Introduction

In accordance with § 37x (3) of the Securities Trading Act (Wertpapierhandelsgesetz – WpHG), Siemens AG's Interim Report comprises interim consolidated financial statements and an interim management report for the Group. The interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and its interpretations issued by the International Accounting Standards Board (IASB), as adopted by the European Union (EU). The interim consolidated financial statements also comply with IFRS as issued by the IASB. The Interim Report for the Group was prepared in accordance with the applicable provisions of the WpHG. This Interim Report should be read in conjunction with our Annual Report, which includes detailed analysis of our operations and activities.

Interim group management report

Overview of financial results for the first quarter of fiscal 2008

Net income of 6.475 billion benefited from approximately 5.4 billion related to the sale of Siemens VDO Automotive (SV). Earnings per share (EPS) for the first quarter was 7.04 compared to 0.83 in the same period a year earlier.

Income from continuing operations was 1.078 billion, up 74% from 621 million in the prior-year period. EPS on a continuing basis rose to 1.14 from 0.65.

Group profit from Operations rose 16% year-over-year, to 1.719 billion, as a majority of Groups combined higher profitability with rising revenue.

Revenue climbed 10%, to 18.400 billion, and orders increased 9%, to 24.242 billion. On an organic basis, excluding the net effect of portfolio transactions and currency translation, both revenue and orders rose 8% compared to the prior-year quarter.

Siemens completed two major portfolio transactions, including the sale of SV which generated net proceeds of approximately 11.4 billion within discontinued operations and the purchase of Dade Behring Holdings, Inc. with associated cash outflows of approximately 4.8 billion.

Sale of SV boosts net income and EPS. Net income was 6.475 billion compared to 788 million in the first quarter a year earlier, resulting in EPS of 7.04 compared to 0.83 a year earlier. The increase includes higher income from continuing operations as noted below. Net income also benefited from 5.397 billion in income from discontinued operations, primarily due to the closing of the sale of SV. A year earlier, discontinued operations contributed 167 million to net income in the first quarter. More information on discontinued operations is included below.

Group profit and margins rise in Operations. Income from continuing operations was 1.078 billion, up from 621 million in the first quarter a year earlier. Basic EPS from continuing operations in the first quarter rose to 1.14 from 0.65 in the prior-year period. The two primary factors in this increase were higher Group profit from Operations and lower central costs related to legal and regulatory matters. In particular, the prior-year period included a non-tax-deductible penalty of 423 million related to an earlier EU antitrust investigation involving major manufacturers of gas-isolated switchgear. Financing and Real Estate activities contributed 216 million in income before income tax in the first quarter, up from 152 million a year ago.

The majority of Groups in Operations increased both Group profit and Group profit margin compared to the first quarter a year ago, taking Group profit from Operations up 16% year-over-year, to 1.719 billion. As a general trend, the increase was due to operating leverage combined with rising revenue. Leaders in this regard were Automation and Drives (A&D), Industrial Solutions and Services (I&S) and Power Transmission and Distribution (PTD), which achieved high double-digit growth in Group profit compared to the first quarter a year earlier. Group profit declined at Power Generation (PG) and Transportation Systems (TS), as both Groups took higher charges at major projects compared to the prior-year period. Group profit from Operations in the current period includes a 70 million goodwill impairment within Other Operations, related to a buildings and infrastructure business that is held for disposal.

Discontinued operations included a substantial gain from the sale of SV. Discontinued operations in the first quarter consisted of SV and activities from the former Communications Group (Com). SV was sold during the quarter, leaving the Com activities consisting primarily of enterprise networking activities that are held for disposal. In the current quarter, income from discontinued operations was 5.397 billion compared to 167 million in the same period a year earlier. The difference is due mainly to approximately 5.4 billion related to SV, including operating results along with a substantial gain on the sale of the business.

Table of Contents

The result for Com activities in the first quarter was a negative 51 million, including an impairment of long-lived assets as well as expenses for outside advisors engaged in connection with investigations into alleged violations of anti-corruption laws and related matters. The result in the prior-year quarter was a positive 94 million, due primarily to profitable carrier activities from Com that were transferred into Nokia Siemens Networks B.V. (NSN) between the periods under review. In addition, both periods included small amounts related to the Mobile Devices business.

Strong growth is well balanced. Nearly all Groups within Operations increased their revenue on an organic basis compared to the first quarter a year earlier. Groups with double-digit increases included A&D, PTD, PG and I&S. Similarly, a majority of Groups booked a higher level of new orders year-over-year, led by PG and A&D with first-quarter orders of 5.892 billion and 4.783 billion, respectively. From a geographic perspective, topline growth was regionally balanced. The exception was Germany, where revenue and orders came in lower year-over-year primarily due to a high basis of comparison in the prior-year period, particularly involving PG.

Return on capital employed (ROCE) and free cash flow improve. Net proceeds from the sale of SV amounted to approximately 11.4 billion during the first quarter, and cash payments related to Med's acquisition of Dade Behring Holdings, Inc. (Dade Behring) totaled approximately 4.8 billion (net of 68 million cash acquired). Free cash flow from continuing operations for the first quarter improved to a negative 217 million compared to a negative 360 million in the same quarter a year earlier. Within this change, free cash flow from the Groups in Operations improved to 680 million from 6 million in the prior-year period. The cash conversion rate for continuing operations in the current quarter was a negative 0.20. ROCE from continuing operations for the first quarter was 11.6%. ROCE from continuing operations for fiscal 2007 was 12.7%. As expected, ROCE development in the current period was affected by a substantial increase in capital employed stemming from major acquisitions completed in the current quarter and in fiscal 2007. This effect will continue in coming quarters.

Expenses recorded for compliance activities. We incurred 127 million in expenses in the first quarter for outside advisors engaged in connection with investigations into alleged violations of anti-corruption laws and related matters as well as remediation activities. The total for continuing operations was 93 million, with the remaining 34 million related to discontinued operations. More information regarding these matters is provided in Legal proceedings below.

Table of Contents**Results of Siemens****Results of Siemens First quarter of fiscal 2008**

The following discussion presents selected information for Siemens for the first quarter of fiscal 2008:

Despite somewhat less favorable macroeconomic conditions in the first quarter, Siemens generated strong international growth. First quarter revenue rose 10%, and orders climbed 9% year-over-year. On an organic basis, excluding the net effect of currency translation and portfolio transactions, revenue and orders both rose 8%. Europe outside Germany, Siemens' largest regional market, was also one of its fastest growing. The Asia-Pacific region continued its robust growth, fueled by ongoing infrastructure investments. The Americas delivered 9% expansion on an organic basis. The region comprised of Africa, the Near and Middle East and the Commonwealth of Independent States (C.I.S.) continued to post strong growth. Revenue and orders in Germany both came in lower year-over-year, primarily due to PG which saw a substantial swing in volume from Germany in the prior-year quarter to the rest of Europe in the current quarter.

New Orders (location of customer)

(in millions)	First quarter		% Change vs. previous year		therein	
	2008	2007	Actual	Adjusted*	Currency	Portfolio
Germany	3,505	4,222	(17)%	(20)%	0%	3%
Europe (other than Germany)	8,261	7,071	17%	14%	(1)%	4%
Americas	6,102	5,768	6%	9%	(10)%	7%
Asia-Pacific	3,824	2,804	36%	32%	(3)%	7%
Africa, Near and Middle East, C.I.S.**	2,550	2,379	7%	9%	(3)%	1%
Siemens	24,242	22,244	9%	8%	(3)%	4%

* Excluding currency translation and portfolio effects.

** Commonwealth of Independent States.

Asia-Pacific and Europe outside Germany both posted double-digit order growth compared to the first quarter a year earlier. Within the Asia-Pacific region, I&S, A&D and TS achieved the fastest growth. The strongest increases in Europe outside Germany came at PG, PTD, A&D and Med. Within Asia-Pacific, orders jumped 69% in India and 61% in China compared to the prior-year period. First-quarter orders in the United States, which included new volume from acquisitions at Med and A&D and a substantial increase in new contracts at PG, climbed 21% year-over-year despite strong negative currency translation effects. Orders in the Africa, Near and Middle East and C.I.S. region rose despite a high basis of comparison in the first quarter a year earlier, when PTD obtained an order worth 700 million. Expansion in the current quarter included strong growth at TS, PG and I&S. The decline in orders in Germany compared to the prior-year three-month period involved especially PG and TS, while A&D saw rising order activity.

Revenue (location of customer)

(in millions)	First quarter		% Change vs. previous year		therein	
	2008	2007	Actual	Adjusted*	Currency	Portfolio

* Excluding currency translation and portfolio effects.

** Commonwealth of Independent States.

Table of Contents

Double-digit revenue growth in Europe outside Germany was broad-based, as all Groups within Operations posted increases compared to the first quarter a year earlier. In Asia-Pacific, growth was nearly as well balanced, with all groups, except PG and PTD, showing higher first quarter revenue year-over-year. From a geographic perspective, India and China were on pace with the region as a whole, delivering revenue growth of 15% and 13%, respectively. Revenue rose more modestly in the Americas, as new volume from the acquisitions mentioned above was more than offset by considerable weakening of the U.S. dollar against the euro between the periods under review. A&D, Med and PG were the highlights for the region, and U.S. revenues were up 9% on an organic basis. The Africa, Near and Middle East and C.I.S. region achieved 10% organic growth in the first quarter, benefiting from large infrastructure orders in prior periods. The pace-setter for the region was Russia, where a majority of Groups recorded at least double-digit increases in revenue compared to the same period a year ago.

(in millions)	First quarter		% Change
	2008	2007	
Gross profit on revenue	5,305	4,465	19%
<i>as percentage of revenue</i>	28.8%	26.7%	

Gross profit for the first quarter of fiscal 2008 climbed 19% year-over-year, as nearly all Groups in Operations increased their gross profit. Only PG posted a small decrease due primarily to project charges. Gross profit margin overall increased to 28.8% from 26.7% a year earlier, including higher gross profit margins at most Groups. Margins increased substantially at A&D and PTD, which combined strong revenue growth with increased operating leverage, and at SIS, which benefited from an improved cost position. The increased A&D and Med proportion of the Siemens business volume also contributed to a higher gross profit margin.

