iStar Financial Inc.

Notes to Consolidated Financial Statements

(unaudited)

Note 1—Business and Organization

Business—iStar Financial Inc., or the "Company," is a fully-integrated finance and investment company focused on the commercial real estate industry. The Company provides custom-tailored investment capital to high-end private and corporate owners of real estate and invests directly across a range of real estate sectors. The Company, which is taxed as a real estate investment trust, or "REIT," has invested more than \$35 billion over the past two decades. The Company's three primary business segments are real estate lending, net leasing and real estate investment. See Note 10 for discussion of business risks and uncertainties, including the impact of recent economic conditions on the Company and the Company's liquidity and capital resources.

Organization—The Company began its business in 1993 through private investment funds and became publicly traded in 1998. Since that time, the Company has grown through the origination of new lending and leasing transactions, as well as through corporate acquisitions.

Note 2—Basis of Presentation and Principles of Consolidation

Basis of Presentation—The accompanying unaudited Consolidated Financial Statements have been prepared in conformity with the instructions to Form 10-Q and Article 10-01 of Regulation S-X for interim financial statements. Accordingly, they do not include all the information and footnotes required by generally accepted accounting principles in the United States of America ("GAAP") for complete financial statements. These unaudited Consolidated Financial Statements and related Notes should be read in conjunction with the Consolidated Financial Statements and related Notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

In the opinion of management, the accompanying Consolidated Financial Statements contain all adjustments, consisting of normal recurring adjustments necessary for a fair statement of the results for the interim periods presented. Such operating results may not be indicative of the expected results for any other interim periods or the entire year.

Certain prior year amounts have been reclassified in the Consolidated Financial Statements and the related Notes to conform to the 2012 presentation.

Principles of Consolidation—The Consolidated Financial Statements include the financial statements of the Company, its wholly owned subsidiaries, controlled partnerships and variable interest entities ("VIEs") for which the Company is the primary beneficiary. All significant intercompany balances and transactions have been eliminated in consolidation.

Consolidated VIEs—As of September 30, 2012, the Company consolidated five VIEs for which the Company is considered the primary beneficiary. None of these entities had debt as of September 30, 2012 and December 31, 2011.

The assets and liabilities of the Company's consolidated VIEs are included in the Company's Consolidated Balance Sheets. The Company's total unfunded commitments related to consolidated VIEs is \$61.2 million as of September 30, 2012.

Unconsolidated VIEs—As of September 30, 2012, 26 of the Company's other investments were in VIEs where it is not the primary beneficiary and accordingly the VIEs have not been consolidated in the Company's Consolidated Financial Statements. As of September 30, 2012, the Company's maximum exposure to loss from these investments does not exceed the sum of the \$186.8 million carrying value of the investments and \$7.7 million of related unfunded commitments.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

Note 3—Summary of Significant Accounting Policies

As of September 30, 2012, the Company's significant accounting policies, which are detailed in the Company's Annual Report on Form 10-K for the year ended December 31, 2011, have not changed materially.

New Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2011-05, "Presentation of Comprehensive Income," which requires entities to (1) present net income and other comprehensive income in either a single continuous statement or in two separate, but consecutive, statements of net income and other comprehensive income and (2) present reclassification of other comprehensive income on the face of the income statement. In December 2011, the FASB issued ASU 2011-12, "Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05," which deferred the requirements of entities to present reclassification of other comprehensive income on the face of the income statement. Both standards are effective in interim and fiscal years beginning after December 15, 2011 and applied retrospectively. The Company adopted this ASU beginning with the reporting period ended March 31, 2012, as required, and now presents Consolidated Statements of Comprehensive Income (Loss).

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs." This ASU is a result of joint efforts by the FASB and IASB to develop a single, converged framework on how to measure fair value and what disclosures to provide about fair value measurements. This ASU is largely consistent with existing fair value measurement principles of U.S. GAAP, however, it expands existing disclosure requirements for fair value measurements. The ASU is effective for interim and annual reporting periods beginning after December 15, 2011 and applied prospectively. The Company adopted this ASU beginning with the reporting period ended March 31, 2012, as required. Adoption of this guidance resulted in expanded disclosures on fair value measurements, included in Note 15, but did not have an impact on the Company's measurements of fair value.

Note 4—Loans and Other Lending Investments, net

The following is a summary of the Company's loans and other lending investments by class (\$ in thousands)(1):

Type of Investment(1)	As of	
	September 30, 2012	December 31, 2011
Senior mortgages	\$2,041,784	\$2,801,213
Subordinate mortgages	150,917	211,491
Corporate/Partnership loans	469,520	478,892
Total gross carrying value of loans(1)	\$2,662,221	\$3,491,596
Reserves for loan losses	(543,498)	(646,624)
Total carrying value of loans	\$2,118,723	\$2,844,972
Other lending investments—securities	—	15,790
Total loans and other lending investments, net	\$2,118,723	\$2,860,762

Explanatory Note:

The Company's recorded investment in loans as of September 30, 2012 and December 31, 2011, was \$2.67 billion (1) and \$3.50 billion, respectively, which consists of total gross carrying value of loans plus accrued interest of \$9.5 million and \$13.3 million, for the same two periods, respectively.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

During the nine months ended September 30, 2012, the Company funded \$29.2 million under existing loan commitments and add-on fundings and received principal repayments of \$480.0 million. During the same period, the Company sold loans with a total carrying value of \$53.9 million, for which it recognized charge-offs of \$3.3 million and also recorded income of \$6.4 million in "Other income" on the Company's Consolidated Statements of Operations.

During the nine months ended September 30, 2012, the Company received title to properties in full or partial satisfaction of non-performing mortgage loans with a gross carrying value of \$264.5 million, for which the properties had served as collateral, and recorded charge-offs totaling \$52.5 million related to these loans. These properties were recorded as real estate held for investment ("REHI") or other real estate owned ("OREO") on the Company's Consolidated Balance Sheets (see Note 5).

Reserve for Loan Losses—Changes in the Company's reserve for loan losses were as follows (\$ in thousands):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2012	2011	2012	2011
Reserve for loan losses at beginning of period	\$563,786	\$701,228	\$646,624	\$814,625
Provision for loan losses	16,834	9,232	60,865	30,462
Charge-offs	(37,122)	(343)	(163,991)	(134,970)
Reserve for loan losses at end of period	\$543,498	\$710,117	\$543,498	\$710,117

The Company's recorded investment in loans (comprised of a loan's carrying value plus accrued interest) and the associated reserve for loan losses were as follows (\$ in thousands):

	Individually Evaluated for Impairment(1)	Collectively Evaluated for Impairment(2)	Loans Acquired with	Total
			Deteriorated Credit Quality(3)	
As of September 30, 2012				
Loans	\$1,239,197	\$1,374,838	\$57,700	\$2,671,735
Less: Reserve for loan losses	(486,557)	(37,600)	(19,341)	(543,498)
Total	\$752,640	\$1,337,238	\$38,359	\$2,128,237
As of December 31, 2011				
Loans	\$1,525,337	\$1,919,876	\$59,648	\$3,504,861
Less: Reserve for loan losses	(554,131)	(73,500)	(18,993)	(646,624)
Total	\$971,206	\$1,846,376	\$40,655	\$2,858,237

Explanatory Notes:

(1) The carrying value of these loans include unamortized discounts, premiums, deferred fees and costs aggregating to a net discount of \$1.8 million and a net premium of \$0.1 million as of September 30, 2012 and December 31, 2011, respectively. The Company's loans individually evaluated for impairment primarily represent loans on non-accrual status and therefore, the unamortized amounts associated with these loans are not currently being amortized into

income.

(2) The carrying value of these loans include unamortized discounts, premiums, deferred fees and costs aggregating to a net discount of \$2.9 million and \$0.2 million as of September 30, 2012 and December 31, 2011, respectively.

(3) The carrying value of these loans include unamortized discounts, premiums, deferred fees and costs aggregating to a net premium of \$0.1 million and a net discount of \$15.0 million as of September 30, 2012 and December 31, 2011. These loans had cumulative principal balances of \$58.1 million and \$74.5 million, as of September 30, 2012 and December 31, 2011, respectively.

Credit Characteristics—As part of the Company's process for monitoring the credit quality of its loans, it performs a quarterly loan portfolio assessment and assigns risk ratings to each of its performing loans. The Company's recorded investment in performing loans, presented by class and by credit quality, as indicated by risk rating, was as follows (\$ in thousands):

	As of September 30, 2012		December 31, 2011	
	Performing Loans	Weighted Average Risk Ratings	Performing Loans	Weighted Average Risk Ratings
Senior mortgages	\$979,560	2.84	\$1,514,016	3.19
Subordinate mortgages	98,572	2.44	190,342	3.36
Corporate/Partnership loans	463,057	3.72	472,178	3.61
Total	\$1,541,189	3.08	\$2,176,536	3.29

As of September 30, 2012, the Company's recorded investment in loans, aged by payment status and presented by class, were as follows (\$ in thousands):

	Current	Less Than and Equal to 90 Days(1)	Greater Than 90 Days(1)	Total Past Due	Total
Senior mortgages	\$1,152,795	\$—	\$893,941	\$893,941	\$2,046,736
Subordinate mortgages	98,572	—	53,260	53,260	151,832
Corporate/Partnership loans	463,057	—	10,110	10,110	473,167
Total	\$1,714,424	\$—	\$957,311	\$957,311	\$2,671,735

Explanatory Note:

(1) As of September 30, 2012, all loans that are not current are classified as non-performing and are on non-accrual status.

(unaudited)

Troubled Debt Restructurings—During the three and nine months ended September 30, 2012 and 2011, the Company modified loans that were determined to be troubled debt restructurings. The recorded investment in these loans was impacted by the modifications as follows, presented by class (\$ in thousands):

	For the Three Months Ended September 30, 2012			2011		
	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Senior mortgages	2	\$54,192	\$54,192	3	\$65,107	\$65,107

	For the Nine Months Ended September 30, 2012			2011		
	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
Senior mortgages	7	\$318,227	\$272,753	7	\$191,158	\$190,893

Troubled debt restructurings that subsequently defaulted during the period were as follows (\$ in thousands):

	For the Three Months Ended September 30, 2012				For the Nine Months Ended September 30, 2011			
	Number of Loans	Outstanding Recorded Investment	Number of Loans	Outstanding Recorded Investment	Number of Loans	Outstanding Recorded Investment	Number of Loans	Outstanding Recorded Investment
Senior mortgages	—	\$—	1	\$12,257	1	\$24,604	2	\$40,262

Troubled debt restructurings that occurred during the three months ended September 30, 2012 included loans that were granted maturity extensions and had interest rates unchanged as a result of the modifications. A performing loan with a recorded investment of \$46.3 million was extended three months. The Company believes the borrower can perform under the modified terms and continues to classify the loan as performing. A loan with a recorded investment of \$7.9 million was extended for one year, and was classified as non-performing both before and after the modification.

Troubled debt restructurings that occurred during the nine months ended September 30, 2012 included the modifications of performing loans with a combined recorded investment of \$62.6 million. The modified terms of these loans granted maturity extensions ranging from three months to one year and included conditional extension options in certain cases dependent on borrower-specific performance hurdles. In each case, the Company believes the borrowers can perform under the modified terms of the loans and continues to classify these loans as performing.

Non-performing loans with a combined recorded investment of \$255.6 million were also modified during the nine months ended September 30, 2012 and continued to be classified as non-performing subsequent to modification. Included in this balance was a loan with a recorded investment of \$181.5 million prior to modification for which the Company agreed to reduce the outstanding principal balance and recorded charge-offs totaling \$45.5 million, and also reduced the loan's interest rate. The remaining non-performing loans were granted maturity extensions ranging from one month to seven months and the interest rate was reduced on one loan.

Table of Contents

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

Troubled debt restructurings that occurred during the three months ended September 30, 2011 included loans that were granted maturity extensions and had interest rates unchanged as a result of the modifications. Performing loans with a recorded investment of \$49.3 million were modified to grant maturity extensions ranging from three months to six months. The Company also extended a discounted payoff option on a loan that was classified as non-performing.

Troubled debt restructurings that occurred during the nine months ended September 30, 2011 included the modifications of performing loans with a combined recorded investment of \$129.2 million. The modified terms of these loans granted maturity extensions ranging from three months to five years and included conditional extension options in certain cases dependent on borrower-specific performance hurdles. The Company reduced the rate on loans with a combined recorded investment of \$59.5 million from a combined weighted average rate of 6.2% to 4.1%. In each case, the Company believed the borrowers could perform under the modified terms of the loans and classified these loans as performing after the modification. One of these loans subsequently defaulted.

Non-performing loans with a combined recorded investment of \$62.0 million were also modified during the nine months ended September 30, 2011 and continued to be classified as non-performing subsequent to modification. Included in this balance was a loan with a recorded investment of \$46.1 million for which the Company granted a maturity extension of six months while also reducing the loan's interest rate. The Company also extended a discounted payoff option on another loan that was classified as non-performing.

