EXPLANATORY NOTE

PBF Logistics LP (“PBFX” or the “Partnership”) is a Delaware limited partnership formed in February 2013. PBF Logistics GP LLC (“PBF GP” or “our general partner”) serves as the general partner of PBFX. PBF GP is wholly-owned by PBF Energy Company LLC (“PBF LLC”). PBF Energy Inc. (“PBF Energy”) is the sole managing member of PBF LLC and, as of March 31, 2016, owned 95.2% of the total economic interest in PBF LLC. In addition, PBF LLC is the sole managing member of PBF Holding Company LLC (“PBF Holding”), a Delaware limited liability company and affiliate of PBFX. On May 14, 2014, PBFX completed its initial public offering (the “Offering”). PBF LLC holds a 53.7% limited partner interest in PBFX and owns all of PBFX’s incentive distribution rights (“IDR”), with the remaining 46.3% limited partner interest owned by public unitholders as of March 31, 2016.

Unless the context otherwise requires, references in this Quarterly Report on Form 10-Q (this “Form 10-Q”) to “Predecessor,” and “we,” “our,” “us,” or like terms, when used in the context of periods prior to May 14, 2014, refer to PBF MLP Predecessor, our predecessor for accounting purposes, which includes assets, liabilities and results of operations of certain crude oil and refined product transportation, terminaling and storage assets, previously operated and owned by PBF Holding's subsidiaries, Delaware City Refining Company LLC (“DCR”), Toledo Refining Company LLC (“TRC”), and PBF Holding's previously held subsidiary, Delaware Pipeline Company (“DPC”). As of March 31, 2016, PBF Holding, together with its subsidiaries, owns and operates four oil refineries and related facilities in North America. PBF Energy, through its ownership of PBF LLC, controls all of the business and affairs of PBFX and PBF Holding.

PBFX's initial assets consisted of the Delaware City Rail Unloading Terminal ("DCR Rail Terminal"), which was part of PBF Holding's Delaware City, Delaware refinery, and the Toledo Truck Unloading Terminal ("Toledo Truck Terminal"), which was part of PBF Holding's Toledo, Ohio refinery, which together with the DCR Rail Terminal, we refer to as the "IPO Assets". On September 30, 2014, the Partnership acquired from PBF LLC the Delaware City West Heavy Unloading Rack (the "DCR West Rack"), a heavy crude oil rail unloading facility at the Delaware City refinery with total throughput capacity of at least 40,000 barrels per day ("bpd"). In addition, on December 11, 2014, the Partnership acquired from PBF LLC a tank farm and related facilities located at PBF Holding's Toledo refinery, including a propane storage and loading facility (the "Toledo Storage Facility"). Furthermore, on May 14, 2015, the Partnership acquired from PBF LLC a 23.4 mile, 16-inch interstate petroleum products pipeline with capacity in excess of 125,000 bpd (the "Delaware City Products Pipeline") and a 15-lane, 76,000 bpd capacity truck loading rack (the "Delaware City Truck Rack") located at PBF Holding's Delaware City, Delaware refinery. The Delaware City Products Pipeline and the Delaware City Truck Rack are collectively referred to as the "Delaware City Products Pipeline and Truck Rack." The transactions entered into after the Offering are collectively referred to as "Acquisitions from PBF." The Acquisitions from PBF were transfers between entities under common control. Accordingly, the financial information of the Predecessor and the Partnership contained herein have been retrospectively adjusted to include the historical results of the Acquisitions from PBF for all periods presented prior to the effective date of each transaction.

References in this Form 10-Q to "PBF Logistics LP," "PBFX," the "Partnership" and "we," "our," "us," or like terms used in the context of periods on or after May 14, 2014, refer to PBF Logistics LP and its subsidiaries.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Form 10-Q (including information incorporated by reference) contains certain "forward-looking statements," as defined in the Private Securities Litigation Reform Act of 1995, of expected future developments that involve risks and uncertainties. You can identify forward-looking statements because they contain words such as "believes," "expects," "may," "should," "seeks," "approximately," "intends," "plans," "estimates," or "anticipates" or similar expressions that relate to strategy, plans or intentions. All statements we make relating to our estimated and projected earnings, margins, costs, expenditures, cash flows, growth rates and financial results or to our expectations regarding future industry trends are forward-looking statements. In addition, we, through our senior management, from time to time make forward-looking public statements concerning our expected future operations and performance and other developments. These forward-looking statements are subject to risks and uncertainties that may change at any time, and, therefore, our actual results may differ materially from those that we expected. We derive many of our forward-looking statements from our operating budgets and forecasts, which are based upon many detailed assumptions. While we believe that our assumptions are reasonable, we caution that it is very difficult to predict the impact of known factors, and, of course, it is impossible for us to anticipate all factors that could affect our actual results.

Important factors that could cause actual results to differ materially from our expectations, which we refer to as "cautionary statements," are disclosed under "Item 1A. Risk Factors", "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Form 10-Q, in our Annual Report on Form 10-K for the year ended December 31, 2015, which we refer to as our 2015 Form 10-K, and in our other filings with the U.S. Securities and Exchange Commission ("SEC"). All forward-looking information in this Form 10-Q and subsequent written and oral forward-looking statements attributable to us, or persons acting on our behalf, are expressly qualified in their entirety by the cautionary statements. Some of the factors that we believe could affect our results include:

- our limited operating history as a separate public partnership;
- changes in general economic conditions;
- our ability to make, complete and integrate acquisitions from affiliates or third parties;
- our ability to have sufficient cash from operations to enable us to pay the minimum quarterly distribution;

- competitive conditions in our industry;
- actions taken by our customers and competitors;
- the supply of, and demand for, crude oil, refined products and logistics services;
- our ability to successfully implement our business plan;
- our dependence on PBF Energy for all of our revenues and, therefore, we are subject to the business risks of PBF Energy;
- all of our revenue is generated at two of PBF Energy's facilities, and any adverse development at either facility could have a material adverse effect on us;
- our ability to complete internal growth projects on time and on budget;
- our ability to complete the successful integration of the Plains Asset Purchase into our business and to realize the benefits from such acquisition;
- the price and availability of debt and equity financing;
- operating hazards and other risks incidental to handling crude oil and petroleum products;
- natural disasters, weather-related delays, casualty losses and other matters beyond our control;
- interest rates;
- labor relations;
- changes in the availability and cost of capital;
- the effects of existing and future laws and governmental regulations, including those related to the shipment of crude oil by trains;
- changes in insurance markets impacting costs and the level and types of coverage available;
- the timing and extent of changes in commodity prices and demand for PBF Energy's refined products and the differential in the prices of different crude oils;
- the suspension, reduction or termination of PBF Energy's obligations under our commercial agreements;
- disruptions due to equipment interruption or failure at our facilities, PBF Energy's facilities or third-party facilities on which our business is dependent;
- incremental costs as a separate public partnership;
- our general partner and its affiliates, including PBF Energy, have conflicts of interest with us and limited duties to us and our unitholders, and they may favor their own interests to the detriment of us and our other common unitholders;
- our partnership agreement restricts the remedies available to holders of our common units for actions taken by our general partner that might otherwise constitute breaches of fiduciary duty;
- holders of our common units have limited voting rights and are not entitled to elect our general partner or its directors;
- our tax treatment depends on our status as a partnership for U.S. federal income tax purposes, as well as our not being subject to a material amount of entity level taxation by individual states;
- changes at any time (including on a retroactive basis) in the tax treatment of publicly traded partnerships or an investment in our common units;
- our unitholders will be required to pay taxes on their share of our taxable income even if they do not receive any cash distributions from us;
- the effects of future litigation; and
- other factors discussed elsewhere in this Form 10-Q.

We caution you that the foregoing list of important factors may not contain all of the material factors that are important to you. In addition, in light of these risks and uncertainties, the matters referred to in the forward-

looking statements contained in this Form 10-Q may not in fact occur. Accordingly, investors should not place undue reliance on those statements.

Our forward-looking statements speak only as of the date of this Form 10-Q. Except as required by applicable law, including the securities laws of the United States, we undertake no obligation to update or revise any forward-looking statements. All subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by the foregoing.

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

1. DESCRIPTION OF THE BUSINESS AND BASIS OF PRESENTATION

PBF Logistics LP (“PBFX” or the “Partnership”) is a Delaware limited partnership formed in February 2013. PBF Logistics GP LLC (“PBF GP” or “our general partner”) serves as the general partner of PBFX. PBF GP is wholly-owned by PBF Energy Company LLC (“PBF LLC”). PBF Energy Inc. (“PBF Energy”) is the sole managing member of PBF LLC and, as of March 31, 2016, owned 95.2% of the total economic interest in PBF LLC. In addition, PBF LLC is the sole managing member of PBF Holding Company LLC (“PBF Holding”), a Delaware limited liability company and affiliate of PBFX. PBF LLC holds a 53.7% limited partner interest in PBFX and owns all of PBFX’s incentive distribution rights (“IDR”), with the remaining 46.3% limited partner interest owned by public unitholders as of March 31, 2016. PBFX engages in the receiving, handling and transferring of crude oil and the receipt, storage and delivery of crude oil, refined products and intermediates. The Partnership does not take ownership of or receive any payments based on the value of the crude oil or products that it handles and does not engage in the trading of any commodities. PBFX’s assets are integral to the operations of PBF Holding’s refineries located in Toledo, Ohio, Delaware City, Delaware and Paulsboro, New Jersey. Subsequent to the Offering and the Acquisitions from PBF (as defined below), PBFX generates all of its revenues from transactions with PBF Holding.

