Silverstar Mining Corp.

(A Development Stage Company)

Notes to Consolidated Financial Statements

(Expressed in U.S. Dollars)

30 September 2012

1. Nature, Basis of Presentation and Continuance of Operations

Silverstar Mining Corp. (the “Company”) was incorporated under the laws of the State of Nevada on 5 December 2003. On 4 March 2008, the Company completed a merger with its wholly-owned subsidiary, Silverstar Mining Corp., which was incorporated by the Company solely to effect the name change of the Company to Silverstar Mining Corp. The Company was incorporated for the purpose to promote and carry on any lawful business for which a corporation may be incorporated under the laws of the State of Nevada.

On 13 April 2011 the Company incorporated a wholly owned subsidiary, Silverstar Mining (Canada) Inc., under the laws of the country of Canada. The subsidiary was incorporated for the purpose to promote and carry on any lawful business for which a corporation may be incorporated under the laws of the country of Canada. The subsidiary’s main purpose is to hold title to mineral property rights situated in Canada as the laws of that country require that only local entities can hold title to mineral property rights situated within its borders.

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Silverdale Mining Corp. (“Silverdale”) from 24 July 2008, the date of acquisition, and Silverstar Mining (Canada) Inc. from 13 April 2011, the date of incorporation.

The Company is a development stage enterprise, as defined in Financial Accounting Standards Board No. 7. The Company is devoting all of its present efforts in securing and establishing a new business, and its planned principle operations have not commenced, and, accordingly, no revenue has been derived during the organization period.

The consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to development stage enterprises, and are expressed in U.S. dollars. The Company’s fiscal year end is 30 September.

These consolidated financial statements as at 31 December 2012 and for the three month period then ended, have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company has a loss for the three month period ended 31 December 2012 of \$106,360 (2011 loss - \$26,846), cumulative loss - \$1,734,788 (2011 cumulative loss - \$1,564,571) and has working capital deficit of \$204,564 at 31 December 2012 (30 September 2012 deficit - \$166,079).

Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. If the Company is unable to raise additional capital in the near future, due to the Company's liquidity problems, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favorable terms and/or pursue other remedial measures. These consolidated financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

At 31 December 2012, the Company had suffered losses from development stage activities to date. Although management is currently attempting to implement its business plan, and is seeking additional sources of equity or debt financing, there is no assurance these activities will be successful. These factors raise substantial doubt about the ability of the Company to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

2. Significant Accounting Policies

The following is a summary of significant accounting policies used in the preparation of these consolidated financial statements.

Principles of consolidation

All inter-company transactions and balances have been eliminated in these consolidated financial statements.

Cash and cash equivalents

Cash and cash equivalents include highly liquid investments with original maturities of three months or less.

Mineral property costs

The Company has been in the development stage since its formation on 5 December 2003 and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition and exploration of mining properties.

Mineral property acquisition costs are initially capitalized as tangible assets when purchased. At the end of each fiscal quarter end, the Company assesses the carrying costs for impairment. If proven and probable reserves are established for a property and it has been determined that a mineral property can be economically developed, costs will be amortized using the units-of-production method over the estimated life of the probable reserve.

Mineral property exploration costs are expensed as incurred.

Estimated future removal and site restoration costs, when determinable are provided over the life of proven reserves on a units-of-production basis. Costs, which include production equipment removal and environmental remediation, are estimated each period by management based on current regulations, actual expenses incurred, and technology and industry standards. Any charge is included in exploration expense or the provision for depletion and depreciation during the period and the actual restoration expenditures are charged to the accumulated provision amounts as incurred.

As of the date of these consolidated financial statements, the Company has not established any proven or probable reserves on its mineral properties and incurred only acquisition and exploration costs (Note 5).

Although the Company has taken steps to verify title to mineral properties in which it has an interest, according to the usual industry standards for the stage of exploration of such properties, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

Reclamation costs

The Company's policy for recording reclamation costs is to record a liability for the estimated costs to reclaim mined land by recording charges to production costs for each tonne of ore mined over the life of the mine. The amount charged is based on management's estimation of reclamation costs to be incurred. The accrued liability is reduced as reclamation expenditures are made. Certain reclamation work is performed concurrently with mining and these expenditures are charged to operations at that time.

Long-lived assets

Long-term assets of the Company are reviewed for impairment whenever events or circumstances indicate that the carrying amount of assets may not be recoverable, pursuant to guidance established in ASC 360-10-35-15, *"Impairment or Disposal of Long-Lived Assets"*.

