1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo - Sabesp (Sabesp or the Company) is a mixed-capital company headquartered in São Paulo, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services, and supplies treated water on a bulk basis and provides sewage treatment services for another six municipalities of the Greater São Paulo Metropolitan Area.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The new Sabesp vision sets forth as objective to be recognized as the company that has universalized the Sanitation services in its area of operation, focused on the customer, in a sustainable and competitive way, with excellence in environmental solutions.

The Company provides water and sewage services in 364 municipalities in the State of São Paulo. Highlighting that the operations of the municipalities of Itapira, Araçoiaba da Serra, Iperó and Cajobi have ceased temporarily due to judicial orders still in progress. On September 30, 2010, the assets referring to these four municipalities were R\$20,158. Nearly all of which are through concessions granted by the municipalities and most of them with a 30-year term. Up to September 30, 2010, 92 concessions had expired and all of them are in the phase of being negotiated with the municipalities. From October 1st, 2010 to 2030 72 concessions will expire, including those with undetermined term. Up to September 30, 2010 198 program contracts were signed.

Management expects that all the expired concessions will be renewed or extended, thus there will not be a discontinuity of the water supply and sewage collection in these municipalities. On September 30, 2010 the net book value of the property, plant and equipment used in the 92 municipalities where the concessions are under negotiation totals R\$2,192 million and the net revenue for the period ended on September 30, 2010 totals R\$886 million.

In the municipality of Santos, in the Santista lowland, which has an expressive population, the Company operates supported by a public authorization deed, a similar situation in other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that formed it.

The important changes in regulation of the sanitation sector occurred in 2007 generated new challenges and opportunities to Sabesp. The regulatory milestone has consolidated the integration between the investments of the service provider and the priorities set forth by the holder of the services, it made the provision of accounts more effective and transparent and increased the security for investments.

The Company s shares have been listed on the Novo Mercado (New Market) segment of the BOVESPA (São Paulo Stock Exchange) since April 2002, and on the New York Stock Exchange (NYSE) as ADRs (American Depositary Receipts) since May 2002.

All information about areas of concession, number of municipalities, water and sewage volume and other related data disclosed in this report, which do not arise from the accounting and/or financial statements, have not been examined by the independent auditors.

On December 28, 2007, the Company and the State of São Paulo, by means of the Secretary of Treasury signed the second amendment to the terms of the original Gesp agreement, (1) agreeing with the payment is installments of teh remaining balance of the First Amendment, in the amount of R\$133,709 (amount in November 30, 2007) to be paid in 60 equal, monthly and consecutive installments, the first one maturing on January 02, 2008. The amount of the installments is monetarily adjusted according to the variation of the IPCA-IBGE, added by simple interests of 0.5% per month. In the balance of this agreement, which installments have been paid monthly, there is an amount of R\$46,244 that the State does not recognize as due. Sabesp has an understanding different from the State regarding this amount, not admitting the review of these previously agreed upon values, without the demonstration, in a grounded and unmistaken way, of the lack of correspondence between the amounts presented by Sabesp and the services effectively provided. (2) with regards to the past due and unpaid accounts in the period from March, 2004 to October, 2007, resulting from the provision of water and collection of sewage services in the total of R\$256,608, R\$236,126

have been received and R\$8,093 were transferred to other debtor and R\$12,389, object of discrepancies about the validation were submitted to ARSESP and are under analysis. Up to the moment, divergences as to the debtor have been identified, although not regarding the amount of the debt. In case of reclassification of the person responsible for paying the bill, Sabesp transferred the collection to the corresponding Entity. (3) the

interests on shareholders—equity due by Sabesp to the State, referring to the period from March, 2004 to December, 2006, in the amount of R\$400,823, restated from June, 2007 to November, 2007 by the Selic rate, were paid in the period from January to March, 2008, (4) the State and Sabesp agreed upon resuming the fulfillment of their reciprocal obligations, timely, under the new premises: (a) implementation of the accounts electronic management system to facilitate and speed up the follow-up of the payment processes and the procures of budgeting management; (b) structuring of the Programa of Uso Racional de Agua - PURA, to rationalize the consumption of water and the amount of the water and sewage bills of the responsibility of the State; (c) the establishment, by the State, of criteria in the budgeting of a way to avoid the displacement of amounts in the specific line of water and sewage bills as of 2008; (d) possibility of registration of state entities and bodies in a default system or master file; (e) possibility of interruption of the supply of water to the state entities in case of default in the payment of water and sewage bills.

