Explanation of Responses:

- * If the form is filed by more than one reporting person, see Instruction 4(b)(v).
- ** Intentional misstatements or omissions of facts constitute Federal Criminal Violations. See 18 U.S.C. 1001 and 15 U.S.C. 78ff(a).
- (1) Bona fide gift of shares of common stock by the reporting person to D. Stabio Fitzgerald, who is the reporting person's daughter. The reporting person specifically disclaims beneficial ownership of these shares.
- (2) Bona fide gift fo shares of common stock by the reporting person to B. Stabio, the reporting person's son. The reporting person specifically disclaims beneficial ownership of these shares.
- (3) These shares are owned by the reporting person individually and in trust. The total amount does not include shares owned by the reporting person's spouse.

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, see Instruction 6 for procedure. Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number. text-align:left;font-size:10pt;">

SERVICE CORPORATION INTERNATIONAL

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share amounts)

1. Nature of Operations

We are North America's largest provider of deathcare products and services, with a network of funeral service locations and cemeteries operating in the United States and Canada. We are best known for our Dignity Memorial® brand, North America's first transcontinental brand of deathcare products and services. Our other brands are Dignity Planning™, National Cremation Society®, Advantage® Funeral and Cremation Services, Funeraria del Angel™, Making Everlasting Memories®, Neptune Society™, and Trident Society™. Our funeral and cemetery operations consist of funeral service locations, cemeteries, funeral service/cemetery combination locations, crematoria, and related businesses, which enable us to serve a wide array of customer needs. We sell cemetery property and funeral and cemetery merchandise and services at the time of need and on a preneed basis.

Funeral service locations provide all professional services relating to funerals and cremations, including the use of funeral facilities and motor vehicles, arranging and directing services, removal, preparation, embalming, cremations, memorialization, and catering. Funeral merchandise, including burial caskets and related accessories, urns and other cremation receptacles, outer burial containers, flowers, on-line and video tributes, stationery products, casket and cremation memorialization products, and other ancillary merchandise, is sold at funeral service locations.

Our cemeteries provide cemetery property interment rights, including developed lots, lawn crypts, mausoleum spaces, niches, and other cremation memorialization and interment options. Cemetery merchandise and services, including memorial markers and bases, outer burial containers, flowers and floral placement, other ancillary merchandise, graveside services, merchandise installation, and burial openings and closings, are sold at our cemeteries.

2. Summary of Significant Accounting Policies

Principles of Consolidation and Basis of Presentation

Our unaudited condensed consolidated financial statements include the accounts of Service Corporation International (SCI) and all subsidiaries in which we hold a controlling financial interest. Our financial statements also include the accounts of the merchandise and service trusts and cemetery perpetual care trusts in which we have a variable interest and are the primary beneficiary. Our interim condensed consolidated financial statements are unaudited but include all adjustments, consisting of normal recurring accruals and any other adjustments, which management considers necessary for a fair statement of our results for these periods. Our unaudited condensed consolidated financial statements have been prepared in a manner consistent with the accounting policies described in our Annual Report on Form 10-K for the year ended December 31, 2014, unless otherwise disclosed herein, and should be read in conjunction therewith. The accompanying year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year period.

Reclassifications

Certain reclassifications have been made to prior period amounts to conform to the current period financial statement presentation with no effect on our previously reported results of operations, consolidated financial position, or cash flows.

Use of Estimates in the Preparation of Financial Statements

The preparation of the unaudited condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions as described in our Annual Report on Form 10-K for the year ended December 31, 2014. These estimates and assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the unaudited condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting periods. As a result, actual results could differ from these estimates.

Discontinued Operations

In April 2014, the Financial Accounting Standards Board (FASB) amended the Presentation of Financial Statements and Property, Plant, and Equipment accounting standards to change the requirement for reporting discontinued operations. Under the new guidance, a disposal of a component of an entity is required to be reported in discontinued operations if the disposal represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. Fewer disposals are expected to qualify as discontinued operations under the new guidance. It also requires the disclosure of pretax income of disposals that do not qualify as discontinued operations. We adopted the amendment effective January 1, 2015 with no impact on our consolidated results of operations, consolidated financial position, or cash flows.

Table of Contents

3. Recently Issued Accounting Standards

Revenue Recognition

In May 2014, the FASB issued the Revenue from Contracts with Customers accounting standard, which supersedes the revenue recognition requirements in the Revenue Recognition accounting standard and most industry-specific guidance. This new standard is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. It also requires additional disclosure about the nature, amount, and timing of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. Additionally, the new standard requires the deferral of direct incremental selling costs to the period in which the underlying revenue is recognized. In August 2015, the FASB issued an amendment that defers implementation of the Revenue from Contracts with Customers accounting standard for all entities by one year. The new standard will be effective for us beginning January 1, 2018 and we intend to implement the standard with the modified retrospective approach, which recognizes the cumulative effect of application recognized on that date. We are evaluating the impact of adoption on our consolidated results of operations, consolidated financial position, and cash flows.

Consolidation

In February 2015, the FASB amended the Consolidation accounting standard to revise the consolidation model for limited partnerships, variable interest entities, and certain investment funds. Further, the amendment provides guidance on how fee arrangements and related parties should be considered when determining whether to consolidate variable interest entities. As a result of this amendment, all legal entities are required to be reevaluated to determine if they should be consolidated. The new guidance is effective for us on January 1, 2016. We are evaluating the impact of adoption on our consolidated results of operations, consolidated financial position, and cash flows.

Debt Issuance Costs

In April 2015, the FASB amended the Interest—Imputation of Interest accounting standard to simplify the presentation of debt issuance costs on the balance sheet. Currently, debt issuance costs are included in Other current assets and Deferred charges and other assets on our condensed consolidated balance sheet. The amendment requires that these costs instead be presented as a direct deduction from the carrying amount of Current maturities of long-term debt and Long-term debt, consistent with the presentation of debt discounts.

In August 2015, the FASB issued an additional amendment that provides additional guidance to the Interest—Imputation of Interest accounting standard since it did not address presentation or subsequent measurement of debt issuance costs related to line-of-credit arrangements. The amendment noted that the SEC staff would not object to an entity deferring and presenting debt issuance costs as an asset and subsequently amortizing the deferred debt issuance costs ratably over the term of the line-of-credit arrangement, regardless of whether there are any outstanding borrowings on the line-of-credit arrangement.

This change does not impact the manner in which the debt issuance costs are expensed over the term of the debt. The change in presentation is effective for us on January 1, 2016. As of September 30, 2015, the effect of these amendments would have been to reduce Other current assets and Current maturities of long-term debt by \$8.3 million and to reduce Deferred charges and other assets and Long-term debt by \$36.1 million. As of December 31, 2014 the effect of these amendments would have been to reduce Other current assets and Current maturities of long-term debt by \$8.0 million and to reduce Deferred charges and other assets and Long-term debt by \$36.8 million.

Cloud Computing Arrangements

In April 2015, the FASB amended the Intangibles—Goodwill and Other—Internal-Use Software accounting standard to provide guidance on whether a cloud computing arrangement contains a software license. If a cloud computing arrangement includes a software license, then we should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, we should account for the arrangement as a service contract. The new guidance is effective for us on January 1, 2016, and we are still evaluating the impact of adoption on our consolidated results of operations, consolidated financial position, and cash flows.

Fair Value Measurements

In May 2015, the FASB amended the Fair Value Measurements accounting standard to remove the requirement to disclose the fair value measurement hierarchy level associated with investments measured at net asset value as a practical expedient. Other disclosures required by the standard for these assets remain the same. This amendment does not change the underlying accounting for these investments. The new guidance is effective for us with our first quarter 2016 filing on Form 10-Q.

Table of Contents

Inventory

In July 2015, the FASB amended the Inventory accounting standard to state that an entity using an inventory method other than last-in, first out ("LIFO") or the retail inventory method should measure inventory at the lower of cost and net realizable value. The new guidance clarifies that net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. The new guidance is effective for us on January 1, 2017, and we are still evaluating the impact of adoption on our consolidated results of operations, consolidated financial position, and cash flows.

Business Combinations

In September 2015, the FASB amended the Business Combinations accounting standard to eliminate the requirement for an acquirer in a business combination to account for measurement-period adjustments retrospectively. Under the new guidance, acquirers must recognize measurement-period adjustments in the period in which they determine the amount of the adjustment. The new guidance is effective for us on January 1, 2017 and will be applied prospectively to measurement-period adjustments occurring after the effective date, if any.

4. Preneed Funeral Activities

Preneed funeral receivables, net and trust investments represent trust investments, including investment earnings, and customer receivables, net of unearned finance charges, related to unperformed price-guaranteed preneed funeral contracts. Our merchandise and service trusts are variable interest entities as defined in the Consolidation accounting standard. In accordance with this standard, we have determined that we are the primary beneficiary of these trusts, as we absorb a majority of the losses and returns associated with these trusts. Our trust investments detailed in Notes 5 and 6 are also accounted for as variable interest entities. When we receive payments from the customer, we deposit the amount required by law into the trust and reclassify the corresponding amount from Deferred preneed funeral revenue into Deferred preneed receipts held in trust. Amounts are withdrawn from the trusts after the contract obligations are performed. Cash flows from preneed contracts are presented as operating cash flows in our unaudited condensed consolidated statement of cash flows.

Preneed funeral receivables, net and trust investments are reduced by the trust investment earnings (realized and unrealized) that we have been allowed to withdraw in certain states prior to maturity. These earnings are recorded in Deferred preneed funeral revenue until the merchandise is delivered or the service is performed.

The table below sets forth certain investment-related activities associated with these preneed merchandise and service trusts:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(In thousands)			
Deposits	\$30,143	\$23,618	\$92,623	\$76,490

The costs and fair values associated with trust investments measured at fair value at September 30, 2015 and December 31, 2014 are detailed below. Cost reflects the investment (net of redemptions) of control holders in the trusts. Fair value represents the value of the underlying securities held by the trusts.

Where quoted prices are available in an active market, securities are classified as Level 1 investments pursuant to the fair value measurements hierarchy.

Where quoted market prices are not available for the specific security, fair values are estimated by using either quoted prices of securities with similar characteristics or an income approach fair value model with observable inputs that include a combination of interest rates, yield curves, credit risks, prepayment speeds, ratings, and tax-exempt status. These funds are classified as Level 2 investments pursuant to the fair value measurements hierarchy.

The valuation of private equity and other alternative investments requires management judgment due to the absence of quoted market prices, inherent lack of liquidity, and the long-term nature of such assets. The fair value of these investments is estimated based on the market value of the underlying real estate and private equity investments. The underlying real estate value is determined using the most recent available appraisals. Private equity investments are valued based on reported net asset values. Valuation policies and procedures are determined by our Trust Services department, which reports to our Chief Financial Officer. Additionally, valuations are reviewed by the Investment Committee of the Board of Directors quarterly. These funds are classified as Level 3 investments pursuant to the fair value measurements hierarchy.

As of September 30, 2015, our unfunded commitment for our private equity and other investments was \$45.2 million which, if called, would be funded by the assets of the trusts. Our private equity and other investments include several funds that invest in limited partnerships, distressed debt, real estate, and mezzanine financing. These investments can never be redeemed by the funds. Instead, due to the nature of the investments in this category, distributions are received through the liquidation of the underlying assets of the funds. We estimate that the underlying assets will be liquidated over the next 2 to 10 years.

Table of Contents

Earnings from all our merchandise and service trust investments are recognized in revenue when merchandise is delivered or a service is performed. Fees charged by our wholly-owned registered investment advisor are also included in current revenue. In addition, we are entitled to retain, in certain jurisdictions, a portion of collected customer payments when a customer cancels a preneed contract; these amounts are also recognized in current revenue in the period in which they are earned. Recognized trust fund income (realized and unrealized) related to these trust investments was \$12.7 million and \$15.1 million for the three months ended September 30, 2015 and 2014, respectively. Recognized trust fund income (realized and unrealized) related to these trust investments was \$41.1 million and \$47.6 million for the nine months ended September 30, 2015 and 2014, respectively.