In connection with the Offering, PBF LLC contributed the assets, liabilities and results of operations of certain crude oil terminaling assets to the Partnership. The assets were owned and operated by PBF Holding’s subsidiaries, Delaware City Refining Company LLC (“DCR”) and Toledo Refining Company LLC (“TRC”), and were contributed to the Partnership in connection with the Offering. PBF Holding, together with its subsidiaries, owns and operates four oil refineries and related facilities in North America. PBF Energy, through its ownership in PBF LLC, controls all of the business affairs of PBFX and PBF Holding.

PBFX’s initial assets consisted of the Delaware City Rail Unloading Terminal (“DCR Rail Terminal”), which was part of PBF Holding’s Delaware City, Delaware refinery, and the Toledo Truck Unloading Terminal (“Toledo Truck Terminal”), which was part of PBF Holding’s Toledo, Ohio refinery, which together with the DCR Rail Terminal, we refer to as the “IPO Assets”. In connection with the Offering, the IPO Assets were distributed from PBF Holding to PBF LLC. The DCR Rail Terminal consists of a double loop track and ancillary pumping and unloading equipment, and the Toledo Truck Terminal consists of six lease automatic custody transfer (“LACT”) units. The IPO Assets operate within the totality of the Toledo refinery and adjacent to the Delaware City refinery. The IPO Assets did not generate third party or affiliate revenue prior to the Offering. However, subsequent to the Offering, both of the IPO Assets have generated affiliate revenue.

On September 30, 2014, the Partnership acquired from PBF LLC the Delaware City West Heavy Unloading Rack (the “DCR West Rack”), a heavy crude oil rail unloading facility at the Delaware City refinery. In addition, on December 11, 2014, the Partnership acquired from PBF LLC a tank farm and related facilities located at PBF Holding’s Toledo refinery, including a propane storage and loading facility (the “Toledo Storage Facility”). Furthermore, on May 14, 2015, the Partnership acquired from PBF LLC an interstate petroleum products pipeline (the “Delaware City Products Pipeline”) and a truck loading rack (the “Delaware City Truck Rack”) located at PBF Holding’s Delaware City, Delaware refinery. The Delaware City Products Pipeline and the Delaware City Truck Rack are collectively referred to as the “Delaware City Products Pipeline and Truck Rack.” These transactions are collectively referred to as “Acquisitions from PBF.” Subsequent to the Acquisitions from PBF, the DCR Rail Terminal, the Toledo Truck Terminal, the DCR West Rack, the Toledo Storage Facility and the Delaware City Products Pipeline and Truck Rack are collectively referred to as the “Contributed Assets.”

The Acquisitions from PBF were transfers of assets between entities under common control. Accordingly, the accompanying financial statements and related notes of PBF MLP Predecessor (the “Predecessor”), our predecessor for accounting purposes, and the Partnership have been retrospectively adjusted to include the historical results of the DCR West Rack, the Toledo Storage Facility and the Delaware City Products Pipeline and Truck Rack for all periods presented prior to the effective date of each transaction. The financial statements of our Predecessor, the DCR West Rack, the Toledo Storage Facility and the Delaware City Products Pipeline and Truck Rack have been prepared from

the separate records maintained by subsidiaries of PBF Energy and may not

9

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

necessarily be indicative of the conditions that would have existed or the results of operations if they were operated as an unaffiliated company. Portions of certain expenses represent allocations made from corporate expenses applicable to PBF Energy as a whole. See our Annual Report on Form 10-K for the year ended December 31, 2015 (our “2015 Form 10-K”) for additional information regarding the Acquisitions from PBF and the commercial agreements and amendments to other agreements with related parties in connection with these acquisitions.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, PBFX has included all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of the financial position and the results of operations and cash flows of PBFX and the Predecessor, as applicable, for the periods presented. The results of operations for the three months ended March 31, 2016 and 2015 are not necessarily indicative of the results that may be expected for the full year.

The financial statements presented in this Quarterly Report on Form 10-Q (this “Form 10-Q”) include the condensed consolidated financial results of PBFX for the period beginning May 14, 2014, the completion date of the Offering. The Predecessor did not historically operate its respective assets for the purpose of generating revenues independent of other PBF Energy businesses prior to the Offering or for assets acquired in the Acquisitions from PBF, with the exception of the Delaware City Products Pipeline, prior to the effective dates of each transaction. All intercompany accounts and transactions have been eliminated.

Recent Accounting Pronouncements

In January 2016, the FASB issued ASU No. 2016-01, “Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities” (“ASU 2016-01”), which amends how entities measure equity investments that do not result in consolidation and are not accounted for under the equity method and how they present changes in the fair value of financial liabilities measured under the fair value option that are attributable to their own credit. ASU 2016-01 also changes certain disclosure requirements and other aspects of current US GAAP but does not change the guidance for classifying and measuring investments in debt securities and loans. Under ASU 2016-01, this guidance becomes effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted in certain circumstances. The Partnership is currently evaluating the impact of this new standard on its consolidated financial statements and related disclosures.

In February 2016, the FASB issued ASU No. 2016-02, “Leases (Topic 842)” (“ASU 2016-02”), to increase the transparency and comparability about leases among entities. The new guidance requires lessees to recognize a lease liability and a corresponding lease asset for virtually all lease contracts. It also requires additional disclosures about leasing arrangements. ASU 2016-02 is effective for interim and annual periods beginning after December 15, 2018, and requires a modified retrospective approach to adoption. Early adoption is permitted. The Partnership is currently evaluating the impact of this new standard on its consolidated financial statements and related disclosures.

In March 2016, the FASB issued ASU No. 2016-06, “Derivatives and Hedging (Topic 815) Contingent Put and Call Options in Debt Instruments a consensus of the FASB Emerging Issues Task Force” (“ASU 2016-06”), to increase consistency in practice in applying guidance on determining if an embedded derivative is clearly and closely related to the economic characteristics of the host contract, specifically for assessing whether call (put) options that can accelerate the repayment of principal on a debt instrument meet the clearly and closely related criterion. The guidance in ASU 2016-06 applies to all entities that are issuers of or investors in debt instruments (or hybrid financial instruments that are determined to have a debt host) with embedded call (put) options. ASU 2016-06 is effective for interim and annual periods beginning after December 15, 2016, and requires a modified retrospective approach to adoption. Early adoption is permitted. The Partnership is currently evaluating the impact of this new standard on its consolidated financial statements and related disclosures.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

2. PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, net consisted of the following:

	March 31, 2016	December 31, 2015
Land	\$2,417	\$ 2,417
Terminals and equipment	80,718	80,718
Storage equipment	60,959	60,959
Pipeline Assets	18,567	18,546
Construction in progress	439	5
	163,100	162,645
Accumulated depreciation	(18,737)	(17,097)
Property, plant and equipment, net	\$144,363	\$ 145,548

3. DEBT

Total debt was comprised of the following:

	March 31, 2016	December 31, 2015
6.875% Senior Notes due 2023	\$350,000	\$350,000
Term Loan	234,200	234,200
Revolving Credit Facility (a)	24,500	24,500
Total debt outstanding	608,700	608,700
Unamortized debt issuance costs	(8,642)	(9,065)
Net carrying value of debt	\$600,058	\$599,635

(a) PBFX had \$2,110 outstanding letters of credit and \$298,390 available under our five year \$325,000 revolving credit facility ("Revolving Credit Facility") as of March 31, 2016.

Fair Value Measurement

A fair value hierarchy (Level 1, Level 2, or Level 3) is used to categorize fair value amounts based on the quality of inputs used to measure fair value. Accordingly, fair values derived from Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities. Fair values derived from Level 2 inputs are based on quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are either directly or indirectly observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability.

Debt or equity securities are classified into the following reporting categories: held-to-maturity, trading or available-for-sale securities. While PBFX does not routinely sell marketable securities prior to their scheduled maturity dates, some of PBFX's investments may be held and restricted for the purpose of funding future capital expenditures and acquisitions. Such investments are classified as available-for-sale marketable securities as they may occasionally be sold prior to their scheduled maturity dates due to the unexpected timing of cash needs. The carrying value of these marketable securities approximates fair value and is measured using Level 1 inputs. The terms of the marketable securities range from one to three months and are classified on the balance sheet as non-current assets. The gross unrecognized holding gains and losses as of March 31, 2016 and December 31, 2015 were not material. As

of March 31, 2016, these investments are used as collateral to secure the Partnership's obligations under its three year \$300,000 term loan facility with Wells Fargo Bank, National Association, as

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

administrative agent, and a syndicate of lenders (the “Term Loan”) and are intended to be used only to fund future capital expenditures.

