2018 SEMI ANNUAL REPORT

April 30, 2018

Highlights

The first half of the Fund's fiscal year 2018 ended on April 30, 2018.

Mexico's gross domestic product ("GDP") grew 2.0% during 2017 and 1.3% during the first quarter of 2018, as compared with the same period of the previous year. Analysts surveyed by the Mexican Central Bank at the end of April estimate that Mexican GDP will grow 2.2% during calendar year 2018 and 2.3% during calendar year 2019.

During the first half of fiscal year 2018, the Fund's NAV per share registered a total return of 5.79%, compared with a return of 3.04% registered by the Morgan Stanley Capital International ("MSCI") Mexico Index, over the same period. The Fund's NAV per share has outperformed the Fund's benchmark, the MSCI Mexico Index, during the one, three, five and ten year periods ended on April 30, 2018.

During the first half of fiscal year 2018, the Fund's market price per share registered a total return of 5.02%. As of April 30, 2018, the Fund's market price and NAV per share were \$16.34 and \$18.78, respectively, reflecting a discount of 12.99%, compared with a discount of 12.16% at the end of fiscal year 2017.

The Fund has declared a distribution of \$0.15 per share to be paid on July 26, 2018, to stockholders of record as of July 18, 2018.

1 All performance figures included in these "Highlights" take into account the reinvestment of distributions.

The Mexico Fund, Inc. is a non-diversified closed-end management investment company with the investment objective of long-term capital appreciation through investments in securities, primarily equity, listed on the Mexican Stock Exchange. The Fund provides a vehicle to investors who wish to invest in Mexican companies through a managed non-diversified portfolio as part of their overall investment program.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940, as amended (the "1940 Act"), that the Fund may purchase, from time to time, shares of its common stock in the open market.

To Our Stockholders:

We present to you the Fund's 2018 Semi Annual Report for the six-month period ended April 30, 2018. In this report, we summarize the period's prevailing economic, political and market conditions in Mexico and outline the Fund's investment strategy and resulting performance. We hope you find this report useful and informative.

Economic and Political Environment

The Mexican equity market continues to experience volatility, primarily driven by the ongoing negotiations of NAFTA (North America Free Trade Agreement between Mexico, United States and Canada) and the upcoming Mexican Presidential elections. NAFTA negotiations commenced in September 2017, and while the three parties have agreed on several topics, other controversial issues, such as rules of origin for automotive content, the sunset clause and the dispute resolution mechanism, are still being negotiated. Moreover, the United States announced that temporary exemptions on steel and aluminum import tariffs for Mexico, Canada and the European Union ("EU") will not be renewed beginning June 1st. In response, Mexico and Canada announced tariffs on several U.S. imports, with the EU expected to follow, thus increasing doubts about a NAFTA deal. In addition, uncertainty regarding upcoming Mexican Presidential elections, to be held on July 1st, have resulted in additional volatility in respect of Mexican securities and the value of the Mexican peso.

Mexico's GDP expanded 2.0% during calendar year 2017, due to an increase in exports, driven by the manufacturing sector, and solid domestic consumption, which compensated for lower industrial activity. During the first quarter of 2018, GDP increased at an annual rate of 1.3%.

The price of oil increased 26.1% during the six months ended April 2018, to \$68.6 USD/bbl, measured by the price of West Texas Intermediate (used as a benchmark for oil pricing), a price not reached since the end of calendar year 2014, supported in part by the Organization of the Petroleum Exporting Countries (OPEC) agreement to reduce oil output, which is set to last until December 2018. Oil-related income represented 5% of Mexican GDP and 17% of public revenues during calendar year 2017, lower than the 9% of GDP and 39% of public revenues in 2012. Notwithstanding the lower dependence on oil revenues, higher oil prices could enhance economic activity.

The National Hydrocarbons Commission ("CNH") continued with its objective of granting licenses to private companies for exploration and production of hydrocarbons with the aim of increasing oil production. The CNH held two additional rounds of auctions during January and March 2018, with an expected investment of \$102 billion during the coming years. Total expected investments from oil fields already auctioned and three farm-outs (assignment of part or all of an oil interest to a third party) signed by Pemex is around \$200 billion. Private companies who won licenses in previous auctions have commenced their investment phase, which represents the positive effects of energy reform approved at the end of 2013.

Mexico's fiscal position strengthened during 2017, as it achieved a primary surplus (which excludes interest payments) of 1.4% of GDP. Even without the transfer from Mexico's Central Bank ("Banxico") operational surplus of Ps. \$322 billion pesos ("Ps.") to the government, the primary surplus was 0.4% of GDP, representing the first primary surplus since 2008. The government's budget for 2018 is to increase the recurring primary surplus to 0.9% of GDP. Solid public finances have resulted in improved outlooks by credit agencies, as both Standard and Poor's and Fitch raised their perspectives on Mexican debt in 2017, while Moody's upgraded its outlook in April 2018. In addition, the International Monetary Fund (IMF) approved a new two-year \$88 billion flexible credit line to Mexico, replacing the existing line for the same amount.

