(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
Common Stock, par value \$0.01 per share	New York Stock Exchange
6.45% Series D Cumulative Redeemable Preferred Stock, par value \$0.01 per share	New York Stock Exchange
6.25% Series E Cumulative Redeemable Preferred Stock, par value \$0.01 per share	New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:
None

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-K

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. ☒ Yes ☐ No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. ☐ Yes ☒ No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. ☒ Yes ☐ No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405) of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). ☒ Yes ☐ No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K. ☒ Yes ☐ No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐
Non-accelerated filer ☐ Smaller reporting company ☐
Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). ☐ Yes ☒ No

The aggregate market value of the registrant's voting and non-voting common equity held by non-affiliates of the registrant's as of June 30, 2018 was \$1,471,222,849 based on the closing sale price of the registrant's common stock on the New York Stock Exchange as of June 30, 2018.

As of February 18, 2019 the number of outstanding shares of common stock of Summit Hotel Properties, Inc. was 104,783,179.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's Definitive Proxy Statement on Schedule 14A for its 2019 annual meeting of stockholders, to be filed with the Securities and Exchange Commission not later than 120 days after the end of the fiscal year pursuant to Regulation 14A, are incorporated herein by reference into Part III, Items 10, 11, 12, 13 and 14.

CAUTIONARY STATEMENT ABOUT FORWARD-LOOKING STATEMENTS

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and include this statement for purposes of complying with these safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations, are generally identifiable by use of the words “may,” “could,” “expect,” “intend,” “plan,” “seek,” “anticipate,” “believe,” “estimate,” “predict,” “forecast,” “project,” “continue,” “likely,” “will,” “would” or similar expressions. Forward-looking statements in this report include, among others, statements about our business strategy, including acquisition and development strategies, industry trends, estimated revenues and expenses, ability to realize deferred tax assets and expected liquidity needs and sources (including capital expenditures and the ability to obtain financing or raise capital). You should not rely on forward-looking statements since they involve known and unknown risks, uncertainties and other factors that are, in some cases, beyond our control and which could materially affect actual results, performances or achievements. Factors that may cause actual results to differ materially from current expectations include, but are not limited to:

- financing risks, including the risk of leverage and the corresponding risk of default on our existing indebtedness and potential inability to refinance or extend the maturities of our existing indebtedness;
- default by borrowers to which we lend or provide seller financing;
- global, national, regional and local economic and geopolitical conditions;
- levels of spending for business and leisure travel, as well as consumer confidence;
- supply and demand factors in our markets or sub-markets;
- adverse changes in, occupancy, average daily rate (“ADR”) and revenue per available room (“RevPAR”) and other hotel operating metrics;
- hostilities, including future terrorist attacks, or fear of hostilities that affect travel;
- financial condition of, and our relationships with, third-party property managers and franchisors;
- the degree and nature of our competition;
- increased interest rates;
- increased operating costs, including but not limited to labor costs;
- increased renovation costs, which may cause actual renovation costs to exceed our current estimates;
- changes in zoning laws;
- increases in real property taxes that are significantly higher than our expectations;
- risks associated with hotel acquisitions, including the ability to ramp up and stabilize newly acquired hotels with limited or no operating history or that require substantial amounts of capital improvements for us to earn economic returns consistent with our expectations at the time of acquisition;
- risks associated with dispositions of hotel properties, including our ability to successfully complete the sale of hotel properties under contract to be sold, including the risk that the purchaser may not have access to the capital needed to complete the purchase;
- the nature of our structure and transactions such that our federal and state taxes are complex and there is risk of successful challenges to our tax positions by the Internal Revenue Service (“IRS”) or other federal and state taxing authorities;
- the recognition of taxable gains from the sale of hotel properties as a result of the inability to complete certain like-kind exchanges in accordance with Section 1031 of the Internal Revenue Code of 1986, as amended (the “IRC”);
- availability of and our ability to retain qualified personnel;
- our failure to maintain our qualification as a real estate investment trust (“REIT”) under the IRC;
- changes in our business or investment strategy;
- availability, terms and deployment of capital;

• general volatility of the capital markets and the market price of our common stock;
• environmental uncertainties and risks related to natural disasters;
• our ability to recover fully under third party indemnities or our existing insurance policies for insurable losses and our
• ability to maintain adequate or full replacement cost "all-risk" property insurance policies on our properties on
commercially reasonable terms;
• the effect of a data breach or significant disruption of hotel operator information technology networks as a result of
cyber attacks that are greater than insurance coverages or indemnities from service providers;

• current and future changes to the IRC; and
• the other factors discussed under the heading “Risk Factors” in this report.

Accordingly, there is no assurance that our expectations will be realized. Except as otherwise required by the federal securities laws, we disclaim any obligation or undertaking to publicly release any updates or revisions to any forward-looking statement contained herein (or elsewhere) to reflect any change in our expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

PART I

Item 1. Business.

Unless the context otherwise requires, all references to “we”, “us,” “our,” or the “Company” refer to Summit Hotel Properties, Inc. and its consolidated subsidiaries.

Overview

Summit Hotel Properties, Inc. is a self-managed hotel investment company that was organized in June 2010 and completed its initial public offering in February 2011. We focus on owning primarily premium-branded, select-service hotels. At December 31, 2018, our portfolio consisted of 77 hotels with a total of 11,659 guestrooms located in 26 states. We own our hotels in fee simple, except for six hotels, five of which are subject to ground leases and one of which is subject to a PILOT (payment in lieu of taxes) lease.

As of December 31, 2018, 90.8% of our guestrooms were located in the top 50 metropolitan statistical areas (“MSAs”), 95.6% were located within the top 100 MSAs and 99.5% of our hotel guestrooms operated under premium franchise brands owned by Marriott® International, Inc. (“Marriott”), Hilton® Worldwide (“Hilton”), Hyatt® Hotels Corporation (“Hyatt”) and InterContinental® Hotels Group (“IHG”). Our hotels are typically located in markets with multiple demand generators such as corporate offices and headquarters, retail centers, airports, state capitols, convention centers, universities, and leisure attractions.

Substantially all of our assets are held by, and all of our operations are conducted through, our operating partnership, Summit Hotel OP, LP (the “Operating Partnership”). Through a wholly-owned subsidiary, we are the sole general partner of the Operating Partnership. At December 31, 2018, we owned, directly and indirectly, approximately 99.7% of the Operating Partnership’s issued and outstanding common units of limited partnership interest (“Common Units”), and all of the Operating Partnership’s issued and outstanding Series D and Series E preferred units of limited partnership interest (“Preferred Units”). Pursuant to the Operating Partnership’s partnership agreement, we have full, exclusive and complete responsibility and discretion in the management and control of the Operating Partnership, including the ability to cause the Operating Partnership to enter into certain major transactions including acquisitions, dispositions and refinancings, to make distributions to partners and to cause changes in the Operating Partnership’s business activities.

We have elected to be taxed as a REIT for federal income tax purposes commencing with our short taxable year ended December 31, 2011. To qualify as a REIT, we cannot operate or manage our hotels. Accordingly, all of our hotels are leased to wholly-owned subsidiaries (our “TRS lessees”) of Summit Hotel TRS, Inc., our taxable REIT subsidiary. All of our hotels are operated pursuant to hotel management agreements between our TRS lessees and professional third-party hotel management companies that are not affiliated with us. We have one reportable segment as defined by generally accepted accounting principles (“GAAP”). See Item 8. – “Financial Statements and Supplementary Data – Note 2 – Basis of Presentation and Significant Accounting Policies” to our Consolidated Financial Statements.

Our corporate offices are located at 13215 Bee Cave Parkway, Suite B-300, Austin, TX 78738. Our telephone number is (512) 538-2300. Our website is www.shpreit.com. The information contained on, or accessible through, our website is not incorporated by reference into this report and should not be considered a part of this report.

Business Strategy

Our strategy includes focused asset management, targeted capital investment and strategic transactions, including increasing the value of the Company through transformation of our portfolio, or capital recycling, by selling assets with lower operating margins, RevPAR growth opportunities, or risk-adjusted return profiles and purchasing assets with higher operating margins, RevPAR growth opportunities, or risk-adjusted return profiles. Our primary objective is to enhance stockholder value over time by generating strong, risk-adjusted returns in excess of our weighted average cost of capital. The key elements of our strategy that we believe will allow us to create long-term value include the following:

Focus on Premium-Branded Hotels. We primarily focus on hotels in the Upscale segment of the lodging industry, as defined by Smith Travel Research ("STR"). We believe that our focus on this segment provides us the opportunity to achieve strong, risk-adjusted returns across multiple lodging cycles for several reasons, including:

RevPAR Growth. We believe that our hotels will continue to experience long-term demand growth based on the characteristics of our portfolio and current industry fundamentals and trends in the Upscale segment. We expect RevPAR growth to vary by market and increase across the portfolio for 2019.

Stable Cash Flow Potential. Our hotels can generally be operated with fewer employees than full-service hotels that offer more amenities including more extensive food and beverage options, which we believe enables us to generate higher operating margins and cash flows with less volatility.

Broad Customer Base. Our target brands deliver consistently high-quality hotel accommodations with value-oriented pricing that we believe appeals to a wide range of customers, including both business and leisure travelers. We believe that our hotels are particularly popular with frequent business travelers who seek to stay in hotels operating under Marriott, Hilton, Hyatt, or IHG brands, which offer strong loyalty rewards programs.

Enhanced Diversification. Premium-branded Upscale hotels generally require less capital to acquire, build, or maintain on an absolute and a per-key basis, than hotels in the Upper-upscale and Luxury segments of the industry. As a result, we can diversify our investment capital into ownership of a larger number of hotels than we could in more expensive segments.

Capitalize on Investments in Our Hotels. We strongly believe in investing in our properties to enable them to be performance leaders in their respective markets. Over the past three years, we have invested \$146.2 million in capital improvements to our hotels. We believe these investments produce attractive returns, and we intend to continue to use available capital to upgrade our hotels with strategic renovations and brand-required hotel property improvement plans.

External Growth Through Acquisitions. We intend to continue to grow through acquisitions of existing hotels using a disciplined approach, while maintaining a prudent capital structure. We generally target premium-branded hotels that meet one or more of the following acquisition criteria:

- potential for strong risk-adjusted returns and are located in the top 50 MSAs and other select markets;
- can operate under leading franchise brands, which may include but are not limited to brands owned by Marriott, Hilton, Hyatt, and IHG;
- located in close proximity to multiple demand generators, such as corporate offices and headquarters, retail centers, airports, state capitols, convention centers, universities, and leisure attractions, with a diverse source of potential guests, including corporate, government and leisure travelers;
- located in markets with barriers to entry due to strong franchise areas of protection or other factors;
- can be acquired at a discount to replacement cost; and
- provide an opportunity to add value through operating efficiencies, repositioning, renovating or rebranding.

Strategic Hotel Sales (Capital Recycling Program). We strive to maximize our return on invested capital and we periodically review our hotels to determine if any significant changes to area markets or our hotels have occurred or are anticipated to occur that would warrant the sale of a hotel or hotels. We intend to continue to pursue a disciplined capital allocation strategy designed to maximize the value of our investments by selectively selling hotel properties that we believe are no longer consistent with our investment strategy or whose returns on invested capital appear to have been maximized. To the extent that we sell hotel properties, we intend to redeploy the capital into acquisition and capital investment opportunities that we believe have the potential to generate better risk-adjusted returns. We expect to generate these improvements with our proactive asset management approach and by investing in our hotels to enhance their quality and attractiveness, increase their long-term value and generate more favorable returns on our invested capital. Alternatively, we may redeploy our capital into the purchase of assets with a higher potential long-term return.

Selectively Develop Hotels. We endeavor to identify attractive opportunities to selectively partner with experienced hotel developers to acquire, upon completion, newly constructed hotels that meet our acquisition criteria. We will consider unique opportunities to develop hotels utilizing our own resources if and when circumstances warrant.

Selective Mezzanine Lending. We seek to identify select opportunities to provide mezzanine lending to developers, where we also have the opportunity to acquire the hotel at or after the completion of the development project.

Our Financing Strategy

We rely on cash provided by operations, working capital, borrowings under our \$600 million senior unsecured credit and term loan facility, term debt, repayment of notes receivable, proceeds from the issuance of securities, the strategic sale of hotels and the release of restricted cash upon satisfaction of the usage requirements to finance our business. While the ratio will vary from time to time, we generally intend to limit our ratio of net debt to EBITDA, which amount may be adjusted for non-cash and non-recurring items, to no more than 6.5x. At December 31, 2018, our ratio of net debt to EBITDA was 4.1x. For purposes of calculating this ratio, we exclude preferred stock from indebtedness. During 2018, we financed our long-term growth with borrowings under our senior unsecured credit and term loan facility and term loans and proceeds from the strategic sale of hotels and intend to continue to do so in the future. Our debt includes, and may include in the future, mortgage debt secured by hotels and unsecured debt. As of December 31, 2018, we had \$965.0 million in outstanding indebtedness.

When purchasing hotel properties, the Operating Partnership may issue Common Units or Preferred Units as full or partial consideration to sellers who may be interested in taking advantage of the opportunity to defer taxable gains on the sale of a property or participate in the potential appreciation in the value of our common stock.

Competition

We face competition for investments in hotel properties from institutional pension funds, private equity investors, REITs, hotel companies and others who are engaged in hotel acquisitions and investments. Some of these entities have substantially greater financial and operational resources than we have. This competition may increase the bargaining power of property owners seeking to sell, reduce the number of suitable investment opportunities available to us and increase the cost of acquiring targeted hotel properties.

The lodging industry is highly competitive. Our hotels compete with other hotels and alternative accommodations for guests in their respective markets based on a number of factors, including location, convenience, brand affiliation, quality of the physical condition of the hotel, guestroom rates, range of services and guest amenities or accommodations offered and quality of customer service. Competition is often specific to the individual markets in which our hotels are located and includes competition from existing and new hotels. Competition could adversely affect our occupancy rates, our ADR and our RevPAR, and may require us to provide additional amenities or make capital improvements that we otherwise would not have to make, which may reduce our profitability.

Seasonality

Certain segments of the hotel industry are seasonal in nature. Leisure travelers tend to travel more during the summer. Business travelers occupy hotels relatively consistently throughout the year, but decreases in business travel occur during summer and the winter holidays. The hotel industry is also seasonal based upon geography. Hotels in the southern U.S. tend to have higher occupancy rates during the winter months. Hotels in the northern U.S. tend to have higher occupancy rates during the summer months.

Regulation

Our properties are subject to various covenants, laws, ordinances and regulations, including regulations relating to accessibility, fire and safety requirements. We believe each of our hotels has the necessary permits and approvals to operate its business.

Americans with Disabilities Act of 1990 (“ADA”)

Our properties must comply with Title III of the ADA to the extent that they are “public accommodations” as defined by the ADA. Under the ADA, all public accommodations must meet federal requirements related to access and use by disabled persons. The ADA may require removal of structural barriers to access by persons with disabilities in certain public areas of our properties where removal is readily achievable. Although we believe the properties in our portfolio substantially comply with present requirements of the ADA, a determination to the contrary could require removal of access barriers and non-compliance could result in litigation costs, costs to remediate deficiencies, U.S. government fines or in damages to private litigants. The obligation to make readily achievable accommodations is an ongoing one, and we will continue to assess our properties and to make alterations as appropriate in this respect.

Environmental, Health and Safety Matters

Our hotels and undeveloped land parcels are subject to various federal, state and local environmental laws that impose liability for contamination. Under these laws, governmental entities have the authority to require us, as the current owner of the property, to perform or pay for the cleanup of contamination (including hazardous substances, waste, or petroleum products) at, on, under or emanating from the property and to pay for natural resource damages arising from contamination. These laws often impose liability without regard to whether the owner or operator or other responsible party knew of, or caused the contamination, and the liability may be joint and several. Because these laws also impose liability on persons who owned a property at the time it became contaminated, we could incur cleanup costs or other environmental liabilities even after we sell properties. Contamination at, on, under or emanating from our properties also may expose us to liability to private parties for costs of remediation, personal injury and death or property damage. In addition, environmental liens may be created on contaminated sites in favor of the government for damages and costs it incurs to address contamination. If contamination is discovered on our properties, environmental laws also may impose restrictions on the manner in which our property may be used or our businesses may be operated, and these restrictions may require substantial expenditures. Moreover, environmental contamination can affect the value of a property and therefore, an owner’s ability to borrow funds using the property as collateral or to sell the property on favorable terms or at all. Furthermore, persons who sent waste to a waste disposal facility, such as a landfill or an incinerator, may be liable for costs associated with cleanup of that facility.

Some of our properties may have contained historical uses which involved the use or storage of hazardous chemicals and petroleum products (for example, storage tanks, gas stations and dry cleaning operations) which if released, could have affected our properties. In addition, some of our properties may be near or adjacent to other properties that have contained or currently contain storage tanks containing petroleum products or conducted or currently conduct operations which use other hazardous or toxic substances. Releases from these adjacent or surrounding properties could affect our properties and we may be liable for any associated cleanup.

Independent environmental consultants conducted Phase I environmental site assessments on all of our properties prior to acquisition and we intend to conduct Phase I environmental site assessments on properties we acquire in the future. Phase I site assessments are intended to discover and evaluate information regarding the environmental condition of the surveyed properties and surrounding properties. These assessments do not generally include soil sampling, subsurface investigations or comprehensive asbestos surveys. In some cases, the Phase I environmental site assessments were conducted by another entity such as a lender, and we may not have the authority to rely on such reports. A few of our properties have experienced environmental contamination prior to our ownership, but all contamination has been remediated to the satisfaction of state regulatory agencies. None of the Phase I environmental site assessments of the hotel properties in our portfolio revealed any past or present environmental condition that we believe could have a material adverse effect on our business, financial position or results of operations. In addition, the Phase I environmental site assessments may also have failed to reveal all environmental conditions, liabilities or compliance concerns. The Phase I environmental site assessments were completed at various times and material

environmental conditions, liabilities or compliance concerns may have arisen after the review was completed or may arise in the future; and future laws, ordinances or regulations may impose material additional environmental liability.

In addition, our hotels (including our real property, operations and equipment) are subject to various federal, state and local environmental, health and safety regulatory requirements that address a wide variety of issues, including, but not limited to the existence of mold and other airborne contaminants above regulatory thresholds, the registration, maintenance and operation of our boilers and storage tanks, the supply of potable water to our guests, air emissions from emergency generators, storm water and wastewater discharges, protection of natural resources, asbestos, lead-based paint, and waste management. Some of our hotels also routinely handle and use hazardous or regulated substances and wastes as part of their operations (for example, swimming pool chemicals or biological waste). Our hotels incur costs to comply with these environmental, health and safety laws and regulations and if these regulatory requirements are not met or unforeseen events result in the discharge of dangerous or toxic substances at our hotels, we could be subject to fines and penalties for non-compliance with applicable laws

and material liability from third parties for harm to the environment, damage to real property or personal injury or death. We are aware of no past or present environmental liability for non-compliance with environmental, health and safety laws and regulations that we believe would have a material adverse effect on our business, financial position or results of operations.

Tax Status

REIT Election

We have elected to be taxed as a REIT for federal income tax purposes. Our qualification as a REIT depends upon our ability to meet, on a continuing basis, through actual investment and operating results, various complex requirements under the IRC relating to, among other things, the sources of our gross income, the composition and values of our assets, the timing and amount of our dividend distributions and the diversity of ownership of our stock. We believe that we have been organized and have operated in conformity with the requirements for qualification as a REIT under the IRC and that our current and intended manner of operation will enable us to continue to meet the requirements for qualification and taxation as a REIT for federal income tax purposes.

In order for the income from our hotel operations to constitute “rents from real property” for purposes of the gross income tests required for REIT qualification, we cannot directly operate any of our hotel properties. Accordingly, all of our hotels are leased to our TRS lessees, which are wholly-owned subsidiaries of Summit Hotel TRS, Inc. (our “TRS”). Our TRS is a “taxable REIT subsidiary,” which is a corporate subsidiary of a REIT that jointly elects with the REIT to be treated as a TRS and pays federal income tax at regular corporate rates on its taxable income. We will lease newly acquired hotels to our existing TRS or additional TRSs in the future. Our TRS lessees pay rent to us that will qualify as “rents from real property,” provided that the TRS lessees engage “eligible independent contractors” to manage our hotels. All of our hotels are operated pursuant to hotel management agreements with professional third-party hotel management companies. We believe each of the third-party managers qualifies as an “eligible independent contractor” under the IRC.

As a REIT, we generally will not be subject to federal income tax on our REIT taxable income that we distribute as dividends to our stockholders. Under the IRC, REITs are subject to numerous organizational and operational requirements, including a requirement that they distribute each year at least 90% of their taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gains, which does not necessarily equal net income as calculated in accordance with GAAP. If we fail to qualify for taxation as a REIT in any taxable year and do not qualify for certain statutory relief provisions, our income for that year will be taxed at regular corporate rates, and we will be unable to re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT, unless we satisfy certain relief provisions. Even if we qualify as a REIT for federal income tax purposes, we may still be subject to state and local taxes on our income and assets and to federal income and excise taxes on our undistributed income. Additionally, any income earned by our TRS will be fully subject to federal, state and local corporate income tax.

Tax Legislation

On December 22, 2017, H.R. 1, originally known as the Tax Cuts and Jobs Act (the “TCJA”), was enacted. The TCJA made many significant changes to the U.S. federal income tax laws applicable to businesses and their owners, including REITs and their stockholders. Pursuant to this legislation, as of January 1, 2018, (1) the federal income tax rate applicable to corporations was reduced to 21%, (2) the highest marginal individual income tax rate was reduced to 37% (through taxable years ending in 2025), (3) the corporate alternative minimum tax was repealed, and (4) the backup withholding rate for U.S. stockholders was reduced to 24%. In addition, individuals, estates and trusts may deduct up to 20% of certain pass-through income, including ordinary REIT dividends that are not “capital gain

dividends” or “qualified dividend income,” subject to certain limitations. For taxpayers qualifying for the full deduction, the effective maximum tax rate on ordinary REIT dividends would be 29.6% (through taxable years ending in 2025). The maximum rate of withholding with respect to our distributions to non-U.S. stockholders that are treated as attributable to gains from the sale or exchange of U.S. real property interests is also reduced from 35% to 21%. The deduction of net interest expense is limited for all businesses; provided that certain businesses, including real estate businesses, may elect not to be subject to such limitations and instead to depreciate their real property related assets over longer depreciable lives. The reduced corporate tax rate will apply to our TRS and any other TRS that we form.

The reduced 21% federal income tax rate applicable to corporations applies to taxable earnings reported for the full 2018 fiscal year. Accordingly, we remeasured our net deferred tax assets as a result of the TCJA at December 31, 2017 using the lower federal tax rate that will apply when the deferred tax assets are expected to be realized. At September 30, 2018, we completed our accounting for all the enactment-date income tax effects of the act under ASC 740, Income Taxes. No additional adjustments were necessary for the year ended December 31, 2018.

Employees

As of February 18, 2019, we employ 57 full-time employees. The staff at our hotels are employed by our professional third-party hotel managers.

