TO THE STOCKHOLDERS

For the six months ended June 30, 2003, the investment return to our stockholders was 15.2% (assuming reinvestment of all dividends). The net asset value per Common Share increased 14%. By comparison, the rate of return (including income) for our benchmark, the Standard & Poor's 500 Stock Index, was 11.8%. For the twelve months ended June 30, 2003, the return to our stockholders was 0.5% and the return on the net asset value per Common Share was 1.7%; these compare with a return of 0.2% for the S&P 500. During each period, the discount at which our shares traded fluctuated moderately and at June 30, 2003, it was 9%.

As set forth in the accompanying financial statements (unaudited), as of June 30, 2003, the net assets applicable to the Company's Common Stock were \$900,995,376, equal to \$30.15 per Common Share.

The increase in net assets resulting from operations for the six months ended June 30, 2003 was \$109,190,824. During this period, the net realized loss on securities sold was \$14,548,958 and the increase in unrealized appreciation was \$128,580,315. Net investment income for the six months was \$559,467 and distributions to preferred stockholders amounted to \$5,400,000.

During the six months, 679,300 shares of the Company's Common Stock were repurchased for \$16,167,444 at an average discount from net asset value of 9.5%.

Our portfolio performed well during the period just ended, reflecting the outsized gains in a number of our core holdings. The reduction and equalization of the rate of taxation on capital gains and dividends appears to have buoyed investor confidence. The stock market may be anticipating an imminent step-up in the rate of economic activity moreover, resulting from the massive monetary and fiscal stimulus in place beforehand. At current valuations, however, some measure of recovery and consequent growth in earnings may be reflected in the market.

On July 9, 2003, the Board of Directors authorized the redemption on September 23, 2003 of all of the shares of 7.20% Tax-Advantaged Cumulative Preferred Stock then outstanding at the redemption price of \$25.00 per share. In addition, the directors authorized the filing of a registration statement with the U.S. Securities and Exchange Commission for the public offering and sale of shares of a new series of preferred stock. The amount of capital to be raised, the dividend rate and the timing of the offering have not been determined at the present time.

The information about the Company, including our investment objective, operating policies and procedures, investment results, record of dividend payments, financial reports and press releases, contained at our website has been updated through June 30, 2003. It can be accessed on the Internet at www.generalamericaninvestors.com.

NOTES TO FINANCIAL STATEMENTS (Unaudited)

General American Investors

1. SIGNIFICANT ACCOUNTING POLICIES

General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. SECURITY VALUATION Securities traded on securities exchanges or on the NASDAQ National Market System are valued at the last reported sales price on the last business day of the period. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions) on the valuation date. Corporate discount notes and U.S. Treasury bills are valued at amortized cost, which approximates market value. Special holdings are valued at fair value in the opinion of the directors. In determining fair value, in the case of restricted shares, consideration is given to cost, operating and other financial data and, where applicable, subsequent private offerings or market price of the issuer's unrestricted shares (to which a 30 percent discount is applied).

b. SHORT SALES The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.

c. FEDERAL INCOME TAXES The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

d. OTHER As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

2. Capital Stock and Dividend Distributions

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 29,882,056 shares and 6,000,000 shares, respectively, were outstanding at June 30, 2003.

On June 19, 1998, the Company issued and sold 6,000,000 shares of its 7.20% Tax-Advantaged Cumulative Preferred Stock. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return of capital.

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things,

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company classifies its Preferred Stock pursuant to the requirements of EITF D-98, Classification and Measurement of Redeemable Securities, which require that preferred stock for which its redemption is outside of the Company's control should be presented outside of net assets in the statement of assets and liabilities.

On July 9, 2003, the Board of Directors authorized the redemption on September 23, 2003 of all of the shares of 7.20% Tax-Advantaged Cumulative Preferred Stock then outstanding at the redemption price of \$25.00 per share. In addition, the directors authorized the filing of a registration statement with the U.S. Securities and Exchange Commission for the public offering and sale of shares of a new series of preferred stock. The amount of capital to be raised, the dividend rate and the timing of the offering have not been determined as of July 9, 2003.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To the Board of Directors and Stockholders of
GENERAL AMERICAN INVESTORS COMPANY, INC.

