REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia Brasileira de Distribuição

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição (the “Company”), included in the Interim Financial Information Form (ITR), for the quarter ended March 31, 2013, which comprises the balance sheet as of March 31, 2013 and the related statements of income, comprehensive income, changes in shareholders’ equity and cash flows for the three-month period then ended, including the footnotes.

The Company’s Management is responsible for the preparation of the individual interim financial information in accordance with technical pronouncement CPC 21(R1) - Interim Financial Information and the consolidated interim financial information in accordance with technical pronouncement CPC 21(R1) and the international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards established by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC21(R1), applicable to the preparation of the Interim Financial Information (ITR), and presented in accordance with the standards established by the CVM.

Conclusion on consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21(R1) and IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards established by the CVM.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added for the three-month period ended March 31, 2013, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, that do not require the presentation of these statements. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, in relation to the individual and consolidated interim financial information taken as a whole.

PERFORMANCE BY SEGMENT

The Company's business is divided into four segments – food retail, cash and carry, electronics and home appliances retail (bricks and mortar) and e-commerce – grouped as follows:

Sales Performance

GPA Food

Gross sales revenue increased 10.6% over 1Q12. In addition to the same-store sales performance, detailed below, the opening of new stores, which continues at a fast pace, was a highlight. In 1Q13, 19 new stores were opened.

On a same-store basis, gross sales revenue increased 6.4%. This growth pace was achieved despite the strong comparison base and one less sales day (2011 was a leap year). In real terms, deflated by the IPCA inflation index, same-store sales decreased 0.2%.

4 Retail: gross sales revenue up 7.7%. The highlights were:

§ Sales growth in the quarter, led by the categories of meat; fruits and vegetables; as well as categories that benefited from sales associated with Easter – grocery and seafood. However, sales of electronics and home appliances, sold under the Extra banner, usually in hypermarkets, decreased due to the strong comparison base in 1Q12, impacting the growth in Non-Food categories;

§ The Pão de Açúcar banner, which posted a solid performance in fruit, organic foods and fish, and Minimercado Extra, which continued to post double-digit same-store sales growth;

§ The calendar effect due to Easter, which had a positive impact as the entire holiday sales period fell within the quarter, while last year a portion of sales was concentrated in April. The impact on the quarter, however, was partially offset by the comparison with a leap year, which resulted in one less day of sales in 1Q13;

§ The announcement by the federal government of tax rate cuts on certain basic products in the meat, fruit, vegetables and personal care categories. The measure aims to reduce the retail price and consequently increase consumers' purchasing power.

§ Organic growth: opening of 12 Minimercado Extra, two Extra Supermercado, one gas station and one drugstore in 1Q13.

4 Cash-and-carry: gross sales revenue up 26.1%, driven mainly by:

§ Double-digit gross sales revenue growth on a same-store basis, supported by the growth in average ticket. The growth is consequence of the adjustments made to serve the target public of the banner – processors, resellers and users – and the opening of three Assaí stores in 1Q13.

4 Real estate projects: no revenue from real estate projects was recognized in the results of the Company in 1Q13.

GPA Consolidated

Gross sales revenue totaled R\$14.984 billion, up 9.7% over 1Q12. Same-store sales increased 6.6%, driven by the performance of Food Retail, as mentioned above, coupled with the performance of the electronics and home appliance brick-and-mortar stores, led by Pontofrio, which posted above-average same-store sales growth.

Growth was also driven by the Company's accelerated organic growth pace. A total of 28,000 square meters of sales area were added in the period through the opening of 25 stores, bringing the number of new stores opened in the last 12 months to 125.

The Group's new e-commerce platform was launched in early March: Extra Marketplace, Brazil's first online "shopping mall", which will be operated through Extra.com.br (website with average daily traffic of more than 1 million visitors). This initiative increased the number of products in the e-commerce platform from 120,000 items in March to 200,000 items in April. It is expected to reach 600,000 items by December. The project's initial investment was R\$ 10 million and more than 30 partners signed up in its first month.

As of 4Q12, the result of Equity Income and Other Operating Income (Expenses) were included along with Total Operating Expenses in the calculation of EBITDA. This means that the calculation of EBITDA is now in accordance with Instruction 527 issued by the Securities and Exchange Commission of Brazil (CVM) on October 4, 2012. In 1Q13, the depreciation recognized in cost of goods sold, formed essentially by the depreciation of distribution centers, began to be specified in the calculation of EBITDA. The reconciliation is available on page 5 of this release.

GPA Food

EBITDA increased 6.2% to R\$518 million, while EBITDA margin declined 30 basis points to 7.0%.

4 Retail: 10 basis-point EBITDA margin decline due to:

§ Gross margin increase of 10 basis points to 27.9%. The margin increase is due to improved sales mix and to the lower growth in lower-margin categories as electronics and beverages. For fruits, vegetables and other commodities, a trade-up to organic items and other items of higher added value was observed;

§ Restructuring of GPA Food: since late 2011, the Company has been conducting a process to reorganize its corporate structure by reassessing its activities and processes to make the Company leaner, simpler and give it a more agile decision-making process, while also enabling the capture of synergies and efficiency gains in the processes common to the various businesses. The processes resulted in headcount reductions in the executive team, a process that incurred expenses of R\$13 million.

Adjusted for nonrecurring effects, EBITDA was R\$537 million, with EBITDA margin stable at 7.3%. Over the course of the year, the Company expects to reverse gains from expenses reduction through the pricing of goods, and thus attract more consumers to their stores and increase market share.

4 Cash-and-carry: EBITDA margin declined 100 basis points over 1Q12, to 2.8%, due to:

§ Gross margin decline of 120 basis points, mainly due to the opening of three Assaí stores. Moreover, to support the strategy of expanding the banner into new regions and increasing customer traffic in stores, Assaí adopted most competitive prices, which led to temporary margin contraction at the newly opened stores in these regions. In the past six months, Assaí started operations in three new states and should start operations in other three in 2Q13;

§ More competitive pricing. The sustainable repositioning of prices will be enabled by the strict control of operating expenses. With stronger sales, Management expects to increase the return on invested capital for both the format and the Company;

§ Decrease of 20 basis points in operating expenses as a percentage of net sales revenue, driven by the rationalization of selling expenses, which grew at a slower pace than revenue. The new model aims to keep operating expenses at low levels.

GPA Consolidated

EBITDA was benefited from lower operating expenses, particularly in General and Administrative Expenses at Viavarejo. EBITDA margin was stable at 6.4%. This decrease at Viavarejo is related to the reorganization carried out by the Company in 1Q13, which also impacted the food retail operation, as mentioned above, which focused primarily on boosting competition through a leaner structure and by implementing a more agile decision-making process.

Gross margin declined 30 basis points, mainly due to the Company's strategy to boost the competition of its cash-and-carry stores, which since 2012 has posted gross margin compression along with declines in expenses, as mentioned above.

EBITDA Reconciliation

As from 1Q13, the EBITDA reported by the Company is no longer considering the depreciation allocated to cost of goods sold, essentially related to distribution centers. To allow the comparability of the Company's future results, we present the 2012 EBITDA with the same EBITDA reconciliation adopted as of this quarter.