We assess our trust investments for other-than-temporary declines in fair value on a quarterly basis. Impairment charges resulting from this assessment are recognized as investment losses in Other income (expense), net and a decrease to Preneed funeral receivables, net and trust investments. These investment losses, if any, are offset by the corresponding reclassification in Other income (expense), net, which reduces Deferred preneed receipts held in trust. See Note 7 for further information related to our Deferred preneed receipts held in trust. For the three months ended September 30, 2015 and 2014, we recorded a \$1.4 million and a \$41.2 million impairment charge, respectively, for other-than-temporary declines in fair value related to unrealized losses on certain investments. For the nine months ended September 30, 2015 and 2014, we recorded a \$2.9 million and a \$41.6 million impairment charge, respectively, for other-than-temporary declines in fair value related to unrealized losses on certain investments. The third quarter 2014 impairment charges were recorded in anticipation of a strategic change in the management of our trust assets requiring the liquidation of a majority of our US trust assets during the fourth quarter of 2014. This change did not impact our asset allocation, but did change the underlying legal structure housing the assets. These impairment charges reflect the unrealized loss positions on these liquidated assets as of September 30, 2014.

We have determined that the remaining unrealized losses in our merchandise and service trust investments are considered temporary in nature, as the unrealized losses were due to temporary fluctuations in interest rates and equity prices. The investments are diversified across multiple industry segments using a balanced allocation strategy to minimize long-term risk. We believe that none of the remaining securities are other-than-temporarily impaired based on our analysis of the investments. Our analysis included a review of the portfolio holdings and discussions with the individual money managers as to the sector exposures, credit ratings, and the severity and duration of the unrealized losses. Our merchandise and service trust investment unrealized losses, their associated fair values, and the duration of unrealized losses as of September 30, 2015 and December 31, 2014, respectively, are shown in the following tables:

5. Preneed Cemetery Activities

Preneed cemetery receivables, net and trust investments represent trust investments, including investment earnings, and customer receivables, net of unearned finance charges, for contracts sold in advance of when the property interment rights, merchandise, or services are needed. Our merchandise and service trusts are variable interest entities as defined in the Consolidation accounting standard. In accordance with this standard, we have determined that we are the primary beneficiary of these trusts, as we absorb a majority of the losses and returns associated with these trusts. The trust investments detailed in Notes 4 and 6 are also accounted for as variable interest entities. When we receive payments from the customer, we deposit the amount required by law into the trust and reclassify the corresponding amount from Deferred preneed cemetery revenue into Deferred preneed receipts held in trust. Amounts are withdrawn from the trusts when the contract obligations are performed. Cash flows from preneed cemetery contracts are presented as operating cash flows in our unaudited condensed consolidated statement of cash flows.

Preneed cemetery receivables, net and trust investments are reduced by the trust investment earnings (realized and unrealized) that we have been allowed to withdraw in certain states prior to maturity. These earnings are recorded in Deferred preneed cemetery revenue until the merchandise is delivered or the service is performed.

The table below sets forth certain investment-related activities associated with these preneed merchandise and service trusts:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(In thousands)			
Deposits	\$40,327	\$34,018	\$116,581	\$95,421

Deferred preneed receipts held in trust. See Note 7 for further information related to our Deferred preneed receipts held in trust.

Maturity dates of our fixed income securities range from 2015 to 2045. Maturities of fixed income securities, excluding mutual funds, at September 30, 2015 are estimated as follows:

	Fair Value (In thousands)
Due in one year or less	\$26,631
Due in one to five years	25,881
Due in five to ten years	26,261
Thereafter	18,864
	\$97,637

Earnings from all our merchandise and service trust investments are recognized in current revenue when merchandise is delivered or a service is performed. Fees charged by our wholly-owned registered investment advisor are also included in current revenue. In addition, we are entitled to retain, in certain jurisdictions, a portion of collected customer payments when a customer cancels a preneed contract; these amounts are also recognized in current revenue in the period in which they are earned. Recognized trust fund income (realized and unrealized) related to these trust investments was \$10.7 million and \$12.2 million for the three months ended September 30, 2015 and 2014, respectively. Recognized trust fund income (realized and unrealized) related to these trust investments was \$34.9 million and \$36.2 million for the nine months ended September 30, 2015 and 2014, respectively.

We assess our trust investments for other-than-temporary declines in fair value on a quarterly basis. Impairment charges resulting from this assessment are recognized as investment losses in Other income (expense), net and a decrease to Preneed cemetery receivables, net and trust investments. These investment losses, if any, are offset by the corresponding reclassification in Other income (expense), net, which reduces Deferred preneed receipts held in trust. See Note 7 for further information related to our Deferred preneed receipts held in trust. For the three months ended September 30, 2015 and 2014, we recorded a \$1.8 million and a \$59.3 million impairment charge, respectively, for other-than-temporary declines in fair value related to unrealized losses on certain investments. For the nine months ended September 30, 2015 and 2014, we recorded a \$3.8 million and a \$59.8 million impairment charge, respectively, for other-than-temporary declines in fair value related to unrealized losses on certain investments. The third quarter 2014 impairment charges were recorded in anticipation of a strategic change in the management of our trust assets requiring the liquidation of a majority of our US trust assets during the fourth quarter of 2014. This change did not impact our asset allocation, but did change the underlying legal structure housing the assets. These impairment charges reflect the unrealized loss positions on these liquidated assets as of September 30, 2014.

We have determined that the remaining unrealized losses in our merchandise and service trust investments are considered temporary in nature, as the unrealized losses were due to temporary fluctuations in interest rates and equity prices. The investments are diversified across multiple industry segments using a balanced allocation strategy to minimize long-term risk. We believe that none of the remaining securities are other-than-temporarily impaired based on our analysis of the investments. Our analysis included a review of the portfolio holdings and discussions with the individual money managers as to the sector exposures, credit ratings, and the severity and duration of the unrealized losses. Our merchandise and service trust investment unrealized losses, their associated fair values and the duration of unrealized losses as of September 30, 2015 are shown in the following tables:

Table of Contents

6. Cemetery Perpetual Care Trusts

We are required by state and provincial law to pay into cemetery perpetual care trusts a portion of the proceeds from the sale of cemetery property interment rights. Our cemetery perpetual care trusts are variable interest entities as defined in the Consolidation accounting standard. In accordance with this standard, we have determined that we are the primary beneficiary of these trusts, as we absorb a majority of the losses and returns associated with these trusts. The trust investments detailed in Notes 4 and 5 are also accounted for as variable interest entities. We consolidate our cemetery perpetual care trust investments with a corresponding amount recorded as Care trusts' corpus. Cash flows from cemetery perpetual care trusts are presented as operating cash flows in our unaudited condensed consolidated statement of cash flows.

The table below sets forth certain investment-related activities associated with our cemetery perpetual care trusts:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2015	2014	2015	2014
	(In thousands)			
Deposits	\$10,264	\$9,202	\$29,717	\$29,439
Withdrawals	\$8,073	\$8,680	\$32,749	\$23,879
Purchases of available-for-sale securities	\$29,129	\$169,973	\$174,243	\$233,795
Sales of available-for-sale securities	\$14,466	\$172,646	\$120,602	\$251,719
Realized gains from sales of available-for-sale securities	\$524	\$7,034	\$2,675	\$21,903
Realized losses from sales of available-for-sale securities	\$(156)	\$(935)	\$(4,478)	\$(1,599)

The components of Cemetery perpetual care trust investments in our unaudited condensed consolidated balance sheet at September 30, 2015 and December 31, 2014 are as follows:

	September 30,	December 31,
	2015	2014
	(In thousands)	
Trust investments, at fair value	\$1,209,834	\$1,192,966
Cash and cash equivalents	94,385	148,410
Cemetery perpetual care trust investments	\$1,304,219	\$1,341,376

The cost and fair values associated with trust investments, at fair value at September 30, 2015 and December 31, 2014 are detailed below. Cost reflects the investment (net of redemptions) of control holders in the trusts. Fair value represents the value of the underlying securities or cash held by the trusts.

Cemetery perpetual care trust investments		\$1,207,563	\$19,424	\$(34,021)	\$1,192,966

Where quoted prices are available in an active market, securities held by the trusts are classified as Level 1 investments pursuant to the fair value measurements hierarchy.

Table of Contents

Where quoted market prices are not available for the specific security, fair values are estimated by using either quoted prices of securities with similar characteristics or an income approach fair value model with observable inputs that include a combination of interest rates, yield curves, credit risks, prepayment speeds, ratings, and tax-exempt status. These funds are classified as Level 2 investments pursuant to the fair value measurements hierarchy.

The valuation of private equity and other alternative investments requires management judgment due to the absence of quoted market prices, inherent lack of liquidity, and the long-term nature of such assets. The fair value of these investments is estimated based on the market value of the underlying real estate and private equity investments. The underlying real estate value is determined using the most recently available appraisals. Private equity investments are valued based on reported net asset values. Valuation policies and procedures are determined by our Trust Services department, which reports to our Chief Financial Officer. Additionally, valuations are reviewed by the Investment Committee of the Board of Directors quarterly. These funds are classified as Level 3 investments pursuant to the fair value measurements hierarchy.

As of September 30, 2015, our unfunded commitment for our private equity and other investments was \$21.4 million which, if called, would be funded by the assets of the trusts. Our private equity and other investments include several funds that invest in limited partnerships, distressed debt, real estate, and mezzanine financing. These investments can never be redeemed by the funds. Instead, due to the nature of the investments in this category, distributions are received through the liquidation of the underlying assets of the funds. We estimate that the underlying assets will be liquidated over the next 2 to 10 years.

The change in our trust investments measured at fair value with significant unobservable inputs (Level 3) is as follows:

	Three Months Ended		September 30, 2014

All unrealized gains (losses) recognized in Accumulated other comprehensive income for our cemetery perpetual (1) care trust investments are offset by a corresponding reclassification in Accumulated other comprehensive income to Care trusts' corpus. See Note 7 for further information related to our Care trusts' corpus.

All net losses recognized in Other income (expense), net for our cemetery perpetual care trust investments are (2) offset by a corresponding reclassification in Other income (expense), net to Care trusts' corpus. See Note 7 for further information related to our Care trusts' corpus.

Table of Contents

Maturity dates of our fixed income securities range from 2015 to 2045. Maturities of fixed income securities at September 30, 2015 are estimated as follows:

	Fair Value (In thousands)
Due in one year or less	\$26,894
Due in one to five years	16,644
Due in five to ten years	7,174
Thereafter	1,051
	\$51,763

Distributable earnings from these cemetery perpetual care trust investments are recognized in current cemetery revenue to the extent we incur qualifying cemetery maintenance costs. Fees charged by our wholly-owned registered investment advisor are also included in current revenue. Recognized trust fund income related to these trust investments was \$10.5 million and \$10.9 million for the three months ended September 30, 2015 and 2014, respectively. Recognized trust fund income related to these trust investments was \$43.5 million and \$39.9 million for the nine months ended September 30, 2015 and 2014, respectively.

We assess our trust investments for other-than-temporary declines in fair value on a quarterly basis. Impairment charges resulting from this assessment are recognized as investment losses in Other income (expense), net and a decrease to Cemetery perpetual care trust investments. These investment losses, if any, are offset by the corresponding reclassification in Other income (expense), net, which reduces Care trusts' corpus. See Note 7 for further information related to our Care trusts' corpus. For the three months ended September 30, 2015 and 2014, we recorded a \$0.1 million and an \$8.0 million impairment charge, respectively, for other-than-temporary declines in fair value related to unrealized losses on certain investments. For the nine months ended September 30, 2015 and 2014, we recorded a \$1.6 million and an \$8.1 million impairment charge, respectively, for other-than-temporary declines in fair value related to unrealized losses on certain investments. The third quarter 2014 impairment charges were recorded in anticipation of a strategic change in the management of our trust assets requiring the liquidation of a majority of our US trust assets during the fourth quarter of 2014. This change did not impact our asset allocation, but did change the underlying legal structure housing the assets. These impairment charges reflect the unrealized loss positions on these liquidated assets as of September 30, 2014.