The estimated fair values of the Revolving Credit Facility and Term Loan approximate their carrying values, categorized as a Level 2 measurement, as these borrowings bear interest based upon short-term floating market interest rates. The estimated fair value of the Partnership’s 6.875% Senior Notes due 2023 (“2023 Notes”), categorized as a Level 2 measurement, was calculated based on the present value of future expected payments utilizing implied current market interest rates based on quoted prices of the 2023 Notes and was approximately \$339,216 and \$321,722 at March 31, 2016 and December 31, 2015, respectively. The carrying value and fair value of PBFX's debt, exclusive of unamortized debt issuance costs, was approximately \$608,700 and \$597,916 as of March 31, 2016 and \$608,700 and \$580,422 as of December 31, 2015, respectively.

4. EQUITY

PBFX had 15,924,676 common units held by the public outstanding as of March 31, 2016. PBF Energy owns 2,572,944 of PBFX's common units and 15,886,553 of PBFX's subordinated units constituting an aggregate of 53.7% of PBFX's limited partner interest. In accordance with PBFX's partnership agreement, PBF Energy's subordinated units will convert into common units on a one-for-one basis once PBFX has met specified distribution targets and successfully completed other tests set forth in PBFX's partnership agreement.

Issuance of Additional Interests

PBFX's partnership agreement authorizes PBFX to issue an unlimited number of additional partnership interests for consideration and on the terms and conditions determined by PBFX's general partner without the approval of the unitholders. In addition, on May 14, 2015, PBFX partially funded the Delaware City Products Pipeline and Truck Rack acquisition with \$30,500 of Partnership common units, or 1,288,420 common units. It is possible that PBFX will fund future acquisitions through the issuance of additional common units, subordinated units or other partnership interests.

Holder of any additional common units PBFX issues will be entitled to share equally with the then-existing common unitholders in PBFX's distributions of available cash.

Equity Activity

The summarized changes in the carrying amount of our equity during the three months ended March 31, 2016 are as follows:

	Common Units - Public	Common Units - PBF	Subordinated Units - PBF	IDR	Total
Balance at December 31, 2015	\$340,317	\$(248,363)	\$(277,094)	\$(535)	\$(185,675)
Quarterly distributions to unitholders (including IDRs)	(6,694)	(1,055)	(6,513)	(583)	(14,845)
Net income attributable to Partnership	8,493	1,372	8,472	757	19,094
Contributions from PBF LLC	—	15	—	—	15
Unit-based compensation expense	729	—	—	—	729
Other	(505)	(82)	(506)	1,118	25
Balance at March 31, 2016	\$342,340	\$(248,113)	\$(275,641)	\$757	\$(180,657)

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

Allocations of Net Income

PBFX's partnership agreement contains provisions for the allocation of net income and loss to the unitholders. For purposes of maintaining partner capital accounts, PBFX's partnership agreement specifies that items of income and loss shall be allocated among the partners in accordance with their respective percentage interest. Normal allocations according to percentage interests are made after giving effect, if any, to priority income allocations in an amount equal to incentive cash distributions allocated 100% to PBF LLC.

Cash distributions

PBFX's partnership agreement, as amended, sets forth the calculation to be used to determine the amount and priority of cash distributions that the common and subordinated unitholders and general partner will receive. On March 8, 2016, the Partnership paid a quarterly cash distribution, based on the results of the fourth quarter of 2015, totaling \$14,680, or \$0.41 per unit, to unitholders of record on February 22, 2016.

The allocation of total quarterly cash distributions to general and limited partners, in the table below, for the three months ended March 31, 2016 and 2015, is as follows. The Partnership's distributions are declared subsequent to quarter end (distributions of \$0.42 and \$0.35 per unit declared in April 2016 and 2015, respectively, for the three months ended March 31, 2016 and 2015, respectively); therefore, the table represents total cash distributions applicable to the period in which the distributions are earned:

	Three Months Ended March 31,	
	2016	2015
IDR - PBF LLC	\$757	\$29
Limited partners' distributions:		
Common – public	8,065	5,631
Common – PBF LLC	1,081	450
Subordinated – PBF LLC	6,672	5,560
Total distributions	16,575	11,670
Total cash distributions ⁽¹⁾	\$16,429	\$11,574

⁽¹⁾ Excludes phantom unit distributions which are accrued and paid upon vesting.

5. UNIT-BASED COMPENSATION

PBF GP's board of directors adopted the PBF Logistics LP 2014 Long Term Incentive Plan ("LTIP") in connection with the completion of the Offering. The LTIP is for the benefit of employees, consultants, service providers and non-employee directors of the general partner and its affiliates.

In the three months ended March 31, 2016 and 2015, PBFX issued phantom unit awards under the LTIP to certain directors, officers and seconded employees of our general partner or its affiliates as compensation. The fair value of each phantom unit on the grant date is equal to the market price of PBFX's common units on that date. The estimated fair value of PBFX's phantom units is amortized over the vesting period of four years, using the straight-line method. In the three months ended March 31, 2015, upon retirement of certain of PBF GP's officers, phantom units held by these individuals accelerated vesting pursuant to the terms of their grant agreements. There was no acceleration of units in the three months ended March 31, 2016.

Unit-based compensation expense related to the Partnership that was included in general and administrative expense in the Partnership's condensed consolidated statements of operations was \$729 and \$930, inclusive of \$0

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

and \$510 associated with the accelerated vesting of certain phantom units described above, for the three months ended March 31, 2016 and 2015.

6. NET INCOME PER UNIT

Earnings in excess of distributions are allocated to the limited partners based on their respective percentage interests. Payments made to PBFX's unitholders are determined in relation to actual distributions declared and are not based on the net income (loss) allocations used in the calculation of net income (loss) per unit.

Diluted net income per unit includes the effects of potentially dilutive units of PBFX's common units that consist of unvested phantom units. For the three months ended March 31, 2016, there were 398,485 anti-dilutive phantom units. For the three months ended March 31, 2015, there were no anti-dilutive phantom units. Basic and diluted net income per unit applicable to subordinated limited partners are the same because there are no potentially dilutive subordinated units outstanding.

In addition to the common and subordinated units, PBFX has also identified the general partner interest and incentive distribution rights as participating securities and uses the two-class method when calculating the net income per unit applicable to limited partners that is based on the weighted-average number of common units outstanding during the period. The Partnership issued 1,288,420 common units in 2015 to PBF LLC in conjunction with the Delaware City Products Pipeline and Truck Rack acquisition.

When calculating basic earnings per unit under the two-class method for a master limited partnership, net income for the current reporting period is reduced by the amount of available cash that has been or will be distributed to the general partner, limited partners, and IDR holders for that reporting period. The following table shows the calculation of earnings less distributions:

	Three Months Ended March 31,	
	2016	2015
Net income (loss)	\$19,094	\$17,762
Less distributions declared on:		
Limited partner common units - public	8,065	5,631
Limited partner common units - PBF LLC	1,081	450
Limited partner subordinated units - PBF LLC	6,672	5,560
IDR holder - PBF LLC	757	29
Total distributions declared	16,575	11,670
Earnings less distributions	\$2,519	\$6,092

7. COMMITMENTS AND CONTINGENCIES

Environmental Matters

PBFX's assets, along with PBF Energy's refineries, are subject to extensive and frequently changing federal, state and local laws and regulations, including, but not limited to, those relating to the discharge of materials into the environment or that otherwise relate to the protection of the environment, waste management and the characteristics and the composition of fuels. Compliance with existing and anticipated laws and regulations can

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

increase the overall cost of operating the Partnership's assets, including remediation, operating costs and capital costs to construct, maintain and upgrade equipment and facilities.

In connection with PBF Holding's acquisition of the DCR assets, Valero Energy Corporation ("Valero") remains responsible for certain pre-acquisition environmental obligations up to \$20,000 and the predecessor to Valero in ownership of the refinery retains other historical obligations.

In connection with its acquisition of the DCR assets and the Paulsboro refinery, PBF Holding and Valero purchased ten year, \$75,000 environmental insurance policies to insure against unknown environmental liabilities at each site. In connection with PBF Holding's Toledo refinery acquisition, Sunoco Inc. (R&M) remains responsible for environmental remediation for conditions that existed on the closing date for twenty years from March 1, 2011, subject to certain limitations.

8. RELATED PARTY TRANSACTIONS

Commercial Agreements

PBFX currently derives all of its revenue from long-term, fee-based agreements with PBF Holding, supported by fee escalations for inflation adjustments and certain increases in operating costs. PBFX believes the terms and conditions under these agreements, as well as the omnibus and services agreements with PBF Holding described below, are generally no less favorable to either party than those that could have been negotiated with unaffiliated parties with respect to similar services.