Available Information

Our Internet website is located at www.shpreit.com. Copies of the charters of the committees of our board of directors, our code of business conduct and ethics and our corporate governance guidelines are available on our website. We will provide timely disclosures of amendments and waivers to the aforementioned documents, if any, via website posting. All reports that we have filed with the Securities and Exchange Commission (“SEC”) including this Annual Report on Form 10-K, our quarterly reports on Form 10-Q and our current reports on Form 8-K, can be obtained free of charge from the SEC’s website at www.sec.gov or through our website. The information contained on, or accessible through the SEC’s website or our website is not incorporated by reference into this report and should not be considered a part of this report.

Item 1A. Risk Factors.

The following risk factors address the material risks concerning our business. If any of the risks discussed in this report were to occur, our business, prospects, financial condition, results of operation and our ability to service our debt and make distributions to our stockholders could be materially and adversely affected and the market price per share of our stock could decline significantly. Some statements in this report, including statements in the following risk factors, constitute forward-looking statements. Please refer to the section entitled “Cautionary Statement About Forward-Looking Statements.” The discussion of the potential effect of the following risk factors on our financial results relates to our consolidated financial position, consolidated results of operations and cash flows.

Risks Related to Our Business

Our business strategy, future results of operations and growth prospects are dependent on achieving revenue and net income growth from anticipated increases in demand for hotel guestrooms and general economic conditions.

Our business strategy includes achieving continued revenue and cash flow growth from anticipated improvement in demand for hotel guestrooms driven by long-term economic growth. We, however, cannot provide any assurances that demand for hotel guestrooms will increase from current levels or continue to exceed the growth of new supply, or the time or extent of any demand growth that we do experience. If demand does not continue to increase as the economy grows, or if there is a setback in the general economy resulting in weakening demand, our operating results and growth prospects could be adversely affected. As a result, any slowdown in economic growth or a new economic downturn could adversely affect our future results of operations and our growth prospects.

Our expenses may not decrease if our revenue decreases.

Many of the expenses associated with owning and operating hotels, such as debt service payments, property taxes, insurance, utilities, and certain employee compensation costs are relatively fixed. They do not necessarily decrease directly with a reduction in revenue at the hotels and may be subject to increases that are not related to the performance of our hotels or the increase in the rate of inflation. Also, as of December 31, 2018, five of our hotels are subject to third-party ground leases, and one hotel is subject to a payment-in-lieu-of-taxes lease, which generally

require periodic increases in rent payments. Our ability to pay these rents could be adversely affected if our hotel revenues do not increase at the same or a greater rate than the increases in rental payments under the ground leases.

Additionally, certain costs, such as wages, benefits and insurance, may exceed the rate of inflation in any given period. In the event of a significant decrease in demand, our hotel managers may not be able to reduce the size of hotel work forces in order to decrease compensation costs. Our managers also may be unable to offset any fixed or increased expenses with higher room rates. Any of our efforts to reduce operating costs also could adversely affect the future growth of our business and the value of our hotel properties.

We may be unable to complete acquisitions that would grow our business.

Our growth strategy includes the disciplined acquisition of hotels as opportunities arise. Our ability to acquire hotels on satisfactory terms or at all is subject to the following significant risks:

- we may be unable to acquire, or may be forced to acquire at significantly higher prices, desired hotels because of competition from other real estate investors, including other real estate operating companies, REITs and investment funds;
- we may be unable to obtain the necessary debt or equity financing to consummate an acquisition or, if obtainable, financing may not be on satisfactory terms; and
- agreements for the acquisition of hotels are typically subject to customary conditions to closing, including satisfactory completion of due diligence investigations and the receipt of franchisor and lender consents, and we may spend significant time and incur significant transaction costs on potential acquisitions that we do not consummate.

Our inability to complete hotel acquisitions on favorable terms or at all, could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

The sale of certain hotel properties could result in significant tax liabilities unless we are able to defer the taxable gain through like-kind exchanges under Section 1031 of the IRC ("1031 Exchanges").

From time to time, we structure asset sales for possible inclusion in like-kind exchanges within the meaning of Section 1031 of the IRC. The ability to complete a like-kind exchange depends on many factors, including, among others, identifying and acquiring suitable replacement property within limited time periods, and the ownership structure of the properties being sold and acquired. Therefore, we are not always able to sell an asset as part of a like-kind exchange. When successful, a like-kind exchange enables us to defer the taxable gain on the asset sold. Our inability to defer the taxable gain resulting from the sales of certain hotel properties, could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We may fail to successfully integrate acquired hotels or achieve expected operating performance.

Our ability to successfully integrate newly acquired hotels or achieve expected operating performance is subject to the following risks:

- we may not possess the same level of familiarity with the dynamics and market conditions of any new markets that we may enter, which could result in us paying too much for hotels in new markets or not have the hotels achieve their maximum potential;
- market conditions may result in lower than expected occupancy and guestroom rates;
- we may acquire hotels without any recourse, or with only limited recourse, for liabilities, whether known or unknown, such as cleanup of environmental contamination, claims by tenants, vendors or other persons against the former owners of the hotels and claims for indemnification by general partners, directors, officers and others indemnified by the former owners of the hotels;
- we may need to spend more than anticipated amounts to make necessary improvements or renovations to our newly acquired hotels; and
- we may be unable to quickly and efficiently integrate new acquisitions, particularly acquisitions of portfolios of hotels, into our existing operations.

The inability of our acquired hotels to meet our operating performance expectations could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We may assume liabilities in connection with the acquisition of hotel properties, including unknown liabilities.

We may assume existing liabilities in connection with the acquisition of hotel properties, some of which may be unknown or unquantifiable on the acquisition date. Unknown liabilities might include liabilities for cleanup or remediation of undisclosed environmental conditions, claims of hotel guests, vendors or other persons dealing with the seller of a particular hotel property, tax liabilities, employment-related issues and accrued but unpaid liabilities whether incurred in the ordinary course of business or otherwise. If the magnitude of such unknown liabilities is high, they could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We may not be able to cause our hotel management companies to operate any of our hotels in a manner that is satisfactory to us, and termination of our hotel management agreements may be costly and disruptive.

To qualify as a REIT, we cannot operate or manage our hotels. Accordingly, all of our hotels are leased to TRS lessees of our TRS. All of our hotels are operated pursuant to hotel management agreements with independent hotel management companies, each of which must qualify as an “eligible independent contractor” to operate our hotels. As a result, our financial position, results of operations and our ability to service debt and make distributions to stockholders are dependent on the ability of our hotel management companies to operate our hotels successfully. Any failure of our hotel management companies to provide quality services and amenities or maintain a quality brand name and reputation could have a negative effect on their ability to operate our hotels and could have a material adverse effect on our financial position, results of operations and cash flows.

Even if we believe a hotel is being operated inefficiently or in a manner that does not result in satisfactory operating results, we will have limited ability to require the hotel management company to change its method of operation. We generally attempt to resolve issues with our hotel management companies through discussions and negotiations, but otherwise will only be able to seek redress if a hotel management company violates the terms of the applicable hotel management agreement, and then only to the extent of the remedies provided for under the terms of the hotel management agreement. If we replace the hotel management company of any of our hotels, we may be required to pay a substantial termination fee and we may experience significant disruptions at the affected hotel.

Furthermore, we have certain indemnifications from our property managers that generally protect us from financial losses due to the gross negligence or willful misconduct of our property managers. However, the indemnifications may be insufficient or the property manager may not have the financial wherewithal to support their indemnification obligation to us. As such, the indemnification may not provide us with sufficient protection against third-party claims resulting from the gross negligence or willful misconduct of our property managers in the operation of our hotels.

Our hotel managers or their affiliates manage, and in some cases own, have invested in, or provided credit support or operating guarantees to hotels that compete with our hotels, all of which may result in conflicts of interest. As a result, our hotel managers may in the future make decisions regarding competing lodging facilities that are not or would not be in our best interest.

Certain of our hotels are managed by affiliates of the franchisors for such hotels. In these situations, the management agreement and the franchise agreement are typically combined into one document. Thus, the termination of the management agreement due to poor performance or breach of the management agreement by the management company could also terminate our franchise license. Thus, we may have very limited options to remedy poor hotel management performance if we desire to retain the franchise license.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

The management of a large number of hotels in our portfolio is currently concentrated with one hotel management company.

As of December 31, 2018, Interstate Management Company, LLC (“Interstate”) or its affiliate managed 33 of our 77 hotels. Thus, a substantial portion of our revenues is generated by hotels managed by Interstate. This significant concentration of operational risk in one hotel management company makes us more vulnerable economically than if our hotel management was more evenly diversified among several hotel management companies. Any adverse developments in Interstate’s business, financial strength or ability to operate our hotels efficiently and effectively could

have a material adverse effect on our results of operations. We cannot provide assurance that Interstate will satisfy its obligations to us or effectively and efficiently operate our hotel properties. The failure or inability of Interstate to satisfy its obligations to us or effectively and efficiently operate our hotel properties could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Restrictive covenants and other provisions in hotel management and franchise agreements could preclude us from taking actions with respect to the sale, refinancing or rebranding of a hotel that would otherwise be in our best interest.

Our hotel management agreements and franchise agreements generally contain restrictive covenants and other provisions that do not provide us with flexibility to sell, refinance or rebrand a hotel without the consent of the manager or franchisor. For example, the terms of some of these agreements may restrict our ability to sell a hotel unless the purchaser is not a competitor of the hotel management company or franchisor, assumes the related agreement and meets specified other conditions. In addition, our franchise agreements restrict our ability to rebrand particular hotels without the consent of the franchisor, which could result in significant operational disruptions and litigation if we do not obtain the consent. We could be forced to pay consent or termination fees to hotel managers or franchisors under these agreements as a condition to changing management or franchise brands of our hotels, and these fees could deter us from taking actions that would otherwise be in our best interest or could cause us to incur substantial expense.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We are required to expend funds to maintain franchisor operating standards and we may experience a loss of a franchise license or a decline in the value of a franchise brand.

Our hotels operate under franchise agreements, and the maintenance of franchise licenses for our hotels is subject to our franchisors' operating standards and other terms and conditions. We expect that franchisors will periodically inspect our hotels to ensure that we, our TRS and our hotel management companies maintain our franchisors' standards. Failure by us, our TRS or our hotel management companies to maintain these standards or other terms and conditions could result in a franchise license being canceled. If a franchise license terminates due to our failure to make required improvements or to otherwise comply with its terms, we could also be liable to the franchisor for a termination payment, which varies by franchisor and by hotel. As a condition of our continued holding of a franchise license, a franchisor could also require us to make capital improvements to our hotels, even if we do not believe the improvements are necessary or desirable or would result in an acceptable return on our investment.

The loss of a franchise license could materially and adversely affect the operations or the underlying value of the hotel because of the loss of associated name recognition, marketing support and centralized reservation systems provided by the franchisor. Because our hotels are concentrated with a limited number of franchise brands, a loss of all of the licenses for a particular franchise could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Negative publicity related to one of the franchise brands or the general decline of a brand also may adversely affect the underlying value of our hotels or result in a reduction in business.

We rely on external sources of capital to fund future capital needs, and if we encounter difficulty in obtaining such capital, we may not be able to make future acquisitions necessary to grow our business or meet maturing obligations.

To qualify as a REIT under the IRC, we are required, among other things, to distribute each year to our stockholders at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain. Because of this distribution requirement, we may not be able to fund, from cash retained from operations, all of our future capital needs, including capital needed to make investments and to satisfy or refinance maturing obligations.

We expect to continue to rely on external sources of capital, including debt and equity financing, to fund future capital needs. Part of our strategy involves the use of additional debt financing to supplement our equity capital which may include our unsecured credit and term loan facilities, mortgage financing and other unsecured financing. Our ability to effectively implement and accomplish our business strategy will be affected by our ability to obtain and use additional leverage in sufficient amounts and on favorable terms. However, the capital environment is often characterized by extended periods of limited availability of both debt and equity financing, increasing financing costs, stringent credit terms and significant volatility. We may not be able to secure first mortgage financing or increase the availability under, extend the maturity of or refinance our unsecured credit and term loan facility. If we are unable to obtain needed capital on satisfactory terms or at all, we may not be able to make the investments needed to expand our business, or to meet our obligations and commitments as they mature. Our access to capital will depend upon a number of factors over which we have little or no control, including general market conditions, the market's perception of our current and potential future earnings and cash distributions and the

market price of the shares of our common stock. We may not be in a position to take advantage of attractive investment opportunities for growth if we are unable to access the capital markets on a timely basis or on favorable terms.

We have a significant amount of debt, and our organizational documents have no limitation on the amount of additional indebtedness that we may incur in the future.

We have a significant amount of debt. In the future, we may incur additional indebtedness to finance future hotel acquisitions, capital improvements and development activities and other corporate purposes. In addition, there are no restrictions in our charter or bylaws that limit the amount or percentage of indebtedness that we may incur or restrict the form in which our indebtedness will be incurred (including recourse or non-recourse debt or cross-collateralized debt).

A substantial level of indebtedness could have adverse consequences for our business, results of operations and financial position because it could, among other things:

- require us to dedicate a substantial portion of our cash flow from operations to make principal and interest payments on our indebtedness, thereby reducing our cash flow available to fund working capital, capital expenditures and other general corporate purposes, including to pay dividends on our common stock and our preferred stock as currently contemplated or necessary to satisfy the requirements for qualification as a REIT;
- increase our vulnerability to general adverse economic and industry conditions and limit our flexibility in planning for, or reacting to, changes in our business and our industry;
- limit our ability to borrow additional funds or refinance indebtedness on favorable terms or at all to expand our business or ease liquidity constraints; and
- place us at a competitive disadvantage relative to competitors that have less indebtedness.

Generally, our mortgage debt carries maturity dates or call dates such that the loans become due prior to their full amortization. It may be difficult to refinance or extend the maturity of such loans on terms acceptable to us, or at all, and we may not have sufficient borrowing capacity on our unsecured credit and term loan facility to repay any amounts that we are unable to refinance. Although we believe that we will be able to refinance or extend the maturity of these loans, or will have the capacity to repay them, if necessary, using draws under our unsecured credit and term loan facility, there can be no assurance that our unsecured credit and term loan facility will be available to repay such maturing debt, as draws under our unsecured credit and term loan facility are subject to limitations based upon our unencumbered assets and certain financial covenants.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

The agreements governing our indebtedness place restrictions on us and our subsidiaries, reducing operational flexibility and creating default risks.

The agreements governing our indebtedness contain covenants that place restrictions on us and our subsidiaries. These covenants may restrict, among other activities, our and our subsidiaries' ability to:

- merge, consolidate or transfer all or substantially all of our or our subsidiaries' assets;
- sell, transfer, pledge or encumber our stock or the ownership interests of our subsidiaries;
- incur additional debt or place mortgages on our unencumbered hotels;
- enter into, terminate or modify leases for our hotels and hotel management and franchise agreements;
- make certain expenditures, including capital expenditures;

- pay dividends on or repurchase our capital stock; and
- enter into certain transactions with affiliates.

These covenants could impair our ability to grow our business, take advantage of attractive business opportunities or successfully compete. Our ability to comply with financial and other covenants may be affected by events beyond our control, including prevailing economic, financial and industry conditions. A breach of any of these covenants or covenants under any other agreements governing our indebtedness could result in an event of default. Cross-default provisions in our debt agreements could cause an event of default under one debt agreement to trigger an event of default under our other debt agreements. Upon the occurrence of an event of default under any of our debt agreements, the lenders could exercise their remedies available under the terms of the loan agreements, which could include accelerating outstanding debt to be immediately due and payable. If we were unable to repay or refinance the accelerated debt, the lenders could proceed against

any assets pledged to secure that debt, including foreclosing on or requiring the sale of our hotels, and the proceeds from the sale of these hotels may not be sufficient to repay such debt in full.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Mortgage debt obligations expose us to the possibility of foreclosure, which could result in the loss of our investment in any hotel subject to mortgage debt.

Except for the borrowings under our unsecured credit and term loan facilities, all of our other long-term debt existing as of December 31, 2018 is secured by mortgages on our hotel properties and related assets. Incurring mortgages and other secured debt obligations increases our risk of property losses because defaults on secured indebtedness may result in foreclosure actions initiated by lenders and ultimately our loss of the hotels securing such loans. If we are in default under a cross-defaulted mortgage loan, we could lose multiple hotels to foreclosure. For tax purposes, a foreclosure of any of our hotels would be treated as a sale of the hotel for a purchase price equal to the outstanding balance of the debt secured by the mortgage. If the outstanding balance of the debt secured by the mortgage exceeds our tax basis in the hotel, we would recognize taxable income on foreclosure, but would not receive any cash proceeds, which could hinder our ability to meet the REIT distribution requirements imposed by the IRC. We may assume or incur new mortgage indebtedness on the hotels in our portfolio or hotels that we acquire in the future. Any default under any one of our mortgage debt obligations may increase the risk of our default on our other indebtedness.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

An increase in interest rates would increase our interest costs on our variable rate debt and could have broader effects on the cost of capital for real estate companies and real estate asset values.

With respect to our existing and future variable-rate debt, an increase in interest rates would increase our interest payments and reduce our cash flow available for other corporate purposes, including capital improvements to our hotels, acquisitions of additional hotels, or dividends, among other things. In addition, rising interest rates could limit our ability to refinance existing debt when it matures and increase interest costs on any debt that is refinanced. Further, an increase in interest rates could increase the cost of capital for real estate assets which, in turn, could have a negative effect on real estate asset values generally, and our hotel properties specifically.

See “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Qualitative and Quantitative Effects of Market Risk.”

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We hedge our interest rate exposure to manage our exposure to interest rate volatility.

We have entered into four interest rate swaps having an aggregate notional amount of \$400.0 million at December 31, 2018, to hedge against interest rate increases on certain of our outstanding variable-rate indebtedness. In the future, we may manage our exposure to interest rate volatility by using hedging arrangements, such as interest rate swaps and interest rate caps. Hedging arrangements involve the risk that the arrangement may fail to protect or adversely affect us because, among other things:

- interest rate hedging can be expensive, particularly during periods of volatile interest rates;

- available interest rate hedges may not correspond directly with the interest rate risk for which protection is sought;
- the duration of the hedge may not match the duration of the related liability;
- the credit quality of the hedging counterparty owing money on the hedge may be downgraded to such an extent that it impairs our ability to sell or assign our side of the hedging transaction; and
- the hedging counterparty owing money in the hedging transaction may default on its obligation to pay.

As a result of any of the foregoing, our hedging transactions, which are intended to limit losses and exposure to interest rate volatility, could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Our success depends on key personnel whose continued service is not guaranteed.

We depend on the efforts and expertise of our management team to manage our day-to-day operations and strategic business activities. The loss of services from any of the members of our management team, and our inability to find suitable replacements on a timely basis could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

System security risks, data protection breaches, cyber-attacks and systems integration issues could disrupt our internal operations or services provided to guests at our hotels, and any such disruption could reduce our expected revenue, increase our expenses, damage our reputation and adversely affect our stock price.

We and our third-party managers and franchisors rely on information technology networks and systems, including the Internet, to process, transmit and store electronic and customer information. These systems require the collection and retention of large volumes of hotel guests' personally identifiable information, including credit card numbers. We purchase some of our information technology from vendors, on whom our systems depend. We rely on commercially available systems, software, tools and monitoring to provide security for processing, transmission and storage of confidential customer information, such as personally identifiable information, including information relating to financial accounts. Although we have taken steps to protect the security of our information systems and the data maintained in those systems, it is possible that our safety and security measures will not be able to prevent the systems' improper functioning or damage, or the improper access or disclosure of personally identifiable information such as in the event of cyber-attacks. Cyber criminals may be able to penetrate our network security or the network security of our third-party managers and franchisors, and misappropriate or compromise our confidential information or that of our hotel guests, create system disruptions or cause the shutdown of our hotels. Computer programmers and hackers also may be able to develop and deploy viruses, worms and other malicious software programs that attack our computer systems or the computer systems operated by our third-party managers and franchisors, or otherwise exploit any security vulnerabilities of our respective networks. In addition, sophisticated hardware and operating system software and applications that we and our third-party managers or franchisors may procure from outside companies may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with our internal operations or the operations at our hotels. The costs to eliminate or alleviate cyber or other security problems, bugs, viruses, worms, malicious software programs and security vulnerabilities could be significant, and efforts to address these problems may not be successful and could result in interruptions, delays, cessation of service and loss of existing or potential business at our hotels. Any compromise of our third-party managers and franchisor information networks' function, security and availability could result in disruptions to operations, delayed sales or bookings, lost guest reservations, increased costs and lower margins. Any of these events could adversely affect our financial results, stock price and reputation, result in misstated financial reports and subject us to potential litigation and liability.

Portions of our information technology infrastructure or the information technology infrastructure of our third-party managers and franchisors also may experience interruptions, delays or cessations of service or produce errors in connection with systems integration or migration work that takes place from time to time. We or our third-party managers and franchisors may not be successful in implementing new systems and transitioning data, which could cause business disruptions and be expensive, time consuming, disruptive and resource-intensive. Such disruptions could adversely impact the ability of our third-party managers and franchisors to fulfill reservations for guestrooms and other services offered at our hotels.

Although we have taken steps to protect the security of our information systems, and the data maintained in these systems, there can be no assurance that the security measures we have taken will prevent failures, inadequacies or interruptions in system services, or that system security will not be breached through physical or electronic break-ins,

computer viruses or attacks by hackers. The increased level of sophistication and volume of attacks in recent years make it more difficult to predict the effect of a future breach. In addition, we rely on the security systems of our third-party managers and franchisors to protect proprietary and customer information from these threats.

Many of our managers carry cyber insurance policies to protect and offset a portion of potential costs that may be incurred from a security breach. Additionally, we currently have cyber insurance policies to provide supplemental coverage above the coverage carried by our third-party managers. Despite various precautionary steps to protect our hotels from losses resulting from cyber-attacks, any occurrence of a cyber-attack could still result in losses at our properties, which could affect our results of operations. To date, we are not currently aware of any cyber incidents that we believe to be material or that could have a material adverse effect on the business, financial condition and results of operations of the Company.

Any of these items could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Joint venture investments could be adversely affected by a lack of sole decision-making authority with respect to such investments, disputes with joint venture partners and the financial condition of joint venture partners.

We have in the past and may in the future enter into strategic joint ventures with unaffiliated investors to acquire, develop, improve or dispose of hotels, thereby reducing the amount of capital required by us to make investments and diversifying our capital sources for growth. We may not have sole decision-making authority with respect to these investments, and as a result we may not be able to take actions which are in the best interest of our stockholders. Further, disputes between us and our joint venture partners may result in litigation or arbitration which could increase our expenses and prevent our officers and directors from focusing their time and effort on our business and could result in subjecting the hotels owned by the applicable joint venture to additional risks.

If a joint venture partner becomes bankrupt or otherwise defaults on its obligations under a joint venture agreement, we and any other remaining joint venture partners would generally remain liable for the joint venture liabilities. Furthermore, if a joint venture partner becomes bankrupt or otherwise defaults on its obligations under a joint venture agreement, we may be unable to continue the joint venture other than by purchasing such joint venture partner's interests or the underlying assets at a premium to the market price. If any of the above risks are realized, it could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Actions by organized labor could have a material adverse effect on our business.

We believe that unions are generally becoming more aggressive about organizing workers at hotels in certain locations. If the workers employed by the third-party hotel management companies that manage our hotels unionize in the future, potential labor activities at any affected hotel could significantly increase the administrative, labor and legal expenses of the third-party hotel management company that we have engaged to manage that hotel, which likely would adversely affect the operating results of the hotel properties. If hotels in our portfolio are unionized, this could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Risks Related to the Lodging Industry

Economic conditions may adversely affect the lodging industry.