Management considers assets to be impaired if the carrying value exceeds the future projected cash flows from related operations (undiscounted and without interest charges). If impairment is deemed to exist, the assets will be written down to fair value. Fair value is generally determined using a discounted cash flow analysis.

Financial instruments

The carrying value of cash and cash equivalents, accounts payable and accrued liabilities and convertible debentures approximates their fair value because of the short maturity of these instruments. The Company's operations are in Nevada and virtually all of its assets and liabilities are giving rise to significant exposure to market risks from changes in foreign currency rates. The Company's financial risk is the risk that arises from fluctuations in foreign exchange

rates and the degree of volatility of these rates. Currently, the Company does not use derivative instruments to reduce its exposure to foreign currency risk.

Derivative financial instruments

The Company has not, to the date of these consolidated financial statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

Website development costs

The costs of computer software developed or obtained for internal use, during the preliminary project phase, as defined under ASC 350-40, “*Internal-Use Software*”, will be expensed as incurred. The costs of website development during the planning stage, as defined under ASC 350-50, “*Website Development Costs*”, will also be expensed as incurred.

Computer software, website development incurred during the application and infrastructure development stage, including external direct costs of materials and services consumed in developing the software and creating graphics and website content, will be capitalized and amortized over the estimated useful life, beginning when the software is ready for use and after all substantial testing is completed and the website is operational.

30 September 2012

Income taxes

Deferred income taxes are reported for timing differences between items of income or expense reported in the consolidated financial statements and those reported for income tax purposes in accordance with SFAS No. 109, “*Accounting for Income Taxes*”, which requires the use of the asset/liability method of accounting for income taxes. Deferred income taxes and tax benefits are recognized for the future tax consequences attributable to differences between the consolidated financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and for tax loss and credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The Company provides for deferred taxes for the estimated future tax effects attributable to temporary differences and carry-forwards when realization is more likely than not.

Basic and diluted net loss per share

The Company computes net loss per share in accordance with SFAS No. 128, “*Earnings per Share*”. SFAS No. 128 requires presentation of both basic and diluted earnings per share (“EPS”) on the face of the consolidated income statement. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all potentially dilutive common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all potentially dilutive shares if their effect is anti-dilutive.

Comprehensive loss

SFAS No. 130, “*Reporting Comprehensive Income*”, establishes standards for the reporting and display of comprehensive loss and its components in the financial statements. As at 30 June 2009, the Company has no items that represent a comprehensive loss and, therefore, has not included a schedule of comprehensive loss in the consolidated financial statements.

Segments of an enterprise and related information

SFAS No. 131, “*Disclosures about Segments of an Enterprise and Related Information*”, supersedes SFAS No. 14, “*Financial Reporting for Segments of a Business Enterprise.*” SFAS No. 131 establishes standards for the way that public companies report information about operating segments in annual financial statements and requires reporting of selected information about operating segments in interim financial statements issued to the public. It also establishes standards for disclosures regarding products and services, geographic areas and major customers. SFAS No. 131 defines operating segments as components of a company about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. The Company has evaluated this SFAS and does not believe it is applicable at this time.

30 September 2012

Start-up expenses

The Company has adopted Statement of Position No. 98-5, "*Reporting the Costs of Start-up Activities*", which requires that costs associated with start-up activities be expensed as incurred. Accordingly, start-up costs associated with the Company's formation have been included in the Company's general and administrative expenses for the period from the date of inception on 5 December 2003 to 30 June 2009.

Foreign currency translation

The Company's functional and reporting currency is in U.S. dollars. The consolidated financial statements of the Company are translated to U.S. dollars in accordance with SFAS No. 52, "*Foreign Currency Translation*". Monetary assets and liabilities denominated in foreign currencies are translated using the exchange rate prevailing at the balance sheet date. Gains and losses arising on translation or settlement of foreign currency denominated transactions or balances are included in the determination of income. The Company has not, to the date of these consolidated financial statements, entered into derivative instruments to offset the impact of foreign currency fluctuations.

Use of estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

Comparative figures

Certain comparative figures have been adjusted to conform to the current year's presentation.

