QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2016
or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission File Number: 001-36730

INC RESEARCH HOLDINGS, INC.

(Exact name of registrant as specified in its charter)

Delaware

27-3403111

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

3201 Beechleaf Court, Suite 600, Raleigh, North Carolina 27604-1547

(Address of principal executive offices and Zip Code)

(919) 876-9300

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 24, 2016, there were approximately 53,616,646 shares of the registrant's common stock outstanding.

INC RESEARCH HOLDINGS, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. Basis of Presentation and Changes in Significant Accounting Policies

Principal Business

INC Research Holdings, Inc. (the "Company") is a Contract Research Organization ("CRO") providing a comprehensive range of clinical development services for the biopharmaceutical and medical device industries to its customers across various therapeutic areas. The international infrastructure of the Company's development business enables it to conduct Phase I to Phase IV clinical trials globally for pharmaceutical, biotechnology and medical device companies.

Unaudited Interim Financial Information

The Company prepared the accompanying unaudited condensed consolidated financial statements in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") for interim financial information. The significant accounting policies followed by the Company for interim financial reporting are consistent with the accounting policies followed for annual financial reporting. The unaudited condensed consolidated financial statements, in management's opinion, include all adjustments of a normal recurring nature necessary for a fair presentation. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 filed with the Securities and Exchange Commission on February 24, 2016. The results of operations for the three and nine months ended September 30, 2016 are not necessarily indicative of the results to be expected for the year ending December 31, 2016 or any other future period. The amounts in the December 31, 2015 consolidated condensed balance sheet are derived from the audited financial statements as of December 31, 2015.

Share-Based Compensation

In March 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-09, Compensation - Stock Compensation: Improvements to Employee Share-Based Payment Accounting, in an effort to simplify the accounting for share-based payments and improve the usefulness of information provided to financial statement users related to income tax consequences, classification of awards as either equity or liabilities and the classification of share-based payments within the statement of cash flows. The amendments in this ASU will be effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods, and early adoption is permitted. The Company elected to early adopt this ASU effective in the first quarter of 2016. The following summarizes the effects of the adoption on the Company's unaudited condensed consolidated financial statements:

Income taxes - Upon adoption of this standard, all excess tax benefits and tax deficiencies (including tax benefits of dividends on share-based payment awards) are recognized as income tax expense or benefit in the income statement. The tax effects of exercised or vested awards are treated as discrete items in the reporting period in which they occur. The Company also recognizes excess tax benefits regardless of whether the benefit reduces taxes payable in the current period. As a result, the Company recognized discrete adjustments to income tax expense for the three and nine months ended September 30, 2016, in the amount of \$4.6 million and \$12.6 million, respectively, related to excess tax benefits. The Company has applied the modified retrospective adoption approach beginning in 2016 and has recorded a cumulative-effect adjustment to retained earnings and reduced its deferred tax liability by \$7.6 million. This adjustment related to tax assets that had previously arisen from tax deductions for equity compensation expenses that were greater than the compensation recognized for financial reporting. These assets had been excluded from the deferred tax assets and liabilities totals on the

Table of Contents

balance sheet as a result of certain realization requirements previously included in ASC 718 Stock Compensation. Prior periods have not been adjusted.

Forfeitures - Prior to adoption, share-based compensation expense was recognized on a straight line basis, net of estimated forfeitures, such that expense was recognized only for share-based awards that are expected to vest. A forfeiture rate was estimated annually and revised, if necessary, in subsequent periods if actual forfeitures differed from initial estimates. Upon adoption, the Company will no longer apply a forfeiture rate and instead will account for forfeitures as they occur. The Company has applied the modified retrospective adoption approach beginning in 2016 and has booked a cumulative-effect adjustment to additional paid-in-capital and share-based compensation expense of \$0.1 million. Prior periods have not been adjusted.

Statements of Cash Flows - The Company historically accounted for excess tax benefits on the Statement of Cash Flows as a financing activity. Upon adoption of this standard, excess tax benefits are classified along with other income tax cash flows as an operating activity. The Company has elected to adopt this portion of the standard on a prospective basis beginning in 2016. Prior periods have not been adjusted.

Earnings Per Share - The Company uses the treasury stock method to compute diluted earnings per share, unless the effect would be anti-dilutive. Under this method, the Company will no longer be required to estimate the tax rate and apply it to the dilutive share calculation for determining the dilutive earnings per share. The Company has utilized the modified retrospective adoption approach and has applied this methodology beginning in 2016 and prior periods have not been adjusted.

Upon adoption, no other aspects of ASU 2016-09 had an effect on the Company's unaudited condensed consolidated financial statements or related footnote disclosures.

Property and Equipment

Beginning in 2016, the Company adopted ASU No. 2015-05, Customer's Accounting For Fees Paid In A Cloud Computing Arrangement, which provides guidance for accounting for cloud computing costs. Upon adoption of this standard, software cloud computing arrangements containing a software license are accounted for consistently with the acquisition of other software licenses. In the event an arrangement does not contain a software license, the Company accounts for the arrangement as a service contract. The Company has elected to adopt this standard prospectively to all arrangements entered into or materially modified after January 1, 2016. The adoption of this guidance did not have a material impact on the Company's unaudited condensed consolidated financial statements or related footnote disclosures. Prior periods have not been restated.

Derivatives

The Company records all derivatives on the balance sheet at fair value. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative. If the Company has elected to designate a derivative in a hedging relationship and apply hedge accounting and has satisfied the criteria necessary, the Company applies hedge accounting. Derivatives designated and qualifying as a hedge of the exposure to variability in expected future cash flows, or other types of forecasted transactions, are considered cash flow hedges. Hedge accounting generally provides for the matching of the timing of gain or loss recognition on the hedging instrument with the recognition of the earnings effect of the hedged forecasted transactions in a cash flow hedge. The Company may enter into derivative contracts that are intended to economically hedge certain of its risks, even though hedge accounting does not apply or the Company chooses not to apply hedge accounting. Details related to the Company's derivative transactions as of September 30, 2016, are discussed in "Note 4 - Derivatives" of this Quarterly Report on Form 10-Q.

Table of Contents

In accordance with FASB's fair value measurement guidance, the Company measures the credit risk of its derivative financial instruments that are subject to master netting agreements on a net basis by counterparty portfolio.

Recently Issued Accounting Standards

In May 2014, FASB issued ASU No. 2014-09, Revenue from Contracts with Customers. ASU 2014-09 will eliminate transaction- and industry-specific revenue recognition guidance under current U.S. GAAP and replace it with a principle based approach for determining revenue recognition. ASU 2014-09 will require that companies recognize revenue based on the value of transferred goods or services as they occur in the contract. The ASU also will require additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. In July 2015, FASB issued ASU 2015-14, Revenue from Contracts with Customers: Deferral of the Effective Date, which delayed the effective date of ASU 2014-09 by one year and modified the standard to allow early adoption. For public entities, the standard is now effective for reporting periods beginning after December 15, 2017. Earlier application is permitted only as of annual reporting periods beginning after December 15, 2016, including interim reporting periods within that reporting period. Entities can transition to the standard either retrospectively or as a cumulative-effect adjustment as of the date of adoption. In March 2016, FASB issued ASU No. 2016-08, Revenue from Contracts with Customers: Principal versus Agent Considerations (Reporting Revenue Gross versus Net), to clarify principal versus agent considerations in order to improve the operability and understandability of the implementation guidance related to this topic. In April 2016, FASB issued ASU No. 2016-10, Revenue from Contracts with Customers (Topic 606): Identifying Performance Obligations and Licensing. ASU 2016-10 clarifies the implementation guidance on identifying performance obligations. In May 2016, FASB issued ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606): Narrow-Scope Improvements and Practical Expedients. ASU 2016-12 does not change the core principle of the guidance in Topic 606, but rather narrows aspects of Topic 606 by reducing the potential for diversity in practice at initial application and by reducing the cost and complexity of applying Topic 606 both at transition and on an ongoing basis. These ASUs apply to all companies that enter into contracts with customers to transfer goods or services. ASU 2016-08, ASU 2016-10 and ASU 2016-12 did not change the core principles of the previously issued guidance and did not change its effective date. The Company is currently evaluating the impact of the adoption of these standards on its unaudited condensed consolidated financial statements, implementing accounting system changes related to the adoption, and considering additional disclosure requirements.

In August 2014, FASB issued ASU No. 2014-15, Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. ASU 2014-15 will explicitly require management to assess an entity's ability to continue as a going concern at each annual and interim period. Footnote disclosures will be required if conditions give rise to substantial doubt about an entity's ability to continue as a going concern within one year after the report issuance date. The ASU defines substantial doubt using a likelihood threshold of "probable" similar to the current use of that term in U.S. GAAP for loss contingencies and provides example indicators. ASU 2014-15 is effective for reporting periods ending after December 15, 2016, and early adoption is permitted. The Company does not believe the adoption of this guidance will have a material impact on its unaudited condensed consolidated financial statements.

In January 2016, FASB issued ASU No. 2016-01, Financial Instruments – Recognition and Measurement of Financial Assets and Liabilities. ASU 2016-01 requires public companies to use exit prices to measure the fair value of financial instruments. Specifically the guidance will require separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statement and will eliminate the disclosure requirements related to measurement assumptions for the fair value of instruments measured at amortized cost. In addition, for liabilities measured at fair value under the fair value option,

ASU 2016-01 requires companies to present in other comprehensive income changes in fair value due to changes in instrument specific credit risk. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years. Early adoption of the amendments is not permitted for

9

Table of Contents

public companies. The Company is currently evaluating the impact of the adoption of this standard on its unaudited condensed consolidated financial statements.

