concepts in various sizes ranging from 1,700 square feet to 3,500 square feet. The buildings are situated on lots of approximately 18,000 to 50,000 square feet. Certain restaurants serve as collateral for the underlying debt financing arrangements as discussed in the Notes to Consolidated Financial Statements included in this report. We intend to acquire new sites both through ground leases and purchase agreements supported by mortgage and leasehold financing arrangements and through sale-leaseback agreements.

Our twelve Bad Daddy's restaurants are leased spaces of approximately 3,000 to 4,000 square feet in retail developments located in Colorado and North Carolina. We intend to lease additional in-line and end-cap spaces in retail developments for new Bad Daddy's locations.

All of the restaurants are regularly maintained by our repair and maintenance staff as well as by outside contractors, when necessary. We believe that all of our properties are in good condition and that there will be a need for periodic

capital expenditures to maintain the operational and aesthetic integrity of our properties for the foreseeable future, including recurring maintenance and periodic capital improvements. All of our properties are covered up to replacement cost under our property and casualty insurance policies and in the opinion of management are adequately covered by insurance.

ITEM 3. LEGAL PROCEEDINGS

We are not involved in any material legal proceedings. We are subject, from time to time, to various lawsuits in the normal course of business. These lawsuits are not expected to have a material impact.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Shares of our Common Stock are listed for trading on the NASDAQ Capital Market under the symbol "GTIM". The following table presents the quarterly high and low bid prices for our Common Stock as reported by the NASDAQ Capital Market for each quarter within the last two fiscal years. The quotations reflect interdealer prices, without retail mark-ups, mark-downs or commissions and may not represent actual transactions.

QUARTER ENDED	2014		QUARTER ENDED	2015	
	HIGH	LOW		HIGH	LOW
December 31, 2013	\$ 2.93	\$ 2.06	December 31, 2014	\$ 7.75	\$ 4.81
March 31, 2014	\$ 3.12	\$ 2.50	March 31, 2015	\$ 8.73	\$ 6.60
June 30, 2014	\$ 4.07	\$ 2.75	June 30, 2015	\$ 10.19	\$ 6.58
September 30, 2014	\$ 6.12	\$ 2.92	September 30, 2015	\$ 9.50	\$ 5.80

As of December 16, 2015 there were approximately 138 holders of record of our Common Stock. However, management estimates that there are not fewer than 3,331 beneficial owners of our Common Stock.

Dividend Policy: We have never paid dividends on our Common Stock and do not anticipate paying dividends in the foreseeable future. In addition, we have obtained financing under loan agreements that restrict the payment of dividends. Our ability to pay future dividends will necessarily depend on our earnings and financial condition. However, since restaurant development is capital intensive, we currently intend to retain any earnings for that purpose.

Disclosure with Respect to our Equity Compensation Plans: We maintain the 2008 Omnibus Equity Incentive Compensation Plan, pursuant to which we may grant equity awards to eligible persons, and have outstanding stock options and restricted stock grants issued under our 2001 Good Times Restaurants Stock Option Plan. Pursuant to stockholder approval in February 2014 the total number of shares available for issuance under the 2008 plan was increased to 1,000,000. For additional information, see Note 8, Stockholders' Equity, in the Notes to the Consolidated Financial Statements included in this report. The following table gives information about equity awards under our plans as of September 30, 2015.

Equity Compensation Plan Information:

	(a)	(b)	(c)
Plan category	Number of securities to be issued upon exercise of outstanding options, warrants & rights	Weighted-average exercise price of outstanding options, warrants & rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders	688,870	\$4.14	264,253

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the consolidated financial statements and notes thereto included elsewhere in this Annual Report on Form 10-K.

Overview

We operate as two reportable business segments: Good Times Burgers and Frozen Custard restaurants ("Good Times") and Bad Daddy's Burger Bar restaurants ("Bad Daddy's"). All of our Good Times restaurants compete in the quick-service drive-through dining industry while our Bad Daddy's restaurants compete in the full-service upscale casual dining industry. We believe that providing this additional financial information for each of our brands will provide a better understanding of our overall operating results. Refer to note 12, Segment Reporting, in the notes to our consolidated financial statements for more information.

The following tables present information about our reportable segments for the respective periods:

	Fiscal Year 2015			Fiscal Year 2014			
Good Times:							
Restaurant sales	\$28,521	98.7	%	\$25,565	98.6	%	
Franchise revenues	380	1.3	%	375	1.4	%	
Restaurant operating costs:							
Food and packaging	9,734	34.1	%	8,655	33.8	%	
Payroll and employee benefits	8,967	31.5	%	8,092	31.7	%	
Occupancy and other	4,768	16.7	%	4,237	16.6	%	
Depreciation & amortization	678	2.4	%	563	2.2	%	
Preopening costs	172	0.6	%	6	0.0	%	
Total restaurant operating costs	\$24,319	85.3	%	\$21,553	84.3	%	
General & administrative costs	2,773	9.6	%	2,483	9.6	%	
Advertising costs	1,188	4.1	%	947	3.6	%	
Franchise costs	92	0.3	%	96	0.4	%	
Loss (Gain) on restaurant assets	9	(0.0	%)	(16)	(0.1	%)
Income from Operations	\$520	1.8	%	\$877	3.4	%	
Bad Daddy's (1):							
Restaurant sales	\$14,996	98.9	%	\$1,803	100.0	%	
Franchise revenues	160	1.1	%	0	0.0	%	
Restaurant operating costs:							
Food and packaging	4,833	32.2	%	618	34.3	%	
Payroll and employee benefits	5,420	36.1	%	823	45.6	%	
Occupancy and other	2,411	16.1	%	362	20.1	%	
Depreciation & amortization	568	3.8	%	73	4.1	%	
Preopening costs	612	4.1	%	663	36.8	%	
Total restaurant operating costs	\$13,844	92.3	%	\$2,539	140.9	%

(1) For fiscal year 2015, the information includes revenues and costs related to the acquisition of BDI in May 2015.

Table of Contents

Good Times restaurants:

We currently operate twenty-seven company-owned and joint venture Good Times restaurants – all in the state of Colorado. In addition we have eleven Good Times franchise restaurants, nine operating in Colorado and two in Wyoming.

Same store sales at our Good Times restaurants increased 14.6% in fiscal 2014 compared to fiscal 2013, and increased 6.9% in fiscal 2015 compared to fiscal 2014. These results reflect the continuation of the positive momentum we have experienced since fiscal 2011. The increase in fiscal 2015 is comprised of an approximate 3.5% increase in menu pricing and an approximate 3.4% increase in customer traffic.

Our outlook for fiscal 2016 for Good Times is cautiously optimistic based on the last five years of positive sales trends; however, our sales trends are influenced by many factors. We are continuing to manage our marketing communications to balance growth in customer traffic and the average customer expenditure. We plan to open one additional Good Times restaurant in fiscal 2016.

Bad Daddy's restaurants:

We currently operate twelve company-owned and joint venture Bad Daddy's restaurants—five in Colorado and seven in North Carolina. We also license one restaurant in North Carolina and have a franchise restaurant in South Carolina and a franchise restaurant in Tennessee. The North Carolina restaurants were all acquired in the acquisition of BDI in May 2015, as described below. Subsequent to fiscal year end, we opened two additional Bad Daddy's restaurants in the Denver metropolitan area, and we expect to open several more during fiscal 2016.

Acquisition of Bad Daddy's International, LLC

In May 2015, we completed our acquisition of all of the membership interests in Bad Daddy's International, LLC from five sellers. As of the date of the acquisition, BDI owned all of the member interests in four limited liability companies, each of which owned and operated a Bad Daddy's Burger Bar restaurant in North Carolina. In addition, BDI owned a portion of the member interests in three other limited liability companies, each of which also owned a Bad Daddy's Burger Bar restaurant in North Carolina. BDI owns the intellectual property associated with the Bad Daddy's Burger Bar concept and owns 52% of the member interests in Bad Daddy's Franchise Development, LLC ("BDFD"), which has granted franchises for the ownership and operation of Bad Daddy's Burger Bar restaurants in South Carolina and Tennessee. Prior to the acquisition, the Company owned the other 48% of BDFD.

The aggregate price paid by the Company for the purchase of BDI was \$21,402,000, comprised of \$18,988,000 payable in cash and a one-year secured promissory note bearing interest at 3.25% in the amount of \$2,414,000. To finance the acquisition in May 2015, we issued an additional 2,783,810 shares of our common stock at a price to the public of \$8.15 per shares.

The table below presents the proforma revenue and net income for the fiscal years ended September 30, 2015 and 2014, assuming the acquisition had occurred on October 1, 2013. This proforma information does not purport to represent what the actual results of operations of the Company would have been had the acquisition occurred on this date nor does it purport to predict the results of operations for future periods.