Changes in Accounting Policy

In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2010-02, *"Accounting and Reporting for Decreases in Ownership of a Subsidiary - a Scope Clarification"*. ASU No. 2010-02 addresses implementation issues related to the changes in ownership provisions in the Consolidation - Overall Subtopic (Subtopic 810-10) of the FASB ASC, originally issued as Statement of Financial Accounting Standards ("SFAS") No. 160, *"Non-controlling Interests in Consolidated Financial Statements"*. Subtopic 810-10 establishes the accounting and reporting guidance for non-controlling interests and changes in ownership interests of a subsidiary. An entity is required to deconsolidate a subsidiary when the entity ceases to have a controlling financial interest in the subsidiary. Upon deconsolidation of a subsidiary, an entity recognizes a gain or loss on the transaction and measures any retained investment in the subsidiary at fair value. The gain or loss includes any gain or loss associated with the difference between the fair value of the retained investment in the subsidiary and its carrying amount at the date the subsidiary is deconsolidated. In contrast, an entity is required to account for a decrease in ownership interest of a subsidiary that does not result in a change of control of the subsidiary as an equity transaction. ASU No. 2010-02 was effective for the Company starting 1 January 2010. The Company's adoption of ASU No. 2010-02 did not have a material impact on the Company's consolidated financial statements.

30 September 2012

In January 2010, the FASB issued ASU No. 2010-01, *“Equity (ASC Topic 505): Accounting for Distributions to Shareholders with Components of Stock and Cash”*, which clarifies that the stock portion of a distribution to shareholders that allow them to elect to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected prospectively in earnings per share and is not considered a stock dividend for purposes of ASC Topic 505 and ASC Topic 260. ASU No. 2010-01 was effective for the Company starting 1 January 2010. The adoption of the ASU No. 2010-01 did not have a material impact on the Company’s consolidated financial statements.

In August 2009, the FASB issued ASU No. 2009-05, *“Fair Value Measurement and Disclosure (Topic 820) – Measuring Liabilities at Fair Value”*, which provides valuation techniques to measure fair value in circumstances in which a quoted price in an active market for the identical liability is not available. The guidance provided in this update is effective 1 October 2009. The adoption of this guidance did not have a material impact on the Company’s consolidated financial statements.

In June 2009, the FASB issued SFAS No. 167, *“Amendments to FASB Interpretation No. 46(R)”*. SFAS No. 167, which amends ASC 810-10, *“Consolidation”*, prescribes a qualitative model for identifying whether a company has a controlling financial interest in a variable interest entity (“VIE”) and eliminates the quantitative model. The new model identifies two primary characteristics of a controlling financial interest: (1) provides a company with the power to direct significant activities of the VIE, and (2) obligates a company to absorb losses of and/or provides rights to receive benefits from the VIE. SFAS No. 167 requires a company to reassess on an ongoing basis whether it holds a controlling financial interest in a VIE. A company that holds a controlling financial interest is deemed to be the primary beneficiary of the VIE and is required to consolidate the VIE. SFAS No. 167, which is referenced in ASC 105-10-65, has not yet been adopted into the Codification and remains authoritative. SFAS No. 167 was effective 1 January 2010. The adoption of SFAS No. 167 did not have a material impact on the Company’s consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, *“Accounting for Transfer of Financial Assets – an amendment of FASB Statement”*. SFAS No. 166 removes the concept of a qualifying special-purpose entity from ASC 860-10, *“Transfers and Servicing”*, and removes the exception from applying ASC 810-10, *“Consolidation”*. This statement also clarifies the

requirements for isolation and limitations on portions of financial assets that are eligible for sale accounting. SFAS No. 166, which is referenced in ASC 105-10-65, has not yet been adopted into the Codification and remains authoritative. This statement was effective 1 January 2010. The adoption of SFAS No. 166 did not have a material impact on the Company's consolidated financial statements.

In April 2008, the FASB issued new guidance for determining the useful life of an intangible asset, which is now part of ASC 350, "*Intangibles – Goodwill and Other*". In determining the useful life of intangible assets, ASC 350 removes the requirement to consider whether an intangible asset can be renewed without substantial cost of material modifications to the existing terms and conditions and, instead, requires an entity to consider its own historical experience in renewing similar arrangements. ASC 350 also requires expanded disclosure related to the determination of intangible asset useful lives. The new guidance was effective for financial statements issued for fiscal years beginning after 15 December 2008. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