(in millions)	First quarter		% Change
	2008	2007	
Research and development expenses	(847)	(725)	17%
<i>as percentage of revenue</i>	4.6%	4.3%	
Marketing, selling and general administrative expenses	(3,055)	(2,672)	14%
<i>as percentage of revenue</i>	16.6%	16.0%	
Other operating income	190	213	(11)%
Other operating expense	(206)	(498)	(59)%
Income from investments accounted for using the equity method, net	108	143	(24)%
Financial income (expense), net	22	11	100%

Research and development expenses increased to 847 million, led by higher outlays due to growth at Med and A&D. R&D expenses as a percent of revenue were 4.6%, higher than 4.3% in the prior-year quarter, which resulted from the increased A&D and Med proportion of the Siemens business volume.

Marketing, selling and general administrative (SG&A) expenses in the first quarter increased year-over-year, particularly marketing and selling outlays due to growth at Med and A&D. SG&A expenses as a percentage of revenue were 16.6%, higher than 16.0% in the prior-year quarter due to the increased A&D and Med proportion of the Siemens business volume.

Other operating income was 190 million in the first quarter of fiscal 2008, compared to 213 million a year earlier. Gains on sales of property, plant and equipment and intangibles were 112 million compared to 57 million in the same quarter a year earlier. Gains on disposals of businesses in the current quarter were 45 million, benefiting from a 36 million gain at A&D. A year earlier, gains of 110 million included 76 million on the sale of a locomotive leasing business at TS.

Other operating expense fell significantly year-over-year, to 206 million. Major items in the current quarter were the 93 million in expenses for external advisors mentioned above and 73 million in goodwill impairments, including goodwill impairment of 70 million related to a buildings and infrastructure business that is held for disposal. Other operating expense of 498 million in the prior-year quarter included the 423 million antitrust penalty mentioned above, as well as 50 million in funding primarily for job placement companies for former Siemens employees affected by the

bankruptcy of BenQ GmbH & Co. OHG (BenQ).

Table of Contents

Income from investments accounted for using the equity method, net was 108 million compared to 143 million in the same period a year earlier. The change was due mainly to an equity investment loss of 37 million in the current period related to our equity stake in NSN, which was formed between the periods under review.

(in millions)	First quarter		% Change
	2008	2007	
Income from continuing operations before income taxes	1,517	937	62%
Income taxes	(439)	(316)	39%
<i>as percentage of income from continuing operations before income taxes</i>	29%	34%	
Income from continuing operations	1,078	621	74%
Income from discontinued operations, net of income taxes	5,397	167	>200%
Net income	6,475	788	>200%
Net income attributable to minority interest	43	49	
Net income attributable to shareholders of Siemens AG	6,432	739	>200%

Income from continuing operations before income taxes climbed 62% compared to the prior-year quarter, to

1.517 billion. The primary factors in this increase were higher revenue combined with higher margins and lower expenses related to legal and regulatory matters as mentioned above. The effective tax rate was 29% in the current quarter of fiscal 2008 compared to 34% in the prior-year period, which included the non-tax deductible antitrust penalty. As a result, income from continuing operations in the first quarter was 1.078 billion, up 74% from 621 million a year earlier.

Discontinued operations include the enterprise networks business, which is held for disposal, the carrier-related business, which was transferred into NSN, the Mobile Devices business sold to BenQ Corporation, and SV, which was transferred to Continental AG in the first quarter of fiscal 2008. SV is included within discontinued operations on a retroactive basis to provide a meaningful comparison with prior periods. In the current quarter, income from discontinued operations was 5.397 billion compared to 167 million in the same period a year earlier. The difference is due mainly to approximately 5.4 billion related to SV, including operating results along with a substantial gain on the sale of the business. The result for Com activities in the first quarter was a negative 51 million, including an impairment charge of long-lived assets as well as expenses for outside advisors engaged in connection with investigations into alleged violations of anti-corruption laws and related matters. The result in the prior-year quarter was a positive 94 million, due primarily to profitable carrier activities from Com that were transferred into NSN between the periods under review. In addition, both periods included small amounts related to the Mobile Devices business. For additional information with respect to discontinued operations, see Notes to Interim Consolidated Financial Statements.

Net income for Siemens in the first quarter was 6.475 billion compared to 788 million in the same period a year earlier. Net income attributable to Shareholders of Siemens AG was 6.432 billion, up from 739 million in the prior-year quarter.

Portfolio activities

At the beginning of November 2007, we completed our acquisition of Dade Behring. Med is now integrating Dade Behring into its Diagnostics division together with two other acquisitions made in prior years: Diagnostic Products Corporation (DPC) and the diagnostics division of Bayer AG (Bayer). The acquisition in the current quarter expands Med's position in the growing laboratory diagnostics market and is strongly complementary to the prior Diagnostics acquisitions. The aggregate consideration, including the assumption of debt, amounts to approximately 4.8 billion (including 68 cash acquired). We have not yet finalized the purchase price allocation (PPA) for this transaction. More information on PPA and integration costs related to the acquisitions mentioned here are described in more detail below in Segment Information Analysis.

Table of Contents

At the beginning of December 2007, we closed the sale of SV to Continental AG of Germany. Aggregate consideration was approximately 11.4 billion net of cash sold.

We completed certain other portfolio transactions during the first quarter which did not have a significant effect on our Interim Consolidated Financial Statements. For further information on acquisitions and dispositions, see Notes to Interim Consolidated Financial Statements.

Segment information analysis**Operations****Automation and Drives (A&D)**

(in millions)	2008	2007	First quarter	
			Actual	% Change Adjusted*
Group profit	655	450	46%	
Group profit margin	16.0%	13.3%		
Revenue	4,088	3,390	21%	16%
New orders	4,783	4,019	19%	15%

* Excluding currency translation effects of (3)% on revenue and orders, and portfolio effects of 8% and 7% on revenue and orders, respectively.

Group profit at A&D jumped 46% over the prior-year first quarter, to 655 million, including a 36 million gain on the sale of a business. The Group achieved significant operating leverage on expanded revenue, resulting in particularly strong earnings increases at divisions including Industrial Automation, Motion Control Systems, Large Drives, Mechanical Drives, and Low Voltage Controls and Distribution. Group profit includes purchase price accounting (PPA) effects and integration costs associated with UGS Corp. (UGS), which A&D acquired between the periods under review, and Flender Holding GmbH (Flender), acquired in fiscal 2005. PPA effects amounted to 58 million and integration costs totaled 5 million in the current period. These impacts together sliced 150 basis points from Group profit margin for the quarter. For comparison, PPA and integration costs associated with Flender in the prior-year quarter totaled 10 million. A&D's competitive strength was evident in topline growth, including a 21% increase in revenue year-over-year and orders of 4.783 billion, up 19% to a record high. These results include new volume from UGS.

Industrial Solutions and Services (I&S)

(in millions)	2008	2007	First quarter	
			Actual	% Change Adjusted*
Group profit	121	90	34%	
Group profit margin	5.4%	4.3%		

Revenue	2,251	2,073	9%	12%
New orders	3,292	3,057	8%	10%

* Excluding currency translation effects of (3)% and (2)% on revenue and orders, respectively.

I&S opened fiscal 2008 with a strong first quarter. Group profit of 121 million was 34% higher than in the same period a year earlier, highlighted by higher earnings in the Metal Technologies, Industrial Services, Oil, Gas, Marine Solutions and Infrastructure Logistics divisions. The latter division includes the Group's airport logistics and postal automation businesses, which were merged effective with the beginning of the current quarter. For I&S overall, first-quarter revenue rose 9% year-over-year. Orders increased 8% compared to the strong first quarter a year earlier, as both periods included a number of major contract wins.

Table of Contents**Siemens Building Technologies (SBT)**

(in millions)	First quarter			
	2008	2007	Actual	% Change Adjusted*
Group profit	78	72	8%	
Group profit margin	6.5%	5.9%		
Revenue	1,201	1,213	(1)%	4%
New orders	1,295	1,386	(7)%	(2)%

* Excluding currency translation effects of (4)% on revenue and orders, and portfolio effects of (1)% on revenue and orders.

SBT delivered higher Group profit and improved its Group profit margin compared to the first quarter a year earlier. Revenue was nearly level year-over-year despite strong negative currency translation effects, while orders reflected both the currency effects and a weaker environment in the United States.

Osram

(in millions)	First quarter			
	2008	2007	Actual	% Change Adjusted*
Group profit	126	123	2%	
Group profit margin	10.6%	10.5%		
Revenue	1,193	1,174	2%	7%
New orders	1,193	1,174	2%	7%

* Excluding currency translation effects of (5)% on revenue and orders.

Osram contributed 126 million in Group profit in the first quarter, primarily on strong performances in the General Lighting and Automotive Lighting divisions. Demand for energy-efficient lighting solutions contributed to topline growth, taking first-quarter revenue and orders higher year-over-year despite negative currency translation effects. During the quarter Osram received regulatory approval to expand its manufacturing capacity in China, which is expected to enable the Group to better meet growing demand from high-growth markets in Asia-Pacific and Latin America.

Transportation Systems (TS)

(in millions)	First quarter			
	2008	2007	Actual	% Change Adjusted*
Group profit	22	47	(53)%	
Group profit margin	2.1%	4.4%		
Revenue	1,048	1,073	(2)%	(1)%
New orders	1,440	1,219	18%	20%

* Excluding currency translation effects of (1)% and (2)% on revenue and orders, respectively.

Group profit at TS in the first quarter included charges of 32 million for Combino. For comparison, charges at major projects in the prior-year quarter were more than offset by a 76 million net gain on the sale of the Group's locomotive leasing business. Revenue of 1.048 billion came in 2% lower than the prior-year level. First-quarter orders climbed 18% year-over-year, to 1.440 billion, on a higher number of major orders.

Table of Contents**Power Generation (PG)**

(in millions)	First quarter			
	2008	2007	Actual	% Change Adjusted*
Group profit	135	169	(20)%	
Group profit margin	4.5%	6.2%		
Revenue	2,969	2,726	9%	11%
New orders	5,892	5,017	17%	20%

* Excluding currency translation effects of (4)% on revenue and orders, and portfolio effects of 2% and 1% on revenue and orders, respectively.

First-quarter Group profit at PG was 135 million compared to 169 million in the prior-year quarter. Revenue rose 9% year-over-year and orders reached 5.892 billion, a 17% increase from an already high basis of comparison in the prior-year period. PG's fossil services, wind power, and oil, gas and industrial applications businesses each delivered higher earnings and higher profit margins compared to the first quarter a year earlier. They also accounted for the Group's topline growth, highlighted by PG's largest-ever offshore wind farm order, in Denmark, and a major power modernization project in Russia. In contrast, the fossil power solutions business posted a substantial loss on lower revenue. This was due primarily to more than 200 million in charges involving a number of large projects, including a new power generation system in Finland. For comparison, the fossil solutions business posted a smaller loss on lower charges in the same period a year earlier. Equity investment income contributed 15 million to PG's Group profit compared to 21 million in the prior-year quarter, with the portion related to Areva NP unchanged year-over-year. PG expects volatility in equity investment earnings in coming quarters.

