NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2013 AND 2014

1. DESCRIPTION OF BUSINESS AND ORGANIZATION

NeuStar, Inc. (the Company or Neustar) is a neutral and trusted provider of real-time information services and analytics, using authoritative, hard-to-replicate datasets and proprietary analytics to help its clients promote and protect their businesses. The Company develops unique solutions using proprietary, third-party and client data sets. These solutions provide accurate, up-to-the-minute insights and data driven intelligence, enabling its clients to make informed, actionable decisions in real time, one customer interaction at a time. The Company's Marketing Services enhance its clients' ability to acquire and retain valuable customers across disparate platforms. The Company's Security Services help its clients direct and manage Internet traffic flow, resolve Internet queries and protect clients' online assets against a growing number of cyber threats. The Company also offers a broad range of data services. The Company primarily serves clients in the communications, financial services, media and advertising, retail and eCommerce, Internet, and technology industries.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Unaudited Interim Financial Information

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the three months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the full fiscal year. The consolidated balance sheet as of December 31, 2013 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and notes required by U.S. GAAP for complete financial statements. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 (the 2013 Form 10-K) filed with the Securities and Exchange Commission. Certain prior period amounts have been reclassified to conform to current period presentation.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting periods. Significant estimates and assumptions are inherent in the analysis and the measurement of deferred tax assets; the identification and quantification of income tax liabilities due to uncertain tax positions; recoverability of intangible assets, other long-lived assets and goodwill; and the determination of the allowance for doubtful accounts. The Company bases its estimates on historical experience and assumptions that it believes are reasonable. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic Financial Instruments requires disclosures of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value. Due to their short-term nature, the carrying amounts reported in the accompanying unaudited consolidated financial statements approximate the fair value for cash and cash equivalents, accounts receivable, accounts payable and accrued expenses. The Company believes the carrying value of its notes receivable approximates fair value as the interest rate approximates a market rate (Level 2). The Company believes the carrying value of its \$325 million senior secured term loan facility (2013 Term Facility) and borrowings on its revolving credit facility (2013 Revolving Facility) approximate the fair value of the debt as the terms and interest rates approximate market rates (Level 2) (see Note 5). The Company determines the fair value of its \$300 million aggregate principal amount of 4.50% senior notes due 2013 (Senior Notes) using a secondary market

price on the last trading day in each period as quoted by Bloomberg (Level 2) (see Note 5). The Company determines the fair value of marketable securities and deferred compensation based on quoted market prices (Level 1).

NEUSTAR, INC.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2013 AND 2014

The estimated fair values of the Company's financial instruments are as follows (in thousands):

	December 31, 2013		March 31, 2014	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Cash and cash equivalents	\$223,309	\$223,309	\$386,453	\$386,453

Restricted Cash

As of December 31, 2013 and March 31, 2014, cash of \$1.9 million and \$1.8 million, respectively, was restricted as collateral for certain of the Company's outstanding letters of credit and for deposits on leased facilities.

3. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fair Value Measurements and Disclosure Topic of FASB ASC establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1. Observable inputs, such as quoted prices in active markets;

Level 2. Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company evaluates assets and liabilities subject to fair value measurements on a recurring and non-recurring basis to determine the appropriate level at which to classify them for each reporting period.

The following table sets forth, as of December 31, 2013 and March 31, 2014, the Company's financial and non-financial assets and liabilities that are measured at fair value on a recurring basis, by level within the fair value hierarchy (in thousands):

	December 31, 2013			
	Level 1	Level 2	Level 3	Total
Marketable securities ⁽¹⁾	\$3,567	\$—	\$—	\$3,567
	March 31, 2014

4. GOODWILL AND INTANGIBLE ASSETS

On January 15, 2014, the Company acquired an entity that designs, develops, and maintains software tools and applications that enable North American communications service providers to exchange back-office provisioning information within and between carriers' networks. Total consideration for this purchase included cash consideration of \$14.1 million, of which \$12.1 million was paid at closing and \$2.0 million was retained by the Company as a reserve fund for satisfaction of potential indemnification claims. The transaction was accounted for under the acquisition method of accounting in accordance with the Business Combinations Topic of the FASB ASC and the results of operations have been included in the Company's consolidated statement of operations since the date of the acquisition. Of the total purchase price, the Company recorded \$5.9 million of definite-lived intangible assets and \$7.7 million of goodwill. The allocation of the purchase price is preliminary pending the finalization of the working capital amounts, deferred tax assets and income and non-income based tax liabilities. Goodwill is expected to be deductible for tax purposes. During the three months ended March 31, 2014, the Company recorded \$0.3 million of acquisition costs in general and administrative expense related to this transaction.

On October 29, 2013, the Company acquired Aggregate Knowledge, Inc., a leading campaign and predictive analytics platform for advertising agencies and brand marketers. As of March 31, 2014, the allocation of the purchase price is preliminary pending the finalization of deferred tax assets and income and non-income based tax liabilities.

Goodwill

The Company's goodwill as of December 31, 2013 and March 31, 2014 is as follows (in thousands):

	December 31, 2013 ⁽¹⁾	Adjustments	Acquisition	March 31, 2014
Gross goodwill	\$736,414	\$226	\$7,727	\$744,367

6. STOCKHOLDERS' EQUITY

Stock-Based Compensation

The Company maintains six compensation plans: the NeuStar, Inc. 1999 Equity Incentive Plan (1999 Plan); the NeuStar, Inc. 2005 Stock Incentive Plan (2005 Plan); the Amended and Restated NeuStar, Inc. 2009 Stock Incentive Plan (2009 Plan); the Targus Information Corporation Amended and Restated 2004 Stock Incentive Plan (TARGUSinfo Plan); the AMACAI Information Corporation 2004 Stock Incentive Plan (AMACAI Plan) (collectively, the Plans), and the Neustar, Inc. Employee Stock Purchase Plan (ESPP). The Company may grant to its directors, employees and consultants awards under the 2009 Plan in the form of incentive stock options, nonqualified stock options, stock appreciation rights, shares of restricted stock, restricted stock units, performance vested restricted stock units (PVRSUs) and other stock-based awards. The aggregate number of shares of Class A common stock with respect to which all awards may be granted under the 2009 Plan is 11,911,646, plus the number of shares underlying awards granted under the 1999 Plan, the 2005 Plan, the TARGUSinfo Plan, and the AMACAI Plan that remain undelivered following any expiration, cancellation or forfeiture of such awards. As of March 31, 2014, a total of 5,758,090 shares were available for grant or award under the 2009 Plan.