Recent accounting pronouncements

In February 2010, the FASB issued ASU No. 2010-11, *“Derivatives and Hedging (Topic 815): Scope Exception Related to Embedded Credit Derivatives”*. ASU No. 2010-11 clarifies the type of embedded credit derivative that is exempt from embedded derivative bifurcation requirements. Specifically, only one form of embedded credit derivative qualifies for the exemption – one that is related only to the subordination of one financial instrument to another. As a result, entities that have contracts containing an embedded credit derivative feature in a form other than such subordination may need to separately account for the embedded credit derivative feature. The amendments in ASU No. 2010-11 are effective for each reporting entity at the beginning of its first fiscal quarter beginning after 15 June 2010. Early adoption is permitted at the beginning of each entity’s first fiscal quarter beginning after 5 March 2010. The adoption of ASC No. 2010-11 is not expected to have a material impact on the Company’s consolidated financial statements.

In February 2010, the FASB issued ASU No. 2010-09, *“Amendments to Certain Recognition and Disclosure Requirements”*, which eliminates the requirement for Securities and Exchange Commission (“SEC”) filers to disclose the date through which an entity has evaluated subsequent events. ASU No. 2010-09 is effective for its fiscal quarter beginning after 15 December 2010. The adoption of ASU No. 2010-09 is not expected to have a material impact on the Company’s consolidated financial statements.

In January 2010, the FASB issued ASC No. 2010-06, *“Fair Value Measurement and Disclosures (Topic 820): Improving Disclosure and Fair Value Measurements”*, which requires that purchases, sales, issuances, and settlements for Level 3 measurements be disclosed. ASU No. 2010-06 is effective for its fiscal quarter beginning after 15 December 2010. The adoption of ASU No. 2010-06 is not expected to have a material impact on the Company’s consolidated financial statements.

3. Acquisition

In accordance with ASC 805, *Business Combinations*, acquisitions are accounted for under the purchase method of accounting. Under the purchase method of accounting, assets acquired and liabilities assumed are recorded at their estimated fair values. Goodwill is recorded to the extent the purchase price consideration, including certain acquisition and closing costs, exceeds the fair value of the net identifiable assets acquired at the date of the acquisition.

On 24 July 2008, the Company acquired Silverdale. The aggregate consideration paid by the Company was \$791,860 of which \$141,760 was paid in cash, and the Company issued 4,334,000 common shares of the Company valued at \$650,100 to acquire 100% of the issued and outstanding common shares of Silverdale (Notes 3, 5 and 11). Silverdale was acquired pursuant to a Stock Exchange Agreement with Silverdale and the former shareholders of Silverdale dated 13 June 2008. The acquisition of Silverdale expanded the Company's business of acquiring and exploring mineral properties.

A valuation of certain assets was completed and the Company internally determined the fair value of other assets and liabilities. In determining the fair value of acquired assets, standard valuation techniques were used including the market and income approach.

The Company has not incurred any expenditures related to the Pinehurst Properties Mining Claims since the write-down of mineral property acquisition costs during the year ended 30 September 2009.

Silver Strand Properties

On 1 March 2008, the Company entered into a mineral property option agreement with New Jersey Mining Company ("NJMC") to purchase a 50% Joint Venture Interest in mining operations on certain mining properties collectively known as the Silver Strand Properties, located in Kootenai County, Idaho. The terms of the option agreement calls for the Company to make payments as follows:

- i. \$120,000 upon the signing of the agreement (paid);
- ii. \$150,000 on or before 30 April 2008 (paid);
and
- iii. \$230,000 on or before 30 May 2008.

The terms of the option agreements call for the Company to contribute 50% of the reclamation bond held as a treasury bill, the receipt of which is due on or before 30 May 2008, for the benefit of the Joint Venture. NJMC will be the operator of the mine.

The Company is in default under the terms of the option agreement, and does not have any short term prospects for raising the funds needed to complete these projects and has written off its deferred mineral property costs related to the project.

During the year ended 30 September 2009, the Company recorded a write-down of mineral property acquisition costs of \$532,100 related to the Silver Strand Properties mining operations.

12. Income Taxes

The Company has losses carried forward for income tax purposes to 30 September 2012. There are no current or deferred tax expenses for the period ended 30 September 2012 due to the Company's loss position. The Company has fully reserved for any benefits of these losses. The deferred tax consequences of temporary differences in reporting

items for financial statement and income tax purposes are recognized, as appropriate. Realization of the future tax benefits related to the deferred tax assets is dependent on many factors, including the Company's ability to generate taxable income within the net operating loss carry-forward period. Management has considered these factors in reaching its conclusion as to the valuation allowance for financial reporting purposes.

