Supreme Industries Reports Improved Earnings and Revenues

for the Second-Quarter and First Six-Month Periods

 	 	 	<i>Quarterly revenues increased 5% to record \$95.4 million</i>									
 	 	 	<i>EPS in the quarter increased 53%</i>									
 	 	 	<i>Order backlog remains strong at \$72.6 million</i>									
 	 	 	<i>Supreme joins Russell Microcap Index</i>									
 	 	 	 	 	 	 	 	 	 	 	 	

GOSHEN, Ind., July 28, 2005 Supreme Industries, Inc. (AMEX:STS), a leading manufacturer of specialized vehicles bodies and shuttle buses, today announced improved financial results for the 2005 second quarter and six-month periods ended over the same periods of last year.

 	 	 	 	 	 	 	 	 	 	 	 	
--------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------

Strong volume with the Company's larger fleet and leasing customers produced higher revenues and earnings in the second quarter and six months of 2005. The Company recorded revenues of \$95.4 million for the second quarter of 2005, compared to \$90.9 million in the same period last year, an increase of \$4.5 million or 5 percent. Revenues in the first six months improved \$21.4 million, or 13 percent, to \$186.4 million in the 2005 period from \$164.4 in the 2004 period.

 	 	 	 	 	 	 	 	 	 	 	 	
--------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------

Net income for the second quarter was \$2.9 million, or \$0.23 per diluted share, in 2005 compared to \$1.9 million, or \$0.15 per share, in 2004, and for the first six months was \$6.0 million, or \$0.47 per diluted share, for the 2005 period and \$2.9 million, or \$0.23 per share, in the 2004 period.

 												
--------	--	--	--	--	--	--	--	--	--	--	--	--

Gross profit as a percentage of net sales increased in both the quarter and six-month period, primarily as a result of the price increases implemented throughout 2004 and 2005, as well as cost stabilization for the majority of the raw materials used in the Company's products. The increase in gross profit would have been greater if not for an escalation in group health insurance claims, particularly in the second quarter. These costs increased by \$561 thousand and \$738 thousand for the three and six month periods ended June 25, 2005 compared to the corresponding periods in 2004. A combination of increased number and severity of claims resulted in higher costs.

Selling, general and administrative expenses increased as a percent of net sales from 7.1 percent in the 2004 second quarter to 7.4 percent in the 2005 second quarter, and from 7.3 percent in the first six months of 2004 to 7.4 percent in the same period of 2005. Selling expenses increased due to a reduction in cooperative marketing funds received from chassis manufacturers in the first six months of 2005 versus the same period last year. Additionally, the Company experienced higher sales commission expense as a result of increased revenues and higher compensation expense related to the Company's incentive bonus plans.

Supreme Industries, Inc.

Page 2

of 2005 versus the same period last year. Additionally, the Company experienced higher sales commission expense as a result of increased revenues and higher compensation expense related to the Company's incentive bonus plans.

Interest expense increased from \$216 thousand in the second quarter of 2004 to \$568 thousand in the same period of 2005. For the first six months, interest expense increased from \$408 thousand in 2004 to \$1.1 million in 2005. The increase in interest expense for the first six months was the result of increased debt incurred principally for increased working capital and higher short-term interest rates in 2005 versus 2004.

Stockholders' equity improved to \$73.0 million and working capital increased to \$55.3 million; the Company continues to aggressively manage its working capital assets. Backlog was \$72.6 million as of June 25, 2005.

Robert W. Wilson, Executive Vice President, stated, "The Company experienced increased revenues of \$21.4 million for the first six months of 2005. The increased revenues were a result of the price increases the Company implemented throughout 2004 and 2005 as well as an increase in unit shipments. Additionally, we are pleased that the Company's gross margin of 12.9% for the first half of 2005 exceeded our 2005 goal of 12.2% and also exceeded the 10.2% reported in the same period of 2004, but also our 2005 gross margin goal of 12%."

Wilson concluded, "While the competitive landscape remains challenging, we are optimistic given the continued strength of our strong positioning within the truck and bus markets. Finally, we are excited to report that Supreme Industries has been included in the Russell Microcap Index, which represents the smallest 1000 members of the Russell 2000 and the next 1000 stocks by market capitalization. Supreme's inclusion in this index should assist in increasing the Company's visibility with investors and institutions that rely on market indexes as part of their investment strategy."

As announced on June 6, 2005, Supreme's board of directors approved a \$0.095 per share cash dividend on its outstanding Class B Common Stock to be paid on August 1, 2005 to shareholders of record on July 25, 2005. This cash dividend is the eighth consecutive quarterly cash dividend in what the Company intends to be a continuing series of quarterly cash dividends, business conditions permitting.

A live webcast of Supreme Industries' earnings conference call can be heard today at 4:30 p.m. Eastern Time at www.suprem

This report contains forward-looking statements (within the meaning of the Private Securities Litigation Reform Act of 1995), historical facts, which reflect the view of the Company's management with respect to future events. When used in this report, words such as "believe," "expect," "anticipate," "estimate," "intend," and similar expressions, as they relate to the Company or its plans or operations, identify forward-looking statements. Such forward-looking statements are based on assumptions made by and information current to the Company's management. Although management believes that the expectations reflected in such forward-looking statements are reasonable, it can give no assurance that such expectations are reasonable, and it can give no assurance that such expectations will have been correct. Important factors that could cause actual results to differ materially from such expectations include, without limitation, on the availability of chassis on which the Company's product is dependent, availability of raw materials, raw material price increases, and severe interest rate increases. Furthermore, the Company can provide no assurance that such raw material cost increases can be passed on to its customers through implementation of price increases for the Company's products. The forward-looking statements contained herein reflect the current views of the Company's management with respect to future events and are subject to those and other risks, uncertainties and assumptions relating to the operations, results of operations, cash flows and financial position of the Company. The Company assumes no obligation to update the forward-looking statements or to update the reasons actual results could differ from those contemplated by such forward-looking statements.