In February 2016, FASB issued ASU No. 2016-02, Leases. ASU 2016-02 will require organizations to recognize lease assets and lease liabilities on the balance sheet, including leases that were previously classified as operating leases. The ASU will also require additional disclosures about leasing arrangements related to the amount, timing, and uncertainty of cash flows arising from leases. The amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption of the amendments is permitted and the new guidance will be applied using a modified retrospective approach. The Company is currently evaluating the impact of the adoption of this standard on its unaudited condensed consolidated financial statements.

In March 2016, FASB issued ASU No. 2016-05, Derivatives and Hedging (Topic 815): Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships. ASU 2016-05 clarifies that a change in the counterparty to a derivative instrument that has been designated as a hedging instrument under Topic 815 does not, in and of itself, require de-designation of that hedging relationship provided that all other hedge accounting criteria continue to be met. ASU 2016-05 is effective for reporting periods beginning after December 15, 2016, and early adoption is permitted. The Company does not believe the adoption of this guidance will have a material impact on its unaudited condensed consolidated financial statements.

In June 2016, FASB issued ASU No. 2016-13, Credit Losses, Measurement of Credit Losses on Financial Instruments. ASU 2016-13 introduces a new forward-looking “expected loss” approach, to estimate credit losses on most financial assets and certain other instruments, including trade receivables. The estimate of expected credit losses will require entities to incorporate considerations of historical information, current information and reasonable and supportable forecasts. This ASU also expands the disclosure requirements regarding the entity’s assumptions, models and methods for estimating expected credit losses. Entities will apply the standard’s provisions as a cumulative-effect adjustment to retained earnings as of the beginning of the first reporting period in which the guidance is effective. ASU 2016-13 is effective for public entities for annual and interim periods beginning after December 15, 2019. Early adoption is permitted for all entities for annual periods beginning after December 15, 2018, and interim periods therein. The Company is currently evaluating the impact of the adoption of this standard on its unaudited condensed consolidated financial statements.

In August 2016, FASB issued ASU No. 2016-15, Statement of Cash Flows (Topic 230) Classification of Certain Cash Receipts and Cash Payments, which provides guidance on reducing the diversity in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. In addition to other specific cash flow issues, ASU 2016-15 provides clarification on when an entity should separate cash receipts and cash payments into more than one class of cash flows and when an entity should classify those cash receipts and payments into one class of cash flows on the basis of predominance. The new guidance is effective for the fiscal years beginning after December 31, 2017, and interim periods within those fiscal years. Early adoption is permitted including adoption in an interim period. The Company is currently evaluating the impact of the adoption of this standard on its unaudited condensed consolidated financial statements.

In October 2016, FASB issued ASU No. 2016-16, Income Taxes (Topic 740) Intra-Entity Transfers of Assets Other Than Inventory, in an effort to reduce the cost and complexity, as well as improve the accounting for income tax consequences of intra-entity transfers of assets. Under current U.S. GAAP the recognition of current and deferred income taxes for an intra-entity asset transfer is prohibited until the asset has been sold to an outside party. ASU 2016-16 eliminates the requirement to delay recognition and allows an entity to recognize the income tax consequences when the transfer of an intra-entity asset other than inventory occurs. The new guidance is effective for

the fiscal years beginning after December 31, 2017, and interim periods within those fiscal years. Early adoption is permitted as of the beginning of an annual reporting period for which financial statements have not been issued. That is, earlier adoption should be in the first interim period if an entity issues interim financial statements. The Company is currently evaluating the timing of adoption and estimates that the impact of this guidance will not be material to its unaudited condensed consolidated financial statements.

Accumulated other comprehensive loss, net of taxes

Accumulated other comprehensive loss ("AOCL"), net of taxes consisted of the following (in thousands):

	September 30, December 31,	
	2016	2015
Foreign currency translation loss	\$ (36,495)	\$ (41,543)
Unrealized loss on derivative instruments, net of taxes	(154)	—
Accumulated other comprehensive loss, net of taxes	\$ (36,649)	\$ (41,543)

Table of Contents

The following table summarizes the changes in AOCL, net of taxes by component for the three months ended September 30, 2016:

	Unrealized loss on derivative instruments, net of taxes	Foreign currency translation loss	Total
Balance at June 30, 2016	\$ (923)	\$(37,476)	\$(38,399)
Other comprehensive gain, net of taxes before reclassifications	638	981	\$1,619
Amount of gain reclassified from accumulated other comprehensive loss into the income statement	131	—	\$131
Net current-period other comprehensive gain, net of taxes	769	981	\$1,750
Balance at September 30, 2016	\$ (154)	\$(36,495)	\$(36,649)

The following table summarizes the changes in AOCL, net of taxes by component for the nine months ended September 30, 2016:

	Unrealized loss on derivative instruments, net of taxes	Foreign currency translation loss	Total
Balance at December 31, 2015	\$ —	\$(41,543)	\$(41,543)
Other comprehensive (loss) gain, net of taxes before reclassifications	(285)	5,048	\$4,763
Amount of gain reclassified from accumulated other comprehensive loss into the income statement	131	—	\$131
Net current-period other comprehensive (loss) gain, net of taxes	(154)	5,048	\$4,894
Balance at September 30, 2016	\$ (154)	\$(36,495)	\$(36,649)

Amounts reported in AOCL related to derivatives will be reclassified to interest expense as interest payments are made on the Company's term loan. The Company estimates that \$0.3 million will be reclassified as an increase to interest expense in the next 12 months.

Other (expense) income, net

Other (expense) income, net consisted of the following (in thousands):

3. Long-Term Debt

First Amendment to the Credit Agreement

On August 31, 2016, the Company entered into the First Amendment to Credit Agreement and Increase Revolving Joinder (the "First Amendment") which amended the Credit Agreement, dated as of May 14, 2015 (as amended, the "Credit Agreement"). The First Amendment, (i) extended the maturity date of the term and revolving loans under the Credit Agreement to August 31, 2021, (ii) increased the available borrowing capacity under the revolving line of credit from \$150.0 million to \$200.0 million, and (iii) reduced the interest rate margins on all term and revolving loans, and certain fees.

As of September 30, 2016, \$475.0 million was outstanding on the term loan. The Company is not required to make principal payments on the term loan until September 30, 2017. From then through June 30, 2021, the term loan has scheduled quarterly principal payments of the initial principal borrowed of 1.25%, or \$5.9 million per quarter in year 2; 1.875%, or \$8.9 million per quarter in years 3 and 4; and 2.50%, or \$11.9 million per quarter in year 5; with the remaining outstanding principal due on August 31, 2021.

As of September 30, 2016, there were \$25.0 million in revolver borrowings, \$0.8 million of letters of credit, and no swingline loans outstanding, leaving \$174.2 million in available borrowings under the Revolver.

The Credit Agreement provides Eurodollar Rate and Base Rate term loans. Eurodollar Rate term loans are one-, two-, three-, or six-month loans (or, with permission, twelve-months) and interest is due on the last day of each three-month period of the loans. Base Rate term loans have interest due the last day of each calendar quarter-end. In advance of the last day of the then-current type of loan, the Company may select a new type of loan, so long as it does not extend beyond August 31, 2021.

Under the First Amendment, the applicable margin with respect to Base Rate loan was reduced to between 0.25% and 1.00%, and the applicable margin with respect to the Eurodollar Rate borrowings was reduced to between 1.25% and 2.00% depending on the "Secured Net Leverage Ratio" (as defined in the Credit Agreement). The Company will continue to pay a quarterly commitment fee between 0.20% and 0.35% on the average daily unused balance of the Revolver depending on the Secured Net Leverage Ratio at the adjustment date. As of September 30, 2016, the interest rate on the term loan was 2.03% and the interest rate on the Revolver was 2.04%.

The Credit Agreement permits the Company to increase term loan or revolving commitments and/or to request the establishment of one or more new term loan facilities and/or revolving facilities in an aggregate amount not to exceed \$175.0 million if certain net leverage requirements are met. The availability of such additional capacity is subject to, among other things, receipt of commitments from existing lenders or other financial institutions.

Table of Contents

The Company's maturities of obligations under the Credit Agreement for the years following December 31, 2015, are as follows (in thousands):

2016 (remaining 3 months)	\$—
2017	36,875
2018	29,688
2019	35,625
2020	41,562
2021	356,250
Deferred issuance costs	(2,421)
Total long-term debt	497,579
Less current portion	(30,938)
Total long-term debt, less current portion	\$466,641

The Credit Agreement contains usual and customary restrictive and financial covenants, as well as financial covenants. The Company was in compliance with its debt covenants for all periods through September 30, 2016.

Debt Issuance Costs

The Company recorded debt issuance costs related to its term loan of approximately \$2.4 million and \$2.9 million as of September 30, 2016 and December 31, 2015, respectively. These costs were recorded as a reduction of the principal balance of the associated debt and are being amortized as a component of interest expense using the effective interest method over the term of the term loan.

The Company recorded total debt issuance costs related to its revolving line of credit of approximately \$1.0 million as of September 30, 2016 and December 31, 2015, respectively. Debt issuance costs associated with the revolver are included in Prepaid expenses and other current assets and Other long-term assets within the condensed consolidated balance sheets. These costs are amortized as a component of interest expense using the effective interest method over the term of the Revolver.

4. Derivatives

On May 11, 2016, the Company entered into two interest rate swaps with a combined notional value of \$300.0 million in an effort to limit its exposure to variable interest rates on its term loan. Interest began accruing on the swaps on June 30, 2016 and the interest rate swaps expire on June 30, 2018 and May 14, 2020. The material terms of these derivatives are substantially the same as those contained within the Credit Agreement, including monthly settlements with the swap counterparty.

The interest rate swaps have been designated as cash flow hedges because these transactions were executed to manage the Company's exposure to variable interest rate movements and their impact on future interest payments. The effective portion of changes in the fair value of derivatives designated that qualify as cash flow hedges is recorded in AOCL and is subsequently reclassified into earnings in the period the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives is recognized directly in earnings and is included in the "Interest expense" line item in the unaudited condensed consolidated statements of operations. During the three and nine months ended September 30, 2016, the Company recorded an immaterial amount of hedge ineffectiveness in earnings attributable to inconsistencies in certain terms between the interest rate swaps and its Credit Agreement.