	Fiscal Year Ended September 30,(1)	
	2015	2014
Revenues	\$ 54,416	\$ 42,744

Edgar Filing: GOOD TIMES RESTAURANTS INC - Form 10-K

Net income	\$ 619	(\$147)
Net income (loss) attributable to Good Times Restaurants, Inc.	\$ 159	(\$636)
Net income (loss) attributable to common shareholders	\$ 159	(\$695)
Basic and diluted income (loss) per share	\$.01	(\$.07)

(1) Net income during the fiscal year ended September 30, 2014 includes acquisition related costs of \$648,000.

For additional information, see Note 2 to the Consolidated Statements of Operations for the years ended September 30, 2015 and 2014 included elsewhere in this Annual Report on Form 10-K.

Results of Operations for Fiscal 2015 Compared to Fiscal 2014

Net Revenues: Net revenues for fiscal 2015 increased \$16,314,000 (+58.8%) to \$44,057,000 from \$27,743,000 for fiscal 2014, of which \$2,961,000 came from the Good Times restaurants and \$13,353,000 from the Bad Daddy's restaurants.

Table of Contents

Good Times restaurant sales increased \$2,956,000 to \$28,521,000 from \$25,566,000 in fiscal 2014. Same store restaurant sales increased 6.9% during fiscal 2015 compared to fiscal 2014. Restaurants are included in same store sales after they have been open a full fifteen months. Restaurant sales increased from the prior year due to the same store sales increase and the opening of two new restaurants during fiscal 2015. The total menu price increases taken during fiscal 2014 were 4.4% and we took an additional 1% menu price increase in October 2014. Between January and May 2015 we took additional menu price increases of 2.35%. Franchise revenues increased \$5,000 in fiscal 2015 due to an increase in Good Times franchise royalties and fees.

Average Good Times restaurant sales for company-operated restaurants open the entire fiscal year for fiscal 2014 and 2015 were as follows:

	Fiscal 2015	Fiscal 2014
Company-operated	\$ 1,091,000	\$ 1,035,000

During fiscal 2015, company-operated Good Times restaurants' sales ranged from a low of \$802,000 to a high of \$1,896,000.

Bad Daddy's restaurant sales for fiscal 2015 were \$14,996,000, which includes sales of \$7,518,000 for two Bad Daddy's restaurants open the entire fiscal year and one new Bad Daddy's restaurant that opened in January 2015, it also includes sales of \$7,478,000 for the seven Bad Daddy's restaurants acquired from BDI in May 2015. Additionally, net revenues increased \$160,000 compared to fiscal 2014 due to Bad Daddy's franchise royalties and license fees which are all associated with the BDI acquisition.

For factors which may affect future results of operations, please refer to a discussion of planned product and system changes discussed in the section entitled "Our Growth Strategies" in Item 1 of this Annual Report on Form 10-K.

Food and Packaging Costs: For fiscal 2015, food and packaging costs increased \$5,294,000 from \$9,273,000 (33.5% of restaurant sales) in fiscal 2014 to \$14,567,000 (33.9% of restaurant sales).

Good Times food and packaging costs were \$9,734,000 (34.1% of restaurant sales) in fiscal 2015, up from \$8,655,000 (33.9% of restaurant sales) in fiscal 2014. We experienced unprecedented cost increases in beef and bacon from January to September 2014, with beef and bacon prices increasing approximately 38% and 29%, respectively. We experienced some moderation in commodity costs during our second and third fiscal quarters of 2015.

Bad Daddy's food and packaging costs were \$4,833,000 (32.2% of restaurant sales) in fiscal 2015, up from \$618,000 (34.3% of restaurant sales) in fiscal 2014. \$2,502,000 of the \$4,215,000 increase was attributable to the North Carolina BDI restaurants acquired in May 2015. The remaining increase of \$1,713,000 was attributable to the two Bad Daddy's restaurants open the entire fiscal year and one new Bad Daddy's restaurant that opened in January 2015.

Payroll and Other Employee Benefit Costs: For fiscal 2015, payroll and other employee benefit costs increased \$5,472,000 from \$8,915,000 (32.6% of restaurant sales) in fiscal 2014 to \$14,387,000 (33.1% of restaurant sales).

Good Times payroll and other employee benefit costs were \$8,967,000 (31.4% of restaurant sales) in fiscal 2015, up from \$8,092,000 (31.7% of restaurant sales) in fiscal 2014. The \$875,000 increase in payroll and other employee benefit expenses is primarily due to the increase in restaurant sales. Because payroll costs are semi-variable in nature, they normally decrease as a percentage of restaurant sales when there is an increase in restaurant sales. Payroll and other employee benefits increased approximately \$529,000 in fiscal 2015 due to two new restaurants opened in the fiscal year, one in November 2014 and one in May 2015.

Bad Daddy's payroll and other employee benefit costs were \$5,420,000 (36.1% of restaurant sales) for fiscal 2015 up from \$823,000 (45.6% of restaurant sales) in fiscal 2014. \$2,582,000 of the \$4,597,000 increase was attributable to the North Carolina BDI restaurants acquired in May 2015. The remaining increase of \$2,015,000 was attributable to the two Bad Daddy's restaurants open the entire fiscal year and one new Bad Daddy's restaurant that opened in January 2015.

Occupancy and Other Operating Costs: For fiscal 2015, occupancy and other operating costs increased \$2,580,000 from \$4,599,000 (16.8% of restaurant sales) in fiscal 2014 to \$7,179,000 (16.5% of restaurant sales).

Good Times occupancy and other operating costs were \$4,768,000 (16.7% of restaurant sales) in fiscal 2015, up from \$4,237,000 (16.6% of restaurant sales) in fiscal 2014. The \$530,000 increase in occupancy and other costs is primarily attributable to:

- Increase of \$300,000 in occupancy and other restaurant operating costs due to the two new restaurants opened in fiscal 2015.

Table of Contents

- Increases in various other restaurant operating costs of \$230,000 at existing restaurants comprised primarily of repairs and maintenance, restaurant supplies and bank fees.

Occupancy costs may increase as a percent of sales as new company-owned restaurants are developed due to higher rent associated with sale-leaseback operating leases, as well as increased property taxes on those locations.

Bad Daddy's occupancy and other operating costs were \$2,411,000 (16.1% of restaurant sales) for fiscal 2015 up from \$362,000 (20.1% of restaurant sales) in fiscal 2014. \$1,186,000 of the \$2,049,000 increase was attributable to the North Carolina BDI restaurants acquired in May 2015. The remaining increase of \$863,000 was attributable to the two Bad Daddy's restaurants open the entire fiscal year and one new Bad Daddy's restaurant that opened in January 2015.

New Store Preopening Costs: In fiscal 2015, we incurred \$784,000 of preopening costs compared to \$669,000 in fiscal 2014.

Good Times preopening costs related to the two new restaurants was \$172,000 for fiscal 2015.

Bad Daddy's preopening costs were \$612,000 for fiscal 2015 compared to \$663,000 in fiscal 2014. All of the preopening costs are related to the newly-developed Bad Daddy's restaurants.

Depreciation and Amortization Costs: For fiscal 2015, depreciation and amortization costs increased \$610,000 from \$636,000 in fiscal 2014 to \$1,246,000.

Good Times depreciation costs increased \$115,000 from \$563,000 in fiscal 2014 to \$678,000 in fiscal 2015, primarily due to the two new restaurants opened in fiscal 2015.

Bad Daddy's depreciation costs increased \$495,000 from \$73,000 in fiscal 2014 to \$568,000 in fiscal 2015, \$239,000 of the increase was attributable to the North Carolina BDI restaurants acquired in May 2015.

General and Administrative Costs: For fiscal 2015, general and administrative costs increased \$1,298,000 from \$2,803,000 (10.1% of total revenues) in fiscal 2014 to \$4,101,000 (9.3% of total revenue).

The \$1,298,000 increase in general and administrative expenses in fiscal 2015 is primarily attributable to:

- Increase in payroll and employee benefit costs of \$577,000
- Increase in incentive stock compensation cost of \$315,000
- Net increases in all other expenses of \$406,000.

General and administrative costs will continue to increase as we build up our infrastructure to support the growth of both of our brands.

Advertising Costs: For fiscal 2015, advertising costs increased \$276,000 from \$988,000 (3.6% of restaurant sales) in fiscal 2014 to \$1,264,000 (2.9% of restaurant sales).

Good Times advertising costs increased \$241,000 from \$947,000 (3.7% of restaurant sales) in fiscal 2014 to \$1,188,000 (4.1% of restaurant sales) in fiscal 2015. Good Times advertising costs consists primarily of contributions made to the advertising materials fund and a regional advertising cooperative based on a percentage of restaurant sales.