The performance of the lodging industry has historically been closely linked to the performance of the general economy and, specifically, growth in U.S. gross domestic product ("GDP"). The lodging industry is also sensitive to business and personal discretionary spending levels. Declines in corporate budgets and consumer demand due to adverse general economic conditions, risks affecting or reducing travel patterns, lower consumer confidence or adverse political conditions can lower the revenue and profitability of our assets and therefore the net operating profits of our investments. Economic weakness could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We experience a high level of competition from other hotels and alternative accommodations in the markets in which we operate.

The lodging industry is highly competitive. Our hotels compete with other hotels for guests in each market in which our hotels operate based on a number of factors, including location, convenience, brand affiliation, guestroom rates, range of services and guest amenities or accommodations offered and quality of customer service. We also compete with numerous owners and operators of vacation ownership resorts, as well as companies that offer alternative

accommodations, such as Airbnb and similar organizations, which operate websites that market available furnished, privately-owned residential properties, including homes and condominiums, that can be rented on a nightly, weekly or monthly basis. Competition will often be specific to the individual markets in which our hotels are located and includes competition from existing and new hotels as well as alternative accommodations. The price transparency of the lodging industry could lead to difficulty in increasing ADR as our competitors may offer guestrooms at lower rates than we can, which could result in our competitors increasing their occupancy at our expense. Competition could adversely affect our occupancy, ADR and RevPAR, and may require us to provide additional amenities or make capital improvements that we otherwise would not have to make.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Our operating results and ability to make distributions to our stockholders may be adversely affected by the risks inherent to the ownership of hotels and the markets in which we operate.

Hotels have different economic characteristics than many other real estate assets. A typical office property owner, for example, has long-term leases with third-party tenants, which provide a relatively stable long-term stream of revenue. By contrast, our hotels are subject to various operating risks common to the lodging industry, many of which are beyond our control, including the following:

- relatively short-duration occupancies;
- dependence on business and commercial travelers and tourism;
- over-building of hotels in our markets, which could adversely affect occupancy and revenue at the hotels we acquire;
- increases in energy costs and other expenses affecting travel, which may affect travel patterns and reduce the number of business and commercial travelers and tourists;
- increases in operating costs, including increased real estate and personal property taxes, due to inflation and other factors that may not be offset by increased guestroom rates;
- potential increases in labor costs at our hotels, including as a result of unionization of the labor force and increasing health care insurance expense;
- changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance with laws and regulations, fiscal policies and ordinances;
- adverse effects of international, national, regional and local economic and market conditions; and
- unforeseen events beyond our control, such as instability in the national, European or global economy, terrorist attacks, travel-related health concerns including pandemics and epidemics, travel-related environmental concerns including water contamination and air pollution, political instability, regional hostilities, increases in fuel prices, imposition of taxes or surcharges by regulatory authorities and travel-related accidents and unusual weather patterns, including natural disasters such as hurricanes.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We have significant ongoing needs to make capital expenditures at our hotels, which require us to devote funds to these purposes.

Our hotels have an ongoing need for renovations and other capital improvements, including replacements, from time to time, of furniture, fixtures and equipment. Our franchisors also require periodic capital improvements as a condition of keeping the franchise licenses. In addition, lenders and hotel management companies may require that we set aside annual amounts for capital improvements to our assets. These capital improvements and replacements may give rise to the following risks:

- possible environmental problems;
- construction cost overruns and delays;
- a possible shortage of available cash to fund capital improvements and replacements and, the related possibility that financing for these capital improvements may not be available to us on affordable terms; and
- uncertainties as to market demand or a loss of market demand after capital improvements and replacements have begun.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Hotel development is subject to timing, budgeting and other risks.

We have in the past and may in the future develop hotels or acquire hotels that are under development from time to time as suitable opportunities arise, taking into consideration general economic conditions. Hotel development involves a number of risks, including the following:

- possible environmental problems;
- construction cost overruns and delays;
- receipt of and expense related to zoning, occupancy and other required governmental permits and authorizations;
- development costs incurred for projects that are not pursued to completion;
- acts of God such as earthquakes, hurricanes, floods or fires that could adversely affect a project;
- inability to raise capital; and
- governmental restrictions on the nature or size of a project.

To the extent we develop hotels or acquire hotels under development, we cannot provide assurance that any development project will be completed on time or within budget. Our inability to complete a project on time or within budget could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Customers may increasingly use Internet travel intermediaries.

Our hotel guestrooms can be booked through Internet travel intermediaries, including, but not limited to Expedia.com and Booking.com, and their portfolio of companies (commonly referred to as "online travel agents" or "OTA's"). As these Internet bookings increase, these intermediaries may be able to obtain higher commissions, reduced guestroom rates or other significant contract concessions from our management companies. Moreover, some of these Internet travel intermediaries are attempting to offer hotel guestrooms as a commodity, by increasing the importance of price and general indicators of quality (such as "three-star downtown hotel") at the expense of brand identification. These agencies hope that consumers will eventually develop brand loyalties to their reservations system rather than to the brands under which our hotels are franchised. If the amount of sales made through Internet intermediaries increases significantly, guestroom revenue may flatten or decrease, which could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We could incur uninsured and underinsured losses.

We intend to maintain comprehensive insurance on our hotels, including liability, fire and extended coverage, of the type and amount we believe are customarily obtained for or by owners of hotels similar to our hotels. Various types of catastrophic losses, such as hurricanes, floods and earthquakes, acts of terrorism, data breaches, losses related to business disruption from disputes with franchisors, or losses from customer litigation, may not be insurable or may not be economically insurable. In the event of a substantial loss, our insurance coverage may not be sufficient to cover the operating loss or the full market value or replacement cost of our lost investment. Should an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a hotel, as well as the anticipated future revenue from the hotel. In that event, we might nevertheless remain obligated for any mortgage debt or other financial obligations related to the asset. Loan covenants, inflation, changes in building codes and ordinances, environmental considerations and other factors might also keep us from using insurance proceeds to replace or renovate an asset after it has been damaged or destroyed. Under those circumstances, the insurance proceeds we receive might be inadequate to restore our economic position on the damaged or destroyed hotels.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Consumer trends and preferences, particularly with respect to younger generations, could change away from select-service hotels.

Consumer trends and preferences continuously change, especially within younger generations. Many new hotel brands have been introduced over recent years to specifically address the perceived unique needs and preferences of younger travelers. As our portfolio is concentrated in select-service hotels, significant consumer shifts in preferences away from select-service hotels could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Risks Related to the Real Estate Industry and Real Estate-Related Investments

Illiquidity of real estate investments could significantly impede our ability to respond to adverse changes in the performance of our hotels or to adjust our portfolio in response to changes in economic and other conditions.

Our ability to promptly sell one or more hotels in our portfolio in response to changing economic, financial and investment conditions may be limited. We cannot predict whether we will be able to sell any hotels for the price or on the terms set by us, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of an asset. The real estate market is affected by many factors that are beyond our control, including:

- adverse changes in international, national, regional and local economic and market conditions;
- changes in interest rates and in the availability, cost and terms of debt financing;
- changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance with laws and regulations, fiscal policies and ordinances;
- the ongoing need for capital improvements, particularly in older structures, that may require us to expend funds to correct defects or to make improvements before an asset can be sold;
- changes in operating expenses; and
- civil unrest, acts of God, including earthquakes, floods and other natural disasters, which may result in uninsured losses, and acts of war or terrorism, including the consequences of the terrorist acts such as those that occurred on September 11, 2001.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We could incur significant costs related to government regulation and litigation over environmental, health and safety matters.

Our hotels and development land parcels are subject to various federal, state and local environmental laws that impose liability for contamination. Under these laws, governmental entities have the authority to require us, as the current or former owner of the property, to perform or pay for the cleanup of contamination (including hazardous substances, waste or petroleum products) at or emanating from the property and to pay for natural resource damage arising from contamination. These laws often impose liability without regard to whether the owner or operator knew of, or caused the contamination. We can also be liable to private parties for costs of remediation, personal injury and death and/or property damage resulting from contamination at or emanating from our properties. Moreover, environmental contamination can affect the value of a property and, therefore, an owner's ability to borrow funds using the property as collateral or to sell the property on favorable terms or at all. Furthermore, persons who sent waste to a waste disposal facility, such as a landfill or an incinerator, may be liable for costs associated with cleanup of that facility.

In addition, our hotels (including our real property, operations and equipment) are subject to various federal, state and local environmental, health and safety regulatory requirements that address a wide variety of issues, including, but not limited to the registration, maintenance and operation of our boilers and storage tanks, air emissions from emergency generators, storm water and wastewater discharges, asbestos, lead-based paint, mold and mildew, and waste management. Some of our hotels also routinely handle or use hazardous or regulated substances and waste in their operations (for example, swimming pool chemicals or biological waste). Our hotels incur costs to comply with these environmental, health and safety laws and regulations and if these regulatory requirements are not met or unforeseen events result in the discharge of dangerous or toxic substances at our hotels, we could be subject to fines and penalties for non-compliance with applicable laws and material liability from third parties for harm to the environment, damage to real property or personal injury and death. We are aware of no past or present environmental liability for

non-compliance with environmental, health and safety laws and regulations that we believe would have a material adverse effect on our business, assets or results of operations.

Certain hotels we currently own or those we acquire in the future contain, may contain, or may have contained, asbestos-containing material (“ACM”). Environmental, health and safety laws require that ACM be properly managed and maintained, and include requirements to undertake special precautions, such as removal or abatement, if ACM would be disturbed during maintenance, renovation, or demolition of a building. These laws regarding ACM may impose fines and penalties on building owners, employers and operators for failure to comply with these requirements or expose us to third-party liability.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Compliance with the laws, regulations and covenants that apply to our hotels, including permit, license and zoning requirements, may adversely affect our ability to make future acquisitions or renovations, result in significant costs or delays and adversely affect our growth strategy.

Our hotels are subject to various covenants and local laws and regulatory requirements, including permitting and licensing requirements which can restrict the use of our properties and increase the cost of acquisition, development and operation of our hotels. In addition, federal and state laws and regulations, including laws such as the ADA, impose further restrictions on our operations. Under the ADA, all public accommodations must meet federal requirements related to access and use by disabled persons. We have not conducted a comprehensive audit or investigation of all of our properties to determine our compliance. As such, some of our hotels currently may be in noncompliance with the ADA. If one or more of the hotels in our portfolio is not in compliance with the ADA or any other regulatory requirements, we may be required to incur additional costs to bring the hotel into compliance and we might incur damages or governmental fines. In addition, existing requirements may change and future requirements may require us to make significant unanticipated expenditures.

These conditions could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

We have fixed obligations related to right-of-use assets on which certain of our hotels are located.

If we default on the terms of any of our right-of-use assets, such as ground leases, air rights or other intangible assets, and are unable to cure the default in a timely manner, we may be liable for damages and could lose our leasehold interest in the applicable property and interest in the hotel on the applicable property. An event of default that is not timely cured could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

The states and localities in which we own material amounts of property or conduct material business operations could raise their income and property tax rates or amend their tax regimes in a manner that increases our state and local tax liabilities.

We and our subsidiaries are subject to income tax and other taxes by states and localities in which we conduct business. Additionally, we are and will continue to be subject to property taxes in states and localities in which we own property, and our TRS lessees are and will continue to be subject to state and local corporate income tax. As these states and localities seek additional sources of revenue, they may, among other steps, raise income and property tax rates or amend their tax regimes to eliminate for state income tax purposes the favorable tax treatment REITs enjoy for federal income tax purposes. We cannot predict when or if any states or localities would make any such changes, or what form those changes would take. If states and localities in which we own material amounts of property or conduct material amounts of business make changes to their tax rates or tax regimes that increase our state and local tax liabilities, such increases could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Risks Related to Our Organization and Structure

Our fiduciary duties as the general partner of our Operating Partnership could create conflicts of interest.

We, through our wholly-owned subsidiary that serves as the sole general partner of our Operating Partnership, have fiduciary duties to our Operating Partnership's limited partners, the discharge of which may conflict with the interests of our stockholders. The limited partners of our Operating Partnership have agreed for so long as we own a controlling interest in our Operating Partnership that, in the event of a conflict between the duties owed by our directors to our company and the duties that we owe, in our capacity as the sole general partner of our Operating Partnership, to the limited partners, our directors must give priority to the interests of our stockholders. In addition, those persons holding Common Units have the right to vote on certain amendments to the limited partnership agreement (which require approval by a majority interest of the limited partners, including us) and individually to approve certain amendments that would adversely affect their rights, as well as the right to vote on mergers and consolidations of the general partner or us in certain limited circumstances. These voting rights may be exercised in a manner that conflicts with the interests of our stockholders. For example, we cannot adversely affect the limited partners' rights to receive distributions, as set forth in the limited partnership agreement, without their consent, even though modifying such rights might be in the best interest of our stockholders generally.

Provisions of our charter may limit the ability of a third party to acquire control of us by authorizing our board of directors to issue additional securities.

Our board of directors may, without stockholder approval, amend our charter to increase or decrease the aggregate number of our shares or the number of shares of any class or series that we have the authority to issue and to classify or reclassify any unissued shares of common stock or preferred stock, and set the preferences, rights and other terms of the classified or reclassified shares. As a result, our board of directors may authorize the issuance of additional shares or establish a series of common or preferred stock that may have the effect of delaying or preventing a change in control of our company, including transactions at a premium over the market price of our shares, even if stockholders believe that a change in control is in their interest. These provisions, along with the restrictions on ownership and transfer contained in our charter and certain provisions of Maryland law described below, could discourage unsolicited acquisition proposals or make it more difficult for a third party to gain control of us, which could adversely affect the market price of our securities.

Provisions of Maryland law may limit the ability of a third party to acquire control of us by requiring our board of directors or stockholders to approve proposals to acquire our company or effect a change in control.

Certain provisions of the Maryland General Corporation Law (the “MGCL”) applicable to Maryland corporations may have the effect of inhibiting a third party from making a proposal to acquire us or of impeding a change in control under circumstances that otherwise could provide our stockholders with the opportunity to realize a premium over the then-prevailing market price of such shares, including “business combination” and “control share” provisions.

By resolution of our board of directors, we have opted out of the business combination provisions of the MGCL and provided that any business combination between us and any other person is exempt from the business combination provisions of the MGCL, provided that the business combination is first approved by our board of directors (including a majority of directors who are not affiliates or associates of such persons). In addition, pursuant to a provision in our bylaws, we have opted out of the control share provisions of the MGCL. However, our board of directors may by resolution elect to opt in to the business combination provisions of the MGCL and we may, by amendment to our bylaws, opt in to the control share provisions of the MGCL in the future.

Our rights and the rights of our stockholders to take action against our directors and officers are limited.

Under Maryland law, generally, a director will not be liable if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. In addition, our charter limits the liability of our directors and officers to us and our stockholders for money damages, except for liability resulting from:

- actual receipt of an improper benefit or profit in money, property or services; or
- active and deliberate dishonesty by the director or officer that was established by a final judgment as being material to the cause of action adjudicated.

Our charter authorizes us to indemnify our directors and officers for actions taken by them in those capacities to the maximum extent permitted by Maryland law. Our bylaws require us to indemnify each director and officer, to the maximum extent permitted by Maryland law, in the defense of any proceeding to which he or she is made, or threatened to be made, a party by reason of his or her service to us. In addition, we may be obligated to advance the defense costs incurred by our directors and officers. As a result, we and our stockholders may have more limited rights against our directors and officers than might otherwise exist absent the current provisions in our charter and bylaws or that might exist with other companies.

Our stockholders have limited voting rights and our charter contains provisions that make removal of our directors difficult.

Our shares of common stock are the only class of our securities that carry full voting rights. Voting rights for holders of our preferred stock exist primarily with respect to the ability to elect two additional directors to our board of directors in the event that six quarterly dividends (whether or not consecutive) payable on the preferred stock are in arrears, and with respect to voting on amendments to our charter or articles supplementary relating to the preferred stock that materially and adversely affect the rights of the holders of preferred stock or create additional classes or series of senior equity securities. Further, our charter provides that a director may be removed only for cause (as defined in our charter) and then only by the affirmative vote of holders of shares entitled to cast at least two-thirds of the votes entitled to be cast generally in the election of directors. Our charter also provides that vacancies on our board of directors may be filled only by a majority of the remaining directors in office, even if less than a quorum. These requirements prevent stockholders from removing directors except for cause and with a substantial affirmative vote and from replacing directors with their own nominees and may prevent a change in control of our company or effect other management changes that are in the best interests of our stockholders.

The ability of our board of directors to change our major policies without the consent of stockholders may not be in our stockholders' interest.

Our board of directors determines our major policies, including policies and guidelines relating to our acquisitions, leverage, financing, growth, operations and distributions to stockholders. Our board of directors may amend or revise these and other policies and guidelines from time to time without the vote or consent of our stockholders. Accordingly, our stockholders will have limited control over changes in our policies and those changes could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Our board of directors has the ability to revoke our REIT qualification without stockholder approval.

Our charter provides that our board of directors may revoke or otherwise terminate our REIT election, without the approval of our stockholders, if it determines that it is no longer in our best interest to continue to qualify as a REIT. If we cease to be a REIT, we would become subject to federal income tax on our taxable income and would no longer be required to distribute most of our taxable income to our stockholders, which may have adverse consequences on the total return to our stockholders.

We are a holding company with no direct operations. As a result, we rely on funds received from our Operating Partnership to pay liabilities and dividends, our stockholders' claims will be structurally subordinated to all liabilities of our Operating Partnership and our stockholders will not have any voting rights with respect to our Operating Partnership activities, including the issuance of additional Common Units or Preferred Units.

We are a holding company and conduct all of our operations through our Operating Partnership. We do not have, apart from our ownership of our Operating Partnership, any independent operations. As a result, we rely on distributions from our Operating Partnership to pay any dividends we might declare on shares of our common or preferred stock. We also rely on distributions from our Operating Partnership to meet any of our obligations, including tax liabilities on taxable income allocated to us from our Operating Partnership (which might make distributions to us that do not equal the tax on such allocated taxable income).

In addition, because we are a holding company, stockholders' claims will be structurally subordinated to all existing and future liabilities and obligations (whether or not for borrowed money) of our Operating Partnership and its subsidiaries. Therefore, in the event of our bankruptcy, liquidation or reorganization, claims of our stockholders will be satisfied only after all of our and our Operating Partnership's and its subsidiaries' liabilities and obligations have

been paid in full.

We own approximately 99.7% of the Common Units in the Operating Partnership, all of the issued and outstanding 6.45% Series D Cumulative Redeemable Preferred Units of the Operating Partnership ("Series D Preferred Units"), and all of the issued and outstanding 6.25% Series E Cumulative Redeemable Preferred Units of the Operating Partnership ("Series E Preferred Units"). We refer to the Series D Preferred Units and Series E Preferred Units collectively as Preferred Units. Any future issuances by our Operating Partnership of additional Common Units or Preferred Units could reduce our ownership percentage in our Operating Partnership. Because our common stockholders do not directly own any Common Units or Preferred Units, they will not have any voting rights with respect to any such issuances or other partnership-level activities of the Operating Partnership.

If we are unable to maintain an effective system of internal controls, we may not be able to produce and report accurate financial information on a timely basis or prevent fraud.

A system of internal controls that is well designed and properly functioning is critical for us to produce and report accurate and reliable financial information and effectively prevent fraud. We must also rely on the quality of the internal control environments of our third-party property managers who provide us with financial information related to our hotel properties. At times, we may identify areas of internal controls that are not properly functioning as designed, that need improvement or that must be developed to ensure that we have an adequate system of internal controls. Section 404 of the Sarbanes-Oxley Act of 2002 requires us to evaluate and report on our internal controls over financial reporting and have our independent auditors annually issue their own opinion on our internal controls over financial reporting. We cannot be certain that we will be successful in maintaining adequate internal controls over our financial reporting and processes. Additionally, as we grow our business, our internal controls will become more complex and we will require significantly more resources to ensure that our internal controls remain effective. If we or our independent auditors discover a material weakness, the disclosure of that fact, even if promptly remedied, could cause our stockholders to lose confidence in our financial results, which could reduce the market value of our common shares. Additionally, the existence of any material weakness or significant deficiency could require management to devote substantial time and incur significant expense to remediate any such conditions. There can be no assurance that management will be able to remediate any material weaknesses in a timely manner.

Risks Related to Ownership of Our Securities

The New York Stock Exchange ("NYSE") or another nationally-recognized exchange may not continue to list our securities.

Our common stock trades on the NYSE under the symbol "INN," our 6.45% Series D Cumulative Redeemable Preferred Stock trades on the NYSE under the symbol "INNPrD," and our 6.25% Series E Cumulative Redeemable Preferred Stock trades on the NYSE under the symbol "INNPrE." In order for our securities to remain listed, we are required to meet the continued listing requirements of the NYSE or, in the alternative, any other nationally-recognized exchange to which we apply. We may be unable to satisfy those listing requirements, and there is no guarantee our securities will remain listed on a nationally-recognized exchange. If our securities are delisted from the NYSE or another nationally-recognized exchange, we could face significant material adverse consequences, including:

- limited availability of market quotations for our securities;
- limited ability of our stockholders to make transactions in our securities;
- additional trading restrictions being placed on us;
- reduced liquidity with respect to our securities;
- a determination that our common stock is "penny stock," which will require brokers trading in our common stock to adhere to more stringent rules, possibly resulting in a reduced level of trading activity in the secondary trading market for the common stock;
- limited amount of news and analyst coverage; and
- decreased ability to issue additional securities or obtain additional financing in the future.

The cash available for distribution may not be sufficient to make distributions at expected levels and we may use borrowed funds or funds from other sources to make distributions.

Subject to the preferential rights of the holders of our Series D and Series E preferred stock and any other class or series of our stock that are senior to our common stock with respect to distribution rights, we intend to make quarterly distributions to holders of our common stock. Distributions declared by us will be authorized by our board of directors in its sole discretion out of funds legally available for distribution and will depend upon a number of factors, including restrictions under applicable law and the capital requirements of our company. All distributions will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, the requirements for qualification as a REIT, restrictions under applicable law and other factors as our board of directors may deem relevant from time to time. We may be required to fund distributions from working capital, borrowings under our unsecured revolving credit facility, proceeds of future stock offerings or a sale of assets to the extent distributions exceed earnings or cash flows from operations. Funding distributions from working capital would restrict our operations. If we borrow from the unsecured revolving credit facility to pay distributions, we would be more limited in our ability to execute our strategy of using that unsecured revolving credit facility to fund acquisitions. Finally, selling assets may require us to dispose of assets at a time or in a manner that is not consistent with our disposition strategy. If we borrow to fund distributions, our leverage ratios and future interest costs would increase, thereby reducing our earnings and cash available for distribution from what they otherwise would have been. We may not be able to make distributions in the future. In addition, some of our distributions may be considered a return of capital for income tax purposes. If we decide to make distributions in excess of our current and accumulated earnings and profits, such distributions would generally be considered a return of capital for federal income tax purposes to the extent of the holder's adjusted tax basis in their shares. A return of capital is not taxable, but it has the effect of reducing the holder's adjusted tax basis in its investment. If distributions exceed the adjusted tax basis of a holder's shares, they will be treated as gain from the sale or exchange of such stock.

The market price of our stock may be volatile due to numerous circumstances beyond our control.