Power Transmission and Distribution (PTD)

(in millions)	First quarter			
	2008	2007	Actual	% Change Adjusted*
Group profit	204	130	57%	
Group profit margin	10.4%	7.5%		
Revenue	1,956	1,728	13%	15%
New orders	2,809	3,146	(11)%	(9)%

* Excluding currency translation

effects of (2)%
on revenue and
orders.

PTD delivered Group profit of 204 million for the first quarter, a 57% jump year-over-year. Higher revenue enabled all divisions within PTD to increase their earnings, and increased operating leverage lifted Group profit margin into double-digit territory. In a strong global market for secure, high-efficiency power transmission and distribution, PTD posted a 13% increase in revenue compared to the prior-year quarter. Orders for the quarter came in well above revenue, but below the prior-year level which included a 700 million contract in the Middle East.

Table of Contents**Medical Solutions (Med)**

(in millions)	First quarter			
	2008	2007	Actual	% Change Adjusted*
Group profit	332	304	9%	
Group profit margin	12.5%	14.5%		
Revenue	2,653	2,102	26%	2%
New orders	2,806	2,211	27%	5%

* Excluding currency translation effects of (6)% and (7)% on revenue and orders, respectively, and portfolio effects of 30% and 29% on revenue and orders, respectively.

Med's Group profit grew to 332 million in the first quarter, a rise of 9% compared to the prior-year period. The increase benefited from the Diagnostics division, which closed its acquisition of Dade Behring and reported earnings of 67 million on revenue of 712 million in the first quarter. Group profit includes PPA effects totaling 51 million and integration costs of 35 million associated with Dade Behring and other Diagnostics acquisitions. These effects in turn sliced 320 basis points from Med's Group profit margin for the quarter. For comparison, PPA and integration costs associated with the Diagnostics division in the prior-year quarter totaled 14 million. Med's imaging and IT business sustained its profitability year-over-year. Revenue and orders rose 26% and 27%, respectively, as Med more than offset strong negative currency translation effects and a significantly weaker market in the U.S. with substantial new volume from acquisitions.

Siemens IT Solutions and Services (SIS)

(in millions)	First quarter			
	2008	2007	Actual	% Change Adjusted*
Group profit	70	26	169%

effects of (2)%
on revenue and
orders, and
portfolio effects
of 3% on orders.

SIS posted 70 million in Group profit, benefiting from an improved cost structure. Revenue rose compared to the first quarter a year earlier. Orders came in below the prior-year level, which contained a higher number of large contracts.

Strategic Equity Investments (SEI)

SEI includes results from investments accounted for under the equity method from three companies in which Siemens holds a strategic equity stake: NSN, BSH Bosch und Siemens Hausgeräte GmbH (BSH), and Fujitsu Siemens Computers (Holding) B.V. (FSC). SEI contributed equity investment income of 26 million in the first quarter compared to 52 million in the same period a year earlier. The change year-over-year was due largely to NSN, which was formed between the periods under review and therefore not included in the prior-year result. Restructuring and integration programs resulted in 120 million in charges at NSN. As a result, Siemens incurred an equity investment loss of 37 million related to NSN.

Other Operations

Other Operations consist of centrally held business activities, shared services and other costs not allocated to a Group. The result of Other Operations in the current period was a negative 50 million compared to a positive 22 million in the first quarter a year earlier. The difference is due primarily to a goodwill impairment of 70 million related to a buildings and infrastructure business that is held for disposal. Siemens Home and

Table of Contents

Office Communication Devices (SHC) posted first-quarter Group profit of 14 million, up slightly year-over-year. Revenue for Other Operations declined to 708 million from 800 million in the first quarter a year earlier, including lower revenue at SHC year-over-year and the sale of a business between the periods under review.

Reconciliation to financial statements

Reconciliation to financial statements includes various categories of items which are not allocated to the Groups because the Managing Board has determined that such items are not indicative of Group performance.

Corporate items, pensions and eliminations

Corporate items, pensions and eliminations totaled a negative 307 million in the first quarter, compared to a negative 658 million in the prior-year quarter. The major factor in the change was Corporate items, which improved to a negative 328 million from a negative 631 million a year ago due primarily to lower costs for legal and regulatory matters. In particular, the prior-year period included a non-tax-deductible penalty of 423 million related to an earlier EU antitrust investigation involving major suppliers of gas-isolated switchgear, and also charges primarily for job placement companies for former Siemens employees affected by the bankruptcy of BenQ. The current period included 93 million in costs for outside advisors engaged by Siemens in connection with investigations into alleged violations of anti-corruption laws and related matters as well as remediation activities. Centrally carried pension expense swung to a positive 23 million from a negative 25 million in the first quarter a year ago, which included a one-time charge resulting from a change in German law.

Other interest expense

Other interest expense of Operations for the first quarter of fiscal 2008 was 121 million compared to 88 million in the same quarter a year earlier. The change was mainly due to increased intra-company financing of Operations by Corporate Treasury year-over-year.

Financing and Real Estate**Siemens Financial Services (SFS)**

(in millions)	First quarter		% Change
	2008	2007	
Income before income taxes	77	83	(7)%
	Dec. 31, 2007	Sept. 30, 2007	
Total assets	8,933	8,912	0%

Income before income taxes (IBIT) at SFS was 77 million compared to 83 million in the first quarter a year earlier, which benefited from a gain on the sale of an investment in the Equity division.

Siemens Real Estate (SRE)

(in millions)	First quarter		% Change
	2008	2007	
Income before income taxes	139	69	101%
Revenue	394	421	(6)%

	Dec. 31, 2007	Sept. 30, 2007	
Total assets	3,145	3,091	2%

Income before income taxes at SRE rose to 139 million in the first quarter from 69 million in the same period a year earlier, due primarily to increased gains from sales of real estate. Real estate disposals are expected to continue in coming quarters.

Eliminations, reclassifications and Corporate Treasury

Income before income taxes from Eliminations, reclassifications and Corporate Treasury was 10 million in the first quarter compared to 46 million in the same period a year earlier. The difference was mainly due to negative results from hedging activities not qualifying for hedge accounting.

Table of Contents**Reconciliation to EBITDA**

The following table gives additional information on topics included in Group profit and Income before income taxes and provides a reconciliation to EBITDA (adjusted):

Table of Contents**Liquidity, capital resources and capital requirements****Cash flow First three months of fiscal 2008 compared to first three months of fiscal 2007**

The following discussion presents an analysis of Siemens' cash flows for the first quarter of fiscal 2008 and 2007. The first table below presents cash flows for both continuing and discontinued operations. The latter category includes SV which was sold to Continental AG as well as the former Com activities, in particular the enterprise networks business which is held for sale, and cash flows related to the carrier-related business which was transferred into NSN. For further information on discontinued operations, see Notes to Interim Consolidated Financial Statements. The second table below focuses on continuing operations.

Siemens reports as a performance measure, Free cash flow, which is defined as Net cash provided by (used in) operating activities less cash used for Additions to intangible assets and property, plant and equipment. We believe this measure is helpful to our investors as an indicator of our ability to generate cash from operations and to pay for discretionary and non-discretionary expenditures not included in the measure, such as dividends, debt repayment or strategic investments. We also use Free cash flow to compare cash generation among the segments (for further information, refer to Notes to Interim Consolidated Financial Statements Segment Information).

		Continuing operations		Discontinued operations First quarter		Continuing and discontinued operations	
(in millions)		2008	2007	2008	2007	2008	2007
Net cash provided by (used in):							
Operating activities	A	487	253	(480)	(829)	7	(576)
Investing activities		(5,267)	(1,370)	10,896	(264)	5,629	(1,634)
Herein: Additions to intangible assets and property, plant and equipment

Cash Flow.

Other
companies that
use Free cash
flow may define
and calculate
Free cash flow
differently.

Operating activities provided net cash of 7 million in the first three months, compared to net cash used of 576 million in the same period of the prior year. These results include both continuing operations and discontinued operations. Within the total, continuing operations provided net cash of 487 million, up from 253 million a year earlier. Discontinued operations improved to net cash used of 480 million in the current period, compared to net cash used of 829 million in the prior period, which included higher cash outflows related to the carrier activities that were

transferred into NSN between the periods under review. In addition, the current period includes a 201 million payment for a previously disclosed fine imposed by the Munich district court, which is related to the investigation of Com activities by the Munich Office of Public Prosecution.

Investing activities in continuing operations and discontinued operations provided net cash of 5.629 billion in the first three months of fiscal 2008 compared to net cash used of 1.634 billion in the prior-year period. Within the total, continuing operations used net cash of 5.267 billion, up from 1.370 billion a year earlier. Discontinued operations provided 10.896 billion in net cash during the current period, due primarily to proceeds of approximately 11.4 billion from the sale of SV.

Table of Contents

Continuing operations		Operations		SFS, SRE and Corporate Treasury*		Siemens	
				First quarter			
(in millions)		2008	2007	2008	2007	2008	2007
Net cash provided by (used in):							
Operating activities	A	16	(447)	471	700	487	253
Investing activities		(4,829)	(912)	(438)	(458)	(5,267)	(1,370)
Herein: Additions to intangible assets and property, plant and equipment							
	B	(506)	(487)	(198)	(126)	(704)	(613)
Free cash flow	A+B	(490)	(934)	273	574	(217)	(360)

* Also includes eliminations and reclassifications.

Within Operations, net cash provided by **operating activities** from continuing operations improved to 16 million in the first three months of fiscal 2008 compared to net cash used of 447 million in the same period a year earlier. The improvement is due primarily to higher net cash provided by PG, TS and I&S related to net working capital management, and by A&D, which had a substantial increase in Group profit. Within Corporate Treasury and Financing and Real Estate, operating activities from continuing operations provided net cash of 471 million in current quarter, compared to net cash provided of 700 million in the same period a year earlier. The change year-over-year was due primarily to reduced cash inflows related to net working capital in the current period. For Siemens overall, net cash provided by operating activities from continuing operations improved to 487 million in the first quarter, up from 253 million in the prior-year quarter.

