In 2Q11, net operating revenues totaled R\$2.3 billion, 3.0% growth related to 2Q10. Costs and expenses, including construction costs, in the amount of R\$1.7 billion, presented a decrease of 4.2% in relation to 2Q10. EBIT decreased 0.8%, from R\$603.8 million in 2Q10 to R\$599.2 million in 2Q11. EBITDA increased from R\$752.5 million in 2Q10 to R\$775.4 million in 2Q11, a 3.0% increase with a margin of 33.1%, maintaining same level as 2Q10.

**2. Gross operating revenue**

Gross operating revenue, including revenue from construction, reached R\$2.5 billion, corresponding to 3.2% increase in relation to 2Q10.

Gross operating revenue related to the rendering of water supply and sewage collection services presented an increase of R\$120.8 million, or 6.5%, from R\$1.9 billion in 2Q10 to R\$2.0 billion in 2Q11. The determinant factors were: growth in invoiced volume of 2.7% in water and 3.7% in sewage and tariff adjustment of 4.05% applied in September, 2010.

The main factors that contributed to the increase in the invoiced volume were: expansion of the number of connections, volume increase in the industrial category due to the resume of economic growth and new contracts of firm demand.

### **3. Revenue from construction**

Revenue from construction presented a R\$44.1 million decrease, or 8.1%, when compared to 2Q10, from R\$542.6 million to R\$498.5 million, resulting from lower investment in the period.

**5.1. Salaries and payroll charges**

In 2Q11 there was an increase of R\$16.1 million or 4.1% in salaries and payroll charges, going from R\$396.0 million to R\$412.1 million as a result of the following factors:

- 5.05% salary adjustment as of May, 2010 and 8% as of May 2011; and
- Adjustment to the provision, in the amount of R\$7.7 million for payment of severance amounts of employees who required retirement in 2Q11.

These increases were partially offset by the decrease of R\$4.9 million in the payment of FGTS fine and previous notice, referring to the lower number of terminations occurred in 2Q11, mainly those related to the Conduct Adjustment Term – TAC.

## **5.2. General Supplies**

In the 2Q11 there was a decrease of R\$2.3 million, or 7.1%, when compared to the same period in the previous year, from R\$32.3 million to R\$34.6 million. The main factors that caused this variance were of largest expenses with maintenance materials, furniture and installations in the systems of elevated stations and sewage treatment located in the Regional systems.

**ITR - Quarterly Information 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

**5.3. Treatment Materials**

The expenditures in 2Q11 were greater than 2Q10 by R\$4.9 million, or 15.8%, going from R\$31.1 million to R\$36.0 million. This variance is related to the following factors:

- Increase of R\$4.6 million in the consumption of the product aluminum polychloride that started to be used in the Guaraú Water Treatment Station in replacement to aluminum sulfate.
  
- Increase of R\$1.4 million as a result of the price adjustment of sodium since September, 2010 which started to incorporate the transportation cost of the product and also due to the increase in the consumption of chlorine and oxygen in function of the conditions in the reservoirs and climate; and
  
- Decrease of R\$1.7 million in function of the lower consumption of activated charcoal, product of seasonal use, resulting from lower proliferation of algae in the reservoirs that serve the Producing System Alto Tiete.

**5.4. Services**

In 2Q11, this item presented decrease of R\$42.0 million or 15.3%, from R\$274.6 million to R\$232.6 million. The main factors that contributed to such variation were:

- Agreement with Sao Paulo City Hall
  
- ü Decrease of R\$44.7 million, in the provision made in 2Q11, referring to the actions established; and
  
- ü Increase of R\$2.0 million resulting from the transportation of sediments of Lake Parque do Ibirapuera;

- A R\$ 10.4 million decrease in broadcast of advertisements due to the ending of some campaigns such as: SPTV 2<sup>nd</sup> edition, media project TV RECORD, Globo soccer, sustainable planet 2010, and others.

The following services presented increase:

- Preventive and corrective maintenance in the water and sewage operating systems worth R\$5.0 million as a result of the following factors: (i) maintenance and recovery of equipment, buildings and installations of reservoirs, water mains, sub-stations in the Metropolitan Region of Sao Paulo and Regional Systems; and
- Mails and telegraphs worth R\$3.5 million related to the delivery of water bills in some Business Units via postage in the mail, due to judicial order.

## 5.5 Electric Energy

In 2Q11, this item presented increase of R\$21.5 million or 16.6%, from R\$129.8 million to R\$151.3

million.

## ITR - Quarterly Information 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

This result is associated to the increase in the expenditure of 12.3% in the free market and 15.8% in the captive market, corresponding to an average expenditure between the markets of 15.2%. The average tariff increase in the free and captive market was around 5.4% in the period.

### 5.6. General Expenses

In 2Q11 there was an increase of R\$121.0 million or 336.1%, from R\$36.0 million to R\$157.0 million. The factor that contributed the most to such an increase was the:

- Provision of R\$77.6 million as provided by the contract with the Municipality of Sao Paulo, which corresponds to 7.5 % of the gross revenues from the Capital, deducting contributions to Cofins and Pasep, calculated as of the date of execution of the contract, occurred in June 23, 2010; and
- Increase in the provision for judicial contingences for 2Q10 worth R\$ R\$ 46.9 million.

### 5.7 Depreciation and Amortization

**This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the adjustment of the amortization period to be the lower between the useful life of the item or the effectiveness of the contract, applicable for the next quarter.**

In 2Q11, the credit write-off presented a decrease of R\$34.8 million or 44.7%, from R\$77.8 million to R\$43.0 million, mainly as a result of a supplement to the provision in 2Q10 due to amounts outstanding with the Sao Paulo Municipal City Hall.