Table of Contents

We have determined that the remaining unrealized losses in our cemetery perpetual care trust investments are considered temporary in nature, as the unrealized losses were due to temporary fluctuations in interest rates and equity prices. The investments are diversified across multiple industry segments using a balanced allocation strategy to minimize long-term risk. We believe that none of the remaining securities are other-than-temporarily impaired based on our analysis of the investments. Our analysis included a review of the portfolio holdings and discussions with the individual money managers as to the sector exposures, credit ratings, and the severity and duration of the unrealized losses. Our cemetery perpetual care trust investment unrealized losses, their associated fair values and the duration of unrealized losses, are shown in the following tables.

7. Deferred Preneed Receipts Held in Trust and Care Trusts' Corpus

Deferred Preneed Receipts Held in Trust

We consolidate the merchandise and service trusts associated with our preneed activities. Although the consolidation of the merchandise and service trusts is required by accounting standards, it does not change the legal relationships among the trusts, us, or our customers. The customers are the legal beneficiaries of these merchandise and service trusts, and therefore their interests in these trusts represent a liability to us.

The components of Deferred preneed receipts held in trust in our unaudited condensed consolidated balance sheet at September 30, 2015 and December 31, 2014 are detailed below.

	September 30, 2015			December 31, 2014		
	Preneed Funeral	Preneed Cemetery	Total	Preneed Funeral	Preneed Cemetery	Total
	(In thousands)					
Trust investments	\$1,498,141	\$1,437,823	\$2,935,964	\$1,628,875	\$1,526,653	\$3,155,528
Accrued trust operating payables and other	(1,083)	(2,197)	(3,280)	(2,487)	(4,157)	(6,644)

8. Income Taxes

Income tax expense during interim periods is based on our estimated annual effective income tax rate plus any discrete items, which are recorded in the period in which they occur. Discrete items include, among others, such events as changes in estimates due to the finalization of tax returns, tax audit settlements, expiration of statutes of limitation, and increases or decreases in valuation allowances on deferred tax assets. Our effective tax rate was 35.3% and 81.7% for the three months ended September 30, 2015 and 2014, respectively. Our effective tax rate was 36.5% and 60.0% for the nine months ended September 30, 2015 and 2014, respectively. The higher effective tax rate for the three and nine months ended September 30, 2014 was primarily due to the gain on required divestitures associated with the Stewart acquisition. The effective tax rate for the third quarter of 2015 is above the 35% federal statutory tax rate primarily due to the state expense partially offset by state legislative changes and foreign earnings taxed at lower rates.

Unrecognized Tax Benefits

As of September 30, 2015, the total amount of our unrecognized tax benefits was \$191.7 million and the total amount of our accrued interest was \$50.4 million. Additional interest expense of \$2.8 million was accrued during the nine months ended September 30, 2015.

A number of years may elapse before particular tax matters, for which we have unrecognized tax benefits, are settled. While we have effectively concluded our 2003 through 2005 tax years with respect to our affiliate, SCI Funeral & Cemetery Purchasing Cooperative, Inc., SCI and subsidiaries' tax years 1999 through 2005 remain under review at the IRS Appeals level. SCI and subsidiaries are under audit for 2006-2007 as a result of carry back claims. Furthermore, SCI and its affiliates are under audit by various state and foreign jurisdictions for years 2010 through 2013. The outcome of each of these audits cannot be predicted at this time. It is reasonably possible that the amount of our unrecognized tax benefits could significantly increase or decrease over

31

Table of Contents

the next twelve months either because we prevail on positions or because the tax authorities prevail. Due to the uncertainty regarding the timing of completion of audits and possible outcomes, a current estimate of the range of increases or decreases that may occur within the next twelve months cannot be made.

9. Debt

Debt as of September 30, 2015 and December 31, 2014 was as follows:

	September 30, 2015	December 31, 2014
	(In thousands)	
6.75% Senior Notes due April 2016	\$—	\$ 197,377
7.0% Senior Notes due June 2017	295,000	295,000
7.625% Senior Notes due October 2018	250,000	250,000
4.5% Senior Notes due November 2020	200,000	200,000
8.0% Senior Notes due November 2021	150,000	150,000
5.375% Senior Notes due January 2022	425,000	425,000
5.375% Senior Notes due May 2024	850,000	550,000
7.5% Senior Notes due April 2027	200,000	200,000
Term Loan due July 2018	325,000	370,000
Bank Credit Facility due July 2018	225,000	235,000
Obligations under capital leases	208,613	181,002
Mortgage notes and other debt, maturities through 2050	4,087	4,251
Unamortized premiums (discounts), net	8,759	(2,905)
Total debt	3,141,459	3,054,725
Less: Current maturities of long-term debt	(95,045)	(90,931)
Total long-term debt	\$3,046,414	\$2,963,794

Current maturities of debt at September 30, 2015 include amounts due under our Term Loan, mortgage notes and other debt, and capital leases within the next year. Our consolidated debt had a weighted average interest rate of 5.15% and 5.21% at September 30, 2015 and December 31, 2014, respectively. Approximately 76% and 75% of our total debt had a fixed interest rate at September 30, 2015 and December 31, 2014, respectively.

Bank Credit Facility

The Company has a \$500.0 million bank credit facility due July 2018 with a syndicate of banks, including a sublimit of \$175.0 million for letters of credit.

As of September 30, 2015, we have \$225.0 million of outstanding borrowings under our Bank Credit Facility and have issued \$33.3 million of letters of credit. The Bank Credit Facility provides us with flexibility for working capital, if needed, and is guaranteed by a majority of our domestic subsidiaries. The subsidiary guaranty is a guaranty of payment of the outstanding amount of the total lending commitment, including letters of credit. The Bank Credit Facility contains certain financial covenants, including a minimum interest coverage ratio, a maximum leverage ratio, and certain dividend and share repurchase restrictions. We pay a quarterly fee on the unused commitment, which was 0.35% at September 30, 2015. As of September 30, 2015, we have \$241.7 million in borrowing capacity under the bank credit facility.

Debt Issuances and Additions

In August 2015, we issued an additional \$300.0 million to our existing unsecured 5.375% Senior Notes Due May 2024. This issuance generated a premium of \$11.3 million. We used the net proceeds from this offering to redeem all of our outstanding 6.75% Senior Notes due April 2016 and to repay \$100.0 million of outstanding borrowings under our Bank Credit Facility. During 2015, we drew \$90.0 million on our Bank Credit Facility, which was used to make required payments on our Term Loan and for general corporate purposes.

In May 2014, we issued \$550.0 million of unsecured 5.375% Senior Notes due May 2024. We used the net proceeds from this offering, along with a \$95.0 million draw on our bank credit facility, to repay our 6.75% Senior Notes due

April 2015, 6.5% Senior Notes due April 2019, and 7.0% Senior Notes due May 2019 along with associated refinancing costs. The newly issued notes are subject to the provisions of the Company's Senior Indenture dated as of February 1, 1993, as amended, which includes covenants limiting, among other things, the creation of liens securing indebtedness and sale-leaseback transactions.

Table of Contents

In February 2014, we drew \$110.0 million on our bank credit facility, which we used along with cash on hand to repay our 3.125% Senior Convertible Notes July 2014 and our 3.375% Senior Convertible Notes due July 2016.

Debt Extinguishments and Reductions

During the nine months ended September 30, 2015, we made debt payments of \$342.5 million for scheduled and early extinguishment payments including:

\$197.4 million in aggregate principal of our 6.75% Senior Notes due April 2016;

\$100.0 million in aggregate principal of our Bank Credit Facility; and

\$45.0 million in aggregate principal of our Term Loan due July 2018.

Certain of the above transactions resulted in the recognition of a loss of \$6.9 million recorded in Loss on early extinguishment of debt in our unaudited condensed consolidated statement of operations.

During the nine months ended September 30, 2014, we made debt payments of \$985.8 million for scheduled and early extinguishment payments including:

•\$222.5 million in aggregate principal of our Term Loan due July 2018;

•\$250.0 million in aggregate principal of our 7.0% Senior Notes due May 2019;

•\$200.0 million in aggregate principal and \$9.1 million in unamortized premiums of our 6.5% Senior Notes due April 2019;

•\$136.5 million in aggregate principal of our 6.75% Senior Notes due April 2015;

•\$86.4 million in aggregate principal and \$21.7 million in unamortized premiums of our 3.125% Senior Convertible Notes due 2014; and

•\$45.0 million in aggregate principal and \$14.2 million in unamortized premiums of our 3.375% Senior Convertible Notes due 2016.

Certain of the above transactions resulted in the recognition of a loss of \$29.2 million recorded in Loss on early extinguishment of debt in our unaudited condensed consolidated statement of operations.

Capital Leases

During the nine months ended September 30, 2015 and 2014, we acquired \$51.3 million and \$30.8 million, respectively, of capital leases, primarily related to transportation equipment. We made aggregate principal payments of \$20.4 million and \$22.0 million on our capital lease obligations for the nine months ended September 30, 2015 and 2014, respectively.

10. Credit Risk and Fair Value of Financial Instruments

Fair Value Estimates

The fair value estimates of the following financial instruments have been determined using available market information and appropriate valuation methodologies. The carrying values of cash and cash equivalents, trade receivables, and trade payables approximate the fair values of those instruments due to the short-term nature of the instruments. The fair values of receivables on preneed contracts are impracticable to estimate because of the lack of a trading market and the diverse number of individual contracts with varying terms.

Table of Contents

The fair value of our debt instruments at September 30, 2015 and December 31, 2014 was as follows:

	September 30, 2015	December 31, 2014
	(In thousands)	
6.75% Senior Notes due April 2016	\$—	\$208,075
7.0% Senior Notes due June 2017	316,759	320,043
7.625% Senior Notes due October 2018	282,500	277,538
4.5% Senior Notes due November 2020	204,500	201,700
8.0% Senior Notes due November 2021	176,250	174,375
5.375% Senior Notes due January 2022	448,503	437,750
5.375% Senior Notes due May 2024	887,188	558,250
7.5% Senior Notes due April 2027	226,000	220,890
Term Loan due July 2018	325,000	370,000
Bank Credit Facility due July 2018	225,000	235,000
Mortgage notes and other debt, maturities through 2050	4,101	4,277
Total fair value of debt instruments	\$3,095,801	\$3,007,898

The fair values of our long-term, fixed-rate loans were estimated using market prices for those loans, and therefore they are classified within Level 2 of the fair value measurements hierarchy. The Term Loan, Bank Credit Facility agreement and the mortgage and other debt are classified within Level 3 of the fair value measurements hierarchy. The fair values of these instruments have been estimated using a discounted cash flow analysis based on our incremental borrowing rate for similar borrowing arrangements. An increase (decrease) in the inputs results in a directionally opposite change in the fair value of the instruments.

11. Share-Based Compensation

Stock Benefit Plans

We utilize the Black-Scholes option valuation model for estimating the fair value of our stock options. This model uses a range of assumptions related to volatility, the risk-free interest rate, the expected life, and the dividend yield. The fair values of our stock options are calculated using the following weighted average assumptions for the nine months ended September 30, 2015:

Assumptions	Nine Months Ended September 30, 2015	
Dividend yield	1.8	%
Expected volatility	23.3	%
Risk-free interest rate	1.3	%
Expected holding period (in years)	4.0	

Stock Options

The following table sets forth stock option activity for the nine months ended September 30, 2015:

	Options	Weighted-Average Exercise Price
Outstanding at December 31, 2014	12,107,106	\$ 11.63
Granted	2,036,010	\$ 23.00
Exercised	(2,945,438)	\$ 10.44
Canceled	(21,400)	\$ 20.59
Outstanding at September 30, 2015	11,176,278	\$ 13.98
Exercisable at September 30, 2015	7,008,300	\$ 10.58

As of September 30, 2015, the unrecognized compensation expense related to stock options of \$10.4 million is expected to be recognized over a weighted average period of 1.3 years.