Out of the invoicing of the months of November, 2007 to September, 2010, approximately 96% of the accounts have already been paid by the State Government.

(iv) Third Amendment to Gesp Agreement

Gesp, Sabesp and DAEE, on November 17, 2008, entered into the Third Amendment to the Term of Agreement of Payment Commitment, and Other Agreements, where the State confesses to owe Sabesp the amount of R\$915,251, monetarily adjusted until September, 2008 by the IPCA-IBGE, corresponding to the Uncontroversial Amount, calculated by FIPECAFI. Sabesp accepts temporarily the Reservoirs as part of the payment of the Uncontroversial Amount and offers to the State a temporary settlement, constituting a financial credit of R\$696,283, corresponding to the value of the Reservoirs. The definitive settlement will only occur with the effective transfer of property in the relevant real estate notary. The remaining balance of R\$218,967 is being paid in 114 monthly and consecutive installments, in the amount of R\$1,920 each, restated annually by the IPCA/FIPE, added by interests of 0.5% p.m., the first installment became due on November 25, 2008.

Sabesp and the State are working together in order to obtain legislative authorization in order to make viable the transfer of the Reservoirs to Sabesp. However, the Attorney General Office of the State of Sao Paulo questioned the legal validity of this agreement, by means of public civil action, which main argument is the absence of specific legislative authorization for the alienation of DAEE's estate. On October 7th, 2004 it was published the first level decision having been decided for the —acceptance of the requests for purposes of declaring VOID the legal business entered into between Sabesp, DAEE and the State of Sao Paulo for assignment assets and credits included into the Term of Obligation Recognition, Payment Commission and Other Covenants executed on December 11, 2001 and, consequently, the expenses, upon return to the previous status, upon the return of Alto Tiete to the autarchy s estate. It was obtained the suspension effect of the decision. SABESP, the State Treasury and the DAEE appealed to the Court of Justice of the Sao Paulo. On August 23 of the current year, the appeal motions were submitted to trial, not being acknowledged DAEE's appeal and denied acceptance to the others. Declaratory appeals were filed and the Company seeks to take the discussion up to the Superior Court of Justice. The effects of the decision will remain suspended until it becomes *res judicata*, as approved by the President of the Court of Justice. The Company s legal counsels assess the

risk of losing this proceeding as probable, in case the referred legislative authorization is obtained, which would prevent the transfer of the respective reservoirs as partial amortization of the balance receivable.

(v) As mentioned before, on November 17, 2008 the Company and the State executed the 3rd Amendment to GESP Agreement, in such occasion that the amounts called controversial and uncontroversial have been quantified. In such Amendment, efforts have been set in order to resolve what was called as

Page: 30

Controversial Amount of Benefits. According to the fourth clause of this instrument, the Controversial Amount is represented by the difference between the Uncontroversial Amount and the amount effectively paid by the Company as supplemental retirement and pension benefits provided for Law 4819/58, under the original responsibility of the State of Sao Paulo, in the Company s understanding, although paid by Sabesp until May, 2008, due to judicial order.

In executing the Third Amendment, an appreciation of the divergences that gave rise to the controversial amount of the benefits provided by Law 4819/58 has been provided. Such expectation was, at that time, based on the PGE s will to reanalyze the matter and also, in the Company s understanding, to the reimbursement based on external legal opinions.

However, recent opinions issued by PGE and received on September 4th and 22nd, 2009 and on January 4th, 2010, once again denied the reimbursement of the larger portion of this amount. As a consequence, the management s understanding has been changed about receiving the Controversial Amount upon a direct negotiation with the State.

Although the negotiations with the State are still underway, it is no longer possible to ensure that the Company will recover, in an entirely amicable way, the credits related to the Controversial Amount.