On the monetary policy front, Banxico increased its overnight interest rate by 50 basis points to 7.5% over the course of two meetings, in December 2017 and February 2018, resulting in a decrease of the annual inflation rate from 6.8% on December 31, 2017 to 4.6% as of April 30, 2018. The Federal Reserve ("Fed") increased its reference interest rate by 75 basis points in the span of three meetings, to set it at the current

4 | The Mexico Fund, Inc.

range of between 1.75% and 2.00%. Market participants expect further interest rate increases during 2018. Regarding fiscal policy, U.S. President, Donald Trump, signed into law the “Tax Cuts and Jobs Act” in December 2017 which, among other changes, reduced the corporate tax rate from 35% to 21%.

The Mexican peso appreciated 2.3% during the first half of the Fund’s fiscal year 2018 and 5.0% during calendar year 2018, as of April 30, 2018, closing at Ps. \$18.71. However, the Mexican peso has experienced high volatility reaching a high and low of Ps. \$19.87 and Ps. \$18.01, respectively. The Mexican Foreign Exchange Commission increased its U.S. Dollar auctions by \$500 million as part of the currency hedging program implemented during February 2017, to a total of \$5.5 billion (out of an authorized program of \$20 billion), seeking a more orderly functioning of the exchange rate market.

Mexican economists surveyed by Banxico at the end of April 2018 estimate GDP growth for 2018 and 2019 at 2.2% and 2.3%, respectively, with inflation at annual rates of 4.0% and 3.7%, respectively. Economists also expect the overnight interest rate to reach 7.5% and 6.7% by the end of 2018 and 2019, respectively.

Management Discussion of Fund Performance and Portfolio Strategy

During the first half of fiscal year 2018, the Fund’s NAV per share registered a total return of 5.79%, outperforming its benchmark, the MSCI Mexico Index, which registered a total return of 3.04%. The Fund’s market price registered a total return of 5.02% during the first half of fiscal year 2018, resulting in a higher discount to its NAV per share. The Fund’s discount at the end of April 2018 was 12.99%, higher than the 12.16% at the end of fiscal year 2017.

The following table shows the annualized performance¹ of the Fund’s market price and NAV per share, as well as the NAV per share of the EWW² and the Fund’s benchmark, for periods ended April 30, 2018.

During the first half of fiscal year 2018, the Adviser decreased the Fund's exposure to issuers in the domestic consumption sector due to high relative valuations and concerns regarding higher potential costs of raw materials, impacting negatively profitability levels. On the other hand, the Adviser increased the Fund's exposure to the financial sector due to higher projected margins. In addition, the Adviser increased its cash position due to high expected volatility, which could translate into attractive investment opportunities.

The following table shows the top five positive contributors to the performance of the Fund's NAV relative to the MSCI Mexico Index during the first half of fiscal year 2018. The table is sorted according to the contribution of these issuers to the Fund's outperformance relative to the MSCI Mexico Index and shows the issuers' market price returns during the period. The Fund benefited by strong share price increases in Ternium, Alfa, Alpek and Corporación Inmobiliaria Vesta. In addition, an underweight position in Grupo Televisa also contributed to the Fund's relative performance due to its double-digit negative return.

Top Five Contributors to Relative Performance vs the MSCI Mexico Index

Issuer	Industry	Return	Contribution to Relative Fund Performance	Average Over / Under Weight
Ternium	Steel	32.54%	1.29%	3.97%

Alpek	Petrochemicals	35.59%	0.56%	1.87%
Corporación Inmobiliaria Vesta	Real Estate	23.68%	0.36%	1.60%

The following table shows the top five detractors to the performance of the Fund's NAV relative to the MSCI Mexico Index during the first half of fiscal year 2018 and shows their respective market price returns during the period. The Fund was affected by an overweight position in Elementia, which reported a double-digit decline in its share price. In addition, underweight exposures to América Móvil, Wal-Mart de México, Fomento Económico Mexicano and Fibra Uno affected the Fund's relative performance, due to an increase in their share prices.

Portfolio Composition by Industry

Percentage of Net Assets and Weights on MSCI Mexico Index, April 30, 2018

The Mexico Fund, Inc. | 7

During the first half of fiscal year 2018, a total of 6,715,308 Fund shares traded on all U.S. consolidated markets, resulting in a daily average value of shares traded of \$883,537. The Fund is one of the most liquid closed-end funds investing outside the United States, as comparable funds³ traded a daily average and median of \$588,246 and \$283,951, respectively, during the same period.

The average price-to-earnings ratio of the Mexican equity market at the end of April 2018 was 19.2 times, while the price-to-book value ratio was 2.3 times⁴. During the first quarter of calendar year 2018 Mexican listed companies reported positive results. Revenues and EBITDA⁵ increased 4.4% and 5.7%, respectively, due in part to solid domestic consumption and inorganic growth of several listed companies, compensated by the negative effect of income from exports and sales abroad when translated to local currency, as the Mexican peso appreciated during the first quarter of 2018 compared with the same period of 2017. Net profits declined 26.3% due to lower currency exchange gains. The Adviser will continue to be prudent in seeking to identify companies with strong balance sheets that include manageable debt levels, positive free cash flows, strong corporate governance policies, high quality management teams, attractive growth potential and proven business models that fit under the current local and global macroeconomic scenario.

