Note A – Basis of Reporting

The accompanying unaudited condensed consolidated financial statements of Steven Madden, Ltd. and subsidiaries (the “Company”) have been prepared in accordance with the generally accepted accounting principles in the United States of America (“GAAP”) for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, such statements include all adjustments (consisting only of normal recurring items) which are considered necessary for a fair presentation of the financial position of the Company and the results of its operations and cash flows for the periods presented. The results of its operations for the three- and six-month periods ended June 30, 2013 are not necessarily indicative of the operating results for the full year. It is suggested that these financial statements be read in conjunction with the financial statements and related disclosures for the year ended December 31, 2012 included in the Annual Report of Steven Madden, Ltd. on Form 10-K filed with the SEC on March 1, 2013.

Note B – Recently Adopted Accounting Standards

In July 2012, the Financial Accounting Standards Board ("FASB") issued new accounting guidance that permits an entity to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform a quantitative impairment test. An entity would continue to calculate the fair value of an indefinite-lived intangible asset if the asset fails the qualitative assessment, while no further analysis would be required if it passes. The provisions of the new guidance were effective as of the beginning of our 2013 fiscal year. We do not expect the new guidance to have an impact on our 2013 impairment test results.

Note C – Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Significant areas involving management estimates include allowances for bad debts, returns and customer chargebacks, inventory valuation, valuation of intangible assets, litigation reserves and contingent payment liabilities. The Company provides reserves on trade accounts receivables and factor receivables for future customer chargebacks and markdown allowances, discounts, returns and other miscellaneous compliance related deductions that relate to the current period sales. The Company evaluates anticipated chargebacks by reviewing several performance indicators of its major customers. These performance indicators, which include retailers’ inventory levels, sell-through rates and gross margin levels, are analyzed by management to estimate the amount of the anticipated customer allowance.

## Note D – Factor Receivable

The Company has a collection agency agreement with Rosenthal & Rosenthal, Inc. (“Rosenthal”) that became effective on September 15, 2009. The agreement can be terminated by the Company or Rosenthal at any time upon 60 days prior written notice. Under the agreement, the Company can request advances from Rosenthal of up to 85% of aggregate receivables submitted to Rosenthal. The agreement provides the Company with a \$30 million credit facility with a \$15 million sub-limit for letters of credit at an interest rate based, at the Company’s election, upon either the prime rate or LIBOR. The Company also pays a fee based on a percentage of the gross invoice amount submitted to Rosenthal. With respect to receivables related to our private label business, the fee is 0.14% of the gross invoice amount. With respect to all other receivables, the fee is 0.25% of the gross invoice amount. Rosenthal assumes the credit risk on a substantial portion of the receivables that the Company submits to it and, to the extent of any loans made to the Company, Rosenthal maintains a lien on all of the Company’s receivables to secure the Company’s obligations.

## Note E – Notes Receivable

As of June 30, 2013 and December 31, 2012, Notes Receivable were comprised of the following:

|   | June 30,<br>2013 | December 31,<br>2012 |
|---|------------------|----------------------|
| Note receivable from seller of SM Canada (see Note Q) | \$3,085          | \$3,085              |

On August 26, 2010, the Company entered into a Debenture and Stock Purchase Agreement with Bakers Footwear Group, Inc. (“Bakers”) pursuant to which the Company paid \$5,000 to acquire a subordinated debenture in the principal amount of \$5,000 and 1,844,860 unregistered shares of Bakers common stock, which traded on the Over-the-Counter Bulletin Board. The Company allocated \$996 of the purchase price to the common stock and \$4,004 to the subordinated debenture based upon their relative fair values. Interest accrues on the debenture at the rate of 11% per annum and is payable quarterly in cash. The principal amount of the debenture was payable by Bakers in four equal installments of \$1,250 due on August 31, 2017, 2018, 2019 and 2020. The difference between the \$4,004 purchase price of the debenture and the \$5,000 principal amount of the debenture is considered original issue discount and is being amortized over the life of the debenture. On October 3, 2012, Bakers filed for Chapter 11 protection in the United States Bankruptcy Court. As a consequence of the bankruptcy, the debenture due from Bakers (as well as the Bakers common stock) was considered impaired and, therefore, was deemed to have no value. Accordingly, a charge of \$4,148 for the impairment of the debenture (as well as a charge of \$996 for the impairment of the Company’s investment in Bakers common stock) was recorded in the third quarter of 2012. In January 2013, Bakers announced it intends to liquidate or sell all of its remaining assets.

In April 2012, Betsey Johnson LLC filed for Chapter 11 protection in the United States Bankruptcy Court. Shortly thereafter, Betsey Johnson LLC announced that it would commence an orderly liquidation of all of its assets. As a consequence of the bankruptcy, the note receivable due from Betsey Johnson LLC of \$3,309 was considered impaired and, accordingly, an impairment charge was recorded and the value of the note was reduced to its anticipated recovery of \$500 in the second quarter of 2012. In the fourth quarter of 2012, the Company collected \$1,522 and recorded a \$1,022 benefit related to a greater-than-anticipated recovery of the note receivable.

## Note F – Note Receivable – Related Party

On June 25, 2007, the Company made a loan to Steve Madden, its Creative and Design Chief and a principal stockholder of the Company, in the amount of \$3,000 in order for Mr. Madden to satisfy a personal tax obligation resulting from the exercise of options that were due to expire and retain the underlying Company common stock, which he pledged to the Company as collateral to secure the loan. Mr. Madden executed a secured promissory note in favor of the Company bearing interest at an annual rate of 8%, which was due on the earlier of the date Mr. Madden ceases to be employed by the Company or December 31, 2007. The note was amended and restated as of December 19, 2007 to extend the maturity date to March 31, 2009, and amended and restated again as of April 1, 2009 to change

the interest rate to 6% and extend the maturity date to June 30, 2015 at which time all principal and accrued interest would become due. On January 3, 2012, in connection with an amendment of Mr. Madden's employment