We anticipate that in fiscal 2016 Good Times advertising costs will remain consistent with fiscal 2015 as a percentage of restaurant sales and will consist primarily of cable television advertising, social media and on-site and point-of-purchase merchandising totaling approximately 4% of restaurant sales.

Bad Daddy's advertising costs were \$76,000 (0.5% of restaurant sales) in fiscal 2015 compared to \$40,000 (2.3% of restaurant sales) in fiscal 2014. The North Carolina BDI restaurants acquired in May 2015 accounted for \$29,000 of the increase. Bad Daddy's advertising costs consist primarily of menu development, printing costs and local store marketing.

Acquisition Costs: For fiscal 2015, acquisition costs were \$648,000. All acquisition costs are related to the acquisition of BDI, as discussed under "Acquisition of Bad Daddy's International, LLC," and include legal, accounting, other non-recurring integration costs and other professional services related to the transaction.

Franchise Costs: For fiscal 2015, franchise costs increased \$15,000 from \$96,000 in fiscal 2014 to \$111,000. The costs are primarily related to the Good Times franchised restaurants.

Gain or Loss on Restaurant Asset Disposals: For fiscal 2015, the loss on restaurant asset disposals was \$9,000 compared to a gain of \$16,000 in fiscal 2014. The loss in fiscal 2015 is comprised of a \$26,000 deferred gain on a previous sale lease-back transaction offset by \$35,000 of losses to write off abandoned equipment and site costs for the Good Times locations.

Table of Contents

Loss from Operations: The loss from operations was \$239,000 in fiscal 2015 compared to a loss from operations of \$219,000 in fiscal 2014.

The increase in loss from operations for the fiscal year is due primarily to matters discussed in the "Restaurant Operating Costs", "General and Administrative Costs", "Franchise Costs" and "Gain on Restaurant Asset Sales" sections above.

Net Loss: The net loss was \$300,000 for fiscal 2015 compared to a net loss of \$370,000 in fiscal 2014. The change from fiscal 2014 to fiscal 2015 was primarily attributable to the matters discussed in the "Net Revenues", "Restaurant Operating Costs", "General and Administrative Costs" and "Franchise Costs" sections above, as well as 1) an increase in net interest expense of \$54,000 compared to the same prior year period; and 2) a decrease in our affiliate investment loss of \$140,000 in fiscal 2015 compared to fiscal 2014.

Income Attributable to Non-controlling Interests: For fiscal 2015, the income attributable to non-controlling interests was \$491,000 compared to \$320,000 in fiscal 2014. The non-controlling interest represents the limited partner's share of income in the Good Times and Bad Daddy's joint venture restaurants. The increase is attributable to the increased sales and profitability of the Good Times joint venture restaurants and the acquisition of the BDI joint venture restaurants in May 2015.

Net Loss Attributable to Common Shareholders: For fiscal 2015, the net loss attributable to common shareholders includes dividends of \$0 compared to dividends on preferred stock of \$59,000 in fiscal 2014.

Liquidity and Capital Resources

Cash and Working Capital:

As of September 30, 2015, we had a working capital excess of \$7,470,000. Because restaurant sales are collected in cash and accounts payable for food and paper products are paid two to four weeks later, restaurant companies often operate with working capital deficits. We anticipate that working capital deficits may be incurred in the future and possibly increase when new Bad Daddy's and Good Times restaurants are opened. We believe that we will have sufficient capital to meet our working capital, long term debt obligations and recurring capital expenditure needs in fiscal 2016 and beyond.

Financing:

Public Offering: On May 4, 2015 we completed a public offering of 2,783,810 shares of common stock, par value \$0.001 per share. The price to the public was \$8.15 per share with an underwriter's agreement at a price of \$7.58 per share. The public offering resulted in net proceeds of approximately \$20.6 million that we primarily used for the acquisition of Bad Daddy's International and development of additional Bad Daddy's Burger Bar restaurants.

We intend to use the remaining net proceeds from the offering after the acquisition of BDI for the remodeling and reimagining of existing Good Times Burgers & Frozen Custard restaurants, for the development of new Bad Daddy's Burger Bar restaurants, as working capital reserves and for future investment at the discretion of our Board of Directors.

Bad Daddy's International Note Payable: In May 2015, in connection with the BDI purchase, the Company entered into a one-year secured promissory note bearing interest at 3.25% in the amount of \$2,414,000, as discussed under "Acquisition of Bad Daddy's International, LLC."

United Capital Loan: On July 30, 2014 Drive Thru entered into a Development Line Loan and Security Agreement with United Capital Business Lending (“Lender”), pursuant to which Lender agreed to loan Drive Thru up to \$2,100,000 (the “Loan”) and entered into a Collateral Assignment of Franchise Agreements, Management Agreement and Partnership Interests with Lender. In addition, on July 30, 2014, the Company entered into a Guaranty Agreement (the “Guaranty Agreement”) with Lender, pursuant to which the Company guaranteed the repayment of the Loan. The Loan Agreement, Collateral Assignment, Notes (as defined below) and Guaranty Agreement are referred to herein as the “Loan Documents.” As of September 30, 2015, Drive Thru had borrowed approximately \$1,314,000 under the Loan Agreement, of which \$1,118,000 was borrowed during fiscal 2015. As of July 1, 2015 Drive Thru could no longer request additional draw downs.

In connection with each disbursement under the Loan Agreement, Drive Thru executed a Promissory Note (the “Notes”) in the full amount of each disbursement request. The Notes incur interest at a rate of 6.69% per annum, are repayable in monthly installments of principal and interest over 84 months, and contain other customary terms and conditions. The Notes are subject to certain prepayment fees ranging between 1% and 3% of the unpaid balance at such time if Drive Thru repays a Note in certain circumstances prior to the thirty seventh monthly installment under such Note.

Table of Contents

The Loan Agreement and Notes contain customary representations, warranties and affirmative and negative covenants, including without limitation, annual covenants to maintain certain insurance coverage and to maintain a certain debt service coverage ratio, leverage ratio, and quick ratio. At September 30, 2015 the company was in compliance with all the required covenants.

Cash Flows:

Net cash provided by operating activities was \$3,168,000 for fiscal 2015 compared to net cash provided by operating activities of \$1,438,000 in fiscal 2014. The increase in net cash provided by operating activities for fiscal 2015 was the result of a net loss of \$300,000 and non-cash reconciling items totaling \$3,468,000 (comprised principally of 1) depreciation and amortization of \$1,332,000; 2) \$478,000 of stock option compensation expense; 3) an increase in our accretion for deferred rent of \$234,000; 4) a \$1,442,000 increase in accounts payable; and 5) net decreases in operating assets and liabilities totaling \$18,000).

Net cash used in investing activities in fiscal 2015 was \$23,715,000 compared to net cash used in investing activities of \$3,849,000 in fiscal 2014. Fiscal 2015 primarily reflects the acquisition of BDI of \$17,612,000 (net of cash acquired in the transaction) and \$1,521,000 in sale leaseback proceeds and purchases of property and equipment. Purchases of property and equipment were \$7,633,000, comprised of the following:

- \$3,389,000 in costs for the development of Bad Daddy's locations in Colorado
- \$160,000 for miscellaneous capital expenditures related to our Bad Daddy's restaurants
- \$1,270,000 in costs related to our existing Good Times locations, for reimaging and remodeling
- \$2,415,000 for the development of two Good Times locations, including the purchase of land for a new location that opened on May 5, 2015
 - \$321,000 for miscellaneous capital expenditures related to our Good Times restaurants
 - \$78,000 for miscellaneous capital expenditures related to our corporate office

Net cash provided by financing activities in fiscal 2015 was \$24,462,000 compared to \$6,162,000 in fiscal 2014. The fiscal 2015 activity includes net proceeds of \$20,618,000 from our public stock offering, principal payments on notes payable and long term debt of \$139,000, borrowings on notes payable and long-term debt of \$1,118,000, net proceeds from warrant and option exercises of \$3,296,000, and distributions to non-controlling interests in partnerships of \$431,000.

Contingencies and Off-Balance Sheet Arrangements

We remain contingently liable on various land leases underlying restaurants that were previously sold to franchisees. We have never experienced any losses related to these contingent lease liabilities; however, if a franchisee defaults on the payments under the leases, we would be liable for the lease payments as the assignor or sub-lessor of the lease. Currently we have not been notified nor are we aware of any leases in default under which we are contingently liable. However there can be no assurance that there will not be in the future, which could have a material adverse effect on our future operating results.

Critical Accounting Policies and Estimates

We follow accounting standards set by the Financial Accounting Standards Board, commonly referred to as the "FASB." The FASB sets generally accepted accounting principles (GAAP) that we follow to ensure we consistently report our financial condition, results of operations, and cash flows. Over the years, the FASB and other designated GAAP-setting bodies, have issued standards in the form of FASB Statements, Interpretations, FASB Staff Positions, EITF consensuses, AICPA Statements of Position, etc, which in 2009 were codified into the FASB Accounting Standards Codification, sometimes referred to as the Codification or ASC.