Generally when granting concessions, the Company will seek to protect its position by requiring incremental pay downs, additional collateral or guarantees and in some cases lookback features or equity kickers to offset concessions granted should conditions with the loan improve. The Company's determination of credit losses is impacted by troubled debt restructurings whereby loans that have gone through troubled debt restructurings are considered impaired, assessed for specific reserves, and are not included in the Company's assessment of general loan loss reserves. Loans previously restructured under troubled debt restructurings that subsequently default are reassessed to incorporate the Company's current assumptions on expected cash flows and additional provision expense is recorded to the extent necessary. As of September 30, 2012, the Company had \$6.0 million of unfunded commitments associated with modified loans considered troubled debt restructurings.

Note 5—Real Estate Held for Investment, net and Other Real Estate Owned

During the nine months ended September 30, 2012, the Company received title to properties with an aggregate estimated fair value at the time of foreclosure of \$212.0 million, in full or partial satisfaction of non-performing mortgage loans for which those properties had served as collateral. Of these, properties with a value of \$3.6 million were classified as REHI and \$208.4 million were classified as OREO, based on management's intention to either hold the properties over a longer period or to market them for sale in the near term.

During the nine months ended September 30, 2012, the Company executed transactions related to two separate REHI investments, whereby the Company acquired land and other assets with a combined fair value of \$38.8 million from third parties to form two new strategic ventures. In each case, a third party contributed land into the respective venture in a non-cash exchange for a noncontrolling interest and the Company continues to consolidate both subsidiaries. In conjunction with its formation, one of the new strategic ventures contributed land with a recorded value of \$11.6 million in a non-cash exchange for a 40% noncontrolling equity interest in a separate new venture. The Company did not recognize any gains or losses associated with these transactions.

Additionally, based upon certain rights held by the minority partner in one of these ventures that provide it with an option to redeem its interest at fair value after seven years, the partner's non-controlling interest in this venture is presented as a redeemable non-controlling interest on the Company's Consolidated Balance Sheet as of September 30, 2012.

Table of Contents

Real Estate Held for Investment, net—REHI consisted of the following (\$ in thousands):

	As of September 30, 2012	December 31, 2011
Land held for investment and development	\$756,588	\$711,072
Operating property		
Buildings and improvements	350,262	379,644
Land	98,340	154,445
Less: accumulated depreciation and amortization	(30,235) (17,027
Real estate held for investment, net	\$1,174,955	\$1,228,134

The Company records REHI operating income in "Other income" and REHI operating expenses in "Operating costs—REHI and OREO," on the Company's Consolidated Statements of Operations, as follows (\$ in thousands):

	For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
	2012	2011	2012	2011
REHI operating income	\$14,276	\$8,207	\$43,425	\$22,356
REHI operating expenses	\$16,422	\$12,130	\$44,489	\$31,422

Other Real Estate Owned—During the nine months ended September 30, 2012, the Company sold OREO assets with a carrying value of \$281.0 million, primarily comprised of sales of residential property units for which the Company recorded income from sales of \$35.6 million. For the three and nine months ended September 30, 2012, the Company recorded net impairment charges to OREO properties totaling \$1.5 million and \$5.3 million, respectively, and recorded net expenses related to holding costs for OREO properties of \$8.0 million and \$24.5 million, respectively.

For the three and nine months ended September 30, 2011, the Company recorded net impairment charges to OREO properties totaling \$9.3 million and \$12.6 million, respectively, and recorded net expenses related to holding costs for OREO properties of \$7.7 million and \$24.2 million, respectively.

Note 6—Net Lease Assets, net

The Company's investments in net lease assets, at cost, were as follows (\$ in thousands):

	As of September 30, 2012	December 31, 2011
Facilities and improvements	\$1,481,454	\$1,601,477
Land and land improvements	411,668	447,603
Less: accumulated depreciation	(352,658) (346,316
Net lease assets, net	\$1,540,464	\$1,702,764

On April 30, 2012, the Company sold a portfolio of 12 net lease assets with an aggregate carrying value of \$105.7 million and recorded a gain of \$24.9 million resulting from the transaction. Certain of the properties were subject to secured term loans with a remaining principal balance of \$50.8 million that were repaid in full at closing (see Note 9). Additionally, during the nine months ended September 30, 2012, the Company sold net lease assets with a carrying value of \$9.8 million, resulting in a net gain of \$2.4 million.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

For the three and nine months ended September 30, 2012, the Company recorded impairment charges of \$3.6 million and \$23.8 million, respectively, on net lease assets, of which \$0.5 million was included in "Income (loss) from discontinued operations" on the Company's Consolidated Statements of Operations for the nine months ended September 30, 2012.

During the nine months ended September 30, 2011, the Company realized \$22.2 million of a gain previously deferred as part of its June 2010 sale of a portfolio of 32 net lease assets. The gain is presented in "Gain from discontinued operations" on the Company's Consolidated Statements of Operations for the three and nine months ended September 30, 2011.

The Company receives reimbursements from customers for certain facility operating expenses including common area costs, insurance and real estate taxes. Customer expense reimbursements were \$5.2 million and \$16.6 million for the three and nine months ended September 30, 2012, respectively, and \$6.1 million and \$17.6 million for the three and nine months ended September 30, 2011, respectively. These amounts were included as a reduction of "Operating costs - net lease assets" on the Company's Consolidated Statements of Operations.

Allowance for doubtful accounts—As of September 30, 2012 and December 31, 2011, the total allowance for doubtful accounts related to net lease asset and REHI tenant receivables, including deferred operating lease income receivable, was \$6.2 million and \$3.7 million, respectively.

Note 7—Other Investments

The Company's other investments and its proportionate share of results from equity method investments were as follows (\$ in thousands):

	Carrying value as of		Equity in earnings			
	September 30, 2012	December 31, 2011	For the Three Months Ended September 30,		For the Nine Months Ended September 30,

iStar's equity in LNR(4)			\$180,671	\$159,764	

Explanatory Notes:

The Company records its investment in LNR on a one quarter lag, therefore, amounts in the Company's financial (1) statements for the three and nine months ended September 30, 2012 and 2011 are based on balances and results from LNR for the three and nine months ended June 30, 2012 and 2011, respectively.

LNR consolidates certain commercial mortgage-backed securities and collateralized debt obligation trusts that are considered VIEs (and for which it is the primary beneficiary), that have been excluded from the amounts presented above. As of June 30, 2012 and September 30, 2011, the assets of these trusts, which aggregated approximately \$82.79 billion and \$126.66 billion, respectively, were the sole source of repayment of the related liabilities, which aggregated approximately \$82.52 billion and \$126.64 billion, respectively, and are non-recourse to LNR and its (2) equity holders, including the Company. In addition, total revenue presented above includes \$27.5 million and \$88.3 million for the three and nine months ended June 30, 2012, respectively, and \$31.4 million and \$72.6 million for the three and nine months ended June 30, 2011, respectively, of servicing fee revenue that is eliminated upon consolidation of the VIE's at the LNR level. This income is then added back through consolidation at the LNR level as an adjustment to income allocable to noncontrolling entities and has no net impact on net income attributable to LNR.

(3) During the nine months ended June 30, 2011, LNR recorded an income tax benefit from the settlement of certain tax liabilities.

(4) The Company's equity in LNR at September 30, 2012 reflects a \$10.2 million cash distribution made during the third quarter that is not yet reflected in LNR Property LLC's equity shown above as of June 30, 2012.

Madison Funds—During the nine months ended September 30, 2012, the Madison Funds recorded a significant gain related to the sale of an investment for which the Company recorded its \$13.7 million proportionate share.

OREO/REHI Investments—During the three and nine months ended September 30, 2012, earnings from equity interests in OREO/REHI investments included \$4.0 million and \$22.2 million, respectively, related to income recognized on sales of residential property units.

Explanatory Notes:

These loans each have a LIBOR floor of 1.25%. As of September 30, 2012, inclusive of the floors, the 2011

(1) Tranche A-1 Facility and 2011 Tranche A-2 Facility loans incurred interest at a rate of 5.00% and 7.00%, respectively. See Note 17 - Subsequent Events.

These loans each have a LIBOR floor of 1.25%. As of September 30, 2012, inclusive of the floors, the 2012

(2) Tranche A-1 Facility and 2012 Tranche A-2 Facility loans incurred interest at a rate of 5.25% and 7.00% respectively.

The Company's convertible senior floating rate notes due October 2012 ("Convertible Notes") are convertible at the option of the holders into 22.2 shares per \$1,000 principal amount of Convertible Notes (reflecting a conversion price of \$45.05), on or after August 15, 2012, or prior to that date if certain conditions are met. None of the conversion conditions have been met as of September 30, 2012. As of September 30, 2012, the unamortized discount on these notes was \$0.6 million, the net carrying amount of the liability was \$460.0 million and the carrying value of the additional paid-in-capital, or equity component of the convertible notes was \$34.7 million.

(3) For the three and nine months ended September 30, 2012, the Company recognized interest expense on the convertible notes of \$3.0 million and \$11.2 million, respectively, of which \$1.8 million and \$6.7 million, respectively, related to the amortization of the debt discount. For the three and nine months ended September 30, 2011, the Company recognized interest expense on the convertible notes of \$4.4 million and \$13.3 million respectively, of which \$2.9 million and \$8.6 million, respectively, related to the amortization of the debt discount. Subsequent to quarter end, the Company repaid, upon maturity, the remaining outstanding principal balance. See Note 17 - Subsequent Events.

Future Scheduled Maturities—As of September 30, 2012, future scheduled maturities of outstanding long-term debt obligations, net are as follows (\$ in thousands)(1):

	Unsecured Debt	Secured Debt	Total
2012 (remaining three months)	\$460,660	\$—	\$460,660
2013	1,017,209	648,320	1,665,529
2014	200,601	1,357,253	1,557,854
2015	105,765	82,000	187,765

Thereafter	474,722	708,152	1,182,874
Total principal maturities	\$2,520,360	\$2,918,725	\$5,439,085
Unamortized debt discounts, net	(20,707) (29,518) (50,225
Total long-term debt obligations, net	\$2,499,653	\$2,889,207	\$5,388,860

Explanatory Note:

(1) Includes minimum required amortization payments on the 2011 and 2012 Secured Credit Facilities. See Note 17 - Subsequent Events.

2012 Secured Credit Facilities—In March 2012, the Company entered into an \$880.0 million senior secured credit agreement providing for two tranches of term loans: a \$410.0 million 2012 A-1 tranche due March 2016, which bears interest at a rate of LIBOR + 4.00% (the "2012 Tranche A-1 Facility"), and a \$470.0 million 2012 A-2 tranche due

March 2017, which bears interest at a rate of LIBOR + 5.75% (the "2012 Tranche A-2 Facility," together the "2012 Secured Credit Facilities"). The 2012 A-1 and A-2 tranches were issued at 98.0% of par and 98.5% of par, respectively, and both tranches include a LIBOR floor of 1.25%. Proceeds from the 2012 Secured Credit Facilities were used to repurchase \$324.1 million aggregate principal amount of the Company's convertible notes due October 2012, to fully repay the \$244.0 million balance on the Company's unsecured credit facility due June 2012, and to repay, upon maturity, \$90.3 million outstanding principal balance of its 5.50% senior unsecured notes. As of September 30, 2012, remaining proceeds were included in restricted cash as they are reserved for the repayment of indebtedness.

The 2012 Secured Credit Facilities are collateralized by a first lien on a fixed pool of collateral consisting of loan, net lease, OREO and REHI assets. Proceeds from principal repayments and sales of collateral are applied to amortize the 2012 Secured Credit Facilities. Proceeds received for interest, rent, lease payments and fee income are retained by the Company. The 2012 Tranche A-1 Facility requires amortization payments of \$41.0 million to be made every six months beginning December 31, 2012. After the 2012 Tranche A-1 Facility is repaid, proceeds from principal repayments and sales of collateral will be used to amortize the 2012 Tranche A-2 Facility. The Company may make optional prepayments on each tranche of term loans, subject to prepayment fees.

Table of Contents

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

Through September 30, 2012, the Company has made cumulative amortization repayments of \$147.7 million on the 2012 Tranche A-1 Facility, which exceeds all required amortization payments through December 31, 2013.

Repayments of the 2012 Tranche A-1 Facility prior to scheduled amortization dates have resulted in losses on early extinguishment of debt of \$2.4 million and \$5.3 million for the three and nine months ended September 30, 2012, respectively, related to the acceleration of discounts and unamortized deferred financing fees on the portion of the facility that was repaid.

2011 Secured Credit Facilities—In March 2011, the Company entered into a \$2.95 billion senior secured credit agreement providing for two tranches of term loans: a \$1.50 billion 2011 A-1 tranche due June 2013, which bears interest at a rate of LIBOR + 3.75% (the "2011 Tranche A-1 Facility"), and a \$1.45 billion 2011 A-2 tranche due June 2014, which bears interest at a rate of LIBOR + 5.75% (the "2011 Tranche A-2 Facility," together the "2011 Secured Credit Facilities"). The 2011 A-1 and A-2 tranches were issued at 99.0% of par and 98.5% of par, respectively, and both tranches include a LIBOR floor of 1.25%.

