☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from: _____ to _____

Commission File No. 1-13219

OCWEN FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Florida

65-0039856

(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

1661 Worthington Road, Suite 100

33409

West Palm Beach, Florida

(Address of principal executive office)

(Zip Code)

(561) 682-8000

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large Accelerated filer ☐

Accelerated filer ☒

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act) Yes ☐ No ☒

Number of shares of common stock outstanding as of July 28, 2017: 130,859,058 shares

FORWARD-LOOKING STATEMENTS

This Quarterly Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of historical fact included in this report, including, without limitation, statements regarding our financial position, business strategy and other plans and objectives for our future operations, are forward-looking statements. These statements include declarations regarding our management's beliefs and current expectations. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "could," "intend," "consider," "expect," "plan," "anticipate," "believe," "estimate," "predict" or "continue" or the negative of such terms or other comparable terminology. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Our business has been undergoing substantial change, which has magnified such uncertainties. Readers should bear these factors in mind when considering forward-looking statements and should not place undue reliance on such statements. Forward-looking statements involve a number of assumptions, risks and uncertainties that could cause actual results to differ materially from those suggested by such statements. In the past, actual results have differed from those suggested by forward-looking statements and this may happen again. Important factors that could cause actual results to differ include, but are not limited to, the risks discussed in "Risk Factors" in this Quarterly Report on Form 10-Q and in Amendment No. 1 to our Annual Report on Form 10-K for the year ended December 31, 2016 and the following:

- uncertainty related to claims, litigation, cease and desist orders and investigations brought by government agencies and private parties regarding our servicing, foreclosure, modification, origination and other practices, including uncertainty related to past, present or future investigations, litigation, cease and desist orders and settlements with state regulators, the Consumer Financial Protection Bureau (CFPB), State Attorneys General, the Securities and Exchange Commission (SEC), the Department of Justice or the Department of Housing and Urban Development (HUD) and actions brought under the False Claims Act by private parties on behalf of the United States of America regarding incentive and other payments made by governmental entities;
- adverse effects on our business as a result of regulatory investigations, litigation, cease and desist orders or settlements;
- reactions to the announcement of such investigations, litigation, cease and desist orders or settlements by key counterparties, including lenders;
- increased regulatory scrutiny and media attention;
- any adverse developments in existing legal proceedings or the initiation of new legal proceedings;
- our ability to effectively manage our regulatory and contractual compliance obligations;
- the adequacy of our financial resources, including our sources of liquidity and ability to sell, fund and recover advances, repay borrowings and comply with our debt agreements, including the financial and other covenants contained in them;
- our servicer and credit ratings as well as other actions from various rating agencies, including the impact of prior or future downgrades of our servicer and credit ratings;
- volatility in our stock price;
- the characteristics of our servicing portfolio, including prepayment speeds along with delinquency and advance rates;
- our ability to contain and reduce our operating costs, including our ability to successfully execute on our cost improvement initiative;
- our ability to successfully modify delinquent loans, manage foreclosures and sell foreclosed properties;
- uncertainty related to legislation, regulations, regulatory agency actions, regulatory examinations, government programs and policies, industry initiatives and evolving best servicing practices;
- our dependence on New Residential Investment Corp. (NRZ) for a substantial portion of our advance funding for non-agency mortgage servicing rights;
- our ability to timely transfer mortgage servicing rights under our July 2017 agreements with NRZ and our ability to maintain our long-term relationship with NRZ under these new arrangements;
- the loss of the services of our senior managers;
- uncertainty related to general economic and market conditions, delinquency rates, home prices and disposition timelines on foreclosed properties;

uncertainty related to the actions of loan owners and guarantors, including mortgage-backed securities investors, the Government National Mortgage Association (Ginnie Mae), trustees and government sponsored entities (GSEs), regarding loan put-backs, penalties and legal actions;

• our ability to comply with our servicing agreements, including our ability to comply with our agreements with GSEs and Ginnie Mae and maintain our seller/servicer and other statuses with them;

• uncertainty related to the GSEs substantially curtailing or ceasing to purchase our conforming loan originations or the Federal Housing Administration of the Department of Housing and Urban Development or Department of Veterans Affairs ceasing to provide insurance;

uncertainty related to the processes for judicial and non-judicial foreclosure proceedings, including potential additional costs or delays or moratoria in the future or claims pertaining to past practices;

our reserves, valuations, provisions and anticipated realization on assets;

uncertainty related to the ability of third-party obligors and financing sources to fund servicing advances on a timely basis on loans serviced by us;

uncertainty related to the ability of our technology vendors to adequately maintain and support our systems, including our servicing systems, loan originations and financial reporting systems;

our ability to realize anticipated future gains from future draws on existing loans in our reverse mortgage portfolio;

our ability to effectively manage our exposure to interest rate changes and foreign exchange fluctuations;

uncertainty related to our ability to adapt and grow our business, including our new business initiatives;

our ability to meet capital requirements established by regulators or counterparties;

our ability to protect and maintain our technology systems and our ability to adapt such systems for future operating environments;

failure of our internal information technology and other security measures or breach of our privacy protections; and

uncertainty related to the political or economic stability of foreign countries in which we have operations.

Further information on the risks specific to our business is detailed within this report and our other reports and filings with the SEC including Amendment No. 1 to our Annual Report on Form 10-K for the year ended December 31, 2016 and our Quarterly and Current Reports on Form 10-Q and Form 8-K since such date. Forward-looking statements speak only as of the date they were made and we disclaim any obligation to update or revise forward-looking statements whether as a result of new information, future events or otherwise.

OCWEN FINANCIAL CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2017

(Dollars in thousands, except per share data and unless otherwise indicated)

Note 1 – Organization, Business Environment and Basis of Presentation

Organization

Ocwen Financial Corporation (NYSE: OCN) (Ocwen, we, us and our) is a financial services holding company which, through its subsidiaries, originates and services loans. We are headquartered in West Palm Beach, Florida with offices located throughout the United States (U.S.) and in the United States Virgin Islands (USVI) and with operations located in India and the Philippines. Ocwen is a Florida corporation organized in February 1988.

Ocwen owns all of the common stock of its primary operating subsidiary, Ocwen Mortgage Servicing, Inc. (OMS), and directly or indirectly owns all of the outstanding stock of its other primary operating subsidiaries: Ocwen Loan Servicing, LLC (OLS), Ocwen Financial Solutions Private Limited (OFSPL), Homeward Residential, Inc. (Homeward) and Liberty Home Equity Solutions, Inc. (Liberty).

We perform primary and master servicer activities on behalf of investors and other servicers, including the Federal National Mortgage Association (Fannie Mae) and Federal Home Loan Mortgage Corporation (Freddie Mac) (collectively, the GSEs), the Government National Mortgage Association (Ginnie Mae) and private-label securitizations (non-Agency). As primary servicer, we may be required to make certain payments of property taxes and insurance premiums, default and property maintenance payments, as well as advances of principal and interest payments before collecting them from borrowers. As master servicer, we collect mortgage payments from primary servicers and distribute the funds to investors in the mortgage-backed securities. To the extent the primary servicer does not advance the scheduled principal and interest, as master servicer we are responsible for advancing the shortfall, subject to certain limitations.

We originate, purchase, sell and securitize conventional (conforming to the underwriting standards of Fannie Mae or Freddie Mac; collectively referred to as Agency loans) and government-insured (Federal Housing Administration (FHA) or Department of Veterans Affairs (VA)) forward and reverse mortgages. The GSEs or Ginnie Mae guarantee these mortgage securitizations.

We had a total of approximately 8,900 employees at June 30, 2017 of which approximately 5,700 were located in India and approximately 800 were based in the Philippines. Our operations in India and the Philippines provide internal support services, principally to our loan servicing business as well as to our corporate functions. Of our foreign-based employees, nearly 80% were engaged in supporting our loan servicing operations as of June 30, 2017.

Business Environment

We are facing certain challenges and uncertainties that could have significant adverse effects on our business, financial condition, liquidity and results of operations. The ability of management to appropriately address these challenges and uncertainties in a timely manner is critical to our ability to successfully operate our business.

We have incurred a net loss for the six months ended June 30, 2017, which follows losses in each of the last three fiscal years. While these losses have eroded stockholders' equity and weakened our financial condition, it is important to note that we generated positive operating cash flow in each of these periods. We expect our cash position to strengthen in fiscal 2017 as a result of proceeds we expect to receive in connection with our recent agreements with New Residential Investment Corp. (NRZ), which are discussed in additional detail in Note 4 — Sales of Advances and MSRs. In order to drive stronger financial performance, we are focused on reducing expenses by improving our operating effectiveness relative to the size of our business, improving our lending business and returning to more normalized relationships with our regulators.

Our business continues to be impacted by regulatory actions, regulatory settlements and the current regulatory environment. We have faced, and expect to continue to face, heightened regulatory and public scrutiny as well as stricter and more comprehensive regulation of our business. Since April 20, 2017, the CFPB, two state attorneys general and thirty state mortgage and banking regulatory agencies have taken regulatory action against us alleging various deficiencies in our compliance with laws, regulations and licensing requirements. The consequences of these

regulatory actions have included one rating agency downgrading our long-term corporate debt, several rating agencies putting our servicer ratings on watch and Ginnie Mae sending us a notice of violation that includes a forbearance on exercising rights until October 26, 2017. Our business, operating results and financial condition have been significantly impacted in recent periods by legal and other fees and settlement payments related to litigation and regulatory matters, including the costs of third-party monitoring firms under our regulatory settlements. Should the number or scope of regulatory actions against us increase or expand or should reasonable resolutions not be reached, our business, reputation, financial condition, liquidity and results of operations could be adversely

affected. See Note 8 – Mortgage Servicing, Note 11 – Borrowings, Note 17 – Regulatory Requirements and Note 19 – Contingencies for further information.

With regard to the current maturities of our borrowings, as of June 30, 2017, we have approximately \$928.7 million of debt outstanding under facilities coming due in the next 12 months, including scheduled payments under our Senior Secured Term Loan (SSTL), certain notes under our servicing advance match funded facilities and our mortgage loan warehouse facilities. Portions of our match funded facilities and all of our mortgage loan warehouse facilities have 364-day terms consistent with market practice. We have historically renewed these facilities on or before their expiration in the ordinary course of financing our business. We expect to renew, replace or extend all such borrowings to the extent necessary to finance our business on or prior to their respective maturities consistent with our historical experience.

Our debt agreements contain various qualitative and quantitative events of default provisions that include, among other things, noncompliance with covenants, breach of representations, or the occurrence of a material adverse change. Provisions of this type are commonly found in debt agreements such as ours. Certain of these provisions are open to subjective interpretation and, if our interpretation were contested by a lender, a court may ultimately be required to determine compliance or lack thereof. If a lender were to allege an event of default, whether as a result of recent events or otherwise, and we are unable to avoid, remedy or secure a waiver, we could be subject to adverse action by our lenders, including acceleration of outstanding obligations, enforcement of liens against the assets securing or otherwise supporting our obligations and other legal remedies, any of which could have a material adverse impact on us. In addition, OLS, Homeward and Liberty are parties to seller/servicer agreements and/or subject to guidelines and regulations (collectively, seller/servicer obligations) with one or more of the GSEs, HUD, FHA, VA and Ginnie Mae. These seller/servicer obligations include financial requirements, including capital requirements related to tangible net worth, as defined by the applicable agency, as well as extensive requirements regarding servicing, selling and other matters. To the extent that these requirements are not met or waived, the applicable agency may, at its option, utilize a variety of remedies including requirements to deposit funds as security for our obligations, sanctions, suspension or even termination of approved seller/servicer status, which would prohibit future originations or securitizations of forward or reverse mortgage loans or servicing for the applicable agency. Any of these actions could have a material adverse impact on us. To date, none of these counterparties has communicated any material sanction, suspension or prohibition in connection with our seller/servicer obligations. See Note 11 – Borrowings and Note 17 – Regulatory Requirements for additional information.

Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in conformity with the instructions of the Securities and Exchange Commission (SEC) to Form 10-Q and SEC Regulation S-X, Article 10, Rule 10-01 for interim financial statements. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America (GAAP) for complete financial statements. In our opinion, the accompanying unaudited consolidated financial statements contain all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation. The results of operations and other data for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for any other interim period or for the year ending December 31, 2017. The unaudited consolidated financial statements presented herein should be read in conjunction with the audited consolidated financial statements and related notes thereto included in Amendment No. 1 to our Annual Report on Form 10-K for the year ended December 31, 2016.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with GAAP requires that management make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates and assumptions include, but are not limited to, those that relate to fair value measurements, the amortization of mortgage servicing rights, income taxes, the provision for potential losses that may arise from litigation proceedings, representation and warranty and other indemnification obligations, and our going concern evaluation. In developing estimates and assumptions, management uses all available information; however, actual results could materially differ from those estimates and assumptions.

Reclassifications

As a result of our adoption on January 1, 2017 of FASB Accounting Standards Update (ASU) 2016-09, Compensation - Stock Compensation: Improvements to Accounting for Employee Share-Based Payments, excess tax benefits have been classified along with other income tax cash flows as an operating activity in our unaudited consolidated statements of cash flows, rather than being separated from other income tax cash flows and classified as a financing activity. Additionally, cash paid by Ocwen when directly withholding shares for tax-withholding purposes has been classified as a financing activity in our unaudited consolidated statements of cash flows, rather than being classified as an operating activity.

Certain amounts in the unaudited consolidated statement of cash flows for the six months ended June 30, 2016 have been reclassified to conform to the current year presentation as follows:

Within the operating activities section, we reclassified Net gain on valuation of mortgage loans held for investment and HMBS-related borrowings from Other to a new separate line item. In addition, we reclassified amounts related to reverse mortgages from Gain on loans held for sale, net to Other.

Within the financing activities section, we reclassified Proceeds from exercise of stock options to Other.

These reclassifications had no impact on our consolidated cash flows from operating, investing or financing activities. Certain amounts in the unaudited consolidated balance sheet at December 31, 2016 have been reclassified to conform to the current year presentation as follows:

Within the total assets section, we reclassified Deferred tax assets, net to Other assets.

Within the total liabilities section, we reclassified HMBS-related borrowings from Financing liabilities to a new separate line item.

Recently Adopted Accounting Standard

Compensation - Stock Compensation: Improvements to Employee Share-Based Payment Accounting (ASU 2016-09)

In addition to the reclassification matters discussed above, ASU 2016-09 requires excess tax benefits associated with employee share-based payments to be recognized through the income statement, regardless of whether the benefit reduces income taxes payable in the current period. Prior to our adoption of this standard, excess tax benefits were recognized in additional paid-in capital and were not recognized until the deduction reduced income taxes payable. Additionally, concurrent with our adoption of ASU 2016-09, we made an accounting policy election to account for forfeitures when they occur, rather than estimating the number of awards that are expected to vest, as we had done prior to our adoption of this standard. Amendments requiring recognition of excess tax benefits in the income statement were adopted prospectively. Amendments related to the timing of when excess tax benefits are recognized and forfeitures were adopted using a modified retrospective transition method by means of cumulative-effect adjustments to equity as of January 1, 2017.

For the timing of the recognition of excess tax benefits, the cumulative-effect adjustment was to recognize an increase in retained earnings of \$5.0 million and a deferred tax asset for the same amount. However, because we have determined that our US and USVI deferred tax assets are not considered to be more likely than not realizable, we established an offsetting full valuation allowance on the deferred tax asset through a reduction in retained earnings. For the change in accounting for forfeitures, we recognized a cumulative-effect adjustment through a reduction of \$0.3 million in retained earnings and an increase in additional paid-in capital for the same amount. We also recognized the tax effect of this adjustment through an increase in retained earnings of \$0.1 million and a deferred tax asset for the same amount. However, we also fully reserved the resulting deferred tax asset as an offsetting reduction in retained earnings.

Recently Issued Accounting Standards

Business Combinations: Clarifying the Definition of a Business (ASU 2017-01)

In January 2017, the FASB issued ASU 2017-01 to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions or disposals of assets or businesses. This standard will be effective for us on January 1, 2018. We do not anticipate that our adoption of this standard will have a material impact on our consolidated financial statements.

Receivables: Nonrefundable Fees and Other Costs (ASU 2017-08)

In March 2017, the FASB issued ASU 2017-08 to amend the amortization period for certain purchased callable debt securities held at a premium. This standard shortens the amortization period for the premium to the earliest call date, rather than generally amortizing the premium as an adjustment of yield over the contractual life of the instrument, as required by current GAAP. This standard will be effective for us on January 1, 2019. We do not anticipate that our adoption of this standard will have a material impact on our consolidated financial statements.

Compensation: Stock Compensation (ASU 2017-09)

In May 2017, the FASB issued ASU 2017-09 to provide clarity and reduce both diversity in practice as well as cost and complexity when applying the modification accounting guidance in FASB ASC Topic 718, Compensation -- Stock Compensation, to a change to the terms or conditions of a share-based payment award. This standard will be

effective for us on January 1, 2018. We do not anticipate that our adoption of this standard will have a material impact on our consolidated financial statements.

Note 2 – Securitizations and Variable Interest Entities

We securitize, sell and service forward and reverse residential mortgage loans and regularly transfer financial assets in connection with asset-backed financing arrangements. We have aggregated these securitizations and asset-backed financing arrangements into three groups: (1) securitizations of residential mortgage loans, (2) financings of advances on loans serviced for others and (3) financings of automotive dealer financing notes.

We have determined that the special purpose entities (SPEs) created in connection with our match funded advance financing facilities are variable interest entities (VIEs) for which we are the primary beneficiary.

Securitizations of Residential Mortgage Loans

We securitize forward and reverse residential mortgage loans involving the GSEs and Ginnie Mae and loans insured by the FHA or VA. We retain the right to service these loans and receive servicing fees based upon the securitized loan balances and certain ancillary fees, all of which are reported in Servicing and subservicing fees in the unaudited consolidated statements of operations. We also sell newly originated forward and reverse residential mortgage loans to unaffiliated third parties with servicing rights released.

Transfers of Forward Loans

We sell or securitize forward loans that we originate or that we purchase from third parties, generally in the form of mortgage-backed securities guaranteed by the GSEs or Ginnie Mae. Securitization usually occurs within 30 days of loan closing or purchase. To the extent we retain the servicing rights associated with the transferred loans, we receive a servicing fee for services provided. We act only as a fiduciary and do not have a variable interest in the securitization trusts. As a result, we account for these transactions as sales upon transfer.

We report the gain or loss on the transfer of the loans held for sale in Gain on loans held for sale, net in the unaudited consolidated statements of operations along with the changes in fair value of the loans and the gain or loss on any related derivatives. We include all changes in loans held for sale and related derivative balances in operating activities in the unaudited consolidated statements of cash flows.

The following table presents a summary of cash flows received from and paid to securitization trusts related to transfers accounted for as sales that were outstanding:

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
Proceeds received from securitizations	\$1,022,152	\$1,357,206	\$2,024,149	\$2,366,470
Servicing fees collected	9,843	3,549	19,950	6,673
Purchases of previously transferred assets, net of claims reimbursed	(1,737)	(766)	(2,724)	(779)
	\$1,030,258	\$1,359,989	\$2,041,375	\$2,372,364

In connection with these transfers, we retained MSRs of \$6.9 million and \$15.0 million, and \$9.5 million and \$16.7 million, during the three and six months ended June 30, 2017 and 2016, respectively.

Certain obligations arise from the agreements associated with our transfers of loans. Under these agreements, we may be obligated to repurchase the loans, or otherwise indemnify or reimburse the investor or insurer for losses incurred due to material breach of contractual representations and warranties.

The following table presents the carrying amounts of our assets that relate to our continuing involvement with forward loans that we have transferred with servicing rights retained as well as our maximum exposure to loss including the UPB of the transferred loans at the dates indicated:

	June 30, 2017	December 31, 2016
Carrying value of assets:		
Mortgage servicing rights, at amortized cost	\$101,854	\$94,492
Mortgage servicing rights, at fair value	227	233
Advances and match funded advances	52,021	37,336
UPB of loans transferred	11,588,074	10,485,697
Maximum exposure to loss	\$11,742,176	\$10,617,758

At June 30, 2017 and December 31, 2016, 6.8% and 7.6%, respectively, of the transferred residential loans that we service were 60 days or more past due.

Transfers of Reverse Mortgages

We are an approved issuer of Ginnie Mae Home Equity Conversion Mortgage-Backed Securities (HMBS) that are guaranteed by Ginnie Mae. We originate Home Equity Conversion Mortgages (HECM, or reverse mortgages) that are insured by the FHA. We pool the loans into HMBS that we sell into the secondary market with servicing rights retained or we sell the loans to third parties with servicing rights released. We have determined that loan transfers in the HMBS program do not meet the definition of a participating interest because of the servicing requirements in the product that require the issuer/servicer to absorb some level of interest rate risk, cash flow timing risk and incidental credit risk. As a result, the transfers of the HECM loans do not qualify for sale accounting, and therefore, we account for these transfers as financings. Under this accounting treatment, the HECM loans are classified as Loans held for investment - Reverse mortgages, at fair value, on our unaudited consolidated balance sheets. We record the proceeds from the transfer of assets as secured borrowings (HMBS-related borrowings) in Financing liabilities and recognize no gain or loss on the transfer. Holders of participating interests in the HMBS have no recourse against the assets of Ocwen, except with respect to standard representations and warranties and our contractual obligation to service the HECM loans and the HMBS.

We measure the HECM loans and HMBS-related borrowings at fair value on a recurring basis. The changes in fair value of the HECM loans and HMBS-related borrowings are included in Other revenues in our unaudited consolidated statements of operations. Included in net fair value gains on the HECM loans and related HMBS borrowings are the interest income that we expect to be collected on the HECM loans and the interest expense that we expect to be paid on the HMBS-related borrowings. We report originations and collections of HECM loans in investing activities in the unaudited consolidated statements of cash flows. We report net fair value gains on HECM loans and the related HMBS borrowings as an adjustment to the net cash provided by or used in operating activities in the unaudited consolidated statements of cash flows. Proceeds from securitizations of HECM loans and payments on HMBS-related borrowings are included in financing activities in the unaudited consolidated statements of cash flows.

At June 30, 2017 and December 31, 2016, HMBS-related borrowings of \$4.1 billion and \$3.4 billion were outstanding. Loans held for investment, at fair value were \$4.2 billion and \$3.6 billion at June 30, 2017 and December 31, 2016, respectively. At June 30, 2017 and December 31, 2016, Loans held for investment included \$99.1 million and \$81.3 million, respectively, of originated loans which had not yet been pledged as collateral. See Note 3 – Fair Value and Note 11 – Borrowings for additional information on HMBS-related borrowings and Loans held for investment - Reverse mortgages.

Financings of Advances on Loans Serviced for Others

Match funded advances on loans serviced for others result from our transfers of residential loan servicing advances to SPEs in exchange for cash. We consolidate these SPEs because we have determined that Ocwen is the primary beneficiary of the SPE. These SPEs issue debt supported by collections on the transferred advances, and we refer to this debt as Match funded liabilities.

We make the transfers to these SPEs under the terms of our advance financing facility agreements. We classify the transferred advances on our unaudited consolidated balance sheets as a component of Match funded assets and the related liabilities as Match funded liabilities. The SPEs use collections of the pledged advances to repay principal and interest and to pay the expenses of the SPE. Holders of the debt issued by these entities have recourse only to the assets of the SPE for satisfaction of the debt. The assets and liabilities of the advance financing SPEs are comprised solely of Match funded advances, Debt service accounts, Match funded liabilities and amounts due to affiliates. Amounts due to affiliates are eliminated in consolidation in our unaudited consolidated balance sheets.

Financings of Automotive Dealer Financing Notes

Match funded automotive dealer financing notes result from our transfers of short-term, inventory-secured loans to car dealers to an SPE in exchange for cash. We consolidate this SPE because we have determined that Ocwen is the primary beneficiary of the SPE. The SPE issues debt supported by collections on the transferred loans.

We make the transfers to the SPE under the terms of our automotive capital asset receivables financing facility agreements. We classify the transferred loans on our unaudited consolidated balance sheets as a component of Match

funded assets and the related liabilities as Match funded liabilities. The SPE uses collections of the pledged loans to repay principal and interest and to pay the expenses of the SPE. Holders of the debt issued by the SPE have recourse only to the assets of the SPE for satisfaction of the debt. The assets and liabilities of the automotive capital asset receivables financing SPE are comprised solely of Match funded automotive dealer financing notes, Debt service accounts, Match funded liabilities and amounts due to affiliates. Amounts due to affiliates are eliminated in consolidation in our unaudited consolidated balance sheets.

Note 3 – Fair Value

Fair value is estimated based on a hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs are inputs that reflect the assumptions that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy prioritizes the inputs to valuation techniques into three broad levels whereby the highest priority is given to Level 1 inputs and the lowest to Level 3 inputs.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

We classify assets in their entirety based on the lowest level of input that is significant to the fair value measurement. The carrying amounts and the estimated fair values of our financial instruments and certain of our nonfinancial assets measured at fair value on a recurring or non-recurring basis or disclosed, but not carried, at fair value are as follows at the dates indicated:

		June 30, 2017		December 31, 2016	
	Level	Carrying Value	Fair Value	Carrying Value	Fair Value
Financial assets:					
Loans held for sale:					
Loans held for sale, at fair value (a)	2	\$239,490	\$239,490	\$284,632	\$284,632
Loans held for sale, at lower of cost or fair value (b)	3	21,469	21,469	29,374	29,374
Total Loans held for sale		\$260,959	\$260,959	\$314,006	\$314,006

Financing liabilities:					
HMBS-related borrowings, at fair value (a)	3	\$4,061,626	\$4,061,626	\$3,433,781	\$3,433,781
Financing liability - MSRs pledged, at fair value (a)	3	441,007	441,007	477,707	477,707
Other (c)	3	92,799	73,154	101,324	81,805
Total Financing liabilities		\$4,595,432	\$4,575,787	\$4,012,812	\$3,993,293
Other secured borrowings:					
Senior secured term loan (c) (d)	2	\$316,739	\$326,625	\$323,514	\$327,674
Other (c)	3	327,121	327,121	355,029	355,029
Total Other secured borrowings		\$643,860	\$653,746	\$678,543	\$682,703

		June 30, 2017		December 31, 2016	
	Level	Carrying Value	Fair Value	Carrying Value	Fair Value
Senior notes:					
Senior unsecured notes (c) (d)	2	\$3,100	\$2,948	\$3,094	\$3,048
Senior secured notes (c) (d)	2	343,963	332,136	\$343,695	352,255
Total Senior notes		\$347,063	\$335,084	\$346,789	\$355,303
Derivative financial instruments assets (liabilities), at fair value (a):					
Interest rate lock commitments	2	\$5,352	\$5,352	\$6,507	\$6,507
Forward mortgage-backed securities	1	1,752	1,752	(614)	(614)
Interest rate caps	3	1,937	1,937	1,836	1,836
Mortgage servicing rights:					
Mortgage servicing rights, at fair value (a)	3	\$625,650	\$625,650	\$679,256	\$679,256
Mortgage servicing rights, at amortized cost (c) (e)	3	349,535	440,311	363,722	467,911
Total Mortgage servicing rights		\$975,185	\$1,065,961	\$1,042,978	\$1,147,167

(a) Measured at fair value on a recurring basis.