The commercial agreements entered into during the year ended December 31, 2015 and 2014 with PBF Holding have initial terms ranging from approximately seven to ten years and include:

- a rail terminaling services agreement with PBF Holding, with an initial term of approximately seven years, under which the Partnership provides terminaling services at the DCR Rail Terminal. Pursuant to the rail terminaling services agreement, and based on the change in the U.S. Producer Price Index (the "PPI"), effective January 1, 2016, the terminaling service fee was decreased to \$2.014 per barrel up to the minimum throughput commitment and \$0.503 per barrel for volumes that exceed the minimum throughput commitment;
- a truck unloading and terminaling services agreement with PBF Holding, with an initial term of approximately seven years, under which the Partnership provides terminaling services at the Toledo Truck Terminal. Pursuant to the truck unloading and terminaling services agreement, and based on the change in the PPI, effective January 1, 2016, the terminaling service fee was decreased to \$1.007 per barrel;
- a terminaling services agreement, with an initial term of approximately seven years, under which the Partnership provides rail terminaling services to PBF Holding at the DCR West Rack;
- a storage and terminaling services agreement, with an initial term of ten years, under which the Partnership provides storage and terminaling services to PBF Holding at the Toledo Storage Facility;
- a pipeline service agreement with PBF Holding, with an initial term of approximately ten years, under which the Partnership, through Delaware Pipeline Company ("DPC"), provides pipeline services to PBF Holding at the Delaware City Products Pipeline; and
- a truck loading service agreement with PBF Holding, with an initial term of approximately ten years, under which the Partnership, through Delaware City Logistics Company LLC ("DCLC"), provides terminaling services to PBF Holding at the Delaware City Truck Rack.

Each of these commercial agreements contain minimum volume commitments. Additionally, the storage and terminaling services agreement contains minimum requirements for the amount of storage contracted by PBF Holding. The fees under each commercial agreement are indexed for inflation and the agreements give PBF Holding the option to renew for two additional five year terms following the expiration of the initial term.

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

Other Agreements

In addition to the commercial agreements described above, the Partnership also entered into an omnibus agreement with PBF GP, PBF LLC and PBF Holding, which addresses the payment of an annual fee, in the amount of \$2,350 per year, for the provision of various general and administrative services, among other matters, and an operations and management services and secondment agreement with PBF Holding and certain of its subsidiaries under which PBFX reimburses PBF Holding for the provision of certain operational services to the Partnership in support of its operations, including operational services performed by certain of PBF Holding's field-level employees.

Predecessor Transactions

Related-party transactions of the Predecessor were settled through division of equity.

Summary of Transactions

A summary of revenue and expense transactions with our affiliates, including expenses directly charged and allocated to PBFX and our Predecessor, is as follows:

	Three Months Ended March 31,	
	2016	2015
Revenues	\$36,549	\$32,846
Operating and maintenance expenses	1,122	1,155
General and administrative expenses	844	1,235

9. SEGMENT INFORMATION

The Partnership's operations are organized into two reportable segments, Transportation and Terminaling; and Storage. Operations that are not included in the Transportation and Terminaling and Storage segments are included in Corporate. Intersegment transactions are eliminated in the consolidated financial statements and are included in Eliminations.

Prior to the acquisition of the Delaware City Products Pipeline and Truck Rack, the Transportation and Terminaling segment was referred to as the Terminaling segment.

Our Transportation and Terminaling segment consists of the following assets:

- the DCR Rail Terminal, which serves PBF Holding's Delaware City and Paulsboro refineries;
- the DCR West Rack, which serves PBF Holding's Delaware City refinery;
- the Toledo Truck Terminal, which serves PBF Holding's Toledo refinery, comprised of LACT units;
- a propane truck loading facility, located within the Toledo Storage Facility, which is part of PBF Holding's Toledo, Ohio refinery;
- the Delaware City Products Pipeline, which consists of an interstate petroleum products pipeline located at PBF Holding's Delaware City refinery; and
- the Delaware City Truck Rack, which consists of a truck loading rack utilized to distribute gasoline, distillates and LPGs located at PBF Holding's Delaware City refinery.

PBF LOGISTICS LP

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(IN THOUSANDS, EXCEPT BARREL, PER BARREL, UNIT AND PER UNIT DATA)

Our Storage segment consists of the following asset:

- the Toledo Storage Facility, excluding the propane truck loading facility, which services the Toledo refinery and consists of tanks for storing crude oil, refined products and intermediates.

Revenues are generated from commercial agreements entered into with PBF Holding under which PBF Holding pays the Partnership fees for transportation, terminaling and storage of crude oil and refined products. The commercial agreements with PBF Holding are described in Note 8 of the Condensed Consolidated Financial Statements in this Form 10-Q. The Partnership does not have any foreign operations.

The operating segments adhere to the accounting policies used for the consolidated financial statements, as described in our 2015 Form 10-K Note 2 “Summary of Accounting Policies” of the Notes to Consolidated Financial Statements. The Partnership’s operating segments are strategic business units that offer different services in different geographical locations. PBFX has evaluated the performance of each operating segment based on its respective operating income. Certain general and administrative expenses and interest and financing costs are included in Corporate as they are not directly attributable to a specific operating segment. Identifiable assets are those used by the operating segment, whereas assets included in Corporate are principally cash, deposits and other assets that are not associated with a specific operating segment.

10. SUBSEQUENT EVENTS

April 2016 Equity Offering

On April 5, 2016, the Partnership completed a public offering of an aggregate of 2,875,000 common units, including 375,000 common units that were sold pursuant to the exercise of an over-allotment option, for net proceeds of \$51,400, after deducting underwriting discounts and commissions and other offering expenses (the "April 2016 Equity Offering").

As a result of the April 2016 Equity Offering, PBF LLC holds a 49.5% limited partner interest in PBFX and owns all of PBFX's IDRs, with the remaining 50.5% limited partner interest owned by public unitholders.

Cash distribution

On April 28, 2016, PBF GP's board of directors declared a cash distribution, based on the results of the first quarter of 2016, of \$0.42 per unit. The distribution is payable on May 31, 2016 to PBFX unitholders of record at the close of business on May 13, 2016.

Plains Asset Purchase

On April 29, 2016, the Partnership's wholly-owned subsidiary, PBF Logistics Products Terminals LLC, completed the purchase of four refined product terminals located in the greater Philadelphia region (the "East Coast Terminals") from an affiliate of Plains All American Pipeline, L.P. for total cash consideration of approximately \$100,000 (the "Plains Asset Purchase").

11. CONDENSED CONSOLIDATING FINANCIAL STATEMENTS OF PBF LOGISTICS

DCLC, DPC, Delaware City Terminaling Company LLC and Toledo Terminaling Company LLC are 100% owned subsidiaries of the Partnership and serve as guarantors of the obligations under the 2023 Notes. These guarantees are full and unconditional and joint and several. For purposes of the following footnote, the Partnership is referred to as “Issuer.” The indenture dated May 12, 2015, among the Partnership, PBF Logistics Finance, the guarantors party thereto and Deutsche Bank Trust Company Americas, as Trustee, governs subsidiaries designated as “Guarantor Subsidiaries.” The 2023 Notes were co-issued by PBF Logistics Finance. For purposes of the following footnote, PBF Logistics Finance is referred to as “Co-Issuer.” The Co-Issuer has no independent assets or operations.

The following supplemental combining and condensed consolidating financial information reflects the Issuer’s separate accounts, the combined accounts of the Guarantor Subsidiaries, the combining and consolidating adjustments and eliminations and the Issuer’s consolidated accounts for the dates and periods indicated. For purposes of the following combining and consolidating information, the Issuer’s investment in its subsidiaries and the Guarantor Subsidiaries’ investment in its subsidiaries are accounted for under the equity method of accounting.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation

You should read the following discussion and analysis of our financial condition and results of operations together with the unaudited condensed consolidated financial statements and the notes thereto included elsewhere in this Form 10-Q. The following information and such unaudited condensed consolidated financial statements should also be read in conjunction with the audited consolidated financial statements and related notes, together with our discussion and analysis of financial condition and results of operations in our 2015 Form 10-K. This discussion contains forward-looking statements that are based on management's current expectations, estimates and projections about our business and operations. The cautionary statements made in this report should be read as applying to all related forward-looking statements wherever they appear in this Form 10-Q. Our actual results may differ materially from those currently anticipated and expressed in such forward-looking statements as a result of a number of factors. You should read "Risk Factors" in our 2015 Form 10-K and "Cautionary Note Regarding Forward-Looking Statements" in this Form 10-Q. In this Item 2, all references to "we," "us," "our," the "Partnership," "PBFX" or similar terms for periods prior to the Offering refer to the Predecessor or for assets acquired in the Acquisitions from PBF prior to the effective date of each acquisition. For periods subsequent to the Offering or effective dates of each of the Acquisitions from PBF, these terms refer to the Partnership and its subsidiaries.

Overview

PBFX is a fee-based, growth-oriented, Delaware master limited partnership formed in February 2013 by subsidiaries of PBF Energy to own or lease, operate, develop and acquire crude oil and refined petroleum products terminals, pipelines, storage facilities and similar logistics assets. PBF GP is our general partner and is wholly-owned by PBF LLC. PBF Energy is the sole managing member of PBF LLC and, as of March 31, 2016, owned 95.2% of the total economic interest in PBF LLC. PBF LLC holds a 53.7% limited partner interest in PBFX and owns all of PBFX's IDRs, with the remaining 46.3% limited partner interest owned by public unitholders.

The Partnership includes the assets, liabilities and results of operations of certain crude oil and refined product terminaling, pipeline, and storage assets, previously operated and owned by PBF Holding's subsidiaries, DCR, TRC and PBF Holding's previously held subsidiary, DPC, which were acquired in the Acquisitions from PBF during 2014 and 2015.

