In 3Q14, net operating revenue, including construction revenue, reached R\$ 2.8 billion; a 1.8% increase compared to the same period of 2013.

Costs and expenses, including construction costs, totaled R\$ 2.3 billion, up 19.7% on the R\$ 1.9 billion recorded in 3Q13.

EBIT, in the amount of R\$ 499.2 million, dropped 40.1% from R\$ 833.6 million in 3Q13.

Adjusted EBITDA, in the amount of R\$ 742.4 million, dropped 28.8% from R\$ 1,042.0 million in 3Q13 (R\$ 2,419.9 million in the last 9 months and R\$ 3,551.7 million in the last 12 months).

The adjusted EBITDA margin was 26.3% in 3Q14, versus the 37.6% in 3Q13 (28.9% in the last 9 months and 31.0% in the last 12 months). Excluding construction revenues and construction costs, the adjusted EBITDA margin was 35.8% in 3Q14 (46.4% in 3Q13, 37.4% in the last 9 months and 40.1% in the last 12 months).

Net income totaled R\$ 91.5 million, 80.7% lower than the R\$ 475.0 million recorded in 3Q13.

Comments on the Company's Performance

2. Gross operating revenue

Gross operating revenue from water and sewage, not including construction revenue, totaled R\$ 2.2 billion, a drop of R\$ 227.6 million or 9.5%, when compared to the R\$ 2.4 billion recorded in 3Q13.

The main factors that led to this variation were:

- Decrease of 3.5% in the Company's total billed volume (4.6% in water and 2.0% in sewage);
- R\$ 22.7 million drop in estimated revenue due to the lower billing in the period; and
- Water Consumption Reduction Incentive Program, with a R\$ 127.2 million impact.

The decreases mentioned above were partially offset by the 3.1% tariff adjustment since December 2013.

3. Construction revenue

Construction revenue increased R\$ 248.3 million or 45.0%, when compared to 3Q13. The variation was mainly due to higher investments in 3Q14.

4. Billed volume

The following tables show the water and sewage billed volume, quarter-on-quarter, and year-on-year, per customer category and region.

5.1. Payroll and benefits

In 3Q14 payroll and benefits grew R\$ 46.8 million or 9.6%, from R\$ 489.1 million to R\$ 535.9 million, due to the following:

- R\$ 21.6 million increase due to the 6.8% increase in average wages since May 2014 and the changes from the career and wage plan carried out by the Company;
- R\$ 9.9 million increase in provisions, from the higher number of employees who are entitled to request retirement (TAC), in addition to the wage increase in the period;
- R\$ 3.9 million upturn in the provision for the Pension Plan, arising from changes in actuarial assumptions;
- R\$ 3.9 million increase in overtime pay, mainly due to wage adjustment in the period, and the higher number of hours worked; and
- R\$ 3.9 million increase in expenses related to the Profit Sharing Program, chiefly due to adjustments made in the period.

5.2. Supplies

In 3Q14, expenses with supplies increased R\$ 5.9 million or 12.1%, when compared to the same period of the previous year, from R\$ 48.8 million to R\$ 54.7 million, mostly due to:

- R\$ 4.6 million increase with fuel and lubricants, mainly due to the diesel used in generators installed to capture water from the technical reserve at the Cantareira System, in the amount of R\$ 3.5 million; and
- Higher use of materials for sewage network maintenance, chiefly at the municipality of Diadema, with a R\$ 1.0 million increase.

Comments on the Company's Performance

5.3. Treatment supplies

Treatment supplies expenses in 3Q14 were R\$ 2.0 million or 3.1% higher than in 3Q13, from R\$ 63.6 million to R\$ 65.6 million.

5.4. Services

Services, in the amount of R\$ 301.1 million, grew R\$ 16.1 million or 5.6%, in comparison to the R\$ 285.0 million in 3Q13. The main factors were:

- Advertising campaigns, in the amount of R\$ 8.1 million, mainly due to the intensification of the rational use of water campaign;
- Hiring of services, in the amount of R\$ 4.8 million, due to the beginning of operations in Diadema, in March of 2014, in the amount of R\$ 4.6 million; and
- Higher expenses with the Corporate Program for Reduction of Water Loss, in the amount of R\$ 3.0 million.

5.5. Electric power

This item totaled R\$ 156.3 million, an increase of R\$ 23.2 million or 17.4% in comparison to the R\$ 133.1 million in 3Q13, due to the average increase of 39.2% in free market tariffs and of 9.2% in regulated market.

5.6. General expenses

General expenses grew R\$ 53.6 million or 40.0%, totaling R\$ 187.6 million, versus the R\$ 134.0 million recorded in 3Q13.

This increase was mainly due to the increase in the provision for lawsuits related to civil (R\$ 26.6 million) and environmental (R\$ 18.3 million) contingencies.

5.7. Tax expenses

This item increased R\$ 6.9 million, due to increased tax expenses in 3Q14.

5.8. Depreciation and amortization

Depreciation and amortization increased R\$ 34.8 million or 16.7%, from the R\$ 208.4 million recorded in 3Q13, totaling R\$ 243.2 million, due to the beginning of operations of intangible assets, in the amount of R\$ 2.7 billion.

5.9. Credit write-offs

Credit write-offs dropped R\$ 49.3 million, chiefly due to the lower provision of losses with allowance for doubtful accounts.

