FORWARD-LOOKING STATEMENTS

Certain statements contained in this Quarterly Report on Form 10-Q may be considered “forward-looking statements” as that term is defined in the Private Securities Litigation Reform Act of 1995. The forward-looking statements contained herein are subject to known and unknown risks, uncertainties, assumptions and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by any such forward-looking statements. Forward-looking statements include information concerning our future financial performance, business strategy, projected plans and objectives. These statements may be identified by the fact that they do not relate to historical or current facts and may use words such as “believes,” “expects,” “anticipates,” “will,” “should,” “could,” “may,” “would,” “intends,” “projects,” “estimates,” “plans,” and similar words, expressions or phrases. The following important factors and assumptions could affect our future results and could cause actual results to differ materially from those expressed in such forward-looking statements:

- the high level of competition in the vehicle rental industry and the impact such competition may have on pricing and rental volume;

- a change in our fleet costs as a result of a change in the cost of new vehicles, disruption in the supply of new vehicles, and/or a change in the price at which we dispose of used vehicles either in the used vehicle market or under repurchase or guaranteed depreciation programs;

- risks relating to our March 2013 acquisition of Zipcar, Inc. (“Zipcar”), including our ability to realize the synergies contemplated by the transaction and our ability to promptly and efficiently integrate the businesses of Zipcar and Avis Budget Group, Inc.;

- the results of operations or financial condition of the manufacturers of our cars, which could impact their ability to perform their payment obligations under the agreements we have with them, including repurchase and/or guaranteed depreciation arrangements, and/or their willingness or ability to make cars available to us or the rental car industry as a whole on commercially reasonable terms or at all;

- a change in travel demand, including changes in airline passenger traffic;

- any change in economic conditions generally, particularly during our peak season or in key market segments;

- our ability to continue to achieve and maintain cost savings and successfully implement our business strategies;

- our ability to obtain financing for our global operations, including the funding of our vehicle fleet through the issuance of asset-backed securities and use of the global lending markets;

- an occurrence or threat of terrorism, pandemic disease, natural disasters or military conflict in the locations in which we operate;

- our dependence on third-party distribution channels, third-party suppliers of other services and co-marketing arrangements with third parties;

- our ability to utilize derivative instruments, and the impact of derivative instruments we currently utilize, which can be affected by fluctuations in interest rates, gasoline prices and exchange rates, changes in government regulations and other factors;

- our ability to accurately estimate our future results;

- any major disruptions in our communication networks or information systems;
- our exposure to uninsured claims in excess of historical levels;
- our failure or inability to comply with laws, regulations or contractual obligations or any changes in laws, regulations or contractual obligations, including with respect to personally identifiable information and taxes;
- any impact on us from the actions of our licensees, dealers and independent contractors;

Table of Contents

any substantial changes in the cost or supply of fuel, vehicle parts, energy, labor or other resources on which we depend to operate our business;

risks related to our indebtedness, including our substantial outstanding debt obligations and our ability to incur substantially more debt;

our ability to meet the financial and other covenants contained in the agreements governing our indebtedness;

the terms of agreements among us and our former real estate, hospitality and travel distribution businesses following the separation of those businesses from us in 2006, particularly with respect to the allocation of assets and liabilities, including contingent liabilities and guarantees, the ability of each of the separated companies to perform its obligations, including indemnification obligations, under these agreements, and the right of our former real estate business to control the process for resolving disputes related to contingent liabilities and assets;

risks associated with litigation or governmental or regulatory inquiries or investigations involving our Company;

risks related to tax obligations and the effect of future changes in accounting standards;

risks related to our October 2011 acquisition of Avis Europe plc ("Avis Europe"), including our ability to realize the synergies contemplated by the transaction;

risks related to completed or future acquisitions or investments that we may pursue, including any incurrence of incremental indebtedness to help fund such transactions and our ability to promptly and effectively integrate any acquired businesses; and

other business, economic, competitive, governmental, regulatory, political or technological factors affecting our operations, pricing or services.

We operate in a continuously changing business environment and new risk factors emerge from time to time. New risk factors, factors beyond our control, or changes in the impact of identified risk factors may cause actual results to differ materially from those set forth in any forward-looking statements. Accordingly, forward-looking statements should not be relied upon as a prediction of actual results. Moreover, we do not assume responsibility for the accuracy and completeness of those statements. Other factors and assumptions not identified above, including those discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operations", "Risk Factors" and other portions of our 2012 Annual Report on Form 10-K may contain forward-looking statements and involve uncertainties that could cause actual results to differ materially from those projected in the forward-looking statements. Such statements are based upon assumptions and known risks and uncertainties.

