Grupo Pão de Açúcar operates 603 stores, 75 gas stations and 146 drugstores in 14 states and the Federal District and recorded gross sales of R\$ 20.9 billion in 2008. The Group's multi-format structure comprises supermarkets (**Pão de Açúcar, Extra Perto, CompreBem and Sendas**), hypermarkets (**Extra**), electronics/household appliance stores (**Extra-Eletrô**), convenience stores (**Extra Fácil**), atacarejo (wholesale/retail) (**Assai**), e-commerce operations (**Extra.com.br and Pão de Açúcar Delivery**), **gas stations and drugstores**, as well as an extensive distribution network. The Group maintains differentiated consumer service and is strongly positioned in the country's main markets. In addition, in July 2009, it acquired the Ponto Frio chain, with 455 electronics/household appliance stores.

Operating Performance

The numbers related to the Group's operating performance presented and commented on below refer to the consolidated figures, which include the entire operating results of Sendas Distribuidora (a joint venture with the Sendas chain in Rio de Janeiro) and Assai (a joint venture with Atacadista Assai in São Paulo).

The consolidated figures do not yet include the acquisition of Ponto Frio (Globex), which was approved by the Extraordinary Shareholders Meeting of Grupo Pão de Açúcar on July 6, 2009, when the Group took over the chain's operations.

Thanks to this acquisition, Grupo Pão de Açúcar is now one of the country's leading retailers in the electronics/household appliance segment, with operations in 18 states and the Federal District. Since the day on which the takeover was announced, teams comprising staff from both firms have been working together, evaluating opportunities for existing synergies. A new Ponto Frio executive board was also set up to streamline the integration of the two companies, comprising Jorge Herzog (Ponto Frio's CEO), Orivaldo Padilha (CFO, IRO and IT Officer), Marise Araujo (Chief Commercial Officer) and Antonio Machado Teixeira Filho (Chief Operating Officer).

In addition, on July 10, 2009, Grupo Pão de Açúcar acquired the remaining 40% stake of total and voting capital of Barcelona Comércio Varejista e Atacadista S.A., which operates the Assai format, consolidating the stake it acquired in the self-service wholesale business on November 2, 2007.

The figures below also include the accounting changes introduced by Law 11.638/07, except where otherwise indicated. The first-half information also includes comments on the **pro-forma results**, which exclude restructuring costs of R\$ 23.0 million in the first quarter of 2008.

Sales Performance

**Gross same-store sales move up 13.1% year-on-year in 2Q09
and by 8.9% year-on-year in the first half**

Gross sales totaled R\$ 5,641.3 million in 2Q09, 15.4% up on 2Q08, while net sales grew by 18.1% to R\$ 5,006.9 million.

In same-store terms, gross sales recorded a nominal increase of 13.1%, giving real growth of 7.6% after deflation by the General IPCA consumer price index ⁽¹⁾, while net sales recorded nominal growth of 15.6%. It is worth noting that, even with the positive effect of Easter, which fell in April this year versus March in 2008, same-store sales in May and June continued to move up strongly.

Gross same-store sales of food products climbed by 12.8% year-on-year in the quarter, due to the seasonal effect of Easter, especially in the beverage, groceries and personal care & household cleaning product segments. Non-food sales grew by 14.3%, led by the electronics/household appliance, general merchandise and drugstore categories, which posted higher increases than the non-food average. In addition, electronics/household appliance sales posted double-digit growth, mainly due to household appliances, which benefited from the reduction in IPI (federal VAT).

The Company's sales performance in the quarter was also the consequence of a series of partnerships with suppliers, executed through a combination of aggressive promotions and an appropriate product mix, underpinned by efficient commercial and supply management.

The Group's best-performing formats were Pão de Açúcar, Extra, Extra Fácil and Assai, whose sales growth was higher than the Company average. E-commerce (comprising Extra.com.br and Pão de Açúcar Delivery) posted growth of more than 50%. The average ticket also moved up, as did customer traffic, signaling a potential gain in market share, especially by the Extra format.

