1 TO THE STOCKHOLDERS

General American Investors

The U.S. stock market rose for the third consecutive year, gaining 4.8% in the 12 months ended December 31, 2005, as measured by our benchmark, the Standard & Poor's 500 Stock Index (including income). General American Investors' net asset value (NAV) per Common Share (assuming reinvestment of all dividends) increased 16.2%. The return to our Common Stockholders was 17.4%, reflecting a slight narrowing in the discount at which our shares trade, which, at year end, was 11.4%.

The table that follows, which compares our returns on an annualized basis with the S&P 500, illustrates that over many years General American has produced superior investment results.

Years	Stockholder Return	S&P 500
3	17.5%	14.3%
5	4.3	0.5
10	16.4	9.0
20	14.8	11.9
30	17.4	12.7
40	12.9	10.3

The share repurchase program, a part of our continuing effort to maximize NAV, continues apace. During 2005, the Company purchased 1,222,404 of its Common Shares in the open market at an average discount to NAV of 12.4%. The Board of Directors has authorized repurchases of Common Shares when they are trading at a discount in excess of 8% of NAV.

Markets rallied again last year, continuing the trend that began in 2003. Earnings rose meaningfully, and interest rates remained at relatively modest levels by historic standards, notwithstanding the Federal Reserve's ongoing tightening campaign. While mirroring economic trends, the relatively muted performance of stocks reflected the compression in valuation multiples (price to earnings ratios) that generally attends a maturing business cycle.

Our performance last year benefited importantly from the portfolio's exposure to the shares of oil and natural gas producers and their service providers. Other contributors included financial services, biotech and cement companies. As in the past, our investments were focused on companies with strong financial characteristics and powerful positions in growing industries. Both operating costs relative to average net assets and portfolio turnover remained well below the equity mutual fund industry norm.

We enter 2006 with cautious optimism, encouraged by robust global growth and the resiliency of our economy in the face of rising interest rates and higher energy

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

costs. While there is currently little evidence of decelerating spending, we fear that consumer demand for durables like cars and housing is unlikely to rise appreciably. It would appear that consumers have been spending more than they make for some time, while other sources of liquidity, like home equity loans, will probably contract, even assuming that the Fed stops raising rates this year. With the unemployment rate below 5% and labor shortages, especially among skilled workers, increasingly common, corporations may well supplement flagging consumer demand with increased expenditure on productivity-enhancing capital goods. They have been reluctant spenders in this business cycle, continuing to cut costs and rationalize facilities in the face of lower-cost Asian competition.

As corporate earnings have continued to grow, market valuations have become more reasonable, but not generally compelling. Inflation appears to be rising steadily, if not spectacularly, which together with an aging economic expansion may continue to pressure the multiple awarded earnings and, consequently, market prices. We remain encouraged, however, by the earnings and cash flow characteristics of our portfolio companies and highly confident that our staff will continue to perform to its customary high standard.

As mentioned in the mid-year report, Eugene L. DeStaebler, Jr., who had been an officer of the Company for thirty years, retired as Vice-President, Administration, on June 30, 2005. Mr. DeStaebler continued to serve as Chief Compliance Officer, under a consultancy arrangement, through December 31, 2005. Effective January 1, 2006, Eugene S. Stark, Vice-President, Administration, assumed the additional responsibilities of Chief Compliance Officer.

We are pleased to report that on December 14, 2005, Dr. Sally Lynch, who has been employed as a securities analyst at the Company since 1997, and Mr. Jesse Stuart, CFA, who has also been employed as a securities analyst since 2003, were appointed Vice-Presidents of the Company, both effective January 1, 2006.

We are saddened to report that Dr. William O. Baker, our esteemed colleague and Director Emeritus, died on October 31, 2005. Dr. Baker, a prominent scientist, former Chairman of the Board of Bell Laboratories, and an adviser to five presidents on scientific affairs, served as a director of the Company for 13 years, and as Director Emeritus since 1996. His counsel and support will be missed.

Information about the Company, including our investment objectives, operating policies and procedures, investment results, record of dividend payments, financial reports and press releases, etc., is available on our website, which can be accessed at www.generalamericaninvestors.com.