(b) Measured at fair value on a non-recurring basis.

(c) Disclosed, but not carried, at fair value.

(d) The carrying values are net of unamortized debt issuance costs and discount. See Note 11 – Borrowings for additional information.

Balances include the impaired government-insured stratum of amortization method MSR's, which is measured at fair value on a non-recurring basis and reported net of the valuation allowance. Before applying the valuation allowance of \$32.8 million, the carrying value of the impaired stratum at June 30, 2017 was \$168.3 million. At December 31, 2016, the carrying value of this stratum was \$172.9 million before applying the valuation allowance of \$28.2 million.

The following tables present a reconciliation of the changes in fair value of Level 3 assets and liabilities that we measure at fair value on a recurring basis:

	Loans Held for Investment - Reverse Mortgages	HMBS-Related Borrowings	Mortgage-Backed Securities	Financing Liability - MSR's Pledged	Derivatives	MSR's	Total

(1) Settlements for Loans held for investment - reverse mortgages consist chiefly of principal payments received, but also may include non-cash settlements of loans.

Total gains (losses) attributable to derivative financial instruments still held at June 30, 2017 and June 30, 2016 were \$0.2 million and \$(2.0) million for the six months ended June 30, 2017 and 2016, respectively. Total losses attributable to MSRs still held at June 30, 2017 and June 30, 2016 were \$51.5 million and \$58.5 million for the six months ended June 30, 2017 and 2016, respectively.

The methodologies that we use and key assumptions that we make to estimate the fair value of financial instruments and other assets and liabilities measured at fair value on a recurring or non-recurring basis and those disclosed, but not carried, at fair value are described below.

Loans Held for Sale

We originate and purchase residential mortgage loans that we intend to sell. We also own residential mortgage loans that are not eligible to be sold to the GSEs due to delinquency or other factors. Residential forward and reverse mortgage loans that we intend to sell are carried at fair value as a result of a fair value election. Such loans are subject to changes in fair value due to fluctuations in interest rates from the closing date through the date of the sale of the loan into the secondary market. These loans are classified within Level 2 of the valuation hierarchy because the primary component of the price is obtained from observable values of mortgage forwards for loans of similar terms and characteristics. We have the ability to access this market, and it is the market into which conventional and government-insured mortgage loans are typically sold.

We repurchase certain loans from Ginnie Mae guaranteed securitizations in connection with loan modifications and loan resolution activity as part of our contractual obligations as the servicer of the loans. These loans are classified as loans held for sale at the lower of cost or fair value, in the case of modified loans, as we expect to redeliver (sell) the loans to new Ginnie Mae guaranteed securitizations. The fair value of these loans is estimated using published forward Ginnie Mae prices. Loans repurchased in connection with loan resolution activities are modified or otherwise remediated through loss mitigation activities or are reclassified to receivables. Because these loans are insured or guaranteed by the FHA or VA, the fair value of these loans represents the net recovery value taking into consideration the insured or guaranteed claim.

For all other loans held for sale, which we report at the lower of cost or fair value, market illiquidity has reduced the availability of observable pricing data. When we enter into an agreement to sell a loan or pool of loans to an investor at a set price, we value the loan or loans at the commitment price. We base the fair value of uncommitted loans on the expected future cash flows discounted at a rate commensurate with the risk of the estimated cash flows.

Loans Held for Investment

We measure these loans at fair value. For transferred reverse mortgage loans that do not qualify as sales for accounting purposes, we base the fair value on the expected future cash flows discounted over the expected life of the loans at a rate commensurate with the risk of the estimated cash flows. Significant assumptions include expected prepayment and delinquency

rates and cumulative loss curves. The discount rate assumption for these assets is primarily based on an assessment of current market yields on newly originated reverse mortgage loans, expected duration of the asset and current market interest rates.

The more significant assumptions included in the valuations consisted of the following at the dates indicated:

	June 30, 2017	December 31, 2016
Life in years		
Range	5.4 to 8.2	5.5 to 8.7
Weighted average	5.9	6.1
Conditional repayment rate		
Range	5.3% to 53.8%	5.2% to 53.8%
Weighted average	21.3	% 20.9 %
Discount rate	3.2	% 3.3 %

Significant increases or decreases in any of these assumptions in isolation could result in a significantly lower or higher fair value, respectively. The effects of changes in the assumptions used to value the loans held for investment are largely offset by the effects of changes in the assumptions used to value the HMBS-related borrowings that are associated with these loans.

Mortgage Servicing Rights

The significant components of the estimated future cash inflows for MSRs include servicing fees, late fees, float earnings and other ancillary fees. Significant cash outflows include the cost of servicing, the cost of financing servicing advances and compensating interest payments.

Third-party valuation experts generally utilize: (a) transactions involving instruments with similar collateral and risk profiles, adjusted as necessary based on specific characteristics of the asset or liability being valued; and/or (b) industry-standard modeling, such as a discounted cash flow model, in arriving at their estimate of fair value. The prices provided by the valuation experts reflect their observations and assumptions related to market activity, including risk premiums and liquidity adjustments. The models and related assumptions used by the valuation experts are owned and managed by them and, in many cases, the significant inputs used in the valuation techniques are not reasonably available to us. However, we have an internal understanding of the processes and assumptions used to develop the prices based on our ongoing due diligence, which includes regular discussions with the valuation experts. We believe that the procedures executed by the valuation experts, supported by our internal verification and analytical procedures, provide reasonable assurance that the prices used in our unaudited consolidated financial statements comply with the accounting guidance for fair value measurements and disclosures and reflect the assumptions that a market participant would use.

We evaluate the reasonableness of our third-party experts' assumptions using historical experience adjusted for prevailing market conditions. Assumptions used in the valuation of MSRs include:

• Mortgage prepayment speeds	• Delinquency rates
• Cost of servicing	• Interest rate used for computing float earnings
• Discount rate	• Compensating interest expense
• Interest rate used for computing the cost of financing servicing advances	• Collection rate of other ancillary fees

Amortized Cost MSRs

We estimate the fair value of MSRs carried at amortized cost using a process that involves either actual sale prices obtained or the use of independent third-party valuation experts, supported by commercially available discounted cash flow models and analysis of current market data. To provide greater price transparency to investors, we disclose actual Ocwen sale prices for orderly transactions where available in lieu of third-party valuations.

The more significant assumptions used in the valuations consisted of the following at the dates indicated:

	June 30, 2017	December 31, 2016
Weighted average prepayment speed	9.0 %	8.9 %
Weighted average delinquency rate	10.5 %	11.1 %
Advance financing cost	5-year swap	5-year swap
Interest rate for computing float earnings	5-year swap	5-year swap
Weighted average discount rate	9.1 %	8.9 %
Weighted average cost to service (in dollars)	\$ 107	\$ 108

We perform an impairment analysis based on the difference between the carrying amount and fair value after grouping the underlying loans into the applicable strata. Our strata are defined as conventional and government-insured.

Fair Value MSRs

MSRs carried at fair value are classified within Level 3 of the valuation hierarchy. The fair value is equal to the mid-point of the range of prices provided by third-party valuation experts, without adjustment, except in the event we have a potential or completed Ocwen sale, including transactions where we have executed letters of intent, in which case the fair value of the MSRs is disclosed at the estimated sale price. Fair value reflects actual Ocwen sale prices for orderly transactions where available in lieu of independent third-party valuations. Our valuation process includes discussions of bid pricing with the third-party valuation experts and presumably are contemplated along with other market-based transactions in their model validation.

A change in the valuation inputs utilized by the valuation experts might result in a significantly higher or lower fair value measurement. Changes in market interest rates tend to impact the fair value for Agency MSRs via prepayment speeds by altering the borrower refinance incentive and the Non-Agency MSRs via a market rate indexed cost of advance funding. Other key assumptions used in the valuation of these MSRs include delinquency rates and discount rates.

The primary assumptions used in the valuations consisted of the following at the dates indicated:

	June 30, 2017	December 31, 2016
	Agency Non Agency Agency	Agency Non Agency Agency
Weighted average prepayment speed	8.5 % 16.4 %	8.4 % 16.5 %
Weighted average delinquency rate	0.7 % 29.2 %	1.0 % 29.3 %
Advance financing cost	1-Month LIBOR (1ML) 5-year swap plus 3.5%	1-Month LIBOR (1ML) 5-year swap plus 3.5%
Interest rate for computing float earnings	5-year swap 1ML	5-year swap 1ML
Weighted average discount rate	9.0 % 12.8 %	9.0 % 14.9 %
Weighted average cost to service (in dollars)	\$ 63 \$ 313	\$ 64 \$ 307

Advances

We value advances at their net realizable value, which generally approximates fair value, because advances have no stated maturity, are generally realized within a relatively short period of time and do not bear interest.

Receivables

The carrying value of receivables generally approximates fair value because of the relatively short period of time between their origination and realization.

Automotive Dealer Financing Notes

We estimate the fair value of our automotive dealer financing notes using unobservable inputs within an internally developed cash flow model. Key inputs included projected repayments, interest and fee receipts, deferrals, delinquencies, recoveries and charge-offs of the notes within the portfolio. The projected cash flows are then discounted at a rate commensurate with the risk of the estimated cash flows to derive the fair value of the portfolio. The more significant assumptions used in the valuation consisted of the following at the dates indicated:

	June 30, 2017	December 31, 2016
Weighted average life in months	2.7	2.7
Average note rate	8.3 %	8.3 %
Discount rate	10.0 %	10.0 %
Loan loss rate	21.9 %	11.3 %

Mortgage-Backed Securities (MBS)

Our subordinate and residual securities are not actively traded, and therefore, we estimate the fair value of these securities based on the present value of expected future cash flows from the underlying mortgage pools. We use our best estimate of the key assumptions we believe are used by market participants. We calibrate our internally developed discounted cash flow models for trading activity when appropriate to do so in light of market liquidity levels. Key inputs include expected prepayment rates, delinquency and cumulative loss curves and discount rates commensurate with the risks. Where possible, we use observable inputs in the valuation of our securities. However, the subordinate and residual securities in which we have invested trade infrequently and therefore have few or no observable inputs and little price transparency. Additionally, during periods of market dislocation, the observability of inputs is further reduced. Changes in the fair value of our investment in subordinate and residual securities are recognized in Other, net in the unaudited consolidated statements of operations.

Discount rates for the subordinate and residual securities are determined based upon an assessment of prevailing market conditions and prices for similar assets. We project the delinquency, loss and prepayment assumptions based on a comparison to actual historical performance curves adjusted for prevailing market conditions.

U.S. Treasury Notes

We base the fair value of U.S. Treasury notes on quoted prices in active markets to which we have access.

Match Funded Liabilities

For match funded liabilities that bear interest at a rate that is adjusted regularly based on a market index, the carrying value approximates fair value. For match funded liabilities that bear interest at a fixed rate, we determine fair value by discounting the future principal and interest repayments at a market rate commensurate with the risk of the estimated cash flows. We estimate principal repayments of match funded advance liabilities during the amortization period based on our historical advance collection rates and taking into consideration any plans to refinance the notes.

Financing Liabilities

HMBS-Related Borrowings

We have elected to measure these borrowings at fair value. We recognize the proceeds from the transfer of reverse mortgages as a secured borrowing that we account for at fair value. These borrowings are not actively traded, and therefore, quoted market prices are not available. We determine fair value by discounting the future principal and interest repayments over the estimated life of the borrowing at a market rate commensurate with the risk of the estimated cash flows. Significant assumptions include prepayments, discount rate and borrower mortality rates for reverse mortgages. The discount rate assumption for these liabilities is based on an assessment of current market yields for newly issued HMBS, expected duration and current market interest rates.

The more significant assumptions used in the valuations consisted of the following at the dates indicated:

	June 30, 2017	December 31, 2016
Life in years		
Range	4.4 to 8.2	4.5 to 8.7
Weighted average	5.0	5.1
Conditional repayment rate		
Range	5.3% to 53.8%	5.2% to 53.8%
Weighted average	21.3	% 20.9 %
Discount rate	2.6	% 2.7 %

Significant increases or decreases in any of these assumptions in isolation would result in a significantly higher or lower fair value.

MSRs Pledged

We periodically sell the right to receive servicing fees, excluding ancillary income (other than net income on custodial and escrow accounts), relating to certain of our MSRs (Rights to MSRs) and the related servicing advances. Because we have retained legal title to the MSRs, the sales of Rights to MSRs are accounted for as financings. We initially establish the value of the Financing Liability - MSRs Pledged based on the price at which the Rights to MSRs are sold. Thereafter, the carrying value of the Financing Liability - MSRs pledged is adjusted to fair value at each reporting date. Fair value is determined using the mid-point of the range of prices provided by third-party valuation experts. Since we have elected fair value for our portfolio of non-Agency MSRs, future fair value changes in the Financing Liability - MSRs Pledged will be largely offset by changes in the fair value of the related MSRs.

The more significant assumptions used in determination of the prices of the underlying MSRs consisted of the following at the dates indicated:

	June 30, 2017	December 31, 2016
Weighted average prepayment speed	16.8 %	17.0 %
Weighted average delinquency rate	29.6 %	29.8 %
	1ML	1ML
Advance financing cost	plus	plus
	3.5%	3.5%
Interest rate for computing float earnings	1ML	1ML
Weighted average discount rate	13.6 %	14.9 %
Weighted average cost to service (in dollars)	\$319	\$ 313

Significant increases or decreases in these assumptions in isolation would result in a significantly higher or lower fair value.

Secured Notes

We issued Ocwen Asset Servicing Income Series (OASIS), Series 2014-1 Notes secured by Ocwen-owned MSRs relating to Freddie Mac mortgages. We accounted for this transaction as a financing. We determine the fair value based on bid prices provided by third parties involved in the issuance and placement of the notes.

Other Secured Borrowings

The carrying value of secured borrowings that bear interest at a rate that is adjusted regularly based on a market index approximates fair value. For other secured borrowings that bear interest at a fixed rate, we determine fair value by discounting the future principal and interest repayments at a market rate commensurate with the risk of the estimated cash flows. For the SSTL, we based the fair value on quoted prices in a market with limited trading activity.

Senior Notes

We base the fair value on quoted prices in a market with limited trading activity.

Derivative Financial Instruments

Interest rate lock commitments (IRLCs) represent an agreement to purchase loans from a third-party originator or an agreement to extend credit to a mortgage applicant (locked pipeline), whereby the interest rate is set prior to funding. IRLCs are classified within Level 2 of the valuation hierarchy as the primary component of the price is obtained from observable values of mortgage forwards for loans of similar terms and characteristics. Fair value amounts of IRLCs are adjusted for expected “fallout” (locked pipeline loans not expected to close) using models that consider cumulative historical fallout rates and other factors.

We enter into forward MBS trades to provide an economic hedge against changes in the fair value of residential forward and reverse mortgage loans held for sale that we carry at fair value. Forward MBS trades are primarily used to fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market. Forward contracts are actively traded in the market and we obtain unadjusted market quotes for these derivatives, thus they are classified within Level 1 of the valuation hierarchy.

In addition, we may use interest rate caps to minimize future interest rate exposure on variable rate debt issued on servicing advance financing facilities from increases in one-month LIBOR interest rates. The fair value for interest rate caps is based on counterparty market prices and adjusted for counterparty credit risk.

Note 4 — Sales of Advances and MSRs

In order to efficiently finance our assets, streamline our operations and generate liquidity, we sell MSRs, Rights to MSRs and servicing advances to market participants. We may retain the right to subservice loans when we sell MSRs. In connection with sales of Rights to MSRs, we retain legal ownership of the MSRs and continue to service the related mortgage loans until such time as all necessary consents to a transfer of the MSRs are received.

During the six months ended June 30, 2017 and 2016, we sold MSRs relating to Agency and non-Agency loans with a UPB of \$134.7 million and \$214.4 million, respectively.

In 2012 and 2013, we sold Rights to MSRs with respect to certain non-Agency MSRs and the related servicing advances to Home Loan Servicing Solutions, Ltd. (HLSS), an indirect wholly-owned subsidiary of NRZ. We refer to the sale of Rights to MSRs and the related servicing advances as the NRZ/HLSS Transactions. As of June 30, 2017, these Rights to MSRs relate to approximately \$109.6 billion in UPB of our non-Agency MSRs. At June 30, 2017, NRZ had outstanding advances of approximately \$3.4 billion in connection with the Rights to MSRs.

On July 23, 2017, we executed on our previously announced agreement in principle with NRZ to convert NRZ’s existing Rights to MSRs to fully-owned MSRs. We entered into a master agreement (Master Agreement), a transfer agreement (Transfer Agreement) and a subservicing agreement (Subservicing Agreement) pursuant to which the parties agreed to undertake certain actions to facilitate the transfer of the MSRs underlying the Rights to MSRs to NRZ and under which Ocwen will subservice the MSRs for an initial term of five years (Initial Term). Upon obtaining the required third party consents, and upon transfer of the MSRs, NRZ will pay a lump sum restructuring fee to us, with the amount determined in accordance with the Master Agreement as of each transfer date. In the event third party consents are not received by July 23, 2018, or earlier if mutually agreed, any non-transferred MSRs may (i) become subject to a new mortgage servicing rights agreement to be negotiated between Ocwen and NRZ, (ii) be acquired by Ocwen or, if Ocwen does not desire or is otherwise unable to purchase, sold to a third party in accordance with the terms of the Master Agreement, or (iii) remain subject to the terms of the existing 2012 and 2013 agreements.

Under the terms of the Subservicing Agreement, in addition to a base servicing fee, Ocwen will continue to receive ancillary income, which primarily includes late fees, HAMP or other loan modification fees and Speedpay fees, but does not include float earnings or REO referral commissions. NRZ will receive all deferred servicing fees related to delinquent borrower payments.

At any time during the Initial Term, NRZ may terminate the Subservicing Agreement for convenience, subject to Ocwen’s right to receive a termination fee and proper notice. Following the Initial Term, NRZ may extend the term of the Subservicing Agreement for additional three-month periods by providing proper notice. Following the Initial Term, the Subservicing Agreement can be cancelled by Ocwen on an annual basis. NRZ and Ocwen have the ability to terminate the Subservicing Agreement for cause if certain conditions specified in the Subservicing Agreement occur.

Until such time as the MSRs are transferred to NRZ, the terms of the existing 2012 and 2013 agreements will remain in force. Under these agreements, the servicing fees payable under the servicing agreements underlying the Rights to MSRs are apportioned between NRZ and us. NRZ retains a fee based on the UPB of the loans serviced, and OLS receives certain fees, including a performance fee based on servicing fees actually paid less an amount calculated based on the amount of servicing advances and cost of financing those advances. In addition, under the July 2017 agreements, NRZ has agreed to a standstill through January 23, 2019, subject to limited exceptions, on exercising rights it would otherwise have under the existing 2012

and 2013 agreements to replace Ocwen as servicer of certain MSR's in the event of a termination event with respect to an affected servicing agreement underlying the MSR's resulting from a servicer rating downgrade.

The Rights to MSR's transactions are accounted for as financings. Upon transfer of the MSR's to NRZ in accordance with the July 2017 agreements (which would follow receipt of the necessary third-party consents), we will determine whether the requirements for sale accounting have been met. Until derecognition, we will continue to recognize the MSR's and related financing liability on our consolidated balance sheet as well as the full amount of servicing revenue and changes in the fair value of the MSR's in our consolidated statements of operations.

Note 5 – Loans Held for Sale

Loans Held for Sale - Fair Value

The following table summarizes the activity in the balance:

Six months ended June 30,	2017	2016
Beginning balance	\$284,632	\$309,054
Originations and purchases	1,547,169	1,924,514
Proceeds from sales	(1,603,889)	(1,910,019)
Principal collections	(2,062)	(8,877)
Transfers from loans held for sale at lower of cost or fair value	—	1,158
Gain on sale of loans	9,396	16,009
Increase in fair value of loans	3,838	4,266
Other	406	3,582
Ending balance (1)	\$239,490	\$339,687

(1) At June 30, 2017 and 2016, the balances include \$8.7 million and \$16.2 million, respectively, of fair value adjustments.

At June 30, 2017, loans held for sale, at fair value with a UPB of \$229.6 million were pledged as collateral to warehouse lines of credit in our Lending segment.

Loans Held for Sale - Lower of Cost or Fair Value

The following table summarizes the activity in the net balance:

Six months ended June 30,	2017	2016
Beginning balance	\$29,374	\$104,992
Purchases	696,306	958,610
Proceeds from sales	(607,181)	(856,426)
Principal collections	(4,127)	(14,109)
Transfers to accounts receivable	(96,918)	(137,605)
Transfers to real estate owned	(435)	(5,958)
Gain (loss) on sale of loans	(2,434)	12,962
Decrease (increase) in valuation allowance	3,573	(1,275)
Other	3,311	912
Ending balance (1)	\$21,469	\$62,103

At June 30, 2017 and 2016, the balances include \$16.0 million and \$45.5 million, respectively, of loans that we were required to repurchase from Ginnie Mae guaranteed securitizations as part of our servicing obligations.

(1) Repurchased loans are modified or otherwise remediated through loss mitigation activities or are reclassified to receivables.

The changes in the valuation allowance are as follows:

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
Beginning balance	\$5,635	\$17,993	\$10,064	\$14,658
Provision	490	(434)	854	2,163
Transfer from liability for indemnification obligations	632	675	887	1,705
Sales of loans	(600)	(2,249)	(5,646)	(2,249)
Other	334	(52)	332	(344)
Ending balance	\$6,491	\$15,933	\$6,491	\$15,933

At June 30, 2017, Loans held for sale, at lower of cost or fair value, with a UPB of \$8.1 million were pledged as collateral to a warehouse line of credit in our Servicing segment.

Gain on Loans Held for Sale, Net

The following table summarizes the activity in Gain on loans held for sale, net:

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
MSRs retained on transfers of forward loans	\$6,906	\$9,002	\$15,032	\$15,486
Fair value gains related to transfers of reverse mortgage loans, net	14,049	7,279	21,687	7,635
Gain on sale of repurchased Ginnie Mae loans	4,753	7,952	3,756	12,962
Other gains (losses) related to loans held for sale, net	10,759	(5,147)	12,904	942
Gain on sales of loans, net	36,467	19,086	53,379	37,025
Change in fair value of IRLCs	(2,487)	(794)	(1,428)	6,672
Change in fair value of loans held for sale	(1,854)	18,191	5,813	21,713
Loss on economic hedge instruments	(3,670)	(8,425)	(6,184)	(21,626)
Other	(201)	(201)	(381)	(355)
	\$28,255	\$27,857	\$51,199	\$43,429

Note 6 – Advances

Advances, net, which represent payments made on behalf of borrowers or on foreclosed properties, consisted of the following at the dates indicated:

	June 30, 2017	December 31, 2016
Principal and interest	\$21,512	\$ 31,334
Taxes and insurance	142,361	170,131
Foreclosures, bankruptcy and other	75,669	94,369
	239,542	295,834
Allowance for losses	(20,328)	(37,952)
	\$219,214	\$ 257,882

Advances at June 30, 2017 and December 31, 2016 include \$23.0 million and \$29.0 million, respectively, of previously sold advances in connection with sales of loans that did not qualify for sale accounting.

The following table summarizes the activity in net advances:

Six months ended June 30,	2017	2016
Beginning balance	\$257,882	\$444,298
Sales of advances	(74)	(24,053)
Collections of advances, charge-offs and other, net	(56,218)	(93,477)
Decrease in allowance for losses	17,624	2,460
Ending balance	\$219,214	\$329,228

The changes in the allowance for losses are as follows:

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
Beginning balance	\$35,844	\$42,523	\$37,952	\$41,901
Provision	(123)	3,963	3,298	7,446
Charge-offs, net and other	(15,393)	(7,045)	(20,922)	(9,906)
Ending balance	\$20,328	\$39,441	\$20,328	\$39,441

Note 7 – Match Funded Assets

Match funded assets are comprised of the following at the dates indicated:

	June 30, 2017	December 31, 2016
Advances:		
Principal and interest	\$593,630	\$ 711,272
Taxes and insurance	468,102	530,946
Foreclosures, bankruptcy, real estate and other	197,309	209,746
	1,259,041	1,451,964
Automotive dealer financing notes (1)	33,867	—
	\$1,292,908	\$ 1,451,964

(1) On February 24, 2017 and on March 17, 2017, we entered into loan agreements under a new automotive dealer loan financing facility to which these notes are pledged.

The following table summarizes the activity in match funded assets:

Six months ended June 30,	2017		2016
		Automotive Dealer Financing Notes	
	Advances		Advances
Beginning balance	\$1,451,964	\$ —	\$1,706,768
Transfer from Other assets	—	25,180	—
Sales	(691)	—	—
New advances/notes (Collections of pledged assets), net	(192,232)	8,687	(92,321)
Ending balance	\$1,259,041	\$ 33,867	\$1,614,447

Note 8 – Mortgage Servicing

Mortgage Servicing Rights – Amortization Method

The following table summarizes changes in the net carrying value of servicing assets that we account for using the amortization method:

Six months ended June 30,	2017	2016
Beginning balance	\$363,722	\$377,379
Additions recognized in connection with asset acquisitions	1,657	12,432
Additions recognized on the sale of mortgage loans	15,032	16,668
Sales	(1,066)	178
Servicing transfers and adjustments	252	—
	379,597	406,657
Amortization	(25,412)	(21,153)
Increase in impairment valuation allowance (1)	(4,650)	(39,030)
Ending balance	\$349,535	\$346,474

Estimated fair value at end of period \$440,311 \$367,951

(1) Impairment of MSRs is recognized in Servicing and origination expense in the unaudited consolidated statements of operations. See Note 3 – Fair Value for additional information regarding impairment and the valuation allowance.

Mortgage Servicing Rights – Fair Value Measurement Method

The following table summarizes changes in the fair value of servicing assets that we account for at fair value on a recurring basis:

Six months ended June 30,	2017			2016		
	Agency	Non-Agency	Total	Agency	Non-Agency	Total
Beginning balance	\$13,357	\$665,899	\$679,256	\$15,071	\$746,119	\$761,190
Sales	—	(230)	(230)	—	(143)	(143)
Servicing transfers and adjustments	—	(1,417)	(1,417)	—	(1,275)	(1,275)
Changes in fair value (1):						
Changes in valuation inputs or other assumptions	36	—	36	(5,033)	—	(5,033)
Realization of expected future cash flows and other changes	(950)	(51,045)	(51,995)	(855)	(53,216)	(54,071)
Ending balance	\$12,443	\$613,207	\$625,650	\$9,183	\$691,485	\$700,668

(1) Changes in fair value are recognized in Servicing and origination expense in the unaudited consolidated statements of operations.

