### FINANCIAL MEASURES THAT SUPPLEMENT GAAP

### (Unaudited)

### Earnings before interest, taxes and noncontrolling interests (EBIT)

We define EBIT as earnings or loss before interest expense, income tax expense and noncontrolling interests. We use EBIT to assess and measure the performance of our operating segments and also as a component in measuring our variable compensation programs. Below is a reconciliation of EBIT, a non-GAAP financial measure, to consolidated net income attributable to Cummins Inc., for each of the applicable periods:

	Thre	e Months En					
In millions	Marc 2009	eh 29,		December 31, 2008	3	March 80, 2008	1

Net income attributable to Cummins 0.3 % 1.3 % 5.5 % Inc.
as a percentage of net sales

We believe EBIT is a useful measure of our operating performance for the periods presented as it illustrates our operating performance without regard to financing methods, capital structure or income taxes. This measure is not in accordance with, or an alternative for, accounting principles generally accepted in the United States of America and may not be consistent with measures used by other companies. It should be considered supplemental data.