7.1.1. Financial expenses

Financial expenses grew R\$ 13.0 million. The main reasons were:

- R\$ 16.4 million decrease in interest and charges on domestic loans and financing, mainly due to the higher interest capitalization occurred in 3Q14, versus 3Q13;
- R\$ 8.4 million increase in interest and charges on international loans and financing, due to the higher appreciation of the US Dollar and the Yen versus the Brazilian Real in 3Q14 (11.3% and 2.8%, respectively), in comparison to the appreciation recorded in 3Q13 (0.7% and 1.6%, respectively); and
- Other financial expenses increased R\$ 21.0 million, largely due to the higher provisions for legal expenses in 3Q14, in the amount of R\$ 8.9 million, and the greater recognition of interest arising from the entry into operation of two sewage treatment plants financed through leases, in the amount of R\$ 7.7 million.

7.2.1. Monetary/exchange rate variation on liabilities

The effect on the monetary/currency exchange variation on liabilities in 3Q14 was R\$ 239.5 million, higher than in 3Q13, especially due to the exchange rate variation on loans and financing, that increased R\$ 226.2 million, due to the higher appreciation of the US Dollar and the Yen versus the Brazilian Real in 3Q14 (11.3% and 2.8%, respectively), in comparison to the appreciation recorded in 3Q13 (0.7% and 1.6%, respectively).

7.2.2. Monetary/Exchange rate variation on assets

R\$ 13.3 million increase, mainly due to the monetary updates on escrow deposits during 3Q14.

8. Income tax and social contribution

Income tax and social contribution expenses decreased by R\$ 186.7 million, due to the drop in taxable income in the period.

9. Indicators

9.1. Operating

Non-revenue water loss (IPF) and micro-measured water loss (IPM) continue to decline, reaching 22.9% and 30.5%, respectively, for the quarter. This decline was expected by the Company, due to the investments that have been made under the Corporate Program for Reduction of Water Loss, and it is also the result of nighttime pressure control measures along the network, which are necessary due to the water shortage situation.

With respect to the volume produced, there has been a marked decrease of 8.9% for the quarter and 4.1% for the year, resulting from the Water Consumption Reduction Incentive Program, which covers the entire Metropolitan Region of São Paulo.

Notes to the Interim Financial Information

1 Operations

Companhia de Saneamento Básico do Estado de São Paulo ("SABESP" or the "Company") is a mixed-capital company headquartered in São Paulo, at Rua Costa Carvalho, 300, CEP 05429-900, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services in the State of São Paulo, as well as it supplies treated water on a wholesale basis.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The objective set in the new vision of SABESP is to be recognized as the company that ensured universal access to water and sewage services in its marketplace, in a sustainable and competitive manner, with excellence in customer service.

On September 30, 2014, the Company operated water and sewage services in 364 municipalities of the State of São Paulo. Most of these municipalities operations are based on 30-year concession, program and services contracts. The Company has two partial contracts with the municipality of Mogi das Cruzes, however, since most of municipality is serviced by wholesale, it was not included in the 364 municipalities. On September 30, 2014, the Company had 366 contracts.

SABESP is not temporarily operating in some municipalities due to judicial orders. The lawsuits in progress refer to Álvares Florense, Cajobi, Embaúba, Iperó and Macatuba, and the carrying amount of these municipalities' intangible assets was R\$11,330 as of September 30, 2014.

As of September 30, 2014, 54 concession agreements had expired and are being negotiated. From 2014 to 2030, 38 concession agreements will expire. Management believes that concession agreements expired and not yet renewed will result in new contracts, disregarding the risk of discontinuity in the provision of municipal water supply and sewage services. By September 30, 2014, 274 program and services contracts were signed (266 contracts on December 31, 2013).

As of September 30, 2014, the carrying amount of the underlying assets used in the 54 concessions of the municipalities under negotiation totaled R\$6,069,934, accounting for 23.99% of total, and the related gross revenue for the nine-month period then ended totaled R\$1,419,475 on September 30, 2014, accounting for 16.05% of total.

The Company's operations are concentrated in the municipality of São Paulo, which represents 50.00% of the gross revenues on September 30, 2014 (51.56% on September 30, 2013) and 42.39% of intangible assets (42.46% on December 31, 2013).

On June 23, 2010, the State of São Paulo, the municipality of São Paulo, the Company and the regulatory agency “Sanitation and Energy Regulatory Agency – ARSESP” signed an agreement to share the responsibility for water supply and sewage services to the Municipality of São Paulo based on a 30-year concession agreement. This agreement is extendable for another 30 years, pursuant to the law. This agreement sets forth SABESP as the exclusive service provider and designates ARSESP as regulator, establishing prices, controlling and monitoring services.

Notes to the Interim Financial Information

Also, on June 23, 2010, the State of São Paulo, the city of São Paulo and SABESP signed the “Public service provision agreement of water supply and sewage services”, a 30-year concession agreement which is extendable for another 30 years. This agreement involves the following activities:

- i. protection of the sources of water in collaboration with other agencies of the State and the City;
- ii. capture, transport and treat of water;
- iii. collect, transport, treatment and final dispose of sanitary sewage; and
- iv. adoption of other actions of basic and environmental sanitation.

In the municipality of Santos, in the Santos coast region, which has a significant population, the Company operates under an authorization by public deed, a situation similar to other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that formed it. As of September 30, 2014, the carrying amount of the municipality of Santos’ intangible assets was R\$204,823 (R\$340,530 on December 31, 2013) and gross revenue in the nine-month period ended September 30, 2014 was R\$170,712 (R\$182,983 on September 30, 2013).