First-half gross sales totaled R\$ 10,932.7 million and net sales stood at R\$ 9,648.3 million, respective year-on-year increases of 10.7% and 13.7% .

Same-store gross sales grew by 8.9%, giving real growth of 3.2% after deflation by the IPCA⁽¹⁾, above the annual guidance of 2.5%, while same-store net sales recorded nominal growth of 11.7% .

Also on a same-store basis, gross food sales moved up by 7.9% and gross non-food sales by a hefty 12.0%, thanks to an improved assortment, more appropriate pricing and joint promotional campaigns with suppliers.

(1) Like ABRAS (the Brazilian Supermarket Association), the Company has adopted the IPCA – General Consumer Price Index as its inflation indicator, since it gives a more accurate reflection of the Company's product and brand mix.

(2) basis points

Second-quarter gross profit totaled R\$ 1,267.5 million, 14.6% up year-on-year, accompanied by a gross margin of 25.3%, down by 80 bps, chiefly due to the change in the way ICMS (state VAT) is collected on certain products as of the second quarter of 2008, especially in the state of São Paulo. This change led to an increase in the cost of goods sold and in net revenue, given that ICMS was no longer booked under sales taxes, but under COGS, in turn reducing the gross margin by around 60 bps over 2Q08.

In addition, the Company has been adopting a strategy of increasing its stake in new businesses such as Assai, gas stations and electronics/household appliances, which has also reduced the gross margin in recent quarters. On the other hand, this strategy has generated cash margin gains, in line with the Group's established objectives.

In the first half, gross profit stood at R\$ 2,443.7 million, 10.1% up year-on-year, with a gross margin of 25.3%, 90 bps down on the 26.2% recorded in 1H08, 60 bps of which due to the changes in the tax system.

(2) basis points

Total operating expenses (including selling and general and administrative expenses) represented 18.4% of net sales in the second quarter, less than the 19.1% recorded in 2Q08. In absolute terms, they totaled R\$ 922.3 million, 14.2% up year-on-year, due to the seasonal effect of Easter, when the Company generated additional expenses, especially with personnel and advertising.

Given that Easter fell in 2Q09, the first-half figures give a more accurate picture of the Group's performance.

Operating expenses totaled R\$ 1,786.2 million in 1H09, 8.5% up on 1H08 but below the period upturn in sales. As a percentage of net sales, they came to 18.5% in 1H09, 90 bps down on the same period last year.

Selling expenses came to R\$ 1,534.9 million, 11.6% up year-on-year, while G&A expenses stood at R\$ 251.3 million, down by 7.2%.

It is worth remembering that the 1Q08 operating results were affected by restructuring expenses totaling R\$ 23.0 million. Excluding this effect, 1H09 operating expenses would have increased by 10.0% in relation to the 1H08 pro-forma result.

(2) basis points

The second-quarter EBITDA margin stood at 6.9%, versus 7.0% in 2Q08. With the same level of margin, the Group continued to be highly competitive in terms of pricing, although this impact was offset by increased sales and continuing control over expenses. This result is in line with the Company's strategy of seeking sustainable growth.

As a result, EBITDA totaled R\$ 345.1 million in 2Q09, 15.7% up on the same period last year.

First-half EBITDA came to R\$ 657.4 million, 14.9% more than in 1H08 and within the annual guidance of 10%, accompanied by an EBITDA margin of 6.8%, versus 6.7% in the same period last year.

If we exclude 2008 restructuring expenses from the calculation, 1H09 EBITDA would have grown by 10.5% over the 1H08 pro-forma figure.

The net financial result was R\$ 61.1 million negative in the second quarter, a 30.7% year-on-year improvement, due to the following factors:

(R\$ million) ⁽¹⁾	2Q09	2Q08	Chg. (R\$)	1H09	1H08	Chg. (R\$)
(i) Debt Expenses	(58.8)	(72.4)	13.6	(129.1)	(140.0)	10.9

(1) Totals may not tally as the figures are rounded off

(i) Debt Expenses and Receivables Fund (positive variation of R\$ 12.1 million): The period reduction in the average gross debt and the lower CDI rate offset the increase in the average amount assigned to the receivables fund.