GPA Food

In 1Q13, the net financial income was an expense was R\$108 million, down 24.0% over 1Q12 despite the 10.6% growth in gross sales revenue in the quarter, and accounted for 1.5% of net sales revenue. The improvement in the net financial income was mainly due to the effects from the lower Selic base interest rate, especially as of late 2011, and to control over the customer receivables, which impacted the Company's results as detailed below:

§ R\$ 61 million in charges on net bank debt, down 19.0% over 1Q12;

§ R\$ 23 million in cost of discount of receivables, which corresponded to 0.3% of net sales revenue (compared to 0.5% in 1Q12). In view of the restructuring of receivables funds previously used for credit rights transfer of accounts receivable with credit cards, in 1Q13 the Company sold and transferred its total credit card receivables directly to operators or banks, without any right to return or obligation related. The average rate for these sale operations was 108.5% of CDI. The volume of discounted receivables amounted to R\$2.8 billion;

§ R\$ 24 million in restatement of other liabilities and assets, down 41.1% over 1Q12, due to higher financial income from supplier payment anticipation.

GPA Consolidated

In 1Q13, the net financial income was an expense of R\$ 254 million, down 24.2% over 1Q12, and account for 1.9% of net sales revenue, down 90 basis points over 1Q12. The main impact came from the reduction in expenses with the discount of receivables and with charges on net debt, which resulted from the lower base interest rate and better management of the payment conditions offered to clients.

GPA Food

On March 31, 2013, GPA Food's gross debt totaled R\$6.429 billion, down R\$272 million from December 2012. The decline was due to the payment of the 6th series of debentures of approximately R\$ 270 million. As mentioned in the 4Q12 earnings release, the Company expects to reduce its debt level over the course of the year.

Most of the debt is still concentrated in the long term. More than 65% is maturing in over 12 months. Net debt rose from R\$2.196 billion at the end of 4Q12 to R\$2.875 billion at the end of 1Q13, due to the seasonality of the quarter, which typically leads to lower cash positions in relation to the end of 4Q12. The net debt/EBITDA ratio stood at 1.24x at the end of March.

GPA Consolidated

Net debt, including Viavarejo's payment book operation, amounted to R\$4.168 billion at the end of March. The net debt/EBITDA ratio stood at 1.10x, with a longer maturity profile and net reserves in excess of R\$6 billion. In 1Q12, The net debt/EBITDA ratio stood at 1.51x. Excluding payment-book debt, the net debt/EBITDA ratio stood at 0.42x.

GPA Malls & Properties

GPA Malls & Properties (GPA M&P) is the operation responsible for managing the real estate assets of Grupo Pão de Açúcar, which supplements the results of the retail operation by managing the leasable space of the Company's properties. Its activities also include managing the Group's expansion projects by prospecting, negotiating and installing new stores.

The projects scheduled for 2013 focus on the development and revitalization of commercial centers that draw on a new concept for shopping and convenience. The objective is to boost recurring lease revenue and increase traffic in stores that have area for commercial centers.

In 2012, the unit generated R\$153 million in gross sales revenue from three real estate projects in partnership with construction companies, which involved land swap agreements for installing commercial and residential buildings connected with the retail space.

GPA Food

Operating profit before income tax amounted to R\$239 million in 1Q13, up 20.7% over the prior-year period. The result reflects (i) the Company's sales growth (supported by the organic expansion in recent quarters); (ii) more efficient control of expenses in all businesses; and (iii) significant improvement in financial expenses. Net income increased 19.5% to R\$ 176 million.

In the quarter, the Company incurred nonrecurring expenses related to (i) indemnity liabilities related to contingencies at the Pontofrio operation prior to the association with Casas Bahia in 4Q10, in the amount of R\$7 million; and (ii) impacts on the result amounting to R\$13 million arising from the restructuring carried out by the Company in the first quarter. Net income adjusted for these effects amounted to R\$ 196 million, with adjusted net margin of 2.7%.

GPA Consolidated

Net income before taxes was R\$394 million, up 60.4% from the same period in 2012, driven by the continuous operating improvement at GPA Food and Viavarejo. The Company's net income in 1Q13 increased 69.7% to R\$275 million, driven by operational improvements at Viavarejo and lower financial expenses.

GPA Food

The cash position at the end of March was R\$3.553 billion, which represents a decrease of R\$952 million in 1Q13, composed as follows:

- Payments which totaled R\$ 616 million, of which about R\$340 million was related to the maturity of the 6th series of debentures (principal and interest) and R\$ 229 million was used for investments made in the period. No new debt was issued in the quarter.
- Cash flow from the operating activities, which demanded additional R\$336 million, mainly due to the higher working capital typically observed in the first quarter in the segment (caused by seasonal factors at the end of the year due to Christmas).

GPA Consolidated

At the end of 1Q13, the cash position amounted to R\$6.002 billion, down R\$1.084 billion from the cash position at the start of the quarter. The positive cash generation from operating activities in Viavarejo was a highlight, which partially offsets the seasonal working capital in GPA Food (mentioned above).

Investments totaled R\$ 328 million in the quarter, up 73.1% over 1Q12, and detailed as follows:

§ R\$ 200 million in the opening and construction of new stores and land acquisition. The 217.2% increase was due to the Company's increased focus on opening new stores, in line with its strategy to accelerate organic growth in the Food operation (with the expected delivery of 500 new stores by 2015). In 1Q13, store deliveries comprised 12 Minimercado Extra, 3 Assaí, 2 Extra Supermercado, a gas station and a drugstore, for a total of 19 new stores;

§ R\$ 85 million in renovation works, in line with the investment levels typically required for maintenance;

§ R\$ 43 million in technology and logistics infrastructure in 1Q13.

GPA Consolidated

In 1Q13, investments totaled R\$395 million. The 63.5% increase in investments is due to the accelerated pace of new store openings. A total of R\$215 million was invested for this purpose, up 181.3% over 1Q12. In addition to the above-mentioned GPA Food stores, six new electronics and home appliance stores (under the Casas Bahia banner) were opened in the quarter, predominately in the Northeast of Brazil. The Company also invested in remodeling the Pontofrio stores, which have been posting growing returns and higher productivity.

For 2013, the Company plans to invest up to R\$ 2 billion.

The payment of interim dividends for the first quarter of 2013 will amount to R\$33.1 million. Shareholders of record on 05/03/2013, will be entitled to receive the payment. As of 05/06/2013, the shares will trade ex-dividends until the payment date. The dividends related to the prepayment for 1Q13 will be paid on 05/16/2013.

SUBSEQUENT EVENTS

Brazil's antitrust agency approves the association between Pontofrio and Casas Bahia

On April 17, the Company executed a Settlement (*Termo de Compromisso de Desempenho - TCD*) with Brazil's antitrust agency CADE (*Conselho Administrativo de Defesa Econômica*) for approval of the Association Agreement entered into between Grupo Pão de Açúcar and Casa Bahia Comercial Ltda. The TCD mandates the divestment of 74 Viavarejo stores in 54 cities distributed across six states and the Federal District, which jointly represented approximately 3% of the consolidated gross sales of Viavarejo in 2012.

The approval concludes the obligations assumed under the provisional agreement (*Acordo de Preservação de Reversibilidade da Operação - APRO*) executed on 2010, allowing Viavarejo to fully capture all synergies arising from the association.

All interest were calculated considering the percentage held by the GPA or its subsidiaries. The consolidation not necessarily reflects these percentages, as some companies have shareholders’ agreement that the Company has control and therefore allows the full consolidation.

b) Subsidiaries

The consolidated quarterly financial information includes the financial information of all subsidiaries over which the Company exercises control directly or indirectly.