In connection with the Offering, pursuant to a contribution, conveyance and assumption agreement, PBF LLC contributed the IPO Assets. Prior to completion of the Offering, the assets, liabilities and results of operations of the aforementioned assets related to our Predecessor.

During 2014, the Partnership acquired from PBF LLC the DCR West Rack, a heavy crude oil rail unloading facility (also, capable of unloading light crude oil) at the Delaware City refinery and the Toledo Storage Facility, a tank farm and related facilities located at PBF Holding's Toledo refinery, including a propane storage and loading facility. In addition, on May 14, 2015, the Partnership acquired from PBF LLC the Delaware City Products Pipeline, a 23.4 mile, 16-inch interstate petroleum products pipeline with capacity in excess of 125,000 bpd and the Delaware City Truck Rack, a 15-lane, 76,000 bpd capacity truck loading rack located at PBF Holding's Delaware City, Delaware refinery.

The condensed consolidated financial statements presented in this Form 10-Q include the consolidated financial results of PBFX as of and for the period ending March 31, 2016. We recorded the Acquisitions from PBF at PBF Energy's historical book value, as the Acquisitions from PBF were treated as a reorganization of entities under common control. We have retrospectively adjusted the financial information of PBFX contained herein to include the historical results of the Delaware City Products Pipeline and Truck Rack prior to the effective date of its acquisition by PBFX.

Our Predecessor did not historically operate its assets for the purpose of generating revenues independent of other PBF Energy businesses that we support. Upon closing of the Offering and the Acquisitions from PBF, we

entered into commercial and service agreements with subsidiaries of PBF Energy under which we operate our assets for the purpose of generating fee-based revenues. We receive, handle and transfer crude oil and refined products from sources located throughout the United States and Canada and store crude oil, refined products and intermediates for PBF Energy in support of its refineries located in Toledo, Ohio, Delaware City, Delaware and Paulsboro, New Jersey. Our assets consist of the DCR Rail Terminal, the Toledo Truck Terminal, the DCR West Rack, the Toledo Storage Facility and the Delaware City Products Pipeline and Truck Rack (collectively referred to as the “Contributed Assets”), which are integral components of the crude oil and refined products delivery and storage operations at PBF Energy’s refineries.

Recent Developments

Plains Asset Purchase

On February 2, 2016, we announced that our wholly-owned subsidiary, PBF Logistics Products Terminals LLC, entered into an agreement to purchase the assets of four refined product terminals located in the greater Philadelphia region (the “East Coast Terminals”) from an affiliate of Plains All American Pipeline, L.P. for total cash consideration of approximately \$100.0 million (the “Plains Asset Purchase”). This acquisition expands our storage and terminaling footprint and introduces third-party customers to our revenue base. The acquisition was financed through a combination of cash on hand and borrowings from our senior secured revolving credit facility. On April 29, 2016, we closed on our acquisition of the East Coast Terminals.

April 2016 Equity Offering

On April 5, 2016, we completed a public offering of an aggregate of 2,875,000 common units, including 375,000 common units that were sold pursuant to the full exercise by the underwriter of its option to purchase additional common units, for net proceeds of approximately \$51.4 million, after deducting underwriting discounts and commissions and other offering expenses (the “April 2016 Equity Offering”).

As a result of the April 2016 Equity Offering, PBF LLC holds a 49.5% limited partner interest in us and owns all of our IDRs, with the remaining 50.5% limited partner interest owned by public unitholders.

Agreements with PBF Energy

Commercial Agreements

We have various long-term, fee-based commercial agreements with PBF Holding under which we provide rail, trucking, pipeline, terminal distribution and storage services to PBF Holding, and PBF Holding commits to provide us with minimum monthly throughput volumes of crude oil and refined products. If, in any calendar quarter, PBF Holding fails to meet its minimum volume commitments under these agreements, it will be required to pay a shortfall payment. We believe the terms and conditions under these agreements, as well as other agreements with PBF Holding described below, are generally no less favorable to either party than those that could have been negotiated with unaffiliated parties with respect to similar services. In addition, certain subsidiaries of PBF Energy have preexisting commercial relationships with the East Coast Terminals which have been assigned to us in connection with the closing of the Plains Asset Purchase.

The commercial agreements entered into during the year ended December 31, 2015 and 2014 with PBF Holding have initial terms ranging from approximately seven to ten years and include:

- a rail terminaling services agreement with PBF Holding, with an initial term of approximately seven years, under which we provide terminaling service at the DCR Rail Terminal. Pursuant to the rail terminaling services agreement, and based on the change in the U.S. Producer Price Index (the “PPI”), effective January 1, 2016, the terminaling service fee was decreased to \$2.014 per barrel up to the minimum throughput commitment and \$0.503 per barrel for volumes that exceed the minimum throughput commitment;

- a truck unloading and terminaling services agreement with PBF Holding, with an initial term of approximately seven years, under which we provide terminaling service at the Toledo Truck Terminal. Pursuant to the truck unloading and terminaling services agreement, and based on the change in the PPI, effective January 1, 2016, the terminaling service fee was decreased to \$1.007 per barrel;
- a terminaling services agreement, with an initial term of approximately seven years, under which we provide rail terminaling services to PBF Holding at the DCR West Rack;
- a storage and terminaling services agreement, with an initial term of ten years, under which we provide storage and terminaling services to PBF Holding at the Toledo Storage Facility;
- a pipeline service agreement with PBF Holding, with an initial term of approximately ten years, under which we, through DPC, provide pipeline service to PBF Holding at the Delaware City Products Pipeline; and
- a truck loading service agreement with to PBF Holding, with an initial term of approximately ten years, under which we, through Delaware City Logistics Company LLC, provide terminaling services to PBF Holding at the Delaware City Truck Rack.

Each of these commercial agreements contain minimum volume commitments. Additionally, the storage and terminaling services agreement contains minimum requirements for the amount of storage contracted by PBF Holding. The fees under each commercial agreement are indexed for inflation and the agreements give PBF Holding the option to renew for two additional five year terms following the expiration of the initial term.

Other Agreements

In addition to the commercial agreements described above, we also entered into an omnibus agreement with PBF GP, PBF LLC and PBF Holding, which addresses the payment of an annual fee, in the amount of \$2.35 million per year, for the provision of various general and administrative services, and reimbursement of salary and benefit costs for certain PBF Energy employees, among other matters, and an operations and management services and secondment agreement with PBF Holding and certain of its subsidiaries under which we reimburse PBF Holding for the provision of certain operational services to us in support of our operations, including operational services performed by certain of PBF Holding's field-level employees.

Factors Affecting the Comparability of Our Financial Results

Our results of operations may not be comparable to our historical results of operations for the reasons described below:

Revenues. Our reported logistics assets revenues are fee-based and subject to contractual minimum volume commitments. These fees are indexed for inflation in accordance with either the Federal Energy Regulatory Commission (the “FERC”) indexing methodology or the PPI.

Revenues reported by PBFX prior to the Delaware City Product Pipeline and Truck Rack acquisition did not include commercial contracts with Delaware City Products Pipeline and Truck Rack. Prior to the Delaware City Products Pipeline and Truck Rack acquisition, only the Delaware City Products Pipeline generated revenue.

Financing. There are differences in the way we finance our operations as compared to our operations prior to the Delaware City Product Pipeline and Truck Rack acquisition. Historically, we have financed our operations through proceeds generated by the Offering, internally generated cash flows, and borrowings under our five year \$325.0 million revolving credit facility (“Revolving Credit Facility”) to satisfy capital expenditure requirements. On May 12, 2015, we issued \$350.0 million in aggregate principal amount of 6.875% Senior Notes due 2023 (“2023 Senior Notes”), resulting in a significant increase to our historically recognized interest expense and amortization of loan fees.

Based on the terms of our cash distribution policy, we will distribute most of the cash generated by our operations to our unitholders, including PBF Energy. As a result, we expect to fund future maintenance and growth capital expenditures primarily from a combination of cash-on-hand, borrowings under our Revolving Credit Facility and potential issuance of additional equity or debt securities.

Other Factors That Will Significantly Affect Our Results

Supply and Demand for Crude Oil and Refined Products. We generate revenue by charging fees for receiving, handling, transferring, storing and throughputting crude oil and refined products. All of our revenues are derived from fee-based commercial agreements with subsidiaries of PBF Energy with initial terms ranging from approximately seven to ten years and including minimum volume commitments, which enhance the stability of our cash flows. The volume of crude oil and refined products that is throughputted depends substantially on PBF Energy’s refining margins. Refining margins are dependent mostly upon the price of crude oil or other refinery feedstocks and the price of refined products.

Factors driving the prices of petroleum-based commodities include supply and demand in crude oil, gasoline and other refined products. Supply and demand for these products depend on numerous factors outside of our control, including changes in domestic and foreign economies, weather conditions, domestic and foreign political affairs, production levels, logistics constraints, availability of imports, marketing of competitive fuels, crude oil price differentials and government regulation. Please read “Risk Factors” in our 2015 Form 10-K.