Net cash used in **investing activities** in continuing operations was 4.829 billion within Operations in the first three months of fiscal 2008, significantly higher compared to 912 million used in the prior-year period. The difference year-over-year is due primarily to the acquisition of Dade Behring at Med for approximately 4.4 billion net of 68 million cash acquired, while the prior-year period included a first payment of 0.4 billion related to the acquisition of Bayer's diagnostic business at Med as well as a payment to acquire AG Kühnle, Kopp & Kausch at PG. Corporate Treasury and Financing and Real Estate used net cash in investing activities in continuing operations of 438 million in the current period compared to 458 million cash used a year earlier. Siemens as a whole used net cash in investing activities in continuing operations of 5.267 billion in the first quarter of fiscal 2008 compared to net cash used of 1.370 billion in the same period a year earlier.

Free cash flow from continuing operations for Siemens improved to a negative 217 million in the current period, down from a negative 360 million in the same period a year earlier. The change year-over-year is due to the increase in net cash provided by the Group's operating activities as mentioned above. Accordingly, free cash flow from the Groups in Operations improved to 680 million from 6 million in the prior-year period. The cash conversion rate for continuing operations, calculated as Free cash flow from continuing operations divided by Income from continuing operations, was a negative 0.20 in the current quarter.

Financing activities from continuing and discontinued operations used net cash of 4.027 billion compared to net cash provided of 850 million in the first quarter a year earlier. In the current period, short-term debt was reduced by 3.573 billion, mainly due to the repayment of commercial paper and medium term notes and the repayment of debt originally raised by Dade Behring in the amount of 0.4 billion, while in the prior-year period the issuance of commercial paper programs contributed to a net increase in short-term debt of 1.022 billion.

Capital resources and requirements

Our capital resources are comprised of cash and cash equivalents, current available-for-sale financial assets, total equity and cash flow from operating activities. Our capital requirements include scheduled debt service, regular capital spending and ongoing cash requirements from operating activities.

Net liquidity results from total liquidity, comprised of Cash and cash equivalents and available-for-sale financial assets, less total debt, comprised of short-term debt and current maturities of long-term debt and long-term debt. Total debt relates to our commercial paper, medium-term notes, bonds, loans from banks and obligations under finance leases as stated on the Consolidated Balance Sheets. We use the net liquidity measure for internal corporate finance management, as well as external communication with investors, analysts and rating agencies. Net liquidity should not be interpreted as signifying that the net liquidity amount is entirely free for discretionary application.

Table of Contents

	December 31, 2007	September 30, 2007
(in millions)		
Cash and cash equivalents	6,158	4,005
Current available-for-sale financial assets	198	193
Total liquidity	6,356	4,198
Short-term debt and current maturities of long-term debt	2,273	5,637
Long-term debt	9,725	9,860
Total debt	11,998	15,497

Net liquidity **(5,642)** **(11,299)**

Net liquidity increased from a negative 11.299 billion as of September 30, 2007 to a negative 5.642 billion as of December 31, 2007. For further information please refer to the Cash flow discussion above.

Pension plan funding

At the end of the first three months of fiscal 2008, the combined funding status of Siemens principal pension plans showed an estimated underfunding of 0.5 billion, compared to an underfunding of 1.0 billion at the end of fiscal 2007. The improvement in funding status is due to an increase in the discount rate assumption at December 31, 2007, reducing Siemens estimated defined benefit obligation, and furthermore due to contributions, the disposal of Siemens VDO pension liabilities and the actual return on plan assets. Altogether this more than outbalanced the negative effect of service and interest cost on the defined benefit obligation. The actual return on plan assets during the last three months amounted to 99 million. This represents a 1.8% return, compared to the expected return of 6.5%.

The fair value of plan assets of Siemens principal funded pension plans as of December 31, 2007, was 23.6 billion, compared to 24.0 billion on September 30, 2007. In the first three months of fiscal 2008, employer contributions amounted to 393 million compared to 316 million in the first three months of the prior fiscal year.

The estimated defined benefit obligation (DBO) for Siemens principal pension plans amounted to 24.1 billion as of December 31, 2007. This was approximately 0.9 billion lower than the DBO of 25.0 billion on September 30, 2007. This decrease was due to the disposal of Siemens VDO pension liabilities, an increase in the discount rate assumption at December 31, 2007, and currency translation effects. Altogether this more than outbalanced the negative effect of service and interest cost less benefits paid during the three month period.

For more information on Siemens pension plans, see Notes to Interim Consolidated Financial Statements.

Risk management

The risk situation and the risk management, as presented in our Annual Report as of September 30, 2007, did not change considerably in the first quarter of fiscal 2008. We do not expect to incur any risks that can jeopardize the continuity of the Company's business.

For information regarding legal, compliance and regulatory developments, please refer to Legal proceedings below. For information concerning forward-looking statements and additional information, please also refer to Outlook and the Disclaimer at the end of the Interim group management report.

Legal proceedings

As previously reported, public prosecutors and other government authorities in jurisdictions around the world are conducting investigations of Siemens and certain of our current and former employees regarding allegations of public corruption, including criminal breaches of fiduciary duty including embezzlement, as well as bribery, money laundering and tax evasion, among others. These investigations involve allegations of corruption at a number of Siemens business Groups.

For more information regarding these and other legal proceedings in which Siemens is involved, as well as the potential risks associated with such proceedings and their potential financial impact on the Company, please refer to Siemens Annual Report for the fiscal year ended September 30, 2007 (Annual Report) and its annual report on Form 20-F for the fiscal year ended September 30, 2007 (Form 20-F), and, in particular, to the information contained in

Item 3: Key Information Risk Factors , Item 4: Information on the Company Legal Proceedings , Item 5: Operating

Table of Contents

Developments regarding investigations and legal proceedings that have occurred since the publication of Siemens Annual Report and Form 20-F include:

Authorities in Nigeria have conducted searches of the premises of Siemens Ltd. Nigeria in connection with an investigation into alleged illegal payments to Nigerian public officials between 2002 and 2005. According to press accounts, the Nigerian government has announced that it will suspend dealings with Siemens pending the results of the investigation.

On December 11, 2007, the Norwegian public prosecutor's office conducted a search of Siemens AS Norway's offices as well as several private homes in connection with payments made by Siemens for golf trips in 2003 and 2004, which were attended by members of the Norwegian Department of Defense. In light of this and the previously reported investigation of allegations of bribery and overcharging of the Department of Defense related to the awarding of a contract for the delivery of communication equipment, the Department of Defense has announced that it will not conduct further business with Siemens at this time.

The public prosecutor in Milan is investigating allegations as to whether two employees of Siemens S.p.A. made illegal payments to employees of the state-owned gas and power group ENI. In November 2007, the public prosecutor filed charges against the two employees, Siemens S.p.A. and one of its subsidiaries, as well as against other individuals and companies not affiliated with Siemens.

Authorities in Russia have conducted a search of Siemens premises in Ekaterinenburg and Moscow in connection with an investigation into alleged embezzlement of public funds when awarding contracts to Siemens for the delivery of medical equipment to public authorities in Ekaterinenburg in the years 2003 to 2005. An employee of Siemens Russia has been arrested in connection with this investigation.

The Vienna Public Prosecutors have announced an investigation into payments relating to Siemens AG Austria and its subsidiary VAI for which a valid consideration could not be identified.

On January 22, 2008, the Malaysian Anti-Corruption Agency executed a search warrant at the premises of Siemens Malaysia and requested interviews with several employees of Siemens Malaysia in connection with an investigation into a project involving the PTD group.

Siemens has been contacted by representatives of regional development banks, including the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development and the European Investment Bank regarding anti-corruption inquiries and other matters of relevance to them.

As previously reported, in connection with the investigation relating to an agreement entered into by Siemens with an entity controlled by the former head of the independent employee association AUB (Arbeitsgemeinschaft Unabhängiger Betriebsangehöriger), in April 2007, a former member of the Managing Board was arrested and subsequently posted bail in the amount of 5 million and was released from custody. In connection with the posting of bail, a bank issued a bond (Bankbürgschaft) in the amount of 5 million, 4.5 million of which was guaranteed by the Company pursuant to the provisions of German law. The warrant associated with the arrest of the former member of the Managing Board has since been revoked and the bank bond, as well as the Company's guarantee thereof, has been released.

Debevoise & Plimpton LLP, an independent external law firm engaged by the Company to conduct an independent and comprehensive investigation to determine whether anti-corruption regulations have been violated and to conduct an independent and comprehensive assessment of the Company's compliance and control systems, has reported that it is investigating leads generated by the Company's amnesty program, as well as other

sources.

On January 4, 2008, the Competition Authority of Slovakia imposed a fine of 3.3 million on Siemens and VA Tech in connection with an investigation into possible anti-trust violations in the market for high-voltage gas-insulated switchgear. We have filed an appeal against this decision.

Table of Contents

In December 2007, a suit and motion for approval of a class action was filed in Israel to commence a class action based on the fines imposed by the European Commission for alleged anti-trust violations in connection with high-voltage gas-insulated switchgear. Thirteen companies have been named as defendants in the suit and motion, among them Siemens AG Germany, Siemens AG Austria and Siemens Israel Ltd. The class action alleges damages to electricity consumers in Israel in the amount of approximately 575 million related to higher electricity prices claimed to have been paid because of the alleged anti-trust violations. The court has not yet ruled on the motion for approval of the class action.

The Company remains subject to corruption-related investigations in the United States and other jurisdictions around the world. As a result, additional criminal or civil sanctions could be brought against the Company itself or against certain of its employees in connection with possible violations of law, including the Foreign Corrupt Practices Act (FCPA). In addition, the scope of pending investigations may be expanded and new investigations commenced in connection with allegations of bribery and other illegal acts. The Company's operating activities, financial results and reputation may also be negatively affected, particularly due to imposed penalties, fines, disgorgements, compensatory damages, the formal or informal exclusion from public procurement contracts or the loss of business licenses or permits. In addition to the amounts previously reported, including the fine imposed by the Munich district court, no material charges or provisions for any such penalties, fines, disgorgements or damages have been recorded or accrued as management does not yet have enough information to estimate such amounts reliably. We expect that we will need to record expenses and provisions in the future for penalties, fines or other charges, which could be material, in connection with the investigations. On January 24, 2008, the Company announced, at the Annual Shareholders Meeting, that the Securities and Exchange Commission and the Department of Justice have agreed to begin discussions with the Company in the near future regarding a possible settlement of their investigations into possible violations of U.S. law in connection with allegations of corruption. We will also have to bear the costs of continuing investigations and related legal proceedings, as well as the costs of on-going remediation efforts. Furthermore, changes affecting the Company's course of business or changes to its compliance programs beyond those already taken may be required.