By Order of the Board of Directors,

Spencer Davidson

2 THE COMPANY

General American Investors

CORPORATE OVERVIEW

General American Investors, established in 1927, is one of the nation's oldest closed-end investment companies. It is an independent organization, internally managed. For regulatory purposes, the Company is classified as a diversified, closed-end management investment company; it is registered under and subject to

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

the regulatory provisions of the Investment Company Act of 1940.

INVESTMENT POLICY

The primary objective of the Company is long-term capital appreciation. Lesser emphasis is placed on current income. In seeking to achieve its primary objective, the Company invests principally in common stocks believed by its management to have better than average growth potential.

The Company's investment approach focuses on the selection of individual stocks, each of which is expected to meet a clearly defined portfolio objective. A continuous investment research program, which stresses fundamental security analysis, is carried on by the officers and staff of the Company under the oversight of the Board of Directors. A listing of the directors with their principal affiliations, showing a broad range of experience in business and financial affairs, is on page 20.

PORTFOLIO MANAGER

Mr. Spencer Davidson has been responsible for the management of General American's portfolio since he was elected President and Chief Executive Officer of the Company in August 1995. Mr. Davidson, who joined the Company in 1994 as senior investment counselor, has spent his entire business career on Wall Street since first joining an investment and banking firm in 1966.

"GAM" Common Stock

As a closed-end investment company, General American Investors does not offer its shares continuously. The Common Stock is listed on The New York Stock Exchange (symbol, GAM) and can be bought or sold with commissions determined in the same manner as all listed stocks. Net asset value is computed and published on the Company's website daily (on an unaudited basis) and is furnished upon request. It is also available on most electronic quotation services using the symbol "XGAMX." The figure for net asset value per share, together with the market price and the percentage discount or premium from net asset value as of the close of each week, is published in The New York Times, The Wall Street Journal and Barron's.

The ratio of market price to net asset value has shown considerable variation over a long period of time. While shares of GAM usually sell at a discount from their underlying net asset value, as do the shares of most other domestic equity closed-end investment companies, they, occasionally, sell at a premium over net asset value. During 2005, the stock sold at discounts from net asset value which ranged from 9.8% (November 9) to 14.9% (July 5). At December 31, the price of the stock was at a discount of 11.4% as compared with a discount of 11.7% a year earlier.

"GAM Pr B" Preferred Stock

On September 24, 2003, the Company issued and sold in an underwritten offering 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B with a liquidation preference of \$25 per share (\$200,000,000 in the aggregate).

The Preferred Shares are noncallable for 5 years, are rated "aaa" by Moody's Investors Service, Inc. and are listed and traded on The New York Stock Exchange (symbol, GAM Pr B). preferred capital is available to leverage the investment

performance of the Common Stockholders. As is the case for leverage in general,

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

it may also result in higher market volatility for the Common Stockholders.

DIVIDEND AND DISTRIBUTION POLICY

The Company's dividend and distribution policy is to distribute to stockholders before year-end substantially all ordinary income estimated for the full year and capital gains realized during the ten-month period ended October 31 of that year. If any additional capital gains are realized or ordinary income is earned during the last two months of the year, a "spill-over" distribution of these amounts will be paid early in the following year to Common Stockholders. Dividends and distributions on shares of Preferred Stock are paid quarterly. Distributions from capital gains and dividends from ordinary income are allocated proportionately among holders of shares of Common Stock and Preferred Stock.

Dividends from income have been paid continuously on the Common Stock since 1939 and capital gain distributions in varying amounts have been paid for each of the years 1943-2005 (except for the year 1974). (A table listing dividends and distributions paid during the 20-year period 1986-2005 is shown at the bottom of page 6.) To the extent that shares can be issued, dividends and distributions are paid to Common Stockholders in additional shares of Common Stock unless the stockholder specifically requests payment in cash. Spill-over dividends and distributions of nominal amounts may be paid in cash only.