Subsidiaries are all entities (including special purpose entities) over which the Company has the power to govern the financial and operating policies and generally holds shares of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Company controls another entity. Subsidiaries are fully consolidated from the date of acquisition, being the date on which the Company obtains control and they are excluded from consolidated, where applicable, considering the date that control ceases.

b) Subsidiaries -- Continued

The quarterly financial information of the subsidiaries are prepared on the same closing date as those of the Company, using consistent accounting policies. All intragroup balances, including income and expenses, unrealized gains and losses and dividends resulting from intragroup transactions are eliminated in full.

Gains or losses resulting from changes in equity interest in subsidiaries, not resulting in loss of control are directly recorded in shareholders' equity.

Losses are attributed to the non-controlling interest, even if it results in a deficit balance.

The main direct or indirect subsidiaries, included in the consolidation and the percentage of the Company's interest comprise:

i. Novasoc

Although the Company's interest in Novasoc represents 10% of its shares, Novasoc is included in the consolidated quarterly financial information, as the Company controls 99.98% of the Novasoc's voting rights, pursuant to the shareholders' agreement. Moreover, under the Novasoc shareholders' agreement, the appropriation of its net income does not require to be proportional to the shares of interest held in the partnership.

ii. Via Varejo

The Company holds 52.41% of Via Varejo's capital, giving it control of this subsidiary by consolidating their full financial information. The Via Varejo concentrates activities of trade electronic products, operating under the brands "Ponto Frio" and "Casas Bahia". The Company also operates by its subsidiary Nova Pontocom, in e-commerce of any product for the consumer by the websites: www.extra.com.br, www.pontofrio.com.br, www.casabahia.com.br, www.barateiro.com.br and www.partiuviajens.com.br.

On January 2, 2013 was approved at the Extraordinary General Meeting, the incorporation of the subsidiary NCB by its parent company Via Varejo. With the merger, there will be no impact on the consolidated quarterly financial information, in the capital or in equity. The net assets of incorporation were the subject of the appraisal report at book value on the date of incorporation.

The merger of NCB Via Varejo aims to simplify the organizational structure and corporate companies, thus providing a reduction of administrative and operational costs.

iii. Sendas

The Company directly or indirectly holds 100.00% of Sendas' capital, which operates in retail trade segment, mainly in the State of Rio de Janeiro.

iv. GPA M&P

In 2011, the Company began organizing the GPA M&P, a subsidiary in order to develop its real estate assets.

c) Associates - BINV and FIC

The Company's investments in its associates Financeira Itaú CBD S.A. – Crédito, Financiamento e Investimento ("FIC") and Banco Investcred Unibanco S.A. ("BINV"), both entities that finance sales directly to GPA and Via Varejo customers are result of an association between Banco Itaú Unibanco S.A. ("Itaú Unibanco") with GPA and Via Varejo. Such investments are accounted for using the equity method. An associate is an entity in which the Company has significant influence, but not the control, prevailing decisions related to the operational and financial management of BINV and FIC belongs to Itaú Unibanco.

The income statement for the period reflects the share of the results of operations of the associate. Where there has been a change recognized directly in the shareholders' equity of the associate, the Company recognizes its share of any changes and discloses this, when applicable, in the statement of changes in shareholders' equity. Unrealized gains and losses resulting from transactions between the Company and the associate are eliminated to the extent of the interest in the associate.

The profit sharing of associates is shown on the income statement for the period as equity method results. The quarterly financial information of the associates are prepared for the same closing date as the Parent Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

After application of the equity method, the Company determines whether it is necessary to recognize an additional loss due to non-recoverability on the Company's investment in its associates. The Company determines at each balance date whether there is any evidence that the investment in the associate will not be recoverable. If applicable, the Company calculates the impairment amount as the difference between the investment recoverable value of the associate and its carrying amount and recognizes the loss in the income statement for the period.

Upon loss of significant influence over the associate, the Company measures and recognizes any remaining investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the remaining investment and proceeds from write-off are recognized in the income statement for the period.

d) Interest in joint operation – Bartira

The Company maintains an indirect interest joint operation named Bartira, in which GPA holds through its subsidiary NCB 25% and Klein Family through Casa Bahia Comercial Ltda. (“Casa Bahia”), holds 75% which entered into a partnership agreement setting forth the joint control over the entity’s operational activities.

The partnership agreement requires the unanimous resolution of participants in the financial and operational decision-making process. The Company recognizes its interest in the joint operation using the proportional consolidation method. In addition, it combines the proportional amount of each asset, liabilities, income and expenses of joint operations with similar items line by line in its consolidated quarterly financial information. The joint operations quarterly financial information are prepared for the same period and under the same accounting criteria adopted by the Company.

The main lines of Bartira’s condensed quarterly financial information are shown below, it should be noted that the Company proportionately consolidates 25% of Bartira:

5. Standards issued but not yet effective

Standards issued but not yet effective up to the date of the issuance of the Company's quarterly financial information include the following standards and interpretations issued which the Company reasonably expects to have an impact on the disclosures, financial position or performance to be applicable at a future date. The Company intends to adopt those standards when they become effective:

IFRS 9 – Financial instruments - classification and measurement - IFRS 9 concludes the first part of the replacement project of "IAS 39 Financial Instruments: Recognition and Measurement". IFRS 9 uses a simple approach to determine if a financial asset is measured at the amortized cost or fair value, based on the way how an entity administers its financial instruments (its business model) and the contractual cash flow, which is a characteristic of the financial assets. The standard also requires the adoption of only one method to determinate asset impairment. The standard will be effective for annual periods beginning on January 1st. 2015, and the Company does not expect any significant impact as a result of the adoption

IASB issued clarifications on the IFRS rules and amendments. Follow, the main amendment as follow:

- IAS 32 – Financial instrument: Presentation -adds guidance on offsetting financial assets and financial liabilities whose amendment is effective for annual periods beginning on or after January 1, 2014,

Edgar Filing: BRAZILIAN DISTRIBUTION CO COMPANHIA BRASILEIRA DE DISTR CBD - Form 6-K
and the Company does not expect any significant impact as a result of the adoption.

There are no other rules or interpretations issued that have not been adopted yet that according to the Management's opinion, may adversely affect the Company's income (loss) or shareholders' equity.

6. Significant accounting judgments, estimates and assumptions

Judgments, estimates and assumptions

The preparation of the Company's individual and consolidated quarterly financial information requires Management to make judgments, estimates and assumptions that impact the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the period, however, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability impacted in future periods. In the process of applying the Company's accounting policies, Management has made the following judgments, which have the most significant impact in the amounts recognized in the individual and consolidated quarterly financial information:

a) Financial lease commitments – company as lessee

The Company has entered into commercial property leasing agreements in its leased property portfolio and, based on an evaluation of the terms and of conditions of the arrangements, that it retains all the significant risks and of rewards of ownership of these properties and recorded the agreements as financial lease.

b) Impairment

Method as disclosed in Note 4 (i) at December 31, 2012 the Company made test to verify that the assets might not have been recoverable for the year then ended, not identifying amounts to be provisioned. On March 31, 2013 were not identified evidence or facts to justify a reassessment.

c) Income taxes

Given the nature and complexity of Company's business, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could result in future adjustments to income tax and expense already recorded. The Company and its subsidiaries establish provisions, based on reasonable estimates, for eventual consequences of audits by the tax authorities. The amount of such provisions is based on various factors, such as experience of previous tax audits and different

interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective entity's domicile.