Sabesp will not waiver to the credits that the Company considers being legitimate holder against the State. In this sense, it shall exhaust all possibilities to resolve the question in the technical and legal levels. If the divergence persists, the Company shall adopt all necessary measures to safeguard the Company s interests.

In this context, the Company s management decided to recognize in the 2008 results a provision for losses on the outstanding balance of the controversial amount. This provision, in September 30, 2010 was R\$510,324. As a consequence of the recognition of this provision, it was also recorded the obligation related to the actuarial commitment kept with the beneficial owners, which right has been denied by the State, under the way it is paid by Sabesp. On September 30, 2010, the amount of this obligation was R\$493,531 (June 30, 2010 R\$507,772). The details of the actuarial obligation are presented in the explanatory note nr. 13.

(b) Cash and cash equivalents

The Company s balance of banks and short-term investments accounts with financial institutions controlled by the State Government was R\$1,325,368 and R\$1,009,639 on September 30, 2010 and June 30, 2010, respectively. The financial income from such investments was R\$43,527 and R\$15,058 in the third quarter of 2010 and 2009,

respectively. The Company, due to State Decree no 55,357 of January 18, 2010, must invest its excess resources with financial institutions controlled by the State Government.

(c) Agreement for the use of reservoirs

In its operations, the Company uses the Guarapiranga and Billings reservoirs; should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. The Company does not pay any fee for the use of these reservoirs but it is responsible for their maintenance and operating costs.

The Company has contracts signed with public entities linked to the State Government and to the municipalities served involving approximately 6,200 properties, which are benefited with a 25% reduction in the tariffs of the services of water supply and sewage collection, when not in default. The contracts provide for the implementation of the rational use of water program, which considers a reduction in the consumption of water.

The State Government grants guarantees for some loans and financings of the Company and does not charge any fee related thereto.

(f) Sesamm

6. INDEMNIFICATIONS RECEIVABLE

Indemnities receivable are a non-current asset that represents amounts receivable from the Municipalities of Diadema and Mauá as an indemnity for their unilateral termination of the concessions for water supply and sewage collection services of the Company in 1995. As of September 30, 2010 and June 30, 2010, this asset amounted to R\$146.213 (nominal amounts).

Due to these concession agreements, the Company invested in the construction of water and sewage systems in those municipalities in order to meet its concession service commitments. For the unilateral termination of the Diadema and Mauá concessions, the municipalities assumed the responsibility of supplying water and sewage services in those regions. At that time, the Company reclassified the balances of property, plant and equipment related to the assets used in those municipalities to non-current assets (indemnities receivable).

The net book value of the items of property, plant and equipment related to the Municipality of Diadema, reclassified in December, 1996, was R\$75,231, and the balance of the indemnifications receivable from the Municipality was R\$60,295.

The net book value of the items of property, plant and equipment related to the Municipality of Maua, reclassified in December, 1999, was R\$103,763, and the balance of the indemnifications receivable from the Municipality was R\$85,918.

The Company s rights to the recovery of these amounts are being judicially discussed by the municipalities.

Sabesp filed lawsuits to collect the amounts due by the municipalities. With regards to Diadema, the execution of the agreement entered with Diadema s Mayor Office and the Companhia de Saneamento de Diadema Saned, has started for the payment of the indemnification, the judge of first level accepted the appeals of the Mayor s Office and extinguished the execution. Sabesp filed an appeal against such sentence and, in December, 2005, partial approval to this appeal was granted to declare the validity of the agreement and determine that the appeals to the execution were once again judged in first level. On December 2007, the decision that accepted the execution of the Saned was rendered, ordering this company to be summoned to pay the full amount of the debt within 15 days under the penalty of fine. The realization of the pledge in cash was approved on Saned s bank accounts and financial investments (online pledge)up to 10% of the restated amount of the debit, being blocked and withdrawn the amount of R\$2,919 in March 3rd, 2009. Later, the Court of Justice determined that the pledge be made upon weekly deposit by Saned of the amount corresponding to 20% on all it receives in its bank accounts and financial investments, such decision still being subject of appeal. Regarding Diadema Mayor s Office, a new sentence was given to the appeals to the execution, on October,

Page: 33

2009, recognizing the existence of the right to claim the debt, and affirming that the execution against the Municipality shall be made upon precatory notes (and not by pledge). Sabesp and the Mayor s Office have appealed against such judgment.