## 6. Other operating income and expenses

The other operating income (net of expenses) presented an increase of R\$46.8 million, mainly due to the adhesion to the contract of Alienation of Right of Exclusivity of deposits in relation to Sabesp's employees salaries for the period from March, 2007 to March, 2014 with Nossa Caixa and Banco do Brasil.

In 2Q11 there was an increase of R\$46.7 million, or 27.1%. The main factors that influenced this result were:

- Reduction in the amount of financial expenses related to judicial proceedings worth R\$27.3 million; and
- Decrease of interest on internal loans and financings by R\$25.5 million mainly due to the amortization of the 8<sup>th</sup> issue of debentures occurred in June, 2011.

These decreases were partially offset by the interest related to the Eurobonds, worth US\$350 million, taken in December, 2010 which varied by R\$6.1 million.

**7.2. Financial income**

The financial income presented an increase of R\$51.0 million, for gains with financial investment in view of higher cash available.

The effect of foreign exchange income in 2Q11 was R\$95.2 million less than the same period of 2Q10. This variance is due to:

- The foreign exchange on external loans and financings generated a negative impact worth R\$92.7 million resulting from the 4.2% appreciation of the North-American dollar in 2Q11 versus a 1.2% appreciation in 2Q10; and
- Monetary variations on internal loans and financings with a decrease of R\$7.7 million, mainly due to the reduction of R\$9.9 million resulting from the IGPM variation in 0.70% in 2Q11, as compared to the variation of 2.84% in 2Q10; and an increase of R\$2.2 million for the higher variation of the TR in 2Q11 of 0.31%, as compared to 2Q10 of 0.11%;

## **8.2. Income from monetary variance**

The income from monetary variation presented a decrease of R\$27.3 million. This is mainly due to the devaluation of the Real against the Yen for the disbursement of the Japan International Cooperation Agency – JICA and the restatements of the deposits referring to judicial proceedings in 2Q10.

**1. OPERATIONS**

Companhia de Saneamento Básico do Estado de São Paulo - Sabesp (“Sabesp” or the “Company”) is a mixed-capital company headquartered in São Paulo, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services, and supplies treated water on a bulk basis and provides sewage treatment services for another six municipalities of the Greater São Paulo Metropolitan Area.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The new Sabesp vision sets forth as objective to be recognized as the company that has universalized the Sanitation services in its area of operation, focused on the customer, in a sustainable and competitive way, with excellence in environmental solutions.

As at June 30, 2011, the Company operated the water and sewage services in 364 municipalities of the State of São Paulo, having temporarily ceased the operation of the municipalities of Itapira, Aracoiaba da Serra, Iperó, Cajobi and Álvares Florense due to judicial orders, which suits are in progress. In the majority of these municipalities, the operations result from concession contracts executed for 30 years. 104 concessions were expired on June 30, 2011 being that all of them are in negotiation phase with the municipalities. Between 2011 and 2033, 42 concessions will expire. The remaining of these concessions operate under a rollover basis. These concessions with indefinite term and expired concessions under renegotiation are amortized over the useful life of the underlying assets. Up to June 30, 2011, 218 program contracts were signed.

Management expects that all the expired concessions will be renewed or extended, thus there will not be a discontinuity of the water supply and sewage collection in these municipalities. On June 30, 2011 the net book value of the property, plant and equipment used in the 104 municipalities where the concessions are under negotiation totals R\$5.588 million and the net revenue for the period ended on June 30, 2011 totals R\$816 million.

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

In the municipality of Santos, in the Baixada Santista region, which has a significant population, the Company operates supported by a public authorization deed, a similar situation in other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that it is made up of.

The Company's shares have been listed on the "Novo Mercado" (New Market) segment of the BOVESPA (São Paulo Stock Exchange) since April 2002, and on the New York Stock Exchange (NYSE) as ADRs since May 2002.

All information about areas of concession, number of municipalities, water and sewage volume and other related data disclosed in this report, which do not arise from the accounting and/or financial statements, have not been examined by the independent auditors.

## **2. PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS**

### **(i) Presentation of the Quarterly Information**

**ITR - Quarterly Information 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

The consolidated quarterly information of June 30, 2011 was prepared based on CPC 21 – Interim Financial Information (individual and consolidated) and the international standard IAS 34 – Interim Financial Reporting issued by the International Accounting Standards Board (IASB) (consolidated), applicable to the preparation of Quarterly Information – ITR. Therefore, these IFRS consider the Circular Office Memorandum CVM/SNC/SEP 003 of April 28, 2011 which allows that the entities present selected explanatory notes, in case of redundancy of information already disclosed in the Annual Financial Information. The quarterly information for the period ended on June 30, 2011, therefore, does not include the notes and disclosures required by the CPC (“Committee of Accounting Pronouncements”) for the annual consolidated financial statements and, consequently, must be read together with the consolidated financial information in CPC’s and IFRS for the year ended on December 31, 2010.

(ii) Individual and Consolidated Financial Information

The individual financial information are being disclosed together with the consolidate financial information and were prepared taking as basis the CPC 21 provisions applicable to the preparation of the Quarterly Information – ITR and presented in a way conducive to the norms issued by CVM and as well as being conducive to the disclosure in note 2 of the Annual Financial Statements.