Article 58 of Law 11,445/07 determines that precarious and overdue concessions, as well as those effective for an undetermined period of time, including those that do not have an instrument formalizing them, will be valid until December 31, 2010. However, Article 2 of Law 12,693 of July 24, 2012 allows program agreements to be executed until December 31, 2016.

The Company’s Management understands that the concession agreements not yet renewed are valid and will be governed by Laws 8,987/95 and 11,445/07, including those municipalities served without an agreement.

Public deeds are valid and governed by the Brazilian Civil Code.

The Company's shares have been listed in the *Novo Mercado* (New Market) segment of BM&FBovespa under the ticker symbol SBSP3 since April 2002 and on the New York Stock Exchange (NYSE) as American Depositary Receipts (“ADRs”) Level III, under the SBS code, since May 2002. In 2007, SABESP adhered to the Corporate Sustainability Index, or ISE of BM&FBovespa, which reflects the high level of commitment with sustainable development and social practices.

Since 2008, the Company has been setting up partnerships with other companies, which resulted in the following companies: Sesamm, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental, Águas de Castilho and Attend Ambiental. Although SABESP has no majority interest in the capital stock of these companies, the shareholders’ agreements provide for the power of veto and casting vote in certain issues jointly with associates, indicating the shared control in the management of investees.

Water shortage – SABESP’s operations have been influenced by record heat seen in the metropolitan region of São Paulo and the lowest rainfall and inflow never seen in 84 years at the reservoirs composing the Cantareira System, which are in level below that one seen in the historical series, and these reservoirs when water shortage began were liable for the direct supply of approximately 8.8 million people. In order to deal with this situation and maintain the non-stop supply Sabesp is:

- Taking water from the Cantareira System's technical reserve, which is the water availability below the capture by gravity;
- Adopting economic incentives to stimulate households of the Greater São Paulo to reduce water consumption;
- Transposing water between reservoirs to currently supply approximately 2.5 million consumers located in regions historically served by the Cantareira System;
- Intensifying the advertising campaigns towards the rational use of water;
- Investing in operational measures to reduce losses, expand sectorization and control pressure at night in the network;
- Anticipating investments to expand water safety.

It is worth mentioning that the water reservation capacity relies on several factors, such as levels of rain, temperature and atmospheric humidity, as well as the type and humidity of soil in water sources regions.

See other disclosures about this matter in the Note 23 – operating revenue and Note 29 – events after the reporting period.

The interim financial information was approved by the Board of Directors on November 13, 2014.

2 Basis of preparation and presentation of the interim financial information

Presentation of the quarterly financial information

The quarterly financial information as of September 30, 2014 was prepared based on the provisions of CPC 21 (R1) – Interim Financial Information and the international standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), applicable to the preparation of Quarterly Information Form– ITR and they are fairly presented consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM). Therefore, this Interim Financial Information takes into consideration the official letter CVM/SNC/SEP 003 of April 28, 2011, which allows the entities to present selected notes to the financial statements, in cases of redundant information already disclosed in the Annual Financial Statements. The interim financial information for the nine-month period ended September 30, 2014, therefore, does not include all the notes and reporting required by the annual financial statements, and accordingly, shall be read jointly with the financial statements as of December 31, 2013, prepared pursuant to the International Financial Reporting Standards – IFRS, issued by the International Accounting Standards Board – IASB and pursuant to the accounting practices adopted in Brazil which observe the pronouncements issued by the Brazilian Accounting Pronouncements Committee- CPC.

Notes to the Interim Financial Information

2.1 Accounting policies

The accounting policies used in the preparation of the quarterly financial information for the quarter ended September 30, 2014 are consistent with those used to prepare the Annual Financial Statements for the year ended December 31, 2013. These policies are disclosed in Note 3 to the Annual Financial Statements.

3 Financial Risk Management

3.1 Financial risk factors

The Company's activities are affected by Brazilian economic scenario, making it exposed to market risk, such as exchange rate, interest rate, credit risk and liquidity risk. The Company's financial risk management is focused on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

The Company has not utilized derivative instruments in any of the reported periods.

(a) Market risk

Foreign currency risk

SABESP's foreign exchange exposure implies market risks associated with Brazilian Real currency fluctuations against the US dollar and yen. SABESP's foreign currency-denominated liabilities mainly include US dollar and yen-denominated loans.

In case of Brazilian *real* depreciation in relation to foreign currency in which the debt is denominated, SABESP will incur in monetary loss in relation to such debt.

SABESP's specific foreign currency risks are related to exposures caused by its current and non-current debts denominated in foreign currency.

The management of SABESP's foreign currency exposure considers several current and projected economic factors, besides market conditions.

ITR - Quarterly Information Form– 09/30/2014 – CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

Version: 1

Notes to the Interim Financial Information

This risk arises from the possibility that the Company may incur in losses due to exchange rate fluctuations that would impact liability balances of foreign currency-denominated loans and financing raised in the market and related financial expenses. The Company does not maintain hedge or swap contracts or any financial instrument to hedge against this risk, but conducts an active management of debt, taking advantage of opportunities to change expensive debts with “cheaper” debts, reducing the cost through early maturity.

