1. Description of Business and Significant Accounting Policies

Description of Business

Digimarc Corporation ("Digimarc" or the "Company"), an Oregon corporation, enables governments, banks, retailers, consumer brands and other businesses around the world to automatically and reliably identify and interact with virtually any form of media. The Company has pioneered the Digimarc Intuitive Computing Platform ("ICP"), a comprehensive set of technologies for identifying, discovering and interacting with digitally-enhanced media. The platform includes Digimarc Barcode, a proprietary method for imperceptibly enhancing packaging, print, images, thermal labels, audio and other objects with data that is detected by enabled devices, such as smart phones, computers, barcode scanners and machine-vision equipment. Digimarc Discover software enables an ecosystem of connected devices to easily identify content or materials and deliver information.

Interim Consolidated Financial Statements

Our significant accounting policies are detailed in "Note 1: Description of Business and Summary of Significant Accounting Policies" of our Annual Report on Form 10-K for the year ended December 31, 2018. Significant changes to our accounting policies as a result of adopting Accounting Standards Codification ("ASC") 842, "Leases," effective January 1, 2019, is discussed in Note 10 below.

The accompanying interim consolidated financial statements have been prepared from the Company's records without audit and, in management's opinion, include all adjustments (consisting of only normal recurring adjustments) necessary to fairly reflect the financial condition and the results of operations for the periods presented. Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States ("U.S. GAAP") have been condensed or omitted in accordance with the rules and regulations of the U.S. Securities and Exchange Commission ("SEC").

These interim consolidated financial statements should be read in conjunction with the audited consolidated financial statements included in the Company's Annual Report on Form 10-K for the year ended December 31, 2018, which was filed with the SEC on February 22, 2019. The results of operations for the interim periods presented in these consolidated financial statements are not necessarily indicative of the results for the full year.

Reclassifications

Certain prior period amounts in the accompanying consolidated financial statements and notes thereto have been reclassified to conform to current period presentation. These reclassifications had no material effect on the results of operations or financial position for any period presented.

Contingencies

The Company evaluates all pending or threatened contingencies or commitments, if any, that are reasonably likely to have a material adverse effect on the Company's operations or financial position. The Company assesses the probability of an adverse outcome and determines if it is remote, reasonably possible or probable as defined in accordance with the provisions of ASC 450, "Contingencies." If information available prior to the issuance of the financial statements indicates that it is probable that an asset has been impaired or a liability has been incurred at the date of the financial statements, and the amount of the loss, or the range of probable loss can be reasonably estimated, then the loss is accrued and charged to operations. If no accrual is made for a loss contingency because one or both of the conditions pursuant to ASC 450 are not met, but the probability of an adverse outcome is at least reasonably possible, the Company will disclose the nature of the contingency and provide an estimate of the possible loss or range of loss, or state that such an estimate cannot be made.

Goodwill

The Company tests goodwill for impairment annually in June and whenever events or changes in circumstances indicate that the carrying value may exceed the fair value. The Company operates as a single reporting unit. The Company estimates the fair value of its single reporting unit using a market approach, which takes into account the Company's market capitalization plus an estimated control premium.

7

Accounting Pronouncements Adopted

In February 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-02, "Leases (ASC 842)," which supersedes, "Leases (ASC 840)." ASU No. 2016-02 increases the transparency and comparability of organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. This guidance requires that operating leases recognize a right-of-use asset and a lease liability measured at the present value of the lease payments in the statement of financial position, recognize a single lease cost allocated over the lease term on a straight-line basis, and classify all cash payments within operating activities in the statement of cash flows. The amendments in this update are effective for fiscal years beginning after December 31, 2018, and interim periods beginning in the first interim period within the year of adoption. Early adoption is permitted. In July 2018, the FASB issued ASU No. 2018-11, "Leases (ASC 842) Targeted Improvements," to provide a transition election to not restate comparative periods for the effects of applying the new standard. This transition election permits entities to change the date of initial application to the beginning of the year of adoption and to recognize the effects of applying the new standard as a cumulative-effect adjustment to the opening balance of retained earnings. In March 2019, the FASB issued ASU No. 2019-01, "Leases (ASC 842) Codification Improvements," to increase transparency and comparability about disclosing essential information about leasing transactions. The Company adopted the new standard on January 1, 2019 and elected not to restate comparative periods. Upon adoption, the Company concluded no adjustment was required to the opening balance of retained earnings to reflect the impact of adopting the new standard. In addition, the Company recorded right of use assets of \$2,709 and lease liabilities of \$3,792 and reversed the previously recorded deferred rent liability of \$1,083. See Note 10 below for further disclosures.

2. Fair Value of Financial Instruments

The estimated fair values of the Company's financial instruments, which include cash equivalents, accounts receivable, accounts payable and other accrued liabilities approximate their carrying values due to the short-term nature of these instruments. The Company's marketable securities are classified as held-to-maturity and are reported at amortized cost, which approximates fair value.

The Company's fair value hierarchy for its cash equivalents and marketable securities was as follows:

	Level		Lev	el
March 31, 2019	1	Level 2	3	Total
Money market securities	\$323	\$—	\$	—\$323
Commercial paper		28,725		— 28,725
Corporate notes		7,733		— 7,733
Total	\$323	\$36,458	\$	-\$36,781

	Level		Lev	rel
December 31, 2018	1	Level 2	3	Total
Money market securities	\$1,472	\$—	\$	-\$1,472
Commercial paper		28,343		— 28,343

Corporate notes		12,106	— 12,106
Total	\$1,472	\$40,449	\$ -\$41,921

The fair value maturities of the Company's cash equivalents and marketable securities as of March 31, 2019 are as follows:

	Maturities by Period				
		Less than	1-5	5 - 10	More than
	Total	1 year	years	years	10 years
Cash equivalents and marketable securities	\$36,781	\$	-	-	-
