# GRILL CONCEPTS, INC. AND SUBSIDIARIES NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

#### 1. INTERIM FINANCIAL PRESENTATION

The interim condensed consolidated financial statements are prepared pursuant to the requirements for reporting on Form 10-Q. These financial statements have not been audited by our independent registered public accounting firm. The December 26, 2004 balance sheet data was derived from audited financial statements but does not include all disclosures required by generally accepted accounting principles. The interim financial statements and notes thereto should be read in conjunction with the financial statements and notes included in the Company's Form 10-K for the year ended December 26, 2004. In the opinion of management,

these interim financial statements reflect all adjustments of a normal recurring nature necessary for a fair presentation of the results for the interim periods presented. The current period results of operations are not necessarily indicative of results, which ultimately will be reported for the full year ending December 25, 2005.

#### 2004 RESTATEMENT OF FINANCIAL STATEMENTS

The Company began a review of its lease accounting policies following announcements in February 2005 that the Chief Accountant of the Securities and Exchange Commission ("SEC") issued a letter to the American Institute of Certified Public Accountants expressing the SEC staff's views relating to certain lease accounting issues. As a result of this review, the Company revised its accounting for leases in 2004 and restated its historical financial statements as of June 27, 2004 to correct for these errors in its lease accounting.

Historically, the Company recognized straight-line rents and amortized tenant improvement allowances using the initial non-cancelable term of the lease commencing on the date rent payments began. Under generally accepted accounting principles, as highlighted in the SEC guidance, the Company should have recognized rent expense (net of the related tenant improvement allowance amortization) on a straight-line basis over the initial non-cancelable term of the lease, beginning on the later of when the Company had access to the site or the lease was executed. The impact of correctly calculating rent expense was to decrease restaurant operating expenses and decrease general and administrative expenses by \$2,000 and \$1,000, respectively, for the three months and by \$4,000 and \$2,000 for the six months ended June 27, 2004.

6

In closing the 2004 books and records, the Company reviewed the estimated useful lives that it was using to amortize its leasehold improvements. In the case of six restaurants, it was found that the incorrect lives had been used. The Company has revised the amortization period to reflect the shorter of their estimated useful lives or the initial lease term. The impact of the change is to increase depreciation and amortization expense by \$30,000 and \$61,000 for the three and six months ended June 27, 2004.

A portion of the above adjustments was recorded on the books of the LLC's in which we have a majority ownership or we consolidate under FIN 46. As discussed in the footnotes to Form 10K dated December 26, 2004, the Company allocates results to the minority interests based on the underlying economics of the investment. The impact of the above adjustments increased the amount of loss allocated to the minority interests by \$48,000 and \$95,000, respectively for the three and six months ended June 27, 2004.

During fourth quarter of 2004, the Company eliminated amounts that had previously been recorded as restaurant sales revenue arising from complimentary meals and promotional activities. The Company's previous method of recording these activities as restaurant sales revenue with a corresponding increase in operating expense is not in accordance with generally accepted accounting principles. Historically the amounts associated with complimentary meals and promotional activities have been recorded as restaurant revenues, with an offsetting amount in restaurant operations and corporate general and administrative expenses. As revised, the Company has eliminated all amounts for complimentary meals and promotional activities. As a result of these adjustments, revenues were decreased by \$465,000 in the second quarter 2004, restaurant operating expenses decreased by \$424,000 and general and administrative expenses decreased by \$41,000. The adjustments for the full six month period ended June 27, 2004 was a decrease in revenues of \$962,000, a

decrease in restaurant operating expenses of \$875,000 and a decrease in general and administrative expenses of \$87,000. These adjustments have no impact on previously reported income and are non-cash.

The effects of our revisions to previously reported Consolidated Financial Statements as of and for the quarter ended June 27, 2004 are summarized as follows.

7

The following table reflects the effects of the restatement on the Consolidated Statement of Operations:

		JUNE	27, 2004