Table of Contents

The fair values of the Company's interest rate swaps designated as hedging instruments and the line items on the accompanying condensed consolidated balance sheets to which they were recorded are summarized in the following table (in thousands):

	Balance Sheet Classification	September 30, December 31,	
		2016	2015
Interest rate swaps - current	Accrued liabilities	\$ 48	\$ —
Interest rate swaps - non-current	Other long-term assets	\$ 54	\$ —
Interest rate swaps - non-current	Other long-term liabilities	\$ 250	\$ —

5. Fair Value Measurements

At September 30, 2016 and December 31, 2015, the Company's financial instruments included cash and cash equivalents, restricted cash, accounts receivable, accounts payable, accrued liabilities, debt and interest rate swaps. The fair value of the cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued liabilities approximate their respective carrying amounts based on the liquidity and short-term nature of these instruments.

The fair value of the long-term debt is determined based on market prices for similar financial instruments or model-derived valuations based on observable inputs and falls under Level 2 of the fair value hierarchy as defined in the authoritative guidance. The estimated fair value of the long-term debt and revolver was \$495.3 million at September 30, 2016.

Recurring Fair Value Measurements

Currently, the Company uses interest rate swaps to manage its risk related to variable interest rates on its term loan. The fair value of interest rate swaps is determined using the market standard methodology of discounted future variable cash receipts. The variable cash receipts are determined by discounting the future expected cash receipts that would occur if variable interest rates rise above the fixed rate of the swaps. The variable interest rates used in the calculation of projected receipts on the swap are based on an expectation of future interest rates derived from observable market interest rate curves and volatilities. As of September 30, 2016, the fair value of the interest rate swaps was approximately \$0.2 million and these derivatives were identified as Level 2 assets and liabilities. The Company did not have any recurring fair value measurements using significant unobservable inputs (Level 3) as of September 30, 2016. There were no transfers between Level 1, Level 2 or Level 3 during the nine months ended September 30, 2016.

Non-Recurring Fair Value Measurements

Certain assets, including goodwill and identifiable intangible assets, are carried on the accompanying unaudited condensed consolidated balance sheets at cost and are not re-measured to fair value on a recurring basis. These assets are classified as Level 3 within the fair value hierarchy. Goodwill and indefinite-lived intangible assets, net are tested for impairment annually or more frequently if events or changes in circumstances indicate a triggering event has occurred. The Company tests finite-lived intangible assets for impairment upon the occurrence of certain triggering events.

As of September 30, 2016, assets carried on the balance sheet and not re-measured to fair value on a recurring basis totaled \$677.0 million and were comprised of: goodwill of \$553.0 million; finite-lived intangible assets, net, of \$89.0 million; and indefinite-lived intangible assets of \$35.0 million.

Table of Contents

6. Restructuring, CEO Transition and Other Costs

On March 31, 2016, management approved a global plan to eliminate certain positions worldwide in an effort to ensure that the Company's organizational focus and resources were properly aligned with its strategic goals and to continue strengthening the delivery of its growing backlog to customers. Accordingly, the Company made changes to its therapeutic unit structure designed to realign with management focus and optimize the efficiency of its resourcing to achieve its strategic plan. Under this plan, the Company eliminated approximately 195 positions and incurred \$7.1 million related to employee severance costs during the nine months ended September 30, 2016. The Company expects to complete the remaining actions and make substantially all payments to affected employees during 2016. During the third quarter, the Company also announced the closure of one of its facilities associated with this restructuring. The Company plans to exit this facility and record a restructuring charge during the fourth quarter of 2016.

On July 27, 2016, the Company entered into a transition agreement with its former Chief Executive Officer ("CEO") related to the transition to a new CEO as of October 1, 2016. The CEO transition agreement is effective September 30, 2016 through February 28, 2017. For the nine months ended September 30, 2016, the Company recognized \$2.8 million of costs associated with this transition, which will be paid through August 2018.

Additionally, the Company incurred charges of \$0.5 million related primarily to legal and consulting cost incurred for the continued consolidation of its legal entities and the restructuring of its contract management process in preparation for adopting further accounting pronouncements. These costs were partially offset by a net reduction in facility closure expenses of \$0.2 million due to the reversal of previously accrued liabilities as a result of completing negotiations with respect to exiting certain facilities.

The Company expects to incur additional costs between \$3.1 million and \$4.1 million during the fourth quarter of 2016, related to its restructuring activities and the CEO transition. During the nine months ended September 30, 2016, the Company made payments and provision adjustments for all plans as presented below (in thousands):

	Employee Severance Costs, Including Executive Transition Costs	Facility Closure Charges	Other Charges	Total
Balance at December 31, 2015	\$ 1,065	\$ 3,661	\$ —	\$ 4,726
Expenses incurred, net	9,890	(152)	545	10,283
Payments made	(5,055)	(999)	(505)	(6,559)
Balance at September 30, 2016	\$ 5,900	\$ 2,510	\$ 40	\$ 8,450

The costs related to these actions are included in the "Restructuring, CEO transition and other costs" line item in the unaudited condensed consolidated statements of operations. These costs are not allocated to the Company's reportable segments because they are not part of the segment performance measures regularly reviewed by management.

Table of Contents

7. Shareholders' Equity

On July 26, 2016, the Company's Board of Directors approved a \$150.0 million repurchase program for shares of the Company's common stock in open market transactions effected through a broker-dealer at prevailing market prices, in block trades, or in privately negotiated transactions. The Company may also repurchase shares of its common stock pursuant to a trading plan meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, which would permit shares of the Company's common stock to be repurchased when the Company might otherwise be precluded from doing so by law. The program commenced on August 1, 2016 and will end no later than December 31, 2017. The stock repurchase program does not obligate the Company to repurchase any particular amount of common stock, and it could be modified, suspended or discontinued at any time. The timing and amount of repurchases will be determined by the Company's management based on a variety of factors such as the market price of the Company's common stock, the Company's liquidity requirements, and overall market conditions. The stock repurchase program will be subject to applicable legal requirements, including federal and state securities laws.

On August 22, 2016, the Company's former private equity sponsors, Avista Capital Partners, L.P. ("Avista") and Ontario Teachers' Pension Plan Board ("OTPP"), completed a secondary offering for 4,500,000 shares of the Company's common stock. In conjunction with the secondary offering, the Company repurchased 1,500,000 shares of its Class A common stock under the stock repurchase program from Avista and OTPP in a private transaction at a price of \$43.00 per share, resulting in a total purchase price of approximately \$64.5 million. The Company immediately retired all of the repurchased Class A common stock and charged the par value of the shares to common stock. The excess of the repurchase price over par was applied on a pro rata basis against additional paid-in-capital, with the remainder applied to accumulated deficit.

As of September 30, 2016, the Company had remaining authorization to repurchase up to \$85.5 million of shares of the Company's common stock under the stock repurchase program.

8. Earnings Per Share

The following table provides a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the three and nine months ended September 30, 2016 and September 30, 2015 (in thousands, except per share data):

	Net Income (Numerator)	Number of Shares (Denominator)	Per-Share Amount
For the three months ended September 30, 2016			
Basic earnings per share	\$ 27,331	54,186	\$ 0.50
Effect of dilutive securities	—	1,381	
Diluted earnings per share	\$ 27,331	55,567	\$ 0.49
For the three months ended September 30, 2015			
Basic earnings per share	\$ 37,814	56,325	\$ 0.67
Effect of dilutive securities	—	2,439	
Diluted earnings per share	\$ 37,814	58,764	\$ 0.64

Table of Contents

	Net Income (Numerator)	Number of Shares (Denominator)	Per-Share Amount
For the nine months ended September 30, 2016			
Basic earnings per share	\$ 75,139	54,147	\$ 1.39
Effect of dilutive securities	—	1,689	
Diluted earnings per share	\$ 75,139	55,836	\$ 1.35
For the nine months ended September 30, 2015			
Basic earnings per share	\$ 86,391	58,583	\$ 1.47
Effect of dilutive securities	—	2,243	
Diluted earnings per share	\$ 86,391	60,826	\$ 1.42

The computation of diluted earnings per share excludes unexercised stock options and unvested restricted stock units ("RSUs") that are anti-dilutive. The following common stock equivalents were excluded from the earnings per share computation as their inclusion would have been anti-dilutive (in thousands):

	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2015	Three Months Ended September 30, 2016	Nine Months Ended September 30, 2015
Weighted average number of stock options and RSUs calculated using the treasury stock method that were excluded due to the exercise/threshold price exceeding the average market price of the Company's common stock during the period	787	344	806	184

9. Share-Based Compensation

The following table summarizes option activity for the nine month period ended September 30, 2016:

	Number of Options	Weighted Average Exercise Price	Weighted Average Grant Date Fair Value
Outstanding at December 31, 2015	3,421,425	\$ 15.75	
Granted	388,471	\$ 42.86	\$ 14.90
Exercised	(1,174,856)	\$ 10.95	
Forfeited	(54,930)	\$ 31.51	
Expired	—	\$ —	
Outstanding at September 30, 2016	2,580,110	\$ 21.69	

The Company recorded a receivable of \$0.4 million from the Company's brokerage services provider associated with certain stock option exercises, which was included in the "Prepaid expenses and other current assets" line item on the Company's Consolidated Balance Sheet as of September 30, 2016. The full amount was received in October 2016.

Table of Contents

The following table summarizes activity related to performance- and time-based RSUs for the nine month period ended September 30, 2016:

	Number of RSUs	Weighted Average Grant Date Fair Value
Non-vested at December 31, 2015	225,110	
Granted	675,990	\$ 42.92
Vested	(58,583)	
Forfeited	(18,456)	
Non-vested at September 30, 2016	824,061	

At September 30, 2016, there was \$28.1 million of unrecognized compensation expense related to unvested RSUs, which is expected to be recognized over a weighted average period of 2.7 years.