Non-controlling Interests: Non-controlling interests, previously called minority interests, are presented as a separate item in the equity section of the consolidated balance sheet. Consolidated net income or loss attributable to non-controlling interests are presented on the face of the consolidated statement of operations. Additionally, changes in a parent's ownership interest in a subsidiary that do not result in deconsolidation are equity transactions, and that deconsolidation of a subsidiary is recorded as a gain or loss based on the fair value on the deconsolidation date.

Table of Contents

Income Taxes: We account for income taxes under the liability method whereby deferred tax asset and liability account balances are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. We provide a valuation allowance, if necessary, to reduce deferred tax assets to their estimated realizable value. The deferred tax assets are reviewed periodically for recoverability, and valuation allowances are adjusted as necessary. We believe it is more likely than not that the recorded deferred tax assets will be realized.

We are subject to taxation in various jurisdictions. We continue to remain subject to examination by U.S. federal authorities for the years 2012 through 2015. We believe that our income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material adverse effect on our financial condition, results of operations, or cash flows. Therefore, no reserves for uncertain income tax positions have been recorded. Our practice is to recognize interest and/or penalties related to income tax matters in income tax expense. We have accrued \$0 for interest and penalties as of September 30, 2015.

Variable Interest Entities: Once an entity is determined to be a Variable Interest Entity (VIE), the party with the controlling financial interest, the primary beneficiary, is required to consolidate it. We have three franchisees with notes payable and after analysis we have determined that, while the franchisees are VIE's, we are not the primary beneficiary of the entities, and therefore they are not required to be consolidated.

Fair Value of Financial Instruments: Fair value is established under a framework for measuring fair value under GAAP and enhances disclosure about fair value measurements.

Business Combination: In accordance with Accounting Standards Codification ("ASC") 805, Business Combinations ("ASC 805"), the total purchase consideration related to the acquisition of BDI was allocated to the net tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values as of May 7, 2015 (the acquisition date). The values for current assets and current liabilities including receivables, prepaid expenses, inventories and accounts payable and other accrued liabilities were determined based on their respective book values which approximated their realizable values. We estimated the value of property and equipment based on the original cost and remaining life of each asset. The value of unfavorable lease liabilities was based on the estimate of future rent payments in excess of current fair market value rents. The value of non-controlling interests were based on the ownership percent of each non-controlling interest multiplied by the estimated net values of the underlying assets of each respective joint venture. The values of identifiable intangible assets such as Trademarks, Franchise Agreements and Non-compete agreements were determined by an independent Corporate Finance and Business Valuation firm. The excess of the purchase price over the aggregate fair value of net assets acquired was allocated to goodwill which represents benefits expected as a result of the acquisition including sales and unit growth opportunities.

Recent Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the related debt liability rather than an asset. The recognition and measurement guidance for debt issuance costs are not affected by this guidance. This new guidance is effective retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2015. Early adoption is permitted. The Company does not expect that this guidance will have a material impact on its consolidated financial statements

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 8 FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The report of the independent registered public accounting firm and financial statements listed in the accompanying index are included in Item 15 of this report. See index to the consolidated financial statements on page F-1 of this Annual Report on Form 10-K.

ITEM 9 CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND
9. FINANCIAL DISCLOSURE

During the two most recent fiscal years, Good Times has not had any changes in or disagreements with its independent accountants on matters of accounting or financial disclosure.

Table of Contents

ITEM 9A. CONTROLS AND PROCEDURES

Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures: Based on an evaluation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act), as of the end of our fiscal year ended September 30, 2015, our Chief Executive Officer and Chief Financial Officer (its principal executive officer and principal financial officer, respectively) determined that our controls were not adequate to ensure that all liabilities related to development costs for restaurants that are currently under construction but not yet open were recorded in the proper period. Accordingly, based on this material weakness, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this Report, September 30, 2015, as it relates to recording the correct amount of unpaid development costs and the related liability.

The Company's management team has addressed this weakness by implementing a process of analyzing each new restaurant on a project by project basis to ensure that all development costs and the related liabilities are recorded as of the end of each reporting period. This process may involve using estimates to record costs incurred but not yet billed for the reporting period.

Management's Report on Internal Control Over Financial Reporting: We are responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act). We maintain a system of internal controls that is designed to provide reasonable assurance in a cost-effective manner as to the fair and reliable preparation and presentation of the consolidated financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

We conducted an evaluation of the effectiveness of our internal control over financial reporting as of September 30, 2015. In making this evaluation, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control-Integrated Framework. This evaluation included a review of the documentation of controls, evaluation of the design effectiveness of controls and a conclusion on this evaluation. We have concluded that, as of September 30, 2015, our internal control over financial reporting was not effective for the reasons described under "Evaluation of Disclosure Controls and Procedures."

This Annual Report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to rules of the SEC that permit us to provide only management's report in this Annual Report.

Changes in Internal Control over Financial Reporting: There have been no significant changes in our internal control over financial reporting that occurred during our fiscal quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

This Annual Report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to rules of the SEC that permit us to provide only management's report in this Annual Report.

Changes in Internal Control over Financial Reporting: There have been no significant changes in our internal control over financial reporting that occurred during our fiscal quarter ended September 30, 2015 that have materially

affected, or are reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders
Good Times Restaurants Inc.

We have audited the accompanying consolidated balance sheets of Good Times Restaurants Inc. and subsidiaries as of September 30, 2015 and 2014, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Good Times Restaurants Inc. and subsidiaries as of September 30, 2015 and 2014, and the results of their operations and their cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

Good Times Restaurants Inc. and Subsidiaries
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Tabular dollar amounts in thousands, except share and per share data)

1. Organization and Summary of Significant Accounting Policies:

Organization – Good Times Restaurants Inc. (Good Times or the Company) is a Nevada corporation. The Company operates through its wholly owned subsidiaries Good Times Drive Thru, Inc. (“Drive Thru”), BD of Colorado, LLC (“BD of Colo”), Bad Daddy’s Franchise Development, LLC (“BDFD”) and Bad Daddy’s International, LLC (“BDI”).

Drive Thru commenced operations in 1986 and, as of September 30, 2015, operates twenty company-owned and seven joint venture drive-thru fast food hamburger restaurants under the name Good Times Burgers & Frozen Custard. The Company’s restaurants are located in Colorado. In addition, Drive Thru has eleven franchises, nine operating in Colorado and two in Wyoming.

BD of Colo commenced operations in 2013 and, as of September 30, 2015, operates three company-owned full-service upscale casual dining restaurants under the name Bad Daddy’s Burger Bar, all of which are located in Colorado.

BDI and BDFD were acquired on May 7, 2015 (see Note 2 below). As of September 30, 2015, BDI operates four company-owned and three joint venture full-service upscale casual dining restaurants, also under the name Bad Daddy’s Burger Bar, all of which are located in North Carolina. BDFD has two franchises operating in South Carolina and Tennessee. Prior to the acquisition of BDFD in May 2015 the Company had a 48% voting ownership interest in the franchisor entity and the investment was accounted for using the equity method.

We follow accounting standards set by the Financial Accounting Standards Board, commonly referred to as the “FASB”. The FASB sets generally accepted accounting principles (GAAP) that we follow to ensure we consistently report our financial condition, results of operations and cash flows.

Principles of Consolidation – The consolidated financial statements include the accounts of Good Times, its subsidiaries, one limited partnership, in which the Company exercises control as general partner, and three limited liability companies, in which the Company exercises control as managing member. The Company owns an approximate 51% interest in the Drive Thru limited partnership, is the sole general partner and receives a management fee prior to any distributions to the limited partner. Because the Company owns an approximate 51% interest in the partnership and exercises complete management control over all decisions for the partnership, except for certain veto rights, the financial statements of the partnership are consolidated into the Company’s financial statements. The Company owns an approximate 52%, 51% and 24% interest, respectively, each in three Bad Daddy’s limited liability companies. The Company is the managing member and receives a royalty fee and management fee prior to any distributions to the other members. Because the Company exercises complete management control over all decisions for the three companies, except for certain veto rights, the financial statements of the limited liability companies are consolidated into the Company’s financial statements. The equity interests of the unrelated limited partner and members are shown on the accompanying consolidated balance sheet in the stockholders’ equity section as a non-controlling interest and is adjusted each period to reflect the limited partner’s and members’ share of the net income or loss as well as any cash distributions to the limited partners and members for the period. The limited partner’s or members’ share of the net income or loss in the entities is shown as non-controlling interest income or expense in the accompanying consolidated statement of operations. All inter-company accounts and transactions are eliminated.

