**ITEM 1.**

**INFORMATION STATEMENT**

This information statement is being furnished to all holders of the common stock of Nexia Holdings, Inc., a Nevada Company ("Nexia"), in connection with resolutions of the Board of Directors and the written consent of the holders of in excess of 50% of the voting rights of the shareholders of Nexia. The board of directors, as approved by the written consent of the holders of in excess of 53% of the voting rights of the shareholders of Nexia, provides public notice of the approval and authorization to conduct a reverse split of the common stock of Nexia on a basis of up to 1-for-10 shares. The reverse split would be conducted at a future date and time to be determined by the board of directors.

The Board of Directors, and persons owning a majority of the outstanding voting securities of Nexia, have unanimously adopted, ratified and approved the proposed actions by the Nexia board of directors. No other votes are required or necessary. See the caption "Vote Required for Approval" below. The reduction in the stated par value of the shares of common stock would become effective upon filing of an amendment to the Articles of Incorporation of Nexia with the Nevada Secretary of States office. Any reverse split adopted by the board of directors will become effective upon final approval by the board and the filing of required notices with the Nevada Secretary of State's office.

The Form 10-QSB for quarterly period ended September 30, 2006 and the form 10-KSB for the year ended December 31, 2005, and any reports on Form 8-K filed by Nexia during the past year with the Securities and Exchange Commission may be viewed on the Securities and Exchange Commissions web site at [www.sec.gov](http://www.sec.gov) in the Edgar Archives. Nexia is presently current in the filing of all reports required to be filed by it. See the caption Additional Information, below.

**GRANT AUTHORITY TO THE BOARD OF DIRECTORS TO CONDUCT UP TO A ONE-FOR TEN SHARE REVERSE STOCK SPLIT OF NEXIA'S COMMON STOCK.**

Nexia's board had determined that it would be in the Company's best interest in the near future to conduct a reverse split of its common stock on up to a one for ten basis and has received the consent of holders of a majority of the voting rights of the Company's securities to authorize the board to conduct such a reverse split in the Board's discretion.

The board believes that a reverse split would provide for the combination of the presently issued and outstanding shares of common stock into a smaller number of shares of identical common stock. This process, that is known as a reverse split, would take up to ten shares of the presently issued and outstanding common stock on the effective date of the amendment to the articles of incorporation that would carry out the reverse split and convert those shares into one share of the post-reverse stock split common stock.

The board has indicated that fractional shares will not be issued. Instead, Nexia will issue one full share of the post-reverse stock split common stock to any shareholder who would have been entitled to receive a fractional share as a result of the process. Each shareholder will hold the same percentage of the outstanding common stock immediately following the reverse stock split as that shareholder did immediately prior to the stock split, except for minor adjustment as a result of the additional shares that will need to be issued a result of the treatment of fractional shares.

Reasons for the reverse stock split:

The primary purposes of the reverse stock split are to accomplish the following:

- a) increase the per share price of the common stock to help maintain the interest of the markets
- b) reduce the number of outstanding shares of common stock to a level more consistent with other public companies with a similar anticipated market capitalization; and
- c) provide the management of the Company with additional flexibility to issue shares to facilitate future stock acquisitions and financing for the Company.

For the above reasons, the board believes that the reverse stock split is in the best interest of the Company and its shareholders. There can be no assurance, however, that the reverse stock split will have the desired benefits.

#### **Effects of the reverse stock split.**

The reverse stock split will be effected by filing an amendment to the Company's Articles of Incorporation with the Nevada Secretary of State's office and will become effective upon such filing and final approval of the board of directors of the Company. The actual timing of any such filing will be made by the board of directors based upon its evaluation as to when the filing will be most advantageous to the Company and its shareholders.

Nexia is currently authorized to issue 50,000,000,000 shares of its common stock of which 8,114,768,850 shares are currently issued and outstanding, 10,000,000 shares of Series B Preferred Stock, which have a 1 for 500 voting right or a total of 5,000,000,000 votes in any shareholder action and 225,000 shares of Series A Preferred Stock, which have a 1 for 100 voting right or 22,500,000 votes in any shareholder action, as of January 5, 2007. Currently, shareholders holding votes equal to not less than 7,000,000,000 of the voting rights have consented in writing to the proposal, this constitutes approval of not less than 50% of the voting rights entitled to vote in any shareholder action. A reverse split on a one for ten basis would reduce the number of issued and outstanding shares of common stock to approximately 811,476,885 but will not reduce the number of authorized shares of common stock. The reverse split will not have any effect on the stated par value of the common stock.