The Company's ESPP permits employees to purchase shares of common stock at a 15% discount from the market price of the stock at the beginning or at the end of a six-month purchase period, whichever is less. The six-month purchase periods begin on May 1 and November 1 each year. As of March 31, 2014, a total of 545,104 shares were available to be issued under the ESPP.

The term of any stock option granted under the Plans may not exceed ten years. The exercise price per share for options granted under the Plans may not be less than 100% of the fair market value of the common stock on the option grant date. The Board of Directors or Compensation Committee of the Board of Directors determines the vesting schedule of the options, with a maximum vesting period of ten years. Options granted generally vest with respect to 25% of the shares underlying the option award on the first anniversary of the grant date and 2.083% of the shares on the last day of each succeeding calendar month thereafter. The options expire seven to ten years from the date of grant and are forfeitable upon termination of an option holder's service.

The Company has granted and may in the future grant restricted stock to directors, employees and consultants. The Board of Directors or Compensation Committee of the Board of Directors determines the vesting schedule of the restricted stock, with a maximum vesting period of ten years. Restricted stock granted generally vests in equal annual installments over a four-year term.

For grants under the Company's Plans, stock-based compensation expense recognized for the three months ended March 31, 2013 and 2014 was \$9.0 million and \$11.7 million, respectively. As of March 31, 2014, total unrecognized compensation expense related to non-vested stock options, non-vested restricted stock awards, non-vested restricted stock units and non-vested PVRSUs granted prior to that date was estimated at \$69.5 million, which the Company expects to recognize over a weighted average period of approximately 1.39 years. Total unrecognized compensation expense as of March 31, 2014 is estimated based on outstanding non-vested stock options, non-vested restricted stock awards, non-vested restricted stock units and non-vested PVRSUs. Stock-based compensation expense may increase or decrease in future periods for subsequent grants or forfeitures, and changes in the estimated fair value of non-vested awards granted to consultants.

Stock Options

The Company utilizes the Black-Scholes option pricing model to estimate the fair value of stock options granted. The Company did not grant any options during the three months ended March 31, 2013 and 2014. The following table summarizes

During the three months ended March 31, 2014, the Company repurchased 32,932 shares of common stock for an aggregate purchase price of \$1.1 million pursuant to the participants' rights under the Company's stock incentive plans to elect to use common stock to satisfy their minimum tax withholding obligations.

Performance Vested Restricted Stock Units

2012 Long-Term Incentive Program

During the three months ended March 31, 2014, the Company established the performance goals for the period beginning on January 1, 2014 and ending on December 31, 2014. The establishment of the 2014 performance goals resulted in the grant of 476,080 PVRsUs with an aggregate fair value of \$16.7 million.

For executive management, the awarded PVRsUs are subject to five one-year performance periods, the first of which began on January 1, 2012 and ended December 31, 2012 and the last of which begins on January 1, 2016 and ends on December 31, 2016. Each executive is eligible to earn up to 150% of one-fifth of the award with respect to each annual performance period, subject to the achievement of the respective performance goals for each one-year performance period. For non-executive management, the PVRsUs awarded are subject to three one-year performance periods, the first of which began on January 1, 2012 and ended December 31, 2012 and the last of which begins on January 1, 2014 and ends on December 31, 2014. Each non-executive is eligible to earn up to 150% of one-third of the award with respect to each annual performance period subject to the achievement of the respective performance goals for each one-year performance period. For both executive and non-executive management, the performance goals for each of the 2012, 2013 and 2014 performance periods were based on: (i) Non-NPAC Revenue, (ii) Total Revenue, and (iii) Adjusted Net Income. The performance goals for the future one-year performance periods will

consist of financial measures, weights and payouts to be established no later than 90 days after the beginning of each such period.

FOR THE THREE MONTHS ENDED MARCH 31, 2013 AND 2014

Subject to each participant's continued service and to certain other terms and conditions, the portion of the award, if any, earned (a) by executive management with respect to the first three performance periods will vest on January 1, 2015 and the portion of the award, if any, earned with respect to the final two performance periods will vest on January 1, 2016 and January 1, 2017, respectively; and (b) by non-executive management with respect to all three performance periods, 75% of the earned amount will vest on the first business day of 2015, and the remaining 25% of the earned amount will vest on the first business day of 2016. Compensation expense related to these awards is recognized over the requisite service period based on the Company's estimate of the achievement of the performance target and the length of the vesting period.

Long-Term Incentive Program

During the three months ended March 31, 2014, the Company established the performance goals for the period beginning on January 1, 2014 and ending on December 31, 2014. The establishment of the 2014 performance goals resulted in the grant of 123,945 PVRsUs with an aggregate fair value of \$4.3 million, originally awarded during the year ended December 31, 2013.

The awarded PVRsUs are subject to three one-year performance periods. Each participant is eligible to earn up to 150% of one-third of the award with respect to each annual performance period, subject to the achievement of the respective performance goals for each one-year performance period. The performance goal for the performance period from January 1, 2014 through December 31, 2014 was based on: (i) Non-NPAC Revenue, (ii) Total Revenue, and (iii) Adjusted Net Income. The performance goals for the future one-year performance periods will consist of financial measures, weights and payouts to be established no later than 90 days after the beginning of each such period.

Subject to each participant's continued service and to certain other terms and conditions, the portion of the award, if any, earned will vest on March 1 in the year following the respective annual performance period. Compensation expense related to these awards is recognized over the requisite service period based on the Company's estimate of the achievement of the performance target and the length of the vesting period.