The consolidated financial information was prepared according to the accounting Standards adopted in Brazil and the IFRS – International Financial Reporting Standards, this includes the statements of Sabesp and its subsidiaries: Sesamm – Serviços de Saneamento de Mogi Mirim S/A, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental and Attend Ambiental which were all included to the proportion of their equity interest. The Company maintains shared controlling interest, whose fiscal year is coincidental to the fiscal year of the joint controlled companies. The accounting policies of its subsidiaries are aligned Company’s policies. The consolidation process of the equity and income statements accounts aggregate balances of assets, liabilities, revenues and expenses, according to their nature, eliminating the equity interests of the holding in the capital stock and accumulated result of the consolidated company.

Although Sabesp’s equity interest in the Capital Stock of its subsidiaries is not majority, the shareholders’ agreement provides for the veto power on certain management matters, indicating participative shared control.

## 2.1 Accounting policies

The accounting policies used in the preparation of the quarterly information for the quarter ended on June 30, 2011 are consistent with those used to prepare the Annual Financial Statements referring to the year ended on December 31, 2010. In the Annual Financial Statements, these policies are disclosed in note 3.

## 2.2 New standards and changes to standards that are not yet in force

**ITR - Quarterly Information 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

The standard and changes to the existing standards that follow were published and are mandatory for subsequent accounting periods. However, there has been no early adoption of such standards and changes to standards by the Company:

- IAS 28 – “Investments in subsidiaries and affiliates together”, IFRS 11 – “joint contractual agreement” and IFRS 12 “Disclosures on interest in other entities”, all issued in May, 2011. The main change introduced by these standards is the impossibility of proportional consolidation of entities whose control of net assets is shared through an agreement with two or more parties and that is classified as a joint venture.

The IFRS 11 classifies agreements into two types:

(i) “joint ventures”- when the parties jointly control assets and liabilities, regardless if these assets are in a separate entity (“separate vehicle”), according to the contractual provisions and essence of the operation. In these agreements, assets, liabilities, revenues and expenses are recorded in the entity that participates to the “joint operator” agreement in the proportion of its rights and obligations;

(ii) “joint ventures”- when the parties jointly control net assets of an agreement, structured through a separate entity and the respective results of these assets are divided between the participating parties. In these agreements, the participation of the entity must be recorded by the equity method of accounting and presented in the investment line.

Additionally, IFRS 12 determines qualitative disclosures that must be made by the entity regarding the participation in subsidiaries, in joint agreement or non-consolidated entities that include significant judgments and assumptions to determine if its participations exercise control, significant influence or the classification of the joint agreements between “joint operations” and “joint ventures”, as well as other information on the nature and extent of significant restrictions and associated risks. The standard is not applicable until January 1st, 2013 but it is available for early adoption. Relevant impacts are not expected to Sabesp’s financial information.

- IFRS 7 “Financial Instruments – Disclosure”, issued on October, 2010. The change in the standard of disclosure of financial instruments seeks to promote the transparency in disclosing the transactions of transfer of financial assets, improve the understanding by the user about the exposure to risk in such transfers, and the effect of these risks on the balance sheets, particularly those involving securitization of financial assets. The standard is applicable for fiscal years starting on or after July 1<sup>st</sup>, 2011.

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

- IFRS 9 “Financial Instruments”, issued on November, 2009. IFRS 9 is the first standard issued as part of a larger project to replace IAS 39. IFRS 9 retains, although simplified, the model of measurement and sets forth two categories of measurement for financial instruments: amortized cost and fair value. The classification basis depends on the business model of the entity and on the contractual characteristics of the cash flow from the financial assets. The direction included in IAS 39 on impairment of financial assets and recording of hedge continues to be applied. Prior periods do not need to be restated if an entity adopts the standard for periods started on or to start before January 1st, 2012. The norm is applicable as from January 1st, 2013. It is not expected that there will be relevant impact on Sabesp’s financial information.

- IFRS 10 “Consolidated Financial Statements”, issued on May, 2011. This standard is based on the existing principles as to the identification of the concept of control as the determinant factor when an entity must be consolidated in the financial statements. The standard provides additional direction to help in the determination of control when there is doubt as to the assessment.

**ITR - Quarterly Information 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

The standard is applicable as of January 1<sup>st</sup>, 2013. Relevant impacts are not expected to Sabesp's financial information.

- IFRS 13 "Fair Value Measurement", issued on May, 2011. The standard has as its objective to improve the consistency and reduce the complexity in the disclosures required by IFRS. The requirements do not increase the use of fair value in accounting, however they direct how it must be applied when its use is required or allowed by other standard. The standard is applicable as of January 1<sup>st</sup>, 2013, and there is an exemption for application of the new requirements for comparable periods. Relevant impacts are not expected to Sabesp's financial information.

- IAS 19 "Benefits to Employees", issued on June, 2011. The change to the norm will affect mainly the recognition and measurement of define benefit pension plans, and disclosures of benefits to employees. The norm is applicable as of January 1<sup>st</sup>, 2013. These changes will affect the recording of liabilities of the plan G0 and G1.

### **3. FINANCIAL RISK MANAGEMENT**

#### **3.1 Financial Risk Factors**

The Company's operations are affected by the Brazilian economic scenario, exposing it to market risk, such as foreign currency risk, interest rate risk, credit risk and liquidity risk.

The Company has not used derivative financial instruments, even being able to contract forward foreign exchange contracts and financing in Reais to reduce the foreign currency risk.

(a) Market Risk

#### **Foreign Currency Risk**

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the liability balances of foreign currency-denominated loans and financing obtained in the market and the related financial expenses. The Company does not have hedge or swap contracts to hedge against this risk, in view of the amounts, costs involved and opportunities. However, when possible, it makes advance purchases of foreign currencies and obtains funding in local currency, as a way to protect itself against exchange rate fluctuations.