Deferred income and the social contribution tax assets are recognized for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant Management judgment is required to determine the amount of deferred income and the social contribution tax assets that can be recognized, based upon the profit estimates and the level of future taxable profits, based on the business plan approved by the Board of Directors.

The Company and its subsidiaries have tax losses amounting to a tax benefit of R\$790,968 at March 31, 2013 (R\$796,771 in December 31, 2012). These losses do not have limitation periods, but its use as defined by law is limited to 30% of taxable income for each year, and relate to the Company and its subsidiaries that have tax planning opportunities available to support these balances.

Further details on taxes are disclosed in the Note 22.

d) Fair value of derivatives and other financial instruments

Where the fair value of financial assets and financial liabilities recorded in the quarterly financial information cannot be derived from active markets, it is determined according to the hierarchy set by technical pronouncement CPC 38 (IAS39), that certain valuation techniques are determined, including the discounted cash flow model. The inputs to these models are taken, where possible, from observable markets or information about comparable operations and transactions on the market. The judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

d) Fair value of derivatives and other financial instruments -- Continued

The fair value of financial instruments that are actively traded on organized markets is determined based on the market quotes, on the balance sheet dates, without any deduction for transaction costs. For financial instruments that are not actively traded, the fair value is based on valuation techniques defined by the Company and compatible with usual practices on the market. These techniques include the use of recent market arm's length transactions, notional to the fair value of similar financial instruments, analysis of discounted cash flows or other valuation models.

When the fair value of financial assets and liabilities recorded in the balance sheet cannot be observed in active markets, it is determined by valuation techniques, including the discounted cash flow method. These methods inputs are collected from the market, where applicable. When these observations are not possible, judgment is required to determine the fair value. This judgment includes considerations of inputs, such as: liquidity risk, credit risk and volatility. Changes in these factors assumptions may affect the fair value of the financial instruments.

e) Share-based payments

The Company measures the costs of transactions to eligible employees to remuneration based on the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the stock option, volatility and dividend yield and making assumptions about them. The assumptions and models used for estimating fair value for share-based payment transactions are disclosed in the Note 27 f).

f) Provision for legal demands

The Company and its subsidiaries are party to various legal and administrative proceedings, see note 24. Provisions for legal demands are recognized for all causes representing estimated probable losses with a degree of reasonableness. The assessment of the probability of loss includes assessing the available evidence, the hierarchy of laws, jurisprudence available, the most recent court decisions and their legal significance, as well as the evaluation of outside counsel. The Company's management believes that the reserves for litigation tax, civil and labor are adequately presented in the parent company and consolidated quarterly financial information.

a) Credit card companies

Credit card sales are receivable from the credit card management companies. In the subsidiaries Via Varejo, NCB and Nova Pontocom, credit card payments related to the sale of goods and services are receivable in installments of up to 24 months, subsidiaries sell these receivables to banks or credit card companies without recourse or obligation related to obtaining working capital.

In view of the restructuring of receivables funds previously used for credit assignment of accounts receivable with credit cards, which are described in note 10, in the three months ended March 31, 2013, the Company and its subsidiaries sold its receivables from credit card issuers in the amount of R\$6,460,415 operators or banks directly, without any right of recourse or obligation related. The average rate used for these sales transactions was 108.5% of CDI.

b) Consumer finance – CDCI – Via Varejo

Refers to direct consumer credit through an intervening party (CDCI), which can be paid in up to 24 installments, however, are substantially less than 12 months.

The Company maintains agreements with financial institutions where it is referred to as the intervening party of these operations, (see Note 19).

c) Adjustment to present value

The discount rate used by the subsidiary Via Varejo, operations banner "Casas Bahia" considers current market valuations of the time value of money and the asset's specific risks. Credit sales with the same cash value were carried to their present value on the transaction date, in view of their terms, adopting the monthly average rate of receivables anticipation with credit card companies. In the period of three months ended March 31, 2013 these rates averaged 0.60% per month (0.72% per month at December 31, 2012).

d) Allowance for doubtful accounts

The allowance for doubtful accounts is based on average historical losses complemented by Company's estimates of probable future losses:

a) Accounts receivable – Paes Mendonça

Accounts receivable from Paes Mendonça relate to amounts deriving from the payment of third-party liabilities by the subsidiaries Novasoc and Sendas. Pursuant to contractual provisions, these trade accounts receivable are monetarily restated (General Market Price Index – IGP-M) and guaranteed by commercial lease rights (“Commercial rights”) of certain stores currently operated by the Company, Novasoc and Sendas. The maturity of the trade accounts receivable is linked to the lease agreements, which expire in 2014.

10. Receivables securitization fund -- continued

In order to change its policy of sales of receivables, the Company negotiated changes to its receivables funds, as follows:

a) PAFIDC: There was a change in the bylaw of PAFIDC approved at the General Meeting of Shareholders of December 21, 2012, in which the Company no longer has interest or obligation to the Fund. The Fund had its name changed to denominate Multicredit FIDC and no longer holds, exclusively, GPA receivables.

Therefore, as GPA no longer has any interest in the current FIDC and has no obligation to absorb any of the expected risks of the fund's assets, the Fund ceased to be consolidated on December 26, 2012.

b) Globex FIDC: The operations of discounted receivables by credit card through the Globex FIDC were closed on December 14, 2012, in mutual agreement with the senior quotaholders.

Thus, the senior quotas were paid to quotaholders by the fund and on December 31, 2012, remained in the fund balance of cash and obligations in counterpart to subordinated quotas that had been completely redeemed, thus completing the process of liquidation of the Fund during the first quarter of 2013.

With this restructuring Via Varejo began carrying out the operation of discount of the receivables, as described in note 8 a).

At the end of the period	(4,922)	(8,141)	(43,612)	(53,126)

c) Present value adjustment – Via Varejo

The adjustment to present value of inventories refers to the corresponding entry of the adjustment to present value of the trade accounts payable of the subsidiary NCB. For the Company and other subsidiaries, Management did not record the present value adjustment since the operations are short term and it considers the effect of said adjustments to be irrelevant when compared to the financial statements taken as a whole.

d) Inventories of real estate units under construction

The amount of inventories of real estate units under construction refers to the fair value of the barter of land for real estate units.

14. Investments -- Continued

(i) Surplus value of investment held in Bartira

It refers to the measurement of the investment currently held by Via Varejo of 25% of Bartira's capital stock at fair value by the income approach, considering the present value of directly or indirectly generated future benefits assessed and quantified in the form of cash flow. The asset was recognized at the time of the business combination between CB and Casa Bahia.

This asset was subject to impairment testing under the same calculation criteria of goodwill on investments; therefore, it is not necessary to record a provision for impairment.

(ii) *FIC*

Acquisition of Rede Duque

Context of the operation

In 2009, the Company signed an Agreement for Outsourcing Management ("Management Agreement") with Rede Duque for a 20-year term, whereby the Company would conduct the operational and financial management of 39 Rede Duque gas stations through its subsidiary Vancouver Empreendimentos e Participações Ltda. ("Vancouver"), in exchange for payment based on these gas stations' results.

Acquisition of Rede Duque -- Continued

On May 28, 2012, the Management Agreement was terminated and, as part of the termination, pursuant to the Agreement for Share Purchase and Other Covenants, Vancouver acquired all the shares of five gas stations ("Acquired Gas Stations") and established a partnership with Rede Duque in three other gas stations through the acquisition of shares representing 95% of their capital stock ("Partnership Gas Stations"), with a subsequent call option to be exercised by Rede Duque ("Call and Put Option Agreement").

i) Acquisition of the five gas stations

Through the Agreement for Share Purchase, the Company acquired all the shares of six companies that were part of Rede Duque and operated five gas stations (one of the companies operates a convenience store in one of the acquired gas stations), with monthly net revenue since the acquisition of R\$25,686 and loss of R\$1,299.