Non-Vested PVRsU Activity

The fair value of a PVRsU is measured by reference to the closing market price of the Company's common stock on the date of the grant. Compensation expense is recognized on a straight-line basis over the requisite service period based on the number of PVRsUs expected to vest. As of March 31, 2014, the level of achievement of the performance target awards for the 2012, 2013 and 2014 performance years was 129.5%, 111.2% and 100%, respectively.

The following table summarizes the Company's non-vested PVRsU activity for the three months ended March 31, 2014:

	Shares	Weighted-Average Grant Date Fair Value	Aggregate Intrinsic Value (in millions)
Non-vested December 31, 2013	1,440,467	\$39.04	
Incremental achieved ⁽¹⁾	65,476	38.35	
Granted	600,025	34.97	
Vested	(258,959)) 31.29	
Forfeited	(71,012)) 38.13	
Non-vested March 31, 2014	1,775,997	\$38.80	\$57.7

⁽¹⁾ Incremental achieved represents the additional awards in excess of the target grant resulting from the achievement of performance goals at levels above the performance targets established at the grant date.

The total aggregate intrinsic value of PVRsUs vested during the three months ended March 31, 2014 was approximately \$12.0 million. The Company repurchased 97,906 shares of common stock for an aggregate purchase price of \$4.5 million pursuant to the participants' rights under the Plans to elect to use common stock to satisfy their minimum tax withholding obligations.

Restricted Stock Units

The following table summarizes the Company's restricted stock units activity for the three months ended March 31, 2014:

	Shares	Weighted-Average Grant Date Fair Value	Aggregate Intrinsic Value (in millions)
Outstanding at December 31, 2013	1,378,162	\$40.23	
Granted	—	—	
Vested	(134,643) 37.54	
Forfeited	(32,398) 43.06	
Outstanding at March 31, 2014	1,211,121	\$40.46	\$39.4

The restricted stock units previously granted to non-management directors of the Company's Board of Directors will fully vest on the earlier of the first anniversary of the date of grant or the day preceding the date in the following calendar year on which the Company's annual meeting of stockholders is held. Upon vesting of restricted stock units granted prior to 2011, each director's restricted stock units automatically will be converted into deferred stock units, and will be delivered to the director in shares of the Company's stock six months following the director's termination of board service. Upon vesting of restricted stock units that were granted in 2011 and subsequent periods, each director's restricted stock units automatically will be converted into deferred stock units and will be delivered to the director in shares of the Company's stock six months following the director's termination of board service unless a director elected near-term delivery, in which case the vested restricted stock units will be delivered on August 15 in the year following the initial grant.

The total aggregate intrinsic value of restricted stock units vested during the three months ended March 31, 2014 was approximately \$6.7 million. The Company repurchased 53,667 shares of common stock for an aggregate purchase price of \$2.7 million pursuant to the participants' rights under the Plans to elect to use common stock to satisfy their minimum tax withholding obligations.

Employee Stock Purchase Plan

The Company estimated the fair value of stock-based compensation expense associated with its ESPP using the Black-Scholes option pricing model, with the following assumptions:

	Three Months Ended March 31, 2014	
Dividend yield	—	%
Expected volatility	23.27	%
Risk-free interest rate	0.08	%
Expected life of employee stock purchase plan options (in months)	6	

Dividend yield - The Company has never declared or paid dividends on its common stock and does not anticipate paying dividends in the foreseeable future.

Expected volatility - Volatility is a measure of the amount by which a financial variable such as a share price has fluctuated (historical volatility) or is expected to fluctuate (expected volatility) during a period. The Company considered the historical volatility of its stock price over a term similar to the expected life of the option to purchase shares under the ESPP during a 6 month purchase period.

Risk-free interest rate - The risk-free interest rate is based on U.S. Treasury bonds issued with similar life terms to the expected life of the ESPP options.

Expected life of ESPP options - The expected life of ESPP options was based on the six-month purchase period.

Share Repurchase Program

On January 29, 2014, the Company announced that its Board of Directors authorized a \$200 million share repurchase program. The program commenced on January 30, 2014 and will expire on December 31, 2014. Share repurchases under the program will be completed in accordance with guidelines specified under Rule 10b5-1 and Rule 10b-18 of the Securities and Exchange Act of 1934. All repurchased shares are retired. During the three months ended March 31, 2014, the Company repurchased 1.2 million shares of its Class A common stock at an average price of \$34.85 per share for a total purchase price of \$41.9 million.

7. BASIC AND DILUTED NET INCOME PER COMMON SHARE

The following table provides a reconciliation of the numerators and denominators used in computing basic and diluted net income per common share (in thousands, except per share data):

	Three Months Ended March 31,	
	2013	2014
Computation of basic net income per common share:		
Net income	\$33,764	\$31,683
Weighted average common shares and participating securities outstanding – basic	66,184	61,240
Basic net income per common share	\$0.51	\$0.52
Computation of diluted net income per common share:		
Weighted average common shares and participating securities outstanding – basic	66,184	61,240
Effect of dilutive securities:		
Stock-based awards	1,430	1,513
Weighted average common shares outstanding – diluted	67,614	62,753
Diluted net income per common share	\$0.50	\$0.50

Diluted net income per common share reflects the potential dilution of common stock equivalents such as options, warrants and shares issuable under the ESPP, to the extent the impact is dilutive. Stock-based awards to purchase an aggregate of 808 and 522,163 shares were excluded from the calculation of the denominator for diluted net income per common share for the three months ended March 31, 2013 and 2014, respectively, due to their anti-dilutive effects.

8. ACCUMULATED OTHER COMPREHENSIVE LOSS

The following table provides a reconciliation of the changes in accumulated other comprehensive loss, net of tax, by component (in thousands):

9. RESTRUCTURING CHARGES

In the first quarter of 2014, the Company initiated a realignment of its organization and recorded severance and severance-related charges of \$5.0 million. The Company anticipates it may incur additional restructuring charges of approximately \$7.0 million in severance and severance-related costs and lease and facilities exit costs during the remainder of 2014. Accrued restructuring costs are recorded in other current liabilities presented in the Company's consolidated balance sheets.