Although we believe that our assumptions are reasonable, any or all of our forward-looking statements may prove to be inaccurate and we can make no guarantees about our future performance. Should unknown risks or uncertainties materialize or underlying assumptions prove inaccurate, actual results could differ materially from past results and/or those anticipated, estimated or projected. Except to the extent of our obligations under the federal securities laws, we undertake no obligation to release any revisions to any forward-looking statements, to report events or to report the occurrence of unanticipated events. For any forward-looking statements contained in any document, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995.

NOTES TO CONSOLIDATED CONDENSED FINANCIAL STATEMENTS (Unaudited)

(Unless otherwise noted, all dollar amounts in tables are in millions, except per share amounts)

1. Basis of Presentation and Recently Issued Accounting Pronouncements

Basis of Presentation

Avis Budget Group, Inc. provides car and truck rentals and ancillary services to businesses and consumers worldwide. The accompanying unaudited Consolidated Condensed Financial Statements include the accounts and transactions of Avis Budget Group, Inc. and its subsidiaries (“Avis Budget”), as well as entities in which Avis Budget directly or indirectly has a controlling financial interest (collectively, the “Company”), and have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission for interim financial reporting.

The Company operates the following business segments:

• North America—provides car rentals in the United States and vehicle rentals in Canada, as well as ancillary products and services, and operates the Company’s Zipcar car sharing business.

• International—provides, and licenses the Company’s brands to third parties for, vehicle rentals and ancillary products and services primarily in Europe, the Middle East, Asia, Africa, South America, Central America, the Caribbean, Australia and New Zealand.

• Truck Rental—provides truck rentals and ancillary products and services to consumers and commercial users in the United States.

In presenting the Consolidated Condensed Financial Statements in accordance with accounting principles generally accepted in the United States of America (“GAAP”), management makes estimates and assumptions that affect the amounts reported and related disclosures. Estimates, by their nature, are based on judgment and available information. Accordingly, actual results could differ from those estimates. In management’s opinion, the Consolidated Condensed Financial Statements contain all normal recurring adjustments necessary for a fair presentation of interim results reported. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire year or any subsequent interim period. These financial statements should be read in conjunction with the Company’s 2012 Annual Report on Form 10-K and Form 10-K/A.

Vehicle Programs. The Company presents separately the financial data of its vehicle programs. These programs are distinct from the Company’s other activities since the assets under vehicle programs are generally funded through the issuance of debt that is collateralized by such assets. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of the Company’s vehicle programs. The Company believes it is appropriate to segregate the financial data of its vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

Transaction-related Costs. The Company completed the acquisition of Zipcar on March 14, 2013. During the three and six months ended June 30, 2013, transaction-related costs primarily include expenses related to the integration of Avis Europe’s operations with the Company’s and costs related to the acquisition and integration of Zipcar. In the three and six months ended June 30, 2012, transaction-related costs primarily included expenses related to the integration of

Avis Europe's operations with the Company's.

Currency Transactions. The Company records the gain or loss of foreign-currency transactions on certain intercompany loans and gain or loss on intercompany loan hedges within interest expense related to corporate debt, net. During the three and six months ended June 30, 2013, the Company recorded losses of \$3 million and \$7 million, respectively, on such items. In the three and six months ended June 30, 2012, the Company recorded losses of \$3 million and \$9 million, respectively, on such items.

Table of Contents

Adoption of New Accounting Standards

On January 1, 2013, as a result of the issuance of a new accounting pronouncement, the Company adopted, as required, Accounting Standards Update No. 2013-02, "Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income," which requires companies to disclose additional information about amounts reclassified out of accumulated other comprehensive income by component. The adoption of this pronouncement resulted in incremental disclosure about activity and amounts reclassified out of accumulated other comprehensive income.

2. Restructuring Activities

During fourth quarter 2012, the Company initiated a strategic restructuring initiative to better position the business of its Truck Rental segment, in which it will close certain rental locations and decrease the size of the rental fleet, which the Company believes will increase fleet utilization and reduce costs. During the six months ended June 30, 2013, as part of this process, the Company recorded restructuring expense of \$13 million. The Company expects further restructuring expenses of approximately \$9 million to be incurred in 2013 related to this initiative.

In 2011, the Company implemented a restructuring initiative to identify synergies across the Company, enhance organizational efficiencies and consolidate and rationalize processes and facilities. During the six months ended June 30, 2013, as part of this process, the Company formally communicated the termination of employment to approximately 240 employees and recorded \$12 million of expense in connection with these initiatives. These expenses primarily represent severance, outplacement services and other costs associated with employee terminations. As of June 30, 2013, the Company has terminated approximately 150 of these employees. The Company expects further restructuring expenses of approximately \$22 million to be incurred in 2013.