PROXY VOTING POLICIES, PROCEDURES AND RECORD

The policies and procedures used by General American Investors to determine how to vote proxies relating to portfolio securities and the Company's proxy voting record for the 12-month period ended June 30, 2005 are available: (1) without charge, upon request, by calling the Company at its toll-free number (1-800-436-8401), (2) on the Company's website at www.generalamericaninvestors.com and (3) on the Securities and Exchange Commission's website at www.sec.gov.

DIRECT REGISTRATION

The Company makes available direct registration for its Common Shareholders. Direct registration, which is an element of the Investors Choice Plan administered by our transfer agent, is a system that allows for book-entry ownership and the electronic transfer of our Common Shares. Accordingly, when Common Shareholders, who hold their shares directly, receive new shares resulting from a purchase, transfer or dividend payment, they will receive a statement showing the credit of the new shares as well as their Plan account and certificated share balances. A brochure which describes the features and benefits of the Investors Choice Plan, including the ability of shareholders to deposit certificates with our transfer agent, can be obtained by calling American Stock Transfer & Trust Company at 1-800-413-5499, calling the Company at 1-800-436-8401 or visiting our website: www.generalamericaninvestors.com - click on Dividends & Reports, then Report Downloads.

4 INVESTMENT RESULTS (UNAUDITED)

----- General American Investors

"Total return on \$10,000 investment 20 years ended December 31, 2005"

The investment return for a Common Stockholder of General American Investors (GAM) over the 20 years ended December 31, 2005 is shown in the table below and in the accompanying chart. The return based on GAM's net asset value (NAV) per Common Share in comparison to the change in the Standard & Poor's 500 Stock Index (S&P 500) is also displayed. Each illustration assumes an investment of \$10,000 at the beginning of 1986.

THE STOCKHOLDER RETURN is the return a Common Stock holder of GAM would have achieved assuming reinvestment of all dividends and distributions at the actual reinvestment price and of all cash dividends at the average (mean between high and low) market price on the ex-dividend date.

THE GAM NET ASSET VALUE (NAV) RETURN is the return on shares of the Company's Common Stock based on the NAV per share, including the reinvestment of all dividends and distributions.

THE S&P 500 RETURN is the time-weighted total rate of return on this widely-recognized, unmanaged index which is a measure of general stock market performance, including dividend income.

The results illustrated are a record of past performance and may not be indicative of future results.

14 NOTES TO FINANCIAL STATEMENTS

General American Investors

1. SIGNIFICANT ACCOUNTING POLICIES

General American Investors Company, Inc. (the "Company"), established in 1927, is registered under the Investment Company Act of 1940 as a closed-end, diversified management investment company. It is internally managed by its officers under the direction of the Board of Directors.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

a. SECURITY VALUATION Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the period. Securities reported on the NASDAQ national market are valued at the official closing price on that day. Listed and NASDAQ securities for which no sales are reported on that day and other securities traded in the over-the-counter market are valued at the last bid price (asked price for open short positions and options written) on the valuation date. Securities traded primarily in foreign markets are generally valued at the preceding closing price of such securities on their respective exchanges or markets. If, after the close of the foreign market, conditions change significantly, the price of certain foreign securities may be adjusted to reflect fair value as of the time of the valuation of the portfolio. Corporate discount notes are valued at amortized cost, which approximates market value. Investments in money market funds are valued at their net asset value. Special holdings (restricted securities) and other securities for which quotations are not readily available are valued at fair value determined in good faith pursuant to procedures established by and under the general supervision of the Board of Directors.

b. SHORT SALES The Company may make short sales of securities for either speculative or hedging purposes. When the Company makes a short sale, it borrows the securities sold short from a broker; in addition, the Company places cash with that broker and securities in a segregated account with the custodian, both as collateral for the short position. The Company may be required to pay a fee to borrow the securities and may also be obligated to pay any dividends declared

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

on the borrowed securities. The Company will realize a gain if the security price decreases and a loss if the security price increases between the date of the short sale and the date on which the Company replaces the borrowed securities.