Table of Contents

Restricted Shares

Restricted share activity for the nine months ended September 30, 2015 was as follows:

	Restricted Shares	Weighted-Average Grant-Date Fair Value
Nonvested restricted shares at December 31, 2014	1,319,260	\$ 13.39
Granted	253,791	\$ 23.00
Forfeited	(3,840)	\$ 20.47
Vested	(990,558)	\$ 12.37
Nonvested restricted shares at September 30, 2015	578,653	\$ 19.32

As of September 30, 2015, the unrecognized compensation expense related to restricted shares of \$7.6 million is expected to be recognized over a weighted average period of 1.8 years.

12. Equity

(All shares reported in whole numbers)

Our components of Accumulated other comprehensive income are as follows:

	Foreign Currency Translation Adjustment	Unrealized Gains and Losses (In thousands)	Accumulated Other Comprehensive Income
Balance at December 31, 2014	\$59,414	\$—	\$ 59,414
Activity in 2015	(42,913)	—	(42,913)
Increase in net unrealized gains associated with available-for-sale securities of the trusts, net of taxes	—	(110,016)	(110,016)
Reclassification of net unrealized gains activity attributable to the Deferred preneed receipts held in trust and Care trusts' corpus, net of taxes	—	110,016	110,016
Balance at September 30, 2015	\$16,501	\$—	\$ 16,501
Balance at December 31, 2013	\$88,441	\$—	\$ 88,441
Activity in 2014	(13,732)	—	(13,732)
Reclassification of foreign currency translation adjustments to Net Income from discontinued operations	3,114	—	3,114
Increase in net unrealized gains associated with available-for-sale securities of the trusts, net of taxes	—	11,672	11,672
Reclassification of net unrealized gains activity attributable to the Deferred preneed receipts held in trust and Care trusts' corpus, net of taxes	—	(11,672)	(11,672)
Balance at September 30, 2014	\$77,823	\$—	\$ 77,823

The assets and liabilities of foreign operations are translated into U.S. dollars using the current exchange rate. The U.S. dollar amount that arises from such translation, as well as exchange gains and losses on intercompany balances of a long-term investment nature, are included in the foreign currency translation adjustment in Accumulated other comprehensive income.

Cash Dividends

On August 12, 2015, our Board of Directors approved a cash dividend of \$0.12 per common share. This dividend, totaling \$23.7 million, was paid on September 30, 2015.

Share Repurchases

Explanation of Responses:

Subject to market conditions, normal trading restrictions, and limitations in our debt covenants, we may make purchases in the open market or through privately negotiated transactions under our stock repurchase program. During the nine months ended September 30, 2015, we repurchased 11,008,576 shares of common stock at an aggregate cost of \$305.5 million, which is an average cost per share of \$27.75. On August 12, 2015, our Board of Directors increased our share repurchase authorization to \$400.0 million. After these repurchases and the increase in authorization, the remaining dollar value of shares authorized to be purchased under our share repurchase program was approximately \$321.6 million at September 30, 2015.

35

Table of Contents

Subsequent to September 30, 2015, we repurchased 619,905 shares of common stock at an aggregate cost of \$17.5 million, which is an average cost per share of \$28.17. After these fourth quarter repurchases, the remaining dollar value of shares authorized to be repurchased under our repurchase program is \$304.1 million.

Noncontrolling Interest

Subsequent to September 30, 2015, we purchased an additional 24.4% of the common stock of our consolidated subsidiary, Wilson Financial Group, Inc. for \$2.1 million.

13. Segment Reporting

Our operations are both product-based and geographically-based, and the reportable operating segments presented below include our funeral and cemetery operations. Our geographic areas include the United States and Canada, in both of which we conduct both funeral and cemetery operations.

Our reportable segment information is as follows:

	Funeral	Cemetery	Reportable Segments
	(In thousands)		
Three months ended September 30,

15. Commitments and Contingencies

Insurance Loss Reserves

We purchase comprehensive general liability, morticians' and cemetery professional liability, automobile liability, and workers' compensation insurance coverage structured with high deductibles. The high-deductible insurance program means we are primarily self-insured for claims and associated costs and losses covered by these policies. As of September 30, 2015 and December 31, 2014, we have self-insurance reserves of \$76.8 million and \$74.0 million, respectively.

Litigation

We are a party to various litigation matters, investigations, and proceedings. Some of the more frequent ordinary routine litigation incidental to our business is based on burial practices claims and employment-related matters, including discrimination, harassment, and wage and hour laws and regulations. For each of our outstanding legal matters, we evaluate the merits of the case, our exposure to the matter, possible legal or settlement strategies, and the likelihood of an unfavorable outcome. We intend to vigorously defend ourselves in the lawsuits described herein; however, if we determine that an unfavorable outcome is probable and can be reasonably estimated, we establish the necessary accruals. We hold certain insurance policies that may reduce cash outflows with respect to an adverse outcome of certain of these litigation matters. We accrue such insurance recoveries when they become probable of being paid and can be reasonably estimated.

Wage and Hour Claims. We are named a defendant in various lawsuits alleging violations of federal and state laws regulating wage and hour pay, including but not limited to the Samborsky lawsuit described below.

Charles Samborsky, et al, individually and on behalf of those persons similarly situated, v. SCI California Funeral Services, Inc., et al; Case No. BC544180; in the Superior Court of the State of California for the County of Los Angeles, Central District-Central Civil West Courthouse. This lawsuit was filed in April 2014 against an SCI subsidiary and purports to have been brought on behalf of employees who worked as family service counselors in California since April 2010. The plaintiffs allege causes of action for various violations of state laws regulating wage and hour pay. The plaintiffs seek unpaid wages, compensatory and punitive damages, attorneys' fees and costs, interest, and injunctive relief. We cannot quantify our ultimate liability, if any, in this lawsuit.

Claims Regarding Acquisition of Stewart Enterprises. We are involved in the following lawsuits.

Karen Moulton, Individually and on behalf of all others similarly situated v. Stewart Enterprises, Inc., Service Corporation International and others; Case No. 2013-5636; in the Civil District Court Parish of New Orleans. This case was filed as a class action in June 2013 against SCI and our subsidiary in connection with SCI's proposed acquisition of Stewart Enterprises, Inc. The plaintiffs allege that SCI aided and abetted breaches of fiduciary duties by Stewart Enterprises and its board of directors in negotiating the combination of Stewart Enterprises with a subsidiary of SCI. The plaintiffs seek damages concerning the combination. We filed exceptions to the plaintiffs' complaint that were granted in June 2014. Thus, subject to appeals, SCI will no longer be party to the suit. The case will continue against our subsidiary Stewart Enterprises and its former individual directors. We cannot quantify our ultimate liability, if any, for the payment of damages.

S.E. Funeral Homes of California, Inc. v. The Roman Catholic Archbishop of Los Angeles, et al.; Case No. BC559142; in the Superior Court of the State of California for the County of Los Angeles. The plaintiff is a company indirectly owned by Stewart Enterprises, Inc. The plaintiff filed this action in September 2014 to prevent The Roman Catholic Archbishop of Los Angeles (the "Archdiocese") from terminating six ground leases. In reliance on the leases

having 40 year terms beginning at the earliest in 1997, the plaintiff had previously made material investments since 1997 in constructing and operating funeral homes, chapels, mausoleums, and other improvements on the leased premises. In addition, the plaintiff has created a material backlog of deferred preneed revenue that plaintiff expects to receive in the coming years. In September 2014, the Archdiocese delivered notices purporting to terminate the leases and alleging that the leases were breached because the plaintiff did not obtain the Archdiocese's consent before Stewart Enterprises, Inc. entered into a reverse merger with an affiliate of SCI. The plaintiff disputes

38

Table of Contents

this contention and seeks, among other things, a declaratory judgment declaring that the Archdiocese's purported termination notices are invalid, requiring specific performance of the leases, or, in the alternative, awarding plaintiff compensatory damages. We cannot quantify the ultimate outcome in this lawsuit.

The ultimate outcome of the matters described above cannot be determined at this time. We intend to vigorously defend all of the above lawsuits; however, an adverse decision in one or more of such matters could have a material effect on us, our financial condition, results of operations, and cash flows.

16. Earnings Per Share

Basic earnings per common share (EPS) excludes dilution and is computed by dividing Net income attributable to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution that could occur if securities or other obligations to issue common stock were exercised or converted into common stock or resulted in the issuance of common shares that then shared in our earnings.

A reconciliation of the numerators and denominators of the basic and diluted EPS computations is presented below:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(In thousands, except per share amounts)			
Amounts attributable to common stockholders:				
Net income:				
Net income — basic	\$47,448	\$17,651	\$161,418	\$84,675
After tax interest on convertible debt	13	—	37	38
Net income — diluted	\$47,461	\$17,651	\$161,455	\$84,713
Weighted average shares (denominator):				
Weighted average shares — basic	199,310	210,820	201,729	212,009
Stock options	4,013	2,190	4,100	3,235
Convertible debt	121	—	121	121
Weighted average shares — diluted	203,444	213,010	205,950	215,365
Net income per share:				
Basic	\$0.24	\$0.08	\$0.80	\$0.40
Diluted	\$0.23	\$0.08	\$0.78	\$0.39

Earnings per share from discontinued operations were less than \$0.005 for all periods; therefore, net income from continuing operations attributable to common shareholders per share is the same as net income per share in the table above.

The computation of diluted EPS excludes outstanding stock options and convertible debt in certain periods in which the inclusion of such options and debt would be anti-dilutive in the periods presented. Total options and convertible debentures not included in the computation of dilutive EPS are as follows (in shares):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(In thousands)			
Antidilutive options	—	21	—	1,431
Antidilutive convertible debentures	—	121	—	—
Total common stock equivalents excluded from computation	—	142	—	1,431

Table of Contents

17. Divestiture-Related Activities

As divestitures occur in the normal course of business, gains or losses on the sale of such locations are recognized in the income statement line item Gains on divestitures and impairment charges, net, which consist of the following for the three and nine months ended September 30:

	Three Months Ended September 30		Nine Months Ended September 30	
	2015	2014	2015	2014
	(In thousands)			
Gains on divestitures, net	\$12,400	\$26,889	\$9,373	\$64,753
Impairment losses	(1,636)	(319)	(5,970)	(6,001)
	\$10,764	\$26,570	\$3,403	\$58,752

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Company

We are North America's largest provider of deathcare products and services, with a network of funeral service locations and cemeteries unequaled in geographic scale and reach. At September 30, 2015, we operated 1,540 funeral service locations and 469 cemeteries (including 262 combination locations), which are geographically diversified across 45 states, 8 Canadian provinces, the District of Columbia, and Puerto Rico. Our funeral and cemetery operations consist of funeral service locations, cemeteries, funeral service/cemetery combination locations, crematoria, and related businesses. We sell cemetery property and funeral and cemetery merchandise and services at the time of need and on a preneed basis.

Our financial position is enhanced by our \$9.4 billion backlog of future revenue from both trust and insurance-funded sales at September 30, 2015, which is the result of preneed sales. Preneed selling provides us with a current opportunity to lock-in future market share while deterring the customer from going to a competitor in the future. We believe it adds to the stability and predictability of our revenue and cash flows. While revenue on the majority of preneed merchandise and service sales is deferred until the time of need, sales of preneed cemetery property provide opportunities for full current revenue recognition to the extent we collect 10% from the customer and the property is developed.

We believe we have the financial strength and flexibility to reward shareholders through dividends while maintaining a prudent capital structure and pursuing new opportunities for profitable growth.