The 2011 Secured Credit Facilities are collateralized by a first lien on a fixed pool of collateral consisting of loan, net lease, OREO and REHI assets. Proceeds from principal repayments and sales of collateral are applied to amortize the 2011 Secured Credit Facilities. Proceeds received for interest, rent, lease payments, fee income and, under certain circumstances, additional amounts funded on assets serving as collateral are retained by the Company. The 2011 Tranche A-1 Facility requires that aggregate cumulative amortization payments of not less than \$200.0 million shall be made on or before December 30, 2011, not less than \$450.0 million on or before June 30, 2012, not less than \$750.0 million on or before December 31, 2012 and not less than \$1.50 billion on or before June 28, 2013. The 2011 Tranche A-2 Facility will begin amortizing six months after the repayment in full of the 2011 Tranche A-1 Facility, such that not less than \$150.0 million of cumulative amortization payments shall be made on or before the six month anniversary of repayment of the Tranche A-1 Facility, with additional amortization payments of \$150.0 million due on or before each six month anniversary thereafter, with any unpaid principal amounts due at maturity in June 2014.

Through September 30, 2012, the Company has made cumulative amortization repayments of \$1.00 billion on the 2011 Tranche A-1 Facility, which exceeds all required amortization payments through December 31, 2012, leaving \$498.3 million to be paid by maturity in June 2013. Repayments of the 2011 Tranche A-1 Facility prior to scheduled amortization dates have resulted in losses on early extinguishment of debt of \$0.9 million and \$4.1 million for the three and nine months ended September 30, 2012, respectively, related to the acceleration of discounts and unamortized deferred financing fees on the portion of the facility that was repaid. See Note 17 - Subsequent Events below for details on the refinancing of the 2011 Secured Credit Facilities in October 2012.

Secured Term Loans—In September 2012, the Company refinanced two secured term loans with an aggregate outstanding principal balance of \$53.3 million, bearing interest at rates of 5.3% and 8.2% and maturing in January 2013. The new \$54.5 million secured term loan bears interest at 4.851%, matures in October 2022 and is collateralized by the same net lease asset as the original term loan. In connection with the refinancing, the Company recorded a loss on early extinguishment of debt of \$0.5 million in its Consolidated Statements of Operations for both the three and nine months ended September 30, 2012.

In addition, during the nine months ended September 30, 2012, in conjunction with the sale of a portfolio of 12 net lease assets, the Company repaid the \$50.8 million outstanding balances of its LIBOR + 4.50% secured term loans due in 2014 and terminated the related interest rate swaps associated with the loans (see Note 11).

Unsecured Credit Facility—During the nine months ended September 30, 2012, the Company repaid the \$243.7 million remaining principal balance of its LIBOR + 0.85% unsecured credit facility due June 2012. In connection with the repayments, the Company recorded a loss on early extinguishment of debt of \$0.2 million.

Secured Notes—In January 2011, the Company redeemed the \$312.3 million remaining principal balance of its 10% 2014 secured exchange notes and recorded a gain on early extinguishment of debt of \$109.0 million primarily related to the recognition of deferred gain premiums that resulted from a previous debt exchange.

Unsecured Notes—In May 2012, the Company issued \$275.0 million aggregate principal of 9.0% senior unsecured notes due June 2017 that were sold at 98.012% of their principal amount. Proceeds from this transaction are reserved for the repayment of indebtedness and included in "Restricted cash" on the Company's Consolidated Balance Sheet as of September 30, 2012.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

During the nine months ended September 30, 2012, the Company repaid, upon maturity, the \$169.7 million outstanding principal balance of its 5.15% senior unsecured notes and the \$90.3 million outstanding principal balance of its 5.50% senior unsecured notes. In addition, the Company repurchased \$420.4 million par value of senior unsecured notes with various maturities ranging from March 2012 to October 2012. In connection with these repurchases, the Company recorded aggregate losses on early extinguishment of debt of \$0.1 million and gains of \$3.2 million, for the three and nine months ended September 30, 2012, respectively.

Unencumbered/Encumbered Assets—As of September 30, 2012, the carrying value of the Company's unencumbered and encumbered assets by asset type are as follows (\$ in thousands):

	As of September 30, 2012		As of December 31, 2011	
	Encumbered Assets	Unencumbered Assets	Encumbered Assets	Unencumbered Assets
Loans and other lending investments, net(1)	\$1,594,426	\$561,897	\$1,780,591	\$1,153,671
Net lease assets, net	1,265,341	275,123	1,173,982	528,782
REHI, net	331,357	843,598	359,597	868,537
OREO	392,621	314,094	177,092	500,366
Other investments	59,816	359,832	37,957	419,878
Cash and other assets	—	979,914	—	590,884
Total	\$3,643,561	\$3,334,458	\$3,529,219	\$4,062,118

Explanatory Note:

(1) As of September 30, 2012 and December 31, 2011, the amounts presented exclude general reserves for loan losses of \$37.6 million and \$73.5 million, respectively.

Debt Covenants

The Company's outstanding unsecured debt securities contain corporate level covenants that include a covenant to maintain a ratio of unencumbered assets to unsecured indebtedness of at least 1.2x and a restriction on debt incurrence based upon the effect of the debt incurrence on the Company's fixed charge coverage ratio. If any of the Company's covenants are breached and not cured within applicable cure periods, the breach could result in acceleration of its debt securities unless a waiver or modification is agreed upon with the requisite percentage of the bondholders. While the Company expects that its ability to incur new indebtedness under the fixed charge coverage ratio will be limited for the foreseeable future, it will continue to be permitted to incur indebtedness for the purpose of refinancing existing indebtedness and for other permitted purposes under the indentures.

The Company's 2012 Secured Credit Facilities and 2011 Secured Credit Facilities both contain certain covenants, including covenants relating to collateral coverage, dividend payments, restrictions on fundamental changes, transactions with affiliates, matters relating to the liens granted to the lenders and the delivery of information to the lenders. In particular, the Company is required to maintain collateral coverage of 1.25x outstanding borrowings. In addition, for so long as the Company maintains its qualification as a REIT, the 2012 Secured Credit Facilities and 2011 Secured Credit Facilities permit the Company to distribute 100% of its REIT taxable income on an annual basis. The Company may not pay common dividends if it ceases to qualify as a REIT.

The Company's 2012 Secured Credit Facilities and 2011 Secured Credit Facilities contain cross default provisions that would allow the lenders to declare an event of default and accelerate the Company's indebtedness to them if the Company fails to pay amounts due in respect of its other recourse indebtedness in excess of specified thresholds or if the lenders under such other indebtedness are otherwise permitted to accelerate such indebtedness for any reason. The indentures governing the Company's unsecured public debt securities permit the bondholders to declare an event of default and accelerate the Company's indebtedness to them if the Company's other recourse indebtedness in excess of specified thresholds is not paid at final maturity or if such indebtedness is accelerated.

Note 10—Commitments and Contingencies

Business Risks and Uncertainties—The Company's business continues to be adversely impacted by the recent economic recession and illiquidity and volatility in the credit and commercial real estate markets. These economic conditions resulted in increased non-performing loans and real estate owned as well as higher financing costs and limited access to the unsecured debt markets. Since the beginning of the crisis, the Company has significantly curtailed asset originations and has focused primarily on repositioning and redeveloping its assets, generating liquidity, retiring debt and decreasing leverage with the objective of preserving shareholder value.

The Company saw signs of an economic recovery during the past two years, including some improvements in the commercial real estate market and capital markets. These improving conditions enabled the Company to access the unsecured debt markets and to refinance its credit facilities in 2011 and 2012. While the Company has benefited from improving conditions, volatility within the capital markets and commercial real estate market continues to have an adverse effect on the Company's operations, as primarily evidenced by still elevated levels of non-performing assets and higher costs of capital. Further, continued improvement in the Company's financial condition and its ability to generate sufficient liquidity are dependent in part on a sustained economic recovery, which cannot be predicted with certainty.

As of September 30, 2012, the Company's debt maturities and minimum amortization requirements due before December 31, 2013 included \$460.7 million of unsecured convertible notes due in October 2012, \$1.02 billion of unsecured notes due in 2013, and \$648.3 million of secured debt due in 2013. The Company had \$739.3 million of cash and restricted cash reserved for the repayment of debt as of September 30, 2012. Subsequent to quarter end, the Company repaid its \$460.7 million of senior unsecured convertible notes primarily with cash reserved for the repayment of indebtedness. In addition, subsequent to quarter end, the Company refinanced its 2011 Secured Credit Facilities with a new \$1.82 billion senior secured credit facility. After giving effect to the convertible debt repayment and the refinancing of the 2011 Secured Credit Facilities, remaining debt maturities and minimum amortization requirements due before December 31, 2013 total \$1.04 billion. See Note 17 - Subsequent Events for further details. The Company's capital sources to meet its remaining debt maturities through 2013 will primarily include cash on hand as well as debt refinancings, proceeds from unencumbered asset sales and loan repayments from borrowers, and may include equity capital raising transactions. As of September 30, 2012, the Company had unencumbered assets with a carrying value of approximately \$3.33 billion.

Based on the dynamic nature of the Company's assets and its liquidity plan and the time frame in which the Company needs to generate liquidity, the specific assets, nature of the transactions, timing and amount of asset sales and refinancing transactions could vary and are subject to factors outside its control and cannot be predicted with certainty. The Company may adjust its plans in response to changes in its expectations and changes in market conditions. In addition, although there have been early signs of improvement in the commercial real estate and credit markets during the past two years, such markets remain volatile and it is not possible for the Company to predict whether these trends will continue in the future or to quantify the impact of these or other trends on its financial results. If the Company fails to repay its obligations as they become due, it would be an event of default under the relevant debt instruments, which could result in a cross-default and acceleration of the Company's other outstanding debt obligations, all of which would have a material adverse effect on the Company.

Table of Contents

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

Unfunded Commitments—As of September 30, 2012, the maximum amount of fundings the Company may be required to make under each category, assuming all performance hurdles and milestones are met under the Performance-Based Commitments, that it approves all Discretionary Fundings and that 100% of its capital committed to Strategic Investments is drawn down, are as follows (\$ in thousands):

	Loans	Net Lease Assets	Strategic Investments	Total
Performance-Based Commitments	\$36,027	\$47,570	\$—	\$83,597
Discretionary Fundings	167	—	—	167
Other	—	—	39,461	39,461
Total	\$36,194	\$47,570	\$39,461	\$123,225

Legal Proceedings—The Company and/or one or more of its subsidiaries is party to various pending litigation matters that are considered ordinary routine litigation incidental to the Company's business as a finance and investment company focused on the commercial real estate industry, including loan foreclosure and foreclosure-related proceedings.

On June 4, 2012, the Company reached an agreement in principle with the plaintiffs' Court-appointed representatives in the previously reported Citiline class action to settle the litigation. Settlement payments will be primarily funded by the Company's insurance carriers, with the Company contributing \$2.0 million to the settlement, which is included in "Other expense" on the Consolidated Statements of Operations for the nine months ended September 30, 2012. See "Part II. Item 1. Legal Proceedings" for further details and for other disclosures related to legal proceedings.

The Company evaluates, on a quarterly basis, developments in legal proceedings that could require a liability to be accrued and/or disclosed. Based on its current knowledge, and after consultation with legal counsel, the Company believes it is not a party to, nor are any of its properties the subject of, any pending legal proceeding that would have a material adverse effect on the Company's consolidated financial condition.

Note 11—Derivatives

The Company's use of derivative financial instruments is primarily limited to the utilization of interest rate hedges and foreign exchange hedges. The principal objective of such hedges is to minimize the risks and/or costs associated with the Company's operating and financial structure and to manage its exposure to foreign exchange rates. Derivatives not designated as hedges are not speculative and are used to manage the Company's exposure to interest rate movements, foreign exchange rate movements, and other identified risks, but may not meet the strict hedge accounting requirements.

The table below presents the fair value of the Company's derivative financial instruments as well as their classification on the Consolidated Balance Sheets as of September 30, 2012 and December 31, 2011 (\$ in thousands):

Derivative	Derivative Assets as of				Derivative Liabilities as of			
	September 30, 2012		December 31, 2011		September 30, 2012		December 31, 2011

Notes to Consolidated Financial Statements (Continued)

(unaudited)

The tables below present the effect of the Company's derivative financial instruments on the Consolidated Statements of Operations for the three and nine months ended September 30, 2012 and 2011 (\$ in thousands):

Derivatives Designated in Hedging Relationships	Location of Gain (Loss) Recognized in Income on Derivative	Amount of Gain (Loss) Recognized in Accumulated Other Comprehensive Income (Effective Portion)	Amount of Gain (Loss) Reclassified from Accumulated Other Comprehensive Income into Earnings (Effective Portion)	Amount of Gain (Loss) Recognized in Earnings (Ineffective Portion)
For the Three Months Ended September 30, 2012				
Cash flow interest rate swap	Interest Expense	\$—	\$(26)) N/A
For the Three Months Ended September 30, 2011				
Cash flow interest rate swap	Interest Expense	\$(529)) \$(178)) N/A
For the Nine Months Ended September 30, 2012				
Cash flow interest rate swap	Interest Expense	\$(124)) \$(265)) N/A
For the Nine Months Ended September 30, 2011				
Cash flow interest rate swap	Interest Expense	\$(1,530)) \$(531)) N/A

Derivatives not Designated in Hedging Relationships	Location of Gain or (Loss) Recognized in Income on Derivative	Amount of Gain or (Loss) Recognized in Income on Derivative			
		For the Three Months Ended September 30,		For the Nine Months Ended September 30,	
		2012	2011	2012	2011
Foreign Exchange Contracts	Other Expense	\$(6,658)) \$21,152	\$(5,326)) \$12,259

Non-designated hedges—Changes in the fair value of derivatives not designated in hedging relationships are recorded directly in earnings.