A significant part of the Company's financial debt was denominated in U.S. dollar and in Yen, in the total amount of R\$2,433,971 on June 30, 2011 (R\$2,244,635 on December 31, 2010), net of borrowing costs. The Company's exposure to foreign currency risk is the following:

	<b>June, 30 2011</b>		<b>December, 31 2010</b>	
	<b>Foreign currency</b>	<b>R\$</b>	<b>Foreign currency</b>	<b>R\$</b>
Loans and financing – US\$	1,056,236	1,648,890	1,084,898	1,807,657
Loans and financing – Iene	40,489,000	785,081	21,316,000	436,978

On June 30, 2011, had the Real appreciated or depreciated in 10% as compared to the dollar and the Yen with all other variables constant as at June 30, 2011, the effect on the income after taxes for the period would have been R\$160,642 (2010 – R\$148,146), for more or less, mainly as a result of the foreign currency gains or losses with the conversion of loans to foreign currency.

<b>Simulation of appreciation/depreciation of the Real by 10%</b>	<u>June, 30 2011</u>	<u>December, 31 2010</u>

Income tax / Social contribution	82,755	76,318
Appreciation or depreciation of the Real , net of taxes.	160,642	148,146

**Interest rate risk**

This risk is a result of the possibility that the Company may incur losses for fluctuations in interest rates that increase financial expenses related to loans and financings.

The Company has not entered into any derivative contract to hedge against this risk; however, it continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

The table below shows the Company's loans and financings expressed in Reais subject to variable interest rate:

	<b>June, 30 2011</b>	<b>December, 31 2010</b>

(iii) IGP-M - General Index of Market Prices

(iv) TJLP - Long Term Interest Rate

(v) IPCA - National Wide Consumer Price Index

Another risk faced by the Company is the lack of correlation between the monetary adjustment indices of its debt and those of its receivables. Water supply and sewage treatment tariffs do not necessarily follow the increases in the interest rates affecting the Company's debt.

As at June 30, 2011, had the interest rates on loans kept in Reais varied around 1% by more or less, with all other variable constant, the effect on the income after taxes would have been an increase or decrease of R\$36,883 (2010 – R\$39,338), mainly as a result of lower or higher interest expenses in loans with variable rates.

(b) Credit risk

The credit risk results from cash equivalents, bank deposits and financial institutions, as well as credit exposure to customers, including outstanding accounts receivable. The Company must, by law, invest its excess cash exclusively with Banco do Brasil (rating AA+(bra)). The credit risks are mitigated due sales to a widely spread out customer base.

**ITR - Quarterly Information 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

The maximum exposure to credit risk at the date of presentation of the report is the carrying amount of securities classified as cash equivalents, deposits in Banks and financial institutions and accounts receivable from customers at the date of the balance sheet. Notes 4.3 (e), 8, 9 and 10.

**(c) Liquidity Risk.**

The Company's liquidity depends mainly on the cash generated by the operating activities, loans from financial institutions of the state and federal government and financings in the local and international markets. The liquidity risk management considers the assessment of liquidity requirements to ensure that the Company has enough cash to meet its operating and capital expenditures.

The table below analyzes the Company's financial liabilities, by maturity dates, including the portion of principal and interests to be paid in accordance with contractual clauses.

The indexes used for each scenario are based on the number of days to elapse for each contract, the amounts expressed above were summarized.

The rates were projected based on the settlement dates of each financial instrument; the information was obtained from BM&F website.

**ITR - QUARTERLY INFORMATION 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

These sensitivity analyses have the objective to measure the impact of the changes in the market variables on the Company's financial instruments. Such amounts, when settled, may present values different from those demonstrated above, due to the estimates used in their preparation process.

**(e) Credit quality of the financial assets**

The credit quality of the financial assets that are not past due or are subject to provision for loss may be assessed upon reference to the external credit classifications (if any) or to the historical information on the default ratio of the counterparties. For the credit quality of the counterparties that are not financial institutions, like deposits and financial investments, the Company considers the lowest rating of the counterparty disclosed by the three main international credit rating agencies (Moody's, Fitch and S&P), pursuant to internal policy of market risk management:

### 3.2 Capital management

The Company's objectives in managing its capital are to safeguard the capacity to continue to offer return to shareholders and benefits to the other stakeholders, in addition to maintaining an ideal capital structure to reduce this cost.

The Company monitors capital based on financial leverage ratio. This ratio corresponds to the total debt divided by the total capital. The net debt, in turn, corresponds to the total loans and financings deducted from the amount of cash and cash equivalents. The total capital is calculated through the summation of net equity, as demonstrated in the CONSOLIDATED balance sheets, to net debt.

Leverage Ratio	36.29%	39.12%

**ITR - QUARTERLY INFORMATION 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

On June 30, 2011, the leverage ratio of the Company was reduced to 36.3%, as compared to 39.1% on December 31, 2010, due to the increase in the financial investments.

3.3 Fair value estimate

The Company applies CPC 40 to financial instruments measured by the fair value in the balance sheets, which requires fair value measurement in accordance with the following hierarchy of fair value measurement:

- . Quoted prices (not adjusted) in active markets for identical assets and liabilities (level 1).
  
- . Information in addition to prices quoted included in level 1, that are observable for assets or liabilities, whether directly (for example, like prices) or indirectly (that is, derived from prices)(level 2).
  
- . Insertions for asset or liability that are not based on observable market data (non observable insertions)(level 3).