Because the mortgages underlying these MSRs permit the borrowers to prepay the loans, the value of the MSRs generally tends to diminish in periods of declining interest rates, an improving housing market or expanded product availability (as prepayments increase) and increase in periods of rising interest rates, a deteriorating housing market or reduced product availability (as prepayments decrease). The following table summarizes the estimated change in the value of the MSRs that we carry at fair value as of June 30, 2017 given hypothetical shifts in lifetime prepayments and yield assumptions:

	Adverse change in fair value	
	10%	20%
Weighted average prepayment speeds	\$(62,510)	\$(126,738)
Discount rate (option-adjusted spread)	(14,082)	(25,421)

The sensitivity analysis measures the potential impact on fair values based on hypothetical changes, which in the case of our portfolio at June 30, 2017 are increased prepayment speeds and a decrease in the yield assumption.

Portfolio of Assets Serviced

The following table presents the composition of our primary servicing and subservicing portfolios by type of property serviced as measured by UPB. The servicing portfolio represents loans for which we own the servicing rights while subservicing represents all other loans. The UPB of assets serviced for others are not included on our unaudited consolidated balance sheets.

	Residential	Commercial	Total
UPB at June 30, 2017			
Servicing	\$81,319,908	\$ —	\$81,319,908
Subservicing	3,869,084	53,127	3,922,211
NRZ (1)	109,609,432	—	109,609,432
	\$194,798,424	\$ 53,127	\$194,851,551
UPB at December 31, 2016			
Servicing	\$86,049,298	\$ —	\$86,049,298
Subservicing	4,330,084	92,933	4,423,017
NRZ (1)	118,712,748	—	118,712,748
	\$209,092,130	\$ 92,933	\$209,185,063
UPB at June 30, 2016			
Servicing	\$95,101,820	\$ —	\$95,101,820
Subservicing	6,086,568	144,639	6,231,207
NRZ (1)	128,087,613	—	128,087,613
	\$229,276,001	\$ 144,639	\$229,420,640

(1) UPB of loans serviced for which the Rights to MSR have been sold to NRZ.

Residential assets serviced includes foreclosed real estate. Residential assets serviced also includes small-balance commercial assets with a UPB of \$1.0 billion, \$1.4 billion and \$1.6 billion at June 30, 2017, December 31, 2016 and June 30, 2016, respectively. Commercial assets consist of large-balance foreclosed real estate.

A significant portion of the servicing agreements for our non-Agency servicing portfolio contain provisions where we could be terminated as servicer without compensation upon the failure of the serviced loans to meet certain portfolio delinquency or cumulative loss thresholds. As a result of the economic downturn beginning in 2007 - 2008, the portfolio delinquency and/or cumulative loss threshold provisions have been breached by many private-label securitizations in our non-Agency servicing portfolio. To date, terminations as servicer as a result of a breach of any of these provisions have been minimal.

From time to time, rating agencies will assign an outlook (or a ratings watch) to the rating status of a mortgage servicer. A negative outlook is generally used to indicate that a rating “may be lowered,” while a positive outlook is generally used to indicate a rating “may be raised.” S&P’s servicer ratings outlook for Ocwen is stable in general and its outlook for master servicing is positive. Fitch Ratings changed the servicer ratings Outlook to Negative from Stable on April 25, 2017. Moody’s placed the servicer ratings on Review for Downgrade on April 24, 2017. Morningstar changed its forecast to On Alert from Positive on April 25, 2017. None of these three ratings has subsequently changed since these actions.

Certain of our servicing agreements require that we maintain specified servicer ratings from rating agencies such as Moody’s and S&P. Of 3,709 non-Agency servicing agreements, 718 with approximately \$31.9 billion of UPB as of June 30, 2017 have minimum servicer ratings criteria. As a result of our current servicer ratings, termination rights have been triggered in 174 of these non-Agency servicing agreements. This represents approximately \$10.1 billion in UPB as of June 30, 2017, or approximately 7.0% of our total non-Agency servicing portfolio.

Downgrades in servicer ratings could adversely affect our ability to finance servicing advances and maintain our status as an approved servicer by Fannie Mae and Freddie Mac. The servicer rating requirements of Fannie Mae do not necessarily require or imply immediate action, as Fannie Mae has discretion with respect to whether we are in compliance with their requirements and what actions it deems appropriate under the circumstances in the event that we fall below their desired servicer ratings.

Servicing Revenue

The following table presents the components of servicing and subservicing fees:

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
Loan servicing and subservicing fees:				
Servicing	\$66,018	\$77,083	\$134,640	\$155,581
Subservicing	1,964	3,197	4,118	8,447
NRZ	143,612	160,518	290,923	322,647
	211,594	240,798	429,681	486,675
Late charges	15,610	17,474	32,394	36,076
Home Affordable Modification Program (HAMP) fees	10,506	33,493	31,489	56,111
Loan collection fees	5,936	6,985	12,255	14,114
Other	12,155	8,512	22,484	11,782
	\$255,801	\$307,262	\$528,303	\$604,758

Float balances (balances in custodial accounts, which represent collections of principal and interest that we receive from borrowers), are held in escrow by an unaffiliated bank and are excluded from our unaudited consolidated balance sheets. Float balances amounted to \$2.2 billion and \$2.7 billion at June 30, 2017 and June 30, 2016, respectively.

Note 9 – Receivables

	June 30, 2017	December 31, 2016
Servicing:		
Government-insured loan claims, net (1)	\$120,494	\$133,063
Reimbursable expenses	33,555	29,358
Due from custodial accounts	29,433	44,761
Due from NRZ	24,786	21,837
Other	16,898	27,086
	225,166	256,105
Income taxes receivable	39,343	61,932
Other receivables (2)	55,440	21,125
	319,949	339,162
Allowance for losses (1)	(67,152)	(73,442)
	\$252,797	\$265,720

At June 30, 2017 and December 31, 2016, the allowance for losses related entirely to receivables of our Servicing business. Allowance for losses related to defaulted FHA or VA insured loans repurchased from Ginnie Mae (1) guaranteed securitizations (government-insured loan claims) at June 30, 2017 and December 31, 2016 were \$46.6 million and \$53.3 million, respectively.

At June 30, 2017, the balance includes \$22.9 million in connection with the recovery of prior legal settlement (2) expenses and \$14.0 million for insurance recovery in connection with accrued legal fees and settlements outstanding at June 30, 2017.

Note 10 – Other Assets

	June 30, 2017	December 31, 2016
Contingent loan repurchase asset (1)	\$246,348	\$ 246,081
Prepaid expenses (2)	53,123	57,188
Debt service accounts	40,968	42,822
Derivatives, at fair value	9,051	9,279
Mortgage backed securities, at fair value	8,986	8,342
Prepaid lender fees, net	8,337	9,023
Prepaid income taxes	7,007	8,392
Interest-earning time deposits	5,689	6,454
Real estate	4,833	5,249
Automotive dealer financing notes, net	—	33,224
Other	15,330	12,050
	\$399,672	\$ 438,104

With respect to previously transferred Ginnie Mae mortgage loans for which we have the right or the obligation to (1) repurchase under the applicable agreement, we re-recognize the loans in Other assets and a corresponding liability in Other liabilities.

In connection with the sale of Agency MSRs in 2015, we placed \$52.9 million in escrow for the payment of representation, warranty and indemnification claims associated with the underlying loans. Prepaid expenses at (2) June 30, 2017 and December 31, 2016 includes the remaining balance of \$36.6 million and \$34.9 million, respectively.

Automotive dealer financing notes represent short-term inventory-secured floor plan loans – provided to independent used car dealerships through our Automotive Capital Services (ACS) venture – that have not been pledged to our automotive dealer loan financing facility. These notes are net of an allowance of \$9.6 million and \$4.4 million at June 30, 2017 and December 31, 2016, respectively. Changes in the allowance are as follows:

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
Beginning balance	\$10,516	\$78	\$4,371	\$27
Provision	(930)	86	5,215	137
Ending balance	\$9,586	\$164	\$9,586	\$164

(1) The amortization date of our facilities is the date on which the revolving period ends under each advance facility note and repayment of the outstanding balance must begin if the note is not renewed or extended. The maturity date is the date on which all outstanding balances must be repaid. In all of our advance facilities, there are multiple notes outstanding. For each note, after the amortization date, all collections that represent the repayment of advances pledged to the facility must be applied to reduce the balance of the note outstanding, and any new advances are ineligible to be financed.

Borrowing capacity is available to us provided that we have additional eligible collateral to pledge. Collateral may (2) only be pledged to one facility. At June 30, 2017, none of the available borrowing capacity of our advance financing notes could be used based on the amount of eligible collateral that had been pledged.

(3) 1ML was 1.22% and 0.77% at June 30, 2017 and December 31, 2016, respectively.

Effective June 30, 2017, we negotiated a reduction in the borrowing capacity of each series of variable rate notes (4) from \$140.0 million to \$70.0 million. There is a ceiling of 75 basis points (bps) for 1ML in determining the interest rate for the notes. Rates on the individual notes are based on 1ML plus a margin of 185 to 545 bps.

Under the terms of the agreement, we must continue to borrow the full amount of the Series 2015-T3, Series 2016-T1 and Series 2016-T2 fixed-rate term notes until the amortization date. If there is insufficient collateral to (5) support the level of borrowing, the excess cash proceeds are not distributed to Ocwen but are held by the trustee, and interest expense continues to be based on the full amount of the notes. The Series 2016-T1 and 2016-T2 notes have a total borrowing capacity of \$500.0 million. The Series 2015-T3 notes have a borrowing capacity of \$400.0 million. Rates on the individual notes range from 2.5207% to 4.6870%

The maximum borrowing capacity under this facility is \$75.0 million. There is a ceiling of 75 bps for 1ML in (6)determining the interest rate for these variable rate notes. Rates on the individual notes are based on the lender's cost of funds plus a margin of 230 to 470 bps.

The combined borrowing capacity of the Series 2015-VF1 Notes is \$160.0 million. Rates on the individual notes are based on 1ML plus a margin of 240 to 480 bps. On June 8, 2017, we negotiated a renewal of this facility (7)through June 7, 2018. As part of this renewal, we reduced the combined borrowing capacity of the Series 2015-VF1 Notes to \$110.0 million with interest computed based on the lender's cost of funds plus a margin of from 250 to 500 bps. There is a ceiling of 300 bps for 1ML in determining the interest rate for these variable rate notes. We entered into the loan agreements for the Series 2017-1 Notes on February 24, 2017 and for the Series 2017-2 Notes on March 17, 2017. The committed borrowing capacity for each of the Series 2017-1 and Series 2017-2 variable rate notes is \$50.0 million. We may from time to time request increases in the aggregate maximum (8)borrowing capacity of the facility to a maximum aggregate borrowing capacity of \$200.0 million. Rates on the Series 2017-1 notes are based on 1ML plus a margin of 500 bps and rates on the Series 2017-2 notes are based on the lender's cost of funds plus a margin of 500 bps.

Pursuant to our 2012 and 2013 agreements with NRZ, NRZ has assumed the obligation to fund new servicing advances with respect to the MSRs underlying the Rights to MSRs, or NRZ/HLSS Transactions. We are dependent upon NRZ for funding the servicing advance obligations for Rights to MSRs where we are the servicer. NRZ currently uses advance financing facilities in order to fund a substantial portion of the servicing advances that they are contractually obligated to purchase pursuant to our agreements with them. As of June 30, 2017, we were the servicer on Rights to MSRs sold to NRZ pertaining to approximately \$109.6 billion in UPB and the associated outstanding servicing advances as of such date were approximately \$3.4 billion. Should NRZ's advance financing facilities fail to perform as envisaged or should NRZ otherwise be unable to meet its advance funding obligations, our liquidity, financial condition and business could be materially and adversely affected. As the servicer, we are contractually required under our servicing agreements to make the relevant servicing advances even if NRZ does not perform its contractual obligations to fund those advances. On July 23, 2017, we entered into a series of new agreements with NRZ that provide for the conversion of NRZ's existing Rights to MSRs to fully-owned MSRs. See Note 4 — Sales of Advances and MSRs for additional information.

In addition, although we are not an obligor or guarantor under NRZ's advance financing facilities, we are a party to certain of the facility documents as the servicer of the underlying loans on which advances are being financed. As the servicer, we make certain representations, warranties and covenants, including representations and warranties in connection with our sale of advances to NRZ.

Financing Liabilities

Borrowings	Collateral	Interest Rate	Maturity	June 30, 2017	December 31, 2016
HMBS-Related Borrowings, at fair value (1)	Loans held for investment	1ML + 264 bps	(1)	\$4,061,626	\$ 3,433,781
Other Financing Liabilities:					
Financing liability – MSRs pledged, at fair value	MSRs	(2)	(2)	441,007	477,707
Secured Notes, Ocwen Asset Servicing Income Series, Series 2014-1 (3)	MSRs	(3)	Feb. 2028	76,877	81,131
Financing liability – Advances pledged (4)	Advances on loans	(4)	(4)	15,922	20,193
				533,806	579,031
				\$4,595,432	\$ 4,012,812

(1) Represents amounts due to the holders of beneficial interests in Ginnie Mae guaranteed HMBS. The beneficial interests have no maturity dates, and the borrowings mature as the related loans are repaid.

This financing liability arose in connection with the NRZ/HLSS Transactions and has no contractual maturity or (2)repayment schedule. The balance of the liability is adjusted each reporting period to its fair value based on the present value of the estimated future cash flows underlying the related MSRs.

- OASIS noteholders are entitled to receive a monthly payment amount equal to the sum of: (a) the designated servicing fee amount (21 basis points of the UPB of the reference pool of Freddie Mac mortgages); (b) any termination payment amounts; (c) any excess refinance amounts; and (d) the note redemption amounts, each as
- (3) defined in the indenture supplement for the notes. We accounted for this transaction as a financing. Monthly amortization of the liability is estimated using the proportion of monthly projected service fees on the underlying MSR as a percentage of lifetime projected fees, adjusted for the term of the security.
- (4) Certain sales of advances did not qualify for sales accounting treatment and were accounted for as a financing. This financing liability has no contractual maturity.

For our mortgage loan warehouse facilities, available borrowing capacity does not consider the amount of the (1) facility that the lender has extended on an uncommitted basis. Of the borrowing capacity extended on a committed basis, none could be used at June 30, 2017 based on the amount of eligible collateral that had been pledged.

On December 5, 2016, we entered into an Amended and Restated Senior Secured Term Loan Facility Agreement that established a new SSTL with a borrowing capacity of \$335.0 million and a maturity date of December 5, 2020. (2) We may request increases to the loan amount of up to \$100.0 million in total, with additional increases subject to certain limitations. We are required to make quarterly payments on the SSTL in an amount of \$4.2 million the first of which was paid on March 31, 2017.

The borrowings under the SSTL are secured by a first priority security interest in substantially all of the assets of Ocwen, OLS and the other guarantors thereunder, excluding among other things, 35% of the capital stock of foreign subsidiaries, securitization assets and equity interests of securitization entities, assets securing permitted funding indebtedness and non-recourse indebtedness, REO assets, servicing agreements where an acknowledgment from the GSE has not been obtained, as well as other customary carve-outs.

Borrowings bear interest, at the election of Ocwen, at a rate per annum equal to either (a) the base rate (the greatest of (i) the prime rate in effect on such day, (ii) the federal funds rate in effect on such day plus 0.50% and (iii) the one-month Eurodollar rate (1ML)), plus a margin of 4.00% and subject to a base rate floor of 2.00% or (b) the one month Eurodollar rate, plus a margin of 5.00% and subject to a one month Eurodollar floor of 2.00%. To date we have elected option (b) to determine the interest rate.

(3)

Fifty percent of the maximum borrowing amount of \$100.0 million is available on a committed basis and fifty percent is available at the discretion of the lender. We use this facility to fund the repurchase of certain loans from Ginnie Mae guaranteed securitizations in connection with loan modifications and loan resolution activity as part of our contractual obligations as the servicer of the loans. On August 1, 2017, we entered into an amendment to lower the advance rates under this facility by 3%.

Under these repurchase agreements, the lender provides financing on a committed basis for \$100.0 million, with an
(4) additional \$100.0 million available at the discretion of the lender. On August 1, 2017, we elected to voluntarily terminate these agreements.

Under these participation agreements, the lender provides financing for a combined total of \$250.0 million at the
(5) discretion of the lender. The participation agreement allows the lender to acquire a 100% beneficial interest in the underlying mortgage loans. The transaction does not qualify for sale accounting treatment and is accounted for as a secured borrowing. The lender earns the stated

interest rate of the underlying mortgage loans while the loans are financed under the participation agreement. On April 25, 2017, the term of these participation agreements was extended to April 30, 2018.

Under these participation agreements, the lender provides uncommitted reverse mortgage financing for \$75.0 million at the discretion of the lender. The participation agreement allows the lender to acquire a 100% beneficial (6) interest in the underlying mortgage loans. The transaction does not qualify for sale accounting treatment and is accounted for as a secured borrowing. The lender earns the stated interest rate of the underlying mortgage loans while the loans are financed under the participation agreement.

(7) The lender provides financing on a committed basis for \$100.0 million.

Senior Notes

	June 30, 2017	December 31, 2016
6.625% Senior unsecured notes due May 15, 2019	\$3,122	\$ 3,122

	350,000	\$ 350,000
Unamortized debt issuance costs	(2,937)	(3,211)
	\$347,063	\$ 346,789

Senior Unsecured Notes

Ocwen may redeem all or a part of the remaining Senior Unsecured Notes, upon not less than 30 nor more than 60 days' notice, at the redemption price (expressed as percentages of principal amount) of 103.313% and 100.000% for the twelve-month periods beginning May 15, 2017 and 2018, respectively, plus accrued and unpaid interest and additional interest, if any.

Senior Secured Notes

The Senior Secured Notes are guaranteed by Ocwen, OMS, Homeward Residential Holdings, Inc., Homeward and ACS (the Guarantors). The Senior Secured Notes are secured by second priority liens on the assets and properties of OLS and the Guarantors that secure the first priority obligations under the SSTL, excluding certain MSR's.

At any time, OLS may redeem all or a part of the Senior Secured Notes, upon not less than 30 nor more than 60 days' notice at a specified redemption price, plus accrued and unpaid interest to the date of redemption. Prior to November 15, 2018, the Senior Secured Notes may be redeemed at a redemption price equal to 100.0% of the principal amount of the Senior Secured Notes redeemed, plus the applicable make whole premium (as defined in the indenture). On or after November 15, 2018, OLS may redeem all or a part of the Senior Secured Notes at the redemption prices (expressed as percentages of principal amount) specified in the Indenture. The redemption prices during the twelve-month periods beginning on November 15 of each year are as follows:

Year	Redemption Price
2018	106.281%
2019	104.188%
2020	102.094%
2021 and thereafter	100.000%

At any time, on or prior to November 15, 2018, OLS may, at its option, use the net cash proceeds of one or more equity offerings (as defined in the Indenture) to redeem up to 35.0% of the principal amount of all Senior Secured Notes issued at a redemption price equal to 108.375% of the principal amount of the Senior Secured Notes redeemed plus accrued and unpaid interest to the date of redemption, provided that: (i) at least 65.0% of the principal amount of all Senior Secured Notes issued under the Indenture (including any additional Senior Secured Notes) remains outstanding immediately after any such redemption; and (ii) OLS makes such redemption not more than 120 days after the consummation of any such Equity Offering.

Upon a change of control (as defined in the indenture), OLS is required to make an offer to the holders of the Senior Secured Notes to repurchase all or a portion of each holder's Senior Secured Notes at a purchase price equal to 101.0% of the principal amount of the Senior Secured Notes purchased plus accrued and unpaid interest to the date of purchase.

In connection with our issuance of the Senior Secured Notes, we incurred certain costs that we capitalized and are amortizing over the period from the date of issuance to November 15, 2022. The unamortized balance of these issuance costs was \$2.9 million and \$3.2 million at June 30, 2017 and December 31, 2016, respectively.

Credit Ratings

Credit ratings are intended to be an indicator of the creditworthiness of a particular company, security or obligation. On July 25, 2017, S&P affirmed our long-term corporate rating of “B-” and removed our ratings from CreditWatch with Negative implications. On July 26, 2017, Kroll Bond Rating Agency affirmed our corporate ratings at “CCC” and removed our ratings from Watch Downgrade status. On June 16, 2017, Moody’s downgraded our long-term corporate rating to “Caa1” from “B3.” On April 24, 2017, Fitch placed our ratings on Rating Watch Negative. It is possible that additional actions by credit rating agencies could have a material adverse impact on our liquidity and funding position, including materially changing the terms on which we may be able to borrow money.

Covenants

Under the terms of our debt agreements, we are subject to various qualitative and quantitative covenants. Collectively, these covenants include:

Financial covenants;

Covenants to operate in material compliance with applicable laws;

Restrictions on our ability to engage in various activities, including but not limited to incurring additional debt, paying dividends or making distributions on or purchasing equity interests of Ocwen, repurchasing or redeeming capital stock or junior capital, repurchasing or redeeming subordinated debt prior to maturity, issuing preferred stock, selling or transferring assets or making loans or investments or acquisitions or other restricted payments, entering into mergers or consolidations or sales of all or substantially all of the assets of Ocwen and its subsidiaries, creating liens on assets to secure debt of OLS or any Guarantor, enter into transactions with an affiliate;

Monitoring and reporting of various specified transactions or events, including specific reporting on defined events affecting collateral underlying certain debt agreements; and

Requirements to provide audited financial statements within specified timeframes, including a requirement under our SSTL that Ocwen’s financial statements and the related audit report be unqualified as to going concern.

Many of the restrictive covenants arising from the indenture for the Senior Secured Notes will be suspended if the Senior Secured Notes achieve an investment grade rating from both Moody’s and S&P and if no default or event of default has occurred and is continuing.

Financial covenants in our debt agreements require that we maintain, among other things:

- a 40% loan to collateral value ratio, as defined under our SSTL, as of the last date of any fiscal quarter; and
- specified levels of tangible net worth and liquidity at the consolidated and OLS levels.

As of June 30, 2017, the most restrictive consolidated tangible net worth requirements contained in our debt agreements were for a minimum of \$1.1 billion at OLS under our match funded debt agreements and three repurchase agreements and \$450.0 million at Ocwen under a master repurchase agreement.

As a result of the covenants to which we are subject, we may be limited in the manner in which we conduct our business and may be limited in our ability to engage in favorable business activities or raise additional capital to finance future operations or satisfy future liquidity needs. In addition, breaches or events that may result in a default under our debt agreements include, among other things, nonpayment of principal or interest, noncompliance with our covenants, breach of representations, the occurrence of a material adverse change, insolvency, bankruptcy, certain material judgments and changes of control.

Covenants and default provisions of this type are commonly found in debt agreements such as ours. Certain of these covenants and default provisions are open to subjective interpretation and, if our interpretation were contested by a lender, a court may ultimately be required to determine compliance or lack thereof. In addition, our debt agreements generally include cross default provisions such that a default under one agreement could trigger defaults under other agreements. If we fail to comply with our debt agreements and are unable to avoid, remedy or secure a waiver of any resulting default, we may be subject to adverse action by our lenders, including termination of further funding, acceleration of outstanding obligations, enforcement of liens against the assets securing or otherwise supporting our obligations and other legal remedies. Our lenders can waive their contractual rights in the event of a default.

We believe that we are in compliance with all of the qualitative and quantitative covenants in our debt agreements as of the date of these financial statements.

Note 12 – Other Liabilities

	June 30, 2017	December 31, 2016
Contingent loan repurchase liability	\$246,348	\$ 246,081
Accrued legal fees and settlements	117,020	93,797
Due to NRZ	71,812	83,248
Other accrued expenses	67,004	80,021
Servicing-related obligations	38,852	35,324
Liability for indemnification obligations	23,718	27,546
Liability for uncertain tax positions	23,446	23,216
Amounts due in connection with MSR sales	20,147	39,398
Checks held for escheat	19,147	16,890
Accrued interest payable	6,840	3,698
Other	23,079	32,020
	\$657,413	\$ 681,239

Note 13 – Derivative Financial Instruments and Hedging Activities

Because many of our current derivative agreements are not exchange-traded, we are exposed to credit loss in the event of nonperformance by the counterparty to the agreements. We manage counterparty credit risk by entering into financial instrument transactions through national exchanges, primary dealers or approved counterparties and the use of mutual margining agreements whenever possible to limit potential exposure. We regularly evaluate the financial position and creditworthiness of our counterparties. The notional amount of our contracts does not represent our exposure to credit loss.

Interest Rate Risk

Match Funded Liabilities

As required by certain of our advance financing arrangements, we have purchased interest rate caps to minimize future interest rate exposure from increases in the interest on our variable rate debt as a result of increases in the index, such as 1ML, which is used in determining the interest rate on the debt. We currently do not hedge our fixed rate debt.

Loans Held for Sale, at Fair Value

Mortgage loans held for sale that we carry at fair value are subject to interest rate and price risk from the loan funding date until the date the loan is sold into the secondary market. Generally, the fair value of a loan will decline in value when interest rates increase and will rise in value when interest rates decrease. To mitigate this risk, we enter into forward MBS trades to provide an economic hedge against those changes in fair value on mortgage loans held for sale. Forward MBS trades are primarily used to fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market.

Interest Rate Lock Commitments

A loan commitment binds us (subject to the loan approval process) to fund the loan at the specified rate, regardless of whether interest rates have changed between the commitment date and the loan funding date. As such, outstanding IRLCs are subject to interest rate risk and related price risk during the period from the date of the commitment through the loan funding date or expiration date. The borrower is not obligated to obtain the loan, thus we are subject to fallout risk related to IRLCs, which is realized if approved borrowers choose not to close on the loans within the terms of the IRLCs. Our interest rate exposure on these derivative loan commitments is hedged with freestanding derivatives such as forward contracts. We enter into forward contracts with respect to both fixed and variable rate loan commitments.