The following table presents the Company's foreign currency derivatives outstanding as of September 30, 2012 (\$ in thousands):

Derivative Type	Notional Amount	Notional (USD Equivalent)	Maturity
Sells EUR/Buys USD Forward	€ 109,000	\$140,043	October 2012
Sells GBP/Buys USD Forward	£ 52,850	\$85,266	October 2012
Sells CAD/Buys USD Forward	C\$50,950	\$51,784	October 2012

Qualifying Cash Flow Hedges—During the nine months ended September 30, 2012, the Company terminated its interest rate swaps in conjunction with the early repayment of its secured term loans (see also Note 9).

Over the next 12 months, the Company expects that \$0.6 million of expense and \$0.7 million of income related to terminated cash flow hedges, will be reclassified from "Accumulated other comprehensive income (loss)" into earnings.

Credit risk-related contingent features—The Company has agreements with each of its derivative counterparties that contain a provision where if the Company either defaults or is capable of being declared in default on any of its indebtedness, then the Company could also be declared in default on its derivative obligations.

In connection with its foreign currency derivatives, as of September 30, 2012 and December 31, 2011, the Company has posted collateral of \$17.4 million and \$9.6 million, respectively, which is included in "Restricted cash" on the Company's Consolidated Balance Sheets.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

Note 12—Equity

Preferred Stock—The Company had the following series of Cumulative Redeemable Preferred Stock outstanding as of September 30, 2012 and December 31, 2011:

Series	Shares Issued and Outstanding (in thousands)	Par Value	Cumulative Preferential Cash Dividends(1)(2) Rate per Annum of the \$25.00 Liquidation Preference	Equivalent to Fixed Annual Rate (per share)
D	4,000	\$0.001	8.000	% \$2.00
E	5,600	\$0.001	7.875	% \$1.97
F	4,000	\$0.001	7.8	% \$1.95
G	3,200	\$0.001	7.65	% \$1.91
I	5,000	\$0.001	7.50	% \$1.88
	21,800			

Explanatory Notes:

Holder of shares of the Series D, E, F, G and I preferred stock are entitled to receive dividends, when and as declared by the Board of Directors, out of funds legally available for the payment of dividends. Dividends are cumulative from the date of original issue and are payable quarterly in arrears on or before the 15th day of each March, June, September and December or, if not a business day, the next succeeding business day. Any dividend (1) payable on the preferred stock for any partial dividend period will be computed on the basis of a 360-day year consisting of twelve 30-day months. Dividends will be payable to holders of record as of the close of business on the first day of the calendar month in which the applicable dividend payment date falls or on another date designated by the Board of Directors of the Company for the payment of dividends that is not more than 30 nor less than 10 days prior to the dividend payment date.

The Company declared and paid dividends aggregating \$6.0 million, \$8.3 million, \$5.9 million, \$4.6 million and (2) \$7.0 million on its Series D, E, F, G and I preferred stock, respectively, during the nine months ended September 30, 2012. There are no dividend arrearages on any of the preferred shares currently outstanding.

Dividends—In order to maintain its election to qualify as a REIT, the Company must currently distribute, at a minimum, an amount equal to 90% of its taxable income, excluding net capital gains, and must distribute 100% of its taxable income (including net capital gains) to avoid paying corporate federal income taxes. The Company has recorded net operating losses and may record net operating losses in the future, which may reduce its taxable income in future periods and lower or eliminate entirely the Company's obligation to pay dividends for such periods in order to maintain its REIT qualification. As of December 31, 2011, the Company had \$423.9 million of net operating loss carryforwards at the corporate REIT level that can generally be used to offset both ordinary and capital taxable income in future years and will expire through 2031 if unused. Because taxable income differs from cash flow from operations due to non-cash revenues and expenses (such as depreciation and certain asset impairments), in certain circumstances, the Company may generate operating cash flow in excess of its dividends or, alternatively, may need to make dividend payments in excess of operating cash flows. The Company's 2012 Secured Credit Facilities and 2011

Secured Credit Facilities permit the Company to distribute 100% of its REIT taxable income on an annual basis, for so long as the Company maintains its qualification as a REIT. The 2012 and 2011 Secured Credit Facilities restrict the Company from paying any common dividends if it ceases to qualify as a REIT. The Company did not declare or pay any Common Stock dividends for the nine months ended September 30, 2012 and 2011.

Stock Repurchase Programs—On May 16, 2012, the Company's Board of Directors approved a stock repurchase program that authorized the repurchase of up to \$20.0 million of its Common Stock from time to time in open market and privately negotiated purchases, including pursuant to one or more trading plans.

During the nine months ended September 30, 2012, the Company repurchased 0.8 million shares of its outstanding Common Stock for approximately \$4.6 million, at an average cost of \$5.69 per share. As of September 30, 2012, the Company had \$16.0 million of Common Stock available to repurchase under its Board authorized stock repurchase programs.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

Accumulated Other Comprehensive Income (Loss)—"Accumulated other comprehensive income (loss)" reflected in the Company's shareholders' equity is comprised of the following (\$ in thousands):

	As of September 30, 2012	December 31, 2011	
Unrealized gains on available-for-sale securities	\$700	\$589	
Unrealized gains on cash flow hedges	1,231	1,986	
Unrealized losses on cumulative translation adjustment	(3,943) (2,903)
Accumulated other comprehensive income (loss)	\$(2,012) \$(328)

Note 13—Stock-Based Compensation Plans and Employee Benefits

Stock-based Compensation—The Company recorded stock-based compensation expense of \$3.5 million and \$11.6 million for the three and nine months ended September 30, 2012, respectively, and \$7.2 million and \$15.6 million for the three and nine months ended September 30, 2011, respectively, in "General and administrative" on the Company's Consolidated Statements of Operations. As of September 30, 2012, there was \$13.5 million of total unrecognized compensation cost related to all unvested restricted stock units that is expected to be recognized over a weighted average remaining vesting/service period of 0.83 years. As of September 30, 2012, an aggregate of 4.1 million shares remain available for issuance pursuant to future awards under the Company's 2006 and 2009 Long-Term Incentive Plans.

Restricted Stock Units

2012 Activity—During the nine months ended September 30, 2012, 4,349,387 restricted stock units vested and were issued to employees, net of statutory minimum required tax withholdings. These vested restricted stock units were primarily comprised of 1,947,551 Amended Units which vested on January 1, 2012 (see below), 1,340,620 service-based restricted stock units granted to employees in February 2010 that cliff vested on February 17, 2012, and 806,518 performance-based restricted stock units granted to the Company's Chairman and Chief Executive Officer in March 2010, that cliff vested on March 2, 2012. The performance-based units had certain performance and service conditions, relating to reductions in the Company's general and administrative expenses, retirement of debt and continued employment, which were satisfied during the year ended December 31, 2010.

As of September 30, 2012, the Company had the following restricted stock awards outstanding:

1,200,000 service-based restricted stock units granted to the Company's Chairman and Chief Executive Officer that will vest in two equal installments on June 15 of 2013 and 2014. Upon vesting of these units, the holder will receive shares of the Company's Common Stock in the amount of the vested units, net of statutory minimum required tax withholdings. These awards carry dividend equivalent rights that entitle the holder to receive dividend payments prior to vesting, if and when dividends are paid on shares of the Company's Common Stock.

3,669,347 restricted stock units originally granted to executives and other officers of the Company on December 19, 2008 (the "Original Units") and subsequently modified in July 2011 (the "Amended Units"). The number of Amended Units is equal to 75% of the Original Units granted to an employee less, in the case of each executive level employee, the number of restricted stock units granted to the executive in March 2011. The remaining Amended Units will vest in two equal installments on January 1, 2013 and 2014, so long as the employee remains employed by the Company

on the vesting dates, subject to certain accelerated vesting rights in the event of termination of employment without cause. Upon vesting of these units, holders will receive shares of the Company's Common Stock in the amount of the vested units, net of statutory minimum required tax withholdings. These awards carry dividend equivalent rights that entitle the holders to receive dividend payments prior to vesting, if and when dividends are paid on shares of the Company's Common Stock.

Table of Contents

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

666,374 service-based restricted stock units granted to employees with original vesting terms ranging from two years to five years. Upon vesting of these units, holders will receive shares of the Company's Common Stock in the amount of the vested units, net of statutory minimum required tax withholdings. These awards carry dividend equivalent rights that entitle the holders to receive dividend payments prior to vesting, if and when dividends are paid on shares of the Company's Common Stock.

Stock Options—All remaining stock options expired during the nine months ended September 30, 2012.

Directors' Awards—During the nine months ended September 30, 2012, the Company awarded to Directors 77,113 common share equivalents ("CSEs") and restricted shares at a fair value per share of \$5.67 at the time of grant. These CSEs and restricted shares have a one year vesting period and pay dividends in an amount equal to the dividends paid on the equivalent number of shares of the Company's Common stock from the date of grant, as and when dividends are paid on Common Stock. In addition, during the nine months ended September 30, 2012, the Company issued 35,476 shares to a former director in settlement of previously vested CSE awards. As of September 30, 2012, there were 384,751 CSEs and restricted shares granted to members of the Company's Board of Directors that remained outstanding with an aggregate intrinsic value of \$3.2 million.

401(k) Plan—The Company made gross contributions to its 401(k) Plan of approximately \$0.1 million and \$0.8 million for the three and nine months ended September 30, 2012, respectively, and \$0.2 million and \$0.6 million for the three and nine months ended September 30, 2011, respectively.

Note 14—Earnings Per Share

The following table presents a reconciliation of income (loss) from continuing operations used in the basic and diluted earnings per share calculations (\$ in thousands, except for per share data):

Note 15—Fair Values

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following fair value hierarchy prioritizes the inputs to be used in valuation techniques to measure fair value:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the asset or liability; and

Level 3: Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (i.e., supported by little or no market activity).

Certain of the Company's assets and liabilities are recorded at fair value either on a recurring or non-recurring basis. Assets required to be marked-to-market and reported at fair value every reporting period are classified as being valued on a recurring basis. Other assets not required to be recorded at fair value every period may be recorded at fair value if a specific provision or other impairment is recorded within the period to mark the carrying value of the asset to market as of the reporting date. Such assets are classified as being valued on a non-recurring basis.

The following fair value hierarchy table summarizes the Company's assets and liabilities recorded at fair value on a recurring and non-recurring basis by the above categories (\$ in thousands):

	Total	Fair Value Using Quoted market prices in active markets (Level 1)	Significant other observable inputs (Level 2)	Significant unobservable inputs (Level 3)
As of September 30, 2012				
Recurring basis:				
Derivative liabilities	\$7,392	\$—	\$7,392	\$—
Non-recurring basis:				
Impaired loans	\$138,500	\$—	\$—	\$138,500

Derivative liabilities	\$2,373	\$—	\$2,373	\$—
Non-recurring basis:				
Impaired loans	\$271,968	\$—	\$—	\$271,968
Impaired OREO	\$43,660	\$—	\$—	\$43,660

Table of Contents

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

The following table provides quantitative information about Level 3 fair value measures of the Company's non-recurring financial and non-financial assets (\$ in thousands):

Quantitative Information about Level 3 Fair Value Measurements

	Fair Value as of September 30, 2012	Valuation Technique(s)	Unobservable Input	Weighted Average	
Impaired loans—other real estate	\$73,100	Discounted cash flow	Discount rate	12.3	%
			Average annual revenue growth	3.0	%
46,300	Various(1)		Remaining inventory sell out period (in years)	8.5	
			Discount rate	15.5	%
			Capitalization rate	10.0	%
			Average annual percentage market rate growth	3.9	%
			Average annual increase in occupancy	1.0	%
			Price per Acre	\$5,000	
19,100	Comparable sales	Price per Acre	\$26		
Total	\$138,500				

Explanatory Note:

A probability weighted average was used to value this asset based on two appraisals of the property serving as (1) collateral for the loan, one of which relied on market comparables and one of which used a discounted cash flow approach, and a discounted pay-off offer by the borrower.

The book and estimated fair values of financial instruments were as follows (\$ in thousands)(1):

	As of September 30, 2012		December 31, 2011	
	Book Value	Fair Value	Book Value	Fair Value
Financial assets:				
Loans and other lending investments, net	\$2,118,723	\$2,186,117	\$2,860,762	\$2,786,595
Financial liabilities:				
Debt obligations, net	\$5,388,860	\$5,503,168	\$5,837,540	\$5,495,197

Explanatory Note:

(1) The carrying values of other financial instruments including cash and cash equivalents, restricted cash, accrued interest receivable and accounts payable, approximate the fair values of the instruments. Cash and cash equivalents and restricted cash values are considered Level 1 on the fair value hierarchy. The fair value of other financial instruments, including derivative assets and liabilities and marketable securities are included in the previous fair

value hierarchy table.