Declaration of Distributions Under MDP

Under the MDP, the Fund pays quarterly amounts of \$0.15 per share. Accordingly, the Board has declared a distribution of \$0.15 per share, payable in cash on July 26, 2018 to stockholders of record as of July 18, 2018.

As mentioned in this report, Mexican securities are facing a volatile and uncertain environment, notwithstanding, the Mexican economy and macroeconomic position has strengthened. In addition, your Fund has outperformed its benchmark during the last one, three, five and ten year periods on a net asset value basis. We are confident that the solid fundamentals of selected listed companies and the long-term strength of key economic variables in Mexico will continue to result in attractive investment opportunities in the Mexican equity market. We hope you find this report useful and informative, and we thank you for your continued confidence in the Fund.

Sincerely yours,

Alberto Osorio

GENERAL INFORMATION**Annual Meeting of Stockholders**

The Fund held its Annual Meeting of Stockholders on March 6, 2018 at 10:00 a.m. Central time at the John Jacob Boardroom on the Mezzanine Level of the St. Regis Hotel, located at 1919 Briar Oaks Lane, Houston, Texas 77027. Stockholders re-elected Marc J. Shapiro and Jaime Serra as Directors of the Fund. A total of 12,701,843 shares were represented at the meeting, constituting a quorum of 84.60%.

Regarding the election of the Fund's Class I Directors, the results of the Annual Meeting were as follows*:

	For	% Outstanding	% of Voted	Withheld	% Outstanding	% of Voted
Marc J. Shapiro	9,660,048	64.34%	76.05%	3,041,795	20.26%	23.95%
Jaime Serra Puche	8,424,407	56.11%	66.32%	4,277,436	28.49%	33.68%

* There were no abstentions or broker non-votes with regard to the election of the Fund's Class I Directors.

Renewal of Investment Advisory Agreement

At an in-person meeting of the Board held on March 6, 2018 at which a majority of the Directors were in attendance, including a majority of the Independent Directors, the Board, and separately a majority of the Independent Directors, taking into consideration the recommendation of the Contract Review Committee of the Board ("Committee"), approved the continuation of the Investment Advisory Agreement ("Agreement") with Impulsora based on its consideration of various factors, including: (1) the nature, extent and quality of services provided by the Adviser to the Fund; (2) the investment performance of the Fund; (3) the costs of the services provided, and profits to be realized, by the Adviser from its relationship with the Fund; (4) the extent to which economies of scale may be realized as the Fund grows and whether fee levels reflect these economies of scale for the benefit of Fund investors; and (5) other benefits to the Adviser from its relationship with the Fund (and any corresponding benefit to the Fund). In response to a specific request by the Independent Directors, Impulsora provided detailed information concerning the foregoing factors. The Board also received a memorandum from independent legal counsel discussing the duties of board members in considering the approval of the continuation of the Agreement. The Board evaluated information consisting of comparative figures of overall expenses, management and other fees, of a group of substantially similar funds. As discussed more fully below, the Board considered the Fund's historical performance through the beginning of March 2018, as well as the Fund's current advisory fee rate, noting that the advisory fee rate is below both the median and

average for certain regional closed-end funds provided by Lipper, Inc. The Board determined that the fees payable to Impulsora were reasonable, especially in light of the quality of the services provided, as well as the level of advisory fees paid by comparable funds.

The following discussion is not intended to be all-inclusive. The Board reviewed a variety of factors and considered a significant amount of information, including information received on an ongoing basis at meetings of the Board and Board committees. In view of the broad scope and variety of these factors and information, the Board did not find it practicable to, and did not, make specific assessments of, quantify or otherwise assign relative weights to the specific factors in reaching their conclusions and determination to approve the continuance of the Agreement.

The Board has determined that the Agreement is in the best interests of the Fund's stockholders, as it would enable the stockholders to obtain high quality services at a cost that is appropriate and reasonable. In addition, the Board has concluded that the Agreement appropriately aligns the interests of the Adviser, the Fund, and Fund stockholders by rewarding superior performance or penalizing poor investment results when compared with the MSCI Mexico Index.

The Mexico Fund, Inc. | 9

GENERAL INFORMATION *continued*

Performance adjustments under the Agreement began on April 1, 2015 based upon the Fund's performance during the trailing 12-month period and adjustments were made since then, which the Board reviewed in its consideration of renewal of the Agreement.

Nature, Extent and Quality of Services. The Board considered the nature, extent and quality of advisory services provided by the Adviser. The Board receives information at regular meetings throughout the year regarding the services rendered by the Adviser concerning the management of the Fund and the Adviser's role in coordinating providers of other services to the Fund. Also, the Adviser provides all facilities and services necessary to analyze, execute and maintain investments consistent with the Fund's objectives, and has done so since the Fund's inception in 1981. The Board had available to it the qualifications, backgrounds and responsibilities of the personnel primarily responsible for the day-to-day portfolio management of the Fund and recognized that these individuals report to the Board regularly and provide a detailed report on the Fund's performance at each regular meeting of the Board. The Board also received and considered the Adviser's financial information, including recent operating results and expenses, as well as the specific services performed by the Adviser. The Board concluded that overall, it was satisfied with the nature, quality and extent of services that the Adviser provides to the Fund.

