The subsidiary's business and the services it may provide are regulated by the National Telecommunications Agency (ANATEL), the regulator for telecommunications services, in accordance with Law No. 9472 of July 16, 1997 and respective regulations, decrees, decisions and complementary plans.

On February 22, 2006, the General Shareholders' Meeting approved the absorption of shares of Tele Centro Oeste Celular Participações S/A ("TCO") to be converted into a wholly-owned subsidiary of Vivo Participações S/A and the merger of Tele Sudeste Celular Participações S/A ("TSD"), Tele Leste Celular Participações S/A ("TLE") and Celular "CRT" Participações S/A ("CRTPart") into the Company, as described in the Notice of a Material Fact dated December 4, 2005.

The results of the merged companies for the period from January 1 through February 22, 2006 are posted to the Company's results as established in the merger protocol.

Auction of share fractions

On April 19 and 24, 2006 auctions were held on the Sao Paulo Stock Exchange – BOVESPA to place again on the "Free Float" market 641,766 shares (310,366 common shares under code VIVO3 and 331,400 preferred shares under code VIVO4), corresponding to the fractions determined in the exchange of shares of Tele Sudeste Celular Participações S/A, Tele Centro Oeste Celular Participações S/A, Tele Leste Celular Participações S/A and Celular "CRT" Participações S/A for shares of Vivo Participações S/A resulting from the corporate restructuring approved by the Special Shareholders' Meeting of February 22, 2006. The amounts determined on the sale are at the disposal of the holders of these share fractions at any branch of Banco ABN Amro Real S/A, the depositary entity of the book-entry shares of Vivo Participações S/A.

Corporate restructuring

At the Special Shareholders' Meeting held on October 31, 2006, the merger by the wholly-owned subsidiary Global Telecom S/A of the other wholly-owned subsidiaries of Vivo Participações S/A, namely Telergipe Celular S/A, Telebahia Celular S/A, Telexj Celular S/A, Telest Celular S/A, Celular "CRT" S/A, Telesp Celular S/A and Tele Centro Oeste Celular Participações S/A, as well as of the latter's subsidiaries Telegoias Celular S/A, Telemat Celular S/A, Telems Celular S/A, Teleron Celular S/A, Teleacre Celular S/A and Norte Brasil Telecom S/A was approved.

The implementation of the Corporate Restructuring was meant to simplify the corporate and operational structure, by unifying the general business management of the operating companies, which were concentrated in a single operating company controlled by the Company, optimizing synergies between the companies involved, following the process which began with the corporate restructuring approved at the special shareholders' meetings held on February 22, 2006. Similarly and simultaneously with the Corporate Restructuring implementation, the name of Global Telecom S/A was changed into Vivo S/A ("Vivo").

The merger of the subsidiaries were previously approved by the National Telecommunications Agency (ANATEL) on July 25, 2006 by the Act No. 59867, published in the Federal Official Gazette (DOU) on July 27, 2006.

By virtue of the fact that the Corporate Restructuring did not directly involve Vivo Participações S/A, and was restricted to its subsidiaries, the company's capital and shareholders' equity as well as its shareholding structure and the rights derived from the shares it issued did not undergo any change.

Its conversion occurs proportionately to the amortization of the goodwill in its subsidiary, over a period of 5 to 10 years. Studies by outside consultants used in the corporate restructuring process support the recovery of the value within this period.

c) Temporary differences: realization will occur upon payment of the provisions, actual loss on doubtful debt or sale of inventories.

At December 31, 2006 the Company prepared technical feasibility studies, approved by its Board, which indicated the full recovery of recognized deferred tax amounts, as defined by CVM instruction No. 371.

During the quarter ended June 30, 2007, no material fact occurred that indicated limitations to the full recovery of deferred taxes.

25. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (CONSOLIDATED)

a) Considerations on risks

The main market risks that the Company and its subsidiary are exposed to are:

Credit risk: deriving from possible difficulties in collecting the amounts related to telecommunications services rendered to its clients and to sales of handsets to its dealers, as well as the risk related to short-term investments and amounts receivable from swap transactions.

Interest rate risk: deriving from a portion of the debt and from long positions of derivatives contracted at floating rates, and involving the risk of an increase in financial expenses due to an unfavorable change in interest rates (mainly LIBOR, TJLP and CDI).

Exchange rate risk: the possibility that Company and its subsidiary incur losses as a result of exchange rate variations that increase the liability balances of foreign currency loans and financing.

The Company and its subsidiary adopt an active position concerning the management of the various risks to which they are exposed, by means of a set of comprehensive initiatives, procedures and operating policies, thus mitigating the risks inherent to their activities.

Credit Risk

The credit risk involved in the rendering of telecommunications services is minimized by a strict control of the client base and active management of customers' default, by means of clear policies regarding the sale of post-paid telephones. As of June 30, 2007, the subsidiary had 81% of its customer base comprising customers of the prepaid system, which requires the prior loading and consequently entails no credit risk.