The effect of the reverse split upon existing shareholders of the common stock will be that the total number of shares of Nexia's common stock held by each shareholders will automatically convert into the number of whole shares of common stock equal to the number of shares of common stock owned immediately prior to the reverse stock split divided by up to 10, with an adjustment for any fractional shares. (Fractional shares will be rounded up into a whole share).

If acted upon by the Company's board of directors, the consent by the majority of the common stock voting rights reported herein, would result in each shareholder's percentage ownership interest in the company and proportional voting power will remain virtually unchanged, except for minor changes and adjustments that will result from rounding fractional shares into whole shares. The rights and privileges of the holders of shares of common stock will be substantially unaffected by the reverse stock split. All issued and outstanding options, warrants, and convertible securities would be appropriately adjusted for the reverse stock split automatically on the effective date of the reverse

stock split. All shares, options, warrants or convertible securities that the Company has agreed to issue (or agrees to issue prior to the effective date of the reverse stock split) also will be appropriately adjusted for the reverse stock split.

The reverse stock split may also result in some shareholders holding "odd lots" of less than 100 shares of common stock. Brokerage commissions and other costs of transactions in odd lots may be higher, particularly on a per-share basis, than the cost of transactions in even multiples of 100 shares.

As a result of the proposal to conduct a reverse stock split there is a significant risk of shareholder value represented by the common stock being diluted. The proposed reverse split creates a risk that current shareholders of the common stock will see the value of those shares diluted through the issuance of additional authorized but currently unissued shares. The current net tangible book value per share would be diluted if additional shares are issued without an increase taking place in the net book value of the assets of the Company. The current book value of shares held by existing shareholders would not be maintained in the event additional shares are issued. In the event that the board approves a 1 for 10 reverse split of the common stock and reduces the number of outstanding shares of common stock to approximately 811,476,885, the issuance of all 50,000,000,000 authorized shares would have a dilutive effect upon existing shareholders. If all authorized shares of common stock were issued each share would drop from representing 0.000000001 (1/811,476,885) to 0.00000000002% (1/50,000,000,000) of the shares of common stock issued and outstanding.

After the taking of any action to conduct or authorize the reverse split is filed there is not a requirement that shareholders obtain new or replacement share certificates. Each holder of record of shares of the Company's common stock that is outstanding on the effective date of the reverse stock split may contact the Company's transfer agent to exchange the certificates for new certificates representing the number of whole shares of post-reverse stock split common shares into which the existing shares have been converted as a result of the reverse stock split.

**EXISTING CERTIFICATES SHOULD NOT BE SENT TO THE COMPANY OR THE TRANSFER AGENT BEFORE THE EFFECTIVE DATE OF THE FILING OF THE PROPOSED AMENDMENTS TO THE ARTICLES OF INCORPORATION.**

Until the shareholder forwards a completed letter of transmittal, together with certificates representing such shareholder's shares of pre-reverse stock split common stock to the transfer agent and receives in return a new certificate representing shares of post-reverse stock split common stock, such shareholder's pre-reverse stock split common stock shall be deemed equal to the number of whole shares of post-reverse stock split common shares to which such shareholder is entitled as a result of the reverse stock split.

**CERTAIN FEDERAL INCOME TAX CONSIDERATIONS**

The following discussion describes certain material federal income tax considerations relating to the proposed reverse stock split. This discussion is based upon the Internal Revenue Code, existing and proposed regulations thereunder, legislative history, judicial decisions, and current administrative rulings and practices, all as amended and in effect on the date hereof. Any of these authorities could be repealed, overruled, or modified at any time. Any such change could be retroactive and, accordingly, could cause the tax consequences to vary substantially from the consequences described herein. No ruling from the Internal Revenue Service (the "IRS") with respect to the matters discussed herein has been requested, and there is no assurance that the IRS would agree with the conclusions set forth in this discussion.

This discussion may not address federal income tax consequences that may be relevant to particular shareholders in light of their personal circumstances or to shareholders who may be subject to special treatment under the federal income tax laws. This discussion also does not address any tax consequences under state, local or foreign laws.

**SHAREHOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCE OF THE REVERSE STOCK SPLIT FOR THEM, INCLUDING THE APPLICABILITY OF ANY STATE, LOCAL OR FOREIGN TAX LAWS, CHANGES IN APPLICABLE TAX LAWS AND ANY PENDING OR PROPOSED LEGISLATION.**

The reverse stock split is intended to be a tax-free recapitalization to the Company and its shareholders, except for those shareholders who receive a whole share of common stock in lieu of a fractional share. Shareholders will not recognize any gain or loss for federal income tax purposes as a result of the reverse stock split, except for those shareholders receiving a whole share of common stock in lieu of fractional shares (as described below). The holding period for shares of common stock after the reverse split will include the holding period of shares of common stock before the reverse stock split, provided, that such shares of common stock are held as a capital asset at the effective date of the amendment. The adjusted basis of the shares of common stock after the reverse stock split will be the same as the adjusted basis of the shares of common stock before the reverse stock split excluding the basis of fractional shares.