A significant amount of the Company’s financial debt is indexed to the U.S. dollar and Yen, in the total amount of R\$3,965,481 on September 30, 2014 (R\$3,715,645 in December 2013). Below, the Company’s exposure to foreign exchange risk:

	September 30, 2014		December 31, 2013	
	Foreign currency	R\$	Foreign currency	R\$
Loans and financing– US\$	1,210,992	2,968,141	1,181,256	2,767,210
Loans and financing – Yen	42,798,185	956,539	41,504,249	926,790
Interest and charges from loans and financing – US\$		38,436		14,512
Interest and charges from loans and financing– Yen		2,365		7,133
Total exposure		3,965,481		3,715,645
Financing cost		(17,989)		(17,092)
Total loans in foreign currency		3,947,492		3,698,553

As of September 30, 2014, if the Brazilian *real* had depreciated or appreciated by 10% against the US dollar and Yen with all other variables held constant, effects on results before taxes on the nine-month period ended September 30, 2014 would have been R\$396,548 (R\$371,564 in December 2013), lower or higher, mainly as a result of foreign exchange losses or gains on the translation of foreign currency-denominated loans.

Scenario I below presents the effect in income statements for the next 12 months, considering the projected rates of the U.S. dollar and the Yen. Considering the other variables as remaining constant, the impacts for the next 12 months are shown in scenarios II and III with possible depreciations of 25% and 50%, respectively, in the Brazilian Real.

Notes to the Interim Financial Information

(*) The probable scenario in foreign currency (US dollar and Yen) considered the average exchange rate for the 12-month period after September 30, 2014, according to BM&FBovespa.

Interest rate risk

This risk arises from the possibility that the Company could incur losses due to fluctuations in interest rates, increasing the financial expenses related to loans and financing.

The Company has not entered into any derivative contract to hedge against this risk; however continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

The table below provides the Company's loans and financing subject to variable interest rate:

	September 30, 2014	December 31, 2013
TR ⁽ⁱ⁾	1,557,979	1,646,546
CDI ⁽ⁱⁱ⁾	1,712,010	1,212,010
TJLP ⁽ⁱⁱⁱ⁾	1,017,881	990,273
IPCA ^(iv)	1,481,779	1,413,629
LIBOR ^(v)	1,750,128	1,599,815
Interest and charges	132,067	120,839
Total	7,651,844	6,983,112

(i) TR – Interest Benchmark Rate

- (ii) CDI (Certificado de Depósito Interbancário), an interbank deposit certificate
- (iii) TJLP (Taxa de Juros a Longo Prazo), a long-term interest rate index
- (iv) IPCA (Índice Nacional de Preços ao Consumidor Amplo), a consumer price index
- (v) LIBOR - London Interbank Offered Rate

Another risk to which the Company is exposed, is the mismatch of the monetary restatement indices of its debts with those of its service revenues. Water supply and sewage services tariff adjustments do not necessarily follow the increases in the inflation indexes to adjust loans, financing and interest rates affecting the Company's indebtedness.

Notes to the Interim Financial Information

On September 30, 2014, if interest rates on loans and financing denominated in Brazilian *reais* had been 100 basis points higher or lower with all other variables held constant, the effects on profit for the nine-month period ended September 30, 2014, before taxes would have been R\$76,518 (R\$69,831 in December 2013) lower or higher, mainly as a result of a lower or higher interest expense on floating rate loans and financing.

(b) Credit risk

Credit risk arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to wholesale basis and retail customers, including outstanding accounts receivable, restricted cash, accounts receivable from related parties and indemnities. Credit risk exposure is mitigated by sales to a dispersed customer base.

The maximum exposures to credit risk at the reporting date are the carrying amounts of instruments classified as cash equivalents, deposits in banks and financial institutions, restricted cash, trade accounts receivable and accounts receivable from related parties in the balance sheet date, as per Notes 5, 6, 7 and 8.

Regarding the financial assets held with financial institutions, the credit quality that is not past due or subject to provision for impairment may can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates. The credit quality of counterparties which are banks, such as deposits and financial investments, the Company considers the lower rating of the counterparty published by three main international rating agencies (Moody's, Fitch and S&P), according to internal policy of market risk management:

	September 30, 2014	December 31, 2013

Notes to the Interim Financial Information**(c) Liquidity risk**

The Company's liquidity is primarily reliant upon cash provided by operating activities, loans from Brazilian Federal and State governmental financial institutions, and financing in the domestic and international capital markets. The liquidity risk management considers the assessment of its liquidity requirements to ensure it has sufficient cash to meet its Capex and operating expenses needs, as well as the payment of debts.

The funds held by the Company are invested in interest-bearing current accounts, time deposits, short-term deposits and securities, selecting instruments with appropriate maturity or liquidity sufficient to provide margin as determined by projections mentioned above.

The table below analyzes the financial assets and liabilities of the Company, into relevant maturities, including the installment of principal and interest to be paid according to the agreement.

Notes to the Interim Financial Information

Future interest

Future interest was calculated based on the contractual clauses for all agreements. For agreements with floating interest rate, the interest rates used correspond to the base dates above.

Cross default

The Company has loan agreements including cross default clauses, i.e., the early maturity of any Company's debt will imply the early maturity of these agreements. The indicators are continuously monitored in order to avoid the execution of this clause.

(d) Sensitivity analysis on interest rate risk

The table below shows the sensitivity analysis of the financial instruments, prepared in accordance with CVM Rule 475/2008 in order to evidence the balances of main financial assets and liabilities, calculated at a rate projected until the final settlement of each contract, considering a probable scenario (scenario I), appreciation of 25% (scenario II) and 50% (scenario III).

The purpose of the sensitivity analysis is to measure the impact of changes in the market over the financial instruments of the Company, considering constant all other variables. In the time of settlement the amounts can be different from those presented above, due to the estimates used in the measurement.