Performance Based Awards

In January 2016, the Company's Board of Directors (the "Board") and Compensation Committee granted the executive officers performance-based RSUs ("PRSUs") for up to a maximum of 144,900 shares of common stock.

These performance-based grants are subject to the Company's performance in fiscal years 2016, 2017 and 2018 and will not be distributed until after the 2018 Annual Report on Form 10-K is filed. Vesting is contingent upon the Company meeting company-wide adjusted earnings per share performance goals in each of the three years. The related share-based compensation expense is determined based on the value of the underlying shares on the date of grant and is recognized over the vesting term, with a maximum of one-third of the potential awards earned in each year the targets are met. During the interim financial periods, management estimates the number of PRSUs that are probable to vest until the achievement of the performance goals is known. These awards are included in the table above.

Employee Stock Purchase Plan

In March 2016, the Board approved the INC Research Holdings, Inc. 2016 Employee Stock Purchase Plan ("ESPP"), which was also approved by the Company's shareholders on May 24, 2016. The ESPP allows eligible employees to authorize payroll deductions of up to 10% of their base salary or wages to be applied toward the purchase of full shares of the Company's common stock on the last trading day of the offering period. Participating employees will purchase shares of the Company's common stock at a 15% discount to the lesser of the closing price of the Company's common stock on the NASDAQ Global Select Market (i) on the first day of the trading period or (ii) the last trading day of each offering period. Offering periods under the ESPP are six months in duration and the first offering period began on September 1, 2016. Under this plan, the Company recognized share-based compensation expense of \$0.1 million for the three and nine months ended September 30, 2016, respectively. As of September 30, 2016, there were 1.0 million shares reserved for future issuance under the ESPP.

Total share-based compensation expense associated with stock options, RSUs, and the ESPP recognized in the unaudited condensed consolidated statements of operations for the three and nine months ended September 30, 2016 and 2015 was as follows (in thousands):

Three Months Ended September 30,	Nine Months Ended September 30,

Edgar Filing: INC Research Holdings, Inc. - Form 10-Q

	2016	2015	2016	2015
Direct costs	\$1,860	\$732	\$4,402	\$1,468
Selling, general and administrative	1,657	936	5,002	1,820
Total share-based compensation expense	\$3,517	\$1,668	\$9,404	\$3,288

19

Table of Contents

10. Income Taxes

The Company's effective tax rate for the three and nine months ended September 30, 2016 was 18.2% and 17.6%, respectively. The Company's effective tax rate for the three and nine months ended September 30, 2016 was lower than the U.S. federal statutory rate primarily due to (i) the geographic split of pre-tax income, (ii) tax credits, and (iii) discrete tax adjustments related to foreign exchange losses due to historical branch transactions and excess tax benefits on share-based payments, as described in Note 1 under "Share-Based Compensation."

The Company's effective tax rate for the three and nine months ended September 30, 2015 was 6.2% and 8.6%, respectively. The Company's effective tax rate for the three and nine months ended September 30, 2015 was lower than the U.S. federal statutory rate primarily due to (i) income or losses generated in jurisdictions where the income tax expense or benefit was offset by a corresponding change in the valuation allowance on net deferred tax assets, (ii) the geographic split of pre-tax income, and (iii) discrete tax adjustments related to the release of valuation allowances and unrecognized tax benefits.

As of September 30, 2016, the Company's unrecognized tax benefits totaled \$16.6 million, all of which would impact the Company's effective tax rate if recognized. The increase in the tax liability from December 31, 2015 is attributable to the Company's adoption of ASU 2013-11. The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense. As of September 30, 2016, accrued interest and penalties totaled \$1.7 million and \$0.8 million, respectively.

11. Segment Information

The Company is managed through two reportable segments: Clinical Development Services and Phase I Services. Clinical Development Services offers a variety of services, including full-service global studies, as well as ancillary services such as clinical monitoring, investigator recruitment, patient recruitment, data management, study reports to assist customers with their drug development process, and specialized consulting services. Phase I Services focuses on clinical development services for Phase I trials that include scientific exploratory medicine, first-in-human studies through proof-of-concept stages, and support for Phase I studies in established compounds.

Table of Contents

The Company's Chief Operating Decision Maker ("CODM") reviews segment performance and allocates resources based upon segment revenue and segment contribution margin. Inter-segment revenue is eliminated from the segment reporting presented to the CODM and is not included in the segment revenue presented in the table below. Revenue, direct costs and contribution margin for each of the Company's segments were as follows (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Revenue:				
Clinical Development Services	\$255,220	\$ 229,218	\$755,370	\$ 661,243
Phase I Services	4,337	5,276	11,988	12,141
Segment revenue	259,557	234,494	767,358	673,384

Consolidated income from operations	\$39,396	\$ 44,341	\$ 111,559	\$ 112,667

The CODM reviews the Company's assets on a consolidated basis. The Company does not allocate assets to its reportable segments as they are not included in the review performed by the CODM for purposes of assessing segment performance or allocating resources.

Table of Contents

12. Operations by Geographic Location

The Company conducts operations in North America, Europe, Middle East and Africa, Asia-Pacific, and Latin America through wholly-owned subsidiaries and representative sales offices. The Company attributes net service revenue to geographical locations based upon the location of the customer (i.e., the location to which the Company invoices the end customer). The following table summarizes total revenue by geographic area (in thousands and all intercompany transactions have been eliminated):

	Three Months Ended		Nine Months Ended	
	September 30, 2016	September 30, 2015	September 30, 2016	September 30, 2015
Net service revenue:				
North America(1)	\$215,015	\$ 171,756	\$599,519	\$ 491,207
Europe, Middle East and Africa	37,030	58,083	148,028	168,876
Asia-Pacific	7,512	4,569	19,795	13,154
Latin America	—	86	16	147
Total net service revenue	259,557	234,494	767,358	673,384
Reimbursable-out-of-pocket expenses	132,234	115,651	437,167	322,970
Total revenue	\$391,791	\$ 350,145	\$1,204,525	\$ 996,354

(1) Net service revenue for the North America region includes revenue attributable to the United States of \$208.0 million and \$165.9 million, or 80.1% and 70.7% of net service revenue, for the three months ended September 30, 2016 and 2015, respectively. Net service revenue for the North America region includes revenue attributable to the United States of \$582.4 million and \$477.0 million, or 75.9% and 70.8% of net service revenue, for the nine months ended September 30, 2016 and 2015, respectively. No other countries represented more than 10% of net service revenue for any period.

The following table summarizes long-lived assets by geographic area (in thousands and all intercompany transactions have been eliminated):

	September 30, 2016	December 31, 2015
Total property and equipment, net:		
North America(1)	\$ 31,774	\$ 28,992
Europe, Middle East, and Africa	8,574	9,891
Asia-Pacific	4,809	5,491
Latin America	803	439
Total property and equipment, net	\$ 45,960	\$ 44,813

(1) Long-lived assets for the North America region include property and equipment, net attributable to the United States of \$31.3 million and \$28.7 million as of September 30, 2016 and December 31, 2015, respectively.

13. Concentration of Credit Risk

No customer accounted for 10% or more of total net service revenue for the three or nine months ended September 30, 2016 or 2015.

At September 30, 2016 and December 31, 2015, no customer accounted for more than 10% of billed and unbilled accounts receivable balances.

Table of Contents

14. Related-Party Transactions

The Company recorded net service revenue of \$0.3 million and \$0.5 million for the three and nine months ended September 30, 2016, respectively, from a customer who had a significant shareholder who was also a significant shareholder of the Company. The Company recorded net service revenue of \$0.1 million for both the three and nine months ended September 30, 2015, from a customer who had a significant shareholder who was also a significant shareholder of the Company.

15. Commitments and Contingencies

The Company records accruals for claims, suits, investigations and proceedings when it is probable that a liability has been incurred and the amount of the loss can be reasonably estimated. The Company reviews claims, suits, investigations and proceedings at least quarterly and records or adjusts accruals related to such matters to reflect the impact and status of any settlements, rulings, advice of counsel or other information pertinent to a particular matter. In the normal course of business, the Company periodically becomes involved in various claims and lawsuits that are incidental to its business. While the outcome of these matters could differ from management's expectations, the Company does not believe the resolution of these matters will have a material effect upon the Company's financial statements.

The Company currently maintains insurance for risks associated with the operation of its business, provision of professional services and ownership of property. These policies provide coverage for a variety of potential losses, including loss or damage to property, bodily injury, general commercial liability, professional errors and omissions, and medical malpractice.

The Company is self-insured for certain losses relating to health insurance claims for the majority of its employees located within the United States. The Company purchases stop-loss coverage from third party insurance carriers to limit individual or aggregate loss exposure with respect to the Company's health insurance claims.

Accrued insurance liabilities and related expenses are based on estimates of claims incurred but not reported. Incurred but not reported claims are generally determined by taking into account historical claims payments and known trends such as claim frequency and severity. The Company makes estimated judgments and assumptions with respect to these calculations, including but not limited to, estimated healthcare cost trends, estimated lag time to report any paid claims, average cost per claim and other factors. The Company believes the estimates of future liability are reasonable based on its methodology; however, changes in claims activity (volume and amount per claim) could materially affect the estimate for these liabilities. The Company continually monitors claim activity and incidents and makes necessary adjustments based on these evaluations. As of September 30, 2016, the Company had accrued self-insurance reserves of \$3.1 million.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward Looking Statements

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our unaudited condensed consolidated financial statements and the notes thereto included elsewhere in this Quarterly Report on Form 10-Q and with our audited consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

In addition to historical condensed consolidated financial information, the following discussion contains forward-looking statements that reflect, among other things, our current expectations and anticipated results of operations, all of which are subject to known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements, market trends, or industry results to differ materially from those expressed or implied by such forward-looking statements. Therefore, any statements contained herein that are not statements of historical fact may be forward-looking statements and should be evaluated as such. Without limiting the foregoing, the words "anticipates," "believes," "estimates," "expects," "intends," "may," "plans," "projects," "should," "targets" the negative thereof and similar words and expressions are intended to identify forward-looking statements. Unless legally required, we assume no obligation to update any such forward-looking information to reflect actual results or changes in the factors affecting such forward-looking information.