The following tables summarize the changes to our restructuring-related liabilities and identify the amounts recorded within the Company's reportable segments, and by category, for restructuring expenses and corresponding payments and utilizations:

	North America	International	Truck Rental	Total
Balance as of January 1, 2013	\$1	\$12	\$—	\$13

3. Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share ("EPS") (shares in millions):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Net income (loss) for basic EPS	\$(28) \$79	\$(74) \$56
Convertible note interest, net of tax	—	1	—	3
Net income (loss) for diluted EPS	\$(28) \$80	\$(74) \$59
Basic weighted average shares outstanding	108.4	106.7	108.0	106.3
Options, warrants and non-vested stock ^(a) ^(b)	—	1.8	—	1.9
Convertible debt ^(c)	—	13.4	—	16.6
Diluted weighted average shares outstanding	108.4	121.9	108.0	124.8
Earnings (loss) per share:				
Basic	\$(0.26) \$0.74	\$(0.69) \$0.52
Diluted	\$(0.26) \$0.66	\$(0.69) \$0.47

As the Company incurred a net loss for the three and six months ended June 30, 2013, 1.2 million outstanding ^(a) options, 4.6 million warrants and 3.5 million non-vested stock awards have an anti-dilutive effect and therefore are excluded from the computation of diluted weighted average shares outstanding.

For the three and six months ended June 30, 2012, 0.2 million outstanding options, 8.9 million warrants and 1.2 ^(b) million non-vested stock awards have an anti-dilutive effect and therefore are excluded from the computation of diluted weighted average shares outstanding.

As the Company incurred a net loss for the three and six months ended June 30, 2013, 4.6 million issuable shares ^(c) underlying the 3½% convertible notes due 2014 have an anti-dilutive effect and therefore are excluded from the computation of diluted weighted average shares outstanding.

4. Acquisitions

Zipcar

On March 14, 2013, the Company completed the acquisition of the entire issued share capital of Zipcar, the leading car sharing company, for \$473 million, net of acquired cash. The acquisition increased the Company's growth potential and its ability to better serve a greater variety of customer transportation needs.

The excess of the purchase price over preliminary fair value of net assets acquired was allocated to goodwill, which was assigned to the Company's North America segment. The goodwill is not expected to be deductible for tax purposes. The fair value of the assets acquired and liabilities assumed has not yet been finalized and is therefore subject to change (for up to one year from the acquisition date). In connection with this acquisition, \$190 million was recorded in identifiable intangible assets (consisting of \$112 million related to trademarks and \$78 million related to customer relationships) and \$275 million was recorded in goodwill. The trademark assets are indefinite-lived and the customer relationship intangibles will be amortized over an estimated life of 8 years. Zipcar's historical revenues and earnings would not have been material to the Company's results.

Table of Contents

Apex Car Rentals

In October 2012, the Company completed the acquisition of the assets of Apex Car Rentals (“Apex”), a leading deep-value car rental company in New Zealand and Australia, operating a fleet of approximately 4,000 rental vehicles. In conjunction with the acquisition, the Company paid \$63 million in cash (including the acquisition of fleet) and agreed to the payment of contingent consideration with an estimated acquisition date fair value of \$9 million. The contingent consideration consists of a maximum of \$26 million in additional payments that are contingent on Apex’ future financial performance, and the fair value of the contingent consideration at the acquisition date was estimated by utilizing a Monte Carlo simulation technique, based on a range of possible future results. The preliminary allocation of the purchase price of Apex principally includes vehicles of \$33 million, trademarks of \$21 million and goodwill of \$16 million, which were allocated to the Company’s International segment. The goodwill is not expected to be deductible for tax purposes. The fair values of certain tangible assets acquired, identifiable intangible assets, and goodwill are not yet finalized and are subject to change. Apex’ historical revenues and earnings would not have been material to the Company’s results.

5. Other Current Assets

Other current assets consisted of:

	As of June 30, 2013	As of December 31, 2012
Sales and use taxes	\$246	\$108

Unamortized Intangible Assets						
Goodwill ^(a)	\$652			\$375		
Trademarks ^(a)	\$554			\$445		

^(a) The increases in carrying amounts primarily relate to the acquisition of Zipcar.

Amortization expense relating to all intangible assets was approximately \$7 million and \$4 million during second quarter 2013 and 2012, respectively. For the six months ended June 30, 2013 and 2012, amortization expense was approximately \$12 million and \$10 million, respectively. Based on the Company’s amortizable assets at June 30, 2013, the Company expects amortization expense of approximately \$14 million for the remainder of 2013 and

approximately \$28 million for each of the five fiscal years thereafter.

Table of Contents

7. Financial Instruments

The fair value of the Company's financial instruments is generally determined by reference to market values resulting from trading on a national securities exchange or in an over-the-counter market. In some cases where quoted market prices are not available, prices are derived by considering the yield of the benchmark security that was issued to initially price the instruments and adjusting this rate by the credit spread that market participants would demand for the instruments as of the measurement date. The carrying amounts of cash and cash equivalents, accounts receivable, program cash and accounts payable and accrued liabilities approximate fair value due to the short-term maturities of these assets and liabilities.