The sole financial instrument evaluated at fair value maintained by the Company is represented by short term investments in bank certificates of deposit (CDB), classified as cash equivalents, in the amounts of R\$2,055,106 and R\$1,852,588 on June 30, 2011 and December 31, 2010, respectively. These investments are financial assets measured at fair value through the profit and loss deemed to be level 2.

3.4 Financial instruments

The Company operates with several financial instruments, with highlight for cash and cash equivalents, including financial investments, and loans and financings as described below.

To arrive at the market value of the Financial Instruments, the following criteria have been adopted:

(i) Foreign currency financings are controlled in the original currency, converted using the foreign exchange rate at the balance sheet date, discounted to present value using the market future exchange rate obtained from Bloomberg, based on the Company's securities traded in the external market. Additionally, the Company has an instrument indexed to the Yen (JICA) which, in addition to the assumptions described above, was considered in the calculation to present value the parity of the original currency of the instrument in relation to the U.S. dollar.

(ii) Debentures are considered at nominal value updated with contractual interest rate until the maturity date and discounted to present value using the market future interest rates, published by ANBIMA in the secondary market as of June 30, 2011 and the Company's securities traded in the Brazilian market.

(iii) Financings – BNDES, are instruments considered at nominal value updated with contractual interest rate until the maturity date, that are indexed by the TJLP, which is a specific modality, not being compared to any other market rate. Therefore, the Company has elected to disclose as the market value the carrying amount recorded as at June 30, 2011.

In the semester ended on June 30, 2011 there was no relevant changes regarding to the operations presented in the financial statements of December 31, 2010.

(i) Water and sewage services

The Company provides water supply and collection of sewage to the State Government and other Companies related to it, under terms and conditions considered by Management as normal in the market, except as to the form of settlement of the credits, that may be realized under the conditions mentioned in items (iii), (iv) and (v).

(ii) Reimbursement of additional retirement and pension benefits paid

It refers to amounts of supplemental benefits of retirement and pension plan provided by State of Sao Paulo's Law nr. 4819/58 ("Benefits") paid by the Company to former employees or retirees.

Under the terms of the Agreement referred on (iii), GESP recognizes to be responsible for the charges resulting from the Benefits, provided that the payment criteria set forth by the Department of Personnel Expenditures of the State – DDPE are met, founded on the legal guidelines set by the Legal Consulting of the Secretary of Finance and the State Attorney General's Office – PGE.

As explained in item (vi) during the validation by Gesp of the amounts due to the Company for the Benefits, there were divergences as to the calculation criteria and eligibility of the Benefit applied by the Company.

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

On June 30, 2011 and December 31, 2010, 2515 and 2554 retirees, respectively, received retirement supplements, in the quarters ended on June 30, 2011 and December 31, 2010, the Company paid R\$27,821 and R\$37,102, respectively. There were 21 active employees June 30, 2011 who will be entitled to such benefits upon his retirement, as compared to 32 on December 31, 2010.

In January, 2004, the payments of retirement and pension supplement were transferred to the Secretary of Finance, and would be made in accordance with the calculation criteria defined by the PGE. By judicial order, the responsibility for the payments returned to SABESP as originally established.

(iii) Gesp Agreement

On December 11, 2001, the Company, GESP (through the State Department of Finance Affairs, currently the Department of Finance) and the Department of Waters and Electric Energy – DAEE, with the intermediation of the State Department of Sanitation and Energy (former Department of Water Resources, Sanitation and Construction Works), entered into the Term of Recognition and Consolidation of Obligations, Payment Commitment and Other Covenants (“GESP Agreement”) with the purpose to settle the existing dispute between GESP and the Company related to the water and sewage services and to the Benefits.

In view of the strategic importance of the reservoirs of Taiacupeba, Jundiai, Biritiba, Paraitinga and Ponte Nova (“Reservoirs”), for the assurance of the maintenance of volume of water of Alto Tiete, the Company agreed to receive them as part of the reimbursement referring to the Benefits. The Reservoirs would be transferred to the Company by the DAEE in return to the amounts owned by GESP. However, the Attorney General’s Office of the State of Sao Paulo questioned the legal validity of this agreement, which main argument is the absence of specific legislative authorization for the alienation of DAEE’s assets. The Company’s legal counsels assess the risk of loss of this suit as probable, in case it does not obtain the referred legislative authorization, which would prevent the transfer of the respective reservoirs as partial amortization of the balance receivable.

(iv) First Amendment to the Gesp Agreement

On March 22, 2004, the Company and the State Government amended the terms of the original Gesp Agreement, (1) consolidating and recognizing the amounts due by the State Government for water supply and sewage collection services provided, monetarily adjusted until February 2004; (2) formally authorizing the offset of amounts due by the State Government with interest on shareholders’ equity declared by the Company and any other debit existing with the State Government as of December 31, 2003, monetarily adjusted until February 2004; and (3) defining the payment

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

conditions of the remaining liabilities of the State Government for the receipt of the water supply and sewage collection services.

(v) Second Amendment to the Gesp Agreement

On December 28, 2007, the Company and the State of São Paulo, intermediated by the Secretary of Treasury signed the second amendment to the terms of the original GESP agreement, (1) agreeing upon the payment in installments of the remaining balance of the First Amendment, amounting R\$133,709 at November 30, 2007 to be paid in 60, monthly and consecutive installments of the same amount, beginning on January 02, 2008. The amount of the installments will be monetarily adjusted according to the variation of the IPCA-IBGE, plus interests of 0.5% per month.

