5 The Foundations For A Recovery Seem To Be In Place The global container fleet has been shrinking since the middle of 2015 New production volumes low, while disposal volumes high An increase in trade growth should quickly translate to increased leasing demand Steel prices have rebounded well off recent lows New container prices should increase when container production volumes return to normal, assuming improvement in steel prices is sustained Increased new container prices would lead to higher market leasing rates, less re- pricing pressure and increased demand for TAL's existing containers Increase in new container prices would also support improvement in used container sale prices Improved utilization and better used container sale prices would have significant upside leverage for TAL profitability Believe improved trade growth is the needed catalyst to spark improved conditions

13 Debt Summary Debt maturities well structured, with cash flows sufficient to meet required principal amortization and no near-term maturity cliffs TAL is well protected from a rise in interest rates due to high percentage of long-term fixed interest rates Triton debt maturities are similarly well structured with no near term maturity cliff Triton merger has limited impact on existing debt facilities 100% stock-for-stock transaction – no incremental debt required to close the transaction Existing facilities have no change-of-control issues (\$ in 000) Principal 2016 2017 2018 2019 & Beyond Term Notes 2,168,125 225,755 303,112 281,399 1,357,860 Total Revolving Credit Facilities 1,065,000 - 15,500 507,000 542,500 Total Required Principal Payments 3,233,125 225,755 318,612 788,399 1,900,360 TAL Debt Summary as of 3/31/16 Principal Payments

14 TAL continued to face difficult market conditions in the first quarter. The foundations for a substantial improvement in market conditions are in place, but increasing trade volumes remain the necessary catalyst for a recovery. We expect our Adjusted pretax income to decrease from the first to the second quarter of 2016. Profitability trend for the rest of 2016 will depend on whether and how strongly market conditions recover. Our announced merger with Triton to create the world's largest, most capable and most efficient container leasing company is proceeding on target. We expect the merger to close in the second quarter, pending notification from SEC that the proxy is effective. We expect to achieve significant operational advantages and financial benefits for TAL's shareholders.

18 Purchase Accounting Impact to Income Purchase accounting recorded at new holding company; no impact to existing financing entities or structures (1) Based on \$1,400 per 20' DC. The non-cash purchase accounting adjustments to income are as follows: » Leasing Revenue: Lease intangible asset created to reflect above-market leases, which is amortized as a reduction to leasing revenue over the remaining lives of such leases » Depreciation: Carrying value of revenue earning assets reduced to reflect lower container prices, thereby reducing the amount of depreciation prospectively » Interest Expense: Interest expense increased to reflect market interest rates as of December 31, 2015 » Other: Reflects amortization of various intangibles including customer list, managed equipment contracts, software, etc.