The provision for refundable federal income tax consists of the following:

	For the three month period ended 31 December 2012 \$		For the three month period ended 31 December 2011 \$
Deferred tax asset attributable to:			
Current operations	36,162		9,128

The Company is still obligated to issue an additional 250 common shares to satisfy the terms of the note (Note 14).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our consolidated financial statements and the related notes that appear elsewhere in this quarterly report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars. All references to "common shares" refer to the common shares in our capital stock.

As used in this quarterly report and unless otherwise indicated, the terms "we", "us", "our", "Company", and "Silverstar" mean Silverstar Mining Corp., a Nevada corporation.

Forward-Looking Statements

Certain statements in this quarterly report on Form 10-Q contain or may contain forward-looking statements that are subject to known and unknown risks, uncertainties and other factors which may cause actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Generally, the words "believes", "anticipates," "may," "will," "should," "expect," "intend," "estimate," "continue," and similar expressions or the negative thereof or comparable terminology are intended to identify forward-looking statements which include, but are not limited to, statements concerning the Company's expectations regarding its working capital requirements, financing requirements, business prospects, and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. These forward-looking statements were based on various factors and were derived utilizing numerous assumptions and other factors that could cause our actual results to differ materially from those in the forward-looking statements. These factors include, but are not limited to, economic, political and market conditions and fluctuations, government and industry regulation, interest rate risk, U.S. and global competition, and other factors. Most of these factors are difficult to predict accurately and are generally beyond our control. You should consider the areas of risk described in connection with any forward-looking statements that may be made herein. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. Readers should carefully review this quarterly report in its entirety, including but not limited to our financial statements and the notes thereto. Except for our ongoing obligations to disclose material information under the Federal securities laws, we undertake no obligation to release publicly any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. For any forward-looking statements contained in any document, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

Overview

On May 16, 2011 our recently formed, wholly owned subsidiary, Silverstar Mining Canada, Inc., (“SMCI”) acquired three mining claims encompassing approximately 1,006 hectares in British Columbia, Canada. In consideration for the transfer of the mining claims, we paid the transferor \$10,000 and we are required to issue the transferor two million shares of our common stock.

The mineral claims are located in the Caribou Mining District in east-central British Columbia, Canada.

PROPERTY LOCATION AND ACCESS

There is a growing infrastructure in the region as more of its resources are being exploited by various sized peers and competitors in the area.

The SMCI mineral tenures are located within 65 km northeast of Quesnel, British Columbia, in an area that in part has been logged and re-planted. Access is by forestry road to the vicinity of the Willow River: the tenures lie both east and west of that river. The bridge across Willow River is located approximately 1250 metres upstream from the south boundary and a logging branch road follows the east side of Willow River. The total area is 1006 hectares.

We have not conducted any feasibility studies on the mining claims. However, contiguous and other properties in the immediate vicinity indicate deposits of gold, silver and copper.

We intend to undertake further geological studies of the mining claims and will engage an independent geologist to conduct further geological studies which will also include preliminary drilling on the Property. Initial work would be studying historical information on the area, the trend line and sampling. The sampling analysis will direct management on subsequent investment of resources.

On 27th December, 2012, the Company acquired all the assets and liabilities of Arriba Resources, Inc, a corporation organized under the laws of Canada.

At 31 December 2012, the Company had suffered losses from development stage activities to date. Although management is currently attempting to implement its business plan, and is seeking additional sources of equity or debt financing, there is no assurance these activities will be successful. These factors raise substantial doubt about the ability of the Company to continue as a going concern. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Results of Operations

For the three month period ended December 31, 2012 and December 31, 2011:

Revenue

Since our Inception, we have not generated any revenues.

Edgar Filing: SILVERSTAR MINING CORP. - Form 10-Q

For the three months ended December 31, 2012 and December 31, 2011 total expenses were \$40,924 and 23,852 respectively. Total costs and expenses since Inception were \$1,624,539 which consists primarily of a write down of mineral property acquisition costs totaling \$811,696, legal and accounting fees totaling \$293,605, consulting services totaling \$138,467 and management fees totaling \$125,500.