Investment Performance. At the in-person Board meeting on March 6, 2018, the Board received and considered information regarding Fund performance relative to the leading Mexican equity indices, including the S&P BMV IPC Index and the MSCI Mexico Index, and the EWW (an ETF that tracks the Mexican equity market) as well as comparable funds. The Board had also received information throughout the year at periodic intervals regarding the Fund's performance, including with respect to the leading Mexican equity indices. The Board was provided with the performance matrix as of January 31, 2018 with periods of three months, year-to-date, one year, three years, five years and ten years, and determined that the Fund had outperformed the MSCI Mexico Index over periods of three, five and ten years. The Board also determined that the Adviser had achieved superior investment performance compared with nearly all of the major Mexican equity mutual funds over one, three and five year periods ended January 31, 2018. Based on its review and the Adviser's explanation, the Board concluded that the Fund's performance has been positive and competitive.

Costs and Profitability. The Board reviewed the fees charged by Impulsora for investment advisory services, as well as the gross revenues and pre-tax profits earned by Impulsora. The Board also reviewed and considered comparative information supplied by Lipper Inc., which the Board noted showed that the effective investment advisory fee of the Fund remained competitive and below the average fee rate of other comparable regional closed-end funds. The Board also reviewed and considered comparative information regarding administrative fees and expense ratios charged to comparable funds. Additionally, the Board reviewed the actual dollar amount of the fees payable under the Agreement, as well as the fee as a percentage of assets under management. On the basis of this information, the Board concluded that the level of the investment advisory fee and the profitability of the relationship between the Fund and Impulsora are appropriate in light of the nature, extent and quality of services provided to the Fund. The Board also concluded that the Agreement's performance component and its use of the MSCI Mexico Index were fair and appropriate.

Economies of Scale. The Board determined that the investment advisory fees payable under the Agreement already reflect potential future economies of scale, through the existing fee structure, which includes the imposition of breakpoints as Fund assets increase, of 1.0% of average daily net assets for assets up to and including \$200 million, 0.90% of average daily net assets for assets in excess of \$200 million and up to and including \$400 million, 0.80% of average daily net assets for assets in excess of \$400 million and up to and including \$600 million, 0.70% of average daily net assets for assets in excess of \$600 million and up to and including \$800 million, and 0.60% of average daily net assets for assets over \$800 million. The Agreement

10 | The Mexico Fund, Inc.

GENERAL INFORMATION *continued*

also includes the assets of a separate account managed by the Adviser for purposes of calculating the effective fee under the Agreement's breakpoint schedule in the event that such account's assets exceed \$200 million Mexican pesos, thus providing further potential economy of scale benefits to the Fund and its stockholders.

Other Benefits to the Adviser. The Board determined that the other benefits described by the Adviser were reasonable, fair, and consistent with industry practice and the best interests of the Fund and its stockholders. In this regard, the Board specifically considered the benefits to the Adviser due to the fact that it also serves, and receives an additional administrative fee from, the Fund pursuant to the Fund Services Agreement.

Concentration Policy

The Fund has adopted a concentration policy, as permitted by the 1940 Act, that allows it to concentrate its investments in any industry or group of industries beyond 25% of the Fund's assets if, at the time of investment, such industry represents 20% or more of the IPC Index; provided, however, that the Fund will not exceed the IPC Index concentration by more than 5%. At the end of April 2018, no industry group represented 20% or more of the value of the securities included in the IPC Index.

Proxy Voting

Information about how the Fund voted proxies during the twelve-month period ended June 30 will be available, without charge, upon request by calling collect Mr. Alberto Gómez Pimienta, or on the SEC's website at www.sec.gov. The Fund's and its Investment Adviser's proxy voting policies and procedures are available on the Fund's website, www.themexicofund.com under the heading "Corporate Governance", on the SEC's website at www.sec.gov, or without charge, upon request, by calling Mr. Alberto Gómez Pimienta. Electronic Delivery of Fund Materials

We encourage our stockholders to receive Fund materials via e-mail in order to save on printing expenses and contribute to saving the environment. Please inform your broker about your preference for electronic delivery (if you are holding your shares in street name) or if you are a recordholder of Fund shares, by logging in to your AST account at www.amstock.com and consenting to electronically receive Fund materials.

Open Market Repurchases

Under the Fund's open market share repurchase policy, the Fund may repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price that is at a discount of at least 10% to NAV. During the first half of fiscal year 2018, the Fund repurchased 20,686 Fund shares in the open market, equivalent to 0.14% of the Fund's outstanding shares as of April 30, 2018.