Basis of Presentation– The Company analyzes its operations on a regional basis, when evaluating closed restaurant operations for consideration as to the classification between continuing operations and discontinued operations. As most of the Company’s Drive Thru restaurants are within the Denver metropolitan region and share common advertising, distribution, supervision, and to a certain extent even customers, the Company believes it’s appropriate to perform its analysis on a regional basis.

Reclassification – Certain prior year balances have been reclassified to conform to the current year’s presentation. Such reclassifications had no effect on the net income or loss.

Accounting Estimates – The preparation of consolidated financial statements in conformity with U.S. Generally Accepted Accounting Principles requires management to make estimates and assumptions the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Examples include provisions for bad debts and inventory reserves, accounting for business combinations, valuation of reporting units for purposes of assessing goodwill and other indefinite-lived intangible assets for impairment, valuation of asset groups for impairment testing, accruals for employee benefits, and certain contingencies. We base our estimates on historical experience, market participant fair value considerations, projected future cash flows, and various other factors that are believed to be reasonable under the circumstances. Actual results could differ from those estimates.

Table of Contents

Cash and Cash Equivalents – The Company considers all highly liquid debt instruments purchased with an initial maturity of three months or less to be cash equivalents. The Company maintains cash and cash equivalents at financial institutions with balances that at times may be in excess of the Federal Deposit Insurance Corporation (“FDIC”) insured limits of up to \$250,000. The Company has not experienced any losses related to such accounts and management believes that the Company is not exposed to any significant risks on these accounts. Certain of the Company’s accounts exceeded the FDIC insured limits as of September 30, 2015.

Accounts Receivable – Accounts receivable include uncollateralized receivables from our franchisees and our advertising fund, due in the normal course of business, generally requiring payment within thirty days of the invoice date. On a periodic basis the Company monitors all accounts for delinquency and provides for estimated losses of uncollectible accounts. Currently and historically there have been no allowances for unrecoverable accounts receivable.

Inventories – Inventories are stated at the lower of cost or market, determined by the first-in first-out method, and consist of restaurant food items and related packaging supplies.

Property and Equipment – Property and equipment are stated at cost and are depreciated using the straight-line method over the estimated useful lives of the related assets, generally three to eight years. Property and equipment under capital leases are stated at the present value of minimum lease payments and are amortized using the straight-line method over the shorter of the lease term or the estimated useful lives of the assets. Leasehold improvements are amortized using the straight-line method over the shorter of the term of the lease or the estimated useful life of the asset.

Maintenance and repairs are charged to expense as incurred, and expenditures for major improvements are capitalized. When assets are retired, or otherwise disposed of, the property accounts are relieved of costs and accumulated depreciation with any resulting gain or loss credited or charged to income.

Impairment of Long-Lived Assets – We review our long-lived assets including land, property and equipment for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the capitalized costs of the assets to the future undiscounted net cash flows expected to be generated by the assets and the expected cash flows are based on recent historical cash flows at the restaurant level.

An analysis was performed for impairment at September 30, 2015 and given the results of our analysis there were no restaurants which are impaired.

Trademarks – Trademarks have been determined to have an indefinite life. We evaluate our trademarks for impairment annually and on an interim basis as events and circumstances warrant by comparing the fair value of the trademarks with their carrying amount.

Goodwill – The Company is required to test goodwill for impairment on an annual basis or whenever indications of impairment arise including, but not limited to, a significant decline in cash flows from store operations. Such tests could result in impairment charges. As of September 30, 2015, the Company had \$96,000 of goodwill related to the purchase of a Good Times franchise operation on December 31, 2012 and \$14,970,000 of goodwill related to the acquisition of BDI on May 7, 2015. There was no impairment required to the acquired goodwill as of September 30, 2015 or 2014.

Sales of Restaurants and Restaurant Equity Interests – Sales of restaurants or non-controlling equity interests in restaurants developed by the Company are recorded under either the full accrual method or the installment method of

accounting. Under the full accrual method, a gain is not recognized until the collectability of the sales price is reasonably assured and the earnings process is virtually complete without further contingencies. When a sale does not meet the requirements for income recognition, the related gain is deferred until those requirements are met. Under the installment method, the gain is incrementally recognized as principal payments on the related notes receivable are collected. If the initial payment is less than specified percentages, use of the installment method is followed.

The Company accounts for the sale of restaurants when the risks and other incidents of ownership have been transferred to the buyer. Specifically, a) no continuing involvement by the Company exists in restaurants that are sold, b) sales contracts and related income recognition are not dependent on the future successful operations of the sold restaurants, and c) the Company is not involved as a guarantor on the purchasers' debts.

F-8

Table of Contents

Deferred Liabilities – Rent expense is reflected on a straight-line basis over the term of the lease for all leases containing step-ups in base rent. An obligation representing future payments (which totaled \$1,056,000 as of September 30, 2015) is reflected in the accompanying consolidated balance sheet as a deferred liability.

Lease incentives are recorded as a deferred liability when received and subsequently credited to rent expense on a straight line basis over the life of the lease. The balance of the lease incentive obligations at September 30, 2015 was \$310,000 and is reflected in the accompanying consolidated balance sheet as a deferred liability.

Also included in the \$1,609,000 deferred and other liabilities balance is a \$207,000 deferred gain on the sale of the building and improvements of one Company-owned restaurant in a sale leaseback transaction. The building and improvements were subsequently leased back from the third party purchaser. The gain will be recognized in future periods in proportion to the rents paid on the twenty year lease.

Revenue Recognition – Revenue from company restaurant sales is recognized when the food and beverage products are sold and are presented net of sales taxes.

Preopening Costs – Restaurant opening costs are expensed as incurred.

Advertising – The Company incurs advertising expenses in connection with the marketing of its restaurant operations. Advertising costs are expensed when the related advertising begins.

Franchise and Area Development Fees – Individual franchise fee revenue is deferred when received and is recognized as income when the Company has substantially performed all of its obligations under the franchise agreement and the franchisee has commenced operations. The Company's commitments and obligations pursuant to the franchise agreements consist of a) development assistance; including site selection, building specifications and equipment purchasing and b) operating assistance; including training of personnel and preparation and distribution of manuals and operating materials. All of these obligations are effectively complete upon the opening of the restaurant at which time the franchise fee and the portion of any development fee allocable to that restaurant is recognized. There are no additional material commitments or obligations.

The Company has not recognized any franchise fees that have not been collected. The Company segregates initial franchise fees from other franchise revenue in the statement of operations. Revenues and costs related to company-owned restaurants are segregated from revenues and costs related to franchised restaurants in the statement of operations.

Continuing royalties from franchisees, which are a percentage of the gross sales of franchised operations, are recognized as income when earned. Franchise development expenses, which consist primarily of legal costs and restaurant opening expenses associated with developing and opening franchise restaurants, are expensed against the related franchise fee income.

Income Taxes – We account for income taxes under the liability method whereby deferred tax asset and liability account balances are determined based on differences between the financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company provides a valuation allowance, if necessary, to reduce deferred tax assets to their estimated realizable value. The deferred tax assets are reviewed periodically for recoverability, and valuation allowances are adjusted as necessary. We believe it is more likely than not that the recorded deferred tax assets will be realized.

The Company is subject to taxation in various jurisdictions. The Company continues to remain subject to examination by U.S. federal authorities for the years 2012 through 2015 and several state authorities for 2011 through 2015. The Company believes that its income tax filing positions and deductions will be sustained on audit and does not anticipate any adjustments that will result in a material adverse effect on the Company's financial condition, results of operations, or cash flows. Therefore, no reserves for uncertain income tax positions have been recorded. The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense. No accrual for interest and penalties was considered necessary as of September 30, 2015.

Net Income (Loss) Per Common Share – Basic Earnings per Share is calculated by dividing the income (loss) available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. Options for 364,479 and 396,910 shares of common stock, and warrants for 0 and 1,262,500 shares of common stock, were not included in computing diluted EPS for 2015 and 2014, respectively, because their effects were anti-dilutive.

Table of Contents

Financial Instruments and Concentrations of Credit Risk – Credit risk represents the accounting loss that would be recognized at the reporting date if counterparties failed completely to perform as contracted. Concentrations of credit risk (whether on or off balance sheet) that arise from financial instruments exist for groups of customers or counterparties when they have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. Financial instruments with off-balance-sheet risk to the Company include lease liabilities whereby the Company is contingently liable as a guarantor of certain leases that were assigned to third parties in connection with various sales of restaurants to franchisees (see Note 7).

Financial instruments potentially subjecting the Company to concentrations of credit risk consist principally of receivables. At September 30, 2015 notes receivable totaled \$130,000 and is due from four entities. Additionally, the Company has other current receivables totaling \$189,000, which includes \$73,000 of franchise receivables, and \$116,000 for miscellaneous receivables which are all due in the normal course of business. The Company believes it will collect fully on all notes and receivables.