Debt Instruments

The carrying amounts and estimated fair values of debt instruments were as follows:

	As of June 30, 2013		As of December 31, 2012	
	Carrying Amount	Estimated Fair Value ^(a)	Carrying Amount	Estimated Fair Value ^(a)

Net Investment Hedge

The Company has designated its 6% Euro-denominated notes issued March 2013 as a hedge of its net investment in Euro-denominated foreign operations. The Company records the effective portion of the gain or loss on this net investment hedge, net of taxes, in accumulated other comprehensive income as part of currency translation adjustments. For the three months ended June 30, 2013, the Company has recorded a \$3 million loss, net of tax, in accumulated other comprehensive income and for the six months ended June 30, 2013, this amount was not material. Any ineffective portion of the net investment hedge is immediately reclassified from accumulated other comprehensive income into earnings. There was no ineffectiveness during the three and six months ended June 30, 2013 and the Company does not expect to reclassify any amounts from accumulated other comprehensive income into earnings over the next 12 months.

Derivative Instruments and Hedging Activities

The Company uses foreign exchange contracts to manage its exposure to changes in currency exchange rates associated with its foreign currency denominated receivables and forecasted royalties, forecasted earnings of foreign

subsidiaries and forecasted foreign currency denominated acquisitions. The Company primarily hedges its foreign currency exposure to the Australian, Canadian and New Zealand dollars, the Euro and the British pound sterling. These forward contracts do not qualify for hedge accounting treatment; however, the fluctuations in the value of these forward contracts largely offset the impact of changes in the value of the underlying risk they economically hedge.

Table of Contents

The Company uses various hedging strategies including interest rate swaps and interest rate caps to create an appropriate mix of fixed and floating rate assets and liabilities. The Company uses interest rate swaps to manage the risk related to its floating rate corporate debt and its floating rate vehicle-backed debt. The Company records the effective portion of changes in the fair value of its cash flow hedges to other comprehensive income, net of tax, and subsequently reclassifies these amounts into earnings in the period during which the hedged transaction is recognized. The Company records the gains or losses related to freestanding derivatives, which are not designated as a hedge for accounting purposes, in its consolidated results of operations. The changes in fair values of hedges that are determined to be ineffective are immediately reclassified from accumulated other comprehensive income into earnings. The Company estimates that the amount of gains or losses currently recorded in accumulated other comprehensive income which will be recognized in earnings over the next 12 months is not material.

From time to time, the Company enters into derivative commodity contracts to manage its exposure to changes in the price of unleaded gasoline. Changes in the fair value of these derivatives are recorded within operating expenses.

Certain of the Company's derivative instruments contain collateral support provisions that require the Company to post cash collateral to the extent that such derivatives are in a liability position. The aggregate fair value of such derivatives and the aggregate fair value of assets needed to settle these derivatives as of June 30, 2013 was approximately \$5 million, for which the Company has posted cash collateral in the normal course of business.

As of June 30, 2013, the Company held derivative instruments with absolute notional values as follows:

	As of June 30, 2013
Interest rate caps ^(a)	\$6,798
Interest rate swaps	793
Foreign exchange forward contracts	554
Foreign exchange swaps	492

^(a) Represents \$4.6 billion of interest rate caps sold, partially offset by approximately \$2.2 billion of interest rate caps purchased, which amount excludes \$2.4 billion of interest rate caps purchased by the Company's Avis Budget Rental Car Funding (AESOP) LLC ("Avis Budget Rental Car Funding") subsidiary.

As of June 30, 2013, the Company also had commodity contracts for the purchase of 6 million gallons of unleaded gasoline.

The Company used significant observable inputs (Level 2 inputs) to determine the fair value of its derivative assets and liabilities. Derivatives entered into by the Company are typically executed over-the-counter and are valued using various valuation techniques, as no quoted market prices exist for such instruments. The valuation technique and inputs depend on the type of derivative and the nature of the underlying exposure. The principal techniques used to value these instruments are discounted cash flows and Black-Scholes option valuation models. These models take into account a variety of factors including, where applicable, maturity, commodity prices, interest rate yield curves of the Company and counterparties, credit curves, counterparty creditworthiness and currency exchange rates. These factors are applied on a consistent basis and are based upon observable inputs.

In March 2013, the Company issued €250 million of 6% senior notes due 2021, at face value. The notes pay interest semi-annually on March 1 and September 1 of each year, beginning in September 2013. The notes are unsecured obligations of the Company's Avis Budget Finance plc subsidiary, are guaranteed on a senior basis by the Company and certain of its domestic subsidiaries and rank equally with all of the Company's existing senior unsecured debt. The Company has the right to redeem these notes in whole or in part on or after April 1, 2016 at specified redemption prices, plus any accrued and unpaid interest. The Company used the proceeds from the issuance to partially fund the acquisition of Zipcar.