The first quarter of fiscal 2008 included a total of 127 million in expenses for outside advisors engaged by Siemens in connection with the investigations into alleged violations of anti-corruption laws and related matters as well as remediation activities.

Subsequent events

On January 1, 2008, we implemented a new organizational structure, with sectors and subordinated divisions. External financial reporting for the three sectors, which will constitute reportable segments and 14 divisions will begin in the third quarter of fiscal 2008. The Industry sector comprises six divisions: Industry Automation, Drive Technology, Building Technologies, Industry Solutions, Mobility and Osram. The Energy sector will be reported in five divisions: Fossil Power Generation, Renewable Energy, Oil & Gas, Power Transmission, and Power Distribution. Financial results of Service Rotating Equipment will be reflected in Fossil Power Generation and Oil & Gas. The Healthcare sector is composed of three divisions: Imaging & IT, Workflow & Solutions and Diagnostics. All three sectors will be supported by cross-sector organizations that provide IT services (SIS) and financial services (SFS).

Within our strategic Fit₄2010 program, which aims to achieve sustainable and profitable growth and to increase the value of the company, we defined among other goals margin ranges for our businesses. On January 24, 2008, we announced margin ranges for the Industry and Energy sectors and for 14 Divisions. The margin range for the Healthcare sector was previously announced in November 2007 (see Annual Report for fiscal 2007).

Table of Contents

The new margin ranges for the Sectors and Divisions of our strategic Fit₄2010 program are:

Industry Sector: Target range 9 13% (previously 9 11% on a comparable basis)				
Division	Target range 2010		Former target range*	
Industry Automation	12	17%	12	15% (A&D)
Drive Technology	11	16%		
Building Technologies	7	10%	7	9% (SBT)
Osram	10	12%	10	12% (Osram)
Industry Solutions	5	7%	5	7% (I&S)
Mobility	5	7%	5	7% (TS)

Energy Sector: Target range 11 15% (previously 9 13% on a comparable basis)				
Division	Target range 2010		Former target range*	
Fossil Power Generation	11	15%	10	14% (PG)
Renewable Energy	12	16%	5	7% (I&S)
Oil & Gas	10	14%		
Power Transmission	10	14%		
Power Distribution	11	15%	7	10% (PTD)

Healthcare Sector: Target range 14 17% (previously 13 15% on a comparable basis)				
Division	Target range 2010		Former target range*	
Imaging & IT	14	17%		
Workflow & Solutions	11	14%	13	15% (Med)
Diagnostics	16	19%		

* New 2010 target range and previous target range in part not directly comparable due to changed organizational structure.

For information regarding the new members of the Company's Supervisory Board, as elected at the Annual Shareholders' Meeting on January 24, 2008, see Notes to Interim Consolidated Financial Statements.

At the Annual Shareholders' Meeting on January 24, 2008, the Company's shareholders authorized the Company to repurchase up to 10% of the common stock existing on the date of the Annual Shareholders' Meeting. The authorization will become effective as of March 1, 2008, and will remain in force until July 23, 2009. The authorization to acquire Siemens shares as approved at the Annual Shareholders' Meeting on January 25, 2007 (for further information see Consolidated Financial Statements as of September 30, 2007) will terminate on the effective date of the new authorization.

On January 28, 2008, we launched the first tranche of the share buyback program that we had announced in November 2007. Until the end of April 2008, we intend to acquire shares in the amount of approximately 2 billion for the purpose of cancellation and reduction of capital stock and, to a lesser extent, to fulfill obligations arising out of stock compensation programs. We expect to conduct share repurchases with a total volume of up to 10 billion by 2010.

Table of Contents

Outlook

In fiscal 2008, we expect to achieve our previously announced full-year growth targets: increasing our revenue by at least twice the rate of global GDP growth, and increasing Group profit from Operations at a rate at least twice as high as our rate of revenue growth. Potential effects related to compliance matters are not yet quantified. Also effects from our new program to reduce our marketing, selling and administrative expense by 10-20% by the end of 2010 are not yet quantified and are not expected to have a material savings impact already in fiscal 2008.

During fiscal 2008, we intend to continue to sell real estate assets, with corresponding contributions to cash flows and income. We also expect to take measures aimed at streamlining Other Operations. In coming quarters these initiatives may lead to proceeds that affect cash flows, and to charges, gains or losses that affect net income and EPS.

Our business, financial condition or results of operation could suffer material adverse effects as a result of certain other risks. For an overview of the Company's risk factors as well as its opportunities see our Annual Report for fiscal 2007.

Return on capital employed (ROCE), Free cash flow and Cash conversion rate are non-GAAP financial measures. A reconciliation of these amounts to the most directly comparable IFRS financial measures is available on our Investor Relations website under www.siemens.com/ir -> Financial Publications -> Quarterly Reports. Group profit from operations is reconciled to Income before income taxes of Operations under Reconciliation to financial statements in the table Segment Information.

This document contains forward-looking statements and information that is, statements related to future, not past, events. These statements may be identified by words such as expects, looks forward to, anticipates, intends, plans, believes, seeks, estimates, will, project or words of similar meaning. Such statements are based on our current expectations and certain assumptions, and are, therefore, subject to certain risks and uncertainties. A variety of factors, many of which are beyond Siemens' control, affect our operations, performance, business strategy and results and could cause the actual results, performance or achievements of Siemens to be materially different from any future results, performance or achievements that may be expressed or implied by such forward-looking statements. For us, particular uncertainties arise, among others, from changes in general economic and business conditions (including margin developments in major business areas); the challenges of integrating major acquisitions and implementing joint ventures and other significant portfolio measures; changes in currency exchange rates and interest rates; introduction of competing products or technologies by other companies; lack of acceptance of new products or services by customers targeted by Siemens; changes in business strategy; the outcome of pending investigations and legal proceedings, especially the corruption investigations we are currently subject to in Germany, the United States and elsewhere; the potential impact of such investigations and proceedings on our ongoing business including our relationships with governments and other customers; the potential impact of such matters on our financial statements; as well as various other factors. More detailed information about certain of these factors is contained throughout this report and in our other filings with the SEC, which are available on the Siemens website, www.siemens.com, and on the SEC's website, www.sec.gov. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those described in the relevant forward-looking statement as expected, anticipated, intended, planned, believed, sought, estimated or projected. Siemens does not intend or assume any obligation to update or revise these forward-looking statements in light of developments which differ from those anticipated.

(1)

Group profit of the **Operations** Groups is earnings before financing interest, certain pension costs and income taxes and may exclude other categories of items which are not allocated to the Groups since the Managing Board does not regard such items as indicative of the Group's performance.

- (2) Net capital employed of the **Operations** Groups represents total assets less tax assets, provisions and non-interest bearing liabilities other than tax liabilities.
- (3) Free cash flow represents net cash provided by (used in) operating activities less additions to intangible assets and property, plant and equipment.
- (4) Amortization and impairments of intangible assets other than goodwill and depreciation and impairments of

property, plant and equipment.
Goodwill impairment and impairment of non-current available-for-sale financial assets and investments accounted for under the equity method for **Siemens** amount to 87 and 5 for the three months ended December 31, 2007 and 2006, respectively.

- (5) Includes cash paid for income taxes according to the allocation of income taxes to **Operations, Financing and Real Estate, and Eliminations, reclassifications and Corporate Treasury** in the Consolidated Statements of Income. Furthermore, the reclassification of interest payments in the Consolidated Statements of Cash Flow from operating activities into financing activities is shown in **Eliminations**. Interest payments are external interest paid as

well as intragroup
interest paid and
received.

In November 2007, the Company announced plans to organize its operations in the three Sectors Industry, Energy and Healthcare into related Divisions beginning January 2008. The Company's financial reporting will be adapted to reflect the new organizational structure and the new form will be published for the first time in the third quarter of fiscal 2008.

SIEMENS
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(in millions of €, except where otherwise stated and per share amounts)

NOTES

1. Basis of presentation

The accompanying Interim Consolidated Financial Statements present the operations of Siemens AG and its subsidiaries, (the Company or Siemens). The Interim Consolidated Financial Statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and its interpretations issued by the International Accounting Standards Board (IASB), as adopted by the European Union (EU). The Interim Consolidated Financial Statements also comply with IFRS as issued by the IASB.

Siemens prepares and reports its Interim Consolidated Financial Statements in euros (€). Siemens is a German based multinational corporation with a balanced business portfolio of activities predominantly in the field of electronics and electrical engineering.

Interim financial statements The accompanying Consolidated Balance Sheets as of December 31, 2007, the Consolidated Statements of Income and Income and Expense Recognized in Equity for the three months ended December 31, 2007 and 2006, the Consolidated Statements of Cash Flow for the three months ended December 31, 2007 and 2006 and the Notes to Interim Consolidated Financial Statements are unaudited and have been prepared for interim financial information. These interim financial statements have been prepared in compliance with International Accounting Standard (IAS) 34, *Interim financial reporting*, and should be read in connection with the Consolidated Financial Statements prepared for fiscal 2007. The interim financial statements are based on the accounting principles and practices applied in the preparation of the financial statements for fiscal 2007. In the opinion of management, these unaudited Interim Consolidated Financial Statements include all adjustments of a normal and recurring nature and necessary for a fair presentation of results for the interim periods. Results for the three months ended December 31, 2007 are not necessarily indicative of future results.

Financial statement presentation The presentation of the Company's worldwide financial data (**Siemens**) is accompanied by a component model presentation that shows the worldwide financial position, results of operations and cash flows for the operating businesses (**Operations**) separately from those for financing and real estate activities (**Financing and Real Estate**), the Corporate Treasury and certain elimination and reclassification effects (**Eliminations, reclassifications and Corporate Treasury**). These components contain the Company's reportable segments (also referred to as **Groups**). The financial data presented for these components are not intended to present the financial position, results of operations and cash flows as if they were separate entities under IFRS. See also Note 14. The information disclosed in these Notes relates to **Siemens** unless otherwise stated.

Basis of consolidation The Interim Consolidated Financial Statements include the accounts of Siemens AG and its subsidiaries which are directly or indirectly controlled. Control is generally conveyed by ownership of the majority of voting rights. Additionally, the Company consolidates special purpose entities (SPEs) when, based on the evaluation of the substance of the relationship with Siemens, the Company concludes that it controls the SPE. Associated companies – companies in which Siemens has the ability to exercise significant influence over operating and financial policies (generally through direct or indirect ownership of 20% to 50% of the voting rights) – are recorded in the Interim Consolidated Financial Statements using the equity method of accounting. Companies in which Siemens has joint control are also recorded using the equity method.