The trading prices of equity securities issued by REITs and other real estate companies historically have been affected by changes in market interest rates. One of the factors that may influence the market price of our common or preferred stock is the annual yield from distributions on our common or preferred stock, respectively, as compared to yields on other financial instruments. An increase in market interest rates, or a decrease in our distributions to stockholders, may lead prospective purchasers of our common or preferred stock to demand a higher annual yield, which could reduce the market price of our common or preferred stock, respectively.

Other factors that could affect the market price of our stock include the following:

- actual or anticipated variations in our quarterly results of operations;
- increases in interest rates;
- changes in market valuations of companies in the lodging industry;
- changes in expectations of future financial performance or changes in estimates of securities analysts;
- fluctuations in stock market prices and volumes;
- our issuances of common stock, preferred stock, or other securities in the future;
- the inclusion of our common stock and preferred stock in equity indices, which could induce additional purchases;
- the addition or departure of key personnel;
- announcements by us or our competitors of acquisitions, investments or strategic alliances;
- unforeseen events beyond our control, such as instability in the national, European or global economy, terrorist attacks, travel related health concerns including pandemics and epidemics, political instability, regional hostilities, increases in fuel prices, imposition of taxes or surcharges by regulatory authorities and travel-related accidents and unusual weather patterns, including natural disasters; and

•changes in the tax laws or regulations to which we are subject.

The market's perception of our growth potential and our current and potential future cash distributions, whether from operations, sales or refinancings, as well as the real estate market value of the underlying assets, may cause our common and preferred stock to trade at prices that differ from our net asset value per share. If we retain operating cash flow for investment purposes, working capital reserves or other purposes, these retained funds, while increasing the value of our underlying assets, may not correspondingly increase the market price of our common and preferred stock. Our failure to meet the market's expectations with regard to future earnings and distributions likely would adversely affect the market price of our common and preferred stock.

The trading market for our stock will rely in part on the research and reports that industry or financial analysts publish about us or our business. We do not control these analysts. Furthermore, if one or more of the analysts who do cover us downgrades our stock or our industry, or the stock of any of our competitors, the price of our stock could decline. If one or more of these analysts ceases coverage of our company, we could lose attention in the market, which in turn could cause the price of our stock to decline.

The number of shares of our common stock and preferred stock available for future sale could adversely affect the market price per share of our common stock and preferred stock, respectively, and future sales by us of shares of our common stock, preferred stock, or issuances by our Operating Partnership of Common Units may be dilutive to existing stockholders.

Sales of substantial amounts of shares of our common stock or preferred stock in the public market, or upon exchange of Common Units or exercise of any equity awards, or the perception that such sales might occur, could adversely affect the market price of our common stock and preferred stock. As of February 18, 2019, a total of 259,265 Common Units are redeemable and could be converted into shares of our common stock and sold into the public market. The exchange of Common Units for common stock, the vesting of any equity-based awards granted to certain directors, executive officers and other employees under the 2011 Equity Incentive Plan which was amended and restated effective June 15, 2015 (as amended and restated, the “Equity Plan”), the issuance of our common stock or Common Units in connection with hotel, portfolio or business acquisitions and other issuances of our common stock or Common Units could have an adverse effect on the market price of the shares of our common stock.

We may execute future offerings of debt securities, which would be senior to our common and preferred stock upon liquidation, and issuances of equity securities (including Common Units).

In the future we may offer debt securities and issue equity securities, including Common Units, preferred stock or other preferred shares that may be senior to our common stock for purposes of dividend distributions or upon liquidation. Upon liquidation, holders of our debt securities and our preferred shares will receive distributions of our available assets prior to the holders of our common stock. Holders of our common stock are not entitled to preemptive rights or other protections against us offering senior debt or equity securities. Therefore, additional common share issuances, directly or through convertible or exchangeable securities (including Common Units), warrants or options, will dilute the holdings of our existing common stockholders and such issuances or the perception of such issuances may reduce the market price of our common stock. In addition, new issues of preferred stock could have a preference on liquidating distributions and a preference on dividend payments that could limit our ability to pay a dividend or make another distribution to the holders of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of future issuances. Thus, our stockholders bear the risk of our future offerings reducing the market price of our common stock and diluting their interest in us.

Risks Related to Our Status as a REIT

Failure to remain qualified as a REIT would cause us to be taxed as a regular corporation.

The REIT rules and regulations are highly technical and complex. We believe that our organization and method of operation has enabled us to meet the requirements for qualification and taxation as a REIT commencing with our short taxable year ended December 31, 2011. However, we cannot provide assurance that we will remain qualified as a REIT.

Failure to qualify as a REIT could result from a number of situations, including, without limitation:

- if the leases of our hotels to our TRS lessees are not respected as true leases for federal income tax purposes;
- if our Operating Partnership is treated as a publicly traded partnership taxable as a corporation for federal income tax purposes;
- if our existing or future hotel management companies do not qualify as “eligible independent contractors” or if our hotels are not “qualified lodging facilities,” as required by federal income tax law; or
- if we fail to meet any of the required REIT qualifications.

If we fail to qualify as a REIT in any taxable year, we will face serious tax consequences that will substantially reduce the funds available for distributions to our stockholders because:

- we would not be allowed a deduction for dividends paid to stockholders in computing our taxable income and would be subject to federal income tax at regular corporate rates (at a rate of 21%);
- we could be subject to the federal alternative minimum tax for taxable years prior to 2018 and possibly increased state and local taxes; and
- unless we are entitled to relief under certain federal income tax laws, we could not re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT.

In addition, if we fail to qualify as a REIT, we will no longer be required to make distributions. As a result of all these factors, our failure to qualify as a REIT could impair our ability to expand our business and raise capital, and it could adversely affect the value of our stock.

Even if we continue to qualify as a REIT, we may face other tax liabilities.

Even if we continue to qualify for taxation as a REIT, we may be subject to certain federal, state and local taxes on our income and assets including, but not limited to taxes on any undistributed income, tax on income from some activities conducted as a result of a foreclosure, and state or local income, property and transfer taxes. In addition, our TRS is subject to regular corporate federal, state and local taxes. Any of these taxes would decrease cash available for distributions to stockholders.

Failure to make required distributions would subject us to federal corporate income tax.

We intend to operate in a manner so as to qualify as a REIT for federal income tax purposes. To qualify as a REIT, we generally are required to distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding any net capital gain, each year to our stockholders. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our REIT taxable income, we will be subject to federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% non-deductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under the IRC.

We have significant REIT distribution requirements to maintain our status as a REIT.

To satisfy the requirements for qualification as a REIT and to meet the REIT distribution requirements, we may need to borrow funds on a short-term basis or sell assets, even if the then-prevailing market conditions are not favorable for these borrowings or sales. Our cash flows from operations may be insufficient to fund required distributions as a result of differences in timing between the actual receipt of income and the recognition of income for federal income tax purposes, or the effect of non-deductible capital expenditures, the creation of reserves or required debt service or amortization payments. Our REIT distribution requirements could adversely affect our liquidity and may force us to borrow funds or sell assets during unfavorable market conditions or pay taxable stock dividends. The insufficiency of our cash flows to cover our distribution requirements could have an adverse effect on our ability to raise short- and long-term debt or sell equity securities to fund distributions required to maintain our qualification as a REIT.

The formation of our TRS increases our overall tax liability.

Our TRS is subject to federal, state and local income tax on its taxable income, which typically consists of the revenue from the hotels leased by our TRS lessees, net of the operating expenses for such hotels and rent payments to us and, in the case of any hotel that is owned by a wholly-owned subsidiary of our TRS, the revenue from that hotel, net of the

operating expenses. In certain circumstances, the ability of our TRS to deduct interest expense or utilize net operating loss carryforwards for federal income tax purposes may be limited. Accordingly, although our ownership of our TRS allows us to participate in the operating income from our hotels in addition to receiving rent, that operating income will be fully subject to income tax. The after-tax net income of our TRS is available for distribution to us.

Our TRS lessee structure subjects us to the risk of increased hotel operating expenses.

Our leases with our TRS lessees require our TRS lessees to pay us rent based in part on revenue from our hotels. Our operating risks include decreases in hotel revenue and increases in hotel operating expenses, including but not limited to the increases in wage and benefit costs, repair and maintenance expenses, energy costs and other operating expenses, which would adversely affect our TRS' ability to pay us rent due under the leases. Increases in these operating expenses could adversely affect our financial position, results of operations, and cash flows or the market price of our stock.

Our Operating Partnership could be treated as a publicly traded partnership taxable as a corporation for federal income tax purposes.

Although we believe that our Operating Partnership will be treated as a partnership for federal income tax purposes, no assurance can be given that the IRS will not successfully challenge that position. If the IRS were to successfully contend that our Operating Partnership should be treated as a publicly traded partnership taxable as a corporation, we would fail to meet the 75% gross income test and certain of the asset tests applicable to REITs and, unless we qualified for certain statutory relief provisions, we would cease to qualify as a REIT. Also, our Operating Partnership would become subject to federal, state and local income tax, which would reduce significantly the amount of cash available for debt service and for distribution to us.

Our current hotel management companies, or any other hotel management companies that we may engage in the future may not qualify as "eligible independent contractors," or our hotels may not be considered "qualified lodging facilities."

Rent paid by a lessee that is a "related party tenant" of ours will not be qualifying income for purposes of the two gross income tests applicable to REITs. An exception is provided, however, for leases of "qualified lodging facilities" to a TRS so long as the hotels are managed by an "eligible independent contractor" and certain other requirements are satisfied. We lease all of our hotels to our TRS lessees. All of our hotels are operated pursuant to hotel management agreements with Interstate and other hotel management companies, each of which we believe qualifies as an "eligible independent contractor." Among other requirements, to qualify as an eligible independent contractor, the hotel manager must not own, directly or through its stockholders, more than 35% of our outstanding shares, and no person or group of persons can own more than 35% of our outstanding shares and the shares (or ownership interest) of the hotel manager, taking into account certain ownership attribution rules. The ownership attribution rules that apply for purposes of these 35% thresholds are complex, and monitoring actual and constructive ownership of our shares by our hotel managers and their owners may not be practical. Accordingly, there can be no assurance that these ownership levels will not be exceeded.

In addition, for a hotel management company to qualify as an eligible independent contractor, such company or a related person must be actively engaged in the trade or business of operating "qualified lodging facilities" (as defined below) for one or more persons not related to the REIT or its TRS at each time that such company enters into a hotel management contract with a TRS or its TRS lessee. As of the date hereof, we believe each of our hotel management companies operates qualified lodging facilities for certain persons who are not related to us or our TRS. However, no assurances can be provided that our hotel management companies or any other hotel managers that we may engage in the future will in fact comply with this requirement. Failure to comply with this requirement would require us to find other managers for future contracts, and, if we hired a management company without knowledge of the failure, it could jeopardize our status as a REIT.

Finally, each property with respect to which our TRS lessees pay rent must be a "qualified lodging facility." A "qualified lodging facility" is a hotel, motel or other establishment more than one-half of the dwelling units in which are used on a

transient basis, including customary amenities and facilities, provided that no wagering activities are conducted at or in connection with such facility by any person who is engaged in the business of accepting wagers and who is legally authorized to engage in such business at or in connection with such facility. As of the date hereof, we believe that the properties that are leased to our TRS lessees are qualified lodging facilities. Although we intend to monitor future acquisitions and improvements of properties, REIT provisions of the IRC provide only limited guidance for making determinations under the requirements for qualified lodging facilities, and there can be no assurance that these requirements will be satisfied. If any of our properties are not deemed to be a "qualified lodging facility," we may fail to qualify as a REIT.

Our ownership of our TRS is subject to limitations and our transactions with our TRS could cause us to be subject to a 100% penalty tax on certain income or deductions if those transactions are not conducted on arm's-length terms.

Overall, no more than 20% (25% for taxable years beginning prior to January 1, 2018) of the value of a REIT's assets may consist of stock or securities of one or more TRSs. In addition, the IRC limits the deductibility of interest paid or accrued by a TRS to its parent REIT to provide assurance that the TRS is subject to an appropriate level of corporate taxation. The IRC also imposes a 100% excise tax on certain transactions between a TRS and its parent REIT that are not conducted on an arm's-length basis. The 100% tax would apply, for example, to the extent that we were found to have charged our TRS lessees rent in excess of an arm's-length rent. We monitor the value of our investment in our TRS for the purpose of ensuring compliance with TRS ownership limitations and structure our transactions with our TRS on terms that we believe are arm's-length to avoid incurring the 100% excise tax described above. There can be no assurance, however, that we will be able to comply with the 20% (25% for taxable years beginning prior to January 1, 2018) TRS limitations or to avoid application of the 100% excise tax.

We may be subject to adverse legislative or regulatory tax changes.

At any time, the federal income tax laws governing REITs or the administrative interpretations of those laws may be amended. We cannot predict when or if any new federal income tax law, regulation, or administrative interpretation, or any amendment to any existing federal income tax law, regulation or administrative interpretation, will be adopted, promulgated or become effective and any such law, regulation, or interpretation may take effect retroactively. We and our stockholders could be adversely affected by any such change in, or any new, federal income tax law, regulation or administrative interpretation and we could experience a reduction in the price of our stock. The TCJA, enacted in 2017, significantly changed the federal income tax laws applicable to businesses and their owners, including REITs and their stockholders. Technical corrections or other amendments to the TCJA or administrative guidance interpreting the TCJA may be forthcoming at any time. We cannot predict the long-term effect of the TCJA or any future law changes on REITs and their stockholders.

Stockholders may be restricted from acquiring or transferring certain amounts of our stock.

The stock ownership restrictions of the IRC for REITs and the 9.8% stock ownership limit in our charter may inhibit market activity in our capital stock and restrict our business combination opportunities.

To qualify as a REIT for each taxable year, five or fewer individuals, as defined in the IRC, may not own, beneficially or constructively, more than 50% in value of our issued and outstanding stock at any time during the last half of a taxable year. Attribution rules in the IRC determine if any individual or entity beneficially or constructively owns our capital stock under this requirement. Additionally, at least 100 persons must beneficially own our capital stock during at least 335 days of a taxable year for each taxable year. To help insure that we meet these tests, our charter restricts the acquisition and ownership of shares of our capital stock.

Our charter, with certain exceptions, authorizes our directors to take such actions as are necessary and desirable to preserve our qualification as a REIT. Unless exempted by our board of directors, our charter prohibits any person from beneficially or constructively owning more than 9.8% in value or number of shares, whichever is more restrictive, of the outstanding shares of any class or series of our capital stock. Our board of directors may not grant an exemption from these restrictions to any proposed transferee whose ownership in excess of 9.8% of the value of our outstanding shares would result in our failing to qualify as a REIT. These restrictions on transferability and ownership will not apply, however, if our board of directors determines that it is no longer in our best interest to continue to qualify as a REIT.

We may pay taxable dividends in our common stock and cash, in which case stockholders may sell shares of our common stock to pay tax on such dividends.

We may distribute taxable dividends that are payable in cash and common stock at the election of each stockholder. Under IRS Revenue Procedure 2017-45, as a publicly offered REIT, as long as at least 20% of the total dividend is available in cash and certain other requirements are satisfied, the IRS will treat the stock distribution as a dividend (to the extent applicable rules treat such distribution as being made out of our earnings and profits). If we made a taxable dividend payable in cash and common stock, taxable stockholders receiving such dividends will be required to include the full amount of the dividend as ordinary income to the extent of our current and accumulated earnings and profits, as determined for federal income tax purposes. As a result, stockholders may be required to pay income tax with respect to such dividends in excess of the cash dividends received. If a U.S. stockholder sells the common stock that it receives as a dividend to pay this tax, the sales proceeds may be less than the amount included in income with respect to the dividend, depending on the market price of our common stock at the time of the sale. Furthermore, with respect to certain non-U.S. stockholders, we may be required to withhold federal income tax with respect to such dividends, including in respect of all or a portion of such dividend that is payable in common stock. If we made a taxable dividend payable in cash and our common stock and a significant number of our stockholders determine to sell shares of our common stock to pay taxes owed on dividends, it may put downward pressure on the trading price of our common stock. We do not currently intend to pay a taxable dividend of our common stock and cash.

The 100% prohibited transactions tax may limit our ability to dispose of our properties, and we could incur a material tax liability if the IRS successfully asserts that the 100% prohibited transaction tax applies to some or all of our past or future dispositions.

A REIT's net income from prohibited transactions is subject to a 100% tax. In general, prohibited transactions are sales or other dispositions of property, other than foreclosure property, held primarily for sale to customers in the ordinary course of business. We have selectively disposed of certain of our properties in the past and intend to make additional dispositions in the future. Although a safe harbor to the characterization of the sale of property by a REIT as a prohibited transaction is available, some of our past dispositions may not have qualified for that safe harbor and some or all of our future dispositions may not qualify for that safe harbor. We believe that our past dispositions will not be treated as prohibited transactions, and we may avoid disposing of property that may be characterized as held primarily for sale to customers in the ordinary course of business. Consequently, we may choose not to engage in certain sales of our properties or may conduct such sales through our TRS, which would be subject to federal and state income taxation as a corporation. Moreover, no assurance can be provided that the IRS will not assert that some or all of our past or future dispositions are subject to the 100% prohibited transactions tax. If the IRS successfully imposes the 100% prohibited transactions tax on some or all of our dispositions, the resulting tax liability could be material.

The IRS could determine that certain payments we have received in the nature of liquidated damages may not be ignored for purposes of the gross income tests applicable to REITs.

In connection with our purchases and sales of properties, we have received payments in the nature of liquidated damages. The IRC does not specify the treatment of litigation settlements and liquidated damages for purposes of the gross income tests applicable to REITs. The IRS has issued private letter rulings to other taxpayers ruling that such payments will be ignored for purposes of the gross income tests. A private letter ruling can be relied upon only by the taxpayer to whom it was issued. Based on the IRS's private letters rulings and the advice of our tax advisors, we believe these payments should be ignored for purposes of the gross income tests. No assurance can be provided that the IRS will not successfully challenge that position. In the event of a successful challenge, we believe that we would be able to maintain our REIT status if we qualified to use a REIT "savings clause" and paid the required penalty.

Item 2. Properties.

Our Portfolio

A list of our hotel properties as of December 31, 2018 is included in the table below. According to current chain scales as defined by STR, as of December 31, 2018, two of our hotel properties with a total of 280 guestrooms are categorized as Upper-upscale hotels, 61 of our hotel properties with a total of 9,480 guestrooms are categorized as Upscale hotels and 14 of our hotel properties with a total of 1,899 guestrooms are categorized as Upper-midscale hotels. Hotel information for the year ended December 31, 2018 is as follows:

(1) These hotel properties are unencumbered or included in our borrowing base for our unsecured credit and term loan facilities at December 31, 2018.

(2) These hotel properties are subject to mortgage debt at December 31, 2018. For additional information concerning our mortgage debt and lenders, see Item 7. — “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Outstanding Indebtedness,” and “Note 6-Debt,” to our Consolidated Financial Statements included under Item 8. — “Financial Statements and Supplementary Data.”

(3) These hotel properties are subject to ground leases as described below in “Other Hotel Operating Agreements — Ground Leases.”

(4) This hotel property is subject to a PILOT (payment in lieu of taxes) lease as described below in “Other Hotel Operating Agreements — Ground Leases.”

In addition to our hotel property portfolio, we own two parcels of undeveloped land. One of the parcels is designated as held for sale. The parcels are generally suitable for the development of new hotel properties or the development of restaurants. When unique opportunities to develop hotels utilizing our own resources arise, we may develop our own hotels on occasion. We may also sell these parcels in the future if and when market conditions warrant if we opt not to develop our own hotels on these parcels. To reduce the risk of incurring a prohibited transaction tax on any sales, we may transfer some or all of these parcels to our TRS.

Our Hotel Operating Agreements

Ground Leases

At December 31, 2018, five of our hotel properties are subject to ground lease agreements that cover all of the land underlying the respective hotel property.

The Residence Inn by Marriott located in Portland, OR is subject to a ground lease with an initial lease termination date of June 30, 2084 with one option to extend for an additional 14 years. Ground rent for the initial lease term was prepaid in full at the time we acquired the leasehold interest. If the option to extend is exercised, monthly ground rent will be charged based on a formula established in the ground lease.

The Hampton Inn & Suites located in Austin, TX is subject to a ground lease with an initial lease termination date of May 31, 2050. Annual ground rent currently is estimated to be \$0.4 million for 2019 including performance based incentive rent. Annual rent is increased every five years with the next adjustment coming in 2020.

The Hilton Garden Inn located in Houston (Galleria Area), Texas is subject to a ground lease with an initial lease termination date of April 20, 2053 with one option to extend for an additional 10 years. Annual ground rent currently is estimated to be \$0.5 million for 2019 including performance based incentive rent. Annual rent is increased every five years with the next adjustment coming in 2023.

The Hyatt Place located in Portland, OR is subject to a ground lease with a lease termination date of June 30, 2084 with one option to extend for an additional 14 years. Ground rent for the initial lease term was prepaid in full at the time we acquired the leasehold interest. If the option to extend is exercised, monthly ground rent will be charged based on a formula established in the ground lease.

The Residence Inn by Marriott located in Baltimore (Hunt Valley), MD is subject to a ground lease with an initial termination date of December 31, 2019 and twelve successive five-year renewal periods with annual payments increasing by 12.5% at the start of each 5-year term. Subsequent to December 31, 2018, we acquired a fee simple interest in the real estate for a purchase price of \$4.1 million, which resulted in a termination of obligations under the ground lease. As a result, this hotel property is no longer subject to a ground lease.

These ground leases generally require us to make rental payments and payments for our share of charges, costs, expenses, assessments and liabilities, including real property taxes and utilities. Furthermore, these ground leases generally require us to obtain and maintain insurance covering the subject property.

In addition, the Hyatt Place located in Garden City, NY is subject to a PILOT (payment in lieu of taxes) lease with the Town of Hempstead Industrial Development Authority (the "IDA"), as lessor. The lease expires on December 31, 2019. Upon expiration of the lease, we expect to exercise our right to acquire a fee simple interest in the Garden City hotel property from the IDA for a nominal consideration.

Franchise Agreements

At December 31, 2018, all of our hotel properties operate under franchise agreements, or similar agreements that allow for access to reservation systems, with Marriott, Hilton, Hyatt, IHG, or Country Inns & Suites By Carlson, Inc. We believe that the public's perception of the quality associated with a branded hotel is an important feature in its

attractiveness to guests. Franchisors provide a variety of benefits to franchisees, including centralized reservation systems, national advertising, marketing programs and publicity designed to increase brand awareness, loyalty programs, training of personnel and maintenance of operational quality at hotels across the brand system.

The terms of our franchise agreements generally range from 10 to 20 years with various extension provisions. Each franchisor receives franchise fees ranging from 2% to 6% of each hotel property's room revenue, and some agreements require that we pay marketing fees of up to 4% of room revenue. In addition, some of these franchise agreements require that we deposit into a reserve fund for capital expenditures up to 5% of the hotel property's gross or room revenues depending on the

franchisor to insure we comply with the franchisors' standards and requirements. We also pay fees to our franchisors for services such as reservation and information systems.