Determination of the consideration transferred for the acquisition of five Rede Duque gas stations

Under the Management Agreement, the Company and Vancouver had prepaid R\$30,000 for the use of GPA brands in the gas stations and exclusive management of the gas stations. The release of this amount was subject to certain events. This amount was used as part payment for the acquisition of the Acquired Gas Stations, plus an additional payment of R\$10,000, for a total purchase price of R\$40,000.

Provisional identification of the fair value of identifiable acquired assets and liabilities

The Company provisionally identified the fair value of identifiable assets and liabilities acquired from Rede Duque on the business combination date and the acquired entities' net assets total R\$3,129.

Goodwill resulting from the acquisition

As a result of: (i) the measurement of the total consideration transferred due to the acquisition of control of the Acquired Gas Stations, and (ii) the provisional measurement of the identifiable assets and liabilities at fair value, goodwill totaled R\$38,702. The Company will complete the allocation of the purchase price by identifying the intangible assets acquired by May 28, 2013.

ii) Partnership of the three gas stations

Through the Debt Assumption Agreement, entered into on the same date between Company, Vancouver and Rede Duque, Vancouver assumed Rede Duque's bank debts in the amount of R\$50,000. On the same date, the parties entered into an Agreement for Share Purchase, whereby Vancouver acquired approximately 95% of the shares of the Partnership Gas Stations, which operated three gas stations with net revenue of approximately R\$3,500, upon assignment of part of Vancouver's receivables from Rede Duque, acquired as a result of said debt assumption. The acquired gas stations will continue to be managed by Rede Duque, and the Company will have protective vetoes.

ii) Partnership of the three gas stations -- Continued

Also through the agreement, a Call and Put Option Agreement was executed whereby Vancouver granted Rede Duque an option to purchase its shares of the capital of the Partnership Gas Stations, exercisable in one year, for R\$50,000, restated at 110% of CDI and payable in 240 monthly installments. The Company also has a put option, whereby it may demand that Rede Duque purchase its shares under the same terms above if the call option is not exercised.

If the call and put options expire, Vancouver will be able to acquire the shares of the Partnership Gas Stations' capital owned by Rede Duque for one Real (R\$1) plus dividends for the one-year partnership period.

The amount of R\$53,230 is recorded as a financial instrument at its realization amount, which is the fair value of the interest in the partnership gas stations.

c) Impairment testing of goodwill and intangible assets

The goodwill and intangible assets are annually tested for impairment as of December 31, 2012 according to the method described in note 4 - Significant accounting policies, in the financial statements of December 31, 2012, released on February 19, 2013.

As a result of the impairment tests conducted in 2011, and because no evidence of non-recovery in March 31, 2013, the Company did not recognize losses for impairment.

For the year ending December 31, 2013, Company's Management will perform impairment tests for all goodwill and intangible assets recognized until this date.

The credit line agreements denominated in Brazilian local currency with the Brazilian Development Bank (BNDES) are subject to the indexation based on the long-term interest rate - TJLP, plus remuneration rates and the funding cost, to reflect the BNDES' funding portfolio. Financing is paid in monthly installments after a grace period, as mentioned in the table above.

The Company cannot offer any assets as collateral for loans to other parties without the BNDES' prior consent and it must comply with certain financial debt covenants, calculated based on the consolidated balance sheet, as follows: (i) maintenance of a capitalization ratio (equity/total assets) equal to or greater than 0.30 and (ii) EBITDA/net debt equal to or greater than 0.35. The Company controls and monitors these ratios.

At March 31, 2013, the Company was in compliance with the aforementioned clauses.

f) Guarantees

The Company signed promissory notes and letters of guarantee as collateral to the loans and financings obtained from BNDES and IBM at amount R\$33,500.

g) Swap contracts

The Company uses swap operations to exchange liabilities denominated in U.S. dollars and fixed interest rates for Real pegged to CDI floating interest rates. The Company contracts swap operations with the same counterparty, currency and interest rate. All these transactions are classified as hedge accounting, as disclosed in note 20. The CDI annual benchmark rate at March 31, 2013 was 7.51% (8.40% at December 31, 2012).

GPA uses the issue of debentures to strengthen its working capital, maintain its cash strategy, lengthen its debt profile and make investments. The debentures issued are unsecured and not convertible into shares, except for the debentures issued by the subsidiaries, which are guaranteed by the Company.

These debentures are amortized according to the issue. The methods of amortization are as follows: (i) payment only at maturity (including all series of Nova Pontocom and the 9th issue of CBD), (ii) payment only at maturity with annual remuneration (10th issue of CBD), (iii) payment only at maturity with semiannual remuneration (11th issue of GPA, 3rd issue of Via Varejo and 1st issue of NCB) incorporated by Via Varejo, (iv) annual installments (6th series of CBD) and semiannual payments as of the 4th anniversary of the issue, (v) semiannual payments and remuneration as of the third anniversary of the issue (8th issue of CBD).

The 8th, 9th, 10th and 11th issues are entitled to early redemption, at any time, in accordance with the conditions established in the issue. The 6th and 3rd issues of Via Varejo can only be redeemed after 18 months. NCB, incorporated by Via Varejo, and Nova Pontocom issues are not eligible for early redemption.

GPA is required to maintain certain debt financial covenants in connection with the issues made, except in the case of Nova Pontocom. These ratios are calculated based on consolidated financial statements of the Company prepared in accordance with accounting practices adopted in Brazil, in the respective issuing of Company as follows: (i) net debt (debt minus cash and cash equivalents and trade accounts receivable) not greater than equity, (ii) consolidated net debt / EBITDA ration lower than or equal to 3.25 (effective on March 31, 2013 was 0.20). At March 31, 2013, GPA was in compliance with these ratios.

Notes to the interim financial statements -- Continued

March 31, 2013

(In thousands of Brazilian reais, except when otherwise stated)

20. Financial instruments –Continued

The fair value of other financial instruments described in Note 20 (b) allows an approximation of the carrying amount based on the existing payment conditions. The hierarchy classification of assets and liabilities at fair value is described in note 20 (c).

a) Considerations on risk factors that may affect the business of the Company and its subsidiaries

The Company adopts risk control policies and procedures, as outlined below:

(i) *Credit risk*

- Cash and cash equivalents: in order to minimize credit risk of these investments, the Company adopts policies restricting the marketable securities to be allocated to a single financial institution, also taking into consideration monetary limits and financial institution evaluations, which are frequently updated (See Note 7).

- Accounts receivable: the Company sells directly to individual customers through post-dated checks, in a very small portion of sales, 0.05% at March 31, 2013 (0.10% at December 31, 2012).
- The Company also has counterparty risk related to the derivative instruments; such risk is mitigated by the Company's policy of carrying out transactions with major financial institutions.

(ii) *Interest rate risk*

The Company and its subsidiaries raise loans and financing with major financial institutions for cash needs for investments and growth. As a result, the Company and its subsidiaries are exposed to relevant interest rates fluctuation risk, especially in view of derivatives liabilities (foreign currency exposure hedge) and CDI-pegged debt. The balance of cash and cash equivalents, indexed to CDI, partially offsets this effect.