In April 2013, the Company completed an offering of \$500 million of 5½% senior notes due 2023. The notes were issued at par and pay interest semi-annually on April 1 and October 1 of each year, beginning on October 1, 2013. The notes are unsecured obligations of the Company's Avis Budget Car Rental, LLC ("ABCR") subsidiary are guaranteed on a senior basis by the Company and certain of its domestic subsidiaries and rank equally with all of the Company's

existing senior unsecured debt. The Company has the right to redeem these notes in whole or in part on or after April 1, 2018 at specified redemption prices, plus any accrued and unpaid interest.

In connection with the issuance of the 5½% senior notes due 2023, the Company completed a cash tender offer to purchase any and all of the outstanding \$450 million 9 % notes due 2018 and a portion of its outstanding 9¾% notes due 2020. The tender offer expired in April 2013 and approximately \$326 million in aggregate principal amount of the 9 % notes due 2018 and approximately \$26 million of the aggregate principal amount of the 9¾% notes due 2020 were purchased by the Company for \$398 million plus accrued interest. In June 2013, the Company redeemed the remaining \$124 million principal amount of the 9 % notes due 2018 for \$139 million plus accrued interest.

Table of Contents

During the six months ended June 30, 2013, the Company twice amended its Amended and Restated Credit Agreement, dated as of May 3, 2011 (the “Credit Agreement”) to issue, in aggregate, an additional \$300 million of term loan due 2019 (the “New Term Loan”). A portion of the proceeds were used to partially fund the acquisition of Zipcar. The New Term Loan has a committed aggregate principal amount of \$1.0 billion and bears interest at the greater of three-month LIBOR or 0.75%, plus 225 basis points.

During the six months ended June 30, 2013, the Company repurchased approximately \$53 million of its 3½% convertible notes for approximately \$93 million, plus accrued interest, and repaid \$100 million of its floating rate notes due 2014 at face value plus accrued interest.

In connection with debt amendments and repayments during the six months ended June 30, 2013, the Company recorded \$131 million in debt extinguishment costs.

Committed Credit Facilities and Available Funding Arrangements

At June 30, 2013, the committed credit facilities available to the Company and/or its subsidiaries included:

	Total Capacity	Outstanding Borrowings	Letters of Credit Issued	Available Capacity
Revolving credit facility maturing 2016 ^(a)	\$1,500	\$—	\$1,069	\$431
Other facilities ^(b)	12	2	—	10

This revolving credit facility matures in 2016 and bears interest of one-month LIBOR, plus 300 basis points. The Company’s senior credit facility, which encompasses the floating rate term loans due 2016 and 2019 and the

^(a) revolving credit facility, is secured by pledges of all of the capital stock of all of the Company’s domestic subsidiaries and 65% of the capital stock of each direct foreign subsidiary, subject to certain exceptions, and liens on substantially all of the Company’s intellectual property and certain other real and personal property.

^(b) These facilities encompass bank overdraft lines of credit, bearing interest of 4.50% to 5.80% as of June 30, 2013.

At June 30, 2013, the Company had various uncommitted credit facilities available, under which it had drawn approximately \$50 million, which bear interest at rates between 0.44% and 8.22%.

The agreements governing the Company’s indebtedness contain restrictive covenants, including restrictions on dividends paid to the Company by certain of its subsidiaries, the incurrence of additional indebtedness by the Company and certain of its subsidiaries, acquisitions, mergers, liquidations, and sale and leaseback transactions. The Company’s senior credit facility contains maximum leverage and minimum interest coverage ratio requirements. As of June 30, 2013, the Company was in compliance with the financial covenants of its senior credit facility.

13. Commitments and Contingencies

Contingencies

In connection with the Company's 2006 separation into four independent companies (the "Separation"), the Company completed the spin-offs of Realogy Corporation ("Realogy") and Wyndham Worldwide Corporation ("Wyndham") on July 31, 2006 and completed the sale of Travelport, Inc. ("Travelport") on August 23, 2006. In connection with the spin-offs of Realogy and Wyndham, the Company entered into a Separation Agreement, pursuant to which Realogy assumed 62.5% and Wyndham assumed 37.5% of certain contingent and other corporate liabilities of the Company or its subsidiaries, which are not primarily related to any of the respective businesses of Realogy, Wyndham, Travelport and/or the Company's vehicle rental operations, and in each case incurred or allegedly incurred on or prior to the Separation ("Assumed Liabilities"). Realogy is entitled to receive 62.5% and Wyndham is entitled to receive 37.5% of the proceeds from certain contingent corporate assets of the Company, which are not primarily related to any of the respective businesses of Realogy, Wyndham, Travelport and/or the Company's vehicle rental operations, arising or accrued on or prior to the Separation ("Assumed Assets"). Additionally, if Realogy or Wyndham were to default on its payment of costs or expenses to the Company related to any Assumed Liabilities, the Company would be responsible for 50% of the defaulting party's obligation. In such event, the Company would be allowed to use the defaulting party's share of the proceeds of any Assumed Assets as a right of offset.