Hotel Management Agreements

At December 31, 2018, all of our hotel properties are operated pursuant to hotel management agreements with professional third-party hotel management companies as follows:

Management Company	Number of Properties	Number of Guestrooms
Interstate Management Company, LLC and its affiliate Noble Management Group, LLC	33	4,734
OTO Development, LLC	13	1,797
Stonebridge Realty Advisors, Inc.	8	1,143
Affiliates of Marriott, including Courtyard Management Corporation, SpringHill SMC Corporation and Residence Inn by Marriott, Inc.	7	1,176
Select Hotel Group, LLC, an affiliate of Hyatt	6	934
White Lodging Services Corporation	4	791
American Liberty Hospitality, Inc.	2	372
Aimbridge Hospitality	2	199
Fillmore Hospitality	1	261
InterContinental Hotel Group Resources, Inc., an affiliate of IHG	1	252
Total	77	11,659

Our typical hotel management agreement requires us to pay a base fee to our hotel manager calculated as a percentage of hotel revenues. In addition, our hotel management agreements generally provide that the hotel manager can earn an incentive fee for EBITDA over certain thresholds. Our TRS lessees may employ other hotel managers in the future. We do not, and will not, have any ownership or economic interest in any of the hotel management companies engaged by our TRS lessees.

Item 3. Legal Proceedings.

We are involved from time to time in litigation arising in the ordinary course of business; however, there are currently no pending legal actions that we believe would have a material adverse effect on our financial position or results of operations.

Item 4. Mine Safety Disclosures.

Not applicable.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

Market Information

Our common stock began trading on the NYSE on February 9, 2011 under the symbol "INN." Prior to that time, there was no public trading market for our common stock. The last reported sale price for our common stock as reported on the NYSE on February 18, 2019 was \$11.37 per share.

Stockholder Information

As of February 18, 2019, our common stock was held of record by 294 holders and there were 104,783,179 shares of our common stock outstanding.

Distribution Information

As a REIT, we must distribute annually to our stockholders an amount at least equal to 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding any net capital gain. We will be subject to income tax on our taxable income that is not distributed and to an excise tax to the extent that certain percentages of our taxable income are not distributed by specified dates. Our cash available for distribution may be less than the amount required to meet the distribution requirements for REITs under the IRC and we may be required to borrow money, sell assets or issue capital stock to satisfy the distribution requirements to maintain our REIT status.

The timing and frequency of distributions will be authorized by our Board of Directors, in its sole discretion, and declared by us based upon a variety of factors deemed relevant by our directors, including financial condition, restrictions under applicable law and loan agreements, capital requirements and the REIT requirements of the IRC. Our ability to make distributions will generally depend on receipt of distributions from the Operating Partnership, which depends primarily on lease payments from our TRS lessees with respect to our hotels.

We are generally restricted from declaring or paying any distributions, or setting aside any funds for the payment of distributions, on our common stock unless full cumulative distributions on our preferred stock have been declared and either paid or set aside for payment in full for all past distribution periods.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table provides information as of December 31, 2018 with respect to our securities that may be issued under existing equity compensation plans:

Plan Category	Number of Securities to be Issued Upon Exercise of Outstanding Options	Weighted Average Exercise Price of Outstanding Options	Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans ⁽¹⁾
Equity Compensation Plans Approved by Summit Hotel Properties, Inc. Stockholders ⁽²⁾	235,000	\$ 9.75	2,254,653
Equity Compensation Plans Not Approved by Summit Hotel Properties, Inc. Stockholders	—	—	—
Total	235,000	\$ 9.75	2,254,653

(1) Excludes securities reflected in the column entitled “Number of Securities to be Issued Upon Exercise of Outstanding Options.”

(2) Consists of our Equity Plan.

The following table represents common shares retained by the Company for employee taxes due upon vesting of equity awards during the year ended December 31, 2018:

Period	Total Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
January 1, 2018 - January 31, 2018	116,160	\$ 15.23	—	—
March 1, 2018 - March 31, 2018	71,690	\$ 13.32	—	—
Total	187,850		—	

Stock Performance Graph

The following graph compares the yearly change in our cumulative total stockholder return on our common shares from December 31, 2013 through December 31, 2018, with the yearly change in the Standard and Poor's 500 Stock Index ("S&P 500 Index"), and the SNL US REIT Hotel Index for the same period, assuming a base share price of \$100.00 for our common stock, the S&P 500 Index and the SNL US REIT Hotel Index for comparative purposes. The SNL US REIT Hotel Index is composed of publicly traded REITs, all of which focus on investments in hotel properties. Total stockholder return equals appreciation in stock price plus dividends paid and assumes that all dividends are reinvested. The performance graph is not indicative of future investment performance. We do not make or endorse any predictions as to future share price performance.

Index	Period Ended					
	12/31/2013	12/31/2014	12/31/2015	12/31/2016	12/31/2017	12/31/2018
Summit Hotel Properties, Inc.	100.00	144.60	144.07	201.94	200.32	135.13

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Industry Trends and Outlook

Room-night demand in the U.S. lodging industry is generally correlated to certain macroeconomic trends. Key drivers of lodging demand include growth in gross domestic product, corporate profits, capital investments and employment. Volatility in the economy and lodging demand and risks arising from global and domestic political or economic conditions may cause a slowing or decline of economic growth, which would have an adverse effect on lodging demand. Also, increasing supply in the industry, and specifically in our markets or sub-markets, may reduce RevPAR growth expectations.

The U.S. lodging industry has experienced a positive trend since emerging from the last downturn in 2009, though at a slower rate in 2018. According to the PricewaterhouseCoopers LLP industry report, "Hospitality Directions: January 2019," RevPAR growth in the U.S. for Upscale hotels is forecasted to be 1.5% for 2019. While our outlook on national macroeconomic conditions is stable, the velocity of RevPAR growth for fiscal year 2018 decelerated from 2017. Our industry and the Upscale market segment have experienced declining rates of RevPAR growth and we could experience a decline in our RevPAR growth in the near term due to increases in supply or reduced demand in our market or sub-markets.

Operating Performance Metrics

We use a variety of performance indicators and other information to evaluate the financial condition and operating performance of our business. These key indicators include financial information that is prepared in accordance with GAAP, as well as other financial information that is not prepared in accordance with GAAP. In addition, we use other information that may not be financial in nature, including statistical information and comparative data. We use this information to measure the performance of individual hotel properties, groups of hotel properties and/or our business as a whole. We periodically compare historical information to our internal budgets as well as industry-wide information. These key indicators include:

• **Occupancy** — Occupancy represents the total number of guestrooms occupied divided by the total number of guestrooms available.

• **Average Daily Rate (ADR)** — ADR represents total room revenues divided by the total number of guestrooms occupied.

• **Revenue Per Available Room (RevPAR)** — RevPAR is the product of ADR and Occupancy.

Occupancy, ADR and RevPAR are commonly used measures within the hotel industry to evaluate operating performance. RevPAR is an important metric for monitoring operating performance at the individual hotel property level and across our business as a whole. We evaluate individual hotel RevPAR performance on an absolute basis with comparisons to budget and prior periods, as well as on a company-wide and market-by-market basis. ADR and RevPAR are based only on room revenue. Room revenue depends on demand (as measured by occupancy), pricing (as measured by ADR), and our available supply of hotel guestrooms. Our ADR, occupancy and RevPAR performance may be affected by macroeconomic factors such as regional and local employment growth, personal income and corporate earnings, office vacancy rates and business relocation decisions, air travel and other business and leisure travel, new hotel property construction, and the pricing strategies of competitors. In addition, our ADR, occupancy and RevPAR performance is dependent on the continued success of our franchisors and brands.

Hotel Property Portfolio Activity

Acquisitions

We acquired one hotel property in 2018 and 14 hotel properties in 2017. A summary of these acquisitions is as follows (dollars in thousands):

Date Acquired	Franchise/Brand	Location	Guestrooms	Purchase Price ⁽¹⁾
Year Ended December 31, 2018				
September 12, 2018	Residence Inn by Marriott	Boston (Watertown), MA	150	\$71,000 ⁽²⁾
Year Ended December 31, 2017				
March 1, 2017	Homewood Suites	Aliso Viejo (Laguna Beach), CA	129	\$38,000
March 30, 2017	Hyatt Place	Phoenix (Mesa), AZ	152	22,200
May 23, 2017	Courtyard by Marriott	Fort Lauderdale, FL	261	85,000
June 9, 2017	Courtyard by Marriott	Charlotte, NC	181	56,250
June 21, 2017	Portfolio Purchase - five properties ⁽⁴⁾	various ⁽⁴⁾	812	163,000
July 13, 2017	AC Hotel by Marriott	Atlanta, GA	255	57,500
November 14, 2017	Portfolio Purchase - four properties ⁽⁵⁾	various ⁽⁵⁾	652	164,000
			2,442	\$585,950 ⁽³⁾

(1) In addition to the purchase price, we generally anticipate investing additional amounts for hotel renovations at the time we purchase a hotel property. Such additional investments are included in our underwriting of the hotel property prior to purchase, but are not included in the table above.. See Item 7. – "Management's Discussion and Analysis of Financial Condition and Results of Operations – Capital Expenditures."

(2) The net assets acquired totaled \$71.0 million due to the purchase at settlement of \$0.1 million of net working capital liabilities and capitalized transaction costs of \$0.1 million.

(3) The net assets acquired totaled \$588.8 million due to the purchase at settlement of \$0.2 million of net working capital assets and capitalized transaction costs of \$2.6 million.

(4) On June 21, 2017, we acquired a portfolio of five hotels for an aggregate purchase price of \$163.0 million. The hotels acquired included the Courtyard by Marriott - Fort Worth, TX, the Courtyard by Marriott - Kansas City, MO, the Courtyard by Marriott - Pittsburgh, PA, the Hampton Inn & Suites - Baltimore, MD, and the Residence Inn by Marriott - Baltimore, MD.

(5) On November 14, 2017, we acquired a portfolio of four hotels for an aggregate purchase price of \$164.0 million. The hotels acquired included the Courtyard by Marriott - New Haven, CT, the Hilton Garden Inn - Waltham, MA, the Homewood Suites - Tucson, AZ, and the Residence Inn by Marriott - Cleveland, OH.

The purchase price of the hotel acquired in 2018 was funded by an advance on our \$300 Million Revolver, cash generated from the sale of properties, and operating cash flows. The purchase price of the 14 hotels acquired in 2017 was funded by a combination of the net proceeds from our Series E cumulative redeemable preferred stock offering, the net proceeds from the sale of common stock, advances on our senior unsecured credit and term loan facility, advances on our 2017 term loan, cash generated from the sale of properties, and operating cash flows.

Recently Developed Property

We completed the development and commenced operations of the new 168-guestroom Hyatt House Across From Orlando Universal Resort™ on June 27, 2018. The total construction cost for this hotel was \$32.8 million, excluding land that we acquired in a prior-year transaction. The carrying amount for this hotel includes internal capitalized costs of \$1.6 million. Total costs of \$37.2 million, including the carrying amount of the land of \$2.8 million, were reclassified as Investment in hotel properties, net upon completion of construction.

Asset Sales

A summary of the dispositions in 2018 and 2017 follows (dollars in thousands):

Disposition Date	Franchise/Brand	Location	Guestrooms	Gross Sales Price	Aggregate Gain, net
Year Ended December 31, 2018					
June 29, 2018	Portfolio Sale - two properties ⁽¹⁾	various ⁽¹⁾	175	\$ 18,950	\$ 13,133
June 29, 2018	Portfolio Sale - two properties ⁽²⁾	Duluth, GA ⁽²⁾	265	24,850	4,218
July 24, 2018	Portfolio Sale - three properties ⁽³⁾	various ⁽³⁾	322	46,500	22,964
September 28, 2018	Hyatt Place	Fort Myers, FL	148	16,500	2,195
November 7, 2018	Land parcel	Spokane, WA	n/a	450	139
Total			910	\$ 107,250	\$ 42,649
Year Ended December 31, 2017					
March 30, 2017	Hyatt Place	Atlanta, GA	150	\$ 14,500	\$ 4,781
April 27, 2017	HIT Portfolio Sale - seven properties ⁽⁴⁾	various ⁽⁴⁾	651	66,753	15,986
June 2, 2017	Courtyard by Marriott	El Paso, TX	90	11,150	363
July 21, 2017	Portfolio Sale - three properties ⁽⁵⁾	Fort Worth, TX ⁽⁵⁾	273	27,750	8,133
Total			1,164	\$ 120,153	\$ 29,263

(1) The portfolio included the Hampton Inn in Provo, UT and the Holiday Inn Express & Suites in Sandy, UT.

The portfolio included the Holiday Inn in Duluth, GA and the Hilton Garden Inn in Duluth, GA. We provided

(2) seller financing of \$3.6 million on the sale of these properties under two three-and-a-half-year second mortgage notes with a blended interest rate of 7.38%.

The portfolio included the Hampton Inn & Suites in Smyrna, TN, the Hilton Garden Inn in Smyrna, TN and the

(3) Hyatt Place Phoenix North in Phoenix, AZ. The proceeds from these sales were used to complete a 1031 Exchange, which resulted in the deferral of taxable gains of \$22.2 million.

The portfolio sale completed our dispositions to Hospitality Investors Trust, Inc.. The proceeds from these sales

(4) were used to complete a 1031 Exchange, which resulted in the deferral of taxable gains of \$20.8 million. See below for further information.

The portfolio included the Fairfield Inn & Suites, the Hampton Inn & Suites and the Hilton Garden Inn in Fort

(5) Worth, TX. The proceeds from these sales were used to complete a 1031 Exchange, which resulted in the deferral of taxable gains of \$8.6 million.

Dispositions to Affiliates of Hospitality Investors Trust, Inc. (formerly American Realty Capital Hospitality Trust, Inc.)

On June 8, 2015, we entered into multiple sales agreements with affiliates of Hospitality Investors Trust, Inc. ("HIT") for the sale of a portfolio of hotels to HIT. The agreements were modified on various occasions between 2015 and 2017 such that we sold 23 hotels containing 2,448 guestrooms to HIT in three tranches over that time period for a combined sales price of approximately \$325.1 million (collectively, the "HIT Sale") as follows (dollars in thousands):

Tranche	Closing Date	Hotels Sold	Combined Sales Price
1	October 2015	10	\$ 150,000

2	February 2016	6	108,300
3	April 2017	7	66,800
		23	\$ 325,100

In connection with the HIT Sale, the Operating Partnership entered into a loan agreement with HIT, as borrower, which provided for a loan by us to HIT in the amount of \$27.5 million (the "Loan"). The proceeds from the Loan were applied by HIT as follows: (i) \$20.0 million was applied toward the payment of a portion of the \$108.3 million purchase price for the six hotels acquired in the second tranche; and (ii) the remaining \$7.5 million was applied by HIT to fund the escrow deposit required for the purchase of the seven hotels in the third tranche. We deferred \$20.0 million of gain from the sale of the hotels in the second tranche as a result of the Loan structure. We recognized the deferred gain as principal payments on the Loan were received, and we recognized the final \$15.0 million of gain when the Loan was paid in full on March 31, 2017.

Hotel Revenues and Operating Expenses

Our revenues are derived from hotel operations and consist of room revenue, food and beverage revenue and other revenue. As a result of our focus on select-service hotels, substantially all of our revenues are related to the sales of hotel guestrooms. Our other revenue consists of ancillary revenues related to meeting rooms, parking and other guest services provided at certain of our hotel properties.

Our hotel operating expenses consist primarily of expenses incurred in the day-to-day operation of our hotel properties. Many of our expenses are fixed, such as essential hotel staff, real estate taxes, insurance, depreciation and certain

types of franchise fees, and these expenses do not decrease even if the revenues at our hotel properties decrease. Room expense includes housekeeping and front office wages and payroll taxes, reservation systems, room supplies, laundry services and other costs. Food and beverage expense primarily includes the cost of food, the cost of beverages and associated labor costs. Other operating expenses include labor and other costs associated with administrative departments, sales and marketing, repairs and maintenance, utility costs and franchise fees.

Results of Operations

The comparisons that follow should be reviewed in conjunction with the Consolidated Financial Statements included elsewhere in this Form 10-K.

Comparison of 2018 to 2017

The following table contains key operating metrics for our total portfolio and our same-store portfolio for 2018 compared with 2017 (dollars in thousands, except ADR and RevPAR). We define same-store hotels as properties that we owned as of December 31, 2018 and that we have owned at all times since January 1, 2017.

	2018		2017		Year-over-Year Dollar Change		Year-over-Year Percentage Change	
	Total Portfolio (77 hotels)	Same-Store Portfolio (61 hotels)	Total Portfolio (83 hotels)	Same-Store Portfolio (61 hotels)	Total Portfolio (77/83 hotels)	Same-Store Portfolio (61/61 hotels)	Total Portfolio (77/83 hotels)	Same-Store Portfolio (61/61 hotels)
Revenues:								
Room	\$523,439	\$388,126	\$479,934	\$388,743	\$43,505	\$ (617)	9.1 %	(0.2)%
Food and beverage	24,773	17,139	21,919	17,130	2,854	9	13.0 %	0.1 %
Other	19,058	12,270	13,524	10,684	5,534	1,586	40.9 %	14.8 %
Total	\$567,270	\$417,535	\$515,377	\$416,557	\$51,893	\$ 978	10.1 %	0.2 %
Expenses:								
Room	\$119,724	\$91,070	\$108,715	\$88,242	\$11,009	\$ 2,828	10.1 %	3.2 %
Food and beverage	19,447	13,195	17,002	12,936	2,445	259	14.4 %	2.0 %
Other hotel operating expenses	158,917	115,616	144,258	113,982	14,659	1,634	10.2 %	1.4 %
Total	\$298,088	\$219,881	\$269,975	\$215,160	\$28,113	\$ 4,721	10.4 %	2.2 %
Occupancy	77.9 %	77.7 %	78.9 %	79.1 %	n/a	n/a	(104) bps	(143) bps
ADR	\$153.79	\$153.87	\$146.74	\$151.43	\$7.05	\$ 2.44	4.8 %	1.6 %
RevPAR	\$119.75	\$119.53	\$115.80	\$119.80	\$3.95	\$ (0.27)	3.4 %	(0.2)%

The total portfolio information above includes revenues and expenses from the one hotel we acquired and the one hotel we developed in 2018 (the “2018 Acquired Hotels”) and the fourteen hotel properties that we acquired in 2017 (the “2017 Acquired Hotels”) from the date of acquisition through December 31, 2018, and operating information (occupancy, ADR, and RevPAR) for the period each hotel was owned. Accordingly, the information does not reflect a full twelve months of operations in 2018 for the 2018 Acquired Hotels or a full twelve months of operations in 2017 for the 2017 Acquired Hotels. The combined 2018 Acquired Hotels and 2017 Acquired Hotels are referred to as the “2018/2017 Acquired Hotels.”

Revenues. Total revenues for the total portfolio increased \$51.9 million, or 10.1%, in 2018. The growth was due to incremental revenues of \$78.4 million generated by the 2018/2017 Acquired Hotels and a \$1.0 million increase in

same-store revenues, partially offset by a \$27.5 million decline in revenue related to the hotel properties sold after December 31, 2016.

The 3.4% increase in RevPAR for the total portfolio in 2018 compared to 2017 is the result of the purchase of higher RevPAR hotel properties with the 2018/2017 Acquired Hotels, which produced an aggregate RevPAR of \$126.13 in 2018 and the sale of lower RevPAR hotels since December 31, 2017, which produced an aggregate RevPAR of \$91.01 in 2017.

Expenses. The \$28.1 million increase in total portfolio expenses in 2018 compared to 2017 is the result of incremental expenses of \$39.5 million due to the 2018/2017 Acquired Hotels and an increase in same-store expenses of \$4.7 million, partially offset by a decline in expenses of \$16.1 million related to properties sold after December 31, 2016. The increase in total portfolio and same-store expenses in 2018 compared to 2017 was primarily driven by increased labor costs. We anticipate that labor costs will continue to grow particularly in certain markets with more supply growth or lower unemployment rates.

Property taxes, insurance and other. The increase in property taxes, insurance and other of \$5.9 million in 2018 compared to 2017 is primarily due to an increase in property taxes related to the 2018/2017 Acquired Hotels of \$7.5 million. This increase was partially offset by a decline in same-store property tax expense of \$0.7 million and a \$1.0 million reduction in property tax expense related to the hotel properties sold after December 31, 2016.

Depreciation and Amortization. Depreciation and amortization expense increased \$15.1 million, or 17.6%, in 2018, due to incremental depreciation associated with the 2018/2017 Acquired Hotels of \$16.4 million and an increase in depreciation expense of \$1.7 million for the same-store portfolio due to capital renovations at same-store properties, partially offset by a decline in depreciation expense of \$3.0 million related to the hotel properties sold after December 31, 2016.

Corporate General and Administrative. Corporate general and administrative expenses increased by \$1.9 million, or 9.8%, in 2018. This increase was primarily due to increases in stock-based compensation and incentive compensation costs. The increase in stock-based compensation expense related primarily to the modification of grants to our former Chief Financial Officer who retired on March 31, 2018.

Gain on Disposal of Assets. Gain on disposal of assets decreased by \$1.7 million in 2018. This reduction is primarily due to the sale of eight hotels in 2018 for a net gain of \$42.5 million compared to the sale of 12 hotels in 2017 for a net gain of \$29.3 million and the recognition of \$15.0 million in deferred gains in 2017 related to the HIT Sale (See Item 7. — “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Hotel Property Portfolio Activity”).

Other Income. Other income, net increased by \$3.2 million in 2018. In April 2018, we reached a settlement related to a third-party-caused industrial disaster that occurred in a prior period and affected several of our coastal properties. As a result, we received a net recovery of \$2.0 million during 2018 that we recorded as Other income.

Income Tax Expense/Benefit. In 2018, we recorded an income tax benefit of \$0.9 million, which includes a discrete income tax benefit of \$0.9 million associated with amending certain prior year state tax returns to claim a deduction for distributions made by the Operating Partnership to Summit Hotel Properties, Inc.

In 2017, we recorded an income tax expense of \$1.7 million, which includes \$0.6 million associated with the remeasurement of our deferred tax assets as a result of the passage of TCJA in December 2017, which reduced the maximum corporate federal income tax rate to 21% beginning on January 1, 2018.

Comparison of 2017 to 2016

The following table contains key operating metrics for our total portfolio and our same-store portfolio for 2017 compared with 2016 (dollars in thousands, except ADR and RevPAR). We define same-store hotels as properties that we owned as of December 31, 2017 and that we have owned at all times since January 1, 2016.