Acquisition Opportunities. We may acquire additional logistics assets from PBF Energy or third parties. Under our omnibus agreement with PBF GP, PBF LLC and PBF Holding, subject to certain exceptions, we have a right of first offer on certain logistics assets owned by PBF Energy to the extent PBF Energy decides to sell, transfer or otherwise dispose of any of those assets. We also have a right of first offer to acquire additional logistics assets that PBF Energy may construct or acquire in the future. Our commercial agreements provide us with options to purchase certain assets at PBF Holding’s Delaware City and Toledo refineries related to our business in the event PBF Energy permanently shuts down either the Delaware City refinery or the Toledo refinery. In addition, our commercial agreements provide us with the right to use certain assets at PBF Holding’s Delaware City or Toledo refineries in the event of a temporary shutdown. Furthermore, we may pursue strategic asset acquisitions from third parties to the extent such acquisitions complement our or PBF Energy’s existing asset base or provide attractive potential returns. We believe that we are well-positioned to acquire logistics assets from PBF Energy and third parties should such opportunities arise, and identifying and executing acquisitions is a key part of our strategy.

However, if we do not make acquisitions on economically acceptable terms, our future growth will be limited, and the acquisitions we do make may reduce, rather than increase, our cash available for distribution. These acquisitions could also affect the comparability of our results from period to period. We expect to fund future growth capital expenditures primarily from a combination of cash-on-hand, through the liquidation of marketable securities, borrowings under our Revolving Credit Facility and the issuance of additional equity or debt securities. To the extent we issue additional units to fund future acquisitions or expansion capital expenditures, the payments of distributions on those additional units may increase the risk that we will be unable to maintain or increase our per unit distribution level.

Third-Party Business. As of March 31, 2016, PBF Holding accounts for all of our revenues. In addition, subsequent to the Plains Asset Purchase, we continue to expect the majority of our revenue for the foreseeable future will be derived from operations supporting PBF Energy's refineries, particularly its Delaware City and Toledo refineries. We are examining further diversification of our customer base by potentially developing third-party throughput volumes in our existing system and expanding our asset portfolio to service third-party customers. Unless we are successful in attracting third-party customers, our ability to increase volumes will be dependent on PBF Holding, which has no obligation under our commercial agreements to supply our facilities with additional volumes in excess of its minimum volume commitments. If we are unable to increase throughput volumes, future growth may be limited.

How We Evaluate Our Operations

Our management uses a variety of financial and operating metrics to analyze our performance. These metrics are significant factors in assessing our operating results and profitability and include but are not limited to volumes, including terminal and pipeline throughput and storage capacity; operating and maintenance expenses; and EBITDA and distributable cash flow. We define EBITDA and distributable cash flow below.

Volumes. The amount of revenue we generate primarily depends on the volumes of crude oil and products that we throughput at our terminaling and pipeline operations and our available storage capacity. These volumes are primarily affected by the supply of and demand for crude oil and refined products in the markets served directly or indirectly by our assets. Although PBF Energy has committed to minimum volumes under the commercial agreements described above, our results of operations will be impacted by:

- PBF Energy's utilization of our assets in excess of the minimum volume commitments;
- our ability to identify and execute accretive acquisitions and organic expansion projects, and capture PBF Energy's incremental volumes or third-party volumes; and
- our ability to increase throughput volumes at our facilities and provide additional ancillary services at those terminals and pipeline.

Operating and Maintenance Expenses. Our management seeks to maximize the profitability of our operations by effectively managing operating and maintenance expenses. These expenses are comprised primarily of labor expenses, outside contractor expenses, utility costs, insurance premiums, repairs and maintenance expenses and related property taxes. These expenses generally remain relatively stable across broad ranges of throughput volumes but can fluctuate from period to period depending on the mix of activities performed during that period and the timing of these expenses. We will seek to manage our maintenance expenditures on our assets by scheduling maintenance overtime to avoid significant variability in our maintenance expenditures and to minimize their impact on our cash flow.

EBITDA and Distributable Cash Flow. We define EBITDA as net income (loss) before net interest expense, income tax expense, depreciation and amortization expense. We define distributable cash flow as EBITDA plus non-cash unit-based compensation expense, less net cash paid for interest, maintenance capital expenditures and income taxes. Distributable cash flow will not reflect changes in working capital balances. Distributable cash flow and EBITDA are not presentations made in accordance with U.S. generally accepted accounting principles ("GAAP").

EBITDA and distributable cash flow are non-GAAP supplemental financial measures that management and external users of our consolidated financial statements, such as industry analysts, investors, lenders and rating agencies, may use to assess:

- our operating performance as compared to other publicly traded partnerships in the midstream energy industry, without regard to historical cost basis or, in the case of EBITDA, financing methods;
- the ability of our assets to generate sufficient cash flow to make distributions to our unitholders;
- our ability to incur and service debt and fund capital expenditures; and
- the viability of acquisitions and other capital expenditure projects and the returns on investment of various investment opportunities.

We believe that the presentation of EBITDA provides useful information to investors in assessing our financial condition and results of operations. We believe that the presentation of distributable cash flow will provide useful information to investors as it is a widely accepted financial indicator used by investors to compare partnership performance and provides investors with an enhanced perspective of the operating performance of our assets and the cash our business is generating. EBITDA and distributable cash flow should not be considered alternatives to net income, operating income, cash from operations or any other measure of financial performance or liquidity presented in accordance with GAAP. EBITDA and distributable cash flow have important limitations as analytical tools because they exclude some but not all items that affect net income and net cash provided by operating activities. Additionally, because EBITDA and distributable cash flow may be defined differently by other companies in our industry, our definition of such matters may not be comparable to similarly titled measures of other companies, thereby diminishing their utility. EBITDA and distributable cash flow are reconciled to net income and net cash provided by operating activities in “—Results of Operations” below.

Results of Operations

A discussion and analysis of the factors contributing to our results of operations is presented below. The financial statements, together with the following information, are intended to provide investors with a reasonable basis for assessing our historical operations, but should not serve as the only criteria for predicting our future performance. Combined Overview. The following tables summarize our results of operations and financial data for the three months ended March 31, 2016 and 2015. The following data should be read in conjunction with our condensed consolidated financial statements and the notes thereto included elsewhere in this Form 10-Q.

	Three Months Ended March 31,	
	2016	2015
	(In thousands)	
Revenue from affiliates	\$36,549	\$32,846
Operating costs and expenses:

Net income	19,094	17,762
Less: Net income attributable to Predecessor	—	1,053
Net income attributable to the Partnership	\$19,094	\$16,709
Other Data:		
EBITDA	\$27,963	\$21,350
Distributable cash flow	21,447	19,248
Capital expenditures	439	76

Reconciliation of Non-GAAP Financial Measures

As described in "How We Evaluate Our Operations," our management uses EBITDA and distributable cash flow to analyze our performance. The following table presents a reconciliation of net income to EBITDA and distributable cash flow, the most directly comparable GAAP financial measure on a historical basis, for the periods indicated.

	Three Months Ended March 31,	
	2016	2015
	(In thousands)	
Net income	\$19,094	\$17,762
Interest expense, net	6,806	1,793

Maintenance capital expenditures	(439)	—
Distributable cash flow	\$21,447	\$19,248

Three Months Ended March 31, 2016 Compared to the Three Months Ended March 31, 2015

Summary. Our net income for the three months ended March 31, 2016 increased \$1.3 million to \$19.1 million from \$17.8 million for the three months ended March 31, 2015. The increase in net income was primarily due to the following:

- an increase in revenues of \$3.7 million, or 11.3%, attributable to the effect of the new commercial agreements with PBF Energy and increased throughput at the Toledo Truck Terminal;
- a decrease in operating and maintenance expenses of \$2.4 million, or 28.6%, as a result of a decrease in outside services and utility costs; and
- a decrease in general and administrative expenses of \$0.5 million, or 16.2%, as a result of decreased cost allocations of certain direct employee costs;

partially offset by the following:

an increase in interest expense, net of \$5.0 million attributable to the interest costs associated with the 2023 Notes, partially offset by interest income associated with our marketable securities; and
 an increase in amortization of loan fees of \$0.3 million due to the amortization of capitalized debt issuance costs associated with the 2023 Notes.

Operating Segments

We review operating results in two reportable segments: (i) Transportation and Terminaling; and (ii) Storage. Decisions concerning the allocation of resources and assessment of operating performance are made based on this segmentation. Management measures the operating performance of each of its reportable segments based on the segment operating income. Segment operating income is defined as net sales less operating expenses and depreciation and amortization. General and administrative expenses not included in the Transportation and Terminaling and Storage segments are included in Corporate. Segment reporting is more fully discussed in Note 9 of the Notes to Condensed Consolidated Financial Statements in this Form 10-Q.