Use of estimates The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent amounts at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes The current tax expense in interim periods is based on the current estimated annual effective tax rate.

Reclassification The presentation of certain prior-year information has been reclassified to conform to the current year presentation.

Table of Contents

SIEMENS
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(in millions of €, except where otherwise stated and per share amounts)

2. Acquisitions, dispositions and discontinued operations

a) Acquisitions

At the beginning of November 2007, Siemens completed the acquisition of Dade Behring Holdings, Inc. (Dade Behring), USA, a leading manufacturer and distributor of diagnostic products and services to clinical laboratories. Dade Behring, which was consolidated as of November 2007, will be integrated into Medical Solutions (Med) Diagnostics division. The aggregate consideration, including the assumption of debt, amounts to approximately 4.8 billion (including 68 cash acquired). The company has not yet finalized the purchase price allocation. Based on the preliminary purchase price allocation, approximately 1,238 was allocated to intangible assets subject to amortization and approximately 3,241 was recorded as goodwill.

b) Dispositions and discontinued operations

ba) Siemens VDO Automotive (SV)

At the beginning of December 2007, Siemens sold its SV activities to Continental AG, Hanover, Germany for a sales price of approximately 11.4 billion. The transaction resulted in a preliminary gain, net of related costs of 5,523 which is included in discontinued operations. The historical results of SV are reported as discontinued operations in the Consolidated Statements of Income for all periods presented.

The net results of SV presented in the Consolidated Statements of Income consist of the following components:

	Three months ended	
	December 31,	
	2007	2006
Revenue	1,842	2,418
Costs and expenses	(1,958)	(2,290)
Gain on disposal	5,523	
Income from discontinued operations before income taxes	5,407	128
Income taxes	37	(35)
Income from discontinued operations, net of income taxes	5,444	93

As a result of taxable reorganizations in fiscal 2007, prior to the completion of the sale, no disposal gain related income taxes arose on the disposal of SV in December 2007.

bb) Communications (Com)

The historical results of the former operating segment Com, with the exception of certain business activities which are now part of Other Operations and A&D (see Note 14 for further information), are reported as discontinued operations in the Company's Consolidated Statements of Income for all periods presented. The Com activities previously included the Mobile Devices (MD) business, which was sold in fiscal 2005, and the carrier-related operations which were contributed to Nokia Siemens Networks B.V., the Netherlands (NSN) in April 2007. The Company is actively pursuing its plan to dispose of the enterprise networks business, which was also previously included in Com, and expects to finalize the disposal in the first half of calendar year 2008.

The assets and liabilities of the above transactions were classified on the balance sheet as held for disposal and measured at the lower of their carrying amount and fair value less costs to sell. As of December 31, 2007 and as of September 30, 2007, the assets and liabilities classified as held for disposal include the assets and liabilities of the enterprise networks business and also certain amounts relating to the carrier-related operations.

The carrying amounts of the major classes of assets and liabilities classified as held for disposal and relating to the above transactions were as follows:

Cash and cash equivalents*	330	750
Trade and other receivables	607	572
Inventories	248	246
Other financial assets	257	265
Other assets	288	287
Assets classified as held for disposal	1,730	2,120
Trade payables	389	388
Current provisions	68	67
Pension plans and similar commitments	223	148
Payroll and social security taxes	87	101
Other liabilities	652	694
Liabilities associated with assets classified as held for disposal	1,419	1,398

* As of September 30, 2007, this caption also includes a portion still related to the carrier operations.

The consolidated balance sheet as of December 31, 2007 includes 486 of assets and 204 of liabilities classified as held for disposal relating to minor transactions not presented as discontinued operations.

The net results of Com presented in the Consolidated Statements of Income as discontinued operations consist of the following components:

	Three months ended December 31, 2007	2006
Revenue	769	2,997
Costs and expenses	(828)	(2,920)
Income (loss) from discontinued operations before income taxes	(59)	77
Income taxes	12	(3)

Income (loss) from discontinued operations, net of income taxes	(47)	74
--	-------------	-----------

The net result of discontinued operations for the three months ended December 31, 2007 includes losses from the remeasurement of the enterprise networks business to fair value less costs to sell of 23. Included in the amount of (47) above are also legal and regulatory expenses related to Com (see Note 11 for additional information).

3. Other operating income

	Three months ended	
	December 31,	
	2007	2006
Gains on sales of property, plant and equipment and intangibles	112	57
Gains on disposals of businesses	45	110
Other	33	46
	190	213

Gains on disposals of businesses for the three months ended December 31, 2006 includes the gain of 76 on the sale of Siemens Dispolok GmbH Germany, which was part of the Group Transportation Systems (TS), to Mitsui Group.

4. Other operating expense

	Three months ended December 31,	
	2007	2006
Impairment of goodwill	(73)	
Losses on sales of property, plant and equipment and intangibles	(7)	(8)
Losses on disposals of businesses	(5)	(8)
Other	(121)	(482)
	(206)	(498)

Impairment of goodwill in the three months ended December 31, 2007 includes (70) related to the buildings and infrastructure activities which were acquired as part of the VA Technologie AG acquisition in fiscal 2005 and which are included in Other Operations (see also Note 6).

Other for the three months ended December 31, 2007 includes (93) for outside advisors engaged in connection with investigations into alleged violations of anti-corruption laws and related matters as well as remediation activities (see Notes 11 and 14 for additional information). *Other* for the three months ended December 31, 2006 includes a (423) impact related to a fine imposed by the European Commission in connection with an antitrust investigation involving suppliers of high-voltage gas-isolated switching systems in the power transmission and distribution industry between 1988 and 2004. The fine was not deductible for income tax purposes.

5. Financial income (expense), net

	Three months ended December 31,	
	2007	2006
Interest expense, net	(4)	(15)
Income from pension plans and similar commitments, net	35	48
Income from available-for-sale financial assets, net	11	17
Other financial expense, net	(20)	(39)
	22	11

The total amounts of interest income and expense were as follows:

	Three months ended December 31,	
	2007	2006
Interest income	230	204
Interest expense	(234)	(219)
Interest expense, net	(4)	(15)
Thereof: Interest income (expense) of Operations, net	21	(21)

Thereof: Other interest income (expense), net	(25)	6
<p><i>Interest income (expense) of Operations, net</i> includes interest income and expense primarily related to receivables from customers and payables to suppliers, interest on advances from customers and advanced financing of customer contracts. <i>Other interest income (expense), net</i> includes all other interest amounts primarily consisting of interest relating to corporate debt and related hedging activities, as well as interest income on corporate assets.</p>

7. Other intangible assets

	December 31, 2007	September 30, 2007
Software and other internally generated intangible assets	2,474	2,362
Less: accumulated amortization	(1,505)	(1,468)
Software and other internally generated intangible assets, net	969	894
Patents, licenses and similar rights	6,410	5,406
Less: accumulated amortization	(1,765)	(1,681)
Patents, licenses and similar rights, net	4,645	3,725
Other intangible assets	5,614	4,619

The increase in *Other intangible assets* during the three months ended December 31, 2007 is primarily due to the acquisition of Dade Behring (see Note 2 for further information).

Amortization expense for the three months ended December 31, 2007 and 2006 reported in *Income from continuing operations before income taxes* amounted to 196 and 133, respectively.

8. Pension plans and similar commitments**Principal pension benefits: Components of net periodic benefit cost**

	Three months ended December 31, 2007			Three months ended December 31, 2006		
	Total	Domestic	Foreign	Total	Domestic	Foreign
Service cost	136	76	60	178	94	84
Interest cost	320	193	127	312	183	129
Expected return on plan assets	(374)	(232)	(142)	(384)	(240)	(144)
Amortization of past service cost (benefit)	(1)		(1)	(1)		(1)
Loss (gain) due to settlements and curtailments	(35)	(21)	(14)	4		4
Net periodic benefit cost	46	16	30	109	37	72
<i>Germany</i>	16			37		
<i>U.S.</i>	29			37		
<i>U.K.</i>	13			26		
<i>Other</i>	(12)			9		

Net periodic benefit cost in the tables above includes amounts related to discontinued operations. During the three months ended December 31, 2007 and 2006, net periodic benefit cost related to discontinued operations was (17) and 32, respectively. The amount for the three months ended December 31, 2007 includes a (43) settlement gain as a result of the disposal of the SV pension liabilities upon closing of the transaction in December 2007 (see Note 2 for further

information) and 26 other net periodic benefit cost of SV and Siemens enterprise networks business.

9. Shareholders equity

Treasury Stock

In the three months ended December 31, 2007, Siemens repurchased a total of 3,335,869 shares at an average price of 102.01 per share. During the three months ended December 31, 2007, a total of 2,709,120 shares of Treasury Stock were sold. Thereof, 2,702,512 shares were issued to share-based compensation plan participants to accommodate the exercise of stock options. The majority of the remaining treasury shares are to be issued to employees at preferential prices beginning in the second quarter of fiscal 2008 under an employee share purchase program with compensation character (see Note 12 for additional information).

Table of Contents

SIEMENS
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(in millions of €, except where otherwise stated and per share amounts)

Miscellaneous

On November 7, 2007, the Company announced a share buyback program with a total volume of up to 10 billion by 2010 (see also Note 15 for further information).

10. Commitments and contingencies***Guarantees and other commitments***

The following table presents the undiscounted amount of maximum potential future payments for each major group of guarantees:

	December 31, 2007	September 30, 2007
Guarantees:		
Credit guarantees	687	386
Guarantees of third-party performance	2,003	1,995
Herkules obligations*	3,890	4,200
Other guarantees	3,013	1,882
	9,593	8,463

* For additional information on the Herkules obligations, see the Company's Consolidated Financial Statements as of September 30, 2007.

The increase in *Other guarantees* as of December 31, 2007, is primarily due to the amounts related to the indemnification provisions related to the sale of the SV activities to Continental AG (see Note 2 for additional information).

11. Legal proceedings

As previously reported, public prosecutors and other government authorities in jurisdictions around the world are conducting investigations of Siemens and certain of our current and former employees regarding allegations of public corruption, including criminal breaches of fiduciary duty including embezzlement, as well as bribery, money laundering and tax evasion, among others. These investigations involve allegations of corruption at a number of Siemens business Groups.