The Company purchases most of its restaurant food and paper from two vendors. The Company believes a sufficient number of other suppliers exist from which food and paper could be purchased to prevent any long-term, adverse consequences.

The Company operates in one industry segment, restaurants. A geographic concentration exists because the Company's customers are generally located in the Colorado and North Carolina.

Stock-Based Compensation – Stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite service period (generally the vesting period of the grant). See Note 10 for additional information.

Variable Interest Entities – Once an entity is determined to be a variable interest entity (VIE), the party with the controlling financial interest, the primary beneficiary, is required to consolidate it. The Company has three franchisees with notes payable to the Company. These franchisees are VIE's, however, the owners of the franchise operations are the primary beneficiaries of the entities, not the Company. Therefore they are not required to be consolidated.

Fair Value of Financial Instruments – Fair value, is defined under a framework for measuring fair value under generally accepted accounting principles and enhances disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value maximize the use of observable inputs and minimize the use of unobservable inputs.

The following three levels of inputs may be used to measure fair value and requires that the assets or liabilities carried at fair value are disclosed by the input level under which they were valued.

Level 1: Quoted market prices in active markets for identical assets and liabilities.

Level 2: Observable inputs other than defined in Level 1, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are not corroborated by observable market data.

Non-controlling Interests - The equity interests of the unrelated limited partners and members are shown on the accompanying consolidated balance sheet in the stockholders' equity section as a non-controlling interest and is adjusted each period to reflect the limited partners' and members' share of the net income or loss as well as any cash distributions to the limited partners and members for the period. The limited partners' and members' share of the net income or loss in the partnership is shown as non-controlling interest income or expense in the accompanying consolidated statement of operations. All inter-company accounts and transactions are eliminated.

Prior to the acquisition of BDI our non-controlling interest consisted of one joint venture partnership involving Good Times restaurants, as part of the acquisition of BDI (see note 2 below) additional non-controlling interests were acquired in three joint venture partnerships.

Recent Accounting Pronouncements – In April 2015, the Financial Accounting Standards Board (“FASB”) issued guidance which requires debt issuance costs to be presented in the balance sheet as a direct deduction from the related debt liability rather than an asset. The recognition and measurement guidance for debt issuance costs are not affected by this guidance. This new guidance is effective retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2015. Early adoption is permitted. The Company does not expect that this guidance will have a material impact on its consolidated financial statements.

Table of Contents

2. Business Combinations

The Company believes the Bad Daddy Burger Bar brand has significant growth potential and can be expanded beyond its current regional footprint. In order to acquire control over the Bad Daddy's Burger Bar brand to take advantage of this growth potential, on April 28, 2015, the Company entered into a Membership Interest Purchase Agreement (the "Purchase Agreement") to purchase from five sellers all of the membership interests in BDI, a North Carolina limited liability company. The Company closed on the purchase of BDI on May 7, 2015, and BDI became a wholly-owned subsidiary of the Company. BDI owns all of the member interests in four limited liability companies, each of which owns and operates a Bad Daddy's Burger Bar restaurant in North Carolina. In addition, BDI owns a portion of the member interests in three other limited liability companies, each of which also owns a Bad Daddy's Burger Bar restaurant in North Carolina. BDI also owns the intellectual property associated with the Bad Daddy's Burger Bar concept and owns 52% of the member interests in BDFD, which has granted franchises for the ownership and operation of Bad Daddy's Burger Bar restaurants in South Carolina and Tennessee. BDI has also granted a license for the operation of a Bad Daddy's Burger Bar at the Charlotte airport. As a result of the purchase of BDI, the Company has acquired all of the foregoing interests and assets. Prior to the acquisition, the Company owned the remaining 48% of the member interests in BDFD and carried an Investment in Affiliates balance of \$498,000.

The aggregate price paid by the Company for the purchase of BDI was \$21,402,000, comprised of \$18,988,000 payable in cash and a one-year secured promissory note bearing interest at 3.25% in the amount of \$2,414,000. The total price paid is subject to adjustments for the final calculation of the net working capital balance. Pursuant to a Pledge Agreement (the "Pledge Agreement"), the promissory note is secured by a pledge of the ownership of the two entities which own two of the acquired restaurants. Upon the reduction of the principal of the promissory note by at least 50% the sellers are to select one of the entities for release from the pledge. The Company acquired all of BDI's ownership interests.

The Company incurred non-recurring costs of \$648,000 for the fiscal year ended September 30, 2015 related to the BDI acquisition which are included in the condensed consolidated statements of operations.

In accordance with Accounting Standards Codification ("ASC") 805, Business Combinations ("ASC 805"), the total purchase consideration is allocated to the net tangible and identifiable intangible assets acquired and liabilities assumed based on their estimated fair values as of May 7, 2015 (the acquisition date). The purchase price was allocated based on the information currently available, and may be adjusted after obtaining more information regarding, among other things, liabilities assumed and revisions of preliminary estimates.

The estimated fair values of the assets acquired and liabilities assumed for the acquisition approximated the following:

	Allocated Fair Value
Cash	\$ 1,376
Receivables	124
Prepaid expenses and other	49
Inventories	133
Deposits	52
Property and equipment	3,672
Trademarks (1)	3,900
Franchise agreements (1)	116
Non-compete agreements (1)	15
Goodwill (2)	14,970
Total assets purchased	24,407

Edgar Filing: GOOD TIMES RESTAURANTS INC - Form 10-K

Accounts payable and other accrued liabilities	(750)
Unfavorable lease liability	(481)
Non-controlling interests	(1,276)
Total liabilities assumed	(2,507)
Investment in BDFD balance	(498)
Total purchase price	\$	21,402
Cash	\$	18,988
Notes payable		2,414
Total purchase price	\$	21,402

(1) The value of the identifiable intangible assets were determined by an independent Corporate Finance and Business Valuation firm.

F-11

Table of Contents

(2) The excess of the purchase price over the aggregate fair value of net assets acquired was allocated to goodwill. The portion of the purchase price attributable to goodwill represents benefits expected as a result of the acquisition, including sales and unit growth opportunities.

Included in the consolidated statement of operations for the fiscal year ended September 30, 2015 are revenues of \$7,639,000 and net income of \$189,000 attributed to BDI and BDFD from the date of acquisition.

Estimates of acquired goodwill and identifiable intangible assets related to the acquisition are as follows:

	Estimated Fair Value	Weighted Average Estimated Useful Life (yrs)
Trademarks and trade names	\$ 3,900	Indefinite
Franchise Agreements	116	3 – 9
Non-Compete Agreements	15	3
Goodwill, including assembled workforce	14,970	Indefinite

The table below presents the proforma revenue and net income for the fiscal years ended September 30, 2015 and 2014, assuming the acquisition had occurred on October 1, 2013. This proforma information does not purport to represent what the actual results of operations of the Company would have been had the acquisition occurred on this date nor does it purport to predict the results of operations for future periods.

	Fiscal Year Ended September 30,(1)	
	2015	2014
Revenues	\$ 54,416	\$ 42,744
Net income	\$ 619	\$ (147)
Net income (loss) attributable to Good Times Restaurants, Inc.	\$ 159	\$ (636)
Net income (loss) attributable to common shareholders	\$ 159	\$ (695)
Basic and diluted income (loss) per share	\$.01	\$ (.07)

(1) Net income during the fiscal year ended September 30, 2014 includes acquisition related costs of \$648,000

3. Investment in Affiliate

On April 15, 2013, the Company executed a Subscription Agreement for the purchase of 4,800 Class A Units of BDFD, representing a 48% non-controlling voting membership interest in BDFD, for the aggregate subscription price of \$750,000. The subscription price was payable in two equal installments. The first \$375,000 installment was paid on the date of execution of the Subscription Agreement and the remaining \$375,000 installment was paid in December 2013.

As explained in Note 2 above, the Company acquired the remaining 52% interest in BDFD on May 7, 2015. Prior to the acquisition, the Company accounted for this investment using the equity method. For the fiscal year ended September 30, 2015 and 2014 the Company recorded net income of \$5,000 and a net loss of (\$145,000), respectively, for its share of BDFD's operating results. The carrying value at September 30, 2014 was \$502,000, which is represented as Investment in Affiliate in the accompanying consolidated balance sheets.

Table of Contents

4. Goodwill and Intangible Assets

The following table presents goodwill and intangible assets as of September 30, 2015 and September 30, 2014:

	September 30, 2015			September 30, 2014		
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Intangible assets subject to amortization						
Franchise rights	116	(11)	105	0	0	0
Non-compete agreements	15	(3)	12	0	0	0
	\$ 131	\$ (14)	\$ 117	\$ 0	\$ 0	\$ 0
Indefinite-lived intangible assets:						
Trademarks	\$ 3,900	\$ 0	\$ 3,900	\$ 0	\$ 0	\$ 0
Intangible assets, net	\$ 4,031	\$ (14)	\$ 4,017	\$ 0	\$ 0	\$ 0
Goodwill	\$ 15,066	\$ 0	\$ 15,066	\$ 96	\$ 0	\$ 96

The Company had no goodwill impairment losses in the periods presented in the above table or any prior periods.