The following table summarizes derivative activity, including the derivatives used in each of our identified hedging programs:

	Interest Rate Risk		
	IRLCs	IRLCs and Loans Held for Sale	Borrowings
	IRLCs	Forward MBS Trades	Interest Rate Caps
Notional balance at December 31, 2016	\$360,450	\$609,177	\$955,000
Additions	2,478,110	1,802,148	110,000
Amortization	—	—	(180,000)
Maturities	(2,117,572)	(1,025,320)	—
Terminations	(475,410)	(993,409)	(160,000)
Notional balance at June 30, 2017	\$245,578	\$392,596	\$725,000
Maturity	Jul. 2017 - Sep. 2017	Aug. 2017	Oct. 2017 - May 2019
Fair value of derivative assets (liabilities) at:			
June 30, 2017	\$5,352	\$1,752	\$1,937
December 31, 2016	6,507	(614)	1,836
Gains (losses) on derivatives during the six months ended:	Gain on Loans Held for Sale, Net	Gain on Loans Held for Sale, Net	Other, Net
June 30, 2017	\$(1,428)	\$(6,184)	\$31
June 30, 2016	6,672	(21,626)	(2,080)
(1) Derivatives are reported at fair value in Other assets or in Other liabilities on our unaudited consolidated balance sheets.			
As loans are originated and sold or as loan commitments expire, our forward MBS trade positions mature and are replaced by new positions based upon new loan originations and commitments and expected time to sell.			
Included in Accumulated other comprehensive loss (AOCL) at June 30, 2017 and 2016, respectively, were \$1.3 million and \$1.6 million of deferred unrealized losses, before taxes of \$0.1 million and \$0.1 million, respectively, on interest rate swaps that we had designated as cash flow hedges.			
Other income (expense), net, includes the following related to derivative financial instruments:			
Periods ended June 30,	Three Months		Six Months
	2017	2016	2017 2016
Gains (losses) on economic hedges	\$(283)	\$(514)	\$143 \$(1,905)
Write-off of losses in AOCL for a discontinued hedge relationship	(45)	(70)	(112) (175)
	\$(328)	\$(584)	\$31 \$(2,080)

Note 14 – Interest Expense

The following table presents the components of interest expense:

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
Financing liabilities	\$50,293	\$52,803	\$103,262	\$120,578
Match funded liabilities	12,669	18,133	25,518	36,307
Other secured borrowings	9,636	12,715	19,184	25,428
Senior notes	7,447	6,129	14,903	12,270
Other	1,083	1,253	2,323	2,539
	\$81,128	\$91,033	\$165,190	\$197,122

Interest expense related to financing liabilities recorded in connection with the NRZ/HLSS Transactions is indicated in the table below. The reduction in the financing liability does not include reimbursements to NRZ/HLSS for the loss of servicing revenues when we were terminated as servicer and where the related Rights to MSRs had been sold to HLSS.

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
Servicing fees collected on behalf of NRZ/HLSS	\$143,612	\$160,518	\$290,923	\$322,647
Less: Subservicing fee retained by Ocwen	78,794	85,532	157,947	169,902
Net servicing fees remitted to NRZ/HLSS	64,818	74,986	132,976	152,745
Less: Reduction in financing liability	16,194	27,628	33,193	45,829
Interest expense on NRZ/HLSS financing liability	\$48,624	\$47,358	\$99,783	\$106,916

Interest expense on financing liabilities includes \$4.3 million and \$10.5 million of fees incurred during the three and six months ended June 30, 2016, respectively, in connection with our agreement to compensate NRZ/HLSS for a period of 12 months (ending in the second quarter of 2016) for certain increased costs associated with its servicing advance financing facilities that were the direct result of a previous downgrade of our S&P servicer rating.

Interest expense that we expect to be paid on the HMBS-related borrowings is included with net fair value gains in Other revenues.

Note 15 – Basic and Diluted Earnings (Loss) per Share

Basic earnings or loss per share excludes common stock equivalents and is calculated by dividing net income or loss attributable to Ocwen common stockholders by the weighted average number of common shares outstanding during the period. We calculate diluted earnings or loss per share by dividing net income attributable to Ocwen by the weighted average number of common shares outstanding including the potential dilutive common shares related to outstanding stock options and restricted stock awards. The following is a reconciliation of the calculation of basic loss per share to diluted loss per share:

Periods ended June 30,	Three Months		Six Months	
	2017	2016	2017	2016
Basic loss per share				
Net loss attributable to Ocwen stockholders	\$(44,507)	\$(87,378)	\$(77,231)	\$(198,709)
Weighted average shares of common stock	124,582,280	123,893,752	124,300,171	123,993,545
Basic loss per share	\$(0.36)	\$(0.71)	\$(0.62)	\$(1.60)
Diluted loss per share (1)				
Net loss attributable to Ocwen stockholders	\$(44,507)	\$(87,378)	\$(77,231)	\$(198,709)
Weighted average shares of common stock	124,582,280	123,893,752	124,300,171	123,993,545
Effect of dilutive elements (1):				
Stock option awards	—	—	—	—
Common stock awards	—	—	—	—
Dilutive weighted average shares of common stock	124,582,280	123,893,752	124,300,171	123,993,545
Diluted loss per share	\$(0.36)	\$(0.71)	\$(0.62)	\$(1.60)
Stock options and common stock awards excluded from the computation of diluted earnings per share				
Anti-dilutive (2)	6,709,154	7,979,821	4,382,684	7,482,868
Market-based (3)	862,446	2,045,725	862,446	2,045,725

- For the three and six months ended June 30, 2017 and 2016, we have excluded the effect of stock options and
- (1) common stock awards from the computation of diluted loss per share because of the anti-dilutive effect of our reported net loss.
 - (2) Stock options were anti-dilutive because their exercise price was greater than the average market price of Ocwen's stock.
 - (3) Shares that are issuable upon the achievement of certain market-based performance criteria related to Ocwen's stock price.

Note 16 – Business Segment Reporting

Our business segments reflect the internal reporting that we use to evaluate operating performance of services and to assess the allocation of our resources. While our expense allocation methodology for the current period is consistent with that used in prior periods presented, during the first quarter of 2017, we moved certain functions which had been associated with corporate cost centers to our Lending and Servicing segments because these functions align more closely with those segments. As applicable, the results of operations for the three and six months ended June 30, 2016 have been recast to conform to the current period presentation. As a result of these changes, income before income taxes for the Lending segment for the three and six months ended June 30, 2016 decreased by \$2.5 million and \$5.1 million, respectively, while loss before income taxes for the Servicing segment decreased by the same amounts for the same periods.

A brief description of our current business segments is as follows:

Servicing. This segment is primarily comprised of our core residential servicing business. We provide residential and commercial mortgage loan servicing, special servicing and asset management services. We earn fees for providing these services to owners of the mortgage loans and foreclosed real estate. In most cases, we provide these services either because we purchased the MSR from the owner of the mortgage, retained the MSR on the sale of residential mortgage loans or because we entered into a subservicing or special servicing agreement with the entity that owns the MSR. Our residential servicing

portfolio includes conventional, government-insured and non-Agency loans. Non-Agency loans include subprime loans, which represent residential loans that generally did not qualify under GSE guidelines or have subsequently become delinquent.

Lending. The Lending segment is focused on originating and purchasing conventional and government-insured residential forward and reverse mortgage loans mainly through our broker relationships and directly with mortgage customers. The loans are typically sold shortly after origination into a liquid market on a servicing retained (securitization) or servicing released (sale to a third party) basis.

Corporate Items and Other. Corporate Items and Other includes revenues and expenses of ACS and CR Limited (CRL), our wholly-owned captive reinsurance subsidiary, and our other business activities that are individually insignificant, revenues and expenses that are not directly related to other reportable segments, interest income on short-term investments of cash, interest expense on corporate debt and certain corporate expenses. Our cash balances are included in Corporate Items and Other. ACS provides short-term inventory-secured loans to independent used car dealers to finance their inventory.

We allocate a portion of interest income to each business segment, including interest earned on cash balances and short-term investments. We also allocate expenses incurred by corporate support services to each business segment.

Financial information for our segments is as follows:

	Servicing	Lending	Corporate Items and Other	Corporate Eliminations	Business Segments Consolidated

Note 17 – Regulatory Requirements

Our business is subject to extensive regulation by federal, state and local governmental authorities, including the CFPB, the Department of Housing and Urban Development (HUD), the SEC and various state agencies that license, audit and conduct examinations of our loan servicing, origination and collection activities. In addition, we operate under a number of regulatory settlements that subject us to ongoing monitoring or reporting. From time to time, we also receive requests (including requests in the form of subpoenas and civil investigative demands) from federal, state and local agencies for records, documents and information relating to the policies, procedures and practices of our loan servicing, origination and collection activities. The GSEs (and their conservator, the Federal Housing Finance Authority (FHFA)), Ginnie Mae, the United States Treasury Department, various investors, non-Agency securitization trustees and others also subject us to periodic reviews and audits.

In the current regulatory environment, we have faced and expect to continue to face heightened regulatory and public scrutiny as an organization as well as stricter and more comprehensive regulation of the entire mortgage sector. We continue to work diligently to assess and understand the implications of the regulatory environment in which we operate and to meet the requirements of the changing environment in which we operate. We devote substantial resources to regulatory compliance, while, at the same time, striving to meet the needs and expectations of our customers, clients and other stakeholders. Our failure to comply with applicable federal, state and local laws, regulations and licensing requirements could lead to (i) loss of our licenses and approvals to engage in our servicing and lending businesses, (ii) governmental investigations and enforcement actions, including cease and desist orders, (iii) administrative fines and penalties and litigation, (iv) civil and criminal liability, including class action lawsuits and actions to recover incentive and other payments made by governmental entities, (v) breaches of covenants and representations under our servicing, debt or other agreements, (vi) damage to our reputation, (vii) inability to raise capital or otherwise fund our operations and (viii) inability to execute on our business strategy. In addition to amounts

paid to resolve regulatory matters, we could be required to pay for the costs of third-party firms to monitor our compliance with such resolutions. We have recognized \$175.9 million in such third-party monitoring costs from January 1, 2014 through June 30, 2017 in connection with the 2013 Ocwen National Mortgage Settlement, our 2014 settlement with the NY DFS and our 2015 settlement with the CA DBO.

We must comply with a large number of federal, state and local consumer protection laws including, among others, the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act), the Telephone Consumer Protection Act, the Gramm-Leach-Bliley Act, the Fair Debt Collection Practices Act, the Real Estate Settlement Procedures Act (RESPA), the Truth in Lending Act (TILA), the Servicemembers Civil Relief Act, the Homeowners Protection Act, the Federal Trade Commission Act, the Fair Credit Reporting Act and the Equal Credit Opportunity Act, as well as individual state licensing and foreclosure laws, individual state and local laws relating to registration of vacant or foreclosed properties, and federal and local bankruptcy rules. These statutes apply to many facets of our business, including loan origination, default servicing and collections, use of credit reports, safeguarding of non-public personally identifiable information about our customers, foreclosure and claims handling, investment of and interest payments on escrow balances and escrow payment features, and mandate certain disclosures and notices to borrowers. These requirements can and do change as statutes and regulations are enacted, promulgated, amended, interpreted and enforced, and the actions of legislative bodies and regulatory agencies relating to a particular matter or business practice may or may not be coordinated or consistent. As a result, ensuring ongoing compliance with applicable legal and regulatory requirements can be challenging. The recent trend among federal, state and local lawmakers and regulators has been toward increasing laws, regulations and investigative proceedings with regard to residential real estate lenders and servicers.

Ocwen has various subsidiaries, including OLS, Homeward and Liberty, that are licensed to originate and/or service forward and reverse mortgage loans in those jurisdictions in which they operate and which require licensing. Our licensed entities are required to renew their licenses, typically on an annual basis, and to do so they must satisfy the license renewal requirements of each jurisdiction, which generally include financial requirements such as providing audited financial statements or satisfying minimum net worth requirements and non-financial requirements such as satisfactory completion of examinations relating to the licensee's compliance with applicable laws and regulations. Failure to satisfy any of the requirements to which our licensed entities are subject could result in a variety of regulatory actions ranging from a fine, a directive requiring a certain step to be taken, a suspension or, ultimately, a revocation of a license, any of which could have a material adverse impact on our business, reputation, results of operations and financial condition. The minimum net worth requirements to which our licensed entities are subject are unique to each state and type of license. We believe our licensed entities were in compliance with all of their minimum net worth requirements at June 30, 2017.

As discussed in Note 19 – Contingencies, since April 20, 2017, the CFPB, two state attorneys general and thirty state mortgage and banking regulatory agencies have taken regulatory action against us alleging breaches of various laws, regulations and licensing requirements. We believe we have factual and legal defenses to the CFPB's and the state attorneys general's allegations and intend to vigorously defend ourselves. With respect to the state regulatory agencies, we intend to vigorously defend against unfounded claims while continuing to work with the state regulatory agencies to resolve their concerns.

OLS, Homeward and Liberty are also subject to seller/servicer obligations under agreements with one or more of the GSEs, HUD, FHA, VA and Ginnie Mae. These seller/servicer obligations include financial requirements, including capital requirements related to tangible net worth, as defined by the applicable agency, as well as extensive requirements regarding servicing, selling and other matters. To the extent that these requirements are not met or waived, the applicable agency may, at its option, utilize a variety of remedies including requirements to deposit funds as security for our obligations, sanctions, suspension or even termination of approved seller/servicer status, which would prohibit future originations or securitizations of forward or reverse mortgage loans or servicing for the applicable agency. Any of these actions could have a material adverse impact on us. To date, none of these counterparties has communicated any material sanction, suspension or prohibition in connection with our seller/servicer obligations. We believe we were in compliance with the related net worth requirements at June 30, 2017. Our non-Agency servicing agreements also contain requirements regarding servicing practices and other matters, and a failure to comply with these requirements could have a material adverse impact on our business. The most restrictive of the various net worth requirements referenced above is based on the total assets of OLS, and the required net worth was \$381.0 million at June 30, 2017.

There are a number of foreign laws and regulations that are applicable to our operations in India and the Philippines, including laws and regulations that govern licensing, employment, safety, taxes and insurance and laws and regulations that govern the creation, continuation and the winding up of companies as well as the relationships between shareholders, our corporate entities, the public and the government in these countries. Non-compliance with the laws and regulations of India or the Philippines could result in adverse actions against us, including (i) restrictions on our operations in these countries, (ii) fines, penalties or sanctions or (iii) reputational damage.

Note 18 — Commitments

Unfunded Lending Commitments

We have originated floating-rate reverse mortgage loans under which the borrowers have additional borrowing capacity of \$1.3 billion at June 30, 2017. This additional borrowing capacity is available on a scheduled or unscheduled payment basis. We also had short-term commitments to lend \$207.4 million and \$38.2 million in connection with our forward and reverse mortgage loan interest rate lock commitments, respectively, outstanding at June 30, 2017. We finance originated and purchased forward and reverse mortgage loans with repurchase and participation agreements, commonly referred to as warehouse lines.

Long Term Contracts

Our business is currently dependent on many of the services and products provided by Altisource Portfolio Solutions, S.A. (Altisource) under long-term agreements, many of which include renewal provisions. Our servicing platform runs on an information technology system that we license from Altisource. If Altisource were to fail to fulfill its contractual obligations to us, including through a failure to provide services at the required level to maintain and support our systems, or if Altisource were to become unable to fulfill such obligations, our business and operations would suffer. In addition, if Altisource fails to develop and maintain its technology so as to provide us with a competitive platform, our business could suffer.

Each of Ocwen and OMS are parties to a Services Agreement, a Technology Products Services Agreement, an Intellectual Property Agreement and a Data Center and Disaster Recovery Services Agreement with Altisource. Under the Services Agreements, Altisource provides various business process outsourcing services, such as valuation services and property preservation and inspection services, among other things. Altisource provides certain technology products and support services under the Technology Products Services Agreements and the Data Center and Disaster Recovery Services Agreements. These agreements expire August 31, 2025. Ocwen and Altisource have also entered into a Master Services Agreement pursuant to which Altisource provides certain loan origination services to Homeward and Liberty, and a General Referral Fee agreement pursuant to which Ocwen receives referral fees which are paid out of the commission that would otherwise be paid to Altisource as the selling broker in connection with real estate sales services provided by Altisource.

Certain services provided by Altisource under these agreements are charged to the borrower and/or mortgage loan investor. Accordingly, such services, while derived from our loan servicing portfolio, are not reported as expenses by Ocwen. These services include residential property valuation, residential property preservation and inspection services, title services and real estate sales-related services. Similar to other vendors, in the event that Altisource's activities do not comply with the applicable servicing criteria, we could be exposed to liability as the servicer and it could negatively impact our relationships with our servicing clients, borrowers or regulators, among others.

Note 19 – Contingencies

When we become aware of a matter involving uncertainty for which we may incur a loss, we assess the likelihood of any loss. If a loss contingency is probable and the amount of the loss can be reasonably estimated, we record an accrual for the loss. In such cases, there may be an exposure to potential loss in excess of the amount accrued. Where a loss is not probable but is reasonably possible or where a loss in excess of the amount accrued is reasonably possible, we disclose an estimate of the amount of the loss or range of possible losses for the claim if a reasonable estimate can be made, unless the amount of such reasonably possible loss is not material to our financial position, results of operations or cash flows. If a reasonable estimate of loss cannot be made, we do not accrue for any loss or disclose any estimate of exposure to potential loss even if the potential loss could be material and adverse to our business, reputation, financial condition and results of operations. An assessment regarding the ultimate outcome of any such matter involves judgments about future events, actions and circumstances that are inherently uncertain. The actual outcome could differ materially. Where we have retained external legal counsel or other professional advisers, such advisers assist us in making such assessments.

Litigation

In the ordinary course of business, we are a defendant in, or a party or potential party to, many threatened and pending legal proceedings, including proceedings brought by regulatory agencies (discussed further under "Regulatory" below), those brought on behalf of various classes of claimants, and those brought derivatively on behalf of Ocwen against

certain current or former officers and directors or others.

These proceedings are generally based on alleged violations of federal, state and local laws and regulations governing our mortgage servicing and lending activities, including wrongful foreclosure and eviction actions, allegations of wrongdoing in connection with lender-placed insurance arrangements, claims relating to our pre-foreclosure property preservation activities, claims relating to our written and telephonic communications with our borrowers such as claims under the Telephone Consumer Protection Act, claims related to our payment, escrow and other processing operations, and claims regarding certifications of our legal compliance related to our participation in certain government programs. In some of these proceedings, claims for substantial monetary damages are asserted against us.

In view of the inherent difficulty of predicting the outcome of any threatened or pending legal proceedings, particularly where the claimants seek very large or indeterminate damages or where the matters present novel legal theories or involve a large number of parties, we generally cannot predict what the eventual outcome of such proceedings will be, what the timing of the ultimate resolution will be, or what the eventual loss, if any, will be. Any material adverse resolution could materially and adversely affect our business, reputation, financial condition and results of operations.

Where we determine that a loss contingency is probable in connection with a pending or threatened legal proceeding and the amount of our loss can be reasonably estimated, we record an accrual for the loss. Excluding expenses of internal or external legal counsel, we have accrued \$86.1 million as of June 30, 2017 for losses relating to threatened and pending litigation that we believe are probable and reasonably estimable based on current information regarding these matters. Where we determine that a loss is not probable but is reasonably possible or where a loss in excess of the amount accrued is reasonably possible, we disclose an estimate of the amount of the loss or range of possible losses for the claim if a reasonable estimate can be made, unless the amount of such reasonably possible loss is not material to our financial position, results of operations or cash flows. It is possible that we will incur losses relating to threatened and pending litigation that materially exceed the amount accrued. We cannot currently estimate the amount, if any, of reasonably possible losses above amounts that have been recorded at June 30, 2017.

We have previously disclosed several securities fraud class action lawsuits filed against Ocwen and certain of its officers and directors that contain allegations in connection with the restatements of our 2013 and first quarter 2014 financial statements and our December 2014 Consent Order with the NY DFS, among other matters. Those lawsuits have been consolidated and are pending in the United States District Court for the Southern District of Florida in the matter captioned *In re Ocwen Financial Corporation Securities Litigation*, 9:14-cv-81057-WPD (S.D. Fla.) (such consolidated lawsuit, the Securities Class Action).

On July 19, 2017, following a mediated settlement process resulting in all parties' acceptance of the mediator's recommendation for settlement, the parties advised the court that we have reached an agreement in principle to settle this matter. Following the filing of a joint motion requesting adjournment, the court has adjourned further proceedings pending approval of the final settlement. Subject to documentation of a definitive settlement and final approval by the court, the settlement will include an aggregate cash payment by Ocwen to the plaintiffs of \$49.0 million (of which Ocwen expects to recover \$14.0 million from insurance proceeds), and an issuance to the plaintiffs of an aggregate of 2,500,000 shares of Ocwen's common stock. Under certain circumstances related to the price of Ocwen's common stock over the five trading days prior to court approval of the settlement, the amount of shares issuable could be increased so that the aggregate number of shares issued has a total value of \$7.0 million. However, in no event will Ocwen be required to issue more than 4% of the number of shares of its common stock outstanding as of the date of court approval. Further, in lieu of issuing shares, Ocwen may elect to pay the plaintiffs \$7.0 million in cash. Attorneys' fees for the plaintiffs will be paid from the amounts described above.

We have accrued an aggregate of \$56.0 million as of June 30, 2017 in connection with this settlement in principle as we believe this loss is probable and reasonably estimable based on current information regarding this matter. We cannot currently estimate the amount, if any, of reasonably possible loss above such accrual. The \$56.0 million is included within the \$86.1 million litigation accrual referenced above. Recoveries from insurance will reduce our aggregate exposure for this matter and have been recorded as a reduction of Professional services expense in the unaudited consolidated statements of operations.

While Ocwen believes that it has sound legal and factual defenses, Ocwen agreed to this settlement in principle in order to avoid the uncertain outcome of litigation and the additional expense and demands on the time of its senior management that a trial would involve. There can be no assurance that the settlement in principle will be finalized and approved by the court. In the event the settlement in principle is not ultimately finalized and approved, the litigation would continue and we would vigorously defend the allegations made against Ocwen. If our efforts to defend against such claims were not successful, our business, financial condition, liquidity and results of operations could be materially and adversely affected.

In January 2016, Ocwen was named as a defendant in a separate "opt-out" securities fraud action brought on behalf of certain putative shareholders of Ocwen based on similar allegations to those contained in the securities fraud class

action lawsuit described above. See *Broadway Gate Master Fund, Ltd. et al. v. Ocwen Financial Corporation et al.*, 9:16-cv-80056-WPD (S.D. Fla.). Additional lawsuits may be filed against us in relation to these matters. At this time, Ocwen is unable to predict the outcome of this existing “opt-out” lawsuit or any additional lawsuits that may be filed, the possible loss or range of loss, if any, associated with the resolution of such lawsuits or the potential impact such lawsuits may have on us or our operations. Ocwen and the other defendants intend to vigorously defend against such lawsuits. If our efforts to defend these lawsuits are not successful, our business, financial condition, liquidity and results of operations could be materially and adversely affected.

As a result of the federal and state regulatory actions described below under “Regulatory”, and the impact on our stock price, several putative securities fraud class action lawsuits have been filed against Ocwen and certain of its officers that contain allegations in connection with Ocwen’s statements concerning its efforts to satisfy the evolving regulatory environment,

and the resources it devoted to regulatory compliance, among other matters. Additional lawsuits may be filed against us in relation to these matters. At this time, Ocwen is unable to predict the outcome of these existing lawsuits or any additional lawsuits that may be filed, the possible loss or range of loss, if any, associated with the resolution of such lawsuits or the potential impact such lawsuits may have on us or our operations. Ocwen and the other defendants intend to vigorously defend against such lawsuits. If our efforts to defend these lawsuits are not successful, our business, financial condition, liquidity and results of operations could be materially and adversely affected.

Ocwen has been named in putative class actions and individual actions related to its compliance with the Telephone Consumer Protection Act. Generally, plaintiffs in these actions allege that Ocwen knowingly and willfully violated the Telephone Consumer Protection Act by using an automated telephone dialing system to call class members' cell phones without their consent. On July 28, 2017, Ocwen entered into an agreement in principle to resolve two such putative class actions, which have been consolidated in the United States District Court for the Northern District of Illinois. See *Snyder v. Ocwen Loan Servicing, LLC*, 1:14-cv-08461-MFK (N.D. Ill.); *Beecroft v. Ocwen Loan Servicing, LLC*, 1:16-cv-08677-MFK (N.D. Ill.). Subject to documentation of a definitive settlement and final approval by the court, the settlement will include the establishment of a settlement fund to be distributed to impacted borrowers that submit claims for settlement benefits pursuant to a claims administration process. Our accrual with respect to this matter is included in the \$86.1 million litigation accrual referenced above. We cannot currently estimate the amount, if any, of reasonably possible loss above the amount accrued.

While Ocwen believes that it has sound legal and factual defenses, Ocwen agreed to this settlement in principle in order to avoid the uncertain outcome of litigation and the additional expense and demands on the time of its senior management that such litigation would involve. There can be no assurance that the settlement in principle will be finalized and approved by the court. In the event the settlement in principle is not ultimately finalized and approved, the litigation would continue, and we would vigorously defend the allegations made against Ocwen, including by challenging any motions for class certification. Additional lawsuits may be filed against us in relation to these matters. At this time, Ocwen is unable to predict the outcome of these existing lawsuits or any additional lawsuits that may be filed, the possible loss or range of loss, if any, associated with the resolution of such lawsuits or the potential impact such lawsuits may have on us or our operations. Ocwen intends to vigorously defend against these lawsuits. If our efforts to defend these lawsuits are not successful, our business, financial condition liquidity and results of operations could be materially and adversely affected.

On February 17, 2017, OFC, OLS and Homeward signed an agreement with two qui tam relators to settle the following previously disclosed litigation matters relating to claims under the False Claims Act: (the Fisher Cases). The settlement agreement, which was subsequently approved by the United States, contained no admission of liability or wrongdoing by Ocwen and provided for the payment of \$15.0 million to the United States and \$15.0 million for the private citizens' attorneys' fees and costs. We paid the settlement amount in April 2017.

In several recent court actions, mortgage loan sellers against whom repurchase claims have been asserted based on alleged breaches of representations and warranties are defending on various grounds including the expiration of statutes of limitation, lack of notice and opportunity to cure, and vitiation of the obligation to repurchase as a result of foreclosure or charge-off of the loan. We have entered into tolling agreements with respect to our role as servicer for a small number of securitizations relating to our performance under the servicing agreements for those securitizations and may enter into additional tolling agreements in the future. Other court actions have been filed against certain RMBS trustees alleging that the trustees breached their contractual and statutory duties by, among other things, failing to require the loan servicers to abide by the servicers' obligations and failing to declare that certain alleged servicing events of default under the applicable contracts occurred.