Factors affecting our operating results include: demographic trends in terms of population growth and average age, which impact death rates and number of deaths; establishing and maintaining leading market share positions supported by strong local heritage and relationships; effectively responding to increasing cremation trends by selling complementary services and merchandise; controlling salary and merchandise costs; and exercising pricing leverage related to our at-need revenue. The average revenue per funeral contract is influenced by the mix of traditional and cremation services because our average cremation service revenue is approximately half of the average revenue earned from a traditional burial service. To further enhance revenue opportunities, we are developing memorialization merchandise and services that specifically appeal to cremation customers. We believe that these additional merchandise and services will help drive increases in the average revenue for a cremation in future periods.

For further discussion of our key operating metrics, see our Results of Operations and Cash Flow sections below.

Table of Contents

Financial Condition, Liquidity and Capital Resources

Capital Allocation Considerations

We rely on cash flow from operations as a significant source of liquidity. Our cash flow from operating activities provided \$396.6 million in the nine months ended September 30, 2015. We have \$241.7 million in excess borrowing capacity under our bank credit facility.

Our bank credit facility requires us to maintain certain leverage and interest coverage ratios. As of September 30, 2015, we were in compliance with all of our debt covenants. Our financial covenant requirements and actual ratios as of September 30, 2015 are as follows:

	Per Credit Agreement	Actual
Leverage ratio	4.50 (Max)	3.74
Interest coverage ratio	3.00 (Min)	4.96

We believe our sources of liquidity can be supplemented by our ability to access the capital markets for additional debt or equity securities. We believe that our \$142.0 million of cash on hand, future operating cash flows, and the available capacity under our Bank Credit Facility will give us adequate liquidity to meet our short-term needs. In August 2015, we completed the public offering of \$300.0 million aggregate principal amount of our 5.375% Senior Notes due 2024 in a reopening of our existing series of such Notes. The net proceeds, which included a premium of \$11.3 million, from the offering were used to redeem all of our outstanding 6.750% Senior Notes due 2016 and to repay \$100.0 million of outstanding borrowings under our Bank Credit Facility.

We intend to evaluate the best uses of our cash flow that will yield the highest value and return on capital. Our capital deployment strategy is prioritized as follows:

Invest in acquisitions and new builds. We intend to make acquisitions of funeral homes and cemeteries when pricing and terms are favorable. We expect an acquisition investment to earn an after-tax cash return that is in excess of our weighted average cost of capital with room for execution risk. We will also invest in the construction of funeral home facilities when deemed appropriate. We target businesses with favorable customer segments and/or where we can achieve additional economies of scale.

Pay a dividend. Our quarterly dividend rate has steadily grown from \$0.025 per common share in 2005 to \$0.12 per common share in 2015. While we intend to pay regular quarterly cash dividends for the foreseeable future, all future dividends are subject to limitations in our debt covenants and final determination by our Board of Directors each quarter upon review of our financial performance.

Repurchase shares. Absent a strategic acquisition opportunity, we believe share repurchases are attractive at the appropriate price. During the nine months ended September 30, 2015, we repurchased 11,008,576 shares of common stock at an aggregate cost of \$305.5 million, which is an average cost per share of \$27.75. After these repurchases, the remaining dollar value of shares authorized to be purchased under our share repurchase program was approximately \$321.6 million at September 30, 2015. We intend to make purchases from time to time in the open market or through privately negotiated transactions, subject to market conditions, debt covenants, and normal trading restrictions. Our credit agreement contains covenants that limit our ability to repurchase our common stock. There can be no assurance that we will buy our common stock under our share repurchase program in the future.

Repurchase debt. We will seek to make open market debt repurchases when it is opportunistic to do so relative to other capital development opportunities to manage our near-term debt maturity profile. We have a relatively consistent annual cash flow stream that is generally resistant to down economic cycles. This cash flow stream and our significant liquidity is available to substantially reduce our long-term debt maturities should we choose to do so. Furthermore, our capital expenditures are generally discretionary in nature and can be managed based on the availability of operating cash flow.

Table of Contents

Cash Flow

We believe our ability to generate strong operating cash flow is one of our fundamental financial strengths and provides us with substantial flexibility in meeting our operating and investing needs.

Operating Activities

Net cash provided by operating activities increased \$140.4 million to \$396.6 million in the first nine months of 2015 from \$256.2 million in the first nine months of 2014. Included in 2015 are a decrease of acquisition and transition related costs of \$51.0 million, a decrease of \$18.3 million in premiums paid on early extinguishment of debt, a decrease of \$18.1 million in taxes paid associated with gains on divestitures, a decrease of \$10.3 million paid for legal defense fees, and a \$3.4 million decrease in excess tax benefits from share-based awards and other.

Excluding the above items, cash flow from operations increased \$39.3 million as a result of the following:

- \$36.6 million increase in cash receipts from customers;
- \$21.4 million increase in net trust fund withdrawals;
- \$11.3 million decrease in cash interest paid; and
- \$4.1 million decrease in employee compensation; partially offset by
- \$29.1 million increase in cash tax payments; and
- \$5.0 million increase in vendor and other payments.

Investing Activities

Cash flows from investing activities used \$125.8 million in the first nine months of 2015 compared to providing \$284.1 million in the same period of 2014. This was primarily attributable to a \$386.0 million decrease in cash receipts from divestitures and asset sales, an increase of \$30.6 million in cash spent on acquisitions, and a \$9.6 million increase in capital expenditures, partially offset by a \$20.3 million increase in net withdrawals of restricted funds.

Financing Activities

Financing activities used \$298.4 million in the first nine months of 2015 compared to using \$416.4 million in the same period of 2014. This decrease was primarily driven by a decrease in debt payments net of issuance proceeds of \$295.7 million, increased proceeds from exercise of stock options of \$2.9 million, and a \$15.0 million decrease in purchases of noncontrolling interests, partially offset by a \$175.3 million increase in repurchases of Company common stock and an \$11.0 million increase in payments of dividends.

We repurchased 11.0 million shares in the first nine months of 2015 for \$305.5 million and 6.3 million shares in the same period of 2014 for \$130.2 million. We paid cash dividends of \$64.1 million in the first nine months of 2015 and \$53.0 million in the same period of 2014.

Table of Contents

Financial Assurances

In support of our operations, we have entered into arrangements with certain surety companies whereby such companies agree to issue surety bonds on our behalf as financial assurance and/or as required by existing state and local regulations. The surety bonds are used for various business purposes; however, the majority of the surety bonds issued and outstanding have been used to support our preneed funeral and cemetery sales activities. The obligations underlying these surety bonds are recorded on the unaudited condensed consolidated balance sheet as Deferred preneed funeral revenue and Deferred preneed cemetery revenue. The breakdown of surety bonds between funeral and cemetery preneed arrangements, as well as surety bonds for other activities, is described below.

	September 30, 2015	December 31, 2014
	(In millions)	
Preneed funeral	\$112.6	\$121.1
Preneed cemetery:		
Merchandise and services	136.0	138.1
Pre-construction	4.9	4.6
Bonds supporting preneed obligations	253.5	263.8
Bonds supporting preneed business permits	4.5	4.4
Other bonds	18.0	18.0
Total surety bonds outstanding	\$276.0	\$286.2

When selling preneed contracts, we may post surety bonds where allowed by state law. We post the surety bonds in lieu of trusting a certain amount of funds received from the customer. The amount of the bond posted is generally determined by the total amount of the preneed contract that would otherwise be required to be trusted, in accordance with applicable state law. For the three months ended September 30, 2015 and 2014, we had \$5.2 million and \$5.0 million, respectively, of cash receipts attributable to bonded sales. For the nine months ended September 30, 2015 and 2014, we had \$15.2 million and \$14.7 million, respectively, of cash receipts attributable to bonded sales. These amounts do not consider reductions associated with taxes, obtaining costs, or other costs.

Surety bond premiums are paid annually and are automatically renewable until maturity of the underlying preneed contracts, unless we are given prior notice of cancellation. Except for cemetery pre-construction bonds (which are irrevocable), the surety companies generally have the right to cancel the surety bonds at any time with appropriate notice. In the event a surety company were to cancel the surety bond, we are required to obtain replacement surety assurance from another surety company or fund a trust for an amount generally less than the posted bond amount. Management does not expect that we will be required to fund material future amounts related to these surety bonds because of lack of surety capacity or surety company non-performance.

Preneed Funeral and Cemetery Activities and Backlog of Contracts

In addition to selling our products and services to client families at the time of need, we sell price-guaranteed preneed contracts, which provide for future funeral or cemetery services and merchandise. Since preneed merchandise or services will not be provided until sometime in the future, most states and provinces require that all or a portion of the funds collected from customers on preneed contracts be paid into merchandise and service trusts until the merchandise is delivered or the service is performed. These trust funds own investments in equity and debt securities and mutual funds, which are sensitive to current market prices. In certain situations, as described above, where permitted by state or provincial laws, we post a surety bond as financial assurance for a certain amount of the preneed contract in lieu of placing funds into trust accounts.

Trust-Funded Preneed Contracts: The funds are deposited into trust and invested by independent trustees in accordance with state and provincial laws. We retain any funds above the amounts required to be deposited into trust accounts and use them for working capital purposes, generally to offset the selling and administrative costs of our preneed programs.

Table of Contents

The tables below detail our results of preneed production and maturities, excluding insurance contracts, for the three and nine months ended September 30, 2015 and 2014.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(In millions)			
Funeral:				
Preneed trust-funded (including bonded):				
Sales production	\$65.0	\$58.7	\$196.9	\$173.1
Sales production (number of contracts)	20,975	20,424	63,623	59,580
Maturities	\$53.5	\$52.8	\$168.5	\$163.6
Maturities (number of contracts)	15,798	15,872	49,518	45,378
Cemetery:				
Sales production:				
Preneed	\$180.5	\$163.6	\$569.1	\$510.5
Atneed	73.9	71.0	228.3	233.2
Total sales production	\$254.4	\$234.6	\$797.4	\$743.7
Sales production deferred to backlog:				
Preneed	\$88.6	\$72.6	\$262.2	\$212.2
Atneed	54.8	55.4	171.1	177.0
Total sales production deferred to backlog	\$143.4	\$128.0	\$433.3	\$389.2
Revenue recognized from backlog:				
Preneed	\$64.9	\$64.8	\$167.5	\$152.9
Atneed	54.9	56.4	167.5	173.1
Total revenue recognized from backlog	\$119.8	\$121.2	\$335.0	\$326.0

Insurance-Funded Preneed Contracts: Where permitted by state or provincial law, customers may arrange their preneed contract by purchasing a life insurance policy from third-party insurance companies, for which we earn a commission as general sales agent for the insurance company. The policy amount of the insurance contract between the customer and the third-party insurance company generally equals the amount of the preneed contract. As the insurance contract is between the insurance company and the customer, we do not reflect the unfulfilled insurance-funded preneed contract amounts in our unaudited condensed consolidated balance sheet.

The table below details the results of insurance-funded preneed production and maturities for the three and nine months ended September 30, 2015 and 2014, and the number of contracts associated with those transactions.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
	(In millions)			
Preneed insurance-funded:				
Sales production ⁽¹⁾	\$136.4	\$134.6	\$409.7	\$452.7
Sales production (number of contracts) ⁽¹⁾	22,803	21,801	68,215	75,675
General Agency revenue	\$34.9	\$32.3	\$101.3	\$92.2
Maturities	\$72.8	\$76.8	\$241.4	\$271.6
Maturities (number of contracts)	12,086	12,794	40,873	46,768

(1) Amounts are not included in our unaudited condensed consolidated balance sheet.

Table of Contents

Backlog of Preneed Contracts: The following table reflects our backlog of trust-funded deferred preneed contract revenue, including amounts related to Deferred preneed receipts held in trust at September 30, 2015 and December 31, 2014. Additionally, the table reflects our backlog of unfulfilled insurance-funded contracts (which are not included in our unaudited condensed consolidated balance sheet) at September 30, 2015 and December 31, 2014. The backlog amounts presented are reduced by an amount that we believe will cancel before maturity based on historical experience.

