São Paulo, Brazil, May 14, 2007 Grupo Pão de Açúcar (BOVESPA: PCAR4; NYSE: CBD), announces its first quarter 2007 results. The Company's operating and financial information, as well as the comparisons referring to 2006 unless otherwise indicated are presented in a consolidated basis and denominated in Reais, in accordance with the Brazilian Corporate Law.

1st Quarter 2007 Highlights

- Net sales amounted to R\$ 3,530.3 million in the 1st quarter of 2007, up 6.8% over 1Q06.
- Food products registered growth of 4.5% in the same stores concept, a reversal of the downtrend observed throughout 2006.
- The gross margin was 27.8% in the period, reflecting the continuity of the competitiveness strategy and the more promotional period on account of Easter.
- EBITDA² attained R\$ 234.3 million in the period, with a margin of 6.6%. In the foregoing criterion (with taxes and charges) the EBITDA margin would have been 7.3%.
- The Group started a new sales campaign: *Varejo na alma* (Retail in the soul), which aims at leveraging sales, producing more profitability and commitment from all the employees. The initiative has already started to present results in the 1st quarter of 2007, helping the Company to record growth of 4.8% in the same stores' concept.
- Equity income result of FIC presented significant improvement in relation to the prior year (from R\$ 14.8 million loss in 1Q06 to R\$ 5.9 million loss in 1Q07).

Financial and Operating Highlights

R\$ million ¹	1Q07	1Q06	Chg.
Gross Sales	4,168	3,925	6.2%
Net Sales	3,530	3,305	6.8%
Gross Income	982	983	-0.1%
Gross Margin - %	27.8%	29.7%	-190 bps ³
EBITDA (without taxes and charges) ²	234	259	-9.7%
EBITDA Margin - %	6.6%	7.9%	-130 bps ³

Net Margin - %	1.0%	1.8%	-80 bps ³

- (1) Totals may not tally as the figures are rounded off
- (2) As from this quarter we will include the taxes and charges account in operating expenses
- (3) basis points

Grupo Pão de Açúcar operates 550 stores in 14 states and in Distrito Federal and recorded gross sales of R\$16.5 billion in 2006. Its multiformat structure - supermarkets (**Pão de Açúcar, CompreBem and Sendas**), hypermarkets (**Extra**), stores of electronic products/household appliances (**Extra-Eleto**) and convenience stores (**Extra Perto**) and its broad distribution network allow a differentiated response to consumer requirements and strong positioning in the main markets of the country.

Sales Performance
Net sales grew 6.8% in the quarter

R\$ million	1Q07	1Q06	Chg.
Gross Sales	4,168	3,925	6.2%
Net Sales	3,530	3,305	6.8%

In the 1st quarter of 2007, the Company recorded gross sales of R\$ 4,168.0 million and net sales of R\$ 3,530.3 million, with growth of 6.2% and 6.8% respectively in relation to the same prior-year period. This increase is due to the consolidation of the competitiveness strategy adopted, the recovery of food sales and the new sales incentive campaign.

In the same stores concept, sales also presented a growth trend in relation to the levels observed in previous quarters, attaining the rate of 4.8% (gross sales) and 5.6% (net sales), in line with the growth of 5.0% expected by the Company for 2007.

Sales of food products presented a reversal of the downtrend recorded during the year 2006, registering growth of 4.5%, with an emphasis on the performance of perishable products. Sales of non-food products, even with the strong basis of comparison (growth of 14.5% in the first quarter of 2006 – World Cup effect), presented growth of 5.9% .

One of the prominent aspects was that although food inflation presented recovery in the quarter, the Group's internal price monitoring index shows that prices practiced at the stores have been growing at considerably lower rates than those recorded by the food inflation indexes published by Fipe (*Fundação Instituto de Pesquisas Econômicas* - Brazilian Institute of Economic Research) or by IBGE (*Instituto Brasileiro de Geografia e Estatística* - Brazilian Institute of Geography and Statistics).

Another highlight of the period was the continuity of the customer's traffic growth at the Group's stores – a performance that has been accompanied by a higher average purchase per customer.

Although all the banners have displayed a growth in the same stores the period, reflecting the Company's better price positioning, the Pão de Açúcar banner stood out once again and the Sendas banner showed recovery in relation to the levels recorded in previous quarters.

Operating Performance
New sales campaign: Varejo na Alma

The sales incentive campaign called Varejo na Alma, an initiative involving all the employees of the stores, head-office and Distribution Centers, stimulating the increase of

sales with profitability, was started in January 2007. All the collaborators from the stores that attain growth of 5% in sales over the budget and that guaranteed at least the net income of this budget are awarded in this campaign.

The Campaign has been achieving excellent results and has already awarded 79 stores in the first quarter of 2007. This will be the focal point of 2007, which will clear the path for the consolidation of a new sales threshold.