We caution you that any such forward-looking statements are further qualified by important factors that could cause our actual operating results to differ materially from those in the forward-looking statements, including without limitation, regional, national or global political, economic, business, competitive, market and regulatory conditions and the following: the impact of underpricing our contracts, overrunning our cost estimates or failing to receive approval for or experiencing delays with documentation of change orders; the impact of unfavorable economic conditions, including the uncertain economic environment in Europe as a result of the recent vote by the United Kingdom to exit from the European Union, changes in exchange rates and effective income tax rate fluctuations; our potential failure to generate a large number of new business awards and the risk of delay, termination, reduction in scope or failure to go to contract of our business awards; our potential failure to convert backlog to revenue; the risks associated with our information systems infrastructure; our reliance on key personnel and good corporate governance as we transition from having been a "controlled company" that was majority owned by our private equity sponsors; any adverse effects from customer or therapeutic area concentration; the risks associated with doing business internationally; our potential failure to successfully increase our market share, grow our business, and execute our growth strategies; our failure to perform our services in accordance with contractual requirements, regulatory standards and ethical considerations; the risk of litigation and personal injury claims; the risks associated with potential future acquisitions or investments in our customers' businesses or drugs; the impact of changes in government regulations and healthcare reform; and our ability to service our substantial indebtedness. For a further discussion of the risks relating to our business, see "Risk Factors" in Part II, Item 1A of this Quarterly report on Form 10-Q and Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Overview of our Business and Services

We are a leading global CRO, based on revenues, and are exclusively focused on Phase I to Phase IV clinical development services for the biopharmaceutical and medical device industries. We provide our customers highly differentiated therapeutic alignment and expertise, with a particular strength in central nervous system ("CNS"), oncology and other complex diseases. We consistently and predictably deliver clinical development services in a complex environment and offer a proprietary, operational approach to clinical trials through our Trusted Process[®] methodology. Our service offerings focus on optimizing the development of and, therefore, the commercial potential for, our customers' new biopharmaceutical compounds, enhancing returns on their research and development ("R&D"), investments, and reducing their overhead by offering an attractive variable cost alternative to fixed cost, in-house resources.

Table of Contents

Our extensive range of services supports the entire drug development process from Phase I to Phase IV and allows us to offer our customers an integrated suite of investigative site support and clinical development services. We offer these services across a wide variety of therapeutic areas with deep clinical expertise and a primary focus on Phase II to Phase IV clinical trials. We provide total biopharmaceutical program development while also providing discrete services for any part of a trial. Our combination of service area experts and depth of clinical capability allows for enhanced protocol design and actionable trial data.

We have two reportable segments: Clinical Development Services and Phase I Services. Clinical Development Services offers a variety of services, including full-service global studies, as well as ancillary services such as clinical monitoring, investigator recruitment, patient recruitment, data management, study reports to assist customers with their drug development process, and specialized consulting services. Phase I Services focuses on clinical development services for Phase I trials that include scientific exploratory medicine, first-in-human studies through proof-of-concept stages, and support for Phase I studies in established compounds. For financial information regarding revenue and long-lived assets by geographic areas, please see Note 12 - Operations by Geographic Location to our unaudited condensed consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

The discussion and analysis of our financial condition and results of operations herein is presented on a consolidated basis. Because our Clinical Development Services segment accounts for substantially all of our business operations, we believe that a discussion of our reportable segments' operations would not be meaningful disclosure for investors. See further discussion in Note 11 - Segment Information to our unaudited condensed consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

We earn net service revenue primarily for services performed under contracts for global clinical drug trials, based upon output measures that are specific to the services performed and defined by the contract. Engagements for Phase II to Phase IV clinical trials, which represent the majority of our revenue, are typically long duration contracts ranging from several months to several years. The contracts for these engagements typically cover the detailed scope of work, phases, milestones, billing schedules and processes for review of work and clinical results. Contracts are individually priced and negotiated based on the anticipated level of effort required to complete the project, the complexity and performance risks, and the level of competition in the market.

Direct costs associated with these contracts consist principally of compensation expense and benefits associated with our employees and other employee-related costs. While we can manage the majority of these costs relative to the amount of contracted services we have during any given period, direct costs as a percentage of net service revenue can vary from period to period. Such fluctuations are due to a variety of factors, including, among others: (i) the level of staff utilization created by our ability to effectively manage our workforce, (ii) adjustments to the timing of work on specific customer contracts, (iii) the experience mix of personnel assigned to projects, and (iv) the service mix and pricing of our contracts. In addition, as global projects wind down or as delays and cancellations occur, staffing levels in certain countries or functional areas can become misaligned with the current business volume.

New Business Awards and Backlog

We add new business awards to backlog when we enter into a contract or when we receive a written commitment from the customer selecting us as its service provider, provided that (i) the customer has received appropriate internal funding approval, (ii) the project or projects are not contingent upon completion of another trial or event, (iii) the project or projects are expected to commence within the next 12 months, and (iv) the customer has entered or intends to enter into a comprehensive contract as soon as practicable. We recognize revenue on these awards as services are performed, provided we have entered into a contractual commitment with the customer.

Table of Contents

Our new business awards, net of cancellations of prior awards, for the three months ended September 30, 2016 and 2015 were \$330.1 million and \$327.7 million, respectively. Our new business awards, net of cancellations of prior awards, for the nine months ended September 30, 2016 and 2015 were \$934.5 million and \$879.1 million, respectively. Net new business awards were higher in the first nine months of 2016 compared to the first nine months of 2015 primarily due to the continued growth of our CNS therapeutic area. New business awards have varied and may continue to vary significantly from quarter to quarter. Fluctuations in our reported backlog and net new business award levels often result from the fact that we may receive a small number of relatively large orders in any given reporting period. Because of these large orders, our backlog and net new business awards in that reporting period might reach levels that are not sustained in subsequent reporting periods.

The dollar amount of our backlog consists of anticipated future net service revenue from business awards that either have not started but are anticipated to begin in the future, or that are in process and have not been completed. Our backlog also reflects any cancellation or adjustment activity related to these contracts. The average duration of our contracts will fluctuate from period to period in the future based on the contracts comprising our backlog at any given time. The majority of our contracts can be terminated by our customers with 30 days' notice. We adjust the amount of our backlog each quarter for foreign currency fluctuations. For the three and nine months ended September 30, 2016, fluctuations in foreign currency exchange rates resulted in a favorable impact on our September 30, 2016 backlog in the amount of \$3.6 million and \$2.5 million, respectively, primarily due to the strengthening of the Euro against the U.S. dollar. For the twelve months ended September 30, 2016, fluctuations in foreign currency exchange rates resulted in an unfavorable impact on our September 30, 2016 backlog in the amount of \$6.6 million, primarily due to the weakening of the British Pound and the Euro against the U.S. dollar. As of September 30, 2016 and 2015, our backlog was \$2.0 billion and \$1.8 billion, respectively. Included within backlog at September 30, 2016 was approximately \$0.25 billion that we expect to generate revenue from during the remainder of 2016.

We believe that backlog and net new business awards might not be consistent indicators of future revenue because they have been, and likely will be, affected by a number of factors, including the variable size and duration of projects, many of which are performed over several years, cancellations and changes to the scope of work during the course of projects. Additionally, projects may be canceled or delayed by the customer or delayed by regulatory authorities. Projects that have been delayed for less than 12 months generally remain in backlog, but the anticipated timing of the recognition of revenue is uncertain. We generally do not have a contractual right to the full amount of the revenue reflected in our backlog. If a customer cancels an award, we might be reimbursed for the costs we have incurred. As we increasingly compete for and enter into large contracts that are more global in nature, we expect the rate at which our backlog and net new business awards convert into revenue to decrease, or lengthen. See "Risk Factors - Risks Related to Our Business - Our Backlog might not be indicative of our future revenue, and we might not realize all of the anticipated future revenue reflected in our backlog" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Net Service Revenue and Reimbursable Out-of-Pocket Expenses

For the three and nine months ended September 30, 2016 and 2015, total revenue was comprised of the following (in thousands, except percentages):

	Three Months Ended		Change	
	September 30, 2016	September 30, 2015		
Net service revenue	\$259,557	\$ 234,494	\$25,063	10.7%
Reimbursable out-of-pocket expenses	132,234	115,651	16,583	14.3%
Total revenue	\$391,791	\$ 350,145	\$41,646	11.9%
	Nine Months Ended		Change	
	September 30, 2016	September 30, 2015		
Net service revenue	\$767,358	\$ 673,384	\$93,974	14.0%
Reimbursable out-of-pocket expenses	437,167	322,970	114,197	35.4%
Total revenue	\$1,204,525	\$ 996,354	\$208,171	20.9%

Table of Contents

For the three months ended September 30, 2016, net service revenue increased by \$25.1 million, or 10.7%, to \$259.6 million from \$234.5 million for the three months ended September 30, 2015. For the nine months ended September 30, 2016, net service revenue increased by \$94.0 million, or 14.0%, to \$767.4 million from \$673.4 million for the nine months ended September 30, 2015. In 2016, our revenue grew across all therapeutic areas and has been particularly strong in the central nervous system, oncology and other complex therapeutic areas. During the three and nine months ended September 30, 2016, fluctuations in foreign currency exchange rates resulted in an unfavorable impact of \$2.6 million and \$8.6 million, respectively, on net service revenue as compared to the three and nine months ended September 30, 2015.