The Company does not believe that the impact of any resolution of contingent liabilities constituting Assumed Liabilities should result in a material liability to the Company in relation to its consolidated financial position or liquidity, as Realogy and Wyndham each have agreed to assume responsibility for these liabilities.

The Company is also named in various litigation that is primarily related to the businesses of its former subsidiaries, including Realogy, Wyndham and Travelport and their current or former subsidiaries. The Company is entitled to indemnification from such entities under the Separation Agreement for any liability resulting from such litigation. In accordance with the terms of the Separation Agreement, Realogy posted a letter of credit in April 2007 for the benefit of the Company to cover its estimated share of the Assumed Liabilities discussed above, subject to adjustment, although there can be no assurance that such letter of credit will be sufficient or effective to cover Realogy's actual obligations if and when they arise.

In October 2009, a judgment was entered against the Company in the amount of \$16 million following the completion of a jury trial for damages related to breach of contract in the United States District Court for the District of Alaska. The lawsuit, which was filed in 2003, involved breach of contract and other claims by one of the Company's licensees related to the Company's acquisition of its Budget vehicle rental business in 2002. The Company believes the verdict in this case is unsupported by the evidence. In addition to the judgment for damages, in June 2010, the district court also entered an order against the Company in the amount of \$3 million, in favor of the plaintiff's motions for pre-judgment interest and attorneys' fees. The Company filed an appeal of the judgment and attorneys' fees awarded with the United States Court of Appeals for the Ninth Circuit. In March 2013, the Court of Appeals issued an opinion affirming the ruling of the district court. The Company is continuing to pursue its appeal.

Additionally, the Company is also involved in claims, legal proceedings and governmental inquiries related to its vehicle rental operations, including, among others, contract and licensee disputes, wage-and-hour claims, competition matters, insurance claims, intellectual property claims and other regulatory, environmental, commercial and tax matters. Litigation is inherently unpredictable and, although the Company believes that its accruals are adequate and/or that it has valid defenses in these matters, unfavorable resolutions could occur, which could materially impact the Company's financial position, results of operations or cash flows.

Commitments to Purchase Vehicles

The Company maintains agreements with vehicle manufacturers under which the Company has agreed to purchase approximately \$2.5 billion of vehicles from manufacturers over the next 12 months. The majority of these commitments are subject to the vehicle manufacturers' satisfying their obligations under their respective repurchase and guaranteed depreciation agreements. The purchase of such vehicles is financed primarily through the issuance of vehicle-backed debt and cash received upon the disposition of vehicles.

Table of Contents

Other Purchase Commitments

In the normal course of business, the Company makes various commitments to purchase other goods or services from specific suppliers, including those related to capital expenditures. The purchase commitments made by the Company as of June 30, 2013 aggregate approximately \$177 million. These purchase obligations extend through 2018.

Concentrations

Concentrations of credit risk at June 30, 2013 include (i) risks related to the Company's repurchase and guaranteed depreciation agreements with car manufacturers, including Ford Motor Company, General Motors Company, Chrysler Group LLC, PSA Peugeot Citroën, Volkswagen Group, Kia Motors America, Fiat Group Automobiles S.p.A., BMW Group, Subaru of America, Inc., Toyota Motor Corporation, Volvo Group and Daimler AG, and primarily with respect to receivables for program cars that have been disposed but for which the Company has not yet received payment from the manufacturers and (ii) risks related to Realogy and Wyndham, including receivables of \$61 million and \$38 million, respectively, related to certain contingent, income tax and other corporate liabilities assumed by Realogy and Wyndham in connection with the Separation.

Other Guarantees

The Company has provided certain guarantees to, or for the benefit of, subsidiaries of Realogy, Wyndham and Travelport, which, as previously discussed, were disposed in 2006. These guarantees relate primarily to various real estate operating leases. The maximum potential amount of future payments that the Company may be required to make under the guarantees relating to these leases is estimated to be approximately \$68 million, the majority of which expire by the end of 2014. At June 30, 2013, the liability recorded by the Company in connection with these guarantees was approximately \$2 million. To the extent that the Company would be required to perform under any of these guarantees, the Company is entitled to indemnification by Realogy, Wyndham and Travelport, as applicable. The Company monitors the credit ratings and other relevant information for Realogy, Wyndham and Travelport's parent company in order to assess the status of the payment/performance risk of these guarantees.

All components of accumulated other comprehensive income are net of tax, except currency translation adjustments, which exclude income taxes related to indefinite investments in foreign subsidiaries.

^(a) For the three months ended June 30, 2013, there were no amounts reclassified from accumulated other comprehensive income.