contract, the note was again amended and restated (the “Third Amended and Restated Note”) to extend the maturity date to December 31, 2023 and eliminate accrual of interest after December 31, 2011. In addition, the Third Amended and Restated Note provides that, commencing on December 31, 2014 and annually on each December 31 thereafter through the maturity date, one-tenth of the principal amount thereof, together with accrued interest, will be cancelled by the Company provided that Mr. Madden continues to be employed by the Company on each such December 31. As of December 31, 2011, \$1,090 of interest has accrued on the principal amount of the loan related to the period prior to the elimination of the accrual of interest and has been reflected on the Company’s Condensed Consolidated Financial Statements. Due to the three-for-two stock split effected on May 3, 2010, the number of shares securing the loan increased from 510,000 shares to 765,000 shares. Based upon the increase in the market value of the Company’s common stock since the inception of the loan, on July 12, 2010, the Company released from its security interest 555,000 shares of the Company’s common stock, retaining 210,000 shares with a total market value on that date of \$6,798, as collateral for the loan. Subsequently, pursuant to the three-for-two stock split effected on May 31, 2011, the number of shares securing the repayment of the loan has increased from 210,000 shares to 315,000 shares. On June 30, 2013, the total market value of these shares was \$15,240. Pursuant to the elimination of further interest accumulation under the Third Amended and Restated Note, the outstanding principal and the accrued interest has been discounted to reflect imputed interest, which will be amortized over the remaining life of the loan.

Note G – Marketable Securities

Marketable securities consist primarily of corporate bonds and certificates of deposit with maturities greater than three months and up to ten years at the time of purchase as well as marketable equity securities. These securities, which are classified as available-for-sale, are carried at fair value, with unrealized gains and losses, net of any tax effect, reported in stockholders’ equity as accumulated other comprehensive income (loss). These securities are classified as current and non-current marketable securities based upon their maturities. Amortization of premiums and discounts is included in interest income. For the three and six months ended June 30, 2013, the amortization of bond premiums totals \$173 and \$360, respectively, compared to \$279 and \$529 for the comparable periods in 2012. The values of these securities may fluctuate as a result of changes in equity values, market interest rates and credit risk.

Note H – Fair Value Measurement

The accounting guidance under Accounting Standards Codification “Fair Value Measurements and Disclosures” (“ASC 820-10”) requires the Company to make disclosures about the fair value of certain of its assets and liabilities. ASC 820-10 clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. ASC 820-10 utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. A brief description of those three levels is as follows:

- Level 1: Observable inputs such as quoted prices in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly.
- Level 3: Significant unobservable inputs.

The Company’s financial assets and liabilities subject to fair value measurements as of June 30, 2013 and December 31, 2012 are as follows:

Forward contracts are entered into to manage the risk associated with the volatility of future cash flows denominated in Mexican pesos. Fair value of these instruments is based on observable market transactions of spot and forward rates.

For the notes receivable due from related party (see Note F) and from the seller of SM Canada (see Note Q), the carrying value was determined to be the fair value, based upon their imputed or actual interest rates, which approximate current market interest rates.

The Company has recorded a liability for potential contingent consideration in connection with the February 21, 2012 acquisition of SM Canada (see Note Q). Pursuant to the terms of an earn-out agreement between the Company and the seller of SM Canada, earn-out payments will be due annually to the seller of SM Canada based on the financial performance of SM Canada for each of the twelve-month periods ending on March 31, 2013 through 2017, inclusive. The fair value of the contingent payments was estimated using the present value of management's projections of the financial results of SM Canada during the earn-out period.

Note H – Fair Value Measurement (continued)

The current portion of the earn-out due based on the twelve-month period ended March 31, 2013 approximates the recorded value.

The Company has recorded a liability for potential contingent consideration in connection with the May 25, 2011 acquisition of Cejon Inc., Cejon Accessories, Inc. and New East Designs, LLC (collectively "Cejon"). Pursuant to the terms of an earn-out agreement between the Company and the sellers of Cejon, earn-out payments will be made annually to the sellers of Cejon, based on the financial performance of Cejon for each of the twelve-month periods ending on June 30, 2012 through 2016, inclusive. The fair value of the contingent payments was estimated using the present value of management's projections of the financial results of Cejon during the earn-out period.

The Company recorded a liability for contingent consideration as a result of the February 10, 2010 acquisition of Big Buddha, Inc. The final contingent consideration will be payable to the seller of Big Buddha based on the financial performance of Big Buddha for the twelve-month period ended March 31, 2013. The final payment is expected to be made during the third quarter of 2013.

Accounting guidance permits entities to choose to measure financial instruments and certain other items at fair value that are not currently required to be measured at fair value. The accounting guidance also establishes presentation and disclosure requirements designed to facilitate comparisons between entities that chose different measurement attributes for similar assets and liabilities. The Company has elected not to measure any eligible items at fair value.

The carrying value of certain financial instruments such as accounts receivable, due from factor and accounts payable approximates their fair values due to the short-term nature of their underlying terms. The fair values of investment in marketable securities available for sale are determined by reference to market data and other valuation techniques, as appropriate. Fair value of the notes receivable held by the Company approximates their carrying value based upon their imputed or actual interest rate, which approximates current market interest rates.

Note I – Inventories

Inventories, which consist of finished goods on hand and in transit, are stated at the lower of cost (first-in, first-out method) or market.

Note J – Revenue Recognition

The Company recognizes revenue on wholesale sales when products are shipped pursuant to its standard terms, which are freight on board ("FOB") Company warehouse, or when products are delivered to the consolidators, or any other destination, as per the terms of the customers' purchase order, persuasive evidence of an arrangement exists, the price is fixed or determinable and collection is reasonably assured. Sales reductions on wholesale sales for anticipated discounts, allowances and other deductions are recognized during the period when sales are recorded. Customers retain the right to replacement of the product for poor quality or improper or short shipments, which have historically been immaterial. Retail sales are recognized when the payment is received from customers and are recorded net of estimated returns. The Company also generates commission income acting as a buying agent by arranging to manufacture private label shoes to the specifications of its clients. The Company's commission revenue includes fees charged for its design, product and development services provided to certain suppliers in connection with the Company's private label business. Commission revenue and product and development fees are recognized as earned when title to the product transfers from the manufacturer to the customer and collections are reasonably assured and

are reported on a net basis after deducting related operating expenses.