Net service revenue from our top five customers accounted for approximately 32.0% and 33.4% of total net service revenue for the three months ended September 30, 2016 and 2015, respectively. Net service revenue from our top five customers accounted for approximately 33.3% and 34.5% of total net service revenue for the nine months ended September 30, 2016 and 2015, respectively.

No customer accounted for 10% or more of total net service revenue for the three or nine months ended September 30, 2016 or 2015.

Reimbursable out-of-pocket expenses fluctuate significantly from period to period based on the timing of program initiation or closeout and the mix of program complexity and do not necessarily change in correlation to net service revenue. For the three months ended September 30, 2016, reimbursable out-of-pocket expenses, which represent expenses related to our clinical studies that are passed directly through to customers, increased by \$16.6 million, or 14.3%, to \$132.2 million from \$115.7 million for the three months ended September 30, 2015. For the nine months ended September 30, 2016, reimbursable out-of-pocket expenses increased by \$114.2 million, or 35.4%, to \$437.2 million from \$323.0 million for the nine months ended September 30, 2015. The reimbursements are offset by an equal amount shown under the same caption in the "Costs and operating expenses" section in our unaudited condensed consolidated statements of operations and, accordingly, have no impact on income from operations.

Direct Costs and Reimbursable Out-of-pocket Expenses

For the three and nine months ended September 30, 2016 and 2015, direct costs and reimbursable out-of-pocket expenses were as follows (in thousands, except percentages):

	Three Months Ended		Change	
	September 30, 2016	September 30, 2015		
Direct costs	\$159,641	\$135,530	\$24,111	17.8%
Reimbursable out-of-pocket expenses	132,234	115,651	16,583	14.3%
Total direct costs and reimbursable out-of-pocket expenses	\$291,875	\$251,181	\$40,694	16.2%
	Nine Months Ended		Change	
	September 30, 2016	September 30, 2015		
Direct costs	\$471,196	\$398,988	\$72,208	18.1%
Reimbursable out-of-pocket expenses	437,167	322,970	114,197	35.4%
Total direct costs and reimbursable out-of-pocket expenses	\$908,363	\$721,958	\$186,405	25.8%

Table of Contents

The following is a summary of the year-over-year fluctuation in components of direct costs during the three and nine months ended September 30, 2016 as compared to the three and nine months ended September 30, 2015 (in thousands):

	Three Months Ended September 30, 2015 to 2016	Nine Months Ended September 30, 2015 to 2016
Change in:		
Salaries, benefits and incentive compensation	\$ 10,866	\$ 38,526
Other	13,245	33,682
Total	\$ 24,111	\$ 72,208

Our direct costs increased by \$24.1 million, or 17.8%, to \$159.6 million for the three months ended September 30, 2016 from \$135.5 million for the three months ended September 30, 2015. Our direct costs increased by \$72.2 million, or 18.1%, to \$471.2 million for the nine months ended September 30, 2016 from \$399.0 million for the nine months ended September 30, 2015. These increases were primarily driven by the growth in our revenues and the resulting need for additional resources, along with our need to utilize a higher percentage of third party contractors during 2016 compared to 2015 as discussed further below.

The salaries, benefits and incentive compensation portion of direct costs increased by \$10.9 million and \$38.5 million, respectively, for the three and nine months ended September 30, 2016 compared to the same periods in the prior year. These increases were primarily driven by additional personnel to support the growth of our business, partially offset by favorable fluctuations in foreign currency, as discussed further below.

Other direct costs increased by \$13.2 million and \$33.7 million, respectively, for the three and nine months ended September 30, 2016, compared to the three and nine months ended September 30, 2015, primarily due to (i) an increase in temporary contract labor costs to meet requested accelerated project timelines, (ii) increases in travel, information technology and facilities cost from increased headcount, and (iii) the three and nine months ended 2015 periods including a favorable resolution of disputed pass through costs, VAT and other tax liabilities and employee related cost of \$4.9 million and \$6.6 million, respectively.

During the three and nine months ended September 30, 2016, fluctuations in foreign currency exchange rates resulted in a favorable impact of \$3.8 million and \$10.4 million, respectively, on direct costs as compared to the three and nine months ended September 30, 2015.

As we continue to expand our business and initiate new studies, the increase in headcount-related expenses may outpace our revenue growth. Due to increased competition for a limited supply of qualified clinical research personnel, we may have to hire more contractors, who typically carry a higher cost than employees and therefore could adversely impact our profit margins. If we continue to see an increasingly tight labor market for clinical research personnel, it might also further increase the compensation we have to pay to remain competitive in the market, which would further impact our margins.

Reimbursable out-of-pocket expenses fluctuate significantly from period to period based on the timing of program initiation or closeout and the mix of program complexity and do not necessarily change in correlation to net service revenue. As noted above, reimbursable out-of-pocket expenses increased by 14.3% or \$16.6 million, to \$132.2 million for the three months ended September 30, 2016 from \$115.7 million for the three months ended September 30, 2015. Reimbursable out-of-pocket expenses increased by 35.4% or \$114.2 million, to \$437.2 million for the nine months

ended September 30, 2016 from \$323.0 million for the nine months ended September 30, 2015.

Table of Contents

Selling, General and Administrative Expenses

For the three and nine months ended September 30, 2016 and 2015, selling, general and administrative expenses were as follows (in thousands, except percentages):

	Three Months Ended		Change	
	September 30, 2016	September 30, 2015		
Selling, general and administrative	\$41,743	\$ 40,429	\$ 1,314	3.3%
Percentage of net service revenue	16.1 %	17.2 %		
	Nine Months Ended		Change	
	September 30, 2016	September 30, 2015		
Selling, general and administrative	\$127,818	\$ 113,354	\$ 14,464	12.8%
Percentage of net service revenue	16.7 %	16.8 %		

The following is a summary of the year-over-year fluctuation in components of our selling, general and administrative expenses during the three and nine months ended September 30, 2016 as compared to the three and nine months ended September 30, 2015 (in thousands):

	Three Months Ended September 30, 2015 to 2016	Nine Months Ended September 30, 2015 to 2016
Change in:		
Salaries, benefits, and incentive compensation	\$ 1,649	\$ 12,968
Other expenses	(335)	1,496
Total	\$ 1,314	\$ 14,464

Selling, general and administrative expenses increased by \$1.3 million, or 3.3%, to \$41.7 million for the three months ended September 30, 2016 from \$40.4 million for the three months ended September 30, 2015. Selling, general and administrative expenses increased by \$14.5 million, or 12.8%, to \$127.8 million for the nine months ended September 30, 2016 from \$113.4 million for the nine months ended September 30, 2015. These increases were driven primarily by an increase in salaries, benefits, and incentive compensation, primarily as a result of the additions in personnel to support the growth of our business. In addition, our selling, general and administrative expenses increased on a year-over-year basis due to the 2015 period including the settlement of certain employee-related liabilities totaling approximately \$1.1 million. Partially offsetting the net increase in selling, general and administrative expenses is a reduction from fluctuations in foreign currency exchange rates of \$0.8 million and \$2.2 million, respectively, for the three and nine months ended September 30, 2016 as compared to the three and nine months ended September 30, 2015. In addition, we incurred lower incentive compensation during the three months ended September 30, 2016, compared to the same period in 2015 of \$1.3 million.

Selling, general and administrative expenses as a percentage of net service revenue decreased from 17.2% for the three months ended September 30, 2015 to 16.1% for the three months ended September 30, 2016. Selling, general and administrative expenses as a percentage of net service revenue decreased from 16.8% for the nine months ended September 30, 2015 to 16.7% for the nine months ended September 30, 2016. These decreases were primarily attributable to (i) our ability to grow these expenses at a slower rate than our revenue, (ii) the lower incentive

compensation during the third quarter of 2016 noted above, and (iii) the positive impact of fluctuations in foreign currency noted above.

31

Table of Contents

Restructuring, CEO Transition and Other Costs

Restructuring, CEO transition and other costs were \$2.9 million and \$10.3 million, respectively, for the three and nine months ended September 30, 2016, as discussed below.

On July 27, 2016, we entered into a transition agreement with our former Chief Executive Officer ("CEO") related to the transition to a new CEO as of October 1, 2016. The CEO transition agreement is effective September 30, 2016 through February 28, 2017. For the three and nine months ended September 30, 2016, we have recognized \$2.8 million of costs related to the CEO transition.

On March 31, 2016, management approved a global plan to eliminate certain positions worldwide in an effort to ensure that our organizational focus and resources were properly aligned with our strategic goals and to continue strengthening the delivery of our growing backlog to customers. Accordingly, we made changes to our therapeutic unit structure designed to realign with management focus and optimize the efficiency of our resourcing to achieve our strategic plan. Under this plan, we eliminated approximately 195 positions and incurred \$7.1 million related to employee severance costs during the nine months ended September 30, 2016. We expect to complete the remaining actions and make substantially all payments to affected employees during 2016. During the third quarter, we also announced the closure of one of our facilities associated with this restructuring. Our plan is to exit this facility and record a restructuring charge during the fourth quarter of 2016.

For the three and nine months ended September 30, 2016, we also incurred charges of \$0.1 million and \$0.5 million, respectively, related primarily to legal and consulting cost incurred for the continued consolidation of legal entities and restructuring of our contract management process in preparation for adopting further accounting pronouncements. For the nine months ended September 30, 2016, these costs were partially offset by a net reduction in facility closure expenses of \$0.2 million due to the reversal of previously accrued liabilities during the second quarter of 2016 as a result of completing negotiations with respect to exiting certain facilities.

During the fourth quarter of 2016, we expect to incur additional costs between \$3.1 million and \$4.1 million related to our restructuring activities and the CEO transition.