The State and SABESP agreed to resume immediately the compliance with their mutual obligations under new assumptions: (a) implementation of an electronic account management system to facilitate and speed up the monitoring of payment processes and budget management procedures; (b) structuring of the Rational Water Use Program (PURA) to rationalize the consumption of water and the amount of the water and sewage bills under the responsibility of the State; (c) establishment, by the State, of criteria for budgeting so as to avoid the reallocation of amounts to a specific water and sewage accounts as from 2008; (d) possibility of registering state bodies and entities in a delinquency system or reference file; (e) possibility of interrupting water supply to state bodies and entities in the case of nonpayment of water and sewage bills.

**ITR - QUARTERLY INFORMATION 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

(vi) Third Amendment to Gesp Agreement

On November 17, 2008, Gesp, Sabesp and DAEE, entered into the Third Amendment to the Term of Agreement of Payment Commitment, and Other Agreements, where the State recognizes to owe Sabesp the amount of R\$ 915,251, monetarily adjusted until September, 2008 by the IPCA-IBGE, corresponding to the Uncontroversial Amount, calculated by FIPECAFI. SABESP accepts temporarily the Reservoirs as part of the payment of the Uncontroversial Amount and offers to the State a temporary settlement, constituting a financial credit of R\$ 696,283, corresponding to the value of the Reservoirs. The definitive settlement will only occur with the effective transfer of property in the relevant real estate notary. The Company did not recognize the receivable amount of R\$ 696,283 related to the reservoirs, as it not virtually certain that will be transferred by the State. The remaining balance of R\$218,967 is being paid in 114 monthly and consecutive installments, in the amount of R\$1,920 each, restated annually by the IPCA/FIPE, added by interests of 0.5% p.m., the first installment became due on November 25, 2008.

SABESP and the Government of the State of São Paulo are working together in order to obtain the legislative authorization in order to make viable the transfer of the Reservoirs to SABESP, overcoming, therefore, the legal uncertainty caused by the Public Civil action is challenging the lack of specific legislation for the transfer of the ownership of the reservoirs.

The Third Amendment also provides for the regularization of the monthly flow of benefits. While SABESP is responsible for the monthly payments, the State shall reimburse the Company based on criteria identical to those applied in the calculation of the Uncontroversial Amount. With no longer an impeditive judicial decision, the State will directly assume the monthly payment flow of the portion considered uncontroversial.

(vii) Controversial Amount of Benefits

As mentioned before, on November 17, 2008, the Company and the State executed the Third Amendment to the GESP Agreement, in such occasion the amounts denominated as controversial and uncontroversial were quantified. In this amendment, the efforts to settle what was called the Controversial Amount is represented by the difference between the Uncontroversial Amount and the amount effectively paid by the Company as Benefits of retirement and pension supplement provided by Law 4819/58, of original responsibility of the State but paid by Sabesp by judicial decision.

By entering into the Third Amendment, it was provided for the reappreciation by the PGE the divergences that caused the controversial amount of the benefits provided by Law 4819/58. At the same time, this expectation was based on the PGE's intention to re-appreciate the question and also in the implied right of the Company to the reimbursement,

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

inclusively based on external technical legal opinions.

However, new opinions issued by the PGE and received on September 4 and 22, 2009 and January 4, 2010, denied the reimbursement of the portion previously defined as controversial amount. Even though the negotiations with the State are still being maintained, it is no longer

possible to ensure that the Company will recover, in a totally amicable way, the credits related to the Controversial Amount.

**ITR - QUARTERLY INFORMATION 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

Even though the negotiations with the State are still being maintained, it is no longer possible to ensure that the Company will recover, in a totally amicable way, the credits related to the Controversial Amount without dispute.

As part of the actions intended to recover the receivables that Management understands as due by the Government of the State, related to the divergences about the reimbursement of the benefits of retirement and pension supplement paid by the Company, SABESP: (i) addressed, on March 24, 2010, the message to the Controlling Shareholder, forwarding the office memorandum released by the Collegiate Directors, proposing judicial action to be forwarded to the Arbitration Chamber of Bovespa (Sao Paulo Stock Exchange); (ii) in June, 2010, it forwarded to the Secretary of Finance a proposal for agreement aiming the settlement of the referred controversies. This proposal did not succeed; (iii) on November 9, 2010, it filed a judicial action against the State of Sao Paulo pleading the full reimbursement of the amounts paid as benefits provided by State Law nr. 4.819/58 to finalize the discussion between the Company and GESP. Despite the judicial action, the Company will insist in reaching an agreement during the progress of the judicial action, understanding that a reasonable agreement is better to the company and its shareholders than waiting the end of the judicial demand.

The Company's Management has elected for not recognizing such amounts, due to the uncertainty of reimbursement of the amounts. On June 30, 2011 the amounts not recorded by the Company referring to the supplement of pension and retirement paid in name of the State by the Company totaled R\$1,257,688 (Dec/10 – R\$1,230,064) including the amount of R\$696,283 referring to the transfer of the reservoirs in the Alto Tiete system. As a result, the Company also recognized the actuarial obligation referring to the supplement of the pension and retirement maintained with the employees and pensioners of Plan G0. On June 30, 2011, the amounts of the supplement of pension and retirement supplement of Plan G0 were R\$1,500,795 (Dec/10 – R\$1,316,706). For more information on the obligations of supplement to pension and retirement, see Note 15.

(b) Agreement for the use of reservoirs

In its operations, the Company uses the Guarapiranga and Billings reservoirs and part of some reservoirs of the Upper Alto, which are owned by the Water and Electric Energy Department (DAEE); should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. The Company does not pay any fee for the use of these reservoirs but it is responsible for their maintenance and operating costs.

(c) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Rational Water Use Program (PURA).