The Company licenses its Steve Madden® and Steven by Steve Madden® trademarks for use in connection with the manufacture, marketing and sale of sunglasses, eyewear, outerwear, bedding, hosiery, women's fashion apparel, jewelry, watches and luggage. In addition, the Company licenses the Betsey Johnson® and Betseyville® trademarks for use in connection with the manufacture, marketing and sale of apparel, jewelry, swimwear, eyewear, watches, fragrances and outerwear. The license agreements require the licensee to pay the Company a royalty and, in substantially all of the agreements, an advertising fee based on the higher of a minimum or a net sales percentage as defined in the various agreements. In addition, under the terms of retail selling agreements, most of the Company's international distributors are required to pay the Company a royalty based on a percentage of net sales, in addition to a commission and a design fee on the purchases of the Company's products. Licensing revenue is recognized on the basis of net

Note K – Taxes Collected From Customers

The Company accounts for certain taxes collected from its customers in accordance with the accounting guidance which permits companies to adopt a policy of presenting taxes in the income statement on either a gross basis (included in revenues and costs) or a net basis (excluded from revenues). Taxes within the scope of this accounting guidance would include taxes that are imposed on a revenue transaction between a seller and a customer, for example, sales taxes, use taxes, value-added taxes and some types of excise taxes. The Company has consistently recorded all taxes on a net basis.

Note L – Sales Deductions

The Company supports retailers' initiatives to maximize sales of the Company's products on the retail floor by subsidizing the co-op advertising programs of such retailers, providing them with inventory markdown allowances and participating in various other marketing initiatives of its major customers. In addition, the Company accepts returns for damaged products for which the Company's costs are normally charged back to the responsible third-party factory. Such expenses are reflected in the financial statements as deductions to net sales.

Note M – Cost of Sales

All costs incurred to bring finished products to the Company's distribution center or, in our First Cost segment and certain private label business to the customers' freight forwarder and, in the Retail segment, the costs to bring products to the Company's stores, are included in the cost of sales line on the Condensed Consolidated Statements of Income. These costs include the cost of finished products, purchase commissions, letter of credit fees, brokerage fees, sample expenses, custom duty, inbound freight, royalty payments on licensed products, labels and product packaging. All warehouse and distribution costs related to the Wholesale segments and freight to customers, if any, are included in the operating expenses line item of the Company's Condensed Consolidated Statements of Income. The Company's gross margins may not be comparable to those of other companies in the industry because some companies may include warehouse and distribution costs, as well as other costs excluded from cost of sales by the Company, as a component of cost of sales, while other companies report on the same basis as the Company and include them in operating expenses.

Note N – Share Repurchase Program

The Company's Board of Directors authorized a share repurchase program (the "Share Repurchase Program"), effective as of January 1, 2004, originally providing for share repurchases in the aggregate amount of \$20,000. The Share Repurchase Program does not have a fixed expiration or termination date and may be modified or terminated by the Board of Directors at any time. On several occasions the Board of Directors has increased the amount authorized for repurchase. On June 18, 2013, the Board of Directors approved a continuation of the Share Repurchase Program for an additional \$125,000 in repurchases of the Company's common stock. The Share Repurchase Program permits the Company to effect repurchases from time to time through a combination of open market repurchases or in privately negotiated transactions at such prices and times as are determined to be in the best interest of the Company. During the six months ended June 30, 2013, an aggregate of 707,830 shares of the Company's common stock was repurchased under the program, at an average price per share of \$46.29, for an aggregate purchase price of approximately \$32,763. As of June 30, 2013, approximately \$139,327 remained available for future repurchases under the Share Repurchase

Program.

## Note O – Net Income Per Share of Common Stock

Basic net income per share is based on the weighted average number of shares of common stock outstanding during the period, which does not include unvested restricted common stock subject to forfeiture of 2,875,000 shares for the three and six months ended June 30, 2013, and 1,425,000 and 1,204,000 shares for the three and six months ended June 30, 2012, respectively. Diluted net income per share reflects: a) the potential dilution assuming shares of common stock were issued upon the exercise of outstanding in-the-money options and the proceeds thereof were used to purchase shares of the Company's common stock at the average market price during the period, and b) the vesting of granted nonvested restricted stock awards for which the assumed proceeds upon vesting are deemed to be the amount of compensation cost not yet recognized attributable to future services using the treasury stock method, to the extent dilutive. For the three and six months ended June 30, 2013 options to purchase approximately 11,000 and 40,000 shares of common stock, respectively, have been excluded in the calculation of diluted income per share as compared to 77,000 and 85,000 shares that were excluded for the three and six months ended June 30, 2012, as the result would have been antidilutive. For the three and six months ended June 30, 2013 and 2012, all unvested restricted stock awards were dilutive.

## Note P – Stock-Based Compensation

In March 2006, the Board of Directors approved the Steven Madden, Ltd. 2006 Stock Incentive Plan (the "Plan") under which nonqualified stock options, stock appreciation rights, performance shares, restricted stock, other stock-based awards and performance-based cash awards may be granted to employees, consultants and non-employee directors. The stockholders approved the Plan on May 26, 2006. On May 25, 2007, the stockholders approved an amendment to the Plan to increase the maximum number of shares that may be issued under the Plan from 2,700,000 to 3,487,500. On May 25, 2012, the stockholders approved a third amendment to the Plan that increased the maximum number of shares that may be issued under the Plan to 15,644,000. The following table summarizes the number of shares of common stock authorized for use under the Plan, the number of stock-based awards granted (net of expired or cancelled awards) under the Plan and the number of shares of common stock available for the grant of stock-based awards under the Plan:

## Stock Options

Cash proceeds and intrinsic values related to total stock options exercised during the three and six months ended June 30, 2013 and 2012 are as follows:

|  | Three Months Ended June 30, |         | Six Months Ended June 30, |         |

| Intrinsic value of stock options exercised | \$8,711                     | \$2,963 | \$9,439                   | \$8,232 |

During the three and six months ended June 30, 2013, options to purchase approximately 439,894 shares of common stock with a weighted average exercise price of \$14.80 and options to purchase approximately 604,664 shares of common stock with a weighted average exercise price of \$18.35 vested, respectively. During the three and six months ended June 30, 2012, options to purchase approximately 456,000 shares of common stock with a weighted average exercise price of \$14.75 and options to purchase approximately 680,000 shares of common stock with a weighted average exercise price of \$17.55 vested, respectively. As of June 30, 2013, there were unvested options relating to 882,290 shares of common stock outstanding with a total of \$9,073 of unrecognized compensation cost and an average vesting period of 2.72 years.