There were no impairments to intangible assets during the fiscal years ended September 30, 2015 and 2014. The aggregate amortization expense related to intangible assets subject to amortization was \$14,000 and \$0 for the fiscal years ended September 30, 2015 and 2014, respectively.

The estimated aggregate future amortization expense as of September 30, 2015 is as follows, (in thousands):

2016	\$ 28
2017	28
2018	19
2019	10
2020	10
Thereafter	22
	\$ 117

5. Debt and Capital Leases:

	2015	2014
Notes payable with United Capital Business Lending with payments of principal and interest (6.7%) due monthly through April 2022. The loans are secured by the fixtures and equipment of the Company's Good Times Drive Thru restaurants	1,225	194
Note payable associated with the purchase of BDI and BDFD, due in full along with accrued interest of 3.25% in May 2016. The promissory note is secured by a pledge of the ownership of the two entities which own two of the acquired restaurants.	2,414	0
Capital signage leases with Yesco, LLC with payments of principal and interest (8%) due monthly	42	74
Notes payable with Ally Financial with payments of principal and interest (3.9% to 5%) due monthly. The loans are secured by vehicles	40	20

	3,721	288
Less current portion	(2,617)	(69)
Long term portion	\$1,104	\$219

On July 30, 2014 Drive Thru entered into a Development Line Loan and Security Agreement with United Capital Business Lending (“Lender”), pursuant to which Lender agreed to loan Drive Thru up to \$2,100,000 (the “Loan”) and entered into a Collateral Assignment of Franchise Agreements, Management Agreement and Partnership Interests with Lender. In addition, on July 30, 2014, the Company entered into a Guaranty Agreement (the “Guaranty Agreement”) with Lender, pursuant to which the Company guaranteed the repayment of the Loan. The Loan Agreement, Collateral Assignment, Notes (as defined below) and Guaranty Agreement are referred to herein as the “Loan Documents.” As of September 30, 2015, Drive Thru had borrowed approximately \$1,314,000 under the Loan Agreement, of which \$1,118,000 was borrowed during the twelve month period ended September 30, 2015. As of July 1, 2015 Drive Thru could no longer request additional draw downs.

Table of Contents

In connection with each disbursement under the Loan Agreement, Drive Thru executed a Promissory Note (the “Notes”) in the full amount of each disbursement request. The Notes incur interest at a rate of 6.69% per annum, are repayable in monthly installments of principal and interest over 84 months, and contain other customary terms and conditions. The Notes are subject to certain prepayment fees ranging between 1% and 3% of the unpaid balance at such time if Drive Thru repays a Note in certain circumstances prior to the thirty seventh monthly installment under such Note.

The Loan Agreement and Notes contain customary representations, warranties and affirmative and negative covenants, including without limitation, annual covenants to maintain certain insurance coverage and to maintain a certain debt service coverage ratio, leverage ratio, and quick ratio. At September 30, 2015 the company was in compliance with all the required covenants.

In May 2015, in connection with the BDI purchase, the Company entered into a one-year secured promissory note bearing interest at 3.25% in the amount of \$2,414,000, as described in Note 2.

As of September 30, 2015, principal payments on debt become due as follows:

Years Ending September 30,	
2016	\$ 2,617
2017	188
2018	189
2019	202
2020	209
Thereafter	316
	\$ 3,721

Total interest expense on notes payable and capital leases was \$93,000 and \$9,000 for fiscal 2015 and fiscal 2014, respectively.

6. Other Accrued Liabilities:

Other accrued liabilities consist of the following at September 30:

	2015	2014
Wages and other employee benefits	\$ 583	\$ 530
Taxes, other than income tax	829	594
Other	471	184
Total	\$ 1,883	\$ 1,308

7. Commitments and Contingencies:

The Company’s office space, and the land and buildings related to the Drive Thru and Bad Daddy’s restaurant facilities are classified as operating leases and expire over the next 20 years. Some leases contain escalation clauses over the lives of the leases. Most of the leases contain one to three five-year renewal options at the end of the initial term. Certain leases include provisions for additional contingent rent payments if sales volumes exceed specified levels. The Company paid no material contingent rentals during fiscal 2015 and 2014.

Following is a summary of operating lease activity for the fiscal years ended September 30, 2015 and 2014:

Edgar Filing: GOOD TIMES RESTAURANTS INC - Form 10-K

	2015	2014
Minimum rentals	\$ 2,944	\$ 2,382
Less sublease rentals	(375)	(436)
Net rent paid	\$ 2,569	\$ 1,946

F-14

Table of Contents

As of September 30, 2015, future minimum rental commitments required under the Company's operating leases that have initial or remaining non-cancellable lease terms in excess of one year are as follows:

Years Ending September 30,	
2016	\$ 4,091
2017	4,233
2018	4,157
2019	3,865
2020	3,364
Thereafter	14,595
	34,305
Less sublease rentals	(1,918)
	\$ 32,387

The Company is contingently liable on the sublease rentals disclosed above. The subleased and assigned leases expire between 2018 and 2024. In the past the Company has never been required to pay any significant amount in connection with its guarantees and currently we have not been notified nor are we aware of any leases in default by the franchisees, however there can be no assurance that there will not be such defaults in the future which could have a material effect on our future operating results.

8. Income Taxes:

Deferred tax assets (liabilities) are comprised of the following at September 30:

	2015		2014	
	Current	Long Term	Current	Long Term
Deferred assets (liabilities):				
Tax effect of net operating loss carry-forward	\$ 0	\$ 2,948	\$ 0	\$ 2,830
General business credits	0	201	0	0
Partnership/Joint Venture basis differences	0	84	0	194
Deferred revenue	0	88	0	98
Property and equipment basis differences	0	7	0	409
Intangibles basis differences	0	(225)	0	0
Other accrued liability and asset difference	66	332	40	186
Net deferred tax assets	66	3,435	40	3,717
Less valuation allowance*	(66)	(3,435)	(40)	(3,717)
Net deferred tax assets	\$ 0	\$ 0	\$ 0	\$ 0

* The valuation allowance decreased by \$256,000 during the year ended September 30, 2015.

The Company has net operating loss carry-forwards available for future periods, as discussed below, of approximately \$2,272,000 from 2014 and 2015, and \$5,430,000 from 2013 and prior for income tax purposes which expire from 2018 through 2035. Based on the change in control, which occurred in 2011, the utilization of the loss carry-forwards incurred for periods prior to 2012 is limited to approximately \$160,000 per year. The Company has general business tax credits of \$201,000 from 2014 and 2015 which expire from 2034 through 2035.

Total income tax expense for the years ended 2015 and 2014 differed from the amounts computed by applying the U.S. Federal statutory tax rates to pre-tax income as follows:

Edgar Filing: GOOD TIMES RESTAURANTS INC - Form 10-K

	2015	2014
Total expense (benefit) computed by applying the U.S. Statutory rate (35%)	\$(277)	\$(242)
State income tax, net of federal tax benefit	(24)	(21)
FICA tax credit	(108)	0
Expiration of net operating loss carry-forward	616	1
Effect of change in valuation allowance	(256)	243
Permanent differences	88	51
Other	(39)	(32)
Provision for income taxes	\$0	\$0

9. Related Parties:

In April 2012 the Company entered into a financial advisory services agreement with Heathcote Capital LLC (Heathcote) pursuant to which they were to provide the Company with exclusive financial advisory services in connection with a possible strategic transaction. Gary J. Heller, a member of the Company's Board of Directors, is the principal of Heathcote. Accordingly, the agreement constitutes a related party transaction and was reviewed and approved by the Audit Committee of the Company's Board of Directors. On March 25, 2013, the Company and Heathcote modified this agreement to exclude any transactions involving the Maxim Group LLC and for Heathcote to continue to provide non-exclusive financial advisory services to the Company. On September 27, 2013, the Company and Heathcote further modified this agreement to provide for investor relations activities specifically related to the exercise of the outstanding warrants and the trading volume in the Company's stock and other corporate finance projects as determined by the CEO of the company. On November 5, 2014, the Company and Heathcote further modified this agreement to provide for investor relations activities and corporate finance projects as determined by the CEO of the company. The modifications were approved by the Audit Committee of the Company's Board of Directors. Total amounts paid to Heathcote were \$40,000 and \$136,500 in fiscal 2015 and fiscal 2014, respectively.