The credit risk in the sale of handsets is managed by a conservative credit policy, by means of modern management methods, including the application of "credit scoring" techniques, analysis of financial statements and information, and consultation to commercial data bases, as well as the automatic control of sales release integrated with the distribution module of SAP's ERP software.

The company and its subsidiary are also subject to credit risk originating from its financial investments and amounts receivable from swap transactions. The Company and its subsidiary act in a manner so as to diversify this exposure among various world-class financial institutions.

Interest rate risk

The Company and its subsidiary are exposed to the risk of increased interest rates, especially those associated with the cost of the Interbank deposit certificates (CDI), in connection with payables related to derivative transactions (currency hedge) and by loans denominated in Reais. As a way to minimize this exposure, the Company contracted swap transactions in Reais, from CDI to fixed-interest rates, in a total reference value of R\$2,274 million. The balance of financial investments, indexed to the CDI, also neutralizes this effect partially.

Furthermore, the Company and its subsidiary are also exposed to the risk of fluctuation of the Long-term interest rate (TJLP), in connection with the loans obtained from BNDES. These transactions amounted to R\$106,967 (principal) as of June 30, 2007 (R\$135,415 as of March 31, 2007). The Company and its subsidiary have no transactions with derivatives contracted to cover the TJLP risk.

The loans contracted in foreign currencies also entail the risk of a raise in the interest rate (LIBOR) to which these foreign loans are pegged. These transactions totaled US\$232,480 thousand (principal) as of June 30, 2007 (US\$232,480 thousand as of March 31, 2007).

Edgar Filing: Vivo Participacoes S.A. - Form 6-K

Of the total amount of loans and financing involving floating foreign interest rates (LIBOR), US\$232,480 thousand as of June 30, 2007 (US\$232,480 thousand as of March 31, 2007) (principal) are protected against fluctuation in interest rates (LIBOR) by means of derivatives (interest rate swap).

Exchange rate risk

The Company and its subsidiary have contracted financial transactions with derivatives so as to protect themselves against exchange rate fluctuations affecting their loans and other liabilities in foreign currencies. The instruments generally used are swap and forward contracts.

The table below summarizes the net exposure of the Company and its subsidiaries to the exchange rate factor as of June 30, 2007:

	US\$	In thousands of €	¥
Loans and financing	(580,702)	-	(44,266,390)
Loans and financing - UMBNDES (a)	(8,929)	-	-
Derivative instruments	588,323	-	44,266,390
Other liabilities	(23,542)	(18,159)	-
Total (insufficient coverage)	(24,850)	(18,159)	-

(a) UMBNDES is a monetary unit conceived by BNDES, composed of a basket of foreign currencies, main currency being the US dollar, and for this reason the Company and its subsidiary consider it in their analysis of the risk coverage against exchange rate fluctuations.

Transactions with derivatives

The Company and its subsidiary record gains and losses on derivative contracts as financial income or expenses, net.

The table below shows an estimate of the book value and the market value of the loans and financing, as well as of the transactions with derivatives:

	Book value	Market value	Unrealized gain
Loans and financing	(3,705,728)	(3,710,032)	(4,304)
Derivative instruments	(585,768)	(589,546)	(3,778)
Other liabilities	(92,582)	(92,582)	-
Total	(4,384,078)	(4,392,160)	(8,082)

b) Market value of financial instruments

The market value of loans and financing, as well as of swap contracts, was established on the basis of discounted cash flow, by using projections of interest rates available.

Market values are calculated at a specific time based on available information and own evaluation methodology. Consequently, the indicated estimates do not necessarily represent market realizable values. Use of different assumptions may significantly affect estimates.

26. POST-EMPLOYMENT BENEFIT PLANS

The Company and its subsidiary, together with other companies belonging to the former Telebras System, sponsor private pension plans and medical assistance plans for retired employees, administered by the Sistel Social Security Foundation - SISTEL, as follows:

- a) PBS-A: multi-sponsored defined benefit plan, designed for participants already assisted as of January 31, 2000.
- b) PBS-Telesp Celular, PBS-TCO, PBS Tele Sudeste and PBS Tele Leste Celular: defined retirement benefit plans sponsored individually by the Company.

The contributions to the PBS plans are determined on the basis of actuarial studies prepared by independent actuaries, in accordance with standards in force in Brazil. The costing determination system is that of capitalization and the contribution due by sponsors is 13.5% on their participating employees' salaries, of which 12% are designed for the costing of the PBS plans and 1.5% to the PAMA plan. For the six-month periods ended June 30, 2007, contributions to these plans amounted to R\$7.

- c) PAMA: multi-sponsored medical assistance plan for retired employees and their dependents, at shared cost.

d) TCP Prev and TCO Prev Plans: Individual plans - defined contribution and variable contribution - instituted by SISTEL in August 2000. In both plan types the Company supports participants' death or disability risk amounts, while in the TCO Prev plan some participants originally enrolled with the PBS-TCO plan are entitled to lifelong retirement benefits (paid-up benefit), besides the benefits of defined contribution. The contributions of the Company to the TCP Prev and TCO Prev plans are equal to those of participants, ranging between 1% and 8% of the contribution salary, according to percentage chosen by participant. For the six-month periods ended June 30, 2007, contributions to these plans amounted to R\$4,133.