10. OTHER (EXPENSE) INCOME

Other (expense) income consists of the following (in thousands):

	Three Months Ended March 31,	
	2013	2014
Interest and other expense:		
Interest expense	\$6,565	\$6,085
Loss on debt modification and extinguishment	10,886	—

Other	—	(22
Total	\$17,562	\$5,997
Interest and other income:		
Interest income	\$141	\$95
Total	\$141	\$95

In 2013, the Company refinanced its 2011 credit facilities. Certain investors of the 2011 credit facilities reinvested in either or both of the 2013 Credit Facilities and Senior Notes and the change in the present value of future cash flows between the investments was less than 10%. Accordingly, the Company accounted for this refinancing event for these investors as a debt modification. Certain investors of the 2011 credit facilities either did not invest in the 2013 Credit Facilities or Senior Notes or the change in the present value of future cash flows between the investments was greater than 10%. Accordingly, the Company accounted for this refinancing event for these investors as a debt extinguishment. In applying debt modification accounting, in January 2013, the Company recorded \$25.8 million in loan origination fees and deferred financing costs, of which \$16.9 million related to investors that reinvested in either or both of the 2013 Credit Facilities and Senior Notes. This amount is being amortized into interest expense over the term of the 2013 Credit Facilities and Senior Notes using the effective interest method. In addition, related to this refinancing event, the Company recorded \$10.9 million in interest and other expense, comprised of \$9.4 million in loss on debt extinguishment and \$1.5 million in debt modification expense.

11. INCOME TAXES

The Company's effective tax rate decreased to 35.9% for the three months ended March 31, 2014 from 36.8% for the three months ended March 31, 2013 primarily due to reversal of the Company's unrecorded tax benefits upon the completion of an Internal Revenue Service (IRS) audit for the year ended December 31, 2009.

As of December 31, 2013 and March 31, 2014, the Company had unrecognized tax benefits of \$6.8 million and \$6.0 million, respectively, of which \$6.4 million and \$5.5 million, respectively, would affect the Company's effective tax rate if recognized.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. During the three months ended March 31, 2013 and 2014, the Company recognized potential interest and penalties of \$19,000 and \$34,000, respectively. As of December 31, 2013 and March 31, 2014, the Company had established reserves of approximately \$286,000

and \$236,000, respectively, for accrued potential interest and penalties related to uncertain tax positions. To the extent interest and penalties are not assessed with respect to uncertain tax positions, amounts accrued will be reduced and reflected as a reduction of the overall income tax provision. During the three months ended March 31, 2014, accrued interest and penalties decreased by \$84,000 due to the completion of the Company's IRS audit for the year ended December 31, 2009.

The Company files income tax returns in the United States Federal jurisdiction and in many state and foreign jurisdictions. The tax years 2008 through 2012 remain open to examination by the major taxing jurisdictions to which the Company is subject. The IRS completed an examination of the Company's federal income tax return for the year ended December 31, 2009. The audit resulted in no adjustments.

The Company anticipates that total unrecognized tax benefits will decrease by approximately \$133,000 over the next 12 months due to the expiration of certain statutes of limitations and settlement of tax audits.

12. SEGMENT INFORMATION

The Company engages in business activities as a single entity and the chief operating decision maker reviews consolidated operating results and allocates resources based on consolidated results. Under this structure, the Company has a single operating segment.

Enterprise-Wide Disclosures

Geographic area revenue and service revenue from external clients for the three months ended March 31, 2013 and 2014, and geographic area long-lived assets as of December 31, 2013 and March 31, 2014 are as follows (in thousands):

in subsidiaries are accounted for using the equity method; accordingly, entries necessary to consolidate the parent company and all of the guarantor and non-guarantor subsidiaries are reflected in the eliminations column. Intercompany amounts that will not be settled between entities are treated as contributions or distributions for purposes of these consolidated financial statements. The guarantees are full and unconditional and joint and several. A Subsidiary Guarantor will be released from its obligations under the Senior Notes when: (a) the Subsidiary Guarantor is sold or sells substantially all of its assets; (b) the Subsidiary Guarantor is designated as an unrestricted subsidiary as defined by the Senior Notes; (c) the Subsidiary Guarantor's guarantee of indebtedness under the Senior Notes is released (other than discharge through repayment); or (d) the requirements for legal or covenant defeasance or discharge of the indenture have been satisfied.

14. SUBSEQUENT EVENT

On April 14, 2014, the Company completed its acquisition of .CO Internet S.A.S and certain associated assets. .CO Internet is the exclusive operator of the worldwide registry for Internet addresses with the “.co” top-level domain. Total consideration for this purchase, which is subject to certain customary working capital adjustments, includes cash consideration of \$113.7 million, of which \$86.7 million was paid to the sellers at closing and \$27.0 million was deposited into escrow for the satisfaction of potential indemnification and certain performance obligations. In addition, the Company may be required to make a contingent payment to the sellers of up to \$6.0 million prior to or during the first quarter of 2020 in the event that the sellers satisfy certain post-closing performance obligations. The purchase price will be accounted for under the acquisition method of accounting in accordance with Business Combination Topic of the FASB ASC.

Forward-Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements, including, without limitation, statements concerning the conditions in our industry, our operations and economic performance, and our business and growth strategy. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “expects,” “intends,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” “continue” or the negative of these other comparable terminology. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Many of these risks are beyond our ability to control or predict. These forward-looking statements are based on estimates and assumptions made by our management that we believe to be reasonable but are inherently uncertain and subject to a number of risks and uncertainties. These risks and uncertainties include, without limitation, those described in this report, in Part II, “Item 1A. Risk Factors” and in subsequent filings with the Securities and Exchange Commission. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as required by law.