In April 2013 the Company entered into a management services agreement with BDFD pursuant to which the Company provided general management services as well as accounting and administrative services. Income received from the agreement by the Company was fully recognized in income and then proportionately offset by the 48% equity investment in BDFD. Total amounts received from BDFD per the management services agreement were \$14,000 and \$24,000 in fiscal 2015 and 2014, respectively. In addition to the management services the Company performed scope of work services and total amounts received from BDFD for these services were \$0 and \$64,000 in fiscal 2015 and fiscal 2014, respectively.

In conjunction with the purchase of BDI in May 2015 the Company now owns 100% of BDFD and has fully consolidated their accounts in the accompanying consolidated financial statements.

10. Stockholders' Equity:

Preferred Stock – The Company has the authority to issue 5,000,000 shares of preferred stock. The Board of Directors has the authority to issue such preferred shares in series and determine the rights and preferences of the shares as may be determined by the Board of Directors.

On March 28, 2014, Small Island Investments Limited converted all 355,451 shares of the Company's Series C Convertible Preferred Stock, par value \$0.01 per share, into 710,902 shares of the Company's Common Stock, par value \$0.001 per share. The effects of the conversion were to eliminate the Company's payment of dividends on the Series C Convertible Preferred Stock and to eliminate the possible need for the Company to redeem the Series C Convertible Preferred Stock for a cash payment.

Common Stock

On August 21, 2013, the Company completed a public offering of 2,200,000 shares of common stock, together with warrants to purchase 2,200,000 shares of our common stock ("A Warrants") and additional warrants to purchase 1,100,000 shares of our common stock ("B Warrants") with a per unit purchase price of \$2.50. One share of common stock was sold together with one A Warrant, with each A Warrant being exercisable on or before August 16, 2018 for one share of common stock at an exercise price of \$2.75 per share, and together with one B Warrant, with two B Warrants being exercisable on or before May 16, 2014 for one share of common stock at an exercise price of \$2.50 per share. Additionally we issued 330,000 A warrants to purchase 330,000 shares of common stock and 330,000 B warrants to purchase 165,000 of common stock to the underwriters in connection with the public offering with the

same terms as the A and B warrants sold in the offering. Also in connection with the public offering we issued 154,000 representative warrants to purchase 154,000 of common stock at an exercise price of \$3.125 to the underwriters. The representative warrants were exercisable beginning May 16, 2014 and expired on August 16, 2016. As of September 30, 2015 we had received \$9,782,000 in net proceeds from the exercise of warrants, there were no longer any warrants outstanding at September 30, 2015.

On September 5, 2014, the registrant filed with the Securities and Exchange Commission a registration statement on Form S-1, which was subsequently amended by Amendment No. 1 to Form S-1, filed on September 23, 2014 and declared effective on September 24, 2014, and Post-Effective Amendment No. 1 to Form S-1, filed on January 29, 2015 and declared effective on February 4, 2015. The Form S-1 was filed to register the resale by the selling stockholders named in the prospectus included in the Form S-1 of up to 2,094,236 shares of the registrant's common stock, par value \$0.01 per share. The Post-Effective Amendment No. 2 on Form S-3 was filed by the Company to convert the Form S-1 into a registration statement on Form S-3.

Table of Contents

On January 26, 2015, the Company filed a shelf registration statement on Form S-3 with the Securities and Exchange Commission ("SEC") which was declared effective by the SEC on March 25, 2015. The registration statement allows the Company to issue common stock from time to time up to an aggregate amount of \$75 million.

On January 29, 2015, the Company filed an Amendment No. 1 to the Initial Registration Statement on Form S-1 which registered for sale 2,094,236 shares of the Company's common stock by certain selling Stockholders as further described in in our Annual Report on Form 10-K/A for the fiscal year ended September 30, 2014. The Amendment No. 1 was filed to update the financial information and other disclosures, among other things, including the Company's audited consolidated financial statements for the fiscal year ended September 30, 2014.

On May 7, 2015, the Company completed a public offering of 2,783,810 shares of its common stock, which included the full exercise of the underwriters' over-allotment option, at \$8.15 per share for net proceeds, after deducting underwriting discounts and commissions and offering expenses, of approximately \$20.6 million. Net proceeds were used for the acquisition of BDI and to fund the remodeling and reimaging of existing Good Times Burgers & Frozen Custard restaurants, for the development of new Bad Daddy's Burger Bar restaurants, as working capital reserves and for future investment at the discretion of our Board of Directors.

Common Stock Dividend Restrictions – As long as at least two-thirds of the shares of common stock into which the Series B Preferred Stock was converted remains held by the former holders of such converted Series B Preferred Stock, without the written consent or affirmative vote of the holders of three-quarters of the then outstanding votes of the shares of the Series B Preferred Stock and the shares of the common stock, the Company cannot institute any payment of cash dividends or other distributions on any shares of common stock.

Stock Plans – The Company has an Omnibus Equity Incentive Compensation Plan (the "2008 Plan"), approved by shareholders in fiscal 2008, which is the successor equity compensation plan to the Company's 2001 Stock Option Plan (the "2001 Plan"). Pursuant to stockholder approval in September 2012 and February 2014 the total number of shares available for issuance under the 2008 Plan was increased to 1,000,000. As of September 30, 2015, 264,253 shares were available for future grants of nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock, restricted stock units, performance shares, performance units and stock-based awards.

The 2008 Plan serves as the successor to our 2001 Plan, as amended (the "Predecessor Plan"), and no further awards shall be made under the Predecessor Plan from and after the effective date of the 2008 Plan. All outstanding awards under the Predecessor Plan immediately prior to the effective date of the 2008 Plan shall be incorporated into the 2008 Plan and shall accordingly be treated as awards under the 2008 Plan. However, each such award shall continue to be governed solely by the terms and conditions of the instrument evidencing such grant or issuance, and, except as otherwise expressly provided in the 2008 Plan or by the Committee that administers the 2008 Plan, no provision of the 2008 Plan shall affect or otherwise modify the rights or obligations of holders of such incorporated awards.

Stock-based compensation is measured at the grant date, based on the calculated fair value of the award, and is recognized as an expense over the requisite service period (generally the vesting period of the grant).

The Company recorded \$478,000 and \$162,000 in total stock option and restricted stock compensation expense during fiscal years 2015 and 2014, respectively that was classified as general and administrative costs.

Stock Option awards

The Company measures the compensation cost associated with stock option awards by estimating the fair value of the award as of the grant date using the Black-Scholes pricing model. The Company believes that the valuation technique and the approach utilized to develop the underlying assumptions are appropriate in calculating the fair values of the

Company's stock options and stock awards granted during fiscal 2015 and 2014. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by the employees who receive equity awards.

During the fiscal year ended September 30, 2015, the Company granted a total of 80,871 non-statutory stock options and a total of 112,593 incentive stock options, from available shares under its 2008 Plan, as amended, with exercise prices between of \$6.64 and \$9.17 and per-share weighted average fair values between \$4.82 and \$6.88.

During the fiscal year ended September 30, 2014, the Company granted 89,500 incentive stock options from available shares under its 2008 Plan, as amended, with an exercise price of \$2.48 and a per-share weighted average fair value of \$2.12.

F-17

Table of Contents

In addition to the exercise and grant date prices of the stock option awards, certain weighted average assumptions that were used to estimate the fair value of stock option grants are listed in the following table:

	Fiscal 2015 Incentive Stock Options	Fiscal 2015 Non-Statutory Stock Options	Fiscal 2014 Incentive Stock Options
Expected term (years)	6.5	6.5	6.5
Expected volatility	83% to 87.40%	87.4%	112.11%
Risk-free interest rate	1.74% to 1.85%	1.85%	1.94%
Expected dividends	0	0	0

We estimate expected volatility based on historical weekly price changes of our common stock for a period equal to the current expected term of the options. The risk-free interest rate is based on the United States treasury yields in effect at the time of grant corresponding with the expected term of the options. The expected option term is the number of years we estimate that options will be outstanding prior to exercise considering vesting schedules and our historical exercise patterns.

The following table summarizes stock option activity for fiscal year 2015 under all plans:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Yrs.)
Outstanding-beg of year	396,910	\$3.87	
Options granted	193,464	\$7.82	
Options exercised	(36,550)) \$2.05	
Forfeited	(1,527)) \$9.17	
Expired	(11,853)) \$9.33	
Outstanding Sept 30, 2015	540,444	\$5.27	7.4
Exercisable Sept 30, 2015	148,586	\$5.89	4.3

As of September 30, 2015, the aggregate intrinsic value of the outstanding and exercisable options was \$1,216,000 and \$443,000, respectively. Only options whose exercise price is below the current market price of the underlying stock are included in the intrinsic value calculation.

As of September 30, 2015, the total remaining unrecognized compensation cost related to non-vested stock options was \$1,010,000 and is expected to be recognized over a weighted average period of approximately 2.98 years.

There were 36,549 stock options exercised during the twelve months ended September 30, 2015 with proceeds of \$7