For more information regarding these and other legal proceedings in which Siemens is involved, as well as the potential risks associated with such proceedings and their potential financial impact on the Company, please refer to Siemens Annual Report for the fiscal year ended September 30, 2007 (Annual Report) and its annual report on Form 20-F for the fiscal year ended September 30, 2007 (Form 20-F), and, in particular, to the information contained in

Item 3: Key Information Risk Factors , Item 4: Information on the Company Legal Proceedings , Item 5: Operating Financial Review and Prospects , and Item 15: Controls and Procedures of the annual report on Form 20-F. Developments regarding investigations and legal proceedings that have occurred since the publication of Siemens Annual Report and Form 20-F include:

Authorities in Nigeria have conducted searches of the premises of Siemens Ltd. Nigeria in connection with an investigation into alleged illegal payments to Nigerian public officials between 2002 and 2005. According to press accounts, the Nigerian government has announced that it will suspend dealings with Siemens pending the results of the investigation.

On December 11, 2007, the Norwegian public prosecutor's office conducted a search of Siemens AS Norway's offices as well as several private homes in connection with payments made by Siemens for golf trips in 2003 and 2004, which were attended by members of the Norwegian Department of Defense. In light of this and the previously reported investigation of allegations of bribery and overcharging of the Department of Defense related to the awarding of a contract for the delivery of communication equipment, the Department of Defense has announced that it will not conduct further business with Siemens at this time.

Table of Contents

SIEMENS
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(in millions of €, except where otherwise stated and per share amounts)

The public prosecutor in Milan is investigating allegations as to whether two employees of Siemens S.p.A. made illegal payments to employees of the state-owned gas and power group ENI. In November 2007, the public prosecutor filed charges against the two employees, Siemens S.p.A. and one of its subsidiaries, as well as against other individuals and companies not affiliated with Siemens.

Authorities in Russia have conducted a search of Siemens premises in Ekaterinenburg and Moscow in connection with an investigation into alleged embezzlement of public funds when awarding contracts to Siemens for the delivery of medical equipment to public authorities in Ekaterinenburg in the years 2003 to 2005. An employee of Siemens Russia has been arrested in connection with this investigation.

The Vienna Public Prosecutors have announced an investigation into payments relating to Siemens AG Austria and its subsidiary VAI for which a valid consideration could not be identified.

On January 22, 2008, the Malaysian Anti-Corruption Agency executed a search warrant at the premises of Siemens Malaysia and requested interviews with several employees of Siemens Malaysia in connection with an investigation into a project involving the PTD group.

Siemens has been contacted by representatives of regional development banks, including the Inter-American Development Bank, the Asian Development Bank, the African Development Bank, the European Bank for Reconstruction and Development and the European Investment Bank regarding anti-corruption inquiries and other matters of relevance to them.

As previously reported, in connection with the investigation relating to an agreement entered into by Siemens with an entity controlled by the former head of the independent employee association AUB (Arbeitsgemeinschaft Unabhängiger Betriebsangehöriger), in April 2007, a former member of the Managing Board was arrested and subsequently posted bail in the amount of € 5 and was released from custody. In connection with the posting of bail, a bank issued a bond (Bankbürgschaft) in the amount of € 5, 4.5 of which was guaranteed by the Company pursuant to the provisions of German law. The warrant associated with the arrest of the former member of the Managing Board has since been revoked and the bank bond, as well as the Company's guarantee thereof, has been released.

Debevoise & Plimpton LLP, an independent external law firm engaged by the Company to conduct an independent and comprehensive investigation to determine whether anti-corruption regulations have been violated and to conduct an independent and comprehensive assessment of the Company's compliance and control systems, has reported that it is investigating leads generated by the Company's amnesty program, as well as other sources.

On January 4, 2008, the Competition Authority of Slovakia imposed a fine of € 3.3 on Siemens and VA Tech in connection with an investigation into possible anti-trust violations in the market for high-voltage gas-insulated switchgear. We have filed an appeal against this decision.

In December 2007, a suit and motion for approval of a class action was filed in Israel to commence a class action based on the fines imposed by the European Commission for alleged anti-trust violations in connection with high-voltage gas-insulated switchgear. Thirteen companies have been named as defendants in the suit and motion, among them Siemens AG Germany, Siemens AG Austria and Siemens Israel Ltd. The class action alleges damages to electricity consumers in Israel in the amount of approximately € 575 related to higher electricity prices claimed to have been paid because of the alleged anti-trust violations. The court has not yet ruled on the motion for approval of the class action.

The Company remains subject to corruption-related investigations in the United States and other jurisdictions around the world. As a result, additional criminal or civil sanctions could be brought against the Company itself or against certain of its employees in connection with possible violations of law, including the Foreign Corrupt Practices Act (FCPA). In addition, the scope of pending investigations may be expanded and new investigations commenced in

connection with allegations of bribery and other illegal acts. The Company's operating activities, financial results and reputation may also be negatively affected, particularly due to imposed penalties, fines, disgorgements, compensatory damages, the formal or informal exclusion from public procurement contracts or the loss of business licenses or permits.

Table of Contents

SIEMENS
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(in millions of €, except where otherwise stated and per share amounts)

In addition to the amounts previously reported, including the fine imposed by the Munich district court, no material charges or provisions for any such penalties, fines, disgorgements or damages have been recorded or accrued as management does not yet have enough information to estimate such amounts reliably. We expect that we will need to record expenses and provisions in the future for penalties, fines or other charges, which could be material, in connection with the investigations. On January 24, 2008, the Company announced, at the Annual Shareholders Meeting, that the Securities and Exchange Commission and the Department of Justice have agreed to begin discussions with the Company in the near future regarding a possible settlement of their investigations into possible violations of U.S. law in connection with allegations of corruption. We will also have to bear the costs of continuing investigations and related legal proceedings, as well as the costs of on-going remediation efforts. Furthermore, changes affecting the Company's course of business or changes to its compliance programs beyond those already taken may be required.

Information required under IAS 37 Provisions, Contingent Liabilities and Contingent Assets is not disclosed for certain legal proceedings, if the Company concludes that the disclosure can be expected to prejudice seriously the outcome of the litigation.

In addition to the investigations and legal proceedings described in Siemens' Annual Report as well as in Form 20-F and as updated above, Siemens AG and its subsidiaries have been named as defendants in various other legal actions and proceedings arising in connection with their activities as a global diversified group. Some of these pending proceedings have been previously disclosed. Some of the legal actions include claims for substantial compensatory or punitive damages or claims for indeterminate amounts of damages. Siemens is from time to time also involved in regulatory investigations beyond those described in its Annual Report as well as Form 20-F and as updated above. Siemens is cooperating with the relevant authorities in several jurisdictions and, where appropriate, conducts internal investigations regarding potential wrongdoing with the assistance of in-house and external counsel. Given the number of legal actions and other proceedings to which Siemens is subject, some may result in adverse decisions. Siemens contests actions and proceedings when it considers it appropriate. In view of the inherent difficulty of predicting the outcome of such matters, particularly in cases in which claimants seek substantial or indeterminate damages, Siemens often cannot predict what the eventual loss or range of loss related to such matters will be. Although the final resolution of these matters could have a material effect on Siemens' consolidated operating results for any reporting period in which an adverse decision is rendered, Siemens believes that its consolidated financial position should not be materially affected by the matters discussed in this paragraph.

12. Share-based payment

Share-based payment plans at Siemens are designed as equity-settled plans as well as cash-settled plans. Total expense for share-based payment recognized in net income for continuing and discontinued operations in the three months ended December 31, 2007 and 2006 amounted to €40 and €25, respectively. This refers primarily to equity-settled awards, including the Company's employee share purchase program.

For a description of the Siemens share-based payment plans, see the Company's Consolidated Financial Statements as of September 30, 2007.

Stock Option Plans

Since the authority to distribute options under the 2001 Siemens Stock Option Plan expired in December 2006, no further options will be granted under this plan.

Table of Contents

SIEMENS
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(in millions of €, except where otherwise stated and per share amounts)

Details on option activity and weighted average exercise prices for the three months ended December 31, 2007 are as follows:

Three months ended December 31, 2007				
		Weighted Average		
	Options	Exercise Price	Remaining Contractual Term (years)	Aggregate intrinsic value (in millions of €)
Outstanding, beginning of the period	8,606,272	72.13		
Options exercised	(2,706,112)	69.75		
Options forfeited	(373,587)	67.57		
Outstanding, end of period	5,526,573	73.60	1.8	195
Exercisable, end of period	5,526,573	73.60	1.8	195

Stock awards

In the three months ended December 31, 2007, the Company granted 737,621 stock awards to 4,357 employees and members of the Managing Board, of which 79,133 awards were granted to the Managing Board. Details on stock award activity and weighted average grant-date fair value for the three months ended December 31, 2007 are as follows:

	Awards	Weighted Average Grant-Date Fair Value
Nonvested, beginning of the period	3,270,910	60.58
Granted	737,621	97.94
Vested	(74,490)	80.47
Forfeited	(48,451)	60.72
Nonvested, end of period	3,885,590	67.29

Fair value was determined as the market price of Siemens shares less the present value of expected dividends. Total fair value of stock awards granted in the three months ended December 31, 2007 and 2006, amounted to 72 and 83, respectively.

As of December 31, 2007, unrecognized compensation costs related to stock awards amount to 137, which is expected to be recognized over a weighted average vesting period of 2.6 years.

Employee share purchase program

Under an employee share purchase program with compensation character, employees may purchase a limited number of shares in the Company at preferential prices once a year. Up to a stipulated date in the first quarter of the fiscal year, employees may order the shares, which are usually issued in the second quarter of the fiscal year. The employee share purchase program is measured at fair value. During the three months ended December 31, 2007 and 2006, the Company incurred compensation expense before tax of 27 and 27, based on a preferential employee share price of 69.19 and 51.20, respectively, and a grant-date fair value of 37.20 and 20.79, respectively, per share.

* For additional information on the convertible debt in fiscal 2007, see the Company's Consolidated Financial Statements as of September 30, 2007.

14. Segment information

As of December 31, 2007, the Company has twelve reportable segments referred to as Groups reported among the components used in Siemens' financial statement presentation as described in Note 1. The Groups are organized based on the nature of products and services provided.

Within the **Operations** component, Siemens has nine Groups which involve manufacturing, industrial and commercial goods, solutions and services in areas related to Siemens' origins in the electrical business. Also included in **Operations** is Strategic Equity Investments (SEI), as well as operating activities not associated with a Group, the latter of which are reported under *Other Operations*. Reconciling items are discussed in *Reconciliation to financial statements* below.