The table also reflects our preneed receivables and trust investments (fair value and cost bases) associated with the backlog of deferred preneed contract revenue, net of the estimated cancellation allowance. We believe that the table below is meaningful because it sets forth the aggregate amount of future revenue we expect to recognize as a result of preneed sales, as well as the amount of assets associated with those revenue. Because the future revenue exceed the asset amounts, future revenue will exceed the cash distributions actually received from the associated trusts. The following table does not include backlog associated with businesses held for sale.

	September 30, 2015		December 31, 2014	
	Fair Value	Cost	Fair Value	Cost
		(In billions)		
Deferred preneed funeral revenue	\$0.55	\$0.55	\$0.54	\$0.54
Deferred preneed funeral receipts held in trust	1.50	1.56	1.63	1.63
	\$2.05	\$2.11	\$2.17	\$2.17
Allowance for cancellation on trust investments	(0.15)	(0.15)	(0.17)	(0.17)
Backlog of trust-funded preneed funeral revenue	\$1.90	\$1.96	\$2.00	\$2.00
Backlog of insurance-funded preneed revenue(1)	5.08	5.08	4.82	4.82
Total backlog of preneed funeral revenue	\$6.98	\$7.04	\$6.82	\$6.82
Preneed funeral receivables, net and trust investments	\$1.73	\$1.79	\$1.84	\$1.85
Allowance for cancellation on trust investments	(0.14)	(0.14)	(0.16)	(0.16)
Assets associated with backlog of trust-funded deferred preneed funeral revenue, net of estimated allowance for cancellation	\$1.59	\$1.65	\$1.68	\$1.69
Insurance policies associated with insurance-funded deferred revenue, net of estimated allowance for cancellation(1)	5.08	5.08	4.82	4.82
Total assets associated with backlog of preneed funeral revenue, net of estimated allowance for cancellation	\$6.67	\$6.73	\$6.50	\$6.51
Deferred preneed cemetery revenue	\$1.13	\$1.13	\$1.06	\$1.06
Deferred preneed cemetery receipts held in trust	1.44	1.52	1.52	1.53
	\$2.57	\$2.65	\$2.58	\$2.59
Allowance for cancellation on trust investments	(0.11)	(0.11)	(0.11)	(0.11)
Total backlog of deferred cemetery revenue	\$2.46	\$2.54	\$2.47	\$2.48
Preneed cemetery receivables, net and trust investments	\$2.27	\$2.36	\$2.31	\$2.32
Allowance for cancellation on trust investments	(0.12)	(0.12)	(0.13)	(0.13)
Total assets associated with backlog of deferred cemetery revenue, net of estimated allowance for cancellation	\$2.15	\$2.24	\$2.18	\$2.19

(1) Amounts are not included in our unaudited condensed consolidated balance sheet.

The fair value of our trust investments was based on a combination of quoted market prices, observable inputs such as interest rates or yield curves, and appraisals. As of September 30, 2015, the difference between the backlog and asset market amounts represents \$0.25 billion related to contracts for which we have posted surety bonds as financial assurance in lieu of trusting, \$0.18 billion collected from customers that were not required to be deposited into trust,

and \$0.18 billion in allowable cash distributions from trust assets.

The table also reflects the amounts expected to be received from insurance companies through the assignment of policy proceeds related to insurance-funded contracts. We do not reflect the unfulfilled insurance-funded preneed amounts in our consolidated balance sheet because they are not assets or liabilities as defined in Statement of Accounting Concepts No. 6 as we have no claim to the insurance proceeds until the contract is fulfilled and no obligation under the contract until the benefits are assigned to us after the time of need.

45

Table of Contents

Trust Investments

In addition to selling our merchandise and services to client families at the time of need, we sell price-guaranteed preneed contracts, which provide for future merchandise and services. Since preneed merchandise or services will not be provided until sometime in the future, most states and provinces require that all or a portion of the funds collected from customers on preneed contracts be paid into trusts and/or preneed escrow accounts until the merchandise is delivered or the service is performed. Investment earnings associated with the trust investments are expected to mitigate the inflationary costs of providing the preneed merchandise or services in the future for the prices that were guaranteed at the time of sale.

Also, we are required by state and provincial law to pay a portion of the proceeds from the sale of cemetery property interment rights into perpetual care trusts. For these investments, the original corpus remains in the trust in perpetuity and the net ordinary earnings are intended to defray the expense to maintain the cemetery property. While some of the states require that net capital gains or losses be retained and added to the corpus, certain states allow the net realized capital gains and losses to be included in the income that is distributed.

Independent trustees manage and invest all of the funds deposited into the merchandise and service trusts as well as the cemetery perpetual care trusts. The majority of trustees are selected based on their respective geographic footprint and qualifications per state and provincial regulations. All of the trustees engage the same independent investment managers. The trustees, with input from SCI's wholly-owned registered investment advisor, establish an investment policy that serves as an operating document to guide the investment activities of the trusts including asset allocation and manager selection. The investments are also governed by state and provincial guidelines. Asset allocation is based on the liability structure of each trust. The investment advisor recommends investment managers to the trustees that are selected on the basis of various criteria set forth in the investment policy. The primary investment objectives for the merchandise and service trusts include (1) achieving growth of principal over time sufficient to preserve and increase the purchasing power of the assets, and (2) preserving capital within acceptable levels of volatility. Preneed contracts generally take years to mature; therefore, the funds associated with these contracts are often invested for several market cycles. The cemetery perpetual care trusts emphasize providing a steady stream of investment income with some capital appreciation. The trustees seek to control risk and volatility through a combination of investment styles, asset classes, and diverse mix of investment managers.

As of September 30, 2015, 87% of our trusts were under the control and custody of three large financial institutions. The U.S. trustees primarily use three managed limited liability (LLCs), one for each trust type, and each with a different independent trustee as custodian. Each financial institution acting as trustee manages its allocation of trust in accordance with the investment policy through the purchase of the LLCs' units. For those accounts not eligible for participation in the LLCs or in the event a particular state's regulations contain investment restrictions, the trustee utilizes institutional mutual funds that comply with our investment policy or with such state restrictions. The U.S. trusts include a modest allocation to alternative investments, which comprise private equity and real estate investments. These investments are structured as LLCs and are managed by certain trustees. The trusts that are eligible to allocate a portion of their investments to alternative investments purchase units of the respective LLCs.

Fixed Income Securities

Fixed income investments are intended to preserve principal, provide a source of current income, and reduce overall portfolio volatility. The SCI trusts have direct investments primarily in government fixed income securities.

Insurance-backed fixed income investments preserve the principal, guarantee annual appreciation, and reduce overall portfolio volatility.

Canadian government fixed income securities are investments in Canadian federal and provincial government instruments. In many cases, regulatory restrictions mandate that the funds from the sales of preneed funeral and cemetery products sold in certain Canadian jurisdictions must be invested in these instruments.

Table of Contents

Equity Securities

Equity investments have historically provided long-term capital appreciation in excess of inflation. The SCI trusts have direct investments primarily in domestic equity portfolios that include large, mid, and small capitalization companies of different investment objectives (i.e., growth and value). The majority of the equity portfolio is managed by multiple institutional investment managers that specialize in an objective-specific area of expertise. Our equity securities are exposed to market risk; however, these securities are well diversified. As of September 30, 2015, the largest single equity position represented less than 1% of the total securities portfolio.

Mutual Funds

The SCI trust funds employ institutional mutual funds where operationally or economically efficient. Institutional mutual funds are utilized to invest in various asset classes including U.S. equities, non-U.S. equities, convertible bonds, corporate bonds, government bonds, Treasury inflation protected securities (TIPS), high yield bonds, real estate investment trusts (REITs), and commodities. The mutual funds are governed by guidelines outlined in their individual prospectuses.

Private Equity

The objective of these investments is to provide high rates of return with controlled volatility. These investments are typically long-term in duration. These investments are diversified by strategy, sector, manager, and vintage year. Private equity exposure is accessed through LLCs established by certain preferred trustees. These LLCs invest in numerous limited partnerships, including private equity, fund of funds, distressed debt, and mezzanine financing. The trustees that have oversight of their respective LLCs work closely with the investment advisor in making all current investments.

Trust Performance

The trust fund income recognized from these investment assets is volatile. During the nine months ended September 30, 2015, the Standard and Poor's 500 Index decreased 5.3% and the Barclay's Aggregate Index increased 1.1%, while the combined SCI trusts decreased 3.1%.

SCI, the trustees, and the investment advisor monitor the capital markets and the trusts on an ongoing basis. The trustees, with input from the investment advisor, take prudent action as needed to achieve the investment goals and objectives of the trusts.

Results of Operations — Three Months Ended September 30, 2015 and 2014

Management Summary

Key highlights in the third quarter of 2015 were as follows:

- Comparable funeral gross profit decreased \$11.5 million, or 12.9%, primarily due to a decrease in comparable revenue, inflationary increases in our fixed cost structure.

- Comparable cemetery gross profit increased \$6.1 million, or 10.5%, primarily driven by increases in preneed cemetery property sales that were partially offset by an unfavorable impact of Canadian currency.

Results of Operations

In the third quarter of 2015, we reported net income attributable to common stockholders of \$47.4 million (\$0.23 per diluted share) compared to net income attributable to common stockholders in the third quarter of 2014 of \$17.7 million (\$0.08 per diluted share). These results were affected by the following items:

	2015	2014
	(In thousands)	
Net after-tax gains (losses) from the sale of assets	\$6,848	\$(25,878)
After-tax (losses) gains from the early extinguishment of debt	\$(4,199)	\$1,029
After-tax expenses related to acquisition and transition costs	\$—	\$(5,349)
Change in certain tax reserves and other	\$(1,118)	\$(1,750)

Table of Contents

Consolidated Versus Comparable Results

The table below reconciles our consolidated GAAP results to our comparable, or “same store,” results for the three months ended September 30, 2015 and 2014. We define comparable operations (or same store operations) as those funeral and cemetery locations that were owned for the entire period beginning January 1, 2014 and ending September 30, 2015. The following tables present operating results for funeral and cemetery locations that were owned by us during this period.

Three Months Ended September 30, 2015	Consolidated	Less: Results Associated with Acquisition/New Construction (In millions)	Less: Results Associated with Divestitures	Comparable
Revenue				
Funeral revenue	\$449.2	\$3.8	\$0.5	\$444.9
Cemetery revenue	265.3	2.7	—	262.6
Total revenue	\$714.5	\$6.5	\$0.5	\$707.5
Gross profit				
Funeral gross profit	\$77.0	\$(0.6)	\$(0.2)	\$77.8
Cemetery gross profit	64.9	1.0	(0.1)	64.0
Total gross profit	\$141.9	\$0.4	\$(0.3)	\$141.8

Revenue				
Funeral revenue	\$458.9	\$0.4	\$10.0	\$448.5
Cemetery revenue	259.4	0.1	6.2	253.1
Total revenue	\$718.3	\$0.5	\$16.2	\$701.6
Gross profit				
Funeral gross profit	\$89.7	\$(0.2)	\$0.6	\$89.3
Cemetery gross profit	58.6	—	0.7	57.9
Total gross profit	\$148.3	\$(0.2)	\$1.3	\$147.2

The following table provides the data necessary to calculate our consolidated average revenue per service for the three months ended September 30, 2015 and 2014. We calculate average revenue per service by dividing consolidated funeral revenue, excluding GA revenue, recognized preneed revenue, and certain other revenue, to avoid distorting our averages of normal funeral services revenue, by the number of consolidated funeral services performed during the period. Recognized preneed revenue are preneed sales of items that are delivered at the time of sale, including memorial merchandise and travel protection and are excluded from our calculation of consolidated average revenue per service because the associated service has not yet been performed.