The Company also continues focused on expense reduction programs and on the competitiveness strategy, which continued to produce consistent results in the 1st quarter of 2007 (sales growth, customer traffic and price image of the banners).

The comments presented below about operating performance refer to the consolidated figures of CBD, which include all the operating results of Sendas Distribuidora (a joint venture of CBD with the Sendas chain, in the state of Rio de Janeiro).

**Gross margin of 27.8% in the quarter
Price reduction strategy contributed toward this performance.**

R\$ million	1Q07	1Q06	Chg.
Gross Income	982	983	-0.1%
Gross Margin - %	27.8%	29.7%	-190 bps

The gross margin reached 27.8% in 1Q07, 190 basis points (bps) below the 29.7% reported in 1Q06. The margin reduction was offset by the growth of the sales volume, which allowed the Group to maintain practically the same gross income in the two periods (R\$ 981.8 million in the first quarter of 2007 as opposed to R\$ 982.9 million in the same period of 2006).

The lower gross margin is explained by the more aggressive price posture, which is already in its third consecutive quarter and has contributed to improve the price image of all the banners.

Operating Expenses
Expense as a percentage of the net sales at a level lower than in 1Q06

R\$ million ¹	1Q07	1Q06	Chg.
Selling Expenses	606	588	3.2%
Gen. Adm. Exp.	118	117	0.8%
Operating Exp. (without Taxes and Charges)	725	705	2.8%
% of net sales	20.5%	21.3%	-80 bps
Taxes and Charges	23	18	25.1%
Total Operating Expenses	748	723	3.3%
% of net sales	21.2%	21.9%	-70 bps

(1) Totals may not tally as the figures are rounded off

Important advances were presented in relation to selling and general and administrative expenses in the 1st quarter of 2007.

Excluding taxes and charges, the level of operating expenses in the quarter was 20.5%, down 80 bps in relation to the 21.3% recorded in 1Q06.

Total operating expenses, including taxes and charges, attained 21.2% of the net revenue in 1Q07, lower than the 21.9% of the net revenue recorded in the same period of 2006.

The period highlight was the 60 bps drop in sales expenses as a percentage of net sales, from 17.8% in 1Q06 to 17.2% in 1Q07.

Administrative expenses as a percentage of net sales registered a slight downside in relation to the previous year, going from 3.5% in 1Q06 to 3.3% in 1Q07.

In absolute terms, selling expenses and administrative expenses presented lower growth rates than the increase of sales in the period (6.8%), amounting to 3.2% and 0.8% respectively.

This reduction of expenses as a percentage of net revenue is mainly due to the expense reduction programs implemented throughout 2006 and to the greater dilution of expenses in the period.

These programs will continue to produce results during 2007, causing expenses as a percentage of net sales (excluding taxes and rates) to reach the target of 20% in 2007.

EBITDA Margin of 6.6% (without taxes and charges)
Competitiveness strategy affected EBITDA

R\$ million	1Q07	1Q06	Chg.
EBITDA (without taxes and charges)	234	259	-9.7%
EBITDA Margin (without taxes and charges)	6.6%	7.9%	-130 bps

The reduction of 190 bps in the gross margin was partially offset by the reduction of 70 bps in operating expenses, which led to an EBITDA margin of 6.6% in the first quarter of 2007, as opposed to 7.9% in the same period of 2006, a reduction of 130 bps.

In absolute terms EBITDA was R\$ 234.3 million in 1Q07, 9.7% lower than the R\$ 259.5 million recorded in the same period of last year.

Financial Results
Lower interest rates caused an impact in the period

R\$ million ¹	1Q07	1Q06	Chg.
Financ. Revenue	70	102	-31.0%
Financ. Expenses	(131)	(169)	-22.2%
Net Financial Income	(61)	(67)	-8.9%

(1) Totals may not tally as the figures are rounded off

During the 1st quarter of 2007, financial expenses and revenues exhibited a decrease in comparison with the same period of the year 2006. Financial revenues in 1Q07 came to R\$ 70.2 million, as opposed to R\$ 101.7 million in 1Q06, representing a downslide of 31.0% . Three factors contributed toward this decrease: (i) lower average cash in 1Q07 in comparison with 1Q06, which was R\$ 1,706.2 million and is currently R\$ 1,069.1 million; (ii) lower interest rate in the period (average of 13.9% in 1Q07 versus 16.5% in 1Q06) and; (iii) increase in installment sales without interest.

Financial expenses in the period amounted to R\$ 131.4 million, 22.2% lower than the R\$ 168.9 million recorded in the 1st quarter of 2006. This reduction is mainly due to the lower interest rate in the period, as commented on above.

Net financial expenses attained R\$ 61.2 million in the period, versus R\$ 67.2 million in relation to the 1st quarter of 2006, a reduction of 8.9% .