In fiscal 2006, Siemens announced portfolio changes that resulted in dissolving Com as a Group and reportable segment. As discussed in Note 2, the primary business components of the former operating segment Com were either already disposed of (carrier networks and MD) or still held for disposal (enterprise networks) as of December 31,

2007. Except for Wireless Modules, currently part of A&D, and other businesses including the former division Siemens Home and Office Communication Devices, which is currently part of *Other Operations*, the historical results of Com are presented as discontinued operations. Current and prior-year segment disclosures exclude the applicable information included in the Company's financial statement presentation.

The historical results of the SV business are reported as discontinued operations. Beginning in the fourth quarter of fiscal 2007, SV ceased to represent a reportable segment. Current and prior-year segment disclosures therefore exclude the applicable information included in the Company's financial statement presentation.

The **Financing and Real Estate** component includes the Groups SFS and SRE. The **Eliminations, reclassifications and Corporate Treasury** component separately reports the consolidation of transactions among **Operations** and **Financing and Real Estate**, as well as certain reclassifications and the activities of the Company's Corporate Treasury.

The accounting policies of these components, as well as the Groups included, are generally the same as those used for **Siemens**. Corporate overhead is generally not allocated to segments. Intersegment transactions are generally based on market prices.

New orders are determined principally as the estimated revenue of accepted purchase orders and order value changes and adjustments, excluding letters of intent.

Table of Contents

SIEMENS
NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
(in millions of €, except where otherwise stated and per share amounts)

Operations

The Managing Board is responsible for assessing the performance of the **Operations** Groups. The Company's profitability measure for its **Operations** Groups is earnings before financing interest, certain pension costs, and income taxes (Group profit) as determined by the Managing Board as the chief operating decision maker (see discussion below). Group profit excludes various categories of items which are not allocated to the Groups since the Managing Board does not regard such items as indicative of the Groups' performance. Group profit represents a performance measure focused on operational success excluding the effects of capital market financing issues. Financing interest is any interest income or expense other than interest income related to receivables from customers, from cash allocated to the Groups and interest expense on payables to suppliers. Financing interest is excluded from Group profit because decision-making regarding financing is typically made centrally by Corporate Treasury. Similarly, decision-making regarding essential pension items is done centrally. As a consequence, Group profit primarily includes only amounts related to the service cost of pension plans, while all other regular pension related costs (including charges for the German pension insurance association and plan administration costs) are included in the line item *Corporate items, pensions and eliminations*.

Furthermore, income taxes are excluded from Group profit since tax expense is subject to legal structures which typically do not correspond to the structure of the **Operations** Groups.

The Managing Board utilizes net capital employed to assess the capital intensity of the **Operations** Groups. Its definition corresponds with the Group profit measure. Net capital employed is based on total assets excluding intragroup financing receivables and intragroup investments and tax related assets, as the corresponding positions are excluded from Group profit (asset-based adjustments). The remaining assets are reduced by non-interest-bearing liabilities other than tax related liabilities (e.g. trade payables) and provisions (liability-based adjustments) to derive net capital employed. The reconciliation of total assets to net capital employed is presented below.

Other Operations primarily refers to operating activities not associated with a Group, as well as to assets recently acquired as part of acquisitions for which the allocation to the Groups are not yet finalized.

Reconciliation to financial statements

Reconciliation to financial statements includes items which are excluded from the definition of Group profit as well as costs of corporate headquarters.

Corporate items includes corporate charges such as personnel costs for corporate headquarters, the results of corporate-related derivative activities, as well as corporate projects and non-operating investments. *Pensions* includes the Company's pension related income (expenses) not allocated to the Groups. *Eliminations* represents the consolidation of transactions within the **Operations** component.

In the three months ended December 31, 2007, Corporate items, pensions and eliminations in the column Group profit includes (328) related to corporate items, as well as 23 and (2) related to pensions and eliminations, respectively. Included in the amount of (328) above is a total of (93) for outside advisors engaged in connection with investigations into alleged violations of anti-corruption laws and related matters as well as remediation activities (see Note 4 for additional information). In the three months ended December 31, 2006, Corporate items, pensions and eliminations in the column Group profit includes (631) related to corporate items, as well as (25) and (2) related to pensions and eliminations, respectively. Included in the amount of (631) above is a (423) impact related to a fine imposed by the European Commission in connection with an antitrust investigation involving suppliers of high-voltage gas-isolated switching systems in the power transmission and distribution industry between 1988 and 2004 (see Note 4 for additional information).

Other interest expense of Operations relates primarily to interest paid on debt and corporate financing transactions through Corporate Treasury.

The following table reconciles total assets of the **Operations** component to net capital employed of the Operations Groups as disclosed in *Segment Information* according to the above definition:

36

Financing and Real Estate

The Company's performance measurement for its **Financing and Real Estate** Groups is *Income before income taxes*.

In contrast to the performance measurement used for the **Operations** Groups, interest income and expense is an important source of revenue and expense for **Financing and Real Estate**.

Eliminations, reclassifications and Corporate Treasury

Income before income taxes consists primarily of interest income due to cash management activities, corporate finance, and certain currency and interest rate derivative instruments.

15. Subsequent events

At the Annual Shareholders' Meeting on January 24, 2008, the Company's shareholders authorized the Company to repurchase up to 10% of the common stock existing on the date of the Annual Shareholders' Meeting. The authorization will become effective as of March 1, 2008, and will remain in force until July 23, 2009. The authorization to acquire Siemens shares as approved at the Annual Shareholders' Meeting on January 25, 2007 (for further information see Consolidated Financial Statements as of September 30, 2007) will terminate on the effective date of the new authorization.

For information regarding the new members of the Company's Supervisory Board, as elected at the Annual Shareholders' Meeting on January 24, 2008, see Supervisory Board changes.

On January 28, 2008, the Company launched the first tranche of the share buyback program that was announced in November 2007. Until the end of April 2008, Siemens intends to acquire shares in the amount of approximately 2 billion for the purpose of cancellation and reduction of capital stock and, to a lesser extent, to fulfill obligations arising out of stock compensation programs. The Company expects to conduct share repurchases with a total volume of up to 10 billion by 2010.

Supervisory Board changes

Pursuant to the German Stock Corporation Act and the Articles of Association of Siemens AG, the term of all 20 members of the Supervisory Board ended at the close of the Annual Shareholders Meeting on January 24, 2008. The Annual Shareholders Meeting on January 24, 2008, elected the following 10 persons to the Supervisory Board as shareholder representatives with effect from the close of the Annual Shareholders Meeting: Dr. Josef Ackermann, Jean-Louis Beffa, Gerd von Brandenstein, Dr. Gerhard Cromme, Michael Diekmann, Dr. Hans Michael Gaul, Prof. Dr. Gruss, Dr. Nicola Leibinger-Kammüller, Håkan Samuelsson and Lord Iain Vallance of Tummel. The 10 employee representatives on the Supervisory Board were elected by a conference of employee delegates on September 27, 2007 in accordance with the provisions of the German Codetermination Act. The following persons were elected by the conference as employee representatives with effect from the close of the Annual Shareholders Meeting on January 24, 2008: Lothar Adler, Bettina Haller, Heinz Hawreliuk, Ralf Heckmann, Berthold Huber, Harald Kern, Werner Mönius, Dieter Scheitor, Dr. Rainer Sieg, and Birgit Steinborn. Further, Sibylle Wankel was elected as substitute of Heinz Hawreliuk. In the constituent meeting of the newly elected Supervisory Board on January 24, 2008, Dr. Gerhard Cromme was elected as Chairman of the Supervisory Board.

Managing Board changes

Effective October 1, 2007, the Supervisory Board appointed Peter Y. Solmssen a full member of the Managing Board and approved his election to the Corporate Executive Committee. Effective December 31, 2007, Rudi Lamprecht, Eduardo Montes, Dr. Uriel J. Sharef and Prof. Dr. Klaus Wucherer resigned from the Managing Board, and Dr. Jürgen Radomski retired. As announced on November 28, 2007, the new Managing Board structure, where the previous distinction between the Managing Board and the Corporate Executive Committee was eliminated, became effective on January 1, 2008. Also effective January 1, 2008, Wolfgang Dehen and Dr. Siegfried Russwurm were appointed members of the Managing Board of Siemens AG.

Table of Contents

Review report

To Siemens Aktiengesellschaft, Berlin and Munich

We have reviewed the condensed interim consolidated financial statements of Siemens Aktiengesellschaft, Berlin and Munich (the Company) comprising the balance sheet, the statements of income, income and expense recognized in equity and cash flow and selected explanatory notes together with the interim group management report of Siemens Aktiengesellschaft, for the period from October 1 to December 31, 2007 that are part of the quarterly financial report according to § 37 x Abs. 3 WpHG. The preparation of the condensed interim consolidated financial statements in accordance with those IFRS applicable to interim financial reporting as adopted by the EU, and of the interim group management report in accordance with the requirements of the WpHG applicable to interim group management reports, is the responsibility of the Company's management. Our responsibility is to issue a report on the condensed interim consolidated financial statements and on the interim group management report based on our review. In addition we have been instructed to issue a report as to whether no matters have come to our attention that cause us to presume that the condensed interim consolidated financial statements have not been prepared, in material respects, in accordance with the IFRS as issued by the IASB.

We performed our review of the condensed interim consolidated financial statements and the interim group management report in accordance with the German generally accepted standards for the review of financial statements promulgated by the Institut der Wirtschaftsprüfer (IDW) under additional consideration of International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. Those standards require that we plan and perform the review so that we can preclude through critical evaluation, with a certain level of assurance, that the condensed interim consolidated financial statements have not been prepared, in material aspects, in accordance with the IFRS applicable to interim financial reporting as adopted by the EU and with the IFRS as issued by the IASB, and that the interim group management report has not been prepared, in material aspects, in accordance with the requirements of the WpHG applicable to interim group management reports. A review is limited primarily to inquiries of company employees and analytical assessments and therefore does not provide the assurance attainable in a financial statement audit. Since, in accordance with our engagement, we have not performed a financial statement audit, we cannot issue an auditor's report.

Based on our review, no matters have come to our attention that cause us to presume that the condensed interim consolidated financial statements have not been prepared, in material respects, in accordance with the IFRS applicable to interim financial reporting as adopted by the EU and with full IFRS, or that the interim group management report has not been prepared, in material respects, in accordance with the requirements of the WpHG applicable to interim group management reports.