Given the nature of certain assets and liabilities, clearly determinable market based valuation inputs are often not available, therefore, these assets and liabilities are valued using internal valuation techniques. Subjectivity exists with respect to these internal valuation techniques, therefore, the fair values disclosed may not ultimately be realized by the Company if the assets were sold or the liabilities were settled with third parties. The methods the Company used to estimate the fair values presented in the three tables above are described more fully below for each type of asset and liability.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

Derivatives—The Company uses interest rate swaps and foreign currency derivatives to manage its interest rate and foreign currency risk. The valuation of these instruments is determined using discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves, foreign exchange rates, and implied volatilities. The Company incorporates credit valuation adjustments to appropriately reflect both its own non-performance risk and the respective counterparty's non-performance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of non-performance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees. In addition, upon adoption of ASU 2011-04, the Company made an accounting policy election to measure derivative financial instruments subject to master netting agreements on a net basis. The Company has determined that the significant inputs used to value its derivatives fall within Level 2 of the fair value hierarchy.

Impaired loans—The Company's loans identified as being impaired are nearly all collateral dependent loans and are evaluated for impairment by comparing the estimated fair value of the underlying collateral, less costs to sell, to the carrying value of each loan. Due to the nature of the individual properties collateralizing the Company's loans, the Company generally uses a discounted cash flow methodology through internally developed valuation models to estimate the fair value of the collateral. This approach requires the Company to make judgments in respect to significant unobservable inputs, which may include discount rates, capitalization rates and the timing and amounts of estimated future cash flows. For income producing properties, cash flows generally include property revenues, operating costs and capital expenditures that are based on current observable market rates and estimates for market rate growth and occupancy levels. For other real estate, cash flows may include lot and unit sales that are based on current observable market rates and estimates for annual revenue growth, operating costs and costs of completion and the remaining inventory sell out periods. In more limited cases, the Company obtains external "as is" appraisals for loan collateral, generally when third party participations exist, and appraised values may be discounted when real estate markets rapidly deteriorate.

Impaired OREO assets—If the Company determines an OREO asset is impaired it records an impairment charge to adjust the asset to its estimated fair market value less costs to sell. Due to the nature of the individual properties in the OREO portfolio, the Company generally uses a discounted cash flow methodology through internally developed valuation models to estimate the fair value of the assets. This approach requires the Company to make judgments with respect to significant unobservable inputs, which may include discount rates, capitalization rates and the timing and amounts of estimated future cash flows. For income producing properties, cash flows generally include property revenues, operating costs and capital expenditures that are based on current observable market rates and estimates for market rate growth and occupancy levels. For other real estate, cash flows may include lot and unit sales that are based on current observable market rates and estimates for annual market rate growth, operating costs and costs of completion and the remaining inventory sell out periods. In more limited cases, the Company obtains external "as is" appraisals for real estate assets and appraised values may be discounted when real estate markets rapidly deteriorate. In some cases, if the Company is under contract to sell an asset it will mark the asset to the contracted sales price less costs to sell.

Impaired net lease assets—If the Company determines a net lease asset is impaired it records an impairment charge to mark the asset to its estimated fair market value. Due to the nature of the individual properties in the net lease asset portfolio, the Company generally uses a discounted cash flow methodology through internally developed valuation models to estimate the fair value of the assets. This approach requires the Company to make judgments with respect to significant unobservable inputs, which may include discount rates, capitalization rates and the timing and amounts of estimated future cash flows. These cash flows are primarily based on expected future leasing rates and operating costs.

In more limited cases, the Company obtains external "as is" appraisals for real estate assets and appraised values may be discounted when real estate markets rapidly deteriorate. In some cases, if the Company is under contract to sell an asset it will mark the asset to the contracted sales price less costs to sell.

Loans and other lending investments—The Company estimates the fair value of its performing loans and other lending investments using a discounted cash flow methodology. This method discounts estimated future cash flows using rates management determines best reflect current market interest rates that would be offered for loans with similar characteristics and credit quality. The Company determined that the significant inputs used to value its loans and other lending investments fall within Level 3 of the fair value hierarchy.

iStar Financial Inc.

Notes to Consolidated Financial Statements (Continued)

(unaudited)

Debt obligations, net—For debt obligations traded in secondary markets, the Company uses market quotes, to the extent they are available, to determine fair value. For debt obligations not traded in secondary markets, the Company determines fair value using a discounted cash flow methodology, whereby contractual cash flows are discounted at rates that management determines best reflect current market interest rates that would be charged for debt with similar characteristics and credit quality. The Company has determined that the inputs used to value its debt obligations under the discounted cash flow methodology fall within Level 3 of the fair value hierarchy.

Note 16—Segment Reporting

The Company evaluates performance based on the following financial measures for each segment (\$ in thousands):

	Real Estate Lending	Net Leasing	Real Estate Investment	Corporate/ Other(1)	Company Total
Three Months Ended September 30, 2012:					
Total revenue(2)	\$32,471	\$38,582	\$14,276	\$918	\$86,247

Explanatory Notes:

(1) Corporate/Other represents all corporate level and unallocated items including any intercompany eliminations necessary to reconcile to consolidated Company totals. This caption also includes the Company's joint venture investments and strategic investments that are not related to the other reportable segments above, including the Company's equity investment in LNR of \$180.7 million and \$159.8 million, as of September 30, 2012 and December 31, 2011, respectively, and the Company's share of equity in earnings from LNR of \$15.2 million and \$36.0 million, for the three and nine months ended September 30, 2012, respectively, and \$12.5 million and \$36.6 million for the three and nine months ended September 30, 2011. See Note 7 for further details on the Company's

investment in LNR and summarized financial information of LNR.

(2) Total revenue represents all revenue earned during the period related to the assets in each segment. Revenue from the Real Estate Lending segment primarily represents interest income, revenue from the Net Leasing segment primarily represents operating lease income and revenue from Real Estate Investment primarily represents operating revenues from REHI properties.

(3) General and administrative excludes stock-based compensation expense of \$3.5 million and \$11.6 million for the three and nine months ended September 30, 2012, respectively, and \$7.2 million and \$15.6 million for the three and nine months ended September 30, 2011 respectively.

(4) The following is a reconciliation of segment profit (loss) to income (loss) from continuing operations (\$ in thousands):

Note 17—Subsequent Events

On October 1, 2012, the Company repaid, upon maturity, the \$460.7 million remaining principal balance of its LIBOR + 0.50% senior unsecured convertible notes primarily with cash restricted for the repayment of indebtedness.

On October 15, 2012, the Company entered into a \$1.82 billion senior secured credit agreement due October 15, 2017 (the “New Credit Facility”). The New Credit Facility bears interest at a rate of LIBOR + 4.50%, with a 1.25% LIBOR floor, and was issued at 99.0% of par. Proceeds from the New Credit Facility were used to refinance the remaining outstanding balances of the Company’s existing 2011 Secured Credit Facilities.

Borrowings under the New Credit Facility are collateralized by a first lien on a fixed pool of assets, with required minimum collateral coverage of not less than 125% of outstanding borrowings. If collateral coverage is less than 137.5% of outstanding borrowings, 100% of the proceeds from principal repayments and sales of collateral will be applied to repay outstanding borrowings under the New Credit Facility. For so long as collateral coverage is between 137.5% and 150% of outstanding borrowings, 50% of proceeds from principal repayments and sales of collateral will be applied to repay outstanding borrowings under the New Credit Facility and for so long as collateral coverage is greater than 150% of outstanding borrowings, the Company may retain all proceeds from principal repayments and sales of collateral. The Company retains proceeds from interest, rent, lease payments and fee income in all cases. The New Credit Facility contains certain covenants relating to the collateral, among other matters, but does not contain corporate level financial covenants. For so long as the Company maintains its qualification as a REIT, it is permitted to distribute 100% of its REIT taxable income on an annual basis. In addition, the Company may distribute to its stockholders real estate assets, or interests therein, having an aggregate equity value not to exceed \$200 million, that are not collateral securing the borrowings under the New Credit Facility. Except for the distribution of real estate assets described in the preceding sentence, the Company may not pay common dividends if it ceases to qualify as a REIT.

After giving effect to the convertible debt repayment and the refinancing of the 2011 Secured Credit Facilities subsequent to quarter end, the Company’s future scheduled maturities of outstanding long-term debt obligations are as follows (\$ in thousands):

Unsecured Debt	Secured Debt	Total
-------------------	--------------	-------

Notes to Consolidated Financial Statements (Continued)

(unaudited)

On November 7, 2012, the Company priced two public offerings of debt securities: \$300 million of unsecured 7.125% Senior Notes due 2018 and \$175 million of unsecured 3.0% Convertible Senior Notes due 2016 (plus up to an additional \$25 million of Convertible Senior Notes if the underwriters exercise their option to purchase additional notes in full). The Convertible Senior Notes are convertible into shares of our common stock at a conversion rate of 84.9582 shares per \$1,000 principal amount of notes, which is equal to a conversion price of approximately \$11.77 per share, subject to adjustment. The Company intends to use the net proceeds of the offerings to redeem its \$67.1 million aggregate principal amount of 6.5% unsecured Senior Notes due 2013 and the remainder of the net proceeds to redeem a portion of its 8.625% unsecured Senior Notes due 2013. The offerings are not contingent on one another. The closings of the transactions are subject to customary closing conditions and there can be no assurance that either or both transactions will be completed.

The East Coast of the United States has been significantly affected by Hurricane Sandy. The Company has been actively monitoring the impact of the hurricane on its assets located in the affected areas and as of the date of this report, the Company has not identified any physical damage to its assets that would reasonably be expected to have a material adverse effect on its business, and the Company has not been advised by any borrowers or tenants that they have suffered damages that would reasonably be expected to have a material adverse effect on the Company. The hurricane happened very recently, however, and there can be no assurance that the Company will not identify additional effects of the hurricane on its business in the future.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Certain statements in this report, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Forward-looking statements are included with respect to, among other things, iStar Financial Inc.'s (the "Company's") current business plan, business strategy, portfolio management, prospects and liquidity. These forward-looking statements generally are identified by the words "believe," "project," "expect," "anticipate," "estimate," "intend," "strategy," "plan," "may," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results or outcomes to differ materially from those contained in the forward-looking statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. In assessing all forward-looking statements, readers are urged to read carefully all cautionary statements contained in this Form 10-Q and the uncertainties and risks described in Item 1A—"Risk Factors" in our 2011 Annual Report (as defined below), all of which could affect our future results of operations, financial condition and liquidity. For purposes of Management's Discussion and Analysis of Financial Condition and Results of Operations, the terms "we," "our" and "us" refer to iStar Financial Inc. and its consolidated subsidiaries, unless the context indicates otherwise.

The discussion below should be read in conjunction with our consolidated financial statements and related notes in this quarterly report on Form 10-Q and our annual report on Form 10-K for the year ended December 31, 2011 (the "2011 Annual Report"). These historical financial statements may not be indicative of our future performance. We have reclassified certain items in our consolidated financial statements of prior periods to conform to our current financial statements presentation.

Introduction

iStar Financial Inc. is a fully-integrated finance and investment company focused on the commercial real estate industry. We provide custom-tailored investment capital to high-end private and corporate owners of real estate and invest directly across a range of real estate sectors. We are taxed as a real estate investment trust, or "REIT," and have invested more than \$35 billion over the past two decades. Our primary business segments are lending, net leasing and real estate investment.

Executive Overview

For the quarter ended September 30, 2012, we recorded a net loss allocable to common shareholders of \$(71.8) million, compared to a loss of \$(62.2) million for the same period last year. Adjusted income (loss) allocable to common shareholders was \$(26.0) million for the third quarter 2012, compared to \$(19.0) million for the prior year. Both net income (loss) and adjusted income (loss) for the third quarter 2011 included \$22.2 million of gains from discontinued operations. Excluding these gains, the year over year increase was due to income we are now generating from sales of residential property units, increased earnings from equity method investments, as well as a reduction in general and administrative costs. These improvements were partially offset by decreasing interest income from an

overall smaller real estate finance portfolio and increased interest expense due to an elevated cost of capital which has impacted and will continue to impact earnings.

During the quarter ended September 30, 2012, we generated a total of \$318.0 million in proceeds from our portfolio, comprised primarily of \$157.9 million in loan principal repayments, \$146.6 million from sales of OREO assets, and \$13.4 million from other investments. We used proceeds from asset sales and loan repayments to repay \$147.7 million on the 2011 Tranche A-1 Facility and \$66.4 million on the 2012 Tranche A-1 Facility. During the quarter, we funded a total of \$28.4 million in investments.

As of September 30, 2012, we had \$739.3 million of cash and restricted cash reserved for the repayment of debt. Subsequent to quarter end, we repaid the remaining \$460.7 million balance on our senior unsecured convertible notes due October 2012 at maturity primarily with cash reserved for the repayment of indebtedness. In addition, subsequent to quarter end, we refinanced the balance of our 2011 Secured Credit Facilities with a new \$1.82 billion senior secured credit facility. This new facility improves our debt maturity profile by extending the maturity from 2013 to October 2017, significantly reduces minimum amortization requirements and has a lower effective interest rate than the facilities it refinanced.

Table of Contents

After giving effect to the convertible debt repayment and the refinancing of the 2011 Secured Credit Facilities subsequent to quarter end, our remaining debt maturities through 2013 total \$1.04 billion. Consistent with how we have managed debt maturities in recent years, we expect to address these maturities with a combination of unrestricted cash, proceeds from asset repayments and sales and capital market transactions. We also expect to continue to strengthen our balance sheet through deleveraging and will make additional investments in our real estate portfolio to maximize its value.