The Company uses the Black-Scholes option-pricing model to estimate the fair value of options granted, which requires several assumptions. The expected term of the options represents the estimated period of time until exercise and is based on the historical experience of similar awards. Expected volatility is based on the historical volatility of the Company's common stock. The risk free interest rate is based on the U.S. Treasury yield curve in effect at the time of the grant. With the exception of special dividends paid in November of 2005 and 2006, the Company historically has not paid regular cash dividends and thus the expected dividend rate is assumed to be zero. The following weighted average assumptions were used for stock options granted during the six months ended June 30, 2013 and 2012:

|                             | 2013           | 2012           |
|-----------------------------|----------------|----------------|
| Volatility                  | 36.9% to 44.8% | 41.1% to 47.4% |
| Risk free interest rate     | 0.37% to 0.76% | 0.48% to 0.87% |
| Expected life in years      | 4.1 to 5.1     | 3.1 to 4.6     |
| Dividend yield              | 0.00%          | 0.00%          |
| Weighted average fair value | \$14.44        | \$14.03        |

As of June 30, 2013, the Company had \$94,517 of total unrecognized compensation cost related to restricted stock awards granted under the Plan. This cost is expected to be recognized over a weighted average of 8.99 years. The Company determines the fair value of its restricted stock awards based on the market price of its common stock on the date of grant.

On January 3, 2012, the Company and its Creative and Design Chief, Steven Madden, entered into an amendment of Mr. Madden's existing employment agreement, pursuant to which, on February 8, 2012, Mr. Madden was granted 975,371 restricted shares of the Company's common stock at the then market price of \$41.01, which will vest in equal annual installments over a seven-year period commencing on December 31, 2017 and, thereafter, on each December 31 through December 31, 2023, subject to Mr. Madden's continued employment on each such vesting date. Pursuant to the contract, on June 30, 2012, Mr. Madden exercised his right to receive an additional restricted stock award, and on July 3, 2012 he was granted 1,262,228 restricted shares of the Company's common stock at the then market price of \$31.69, which will vest in the same manner as the aforementioned grant.

consideration of approximately \$29,367 plus potential earn-out payments of up to a maximum of \$38,000 Canadian dollars (approximately \$37,327 U.S. dollars), in the aggregate, based on achievement of certain earnings targets for each of the twelve-month periods ending on March 31, 2013 through 2017, inclusive. The fair value of the contingent payments was estimated using the present value of management's projections of the financial results of SM Canada during the earn-out period. As of June 30, 2013, the Company estimates the fair value of the contingent consideration to be \$25,294.

The transaction was accounted for using the acquisition method required by GAAP. Accordingly, the assets and liabilities of SM Canada were adjusted to their fair values, and the excess of the purchase price over the fair value of the assets acquired, including identified intangible assets, was recorded as goodwill. The fair values assigned to tangible and intangible assets acquired and liabilities assumed are based on management's estimates and assumptions, which are subject to change. The purchase price has been allocated as follows:

|                                     |          |   |
|-------------------------------------|----------|---|
| Accounts receivable                 | \$2,496  |   |
| Inventory                           | 2,220    |   |
| Prepaid expenses and other assets   | 147      |   |
| Fixed assets                        | 1,005    |   |
| Re-acquired right                   | 35,200   |   |
| Customer relationships              | 4,400    |   |
| Non-compete agreement               | 455      |   |
| Accounts payable                    | (2,645)  | ) |
| Accrued expenses                    | (802)    | ) |
| Total fair value excluding goodwill | 42,476   |   |
| Goodwill                            | 9,368    |   |
| Net assets acquired                 | \$51,844 |   |

At the date of acquisition, the Company and SM Canada had a non-contractual preexisting relationship under which SM Canada had the right to use the Steve Madden brand throughout Canada in connection with the sale and distribution of merchandise. The settlement of the preexisting relationship is considered a re-acquired right and was valued based on the present value of estimated future cash flows.

Contingent consideration classified as a liability will be remeasured at fair value at each reporting date, until the contingency is resolved, with changes recognized in earnings. The goodwill related to this transaction is expected to be deductible for tax purposes over 15 years.

The Company incurred approximately \$951 in acquisition related costs applicable to the SM Canada transaction, \$800 of which were incurred in 2012. These expenses are included in operating expenses in the Company's Condensed Consolidated Statements of Income.

In connection with the acquisition, the Company provided an interest free loan to the seller of SM Canada in the principal amount of \$3,107 Canadian dollars (\$3,085 in U.S. dollars). The note will be paid in five annual installments

which are due on the dates the five annual earn-out payments are paid. The note was recorded net of the imputed interest, which will be amortized to income over the term of the note. The results of operations of SM Canada have been included in the Company's Condensed Consolidated Statements of Income from the date of the acquisition. Unaudited pro forma information related to this acquisition is not included, as the impact of the transaction is not material to the Company's consolidated results.

Note S – Derivative Instruments

The Company uses derivative instruments, specifically, forward foreign exchange contracts, to manage the risk associated with the volatility of future cash flows denominated in Mexican pesos. The foreign exchange contracts are used to mitigate the impact of exchange rate fluctuations on forecasted purchases of inventory from Mexico and are designated as cash flow hedging instruments. As of June 30, 2013, the fair value of the Company's foreign currency derivatives, which is included on the Condensed Consolidated Balance Sheets in prepaid expenses and other current assets, is \$448. As of June 30, 2013, \$324 of gains related to cash flow hedges are recorded in accumulated other comprehensive income, net of taxes and are expected to be recognized in earnings at the same time the hedged items affect earnings. Legal proceedings:

As previously disclosed, on February 2, 2012, two individuals purporting to be stockholders of the Company commenced separate civil actions in the Supreme Court of New York, Queens County, Mark Ioffe, Derivatively on Behalf of Nominal Defendant Steven Madden, Ltd. v. Steven Madden, et. al, No. 700188-2012 (the “Ioffe Action”) and Catherine L. Phillips, Derivatively on Behalf of Nominal Defendant Steven Madden, Ltd. v. Steven Madden, et. al, No. 700189-2012 (together with the Ioffe Action, the “Actions”). The Actions asserted derivative claims challenging the decision of the Company's Board of Directors in January 2012 to amend Steven Madden's employment agreement dated July 15, 2005, and amended as of December 14, 2009 and to amend the promissory note setting forth Mr. Madden's obligations in respect of a loan made by the Company to Mr. Madden in 2007 and amended in 2009 and claimed, among other things, that the Board violated its duties of loyalty and good faith by approving the amendments. The Actions also asserted claims of unjust enrichment against Mr. Madden. The Company and the other defendants filed a motion for dismissal of the Actions, which was granted by the court on September 13, 2012. The plaintiffs did not file a notice of appeal with respect to the dismissal of the Actions and the time period for filing an appeal expired.

On or about May 17, 2013, a law firm purporting to represent Mark Ioffe served a demand letter on the Company's Board of Directors (the “Demand Letter”). The allegations in the Demand Letter are substantively the same as the claims made in the Actions in which the Court entered a judgment of dismissal. The Demand Letter provides that should the Board of Directors fail to take the actions demanded within a reasonable period of time or refuse to take such actions, Mr. Ioffe would commence a shareholder derivative action on behalf of the Company. In response to the Demand Letter, the Board of Directors has formed a special committee consisting of Board members, Richard P. Randall, Peter Migliorini and Ravi Sachdev, to, among other things, investigate and evaluate the various demands, allegations and requests for action contained in the Demand Letter. The special committee is currently conducting an investigation into the matters raised in the Demand Letter and has retained independent counsel to assist and advise it in connection with its investigation and evaluation.

The Company has been named as a defendant in certain other lawsuits in the normal course of business. In the opinion of management, after consulting with legal counsel, the liabilities, if any, resulting from these matters should not have a material effect on the Company's financial position or results of operations. It is the policy of management to disclose the amount or range of reasonably possible losses in excess of recorded amounts.

## RESULTS OF OPERATIONS

(\$ in thousands)

Three Months Ended June 30, 2013 Compared to Three Months Ended June 30, 2012

### Consolidated:

Net sales for the three months ended June 30, 2013 increased 3.1% to \$297,634 compared to \$288,692 in the same period of last year. Gross margin improved to 37.2% from 36.1% resulting from margin expansion in both the Wholesale Footwear and Retail segments of our business. Operating expenses increased in the second quarter of this year to \$68,666 from \$66,702 in the second quarter of last year primarily due to an increase in the number of retail stores. Operating expenses as a percentage of sales remained flat at 23.1% for the second quarter of 2013 and 2012, respectively. In the second quarter of 2012, we recorded charges of \$2,500 for a class action lawsuit related to unauthorized text messaging and \$1,810 for impairment of a note receivable due from our former licensee, Betsey Johnson LLC, for Betsey Johnson® retail footwear and apparel. Commission and licensing fee income for the second quarter of 2013 decreased to \$3,699 compared to \$4,252 achieved in the second quarter of 2012. The effective tax rate for the the second quarter or 2013 increased to 37.1% compared to 31.3%, due primarily to a tax benefit received in the second quarter of 2012 of \$2,800 related to the year-to-date impact of a portion of our earnings from our foreign operations that have been reinvested indefinitely. Net income attributable to Steven Madden, Ltd. for the second quarter of 2013 increased to \$28,956 compared to net income for the second quarter of 2012 of \$26,899. Net income for the second quarter 2012 included the aforementioned charges related to a class action lawsuit and note receivable impairment.

### Wholesale Footwear Segment:

Net sales from the Wholesale Footwear segment accounted for \$199,198, or 67%, and \$198,694, or 69%, of our total net sales for the second quarter of 2013 and 2012, respectively, which represents a \$504, or 0.3%, increase. Growth in the Adesso Madden private label business of \$16,175, or 63%, was offset by a \$7,263, or 13.3%, decrease in our Topline business resulting from the loss of two private label customers that compete with Steve Madden and elected not to go forward with Topline, as well as the discontinuation of the Big Buddha footwear business which had sales in the second quarter of 2012 of \$2,343.

Gross profit margin in the Wholesale Footwear segment was 30.6% for the second quarter of 2013 and 29.9% for the second quarter of 2012 reflecting a higher gross margin achieved on Steve Madden Women's business resulting from lower markdowns. Operating expenses decreased to \$33,946 in the second quarter of 2013 from \$34,756 in the same period of last year. As a percentage of net sales, operating expenses were 17.0% in the second quarter of 2013 compared to 17.5% in the same period of 2012, which decreased due to focused expense control. Income from operations for the Wholesale Footwear segment increased to \$27,044 for the quarter ended June 30, 2013 compared to \$24,692 for the same period of last year.

### Wholesale Accessories Segment:

Net sales generated by the Wholesale Accessories segment accounted for \$52,224, or 17.5%, and \$49,439, or 17.1%, of total net sales for the Company in the second quarters of 2013 and 2012, respectively. This 5.6% increase in net sales in the second quarter of 2013 was attributed to continued growth in sales of Steve Madden® and Betsey Johnson® handbags and private label handbags, compared to the comparable period in 2012.

Gross profit margin in the Wholesale Accessories segment decreased to 37.7% in the second quarter of this year from 38.3% in the same period in 2012, primarily due to sales increases to to mid-tier retailers, which sales generate lower margins. In the second quarter of 2013, operating expenses decreased to \$10,273 compared to \$10,397 in the same period of last year. As a percentage of net sales, operating expenses improved to 19.7% in the second quarter of 2013 from 21.0% in the same period of 2012, reflecting leverage from sales increase. Income from operations for the Wholesale Accessories segment increased 9.8% to \$9,394 for the second quarter of 2013 compared to \$8,558 for the

same period of last year.