	Three Months Ended September 30, 2015	2014
Consolidated funeral revenue	\$449.2	\$458.9

(In millions, except funeral services performed and average revenue per funeral service)

Comparable average revenue per service	\$5,216	\$5,282

Funeral Results

Funeral Revenue

Consolidated revenue from funeral operations were \$449.2 million in the third quarter of 2015 compared to \$458.9 million for the same period in 2014. This decrease is primarily attributable to the loss of \$10.0 million in revenue contributed in 2014 by properties that have been subsequently divested as the decrease in comparable revenue described below was largely offset by revenue contributed by acquired and newly opened properties.

Comparable revenue from funeral operations were \$444.9 million in the third quarter of 2015 compared to \$448.5 million for the same period in 2014. Declines in total comparable funeral services performed and comparable average revenue per service were partially offset by a \$2.9 million increase in recognized preneed revenue for items that are delivered at the time of sale and a \$2.5 million increase in GA revenue.

Funeral Services Performed

Our consolidated funeral services performed decreased 3.2% during the third quarter of 2015 compared to the same period in 2014, primarily because of the loss of services performed by properties that have been subsequently divested. Our comparable funeral services performed declined 1.3%. Growth of 10.4% in prearranged services performed sold through our non-funeral home channel was more than offset by atneed and prearranged services sold through our funeral homes declining 2.2%.

Our comparable cremation rate of 51.7% in the third quarter of 2015 increased from 50.9% in the same period of 2014. This growth in comparable cremations was generated primarily by direct cremations. While the average revenue for direct cremations and cremations with service is lower than that for traditional burials, we continue to expand our cremation memorialization product and service offerings, which resulted in higher average revenue for cremation services.

Average Revenue Per Service

Our consolidated average revenue per service decreased \$46, or 0.9%, in the third quarter of 2015 compared to 2014, primarily due to a 1.2% decrease in comparable average revenue per service. Our comparable average revenue per service decreased \$66 in the third quarter of 2015 compared to the same period in 2014. Absent the negative impact of the increase in non-funeral home prearranged services, which carry a lower average per service, our comparable average revenue per service decreased \$24, or 0.4%. Inflationary pricing growth was offset by an unfavorable Canadian currency impact, an increase in cremation mix, and lower trust fund income related to the negative financial

market conditions during the third quarter.

49

Table of Contents

Funeral Gross Profit

Consolidated funeral gross profit decreased \$12.7 million, or 14.2%, in the third quarter of 2015 compared to the same period in 2014. This decrease is primarily attributable to the decrease in comparable gross profit described below and the loss of \$0.8 million in gross profit contributed by properties that have been subsequently divested.

Comparable funeral gross profit decreased \$11.5 million, or 12.9%, in the third quarter of 2015 compared to the same period in 2014. The comparable gross margin percentage decreased from 19.9% to 17.5% in the third quarter of 2015 when compared to the same period in 2014. The decrease in gross profit is primarily the result of the decrease in comparable revenue described above and inflationary increases in our fixed cost structure.

Cemetery Results

Cemetery Revenue

Consolidated cemetery revenue increased \$5.9 million, or 2.3%, in the third quarter of 2015 compared to the same period in 2014. This increase is attributable to the \$9.5 million increase in comparable revenue described below partially offset by the loss of \$6.2 million in revenue contributed in 2014 by properties that have been subsequently divested.

Comparable revenue increased \$9.5 million, or 3.8%, primarily as a result of an increase in preneed cemetery property sales production that was somewhat offset by lower recognized trust fund income related to financial market conditions during the quarter and an unfavorable Canadian currency impact.

Cemetery Gross Profit

Consolidated cemetery gross profit increased \$6.3 million, or 10.8%, in the third quarter of 2015 compared to the same period in 2014. This increase is attributable to the \$6.1 million increase in comparable gross profit described below.

Comparable cemetery gross profit increased \$6.1 million, or 10.5%, and gross margin percentage increased from 22.9% to 24.4% in the third quarter of 2015 compared to the same period in 2014 primarily as a result of the increase in comparable revenue described above partially offset by an unfavorable Canadian currency impact.

Other Financial Statement Items

General and Administrative Expenses

General and administrative expenses decreased \$11.6 million to \$28.2 million during the third quarter of 2015. The prior year included \$10.7 million in acquisition and transition costs related to the integration of Stewart and \$2.9 million of system integration and other costs. Excluding these costs, general and administrative expenses increased \$2.0 million over the prior year quarter, which is primarily due to collections on insurance claims in the third quarter of 2014 that did not recur in 2015.

(Losses) Gains on Divestitures and Impairment Charges, Net

We recognized a \$10.8 million net pre-tax gain on divestitures and impairment charges in the third quarter of 2015 from the sale of non-strategic funeral and cemetery locations compared to a \$26.6 million net pre-tax gain in the same period of 2014 from the required Federal Trade Commission divestitures of funeral and cemetery locations in the United States stemming from the Stewart acquisition.

Losses on Early Extinguishment of Debt

During the three months ended September 30, 2015, we recognized a \$6.9 million loss on early extinguishment of debt as we took advantage of historically low interest rates to refinance our 6.75% Senior Notes due 2016.

Provision for Income Taxes

Income tax expense during interim periods is based on our estimated annual effective income tax rate plus any discrete items, which are recorded in the period in which they occur. Discrete items include, among others, such events as changes in estimates due to the finalization of tax returns, tax audit settlements, expiration of statute of limitations, and increases or decreases in valuation allowances. Our effective tax rate was 35.3% and 81.7% for the three months ended September 30, 2015 and 2014, respectively. The higher effective tax rate for the three months ended September 30, 2014 was primarily due to the gain on required divestitures associated with the Stewart acquisition. The effective tax rate for the third quarter of 2015 is above the 35% federal statutory tax rate primarily due to state tax expense partially offset by state legislative changes and foreign earnings taxed at lower rates.

Table of Contents

Weighted Average Shares

The diluted weighted average number of shares outstanding was 203.4 million during the third quarter of 2015 compared to 213.0 million in the same period 2014. The decrease in the number of shares reflects the impact of shares repurchased under our share repurchase program, partially offset by stock options exercised.

Results of Operations — Nine Months Ended September 30, 2015 and 2014

Management Summary

Key highlights in the first nine months of 2015 were as follows:

Comparable funeral gross profit increased \$6.7 million, or 2.3%, primarily due to an increase in comparable funeral revenue, partially offset by inflationary increases in our fixed cost structure and an unfavorable impact of Canadian currency.

Comparable cemetery gross profit increased \$31.7 million, or 20.5%, primarily driven by an increase in preneed property sales production and higher trust fund income, partially offset by an unfavorable impact of Canadian currency.

Results of Operations

In the first nine months of 2015, we reported net income attributable to common stockholders of \$161.4 million (\$0.78 per diluted share) compared to net income attributable to common stockholders in the first nine months of 2014 of \$84.7 million (\$0.39 per diluted share). These results were affected by the following items:

	2015	2014
	(In thousands)	
Net after-tax gains (losses) from the sale of assets	\$1,175	\$(20,125)
After-tax losses from the early extinguishment of debt	\$(4,199)	\$(17,420)
After-tax expenses related to acquisition and transition costs	\$(1,824)	\$(24,576)
After-tax expenses related to legal defense fees and labor matters	\$—	\$(7,398)
Change in certain tax reserves and other	\$(2,411)	\$(5,723)

Consolidated Versus Comparable Results

The table below reconciles our consolidated GAAP results to our comparable, or “same store,” results for the nine months ended September 30, 2015 and 2014. We define comparable operations (or same store operations) as those funeral and cemetery locations that were owned for the entire period beginning January 1, 2014 and ending September 30, 2015. The following tables present operating results for funeral and cemetery locations that were owned by us during this period.

Nine Months Ended September 30, 2015	Consolidated	Less: Results Associated with Acquisition/New Construction (In millions)	Less: Results Associated with Divestitures	Comparable
Revenue				
Funeral revenue	\$1,428.4	\$8.7	\$2.3	\$1,417.4

The following table provides the data necessary to calculate our consolidated average revenue per service for the nine months ended September 30, 2015 and 2014. We calculate average revenue per service by dividing consolidated funeral revenue, excluding GA revenue, recognized preneed revenue, and certain other revenue, to avoid distorting our averages of normal funeral services revenue, by the number of consolidated funeral services performed during the period. Recognized preneed revenue are preneed sales of items that are delivered at the time of sale, including memorial merchandise and travel protection insurance and are excluded from our calculation of consolidated average revenue per service because the associated service has not yet been performed.

	Nine Months Ended September 30, 2015 2014 (In millions, except funeral services performed and average revenue per funeral service)	
Consolidated funeral revenue	\$1,428.4	\$1,447.5

Comparable average revenue per service	\$5,207	\$5,230

Funeral Results

Funeral Revenue

Consolidated revenue from funeral operations were \$1,428.4 million in the nine months ended September 30, 2015 compared to \$1,447.5 million for the same period in 2014. This decrease is primarily attributable to the loss of \$54.9 million in revenue contributed by properties that have been subsequently divested partially offset by a \$27.9 million increase in comparable revenue as described below and \$7.9 million in revenue contributed by acquired properties. Comparable revenue from funeral operations were \$1,417.4 million in the first nine months of 2015 compared to \$1,389.5 million for the same period in 2014. This \$27.9 million increase was primarily due to a 1.1% increase in comparable funeral services performed as described below, an \$8.3 million increase in recognized preneed revenue for items that are delivered at the time of sale, and a \$10.4 million increase in GA revenue.

Funeral Services Performed

Our consolidated funeral services performed decreased 2.5% during the nine months ended September 30, 2015 compared to the same period in 2014, primarily because of the loss of services performed by properties that have been subsequently divested offset by a 1.1% increase in comparable funeral services performed. This growth comprises a 13.5% increase in prearranged services performed sold through our non-funeral home channel coupled with a 0.1% increase in atneed and prearranged services sold through our funeral homes.

Our comparable cremation rate of 51.3% in the nine months ended September 30, 2015 increased from 50.8% in 2014. This growth in comparable cremations was generated primarily by direct cremations. While the average revenue for direct cremations and cremations with service is lower than that for traditional burials, we continue to expand our cremation memorialization product and service offerings, which have resulted in higher average revenue for cremation services.

Average Revenue Per Service

Our consolidated average revenue per service decreased \$26, or 0.5%, for the nine months ended September 30, 2015 compared to the same period in 2014, primarily due to a 0.4% decrease in comparable average revenue per service. Our comparable average revenue per service decreased \$23 for the nine months ended September 30, 2015 compared to the same period in 2014. Absent the negative impact of the increase in non-funeral home prearranged services, which carry a lower average per service, our comparable average revenue per service increased \$23, or 0.4%. Inflationary pricing growth was partially offset by an unfavorable Canadian currency impact, an increase in cremation

mix, and lower trust fund income.

53

Table of Contents

Funeral Gross Profit

Consolidated funeral gross profit decreased \$11.2 million, or 3.6%, in the nine months ended September 30, 2015 compared to the same period in 2014. This decrease is primarily attributable to the loss of \$17.4 million in gross profit contributed by properties that have been subsequently divested offset by a \$6.7 million increase in comparable gross profit as described below.

Comparable funeral gross profit increased \$6.7 million, or 2.3%, and the comparable gross margin percentage increased from 21.2% to 21.3% in the nine months ended September 30, 2015 when compared to the same period in 2014 primarily as a result of the increase in comparable revenue as described above partially offset by inflationary increases in our fixed cost structure and an unfavorable impact of Canadian currency.

Cemetery Results

Cemetery Revenue

Consolidated revenue from our cemetery operations increased \$25.5 million, or 3.3%, in the nine months ended September 30, 2015 compared to the same period in 2014. This increase is primarily attributable to the \$53.5 million increase in comparable revenue and \$5.2 million in revenue contributed by acquired properties partially offset by the loss of \$33.2 million in revenue contributed by properties that have been subsequently divested.

Comparable cemetery revenue increased \$53.5 million, or 7.3%, primarily as a result of an increase in preneed property sales production and higher trust fund income, partially offset by an unfavorable impact of Canadian currency.