A shareholder who receives a whole share of common stock in lieu of a fractional share generally may recognize gain in an amount not to exceed the excess of the fair market value of such whole share over the fair market value of the fractional shares to which the shareholder was otherwise entitled.

**QUESTIONS AND ANSWERS REGARDING THE PROPOSAL AUTHORIZING THE BOARD TO CONDUCT A REVERSE STOCK SPLIT OF THE COMMON STOCK.**

**Q. WHY HAS THE PROPOSAL BEEN MADE TO AUTHORIZE A REVERSE SPLIT IN THE NUMBER OF COMMON SHARES?**

A. Our Board of Directors believes that the proposed reverse split in the number of common stock would enable Nexia to respond to potential business opportunities, provide sufficient shares for its employee stock benefit plan and to pursue important objectives that may be anticipated. Accordingly, the board of directors believes that it is in the best interests of stockholders to conduct a reverse split of the number of common shares outstanding. Our Board of Directors believes that the resulting shares will provide us with the flexibility to issue common stock for proper corporate purposes that may be identified by our Board of Directors from time to time, such as financing, acquisitions, compensation of employees, the establishment of strategic business relationships with other companies or the expansion of Nexia's business or product lines through the acquisition of other businesses or products. The Board of Directors also believes the proposed change to the shares of common stock will enable Nexia to attract and retain talented employees, directors and consultants through the grant of stock options and other stock-based incentives.

**Q. WHY IS APPROVAL SOUGHT FOR THE PROPOSED REVERSE STOCK SPLIT OF THE COMMON STOCK ON A 1 FOR 10 BASIS?**

A. The Board seeks approval of a reverse stock split of the common stock of up to 1 for 10 shares of the currently issued common stock. It is the expectation of the Board that such a reverse stock split would increase the market price of the resulting common stock and thus maintain a higher level of market interest in the shares, including shares issued pursuant to the Company's Employee Benefit Plans, provide additional flexibility to management with regard to the issuance of shares and maintaining the proper market capitalization of the Company. The Board believes that the reverse stock split will enhance the Company's flexibility with regard to the ability to issue common stock for proper corporate purposes that may be identified from time to time, such as financing, acquisitions, compensation of employees, the establishment of strategic business relationships with other companies or the expansion of Nexia's business or product lines through the acquisition of other businesses or products.

**Q. HAS THE BOARD OF DIRECTORS APPROVED THE PROPOSALS TO CONDUCT THE PROPOSED REVERSE STOCK SPLIT AND REDUCE THE STATED PAR VALUE OF THE COMMON STOCK?**

A. All members of the Board of Directors have approved the reverse stock split of the common stock as is in the best interest of Nexia and the best interest of the current shareholders of Nexia.

**Q. WILL I RECEIVE ANY ADDITIONAL SHARES OR A DIFFERENT CLASS OF SHARES AS A RESULT OF THESE PROPOSALS?**

A. As a current shareholder of Nexia your class of stock and the number of shares that you hold will be affected as a result of the adoption of the proposal to authorize a reverse stock split. For example, a current holder of 746 shares of common stock will become a holder of 75 shares of common stock in the event that the board approves a 1 for 10 reverse stock split, a holder of 1,800 shares of common stock would become the holder of 180 shares of common stock. The reverse stock split will not result in different classes or additional shares being sent to existing shareholders.

**Q. WILL THE PROPOSED REVERSE SPLIT OF THE COMMON STOCK RESULT IN ANY TAX LIABILITY TO ME?**

A. The proposed reverse stock split is intended to be tax free for federal income tax purposes.

**Q. WHAT VOTE OF THE SHAREHOLDERS WILL RESULT IN THE PROPOSAL BEING PASSED?**

A. To approve the proposal, the affirmative vote of a majority of the voting rights of the common stock and other shares holding voting rights is required. Consents in favor of the proposal have already been received from shareholders holding a majority of the voting securities of Nexia

**Q. WHO IS PAYING FOR THIS INFORMATION STATEMENT?**

A. The Company will pay for the delivery of this information statement.

**Q. WHOM SHOULD I CONTACT IF I HAVE ADDITIONAL QUESTIONS?**

A: Richard Surber, President of Nexia, 59 West 100 South, Second Floor, Salt Lake City, Utah 84101, telephone: (801) 575-8073.