Ocwen is a party in certain of these actions, is the servicer for certain securitizations involved in other such actions and is the servicer for other securitizations as to which actions have been threatened by certificate holders. We intend to vigorously defend ourselves in the lawsuits to which we have been named a party. Should Ocwen be made a party to other similar actions or should Ocwen be asked to indemnify any parties to such actions, we may need to defend ourselves against allegations that we failed to service loans in accordance with applicable agreements and that such failures prejudiced the rights of repurchase claimants against loan sellers or otherwise diminished the value of the trust collateral. At this time, we are unable to predict the ultimate outcome of these lawsuits, the possible loss or range of

loss, if any, associated with the resolution of these lawsuits or any potential impact they may have on us or our operations. If, however, we were required to compensate claimants for losses related to the alleged loan servicing breaches, then our business, liquidity, financial condition and results of operations could be adversely affected. In addition, a number of RMBS trustees have received notices of default alleging material failures by servicers to comply with applicable servicing agreements. Although Ocwen has not yet been sued by an RMBS trustee in response to a notice of default, there is a risk that Ocwen could be replaced as servicer as a result of said notices, that the trustees could take legal action on behalf of the trust certificateholders, or, under certain circumstances, that the investors who issue notices of default could seek to press their allegations against Ocwen, independent of the trustees. At present, one such group of affiliated investors sought to direct one trustee to bring suit against Ocwen. The trustee declined to bring suit, and the investors instead brought suit against Ocwen directly. Ocwen is vigorously defending itself in that action. We are unable at this time to predict

what, if any, actions any trustee will take in response to a notice of default, nor can we predict at this time the potential loss or range of loss, if any, associated with the resolution of any notices of default or the potential impact on our operations. If Ocwen were to be terminated as servicer, or other related legal actions were pursued against Ocwen, it could have an adverse effect on Ocwen's business, financing activities, financial condition and results of operations.

Regulatory

We are subject to a number of ongoing federal and state regulatory examinations, cease and desist orders, consent orders, inquiries, subpoenas, civil investigative demands, requests for information and other actions. Where we determine that a loss contingency is probable in connection with a regulatory matter and the amount of our loss can be reasonably estimated, we record an accrual for the loss. Where we determine that a loss is not probable but is reasonably possible or where a loss in excess of the amount accrued is reasonably possible, we disclose an estimate of the amount of the loss or range of possible losses for the claim if a reasonable estimate can be made, unless the amount of such reasonably possible loss is not material to our financial position, results of operations or cash flows. It is possible that we will incur losses relating to regulatory matters that materially exceed any accrued amount. Predicting the outcome of any regulatory matter is inherently difficult and we generally cannot predict the eventual outcome of any regulatory matter or the eventual loss, if any, associated with the outcome.

CFPB

On April 20, 2017, the CFPB filed a lawsuit in the federal district court for the Southern District of Florida against Ocwen, OMS and OLS alleging violations of federal consumer financial laws relating to our servicing business dating back to 2014. The CFPB's claims include allegations regarding (1) the adequacy of Ocwen's servicing platform and integrity of Ocwen's mortgage servicing data, (2) Ocwen's foreclosure practices and (3) various purported servicer errors with respect to borrower escrow accounts, hazard insurance policies, timely cancellation of private mortgage insurance, handling of customer complaints, and marketing of optional products. The CFPB alleges violations of unfair, deceptive acts or abusive practices, as well as violations of specific laws or regulations. The CFPB does not claim specific monetary damages, although it does seek consumer relief, disgorgement of allegedly improper gains, and civil money penalties. We believe we have factual and legal defenses to the CFPB's allegations and intend to vigorously defend ourselves.

Prior to the CFPB instituting legal proceedings, we had been engaged with the CFPB in efforts to resolve the matter. We recorded \$12.5 million as of December 31, 2016 as a result of these discussions. If we are successful in defending ourselves against the CFPB, it is possible that our losses could be less than \$12.5 million. It is also possible that we could incur losses that materially exceed the amount accrued, and the resolution of the matters raised by the CFPB could have a material adverse impact on our business, reputation, financial condition, liquidity and results of operations. We cannot currently estimate the amount, if any, of reasonably possible loss above amounts previously accrued.

State Licensing, State Attorneys General and Other Matters

Our licensed entities are required to renew their licenses, typically on an annual basis, and to do so they must satisfy the license renewal requirements of each jurisdiction, which generally include financial requirements such as providing audited financial statements or satisfying minimum net worth requirements and non-financial requirements such as satisfactorily completing examinations as to the licensee's compliance with applicable laws and regulations. Failure to satisfy any of the requirements to which our licensed entities are subject could result in a variety of regulatory actions ranging from a fine, a directive requiring a certain step to be taken, a suspension or, ultimately, a revocation of a license, any of which could have a material adverse impact on our results of operations and financial condition. In addition, we receive information requests and other inquiries, both formal and informal in nature, from our state financial regulators as part of their general regulatory oversight of our loan origination and servicing businesses. We also regularly engage with state attorneys general and the CFPB and, on occasion, we engage with other federal agencies, including the Department of Justice and various inspectors general on various matters, including responding to information requests and other inquiries. Many of our regulatory engagements arise from a complaint that the entity is investigating, although some are formal investigations or proceedings. The GSEs (and their conservator, FHFA), HUD, FHA, VA, Ginnie Mae, the United States Treasury Department, and others also subject us to periodic reviews and audits. We have in the past resolved, and may in the future resolve, matters via consent orders

or payment of monetary amounts to settle issues identified in connection with examinations or regulatory or other oversight activities, and such resolutions could have material and adverse effects on our business, reputation, operations, results of operations and financial condition.

On April 20, 2017 and subsequently, thirty state mortgage and banking regulatory agencies issued orders against OLS and certain other Ocwen companies. In general, the orders are styled as “cease and desist orders,” and we use that term to refer to all of the orders for ease of reference; we also include the District of Columbia regulator as a state regulator for ease of reference. All of the cease and desist orders apply to OLS, but additional Ocwen entities are named in some state orders, including Ocwen Financial Corporation, OMS, Homeward and Liberty. While each state’s cease and desist order is different, the orders generally prohibit a range of actions, including (1) acquiring new MSRs (17 states), (2) originating or acquiring new

mortgage loans, where we would be the servicer (13 states), (3) originating or acquiring new mortgage loans (4 states) and (4) conducting foreclosure activities (2 states), among others. We intend to vigorously defend ourselves against unfounded claims while continuing to work with these regulatory agencies to resolve their concerns. In July 2017, and in connection with the state cease and desist orders, we received a subpoena seeking information relating to lender placed insurance activities. We are cooperating with the subpoena request. We have reached agreements with certain regulatory agencies to obtain delays in the enforcement of certain terms or exceptions to certain terms contained in the cease and desist orders. Additionally, we have revised our operations, where necessary, so as to comply with the orders while we attempt to negotiate resolutions. For example, in certain states, we are arranging to release servicing on new originations, and we temporarily paused our origination activities in two states during the quarter until we received clarification from the states' authorities about the permissibility of such activities under the respective orders. If we are unable to obtain timely resolutions in certain states, more serious consequences could result. For example, we could be required to transfer all of our mortgage servicing in Massachusetts and we could be required to cease mortgage servicing in Rhode Island. We resolved an outstanding Order in one state by surrendering a dormant lending license, and the state's Order expired. There were no other substantive terms to this resolution. It is possible that the outcome of these state regulatory actions, whether through negotiated settlements or other resolutions, could be materially adverse to our business, reputation, financial condition, liquidity and results of operations. We cannot currently estimate the amount, if any, of reasonably possible loss related to these matters.

Certain of the state regulators' cease and desist orders reference a confidential supervisory memorandum of understanding (MOU) that we entered into with the Multistate Mortgage Committee (MMC), a multistate coalition of various mortgage banking regulators, and six states relating to a servicing examination from 2013 to 2015. The MOU contained various provisions relating to servicing practices and safety and soundness aspects of the regulatory review, as a step toward closing the 2013-2015 examination. There were no monetary or other penalties under the MOU.

Ocwen responded to the MOU items.

We are continuing to discuss matters with the state regulators that have issued cease and desist orders as we seek to resolve their concerns.

In April 2017, and concurrent with the filing of the CFPB lawsuit discussed above, two state attorneys general took actions against us relating to our servicing practices. The Florida Attorney General filed a lawsuit in the federal district court for the Southern District of Florida against Ocwen, OMS and OLS alleging violations of federal and state consumer financial laws relating to our servicing business. These claims are similar to the claims made by the CFPB. The Florida Attorney General's lawsuit seeks injunctive and equitable relief, costs, and civil money penalties in excess of \$10,000 per confirmed violation of the applicable statute. As previously disclosed, the Massachusetts Attorney General had sent us a civil investigative demand requesting information relating to various aspects of our servicing practices, including lender-placed insurance and property preservation fees. Subsequently, the Massachusetts Attorney General filed a lawsuit against OLS in the Superior Court for the Commonwealth of Massachusetts alleging violations of state consumer financial laws relating to our servicing business, including with respect to our activities relating to lender-placed insurance and property preservation fees. The Massachusetts Attorney General's lawsuit seeks injunctive and equitable relief, costs, and civil money penalties of \$5,000 per confirmed violation of the applicable statute. We believe we have valid defenses to the claims made in both lawsuits and are vigorously defending ourselves in both of them. The outcome of these two lawsuits, whether through negotiated settlements in conjunction with other state settlements or otherwise, could be materially adverse to our business, reputation, financial condition, liquidity and results of operations. We cannot currently estimate the amount, if any, of reasonably possible loss related to these matters.

On occasion, we engage with agencies of the federal government on various matters. For example, OLS received a letter from the Department of Justice, Civil Rights Division, notifying OLS that the Department of Justice had initiated a general investigation into OLS's policies and procedures to determine whether violations of the Servicemembers Civil Relief Act by OLS might exist. The letter stated that at this point, the investigation is preliminary in nature and the Department of Justice has not made any determination as to whether OLS violated the act. In addition, Ocwen is one of three defendants in an administrative complaint pending with HUD brought by a non-profit organization alleging discrimination in the manner in which the company maintains REO properties in

minority communities. We believe the allegations to be without merit and will vigorously defend.

In April 2017, Ocwen received a subpoena from the Office of Inspector General of HUD requesting the production of documentation related to lender-placed insurance arrangements with a mortgage insurer and the amounts paid for such insurance. We understand that other servicers in the industry have received similar subpoenas.

In July 2017, we received a letter from Ginnie Mae in which Ginnie Mae informed us that the state regulators' cease and desist orders discussed above create a material change in Ocwen's business status under Chapter 3 of the Ginnie Mae MBS Guide, and Ginnie Mae has accordingly declared an event of default under Guaranty Agreements between Ocwen and Ginnie Mae. In the letter, Ginnie Mae notified Ocwen that it will forbear from immediately exercising any rights relating to this matter for a period of 90 days from the date of the letter. During such forbearance period, Ginnie Mae has asked Ocwen to provide certain information regarding the cease and desist orders and certain information regarding Ocwen's business plan, financial results and operations. Ginnie Mae stated that it reserves the right to make additional requests of Ocwen and to restrict or

terminate Ocwen's participation in the Ginnie Mae mortgage-backed securities program. Based on our conversations with Ginnie Mae, we understand that Ginnie Mae views this as a violation with a prescribed remedy and that the purpose of the notice is to provide for a period of resolution. We have provided and intend to continue to provide information to Ginnie Mae as we seek to resolve its concerns, including with respect to our efforts to settle the state regulatory matters discussed above. Ginnie Mae has indicated to us that resolution of the state regulators' cease and desist orders would address its concerns and that there may be other alternatives to address them as well. We continue to operate as a Ginnie Mae issuer in all respects and continue to participate in Ginnie Mae issuing of mortgage-backed securities and home equity conversion loan pools in the ordinary course.

Adverse actions by Ginnie Mae could materially and adversely impact our business, reputation, financial condition, liquidity and results of operations, including if Ginnie Mae were to terminate us as an issuer or servicer of Ginnie Mae securities or otherwise take action indicating that such a termination was planned. For example, such actions could make financing our business more difficult, including by making future financing more expensive or if a lender were to allege a default under our debt agreements, which could trigger cross-defaults under all of our other material debt agreements.

New York Department of Financial Services

In December 2014, we entered into a consent order (the 2014 NY Consent Order) with the NY DFS as a result of an investigation relating to Ocwen's servicing of residential mortgages. The 2014 NY Consent Order contained monetary and non-monetary provisions including the appointment of a third-party operations monitor (NY Operations Monitor) to monitor various aspects of our operations and restrictions on our ability to acquire MSRs that effectively prohibit any such future acquisitions until we have satisfied certain specified conditions. We were also required to pay all reasonable and necessary costs of the NY Operations Monitor, and those costs were substantial.

On March 27, 2017, we entered into a consent order (the 2017 NY Consent Order) with the NY DFS that provided for (1) the termination of the engagement of the NY Operations Monitor on April 14, 2017, (2) a regulatory examination of our servicing business, following which the NY DFS would make a determination on whether the restrictions on our ability to acquire MSRs contained in the 2014 NY Consent Order should be eased and (3) certain reporting and other obligations, including in connection with matters identified in a final report by the NY Operations Monitor. In addition, the 2017 NY Consent Order provides that if the NY DFS concludes that we have materially failed to comply with our obligations under the order or otherwise finds that our servicing operations are materially deficient, the NY DFS may, among other things, and, in addition to its general authority to take regulatory action against us, require us to retain an independent consultant to review and issue recommendations on our servicing operations.

The NY Operations Monitor delivered its final report on April 14, 2017 when its engagement terminated. The final report contained certain recommended operational enhancements to which we have responded. Under the 2017 NY Consent Order, we are required to update the NY DFS quarterly on our implementation of the enhancements that we and the NY DFS agreed should be made. Our updates to date show that all agreed upon enhancements are being implemented.

California Department of Business Oversight

In January 2015, OLS entered into a consent order (the 2015 CA Consent Order) with the CA DBO relating to our failure to produce certain information and documents during a routine licensing examination. The order contained monetary and non-monetary provisions, including the appointment of an independent third-party auditor (the CA Auditor) to assess OLS' compliance with laws and regulations impacting California borrowers and a prohibition on acquiring any additional MSRs for loans secured in California. We were also required to pay all reasonable and necessary costs of the CA Auditor, and those costs were substantial.

On February 17, 2017, OLS and two other subsidiaries, Ocwen Business Solutions, Inc. (OBS) and OFSPL, reached an agreement, in three consent orders (collectively, the 2017 CA Consent Order), with the CA DBO that terminated the 2015 CA Consent Order and resolved open matters between the CA DBO and OLS, OBS and OFSPL, including certain matters relating to OLS' servicing practices and the licensed activities of OBS and OFSPL. The 2017 CA Consent Order does not involve any admission of wrongdoing by OLS, OBS or OFSPL. Additionally, we have certain reporting and other obligations under the 2017 CA Consent Order. We believe that we have completed those obligations of the 2017 CA Consent Order that have already come due, and we have so notified the CA DBO. If the

CA DBO were to allege that we failed to comply with these obligations or otherwise were in breach of applicable laws, regulations or licensing requirements, it could take regulatory action against us.

Ocwen National Mortgage Settlement

In December 2013, we entered into a settlement with the CFPB and various state attorneys general and other state agencies that regulate the mortgage servicing industry relating to various allegations regarding deficient mortgage servicing practices, including those with respect to foreclosures (the Ocwen National Mortgage Settlement). The settlement contained monetary and non-monetary provisions, including quarterly testing on various metrics to ensure compliance with the Ocwen National Mortgage Settlement.

For periods prior to 2016, the Office of Mortgage Settlement Oversight (OMSO) reports have detailed a number of instances where our testing has exceeded the applicable error rate threshold for a specific metric. Exceeding the metric error rate threshold for the first time does not result in a violation of the settlement, but rather it is deemed a “potential violation” which then is subject to a cure period following submission, approval and completion of a corrective action plan (CAP) to OMSO. Any further fails in the cure period or the quarter following that cure period could subject us to financial penalties. These penalties start at an amount of not more than \$1.0 million for the first uncured violation and increase to an amount of not more than \$5.0 million for the second uncured violation for certain metrics. For the First Quarter 2017 report period, we have reported that we exceeded the applicable error threshold on one metric, which was in the cure period and therefore is an uncured potential violation. Thus, we are potentially subject to an award by the court of equitable relief or a civil penalty of up to \$1.0 million. In addition, in the event of substantial noncompliance with the settlement’s servicing standards, it is possible that a party to the settlement could bring an action to enforce the terms of the settlement and seek to impose on us a broader range of financial, injunctive or other penalties.

While, to date, our performance under the Ocwen National Mortgage Settlement has not resulted in financial or other penalties, if we are found to have breached the settlement terms, we could become subject to financial penalties or other regulatory action could be taken against us.

Securities and Exchange Commission

In February 2015, we received a letter from the New York Regional Office of the SEC (the Staff) informing us that it was conducting an investigation relating to the use of collection agents by mortgage loan servicers. The letter requested that we voluntarily produce documents and information. We believe that the February 2015 letter was also sent to other companies in the industry. On February 11, 2016, we received a letter from the Staff informing us that it was conducting an investigation relating to fees and expenses incurred in connection with liquidated loans and REO properties held in non-agency RMBS trusts. The letter requested that we voluntarily produce documents and information. We are cooperating with the Staff on these matters.

To the extent that an examination, monitorship, audit or other regulatory engagement results in an alleged failure by us to comply with applicable laws, regulations or licensing requirements, or if allegations are made that we have failed to comply with applicable laws, regulations or licensing requirements or the commitments we have made in connection with our regulatory settlements (whether such allegations are made through administrative actions such as cease and desist orders, through legal proceedings or otherwise) or if other regulatory actions of a similar or different nature are taken in the future against us, this could lead to (i) loss of our licenses and approvals to engage in our servicing and lending businesses, (ii) governmental investigations and enforcement actions, (iii) administrative fines and penalties and litigation, (iv) civil and criminal liability, including class action lawsuits and actions to recover incentive and other payments made by governmental entities, (v) breaches of covenants and representations under our servicing, debt or other agreements, (vi) damage to our reputation, (vii) inability to raise capital or otherwise fund our operations and (viii) inability to execute on our business strategy. Any of these occurrences could increase our operating expenses and reduce our revenues, hamper our ability to grow or otherwise materially and adversely affect our business, reputation, financial condition, liquidity and results of operations.

Loan Put-Back and Related Contingencies

Our contracts with purchasers of originated loans contain provisions that require indemnification or repurchase of the related loans under certain circumstances. While the language in the purchase contracts varies, they contain provisions that require us to indemnify purchasers of related loans or repurchase such loans if:

- representations and warranties concerning loan quality, contents of the loan file or loan underwriting circumstances are inaccurate;
- adequate mortgage insurance is not secured within a certain period after closing;
- a mortgage insurance provider denies coverage; or
- there is a failure to comply, at the individual loan level or otherwise, with regulatory requirements.

Additionally, in one of the servicing contracts that Homeward acquired in 2008 from Freddie Mac, Homeward assumed the origination representations and warranties even though it did not originate the loans.

We receive origination representations and warranties from our network of approved originators in connection with loans we purchase through our correspondent lending channel. To the extent that we have recourse against a third-party originator, we may recover part or all of any loss we incur.

We believe that, as a result of the current market environment, many purchasers of residential mortgage loans are particularly aware of the conditions under which originators must indemnify or repurchase loans and under which such purchasers would benefit from enforcing any indemnification rights and repurchase remedies they may have.

As our lending business grows, we expect that our exposure to indemnification risks and repurchase requests is likely to increase. If home values were to decrease, our realized loan losses from loan repurchases and indemnifications may increase as well. As a result, our liability for repurchases may increase beyond our current expectations. If we are required to indemnify or repurchase loans that we originate and sell, or where we have assumed this risk on loans that we service, as discussed above, in either case resulting in losses that exceed our related liability, our business, financial condition and results of operations could be adversely affected.

We have exposure to origination representation, warranty and indemnification obligations because of our lending, sales and securitization activities and in connection with our servicing practices. We initially recognize these obligations at fair value. Thereafter, the estimation of the liability considers probable future obligations based on industry data of loans of similar type segregated by year of origination, to the extent applicable, and estimated loss severity based on current loss rates for similar loans, our historical rescission rates and the current pipeline of unresolved demands. Our historical loss severity considers the historical loss experience that we incur upon sale or liquidation of a repurchased loan as well as current market conditions. We monitor the adequacy of the overall liability and make adjustments, as necessary, after consideration of other qualitative factors including ongoing dialogue and experience with our counterparties.

At June 30, 2017 and June 30, 2016, we had outstanding representation and warranty repurchase demands of \$55.8 million UPB (282 loans) and \$72.5 million UPB (354 loans), respectively. We review each demand and monitor through resolution, primarily through rescission, loan repurchase or make-whole payment.

The following table presents the changes in our liability for representation and warranty obligations, compensatory fees for foreclosures that may ultimately exceed investor timelines and similar indemnification obligations:

Six months ended June 30,	2017	2016
Beginning balance	\$24,285	\$36,615
Provision for representation and warranty obligations	(5,125)	(263)
New production reserves	381	354
Charge-offs and other (1)	209	(3,364)
Ending balance	\$19,750	\$33,342

(1) Includes principal and interest losses realized in connection with repurchased loans, make-whole, indemnification and fee payments and settlements net of recoveries, if any.

We believe that it is reasonably possible that losses beyond amounts currently recorded for potential representation and warranty obligations and other claims described above could occur, and such losses could have an adverse impact on our results of operations, financial condition or cash flows. However, based on currently available information, we are unable to estimate a range of reasonably possible losses above amounts that have been recorded at June 30, 2017.

Other

OLS, on its own behalf and on behalf of various investors, has been engaged in a variety of activities to seek payments from mortgage insurers for unpaid claims, including claims where the mortgage insurers paid less than the full claim amount. Ocwen believes that many of the actions by mortgage insurers were in violation of the applicable insurance policies and insurance law. Ocwen is in the process of settlement discussions with certain mortgage insurers. In some cases, Ocwen has entered into tolling agreements, initiated arbitration or litigation, or taken other similar actions. While we expect the ultimate outcome to result in recovery of some unpaid mortgage insurance claims, we cannot quantify the likely amount at this time.

Note 20 – Subsequent Events

As disclosed in Note 4 — Sales of Advances and MSR, on July 23, 2017, Ocwen and certain of its subsidiaries entered into a series of agreements with NRZ related to NRZ's Rights to MSR. On the same date, Ocwen and NRZ entered into a share purchase agreement pursuant to which Ocwen sold NRZ 6,075,510 shares of newly-issued Ocwen common stock for \$13.9 million. Ocwen received the sales proceeds from NRZ on July 24, 2017 and issued the shares. The shares have not been registered under the Securities Act of 1933 and were issued and sold in reliance upon the exemption from registration contained in Section 4(a)(2) of the Act and Rule 506(b) promulgated thereunder.

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF

2. OPERATIONS (Dollars in thousands, except per share amounts and unless otherwise indicated)

The following Management's Discussion and Analysis of Financial Condition and Results of Operations, as well as other portions of this Form 10-Q, may contain certain statements that constitute forward-looking statements within the meaning of the federal securities laws. You can identify forward-looking statements by terminology such as "may," "will," "should," "could," "intend," "consider," "expect," "plan," "anticipate," "believe," "estimate," "predict" or "continue" or the ne terms or other comparable terminology. Forward-looking statements by their nature address matters that are, to different degrees, uncertain. Our business has been undergoing substantial change, which has magnified such uncertainties. You should bear these factors in mind when considering such statements and should not place undue reliance on such statements. Forward-looking statements involve a number of assumptions, risks and uncertainties that could cause actual results to differ materially from those suggested by such statements. In the past, actual results have differed from those suggested by forward-looking statements, and this may happen again. You should consider all uncertainties and risks discussed or referenced in this report, including those under "Forward-Looking Statements" and Item 1A, Risk Factors, as well as those discussed in our other reports and filings with the SEC, including those in Amendment No. 1 to our Annual Report on Form 10-K for the year ended December 31, 2016 and our Current Reports on Form 8-K since such date.

OVERVIEW

We are a financial services company that services and originates loans. As of June 30, 2017, our residential servicing portfolio consisted of 1,310,110 loans with a UPB of \$194.8 billion. We primarily originate, purchase, sell and securitize conventional and government-insured forward mortgage loans and reverse mortgages. In the second quarter of 2017, our lending business originated or purchased forward and reverse mortgage loans with a UPB of \$699.5 million and \$275.4 million, respectively.

We are a leader in the servicing industry in foreclosure prevention and loss mitigation that helps families stay in their homes and improves financial outcomes for mortgage loan investors. Our leadership in the industry is evidenced by our high cure rate for delinquent loans and above average rate of continuing performance by homeowners whose loans we have modified. Overall, Ocwen has completed over 745,000 loan modifications from January 1, 2008 through June 30, 2017.

As discussed in further detail under "Operations Summary" and "Segment Results of Operations" below, while our cost improvement initiative has reduced certain of our operating expenses and we have had success in reducing monitor expenses, continuing regulatory and legal matters are negatively impacting our results.

We have faced, and expect to continue to face, heightened regulatory and public scrutiny as well as stricter and more comprehensive regulation of our business. Since April 20, 2017, the CFPB, thirty state mortgage and banking regulatory agencies and two state attorneys general took regulatory actions against us alleging various deficiencies in our compliance with laws, regulations and licensing requirements. We continue to work diligently to assess the implications of the regulatory environment in which we operate and to meet the requirements of the current environment. We devote substantial resources to regulatory compliance and to addressing regulatory actions and engagements, while, at the same time, striving to meet the needs and expectations of our customers, clients and other stakeholders. Our business, operating results and financial condition have been significantly impacted in recent periods by legal and other fees and settlement payments related to litigation and regulatory matters, including the costs of third-party monitoring firms under our regulatory settlements. To the extent we are unable to avoid, mitigate or offset similar expenses in future periods, our business, operating results and financial condition will continue to be adversely affected, even if we are successful in our ongoing efforts to optimize our cost structure and improve our financial performance.

While we believe that our reverse mortgage business has performed well this year, our forward lending business has not grown to the extent we had planned over the last eighteen months due to various factors including rising interest rates, sub-scale operations and higher costs of capital compared to many competitors and the general difficulties in refinancing a lower credit quality servicing portfolio like ours. The recent state regulatory actions against us have also negatively impacted our forward lending business because they have led us to restrict certain types of lending in some states. As such, we have taken various strategic actions with respect to our forward lending business, as we continue

to evaluate the overall mortgage lending business and marketplace. For instance, we have closed our correspondent forward lending channel due to low margins, begun selling the MSRs on all of our forward wholesale channel to reduce capital consumption, begun expanding our forward wholesale channel footprint beyond the northeast region of the United States to increase origination volumes and scale, and downsized our forward underwriting and processing operations to be more in line with our sales and marketing efforts. While these changes may limit our generation of future servicing assets in the near term, we believe that they will, over time, reduce costs and improve cash flow relative to current operations.

We are currently evaluating our long-term strategy for our Automotive Capital Services business. While we still believe that this business has long-term potential, it is a relatively capital intensive business. As our ability to raise capital at competitive levels in the current business and regulatory environment is limited, we believe the Automotive Capital Services

business may be worth more to a depository institution or an existing auto industry participant such as a consumer auto lender or an auto auction house, than it is to us. Consequently, we are considering the potential benefits of monetizing our investment in this business in the near term, depending upon the level of interest from potential buyers.

