Notes to Schedule of Portfolio Investments (Unaudited)

Valuation of Investments

Portfolio securities are valued by various methods depending on the primary market or exchange on which they trade. Most equity securities for which the primary market is in the United States are valued at the official closing price, last sale price or, if no sale has occurred, at the closing bid price. Most equity securities for which the primary market is outside the United States are valued using the official closing price or the last sale price in the principal market in which they are traded. If the last sale price on the local exchange is unavailable, the last evaluated quote or closing bid price normally is used. Debt obligations with remaining maturities of 60 days or less generally are valued at cost adjusted for amortization of premiums and accretion of discounts when it can be reasonably concluded, at each time a valuation is determined, that the amortized cost value of such security is approximately the same as the fair value of the security as determined without the use of amortized cost valuation. Certain debt securities may be priced through pricing services that may utilize a matrix pricing system which takes into consideration factors such as yields, prices, maturities, call features, and ratings on comparable securities or according to prices quoted by a securities dealer that offers pricing services. Open end investment companies are valued at their net asset value. Securities for which market quotations are not readily available or reliable and other assets may be valued as determined in good faith by Bexil Advisers LLC, the Funds's Investment Manager, under the direction of or pursuant to procedures approved by the Fund's Board of Trustees. Due to the inherent uncertainty of valuation, such fair value pricing values may differ from the values that would have been used had a readily available market for the securities existed. These differences in valuation could be material. A security's valuation may differ depending on the method used for determining value. The use of fair value pricing by the Fund may cause the net asset value of its shares to differ from the net asset value that would be calculated using market prices. A fair value price is an estimate and there is no assurance that such price will be at or close to the price at which a security is next quoted or next trades.

Value Measurements

Inputs to valuation methods are prioritized by a three level hierarchy as follows:

- Level 1 - unadjusted quoted prices in active markets for identical assets or liabilities including securities actively traded on a securities exchange.
- Level 2 - observable inputs other than quoted prices included in level 1 that are observable for the asset or liability which may include quoted prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.
- Level 3 - unobservable inputs for the asset or liability including the Fund's own assumptions about the assumptions a market participant would use in valuing the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for investments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those securities.

The following is a description of the valuation techniques applied to the Fund's major categories of assets and liabilities measured at fair value on a recurring basis:

3

Equity securities (common and preferred stock) – Most publicly traded equity securities are valued normally at the most recent official closing price, last sale price, evaluated quote, or closing bid price. To the extent these securities are actively traded and valuation adjustments are not applied, they may be categorized in level 1 of the fair value hierarchy. Equities on inactive markets or valued by reference to similar instruments may be categorized in level 2.

Corporate bonds and notes – The fair value of corporate bonds and notes are normally estimated using various techniques which may consider, among other things, recently executed transactions in securities of the issuer or comparable issuers, market price quotations (where observable), bond spreads, and fundamental data relating to the issuer. Although most corporate bonds and notes may be categorized in level 2 of the fair value hierarchy, in instances where lower relative weight is placed on transaction prices, quotations, or similar observable inputs, they may be categorized in level 3.

Restricted and/or illiquid securities – Restricted and/or illiquid securities for which quotations are not readily available or reliable may be valued with fair value pricing as determined in good faith by the Investment Manager under the direction of or pursuant to procedures approved by the Fund’s Board of Trustees. Restricted securities issued by publicly traded companies are generally valued at a discount to similar publicly traded securities. Restricted or illiquid securities issued by nonpublic entities may be valued by reference to comparable public entities or fundamental data relating to the issuer or both or similar inputs. Depending on the relative significance of valuation inputs, these instruments may be categorized in either level 2 or level 3 of the fair value hierarchy.

Derivative instruments – Exchange traded derivatives, such as equity option contracts, may be valued based on quoted prices from the exchange and may be categorized in level 1 of the fair value hierarchy.

The following is a summary of the inputs used as of September 30, 2014 in valuing the Fund’s assets. Refer to the Schedule of Portfolio Investments (unaudited) for detailed information on specific investments.