Overview

During the first quarter, we demonstrated that we are delivering on our strategic initiative to become a premier provider of information services and analytics. In particular, our Marketing Services grew 21% this quarter, while the market we serve is estimated to grow double-digits annually.¹ Our Security Services grew 11% in the cloud-based security services market which is anticipated to grow at 10%.² In the first quarter, revenue grew 6% to \$229.9 million primarily driven by strong execution in our information services, as well as strong performance in our NPAC Services.

The North American Portability Management, or NAPM, extended the 2010 local number portability administrator selection process from January 20, 2014 to May 6, 2014. The North American Numbering Council, or NANC, held both public and private meetings regarding the selection process. At the public meeting, the NANC announced it had reviewed the NAPM's report and recommendation and that it would submit the report to the Federal Communications Commission, or FCC. The NANC reaffirmed that all other aspects of the selection process remain subject to a non-disclosure agreement and are therefore confidential. In the quarter, we raised awareness of our concerns regarding the selection process through communications with the FCC and other initiatives which resulted in higher operating expenditures.

On April 15, 2014, we completed our acquisition of .CO Internet S.A.S and certain associated assets for \$113.7 million subject to certain customary working capital adjustments. .CO Internet is the exclusive operator of the worldwide registry for Internet addresses with the “.co” top-level domain. We used cash borrowed under our Revolving Credit Facility to complete this acquisition.

Our Services

Our primary services are as follows:

Marketing Services

Our Marketing Services provide clients the ability to plan and execute marketing strategies and measure the effectiveness of advertising campaigns across multiple channels with advanced marketing analytics, custom segmentation and media optimization. Using our workflow solutions, marketers are able to tailor their media spending plans, efficiently reach target audiences, and measure campaign performance across an array of channels and devices. In particular, our services help our clients identify and target their highest value potential customers and reach them through online and offline channels. These workflow solutions enable clients dealing with large volumes of continuous customer interactions and data to make instant, informed and high-impact decisions designed to promote their businesses and increase customer retention. Our privacy-by-design marketing suite of services enhances our clients' ability to achieve greater campaign success and increase their return on investment.

Table of Contents

Our Marketing Services provide:

Marketing analytics and segmentation. We provide scientific, cloud-based solutions that enable marketers to analyze their customer base and build granular, highly predictive segmentation in real time. This provides our clients with a consistent view of customer and prospect groups most highly predisposed to purchase their products and services based on attributes such as demographics, geography, and buying propensities. Our services enable clients to plan data-driven marketing strategies, develop high-impact advertising and lead generation campaigns and execute informed media planning for consistent execution across multiple channels.

Customer targeting. Our customer targeting services enable effective online display ad targeting of prospect audiences and customers. Our predictive segmentation and geo-targeting capabilities enable clients to reach highly predisposed online customers with relevant messages, either by deploying propensity, geography or a combination of each, in a privacy compliant manner.

Identity verification and scoring. We provide services that allow clients to interact efficiently with their customers, for example, to validate customer data, distinguish between an existing customer and a prospect, enhance leads and assign a lead quality rating. Our lead scoring service assigns a real-time predictive score to inbound telephone and web leads and predicts which prospects are most likely to convert into customers and/or become high-value customers, or which current customers are likely to respond to additional offers.

Local search and licensed business data. We provide a business listing and identity management solution that serves search platforms, national brands, authorized channel partners and local businesses. This service provides businesses, national brands and channel partners the essential tools to verify, enhance and manage the identity of local listings on search platforms across the Web, and offers search platforms an accurate, complete and up-to-date database of local business listings for online publishing.

Measurement and attribution. We provide campaign conversion analytics that enable clients to measure advertising effectiveness, for example, by assessing the offline consumer behavior of persons exposed to online advertising campaigns, consistent with privacy-by-design principles. We also provide a single, neutral media intelligence platform for measurement and optimization of multi-channel, multi-device advertising campaigns and conversion-attribution analytics.

Security Services

We provide a suite of domain name systems, or DNS services, built on a global directory platform. These services play a key role in directing and managing the flow of Internet traffic, resolving Internet queries and providing security protection against cyber attacks. We also provide the management of authoritative domain-name registries.

Our Security Services provide:

DDoS protection. We provide Distributed Denial of Service, or DDoS, alerting and detection systems, as both a stand-alone DDoS mitigation solution, or together with advanced services to strengthen and protect an enterprise's defenses. By identifying suspicious traffic, we reduce risk, downtime and revenue loss for our clients. We help protect an enterprise's intellectual capital by providing early warning of attacks so it can act quickly to minimize damage.

Registries. We operate the authoritative registries of Internet domain names for the .biz, .us, .tel, and .travel top-level domains, and provide international registry gateways. We provide back-end support for generic top-level domains, or gTLDs. All Internet communications routed to any of these domains must query a copy of our directory to ensure that the communication is routed to the appropriate destination.

Internet infrastructure. Our solutions protect an enterprise's Internet ecosystem and defend most standard transmission control protocol based applications, including, among others, websites, email servers, application programming interfaces, and databases. Our managed and recursive DNS services deliver fast, accurate responses to online queries with the scalability that today's enterprises demand.

Website performance monitoring. We help clients identify a wide range of online performance issues, and set up synthetic and real user monitors from a single interface. In addition, we provide load-testing analysis to help an enterprise prepare for severe stress to new and existing systems. Our extensive diagnostics and multi-domain views give customers a holistic perspective both inside and outside the firewall.

Table of Contents

Data Services

We manage large, complex data sets that enable clients to process decisions and transactions in real time. Our workflow solutions enable the exchange of essential operating information with multiple carriers in order to provision and manage services. Our services assist clients with fast and accurate order processing, and immediate routing of customer inquiries.

Our Data Services provide:

Carrier provisioning. We provide network services that permit our carrier customers to exchange essential operating information with multiple carriers to provision and manage services for their subscribers. In addition, we offer inventory management services to allow our carrier customers to manage efficiently their assigned telephone numbers and associated resources.

- Caller-name identification. We offer caller-name and related information to telephony providers, which drives customer satisfaction with authoritative, accurate and current caller-name data.

Common short codes. We operate the authoritative common short codes registry on behalf of the U.S. wireless industry.