	2017		2016		Year-over-Year Dollar Change		Year-over-Year Percentage Change	
	Total Portfolio (83 hotels)	Same-Store Portfolio (65 hotels)	Total Portfolio (81 hotels)	Same-Store Portfolio (65 hotels)	Total Portfolio (83/81 hotels)	Same-Store Portfolio (65/65 hotels)	Total Portfolio (83/81 hotels)	Same-Store Portfolio (65/65 hotels)
Revenues:								
Room	\$479,934	\$375,467	\$443,270	\$375,409	\$36,664	\$ 58	8.3 %	— %
Food and beverage	21,919	16,443	19,777	17,082	2,142	(639)	10.8 %	(3.7)%
Other	13,524	8,778	10,888	8,529	2,636	249	24.2 %	2.9 %
Total	\$515,377	\$400,688	\$473,935	\$401,020	\$41,442	\$ (332)	8.7 %	(0.1)%
Expenses:								
Room	\$108,715	\$86,821	\$97,358	\$82,250	\$11,357	\$ 4,571	11.7 %	5.6 %
Food and beverage	17,002	12,765	14,841	12,732	2,161	33	14.6 %	0.3 %
Other hotel operating expenses	144,258	111,946	134,420	111,153	9,838	793	7.3 %	0.7 %
Total	\$269,975	\$211,532	\$246,619	\$206,135	\$23,356	\$ 5,397	9.5 %	2.6 %
Occupancy	78.9 %	78.9 %	77.9 %	78.1 %	n/a	n/a	100 bps	80 bps
ADR	\$146.74	\$144.09	\$141.77	\$145.15	\$4.97	\$ (1.06)	3.5 %	(0.7)%
RevPAR	\$115.80	\$113.65	\$110.41	\$113.41	\$5.39	\$ 0.24	4.9 %	0.2 %

The total portfolio information above includes revenues and expenses from the fourteen hotels we acquired in 2017 (the “2017 Acquired Hotels”) and the four hotel properties we acquired in 2016 (the “2016 Acquired Hotels”) from the date of acquisition through December 31, 2017, and operating information (occupancy, ADR, and RevPAR) for the period each hotel was owned. Accordingly, the information does not reflect a full twelve months of operations in 2017 for the 2017 Acquired Hotels or a full twelve months of operations in 2016 for the 2016 Acquired Hotels. The combined 2017 Acquired Hotels and 2016 Acquired Hotels are referred to as the “2017/2016 Acquired Hotels.”

Revenues. Total revenues for the total portfolio increased \$41.4 million, or 8.7%, in 2017. The growth was due to incremental revenues of \$72.7 million generated by the 2017/2016 Acquired Hotels, partially offset by a \$0.3 million decline in same-store revenues and a \$31.0 million decline in revenue related to the hotel properties sold after December 31, 2015.

Same-store revenues were flat from 2016 to 2017. RevPAR for the total portfolio increased by 4.9% in 2017 compared to 2016 as the result of the purchase of higher RevPAR hotel properties with the 2017/2016 Acquired Hotels, which produced an aggregate RevPAR of \$134.15 in 2017; the sale of lower RevPAR hotels since December 31, 2016, which produced an aggregate RevPAR of \$81.00 in 2016; and an increase in RevPAR for same-store hotel properties of 0.2% in 2017.

Expenses. The \$23.4 million increase in total portfolio expenses in 2017 compared to 2016 is the result of incremental expenses of \$37.0 million due to the 2017/2016 Acquired Hotels and an increase in same-store expenses of \$5.4 million, partially offset by a decline in expenses of \$19.0 million related to properties sold after December 31, 2015. The increase in total portfolio and same-store expenses in 2017 compared to 2016 was primarily driven by increased

labor costs.

Property taxes, insurance and other. The increase in property taxes, insurance and other of \$7.2 million in 2017 compared to 2016 is primarily due to an increase in property taxes related to the 2017/2016 Acquired Hotels of \$5.7 million and an increase in same-store property taxes of \$2.5 million, partially offset by a \$1.3 million reduction in property tax expense related to the hotel properties sold after December 31, 2015.

Depreciation and Amortization. Depreciation and amortization expense increased \$13.5 million, or 18.7%, in 2017, primarily due to incremental depreciation associated with the 2017/2016 Acquired Hotels of \$15.2 million partially offset by the decrease in depreciation and amortization related to the properties disposed in 2016 and 2017 of \$1.4 million.

Corporate General and Administrative. Corporate general and administrative expenses increased by \$0.3 million, or 1.6%, in 2017. This increase was primarily due to an increase in stock-based compensation expense of \$1.7 million and other miscellaneous general and administrative expenses of \$0.6 million, partially offset by a reduction in employee-related incentive compensation costs of \$2.0 million.

Gain on Disposal of Assets. Gain on disposal of assets decreased by \$6.6 million in 2017. This reduction is primarily due to the sale of ten hotels in 2016 for a net gain of \$49.8 million compared to the sale of 12 hotels in 2017 for a net gain of \$29.3 million and the recognition of \$15.0 million in deferred gains in 2017 related to the HIT Sale.

Income Tax Expense/Benefit. In 2017, we recorded an income tax expense of \$1.7 million, which includes \$0.6 million associated with the remeasurement of our deferred tax assets as a result of the passage of TCJA in December 2017, which reduced the maximum corporate federal income tax rate to 21% beginning on January 1, 2018.

Our total income tax benefit in 2016 was \$1.5 million based on the performance of our TRS lessees and a deferred tax adjustment related to corporate general and administrative expenses allocated to our TRS lessees.

Non-GAAP Financial Measures

We disclose certain “non-GAAP financial measures,” which are measures of our historical financial performance. Non-GAAP financial measures are financial measures not prescribed by Generally Accepted Accounting Principles (“GAAP”). These measures are as follows: (i) Funds From Operations (“FFO”) and Adjusted Funds from Operations (“AFFO”), (ii) Earnings before Interest, Taxes, Depreciation and Amortization (“EBITDA”), Earnings before Interest, Taxes, Depreciation and Amortization for Real Estate (“EBITDAre”) and Adjusted EBITDAre (as described below). We caution investors that amounts presented in accordance with our definitions of non-GAAP financial measures may not be comparable to similar measures disclosed by other companies, since not all companies calculate these non-GAAP financial measures in the same manner. Our non-GAAP financial measures should be considered along with, but not as alternatives to, net income (loss) as a measure of our operating performance. Our non-GAAP financial measures may include funds that may not be available for our discretionary use due to functional requirements to conserve funds for capital expenditures, property acquisitions, debt service obligations and other commitments and uncertainties. Although we believe that our non-GAAP financial measures can enhance the understanding of our financial condition and results of operations, these non-GAAP financial measures are not necessarily better indicators of any trend as compared to a comparable measure prescribed by GAAP such as net income (loss).

FFO and AFFO

As defined by Nareit, FFO represents net income or loss (computed in accordance with GAAP), excluding preferred dividends, gains (or losses) from sales of real property, impairment losses on real estate assets, items classified by GAAP as extraordinary, the cumulative effect of changes in accounting principles, plus depreciation and amortization related to real estate assets, and adjustments for unconsolidated partnerships and joint ventures. AFFO represents FFO excluding amortization of deferred financing costs, franchise fees, equity-based compensation expense, debt transaction costs, premiums on redemption of preferred shares, losses from net casualties, non-cash interest income and non-cash income tax related adjustments to our deferred tax asset. Unless otherwise indicated, we present FFO and AFFO applicable to our common shares and common units. We present FFO and AFFO because we consider FFO and AFFO an important supplemental measure of our operational performance and believe it is frequently used by

securities analysts, investors and other interested parties in the evaluation of REITs, many of which present FFO and AFFO when reporting their results. FFO and AFFO are intended to exclude GAAP historical cost depreciation and amortization, which assumes that the value of real estate assets diminishes ratably over time. Historically, however, real estate values have risen or fallen with market conditions. Because FFO and AFFO exclude depreciation and amortization related to real estate assets, gains and losses from real property dispositions and impairment losses on real estate assets, FFO and AFFO provide performance measures that, when compared year over year, reflect the effect to operations from trends in occupancy, guestroom rates, operating costs, development activities and interest costs, providing perspective not immediately apparent from net income. Our computation of FFO differs slightly from the computation of Nareit-defined FFO related to the reporting of corporate depreciation and amortization expense. Our computation of FFO may also differ from the methodology for calculating FFO used by other equity REITs and, accordingly, may not be comparable to such other REITs. FFO and AFFO should not be considered as an alternative to net income (loss) (computed in accordance with GAAP) as an indicator of our liquidity, nor is it indicative of funds available to fund our cash

needs, including our ability to pay dividends or make distributions. Where indicated in this Annual Report on Form 10-K, FFO is based on our computation of FFO and not the computation of Nareit-defined FFO unless otherwise noted.

The following is a reconciliation of our GAAP net income to FFO and AFFO for the years ended December 31, 2018, 2017 and 2016 (in thousands, except per share/unit amounts):

	2018	2017	2016
Net income	\$91,126	\$99,521	\$108,261
Preferred dividends	(16,671)	(17,408)	(18,232)
Premium on redemption of preferred stock	(3,277)	(2,572)	(2,125)
Net income applicable to common shares and common units	71,178	79,541	87,904
Real estate-related depreciation	100,545	85,524	72,063
Loss on impairment of assets	1,075	—	577
Gain on disposal of assets, net	(41,474)	(43,209)	(49,855)
FFO applicable to common shares and common units	131,324	121,856	110,689
Amortization of lease-related intangible assets, net	712	—	—
Amortization of deferred financing costs	1,973	2,022	2,143
Amortization of franchise fees	468	403	343
Equity-based compensation	6,665	5,887	4,221
Hotel property acquisition costs	—	354	3,492
Debt transaction costs	401	195	538
Premium on redemption of preferred stock	3,277	2,572	2,125
Non-cash interest income	(2,045)	(284)	—
Casualty (recoveries) losses, net	(1,786)	500	222
Non-cash income tax related to adjustment to deferred tax asset	—	606	—
AFFO applicable to common shares and common units	\$140,989	\$134,111	\$123,773
Weighted average diluted common shares/common units ⁽¹⁾	104,315	100,372	87,798
FFO per common share/common unit	\$1.26	\$1.21	\$1.26
AFFO per common share/common unit	\$1.35	\$1.34	\$1.41

(1) Includes Common Units in the Operating Partnership held by limited partners (other than us and our subsidiaries) because the Common Units are redeemable for cash or, at our election, shares of our common stock.

During the year ended December 31, 2018, AFFO applicable to common shares and common units increased \$6.9 million, or 5.1%, over the prior year due primarily to an increase in operating income and a reduction in income taxes, partially offset by an increase in interest expense.

During the year ended December 31, 2017, AFFO applicable to common shares and common units increased \$10.3 million, or 8.4%, over the prior year due primarily to an increase in operating income partially offset by an increase in income taxes.

EBITDA, EBITDAre and Adjusted EBITDAre

EBITDA

EBITDA represents net income or loss, excluding: (i) interest, (ii) income tax expense and (iii) depreciation and amortization. We believe EBITDA is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps

investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results. Our management team also uses EBITDA as one measure in determining the value of acquisitions and dispositions.

EBITDAre and Adjusted EBITDAre

In September 2017, Nareit proposed a standardized performance measure, called EBITDAre, which is based on EBITDA and is expected to provide additional relevant information about REITs as real estate companies in support of growing interest among generalist investors. The conclusion was reached that, while dedicated REIT investors have long been accustomed to utilizing the industry's supplemental measures such as FFO and net operating income ("NOI") to evaluate the investment quality of REITs as real estate companies, it would be helpful to generalist investors for REITs as real estate companies to also present EBITDAre as a more widely known and understood supplemental measure of performance. EBITDAre is intended to be a supplemental non-GAAP performance measure that is independent of a company's capital structure and will provide a uniform basis to measure the enterprise value of a company compared to other REITs.

Nareit recommended that companies report EBITDAre in all financial reports for periods beginning after December 31, 2017. We have adopted Nareit's presentation of EBITDAre for this Annual Report on Form 10-K.

EBITDAre, as defined by Nareit, is calculated as EBITDA, excluding: (i) loss and gains on disposition of property and (ii) asset impairments, if any. We believe EBITDAre is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results.

We make additional adjustments to EBITDAre when evaluating our performance because we believe that the exclusion of certain additional non-recurring or unusual items described below provides useful supplemental information to investors regarding our ongoing operating performance. We believe that the presentation of Adjusted EBITDAre, when combined with the primary GAAP presentation of net income, is useful to an investor in evaluating our operating performance because it provides investors with an indication of our ability to incur and service debt, to satisfy general operating expenses, to make capital expenditures and to fund other cash needs or reinvest cash into our business. We also believe it helps investors meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our asset base (primarily depreciation and amortization) from our operating results.

The following is a reconciliation of our GAAP net income to EBITDAre for the years ended December 31, 2018, 2017 and 2016 (in thousands):

	2018	2017	2016
Net income	\$91,126	\$99,521	\$108,261
Depreciation and amortization	101,013	85,927	72,406
Interest expense	41,944	29,687	28,091
Interest income	(229)	(104)	(22)
Income tax (benefit) expense	(922)	1,674	(1,450)
EBITDA	232,932	216,705	207,286
Loss on impairment of assets	1,075	—	577
Gain on disposal of assets, net	(41,474)	(43,209)	(49,855)
EBITDAre	192,533	173,496	158,008
Amortization of lease-related intangible assets, net	712	—	—
Equity-based compensation	6,665	5,887	4,221
Hotel property acquisition costs	—	354	3,492
Debt transaction costs	401	195	538
Non-cash interest income	(2,045)	(284)	—

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-K

Casualty (recoveries) losses, net	(1,786	) 500	222
Adjusted EBITDAre	\$196,480	\$180,148	\$166,481

During the year ended December 31, 2018, Adjusted EBITDAre increased \$16.3 million, or 9.1%, from the prior year primarily due to an increase in operating income partially offset by an increase in corporate general and administrative expenses and a reduction in other income.

During the year ended December 31, 2017, Adjusted EBITDA increased \$13.7 million, or 8.2%, from the prior year primarily due to increases in operating income and other income and a reduction in corporate general and administrative expenses.

Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of operating expenses and other expenditures directly associated with our hotel properties, recurring maintenance and capital expenditures necessary to maintain our hotel properties in accordance with internal and brand standards, capital expenditures to improve our hotel properties, hotel development costs, acquisitions, interest payments, settlement of interest rate swaps, scheduled principal payments on outstanding indebtedness, restricted cash funding obligations, corporate overhead, and distributions to our stockholders. Our long-term liquidity requirements consist primarily of the costs of acquiring additional hotel properties, renovations and other non-recurring capital expenditures that periodically are made with respect to our hotel properties, dividend distributions, and scheduled debt payments, including maturing loans.

To satisfy the requirements for qualification as a REIT, we must meet a number of organizational and operational requirements, including a requirement that we distribute annually at least 90% of our REIT taxable income to our stockholders, determined without regard to the deduction for dividends paid and excluding any net capital gains. We intend to distribute a sufficient amount of our taxable income to maintain our status as a REIT and to avoid tax on undistributed income. Because we anticipate distributing a substantial amount of our available cash from operations, if sufficient funds are not available to us from hotel dispositions, our senior unsecured revolving credit and term loan facilities and additional mortgage and other loans, we will need to raise capital to grow our business and invest in additional hotel properties.

We expect to satisfy our liquidity requirements with cash provided by operations, working capital, short-term borrowings under our \$600 million senior unsecured credit and term loan facility, term debt, repayment of notes receivable, the strategic sale of hotels and the release of restricted cash upon satisfaction of the usage requirements. In addition, we may fund the purchase price of hotel acquisitions, hotel development costs, and cost of required capital improvements by borrowing under our senior unsecured credit and term loan facility, assuming mortgage debt from the seller on acquired hotels, issuing securities (including common units issued by our Operating Partnership), or incurring mortgage or other types of debt. Further, we may seek to meet our liquidity requirements by raising capital through public or private offerings of our equity or debt securities. However, certain factors may have an adverse effect on our ability to access these capital sources, including our degree of leverage, the value of our unencumbered hotel properties, borrowing restrictions imposed by lenders, volatility in the equity and debt capital markets and other market conditions. We will continue to analyze which sources of capital are most advantageous to us at any particular point in time, but financing may not be consistently available to us on terms that are attractive, or at all. We believe that our cash provided by operations, working capital, borrowings available under our \$600 million senior unsecured credit and term loan facility (defined below), our MetaBank Loan, our 2018 Term Loan, and our 2017 Term Loan and other sources of funds available to us will be sufficient to meet our ongoing liquidity requirements for at least the next twelve months.

On December 31, 2018, we repaid four mortgage loans with Voya that had a maturity date of March 1, 2019 and totaled \$107.1 million. There were no prepayment penalties associated with this transaction.

On December 6, 2018, the Company entered into a new \$600 million senior unsecured credit facility that replaced the former \$450 million senior unsecured credit facility. The new credit facility extended the maturity date of the revolving line of credit under the former credit facility from 2020 to 2023 and the maturity date of the term loan component under the former credit facility from 2021 to 2024. See “Outstanding Indebtedness” below for further information.

On April 2, 2018, we repaid four mortgage loans with Western Alliance Bank with a maturity date of April 1, 2020 and totaled \$23.9 million. There were no prepayment penalties associated with this transaction.

On February 15, 2018, we entered into a \$225.0 million unsecured term loan with KeyBank National Association as administrative agent (the "2018 Term Loan") which includes an accordion feature which allows us to increase the total commitments by an aggregate of \$150.0 million prior to the maturity date, subject to certain conditions. See "Outstanding Indebtedness" below for further information.

At December 31, 2018, our scheduled debt principal amortization payments during the next 12 months total approximately \$4.6 million. Although we believe we will have the capacity to pay these scheduled principal debt payments or that we will be able to fund them using draws under the 2018 Unsecured Credit Facility, there can be no assurances that our credit facility will be available to repay such amortizing debt as draws under our credit facility are subject to certain financial

covenants. At December 31, 2018, we were in compliance with all of our covenants under the \$600 million senior unsecured credit and term loan facility.

We have made three mezzanine construction loans to fund up to an aggregate of \$29.6 million for the development of three hotel properties. These three real estate loans closed in the fourth quarter of 2017 and each has a stated interest rate of 8.0% and an initial term of approximately three years. As of December 31, 2018, we have funded the full amount of \$29.6 million. See "Note 4 - Investment in Real Estate Loans" to the Consolidated Financial Statements for additional information concerning these loans and our rights to acquire ownership of the properties.

Outstanding Indebtedness

At December 31, 2018, we had \$200.0 million in outstanding indebtedness secured by first priority mortgage liens on 21 hotel properties. We also had borrowed \$315.0 million on our \$600 million senior unsecured credit and term loan facility (the "2018 Unsecured Credit Facility"), \$225.0 million on our 2018 Term Loan, and \$225.0 million on our 2017 Term Loan, each of which were supported at December 31, 2018 by a borrowing base of 56 unencumbered hotel properties. At December 31, 2018, the maximum amount of borrowing permitted under the 2018 Unsecured Credit Facility was \$600.0 million, of which we had borrowed \$315.0 million and \$285.0 million was available to borrow. Please see "Note 6 - Debt" to the Consolidated Financial Statements for additional information concerning the 2018 Unsecured Credit Facility, the 2018 Term Loan and the 2017 Term Loan.

On June 11, 2018, we entered into a \$75.0 million interest rate swap agreement with an effective date of September 28, 2018 and a \$125.0 million interest rate swap with an effective date of December 31, 2018, to fix the interest rate on a portion of our variable interest rate unsecured indebtedness. The swaps convert LIBOR from a floating rate to an average fixed rate of 2.91%.

We intend to secure or assume term loan financing or use our senior unsecured credit and term loan facility, together with other sources of financing, to fund future acquisitions and capital improvements. We may not succeed in obtaining new financing on favorable terms, or at all, and we cannot predict the size or terms of future financings. Our failure to obtain new financing could adversely affect our ability to grow our business.

We intend to maintain a prudent capital structure and, while the ratio will vary from time to time, we generally intend to limit our ratio of indebtedness to EBITDA to no more than 6.5x. For purposes of calculating this ratio, we exclude preferred stock from indebtedness.

We have obtained financing through debt instruments having staggered maturities and intend to continue to do so in the future. Our debt includes, and may include in the future, debt secured by first priority mortgage liens on certain hotel properties and unsecured debt. We believe we will have adequate liquidity to meet the requirements for scheduled maturities and principal repayments. However, we can provide no assurance that we will be able to refinance our indebtedness as it becomes due and, if refinanced, whether such refinancing will be available on favorable terms.

Our outstanding indebtedness requires us to comply with various financial and other covenants. We are currently in compliance with all covenants.

See "Note 6 - Debt" to the Consolidated Financial Statements for additional information concerning our 2018 Unsecured Credit Facility, 2018 Term Loan, and other unsecured and secured indebtedness of the Company.

Edgar Filing: Summit Hotel Properties, Inc. - Form 10-K

A summary of our debt at December 31, 2018 is as follows (dollars in thousands):

Lender	Interest Rate	Amortization Period (Years)	Maturity Date	Number of Encumbered Properties	Principal Amount Outstanding
\$600 Million Senior Unsecured Credit and Term Loan Facility Deutsche Bank AG New York Branch					
\$400 Million Revolver	4.15% Variable	n/a	March 31, 2023	n/a	\$ 115,000
\$200 Million Term Loan	4.10% Variable	n/a	April 1, 2024	n/a	200,000

Total Mortgage Loans				21	200,011
Total Debt					\$ 965,011

(1) The Bank of Cascades mortgage loans are secured by the same collateral and cross-defaulted.

Equity Transactions

On March 20, 2018, the Company paid \$85.3 million to redeem all 3,400,000 shares of its outstanding Series C preferred stock at a redemption price of \$25 per share plus accrued and unpaid dividends.

On January 1, 2018, the performance-based restricted stock awards granted on March 3, 2015 vested. Based on our percentile ranking within the SNL U.S. REIT Hotel Index for the measurement period, the executive officers earned

twice the number of shares granted. The executive officers were also entitled to dividends as if the additional shares had been outstanding throughout the measurement period. As a result of this vesting, we issued a total of 309,010 shares to our executive officers and paid dividends totaling \$0.5 million.

The Company's former Chief Financial Officer retired on March 31, 2018. In connection with his retirement, the Company recorded \$1.0 million of additional stock-based compensation expense during the year ended December 31, 2018 related to the modification of certain stock award agreements.

Capital Expenditures

During the year ended December 31, 2018, we funded \$66.6 million in capital expenditures. We anticipate spending an estimated \$40.0 million to \$60.0 million on capital expenditures in 2019. We expect to fund these expenditures through a combination of cash provided by operations, working capital, release of restricted cash, borrowings under the 2018 Unsecured Credit Facility, or other potential sources of capital, to the extent available to us.

Cash Flow Analysis

The following table summarizes changes in cash flows for the years ended December 31, 2018 and December 31, 2017:

	For the Years Ended December 31,		
	2018	2017	Change
	(in thousands)		
Net cash provided by operating activities	\$ 161,651	\$ 147,692	\$ 13,959
Net cash used in investing activities	(63,057)	(511,708)	448,651
Net cash (used in) provided by financing activities	(92,045)	370,448	(462,493)
Net change in cash and cash equivalents	\$ 6,549	\$ 6,432	\$ 117

The increase in net cash provided by operating activities of \$14.0 million from 2017 to 2018 primarily resulted from an increase in net income of \$8.0 million, after adjusting for non-cash items, such as depreciation and amortization and gains on the sale of assets, and net changes in working capital of \$6.0 million primarily due to the timing of working capital changes.

The \$448.7 million reduction in net cash used in investing activities in 2018 compared with 2017 is primarily due to a decrease in cash used for asset acquisitions of \$517.8 million, a decrease in investments in hotel properties under development of \$7.6 million and a decrease of \$1.7 million in funding of real estate loans. These declines were partially offset by a reduction in proceeds from asset dispositions of \$16.7 million, a reduction in repayments of real estate loans receivable of \$32.3 million and an increase in capital expenditures of \$29.4 million.

The \$462.5 million decrease in net cash from financing activities in 2018 compared with 2017 is primarily due to the decrease in net proceeds from stock offerings of \$318.3 million due to the equity issuances in 2017, a decrease in net borrowings of \$123.7 million, an increase in cash paid for the redemption of preferred stock of \$10.0 million and an increase in dividends of \$6.6 million.