Results of Operations for the Three Months Ended September 30, 2012 compared to the Three Months Ended September 30, 2011

	For the Three Months Ended September 30,

Income (loss) from discontinued operations	2	1,917	(1,915)	<100%
Gain from discontinued operations	—	22,198	(22,198)	(100)%
Income from sales of residential property	15,584	—	15,584	100%
Net income (loss)	\$(64,306)	\$(54,661)	\$(9,645)	18%

Revenue—The decrease in interest income was primarily due to a decline in the average balance of performing loans to \$1.59 billion for the three months ended September 30, 2012 from \$2.42 billion for the same period in 2011. The decrease in performing loans was primarily due to loan repayments and sales as well as performing loans moving to non-performing status (see Risk Management below). For the three months ended September 30, 2012, performing loans generated a weighted average effective yield of 7.51% as compared to 7.15% in 2011.

As of September 30, 2012, net lease assets were 91.3% leased compared to 88.7% leased as of September 30, 2011. For the three months ended September 30, 2012, total net lease assets generated a weighted average effective yield of 8.6% compared to 8.5% during the same period in 2011.

Within other income, revenue from REHI assets increased to \$14.3 million during the three months ended September 30, 2012 from \$8.2 million in the same period of 2011 due to an increase in the amount of REHI assets during the last 12 months.

Costs and expenses—Provisions for loan losses recorded during the three months ended September 30, 2012 included higher specific reserves on non-performing loans relative to the prior year; however, these were offset by a reduction

in the general reserve primarily due to a reduction in the balance of performing loans outstanding during the current quarter.

40

Table of Contents

Operating costs for REHI and OREO assets were greater during the three months ended September 30, 2012, primarily due to an increase in the number of properties held during the respective periods. In addition, due to the increase in REHI properties held, depreciation and amortization expense increased period to period.

Interest expense increased primarily due to a higher weighted average cost of debt resulting from our 2012 Secured Credit Facility as well as our \$275.0 million of 9.0% senior unsecured notes issued in May 2012, which refinanced debt with lower interest rates. Our weighted average effective cost of debt increased to 6.52% for the three months ended September 30, 2012 as compared to 5.79% during the same period in 2011. The increase was offset by a lower average outstanding balance of our debt which declined to \$5.50 billion for the three months ended September 30, 2012 from \$6.21 billion for the three months ended September 30, 2011.

General and administrative expenses decreased primarily due to lower payroll and employee related costs resulting from staffing reductions as well as \$3.6 million of lower stock-based compensation expense. Stock-based compensation expense was higher in 2011 due to the incremental expense associated with the July 2011 modification of our restricted stock units originally awarded on December 19, 2008.

Impairments of assets for the three months ended September 30, 2012 primarily consisted of a \$3.6 million impairment on an individual net lease asset. Impairment of assets for the three months ended September 30, 2011 primarily consisted of \$9.3 million on OREO assets.

Gain on early extinguishment of debt, net—During the three months ended September 30, 2012, we recorded a net loss on early extinguishment of debt of \$3.7 million, related to the write-off of unamortized deferred financing fees resulting from repayments made on the A-1 Tranches of the 2011 and 2012 Secured Credit Facilities, as well as repurchases of our senior unsecured convertible notes. Losses related to the write-off of deferred financing fees were slightly lower during 2011 due to fewer early repayments of debt in that quarter.

Earnings from equity method investments—Earnings from equity method investments during the three months ended September 30, 2012, includes \$4.0 million of equity in earnings resulting from income from sales of residential property units recorded by one of our OREO investments where we hold an equity interest. The remaining increase was due to improved performance at certain of our strategic investments, primarily LNR and the Madison Funds.

Discontinued operations—During the three months ended September 30, 2011, we realized a \$22.2 million gain from discontinued operations previously deferred as part of the June 2010 sale of 32 net lease assets.

Income from sales of residential property—During the three months ended September 30, 2012, we sold OREO assets with a carrying value of \$131.3 million. A portion of the properties sold were residential property units for which we recorded income of \$15.6 million.

Revenue—The decrease in interest income is primarily due to a decline in the average balance of performing loans to \$1.74 billion for the nine months ended September 30, 2012 from \$2.73 billion for the same period in 2011. The decrease in performing loans was primarily due to loan repayments and sales as well as performing loans moving to non-performing status (see Risk Management below). For the nine months ended September 30, 2012, performing loans generated a weighted average effective yield of 7.50% as compared to 7.49% in 2011. Additionally, during the nine months ended September 30, 2011, we recorded \$26.3 million of interest income related to certain nonperforming loans that were resolved, including interest not previously recorded due to the loans being on non-accrual status.

As of September 30, 2012, net lease assets were 91.3% leased compared to 88.7% leased as of September 30, 2011. For the nine months ended September 30, 2012, total net lease assets generated a weighted average effective yield of 8.7% compared to 8.3% during the same period in 2011.

Within other income, revenue from REHI assets increased to \$43.4 million during the nine months ended September 30, 2012 from \$22.4 million in the same period of 2011 due to an increase in the amount of REHI assets during the last 12 months. In addition, during the nine months ended September 30, 2012, we recorded income of \$6.4 million related to the sale of loans.

Costs and expenses—Provisions for loan losses recorded during the nine months ended September 30, 2012 included higher specific reserves on non-performing loans relative to the prior year as well as a reduction in the general reserve

primarily due to a reduction in the balance of performing loans outstanding during that year.

Table of Contents

Interest expense increased primarily due to a higher weighted average cost of debt resulting from our 2011 and 2012 Secured Credit Facilities as well as the \$275.0 million of 9.0% senior unsecured notes issued in May 2012, which refinanced debt with lower interest rates. This increase was partially offset by lower average outstanding borrowings. Our weighted average effective cost of debt increased to 6.32% for the nine months ended September 30, 2012 as compared to 5.12% during the same period in 2011. The average outstanding balance of debt declined to \$5.67 billion for the nine months ended September 30, 2012 from \$6.65 billion for the nine months ended September 30, 2011.

Impairments of assets for the nine months ended September 30, 2012 primarily consisted of \$23.3 million of impairments on net lease assets, driven primarily by changes in business strategy for these assets and \$5.3 million on OREO assets. For the nine months ended September 30, 2011 impairments consisted primarily of \$12.6 million on OREO assets.

Operating costs for REHI and OREO were greater during the nine months ended September 30, 2012 primarily due to an increase in the number of properties held during the respective periods. In addition, due to the increase in REHI assets held, depreciation and amortization expense increased period to period.

General and administrative expenses decreased primarily due to lower payroll and employee related costs resulting from staffing reductions as well as \$4.0 million of lower stock-based compensation expense. Stock-based compensation expense was higher in 2011 due to the incremental expense associated with the July 2011 modification of our restricted stock units originally awarded on December 19, 2008.

Gain on early extinguishment of debt, net—During the nine months ended September 30, 2012, net loss on early extinguishment of debt was primarily related to the write-off of deferred financing fees from repayments made on the A-1 Tranches of the 2011 and 2012 Secured Credit Facilities and repurchases of the senior unsecured convertible notes.

During the same period in 2011, we fully redeemed the \$312.3 million remaining principal amount of 10% senior secured notes due June 2014 and recorded a \$109.0 million gain on early extinguishment of debt. This was partially offset by losses on extinguishment of debt primarily related to the write-off of unamortized deferred financing fees resulting from repayments of our secured credit facilities and the 2011 Tranche A-1 facility.

Earnings from equity method investments—Earnings from equity method investments increased during the nine months ended September 30, 2012, primarily due to \$22.2 million of equity in earnings resulting from income from sales of residential property units recorded by one of our OREO investments where we hold an equity interest. Earnings from certain of our other strategic investments increased due to better overall market performance. These increases were offset by the sale of our interests in Oak Hill Advisors, L.P. and related entities in October of 2011, which generated \$8.8 million of earnings during the nine months ended September 30, 2011.

Income tax expense—Income tax expense for the nine months ended September 30, 2012 declined from the same period in the prior year primarily due to our ability in the current year to utilize net operating loss carry forwards to offset much of the income generated by our taxable REIT subsidiaries.

Discontinued operations—During the nine months ended September 30, 2012, we sold net lease assets with a carrying value of \$115.5 million and recorded a gain of \$27.3 million. During the nine months ended September 30, 2011, we realized a \$22.2 million gain from discontinued operations previously deferred as part of the June 2010 sale of a portfolio of 32 net lease assets. Income (loss) from discontinued operations includes operating results from net lease assets sold prior to September 30, 2012.

Income from sales of residential property—During the nine months ended September 30, 2012, we sold OREO assets with a carrying value of \$281.0 million, primarily comprised of sales of residential property units for which we recorded income of \$35.6 million.

Table of Contents

Adjusted income and Adjusted EBITDA

In addition to net income (loss), we use Adjusted income and Adjusted EBITDA to measure our operating performance. Adjusted income represents net income allocable to common shareholders, prior to the effect of depreciation and amortization, provision for loan losses, impairment of assets, stock-based compensation, and the gain (loss) on early extinguishment of debt. Adjusted EBITDA represents net income (loss) plus the sum of interest expense, income taxes, depreciation and amortization, provision for loan losses, impairment of assets and stock-based compensation expense, less the gain/loss on early extinguishment of debt.

We believe Adjusted income and Adjusted EBITDA are useful measures to consider, in addition to net income (loss), as they may help investors evaluate our core operating performance prior to certain non-cash items.

Adjusted income and Adjusted EBITDA should be examined in conjunction with net income (loss) as shown in our Consolidated Statements of Operations. Adjusted income and Adjusted EBITDA should not be considered as an alternative to net income (loss) (determined in accordance with GAAP), as an indicator of our performance, or to cash flows from operating activities (determined in accordance with GAAP) as a measure of our liquidity, nor are Adjusted income and Adjusted EBITDA indicative of funds available to fund our cash needs or available for distribution to shareholders. Rather, Adjusted income and Adjusted EBITDA are additional measures for us to use to analyze how our business is performing. It should be noted that our manner of calculating Adjusted income and Adjusted EBITDA may differ from the calculations of similarly-titled measures by other companies.

Risk Management

Loan Credit Statistics—The table below summarizes our non-performing loans, watch list loans and the reserves for loan losses associated with our loans (\$ in thousands):

	As of September 30, 2012	December 31, 2011	
Non-performing loans			
Carrying value(1)	\$639,907	\$771,196	
As a percentage of total carrying value of loans	30.2	% 27.1	%
Watch list loans			
Carrying value	\$18,796	\$136,006	
As a percentage of total carrying value of loans	0.9	% 4.8	%
Reserve for loan losses			
Total reserve for loan losses	\$543,498	\$646,624	
As a percentage of total loans before loan loss reserves	20.4	% 18.5	%
Non-performing loan asset-specific reserves for loan losses	\$490,639	\$557,129	
As a percentage of gross carrying value of non-performing loans	43.4	% 41.9	%

Explanatory Note:

(1) As of September 30, 2012 and December 31, 2011, carrying values of non-performing loans, net of asset-specific reserves for loan losses are \$490.6 million and \$557.1 million, respectively.

45

Table of Contents

Non-Performing Loans—We designate loans as non-performing at such time as: (1) the loan becomes 90 days delinquent; (2) the loan has a maturity default; or (3) management determines it is probable that it will be unable to collect all amounts due according to the contractual terms of the loan. All non-performing loans are placed on non-accrual status and income is only recognized in certain cases upon actual cash receipt. As of September 30, 2012, we had non-performing loans with an aggregate carrying value of \$639.9 million. Our non-performing loans decreased during the nine months ended September 30, 2012, primarily due to transfers of non-performing loans to REHI and OREO.

Watch List Loans—During our quarterly loan portfolio assessments, loans are put on the watch list if deteriorating performance indicates they warrant a higher degree of monitoring and senior management attention. As of September 30, 2012, we had loans on the watch list with a combined carrying value of \$18.8 million.

Reserve for Loan Losses—The reserve for loan losses was \$543.5 million as of September 30, 2012, or 20.4% of the gross carrying value of total loans, compared to \$646.6 million or 18.5% at December 31, 2011. The change in the balance of the reserve was the result of \$60.9 million of provisioning for loan losses, reduced by \$164.0 million of charge-offs during the nine months ended September 30, 2012. Due to the continued volatility of the commercial real estate market, the process of estimating collateral values and reserves require us to use significant judgment. In addition, the process of estimating values and reserves for our European assets (which had a carrying value of \$226.4 million as of September 30, 2012), is subject to additional risks related to the continued economic uncertainty in the Eurozone. We currently believe there are adequate collateral and reserves to support the carrying values of the loans.

The reserve for loan losses includes an asset-specific component and a formula-based component. An asset-specific reserve is established for an impaired loan when the estimated fair value of the loan's collateral less costs to sell is lower than the carrying value of the loan. As of September 30, 2012, asset-specific reserves decreased to \$505.9 million compared to \$573.1 million at December 31, 2011, primarily due to charge-offs on assets that were sold or transferred to REHI and OREO. The decrease was partially offset by additional reserves established on new non-performing loans.

