Executive Officer

EXHIBIT INDEX

Exhibit Number	Description
99	Quarterly shareholder report issued April 28, 2004

Exhibit 99

[GRAPHIC OMITTED] [GRAPHIC OMITTED]

First Mid-Illinois Bancshares, Inc. had an excellent first quarter with diluted earnings per share increasing to \$.77 per share as compared to \$.73 per share for the first quarter of 2003. Net income increased to \$2,389,000 compared to \$2,362,000 for the first quarter of 2003. Earnings per share increased more than net income because of our stock buy-back program. In the first quarter of 2004, we acquired 175,818 shares at a total investment of \$8,376,000. This program has proven to be an effective way of increasing value for our shareholders.

Higher net interest income was the primary factor in earnings growth. Loan balances have increased \$44 million since March 31, 2003, which resulted in an improvement in our net interest margin, as well as net interest income. Net interest income increased from \$6,480,000 for the first quarter of 2003 to \$7,040,000 for the same period in 2004 for an increase of \$560,000 or 8.6%. The Company's net interest margin increased to 3.90% on a tax equivalent basis from 3.74% a year earlier. This increase offset the decline in mortgage banking revenue of \$396,000 as mortgage refinancings slowed from their early 2003 levels.

During the first quarter of 2004, we experienced slight declines in loan balances, an increase in overnight funds and a modest increase in our deposit balances, all generally as a result of the cyclical business activities of many of our core customers.

Our provision for loan losses amounted to \$187,000 for the first three months of 2004 as compared to \$250,000 during the same period last year, with net

Edgar Filing: FIRST MID ILLINOIS BANCSHARES INC - Form 8-K

charge-offs declining to \$113,000 for the first three months of 2004 compared to \$132,000 for the same period last year. Non-performing loans on March 31, 2004 were \$3,269,000 as compared with \$3,331,000 on December 31, 2003.

We are pleased with the increases we recorded in both trust and brokerage revenue. Revenue from these activities is dependant not only on volume but also on the general levels of the equity markets in the United States and abroad. Since early 2003, our volumes have increased nicely as have the equity markets. Together, these factors resulted in a \$213,000 or 42% increase in revenue from our trust and retail brokerage activities. In late 2002, we formed a strategic alliance with WCM Investment Management, Inc. in Carmel, California to improve our overall trust investment and wealth management capabilities. This alliance is working out well and the return on our common trust fund has exceeded the S & P 500 since this alliance was consummated.

Non-interest expenses increased by \$153,000 compared to the first quarter of 2003 as a result of increased costs for salaries and benefits, and professional fees incurred in implementing the requirements of the Sarbanes-Oxley Act of 2002. Since the passage of Sarbanes-Oxley in 2002, First Mid has undertaken a comprehensive review of all aspects of our corporate governance policies and procedures.

During the first quarter of 2004, we issued \$10 million of Trust Preferred Securities. Trust Preferred Securities are long-term debt, callable securities which, because of certain equity-like features, qualify as regulatory capital. While we have no specific plans at this point for this additional capital, these funds could be used for stock repurchases, acquisitions or other corporate purposes.

Our 2004 annual meeting of stockholders will be held at 4:00 PM on May 26, 2004 in the main lobby of First Mid-Illinois Bank & Trust, N.A., 1515 Charleston Avenue, Mattoon, Illinois. All shareholders are invited to attend. On behalf of the Board, management and entire staff of the Company, I thank you for your continued support and look forward to visiting with as many of you as possible at the annual meeting.

Sincerely,

/s/ William S. Rowland