Distribution Reinvestment and Stock Purchase Plan

The Fund's Distribution Reinvestment and Stock Purchase Plan (the "Plan") provides a convenient way to increase your holdings in the common stock of the Fund through the reinvestment of distributions paid by the Fund. The Plan includes the following:

- Voluntary Stock Purchase Option.** All registered stockholders (regardless of whether they are Plan participants) can make monthly voluntary cash investments in Fund shares through AST (the "Plan Agent"). The minimum investment for a voluntary cash investment is \$25.00; you may vary the amount of your investment as long as it equals or exceeds this \$25.00 minimum. There is a fixed transaction fee of \$2.50 and a \$0.10 per share commission for this service. Optional cash payments can be made online or by mail, as described further in the enclosed brochure. Stockholders can also authorize AST to make automatic withdrawals from a bank account.
- (1)

Clarification Regarding Reinvestment of Distributions. Distributions received through the Fund's MDP can be (2) reinvested directly in additional Fund shares, regardless of the character of such distributions for accounting and tax reporting purposes.

Online Enrollment in the Plan. As an alternative to mailing an authorization card to AST, stockholders may (3) enroll in the Plan through AST's website at www.amstock.com. To have distributions reinvested, stockholder authorization must be received by AST by the record date for a given distribution.

Withdrawal from the Plan. Stockholders may withdraw from the Plan by notifying AST. If a request for (4) withdrawal is received by AST more than three (3) business days before a distribution payment date that distribution will be paid out in cash.

Amendment of Plan. The Fund reserves the right to amend or supplement the Plan at any time, but only by (5) mailing to participants appropriate written notice at least thirty (30) days prior to the effective date thereof, except when necessary to comply with applicable laws or the rules or policies of the SEC or other regulatory authority.

GENERAL INFORMATION *continued*

The Plan brochure can be accessed through AST's or the Fund's website, at www.amstock.com or www.themexicofund.com. If you have any questions, please contact AST at 1-877-573-4007 or 1-718-921-8124. You may also contact AST via mail at:

American Stock Transfer & Trust Company, LLC

Attention: Plan Administration Department
PO Box 922
Wall Street Station
New York, NY 10269-0560

If you are a Fund shareholder of record, you may enroll in the Plan by mail or online at www.amstock.com. Please contact AST for further information or to request an authorization card for enrollment. If your shares are held in nominee or "street name" through a broker, bank or other nominee who does not provide an automatic reinvestment service and you wish to have distributions reinvested in shares of the Fund, you must notify such nominee and request that the change be made on your behalf or that your shares be re-registered in your own name.

You may withdraw from the Plan, without penalty, at any time by notice to AST. If your request to withdraw from the Plan is received more than three business days before any distribution payment date, then that distribution will be paid out in cash. If your request to withdraw from the Plan is received less than three business days prior to any distribution payment date, then that distribution will be reinvested. However, all subsequent distributions would be paid out in cash on all balances.

Should you choose to withdraw any shares from the Plan or discontinue your participation in the Plan, you will receive a certificate or certificates for the appropriate number of full shares, along with a check in payment for any fractional share interest you may have. The payment for the fractional shares will be valued at the market price of the Fund's shares on the date your termination is effective. In lieu of receiving a certificate, you may request the Plan Agent to sell part or all of your shares at market price and remit the proceeds to you, net of any brokerage commissions.

Under the terms of the Plan, whenever the Fund declares a distribution, Plan participants will receive their distribution entirely in shares of common stock purchased either in the open market or from the Fund. If, on the date a distribution becomes payable or such other date as may be specified by the Board (the valuation date), the market price of the

common stock plus estimated brokerage commissions is equal to or exceeds the NAV per share of common stock, the Plan Agent will invest the distribution in newly issued shares of common stock, which will be valued at the greater of the NAV per share or the current market price on the valuation date. If on the valuation date, the market price of the common stock plus estimated brokerage commissions is lower than the NAV per share, the Plan Agent will buy common stock in the open market. Although stockholders in the Plan may receive no cash distributions, participation in the Plan will not relieve participants of any income tax that may be payable on such dividends or distributions. As a participant in the Plan, you will be charged a pro-rata portion of brokerage commissions on all open market purchases.

If you have any questions concerning the Plan, or would like a hard copy of the Plan brochure, please contact AST using the contact information listed above.

GENERAL INFORMATION *concluded*

New York Stock Exchange Certifications

The Fund is listed on the New York Stock Exchange (the “NYSE”). As a result, it is subject to certain corporate governance rules and related interpretations issued by the NYSE. Pursuant to those requirements, the Fund must include information in this report regarding certain certifications. The Fund’s President and Treasurer have filed certifications with the SEC regarding the quality of the Fund’s public disclosure. Those certifications were made pursuant to Section 302 of the Sarbanes-Oxley Act (“Section 302 Certifications”). The Section 302 Certifications were filed as exhibits to the Fund’s semi-annual report on Form N-CSR, which included a copy of the semi-annual report along with other information about the Fund. After the Fund’s 2018 annual meeting of stockholders, it filed an annual certification with the NYSE stating that its President was unaware of any violation of the NYSE’s Corporate Governance listing standards.

Cost Basis Information

Beginning with the 2012 calendar year, the Fund is required to report to shareholders of record and the Internal Revenue Service, annually on Form 1099-B, not only the gross proceeds of Fund shares sold, but also their cost basis, for shares purchased or acquired on or after January 1, 2012. Cost basis will be reported using the Fund’s default method of first-in-first-out (“FIFO”), unless the shareholder of record instructs the Fund to use an average cost method for their shares purchased or acquired on or after January 1, 2012. Alternatively, a shareholder can generally supply instructions for specific lot identification for a given transaction.