**Retail Segment:**

In the second quarter of 2013, net sales from the Retail segment accounted for \$46,212, or 15.5%, of our total net sales compared to \$40,559, or 14%, of our total net sales in the same period last year, which represents a \$5,653, or 13.9%, increase. This increase in net sales reflects the addition of retail stores since the second quarter of 2012 and an increase in comparable store sales. We opened seventeen new stores, including a Betsey Johnson® online store during the twelve months ended June 30, 2013. As a result, we had 113 retail stores as of June 30, 2013 compared to 96 stores as of June 30, 2012, in each case including our e-commerce stores. The 113 stores currently in operation include 94 Steve Madden® stores, 12 Steve Madden® outlet stores, 2 Steven® stores, 1 Report® store, 1 Superga store and 3 e-commerce websites. Comparable store sales (sales of those stores,

including the e-commerce websites, that were open throughout the second quarter of 2013 and 2012) increased 2.5% in the second quarter of this year. In the second quarter of 2013, gross margin increased to 64.7% from 63.7% in the same period of 2012, primarily due to fewer markdowns. In the second quarter of 2013, operating expenses increased to \$24,448, or 52.9%, of net sales compared to \$21,549, or 53.1%, of net sales, in the second quarter of last year, due to the sales increase. Income from operations for the Retail segment increased to \$5,474 in the second quarter of this year from \$4,302 in the same period of last year.

**First Cost Segment:**

The First Cost segment net commission income and design fees decreased to \$1,888 for the second quarter of 2013 compared to \$2,412 for the comparable period of 2012. This decrease was due to less business with Kohl's and the loss of Bakers' business due to bankruptcy (see Note E to the Condensed Consolidated Financial Statements contained in this Quarterly Report).

**Licensing Segment:**

Net licensing income was relatively consistent at \$1,811 and \$1,840 for the second quarter ended June 30, 2013 and 2012, respectively.

Operating expenses increased in the first six months of 2013 to \$139,193 from \$131,909 in the first six months of 2012. Commission and licensing fee income for the first six months of 2013 decreased to \$8,066 compared to \$8,725 achieved in the first six months of 2012. Net income attributable to Steven Madden, Ltd. for the first six months of 2013 increased to \$52,356 compared to net income for the first six months of 2012 of \$48,767.

**Wholesale Footwear Segment:**

Net sales from the Wholesale Footwear segment accounted for \$388,379, or 67%, and \$390,194, or 70%, of our total net sales for the first six months of 2013 and 2012, respectively, which represents a \$1,815, or 0.5%, decrease. The decrease in net sales was driven by a \$21,163, or 18.3%, decrease in our Topline business primarily resulting from the loss of two private label customers that compete with Steve Madden and elected not to go forward with Topline and the discontinuation of the Big Buddha footwear business, partially offset by growth in our Adesso Madden private label business. Excluding net sales growth attributable to the February 21, 2012 acquisition of SM Canada, organic net sales decreased \$5,698, or 1.5%, in the six months ended June 30, 2013 as compared to the same period in 2012.

Gross profit margin in the Wholesale Footwear segment was 30.6% for the first six months of 2013 and 30.3% for the first six months of 2012, driven by a higher gross margin achieved from our Steve Madden Women's business resulting from lower markdowns. Operating expenses decreased to \$69,225 in the first six months of 2013 from \$69,996 in the same period of last year. As a percentage of net sales, operating expenses were 17.8% in the first six months of 2013 compared to 17.9% in the same period of 2012. Income from operations for the Wholesale Footwear segment increased to \$49,626 for the first six months of 2013 compared to \$48,180 for the same period of last year.

**Wholesale Accessories Segment:**

Net sales generated by the Wholesale Accessories segment accounted for \$96,905, or 17%, and \$86,882, or 16%, of total net sales for the Company in the first six months of 2013 and 2012, respectively. This 11.5% increase in net sales in the first six months of 2013 was attributed to continued growth in sales of Steve Madden® and Betsey Johnson® handbags, compared to the comparable period in 2012.

Gross profit margin in the Wholesale Accessories segment decreased to 38.4% in the first six months of 2013 from 39.2% in the same period last year, primarily due to an increase in sales to our mid-tier retailer customers, which sales generate lower margins. In the first six months of 2013, operating expenses of \$20,350 were flat to the prior year amount of \$20,260. As a percentage of

net sales, operating expenses improved to 21.0% in the first six months of 2013 from 23.3% in the same period of 2012, reflecting leverage from sales increase. Income from operations for the Wholesale Accessories segment increased 22.1% to \$16,886 for the first six months of 2013 compared to \$13,825 for the same period of last year.

**Retail Segment:**

In the first six months of 2013, net sales from the Retail segment accounted for \$91,266, or 15.8%, of our total net sales compared to \$77,586, or 14%, of our total net sales in the same period last year, which represents a \$13,680, or 17.6%, increase. This increase in net sales reflects the addition of retail stores since the second quarter of 2012, an increase in comparable store sales and the acquisition of SM Canada on February 21, 2012. Excluding sales attributable to the acquisition of SM Canada, organic net sales growth in the first six months of 2013 was \$9,380, a 12.6%, increase over the same period in 2012. We opened seventeen new stores, including a Betsey Johnson® online store, during the twelve months ended June 30, 2013. As a result, we had 113 retail stores as of June 30, 2013 compared to 96 stores as of June 30, 2012, in each case including our e-commerce stores. The 113 stores currently in operation include 94 Steve Madden® stores, 12 Steve Madden® outlet stores, 2 Steven® stores, 1 Report® store, 1 Superga store and 3 e-commerce websites. Comparable store sales (sales of those stores, including the e-commerce websites, that were open throughout the first six months of 2013 and 2012 increased 3.2% in the first six months of this year. In the first six months of 2013, gross margin increased to 62.6% from 62.0% in the same period of 2012, primarily due to the impact of the new stores in Canada, which achieve higher gross profit margins than our stores located in the U.S. In the first six months of 2013, operating expenses increased to \$49,616, or 54.4%, of net sales compared to \$41,653, or 53.7%, of net sales, in the first six months of 2012 due to the write-off of fixed assets. **First Cost Segment:**

The First Cost segment net commission income and design fees decreased to \$4,170 for the first six months of 2013 compared to \$4,740 for the comparable period of 2012. This decrease was due to less business with Kohl's and the loss of Bakers' business due to bankruptcy.