Notes to the Interim Financial Information

(i) Refers to the scenario of interest to be incurred for the 12 months as of September 30, 2014 or until the maturity of the agreements, whichever is shorter.

3.2 Capital management

The Company's objectives when managing capital are ensure its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital based on the leverage ratio. This ratio corresponds to net debt divided by total capital. Net debt corresponds to total loans and financing less cash and cash equivalents. Total capital is calculated as total equity as shown in the statement of financial position plus net debt.

	September 30, 2014	December 31, 2013
Total loans and financing	10,292,073	9,450,074
Less: cash and cash equivalents	(1,859,690)	(1,782,001)
Net debt	8,432,383	7,668,073
Total equity	13,759,448	12,930,801
Total capital	22,191,831	20,598,874
Leverage ratio	38%	37%

On September 30, 2014, the leverage ratio increased to 38% from the 37% as of December 31, 2013, due to increase in loans and financing, deriving from the 19th issue of debentures and the exchange rate effect (higher quote of the US dollar and Yen).

Notes to the Interim Financial Information**3.3 Fair value estimates**

It is assumed that balances from trade accounts receivable (current) and accounts payable to suppliers by carrying amount approximate their fair values, considering the short maturity. Long-term trade accounts receivable also approximate their fair values, as they will be adjusted by inflation and/or will bear contractual interest rates over time.

3.4 Financial Instruments

On September 30, 2014 and December 31, 2013, the Company did not have financial assets classified into the fair value categories through profit or loss, held to maturity and available for sale. The Company's financial instruments included in the loans and receivables category comprise cash and cash equivalents, trade accounts receivable, balances with related parties, other accounts receivable, balances receivable from the Water National Agency – ANA, contractors and suppliers, loans and financing, balances payable deriving from the Public Private Partnership-PPP and program contract commitments, which are non-derivative financial assets and liabilities with fixed or determinable payments, not quoted in an active market.

The estimated fair values of financial instruments are as follows:

Financial assets

	September 30, 2014		December 31, 2013	
	Carrying amount	Fair value	Carrying amount	Fair value
Cash and cash equivalents	1,859,690	1,859,690	1,782,001	1,782,001

Public-private partnership - PPP	378,655	378,655	342,508	342,508

To obtain fair value of loans and financing, the following criteria have been adopted:

- (i) Agreements with CEF (Federal Savings Bank) were projected until final maturity, at contractual rates (projected TR + spread) and discounted at present value by TR x DI, both rates were obtained from BM&FBovespa.
- (ii) Debentures were projected up to the final maturity date according to contractual rates (IPCA, DI, TJLP or TR), and discounted to present value considering the future interest rate published by ANBIMA in the secondary market, or by market equivalent rates, or the Company's share traded in the Brazilian market.
- (iii) BNDES financing are financial instruments valued at carrying amount plus contractual interest rate till mature date, and are indexed by long term interest rate – TJLP.

These financing have specific characteristics and the conditions defined in the financing agreements with BNDES between independent parties, and reflect the conditions for those types of loan. In Brazil, a consolidated market of long-term debts does not exist with the same characteristics of BNDES financing, the offering of credit to the entities in general, with this long-term characteristic, usually is restricted to BNDES.

(iv) Other financing in local currency are considered by carrying amount plus contractual interest rate till mature date, discounted to present value considering a future interest rate published by BM&FBovespa.

(v) Agreements with IDB and IBRD, were projected until final maturity in origin currency, applying interest rates contracted, discounted at present value at Libor futures rate, obtained from Bloomberg. Eurobonds were priced at market value through quotes published by Bloomberg. All the amounts obtained were translated into Brazilian *reais* at the exchange rate of September 30, 2014.

(vi) Agreements with JICA, were projected until final maturity in origin currency, using interest rates contracted and discounted at present value, at Tibor futures rate obtained from Bloomberg. The amounts obtained were translated into Brazilian reais at the exchange rate of September 30, 2014.

Notes to the Interim Financial Information

(vii) Leases are financial instruments considered by face value restated until maturity date, whose characteristic is the indexation by fixed contractual rate, which is a specific type, not compared to any other market rate. Thus, the Company discloses as market capitalization, the amount recorded on September 30, 2014.

Considering the nature of other financial instruments, assets and liabilities of the Company, the balances recognized in the statement of financial position approximate the fair values, taking into account the maturities close to the end of the reporting period, comparison of contractual interest rates with market rates in similar operations at the end of the reporting periods, their nature and maturity terms.

4 Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and on other factors, including expectations of future events that are believed to be reasonable under the circumstances.

There were no changes in relation to what was presented in the Annual Financial Statements as of December 31, 2013, as per Note 5.

Notes to the Interim Financial Information

(*) On March 18, 2014, the State of São Paulo, the municipality of Diadema and SABESP entered into a “Water Supply and Sewage Public Utility Services Agreement” in the municipality of Diadema. Through this contract, the State of São Paulo and the municipality of Diadema have ensured to SABESP (or subsidiary) exclusive rights to render services for a 30-year term.

On this same date, judicial settlements were signed in lawsuits filed by SABESP against the municipality of Diadema and Saned – a municipal company. Through these settlements, SABESP, the municipality of Diadema and Saned agree to suspend the execution of suits to collect receivables related to water supply at wholesale and collection of indemnity debt. The debts will progressively decrease throughout a 30-year period, under the condition that there is a full compliance with the agreements and provision of services contract.

This balance is fully accrued as losses.