c. **OPTIONS** The Company may purchase and write (sell) put and call options. The risk associated with purchasing an option is that the Company pays a premium whether or not the option is exercised. Additionally, the Company bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. Premiums received from writing options that expire unexercised are treated by the Company on the expiration date as realized gains from investments. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium is added to the proceeds from the sale of the underlying security in determining whether the Company has realized a gain or loss. If a put option is exercised, the premium reduces the cost basis for the securities purchased by the Company. The Company as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option.

d. **FEDERAL INCOME TAXES** The Company's policy is to fulfill the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all taxable income to its stockholders. Accordingly, no provision for Federal income taxes is required.

e. **INDEMNIFICATIONS** In the ordinary course of business, the Company enters into contracts that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not had prior claims or losses pursuant to these indemnification provisions and expects the risk of loss thereunder to be remote.

f. **OTHER** As customary in the investment company industry, securities transactions are recorded as of the trade date. Dividend income and distributions to stockholders are recorded as of the ex-dividend dates. Interest income, adjusted for amortization of discount and premium on investments, is earned from settlement date and is recognized on the accrual basis. Cost of short-term investments represents amortized cost.

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS

The authorized capital stock of the Company consists of 50,000,000 shares of Common Stock, \$1.00 par value, and 10,000,000 shares of Preferred Stock, \$1.00 par value, of which 29,050,399 shares and 8,000,000 shares, respectively, were outstanding at December 31, 2005.

On September 24, 2003, the Company issued and sold 8,000,000 shares of its 5.95% Cumulative Preferred Stock, Series B in an underwritten offering. The Preferred Shares are noncallable for 5 years and have a liquidation preference of \$25.00 per share plus an amount equal to accumulated and unpaid dividends to the date of redemption. The underwriting discount and other expenses associated with the Preferred Stock offering amounted to \$6,700,000 and were charged to paid-in capital.

The Company is required to allocate distributions from long-term capital gains and other types of income proportionately among holders of shares of Common Stock and Preferred Stock. To the extent that dividends on the shares of Preferred Stock are not paid from long-term capital gains, they will be paid from ordinary income or net short-term capital gains or will represent a return

2. CAPITAL STOCK AND DIVIDEND DISTRIBUTIONS -
 (Continued from previous page.)

Under the Investment Company Act of 1940, the Company is required to maintain an asset coverage of at least 200% for the Preferred Stock. In addition, pursuant to the Rating Agency Guidelines, the Company is required to maintain a certain discounted asset coverage for its portfolio that equals or exceeds the Basic Maintenance Amount under the guidelines established by Moody's Investors Service, Inc. The Company has met these requirements since the issuance of the Preferred Stock. If the Company fails to meet these requirements in the future and does not cure such failure, the Company may be required to redeem, in whole or in part, shares of Preferred Stock at a redemption price of \$25.00 per share plus accumulated and unpaid dividends (whether or not earned or declared). In addition, the Company's failure to meet the foregoing asset coverage requirements could restrict its ability to pay dividends on shares of Common Stock and could lead to sales of portfolio securities at inopportune times.

The holders of Preferred Stock have voting rights equivalent to those of the holders of Common Stock (one vote per share) and, generally, vote together with the holders of Common Stock as a single class.

At all times, holders of Preferred Stock will elect two members of the Company's Board of Directors and the holders of Preferred and Common Stock, voting as a single class, will elect the remaining directors. If the Company fails to pay dividends on the Preferred Stock in an amount equal to two full years' dividends, the holders of Preferred Stock will have the right to elect a majority of the directors. In addition, the Investment Company Act of 1940 requires that approval of the holders of a majority of any outstanding Preferred Shares, voting separately as a class, would be required to (a) adopt any plan of reorganization that would adversely affect the Preferred Stock and (b) take any action requiring a vote of security holders, including, among other things, changes in the Company's subclassification as a closed-end investment company or changes in its fundamental investment policies.

The Company classifies its Preferred Stock pursuant to the requirements of EITF D-98, Classification and Measurement of Redeemable Securities, which requires that preferred stock for which its redemption is outside of the company's control should be presented outside of net assets in the statement of assets and liabilities.