**Licensing Segment:**

Net licensing income was relatively consistent at \$3,895 and \$3,985 for the six months ended June 30, 2013 and 2012, respectively.

At June 30, 2013, we had open letters of credit for the purchase of inventory of approximately \$2,417.

As previously reported, on January 3, 2012, the employment agreement of the Company's Creative and Design Chief, Steven Madden, was amended to provide Mr. Madden with a base annual salary of \$4,000 in 2013, approximately \$6,125 in 2014, approximately \$8,250 in 2015 and approximately \$7,026 for the period between January 1, 2016 through the expiration of the employment agreement on December 31, 2023. As described in Note P to the Condensed Consolidated Financial Statements, in 2012, Mr. Madden also received two restricted stock awards pursuant to his amended employment agreement. The employment agreement further entitles Mr. Madden to an annual life insurance premium payment, an annual stock option grant and the potential for an additional one-time stock option grant based on achievement of certain financial performance criteria, as well as the opportunity for discretionary cash bonuses. On May 22, 2013, Mr. Madden waived his annual option grant for 2013, which stock options would have been issued to him on or about the date of the Company's 2013 annual meeting of stockholders. The terms of an outstanding loan in the original principal amount of \$3,000 made by the Company to Mr. Madden were amended in connection with the amendment of the employment agreement, as described in Note F to the Condensed Consolidated Financial Statements. The amended terms included the elimination of further interest accumulation on the loan. The outstanding principal amount of the loan, together with all previously accrued interest, has been discounted to reflect imputed interest, which will be amortized over the remaining life of the loan.

The Company has employment agreements with certain executive officers, which provide for the payment of compensation aggregating approximately \$1,441 during the second half of 2013, \$1,887 in 2014 and \$638 in 2015. In addition, some of these employment agreements provide for discretionary bonuses and some provide for incentive compensation based on various performance criteria as well as other benefits including stock options.

In connection with our acquisition of SM Canada on February 21, 2012, we are subject to potential earn-out payments to the seller of SM Canada based on the annual performance of SM Canada for each of the twelve-month periods ending on March 31, 2013 through 2017, inclusive. We expect to make the first earn-out payment, based on the performance of SM Canada during the twelve month period ended on March 31, 2013, to the seller of SM Canada during the third quarter of 2013. In connection with our acquisition of Cejon Inc, Cejon Accessories, Inc. and New East Designs, LLC (collectively "Cejon") on May 25, 2011, we are subject to potential earn-out payments to the seller of Cejon based on the annual performance of Cejon for each of the twelve-month periods ending on June 30, 2012 through 2016, inclusive. The first such payment was made to the seller of Cejon in the third quarter of 2012. A second earn-out payment based on the performance of Cejon for the twelve-month period ending on June 30, 2013 is expected to be made in the third quarter of 2013. In connection with our acquisition of Big Buddha, Inc., which closed in the first fiscal quarter of 2010, we are subject to one final potential earn-out payment to the seller of Big Buddha, Inc. based on the performance of Big Buddha for the twelve month period ended on March 31, 2013. This final earn-out payment is expected to be made in the third quarter of 2013.

Virtually all of our products are manufactured at overseas locations, the majority of which are located in China, with a small and growing percentage located in Mexico in addition to smaller amounts produced in Brazil, The Philippines, The Netherlands and India. We have not entered into any long-term manufacturing or supply contracts with any of these foreign manufacturers. We believe that a sufficient number of alternative sources exist outside of the United States for the manufacture of our products. We currently make approximately 95% of our purchases in U.S. dollars.

INFLATION

We do not believe that inflation had a significant effect on our sales or profitability in the three and six months ended June 30, 2013. Historically, we have minimized the impact of product cost increases by increasing prices, changing suppliers and by improving operating efficiencies. However, no assurance can be given that we will be able to offset any such inflationary cost

increases in the future.

#### OFF BALANCE SHEET ARRANGEMENTS

The Company has no off-balance sheet arrangements.

#### CRITICAL ACCOUNTING POLICIES AND THE USE OF ESTIMATES

Management's Discussion and Analysis of Financial Condition and Results of Operations is based upon our Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q, which have been prepared in accordance with generally accepted accounting principles in the United States ("GAAP"). The preparation of these financial statements requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, sales and expenses, and related disclosure of contingent assets and liabilities. Estimates by their nature are based on judgments and available information. Our estimates are made based upon historical factors, current circumstances and the experience and judgment of management. Assumptions and estimates are evaluated on an ongoing basis and we may employ outside experts to assist in evaluations. Therefore, actual results could materially differ from those estimates under different assumptions and conditions. Management believes the following critical accounting estimates are more significantly affected by judgments and estimates used in the preparation of our Condensed Consolidated Financial Statements: allowance for bad debts, returns, and customer chargebacks; inventory valuation; valuation of intangible assets, litigation reserves, and contingent payment liabilities.

**Allowances for bad debts, returns and customer chargebacks.** We provide reserves against our trade accounts receivables for future customer chargebacks, co-op advertising allowances, discounts, returns and other miscellaneous deductions that relate to the current period. The reserve against our non-factored trade receivables also includes estimated losses that may result from customers' inability to pay. The amount of the reserve for bad debts, returns, discounts and compliance chargebacks are determined by analyzing aged receivables, current economic conditions, the prevailing retail environment and historical dilution levels for customers. We evaluate anticipated customer markdowns and advertising chargebacks by reviewing several performance indicators for our major customers. These performance indicators (which include inventory levels at the retail floors, sell through rates and gross margin levels) are analyzed by management to estimate the amount of the anticipated customer allowance. Failure to correctly estimate the amount of the reserve could materially impact our results of operations and financial position.

**Inventory valuation.** Inventories are stated at lower-of-cost or market, on a first-in, first-out basis. We review inventory on a regular basis for excess and slow moving inventory. The review is based on an analysis of inventory on hand, prior sales, and expected net realizable value through future sales. The analysis includes a review of inventory quantities on hand at period-end in relation to year-to-date sales and projections for sales in the foreseeable future as well as subsequent sales. We consider quantities on hand in excess of estimated future sales to be at risk for market impairment. The net realizable value, or market value, is determined based on the estimate of sales prices of such inventory through off-price or discount store channels. The likelihood of any material inventory write-down is dependent primarily on the expectation of future consumer demand for our product. A misinterpretation or misunderstanding of future consumer demand for our product, the economic conditions, or other failure to estimate correctly, in addition to abnormal weather patterns, could result in inventory valuation changes, compared to the valuation determined to be appropriate as of the balance sheet date.