On December 29, 2008, Saned and the municipality of Diadema entered into, with the State of Sao Paulo and Sabesp, a Memorandum of Intent with the purpose to prepare studies and conduct negotiations to instruct decisions of Diadema and Sabesp, aiming at the exclusive provision of water and sewage services in the municipality of Diadema.

The parties agreed that the search for a negotiated solution for the currently existing conflicts among the companies is fundamental so that the public service of water supply, sewage collection and treatment have their proper development in Diadema.

On January, 2009 the parties presented joint petition requesting the suspension of new pledges for the period of three months in order to try to make an agreement viable. The suspension was granted by the Judge of Public Treasury and, successively renewed, being the last renewal occurred on April, 2010 in face of negotiations for agreement.

With regards to Mauá, a first level decision was given determining that the Municipality pays the amount of R\$153.2 million as compensation for the damages caused and for loss of profits. The Maua s City Hall appealed against this decision. On July 2006, the decision was converted in diligence consisting of an expert clarification on the amount of the indemnity for loss of profits and the expert confirmed the amount of the loss of profits determined by the lower court. In August, 2008, the appeal was judged, having fully maintained the conviction imposed in the first level. The Maua Mayor s Office filed special and extraordinary appeals against the sentence that confirmed its conviction to indemnify Sabesp. Both appeals were not accepted by the Court of Justice, causing the filing of appeals to the Superior Court of Justice and to the Supreme Court. Superior Court of Justice has already denied acceptance to the appeal and confirmed the non admissibility of the special appeal.

Based on the opinion of the legal counsels, Management continues to affirm that the Company has legal right to receive the amounts corresponding the indemnification and it continues to monitor the situation of the lawsuits.

In 2010, the Company has also adopted the same tax standards adopted in 2008 and 2009, once the RTT shall be in force until the effectiveness of the law that regulates the tax effects of the new accounting methods, seeking tax neutrality.

The assets given in guarantee for the previous Refis Program, in the amount of R\$249,034 continue to guarantee the amounts of the Paes Program.

13. SOCIAL SECURITY LIABILITIES

The Company sponsors Fundação Sabesp de Seguridade Social - Sabesprev, an entity established in August 1990 with the main purpose of managing the pension plan and the welfare program for Sabesp s employees.

As of July, 2010, aiming at resolving the deficit referring to the Defined Benefit Plan (BD), Sabesp and Sabesprev have structured a process through which the participants may elect to change from the Defined Benefit Plan to a Defined Benefit Plan, the *Sabesprev Mais*.

The period for the plan migration, from July to November,2010, was suspended through an injunctive relief granted by the Court of Justice of the State of Sao Paulo, on October 20, 2010 until the claims from the parties involved are considered.

On September 30, 2010, after the movement of the participants, the Defined Benefit Plan remained with 16,807 participants and the Defined Contribution Plan remained with 3,120 participants, respectively.

The monthly contributions to the defined benefit plan correspond to 2.1% from the Company and 2.3% from the participants.

The contribution by the participants presented above is the average, since the discount amount varies in function of the salary range, between 1% and 8.5%.

In the case of the Defined Contribution Plan, the Company s contributions correspond to 100% of the basic contribution made by participants.

As set forth by CVM regulation, the gains arising from anticipated reductions of a plan must be recognized upon their occurrence. Thus, the amount of the unrecognized actuarial gain, of R\$178,583, must be reduced by the gain specific to the migration process.

The break-down of the anticipated reduction is presented in the table below:

RECONCILIATION OF (ASSETS) AND LIABILITIES	BEFORE	ACTUARIAL GAIN IN MIGRATION	AFTER REDUCTION
Actuarial Obligations	1,488,747	(107,159)	1,381,588

Unrecognized past service cost	-	-	-
Total Net Actuarial Liability/(Asset)	520,898	(14,238)	506,660

Regarding the Defined Contribution Plan, the commitment amount calculated for all participants that migrated up until September, 2010, by the actuarial evaluation, was R\$25,321, being R\$14,232 to Active and R\$11,089 to the Assisted participants. Resulting in the Company having already made payments of R\$8,183 until September 30, 2010.