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

The Company has signed agreements with government entities related to the State Government and municipalities where it operates involving approximately 7,000 real estate's that are benefited from a reduction of 25% in the tariff of water supply and sewage collection services. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in the consumption of water.

(d) Guarantees

The State Government grants guarantees for some loans and financing of the Company and does not charge any fees with respect to such guarantees.

**ITR - QUARTERLY INFORMATION 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

(e) Contract of assignment of personnel among the entities connected to GESP

The Company has employees assigned to entities connected to the Government of the State of São Paulo, where the expenses are fully transferred and monetarily reimbursed.

On June 30, 2011, the expenditures with the employees assigned by Sabesp to other state entities amounted to R\$2,962 (Jun/10 – R\$1,485).

In the same period, the Company did not have expenditures with the employees from other entities at Sabesp's disposal and in June, 2010 the amount totaled R\$70.

(f) Services contracted from entities connected to GESP.

On June 30, 2011 and December 31, 2010, SABESP had an outstanding amount payable of R\$11,712 and R\$11,395, respectively, referring to services provided by entities connected to the Government of the State of São Paulo. Among them, we highlight the services of electric energy supply by the Companhia Energetica of Sao Paulo – CESP, representing 93% of the amount of June 30, 2011.

(g) Non-operating Assets

The Company had, on June 30, 2011 the amount of R\$25,371 (in December 31, 2010 - R\$25,371), respectively, mainly related to land granted in free lease to Associations, Assistance Entities, Non-Governmental Organizations and to the DAEE – Department of Water and Electric Energy, among others. The land granted to the DAEE amount to R\$2,289.

(h) Banco do Brasil

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

O Estado de Sao Paulo sold exclusive rights in the provision of banking services administration entities directly and indirectly in favor of Banco Nossa Caixa, on March 27, 2007, and in favor of Banco do Brazil, May 27, 2010. Through the lawsuit in question, SABESP pleads financial compensation for the sale of its exclusive rights, requiring a percentage of the values that the State of São Paulo received from each of the financial institutions.

On June 28, 2011 it was executed the Term of Settlement between the Company and the State of Sao Paulo, whereby the Company received the amount of R\$63,366 upon reduction, as compensation of credit held by the State, corresponding to interests on shareholders' equity in fiscal 2010.

(i) Sabesprev

The Company sponsors the defined contribution plan managed by Fundação Sabesp de Seguridade Social - Sabesprev. The net actuarial obligation, recorded up to June 30, 2011, is R\$512,910 (Dec/2010 - R\$487,332).

Management is making efforts towards maintaining, in permanent basis, the timely payment by the State regarding the transactions between the parties.

(j) Management Fees

The compensation policy to the executive committee is set according to the guidelines of the Government of the State of São Paulo, CODEC (Council of Defense of the Capitals of the State), and is based on performance, market competitiveness of other indicators related to the Company's business and is subject to the approval by the shareholders at the General Shareholders' Meeting.

**ITR - QUARTERLY INFORMATION 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

The executive compensation is limited to the State Governor's compensation. The compensation of the Board of Directors corresponds to 30% of the compensation of the Officers, conditioned to a minimum attendance to one monthly meeting.

The objective of the compensation policy is to set up a model of private management, with the purpose to incentive the maintenance in its headcount and recruit professionals gifted of competence, experience and motivation, considering the effectiveness degree currently required by the Company.

In addition to the monthly compensation, the members of the Board of Directors and the Executive Committee receive:

Bonuses: for purposes of compensating the Board of Directors of the companies that the State is controlling shareholder, as an incentive policy, provided that the company effectively calculates quarterly, semi-annual and annual income and distribute mandatory dividends to the shareholders, even if under the form of interests on shareholders' equity. Annual bonus cannot exceed six times the monthly compensation of the directors and officers, nor 10% of interests on shareholders' equity paid by the company, whatever is lower.

Annual award: equivalent to one monthly fee, calculated on a prorated basis, in the month of December of each year.

The purpose of such award is to establish a similarity with the thirteenth salary of the labor regime of the Company's employees, once the relationship of the directors and officers with the Company is governed by its Bylaws and not labor code.

Benefits paid only to the Statutory Officers – meal ticket, basic basket of food, medical assistance, annual paid rest of a 30-day remunerated leave and payment of an award equivalent to one third of the monthly fees.

The compensation paid by the Company to the members of the Board of Directors and Officers was R\$605 and R\$ 594 for the periods ended on June 30, 2011 and 2010, respectively, and refers to short term benefits to employees and managers. An additional amount of R\$234 referring to the bonus program was accrued in the period from April through June, 2011 (R\$210 in 2010).

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

In the semester ended on June 30, 2011, the increase occurred in the intangible is related to the Investments made in the municipalities operated by Sabesp.

(a) Intangibles arising from concession contracts

The concession contracts provide that the assets will be reversed to the conceding power at the end of the contract.

On June 30, 2011, the Company operates in 364 municipalities in the State of São Paulo. In the most part of these municipalities, the operations are based a 30-year concession period.

The service provided by the Company is billed at a price regulated and controlled by the Regulating Agency of Sanitation and Energy of the State of São Paulo (ARSESP).

Intangibles resulting from concession contracts include:

(i) Concession contracts – equity amount

The contracts executed until 1998 provide that the assets will be reverted to the grantor at the end of the contract, for the residual value or market value in accordance with the terms of each one of them. The amortization is calculated using the straight line method, which considers the useful life of the assets.

(ii) Concession agreements - economic value

In the period between 1999 and 2006, the negotiations for new concessions were conducted on the basis of the economic and financial results of the transaction, determined in a valuation report issued by independent experts.