The following table summarizes changes in cash flows for the years ended December 31, 2017 and December 31, 2016:

	For the Years Ended December 31,		
	2017	2016	Change
	(in thousands)		
Net cash provided by operating activities	\$ 147,692	\$ 136,740	\$ 10,952
Net cash used in investing activities	(511,708)	(151,440)	(360,268)
Net cash provided by financing activities	370,448	21,876	348,572
Net change in cash and cash equivalents	\$ 6,432	\$ 7,176	\$ (744)

The increase in net cash provided by operating activities of \$11.0 million from 2016 to 2017 primarily resulted from an increase in net income of \$15.5 million, after adjusting for non-cash items, such as depreciation and amortization and gains on the sale of assets, partially offset by net changes in working capital of \$4.6 million primarily due to the timing of working capital changes.

The \$360.3 million increase in net cash used in investing activities in 2017 compared with 2016 is primarily due to an increase in cash used for asset acquisitions of \$344.1 million, a reduction in proceeds from asset dispositions of \$24.6 million, an increase in investments in hotel properties under development of \$21.0 million, and a change in escrow deposits for acquisitions of hotel properties of \$10.0 million. These outflows were partially offset by net repayments of real estate loans receivable of \$34.3 million and a reduction in capital expenditures of \$5.2 million.

The \$348.6 million increase in net cash from financing activities in 2017 compared with 2016 is primarily due to the increase in net proceeds from stock offerings of \$157.0 million and an increase in net borrowings of \$235.1 million, partially offset by an increase in cash paid for the redemption of preferred stock of \$25.0 million and an increase in dividends of \$18.9 million.

Contractual Obligations

The following table outlines the timing of required payments related to our long-term debt and other contractual obligations at December 31, 2018 (dollars in thousands):

	Payments Due By Period				
	Total	Less than One Year	One to Three Years	Three to Five Years	More than Five Years
Debt obligations ⁽¹⁾	\$965,011	\$ 4,647	\$ 40,277	\$ 338,468	\$ 581,619
Currently projected interest ⁽²⁾	209,800	41,944	83,352	63,211	21,293
Operating lease obligations ⁽³⁾	38,889	6,383	3,987	2,564	25,955
Purchase obligations ⁽⁴⁾	12,602	12,602	—	—	—
Total	\$1,226,302	\$ 65,576	\$ 127,616	\$ 404,243	\$ 628,867

(1) Amounts shown include amortization of principal and debt maturities.

(2) Interest payments on our variable rate debt have been estimated using the interest rates in effect at December 31, 2018, after giving effect to our interest rate swaps.

Amounts consist primarily of non-cancelable ground lease and corporate office lease obligations. Subsequent to December 31, 2018, we exercised our option pursuant to a ground lease agreement to purchase the land under our (3) hotel property in Baltimore (Hunt Valley), MD for \$4.1 million, which resulted in a termination of obligations under the ground lease. As a result, this hotel property is no longer subject to a ground lease. As such, the table above reflects payments through the sale date.

(4) This amount represents purchase orders and executed contracts for renovation projects at our hotel properties.

Inflation

Operators of hotel properties, in general, possess the ability to adjust guestroom rates daily to reflect the effects of inflation on our operating expenses. However, competitive pressures may limit the ability of our management companies to raise guestroom rates and thus, we may not be able to offset increased expenses with an increase in revenues.

Critical Accounting Policies

See "Note 2 - Basis of Presentation and Significant Accounting Policies" to the Consolidated Financial Statements.

New Accounting Standards

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which changes lessee accounting to reflect the financial liability and right-of-use assets that are inherent to leasing an asset on the balance sheet. We adopted ASU No. 2016-02 on January 1, 2019. We applied the modified retrospective approach such that we will account for leases that commenced before the effective date of ASU No. 2016-02 in accordance with previous GAAP unless the lease is modified, except we will recognize right-of-use assets and a lease liability for all operating leases at each reporting date based on the present value of the remaining minimum rental payments that were tracked and disclosed under previous GAAP. The adoption of ASU No. 2016-02 will result in the recognition of incremental right-of-use assets and related lease liabilities of approximately \$24.0 million on the Consolidated Balance Sheet as of January 1, 2019.

In February 2018, the FASB issued ASU No. 2018-03, Technical Corrections and Improvements to Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which clarifies how an entity should measure certain equity securities. ASU 2018-03 is effective for our fiscal year

commencing on January 1, 2019, but we have early adopted ASU No. 2018-03 for our fiscal year commencing on January 1, 2018. The adoption of ASU No. 2018-03 did not have a material effect on our consolidated financial position or results of operations.

In August 2018, the FASB issued ASU No. 2018-15, Goodwill and Other- Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement, which clarifies how an entity should account for fees paid in a cloud computing arrangement. ASU 2018-15 is effective for our fiscal year commencing on January 1, 2020, with early adoption permitted. The adoption of ASU No. 2018-15 will not have a material effect on our consolidated financial position or results of operations.

See "Note 2 - Basis of Presentation and Significant Accounting Policies" to the Consolidated Financial Statements.

Recent Developments

Ground Lease Buy-out

On January 31, 2019, we exercised our option pursuant to a ground lease agreement to purchase the land under our hotel property in Baltimore (Hunt Valley), MD for \$4.1 million, which resulted in a termination of obligations under the ground lease. As a result, this hotel property is no longer subject to a ground lease.

Equity Transactions

On February 1, 2019, our Board of Directors declared cash dividends of \$0.18 per share of common stock, \$0.403125 per share of 6.45% Series D Cumulative Redeemable Preferred Stock, and \$0.390625 per share of 6.25% Series E Cumulative Redeemable Preferred Stock. These dividends are payable February 28, 2019 to stockholders of record on February 14, 2019.

Asset Sales

On February 12, 2019, we completed the sale of two hotel properties, the Country Inn & Suites - Charleston, WV and the Holiday Inn Express - Charleston, WV, for an aggregate sales price of \$11.6 million.

Item 7A. Quantitative and Qualitative Disclosures about Market Risk.

Market Risk

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that impact market-sensitive instruments. In pursuing our business strategies, the primary market risk to which we are exposed is interest rate risk. Our primary interest rate exposure is to 30-day LIBOR. We primarily use derivative financial instruments to manage interest rate risk.

Our interest rate derivatives are based on USD-LIBOR. In July 2017, the Financial Conduct Authority (the authority that regulates LIBOR) announced it intends to stop compelling banks to submit rates for the calculation of LIBOR after 2021. The Alternative Reference Rates Committee ("AARC") has proposed that the Secured Overnight Financing Rate ("SOFR") is the rate that represents best practice as the alternative to USD-LIBOR for use in derivatives and other financial contracts that are currently indexed to USD-LIBOR and organizations are currently working on industry wide and company specific transition plans as it relates to derivatives and cash markets exposed to USD-LIBOR. The Company has material contracts that are indexed to USD-LIBOR and is monitoring this activity and evaluating the related risks.

At December 31, 2018, we were party to four interest rate derivative agreements pursuant to which we receive variable-rate payments in exchange for making fixed-rate payments (dollars in thousands):

Contract date	Effective Date	Expiration Date	Notional Amount December 31, 2018
October 2, 2017	January 29, 2018	January 31, 2023	\$ 100,000
October 2, 2017	January 29, 2018	January 31, 2023	100,000
June 11, 2018	September 28, 2018	September 30, 2024	75,000
June 11, 2018	December 31, 2018	December 31, 2025	125,000

\$ 400,000

At December 31, 2018, after giving effect to our interest rate derivative agreements, \$569.1 million, or 59.0%, of our debt had fixed interest rates and \$395.9 million, or 41.0%, had variable interest rates. At December 31, 2017, after giving effect to our interest rate derivative agreements, \$386.3 million, or 44.2%, of our debt had fixed interest rates and \$486.8 million, or 55.8%, had variable interest rates. Taking into consideration our existing interest rate swaps an increase in interest rates of 1.0% would decrease our cash flows by approximately \$4.0 million per year.

As our fixed-rate debts mature, they will become subject to interest rate risk. In addition, as our variable-rate debts mature, lenders may impose interest rate floors on new financing arrangements because of the low interest rates experienced during the past few years. At December 31, 2018, we have scheduled payments of principal on debt in 2019 totaling approximately \$4.6 million.

Item 8. Financial Statements and Supplementary Data.

The financial statements and supplementary data required by this item are included on pages F-1 through F-42 of this Annual Report on Form 10-K and are incorporated by reference herein.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Item 9A. Controls and Procedures.

Disclosure Controls and Procedures

Our management evaluated, with the participation of our Chief Executive Officer and our Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of December 31, 2018. Based on that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that, as of December 31, 2018, our disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management to allow timely decisions regarding required disclosure.

Management's Report on the Effectiveness of Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is a process designed by, or under the supervision of, our Chief Executive Officer and our Chief Financial Officer, and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with GAAP and includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP and that our receipts and our expenditures are being made only in accordance with authorizations of our management and our board of directors; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In connection with the preparation of this Annual Report on Form 10-K, our management, under the supervision of our Chief Executive Officer and our Chief Financial Officer, conducted an evaluation of the effectiveness of our internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control—Integrated Framework (2013) established by the Committee of Sponsoring Organizations of the Treadway Commission. Based on such evaluation, our management concluded that we had effective internal control over financial reporting as of December 31, 2018.

Ernst & Young LLP, our independent registered public accounting firm, has issued an auditor's attestation report on our management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2018. This report is included in Part II, Item 8 of this Annual Report on Form 10-K.

Changes in Internal Control Over Financial Reporting

There were no material changes in our internal control over financial reporting during the three months ended December 31, 2018.

Item 9B. Other Information.

None.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders and the Board of Directors of
Summit Hotel Properties, Inc.

Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Summit Hotel Properties, Inc. (the Company) as of December 31, 2018 and 2017, the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2018, and the related notes and financial statement schedules listed in the Index at Item 15(a) (collectively referred to as the "consolidated financial statements"). In our opinion, the consolidated financial statements present fairly, in all material respects, the financial position of the Company at December 31, 2018 and 2017, and the results of its operations and its cash flows for each of the three years in the period ended December 31, 2018, in conformity with U.S. generally accepted accounting principles.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (2013 framework) and our report dated February 26, 2019 expressed an unqualified opinion thereon.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

/s/ Ernst & Young LLP

We have served as the Company's auditor since 2013.

Report of Independent Registered Public Accounting Firm

To the Shareholders and Board of Directors of Summit Hotel Properties, Inc.

Opinion on Internal Control over Financial Reporting

We have audited Summit Hotel Properties, Inc.'s internal control over financial reporting as of December 31, 2018, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission 2013 framework (the COSO criteria). In our opinion, Summit Hotel Properties, Inc.'s (the Company) maintained, in all material respects, effective internal control over financial reporting as of December 31, 2018, based on the COSO criteria.

We also have audited in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheets of Summit Hotel Properties, Inc. (the Company) as of December 31, 2018 and 2017, the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2018, and the related notes and financial statement schedules listed in the Index at Item 15(a) (collectively referred to as the "consolidated financial statements") and our report dated February 26, 2019 expressed an unqualified opinion thereon.

Basis for Opinion

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report on the Effectiveness of Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects.

Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

SUMMIT HOTEL PROPERTIES, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 — DESCRIPTION OF BUSINESS

Summit Hotel Properties, Inc. (the “Company”) is a self-managed hotel investment company that was organized on June 30, 2010 as a Maryland corporation. The Company holds both general and limited partnership interests in Summit Hotel OP, LP (the “Operating Partnership”), a Delaware limited partnership also organized on June 30, 2010. On February 14, 2011, the Company closed on its initial public offering and completed certain formation transactions, including the merger of Summit Hotel Properties, LLC with and into the Operating Partnership. Unless the context otherwise requires, “we”, “us”, and “our” refer to the Company and its consolidated subsidiaries.

We focus primarily on owning premium-branded, select-service hotels. At December 31, 2018, our portfolio consisted of 77 hotels with a total of 11,659 guestrooms located in 26 states. We have elected to be taxed as a real estate investment trust (“REIT”) for federal income tax purposes commencing with our short taxable year ended December 31, 2011. To qualify as a REIT, we cannot operate or manage our hotels. Accordingly, all of our hotels are leased to subsidiaries (“TRS Lessees”) of our taxable REIT subsidiary (“TRS”). We indirectly own 100% of the outstanding equity interests in all of our TRS Lessees.

NOTE 2 — BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying Consolidated Financial Statements of the Company consolidate the accounts of the Company and all entities that are controlled by the Company's ownership of a majority voting interest in such entities, as well as variable interest entities for which the Company is the primary beneficiary. All significant intercompany balances and transactions have been eliminated in the Consolidated Financial Statements.

We prepare our Consolidated Financial Statements in conformity with U.S. Generally Accepted Accounting Principles (“GAAP”), which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Consolidated Financial Statements and reported amounts of revenues and expenses in the reporting period. Actual results could differ from those estimates.

Segment Disclosure

Accounting Standards Codification (“ASC”) Topic 280, Segment Reporting, establishes standards for reporting financial and descriptive information about an enterprise's reportable segments. We have determined that we have one reportable segment, for activities related to investing in real estate. Our investments in real estate are geographically diversified and the chief operating decision makers evaluate operating performance on an individual asset level. As each of our assets has similar economic characteristics, the assets have been aggregated into one reportable segment.

Investment in Hotel Properties

The Company allocates the purchase price of acquired hotel properties based on the fair value of the acquired land, land improvements, building, furniture, fixtures and equipment, identifiable intangible assets or liabilities, other assets and assumed liabilities. Intangible assets may include certain value associated with the on-going operations of the hotel business being acquired as part of the hotel property acquisition. Acquired intangible assets that derive their values from real property or an interest in real property, are inseparable from that real property or interest in real property, and do not produce or contribute to the production of income other than consideration for the use or occupancy of space, are recorded as a component of the related real estate asset in our Consolidated Financial Statements. Identifiable intangible assets or liabilities may also arise from assumed contractual arrangements as part of the acquisition of the hotel property, including terms that are above or below market compared to an estimated fair market value of the agreement on the acquisition date. We determine the acquisition-date fair values of all assets and assumed liabilities using methods similar to those used by independent appraisers, including using a discounted cash flow analysis that uses appropriate discount or capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including historical operating results, known and anticipated trends, and market and economic conditions.

If substantially all of the fair value of the gross assets acquired are concentrated in a single identifiable asset or group of similar identifiable assets, the asset or asset group is not considered a business. When we conclude that an acquisition meets this threshold, acquisition costs will be capitalized as part of our allocation of the purchase price of the acquired hotel properties.

Our hotel properties and related assets are recorded at cost, less accumulated depreciation. We capitalize hotel development costs and the costs of significant additions and improvements that materially upgrade, increase the value or extend the useful life of the property. These costs may include hotel development, refurbishment, renovation, and remodeling expenditures, as well as certain indirect internal costs related to construction projects. If an asset requires a period of time in which to carry out the activities necessary to bring it to the condition necessary for its intended use, the interest cost incurred during that period as a result of expenditures for the asset is capitalized as part of the cost of the asset. We expense the cost of repairs and maintenance as incurred.

We generally depreciate our hotel properties and related assets using the straight-line method over their estimated useful lives as follows:

Classification	Estimated Useful Lives
Buildings and improvements	6 to 40 years
Furniture, fixtures and equipment	2 to 15 years

We periodically re-evaluate asset lives based on current assessments of remaining utilization, which may result in changes in estimated useful lives. Such changes are accounted for prospectively and will increase or decrease future depreciation expense.

When depreciable property and equipment is retired or disposed, the related costs and accumulated depreciation are removed from the balance sheet and any gain or loss is reflected in current operations.

On a limited basis, we provide financing to developers of hotel properties for development projects. We evaluate these arrangements to determine if we participate in residual profits of the hotel property through the loan provisions or other agreements. Where we conclude that these arrangements are more appropriately treated as an investment in the hotel property, we reflect the loan as an investment in hotel properties under development in our Consolidated

Balance Sheets. If classified as hotel properties under development, no interest income is recognized on the loan and interest expense is capitalized as part of our investment in the hotel property during the construction period.

We monitor events and changes in circumstances for indicators that the carrying value of a hotel property or undeveloped land may be impaired. Additionally, we perform at least annual reviews to monitor the factors that could trigger an impairment. Factors that we consider for an impairment analysis include, among others: i) significant underperformance relative to historical or anticipated operating results, ii) significant changes in the manner of use of a property or the strategy of our overall business, including changes in the estimated holding periods for hotel properties and land parcels, iii) a significant increase in competition, iv) a significant adverse change in legal factors or regulations, v) changes in values of comparable land sales, and vi) significant negative industry or economic trends. When such factors are identified, we prepare an estimate of the undiscounted future cash flows of the specific property and determine if the carrying amount of the asset is recoverable. If an impairment is identified, we estimate the fair value of the property based on discounted cash flows, third party appraisals, or

sales price if the property is under contract and an adjustment is made to reduce the carrying value of the property to its estimated fair value.

Intangible Assets

We amortize intangible assets with determined finite useful lives using the straight-line method. We do not amortize intangible assets with indefinite useful lives, but we evaluate these assets for impairment annually or at interim periods if events or circumstances indicate that the asset may be impaired.

Assets Held for Sale

We periodically review our hotel properties and our undeveloped land based on established criteria such as age, type of franchise, adverse economic and competitive conditions, and strategic fit to identify properties that we believe are either non-strategic or no longer complement our business. Based on our review, we periodically market properties for sale that no longer meet our investment criteria.

We classify assets as Assets Held for Sale in the period in which certain criteria are met, including when the sale of the asset within one year is probable. Assets classified as Assets Held for Sale are no longer depreciated and are carried at the lower of carrying amount or fair value less selling costs.

Variable Interest Entities

We consolidate variable interest entities (each a “VIE”) if we determine that we are the primary beneficiary of the entity. When evaluating the accounting for a VIE, we consider the purpose for which the VIE was created, the importance of each of the activities in which it is engaged and our decision-making role, if any, in those activities that significantly determine the entity’s economic performance relative to other economic interest holders. We determine our rights, if any, to receive benefits or the obligation to absorb losses that could potentially be significant to the VIE by considering the economic interest in the entity, regardless of form, which may include debt, equity, management and servicing fees, or other contractual arrangements. We consider other relevant factors including each entity’s capital structure, contractual rights to earnings or obligations for losses, subordination of our interests relative to those of other investors, contingent payments, and other contractual arrangements that may be economically significant.

Additionally, we have in the past and may in the future enter into purchase and sale transactions in accordance with Section 1031 of the Internal Revenue Code of 1986, as amended (“IRC”), for the exchange of like-kind property to defer taxable gains on the sale of real estate properties (“1031 Exchange”). For reverse transactions under a 1031 Exchange in which we purchase a new property prior to selling the property to be matched in the like-kind exchange (we refer to a new property being acquired by us in the 1031 Exchange prior to the sale of the related property as a “Parked Asset”), legal title to the Parked Asset is held by a qualified intermediary engaged to execute the 1031 Exchange until the sale transaction and the 1031 Exchange is completed. We retain essentially all of the legal and economic benefits and obligations related to a Parked Asset prior to completion of a 1031 Exchange. As such, a Parked Asset is included in our Consolidated Balance Sheets and Consolidated Statements of Operations as a consolidated VIE until legal title is transferred to us upon completion of the 1031 Exchange.

Cash and Cash Equivalents

We consider all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents. At times, cash on deposit may exceed the federally insured limit. We maintain our cash with high credit

quality financial institutions.

Restricted Cash

Restricted cash consists of certain funds maintained in escrow for property taxes, insurance, and certain capital expenditures. Funds may be disbursed from the account upon proof of expenditures and approval from the lender or other party requiring the restricted cash reserves.

On January 1, 2018, we adopted ASU No. 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash. As a result, we report changes in cash, cash equivalents and restricted cash on our Consolidated Statement of Cash Flows.

F-11

Trade Receivables and Credit Policies

We grant credit to qualified customers, generally without collateral, in the form of trade accounts receivable. Trade receivables result from the rental of hotel guestrooms and the sales of food, beverage, and banquet services and are payable under normal trade terms. Trade receivables also include credit and debit card transactions that are in the process of being settled. Trade receivables are stated at the amount billed to the customer and do not accrue interest.

We regularly review the collectability of our trade receivables. A provision for losses is determined on the basis of previous loss experience and current economic conditions. Our allowance for doubtful accounts was \$0.1 million at December 31, 2018 and 2017. Bad debt expense was \$0.6 million, \$0.7 million and \$0.6 million for the years ended December 31, 2018, 2017 and 2016, respectively.

Notes Receivables

We selectively provide mezzanine lending to developers, where we may also have the opportunity to acquire the hotel at or after the completion of the development project, and we also may provide seller financing under limited circumstances. We classify notes receivable as held-to-maturity and carry the notes receivable at cost less the unamortized discount, if any. We routinely evaluate our notes receivable for potential specific credit or collection issues that may indicate an impairment. Losses on notes receivable are recognized when incurred based on our best estimate of probable impairment.

Deferred Charges, net

Initial franchise fees are capitalized and amortized over the term of the franchise agreement using the straight-line method.

Deferred Financing Fees

Debt issuance costs are presented as a direct deduction from the carrying value of the debt liability on the Consolidated Balance Sheets. Debt issuance costs are amortized as a component of interest expense over the term of the related debt using the straight-line method, which approximates the interest method.

Non-controlling Interests

Non-controlling interests represent the portion of equity in a consolidated entity held by owners other than the consolidating parent. Non-controlling interests are reported in the Consolidated Balance Sheets within equity, separately from stockholders' equity. Revenue, expenses and net income attributable to both the Company and the non-controlling interests are reported in the Consolidated Statements of Operations.

Our Consolidated Financial Statements include non-controlling interests related to common units of limited partnership interests ("Common Units") in the Operating Partnership held by unaffiliated third parties.

Revenue Recognition

On January 1, 2018, we adopted ASU No. 2014-09, Revenue from Contracts with Customers. In accordance with ASU No. 2014-09, revenues from the operation of our hotels are recognized when guestrooms are occupied, services have been rendered or fees have been earned. Revenues are recorded net of any discounts and sales and other taxes collected from customers. Revenues consist of room sales, food and beverage sales, and other hotel revenues and are presented on a disaggregated basis on our Consolidated Statements of Operations.

Room revenue is generated through short-term contracts with customers whereby customers agree to pay a daily rate for the right to occupy hotel rooms for one or more nights. Our performance obligations are fulfilled at the end of each night that the customers have the right to occupy the rooms. Room revenues are recognized daily at the contracted room rate in effect for each room night.

Food and beverage revenues are generated when customers purchase food and beverage at a hotel's restaurant, bar or other facilities. Our performance obligations are fulfilled at the time that food and beverage is purchased and provided to our customers.

Other revenues such as for parking, meeting space or telephone services are recognized at the point in time or over the time period that the associated good or service is provided. Ancillary services such as parking at certain hotels are provided by third

F-12

parties and we assesses whether we are the principal or agent in such arrangements. If we are determined to be the agent, revenue is recognized based upon the commission paid to us by the third party for the services rendered to our customers. If we are determined to be the principal, revenues are recognized based upon the gross contract price of the service provided. Certain of our hotels have retail spaces, restaurants or other spaces that we lease to third parties. Lease revenues are recognized on a straight– line basis over the respective lease terms and are included in Other income on our Consolidated Statement of Operations.

Cash received prior to customer arrival is recorded as an advance deposit from the customer and is recognized as revenue at the time of occupancy.