(iii) *Exchange rate risk*

The Company and its subsidiaries are exposed to exchange rate fluctuations, which may increase outstanding balances of foreign currency-denominated loans. The Company and its subsidiaries use derivatives, such as swaps, with a view to mitigating the exchange exposure risk, transforming the cost of debt into currency and domestic interest rates.

(iv) *Capital risk management*

The main objective of the Company's capital management is to ensure that the Company sustains its credit rating and a well-defined equity ratio, so that to support businesses and maximize shareholder value. The Company manages the capital structure and makes adjustments taking into account changes in the economic conditions.

There were no changes as to objectives, policies or processes during the period of three months ended at March 31, 2013.

Shareholders' and net debt	12,639,066	11,926,582	15,525,848	14,473,954

(v) *Liquidity management risk*

The Company manages liquidity risk through the daily follow-up of cash flows, control of financial assets and liabilities maturities and a close relationship with main financial institutions.

The table below summarizes the aging profile of financial liabilities of the Company on March 31, 2013 and December 31, 2012:

(vi) *Derivative financial instruments*

Certain operations are classified as fair value hedge, whose objective is to hedge against foreign exchange exposure (U.S. dollars) and fixed interest rates, converting the debt into domestic interest rates and currency.

On March 31, 2013 the reference value of these contracts were R\$1,144,050 (R\$1,144,050 on December 31, 2012). These operations are usually contracted under the same terms of amounts, maturities and fees, and preferably carried out with the same financial institution, observing the limits set by Management.

20. Financial instruments –Continued

a) Considerations on risk factors that may affect the business of the Company and its subsidiaries - Continued

(vi) *Derivative financial instruments* – Continued

The Company's derivatives contracted before December 31, 2008 are measured at fair value through profit or loss, including: (i) "swap" agreements of foreign currency-denominated debts (U.S. dollars), to convert from fixed interest rates and foreign currencies to Brazilian Reais and domestic variable interest rates (CDI). There is no balance at March 31, 2013 (R\$259,883 at December 31, 2012) and (ii) are primarily related to debentures, swapping variable domestic interest rates plus fixed interest rates with variable interest rates (CDI).

According to the Company's treasury policies, swaps cannot be contracted with restrictions ("caps"), margins, as well as return clauses, double index, flexible options or any other types of transactions different from traditional "swap" operations to hedge against debts, including for speculative purposes.

The Company's internal controls were designed so that to ensure that transactions are conducted in compliance with this treasury policy.

The Company calculates the effectiveness of operations and hedge accounting is applied on inception date and on continuing basis. Hedges designated transactions contracted in the period ended of March 31, 2013 were effective in relation to the covered risk. For derivative transactions qualified as hedge accounting, according to CPC 38 (IAS 39), the debt is also adjusted at fair value according to the fair value hedge standards.

Fair value "hedge" effects through profit or loss for the period of three months ended March 31, 2013 were a loss of R\$3,563 (and loss of R\$74,451 at March 31, 2012).

(vii) *Fair values of derivative financial instruments*

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Fair values are calculated by projecting the future cash flows of operations, using the curves of CDI and discounting them to present value, using CDI market rates for swaps both disclosed by BM&F Bovespa.

The market value of exchange coupon swaps versus CDI rate was obtained applying market exchange rates effective on the date the financial statements are drawn up and rates are projected by the market calculated based on currency coupon curves. In order to calculate the coupon of foreign currency indexed-positions, the straight-line convention - 360 consecutive days was adopted and to calculate the coupon of CDI indexed-positions, the exponential convention - 252 business days was adopted.

b) Sensitivity analysis of financial instruments

The sensitivity analysis, was developed for each type of market risk deemed as relevant by Management, to which the entity is exposed at the closing date of each period.

According to the Management's assessment, the most probable scenario is what the market has been estimating through market curves (currency and interest rates) of BM&FBovespa, on the maturity dates of each operation. Therefore, in the probable scenario (I), there is no impact on the fair value of financial instruments already mentioned above. For scenarios (II) and (III), for the sensitivity analysis effect, a deterioration of 25% and 50% was taken into account, respectively, on risk variables, up to the maturity date of the financial instruments.

In order to calculate the fair value, debts and "swaps" are measured through rates disclosed in the financial market and projected up to their maturity date. The discount rate calculated through the interpolation method of foreign currency-denominated loans is developed through DDI curves, Clean Coupon and DI x Yen, indexes disclosed by BM&FBovespa (Securities, Commodities and Futures Exchange), and DI curve is used in domestic currency-denominated loans, an index published by CETIP and calculated through the exponential interpolation method.

In case of derivative financial instruments (aiming at hedging the financial debt), changes in scenarios are accompanied by respective hedges, indicating effects are not significant, see item b (ii).

The Company disclosed the net exposure of the derivatives financial instruments, corresponding financial instruments and certain financial instruments in the sensitivity analysis chart below, for each of the scenarios mentioned:

(i) *Fair value “hedge” (at maturity dates)*

c) Taxes

Tax claims are indexed, by law, by monthly restatement, which refers to an adjustment in the amount of provisions for contingencies in accordance with the indexed rates used by each tax jurisdiction. In all cases, both the interest charges as fines, when applicable, were computed and fully provisioned with respect to unpaid amounts.

The main provisioned tax claims are as follows:

COFINS and PIS

With the non-cumulativeness treatment when calculating PIS and COFINS, the Company and its subsidiaries are discussing at court the right to exclude the ICMS from the calculation basis of these two contributions.

In addition, a subsidiary of the Company offset tax debts from PIS and COFINS with excise tax - IPI credits – inputs credits subject to a zero rate or exempted - acquired from third parties (transferred based on final and unappealable court decision). The claims amounts of PIS and COFINS at March 31, 2013 is R\$88,464 (R\$86,557 at December 31, 2012).

Taxes and other

The Company and its subsidiaries have other tax claims, which after analysis of its legal counsels, were deemed as probable losses and accrued by the Company. These are: (i) tax assessment notices related to purchase, industrialization and sale of soybean and byproducts exports (PIS, COFINS and IRPJ); (ii) disagreement on the non-application of Accident Prevention Factor - FAP for 2011; (iii) disagreement on the “Fundo de Combate à Pobreza” (State Government Fund Against Poverty), enacted by the Rio de Janeiro State government; (iv) disagreement on tax losses carryforward, as well as suppliers contracted considered disqualified before the registration of the State Internal Revenue Service, error when applying rate, ancillary obligations by state tax authorities (v) other less relevant issues. The amount recorded at March 31, 2013 is R\$176,811 (R\$173,687 on December 31, 2012).

In addition, the Company discusses in court the eligibility to not pay the contributions provided for by Supplementary Law 110/01, referring to the FGTS (Government Severance Indemnity Fund for Employees) costs. The accrued amount at March 31, 2013 is R\$33,519 (R\$31,529 at December 31, 2012).

Others

Provisions for tax contingent liabilities were recorded in Via Varejo subsidiary, which upon business combinations are recorded, under CPC 15 (IFRS 3). At March 31, 2013, the amount recorded was R\$160,201 (R\$158,866 at December 31, 2012) in tax contingent liabilities.

