NOTICE OF MATERIAL FACT

TARIFF READJUSTMENT

As required by CVM Instruction #358, dated January 3, 2002, COMPANHIA DE SANEAMENTO BÁSICO DO ESTADO DE SÃO PAULO - SABESP hereby announces that, in accordance with Article 28 of the Tariff System Regulation approved by State Decree #41,446, dated December 16, 1996, tariffs of water supply and sewage collection services will be adjusted by 9.00% (nine percent), effective as from August 31, 2005.

The tariffs used by the Company are readjusted on an annual base, based on a formula known by the Company s consumers and by the market. Such formula takes into consideration the variation of different expenses during the last 12 months, separated in two parts. The first part refers to the so called non-manageable expenses, such as electric power, treatment supplies used on water and sewage treatment plants and tax expenses (taxes, charges, contributions, etc) over which the Company has no control. The second part encompasses the other expenses. On the annual readjustment calculation, non-manageable expenses are calculated by their effective variation during the year and other expenses are readjusted by the official inflation index, the IPCA (Extended Consumer Price Index) published by IBGE (Brazilian Institute of Geography and Statistics).

The IPCA variation regarding the period between August 2004 and July 2005 was 6.57%, which will be used to readjust manageable expenses. Non-manageable costs had a 35.34% increase in the same period. Among these variations, we highlight the increase of 17.04% in electric power expenses, 8.44% in treatment supplies and 77.92% in tax expenses. The 86.15% increase in the COFINS/PASEP stands out among tax expenses. The immediate transfer of these expenses would result in an 11.12% readjustment, strongly above the usual inflation index used.

Worried about the effects of an increase of such magnitude in the consumers budget, SABESP s management decided not to transfer the COFINS/PASEP increase at once, but to apply it in two installments; one this year and the other on the date of the next tariff readjustment. The percentage which has not been transferred at this date (1.94%) will be accrued to the readjustment percentage to be defined for the next period.

Further details on the readjustment application will be made available on SABESP s website www.sabesp.com.br and will also be published at the São Paulo State Official Gazette.

São Paulo, August 30, 2005.