User authentication and rights management. We operate the user authentication and rights management system, which supports the UltraViolet™ digital content locker that consumers use to access their entertainment content.

NPAC Services

NPAC Services includes the dynamic routing of calls and text messages among all competing communications service providers in the United States and related connection services and system enhancements.

Our NPAC Services provide:

Numbering. We operate and maintain authoritative databases that help manage the increasing complexity in the telecommunications industry. Our numbering services include number portability administration center services, or NPAC Services, in the United States and number inventory and allocation management. The NPAC is the world's largest and most complex number portability system with connections to over 4,800 individual customers and is a critical component of the national telecommunications network infrastructure. Our NPAC Services provide a key foundation for subscriber acquisition and for a robust and competitive telecommunications market. These services also support the industry's needs for real-time network and resource optimization, emergency preparedness and disaster recovery, and efficient telephone number utilization.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based on our unaudited consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles, or U.S. GAAP. The preparation of these financial statements in accordance with U.S. GAAP requires us to utilize accounting policies and make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingencies as of the date of the financial statements and the reported amounts of revenue and expense during a fiscal period. The U.S. Securities and Exchange Commission, or SEC, considers an accounting policy to be critical if it is important to a company's financial condition and results of operations, and if it requires significant judgment and estimates on the part of management in its application. We have discussed the selection and development of the critical accounting policies with the audit committee of our Board of Directors, and the audit committee has reviewed our related disclosures in this report.

Although we believe that our judgments and estimates are appropriate and reasonable, actual results may differ from those estimates. In addition, while we have used our best estimates based on the facts and circumstances available to us at the time, we reasonably could have used different estimates in the current period. Changes in the accounting estimates we use are reasonably likely to occur from period to period, which may have a material impact on the presentation of our financial condition and results of operations. If actual results or events differ materially from those contemplated by us in making these estimates, our reported financial condition and results of operations could be materially affected. See the information in our filings with the SEC from time to time, including Part II, "Item 1A. Risk Factors" of this Quarterly Report on Form 10-Q for the quarter ended March 31, 2014, for certain matters that may bear on our results of operations.

Table of Contents

The following discussion of selected critical accounting policies supplements the information relating to our critical accounting policies described in Part II, “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates” in our Annual Report on Form 10-K for the year ended December 31, 2013.

Stock-Based Compensation

We recognize stock-based compensation expense in accordance with the Compensation – Stock Compensation Topic of the FASB ASC which requires the measurement and recognition of compensation expense for stock-based awards granted to employees based on estimated fair values on the date of grant.

See Note 6 to our Unaudited Consolidated Financial Statements in Item 1 of Part I of this report for information regarding our assumptions related to stock-based compensation and the amount of stock-based compensation expense we incurred for the periods covered in this report.

We estimate the fair value of our restricted stock unit awards based on the fair value of our common stock on the date of grant. Our outstanding restricted stock unit awards are subject to service-based vesting conditions and performance-based vesting conditions. We recognize the estimated fair value of service-based awards, net of estimated forfeitures, as stock-based compensation expense over the vesting period on a straight-line basis. Awards with performance-based vesting conditions require the achievement of specific financial targets at the end of the specified performance period and are subject to the employee’s continued employment over the vesting period. We recognize the estimated fair value of performance-based awards, net of estimated forfeitures, as stock-based compensation expense over the vesting period, which considers each performance period or tranche separately, based upon our determination of the level of achievement of the performance targets. At each reporting period, we reassess the level of achievement of the performance targets within the related performance period. Determining the level of achievement of the performance targets involves judgment, and the estimate of stock-based compensation expense may be revised periodically based on changes. If any performance goals specific to the restricted stock unit awards are not met, we do not recognize any compensation cost for such awards, and we reverse any such compensation cost to the extent previously recognized. As of March 31, 2014, the level of achievement of the performance target awards for the 2014 performance year was 100%.

Revenue. Revenue increased \$13.5 million driven by strong demand for our Marketing and Security Services and a \$7.1 million increase in NPAC Services. Revenue from our Marketing Services increased \$5.8 million, driven by increased demand for our services that help our clients make instant and high impact decisions to promote their businesses and increase customer retention. Security Services revenue increased \$3.0 million driven by an increase in demand for our DDoS protection services and domain name services. Data Services revenue decreased \$2.4 million due to a decrease in revenue from caller identification and media services partially offset by revenue from our carrier provisioning services.

Expense

Cost of revenue. Cost of revenue increased \$9.3 million due to an increase of \$3.9 million in costs related to our information technology and systems, an increase of \$4.1 million in personnel and personnel-related expense, and an increase of \$1.5 million in contractor costs incurred to support our business. The increase in costs related to our information technology and systems was driven by increased data processing, telecommunications, and maintenance costs. The increase in personnel and personnel-related expense was due to increases in salary and stock-based compensation expense, which were driven by increased headcount.

Table of Contents

Sales and marketing. Sales and marketing expense increased \$7.7 million due to an increase of \$3.6 million in advertising and marketing costs and an increase of \$3.3 million in personnel and personnel-related expense. The increase in advertising and marketing costs was driven by NPAC-related advertising campaigns. The increase in personnel and personnel-related expense was driven by an increase in stock-based compensation expense.

Research and development. Research and development expense for the three months ended March 31, 2014 was comparable to the three months ended March 31, 2013.

General and administrative. General and administrative expense increased \$4.4 million due to an increase of \$5.0 million in professional fees to support our pursuit of the next NPAC contract, and to pursue new business opportunities.

Depreciation and amortization. Depreciation and amortization expense increased \$3.0 million due to an increase of \$1.7 million in amortization expense related to acquired intangible assets. In addition, depreciation expense increased \$1.2 million related to an increase in capitalized software development costs.

Restructuring expense. Restructuring expense increased \$5.0 million attributable to our 2014 restructuring plan initiated in the first quarter of 2014.

Interest and other expense. Interest and other expense decreased \$11.6 million due to a \$10.9 million loss on debt modification and extinguishment, recorded in the first quarter of 2013 incurred in connection with the refinancing of our 2011 debt facilities. In addition, interest expense for the first quarter of 2014 decreased \$0.5 million as a result of this refinancing.