If your Fund shares are registered in your name and you wish to elect an average cost method rather than the default method of FIFO, you may do so by downloading a form that is available on the Fund’s website, www.themexicofund.com, under the section “Services”, and mailing it to the Fund’s Transfer Agent at the address indicated on the form. If you hold Fund shares through a financial intermediary, please contact that financial intermediary for instructions on how to make your election. If you wish to supply instructions for specific lot identification for shares purchased or acquired on or after January 1, 2012, please contact the Fund’s Transfer Agent at (800) 937-5449.

NOTES TO FINANCIAL STATEMENTS

April 30, 2018 (Unaudited)

1. Operations and Significant Accounting Policies:

The Mexico Fund, Inc. (the “Fund”) is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as a closed-end non-diversified management investment company. The investment objective of the Fund is to seek long-term capital appreciation through investment in securities, primarily equity, listed on the Mexican Stock Exchange.

The following is a summary of significant accounting policies followed by the Fund. The Fund is an investment company and, accordingly, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standards Codification Topic 946 — Investment Companies, which is part of U.S. generally accepted accounting principles (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. Subsequent events, if any, through the date that the financial statements were issued have been evaluated in the preparation of the financial statements.

Valuation of investments — Investments in which the principal exchange is the Mexican Stock Exchange are valued at the closing price reported by the Mexican Stock Exchange. The closing price represents the weighted average for the last twenty minutes of operations in any business day. Investments in which the principal exchange is the NASDAQ Stock Market or the New York Stock Exchange (“NYSE”) are valued at the NASDAQ or the NYSE official closing price or the last sale price, respectively. Other equity securities for which market quotations are readily available are valued at the last reported sale price or official closing price on the primary market or exchange on which they are traded. Short-term securities with remaining maturities of less than 60 days at the time of purchase are carried at amortized cost, which approximates fair value. All other securities are valued in accordance with methods determined by the Board of Directors (the “Board”). If the Board believes that the price of a security obtained under the Fund’s valuation procedures does not represent the amount that the Fund reasonably expects to receive on a current sale of the security, the Fund will value the security based on a method that the Board believes to accurately reflect fair value.

GAAP establishes a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund’s own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund’s investments and are summarized in the following fair value hierarchy:

Level 1 — quoted prices in active markets for identical securities

Level 2 — other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 — significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. An investment's level within the fair value hierarchy is based on the lowest level of any input, both individually and in the aggregate, that is significant to the fair value measurement.

The Mexico Fund, Inc. | 21

NOTES TO FINANCIAL STATEMENTS**April 30, 2018 (Unaudited) continued**

The following is a summary of the inputs used as of April 30, 2018, in valuing the Fund's investments in securities:

Valuation Inputs	Level 1	Level 2	Level 3	Total
ASSETS:				
Investments in Securities:				
Equity Investments ^(a)	\$267,346,033	—	—	\$267,346,033
Short Term Investments ^(b)	—	\$14,653,454	—	\$14,653,454
Total Investments in Securities	\$267,346,033	\$14,653,454	—	\$281,999,487

(a) For detailed industry descriptions, see the accompanying Schedule of Investments

(b) These assets consist of time deposits and repurchase agreements with maturities of one business day. They are classified as Level 2 solely as a result of the Fund's valuation technique for short-term investments, using amortized cost which approximates fair value, instead of quoted prices in active markets, and thereby may not present any higher risk than Level 1 assets.

During the six months ended April 30, 2018, there were no transfers of investments between fair value levels.

Security transactions and investment income — Security transactions are recorded on the date on which the transactions are entered into (the trade date). Dividend income is recorded on the ex-dividend date and interest income is recorded as earned.

Foreign Currency — The market value of Mexican securities, currency holdings and other assets and liabilities denominated in Pesos was recorded in the financial statements after being translated into U.S. dollars based on the open market exchange rate prevailing in Mexico City at the end of the period. The open market exchange rate as of April 30, 2018 was Ps. \$18.7141 to \$1.00.

The identified cost of portfolio holdings is translated at approximate rates prevailing when acquired. Income and expense amounts are translated at approximate rates prevailing when earned or incurred.

The Fund does not isolate that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of securities during the year. Accordingly, the net realized and unrealized gain on investments presented in the accompanying financial statements include the effects of both such changes.

Reported net realized foreign exchange gains or losses arise from sales of short-term securities in exchange for cash, payment of services or non-functional currency denominated assets; currency gains or losses realized between the trade and settlement dates on securities transactions; and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded by the Fund and the U.S. dollar equivalent of the amount actually received or paid.

Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in common stocks, resulting from changes in the exchange rate.

Repurchase Agreements — The Fund enters into repurchase agreements with approved institutions. The Fund's repurchase agreements are fully collateralized by Mexican or U.S. Government securities. The Fund takes possession of the collateral and Impulsora del Fondo México S.C., the Fund's investment adviser (the "Adviser"), monitors the credit standing of repurchase agreement counterparties. It is the Fund's policy that the fair value of the collateral be at least equal to the principal amount of the repurchase transaction, including accrued interest, at all times. If the counterparty defaults, and the fair value of the collateral declines, realization of the collateral by the Fund may be delayed or limited.