The formula-based general reserve is derived from estimated principal default probabilities and loss severities applied to groups of performing loans based upon risk ratings assigned to loans with similar risk characteristics during our quarterly loan portfolio assessment. During this assessment we perform a comprehensive analysis of our loan portfolio and assign risk ratings to loans that incorporate management's current judgments about their credit quality based on all known and relevant factors that may affect collectability. We consider, among other things, payment status, lien position, borrower financial resources and investment in collateral, collateral type, project economics and geographical location as well as national and regional economic factors. This methodology results in loans being segmented by risk classification into risk rating categories that are associated with estimated probabilities of default and principal loss. We estimate loss rates based on historical realized losses experienced within our portfolio and take into account current economic conditions affecting the commercial real estate market when establishing appropriate time frames to evaluate loss experience.

The general reserve decreased to \$37.6 million or 2.5% of the gross carrying value of performing loans as of September 30, 2012, compared to \$73.5 million or 3.4% of the gross carrying value of performing loans at December 31, 2011. This reduction is primarily attributable to the reduction in the balance of performing loans combined with an improvement in the weighted average risk ratings of performing loans to 3.08 as of September 30, 2012 compared to 3.29 as of December 31, 2011.

Real Estate Held for Investment, net and Other Real Estate Owned—REHI and OREO consist of properties acquired through foreclosure or by deed-in-lieu of foreclosure in full or partial satisfaction of non-performing loans. Properties

are designated as REHI or OREO depending on our strategic plan to realize the maximum value from the collateral received. When we intend to hold, operate or develop the property for a period of at least 12 months, assets are classified as REHI, and when we intend to market these properties for sale in the near term, assets are classified as OREO. As of September 30, 2012 we had \$1.17 billion of assets classified as REHI and \$706.7 million as OREO. During the three and nine months ended September 30, 2012, we recorded impairment charges of \$1.5 million and \$5.3 million, respectively, on OREO assets due to changing market conditions. The continued volatility of the commercial real estate market requires us to use significant judgment in estimating fair values of REHI and OREO properties at the time of transfer and thereafter when events or circumstances indicate there may be a potential impairment. Additionally, we will continue to incur holding and operating costs related to REHI and OREO assets while they are being marketed for sale or redeveloped and repositioned. During the nine months ended September 30, 2012, REHI and OREO assets generated \$79.0 million of combined revenue and income from sales of residential property units, which was offset by \$69.0 million of net expenses.

Table of Contents

Risk concentrations—As of September 30, 2012, our total investment portfolio was comprised of the following property/collateral types (\$ in thousands)(1):

Property/Collateral Types	Performing Loans	Net Lease Assets	Non-performing Loans	REHI	OREO	Total	% of Total	
Land	\$123,998	\$55,987	\$215,650	\$768,604	\$127,518	\$1,291,757	21.5	%

Explanatory Note:

(1)Based on the carrying value of our total investment portfolio gross of general loan loss reserves.

As of September 30, 2012, our total investment portfolio had the following characteristics by geographical region (\$ in thousands):

Geographic Region	Carrying Value(1)	% of Total	
West	\$1,380,038	23.0	%
Northeast	1,099,046	18.3	%
Southeast	855,888	14.3	%
Southwest	798,372	13.3	%
Mid-Atlantic	591,048	9.8	%
Various	405,711	6.8	%
International (2)	357,652	6.0	%
Central	319,628	5.3	%
Northwest	190,722	3.2	%
Total	\$5,998,105	100.0	%

Explanatory Notes:

(1)Based on the carrying value of our total investment portfolio gross of general loan loss reserves.

(2)Includes \$226.4 million of European assets.

Table of Contents

Liquidity and Capital Resources

During the quarter ended September 30, 2012, we generated a total of \$318.0 million in proceeds from our portfolio, comprised primarily of \$157.9 million in loan principal repayments, \$146.6 million from sales of OREO assets and \$13.4 million from other investments. We also funded a total of \$28.4 million in investments.

We used proceeds from asset sales and loan repayments to repay \$147.7 million on the 2011 Tranche A-1 Facility and \$66.4 million on the 2012 Tranche A-1 Facility. Based on the total amount repaid to date, we have exceeded the minimum required amortization repayments due on the 2012 Tranche A-1 Facility through December 31, 2013.

As of September 30, 2012, our debt maturities and minimum amortization requirements due before December 31, 2013 included \$460.7 million of unsecured convertible notes due in October 2012, \$1.02 billion of unsecured notes due in 2013, and \$648.3 million of secured debt due in 2013. We had \$739.3 million of cash and restricted cash reserved for the repayment of debt as of September 30, 2012. Subsequent to quarter end, we repaid our \$460.7 million of senior unsecured convertible notes primarily with cash restricted for the repayment of indebtedness. In addition, subsequent to quarter end, we refinanced our 2011 Secured Credit Facilities with a new \$1.82 billion senior secured credit facility. After giving effect to the convertible debt repayment and the refinancing of the 2011 Secured Credit Facilities subsequent to quarter end, remaining debt maturities and minimum amortization requirements due before December 31, 2013 total \$1.04 billion. See Subsequent Events for further details.

Our capital sources to meet our remaining debt maturities through 2013 will primarily include cash on hand as well as debt refinancings, proceeds from unencumbered asset sales and loan repayments from borrowers, and may include equity capital raising transactions. As of September 30, 2012, we had unencumbered assets with a carrying value of approximately \$3.33 billion.

Based on the dynamic nature of our assets and our liquidity plan and the time frame in which we need to generate liquidity, the specific assets, nature of the transactions, timing and amount of asset sales and refinancing transactions could vary and are subject to factors outside our control and cannot be predicted with certainty. We may adjust our plans in response to changes in our expectations and changes in market conditions. In addition, although there have been early signs of improvement in the commercial real estate and credit markets during the past two years, such markets remain volatile and it is not possible for us to predict whether these trends will continue in the future or to quantify the impact of these or other trends on our financial results. If we fail to repay our obligations as they become due, it would be an event of default under the relevant debt instruments, which could result in a cross-default and acceleration of our other outstanding debt obligations, all of which would have a material adverse effect on our business.

Contractual Obligations—The following table outlines the contractual obligations related to our long-term debt agreements and operating lease obligations as of September 30, 2012 (see Note 9 of the Notes to the Consolidated Financial Statements).

	Principal And Interest Payments Due By Period					
	Total	Less Than 1 Year(1)	2 - 3 Years(1)	4 - 5 Years	6 - 10 Years	After 10 Years
	(in thousands)

Table of Contents

Explanatory Notes:

- (1) Future long-term debt obligations due during the years ending December 31, 2013 and 2014 are \$1.67 billion and \$1.56 billion, respectively.
- (2) Subsequent to quarter end, we repaid our convertible notes outstanding and refinanced the balance of our 2011 Secured Credit Facilities. See Subsequent Events.
- (3) All variable-rate debt assumes a 30-day LIBOR rate of 0.21% (the 30-day LIBOR rate at September 30, 2012). We also have issued letters of credit totaling \$12.6 million in connection with five of our investments. See
- (4) Unfunded Commitments below, for a discussion of certain unfunded commitments related to our lending and net lease businesses.

2012 Secured Credit Facilities—In March 2012, we entered into an \$880.0 million senior secured credit agreement providing for two tranches of term loans: a \$410.0 million 2012 A-1 tranche due March 2016, which bears interest at a rate of LIBOR + 4.00% (the "2012 Tranche A-1 Facility"), and a \$470.0 million 2012 A-2 tranche due March 2017, which bears interest at a rate of LIBOR + 5.75% (the "2012 Tranche A-2 Facility," together the "2012 Secured Credit Facilities"). The 2012 A-1 and A-2 tranches were issued at 98.0% of par and 98.5% of par, respectively, and both tranches include a LIBOR floor of 1.25%. Proceeds from the 2012 Secured Credit Facilities were used to repurchase \$324.1 million aggregate principal amount of our convertible notes due October 2012, to fully repay the \$244.0 million balance on our unsecured credit facility due June 2012, and to repay, upon maturity, \$90.3 million outstanding principal balance of our 5.50% senior unsecured notes. As of September 30, 2012, remaining proceeds were included in restricted cash as they are reserved for the repayment of indebtedness.

The 2012 Secured Credit Facilities are collateralized by a first lien on a fixed pool of collateral consisting of loan, net lease, OREO and REHI assets. Proceeds from principal repayments and sales of collateral are applied to amortize the 2012 Secured Credit Facilities. Proceeds received for interest, rent, lease payments and fee income are retained by us. The 2012 Tranche A-1 Facility requires amortization payments of \$41.0 million to be made every six months beginning December 31, 2012. After the 2012 Tranche A-1 Facility is repaid, proceeds from principal repayments and sales of collateral will be used to amortize the 2012 Tranche A-2 Facility. We may make optional prepayments on each tranche of term loans, subject to prepayment fees.

Through September 30, 2012, we have made cumulative amortization repayments of \$147.7 million on the 2012 Tranche A-1 Facility, which exceeds all required amortization payments through December 31, 2013. Repayments of the 2012 Tranche A-1 Facility prior to scheduled amortization dates have resulted in losses on early extinguishment of debt of \$2.4 million and \$5.3 million for the three and nine months ended September 30, 2012, respectively, related to the acceleration of discounts and unamortized deferred financing fees on the portion of the facility that was repaid.

2011 Secured Credit Facilities—In March 2011, we entered into a \$2.95 billion senior secured credit agreement providing for two tranches of term loans: a \$1.50 billion 2011 A-1 tranche due June 2013, which bears interest at a rate of LIBOR + 3.75% (the "2011 Tranche A-1 Facility"), and a \$1.45 billion 2011 A-2 tranche due June 2014, which bears interest at a rate of LIBOR + 5.75% (the "2011 Tranche A-2 Facility," together the "2011 Secured Credit Facilities"). The 2011 A-1 and A-2 tranches were issued at 99.0% of par and 98.5% of par, respectively, and both tranches include a LIBOR floor of 1.25%.

The 2011 Secured Credit Facilities are collateralized by a first lien on a fixed pool of collateral consisting of loan, net lease, OREO and REHI assets. Proceeds from principal repayments and sales of collateral are applied to amortize the 2011 Secured Credit Facilities. Proceeds received for interest, rent, lease payments, fee income and, under certain circumstances, additional amounts funded on assets serving as collateral are retained by us. The 2011 Tranche A-1 Facility requires that aggregate cumulative amortization payments of not less than \$200.0 million shall be made on or

before December 30, 2011, not less than \$450.0 million on or before June 30, 2012, not less than \$750.0 million on or before December 31, 2012 and not less than \$1.50 billion on or before June 28, 2013. The 2011 Tranche A-2 Facility will begin amortizing six months after the repayment in full of the 2011 Tranche A-1 Facility, such that not less than \$150.0 million of cumulative amortization payments shall be made on or before the six month anniversary of repayment of the Tranche A-1 Facility, with additional amortization payments of \$150.0 million due on or before each six month anniversary thereafter, with any unpaid principal amounts due at maturity in June 2014.

Through September 30, 2012, we have made cumulative amortization repayments of \$1.00 billion on the 2011 Tranche A-1 Facility, which exceeds all required amortization payments through December 31, 2012, leaving \$498.3 million to be paid by maturity in June 2013. Repayments of the 2011 Tranche A-1 Facility prior to scheduled amortization dates have resulted in losses on early extinguishment of debt of \$0.9 million and \$4.1 million for the three and nine months ended September 30, 2012, respectively, related to the acceleration of discounts and unamortized deferred financing fees on the portion of the facility that was repaid. See Subsequent Events below for details on the refinancing of the 2011 Secured Credit Facilities in October 2012.

Table of Contents

Secured Term Loans—In September 2012, we refinanced two secured term loans with an aggregate outstanding principal balance of \$53.3 million, bearing interest at rates of 5.3% and 8.2% and maturing in January 2013. The new \$54.5 million secured term loan bears interest at 4.851%, matures in October 2022 and is collateralized by the same net lease asset as the original term loan. In connection with the refinancing, we recorded a loss on early extinguishment of debt of \$0.5 million in our Consolidated Statements of Operations for both the three and nine months ended September 30, 2012.

In addition, during the nine months ended September 30, 2012, in conjunction with the sale of a portfolio of 12 net lease assets, we repaid the \$50.8 million outstanding balances of our LIBOR + 4.50% secured term loans due in 2014 and terminated the related interest rate swaps associated with the loans.

Unsecured Credit Facility—During the nine months ended September 30, 2012, we repaid the \$243.7 million remaining principal balance of our LIBOR + 0.85% unsecured credit facility due June 2012. In connection with the repayments, we recorded a loss on early extinguishment of debt of \$0.2 million.

Secured Notes—In January 2011, we redeemed the \$312.3 million remaining principal balance of our 10% 2014 secured exchange notes and recorded a gain on early extinguishment of debt of \$109.0 million primarily related to the recognition of deferred gain premiums that resulted from a previous debt exchange.

Unsecured Notes—In May 2012, we issued \$275.0 million aggregate principal of 9.0% senior unsecured notes due June 2017 that were sold at 98.012% of their principal amount. Proceeds from this transaction are reserved for the repayment of indebtedness and included in "Restricted cash" on our Consolidated Balance Sheet as of September 30, 2012.

During the nine months ended September 30, 2012, we repaid, upon maturity, the \$169.7 million outstanding principal balance of our 5.15% senior unsecured notes and the \$90.3 million outstanding principal balance of our 5.50% senior unsecured notes. In addition, we repurchased \$420.4 million par value of senior unsecured notes with various maturities ranging from March 2012 to October 2012. In connection with these repurchases, we recorded aggregate losses on early extinguishment of debt of \$0.1 million and gains of \$3.2 million, for the three and nine months ended September 30, 2012, respectively.