On September 30, 2010, based on an independent report, calculated by the Projected Credit Unit, the Company had a net actuarial commitment with the Defined Benefit Plan of R\$506,660 (R\$480,103 in 2009) which represents the difference between the present value of the Company s obligations related to the employed, retired and pensioned participants and the guaranteeing assets, demonstrated as follows:

Several statistics and other factors aim at anticipating future events in the calculation of expense and liability related to these plans. These factors include assumptions on discount rate, expected return of the asset and increase of the rate of future compensation, in addition to subjective factors, such as layoff ratio, turn-over and mortality. The actuarial assumptions used by the Company are regularly reviewed and may differ in a relevant way from current results according to changes to market and economic conditions, regulatory factors, judicial regulations, increase or decrease in the layoff ration or in life expectancy of the participants. These differences may result in a relevant impact in the expense amount with the private pension institution recorded by the Company.

In current liabilities, in the Provisions item, the amounts related to judicial law suits in phase of execution of sentence present the amount of R\$759,000 (Jun/2010 R\$713,318) in non current liabilities, in the Provisions item, in the amount of R\$643,068 (Jun/2010 R\$852,695).

(i) Customers - Approximately 1,420 lawsuits were filed by commercial customers, which claim that their tariffs should be equal to the tariffs of another consumer category, and therefore claim the refund of the amounts collected by Sabesp. The Company was granted both favorable and unfavorable final decisions at several courts, and recognized provisions when the likelihood of loss is considered probable.

- (ii) Suppliers Suppliers claims include lawsuits filed by some building companies alleging an underpayment of monetary adjustments, withholding of amounts related to the understatement of official inflation rates after the Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the likelihood of loss is considered probable.
- (iii) Other civil lawsuits refer mainly to indemnity claims for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, duly accrued when classified as probable losses.
- (iv) Tax lawsuits the provision for tax contingencies refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company s legal counsel, duly accrued when classified as probable losses.
- (v) Labor lawsuits the Company is a party to labor lawsuits, involving issues such as overtime, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. In order to obtain the market values of Financial Instruments, the following criteria have been adopted:

(i) Debentures are financings considered by the nominal amount restated up to the maturity date, discounted to present value at the forward interest market rates, disclosed by Anbima in the secondary market, having as basis September 30, 2010 and the Company s security traded in the domestic market.

(ii) Financings - BNDES, those are instruments considered by the nominal amount restated up to the maturity date, that have as characteristics the indexation to the TJLP, which is a specific modality, not being compared to no other market rate.
Therefore, the Company's choice was to publish as market value the amount accounted as of September 30, 2010.
(iii) Other financings in national currency are considered by the nominal amount restated up to the maturity date, discounted to present value at the forward interest market rates. The forward rates used were obtained at the BM&F website.
(iv) Foreign currency financings are controlled in the original currency, converted at the foreign exchange rate at the date of the balance sheet, discounted to present value using the forward market rate obtained in the Bloomberg, base don the Company
Additionally, the Company has an instrument indexed to the YEN [JICA (Note 10)], which, in addition of the premises above, was considered in the conversion to present value the parity of the original currency of the instrument related to the dollar.
(b) Market risks
(i) Foreign exchange rate risk
This risk results from the possibility of the Company in incur in losses on account of fluctuations in the foreign exchange rates that impact the balances of loans and financings in foreign currency funded in the market and, consequently, the financial expenses. The Company does not maintain hedge or swap operations, however, the company performs an active management of the debt, seeking to reduce the exposure in foreign currency, taking advantage of the windows of opportunity, to exchange expensive debts to cheaper debts, reducing the cost by means

A significant portion of the Company s financial debt was linked to the US dollar and to the Yen, in the total amount of R\$1,715,685 (Note 10). The table below summarizes the Company s exposure to exchange rates at September 30, 2010.