NOTES TO FINANCIAL STATEMENTS

April 30, 2018 (Unaudited) *continued*

Realized gains and losses on investments — Realized gains and losses on investments are determined on the identified cost basis.

Foreign Taxes — The Fund may be subject to foreign taxes on income, gains on investments or currency purchases/repatriation, a portion of which may be recoverable. The Fund will accrue such taxes and recoveries, as applicable, based on its current interpretation of tax rules and regulations that exist in the markets in which it invests.

Under the Mexican tax law, gains realized on sales of securities listed on the Mexican Stock Exchange are subject to a 10% income tax payment for non-residents of Mexico. However, non-resident sellers that reside in a country with which Mexico has in effect a tax treaty (such as the United States), and that are eligible for the benefits of such tax treaty, are generally exempt from such tax. The Fund, as an investment company organized in the United States, is claiming eligibility for the benefits of such tax treaty. Therefore, the Fund believes that it should be exempt from such tax on realized gains, and no such tax is being recognized or paid by the Fund.

The Mexican tax law also includes a 10% income tax withholding on dividends distributed by companies to non-residents of Mexico, which applies to profits generated since 2014. As a result, the Fund expects that the amount of taxes withheld on dividends the Fund earns will continue to increase as investee companies pay dividends from profits generated since 2014. During the six months ended April 30, 2018 and the year ended October 31, 2017, the amount of such tax withholdings were \$84,801 and \$222,816, respectively.

Income Taxes — No provision has been made for U.S. income or excise taxes for the six months ended April 30, 2018 on net investment company taxable income or net long-term capital gains as defined by the Internal Revenue Code (the “Code”), since the Fund intends to comply with the requirements of the Code applicable to regulated investment companies and to distribute substantially all of such income to its stockholders.

GAAP prescribes the minimum recognition threshold a tax position must meet before being recognized in the financial statements. The Fund recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained, assuming examination by the Internal Revenue Service. An assessment of the Fund’s tax positions has been made and it has been determined that there is no liability for unrecognized tax benefits that should be recorded relating to uncertain tax positions taken on returns filed for open tax years.

Each of the Fund's federal income tax returns for the prior three fiscal years remains subject to examination by the Internal Revenue Service.

The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefit will change materially in the next 12 months.

Dividends to stockholders — Cash dividends are recorded by the Fund on the ex-dividend date.

A tax return of capital generally occurs when distributions exceed current and accumulated tax earnings and profits. The Fund had earnings and profits for the six months ended April 30, 2018 that were lower than the distributions made to stockholders. This has had the effect of characterizing a portion of the Fund's distributions as a tax return of capital.

Risks of Investment in Mexican Securities — Investing in Mexican securities involves certain considerations not typically associated with investing in securities of U.S. issuers, including (1) lesser liquidity and smaller market capitalization of the Mexican securities markets, (2) currency fluctuations, (3) higher

NOTES TO FINANCIAL STATEMENTS

rates of inflation and domestic interest rates and (4) less stringent disclosure requirements, less available information regarding Mexican public companies and less active regulatory oversight of Mexican public companies.

The Mexican Stock Exchange is a concentrated market. A large percentage of the value of the Mexican securities market is currently represented by certain industry sectors, in particular, the communications industry. Also, a certain individual has a controlling interest in companies representing approximately 20.6% of the market capitalization of the Mexican Stock Exchange. As of April 30, 2018, the Fund held investments representing 15.6% of its net assets in two of these companies (América Móvil and Telesites). The value of the Mexican Stock Exchange may be subject to greater volatility than markets that are less concentrated. Any factors or events which impact this individual could have negative repercussions for the issuers in which he holds a controlling interest, including certain Fund investments and the Mexican Stock Exchange as a whole.

2. **Investment Advisory Agreement:**

The Fund has a management contract (the "Agreement") with the Adviser, a Mexican company registered under the U.S. Investment Advisers Act of 1940. The Adviser furnishes investment research and portfolio management services consistent with the Fund's stated investment policies. Under the terms of the Agreement, the Fund pays the Adviser a monthly fee (the "Base Fee") at the annual rate of 1.00% on the first \$200 million of average daily net assets, 0.90% on the excess over \$200 million up to \$400 million, 0.80% on the excess over \$400 million up to \$600 million, 0.70% on the excess over \$600 million up to \$800 million and 0.60% on the excess over \$800 million.

Under the terms of the Agreement, a performance component of the Advisory fee was implemented effective on April 1, 2015. The performance component is based on the performance of the Fund relative to the MSCI Mexico Index (the "Index"). A performance adjustment factor is applied to the Base Fee that either increases or decreases the Base Fee, depending on how the Fund's NAV performs relative to the MSCI Mexico Index over a trailing 12-month period. The performance adjustment factor is applied daily; it is applied to the average net assets of the Fund over the trailing 12-month period. The resulting dollar figure is added to or subtracted from the Base Fee depending on whether the Fund experienced better or worse performance than the MSCI Mexico Index. The performance adjustment factor is equal to 0.025% per percentage point that the investment performance of the Fund exceeds or trails the investment record of the Index by 2 percentage points during the trailing 12-month period ending on the last business day of the prior month. The maximum performance adjustment factor is 0.20%. Accordingly, if the investment performance of the Fund exceeds or trails the investment record of the Index by 10 percentage points during the trailing 12-month period ending on the last business day of the prior month, the performance factor for the month following that 12-month period will be 0.20%.