Total Comprehensive Income

Comprehensive income consists of net income (loss) and other gains and losses affecting stockholders' equity that, under GAAP, are excluded from net income (loss).

The components of other comprehensive income (loss) were as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2013	2012	2013	2012
Net income (loss)	\$(28) \$79	\$(74) \$56
Other comprehensive income (loss):				
Currency translation adjustments	(37) (49) (60) (12
Net unrealized losses on available-for-sale securities, net of tax	(1) (2) (1) (2
Net unrealized gains on cash flow hedges, net of tax	1	4	1	11
	(37) (47) (60) (3
Total comprehensive income (loss)	\$(65) \$32	\$(134) \$53

During both the three and six month periods ended June 30, 2013, the Company's net unrealized gains on cash flow hedges were \$1 million (\$1 million, net of tax). During the three and six months ended June 30, 2012, the Company's net unrealized losses on cash flow hedges decreased by \$7 million and \$19 million (\$4 million and \$11 million, net of tax), respectively, primarily due to the realization of losses in income. Such decreases during the three and six months ended June 30, 2012 were principally related to the Company's vehicle-backed debt and were offset by a corresponding change in the Company's investment in Avis Budget Rental Car Funding on the Consolidated Condensed Balance Sheet.

15. Stock-Based Compensation

The Company records compensation expense for all stock-based awards based on the estimated fair value of the award at the grant date, which is recognized over the vesting period. The Company recorded stock-based compensation expense of \$5 million and \$4 million (\$3 million and \$2 million, net of tax) during the three months ended June 30, 2013 and 2012, respectively, and \$9 million and \$8 million (\$6 million and \$5 million, net of tax), during the six months ended June 30, 2013 and 2012, respectively, related to stock-based awards that were granted by the Company.

The Company applies the direct method and tax law ordering approach to calculate the tax effects of stock-based compensation. In jurisdictions with net operating loss carryforwards, tax deductions for exercises of stock options and vesting of restricted stock units in 2013 and 2012 did not generate a cash benefit. Approximately \$12 million of incremental tax benefits will be recorded in additional paid-in capital when realized in these jurisdictions.

During the six months ended June 30, 2013, the Company granted the following stock-based awards under the Amended and Restated 2007 Equity and Incentive Plan:

- 25,000 time-based restricted cash units (“RCUs”) and 87,000 market-vesting restricted cash units (“MCUs”); and

635,000 time-based restricted stock units (“RSUs”), 395,000 performance-based restricted stock units (“PSUs”), and 87,000 market-vesting restricted stock units (“MSUs”).

Restricted Cash Unit Awards

The terms of the RCUs generally provide for vesting on the second anniversary of the grant date, subject to continued employment, and for settlement on the third anniversary of the grant date. The fair value of the RCUs was based on the Company’s stock price of \$21.20 on the grant date.

The terms of the MCUs generally provide for vesting of all or a portion of such units on the third anniversary of the grant date, subject to the attainment of performance goals based on total shareholder return over the vesting period in comparison to a specified market index (“TSR”). On the grant date, these units had a fair market value of \$17.14, which was calculated using a Monte Carlo simulation model, based on the expected cash payout.

The amount payable in respect of the RCUs and MCUs will be based on the Company’s average closing stock price over a specified number of trading days at the time of settlement. At June 30, 2013, the Company had 268,000 time-based and market-vesting restricted cash units outstanding with a weighted average contractual life of 1.9 years.

Restricted Stock Unit Awards

The terms of substantially all of the RSUs provide for vesting ratably on the first three anniversaries of the grant date, subject to continued employment. The weighted-average fair value of the RSUs of \$21.73 was based on the Company’s closing stock price on the date of grant.

The terms of the PSUs generally provide for vesting of a substantial majority of such units (or a portion thereof) on the third anniversary of the grant date, subject to attainment of certain performance goals based on Adjusted EBITDA, subject to certain further adjustments, with full vesting permitted on such anniversary if goals based on TSR are also achieved.

The terms of the MSUs generally provide for vesting of all or a portion of such units on the third anniversary of the grant date, subject to the attainment of performance goals based on TSR.

Table of Contents

The Company determined the weighted-average fair value of performance-based and market-vesting restricted stock units granted in the six months ended June 30, 2013 and 2012 using a Monte Carlo simulation model. The weighted-average fair value of the PSUs and MSUs granted in the six months ended June 30, 2013, was estimated to be \$20.64 and \$17.14, respectively. The weighted-average fair value of the Company's market-vesting restricted stock units issued in the six months ended June 30, 2012 was estimated to be \$10.59. The assumptions used to estimate the weighted-average fair value of the performance-based and market-vesting awards issued during the six months ended June 30, 2013 and the market-vesting awards issued in the six months ended June 30, 2012 were as follows:

	Six Months Ended June 30,

16. Segment Information

The reportable segments presented below represent the Company's operating segments for which separate financial information is available and is utilized on a regular basis by its chief operating decision maker, the Company's chief executive officer, to assess performance and to allocate resources. In identifying its reportable segments, the Company also considers the nature of services provided by its operating segments, the geographical areas in which the segments operate and other relevant factors. The Company aggregates certain operating segments into its reportable segments. Management evaluates the operating results of each of its reportable segments based upon revenue and "Adjusted EBITDA", which is defined as income from continuing operations before non-vehicle related depreciation and amortization, any impairment charge, transaction-related costs, non-vehicle related interest and income taxes. The Company's presentation of Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies.