Transportation and Terminaling Segment

The following table and discussion is an explanation of our results of operations of the Transportation and Terminaling segment for the three months ended March 31, 2016 and 2015:

	Three Months Ended March 31, 2016 2015 (In thousands)	
Revenue from affiliates	\$31,067	\$27,320
Operating costs and expenses:		
Operating and maintenance expenses	4,129	6,527
Depreciation and amortization	991	991
Total costs and expenses	5,120	7,518
Transportation and Terminaling Segment Operating Income	\$25,947	\$19,802

	Three Months	
	Ended March 31,	
	2016	2015
	(In thousands)	
Key Operating Information		
Throughput (bpd):		
DCR Rail Terminal	30.2	48.8
DCR West Rack	10.9	37.2
Toledo Truck Terminal	16.4	6.3
Toledo Storage Facility (Propane Loading)	4.6	4.1
Delaware City Products Pipeline	36.0	48.1
Delaware City Truck Rack	30.3	N/A
Total throughput (barrels):		
DCR Rail Terminal	2,749.6	4,390.1
DCR West Rack	991.1	3,345.9
Toledo Truck Terminal	1,495.6	567.7
Toledo Storage Facility (Propane Loading)	420.9	371.8
Delaware City Products Pipeline	3,280.2	4,331.6
Delaware City Truck Rack	2,754.5	N/A
Total	11,691.9	13,007.1

Three Months Ended March 31, 2016 Compared to the Three Months Ended March 31, 2015

Revenue. Revenue from affiliates increased approximately \$3.7 million, or 13.7%, to approximately \$31.1 million for the three months ended March 31, 2016 compared to approximately \$27.3 million for the three months ended March 31, 2015. The increase in revenue from affiliates was primarily attributed to the effect of the new commercial agreements with PBF Energy associated with the acquisition of the Delaware City Products Pipeline and Truck Rack and an increase in throughput at the Toledo Truck Terminal. Prior to the acquisition, our assets were a part of the integrated operations of PBF Energy and the operation of our assets did not generate third-party or inter-entity revenue, with the exception of the Delaware City Products Pipeline. Following the closing of the acquisition, our revenues were generated from commercial agreements with PBF Energy.

Operating and Maintenance Expenses. Operating and maintenance expenses decreased approximately \$2.4 million, or 36.7%, to approximately \$4.1 million for the three months ended March 31, 2016 compared to approximately \$6.5 million for the three months ended March 31, 2015. The decrease in operating and maintenance expenses was primarily attributable to approximately \$1.4 million of lower operating expenses associated with outside services and \$0.8 million of lower operating expenses associated with utilities at the DCR Rail Terminal and DCR West Rack due to lower throughput.

Depreciation and Amortization Expenses. Depreciation and amortization expense was approximately \$1.0 million for the three months ended March 31, 2016 compared to approximately \$1.0 million for the three months ended March 31, 2015. Depreciation and amortization expense for the three months ended March 31, 2016 was consistent with the prior year.

Storage Segment

The following table and discussion is an explanation of our results of operations of the Storage segment for the three months ended March 31, 2016 and 2015:

	Three Months Ended March 31, 2016 2015 (In thousands)	
Revenue from affiliates	\$5,482	\$5,526
Operating costs and expenses:		
Operating and maintenance expenses	1,892	1,907
Depreciation and amortization	649	642
Total costs and expenses	2,541	2,549
Storage Segment Operating Income	\$2,941	\$2,977

VOLUMES

Storage capacity reserved (average shell capacity barrels per month) 3,654.6 3,682.4

Three Months Ended March 31, 2016 Compared to the Three Months Ended March 31, 2015

Revenue. Revenue from affiliates was approximately \$5.5 million for the three months ended March 31, 2016 compared to \$5.5 million for the three months ended March 31, 2015. Revenue for the three months ended March 31, 2016 was consistent with the prior year.

Operating and Maintenance Expenses. Operating and maintenance expenses was approximately \$1.9 million for the three months ended March 31, 2016 compared to approximately \$1.9 million for the three months ended March 31, 2015. Operating and maintenance expenses for the three months ended March 31, 2016 was consistent with the prior year.

Depreciation and Amortization Expenses. Depreciation and amortization expense was approximately \$0.6 million for the three months ended March 31, 2016 compared to approximately \$0.6 million for the three months ended March 31, 2015. Depreciation and amortization expense for the three months ended March 31, 2016 was consistent with the prior year.

Liquidity and Capital Resources

We expect our ongoing sources of liquidity to include cash generated from operations, reimbursement by PBF Energy for certain capital expenditures, through the liquidation of marketable securities, borrowings under our credit facility, and issuances of additional debt and equity securities. We believe that cash generated from these sources will be sufficient to meet our short-term working capital requirements, long-term capital expenditure requirements and minimum quarterly cash distributions. We financed the Plains Asset Purchase through a combination of cash on hand and borrowings from our Revolving Credit Facility.

We have paid, and intend to continue to pay, a quarterly distribution of at least \$0.30 per unit per quarter, which equates to approximately \$11.2 million per quarter, or \$44.8 million per year, based on the current number of common units, subordinated units and associated IDRs outstanding. We do not have a legal obligation to pay this distribution. On March 8, 2016, we paid a quarterly cash distribution, based on the results of the fourth quarter of 2015, totaling \$14.7 million, or \$0.41 per unit, to unitholders of record on February 22, 2016.

Credit Facilities

On May 14, 2014, we entered into the Revolving Credit Facility and a three year \$300 million term loan facility (the "Term Loan"), each with Wells Fargo Bank, National Association, as administrative agent, and a syndicate of lenders. The Revolving Credit Facility is available to fund working capital, acquisitions, distributions and capital expenditures and for other general partnership purposes. The maximum amount of the Revolving Credit Facility was increased from \$275.0 million to \$325.0 million in December 2014. The Partnership has the ability to further increase the maximum amount of the Revolving Credit Facility by an additional \$275.0 million, to a total facility size of \$600.0 million, subject to receiving increased commitments from lenders or other financial institutions and satisfaction of certain conditions. The Revolving Credit Facility includes a \$25.0 million sublimit for standby letters of credit and for swingline loans. Obligations under the Revolving Credit Facility and certain cash management and hedging obligations designated by the Partnership are guaranteed by its restricted subsidiaries, and are secured by a first priority lien on the Partnership's assets and those of the Partnership's restricted subsidiaries other than excluded assets and a guaranty of collection from PBF LLC. The maturity date of the Revolving Credit Facility may be extended for one year on up to two occasions, subject to certain customary terms and conditions. Borrowings under the Revolving Credit Facility bear interest at either a Base Rate (as defined in the Revolving Credit Facility) plus an applicable margin ranging from 0.75% to 1.75%, or at LIBOR plus an applicable margin ranging from 1.75% to 2.75%. The applicable margin will vary based upon the Partnership's Consolidated Total Leverage Ratio, as defined in the Revolving Credit Facility.

The Term Loan was used to fund distributions to PBF LLC and is guaranteed by a guaranty of collection from PBF LLC and secured at all times by cash or U.S. Treasury securities in an amount equal to or greater than the outstanding principal amount of the Term Loan. Borrowings under the Term Loan bear interest either at Base Rate (as defined in the Term Loan), or at LIBOR plus an applicable margin equal to 0.25%.

The Revolving Credit Facility and Term Loan contain covenants that limit or restrict our ability to make cash distributions. We are required to maintain certain financial ratios, each tested on a quarterly basis for the immediately preceding four quarter period. We are in compliance with our covenants under the Revolving Credit Facility and Term Loan as of March 31, 2016.

On May 12, 2015, we completed the offering of \$350.0 million of 2023 Senior Notes. The initial purchasers in the offering purchased \$330.1 million aggregate principal amount of 2023 Notes and certain of PBF Energy's officers and directors and their affiliates and family members purchased the remaining \$19.9 million aggregate principal amount of 2023 Notes. We pay interest on the 2023 Notes semi-annually on May 15 and November 15 with our first interest payment taking place on November 15, 2015. The 2023 Notes mature on May 15, 2023.

The 2023 Notes contain customary terms, events of default and covenants for an issuer of non-investment grade debt securities. These covenants include limitations or restrictions on us and our restricted subsidiaries'

ability to, among other things, make distributions. These covenants are subject to a number of important limitations and exceptions. As of March 31, 2016, we are in compliance with all covenants under the 2023 Notes.

Cash Flows

The following table sets forth our cash flows for the periods indicated:

	Three Months Ended March 31,	
	2016	2015
	(In thousands)	
Net cash provided by operating activities	\$25,845	\$17,899
Net cash used in investing activities	(579)	(72)
Net cash used in financing activities	(14,680)	(11,813)
Net change in cash and cash equivalents	\$10,586	\$6,014

Net cash provided by operating activities increased approximately \$7.9 million to approximately \$25.8 million for the three months ended March 31, 2016 compared to approximately \$17.9 million for the three months ended March 31, 2015. The increase in net cash provided by operating activities was primarily the result of net income of approximately \$19.1 million recognized during the three months ended March 31, 2016, compared to a net income of approximately \$17.8 million for the three months ended March 31, 2015. Net cash provided by operating activities for the three months ended March 31, 2016 also included non-cash charges relating to depreciation and amortization of approximately \$1.6 million, amortization of loan fees of approximately \$0.4 million, unit-based compensation of approximately \$0.7 million, and net changes in working capital of approximately \$4.0 million primarily driven by the timing of collection of accounts receivables and payments of accounts payable. Net cash provided by operating activities for the three months ended March 31, 2015 included non-cash charges relating to depreciation and amortization of approximately \$1.6 million, amortization of loan fees of approximately \$0.2 million and unit-based compensation of approximately \$0.9 million, partially offset by net changes in working capital of approximately \$2.6 million primarily driven by the timing of collection of accounts receivables.