From January to September 2014, there were no relevant changes in relation to the operations presented in the financial statements as of December 31, 2013.

(ii) Special customers - large consumers, commercial, industries, condominiums and special billing consumers (industrial waste, wells, etc.).

(iii) Agreements - installment payments of past-due receivables, plus monetary restatement and interest.

(iv) Wholesale basis customers - municipal governments - This balance refers to the sale of treated water to municipalities, which are responsible for distributing to, billing and charging final customers. Some of these municipalities are questioning in court the tariffs charged by SABESP, which have full allowance for doubtful accounts. Additionally, the overdue amounts are included in the allowance for doubtful account and are classified in noncurrent assets.

During the period from January to September 30, 2014, there were neither relevant changes in the negotiations nor in the progress of legal proceedings. See further details and explanations about the nature of these contingent assets in Note 9 (vii) to the Financial Statements as of December 31, 2013.

(c) Use of reservoirs - EMAE

Empresa Metropolitana de Águas e Energia S.A. - EMAE plans to receive for the credit and to obtain financial compensation for the use of water from the Guarapiranga and Billings reservoirs, which SABESP uses in its operations, as well as the reimbursement of damages related to the failure to pay appropriately.

The Company understands that no amounts are due for the use of these reservoirs given the grants already made. Should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. There is a risk of not properly rendering services in the region, besides increasing water supply cost.

Notes to the Interim Financial Information

Several lawsuits were filed by EMAE, among them a lawsuit to create an arbitration clause related to the Guarapiranga reservoir, a proceeding which had already started and another one, equally pleading for financial compensation due to SABESP's water collect from Billings reservoir for public supply, these two lawsuits alleging that this conduct has been causing permanent and growing loss in the capacity of generating electricity of Henry Borden hydroelectric power plant with financial losses.

SABESP understands that the expectation for all cases is of possible losses, and for the time being, it is not feasible to estimate the amounts involved, since they were not determined.

On April 10, 2014, we issued a Notice to the Market including the information we have been discussing with EMAE about any future agreement. However, no adjustment was confirmed up to date and no agreement was executed by either party up to date.

(d) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Water Rational Use Program (PURA).

The Company has signed agreements with government entities related to the State Government and municipalities where it operates that benefit from a reduction of 25% in the tariff of water supply and sewage services when they are not in default. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in the consumption of water.

(e) Guarantees

The State Government provides guarantees for some loans and financing of the Company and does not charge any fee with respect to such guarantees.

(f) Personnel assignment agreement among entities related to the State Government

The Company has personnel assignment agreements with entities related to the State Government, whose expenses are fully passed on and monetarily reimbursed. From July to September 2014 and in 2013, the expenses related to personnel assigned by SABESP to other state government entities amounted to R\$2,321 and R\$3,254, respectively, and from January to September 2014 and 2013, R\$7,387 and R\$9,722 were paid, respectively.

From July to September 2014 and in 2013, expenses related to personnel assigned by other entities to SABESP totaled R\$87 and R\$79, respectively, and from January to September 2014 and 2013, expenses totaled R\$296 and R\$611, respectively.

(g) Services obtained from state government entities

As of September 30, 2014 and December 31, 2013, SABESP had an outstanding amounts payable of R\$1,477 and R\$1,791, respectively, for services rendered by São Paulo State Government entities.

Notes to the Interim Financial Information

The Company has obligations recorded in “Program Contract– Commitments” in current liabilities in the amount of R\$130,049 and R\$77,360 on September 30, 2014 and December 31, 2013, respectively) and noncurrent liabilities (in the amount of R\$81,789 and R\$88,678 on September 30, 2014 and December 31, 2013, respectively).

(e) Capitalization of interest and other financial charges

From January to September 2014, the Company capitalized interest and inflation adjustment, including related foreign currency exchange effects, in concession intangible assets totaling R\$176,724 with an average rate of 4.97% (R\$163,975 from January to September 2013, with an average rate of 4.36%), during the period in which assets were recorded as works in progress.

(f) Construction margin

The Company acts as a primary responsible to construct and install the infrastructure related to the concession, using own efforts or hiring outsourcing services, receiving the risks and benefits.

As a consequence, the Company recognizes revenue from construction service corresponding to the cost of construction increased by margin. Generally, the constructions related to the concessions are performed by third parties, in such case, the margin of the Company is lower, normally, to cover eventual administration costs, and the responsibility of the primary risk. On September 30, 2014 and 2013 the margin was 2.3%.

(g) Expropriations

As a result of the construction of priority projects related to water and sewage systems, the Company was required to expropriate or establish rights of way in third-parties' properties, and the owners of these properties will be compensated either amicably or through courts.

The assets received as a result of expropriations are recorded as concession intangible assets after the transaction is completed. From July to September 2014, the total amount related to expropriations was R\$2,685 and for the period from January to September 2014 was R\$10,211 (July to September 2013 – R\$22,630 and January to September 2013 – R\$43,401).

(h) Public-Private-Partnership (PPP)

Notes to the Interim Financial Information

(i) Main events in the quarter

There was no relevant event in the quarter, except for foreign exchange variation.

(ii) Covenants

On September 30, 2014, the Company had met the requirements set forth by its loan and financing agreement.

(a) Leasing

The Company has lease agreements signed as Financial Lease. During the construction period, works are capitalized to intangible assets in progress and the lease amount is recorded at the same proportion. Works are estimated to be concluded in 2014 and 2015.