In civil suit No. 04/081.668-0, brought by ASTEL against the SISTEL Social Security Foundation, in which besides SISTEL also Telefonica and Telesp Celular are summoned, various claims are made, which we summarize as follows:

- i) that Sistel be prohibited from charging retired employees and other participants any contributions to PAMA - Medical Assistance Plan for Retirees, the same being subject only to a "small participation in actual use"; such participation is limited to 1% of the assisted person's monthly income; ii) that SISTEL enroll again with PAMA, without any restrictions, the retirees and assisted persons who had their enrollment suspended due to non-payment, as well as those who did not stand the pressure and requested cancellation of their enrolment with PAMA or enrolled with the PCE (Special Coverage Plan), as they wish, also without any restriction; iii) that SISTEL reassess the economic needs of PAMA, including the amounts of sponsors Telefonica's and Telesp Celular's monthly contributions; iv) that sponsors' contributions be calculated on the basis of the payroll of all their employees, as per previous by-laws provision, and not on the basis of the percentage on the payroll of active participants in PBS; v) that Sistel re-establishes the accreditation of all hospitals, clinics and laboratories that were canceled; vi) that a review be carried out of the accounting distribution of equity, so as to attribute to PAMA the amounts corresponding to the reducing factor of the supplementary contributions, as described above, while Sistel is prohibited, as long as this review is not carried out, to perform any splitting of the net equity of PBS-A plan or any other plan administered by the entity; vii) that Sistel and sponsors refund the "transfer of equity of the main substrate designed for guaranteeing PBS-2 and PAMA, illegally transferred to Visão Telesp and Visão Prev Plans of Telesp Celular"; viii) granting of advance relief in relation to items "i", "ii" and "v".

The subsidiary by means of its actuarial consultant made a study of the impacts described above, and concluded that the change in costing, as claimed by ASTEL, would represent an increase in subsidiary's provisions in the amount of R\$1,298.

Based on their legal advisors' and tax consultants' opinions, management believes that there is, at this moment, there is no risk to be paid, and as of June 30, 2007 the likelihood of loss is classified as "possible".

e) Benefit Plans Visão Celular- Celular CRT, Telerj Celular, Telest Celular, Telebahia Celular and Telergipe Celular: defined contribution individual plans, established by Sistel in August, 2000. Company's contributions to Visão Celular plans is equal to those of participants, ranging between 0% and 9% of contribution salary, according to participant's choice. For the six-month period ended June 30, 2007, contributions to these plans amounted to R\$3,100.

f) Defined benefit plan: "CRT" sponsored defined benefit pension plans (founding member benefit plan and alternative benefit plan), which were managed by Fundação dos Empregados da Companhia Riograndense de Telecomunicações - FCRT.

On December 21, 2001, "CRT" and Brasil Telecom S/A, sponsors of FCRT, signed a statement of commitment with a view to completely canceling any link between the sponsors, by the withdrawal of "CRT" as a sponsor, with the guarantee that this withdrawal be made strictly in accordance with applicable legislation and respecting participants' rights, which was approved by the Supplementary Pension Department at December 30, 2003.

In spite of the fact that existing legislation permits that contributions of sponsors and participants be discontinued, "CRT" continued paying its contributions from January 2002 to December 2003 in order to safeguard and preserve participants' rights, until CRT's actual withdrawal from FCRT.

For the actuarial evaluation of the plans, the methodology for withdrawal of sponsor, established by Resolution MPAS CPC No. 06/88, was used.

Reserves were individually evaluated on the basis of the methodology determined by said Resolution for each category (assisted persons and retirees, imminent active risks and non-imminent active risks).

As of October 2004, "CRT" has been passing on to Sistel, as agreed with FCRT, the amount established as savings reserve of the active employees of "CRT" who opted to migrate from FCRT's Alternative / Founding Member Plans to the Visão Plan, totaling at June 30, 2007 the amount of R\$ 9,515. As of June 30, 2007, of the provision made under liabilities in the amount of R\$ 17,991 (R\$ 15,297 as of March 31, 2007), R\$ 3,245 refers to Withdrawal Reserve of participants with a signed Statement of Intention to Migrate to BrTPrev, and that are awaiting their retirement application to be processed by INSS.

On February 02, 2007, the process for transferring the administration of Sistel Social Security Foundation plans to Visão Prev - Society of Supplementary Pension was approved, as follows: PBS Telesp Celular, TCPPrev, PBS Tele Centro Oeste Celular, TCOPrev, PBS Telesudeste Celular, Visão Telerj Celular, Visão Telest Celular, PBS Teleeste Celular, Visão Telebahia Celular, Visão Telergipe Celular and Visão Celular CRT.

The eleven plans sponsored by the subsidiary are being gradually transferred to the Visão Prev. On May 02, 2007, the transfer of the assets of the plans occurred. The deadline for the conclusion of the transfer is December 31, 2007.