Sales and Other Taxes

We have operations in states and municipalities that impose sales or other taxes on certain sales. We collect these taxes from our customers and remit the entire amount to the various governmental units. The taxes collected and remitted are excluded from revenues and are included in accrued expenses until remitted.

Equity-Based Compensation

Our 2011 Equity Incentive Plan, which was amended and restated effective June 15, 2015 (as amended, the “Equity Plan”), provides for the grant of stock options, stock appreciation rights, restricted stock, restricted stock units, dividend equivalent rights, and other stock-based awards. We account for the stock options granted upon completion of our initial public offering at fair value using the Black-Scholes option-pricing model and we account for all other awards of equity, including time-based and performance-based stock awards using the grant date fair value of those equity awards. Restricted stock awards with performance-based vesting conditions are market-based awards tied to total stockholder return and are valued using a Monte Carlo simulation model in accordance with ASC Topic 718, Compensation — Stock Compensation. We expense the fair value of awards under the Equity Plan ratably over the vesting period and market-based awards are not adjusted for performance. The amount of stock-based compensation expense may be subject to adjustment in future periods due to a change in forfeiture assumptions or modification of previously granted awards.

On January 1, 2018, we adopted ASU No. 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting. As such, we account for certain changes to share-based payment awards using modification accounting, which may result in incremental stock-based compensation expense based on the remeasurement of the award on the modification date.

Derivative Financial Instruments and Hedging

All derivative financial instruments are recorded at fair value in our Consolidated Balance Sheets. We use interest rate derivatives to hedge our risks on variable-rate debt. Interest rate derivatives could include swaps, caps and floors. We assess the effectiveness of each hedging relationship by comparing changes in fair value or cash flows of the derivative financial instrument with the changes in fair value or cash flows of the designated hedged item or transaction.

During 2017, we adopted ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. Accordingly, beginning in 2017, the change in the fair value of the hedging instruments is recorded in Other comprehensive income. Amounts deferred in Other comprehensive income will be reclassified to Interest expense in our Condensed Consolidated Statements of Operations in the period in which the hedged item affects earnings.

Income Taxes

We have elected to be taxed as a REIT under certain provisions of the IRC. To qualify as a REIT, we must meet certain organizational and operational requirements, including a requirement to distribute annually to our stockholders at least 90% of our REIT taxable income, determined without regard to the deduction for dividends paid and excluding net capital gains, which does not necessarily equal net income as calculated in accordance with GAAP. As a REIT, we generally will not be subject to federal income tax (other than taxes paid by our TRS at regular corporate income tax rates) to the extent we distribute 100% of our REIT taxable income to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income tax on our taxable income at regular corporate income tax rates and generally will be unable to re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT, unless we satisfy certain relief provisions.

Substantially all of our assets are held by and all of our operations are conducted through our Operating Partnership. Partnerships are not subject to U.S. federal income taxes as revenues and expenses pass through to and are taxed on the owners. Generally, the states and cities where partnerships operate follow the U.S. federal income tax treatment. However, the

F-13

There are a limited number of local and state jurisdictions that tax the taxable income of the Operating Partnership. Accordingly, we provide for income taxes in these jurisdictions for the Operating Partnership.

Taxable income related to our TRS is subject to federal, state and local income taxes at applicable tax rates. Our consolidated income tax provision includes the income tax provision related to the operations of the TRS as well as state and local income taxes related to the Operating Partnership.

Where required, we account for federal and state income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for: i) the future tax consequences attributable to differences between carrying amounts of existing assets and liabilities based on GAAP and the respective carrying amounts for tax purposes, and ii) operating losses and tax-credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date of the change in tax rates. However, deferred tax assets are recognized only to the extent that it is more likely than not they will be realized based on consideration of available evidence, including future reversals of taxable temporary differences, future projected taxable income and tax planning strategies. Valuation allowances are provided if, based upon the weight of the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

We perform a review of any uncertain tax positions and if necessary will record expected future tax consequences of uncertain tax positions in the financial statements.

On December 22, 2017, H.R. 1, originally known as the Tax Cuts and Jobs Act (the “TCJA”), was enacted. The TCJA made many significant changes to the U.S. federal income tax laws applicable to businesses and their owners, including REITs and their stockholders. Pursuant to this legislation, as of January 1, 2018, (1) the federal income tax rate applicable to corporations was reduced to 21%, (2) the highest marginal individual income tax rate was reduced to 37% (through taxable years ending in 2025), (3) the corporate alternative minimum tax was repealed, and (4) the backup withholding rate for U.S. stockholders was reduced to 24%. In addition, individuals, estates and trusts may deduct up to 20% of certain pass-through income, including ordinary REIT dividends that are not “capital gain dividends” or “qualified dividend income,” subject to certain limitations. For taxpayers qualifying for the full deduction, the effective maximum tax rate on ordinary REIT dividends would be 29.6% (through taxable years ending in 2025). The maximum rate of withholding with respect to our distributions to non-U.S. stockholders that are treated as attributable to gains from the sale or exchange of U.S. real property interests is also reduced from 35% to 21%. The deduction of net interest expense is limited for all businesses; provided that certain businesses, including real estate businesses, may elect not to be subject to such limitations and instead to depreciate their real property related assets over longer depreciable lives. The reduced corporate tax rate will apply to our TRS and any other TRS that we form.

The reduced 21% federal income tax rate applicable to corporations applies to taxable earnings reported for the full 2018 fiscal year. Accordingly, we remeasured our net deferred tax assets as a result of the TCJA at December 31, 2017 using the lower federal tax rate that will apply when the deferred tax assets are expected to be realized. At September 30, 2018, we completed our accounting for all the enactment-date income tax effects of the act under ASC 740, Income Taxes. No additional adjustments were necessary for the year ended December 31, 2018.

Fair Value Measurement

Fair value measures are classified into a three-tiered fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1: Observable inputs such as quoted prices in active markets.
- Level 2: Directly or indirectly observable inputs, other than quoted prices in active markets.
- Level 3: Unobservable inputs in which there is little or no market information, which require a reporting entity to develop its own assumptions.

F-14

Assets and liabilities measured at fair value are based on one or more of the following valuation techniques:

Market approach:	Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.
Cost approach:	Amount required to replace the service capacity of an asset (replacement cost).
Income approach:	Techniques used to convert future amounts to a single amount based on market expectations (including present-value, option-pricing, and excess-earnings models).

Our estimates of fair value were determined using available market information and appropriate valuation methods. Considerable judgment is necessary to interpret market data and develop estimated fair value. The use of different market assumptions or estimation methods may have a material effect on the estimated fair value amounts. We classify assets and liabilities in the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement.

We elected not to use the fair value option for cash and cash equivalents, restricted cash, trade receivables, prepaid expenses and other, debt, accounts payable, and accrued expenses and other. With the exception of our fixed-rate debt (See "Note 6 — Debt"), the carrying amounts of these financial instruments approximate their fair values due to their short-term nature or variable interest rates.

On January 1, 2018, we adopted ASU No. 2016-01, Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. Accordingly, we have elected a measurement alternative for equity investments, such as our purchase options, that do not have readily determinable fair values. Under the alternative, our purchase options are measured at cost, less any impairment, plus or minus changes resulting from observable price changes in orderly transactions for an identical or similar investment of the same issuer, if any.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain amounts reported in the Consolidated Statements of Operations in previous periods have been disaggregated and reclassified to conform to the current period presentation. Revenues have been disaggregated into Rooms, Food and beverage, and Other. Direct and Indirect expense has been reclassified into Room, Food and beverage, and Other hotel operating expenses. Property taxes, insurance and other, and Management expenses are also separately reported. Additionally, Gain on disposal of assets, net has been reclassified from other income into operating income.

We have also reclassified certain intangible assets related to our acquisitions of hotel properties from Other assets to Investment in hotel properties, net, on the Consolidated Balance Sheet. See "Note 3 - Investment in Hotel Properties, net" of our Consolidated Financial Statements for further details.

These reclassifications, made at December 31, 2018 and for the year then ended, had no net effect on the previously reported financial position or results of operations.

New Accounting Standards

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which changes lessee accounting to reflect the financial liability and right-of-use assets that are inherent to leasing an asset on the balance sheet. We adopted ASU No. 2016-02 on January 1, 2019. We applied the modified retrospective approach such that we will account for leases that commenced before the effective date of ASU No. 2016-02 in accordance with previous GAAP unless the lease is modified, except we will recognize right-of-use assets and a lease liability for all operating leases at each reporting date based on the present value of the remaining minimum rental payments that were tracked and disclosed under previous GAAP. The adoption of ASU No. 2016-02 will result in the recognition of incremental right-of-use assets and related lease liabilities of approximately \$24.0 million on the Consolidated Balance Sheet as of January 1, 2019.

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, which clarifies when an entity recognizes a credit loss on certain financial assets. ASU 2016-13 is effective for our fiscal year commencing on January 1, 2020, with early adoption permitted. The adoption of ASU No. 2016-13 will not have a material effect on our consolidated financial position or results of operations.

In February 2018, the FASB issued ASU No. 2018-03, Technical Corrections and Improvements to Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities, which clarifies how an entity should measure certain equity securities. ASU 2018-03 is effective for our fiscal year commencing on January 1, 2019. We early adopted ASU No. 2018-03 for our fiscal year commencing on January 1, 2018. The adoption of ASU No. 2018-03 did not have a material effect on our consolidated financial position or results of operations.

In August 2018, the FASB issued ASU No. 2018-15, Goodwill and Other- Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement, which clarifies how an entity should account for fees paid in a cloud computing arrangement. ASU 2018-15 is effective for our fiscal year commencing on January 1, 2020, with early adoption permitted. The adoption of ASU No. 2018-15 will not have a material effect on our consolidated financial position or results of operations.

NOTE 3 — INVESTMENT IN HOTEL PROPERTIES

Investment in Hotel Properties, net

Investment in hotel properties, net at December 31, 2018 and 2017 include (in thousands):

	2018	2017
Land	\$288,833	\$272,932
Hotel buildings and improvements	1,916,194	1,868,273
Intangible assets	22,064	22,764
Construction in progress	21,059	12,464
Furniture, fixtures and equipment	165,026	174,126
	2,413,176	2,350,559
Less - accumulated depreciation	(347,622)	(291,067)
	\$2,065,554	\$2,059,492

Depreciation expense was \$100.5 million, \$85.5 million, and \$72.1 million for the years ended December 31, 2018, 2017 and 2016, respectively.

Intangible assets included in Investment in hotel properties, net in our Consolidated Balance Sheets include the following (in thousands):

	Weighted Average Amortization Period (in Years)	2018	2017
Intangible assets:			
Air rights ⁽¹⁾	n/a	\$10,754	\$10,754
Favorable leases ⁽²⁾	41.5	10,550	10,569
In-place lease agreements	3.9	680	1,361
Other	n/a	80	80
		22,064	22,764
Less - accumulated amortization		(1,108)	(1,001)
Intangible assets, net		\$20,956	\$21,763

- (1) In conjunction with the acquisition of the Courtyard by Marriott - Charlotte, NC, the Company acquired certain air rights related to the hotel property.

Intangible assets are recorded on contracts assumed as part of the acquisition of certain hotels. Above-market contract values are based on the present value of the difference between contractual amounts to be paid pursuant to (2) the contracts assumed and our estimate of the fair market contract rates for corresponding contracts measured over a period equal to the remaining non-cancelable term of the contracts assumed. Intangible assets are amortized over the remaining non-cancelable term of the related contracts.

Future amortization expense is expected to be as follows (in thousands):

	Finite-Lived Intangible Assets
2019	\$ 399
2020	362
2021	360
2022	274
2023	274
Thereafter	8,453
	\$ 10,122

Hotel Property Acquisitions

Hotel property acquisitions in 2018 and 2017 were as follows (in thousands):

Date Acquired	Franchise/Brand	Location	Guestrooms	Purchase Price
Year Ended December 31, 2018				
September 12, 2018	Residence Inn by Marriott	Boston (Watertown), MA	150	\$71,000 ⁽¹⁾
Year Ended December 31, 2017				
March 1, 2017	Homewood Suites	Aliso Viejo (Laguna Beach), CA	129	\$38,000
March 30, 2017	Hyatt Place	Phoenix (Mesa), AZ	152	22,200
May 23, 2017	Courtyard by Marriott	Fort Lauderdale, FL	261	85,000
June 9, 2017	Courtyard by Marriott	Charlotte, NC	181	56,250
June 21, 2017	Portfolio Purchase - five properties ⁽³⁾	various ⁽³⁾	812	163,000
July 13, 2017	AC Hotel by Marriott	Atlanta, GA	255	57,500
November 14, 2017	Portfolio Purchase - four properties ⁽⁴⁾	various ⁽⁴⁾	652	164,000
			2,442	\$585,950 ⁽²⁾

(1) The net assets acquired totaled \$71.0 million due to the purchase at settlement of \$0.1 million of net working capital liabilities and capitalized transaction costs of \$0.1 million.

(2) The net assets acquired totaled \$588.8 million due to the purchase at settlement of \$0.2 million of net working capital assets and capitalized transaction costs of \$2.6 million.

On June 21, 2017, we acquired a portfolio of five hotels for an aggregate purchase price of \$163.0 million. The hotels acquired included the Courtyard by Marriott - Fort Worth, TX, the Courtyard by Marriott - Kansas City, MO, the Courtyard by Marriott - Pittsburgh, PA, the Hampton Inn & Suites - Baltimore, MD, and the Residence Inn by Marriott - Baltimore, MD.

On November 14, 2017, we acquired a portfolio of four hotels for an aggregate purchase price of \$164.0 million.

(4) The hotels acquired included the Courtyard by Marriott - New Haven, CT, the Hilton Garden Inn - Waltham, MA, the Homewood Suites - Tucson, AZ, and the Residence Inn by Marriott - Cleveland, OH.

The allocation of the aggregate purchase prices to the fair value of assets and liabilities acquired for the above acquisitions is as follows (in thousands):

	2018	2017
Land	\$25,083	\$98,639
Hotel buildings and improvements	42,676	447,477
Intangible assets	—	16,162
Furniture, fixtures and equipment	3,300	26,546
Other assets	123	2,738
Total assets acquired	71,182	591,562
Less other liabilities	(180)	(2,740)
Net assets acquired	\$71,002	\$588,822

F-17

All hotel purchases completed in 2018 and 2017 were deemed to be the acquisition of assets. Therefore, acquisition costs related to these transactions have been capitalized as part of the recorded amount of the acquired assets.

The results of operations of acquired hotel properties are included in the Consolidated Statements of Operations beginning on their respective acquisition dates. The following unaudited pro forma information includes operating results for 77 hotels owned as of December 31, 2018 as if all such hotels had been owned by us since January 1, 2017.

For hotels acquired by us after January 1, 2017 (the "Acquired Hotels"), we have included in the pro forma information the financial results of each of the Acquired Hotels for the period from January 1, 2017 to the date the Acquired Hotels were purchased by us (the "Preacquisition Period"). The financial results for the Pre-Acquisition Period were provided by the third-party owner of such Acquired Hotel prior to purchase by us and such information has not been audited or reviewed by our auditors or adjusted by us. For hotels sold by us between January 1, 2017 and December 31, 2018 (the "Disposed Hotels"), the unaudited pro forma information excludes the financial results, including gains on disposal of assets, of each of the Disposed Hotels for the period of ownership by us from January 1, 2017 through the date that the Disposed Hotels were sold by us. The unaudited pro forma information is included to enable comparison of results for the current reporting period to results for the comparable period of the prior year and is not indicative of what actual results of operations would have been had the hotel acquisitions and dispositions taken place on or before January 1, 2017. The pro forma amounts exclude the gain or loss on the sale of hotel properties during the years ended December 31, 2017 and 2018. This information does not purport to be indicative of or represent results of operations for future periods.

The unaudited condensed pro forma financial information for the 77 hotel properties owned at December 31, 2018 for the twelve months ended December 31, 2018 and 2017 is as follows (in thousands, except per share):

	2018	2017
Revenues	\$557,262	\$546,101
Income from hotel operations	\$205,941	\$206,262
Net income ⁽¹⁾	\$48,979	\$74,356
Net income attributable to common stockholders, net of amount allocated to participating securities ^{(1) (2)}	\$28,676	\$53,873
Basic and diluted net income per share attributable to common stockholders ^{(1) (2)}	\$0.28	\$0.54

Pro forma amounts include depreciation expense, property tax expense, interest expense, income tax expense, and (1) corporate general and administrative expenses totaling \$194.4 million and \$164.0 million for the twelve months ended December 31, 2018 and 2017, respectively.

(2) Pro forma amounts for the twelve months ended December 31, 2018 and 2017 include the effect of the premium on redemption of preferred stock of \$3.3 million and \$2.6 million, respectively.

Recently Developed Property

We completed the development and commenced operations of the new 168-guestroom Hyatt House Across From Orlando Universal Resort™ on June 27, 2018. The total construction cost for this hotel was \$32.8 million, excluding land that we acquired in a prior-year transaction. The carrying amount for this hotel includes internal capitalized costs of \$1.6 million. Total costs of \$37.2 million, including the carrying amount of the land of \$2.8 million, were reclassified as Investment in hotel properties, net upon completion of construction.

Asset Sales

A summary of the dispositions in 2018 and 2017 follows (dollars in thousands):

June 29, 2018	Portfolio Sale - two properties ⁽²⁾	Duluth, GA ⁽²⁾	265	24,850	4,218
July 24, 2018	Portfolio Sale - three properties ⁽³⁾	various ⁽³⁾	322	46,500	22,964
September 28, 2018	Hyatt Place	Fort Myers, FL	148	16,500	2,195
November 7, 2018	Land parcel	Spokane, WA	n/a	450	139
Total			910	\$ 107,250	\$ 42,649
Year Ended December 31, 2017					
March 30, 2017	Hyatt Place	Atlanta, GA	150	\$ 14,500	\$ 4,781
April 27, 2017	HIT Portfolio Sale - seven properties ⁽⁴⁾	various ⁽⁴⁾	651	66,753	15,986
June 2, 2017	Courtyard by Marriott	El Paso, TX	90	11,150	363
July 21, 2017	Portfolio Sale - three properties ⁽⁵⁾	Fort Worth, TX ⁽⁵⁾	273	27,750	8,133
Total			1,164	\$ 120,153	\$ 29,263

(1) The portfolio included the Hampton Inn in Provo, UT and the Holiday Inn Express & Suites in Sandy, UT.

The portfolio included the Holiday Inn in Duluth, GA and the Hilton Garden Inn in Duluth, GA. We provided

(2) seller financing of \$3.6 million on the sale of these properties under two three-and-a-half-year second mortgage notes with a blended interest rate of 7.38%.

The portfolio included the Hampton Inn & Suites in Smyrna, TN, the Hilton Garden Inn in Smyrna, TN and the (3) Hyatt Place Phoenix North in Phoenix, AZ. The proceeds from these sales were used to complete a 1031 Exchange, which resulted in the deferral of taxable gains of \$22.2 million.

The portfolio sale completed our dispositions to Hospitality Investors Trust, Inc.. The proceeds from these sales (4) were used to complete a 1031 Exchange, which resulted in the deferral of taxable gains of \$20.8 million. See below for further information.

The portfolio included the Fairfield Inn & Suites, the Hampton Inn & Suites and the Hilton Garden Inn in Fort (5) Worth, TX. The proceeds from these sales were used to complete a 1031 Exchange, which resulted in the deferral of taxable gains of \$8.6 million.

Dispositions to Affiliates of Hospitality Investors Trust, Inc. (formerly American Realty Capital Hospitality Trust, Inc.)

On June 8, 2015, we entered into multiple sales agreements with affiliates of Hospitality Investors Trust Inc. ("HIT") for the sale of a portfolio of hotels to HIT. The agreements were modified on various occasions between 2015 and 2017 such that we sold 23 hotels containing 2,448 guestrooms to HIT in three tranches over that time period for a combined sales price of approximately \$325.1 million (collectively, the "HIT Sale") as follows (dollars in thousands):

Tranche	Closing Date	Hotels Sold	Combined Sales Price
---------	--------------	-------------	----------------------

1	October 2015	10	\$ 150,000
2	February 2016	6	108,300
3	April 2017	7	66,800
		23	\$ 325,100

In connection with the HIT Sale, the Operating Partnership entered into a loan agreement with HIT, as borrower, which provided for a loan by us to HIT in the amount of \$27.5 million (the “Loan”). The proceeds from the Loan were applied by HIT as follows: (i) \$20.0 million was applied toward the payment of a portion of the \$108.3 million purchase price for the six hotels acquired in the second tranche; and (ii) the remaining \$7.5 million was applied by HIT to fund the escrow deposit required for the purchase of the seven hotels in the third tranche. We deferred \$20.0 million of gain from the sale of the hotels in the second tranche as a result of the Loan structure. We recognized the deferred gain as principal payments on the Loan were received, and we recognized the final \$15.0 million of gain when the Loan was paid in full on March 31, 2017.

Loss on Impairment of Assets

At December 31, 2018, we determined that the carrying amounts of land parcels in San Antonio, TX and Flagstaff, AZ were in excess of the estimated net fair market values of the properties based on comparable sale prices. As such, we recognized a loss on impairment of assets of \$1.1 million in our Consolidated Statement of Operations for the year ended December 31, 2018.

NOTE 4 — INVESTMENT IN REAL ESTATE LOANS

Investment in real estate loans, net at December 31, 2018 and 2017 includes (in thousands):

	2018	2017
Real estate loans	\$34,650	\$18,150
Unamortized discount	(3,950)	(5,794)
	\$30,700	\$12,356

We are a mezzanine lender on three construction loans to fund up to an aggregate of \$29.6 million for the development of three hotel properties. The three real estate loans closed in the fourth quarter of 2017 and each has a stated interest rate of 8% and an initial term of approximately three years. As of December 31, 2018, we have funded the full amount of \$29.6 million. We have separate options related to each loan (each the "Initial Option") to purchase a 90% interest in each joint venture that owns the respective hotel upon completion of construction. We also have the right to purchase the remaining interests in each joint venture at future dates, generally five years after we exercise our Initial Option. We have recorded the aggregate estimated fair value of the Initial Options totaling \$6.1 million in Other assets and as a discount to the related real estate loans. The discount will be amortized as a component of interest income over the term of the real estate loans using the straight-line method, which approximates the interest method. We recorded amortization of the discount of \$2.0 million and \$0.3 million during the years ended December 31, 2018 and 2017, respectively. We intend to hold our Investment in Real Estate Loans to maturity and therefor, such loans are recorded as held-to-maturity.

On June 29, 2018 we sold the Holiday Inn Duluth, GA and the Hilton Garden Inn in Duluth, GA for an aggregate selling price of \$24.9 million. We provided seller financing of \$3.6 million on the sale of these properties under two three-and-a-half-year second mortgage notes with a blended interest rate of 7.38%.

The amortized cost bases of our Investment in Real Estate Loans approximate their fair value. The amortized cost bases and fair value of our Investment in Real Estate Loans at December 31, 2018, by contractual maturity are as follows: \$2.1 million in 2019, \$26.3 million in 2020 and \$2.3 million in 2021.

NOTE 5 — SUPPLEMENTAL BALANCE SHEET INFORMATION

Assets Held for Sale, net

Assets held for sale at December 31, 2018 and 2017 include the following (in thousands):

	2018	2017
Land	\$2,442	\$1,193