For the six months ended April 30, 2018 the accumulated Base Fee of \$1,345,928 was decreased by \$751, resulting in a total advisory fee of \$1,345,177.

3. Fund Services Agreement:

The Fund has entered into a Fund Services Agreement with the Adviser, which provides for certain services to be performed by the Adviser, including among other activities, the determination and publication of the NAV of the Fund, the maintenance of the Fund's books and records in accordance with applicable U.S. and Mexican Laws and assistance in the preparation and filing of annual reports and tax returns. The Fund pays the Adviser a monthly fee at the annual rate of 0.11% on the first \$600 million of average daily net

assets, and 0.09% on the excess over \$600 million. The fee will not be lower than the annual amount of \$450,000 or \$8.7 million Mexican pesos, whichever is less. For the six months ended April 30, 2018, the Adviser received \$222,518 under the Fund Services Agreement.

4. Purchases and Sales of Investments:

Purchases and sales of investments, excluding short-term securities, for the six months ended April 30, 2018 were as follows:

Purchases	
Common Stock	\$31,082,275
Total Purchases	\$31,082,275
Proceeds from Investments Sold	
Common Stock	\$42,441,061
Total Sales	\$42,441,061

5. Capital Stock:

As of April 30, 2018, there were 150,000,000 shares of \$1.00 par value common stock authorized, of which 15,005,224 shares were outstanding.

The Fund offers a Distribution Reinvestment and Stock Purchase Plan (the "Plan") to its stockholders. Fund stockholders are automatically enrolled as participants in the Plan unless they notify the Fund's transfer agent otherwise. During the six months ended April 30, 2018, the Fund did not issue shares under the Plan.

The Board has authorized the Fund to repurchase up to 10% of the Fund's outstanding common stock in open market transactions during any 12-month period if and when Fund shares trade at a price that is at a discount of at least 10% to NAV. During the six months ended April 30, 2018, the Fund repurchased 20,686 shares at a cost of \$328,336. These shares were repurchased at an average price of \$15.87 per share, which represented an average discount of 13.67%.

6. Distributions to Stockholders and Income Taxes:

The amount and characterization of certain income and capital gains to be distributed are determined in accordance with U.S. federal income tax regulations, which may differ from GAAP. These differences are primarily due to differing book and tax treatments in the timing of the recognition of net investment income or gains and losses, including losses deferred due to wash sales and foreign currency gains and losses.

The Fund may periodically make reclassifications among its capital accounts to reflect income and gains available for distribution (or available capital loss carryovers) under income tax regulations, without impacting the Fund's NAV. Any such reclassifications are not reflected in the financial highlights.

On August 12, 2008, the Fund received authorization from the SEC that permits the Fund to distribute long-term capital gains to stockholders more than once per year. Accordingly, the Board approved the implementation of a MDP to make quarterly cash distributions to stockholders. Under the MDP, distributions will be made from current income, supplemented by realized capital gains and, to the extent necessary, paid in capital. On March 6, 2018, the Board authorized to pay distributions of a fixed amount of \$0.15 per share under the Fund's MDP.

NOTES TO FINANCIAL STATEMENTS**April 30, 2018 (Unaudited) concluded**

The tax character of distributions paid during the fiscal years ended October 31, 2017 were as follows:

	2017
Distributions paid from:	
Ordinary income	\$2,867,582
Long term capital gains	—
Return of capital	5,119,452
Total distributions paid	\$7,987,034

As of April 30, 2018, the components of accumulated earnings (deficit) on a tax basis were as follows:

Net long term capital loss	\$(3,382,056)
Undistributed ordinary income	606,897
Unrealized depreciation	(21,261,780)
Total accumulated deficit	\$(24,036,939)

As of April 30, 2018, the cost of investments for federal income tax purposes was \$303,234,307. Gross unrealized appreciation of investments was \$12,777,801 and gross unrealized depreciation of investments was \$34,012,618 resulting in net unrealized depreciation on investments of \$21,234,817 excluding foreign currency transactions. The difference between book basis and tax basis unrealized appreciation/(depreciation) is attributable primarily to wash sale loss deferrals.

Under the Regulated Investment Company Modernization Act of 2010, net capital losses recognized by the Fund after October 31, 2011 are carried forward indefinitely, and retain their character as short-term and/or long-term losses. At October 31, 2017, the Fund had post-enactment net capital loss carryforwards as follows: short-term \$0; long-term \$3,944,402.

7. Commitments and Contingencies:

In the normal course of business, the Fund enters into contracts that contain a variety of representations and warranties or provide general indemnifications. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred. However, based on

experience, the Fund expects the risk of loss to be remote.