Main tax contingent liabilities recorded refer to administrative proceedings related to the offset of PIS contribution, under the protection of Decrees 2445/88 and 2449/88, generated in view of credits deriving from legal proceedings and the offset of tax debts with contribution credits levied on coffee exports.

d) Labor

The Company is party to numerous lawsuits involving disputes with its employees, primarily arising from layoffs in the ordinary course of business. At March 31, 2013, the Company recorded a provision of R\$186,400 (R\$177,698 at December 31, 2012) referring to lawsuits whose risk of loss was considered probable. Management, assisted by its legal counsels, evaluates these claims recording provision for losses when reasonably estimable, bearing in mind previous experiences in relation to the amounts claimed. Labor claims are indexed to the benchmark interest rate (“TR”) 0.10% accrued at March 31, 2013 (0.29% at December 31, 2012) plus 1% monthly interest rates.

Labor provisions were recorded in Via Varejo subsidiary referring to contingent liabilities recognized upon business combination amounting to R\$12,654 at March 31, 2013 (R\$13,138 at December 31, 2012).

e) Civil and other

The Company is defendant in civil actions, at several court levels (indemnifications, collections, among others) and at different courthouses. The Company's Management sets up provisions in amounts considered sufficient to cover unfavorable court decisions when its internal and external legal advisors consider losses to be probable.

Among these lawsuits, we point out the following:

- The Company files and answers various lawsuits in which it requests the renewals of lease agreements and the review of the lease paid. The Company recognizes a provision for the difference between the amount originally paid by the stores and the amounts pleaded by the adverse party (owner of the property) in the lawsuit, when internal and external legal advisors agree on the likelihood of changing the lease paid by the entity. At March 31, 2013, the amount accrued for these lawsuits is R\$38,649 (R\$36,112 at December 31, 2012), to which there are no escrow deposits;
- The subsidiary Via Varejo is party to lawsuits involving the consumer relations rights (civil actions and assessments from PROCON) and few lawsuits involving contracts terminated with suppliers and the amount referred to in these lawsuits totals R\$43,347 at March 31, 2013 (R\$43,769 at December 31, 2012);

Total civil actions and other at March 31, 2013 is R\$136,461 (R\$132,886 at December 31, 2012).

f) Other non-accrued contingent liabilities

The Company has other litigations which have been analyzed by the legal counsels and deemed as possible but not probable; therefore, they have not been accrued, amounting to R\$7,325,274 at March 31, 2013 (R\$7,451,912 at December 31, 2012), and are mainly related to:

- INSS (Social Security Tax) – the Company was assessed regarding the non-levy of payroll charges on benefits granted to its employees, and the loss, considered possible, corresponds to R\$288,941 at March 31, 2013 (R\$283,245 at December 31, 2012). The proceedings are under administrative and court discussion;
- IRPJ, individual income tax - IRRF, CSLL, tax on financial transactions - IOF, tax at source on net income ILL, IPI – the Company has several assessment notices regarding offsetting proceedings, rules on the deductibility of provisions and payment discrepancies and overpayments; fine due to failure to comply with ancillary obligation, amongst other less significant taxes. These proceedings await decision in the administrative and court level. The amount involved in these assessments corresponds to R\$801,574 at March 31, 2013 (R\$783,305 at December 31, 2012);

In the 4th quarter of 2012, the Company became aware of delinquency notice drawn up by Internal Revenue Agency to the collection of differences in the payment of income tax, allegedly due in respect of the calendar years 2007 to 2009, under the allegation that there was improper deduction of goodwill amortization duly payable and arising from transactions between shareholders Casino and Abilio Diniz. The Company filed defense at the administrative level and is awaiting a decision. No provision was made for this case, since the evaluation of the Company's legal advisors, the chances of loss are classified partly as possible is R\$303,920 at March 31, 2013 (R\$300,800 on December 31, 2012) and partly as a remote.

- COFINS, PIS and provisional contribution on financial transactions - CPMF – the Company has been challenged for offsetting, collection of taxes on soybean export operations, tax payment discrepancies and overpayments; fine due to failure to comply with ancillary obligation, among other less significant taxes. These proceedings await decision in the administrative and court level. The amount involved in these assessments is R\$1,100,559 at March 31, 2013 (R\$1,076,782 at December 31, 2012);

(a) Refers to contracts rents receivable from commercial galleries.

At October 3, 2005, the Company sold 60 properties (28 Extra hypermarkets and 32 Pão de Açúcar supermarkets), to the Península Fund (controlled by Diniz Group) which were leased back to the Company for a 25-year period, and may be renewed for two further consecutive periods of 10 years each. As a result of this sale, the Company paid R\$25,517, at the inception date of the store lease agreement, as an initial fee for entering into a long term contract. The initial fee was recorded in deferred charges and has been amortized through the lease agreement of the related stores.

Pursuant to the agreement of this transaction, the Company and Casino Group received a “golden share”, which provided to both veto rights that ensure the properties are used by the parties intend for the term of the lease agreement.

The Company is permitted to rescind the lease agreement, paying a penalty of 10% of the remaining rents limited to 12 months.

26. Deferred Revenue

The subsidiaries Via Varejo and NCB received in advance values of trading partners on exclusivity in the intermediation services or additional/extended warranties, and subsidiary Barcelona received in advance values for the rental of shelves and light panel (Back lights) for exhibition of products from their suppliers.

27. Shareholders' Equity

a) Capital stock

The subscribed and paid-up capital is represented by 263,451 at March 31, 2013 (263,410 at December 31, 2012) in thousands of registered shares with no par value, of which 99,680 in thousands of common shares at March 31, 2013 and December 31, 2012, and 163,771 in thousands of preferred shares at March 31, 2013 (163,730 at December 31, 2012).

The Company is authorized to increase its capital stock up to the limit of 400,000 (in thousands of shares), regardless of the amendment to the Company's Bylaws, by resolution of the Board of Directors, which will establish the issue conditions.

In the period of three month ended of March 31, 2013 the Company increased the capital in 41 thousand preferred shares resulting from the exercise of stock options, as follows:

- At the Board of Directors' Meeting held at February 19, 2013, the capital was increased by R\$1,088 by means of the issue of 41 thousand preferred shares.

b) Share rights

Preferred shares (“PNA”) are non-voting and entitle the following rights and advantages to its holders: (i) priority in the reimbursement of capital should the Company be liquidated; (ii) priority in the receipt of a non-cumulative annual minimum dividend of R\$0.08 per share; (iii) right to receive a dividend 10% greater than the dividend attributed to common shares, including the preferred dividend paid pursuant to item (ii) above for the purposes of calculating the respective amount.

c) Capital reserve – special goodwill reserve

This reserve was generated by the corporate restructuring realized in 2006, and consisted of merging the former holding company, resulting in deferred income tax assets savings of R\$103,398, and represents the future tax benefit through the amortization of incorporated goodwill. The special goodwill reserve corresponding to the benefit already received shall be capitalized at the end of each year to the benefit of controlling shareholders, with the issue of new shares.

The capital increase is subject to the preemptive right of non-controlling shareholders, according to each one's interest by type and class of share at the time of issue, and the amounts paid by non-controlling shareholders will be directly delivered to the controlling shareholder.

At the Extraordinary Shareholders' Meeting held at April 27, 2012, the shareholders approved to increase the Company's capital, in the amount of R\$200,905, by capitalizing the special goodwill reserve. Out of this amount, R\$40,180 were capitalized without issuing new shares and R\$160,725 were capitalized to the benefit of Wilkes Participações S.A., pursuant Article 7º of Instruction nº 319/99 of CVM.

d) Granted options

The “options granted” account recognizes the effects of the Company’s executives’ share-based payments under CPC 10 (IFRS 2) – Share-based payment.

e) Profit reserve

(i) *Legal reserve*: is formed based on appropriations of 5% of net income of each year, limited to 20% of the capital.