(ii) Cash Returns (negative variation of R\$ 3.2 million) due to the period reduction in the CDI rate, despite the slight upturn in the cash position.

(iii) Mark to market (positive variation of R\$ 15.5 million) of the Company's financial instruments following the accounting changes introduced by Law 11.638/07.

(iv) Restatement of Assets and Liabilities and Other Revenue/Expenses (positive variation of R\$ 2.6 million) due to gains from the decline in the SELIC rate on the restatement of contingencies, partially offset by reduced revenue from interest-bearing installment sales and a reduction in capitalized interest due to lower period CAPEX.

The Group's capital structure remains solid, with a reduction in net debt and increased cash flow, resulting in a net-debt-to-EBITDA ratio of 0.68x, fortified by the ongoing drive to optimize expenses and investments and maintain control over working capital.

Equity Income

Result reflects the strategies implemented throughout 2008

FIC - Financeira Itaú CBD closed 2Q09 with 5.8 million clients and a receivables portfolio of R\$ 1.7 billion and accounted for 13.8% of the Group's total second-quarter sales. As a result, it generated equity income of R\$ 3.4 million, a substantial 147.9% more than in 2Q08. First-half equity income totaled R\$ 7.3 million, almost triple the amount in the same period last year.

This performance was due to a series of initiatives implemented throughout 2008, which generated important gains in portfolio profitability. The main such initiatives, which will be continued and therefore help ensure positive results in 2009, include:

(i) increased activation of private label and co-branded cards following the creation of differentials for card holders, including exclusive benefits, an advantage club and special promotions;

(ii) substantial growth in the penetration of extended warranties in the sale of electronics goods (53.5% in 2Q09 over 2Q08);

(iii) greater integration with the retail operation through marketing initiatives and partnerships with the stores, allowing FIC to increase its store market share from 13.0% in 2Q08 to 13.8% in 2Q09.

FIC's performance in recent quarters was also due to a stringent credit granting policy, keeping default under control, and a differentiated positioning vis-à-vis its peers.

Minority Interest: Sendas Distribuidora
Gross profit of R\$ 183.8 million in the quarter

The table below and the comments on Sendas Distribuidora's operating performance do not include the six stores converted into Assai between the end of 2008 and 2Q09. The results of Assai's operational stores in Rio de Janeiro will be discussed in the section on Assai Atacadista.

Sendas Distribuidora recorded gross sales of R\$ 834.3 million in the second quarter, 4.8% up year-on-year despite the conversion of six Sendas Distribuidora stores to the Assai format. Net sales totaled R\$ 720.0 million and gross profit totaled R\$ 183.8 million, 4.1% more than in 2Q08.

Total operating expenses represented 21.6% of net sales, higher than the 21.2% recorded in 2Q08 due to the big increase in IPTU property tax in Rio de Janeiro, which generated additional expenses of around R\$ 4.0 million in the second quarter.

EBITDA totaled R\$ 28.0 million, with a margin of 3.9%. If we exclude the additional IPTU expenses, EBITDA would have moved up by 8.5%. Sendas Distribuidora recorded a 2Q09 net loss of R\$ 15.3 million, giving a positive minority interest of R\$ 6.5 million for the Group.

In the first half, gross and net sales came to R\$ 1,667.0 million and R\$ 1,449.3 million respectively. Gross profit stood at R\$ 384.6 million, with a gross margin of 26.5%. Total operating expenses amounted to R\$ 303.9 million, representing 21.0% of net sales. It must once again be highlighted that this increase was due to the upturn in the IPTU property tax, which impacted the 1H09 expenses by over R\$ 7 million. Without this additional expense, both as a percentage of net revenue and in reais, operating expenses would have been lower than in the previous year. EBITDA reached R\$ 80.7 million, with a margin of 5.6%.

Sendas posted a first-half net loss of R\$ 10.3 million, 33.9% up year-on-year, generating a positive minority interest of R\$ 4.4 million for the Company.