**Valuation of intangible assets.** Accounting Standards Codification ("ASC") Topic 350, "Intangible - Goodwill and Other", requires that goodwill and intangible assets with indefinite lives no longer be amortized, but rather be tested for impairment at least annually. This pronouncement also requires that intangible assets with finite lives be amortized over their respective lives to their estimated residual values, and reviewed for impairment in accordance with ASC Topic 360, "Property, Plant and Equipment" ("ASC Topic 360"). In accordance with ASC Topic 360, long-lived assets, such as property, equipment, leasehold improvements and intangible assets subject to amortization, are reviewed for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset.

Litigation reserves. Estimated amounts for litigation claims that are probable and can be reasonably estimated are recorded as liabilities in our Condensed Consolidated Financial Statements. The likelihood of a material change in these estimated reserves would be dependent on new claims as they may arise and the favorable or unfavorable events of a particular litigation. As additional information becomes available, management will assess the potential liability related to the pending litigation and revise its estimates. Such revisions in management's estimates of a contingent liability could materially impact our results of operation and financial position.

Contingent payment liabilities. Since February 2010, the Company has completed four acquisitions, three of which continue to require the Company to potentially make contingent payments to the sellers of the acquired businesses based on the future financial performance of the acquired businesses over a period of one to five years, as applicable. The fair value of the contingent payments was estimated using the present value of management's projections of the financial results of the acquired business. Failure to correctly project the financial results of the acquired businesses could materially impact our results of operations and financial position.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

(\$ in thousands)

We do not engage in the trading of market risk sensitive instruments in the normal course of business. Our financing arrangements are subject to variable interest rates, primarily based on the prime rate and LIBOR. The terms of our collection agency agreements with Rosenthal & Rosenthal, Inc. can be found in the Liquidity and Capital Resources section of Item 2 and in Note D to the Condensed Consolidated Financial Statements included in this Quarterly Report.

As of June 30, 2013, we held marketable securities valued at \$122,453, which consist primarily of corporate bonds and marketable equity securities. The values of these securities may fluctuate as a result of changes in equity values, market interest rates and credit risk. We have the ability to hold these investments until maturity. In addition, any decline in interest rates would be expected to reduce our interest income.

### ITEM 4. CONTROLS AND PROCEDURES

As required by Rule 13a-15(b) of the Securities Exchange Act of 1934 (the "Exchange Act"), our management, including our Chief Executive Officer and Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter covered by this Quarterly Report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) were, as of the end of the fiscal quarter covered by this Quarterly Report, effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and is accumulated and communicated to our management, including the Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

As required by Rule 13a-15(d) under the Exchange Act, our management, including our Chief Executive Officer and Chief Financial Officer, has evaluated our internal controls over financial reporting to determine whether any changes occurred during the quarter covered by this Quarterly Report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Based on that evaluation, there has been no such change during the quarter covered by this Quarterly Report.

## PART II. OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

(\$ in thousands)

Certain legal proceedings in which we are involved are discussed in Note O to the Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2012 and in Part I, Item 3 of that Annual Report, which was filed with the SEC on March 1, 2013, in Note T to the Condensed Consolidated Financial Statements included in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2013 and in Part II, Item 1 of that Quarterly Report, which was filed with the SEC on May 10, 2013, as well as in Note T to the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q. The following discussion is limited to recent developments concerning certain of our legal proceedings and should be read in conjunction with our earlier SEC reports. Unless otherwise indicated, all proceedings discussed in earlier reports, which are not indicated therein as having been dismissed remain outstanding as of June 30, 2013.

As previously disclosed, on February 2, 2012, two individuals purporting to be stockholders of the Company commenced separate civil actions in the Supreme Court of New York, Queens County, Mark Ioffe, Derivatively on Behalf of Nominal Defendant Steven Madden, Ltd. v. Steven Madden, et. al, No. 700188-2012 (the "Ioffe Action") and

Catherine L. Phillips, Derivatively on Behalf of Nominal Defendant Steven Madden, Ltd. v. Steven Madden, et. al, No. 700189-2012 (together with the Ioffe Action, the “Actions”). The Actions asserted derivative claims challenging the decision of the Company's Board of Directors in January 2012 to amend Steven Madden's employment agreement dated July 15, 2005, and amended as of December 14, 2009 and to amend the

promissory note setting forth Mr. Madden's obligations in respect of a loan made by the Company to Mr. Madden in 2007 and amended in 2009 and claimed, among other things, that the Board violated its duties of loyalty and good faith by approving the amendments. The Actions also asserted claims of unjust enrichment against Mr. Madden. The Company and the other defendants filed a motion for dismissal of the Actions, which was granted by the court on September 13, 2012. The plaintiffs did not file a notice of appeal with respect to the dismissal of the Actions and the time period for filing an appeal expired.

On or about May 17, 2013, a law firm purporting to represent Mark Ioffe served a demand letter on the Company's Board of Directors (the "Demand Letter"). The allegations in the Demand Letter are substantively the same as the claims made in the Actions in which the Court entered a judgment of dismissal. The Demand Letter provides that should the Board of Directors fail to take the actions demanded within a reasonable period of time or refuse to take such actions, Mr. Ioffe would commence a shareholder derivative action on behalf of the Company. In response to the Demand Letter, the Board of Directors has formed a special committee consisting of Board members, Richard P. Randall, Peter Migliorini and Ravi Sachdev, to, among other things, investigate and evaluate the various demands, allegations and requests for action contained in the Demand Letter. The special committee is currently conducting an investigation into the matters raised in the Demand Letter and has retained independent counsel to assist and advise it in connection with its investigation and evaluation.

The Company has been named as a defendant in certain other lawsuits in the normal course of business. In the opinion of management, after consulting with legal counsel, the liabilities, if any, resulting from these matters should not have a material effect on the Company's financial position or results of operations. It is the policy of management to disclose the amount or range of reasonably possible losses in excess of recorded amounts.