After startup, the lease payment period starts (240 monthly installments), whose amount is periodically restated by contracted price index.

On August 31, 2013, the operation of SES Campo Limpo Paulista and Várzea Paulista started and the corresponding amount for September 30, 2014 and December 31, 2013 is R\$140,178 and R\$144,384, respectively.

On March 22, 2014, ETE Campos do Jordão started operations and the corresponding amount on September 30, 2014 is R\$136,466.

(b) Financing contracted and not yet used

In order to comply with its Capex plan, SABESP relies on a fund-raising plan.

Financing resources contracted have specific purposes, which have been released for the execution of their respective investments, according to the progress of the works.

(b) Lawsuits with possible likelihood of loss

The Company is party to lawsuits and administrative proceedings relating to environmental, tax, civil and labor claims, which are assessed by Management whose chances of loss are possible and are not recorded. Liability contingencies classified as possible loss represent the amount of approximately R\$3,598,900 on September 30, 2014 (R\$3,244,500 in December 2013).

(c) Explanation on the nature of main classes of lawsuits**(i) Customer claims**

Approximately 1,270 lawsuits were filed by commercial customers, which claim that their tariffs should correspond to other consumer categories, and 720 lawsuits which claim a reduction in the sewage tariff due to losses in the system, consequently requesting the refund of amounts charged by the Company and 60 lawsuits where customers plead the reduction in tariff under the category as “Social Welfare Entity”. The Company was granted both favorable and unfavorable final decisions at several court levels and recognized provisions when the chances of losses are probable. The R\$34,041 increase in the lawsuits classified as probable loss (net of escrow deposits) is related to new lawsuits filed and interest rates, fees and updates of lawsuits in progress, partially offset by payments made in the period and revisions of expectations caused by favorable decisions during 2014.

(ii) Supplier claims

Suppliers’ claims include lawsuits filed by some suppliers alleging underpayment of monetary restatements, withholding of amounts related to the understated inflation rates deriving from Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the chances of losses are probable. The R\$85,518 decrease in lawsuits whose likelihood of loss is considered probable (net of escrow deposits) is mainly related payments made and revisions of expectations caused by favorable decisions to the Company during 2014.

Notes to the Interim Financial Information

(iii) Other civil claims

These mainly refer to indemnities for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, dully accrued when classified as probable losses. The R\$5,490 decrease in lawsuits with probable chances of loss (net of escrow deposits) was mainly due to shelving of several lawsuits and revisions of expectations caused by favorable decisions to the Company during 2014.

(iv) Tax claims

Tax claims refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's management, accrued when classified as probable loss. The decrease of R\$3,657 in lawsuits with expectation of probable losses (net of escrow deposits) was mainly due to favorable decisions to the Company.

(v) Labor claims

The Company is a party to labor lawsuits, involving issues such as overtime, shift schedule, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as of probable or possible loss. The Company recognized a provision for claims which likelihood of loss is considered probable. The R\$18,263 increase in lawsuits with probable chances of losses (net of escrow deposits) is related to new lawsuits filed and interest rates, fees and updates of lawsuits in progress, partially offset by payments made in the period and revisions of expectations caused by favorable decisions to the Company during 2014.

(vi) Environmental claims

Environmental claims refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental – Cetesb, Public Prosecution Office of the State of São Paulo and others, that aim affirmative and negative covenants and penalty is estimated due to failure to comply in addition to the imposition of indemnity due to environmental damages allegedly caused by the Company. The amounts accrued represent the best estimate of the Company at this moment, however, may differ from the amount to be disbursed as indemnity to alleged damages, in view of the current stage of referred proceedings. The R\$43,806 increase in lawsuits with expectation of probable losses (net of escrow deposits) is mainly related to the complementary estimates of lawsuits, agreements in progress and new lawsuits filed, partially offset by the revisions of expectations caused by favorable decisions to the Company during 2014.

Other information is stated in Note 18 to the Annual Financial Statements as at December 31, 2013.

(i) Including the municipalities operated in countryside and at the coast of the State of São Paulo.

(ii) Revenue from water and sewage services decreased by 9.5% in the third quarter of 2014 year-on-year. This result was mainly impacted by the incentive program for reduction of consumption (Bonus*).

* Bonus: SABESP's Incentive Program for Reduction of Water Consumption

After ARSESP's approval on an emergency basis by means of Resolution 469/2014, SABESP adopted an economic incentive to encourage the population of Greater São Paulo to reduce water consumption. This measure was adopted due to the record heat and the unheard lack of rainfall at the Cantareira System, which is at a critical level and supplies almost 10 million people.

Consumers who reduce by, at least, 20% the average consumption of the twelve-month period, between February 2013 and January 2014, will receive 30% discount in their bills. The discount shall apply to a smaller amount, since reduced consumption will result in cheaper bills.

This measure applies to households, commerce and industries supplied by the Cantareira System – the entire north zone and São Paulo downtown, part of the east and west zones of São Paulo, Barueri, Caieiras, Carapicuíba, Francisco Morato, Franco da Rocha, Itapevi, Jandira, Osasco and Santana de Parnaíba. In Guarulhos and São Caetano do Sul, also supplied by the Cantareira System, distribution relies on the local governments, which buy water from SABESP. The municipal services shall resolve on granting this incentive.

The benefit will be valid for the bills of reference months from February to August, and consumers will receive the bills between March and September. In Santana de Parnaíba, this measure will be applied in the reference months from March to August and consumers will receive the bills between April and September.

