NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Basis of Presentation

In the opinion of the Company, the accompanying consolidated financial statements for the periods ended June 29, 2001, and June 30, 2000, contain all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the financial position as of June 29, 2001, and December 31, 2000, and the results of operations and cash flows for the periods ended June 29, 2001, and June 30, 2000.

The results of operations for the six-month period ended June 29, 2001, are not necessarily indicative of the results expected for the full year.

The consolidated financial statements included herein have been prepared by the Company, without audit of the six-month periods ended June 29, 2001, and June 30, 2000, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures are adequate to present fairly the Company's financial position and results of operations. These consolidated financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's latest Annual Report on Form 10-K.

Note 2 - Investments

The Company had investments of \$17,020,000 and \$16,654,000 as of June 29, 2001, and December 31, 2000, respectively. The investments were classified as "available-for-sale," and the difference between the cost and fair value of these investments was immaterial and is included in other comprehensive income.

Note 3 - Inventories

(in thousands)	June 29, 2001	December 31, 2000

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 4 - Income Taxes

The net federal, state and foreign income tax provisions were \$840,000 for the six-month period ended June 29, 2001, and \$8,728,000 for the six-month period ended June 30, 2000. Tax credits are treated as reductions of income tax provisions in the year in which the credits are realized. The Company does not provide for federal income taxes on the undistributed earnings of its wholly-owned foreign subsidiaries, since these earnings are indefinitely reinvested.

The effective income tax rates for the six-month periods ended June 29, 2001, and June 30, 2000, were 32.5% and 33.0%, respectively.

The major components of deferred tax assets are compensation and benefit plans, inventory valuation and depreciation. Based on past experience, the Company expects that the future taxable income will be sufficient for the realization of the deferred tax assets. The Company believes that a valuation allowance is not required.

Note 5 - Net Income Per Share

Basic net income per common share is based on the weighted average number of common shares outstanding during the period. Diluted net income per common share reflects the potential dilution that could occur if outstanding stock options were exercised.

The following table sets forth the computation of basic and diluted net income per common share:

	Three Months Ended		Six Months Ended