Asset sales, portfolio runoff and regulatory restrictions on acquisitions of MSRs have resulted in a 58% decline in our servicing portfolio as compared to December 31, 2013. While we continue to seek operational efficiencies to manage our cost structure as our portfolio continues to shrink, there are limits to our ability to reduce costs through operational adjustments. In addition, due to the expiration of the Federal Government's HAMP loan modification program, our servicing revenues have been negatively impacted by lower HAMP fees, which have been a significant component of servicing revenue in prior periods. We are continuing to make investments in our servicing technology. For example, we currently intend to transition to a new servicing platform and we have begun migrating to a new document storage platform. While these investments will involve upfront costs, we believe these investments will be beneficial to our business in the long term. While we are currently restricted in our ability to acquire MSRs, and may continue to be restricted for some additional period of time pursuant to any future negotiated resolution with some or all of the state regulatory agencies that have recently taken action against us, absent regulatory restrictions, we would consider acquiring servicing if we view the purchase price and other terms to be attractive and determine such acquisitions were an appropriate use of our available capital at such time. Generally, we would benefit from economies of scale if we were able to increase the size of our servicing portfolio.

On July 23, 2017, we executed on our previously announced agreement in principle with NRZ to convert NRZ's existing Rights to MSRs to fully-owned MSRs. In effect, the new arrangements provide for the conversion of the existing arrangements into a more traditional subservicing arrangement and involve upfront payments to Ocwen as MSRs transfer to NRZ over time. As MSRs transfer to NRZ (which would follow receipt of the necessary third-party consents), NRZ will pay a lump sum restructuring fee to Ocwen upon each transfer of such MSRs in exchange for Ocwen foregoing payments under the existing 2012 and 2013 agreements. The amount of these lump sum restructuring fees is based on the amortized value of the transferred MSRs and decreases over time. If all MSRs had transferred to NRZ as of June 30, 2017, such fees would have totaled approximately \$400.0 million. Conceptually, these upfront payments are a proxy for the net present value of the difference between higher future fees for servicing the mortgage loans under the existing agreements and the lower fees for servicing the mortgage loans under the new subservicing arrangements. NRZ also made an equity investment in Ocwen, acquiring 6,075,510 newly-issued common shares for \$13.9 million.

Results of Operations and Financial Condition

The following discussion and analysis of our results of operations and financial condition should be read in conjunction with our unaudited consolidated financial statements and the related notes thereto appearing elsewhere in this Quarterly Report on Form 10-Q and with our audited consolidated financial statements and notes thereto and management's discussion and analysis of financial condition and results of operation appearing in Amendment No. 1 to our Annual Report on Form 10-K for the fiscal year ended December 31, 2016.

Operations Summary

The following table presents summarized consolidated operating results:

Periods ended June 30,	Three Months			Six Months		
	2017	2016	% Change	2017	2016	% Change

n/m: not meaningful

Three Months Ended June 30, 2017 versus 2016

Servicing and subservicing fees for the second quarter of 2017 were \$51.5 million, or 17%, lower than the second quarter of 2016, primarily due to portfolio runoff. Additionally, the number of completed modifications declined as a result of the expiration of the HAMP program on December 31, 2016. The average UPB and average number of assets in our residential portfolio declined 15% and 13%, respectively, as compared to the second quarter of 2016.

Expenses were \$104.5 million, or 27%, lower in the second quarter of 2017 as compared to the second quarter of 2016.

MSR amortization and valuation adjustments (including both fair value adjustments and impairment charges), decreased \$5.7 million as compared to the second quarter of 2016, principally due to a \$5.8 million decrease in impairment charges related to our government insured MSRs and the effects of portfolio runoff. A decline in MSR fair value losses in the second quarter of 2017 was offset by an increase in amortization expense that resulted from a benefit recognized in the second quarter of 2016 related to the sale of non-performing loans conveyed to HUD as part of the Aged Delinquent Portfolio Loan Sale (ADPLS) program. Monitor expenses, which are included in Professional services expense, decreased \$27.7 million as compared to the second quarter of 2016 primarily as a result of reduced costs related to the CA Auditor, whose appointment was terminated in February 2017, and the NY Operations Monitor, whose appointment was terminated in April 2017.

Excluding MSR amortization and valuation adjustments and monitor expenses, expenses were \$71.2 million, or 23%, lower as compared to the second quarter of 2016. Professional services expense, excluding monitor expenses, was \$28.3 million, or 30%, lower in the second quarter of 2017 as compared to the second quarter of 2016 due to a \$28.7 million decline in legal expenses. Professional services expense for the second quarter of 2017 includes a \$48.0 million increase in our accrual for the Securities Class Action matter, while the second quarter of 2016 included \$30.0 million recorded in connection with the settlement of the Fisher Cases and \$15.0 million recorded in connection with our discussions with the CA DBO that resulted in the termination of the 2015 CA Consent Order. Offsetting legal settlement expenses recognized in the second quarter of 2017 are \$35.8 million of anticipated recoveries, including a \$21.8 million recovery of prior settlement expenses and a \$14.0 million insurance recovery against our aggregate exposure in the Securities Class Action matter.

Servicing and origination expense, excluding MSR valuation adjustments, decreased \$15.5 million, or 30%, primarily due to a decrease in the provision for bad debts and Ginnie Mae claim losses. Technology and communications expense declined by \$8.5 million, or 26%, because of the effects of our efforts in 2016 to bring a greater portion of our technology services in-house together with the effect of the decrease in the size of our servicing portfolio on certain technology fees such as document imaging. Compensation and benefits expense declined \$8.0 million, or 8%, as average headcount declined by 12%, including a 9% reduction in U.S.-based headcount. The decline in headcount occurred principally in our Servicing business where headcount declined by 20%, including a 20% reduction in the U.S. Occupancy and equipment expense declined by \$4.2 million, or 20%, largely because of the effect of the decline in the size of the servicing portfolio on various expenses, particularly postage and other delivery services, and the effect of consolidating facilities. Other expense decreased by \$6.7 million, or 50%, primarily due to a \$5.9 million decrease in the provision for indemnification obligations.

Interest expense for the second quarter of 2017 declined \$9.9 million, or 11%, as compared to the second quarter of 2016 primarily due to lower match funded liabilities consistent with the decline in servicing advances and the effect of the higher amortization of facility costs in the second quarter of 2016. In addition, interest expense for the second quarter of 2016 included \$4.3 million of additional payments to NRZ to compensate it for certain increased costs associated with an earlier downgrade of our S&P servicer rating.

Six Months Ended June 30, 2017 versus 2016

Servicing and subservicing fees declined \$76.5 million, or 13%, in the six months ended June 30, 2017 as compared to the same period of 2016. This decline is primarily due to portfolio runoff and a reduction in the number of completed modifications. The average UPB and average number of assets in our residential portfolio declined 15% and 13%, respectively, as compared to the six months ended June 30, 2016.

Gains on loans held for sale for the six months ended June 30, 2017 increased \$7.8 million, or 18%, as compared to the six months ended June 30, 2016. Gains on loans held for sale from our lending operations increased \$8.8 million, primarily as a result of higher origination volumes and margins in our reverse lending business.

Expenses for the six months ended June 30, 2017 were \$156.8 million, or 22%, lower than the same period of 2016. MSR amortization and valuation adjustments decreased \$37.3 million, or 31%, principally due to a \$34.4 million decrease in impairment charges related to our government insured MSRs and the effects of portfolio runoff. Monitor expenses for the six months ended June 30, 2017 were \$53.3 million lower than the same period last year, primarily as a result of the termination of the CA Auditor and NY Operations Monitor appointments in 2017.

Excluding MSR amortization and valuation adjustments and monitor expenses, expenses for the six months ended June 30, 2017 were \$66.2 million, or 12%, lower than the same period a year ago. Professional services expense, excluding monitor expenses, was \$31.8 million, or 24%, lower for the six months ended June 30, 2017 as compared to the same period of 2016 due to a \$30.4 million decline in legal expenses. We recorded \$35.8 million of anticipated recoveries of litigation settlements in the second quarter of 2017 as an offset to legal expenses. Compensation and benefits expense declined \$12.5 million, or 6%, as average headcount declined by 10%, including a 9% reduction in U.S.-based headcount. The decline in headcount occurred principally in our Servicing business where headcount declined by 19%, including a 21% reduction in the U.S. Servicing and origination expense, excluding MSR valuation adjustments, decreased \$11.7 million, or 13%. Occupancy and equipment expense declined by \$11.2 million, or 25%, largely because of the effect of the decline in the size of the servicing portfolio on

various expenses, particularly postage and other delivery services, and the effect of consolidating facilities. Technology and communications expense declined by \$8.0 million, or 13%, because of efforts to bring technology services in-house and the effects of a declining servicing portfolio on technology fees. Other expense increased by \$8.9 million, or 60%, primarily due to a \$5.1 million increase in provision for losses on automotive dealer financing notes. The loss provision recorded by the ACS business on its portfolio of automotive dealer financing notes was required principally because of the deterioration since December 31, 2016 in the credit quality of notes due from certain dealers. Due to the increase in the age of these notes, we have assumed that the notes due from these dealers are fully collateral-dependent, with no recoveries beyond estimated liquidation value of the remaining unsold inventory.

Interest expense for the six months ended June 30, 2017 declined \$31.9 million, or 16%, as compared to the same period of the prior year primarily due to declines in the value of the NRZ financing liability, principally as a result of runoff of the NRZ servicing portfolio, lower match funded liabilities consistent with the decline in servicing advances and the effect of the higher amortization of facility costs in 2016. In addition, interest expense for the six months ended June 30, 2016 included \$10.5 million of additional payments to NRZ to compensate it for certain increased costs associated with an earlier downgrade of our S&P servicer rating.

Although we incurred a pre-tax loss of \$72.1 million for the six months ended June 30, 2017, we recorded income tax expense of \$5.0 million due to the mix of earnings among different tax jurisdictions with different statutory tax rates, which impacts the amount of the tax benefit or expense recorded. Finally, we recognized income tax expense related to uncertain tax positions. The overall effective tax rate for the six months ended June 30, 2017 was (6.9)%, compared to 0.1% for the six months ended June 30, 2016. This change primarily resulted from a decrease in tax benefits resulting from our inability to carry back current losses that are being generated in the U.S. and USVI tax jurisdictions, offset by a decrease in tax expense related to uncertain tax positions recorded in the six months ended June 30, 2017 as compared to the six months ended June 30, 2016.

Financial Condition Summary

The following table presents summarized consolidated balance sheet data at the dates indicated:

	June 30, 2017	December 31, 2016	% Change
Cash	\$251,472	\$ 256,549	(2)%
Mortgage servicing rights	975,185	1,042,978	(6)
Advances and match funded advances	1,478,255	1,709,846	(14)
Loans held for sale	260,959	314,006	(17)

--------------	-----------	------------	--------

Changes in the composition and balance of our assets and liabilities during the six months ended June 30, 2017 are principally attributable to Loans held for investment and Financing liabilities, which increased as a result of our reverse mortgage securitizations accounted for as secured financings. Match funded liabilities declined consistent with lower advances and match funded advances on a declining servicing portfolio. Total equity declined as a result of the net loss we incurred for the six months ended June 30, 2017.

SEGMENT RESULTS OF OPERATIONS

Our activities are organized into two reportable business segments that reflect our primary lines of business - Servicing and Lending - as well as a Corporate Items and Other segment. While our expense allocation methodology for the current period is consistent with that used in prior periods presented, during the first quarter of 2017, we moved certain functions which had been associated with corporate cost centers to our Lending and Servicing segments because these functions align more closely with those segments. As applicable, the results of operations for the three and six months ended June 30, 2016 have been recast to conform to the current period presentation. As a result of these changes, income before income taxes for the Lending segment decreased for the three and six months ended June 30, 2016 by \$2.5 million and \$5.1 million, respectively, while loss before income taxes for the Servicing segment decreased by the same amount for the same periods.

Servicing

We earn contractual monthly servicing fees pursuant to servicing agreements (which are typically payable as a percentage of UPB) as well as ancillary fees, including HAMP fees, float earnings, REO referral commissions, Speedpay® fees and late fees, in connection with owned MSR's. We also earn fees under both subservicing and special servicing arrangements with banks and other institutions that own the MSR's. We typically earn these fees either as a percentage of UPB or on a per loan basis. Per loan fees typically vary based on delinquency status.

Loan Resolutions

Because we recognize servicing fees as revenue when the fees are earned, loan resolution activities are important to our financial performance. We recognize delinquent servicing fees and late fees as revenue when we collect cash on resolved loans, where permitted. Loan resolution activities address the pipeline of delinquent loans and generally lead to (i) modification of the loan terms, (ii) repayment plan alternatives, (iii) a discounted payoff of the loan (e.g., a "short sale") or (iv) foreclosure or deed-in-lieu-of-foreclosure and sale of the resulting REO. Loan modifications must be made in accordance with the applicable servicing agreement as such agreements may require approvals or impose restrictions upon, or even forbid, loan modifications. To select the best loan modification option for a borrower, we perform a structured analysis, using a proprietary model, of all options using information provided by the borrower as well as external data, including recent broker price opinions to value the mortgaged property. Our proprietary model includes, among other things, an assessment of re-default risk.

Because the majority of our loan modifications have been in connection with the HAMP loan modification program, we anticipate that its expiration on December 31, 2016, will significantly, and adversely, affect our servicing revenue and the financial performance of our servicing segment in future periods as it is unlikely that any new modification programs will include the incentive fee portion of revenue that is received with respect to successful HAMP modifications. By implementing new modification programs of our own to replace HAMP, we expect to continue to realize the other benefits associated with such resolutions, including the collection of delinquent servicing fees and lower costs of servicing the performing loan. We estimate the balance of deferred servicing fees related to delinquent borrower payments was \$336.8 million and \$380.2 million, respectively, at June 30, 2017 and December 31, 2016. Deferred servicing fees attributable to the MSR's underlying NRZ's Rights to MSR's were \$279.1 million at June 30, 2017. We are contractually obligated to remit to NRZ all deferred servicing fees collected in connection with MSR's underlying Rights to MSR's. However, under our 2012 and 2013 agreements with NRZ, in addition to base servicing fees, we are entitled to performance fees that increase to the extent we collect deferred servicing fees. As such, the majority of the deferred servicing fees collected are recognized by us as additional revenue without a corresponding increase in interest expense related to the NRZ financing liability. On July 23, 2017, we executed on our previously announced agreement in principle with NRZ to convert NRZ's existing Rights to MSR's to fully-owned MSR's. As MSR's transfer to NRZ under our July 2017 agreements, we will subservice the mortgage loans to which the MSR's relate and NRZ will receive all deferred service fees.

Advance Obligation

As a servicer, we are generally obliged to advance funds in the event borrowers are delinquent on their monthly mortgage related payments. We advance principal and interest (P&I Advances), taxes and insurance (T&I Advances) and legal fees, property valuation fees, property inspection fees, maintenance costs and preservation costs on properties that have been foreclosed (Corporate Advances). For loans in non-Agency securitization trusts, if we determine that our P&I Advances cannot be recovered from the projected future cash flows, we generally have the right to cease making P&I Advances, declare advances, where permitted including T&I and Corporate advances, in excess of net proceeds to be non-recoverable and, in most cases, immediately recover any such excess advances from the general collection accounts of the respective trust. With T&I and Corporate Advances, we continue to advance if net future cash flows exceed projected future advances without regard to advances already made.

Most of our advances have the highest reimbursement priority (i.e., they are "top of the waterfall") so that we are entitled to repayment from respective loan or REO liquidation proceeds before any interest or principal is paid on the bonds that were issued by the trust. In the majority of cases, advances in excess of respective loan or REO liquidation proceeds may be recovered from pool-level proceeds. The costs incurred in meeting these obligations consist principally of the interest expense incurred in financing the servicing advances. Most, but not all, subservicing

agreements provide for more rapid reimbursement of any advances from the owner of the servicing rights. NRZ effectively funds advances on loans for which we have sold the Rights to MSRs because NRZ is contractually required to reimburse us for the advances we make on those loans under our agreements with NRZ.

Third-Party Servicer Ratings

Similar to other servicers, we are the subject of mortgage servicer ratings or rankings (collectively, ratings) issued and revised from time to time by rating agencies including Moody's, Morningstar, S&P and Fitch. Favorable ratings from these agencies are important to the conduct of our loan servicing and lending businesses.

The following table summarizes our key ratings by these rating agencies:

	Moody's	Morningstar	S&P	Fitch
Residential Prime Servicer	SQ3-	MOR RS3	Average	RPS3-
Residential Subprime Servicer	SQ3-	MOR RS3	Average	RPS3-
Residential Special Servicer	SQ3-	MOR RS3	Average	RSS3-
Residential Second/Subordinate Lien Servicer	SQ3-	—	Average	RPS3-
Residential Home Equity Servicer	—	—	—	RPS3-
Residential Alt-A Servicer	—	—	—	RPS3-
Master Servicing	SQ3	—	Average	RMS3-
Ratings Outlook	N/A	Alert	Stable	Negative

Date of last action April 24, 2017 April 25, 2017 August 9, 2016 April 25, 2017

In addition to servicer ratings, each of the rating agencies will from time to time assign an outlook (or a ratings watch such as Moody's review status) to the rating status of a mortgage servicer. A negative outlook is generally used to indicate that a rating "may be lowered," while a positive outlook is generally used to indicate a rating "may be raised." S&P's servicer ratings outlook for Ocwen is stable in general and its outlook for master servicing is positive. Fitch Ratings changed the servicer ratings Outlook to Negative from Stable on April 25, 2017. Moody's placed the servicer ratings on Review for Downgrade on April 24, 2017. Morningstar changed its forecast to On Alert from Positive on April 25, 2017.

Failure to maintain minimum servicer ratings could adversely affect our ability to sell or fund servicing advances going forward, could affect the terms and availability of debt financing facilities that we may seek in the future, and could impair our ability to consummate future servicing transactions or adversely affect our dealings with lenders, other contractual counterparties, and regulators, including our ability to maintain our status as an approved servicer by Fannie Mae and Freddie Mac. The servicer rating requirements of Fannie Mae do not necessarily require or imply immediate action, as Fannie Mae has discretion with respect to whether we are in compliance with their requirements and what actions it deems appropriate under the circumstances in the event that we fall below their desired servicer ratings. Under our July 2017 agreements with NRZ, NRZ has agreed to a standstill through January 23, 2019, subject to limited exceptions, on exercising rights it would otherwise have under the existing 2012 and 2013 agreements to replace Ocwen as servicer of certain MSRs in the event of a termination event with respect to an affected servicing agreement underlying the MSRs resulting from a servicer rating downgrade.

The following table presents the results of operations of our Servicing segment. The amounts presented are before the elimination of balances and transactions with our other segments:

Collections on loans serviced for others \$9,586,497 \$10,406,084 (8)% \$18,867,034 \$20,059,559 (6)%

Performing loans include those loans that are current (less than 90 days past due) and those loans for which (1) borrowers are making scheduled payments under loan modification, forbearance or bankruptcy plans. We consider all other loans to be non-performing.

(2) Conventional loans include 151,554 and 183,615 prime loans with a UPB of \$27.3 billion and \$34.9 billion at June 30, 2017 and June 30, 2016, respectively, that we service or subservice.

Loans serviced by Ocwen for which the Rights to MSRs have been sold to NRZ. Under our 2012 and 2013 agreements with NRZ, we remit servicing fees collected on the underlying MSRs, except for the ancillary fees (3)(other than float earnings). The servicing fees that we remit, net of the subservicing and performance fees that we receive, are accounted for as a reduction of the NRZ financing liability and as interest expense. Changes in the fair value of the MSRs underlying the financing liability are also included in the amount reported as interest expense.

The effective average interest rate on the financing liability that we recognized in connection with the sales of Rights to MSRs to NRZ is 43.25% and 40.33% for the three months ended June 30, 2017 and 2016, respectively, and 43.45% and 45.03% for the six months ended June 30, 2017 and 2016, respectively. (4) Interest expense on financing liabilities for the three and six months ended June 30, 2016 included \$4.3 million and \$10.5 million, respectively, of fees incurred in connection with our agreement to compensate NRZ through June 2016 for certain increased costs associated with its servicing advance financing facilities that were the direct result of a downgrade of our S&P servicer rating in 2015.

The following table provides information regarding the changes in our portfolio of residential assets serviced or subserviced:

	Amount of UPB		Count	
	2017	2016	2017	2016

Portfolio at June 30	\$194,798,424	\$229,276,001	1,310,110	1,506,490

The key driver of our servicing segment operating results for the six months ended June 30, 2017, as compared to 2016, was a 21% decline in total expenses, which more than offset the 12% decline in total revenue as a result of the portfolio runoff and declines in completed modifications. The decline in expenses was primarily driven by reductions in headcount and legal expenses and MSR valuation adjustments.

Three Months Ended June 30, 2017 versus 2016

Servicing and subservicing fee revenue declined by \$51.5 million, or 17%, as compared to the second quarter of 2016 driven by a 15% decline in the average UPB and a 13% decline in the average number of assets in our portfolio due to runoff.

Total completed modifications decreased 44% as compared to the second quarter of 2016. The portion of modifications completed under HAMP (including streamlined HAMP) as a percentage of total modifications decreased to 24% in the second quarter of 2017 as compared to 55% for the second quarter of 2016 as a result of the expiration of the HAMP program on December 31, 2016. Borrowers who had requested assistance or to whom an offer of assistance had been extended as of that date have until September 30, 2017 to finalize their modification. Revenue recognized in connection with loan modifications totaled \$25.1 million and \$56.3 million during the second quarter of 2017 and 2016, respectively, a decline of 55%.

Expenses were \$55.8 million, or 22%, lower as compared to the second quarter of 2016. A 20% reduction in average U.S.-based headcount and the migration of certain operations offshore, where we believe we realize cost efficiencies while maintaining operational effectiveness, enabled a reduction in Compensation and benefits expense of \$8.3 million, or 17%.

Servicing and origination expense, excluding the \$10.0 million decrease in MSR fair value adjustments and impairment charges (valuation adjustments), declined \$10.5 million, or 26% as compared to the second quarter of 2016 primarily due to a decrease in the provision for bad debts and lower Ginnie Mae claim losses. Ginnie Mae claim losses in the second quarter of 2016 included the accelerated recognition of expenses related to our participating in HUD's ADPLS program, which were largely offset by a benefit in amortization expense as discussed below.

MSR amortization and valuation adjustments decreased \$5.7 million due to a decrease in impairment charges related to our government insured MSRs and the effects of portfolio runoff. Increasing interest rates typically result in decreased prepayment activity for MSRs, which generally increases the value of our MSRs as the underlying loans prepay slower. We recognized impairment charges of \$3.2 million and \$9.1 million on our government-insured MSRs during the second quarter of 2017 and 2016, respectively, reflecting that interest rates decreased in both quarters, but less significantly in the second quarter of 2017 as compared to the second quarter of 2016. A decline in MSR fair value losses in the second quarter of 2017 was offset by an increase in amortization expense that resulted from a benefit recognized in the second quarter of 2016 related to the sale of non-performing loans conveyed to HUD as part of the ADPLS program.

Professional services expense declined \$21.0 million, or 58%, largely due to a \$23.9 million decline in legal expenses that was principally the result of expenses incurred in 2016 defending ourselves in proceedings alleging violations of federal, state and local laws and regulations governing our servicing activities.

Occupancy and equipment expense declined \$2.9 million, or 20%, largely because of the effect of the decline in the average number of assets in our servicing portfolio and various cost improvement initiatives on various expenses, principally the cost of postage and other delivery services.

Technology and communication expense declined by \$1.9 million, or 14%. In addition, technology allocations, which are part of the costs charged through corporate overhead allocations, declined \$3.4 million. Excluding technology allocations, costs charged through corporate overhead allocations (which are included in Other expense) increased \$0.3 million.

Interest expense declined by \$17.3 million, or 21%, in the second quarter of 2017 compared to the second quarter of 2016 primarily due to the December 2016 transfer of the SSTL from Servicing to Corporate Items and Other when we entered into an amended and restated SSTL facility agreement and lower match funded liabilities and related commitment fees. The transfer of the SSTL reduced interest expense by \$8.4 million, and interest on match funded liabilities decreased by \$6.0 million. The decline in match funded liabilities was consistent with the decline in servicing advances on a servicing portfolio that is smaller but better performing. In addition, interest expense related to financing liabilities for the second quarter of 2016 included \$4.3 million of the compensatory fees paid to NRZ as a result of an earlier downgrade of our S&P servicer rating.

Six Months Ended June 30, 2017 versus 2016

Servicing and subservicing fee revenue declined \$76.3 million, or 13%, as the average UPB and the average number of assets in our residential servicing and subservicing portfolio declined by 15% and 13%, respectively, due to portfolio runoff. Revenue recognized in connection with loan modifications declined to \$64.3 million for the six months ended June 30, 2017 as compared to \$98.3 million for the same period in 2016 consistent with the 19% decline in completed modifications.

Expenses were \$113.2 million, or 21%, lower for the six months ended June 30, 2017 as compared to the same period of 2016. The 21% reduction in average U.S. based headcount and the migration of certain operations offshore enabled a reduction in Compensation and benefits expense of \$17.3 million, or 18%.

Servicing and origination expense, excluding the \$41.5 million reduction in MSR valuation adjustments, decreased by \$9.8 million, or 13% for the six months ended June 30, 2017 as compared to the same period of 2016. This decrease is primarily due to a lower provision for bad debts and a decline in Ginnie Mae claim losses.

MSR amortization and valuation adjustments decreased \$37.2 million because of the effects of portfolio runoff and a decrease in impairment charges related to our government insured MSRs. Impairment charges were \$4.7 million and \$39.0 million for the six months ended June 30, 2017 and 2016, respectively, reflecting that interest rates decreased in both quarters, but far less significantly for the period in 2017 compared to 2016. A decline in MSR fair value losses in the first half of 2017 was offset by an increase in amortization expense that resulted from a benefit recognized in the second quarter of 2016 related to the sale of non-performing loans conveyed to HUD as part of the ADPLS program. Professional services expense declined \$34.7 million, or 50%, largely due to a \$34.3 million decline in legal expenses that was principally the result of expenses incurred in 2016 defending ourselves in proceedings alleging violations of federal, state and local laws and regulations governing our servicing activities, including the now-settled Fisher matter.

Occupancy and equipment expense declined \$11.1 million, or 31%, largely because of the effect of the decline in the average number of assets in our servicing portfolio and various cost improvement initiatives on various expenses, principally the cost of postage and other delivery services.

Technology and communication expense declined by \$5.1 million, or 18%. However, this decline was partly offset by an increase of \$2.1 million in technology allocations. Excluding technology allocations, costs charged through corporate overhead allocations increased by \$1.1 million.

Interest expense declined by \$46.4 million, or 26%, primarily due to reductions in interest expense related to the NRZ financing liability, the December 2016 transfer of the SSTL from Servicing to Corporate Items and Other, and lower match funded liabilities and related commitment fees. The transfer of the SSTL reduced interest expense by \$17.1 million, while interest on match funded liabilities decreased by \$11.5 million. The decline in match funded liabilities was consistent with the decline in servicing advances on our smaller but better performing servicing portfolio.