We have reviewed the accompanying statement of assets and liabilities of General American Investors Company, Inc., including the statements of investments and securities sold short, as of June 30, 2003, and the related statements of operations and changes in net assets and financial highlights for the six month period ended June 30, 2003. These financial statements and financial highlights are the responsibility of the Company's management.

We conducted our review in accordance with standards established by the American Institute of Certified Public Accountants. A review of interim financial information consists principally of applying analytical procedures to financial data, and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the interim financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States.

We have previously audited, in accordance with auditing standards generally accepted in the United States, the statement of changes in net assets for the year ended December 31, 2002 and financial highlights for each of the five years in the period then ended and in our report, dated January 14, 2003, we expressed an unqualified opinion on such financial statements and financial highlights.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

General American Investors Company, Inc.

PROXY VOTING POLICIES AND PROCEDURES

General American Investors Company, Inc. (the "Company") is uniquely structured as an internally managed closed-end investment company. Our research efforts, including the receipt and analysis of proxy material, are focused on the securities in the Company's portfolio, as well as alternative investment opportunities. We vote proxies relating to our portfolio securities in the best long-term interests of the Company.

Our investment approach stresses fundamental security analysis, which includes an evaluation of the integrity, as well as the effectiveness of management personnel. In proxy material, we review management proposals and management recommendations relating to shareholder proposals in order to, among other things, gain assurance that management's positions are consistent with its integrity and the long-term interests of the company. We generally find this to be the case and, accordingly, give significant weight to the views of management

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

when we vote proxies.

Proposals that may have an impact on the rights or privileges of the securities held by the Company would be reviewed very carefully. The explanation for a negative impact could justify the proposal; however, if such justification were not present, we would vote against a significant reduction in the rights or privileges associated with any of our holdings.

Proposals relating to corporate governance matters are reviewed on a case-by-case basis. When they involve changes in the state of incorporation, mergers or other restructuring, we would, if necessary, complete our review of the rationale for the proposal by contacting company representatives and, with few exceptions, vote in favor of management's recommendations. Proposals relating to anti-takeover provisions, such as staggered boards, poison pills and supermajorities could be more problematic. They would be considered in light of our assessment of the capability of current management, the duration of the proposal, the negative impact it might have on the attractiveness of the company to future "investors," among other factors. We can envision circumstances under which we would vote against an anti-takeover provision.

Generally, we would vote with management on proposals relating to changes to the company's capital structure, including increases and decreases of capital and issuances of preferred stock; however, we would review the facts and circumstances associated with each proposal before finalizing our decision.

Well-structured stock option plans and management compensation programs are essential for companies to attract and retain high caliber management personnel. We generally vote in favor of proposals relating to these issues; however, there could be an occasion on which we viewed such a proposal as over reaching on the part of management or having the potential for excessive dilution when we would vote against the proposal.

Corporations should act in a responsible manner toward their employees, the communities in which they are located, the customers they serve and the world at large. We have observed that most stockholder proposals relating to social issues focus on a narrow issue and the corporate position set forth in the proxy material provides a well-considered response demonstrating an appropriate and responsible action or position. Accordingly, we generally support management recommendations on these types of proposals; however, we would consider each proposal on a case-by-case basis.

We take voting proxies of securities held in our portfolio very seriously. As indicated above, it is an integral part of the analytical process at General American Investors. Each proposal and any competing interests are reviewed carefully on a case-by-case basis. Generally, we support and vote in accordance with the recommendations of management; however, the overriding basis for the votes we cast is the best long-term interests of the Company.

ITEM 9. CONTROLS AND PROCEDURES.

Conclusions of principal officers concerning controls and procedures

(a) As of July 23, 2003, an evaluation was performed under the supervision and with the participation of the officers of General American Investors Company, Inc. (the "Company"), including the principal executive officer ("PEO") and principal financial officer ("PFO"), of the effectiveness of the Company's

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

disclosure controls and procedures. Based on that evaluation, the Company's officers, including the PEO and PFO, concluded that, as of July 23, 2003, the Company's disclosure controls and procedures were reasonably designed so as to ensure that material information relating to the Company is made known to the PEO and PFO.

(b) There have been no significant changes in the Company's internal controls or in other factors that could significantly affect these controls subsequent to the date of their evaluation and until the filing of this report, including any corrective actions with regard to significant deficiencies and material weaknesses.