Loans and financing

(c) Interest rate risk

This risk arises from the possibility that the Company may incur losses due to interest rate fluctuations and indices that increase their interest expenses on loans and financing. The Company has not entered into any derivative contract to hedge against this risk; however, it continually monitors market interest rates, in order to evaluate the possible need to replace its debt. As of September 30, 2010, the Company had R\$2,659,925 in loans and financing which were obtained at variable interest rates (CDI and TJLP).

Another risk faced by the Company is the lack of correlation between the monetary adjustment indices of its debt and those of its receivables. Water supply and sewage treatment tariffs do not necessarily follow the increases in the interest rates affecting the Company s debt.

(iii) Credit risk

Credit risk is mitigated by selling to a geographically dispersed customer base.

(c) Sensitivity analysis

Following is presented the table demonstrating the sensitivity analysis of the financial instruments that may generate significant impacts to the Company.

4.1. Salaries and payroll charges

In the 3Q10 occurred an increase of R\$6.5 million or 1.8% in salaries and payroll charges, going from R\$354.6 million to R\$348.1 million as a result of the following factors:

- Adjustment of actuarial calculation referring to the migration of approximately three thousand employees from the Defined Benefit Plan to Sabesprev-Mais Plan in September, 2010 in the amount of R\$12.4 million.
- Adjustment in the provision of Profit Sharing PLR in the amount of R\$15.8 million, as a consequence of the reversal of the amounts accrued in 2009; and
- Reduction in salaries and payroll charges in the amount of R\$4.3 million, resulting from layoffs occurred in function of the Term of Adjustment of Conduct (TAC) + 2% of the headcount, even considering the 5.05% adjustment

Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K since May, 2010.
This reduction was partially offset by the following factors:
• Company s matching referring to the deficit of the employees that migrated to the Sabesprev-Mais Plan in the amount of R\$17.1 million and
• Adjustment to the provision in the amount of R\$10.0 million, for payment of severance packages of employees that required retirement in the 3Q10.
4.2. General Supplies
In the 3Q10 there was a decrease of R\$3.2 million, or 8.1%, when compared to the same period previous year,
Page: 72

from R\$39.5 million to R\$36.3 million. The main factors that caused this variance were of lower expenses with maintenance materials in the adductor systems, water and sewage treatment stations and elevation stations in the Metropolitan Region of Sao Paulo RMSP, in the amount of R\$2.4 million

4.3. Treatment Materials

The expenditures in 3Q10 were lower than 3Q09 by R\$1.8 million, or 5.4%, going from R\$33.4 million to R\$31.6 million. This variance is related to the following factors:

- Decrease of R\$3.2 million in function of lower consumption of aluminum poly-chloride by approximately 41% and replacement of aluminum sulfide. Despite the consumption of aluminum sulfide has grown approximately 30%, the average cost of the product dropped 25%, which contributed significantly in the reduction of the expenditures for the period; and
- Increase of R\$1.5 million in the consumption of some products such as: i) soda, in function of price adjustment, climate and reservoir conditions; ii) poly-electrolytes, in function of the entrance into operation of the centrifuges of the Barueri system.

4.4. Services

In the 3Q10, this item presented a decrease of R\$15.1 million, or 6.4%, from R\$236.3 million to R\$221.2 million. The main factors that contributed to this variance were:

- Agreement with Sao Paulo City Hall:
- ü Decrease of R\$9.4 million in the provision made in the 3Q09, referring to the actions in place; and
- ü Decrease of R\$7.6 million, as a consequence of lower realization in the implementation of the Water Rational Use Program PURA, in municipal schools, non recurring.
- Reduction in the amount of R\$6.7 million in expenses from January to September, 2010 as expected for the second year of the contract of Public Private Partnership PPP) of the Alto Tiete Producing System;
- Reduction, in the amount of R\$5.0 million, related to the purchase of treated water, in function of the termination, in March, 2010, of the contract with Aguas de Cajamar S/A; and

Edgar Filing: COMPANHIA DE SANEAMENTO BASICO DO ESTADO DE SAO PAULO-SABESP - Form 6-K

• Decrease with preventive and corrective maintenance in the water and sewage treatment systems in the amount of R\$2.3 million, resulting from the implementation of structural works performed at Parque da Integração in the 3Q09.