Cemetery Gross Profit

Consolidated cemetery gross profit increased \$27.4 million, or 17.1%, in the nine months ended September 30, 2015 compared to the same period in 2014. This increase is primarily the result of the \$31.7 million increase in comparable gross profit described below partially offset by the loss of \$6.0 million in gross profit contributed by properties that have been subsequently divested.

Comparable cemetery gross profit increased \$31.7 million, or 20.5%, and gross margin percentage increased from 21.2% to 23.8% in the nine months ended September 30, 2015 compared to the same period in 2014. This increase is primarily the result of higher revenue discussed above, partially offset by an unfavorable impact of Canadian currency.

Other Financial Statement Items

General and Administrative Expenses

General and administrative expenses decreased \$45.1 million to \$96.8 million during the nine months ended September 30, 2015 compared to \$141.9 million for the same period in 2014. The current period included \$4.1 million in system transition costs. The prior year included \$41.2 million in acquisition and transition costs mostly related to Stewart, \$12.2 million in legal settlements and defense fees primarily related to the settlement of the Eden matter, and \$8.2 million in system integration and other costs. Excluding these costs in both periods, general and administrative expenses increased \$12.4 million over the prior year, which is primarily due to the permanent costs associated with the increased scale of the combined SCI and Stewart entity and collections on insurance claims in 2014 that did not recur.

Gains on Divestitures and Impairment Charges, net

We recognized a \$3.4 million net pre-tax gain on divestitures and impairment charges in the nine months ended September 30, 2015 from the sale of non-strategic funeral and cemetery locations compared to \$58.8 million net pre-tax gain on divestitures and impairment charges in the nine months ended September 30, 2014, which was associated with the required Federal Trade Commission divestitures of funeral and cemetery locations in the United States stemming from the Stewart acquisition.

Interest Expense

Interest expense decreased \$4.8 million to \$129.8 million during the first nine months of 2015. This decrease in interest expense is primarily due to the refinancing of our 6.75% Senior Notes due 2015, our 6.5% Senior Notes due 2019, and our 7.0% Senior Notes due 2019 in the first half of 2014.

Losses on Early Extinguishment of Debt

Explanation of Responses:

During the nine months ended September 30, 2015, we recognized a \$6.9 million loss on early extinguishment of debt as we took advantage of historically low interest rates to refinance our 6.75% Senior Notes due 2016.

54

Table of Contents

During the nine months ended September 30, 2014, we recognized a \$29.2 million loss on early extinguishment of debt as we took advantage of historically low interest rates to refinance our 6.75% Senior Notes due 2015, our 6.5% Senior Notes due 2019, and our 7.0% Senior Notes due 2019.

Provision for Income Taxes

Income tax expense during interim periods is based on our estimated annual effective income tax rate plus any discrete items, which are recorded in the period in which they occur. Discrete items include, among others, such events as changes in estimates due to the finalization of tax returns, tax audit settlements, expiration of statute of limitations, and increases or decreases in valuation allowances. Our effective tax rate was 36.5% and 60.0% for the nine months ended September 30, 2015 and 2014, respectively. The higher effective tax rate for the nine months ended September 30, 2014 was primarily due to the gain on required divestitures associated with the Stewart acquisition. The effective tax rate for the nine months ended September 30, 2015 is above the 35% federal statutory tax rate primarily due to state tax expense partially offset by state legislative changes and foreign earnings taxed at lower rates.

Weighted Average Shares

The diluted weighted average number of shares outstanding was 206.0 million for the nine months ended September 30, 2015 compared to 215.4 million in the same period 2014. The decrease in the number of shares reflects the impact of shares repurchased under our share repurchase program, partially offset by stock option exercises.

Critical Accounting Policies

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the unaudited condensed consolidated financial statements and accompanying notes. Actual results could differ from those estimates. Our critical accounting policies are disclosed in our Annual Report on Form 10-K for the year ended December 31, 2014.

No other significant changes to our accounting policies have occurred subsequent to December 31, 2014, except as described below within Recent Accounting Pronouncements and Accounting Changes.

Recent Accounting Pronouncements and Accounting Changes

For discussion of recent accounting pronouncements and accounting changes, see Part I, Item 1. Financial Statements, Note 3.

Cautionary Statement on Forward-Looking Statements

The statements in this Form 10-Q that are not historical facts are forward-looking statements made in reliance on the “safe harbor” protections provided under the Private Securities Litigation Reform Act of 1995. These statements may be accompanied by words such as “believe,” “estimate,” “project,” “expect,” “anticipate,” or “predict,” that convey the uncertainty of future events or outcomes. These statements are based on assumptions that we believe are reasonable; however, many important factors could cause our actual results in the future to differ materially from the forward-looking statements made herein and in any other documents or oral presentations made by us, or on our behalf. Important factors, which could cause actual results to differ materially from those in forward-looking statements include, among others, the following:

• Our affiliated funeral and cemetery trust funds own investments in equity securities, fixed income securities, and mutual funds, which are affected by market conditions that are beyond our control.

• We may be required to replenish our affiliated funeral and cemetery trust funds to meet minimum funding requirements, which would have a negative effect on our earnings and cash flow.

• Our ability to execute our strategic plan depends on many factors, some of which are beyond our control.

• Our credit agreements contain covenants that may prevent us from engaging in certain transactions.

• If we lost the ability to use surety bonding to support our preneed funeral and preneed cemetery activities, we may be required to make material cash payments to fund certain trust funds.

•The funeral home and cemetery industry is competitive.

•Increasing death benefits related to preneed funeral contracts funded through life insurance contracts may not cover future increases in the cost of providing a price-guaranteed funeral service.

55

Table of Contents

The financial condition of third-party insurance companies that fund our preneed funeral contracts may impact our future revenue.

Unfavorable results of litigation could have a material adverse impact on our financial statements.

Unfavorable publicity could affect our reputation and business.

If the number of deaths in our markets declines, our cash flows and revenue may decrease.

If we are not able to respond effectively to changing consumer preferences, our market share, revenue, and profitability could decrease.

The continuing upward trend in the number of cremations performed in North America could result in lower revenue and gross profit.

Our funeral home and cemetery businesses are high fixed-cost businesses.

Regulation and compliance could have a material adverse impact on our financial results.

Cemetery burial practice legal claims could have a material adverse impact on our financial results.

A number of years may elapse before particular tax matters, for which we have established accruals, are audited and finally resolved.

Declines in overall economic conditions beyond our control could reduce future potential earnings and cash flows and could result in future impairments to goodwill and/or other intangible assets.

Any failure to maintain the security of the information relating to our customers, their loved ones, our associates, and our vendors could damage our reputation, could cause us to incur substantial additional costs and to become subject to litigation, and could adversely affect our operating results.

Our Canadian business exposes us to operational, economic, and currency risks.

Our level of indebtedness could adversely affect our ability to raise additional capital to fund our operations, limit our ability to react to changes in the economy or our industry, and prevent us from fulfilling our obligations under our indebtedness.

Failure to maintain effective internal control over financial reporting could adversely affect our results of operations, investor confidence, and our stock price.

For further information on these and other risks and uncertainties, see our Securities and Exchange Commission filings, including our 2014 Annual Report on Form 10-K. Copies of this document as well as other SEC filings can be obtained from our website at www.sci-corp.com. We assume no obligation to publicly update or revise any forward-looking statements made herein or any other forward-looking statements made by us, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Marketable Equity and Debt Securities — Price Risk

In connection with our preneed operations and sales, the related trust funds own investments in equity and debt securities and mutual funds, which are sensitive to current market prices.

Cost and market values as of September 30, 2015 are presented in Part I, Item 1. Financial Statements and Notes 4, 5, and 6 of this Form 10-Q. Also, see Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, Financial Conditions, Liquidity and Capital Resources, for discussion of trust investments.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of September 30, 2015, we carried out an evaluation, under the supervision and with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)). Our disclosure controls and procedures are designed to ensure that information required to be disclosed in the Securities and Exchange Commission (SEC) reports we file or submit under the Exchange Act is

recorded, processed, summarized, and reported within the time period specified

56

by the SEC's rules and forms and that such information is accumulated and communicated to management, including our CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure. Based on our evaluation, our CEO and CFO have concluded that our disclosure controls and procedures are effective as of September 30, 2015.

Material Weakness in Internal Control over Financial Reporting and Status of Remediation Efforts

As initially reported in our Form 10-K for the year ended December 31, 2014 we did not maintain effective internal control over financial reporting as of December 31, 2014 as a result of a material weakness in accounting for income taxes. A material weakness is a control deficiency, or combination of control deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. Refer to Item 9A in our Annual Report on Form 10-K for the year ended December 31, 2014 for a description of this material weakness.

In response to the identified material weakness, our management, with oversight from the Company's Audit Committee, has dedicated significant resources, including retaining third party consultants, to enhance the Company's internal control over financial reporting and remediate the previously disclosed material weakness over the course of 2015. In connection with these efforts, the Company documented its internal controls with respect to the annual tax basis balance sheet process and performed those controls in the preparation of the tax basis balance sheet.

Based on the actions taken by our management, including the testing and assessment of the effectiveness of internal controls related to the completion and review of our tax basis balance sheet process, our management has concluded that the previously identified and disclosed material weakness no longer exists as of September 30, 2015.

Changes in Internal Control over Financial Reporting

Management, together with our CEO and CFO, evaluated the changes in our internal control over financial reporting during the quarter ended September 30, 2015. As outlined above, we have implemented and refined our controls to remediate the material weakness related to our annual tax basis balance sheet process, including the annual reconciliation of the tax basis balance sheet following the filing of income tax returns and the establishment of preparer and reviewer roles, thus strengthening the tax compliance process. The implemented controls are changes in our internal control over financial reporting during the quarter ended September 30, 2015, that have materially affected, or are reasonably likely to material affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Information regarding legal proceedings is set forth in Note 15 in Item 1 of Part I of this Form 10-Q, which information is hereby incorporated by reference herein.

Item 1A. Risk Factors

There have been no material changes in our Risk Factors as set forth in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On September 30, 2015, we issued 1,337 deferred common stock equivalents, or units, pursuant to provisions regarding dividends under the Amended and Restated Director Fee Plan to five non-employee directors. We did not receive any monetary consideration for the issuances. These issuances were unregistered because they did not constitute a “sale” within the meaning of Section 2(3) of the Securities Act of 1933, as amended.

The following table summarizes our share repurchases during the three months ended September 30, 2015:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced programs	Dollar value of shares that may yet be purchased under the programs
July 1, 2015 - July 31, 2015	1,508,150	\$29.38	1,508,150	\$44,115,735
August 1, 2015 - August 31, 2015 ⁽¹⁾	2,599,600	\$30.32	2,599,600	\$352,033,206
September 1, 2015 - September 30, 2015 ⁽²⁾	1,037,431	\$29.45	1,034,015	\$321,572,063
	5,145,181		5,141,765	

(1) On August 12, 2015, our Board of Directors increased our share repurchase authorization to \$400.0 million.

(2) The 3,416 shares purchased in September 2015, that were not part of the publicly announced programs represent restricted stock that was redeemed by certain employees in lieu of tax liability withholdings, which do not affect our share repurchase program.

Item 6. Exhibits

- 12.1 Ratio of earnings to fixed charges for the three and nine months ended September 30, 2015 and 2014.
- 31.1 Certification of Thomas L. Ryan as Principal Executive Officer in satisfaction of Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Eric D. Tanzberger as Principal Financial Officer in satisfaction of Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Periodic Financial Reports by Thomas L. Ryan as Principal Executive Officer in satisfaction of Section 906 of the Sarbanes-Oxley Act of 2002.
- 32.2 Certification of Periodic Financial Reports by Eric D. Tanzberger as Principal Financial Officer in satisfaction of Section 906 of the Sarbanes-Oxley Act of 2002.
- 101 Interactive data file.