Equity Income
Equity income result starts to show improvements in the period

With a 12% share in the sale of the Group, FIC (Financeira Itaú CBD) recorded negative equity income of R\$ 5.9 million in the 1st quarter of 2007, an improvement of 60.4% in relation to the R\$14.8 million loss of 1Q06 and of 48.2% in relation to the R\$ 11.3 million of 4Q06.

This improvement in FIC's performance, which generated growth of 87% in the total revenues in the period, occurred on account of the following factors: (i) increase of the receivables portfolio (which totaled R\$ 871.9 million, up 34.9% over the same prior-year period); (ii) increase of the supply of relationship products (insurance, personal loan and extended warranty); (iii) growth of the Company's sales and; (iv) reduction of the credit loss levels.

The result of this quarter supports the forecast that the break-even point will be attained at the end of 2007. The number of customers of FIC attained 5.2 million in the quarter, with 3.8 million private label card holders.

Minority Interest: Sendas Distribuidora
Gross margin reflects more competitiveness in Rio de Janeiro

In the 1st quarter of 2007, the gross sales of Sendas Distribuidora attained R\$ 796.2 million, which represents 19.1% of the Group's sales. Net sales amounted to R\$ 693.9 million in the period. In spite of the improvement in the sales performance in relation to the previous year, sales in the period do not yet reflect investments in competitiveness implemented in the last few quarters.

Gross income amounted to R\$ 177.3 million, with a gross margin of 25.6%. In comparison with the same prior-year period, the gross margin registered a downslide of 180 bps, reflecting the aggressive price strategy and the heated competition faced in Rio de Janeiro.

Although operating expenses presented a result that resembles that of the prior year (R\$ 164.6 million in 1Q07 as opposed to R\$ 163.9 million in 1Q06), the EBITDA margin was down 170 bps (1.8% in 1Q07 against 3.5% in 1Q06), due to the lower gross margin of the period.

Financial income exhibited a negative result of R\$ 31.5 million in the period, significantly influencing the result of Sendas Distribuidora. Net loss for the quarter was R\$ 38.6 million, generating a minority interest result of R\$ 22.2 million for the Group.

Net Income**Result of the quarter is strongly influenced by the lower gross margin**

R\$ million	1Q07	1Q06	Chg.
Net Income	36	60	-40.3%
Net Margin - %	1.0%	1.8%	-80 bps

The Group reported net income of R\$ 36.0 million in this quarter, a decrease of 40.3% in relation to the same period of 2006. This reduction occurred mainly because of the lower gross margin of the period, affected by the price strategy adopted by the Group.

Investments**The sum earmarked for investments in the quarter was R\$ 204.2 million**

Investments in the 1st quarter amounted to R\$ 204.2 million, higher than the R\$ 143.9 million invested in the 1st quarter of 2006.

Investments were divided as follows:

- R\$ 77.6 million in the opening and construction of new stores to be inaugurated during the year 2007;
- R\$ 68.4 million in the acquisition of strategic land;
- R\$ 45.5 million in store renovations;
- R\$ 12.7 million in infrastructure (technology, logistics and others).

Four Extra Perto stores were opened in the period, and in the second quarter another 3 stores will be inaugurated (one CompreBem and two Extra hypermarket stores). Most of the openings scheduled for the year 2007 will be concentrated in the second semester.

Subsequent Events: 6th Debenture Issue

On April 27, 2007, CVM (Brazilian Securities Commission) approved the issue of 77,965 debentures (simple, non-convertible, nominative and book-entry debentures in 2 tranches, of the unsecured kind) by CBD.

The issue was performed in two tranches, whereas the final quantity of debentures of the 1st tranche was 54,000 and the final quantity of debentures of the 2nd tranche was 23,965

debentures. The unit face value was R\$ 10,000.00, amounting to a total value of the offering of R\$ 779,650,000.00.

The 1st tranche debentures were targeted at individual and corporate investors, investment funds, pension funds, third party asset management entities registered at CVM, entities licensed to operate by the Central Bank of Brazil, insurance companies, supplementary pension entities and capitalization companies and institutional or qualified investors, considered as such by the current regulations. 2nd tranche debentures were earmarked exclusively for exchange for the holders of 5th issue debentures.

1st tranche debentures have a return established with a basis on the DI Rate, plus a spread corresponding to 0.5% per annum. The return on 1st tranche debentures also applies to 2nd tranche debentures.

The unit face value of the debentures will be amortized according to the following schedule: three (3) annual installments, on March 1, 2011, March 1, 2012 and March 1, 2013. The payment of 1/3 of the Unit Face Value of the Debentures in circulation will be made on each amortization payment date.

For further information about this issue, refer to the final prospectus on the Investor Relations (IR) website: www.cbdri.com.br.

The information presented in the following tables has not been reviewed by the external auditors.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