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

The amount determined in the respective contract, after the transaction is closed with the municipal authorities, is recorded in this account and amortized over the period of the related concession line method or the useful life of assets, the shortest of the two. As of June 30, 2011 and December 31, 2010 there were no amounts pending related to these payments to the municipalities.

(iii) Program Contracts – Investments performed

Refer to the renewals of the contracts previously denominated as full concession to operating concession, through the program contracts that have as objective the supply of municipal public services or sanitation sewage, where the Company has the possession and the management of the assets acquired or construction during the effectiveness of these contracts (30 years).

**ITR - QUARTERLY INFORMATION 06/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**

The amortization of the intangible assets is performed during the effectiveness of the concession contracts by the straight line method or by the useful life of the assets, whichever is lower.

(iv) Program contracts - Commitments

After the enactment of the regulatory framework in 2007, the renewals of concessions started to be made through of program contracts. In some of these program contracts, the Company assumed the commitment to financially participate in social and environmental actions. The assets constructed and the financial commitments assumed within the program contracts are recorded as intangible assets and are amortized by the straight line method in accordance with the duration of the program contract (mostly, 30 years) or by the useful life of the assets, whichever is lower.

In June 30, 2011, the amortization expenses related to the commitments of the program contracts were R\$6,227 (Dec/10 – R\$10,275).

In June 30, 2011, the amounts still not disbursed referring to the commitments of the program contracts were recorded in Other Obligations in current liabilities in the amount of R\$68,406 and in non current liabilities, in the amount of R\$82,952.

(v) New Business

It was executed contracts of provision of specialized technical services and the transfer of technology with the Companhia de Saneamento de Alagoas (CASAL) and with CONADES (PANAMA).

Other information related to the concession contracts may be obtained in the Annual Financial Statements of December 31, 2010, note 11.

(b) Capitalized interests and financial charges

This item presented increase of R\$27.5 million or 18.5%, from R\$148.7 million to R\$176.3 million, resulting from the

In the first semester of 2011, the Company capitalized interests and financial charges in the intangible assets of concession in the amount of R\$132,490 (Dec/10 – R\$228,900) during the period which assets were presented as work in progress.

The reduction in the current liabilities of R\$1,495 occurred mainly as a result of the reduction in the balance of item “Others”, referring to income tax withheld, in the amount of R\$33,032, calculated on interests on shareholders’ equity declared in December, 2010, being that the payment of the referred tax was made in January, 2011. This decrease was offset by IRPJ and CSLL payable on June 30, 2011 in the amount of R\$28,466.

The reduction of R\$17,006 in non current liabilities occurred as a result of the payment flow and adequacy of the short term and long term balance of the Special Program (Paes) of the holding, according to the information below.

The company applied for the Special Installment Payment Request (Paes) on July 15, 2003, pursuant Law nr. 10684 of May 30, 2003, including in this application the debts related to the Cofins and to the Pasep involved in judicial lawsuit against the application of Law nr. 9718/98 and consolidated the remaining balance of the Tax Recovery Program (Refis). The total amount included in the Paes was R\$316,953, as follows:

<b>Tax</b>	<b>Principal</b>	<b>Penalty</b>	<b>Interests</b>	<b>Total</b>
COFINS	132,499	13,250	50,994	196,743

Transitional Tax Regime – RTT

For the purposes of calculation of income tax and social contribution on net income of the years of 2009 and 2008, the Company and its subsidiaries adopted the RTT, which allows the legal entity to eliminate the accounting effects of the Law 11.638/07 and Provisional Measure 449/08, converted into Law 11.941/09, by the registers in the fiscal books - LALUR and auxiliary controls, without any change in the accounting books.

In 2011, the Company also adopted the same tax practices adopted in 2008, 2009 and 2010, since the RTT shall be in force until the enacting of the Law that rules the tax effects of the new accounting standards, seeking the tax neutrality.

The main variations in the period additions related to new processes with customers and the change in expectation of loss related to labor and, in the case of low due to the revised estimate and agreement occurred in the environmental sphere.

(i) Customers - Approximately 1,600 lawsuits were filed by commercial customers, which claim that their tariffs should be equal to the tariffs of another consumer category, and therefore claim the refund of the amounts collected by Sabesp. The Company was granted both favorable and unfavorable final decisions at several courts, and recognized provisions when the likelihood of loss is considered probable.

(ii) Suppliers - Suppliers' claims include lawsuits filed by some building companies alleging an underpayment of monetary adjustments, withholding of amounts related to the understatement of official inflation rates after the Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the likelihood of loss is considered probable.

(iii) Other civil lawsuits - refer mainly to indemnity claims for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, duly accrued when classified as probable losses.

(iv) Tax lawsuits - the provision for tax contingencies refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's legal counsel, duly accrued when classified as probable losses.

(v) Labor lawsuits - the Company is a party to labor lawsuits, involving issues such as overtime, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as a probable loss and accordingly a provision was recognized.

(vi) Environmental lawsuits - refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental - Cetesb and the São Paulo State Public Prosecution Office for the imposition of fines for environmental damages allegedly caused by the Company. The amounts recognized in provision do not always represent the final amount to be disbursed as indemnity of alleged damages, in view of the current stage in which such lawsuits are and Management's impossibility to reasonably estimate the amounts of future disbursements.

## **Introduction**

We have reviewed the accompanying parent company and consolidated interim accounting information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP, included in the Quarterly Information Form (ITR) for the quarter ended June 30, 2011, comprising the balance sheet at that date and the statements of income for the quarter and six-month period then ended, as well as the statements of changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with accounting standard CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

## **Scope of review**

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