However, in April 2014, the incentive program for reduction of water consumption was postponed until the end of 2014 to the entire São Paulo metropolitan region, or until water levels at reservoirs are regularized. Due to the dry weather and the low water volume at the Cantareira System, the Department of Water and Electricity of the State of São Paulo (DAEE) and the National Water Agency (ANA) set forth that, as of March 10, 2014, we are temporarily required to restrict the water outflow caught from the Cantareira System, from 33m³/s to 27.9m³/s. In order to supply this lower water availability and continue supplying the population, we are expanding the use of water from other water mains. This may increase costs to serve consumers of the metropolitan region of São Paulo. If the situation of the reservoirs affected by dry weather does not improve, we may be forced to take more drastic measures.

On May 26, 2014, the Incentive Program for Reduction of Water Consumption was expanded to the municipalities operated by SABESP which compose by Piracicaba basins, Capivari and Jaguari rivers, located in the coverage area of the Cantareira System.

Notes to the Interim Financial Information

Likewise, consumers who reduce by, at least, 20% their monthly consumption will be entitled to bonus, compared to the average consumption of the twelve-month period, between February 2013 and January 2014. These consumers will receive 30% discount on their water and sewage bills. The participating municipalities are Bragança Paulista, Joanópolis, Nazaré Paulista, Pinhalzinho, Piracaia, Vargem, Hortolândia, Itatiba, Jarinu, Monte Mor, Morungaba and Paulínia.

This measure includes residential, commercial, industrial and government customers and will be valid for the bills issued as of June 2014, effective until December 2014.

The bonus amount for the period between July and September was R\$127,241 and for the period between January and September 2014 was R\$226,103.

ITR - Quarterly Information Form– 09/30/2014 – CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

Version: 1

Notes to the Interim Financial Information

- (i) The variation in expenses related to local currency-denominated loans and financing interest decreased mainly due to higher capitalization of interest in the third quarter of 2014, compared to the same period last year.
- (ii) The increase in expenses related to foreign currency-denominated loans and financing interest mainly reflect the increased balance of debt due to the 11.3% appreciation of the US dollar and the 2.8% appreciation of Yen against Real, in the third quarter of 2014, when compared to lower appreciation of currencies in the third quarter of 2013, 0.7% and 1.6%, respectively.
- (iii) Other financial expenses increased mainly due to the startup of two sewage treatment stations financed by means of leasing (Campo Limpo Paulista/Várzea Paulista and Campos do Jordão, respectively, in August 2013 and in March 2014), under CPC 20(R1), the interest paid are recognized as financial expense.
- (iv) The monetary variation derives from increase in the indexes defined in the loan agreements, such as, TR, IPCA, CDI and TJLP, which were 0.3%, 0.8%, 10.8% and 1.3%, respectively in the third quarter of 2014 (0.03%, 0.6%, 8.7% and 1.3%, respectively, in same period of 2013). The exposures to these rates are shown in Note 3.1.
- (v) The decrease derives from smaller balance of SABESP's commitments in relation to the deficit of Sabesprev Mais pension plan. The INPC index (Consumer Price National Index), which is applied to adjust commitments in the period changed 0.8% the third quarter of 2014 and 0.3% in the same period of 2013.
- (vi) Other monetary variations expenses are mainly adjustments to liabilities referring to investment commitments required by private-public partnerships, program contracts which are indexed by IPC and IPCA which stood at 0.7% and 0.8%, respectively, in the third quarter of 2014 and 0.3% and 0.6%, respectively, in the same period of 2013.
- (vii) The account variation mainly derives from favorable progress of lawsuits in the third quarter of 2013, with effects on the decrease of interest expenses in that period.
- (viii) The monetary variations increased mainly due to monetary restatements over escrow deposits referring to the third quarter of 2014, which are adjusted by the index defined by the Brazilian judiciary branch which varied

between 0.6% in the third quarter of 2014 and 0.3% in the same period of 2013, partial receipt of court-ordered payment of government debt of Guarulhos in September 2014, and bills/invoices from accounts receivable in arrears which are adjusted depending on the date of payment by indexes IPCA (0.8% in the third quarter of 2014 and 0.6% in the same period of 2013) or IPC-FIPE (Consumer Price Index), 0.7% in the third quarter of 2014 and 0.3% in the same period of 2013).

(ix) The account variation derives from financial investments in the period, indexed to CDI, due to CDI increase in the third quarter of 2014 (10.8%) compared to the same period of 2013 (9.7%).

(x) The account variation derives from interest over agreements and installment payments in the third quarter of 2014.

(xi) The expense related to the exchange rate variation on loans and financing mainly derives from the 11.3% appreciation of the US dollar and 2.8% appreciation of Yen against real in the third quarter of 2014, compared to a lower appreciation of these currencies in the same period of 2013, which was 0.7% and 1.6%, respectively.

Reports and Statements / Unqualified Report on Special Review

(Convenience Translation into English from the Original Previously Issued in Portuguese)

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia de Saneamento Básico do Estado de São Paulo - SABESP

São Paulo - SP

Introduction

We have reviewed the accompanying interim financial information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the “Company”) included in the Interim Financial Information Form (ITR), for the quarter ended September 30, 2014, which comprises the balance sheet as of September 30, 2014 and the related statements of income and comprehensive income for the three and nine-month period then ended and changes in equity and of cash flows for the nine-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation of the interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and with international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1) and international standard IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the statements of value added (DVA) for the nine-month period ended September 30, 2014, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, which does not require the presentation of DVA. These statements were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.