The following services presented increase:

- Paymenting ,and paying repair services worth R\$ 10,3 million, in order to fulfil commitments with municipal prefects of the Regional Systems Directorate
- Maintenance of networks and water and sewage connections in the amount of R\$3.7 million resulting from:

ü Increase in demand and contractual amounts based on the Global Sourcing in the municipalities of the Regional Systems and optimization of the sanitation sewage systems of Santos Lowlands; and

- ü Enhancement of the actions to meet the demands of the Corrego Limpo Program with Sao Paulo City Hall PMSP and increase in the realization of maintenance services in the RMSP.
- Expenses with mud transportation in the amount of R\$1.2 million.

4.5 Electric Energy

In the 3Q10, this item presented increase of R\$10.9 million or 9.0%, from R\$121.4 million to R\$132.3 million.

This result is associated to the following factors:

- Tariff adjustment with impact to the average price of 2.5% in the tariff of the captive market, which represents 82% of the installed capacity with electric energy, influencing in the weighted average tariff increase between the captive market and the free market around 3.3%; and
- Increase in cost between the markets with weighted average of 8.0%.

	Participation(%)	Cost Variance	Weighted
		(%)	Average (%)
Free Market	18.0	10.8	1.9
Captive Market	82.0	7.4	6.1
Weighted Average			8.0

4.6. General Expenses

In the 3Q10 there was an increase of R\$20.3 million or 13.9%, from R\$145.8 million to R\$166.1 million. The factor that has contributed the most to this increase was the provision in the amount of R\$80 million provided in the contract with the Municipality of Sao Paulo, which payment shall occur in November, 2010. This amount corresponds to 7.5% of the Capital s gross revenues, after deducting the contributions to the Cofins and Pasep. This first payment was calculated as from the data of execution of the contract, occurred in June 23, 2010, therefore, in addition to the revenue of the quarter, the calculation basis considers, in a proportional way, some days of the month of June. This increase was partially offset in function of the lower need to accrue for judicial contingencies in comparison to 2009,

Edgar Filing:	COMPANHIA	DE SANEAMENT	O BASICO DO	ESTADO DE	SAO PAULO	-SABESP -	Form 6-K
in the amoun	t of R\$66.2 milli	on.					

4.7. Depreciation and Amortization

This item presented a decrease of R\$17.0 million or 10.5%, from R\$161.5 million to R\$144.5 million. This variation was due to the increase in the estimate of useful life of the assets from December, 2009.

4.8. Credit Write-offs

In the 3Q10, the write-off of credit increased by R\$17.1 million or 23.9%, varying from R\$71.5 million to R\$88.6 million. Such variance was partially made up by the need to complement the provision on invoicing private customers and municipal public entities.

The increase was offset by higher recovery of credits through agreements of payment in installments, with highlight to agreements executed with the Municipality of Taubate and the Municipality of Ferraz de Vanconcelos.

5. Other operating income and expenses

5.1. Other operating income

This item presented a decrease of R\$3.4 million or 39.7% mainly due to the write-off of unfeasible projects and work in progress, in the amount of R\$2.6 million.

7.1. Expenses with monetary variation

The effect of foreign exchange income in the 3Q10 was R\$80.2 million higher than the same period of last year. This variance is due to:

- The foreign exchange on external loans and financings generated a negative impact in the amount of R\$44.2 million resulting from the 6.0% appreciation of the North-American dollar in the 3Q10 versus a 8.9% depreciation in the 3Q09.
- Other monetary variances on indemnification of judicial law suits with increase of R\$18.7 million; and
- Monetary variation on internal loans and financings with increase of R\$17.3 million, mainly due to the increase of R\$15.4 million caused by the positive variation of the IGPM in 2.08% in the 3Q10 against a negative variation of 0.37% in the same period last year; and increase of R\$1.9 million due to the higher variation of the TR in the 3Q10 of 0.28% in comparison to the same period of last year of 0.12%.