	Level 1	Level 2	Level 3	Total
Assets				
Investments at value				
Common stocks	\$129,289,444	\$-	\$34,393	\$129,323,837
Corporate bonds and notes	-	2,890,501	-	2,890,501
Real estate investment trusts	6,309,792	-	-	6,309,792
Reorganization interests	93,146	-	-	93,146
Master limited partnerships	1,612,000	-	-	1,612,000
Preferred stocks	2,128,869	-	-	2,128,869
Money market fund	4,191,147	-	-	4,191,147
Total investments at value	\$143,624,398	\$2,890,501	\$34,393	\$146,549,292

There were no securities transferred from level 1 on December 31, 2013 to level 2 on September 30, 2014.

Edgar Filing: DIVIDEND & INCOME FUND - Form N-Q

The following is a reconciliation of level 3 assets including securities valued at zero:

	Common Stocks	Reorganization Interests	Preferred Stocks	Total
Balance at December 31, 2013	\$ 130,086	\$ -	\$0	\$ 130,086
Proceeds from sales	-	-	-	-
Realized loss	-	-	-	-
Transfers into (out of) level 3	-	0	-	-
Change in unrealized depreciation	(95,693)	-	-	(95,693)
Balance at September 30, 2014	\$ 34,393	\$ 0	\$0	\$ 34,393
Net change in unrealized depreciation attributable to assets still held as level 3 at September 30, 2014	\$(95,693)	\$ 0	\$-	\$(95,693)

The Investment Manager, under the direction of the Fund's Board of Trustees, considers various valuation approaches for valuing assets categorized within level 3 of the fair value hierarchy. The factors used in determining the value of such assets may include, but are not limited to: the discount applied due to the private nature of the asset; the type of the security; the size of the asset; the initial cost of the security; the existence of any contractual restrictions on the security's disposition; the price and extent of public trading in similar securities of the issuer or of comparable companies; quotations or evaluated prices from broker-dealers and/or pricing services; information obtained from the issuer or analysts; an analysis of the company's or issuer's financial statements; or an evaluation of the forces that influence the issuer and the market in which the asset is purchased and sold. Significant changes in any of those inputs in isolation may result in a significantly lower or higher fair value measurement. The pricing of all fair value assets is normally reported to the Fund's Board of Trustees.

The following table presents additional information about valuation methodologies and inputs used for assets that are measured at fair value and categorized as level 3 as of September 30, 2014:

September 30, 2014	Fair Value	Valuation Technique	Unobservable Input	Range
Common Stocks				
Services - Miscellaneous Repair Services	\$ 34,393	Share of taxable income and comparable exchange offer	Discount rate for lack of marketability	35 %
Reorganization Interests	\$0	Cost; last known market value for predecessor securities; estimated recovery on liquidation	Discount rate for lack of marketability	100 %
Preferred stock				
Financial	\$0	Most recently reported net asset value	Discount rate for lack of marketability	100 %

Cost for Federal Income Tax Purposes

As of September 30, 2014, for federal income tax purposes, subject to change, the aggregate cost of securities was \$123,077,832 and net unrealized appreciation was \$23,471,460, comprised of gross unrealized appreciation of

\$27,776,405 and gross unrealized depreciation of \$4,304,945. The aggregate cost of investments for tax purposes will depend upon the Fund's investment experience during the entirety of its fiscal year and may be subject to changes based on tax regulations.

Illiquid and Restricted Securities

The Fund owns securities which have a limited trading market and/or certain restrictions on trading and, therefore, may be illiquid and/or restricted. Such securities have been valued using fair value pricing. Due to the inherent uncertainty of valuation, fair value pricing values may differ from the values that would have been used had a readily available market for the securities existed. These differences in valuation could be material. Illiquid and/or restricted securities owned as of September 30, 2014 were as follows:

	Acquisition Date	Cost	Value	
Aquilex Holdings LLC	12/23/09	\$496,372	\$34,393	
Penson Technologies LLC	4/9/14	0	0	
Solar Cayman Ltd.	3/7/07	568,802	0	
		\$1,065,174	\$34,393	
Percent of net assets		0.73	% 0.02	%

Item 2. Controls and Procedures

- (a) The registrant's principal executive officer and principal financial officer have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act")) are effective as of a date within 90 days of the filing date of this report that includes the disclosure required by this paragraph, based on their evaluation of the disclosure controls and procedures required by Rule 30a-3(b) under the 1940 Act and 15d-15(b) under the Securities Exchange Act of 1934.
- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits

- (a) Certifications of the registrant's principal executive officer and principal financial officer as required by Rule 30a-2(a) under the 1940 Act.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