Restructuring and other costs were \$1.6 million for the nine months ended September 30, 2015, consisting of employee severance costs of \$1.8 million, partially offset by a net reduction in facility closure costs of \$0.2 million. Following the completion of negotiations related to exiting certain facilities during the first quarter of 2015, we reduced our exit cost estimates related to the corresponding lease agreements by approximately \$0.7 million, which was partially offset by expenses of \$0.5 million primarily related to early lease termination fees.

Transaction Expenses

For the three and nine months ended September 30, 2016, we incurred transaction expenses of \$1.1 million and \$2.9 million, respectively, consisting of third-party fees associated with (i) our secondary offerings in May and August 2016, (ii) our stock repurchase and debt amendment in August 2016, and (iii) other corporate projects.

For the three months ended September 30, 2015, we incurred transaction expenses of \$0.4 million primarily consisting of third party fees associated with our August 2015 registered secondary common stock offering. For the nine months ended September 30, 2015, we incurred transaction expenses of \$0.9 million, primarily consisting of third party fees associated with our May 2015 stock repurchase and registered secondary common stock offerings in May and August 2015.

Table of Contents

Asset Impairment Charges

During the first quarter of 2015, we observed deteriorating performance due to reduced revenue resulting from cancellations and lower than expected new business awards in our Phase I Services reporting unit. This resulted in a triggering event requiring an evaluation of both long-lived assets and goodwill for potential impairment. At the date of this evaluation, there were no intangible assets associated with Phase I Services. As a result of these evaluations, for the nine months ended September 30, 2015, we recorded a total asset impairment charge of \$3.9 million, consisting of a long-lived assets impairment charge of \$1.0 million and a goodwill impairment charge of \$2.9 million. We also reviewed the estimated useful lives assigned to long-lived assets associated with the Phase I Services reporting unit and determined that no adjustment was deemed necessary at that time. There were no asset impairment charges for the three months ended September 30, 2015 or the three and nine months ended September 30, 2016.

Depreciation and Amortization Expense

Total depreciation and amortization expense increased to \$14.8 million and \$43.6 million, respectively, for the three and nine months ended September 30, 2016 from \$13.8 million and \$42.0 million, respectively, for the three and nine months ended September 30, 2015, primarily due to an increase in depreciation expense resulting from a higher fixed asset balance in 2016 compared to the prior year.

Other Expense, Net

For the three and nine months ended September 30, 2016 and 2015, other income and expense were as follows (in thousands, except percentages):

	Three Months Ended		Change	
	September 30, 2016	September 30, 2015		
Interest income	\$62	\$ 28	\$34	121.4 %
Interest expense	(3,226)	(3,065)	(161)	(5.3)%
Loss on extinguishment of debt	(439)	—	(439)	— %
Other (expense) income, net	(2,384)	(1,003)	(1,381)	(137.7)%
Total other expense, net	\$(5,987)	\$(4,040)	\$(1,947)	(48.2)%
	Nine Months Ended		Change	
	September 30, 2016	September 30, 2015		
Interest income	\$139	\$ 157	\$(18)	(11.5)%
Interest expense	(9,317)	(12,687)	3,370	26.6 %
Loss on extinguishment of debt	(439)	(9,795)	9,356	95.5 %
Other (expense) income, net	(10,761)	4,138	(14,899)	(360.1)%
Total other expense, net	\$(20,378)	\$(18,187)	\$(2,191)	(12.0)%

Total other expense, net increased to \$6.0 million for the three months ended September 30, 2016 from \$4.0 million for the three months ended September 30, 2015. Primarily driving this increase was (i) an increase in loss of extinguishment of debt of \$0.4 million associated with the amendment to the debt agreement in August 2016 and (ii) an increase in other income (expense), net of \$1.4 million for the three months ended September 30, 2016 compared to the three months ended September 30, 2015, related to increased foreign currency losses compared to the prior year. In particular, the June 23, 2016 referendum by British voters to exit the European Union (“Brexit”) impacted global markets, including currencies, and resulted in a sharp decline in the value of the British pound as compared to the U.S. dollar and other currencies. Volatility in exchange rates is expected to continue in the short term as the United Kingdom (U.K.) negotiates its exit from the European Union and could continue to drive significant fluctuations in foreign currency gains or losses in future periods. Additionally, fluctuations in the British Pound compared

Table of Contents

to the U.S. dollar during future reporting periods will cause local currency results of our U.K. operations to be translated into more or less U.S. dollars impacting operating profit. In the longer term, any impact from Brexit on our U.K. operations will depend on the outcomes of tariff, trade, regulatory, and other negotiations, among many other factors.

Total other expense, net increased to \$20.4 million for the nine months ended September 30, 2016 from \$18.2 million for the nine months ended September 30, 2015. Primarily driving this increase was an increase in other income (expense), net which changed from income of \$4.1 million for the nine months ended September 30, 2015 to expense of \$10.8 million for the nine months ended September 30, 2016, primarily as a result of foreign currency losses compared to gains in the prior year as discussed above. This increase was partially offset by (i) a decrease in loss of extinguishment of debt of \$9.4 million associated with the 2015 debt refinancing in the second quarter of 2015 compared to lower costs incurred by the company related to the August 2016 debt amendment and (ii) a decrease in interest expense of \$3.4 million for the nine months ended September 30, 2016 compared to the nine months ended September 30, 2015 due to decreased interest rates in 2016 as a result of our debt repayment and refinancing activities during the second quarter of 2015 and August 2016.

Income Tax Expense

Income tax expense was \$6.1 million and \$16.0 million for the three and nine months ended September 30, 2016, respectively. Variances from the statutory rate of 35% for the three and nine months ended September 30, 2016 were primarily due to (i) the geographic split of pre-tax income, (ii) tax credits, and (iii) discrete tax adjustments related to foreign exchange losses due to historical branch transactions of \$1.5 million and excess tax benefits on share-based payments of \$4.6 million and \$12.6 million, respectively, for the three and nine months ended September 30, 2016. Income tax expense was \$2.5 million and \$8.1 million for the three and nine months ended September 30, 2015, respectively. Variances from the statutory rate of 35% for the three and nine months ended September 30, 2015 were primarily due to (i) income or losses generated in jurisdictions where the income tax expense or benefit was offset by a corresponding change in the valuation allowance on net deferred tax assets, (ii) the geographic split of pre-tax income, and (iii) discrete tax adjustments related to the release of valuation allowances and unrecognized tax benefits.

Net Income

Net income decreased to \$27.3 million for the three months ended September 30, 2016, from \$37.8 million for the three months ended September 30, 2015. Net income decreased to \$75.1 million for the nine months ended September 30, 2016, from \$86.4 million for the nine months ended September 30, 2015. These decreases were primarily due to (i) the increase in restructuring and CEO transition costs in 2016 compared to the prior year, (ii) the impact of foreign currency losses in 2016 compared to the prior year, (iii) increased income tax expense in 2016 as a result of no longer having a valuation allowance on deferred tax assets, and (iv) the increase in transaction expenses compared to 2015. Partially offsetting these decreases were increased revenues in 2016, lower debt extinguishment costs and reduced interest expense.

Table of Contents

Liquidity and Capital Resources

Key measures of our liquidity are as follows (in thousands):

	September 30, 2016	December 31, 2015
Balance sheet statistics:		
Cash and cash equivalents (1)	\$ 102,948	\$ 85,011
Working capital, excluding restricted cash	3,686	(52,998)

(1) As of September 30, 2016, the amount of cash and cash equivalents held outside the United States ("U.S.") by our foreign subsidiaries was \$71.6 million. Cash and cash equivalent balances outside the U.S. may be subject to foreign withholding and U.S. taxation, if repatriated. We intend to reinvest cash outside the U.S. except in instances where repatriating such earnings would result in no additional income tax.

We have historically funded our operations and growth, including acquisitions, primarily with our working capital, cash flow from operations and funds available for borrowing under our \$200.0 million revolving credit facility. Our principal liquidity requirements are to fund our debt service obligations, capital expenditures, expansion of services, possible acquisitions, integration and restructuring costs, geographic expansion, working capital and other general corporate expenses. Based on past performance and current expectations, we believe our cash and cash equivalents, cash generated from operations and funds available under our revolving credit facility will be sufficient to meet our working capital needs, capital expenditures, scheduled debt and interest payments, income tax obligations and other currently anticipated liquidity requirements for at least the next 12 months.

As of September 30, 2016, we had total principal amount of indebtedness of \$500.0 million. Further, we had undrawn commitments available for additional borrowings for working capital and other purposes under our senior secured facilities of \$174.2 million (net of \$25.0 million in revolver borrowings and \$0.8 million in outstanding letters of credit) as of September 30, 2016. On May 11, 2016, we entered into two interest rate swaps with a combined notional value of \$300.0 million in an effort to limit our exposure to variable interest rates on our term loan. These interest rate swaps convert approximately 60% of the outstanding term loan balance at September 30, 2016 from floating-rate debt to fixed-rate debt. The issuance of additional debt and the related incremental interest expense could adversely affect our operations and financial condition or limit our ability to secure additional capital and other resources.

In July 2016, we announced a \$150.0 million stock repurchase program which commenced on August 1, 2016 and will end no later than December 31, 2017. As of September 30, 2016, we had remaining authorization to repurchase up to \$85.5 million of shares of our common stock under this program.

Our ability to make payments on our indebtedness and to fund planned capital expenditures and necessary working capital will depend on our ability to generate cash in the future. However, our ability to meet our cash needs through cash flows from operations will depend on the demand for our services, as well as general economic, financial, competitive and other factors, many of which are beyond our control. Our business might not generate cash flow in an amount sufficient to enable us to pay the principal of, or interest on, our indebtedness, or to fund our other liquidity needs, including working capital, capital expenditures, acquisitions, investments and other general corporate requirements. If we cannot fund our liquidity needs, we will have to take actions such as reducing or delaying capital expenditures, acquisitions or investments, selling assets, restructuring or refinancing our debt, reducing the scope of our operations and growth plans, or seeking additional equity capital. There can be no assurances that any of these remedies could, if necessary, be affected on commercially reasonable terms, or at all, or that they would permit us to meet our scheduled debt service obligations. Our Credit Agreement limits the use of proceeds from any disposition of assets and, as a result, we may not be allowed, under the agreement, to use the proceeds from any such dispositions to satisfy all current debt service obligations.