Net cash used in investing activities increased approximately \$0.5 million to approximately \$0.6 million for the three months ended March 31, 2016 compared to approximately \$0.1 million for the three months ended March 31, 2015. The increase in net cash used in investing activities was primarily the result of an increase in capital expenditures of approximately \$0.4 million for the three months ended March 31, 2016 and net purchases of \$0.1 million of marketable securities during the three months ended March 31, 2016.

Net cash used in financing activities increased approximately \$2.9 million to approximately \$14.7 million for the three months ended March 31, 2016 compared to approximately \$11.8 million for the three months ended March 31, 2015. Net cash used in financing activities for the three months ended March 31, 2016 consisted of distributions to unitholders of approximately \$14.7 million. Net cash used in financing activities for the three months ended March 31, 2015 consisted of distributions to unitholders of approximately \$10.9 million and a distribution to PBF LLC of approximately \$0.9 million.

Capital Expenditures

Our capital requirements have consisted of and are expected to continue to consist of maintenance capital expenditures and expansion capital expenditures. Maintenance capital expenditures are cash expenditures (including expenditures for the addition or improvement to, or the replacement of, our capital assets, and for the acquisition of existing, or the construction or development of new, capital assets) made to maintain our long-term operating income or operating capacity. Examples of maintenance capital expenditures are expenditures for the refurbishment and replacement of terminals, to maintain equipment reliability, integrity and safety and to address environmental laws and regulations. Expansion capital expenditures are cash expenditures incurred for acquisitions or capital improvements that we expect will increase our operating income or operating capacity over the long

term. Examples of expansion capital expenditures include the acquisition of equipment and the construction, development or acquisition of unloading equipment or other equipment at our facilities or additional throughput capacity to the extent such capital expenditures are expected to expand our operating capacity or our operating income.

Capital expenditures for the three months ended March 31, 2016 were approximately \$0.4 million. We currently expect to spend between \$5.0 to \$6.0 million during 2016 for maintenance capital expenditures. We anticipate the forecasted maintenance capital expenditures will be funded primarily with cash from operations and through the liquidation of marketable securities.

We have sold, and expect to continue to sell, our U.S. Treasury or other investment grade securities currently used to secure our obligations under the Term Loan over time to fund our capital expenditures, and immediately prior to selling such securities, we expect to continue to repay an equal amount of Term Loan borrowings with borrowings under our Revolving Credit Facility. We may also rely on external sources including other borrowings under our Revolving Credit Facility, and issuances of equity and debt securities to fund any significant future expansion.

Under our omnibus agreement with PBF GP, PBF LLC and PBF Holding, PBF Energy has agreed to reimburse us for any costs up to \$20.0 million per event (net of any insurance recoveries) that we incur for repairs required due to the failure of any Contributed Asset to operate in substantially the same manner and condition as such asset was operating prior to the closing of the Offering and the Acquisitions from PBF during the first five years after the closing of the Offering and the Acquisitions from PBF, and any matters related thereto.

On February 2, 2016, we announced that our wholly-owned subsidiary, PBF Logistics Products Terminals LLC, entered into an agreement to purchase the East Coast Terminals from an affiliate of Plains All American Pipeline, L.P. for total cash consideration of approximately \$100.0 million. The acquisition was financed through a combination of cash on hand and borrowings from our Revolving Credit Facility. In conjunction with the transaction, we will invest approximately \$5.0 million, from cash on hand, to improve infrastructure in order to increase throughput capability at the East Coast Terminals. On April 29, 2016, we closed on our acquisition of the East Coast Terminals.

Contractual Obligations

With the exception of the routine fluctuation in the balances of our Revolving Credit Facility and Term Loan, there have been no significant changes in our debt obligations since those reported in our 2015 Form 10-K. See Note 3 of the Notes to the Condensed Consolidated Financial Statements in this Form 10-Q for more information regarding our debt obligations.

Off-Balance Sheet Arrangements

We have not entered into any transactions, agreements or other contractual arrangements that would result in off-balance sheet liabilities, other than outstanding letters of credit in the amount of approximately \$2.1 million.

Environmental and Other Matters

Environmental Regulation

Our operations are subject to extensive and frequently changing federal, state and local laws, regulations and ordinances relating to the protection of the environment. Among other things, these laws and regulations govern the emission or discharge of pollutants into or onto the land, air and water, the handling and disposal of solid and hazardous wastes and the remediation of contamination. As with the industry generally, compliance with existing and anticipated environmental laws and regulations increases our overall cost of business, including our capital costs to develop, maintain, operate and upgrade equipment and facilities. While these laws and regulations affect our maintenance capital expenditures and net income, we believe they do not affect our competitive position, as

the operations of our competitors are similarly affected. We believe our facilities are in substantial compliance with applicable environmental laws and regulations. However, these laws and regulations are subject to changes, or to changes in the interpretation of such laws and regulations, by regulatory authorities, and continued and future compliance with such laws and regulations may require us to incur significant expenditures. Additionally, violation of environmental laws, regulations and permits can result in the imposition of significant administrative, civil and criminal penalties, injunctions limiting our operations, investigatory or remedial liabilities or construction bans or delays in the development of additional facilities or equipment. Furthermore, a release of hydrocarbons or hazardous substances into the environment could, to the extent the event is not insured, subject us to substantial expenses, including costs to comply with applicable laws and regulations and to resolve claims by third parties for personal injury or property damage, or by the U.S. federal government or state governments for natural resources damages. These impacts could directly and indirectly affect our business and have an adverse impact on our financial position, results of operations and liquidity. We cannot currently determine the amounts of such future impacts.

Environmental Liabilities

Contamination resulting from spills of crude oil or petroleum products are not unusual within the petroleum terminaling or transportation industries. Historic spills at truck and rail racks, and terminals as a result of past operations have resulted in contamination of the environment, including soils and groundwater.

Pursuant to the contribution agreements entered into in connection with the Offering and the Acquisitions from PBF, PBF Energy has agreed to indemnify us for certain known and unknown environmental liabilities that are based on conditions in existence at our Predecessor's properties and associated with the ownership or operation of the Contributed Assets and arising from the conditions that existed prior to the closings of the Offering and the Acquisitions from PBF. In addition, we have agreed to indemnify PBF Energy for certain events and conditions associated with the ownership or operation of our assets that occur after the closings of the Offering and the Acquisitions from PBF, and for environmental liabilities related to our assets to the extent PBF Energy is not required to indemnify us for such liabilities or if the environmental liability is the result of the negligence, willful misconduct or criminal conduct of PBF Energy or its employees, including those seconded to us. As a result, we may incur the type of expenses described above in the future, which may be substantial.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices. Because we do not generally own the crude oil or refined products that are distributed through our facilities, and because all of our commercial agreements with PBF Energy require PBF Energy to bear the risk of any material volume loss relating to the services we provide, we have minimal direct exposure to risks associated with fluctuating commodity prices.

Debt that we incur under our Revolving Credit Facility and Term Loan bears interest at a variable rate and exposes us to interest rate risk. A 1.0% change in the interest rate associated with the borrowings outstanding under these facilities would result in a \$4.5 million change in our interest expense, assuming we were to borrow all \$325.0 million under our Revolving Credit Facility and the outstanding balance of our Term Loan was \$234.2 million.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures.

PBFX maintains a system of disclosure controls and procedures that is designed to provide reasonable assurance that information which is required to be disclosed is accumulated and communicated to management in a timely manner. Under the supervision and with the participation of PBFX's management, including PBFX's principal executive officer and the principal financial officer, PBFX has evaluated the effectiveness of our system of disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of March 31, 2016. Based on that evaluation, PBFX's principal executive officer and the principal financial officer have concluded that PBFX's disclosure controls and procedures are effective at the reasonable assurance level.

Changes in Internal Control Over Financial Reporting

Management has not identified any changes in PBFX's internal control over financial reporting that occurred during the three months ended March 31, 2016 that have materially affected, or are reasonably likely to materially affect, its internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Although from time to time we may be involved in litigation and claims arising out of our operations in the normal course of business, we do not believe that we are a party to any litigation that will have a material adverse impact on our financial condition, results of operations or statements of cash flows. We are not aware of any material legal or governmental proceedings against us, or contemplated to be brought against us.

Item 1A. Risk Factors

There have been no significant changes from the risk factors previously disclosed in "Item 1A. Risk Factors" of our 2015 Form 10-K.

Item 6. Exhibits

The exhibits listed in the accompanying Exhibit Index are filed or incorporated by reference as part of this report and such Exhibit Index is incorporated herein by reference.

EXHIBIT INDEX

Exhibit Number	Description
2.1	Purchase Agreement dated as of January 29, 2016 by and between PBF Logistics Products Terminals LLC and Plains Products Terminals LLC (incorporated by reference herein to Exhibit 2.1 to the Current Report on Form 8-K (File No. 001-36446) filed on February 4, 2016).
10.1	Guaranty of PBF Logistics LP dated as of January 29, 2016 (incorporated by reference herein to Exhibit 10.1 to the Current Report on Form 8-K (File No. 001-36446) filed on February 4, 2016).