Interest expense related to the NRZ financing liability decreased by \$17.6 million, in part because of the decline in the average UPB of the NRZ servicing portfolio due to runoff and because of an increase in the amount of performance fees paid to Ocwen. In addition, interest expense for the six months ended June 30, 2016 included \$10.5 million of the compensatory fees paid to NRZ as a result of the earlier downgrade to our S&P servicer rating.

Lending

We are working to increase the scale and breadth of our Lending business. Consistent with our long-term strategy, we are focused on increasing conversion rates (i.e., recapture) on our existing servicing portfolio and expanding our geographic footprint through growing our wholesale origination businesses. Building the sales and operations capacity to meet this need is a goal for the business, as well as investment in the development of our Loan Operating System (LOS) and the continued use of process improvements to drive productivity.

We originate and purchase conventional and government-insured forward mortgage loans through our forward lending operations. Reverse mortgages are originated and purchased through our reverse lending operations under the guidelines of the HECM reverse mortgage insurance program of HUD. Loans originated under this program are guaranteed by the FHA, which provides investors with protection against risk of borrower default. We retain the servicing rights to reverse loans securitized through the Ginnie Mae HMBS program. We have originated HECM loans under which the borrowers have additional borrowing capacity of \$1.3 billion at June 30, 2017. These draws are funded by the servicer and can be subsequently securitized or sold (Future Value). We do not incur any substantive underwriting, marketing or compensation costs in connection with any future draws, although we must maintain sufficient capital resources and available borrowing capacity to ensure that we are able to fund these Future Value draws. We recognize this Future Value over time as future draws are securitized or sold. At June 30, 2017, unrecognized Future Value is estimated to be \$66.7 million. We use a third-party valuation expert to determine Future Value based on the net present value of the estimated future cash flows of the loans, utilizing a discount rate of 12% and projected performance assumptions in line with historical experience and industry benchmarks.

Loans are acquired through three primary channels: correspondent lender relationships, broker relationships (wholesale) and directly with mortgage customers (retail). Per-loan margins vary by channel, with correspondent typically being the lowest margin and retail the highest margin. We have exited the correspondent channel in our forward lending business and are focusing on the retail and wholesale channels.

After origination, we package and sell the loans in the secondary mortgage market, through GSE securitizations on a servicing retained basis and through whole loan transactions on a servicing released basis. Lending revenues include interest income earned for the period the loans are held by us, gain on sale revenue, which represents the difference between the origination value and the sale value of the loan, and fee income earned at origination.

We provide customary origination representations and warranties to investors in connection with our loan sales and securitization activities. We receive customary origination representations and warranties from our network of approved originators in connection with loans we purchase through our correspondent lending channel. We recognize the fair value of the liability for our representations and warranties at the time of sale. In the event we cannot remedy a breach of a representation or warranty, we may be required to repurchase the loan or provide an indemnification payment to the investor. To the extent that we have recourse against a third-party originator, we may recover part or all of any loss we incur.

The following table presents the results of operations of the Lending segment. The amounts presented are before the elimination of balances and transactions with our other segments:

Periods ended June 30,	Three Months			Six Months		
	2017	2016	% Change	2017	2016	% Change

	\$275,448	\$206,953	33 %	\$548,524	\$398,109	38 %

The key drivers of the results of our lending segment for the six months ended June 30, 2017 and the second quarter, as compared to 2016, were significant increases in reverse loan originations that were more than offset by substantial declines in forward loan originations principally as a result of a strategic decision to focus on the wholesale and retail channels that are expected to produce stronger economic returns. Gains on loans held for sale increased principally because of increased origination volume and higher margins in reverse lending. The declines in other revenues are principally the result of changes in fair value of reverse loans and the related financing liabilities. Average headcount increased more than 30% for both the year to date and the second quarter as we expanded our reverse originations, developed our LOS and brought certain functions in house. A headcount reduction has been undertaken in forward lending to align capacity with volume levels.

Three Months Ended June 30, 2017 versus 2016

Total revenue declined by \$2.6 million or 7% in second quarter of 2017 as total loan production declined by \$345.0 million, or 26%. Other revenue decreased \$5.2 million, or 36%, in the second quarter of 2017 primarily as a result of a \$4.8 million decrease in the excess of changes in the fair value of our HECM loans held for investment over changes in the fair value of the HMBS financing liability. The \$2.6 million, or 12% increase in Gains on loans held for sale, net is due to higher origination volume in our reverse lending business. Gains in the forward lending business decreased slightly due to lower volume and margin rates in the correspondent and wholesale channels, which was substantially offset by higher volume and higher margin rates in the retail channel.

Total expenses increased \$1.7 million, or 5%, in the second quarter of 2017. Compensation and benefits expense increased \$1.6 million, or 9%, as average headcount increased by 31% over the second quarter of 2016. Offshore hiring accounted for 64% of the increase in average headcount. Direct acquisition costs, a component of Gain on loans held for sale, net, are offset by origination fee income that is included in Other revenue.

Interest income, which consists primarily of interest earned on newly originated and purchased loans prior to sale to investors, has declined consistent with lower origination volume in our forward lending business. Interest income is offset by interest expense incurred to finance the mortgage loans. We finance originated and purchased forward and reverse mortgage loans with repurchase and participation agreements, commonly referred to as warehouse lines.

Six Months Ended June 30, 2017 versus 2016

Total revenue increased by \$4.9 million or 8% in spite of the \$210.6 million, or 9%, decline in total loan production. Gains on loans held for sale, net increased \$8.8 million, or 23%, largely attributed to higher origination volume and improved margin rates in our reverse lending business. This improvement in reverse lending was partially offset by a

decline in the forward channel gains due to lower margin rates in all channels and lower volume in the correspondent and wholesale channels, which was partially offset by an increase in retail volume. Other revenue decreased \$3.9 million, or 19%, primarily as a result of a

\$3.1 million decrease in the excess of changes in the fair value of our HECM loans held for investment over changes in the fair value of the HMBS financing liability.

Total expenses increased \$6.7 million, or 12%. Compensation and benefits expense increased \$3.9 million, or 11%, as average headcount increased by 32% as compared to the prior year. The \$1.7 million, or 23%, increase in Other expenses was driven primarily by a \$3.1 million increase in the provision for indemnification obligations due to a reversal of the liability in 2016.

Corporate Items and Other

Corporate Items and Other includes revenues and expenses of ACS, CRL and our other business activities that are currently individually insignificant, revenues and expenses that are not directly related to other reportable segments, interest income on short-term investments of cash, interest expense on corporate debt and certain corporate expenses. Our cash balances are included in Corporate Items and Other.

ACS provides short-term inventory-secured loans to independent used car dealers to finance their inventory. In addition, Ocwen formed CRL, our wholly-owned captive reinsurance subsidiary, and entered into a quota share re-insurance agreement effective in 2016 with a third-party insurer related to coverage on foreclosed real estate properties owned or serviced by us. As noted in "Overview" above, we are considering the potential benefits of monetizing our investment in the ACS business in the near term.

A portion of interest income is allocated to the Servicing and Lending segments, including interest earned on cash balances and short-term investments. Expenses incurred by corporate support services are also allocated to the Servicing and Lending segments.

The following table presents the results of operations of Corporate Items and Other. The amounts presented are before the elimination of balances and transactions with our other segments:

Periods ended June 30,	Three Months			Six Months		
	2017	2016	% Change	2017	2016	% Change
Revenue	\$6,740	\$12,558	(46)%	\$13,840	\$12,604	10 %
Expenses						
Compensation and benefits	30,140	31,495	(4)	61,854	60,933	2
Servicing and origination	1,332	6,504	(80)	2,763	6,580	(58)

Technology and communications	12,149	18,510	(34)	26,443	28,600	(8)
Occupancy and equipment	2,947	3,842	(23)	7,199	6,914	4
Other	2,625	7,668	(66)	17,257	11,333	52
Total expenses before corporate overhead allocations	98,912	152,853	(35)	186,839	236,442	(21)
Corporate overhead allocations						
Servicing segment	(52,328)	(56,011)	(7)	(109,134)	(108,122)	1
Lending segment	(918)	(756)	21	(1,901)	(2,273)	(16)
Total expenses	45,666	96,086	(52)	75,804	126,047	(40)
Other income (expense), net						
Interest income	1,058	951	11	1,987	1,676	19
Interest expense	(13,842)	(6,139)	125	(27,269)	(12,307)	122
Other	1,498	(508)	(395)	2,298	(1,017)	(326)
Total other expense, net	(11,286)	(5,696)	98	(22,984)	(11,648)	97
Loss before income taxes	\$ (50,212)	\$ (89,224)	(44)%	\$ (84,948)	\$ (125,091)	(32)%

The key driver of the results of our corporate items and other segment for both the three and six months ended June 30, 2017, as compared to 2016, were declines in total expenses before allocations, principally because of decreases in regulatory monitoring costs and in legal fees and settlements expense. Offsetting these items was an increase in

interest expense as a result

68

of the transfer of the SSTL from the servicing segment at the beginning of 2017 after we entered into an amended and restated SSTL facility agreement in December 2016. We also exchanged \$346.9 million of 6.625% Senior Unsecured Notes due 2019 for a like amount of 8.375% Senior Second Lien Notes due 2022, which also occurred in December 2016.

Three Months Ended June 30, 2017 versus 2016

Revenue for the second quarter of 2017 includes \$6.0 million of premiums generated by CRL, as compared to the second quarter of 2016, which includes the initial recognition of \$12.2 million of premiums that were retroactive to the beginning of 2016 under the reinsurance agreement we entered into in the second quarter of 2016.

The \$53.9 million, or 35%, decrease in expenses before allocations is primarily due to a \$35.1 million, or 41%, decline in Professional services expense, which resulted from a \$27.7 million decrease in regulatory monitoring costs and a \$4.8 million decrease in legal fees and settlements. The decrease in regulatory monitoring costs reflects the termination of the CA Auditor and NY Operations Monitor engagements. Legal expenses for the second quarter of 2017 includes a \$48.0 million increase in our accrual for the Securities Class Action matter, while the second quarter of 2016 included \$30.0 million in connection with the settlement of the Fisher Cases and \$15.0 million recorded in connection with our discussions with the CA DBO that resulted in the termination of the 2015 CA Consent Order. Offsetting legal settlement expenses recognized in the second quarter of 2017 are \$35.8 million of anticipated recoveries, including a \$21.8 million recovery of prior settlement expenses and a \$14.0 million insurance recovery against our aggregate exposure in the Securities Class Action matter.

During the second quarter, Technology and communications expense declined \$6.4 million, or 34%, primarily due to the recognition of certain software development expenses in the second quarter of 2016. The \$5.2 million, or 80%, in Servicing and origination expense occurred principally because the second quarter of 2017 includes \$1.3 million of reinsurance commissions, versus the second quarter of 2016, which includes the initial recognition of \$5.4 million of reinsurance commissions retroactive to the beginning of 2016 in connection with the reinsurance agreement we entered into in the second quarter of 2016.

Interest expense in the second quarter of 2017 increased by \$7.7 million, or 125%, primarily as a result of our transfer of the SSTL from the servicing segment to the corporate items and other segment when we entered into an amended and restated SSTL facility agreement in December 2016. In December 2016, we also exchanged \$346.9 million of 6.625% Senior Unsecured Notes due 2019 for a like amount of 8.375% Senior Second Lien Notes due 2022.

Six Months Ended June 30, 2017 versus 2016

The \$49.6 million, or 21%, decrease in expenses before allocations is primarily due to a \$50.8 million, or 42%, decline in Professional services expense, which resulted from a \$53.3 million decrease in regulatory monitoring costs partly offset by a \$3.8 million increase in legal fees and settlements. The regulatory monitoring costs decrease reflects the conclusion of the NY DFS and CA DBO engagements. Legal fees and settlements expense for the six months ended June 30, 2017 includes the \$56.0 million reserve for the Securities Class Action matter, while the six months ended June 30, 2016 included the \$30.0 million recorded in connection with the settlement of the Fisher Cases and the \$15.0 million charge in connection with our discussions with the CA DBO that resulted in the termination of the 2015 CA Consent Order. We recorded \$35.8 million of anticipated recoveries related to litigation settlements in the second quarter of 2017 as an offset to legal expenses.

Additionally, Servicing and origination expense declined by \$3.8 million, or 58%, primarily due to a decrease in reinsurance commissions incurred by CRL. Other expense for the six months ended June 30, 2017 increased by \$5.9 million, or 52%, due to a \$5.1 million increase in the provision for losses on ACS automotive dealer financing notes principally as a result of the deterioration in credit quality of notes due from certain dealers. Due to the increase in the age of these notes, as of March 31, 2017 we have assumed that the notes due from these dealers are fully collateral-dependent, with no recoveries beyond estimated liquidation value of the remaining unsold inventory. Interest expense increased by \$15.0 million, or 122%, primarily as a result of our transfer of the SSTL from the servicing segment to the corporate items and other segment and the exchange of our Senior Unsecured Notes for our Senior Secured Notes, both of which occurred in December 2016 as disclosed above.

LIQUIDITY AND CAPITAL RESOURCES

Overview

At June 30, 2017, our cash position was \$251.5 million compared to \$256.5 million at December 31, 2016. We invest cash that is in excess of our immediate operating needs primarily in money market deposit accounts. Our priorities for deployment of excess cash are: (1) supporting our core servicing and lending businesses and investing in these core assets, (2) reducing revolving lines of credit in order to reduce interest expense, (3) reducing corporate leverage and (4) expanding into similar or complementary businesses that meet our return on capital requirements.

Sources of Funds

Our primary sources of funds for near-term liquidity are:

- Collections of servicing fees and ancillary revenues;
- Proceeds from match funded advance financing facilities;
- Proceeds from other borrowings, including warehouse facilities; and
- Proceeds from sales of originated loans and repurchased loans.

We also expect to receive substantial amounts from NRZ as MSR transfers to NRZ under our July 2017 agreements with NRZ.

Servicing advances are an important component of our business and represent amounts that we, as servicer, are required to advance to, or on behalf of, our servicing clients if we do not receive such amounts from borrowers. Our ability to finance servicing advances is a significant factor that affects our liquidity. Our use of advance financing facilities is integral to our servicing advance financing strategy. Revolving variable funding notes issued by our advance financing facilities to large global financial institutions generally have a 364-day revolving period. Term notes are generally issued to institutional investors with one-, two- or three-year maturities. The revolving periods for our variable funding notes with a total borrowing capacity of \$285.0 million and term notes of \$400.0 million end in 2017.

Borrowings under our advance financing facilities are incurred by special purpose entities (SPEs) that we consolidate because we have determined that Ocwen is the primary beneficiary of the SPE. We transfer the financed advances to the SPEs, and the SPEs issue debt supported by collections on the transferred advances. Holders of the debt issued by the SPEs have recourse only to the assets of the SPEs for satisfaction of the debt. In connection with our sale of servicing advances to these advance financing SPEs and to NRZ in connection with the Rights to MSRs, we make certain representations, warranties and covenants primarily related to the nature of the transferred advance receivables, our financial condition and our servicing practices.

Advances and match funded advances comprised 19% of total assets at June 30, 2017. Our borrowings under our advance financing facilities are secured by pledges of servicing advances that are sold to the related SPE and by cash held in debt service accounts.

The available borrowing capacity under our advance financing facilities since December 31, 2016 has decreased by \$63.8 million from \$274.0 million at December 31, 2016 to \$210.2 million at June 30, 2017 because we reduced the maximum borrowing capacity by \$260.0 million based on our anticipated future usage. Our ability to continue to pledge collateral under our advance financing facilities depends on the performance of the advances, among other factors. At June 30, 2017, none of the available borrowing capacity could be used based on the amount of eligible collateral that had been pledged.

We use mortgage loan warehouse facilities to fund newly originated loans on a short-term basis until they are sold to secondary market investors, including GSEs or other third-party investors. These warehouse facilities are structured as repurchase or participation agreements under which ownership of the loans is temporarily transferred to the lender. The loans are transferred at a discount, or haircut, which serves as the primary credit enhancement for the lender. Currently, all of our master repurchase and participation agreements have maximum terms of 364-days. The funds are typically repaid using the proceeds from the sale of the loans to the secondary market investors, usually within 30 days. At June 30, 2017, we had total borrowing capacity under our warehouse facilities of \$725.0 million. Of the borrowing capacity extended on a committed basis, \$113.9 million was available at June 30, 2017, and none of the available borrowing capacity could be used based on the amount of eligible collateral that had been pledged.

Uncommitted amounts (\$283.9 million available at June 30, 2017) are advanced solely at the discretion of the lender, and there can be no assurance that any uncommitted amounts will be available to us at any particular time.

We also rely on the secondary mortgage market as a source of long-term capital to support our lending operations. Substantially all of the mortgage loans that we originate or purchase are sold or securitized in the secondary mortgage market in the form of residential mortgage backed securities guaranteed by Fannie Mae or Freddie Mac and, in the case of mortgage backed securities guaranteed by Ginnie Mae, are mortgage loans insured or guaranteed by the FHA or VA.

Our debt agreements contain various qualitative and quantitative covenants including financial covenants, covenants to operate in material compliance with applicable laws, monitoring and reporting obligations and restrictions on our ability to engage in various activities, including but not limited to incurring additional debt, paying dividends, repurchasing or redeeming capital stock, transferring assets or making loans, investments or acquisitions. As a result of the covenants to which we are subject, we may be limited in the manner in which we conduct our business and may be limited in our ability to engage in favorable business activities or raise additional capital to finance future operations or satisfy future liquidity needs. In addition, breaches or events that may result in a default under our debt agreements include, among other things, nonpayment of principal or interest, noncompliance with our covenants, breach of representations, the occurrence of a material adverse change, insolvency, bankruptcy, certain material judgments and litigation and changes of control.

Covenants and default provisions of this type are commonly found in debt agreements such as ours. Certain of these covenants and default provisions are open to subjective interpretation and, if our interpretation were contested by a lender, a court may ultimately be required to determine compliance or lack thereof. In addition, our debt agreements generally include cross default provisions such that a default under one agreement could trigger defaults under other agreements. If we fail to comply with our debt agreements and are unable to avoid, remedy or secure a waiver of any resulting default, we may be subject to adverse action by our lenders, including termination of further funding, acceleration of outstanding obligations, enforcement of liens against the assets securing or otherwise supporting our obligations, and other legal remedies, any of which could have a material adverse effect on our business, financial condition, liquidity and results of operations. We believe that we are in compliance with the qualitative and quantitative covenants in our debt agreements as of the date this Quarterly Report on Form 10-Q is filed with the SEC. We continue to assess the impact of the recent regulatory actions taken against us by the CFPB, thirty state mortgage and banking regulatory agencies and two state attorneys general, including with respect to the potential of these actions to impact adversely our liquidity and capital resources. We have revised our operations, where necessary, so as to comply with the orders while we attempt to negotiate resolutions. While we do not currently believe the limitations resulting from these regulatory actions on our loan origination or servicing activities will have a material impact on our financial results if we can resolve these agencies' concerns on a timely basis, we do expect legal expenses to increase. If we are unable to obtain timely resolutions, more serious consequences could result, which could result in material and adverse impacts on our strategy, liquidity and capital resources, including those outlined in Item 1A, Risk Factors in our Quarterly Report on Form 10-Q for the quarterly period ended March 31, 2017.

Use of Funds

Our primary uses of funds are:

- Payments for advances in excess of collections on existing servicing portfolios;
- Payment of interest and operating costs;
- Funding of originated and repurchased loans;
- Repayments of borrowings, including match funded liabilities and warehouse facilities; and
- Working capital and other general corporate purposes.

Outlook

We closely monitor our liquidity position and ongoing funding requirements, and we regularly monitor and project cash flow by period to mitigate liquidity risk.

In assessing our liquidity outlook, our primary focus is on six measures:

- Business financial projections for revenues, costs and net income;
- Requirements for maturing liabilities compared to amounts generated from maturing assets and operating cash flow;
- Any projected future sales of MSR's and the reimbursement of related servicing advances;
 - The change in advances and match funded advances compared to the change in match funded liabilities and available borrowing capacity;
- Projected future originations and purchases of forward and reverse mortgage loans and automobile dealer floor plan loans; and
- Projected funding requirements of new business initiatives.

We have considered the impact of financial projections on our liquidity analysis and have evaluated the appropriateness of the key assumptions in our forecast such as revenues, expenses, our assessment of the likely impact of recent regulatory actions, recurring and nonrecurring costs and sales of MSR's and other assets. We have analyzed our cash requirements and financial obligations. Based upon these evaluations and analyses, we believe that we have sufficient liquidity to meet our obligations and fund our operations for the next twelve months.

We are required to maintain certain minimum levels of cash under our debt agreements and in the ordinary course, portions of our cash balances are held in our non-U.S. subsidiaries. This means that we would have to repatriate that cash, potentially with tax consequences and in compliance with applicable laws, should we wish to utilize that cash in the U.S.

The revolving periods of our advance financing facilities end during 2017 for variable funding notes with a total borrowing capacity of \$285.0 million and \$124.3 million of outstanding borrowings at June 30, 2017. In the event we

are unable to renew, replace or extend the revolving period of one or more of these advance financing facilities, monthly amortization of the outstanding balance must generally begin at the end of the respective 364-day revolving period. In addition, we would be required to begin amortizing our two-year term notes with a borrowing capacity of \$400.0 million if we do not renew, replace or extend these notes during 2017.

Similarly, all of our master repurchase and participation agreements for financing new loan originations have 364-day terms. At June 30, 2017, we had \$47.5 million outstanding under these financing arrangements that mature in 2017. We believe that we will be able to renew, replace or extend our debt agreements before or as they become due, consistent with our historical experience.

We remain actively engaged with our lenders, and recent financing developments so far in 2017 include the following:

On February 24, 2017, we executed a \$200.0 million warehouse facility to replace an existing facility of the same size and with the same lender maturing in February 2018.

On February 24, 2017 and on March 17, 2017, we executed two match funded lending agreements under which we can borrow up to \$50.0 million each to finance the automotive dealer loans made by our ACS business. We may from time to time request increases in the maximum borrowing capacity under these agreements to a maximum of \$100.0 million each.

On April 25, 2017, we extended to April 30, 2018 the maturity of two warehouse facilities with a combined uncommitted borrowing capacity of \$250.0 million.

On May 18, 2017, we negotiated a reduction in the borrowing capacity of two warehouse facilities from a combined \$110.0 million to \$75.0 million.

On May 29, 2017, we negotiated a change in the borrowing capacity of two warehouse facilities from \$200.0 million available on a committed basis to \$100.0 million available on a committed basis and the remainder of the borrowing capacity available at the discretion of the lender. On August 1, 2017, we voluntarily terminated these facilities.

On June 8, 2017, we negotiated a renewal through June 7, 2018 of an advance financing facility. As part of the renewal, we decreased the maximum borrowing capacity of the facility from \$160.0 million to \$110.0 million.

Effective June 30, 2017, we negotiated a reduction in the combined borrowing capacity under the variable rate notes of an advance financing facility from \$420.0 million to \$210.0 million.

Our liquidity forecast requires management to use judgment and estimates and includes factors that may be beyond our control. Additionally, our business has been undergoing substantial change, which has magnified the uncertainties that are inherent in the forecasting process. Our actual results could differ materially from our estimates. If we were to default under any of our debt agreements, it could become very difficult for us to renew, replace or extend some or all of our debt agreements. Challenges to our liquidity position could have a material adverse effect on our operating results and financial condition and could cause us to take actions that would be outside the normal course of our operations to generate additional liquidity.

Credit Ratings

Credit ratings are intended to be an indicator of the creditworthiness of a particular company, security or obligation.

Lower ratings generally result in higher borrowing costs and reduced access to capital markets. The following table summarizes our current ratings and outlook by the respective nationally recognized rating agencies. A securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

Rating Agency	Long-term Corporate Rating	Review Status / Outlook	Date of last action
Moody's	Caa1	Review for Downgrade	Jun. 16, 2017
S&P	B –	Negative	Jul. 25, 2017
Fitch	B –	Rating Watch Negative	Apr. 24, 2017
Kroll Bond Rating Agency	CCC	Negative	Jul. 26, 2017

On July 25, 2017, S&P affirmed our long-term corporate rating of “B-” and removed our ratings from CreditWatch with Negative implications. On July 26, 2017, Kroll Bond Rating Agency affirmed our corporate ratings at “CCC” and removed our ratings from Watch Downgrade status. On June 16, 2017, Moody's downgraded our long-term corporate rating to “Caa1” from “B3.” On April 24, 2017, Fitch placed our ratings on Rating Watch Negative. It is possible that additional actions by credit rating agencies could have a material adverse impact on our liquidity and funding position, including materially changing the terms on which we may be able to borrow money.

Cash Flows

Our operating cash flow is primarily impacted by operating results, changes in our servicing advance balances, the level of mortgage loan production and the timing of sales and securitizations of mortgage loans. We classify proceeds from the sale of servicing advances, including advances sold in connection with the sale of MSRs, as investing

activity. We classify changes in HECM loans held for investment as investing activity and changes in the related HMBS secured financing as financing activity.

Cash flows for the six months ended June 30, 2017

Our operating activities provided \$280.7 million of cash largely due to \$226.7 million of net collections of servicing advances. Net cash paid on loans held for sale was \$26.2 million for the three months ended June 30, 2017.

Our investing activities used \$516.2 million of cash. The primary uses of cash in our investing activities include net cash outflows in connection with our HECM reverse mortgages of \$505.9 million, net cash outflows of \$8.8 million in connection with our ACS business and additions to premises and equipment of \$7.2 million. Cash inflows include the receipt of \$5.2 million of net proceeds from the sale of MSRs and related advances.

Our financing activities provided \$230.3 million of cash. Cash inflows include \$664.5 million received in connection with our reverse mortgage securitizations, which are accounted for as secured financings, less repayments on the related financing liability of \$176.2 million. Cash outflows include \$172.6 million of net repayments on match funded liabilities as a result of advance recoveries, and \$8.4 million of repayments on the SSTL. In addition, we reduced borrowings under our mortgage warehouse facilities used to fund loan originations by \$27.9 million.

Cash flows for the six months ended June 30, 2016

Our operating activities provided \$172.2 million of cash largely due to \$215.5 million of net collections of servicing advances. Net cash paid on loans held for sale during the six months ended June 30, 2016 was \$93.7 million.

Our investing activities used \$376.6 million of cash. The primary uses of cash in our investing activities include net cash outflows in connection with our HECM reverse mortgages of \$436.8 million and additions to premises and equipment of \$17.3 million. Cash inflows for the six months ended June 30, 2016 include the receipt of \$81.8 million of net proceeds from the sale of MSRs and related advances.