Interest and other income. Interest and other income for the three months ended March 31, 2014 was comparable to the income for the three months ended March 31, 2013.

Provision for income taxes. Our effective tax rate decreased to 35.9% for the three months ended March 31, 2014 from 36.8% for the three months ended March 31, 2013 primarily due to the reversal of unrecorded tax benefits upon the completion of an Internal Revenue Service audit for the year ended December 31, 2009.

Liquidity and Capital Resources

Our principal source of liquidity is cash provided by operating activities. Our principal uses of cash have been to fund share repurchases, acquisitions, capital expenditures, and debt service requirements. We anticipate that our principal uses of cash in the future will be for acquisitions, share repurchases, capital expenditures and debt service requirements.

Total cash and cash equivalents were \$386.5 million at March 31, 2014, an increase of \$163.1 million from \$223.3 million at December 31, 2013. This increase in cash and cash equivalents was due to cash proceeds from borrowings under our 2013 Revolving Facility and cash provided by operations.

We believe that our existing cash and cash equivalents, cash from operations and available borrowings under our credit facilities will be sufficient to fund our operations for the next twelve months.

Credit Facilities

On January 22, 2013, we entered into a credit facility that provided for a \$325 million senior secured term loan facility, or 2013 Term Facility, and a \$200 million senior secured revolving credit facility, or the 2013 Revolving Facility, and together with the 2013 Term Facility, the 2013 Credit Facilities. In addition, we closed an offering of \$300 million aggregate principal amount of senior notes, or Senior Notes.

2013 Credit Facilities

The 2013 Credit Facilities include: (1) the 2013 Term Facility; (2) the 2013 Revolving Facility, of which (a) \$100 million is available for the issuance of letters of credit and (b) \$25 million is available as a swingline subfacility; and (3) incremental term loan facilities in an amount such that after giving effect to the incurrence of any such incremental loans, either (a) the aggregate amount of incremental loans does not exceed \$400 million or (b) the Consolidated Secured Leverage Ratio, as defined in the 2013 Credit Facilities, on a pro forma basis after giving effect to any such increase would not exceed 2.50 to 1.00. The 2013 Revolving Facility and 2013 Term Facility mature on January 22, 2018. As of March 31, 2014, we had \$175.0 million of outstanding borrowings under the 2013 Revolving Facility and available borrowings were \$16.8 million after outstanding letters of credit totaling \$8.2 million.

Table of Contents

Principal payments under the 2013 Term Facility of \$2.0 million are due on the last day of the quarter beginning on March 31, 2013 and ending on December 31, 2017. The remaining 2013 Term Facility principal balance of \$284.4 million is due in full on January 22, 2018, subject to early mandatory prepayments.

The loans outstanding under the 2013 Credit Facilities, or Loans, bear interest, at our option, either: (1) at the base rate, which is defined as the highest of (a) the federal funds rate plus 0.50%, (b) the interest rate published by the Wall Street Journal from time to time as the “U.S. Prime Rate” and (c) the adjusted LIBOR rate for a one-month interest period beginning on such day plus 1.00%; or (2) at the LIBOR rate plus, in each case, an applicable margin. The applicable margin is: (1) if the Consolidated Leverage Ratio is less than 2.00:1.00, 0.50% per annum for borrowings based on the base rate and 1.50% per annum for borrowings based on the LIBOR rate, or (2) if the Consolidated Leverage Ratio is 2.00:1.00 or greater, 0.75% per annum for borrowings based on the base rate and 1.75% per annum borrowings based on the LIBOR rate. The accrued interest under the 2013 Term Facility is payable quarterly beginning on March 31, 2013.

We may voluntarily prepay the Loans at any time in minimum amounts of \$1 million or an integral multiple of \$500,000 in excess thereof. The 2013 Credit Facilities provide for mandatory prepayments with the net cash proceeds of certain debt issuances, insurance receipts, and dispositions. The 2013 Term Facility also contains certain events of default, upon the occurrence of which, and so long as such event of default is continuing, the amounts outstanding may, at the option of the required lenders, accrue interest at an increased rate and payments of such outstanding amounts could be accelerated, or other remedies undertaken.

As of March 31, 2014, deferred financing costs and loan origination fees related to the 2013 Credit Facilities were \$7.9 million. Total amortization expense of the deferred financing costs and loan origination fees was \$0.5 million for three months ended March 31, 2014 and was reported as interest expense in the consolidated statements of operations.

Senior Notes

On January 22, 2013, we closed an offering of \$300 million aggregate principal amount of 4.50% senior notes due 2023 to qualified institutional buyers pursuant to Rule 144A, and outside of the United States pursuant to Regulation S, under the Securities Act of 1933, as amended. The Senior Notes were issued pursuant to an indenture, dated as of January 22, 2013, among us, certain of our domestic subsidiaries, or the Subsidiary Guarantors, and The Bank of New York Mellon Trust Company, N.A., as trustee, or the Indenture. The Senior Notes are the general unsecured senior obligations of us and are guaranteed on a senior unsecured basis by the Subsidiary Guarantors.

Interest is payable on the Senior Notes semi-annually in arrears at an annual rate of 4.50%, on January 15 and July 15 of each year, beginning on July 15, 2013. The Senior Notes will mature on January 15, 2023. Interest accrues from January 22, 2013.

At any time and from time to time prior to July 15, 2016, we may redeem up to a maximum of 35% of the original aggregate principal amount of the Senior Notes with the proceeds of certain equity offerings, at a redemption price equal to 104.50% of the principal amount thereof, plus accrued and unpaid interest thereon, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided that: (1) at least 65% of the original aggregate principal amount of the Senior Notes remains outstanding; and (2) the redemption occurs within 90 days of the completion of such equity offering upon not less than 30 nor more than 60 days prior notice.