Our principal costs for the three months ended December 31, 2012 and December 31, 2011 were attributable to legal and accounting fees totaling \$26,363 and \$15,062. Our legal and accounting fees since Inception totaled \$293,605. Most of these fees are attributable to our ongoing reporting obligations with the Securities and Exchange Commission. We have also incurred legal expenses associated with the acquisition of the mining claims. We continue to incur \$1,500 in monthly management fees as a result these fees totaled \$4,500 and \$14,500 respectively. Our total management fees since Inception were \$125,500

For the three months ended December 30 2012, and December 31 2011 total expenses were \$40,924 and \$23,852. As with the comparable periods in 2011, most of these expenses were attributable to legal and accounting fees totaling \$26,363 and \$15,062. We continue to incur \$1,500 in monthly management and as such management fees for the three months ended December 31, 2012 totaled \$4,500 and \$13,500 respectively.

Bank fees for the three months ended December 31, 2012 and December 31, 2011 totaled \$65,436 as compared to \$2,994. The Increase in borrowing was due to the Arriba Transaction at the end of December. Total bank fees since Inception were \$110,249.

Except as set forth above, we had no other significant line item expenses for the three month periods ended December 30, 2012 and 2011.

Our Net Loss for the three months ended December 31, 2012 and 2011 was \$(106,360) and \$(26,846).

Our Net Loss since Inception totaled \$(1,734,788).

Our Net Loss per share for the three ended December 31, 2012 totaled \$(.63) as compared to \$(0.48) for the period ended December 31, 2011.

Until such time as we can generate revenues from operations, we will continue to incur operating losses. Even if we do generate revenues, there can be no assurance that we will not continue to operate at a loss.

Liquidity and Working Capital

We have limited assets. At December 31, 2012 we had cash of \$2,413 as compared to \$558 at December 31, 2011. We also have \$249 in prepaid expenses as of December 31, 2012 compared to \$10,249 for the respective period ended December 31, 2011. Our investment in our mineral properties totaled \$29,893 and total assets at December 31, 2012 were \$32,555. At December 31, 2011 our mineral assets totaled \$14,360 and total assets were \$25,167.

Current liabilities at December 31, 2012 totaled \$298,994 consisting primarily of a shareholder demand note totaling \$133,983, convertible debentures totaling \$20,502, a liability of \$83,875 attributable to the share issuance for the Arrriba Transaction. Current liabilities at December 31, 2011 totaled \$191,246 consisting primarily of shareholder demand loans totaling \$131,366, convertible debentures totaling \$20,124, accounts payable totaling \$15,468 and a liability for share issuance of \$4,500.

Our working capital deficit at December 31, 2012 was \$266,439 as compared to \$166,079

Unless we secure additional debt or equity financing, of which there can be no assurance, we will not be able to continue operations and you may lose your entire investment. We currently do not have any arrangements in place for any future debt or equity financing.

Off-Balance Sheet Arrangements

We are not currently a party to, or otherwise involved with, any off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Going Concern

Due to the uncertainty of our ability to meet our current operating and capital expenses, in their report on the annual consolidated financial statements for the year ended September 30, 2012, our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern.

We anticipate that additional funding will be required in the form of debt or equity capital financing from the sale of our common stock. At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through debt to meet our obligations over the next twelve months. We do not have any arrangements in place for any future debt or equity financing.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

The Company's market risk profile has not changed significantly from its year ended September 30, 2012.

Foreign Currency Exchange Rate Risk

The Company holds cash balances in U.S. dollars. Our operations are located in Canada. As a result, currency exchange fluctuations may impact our operating costs. We do not manage our foreign currency exchange rate risk through the use of financial or derivative instruments, forward contracts or hedging activities.

In general, the strengthening of the U.S. dollar will positively impact our expenses transacted in Canadian dollars. Conversely, any weakening of the U.S. dollar will increase our expenses transacted in Canadian dollars. We do not believe that any weakening of the U.S. dollar as compared to the Canadian dollar will have an adverse material effect on our operations.

Item 4. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) and determined that our disclosure controls and procedures were effective as of the end of the period covered by this Quarterly Report on Form 10-Q. The evaluation considered the procedures designed to ensure that the information required to be disclosed by us in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and communicated to our management as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

During the period covered by this Quarterly Report on Form 10-Q, there was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(d) and 13d-15(d) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

(c) Inherent Limitations of Disclosure Controls and Internal Controls over Financial Reporting

Because of its inherent limitations, internal controls over financial reporting may not prevent or detect misstatements. Projections of any evaluation or effectiveness to future periods are subject to risks that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