Table of Contents

Cash Flow Nine Months Ended September 30, 2016 compared to Nine Months Ended September 30, 2015

For the nine months ended September 30, 2016 and 2015, our cash flows from operating, investing and financing activities were as follows (in thousands, except percentages):

	Nine Months Ended		Change	
	September 30, 2016	September 30, 2015		
Net cash provided by operating activities	\$95,124	\$ 141,122	\$(45,998)	(32.6)%
Net cash used in investing activities	(16,826)	(11,565)	5,261	45.5 %
Net cash used in financing activities	(56,778)	(109,384)	(52,606)	(48.1)%

Cash Flows from Operating Activities

For the nine months ended September 30, 2016, our operating activities provided \$95.1 million in cash, consisting of net income of \$75.1 million, adjusted for net non-cash items of \$69.9 million primarily related to depreciation and amortization, foreign currency adjustments, and share-based compensation, offset by deferred income tax benefits. These net increases were offset by \$49.9 million of cash used by changes in operating assets and liabilities, consisting primarily of an increase in billed and unbilled accounts receivable partially offset by increases in deferred revenue and other liabilities.

For the nine months ended September 30, 2015, our operating activities provided \$141.1 million in cash flow, consisting of net income of \$86.4 million, adjusted for net non-cash items of \$58.2 million primarily related to depreciation and amortization, loss on extinguishment of debt, stock repurchase costs, amortization of capitalized loan fees, stock-based compensation, asset impairment charges and foreign currency adjustments. In addition, \$3.5 million of cash was used by changes in operating assets and liabilities, consisting primarily of an increase in billed and unbilled accounts receivable and other assets and liabilities, partially offset by an increase in deferred revenue. The changes in operating assets and liabilities result primarily from the net change in accounts receivable, unbilled revenue and deferred revenue, coupled with changes in accrued liabilities. Fluctuations in billed and unbilled receivables and deferred revenue occur on a regular basis as we perform services, achieve milestones or other billing criteria, send invoices to customers and collect outstanding accounts receivable. This activity varies by individual customer and contract. We attempt to negotiate payment terms that provide for payment of services prior to or soon after the provision of services, but the levels of unbilled services and deferred revenue can vary significantly from period to period.

Cash flows from operations decreased by \$46.0 million during the nine months ended September 30, 2016, compared to the nine months ended September 30, 2015, due to a reduction of \$46.5 million in the cash inflow from working capital and a year-over-year decrease in net income of \$11.3 million, partially offset by an increase in net non-cash items of \$11.7 million. The reduction in cash inflow from working capital was primarily due to the increase in our days sales outstanding, as it moves closer to industry levels over time.

Cash Flows from Investing Activities

For the nine months ended September 30, 2016, we used \$16.8 million in cash for investing activities for the purchase of property and equipment. For the full year 2016, we expect our total capital expenditures to be between \$26.0 million and \$30.0 million.

For the nine months ended September 30, 2015, we used \$11.6 million in cash for investing activities for the purchase of property and equipment.

Table of Contents

Cash Flows from Financing Activities

For the nine months ended September 30, 2016, financing activities used \$56.8 million in cash, driven by payments of \$64.5 million related to the August 2016 stock repurchase, \$5.0 million related net borrowing activity under the revolving line of credit, \$0.9 million in debt refinancing costs, and payments of \$0.8 million related to tax withholdings for share-based compensation. This cash outflow was partially offset by proceeds of \$14.4 million from the exercise of stock options.

For the nine months ended September 30, 2015, financing activities used \$109.4 million in cash, primarily driven by payments of \$150.9 million related to the stock repurchase in May 2015, \$3.2 million in payments related to tax withholdings for stock-based compensation and payments of \$1.0 million related to the 2014 MEK Consulting acquisition. These cash outflows were partially offset by net inflows of \$45.0 million, consisting primarily of the proceeds from the 2015 debt refinancing, offset by the June 2015 prepayment of \$50.0 million of debt principal under the Credit Agreement and proceeds of \$1.1 million from the exercise of stock options.

Contractual Obligations and Commitments

On July 27, 2016, we entered into a transition agreement with our former CEO related to the transition to our new CEO on October 1, 2016. As a result of the CEO transition, we incurred additional costs that will be paid through August 2018.

On August 31, 2016, we entered into the First Amendment to the Credit Agreement, which primarily increased the available borrowing capacity under the revolving line of credit and reduced the applicable pricing for our term loan and revolving line of credit. See Note 3 - Long-Term Debt to our condensed consolidated financial statements for information about the terms of this agreement.

The following table summarizes our expected material contractual obligations under these agreements as of September 30, 2016 (in thousands):

	Total	Payment Due by Period			
		Remaining 2016 (3 Months)	2017 to 2018	2019 to 2020	2021
Long-term debt	\$500,000	\$ —	\$66,563	\$77,187	\$356,250
Interest on long-term debt	42,842	2,464	19,078	16,562	4,738
Executive transition costs	\$5,637	\$ 210	\$5,427	\$—	\$—
Total	\$548,479	\$ 2,674	\$91,068	\$93,749	\$360,988

On July 26, 2016, our board of directors approved a \$150.0 million repurchase program for shares of our common stock. The program commenced on August 1, 2016 and will end no later than December 31, 2017. Under the stock repurchase program we are not obligated to repurchase any particular amount of common stock, and it could be modified, suspended or discontinued at any time. The timing and amount of repurchases will be determined by our management based on a variety of factors such as the market price of our common stock, our liquidity requirements, and overall market conditions. As of September 30, 2016, we had remaining authorization to repurchase up to \$85.5 million under the stock repurchase program.

We do not have any off-balance sheet arrangements except for operating leases entered into in the normal course of business. Other than the items included above, there have been no material changes, outside of the ordinary course of business, to our contractual obligations as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Table of Contents

Recently Issued Accounting Standards

For a description of recently issued accounting pronouncements, including the expected dates of adoption and the estimated effects, if any, on our consolidated financial statements, see Note 1 - Basis of Presentation and Changes in Significant Accounting Policies to our unaudited condensed consolidated financial statements in Part I, Item 1 of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There have been no material changes to our quantitative and qualitative disclosures about market risk as compared to the quantitative and qualitative disclosures about market risk described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our CEO and CFO, has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, or the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on such evaluation, our CEO and CFO have concluded that as of such date, our disclosure controls and procedures were effective.

In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Changes in Internal Controls

There were no changes in our internal control over financial reporting identified in management's evaluation pursuant to Rules 13a-15(d) or 15d-15(d) of the Exchange Act during the period covered by this Quarterly Report on Form 10-Q that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are party to legal proceedings incidental to our business. While our management currently believes the ultimate outcome of these proceedings, individually and in the aggregate, will not have a material effect on our unaudited condensed consolidated financial statements, litigation is subject to inherent uncertainties.

Item 1A. Risk Factors.

See "Risk Factors" in Part 1, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2015, and "Item 1A. - Risk Factors" in our Form 10-Q for the quarter ended June 30, 2016, for a detailed discussion of risk factors affecting the Company. There have been no significant changes from the risk factors previously disclosed in those filings.

Item 2. Unregistered Sales of Equity Securities, Use of Proceeds and Issuer Purchases of Equity Securities.

Recent Sales of Unregistered Securities

Not applicable.

Use of Proceeds from Registered Securities

Not applicable.

Purchases of Equity Securities by the Issuer

On July 26, 2016, the Company's board of directors approved a \$150.0 million repurchase program for shares of the Company's common stock in open market transactions effected through a broker-dealer at prevailing market prices, in block trades, or in privately negotiated transactions. The Company may also repurchase shares of its common stock pursuant to a trading plan meeting the requirements of Rule 10b5-1 under the Securities Exchange Act of 1934, as amended, which would permit shares of the Company's common stock to be repurchased when the Company might otherwise be precluded from doing so by law. The program commenced on August 1, 2016 and will end no later than December 31, 2017. The stock repurchase program does not obligate the Company to repurchase any particular amount of common stock, and it could be modified, suspended or discontinued at any time. The timing and amount of repurchases will be determined by the Company's management based on a variety of factors such as the market price of the Company's common stock, the Company's liquidity requirements, and overall market conditions. The stock repurchase program will be subject to applicable legal requirements, including federal and state securities laws.

On August 22, 2016, the Company's former private equity sponsors, Avista Capital Partners, L.P. ("Avista") and Ontario Teachers' Pension Plan Board ("OTPP"), completed a secondary offering for 4,500,000 shares. In conjunction with the secondary offering, the Company repurchased 1,500,000 shares of its Class A common stock under the stock repurchase program from Avista and OTPP in a private transaction at a price of \$43.00 per share, resulting in a total purchase price of approximately \$64.5 million. As of September 30, 2016, the Company has remaining authorization to repurchase up to \$85.5 million of shares of the Company's common stock under the stock repurchase program.

The following table summarizes the equity repurchase program activity for the three months ended September 30, 2016 and the approximate dollar value of shares that may yet be purchased pursuant to the Repurchase Program:

Period	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Approximate dollar value of shares that may yet be purchased under the plans or programs
(in thousands, except share and per share data)				
July 1, 2016 - July 31, 2016	—	\$	—	\$ 150,000
August 1, 2016 - August 31, 2016	1,500,000	43.00	1,500,000	85,500
September 1, 2016 - September 30, 2016	—	—	—	85,500
	1,500,000		1,500,000	

Item 5. Other Information.

Not applicable.