Unencumbered/Encumbered Assets—As of September 30, 2012, the carrying value of our unencumbered and encumbered assets by asset type are as follows (\$ in thousands):

	As of September 30, 2012		As of December 31, 2011	
	Encumbered Assets	Unencumbered Assets	Encumbered Assets	Unencumbered Assets
Loans and other lending investments, net(1)	\$1,594,426	\$561,897	\$1,780,591	\$1,153,671
Net lease assets, net	1,265,341	275,123	1,173,982	528,782
REHI, net	331,357	843,598	359,597	868,537
OREO	392,621	314,094	177,092	500,366
Other investments	59,816	359,832	37,957	419,878
Cash and other assets	—	979,914	—	590,884
Total	\$3,643,561	\$3,334,458	\$3,529,219	\$4,062,118

Explanatory Note:

(1)

As of September 30, 2012 and December 31, 2011, the amounts presented exclude general reserves for loan losses of \$37.6 million and \$73.5 million, respectively.

Table of Contents

Debt Covenants

Our outstanding unsecured debt securities contain corporate level covenants that include a covenant to maintain a ratio of unencumbered assets to unsecured indebtedness of at least 1.2x and a restriction on debt incurrence based upon the effect of the debt incurrence on our fixed charge coverage ratio. If any of our covenants are breached and not cured within applicable cure periods, the breach could result in acceleration of our debt securities unless a waiver or modification is agreed upon with the requisite percentage of the bondholders. While we expect that our ability to incur new indebtedness under the fixed charge coverage ratio will be limited for the foreseeable future, we will continue to be permitted to incur indebtedness for the purpose of refinancing existing indebtedness and for other permitted purposes under the indentures.

Our 2012 Secured Credit Facilities and 2011 Secured Credit Facilities both contain certain covenants, including covenants relating to collateral coverage, dividend payments, restrictions on fundamental changes, transactions with affiliates, matters relating to the liens granted to the lenders and the delivery of information to the lenders. In particular, we are required to maintain collateral coverage of 1.25x outstanding borrowings. In addition, for so long as we maintain our qualification as a REIT, the 2012 Secured Credit Facilities and 2011 Secured Credit Facilities permit us to distribute 100% of our REIT taxable income on an annual basis. We may not pay common dividends if we cease to qualify as a REIT.

Our 2012 Secured Credit Facilities and 2011 Secured Credit Facilities contain cross default provisions that would allow the lenders to declare an event of default and accelerate our indebtedness to them if we fail to pay amounts due in respect of our other recourse indebtedness in excess of specified thresholds or if the lenders under such other indebtedness are otherwise permitted to accelerate such indebtedness for any reason. The indentures governing our unsecured public debt securities permit the bondholders to declare an event of default and accelerate our indebtedness to them if our other recourse indebtedness in excess of specified thresholds is not paid at final maturity or if such indebtedness is accelerated.

Derivatives—Our use of derivative financial instruments is primarily limited to the utilization of interest rate hedges or other instruments to manage interest rate risk exposure and foreign exchange hedges to manage our risk to changes in foreign currencies. The principal objectives of such hedges are to minimize the risks and/or costs associated with our operating and financial structure and to manage our exposure to foreign exchange rate movements. See Note 11 of the Notes to the Consolidated Financial Statements.

Off-Balance Sheet Arrangements—We are not dependent on the use of any off-balance sheet financing arrangements for liquidity.

Unfunded Commitments—We generally fund construction and development loans and build-outs of space in net lease assets over a period of time if and when the borrowers and tenants meet established milestones and other performance criteria. We refer to these arrangements as Performance-Based Commitments. In addition, we sometimes establish a maximum amount of additional funding which we will make available to a borrower or tenant for an expansion or addition to a project if we approve of the expansion or addition in our sole discretion. We refer to these arrangements as Discretionary Fundings. Finally, we have committed to invest capital in several real estate funds and other ventures. These arrangements are referred to as Strategic Investments. As of September 30, 2012, the maximum amounts of the fundings we may make under each category, assuming all performance hurdles and milestones are met under the Performance-Based Commitments, that we approve all Discretionary Fundings and that 100% of our capital committed to Strategic Investments is drawn down, are as follows (in thousands):

Loans	Net Lease Assets	Strategic Investments	Total
-------	---------------------	--------------------------	-------

Edgar Filing: ISTAR FINANCIAL INC - Form 10-Q

Performance-Based Commitments	\$36,027	\$47,570	\$—	\$83,597
Discretionary Fundings	167	—	—	167
Other	—	—	39,461	39,461
Total	\$36,194	\$47,570	\$39,461	\$123,225

Table of Contents

Transactions with Related Parties—Prior to our annual stockholders' meeting in May 2012, Glenn August served as a member of our Board of Directors. Mr. August is the president and senior partner of Oak Hill Advisors, L.P.

We recorded equity in earnings from our investments in Oak Hill funds of \$2.0 million and \$5.9 million, respectively, for the three and nine months ended September 30, 2012.

During the nine months ended September 30, 2012, we redeemed our interests in four investments in Oak Hill related entities for \$7.8 million of net cash proceeds.

During 2011, we sold a substantial portion of our interests in Oak Hill Advisors, L.P. and related entities. The transaction was completed in part through sales of interests to unrelated third parties and in part through redemption of interests by principals of Oak Hill Advisors, L.P., including Mr. August. In conjunction with the sale, we retained interests in our share of certain unearned incentive fees of various funds. These fees are contingent on the future performance of the funds and we will recognize income related to these fees if and when the amounts are realized.

We have an equity interest of approximately 24% in LNR Property Corporation ("LNR") and two of our executive officers serve on LNR's board of managers.

Stock Repurchase Program—On May 16, 2012, our Board of Directors approved a stock repurchase program that authorized the repurchase of up to \$20.0 million of our Common Stock from time to time in open market and privately negotiated purchases, including pursuant to one or more trading plans.

During the nine months ended September 30, 2012, we repurchased 0.8 million shares of our outstanding Common Stock for approximately \$4.6 million, at an average cost of \$5.69 per share. As of September 30, 2012, we had \$16.0 million of Common Stock available to repurchase under our Board authorized stock repurchase programs.

Subsequent Events—On October 1, 2012, we repaid, upon maturity, the \$460.7 million remaining principal balance of our LIBOR + 0.50% senior unsecured convertible notes primarily with cash restricted for the repayment of indebtedness.

On October 15, 2012, we entered into a \$1.82 billion senior secured credit agreement due October 15, 2017 (the "New Credit Facility"). The New Credit Facility bears interest at a rate of LIBOR + 4.50%, with a 1.25% LIBOR floor, and was issued at 99.0% of par. Proceeds from the New Credit Facility were used to refinance the remaining outstanding balances of our existing 2011 Secured Credit Facilities.

Borrowings under the New Credit Facility are collateralized by a first lien on a fixed pool of assets, with required minimum collateral coverage of not less than 125% of outstanding borrowings. If collateral coverage is less than 137.5% of outstanding borrowings, 100% of the proceeds from principal repayments and sales of collateral will be applied to repay outstanding borrowings under the New Credit Facility. For so long as collateral coverage is between 137.5% and 150% of outstanding borrowings, 50% of proceeds from principal repayments and sales of collateral will be applied to repay outstanding borrowings under the New Credit Facility and for so long as collateral coverage is greater than 150% of outstanding borrowings, we may retain all proceeds from principal repayments and sales of collateral. We retain proceeds from interest, rent, lease payments and fee income in all cases. The New Credit Facility contains certain covenants relating to the collateral, among other matters, but does not contain corporate level financial covenants. For so long as we maintain our qualification as a REIT, we are permitted to distribute 100% of our REIT taxable income on an annual basis. In addition, we may distribute to our stockholders real estate assets, or interests therein, having an aggregate equity value not to exceed \$200 million, that are not collateral securing the borrowings under the New Credit Facility. Except for the distribution of real estate assets described in the preceding sentence, we may not pay common dividends in we cease to qualify as a REIT.

Table of Contents

After giving effect to the convertible debt repayment and the refinancing of the 2011 Secured Credit Facilities subsequent to quarter end, our future scheduled maturities of outstanding long-term debt obligations are as follows (\$ in thousands):

	Unsecured Debt	Secured Debt	Total
2012 (remaining three months)	\$—	\$4,550	\$4,550
2013	1,017,209	18,200	1,035,409
2014	200,601	75,453	276,054
2015	105,765	100,200	205,965
2016	261,403	141,200	402,603
Thereafter	474,722	2,450,802	2,925,524
Total principal maturities	\$2,059,700	\$2,790,405	\$4,850,105

On November 7, 2012, we priced two public offerings of debt securities: \$300 million of unsecured 7.125% Senior Notes due 2018 and \$175 million of unsecured 3.0% Convertible Senior Notes due 2016 (plus up to an additional \$25 million of Convertible Senior Notes if the underwriters exercise their option to purchase additional notes in full). The Convertible Senior Notes are convertible into shares of our common stock at a conversion rate of 84.9582 shares per \$1,000 principal amount of notes, which is equal to a conversion price of approximately \$11.77 per share, subject to adjustment. We intend to use the net proceeds of the offerings to redeem our \$67.1 million aggregate principal amount of 6.5% unsecured Senior Notes due 2013 and the remainder of the net proceeds to redeem a portion of our 8.625% unsecured Senior Notes due 2013. The offerings are not contingent on one another. The closings of the transactions are subject to customary closing conditions and there can be no assurance that either or both transactions will be completed.

The East Coast of the United States has been significantly affected by Hurricane Sandy. We have been actively monitoring the impact of the hurricane on our assets located in the affected areas and as of the date of this report, we have not identified any physical damage to our assets that would reasonably be expected to have a material adverse effect on our business, and we have not been advised by any borrowers or tenants that they have suffered damages that would reasonably be expected to have a material adverse effect on us. The hurricane happened very recently, however, and there can be no assurance that we will not identify additional effects of the hurricane on our business in the future.

Critical Accounting Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and judgments in certain circumstances that affect amounts reported as assets, liabilities, revenues and expenses. We have established detailed policies and control procedures intended to ensure that valuation methods, including any judgments made as part of such methods, are well controlled, reviewed and applied consistently from period to period. We base our estimates on corporate and industry experience and various other assumptions that we believe to be appropriate under the circumstances.

A summary of our critical accounting estimates is included in our Annual Report on Form 10-K for the year ended December 31, 2011 in Management's Discussion and Analysis of Financial Condition. There have been no significant changes to our critical accounting estimates as of September 30, 2012.

New Accounting Pronouncements—For a discussion of the impact of new accounting pronouncements on our financial condition or results of operations, see Note 3 of the Notes to the Consolidated Financial Statements.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes in Quantitative and Qualitative Disclosures About Market Risk for the first nine months of 2012 as compared to the disclosures included in our Annual Report on Form 10-K for the year ended December 31, 2011. See discussion of quantitative and qualitative disclosures about market risk under Item 7a—"Quantitative and Qualitative Disclosures about Market Risk," included in our Annual Report on Form 10-K for the year ended December 31, 2011.

ITEM 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. The Company has formed a disclosure committee that is responsible for considering the materiality of information and determining the disclosure obligations of the Company on a timely basis. The disclosure committee reports directly to the Company's Chief Executive Officer and Chief Financial Officer.

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the disclosure committee and other members of management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) or Rule 15d-15. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective to provide reasonable assurance that the information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and (ii) accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding disclosure.

There have been no changes during the last fiscal quarter in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in the Company's periodic reports.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company and/or one or more of its subsidiaries is party to various pending litigation matters that are considered ordinary routine litigation incidental to its business as a finance and investment company focused on the commercial real estate industry, including loan foreclosure and foreclosure related proceedings. In addition to such matters, the Company or its subsidiaries is a party to, or any of their property is the subject of, the following pending legal proceedings.

Citiline Holdings, Inc., et al. v. iStar Financial, Inc., et al.

As previously reported, in April 2008, two putative class action complaints were filed in the United States District Court for the Southern District of New York alleging violations of federal securities laws by the Company and certain of its current and former executive officers. Both suits were purportedly filed on behalf of the same putative class of investors who purchased Common Stock in the Company's December 13, 2007 public offering ("Offering"). The two complaints were subsequently consolidated in a single proceeding (the "Citiline Action") and an amended consolidated complaint was filed that named as defendants the Company, certain of its current and former executive officers, and certain investment banks who served as underwriters in the Offering.

On June 4, 2012, we reached an agreement in principle with the plaintiffs' Court-appointed representatives in the Citiline Action to settle the litigation. Settlement payments will be primarily funded by our insurance carriers. We will contribute \$2.0 million to the settlement.

The agreement in principle to settle the Citiline Action is subject to Court approval and a motion for preliminary Court approval has been filed. The parties to the Citiline Action have executed a final settlement stipulation, including releases of liability in favor of the defendants conditioned on final Court approval. Following preliminary Court approval, notice of the settlement will be mailed to class members and a final hearing will be scheduled. Upon final Court approval of the settlement, the Citiline Action will be dismissed in its entirety with prejudice and the settlement will be final.