Our financing activities provided \$166.1 million of cash. Cash inflows include \$523.0 million received in connection with our reverse mortgage securitizations, less repayment of the related financing liability of \$98.9 million. Cash outflows are primarily comprised of \$152.7 million of net repayments on match funded liabilities as a result of advance recoveries and \$29.4 million of repayments on the SSTL. Cash outflows for the six months ended June 30, 2016 also include the repurchase of 991,985 shares of common stock under our share repurchase program for \$5.9 million prior to its expiration on July 31, 2016.

CONTRACTUAL OBLIGATIONS AND OFF BALANCE SHEET ARRANGEMENTS

Contractual Obligations

We have analyzed our unfunded commitments and other contractual obligations and have evaluated the appropriateness of the key assumptions in forecasting our ability to satisfy these obligations. Based upon these evaluations and analyses, we believe that we have adequate resources to fund all unfunded commitments to the extent required and meet all contractual obligations as they come due. At June 30, 2017, such contractual obligations were primarily comprised of secured and unsecured borrowings, interest payments, operating leases and commitments to originate or purchase loans, including equity draws on reverse mortgages. During the six months ended June 30, 2017, we executed two new match funded lending agreements to finance automotive dealer loans made by our ACS business. We also executed renewals and reductions in borrowing capacity of certain mortgage loan warehouse and match funded advance financing facilities. There were no other significant changes to our contractual obligations during the six months ended June 30, 2017. See Note 11 – Borrowings to the Unaudited Consolidated Financial Statements for additional information.

Our forecasting with respect to our ability to satisfy our contractual obligations requires management to use judgment and estimates and includes factors that may be beyond our control. Additionally, our business has been undergoing substantial change, which has magnified the uncertainties that are inherent in the forecasting process. Our actual results could differ materially from our estimates, and if this were to occur, it could have a material adverse effect on our business, financial condition, liquidity and results of operations.

Off-Balance Sheet Arrangements

In the normal course of business, we engage in transactions with a variety of financial institutions and other companies that are not reflected on our balance sheet. We are subject to potential financial loss if the counterparties to our off-balance sheet transactions are unable to complete an agreed upon transaction. We manage counterparty credit risk by entering into financial instrument transactions through national exchanges, primary dealers or approved counterparties and through the use of mutual margining agreements whenever possible to limit potential exposure. We

regularly evaluate the financial position and creditworthiness of our counterparties. Our off-balance sheet arrangements include mortgage loan repurchase and indemnification obligations, unconsolidated SPEs (a type of VIE) and notional amounts of our derivatives. We have also entered into non-cancelable operating leases principally for our office facilities.

Mortgage Loan Repurchase and Indemnification Liabilities. We have exposure to representation, warranty and indemnification obligations in our capacity as a loan originator and servicer. We recognize the fair value of representation and

warranty obligations in connection with originations upon sale of the loan or upon completion of an acquisition. Thereafter, the estimation of the liability considers probable future obligations based on industry data of loans of similar type segregated by year of origination and estimated loss severity based on current loss rates for similar loans. Our historical loss severity considers the historical loss experience that we incur upon sale or liquidation of a repurchased loan as well as current market conditions.

The underlying trends for loan repurchases and indemnifications are volatile, and there is significant uncertainty regarding our expectations of future loan repurchases and indemnifications and related loss severities. Due to the significant uncertainties surrounding estimates related to future repurchase and indemnification requests by investors and insurers as well as uncertainties surrounding home prices, it is possible that our exposure could exceed our recorded mortgage loan repurchase and indemnification liability. Our estimate of the mortgage loan repurchase and indemnification liability considers the current macro-economic environment and recent repurchase trends; however, if we experience a prolonged period of higher repurchase and indemnification activity or a decline in home values, then our realized losses from loan repurchases and indemnifications may ultimately be in excess of our recorded liability. Given the levels of realized losses in recent periods, there is a reasonable possibility that future losses may be in excess of our recorded liability. See Note 2 – Securitizations and Variable Interest Entities, Note 12 – Other Liabilities and Note 19 – Contingencies to the Unaudited Consolidated Financial Statements for additional information.

Involvement with SPEs. We use SPEs for a variety of purposes but principally in the financing of our servicing advances and in the securitization of mortgage loans. We consolidate the servicing advance financing SPEs.

We generally use match funded securitization facilities to finance our servicing advances. The SPEs to which the receivables for servicing advances are transferred in the securitization transaction are included in our consolidated financial statements either because we have the majority equity interest in the SPE or because we are the primary beneficiary where the SPE is a VIE. Holders of the debt issued by the SPEs have recourse only to the assets of the SPEs for satisfaction of the debt.

VIEs. If we determine that we are the primary beneficiary of a VIE, we include the VIE in our consolidated financial statements. We have interests in VIEs that we do not consolidate because we have determined that we are not the primary beneficiary of the VIEs. In addition, we have transferred forward and reverse mortgage loans in transactions accounted for as sales or as secured borrowings for which we retained the obligation for servicing and for standard representations and warranties on the loans. See Note 2 – Securitizations and Variable Interest Entities to the Unaudited Consolidated Financial Statements for additional information.

Derivatives. We record all derivatives at fair value on our consolidated balance sheets. We use these derivatives primarily to manage our interest rate risk. The notional amounts of our derivative contracts do not reflect our exposure to credit loss. See Note 13 – Derivative Financial Instruments and Hedging Activities to the Unaudited Consolidated Financial Statements for additional information.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our ability to measure and report our financial position and operating results is influenced by the need to estimate the impact or outcome of future events on the basis of information available at the date of the financial statements. An accounting estimate is considered critical if it requires that management make assumptions about matters that were highly uncertain at the time the accounting estimate was made. If actual results differ from our judgments and assumptions, then it may have an adverse impact on the results of operations and cash flows. We have processes in place to monitor these judgments and assumptions, and management is required to review critical accounting policies and estimates with the Audit Committee of the Board of Directors. Our significant accounting policies and critical accounting estimates are disclosed in Amendment No. 1 to our Annual Report on Form 10-K for the year ended December 31, 2016 in Note 1 to the Consolidated Financial Statements and in Management’s Discussion and Analysis of Financial Condition and Results of Operations under “Critical Accounting Policies and Estimates.”

Fair Value Measurements

We use fair value measurements to record fair value adjustments to certain instruments and to determine fair value disclosures. Refer to Note 3 – Fair Value to the Unaudited Consolidated Financial Statements for the fair value hierarchy, descriptions of valuation methodologies used to measure significant assets and liabilities at fair value and details of the valuation models, key inputs to those models, and significant assumptions utilized. We follow the fair

value hierarchy in order to prioritize the inputs utilized to measure fair value. We review and modify, as necessary, our fair value hierarchy classifications on a quarterly basis. As such, there may be reclassifications between hierarchy levels.

The following table summarizes assets and liabilities measured at fair value on a recurring and nonrecurring basis and the amounts measured using Level 3 inputs at the dates indicated:

	June 30, 2017	December 31, 2016
Loans held for sale	\$260,959	\$314,006
Loans held for investment - Reverse mortgages	4,223,776	3,565,716
MSRs - recurring basis	625,650	679,256
MSRs - nonrecurring basis, net (1)	135,515	144,783
Derivative assets	9,051	9,279
Mortgage-backed securities	8,986	8,342
U.S. Treasury notes	2,076	2,078
Assets at fair value	\$5,266,013	\$4,723,460
As a percentage of total assets	66 %	62 %
Financing liabilities	\$4,502,633	\$3,911,488
Derivative liabilities	10	1,550
Liabilities at fair value	\$4,502,643	\$3,913,038
As a percentage of total liabilities	61 %	56 %
Assets at fair value using Level 3 inputs	\$5,017,333	\$4,429,307
As a percentage of assets at fair value	95 %	94 %
Liabilities at fair value using Level 3 inputs	\$4,502,633	\$3,911,488
As a percentage of liabilities at fair value	100 %	100 %

The balance represents our impaired government-insured stratum of amortization method MSRs, which is (1) measured at fair value on a nonrecurring basis. The carrying value of this stratum is net of a valuation allowance of \$32.8 million and \$28.2 million at June 30, 2017 and December 31, 2016, respectively.

Assets at fair value using Level 3 inputs increased during the six months ended June 30, 2017 primarily due to reverse mortgage originations. Liabilities at fair value using Level 3 inputs increased primarily in connection with reverse mortgage securitizations, which we account for as secured financings. Our net economic exposure to Loans held for investment - Reverse mortgages and the related Financing liabilities (HMBS-related borrowings) is limited to the residual value we retain. Changes in inputs used to value the loans held for investment are largely offset by changes in the value of the related secured financing.

We have various internal controls in place to ensure the appropriateness of fair value measurements. Significant fair value measures are subject to analysis and management review and approval. Additionally, we utilize a number of operational controls to ensure the results are reasonable, including comparison, or “back testing,” of model results against actual performance and monitoring the market for recent trades, including our own price discovery in connection with potential and completed sales, and other market information that can be used to benchmark inputs or outputs. Considerable judgment is used in forming conclusions about Level 3 inputs such as interest rate movements, prepayment speeds, delinquencies, credit losses and discount rates. Changes to these inputs could have a significant effect on fair value measurements.

Valuation and Amortization of MSRs

MSRs are assets that represent the right to service a portfolio of mortgage loans. We originate MSRs from our lending activities and obtain MSRs through asset acquisitions or business combinations. For initial measurement, acquired and originated MSRs are initially measured at fair value. Subsequent to acquisition or origination, we account for MSRs using the amortization or fair value measurement method. For MSRs accounted for using the amortization measurement method, we assess servicing assets or liabilities for impairment or increased obligation based on fair value on a quarterly basis. We group our MSRs by stratum for impairment testing based on the predominant risk characteristics of the underlying mortgage loans. We recognized \$4.7 million of impairment charges on our government-insured MSRs during the six months ended June 30, 2017 (including \$3.2 million during the second quarter), as the fair value for this stratum further relative to its carrying value. This additional impairment was primarily due to lower interest rates. The carrying value of this stratum at June 30, 2017 was \$135.5 million, net of the

valuation allowance of \$32.8 million. We recognize MSR impairment charges in Servicing and origination expense in the consolidated statements of operations.

The determination of the fair value of MSRs requires management judgment due to the number of assumptions that underlie the valuation. We estimate the fair value of our MSRs using a process based upon the use of independent third-party valuation experts and supported by commercially available discounted cash flow models and analysis of current market data.

The key assumptions used in the valuation of these MSRs include prepayment speeds, loan delinquency, cost to service and discount rates.

Income Taxes

We record a tax provision for the anticipated tax consequences of the reported results of operations. We compute the provision for income taxes using the asset and liability method, under which deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating losses and tax credit carryforwards. We measure deferred tax assets and liabilities using the currently enacted tax rates in each jurisdiction that applies to taxable income in effect for the years in which those tax assets are expected to be realized or settled. We record a valuation allowance to reduce deferred tax assets to the amount that is believed more likely than not to be realized.

We recognize tax benefits from uncertain tax positions only if it is more likely than not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are then measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement.

We conduct periodic evaluations of positive and negative evidence to determine whether it is more likely than not that the deferred tax asset can be realized in future periods. In these evaluations, we gave more significant weight to objective evidence, such as our actual financial condition and historical results of operations, as compared to subjective evidence, such as projections of future taxable income or losses.

As a result of these evaluations, as of December 31, 2016, we recognized a full valuation allowance for the \$95.5 million of U.S. deferred tax assets and for the \$36.2 million on our USVI deferred tax assets as the U.S. and USVI jurisdictional deferred tax assets are not considered to be more likely than not realizable based on all available positive and negative evidence. We intend to continue maintaining a full valuation allowance on our deferred tax assets in both the U.S. and USVI until there is sufficient evidence to support the reversal of all or some portion of these allowances. Release of the valuation allowance would result in the recognition of certain deferred tax assets and a decrease to income tax expense for the period in which the release is recorded. However, the exact timing and amount of the valuation allowance release are subject to change based on the profitability that we achieve.

Indemnification Obligations

We have exposure to representation, warranty and indemnification obligations because of our lending, sales and securitization activities, our acquisitions to the extent we assume one or more of these obligations, and in connection with our servicing practices. We initially recognize these obligations at fair value. Thereafter, the estimation of the liability considers probable future obligations based on industry data of loans of similar type segregated by year of origination, to the extent applicable, and estimated loss severity based on current loss rates for similar loans, our historical rescission rates and the current pipeline of unresolved demands. Our historical loss severity considers the historical loss experience that we incur upon sale or liquidation of a repurchased loan as well as current market conditions. We monitor the adequacy of the overall liability and make adjustments, as necessary, after consideration of other qualitative factors including ongoing dialogue and experience with our counterparties.

Litigation

We monitor our litigation matters, including advice from external legal counsel, and regularly perform assessments of these matters for potential loss accrual and disclosure. We establish liabilities for settlements, judgments on appeal and filed and/or threatened claims for which we believe it is probable that a loss has been or will be incurred and the amount can be reasonably estimated.

Going Concern

In accordance with ASC 205-40, Presentation of Financial Statements - Going Concern, we evaluate whether there are conditions that are known or reasonably knowable that raise substantial doubt about our ability to continue as a going concern within one year after the date that our financial statements are issued. We perform a detailed review and analysis of relevant quantitative and qualitative information from across our organization in connection with this evaluation. To support this effort, senior management from key business units reviews and assesses the following information:

-

our current financial condition, including liquidity sources at the date that the financial statements are issued (e.g., available liquid funds and available access to credit, including covenant compliance);
• our conditional and unconditional obligations due or anticipated within one year after the date that the financial statements are issued (regardless of whether those obligations are recognized in our financial statements);
• funds necessary to maintain operations considering our current financial condition, obligations and other expected cash flows within one year after the date that the financial statements are issued (i.e., financial forecasting); and

other conditions and events, when considered in conjunction with the above items, that may adversely affect our ability to meet obligations within one year after the date that the financial statements are issued (e.g., negative financial trends, indications of possible financial difficulties, internal matters such as a need to significantly revise operations and external matters such as adverse regulatory/legal proceedings or rating agency decisions). If such conditions exist, management evaluates its plans that when implemented would mitigate the condition(s) and alleviate the substantial doubt about our ability to continue as a going concern. Such plans are considered only if information available as of the date that the financial statements are issued indicates both of the following are true: it is probable management's plans will be implemented within the evaluation period; and it is probable management's plans, when implemented individually or in the aggregate, will mitigate the condition(s) that raise substantial doubt about our ability to continue as a going concern in the evaluation period. Our evaluation of whether it is probable that management's plans will be effectively implemented within the evaluation period is based on the feasibility of implementation of management's plans in light of our specific facts and circumstances.

Our evaluation of whether it is probable that our plans, individually or in the aggregate, will be implemented in the evaluation period involves a degree of judgment, including about matters that are, to different degrees, uncertain.

RECENT ACCOUNTING DEVELOPMENTS

Recent Accounting Pronouncements

We adopted each recent Accounting Standards Update (ASU) listed below on January 1, 2017. Our adoption of these standards did not have a material impact on our Unaudited Consolidated Financial Statements.

Income Taxes: Balance Sheet Classification of Deferred Taxes (ASU 2015-17)

Derivatives and Hedging: Effect of Derivative Contract Novations on Existing Hedge Accounting Relationships (ASU 2016-05)

- Derivatives and Hedging: Contingent Put and Call Options in Debt Instruments (ASU 2016-06)

Investments - Equity Method and Joint Ventures: Simplifying the Transition to the Equity Method of Accounting (ASU 2016-07)

Compensation - Stock Compensation: Improvements to Employee Shared-Based Payment Accounting (ASU 2016-09)

Consolidation: Interests Held through Related Parties That Are under Common Control (ASU 2016-17)

Technical Corrections and Improvements (ASU 2016-19)

We are also evaluating the impact of recently issued ASUs not yet adopted that are not effective for us until on or after January 1, 2018. While we do not anticipate that our adoption of most of these ASUs will have a material impact on our consolidated financial statements, we are currently evaluating the effect of adopting certain ASUs.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK (Dollars in thousands unless otherwise indicated)

Our principal market exposure is to interest rate risk due to the impact on our mortgage-related assets and commitments, including mortgage loans held for sale, IRLCs and MSRs. Changes in interest rates could materially and adversely affect our volume of mortgage loan originations or reduce the value of our MSRs. We also have exposure to the effects of changes in interest rates on our borrowings, including advance financing facilities. Interest rate risk is a function of (i) the timing of re-pricing and (ii) the dollar amount of assets and liabilities that re-price at various times. We are exposed to interest rate risk to the extent that our interest rate sensitive liabilities mature or re-price at different speeds, or on different bases, than interest-earning assets.

Our Market Risk Committee establishes and maintains policies that govern our hedging program, including such factors as our target hedge ratio, the hedge instruments that we are permitted to use in our hedging activities and the counterparties with whom we are permitted to enter into hedging transactions. See Note 13 – Derivative Financial Instruments and Hedging Activities to the Unaudited Consolidated Financial Statements for additional information regarding our use of derivatives.

Match Funded Liabilities

We monitor the effect of increases in interest rates on the interest paid on our variable rate advance financing debt. Earnings on cash and float balances are a partial offset to our exposure to changes in interest expense. To the extent the projected excess of our variable rate debt over cash and float balances require, we would consider hedging this exposure with interest rate swaps or other derivative instruments. We may purchase interest rate caps as economic hedges (not designated as a hedge for accounting purposes) as required by certain of our advance financing arrangements.

IRLCs and Loans Held for Sale

IRLCs represent an agreement to purchase loans from a third-party originator or an agreement to extend credit to a mortgage loan applicant, whereby the interest rate on the loan is set prior to funding. In our lending business, mortgage loans held for sale and IRLCs are subject to the effects of changes in mortgage interest rates from the date of the commitment through the sale of the loan into the secondary market. As a result, we are exposed to interest rate risk and related price risk during the period from the date of the lock commitment through (i) the lock commitment cancellation or expiration date or (ii) through the date of sale of the resulting loan into the secondary mortgage market. Loan commitments for forward loans range from 5 to 90 days, but the majority of our commitments are for 15 days (in the correspondent and broker channels) or 60 days (for the retail channel). Our holding period for mortgage loans from funding to sale is typically less than 30 days. Our interest rate exposure on these derivative loan commitments is hedged with freestanding derivatives such as forward contracts. We enter into forward contracts with respect to both fixed and variable rate loan commitments.

For loans held for sale that we have elected to carry at fair value, we manage the associated interest rate risk through an active hedging program overseen by our Investment Committee. Our hedging policy determines the hedging instruments to be used in the mortgage loan hedging program, which include forward sales of agency “to be announced” securities (TBAs), whole loan forward sales, Eurodollar futures and interest rate options. Forward mortgage-backed securities (MBS) trades are primarily used to fix the forward sales price that will be realized upon the sale of mortgage loans into the secondary market. Our hedging policy also stipulates the hedge ratio we must maintain in managing this interest rate risk, which is also monitored by our Investment Committee.

Fair Value MSR

We have elected to account for two classes of MSRs at fair value. The first is a class of acquired Agency MSRs, principally originated during 2012, for which we hedged the interest rate risk because the mortgage notes underlying the MSRs permit the borrowers to prepay the loans. Effective April 1, 2013, we modified our strategy for managing the risks of the portfolio of loans underlying this class of fair value MSRs and closed out the remaining economic hedge positions associated with this class. We terminated these hedges because we determined that they were ineffective for large movements in interest rates and only assured losses in substantial increasing-rate environments. The second class of MSRs accounted for at fair value was designated on January 1, 2015, when we elected fair value accounting for a newly created class of non-Agency MSRs that we previously accounted for using the amortization method.

Interest Rate Sensitive Financial Instruments

The tables below present the notional amounts of our financial instruments that are sensitive to changes in interest rates and the related fair value of these instruments at the dates indicated. We use certain assumptions to estimate the fair value of these instruments. See Note 3 – Fair Value to the Unaudited Consolidated Financial Statements for additional information regarding fair value of financial instruments.

	June 30, 2017		December 31, 2016	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Rate-Sensitive Assets:				
Interest-earning cash	\$93,334	\$93,334	\$146,698	\$146,698
Loans held for sale, at fair value	239,490	239,490	284,632	284,632
Loans held for sale, at lower of cost or fair value (1)	21,469	21,469	29,374	29,374
Loans held for investment, at fair value	4,223,776	4,223,776	3,565,716	3,565,716
Automotive dealer financing notes (including match funded)	33,867	33,527	33,224	33,147
U.S. Treasury notes	2,076	2,076	2,078	2,078
Debt service accounts and interest-earning time deposits	46,657	46,657	49,276	49,276
Total rate-sensitive assets	\$4,660,669	\$4,660,329	\$4,110,998	\$4,110,921

	June 30, 2017		December 31, 2016	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Rate-Sensitive Liabilities:				
Match funded liabilities	\$1,108,377	\$1,103,202	\$1,280,997	\$1,275,059
HMBS-related borrowings	4,061,626	4,061,626	3,433,781	3,433,781
Other secured borrowings (2)	643,860	653,746	678,543	682,703
Senior notes (2)	347,063	335,084	346,789	355,303
Total rate-sensitive liabilities	\$6,160,926	\$6,153,658	\$5,740,110	\$5,746,846
			June 30, 2017	
			Notional Balance	Fair Value
			December 31, 2016	
			Notional Balance	Fair Value
Rate-Sensitive Derivative Financial Instruments:				
Derivative assets (liabilities):				
Interest rate caps		\$725,000	\$1,937	\$955,000
IRLCs		245,578	5,352	360,450
Forward MBS trades		392,596	1,752	609,177
Derivatives, net			\$9,041	\$7,729

(1) Net of market valuation allowances and including non-performing loans.

(2) The carrying values are net of unamortized debt issuance costs and discount.

Sensitivity Analysis

Fair Value MSR, Loans Held for Sale and Related Derivatives

The following table summarizes the estimated change in the fair value of our MSR and loans held for sale that we have elected to carry at fair value as well as any related derivatives at June 30, 2017, given hypothetical instantaneous parallel shifts in the yield curve. We used June 30, 2017 market rates to perform the sensitivity analysis. The estimates are based on the market risk sensitive portfolios described in the preceding paragraphs and assume instantaneous, parallel shifts in interest rate yield curves. These sensitivities are hypothetical and presented for illustrative purposes only. Changes in fair value based on variations in assumptions generally cannot be extrapolated because the relationship to the change in fair value may not be linear.

	Change in Fair Value	
	Down 25 bps	Up 25 bps
Loans held for sale	\$2,590	\$(3,135)
Forward MBS trades	(3,469)	4,087
Total loans held for sale and related derivatives	(879)	952
Fair value MSR (1)	(776)	799
MSRs, embedded in pipeline	(290)	280
Total fair value MSR	(1,066)	1,079
Total, net	\$(1,945)	\$2,031

(1) This change in fair value reflects the impact of market rate changes on projected prepayments on the Agency MSR portfolio carried at fair value. Additionally, non-Agency MSR carried at fair value can exhibit cash flow sensitivity for advance financing costs and / or float earnings indexed to a market rate. However, we believe the pricing levels on aged non-Agency MSR should remain stable despite the recent rise in LIBOR rates, given the lack of market transactions supporting any pricing change, and the general industry approach to conservatively

valuing such assets. As such, we have assumed zero sensitivity to a 25 bps change in market rates for the non-Agency MSR portfolio.

Borrowings

The debt used to finance much of our operations is exposed to interest rate fluctuations. We may purchase interest rate swaps and interest rate caps to minimize future interest rate exposure from increases in one-month LIBOR interest rates.

Based on June 30, 2017 balances, if interest rates were to increase by 1% on our variable rate debt and interest earning cash and float balances, we estimate a net positive impact of approximately \$10.4 million resulting from an increase of \$24.9 million in annual interest income and an increase of \$14.4 million in annual interest expense. The increase in interest expense reflects the effect of our hedging activities, which would offset \$5.0 million of the increase in interest on our variable rate debt.

ITEM 4. CONTROLS AND PROCEDURES

Our management, under the supervision of and with the participation of our Chief Executive Officer and our Chief Financial Officer, has evaluated the effectiveness of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act), as of June 30, 2017.

Based on such evaluation, and solely because of the previously disclosed material weakness in internal control over financial reporting (see our Annual Report on Form 10-K/A for the year ended December 31, 2016) related to ineffective controls regarding the review and disclosure of regulatory matters, management concluded that our internal control over financial reporting was not effective as of June 30, 2017. Our controls related to the review and disclosure of regulatory matters were not operating effectively to ensure such matters were adequately disclosed. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis.

We are improving the communication and evaluation of regulatory matters and related disclosures to and by Ocwen's Disclosure Review Committee (DRC) by creating a working group comprised of representatives from accounting, financial reporting, legal and compliance who are charged with reviewing regulatory matters and disclosures. The DRC will also include a discussion of regulatory matters on its agenda. Management believes these changes will remediate the material weakness in internal control over financial reporting described above. We will test the ongoing operating effectiveness of the new controls in future periods. The material weakness cannot be considered remediated until the applicable remedial controls operate for a sufficient period of time.

There have not been any changes in our internal control over financial reporting that occurred during the fiscal quarter ended June 30, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

See Note 19 – Contingencies to the Unaudited Consolidated Financial Statements. That information is incorporated into this item by reference.

ITEM 1A. RISK FACTORS

An investment in our common stock involves significant risk. We describe the most significant risks that management believes affect or could affect us under Part I of Amendment No. 1 to our Annual Report on Form 10-K for the year ended December 31, 2016, and we added additional risk factors in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2017. Understanding these risks is important to understanding any statement in such Annual Report and in our subsequent SEC filings, (including this Form 10-Q) and to evaluating an investment in our common stock. You should carefully read and consider the risks and uncertainties described therein together with all of the other information included or incorporated by reference in such Annual Report and in our subsequent SEC filings before you make any decision regarding an investment in our common stock. You should also consider the information set forth under “Forward-Looking Statements.” If any of the risks actually occur, our business, financial condition and results of operations could be materially and adversely affected. If this were to happen, the value of our common stock could significantly decline, and you could lose some or all of your investment.

ITEM 6. EXHIBITS

- 3.1 Amended and Restated Articles of Incorporation, as amended (filed herewith)
- 3.2 Amended and Restated Bylaws of Ocwen Financial Corporation (1)
- 10.1* Ocwen Financial Corporation 2017 Performance Incentive Plan (2)
- 31.1 Certification of the Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (filed herewith)
- 31.2 Certification of the Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (filed herewith)
- 32.1 Certification of the Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (furnished herewith)
- 32.2 Certification of the Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 (furnished herewith)
- 101.INS XBRL Instance Document (filed herewith)
- 101.SCH XBRL Taxonomy Extension Schema Document (filed herewith)
- 101.CAL XBRL Taxonomy Extension Calculation Linkbase Document (filed herewith)
- 101.DEF XBRL Taxonomy Extension Definition Linkbase Document (filed herewith)