(ii) *Expansion reserve*: is formed based on appropriations of the amount determined by shareholders to reserve funds to finance additional capital investments and working and current capital through the allocation of up to 100% of the net income remaining after the appropriations determined by law and supported by capital budget, approved at shareholders’ meeting.

f) Stock option plan for preferred shares

(i) *Stock option plan for preferred shares*

Pursuant to the resolutions at the Extraordinary Shareholders' Meeting, held at December 20, 2006, the Company's Stock Option Plan was approved.

Starting on 2007, the grants of stock options to Management and employees, were made following the rules below:

Options will be classified as follows: "Silver" and "Gold", and the quantity of Gold-type options may be decreased and/or increased (reducer or accelerator), at the discretion of the Plan Management Committee, in the course of 36 months following the granting date.

The exercise price for the Silver-type option will correspond to the average of closing price of the Company preferred shares occurred over the last 20 trading sessions of BM&F BOVESPA, prior to the date on which the Committee resolves on the granting of option, with a 20% discount. The price for the Gold-type option will correspond to R\$0.01 and the granting of these options are additional to the Silver options, the granting or the exercise of "Gold" options is not possible separately. In both cases, the prices will not be restated.

The Silver and Gold options shall be effective as of the date of the respective agreement. The number of shares resulting from the Silver option is fixed (established in the agreement). The number of shares resulting from the Gold option is variable, establishing on the granting date a number of shares that may be increased or decreased, according to the return on invested capital - ROIC verified at the end of the 36th month as of the granting date. In accordance with item 3.3 of the Plan, the Committee decided that, from the Series A6, including the reducing or increasing the amount of options such as "Gold" will be determined based on the compliance with Return on Capital Employed - ROCE of CBD.

(i) *Stock option plan for preferred shares* - Continued

As a general rule of the Stock Option Plan, which can be changed by the Committee of Stock Option in each series, the exercise of the option will occur from the 36th month until the 48th months as of the signature date of respective adhesion agreement, the employee will be entitled to acquire 100% of the shares whose option was classified as "Silver". The exercise of options classified as "Gold" will occur in the same year, but the percentage of these options subject to performance is determined by the Stock Option Committee, on the 35th month as of the signature date of the respective adhesion agreement.

The options granted under the Stock Option Plan may be exercised in whole or in part. It is worth noting that "Gold" options are additional to "Silver" and thus the "Gold" options may only be exercised jointly with "Silver" options.

The price on the exercise of options granted under the Stock Option Plan shall be fully paid in local currency by employee, and the exercise price must be paid in one installment, due after 30 days after the date of subscription of their shares.

At the Board of Directors' Meeting held at February 19, 2013, the increase of the global limit of shares allocated to the Company's General Stock Option Plan was approved, from 11,618 thousands preferred shares to 15,500 thousand preferred shares, an increase of 3,882 thousands new preferred shares.

According to the attributions provided for in the Stock Option Plan rules, the Management Committee of the Plan at March 30, 2011, approved that no reduction occurred and or acceleration referring to Series A2.

At March 31, 2013 there were 232,586 treasury preferred shares which may be used guarantee for the awards granted in the plan. The preferred share price at BM&F Bovespa was R\$106.81 per share.

(ii) Consolidated information on the stock option plans – GPA

The chart below show the maximum percentage of interest dilution to which current shareholders will eventually be subject to in the event of exercise 2012 of all options granted:

	03.31.2013	12.31.2012
Number of shares	263,451	263,410
Balance of granted series in effect	2,311	1,658
Maximum percentage of dilution	0.88%	0.63%

The fair value of each option granted is estimated on the granting date, by using the options pricing model “Black&Scholes” taking into account the following assumptions: (a) expectation of dividends of 0.88% (0.81% at December 31, 2012), (b) expectation of volatility of nearly 28.91% at March 31, 2013 (33.51% at December 31, 2012) and (c) the risk-free weighted average interest rate of 10.86% at March 31, 2013 (10.19% at December 31, 2012). The expectation of average remaining of the series outstanding at March 31, 2013 was 2.01 years (1.77 year at December 31, 2012). The weighted average fair value of options granted at March 31, 2013 was R\$59.26 (R\$51.19 at December 31, 2012).

32. Earnings per share

The Company computes earnings per share by dividing the net income pertaining to each class of share by the weighted average of the respective class of shares outstanding during the year.

Equity instruments that will or may be settled in Company's shares are included in the calculation only when their settlement has a dilutive impact on earnings per share.

The Company granted a share-based compensation plan to its employees (See Note 27), whose dilutive effects are reflected in diluted earnings per share by applying the "treasury share" method.

When the stock option exercise price is greater than the average market price of the preferred shares, diluted earnings per share are not affected by the stock options.

As of 2003, preferred shares are entitled to a dividend 10% greater than that distributed to the common shares. As such earnings may be capitalized or otherwise appropriated, there can be no assurance that preferred shareholders will receive the 10% premium referred to above, unless earnings are fully distributed.

The earnings per share are calculated as if options were exercised at the beginning of the period, or at time of issuance, if later, and as if the funds received were used to purchase the Company's own shares.

The following table presents the determination of net income available to common and preferred shareholders and weighted average of common and preferred shares outstanding used to calculate basic and diluted earnings per share for each of the period reported:

35. Segment information - Continued

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating income and is measured consistently with operating income in the financial statements. GPA financing (including financial costs and financial income) and the income taxes are managed on a segment basis.

The Company is engaged in operations of retail stores located in 19 states and the Federal District of Brazil. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker who has been identified as the Chief Executive Officer.

The chief operating decision-maker allocates resources and assesses performance by reviewing results and other information related to four segments.

The Company measures the results of segments using the accounting practices adopted in Brazil (IFRS), among other measures, each segment's operating profit, which includes certain corporate overhead allocations. At times, the Company revises the measurement of each segment's operating profit, including any corporate overhead allocations, as dictated by the information regularly reviewed by the chief operating decision-maker. When revisions are made, the operating results of each segment affected by the revisions are restated for all years presented to maintain comparability. Information about our segments is included

Reports and Statements/Officers Statement on the Independent Auditors' Report

(Convenience Translation into English from the Original Previously Issued in Portuguese)

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia Brasileira de Distribuição

São Paulo - SP

Introduction

We have reviewed the accompanying individual and consolidated interim financial information of Companhia Brasileira de Distribuição (the "Company"), included in the Interim Financial Information Form (ITR), for the quarter ended March 31, 2013, which comprises the balance sheet as of March 31, 2013 and the related statements of income, comprehensive income, changes in shareholders' equity and cash flows for the three-month period then ended, including the footnotes.

The Company's Management is responsible for the preparation of the individual interim financial information in accordance with technical pronouncement CPC 21(R1) - Interim Financial Information and the consolidated interim financial information in accordance with technical pronouncement CPC 21(R1) and the international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards established by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of the Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we

would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on individual interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying individual interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC21(R1), applicable to the preparation of the Interim Financial Information (ITR), and presented in accordance with the standards established by the CVM.

Reports and Statements/Officers Statement on the Independent Auditors' Report

Conclusion on consolidated interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim financial information included in the Interim Financial Information (ITR) referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21(R1) and IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards established by the CVM.

Other matters

Statements of value added

We have also reviewed the individual and consolidated statements of value added for the three-month period ended March 31, 2013, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, that do not require the presentation of these statements. These statements were subject to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, in relation to the individual and consolidated interim financial information taken as a whole.