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

assets for each of the two years in the period then ended, and financial highlights for each of the five years in the period then ended. These financial statements and financial highlights are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. We were not engaged to perform an audit of the Company's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the custodian and brokers. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of General American Investors Company, Inc. at December 31, 2005, the results of its operations and the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

The schedule of investments in securities of unaffiliated issuers is included as part of the report to stockholders filed under Item 1 of this form.

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

General American Investors Company, Inc.

PROXY VOTING POLICIES AND PROCEDURES

General American Investors Company, Inc. (the "Company") is uniquely structured as an internally managed closed-end investment company. Our research efforts, including the receipt and analysis of proxy material, are focused on the securities in the Company's portfolio, as well as alternative investment opportunities. We vote proxies relating to our portfolio securities in the best long-term interests of the Company.

Our investment approach stresses fundamental security analysis, which includes an evaluation of the integrity, as well as the effectiveness of

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

management personnel. In proxy material, we review management proposals and management recommendations relating to shareholder proposals in order to, among other things, gain assurance that management's positions are consistent with its integrity and the long-term interests of the company. We generally find this to be the case and, accordingly, give significant weight to the views of management when we vote proxies.

Proposals that may have an impact on the rights or privileges of the securities held by the Company would be reviewed very carefully. The explanation for a negative impact could justify the proposal; however, if such justification were not present, we would vote against a significant reduction in the rights or privileges associated with any of our holdings.

Proposals relating to corporate governance matters are reviewed on a case-by-case basis. When they involve changes in the state of incorporation, mergers or other restructuring, we would, if necessary, complete our review of the rationale for the proposal by contacting company representatives and, with few exceptions, vote in favor of management's recommendations. Proposals relating to anti-takeover provisions, such as staggered boards, poison pills and supermajorities could be more problematic. They would be considered in light of our assessment of the capability of current management, the duration of the proposal, the negative impact it might have on the attractiveness of the company to future "investors," among other factors. We can envision circumstances under which we would vote against an anti-takeover provision.

Generally, we would vote with management on proposals relating to changes to the company's capital structure, including increases and decreases of capital and issuances of preferred stock; however, we would review the facts and circumstances associated with each proposal before finalizing our decision.

Well-structured stock option plans and management compensation programs are essential for companies to attract and retain high caliber management personnel. We generally vote in favor of proposals relating to these issues; however, there could be an occasion on which we viewed such a proposal as over reaching on the part of management or having the potential for excessive dilution when we would vote against the proposal.

Corporations should act in a responsible manner toward their employees, the communities in which they are located, the customers they serve and the world at large. We have observed that most stockholder proposals relating to social issues focus on a narrow issue and the corporate position set forth in the proxy material provides a well-considered response demonstrating an appropriate and responsible action or position. Accordingly, we generally support management recommendations on these types of proposals; however, we would consider each proposal on a case-by-case basis.

We take voting proxies of securities held in our portfolio very seriously. As indicated above, it is an integral part of the analytical process at General American Investors. Each proposal and any competing interests are reviewed carefully on a case-by-case basis. Generally, we support and vote in accordance with the recommendations of management; however, the overriding basis for the votes we cast is the best long-term interests of the Company.

Item 8. PORTFOLIO MANAGERS OF CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Mr. Spencer Davidson, President and Chief Executive Officer, serves as the Portfolio Manager of the registrant and is responsible for its day-to-day management. He has served in this capacity since 1995. Mr. Davidson does not provide such services for any other registered investment companies, pooled investment vehicles, or other accounts. For performing such responsibilities,

Edgar Filing: GENERAL AMERICAN INVESTORS CO INC - Form N-CSR

Mr. Davidson receives cash compensation in the form of a fixed salary and an annual performance bonus. The annual performance bonus is principally based upon the absolute performance of the registrant and its relative performance to a closed-end management investment company peer group (comprised of core equity funds) and the S&P 500 Index. Performance is evaluated in December by the Compensation Committee of the board of directors (the members of which are independent and consult with the full board of directors), based upon the registrant's net asset value return and total investment return during the twelve months ended October 31. Additional consideration is given to performance during the subsequent intervening period and to market compensation data provided by a noted industry compensation consulting firm. Mr. Davidson beneficially owns in excess of \$1 million of the registrant's outstanding equity securities.