After July 15, 2016 and prior to January 15, 2018, we may redeem some or all of the Senior Notes by paying a “make-whole” premium based on U.S. Treasury rates. During the 12-month period commencing on January 15 of the relevant year listed below, we may redeem some or all of the Senior Notes at the prices listed below, plus accrued and unpaid interest, if any, to, but not including, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date): 2018 at a redemption price of 102.25%; 2019 at a redemption price of 101.50%; 2020 at a redemption price of 100.75%; and 2021 and thereafter at a redemption price of 100.00%. If we experience certain changes of control together with a ratings downgrade, we will be required to offer to purchase all of the Senior Notes then outstanding at a purchase price equal to 101.00% of the principal amount thereof, plus accrued and unpaid interest, if any, to, the date of purchase. If we sell certain assets and do not repay certain debt or reinvest the proceeds of such sales within certain time periods, we will be required to

offer to repurchase the Senior Notes with such proceeds at 100.00% of their principal amount, plus accrued and unpaid interest, if any, to the date of purchase.

The Senior Notes contain customary events of default, including among other things, payment default, failure to provide certain notices and defaults related to bankruptcy events. The Senior Notes also contain customary negative covenants.

Table of Contents

As of March 31, 2014, deferred financing costs related to the Senior Notes were \$14.0 million. Total amortization expense of the deferred financing costs was \$0.3 million for the three months ended March 31, 2014 and is reported as interest expense in the consolidated statements of operations.

Discussion of Cash Flows

Cash flows from operations

Net cash provided by operating activities for the three months ended March 31, 2014 was \$60.9 million, as compared to \$51.8 million for the three months ended March 31, 2013. This \$9.0 million increase in net cash provided by operating activities was the result of a decrease in net income of \$2.1 million, and a decrease in non-cash adjustments of \$8.1 million, partially offset by an increase in net changes in operating assets and liabilities of \$19.2 million.

Non-cash adjustments decreased \$8.1 million driven by a \$10.9 million loss on debt modification and extinguishment recorded in the first quarter of 2013 related to our debt refinancing and a decrease of \$3.7 million in deferred income taxes. These decreases in non-cash adjustments were partially offset by an increase of \$3.0 million in depreciation and amortization expense, and an increase of \$2.8 million in stock-based compensation.

Net changes in operating assets and liabilities increased \$19.2 million primarily due to an increase of \$11.6 million in accounts and unbilled receivables, an increase of \$4.2 million in income taxes payable, an increase of \$4.0 million in prepaid expenses and other current assets, an increase of \$2.9 million in other liabilities, and an increase of \$2.5 million in deferred revenue. These increases in net changes in operating assets and liabilities were partially offset by a decrease of \$6.0 million in accounts payable and accrued expenses.

Cash flows from investing

Net cash used in investing activities for the three months ended March 31, 2014 was \$25.2 million, as compared to \$11.4 million for three months ended March 31, 2013. This \$13.8 million increase in net cash used in investing activities was due to an increase of \$13.6 million in cash used for acquisitions.

Cash flows from financing

Net cash provided by financing activities was \$127.5 million for the three months ended March 31, 2014, as compared to net cash used in financing activities of \$4.0 million for the three months ended March 31, 2013. This \$131.5 million increase in net cash provided by financing activities was due to a net increase in cash of \$143.3 million from debt and a decrease of \$11.4 million in cash used for debt offering costs. In particular, the net increase in cash of \$143.3 million was attributable to borrowings of \$175.0 million in the first quarter of 2014 compared to net proceeds of \$31.7 million attributable to our debt refinancing completed in the first quarter of 2013. These increases in cash provided by financing activities were partially offset by a \$17.5 million increase in cash used for the purchase of our Class A common stock, and an increase of \$2.2 million in cash used attributable to employees' use of restricted stock to satisfy the employee's minimum tax withholding obligations.

Off-Balance Sheet Arrangements

None.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For quantitative and qualitative disclosures about our market risk, see "Quantitative and Qualitative Disclosures About Market Risk" in Item 7A of Part II of our Annual Report on Form 10-K for the fiscal year ended December 31, 2013. Our exposure to market risk has not changed materially since December 31, 2013.

Item 4. Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance

Table of Contents

of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of March 31, 2014, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective and were operating at the reasonable assurance level.

In addition, there were no changes in our internal control over financial reporting that occurred in the first quarter of 2014 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION**Item 1. Legal Proceedings**

From time to time, we are subject to claims in legal proceedings arising in the normal course of our business. We do not believe that we are party to any pending legal action that could reasonably be expected to have a material adverse effect on our business or operating results.

Item 1A. Risk Factors

In addition to the other information set forth in this Quarterly Report, you should carefully consider the risks discussed in Part I, Item 1A. “Risk Factors” in our Annual Report on Form 10-K for our fiscal year ended December 31, 2013, filed with the SEC on February 28, 2014. The risks discussed in our Annual Report on Form 10-K could materially affect our business, financial condition and future results. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table is a summary of our repurchases of common stock during each of the three months in the quarter ended March 31, 2014:

Month	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)(3)	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs (3)
January 1 through January 31, 2014	184,308	\$45.04	57,748	\$ 197,999,561
February 1 through February 28, 2014	566,454	35.03	542,184	179,004,376
March 1 through March 31, 2014	637,587	34.76	603,912	158,027,440
Total	1,388,349	\$36.23	1,203,844	\$ 158,027,440

The number of shares purchased includes shares of common stock tendered by employees to us to satisfy the (1) employees’ minimum tax withholding obligations arising as a result of the vesting of restricted stock grants under our stock incentive plan. We purchased these shares for their fair market value on the vesting date.

The difference between the total number of shares purchased and the total number of shares purchased as part of (2) publicly announced plans or programs is 184,505 shares, all of which relate to shares surrendered to us by employees to satisfy the employees’ minimum tax withholding obligations arising as a result of the vesting of restricted stock grants under our incentive stock plans.

(3) On January 29, 2014, we announced the adoption of a 2014 share purchase program, which will expire on December 31, 2014. The 2014 program authorizes the purchase of up to \$200 million of Class A common shares.