Assai's consolidated gross sales, including the stores in São Paulo, Ceará and Rio de Janeiro, totaled R\$ 504.8 million in the second quarter, 55.0% up year-on-year, while net sales stood at R\$ 455.5 million. Gross profit came to R\$ 70.8 million, up by 81.0%, accompanied by a gross margin of 15.5%, a 170 bps improvement over 2Q08.

Total operating expenses came to R\$ 57.4 million, representing 12.6% of net sales, 120 bps more than in 1Q09. Period EBITDA stood at R\$ 13.4 million, with a margin of 2.9%.

These results were still strongly impacted by the opening of new stores and the conversion of existing ones to the Assai format, especially in Rio de Janeiro, which, despite recording a strong increase in sales, have not yet reached maturity. However, the EBITDA margin showed signs of improvement, widening by 320 bps over the previous quarter.

Assai posted second-quarter net income of R\$ 7.6 million, 120.8% up year-on-year, generating a negative minority interest R\$ 3.0 million.

In the first half, gross and net sales came to R\$ 945.7 million and R\$ 847.9 million, respectively. Gross profit stood at R\$ 123.9 million, up by 67.6%, while the gross margin widened by 110 bps.

Total operating expenses amounted to R\$ 111.6 million, representing 13.2% of net revenue, and EBITDA reached R\$ 12.2 million, with a margin of 1.4% . Excluding the stores converted to the Assai format in Rio de Janeiro, the EBITDA margin would have come to 3.1% . Net income totaled R\$ 4.5 million, generating a negative minority interest of R\$ 1.6 million for the Company.

The Company posted a 2Q09 net income of R\$ 131.7 million, 154.9% more than in 2Q08. First-half net income stood at R\$ 226.6 million, representing 2.3% of net sales, a 130 bps year-on-year improvement.

First-half net income was impacted by 1Q08 restructuring expenses totaling R\$ 17.2 million. It is also worth noting that despite the application of Law 11.638/07, 1H08 net income still included goodwill amortization, as shown in the table below:

Adjusted Net Income

(R\$ million) ⁽¹⁾	2Q09	2Q08	Chg. %	1H09	1H08	Chg. %

(2) Net of Income Tax

Considering the impact of the above effects, adjusted net income in 2Q08 and 1H08, on comparable bases, totaled R\$ 76.7 million and R\$ 151.2 million respectively. Consequently, 2Q09 and 1H09 net income recorded growth of 71.8% and 49.9% over adjusted net income in 2Q08 and 1H08 respectively.

Investments
The Group invested R\$ 113.8 million in 2Q09

Second-quarter investments totaled R\$ 113.8 million, versus R\$ 105.2 million in 2Q08. Throughout the quarter, the Company opened three Extra Fácil stores and one drugstore; and converted one CompreBem store in São Paulo, two Sendas stores in Rio de Janeiro and one Extra hypermarket in Rio de Janeiro to the Assai format, as well as one CompreBem store in São Paulo to the Extra Perto format.

The main highlights of the quarter were:

- R\$ 35.1 million in the opening and construction of new stores;
- R\$ 20.7 million in store renovation;

First-half investments totaled R\$ 193.2 million, versus R\$ 229.0 million in 1H08.

Dividends

On August 3, the Board of Directors approved a new dividend policy which alters the periodicity of dividend payments from one per year to one per quarter. The precise value and date of the quarterly prepayments will be defined by the Company on an annual basis. For 2009, the Board decided that the quarterly prepayments will be based on the total amount of dividends paid to the Company's shareholders in 2008.

Consequently, and exceptionally, on August 24, 2009 (20 days after the Board Meeting approving the amount and date of the prepayment), the Company will prepay dividends totaling R\$ 30.9 million, equivalent to two quarterly payments, at R\$ 0.12326 per common share and R\$ 0.13558 per preferred class A share. All shareholders registered as such on August 11, 2009, will be entitled to receive payment. Shares will be traded ex-rights as of August 12 until the payment date.

The final installment (referring to 4Q09) will comprise the difference between the amount prepaid throughout the year and the minimum mandatory dividends based on the Company's performance in 2009. This payment will occur after the Annual Shareholders Meeting which approves the Company's accounts and the proposal for the allocation of annual net income.