17. Guarantor and Non-Guarantor Consolidating Condensed Financial Statements

The following consolidating financial information presents Consolidating Condensed Statements of Comprehensive Income for the three and six months ended June 30, 2013 and 2012, Consolidating Condensed Balance Sheets as of June 30, 2013 and December 31, 2012, and Consolidating Condensed Statements of Cash Flows for the six months ended June 30, 2013 and 2012 for: (i) Avis Budget Group, Inc. (the "Parent"); (ii) ABCR and Avis Budget Finance, Inc. (the "Subsidiary Issuers"); (iii) the guarantor subsidiaries; (iv) the non-guarantor subsidiaries; (v) elimination entries necessary to consolidate the Parent with the Subsidiary Issuers, and the guarantor and non-guarantor subsidiaries; and (vi) the Company on a consolidated basis. The Subsidiary Issuers and the guarantor and non-guarantor subsidiaries are 100% owned by the Parent, either directly or indirectly. All guarantees are full and unconditional and joint and several. This financial information is being presented in relation to the Company's guarantee of the payment of principal, premium (if any) and interest on the senior notes issued by ABCR. These senior notes consist of ABCR's Floating rate notes due 2014, 4 % notes due 2017, 9 % notes due 2018, 8¼% notes due 2019, 9¾% notes due 2020 and 5½% notes due April 2023 (collectively, the "Notes"). See Note 11—Long-term Debt and Borrowing Arrangements for additional information regarding these Notes. The Notes are guaranteed by the Parent and certain subsidiaries.

Investments in subsidiaries are accounted for using the equity method of accounting for purposes of the consolidating presentation. The principal elimination entries relate to investments in subsidiaries and intercompany balances and transactions. For purposes of the accompanying Consolidating Condensed Statements of Comprehensive Income,

certain expenses incurred by the Subsidiary Issuers are allocated to the guarantor and non-guarantor subsidiaries.

18. Subsequent Events

During July 2013, the Company acquired Payless Car Rental for approximately \$50 million in cash. The addition of the Payless brand positions the Company to participate in the fast-growing deep-value segment of the car rental industry.

In August 2013, the Company's Board of Directors authorized a new share repurchase program that will enable the Company to purchase up to \$200 million of its common stock.

In August, the Company amended its principal corporate revolving credit facility extending its maturity from 2016 to 2018, expanding its size from \$1.5 billion to \$1.65 billion, and reducing the interest rate under the facility by 75 basis points.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our Consolidated Condensed Financial Statements and accompanying Notes thereto included elsewhere herein and with our 2012 Annual Report on Form 10-K filed with the Securities and Exchange Commission on February 21, 2013 and form 10-K/A filed with the Securities and Exchange Commission on February 22, 2013 (together, the "2012 Form 10-K"). Our actual results of operations may differ materially from those discussed in the forward-looking statements as a result of various factors, including but not limited to those included elsewhere in this Quarterly Report on Form 10-Q and those included in the "Risk Factors" set forth in Item 1A of our 2012 Form 10-K. Unless otherwise noted, all dollar amounts in tables are in millions and those relating to our results of operations are presented before taxes.

OVERVIEW

Our Company

We operate two of the most recognized brands in the global vehicle rental industry, Avis and Budget, and the world's leading car sharing network, Zipcar. We are a leading vehicle rental operator in North America, Europe, Australia, New Zealand and certain other regions we serve, with a fleet of approximately 500,000 vehicles. We also license the use of the Avis and Budget trademarks to licensees in the areas in which we do not operate directly. We and our licensees operate the Avis, Budget and/or Zipcar brands in approximately 175 countries throughout the world.

Our Segments

We categorize our operations into three reportable business segments: North America, consisting of our Avis and Budget car rental operations in the United States, our Avis and Budget vehicle rental operations in Canada, and our Zipcar car sharing operations; International, consisting of our Avis and Budget vehicle operations in Europe, the Middle East, Asia, Africa, South America, Central America, the Caribbean, Australia and New Zealand; and Truck Rental, consisting of our Budget truck rental operations in the United States. Our North America segment includes the financial results of Zipcar since our acquisition of such business in March 2013.

Business and Trends

Our revenues are derived principally from car and truck rentals in our Company-owned operations and include (i) time and mileage ("T&M") fees charged to our customers for vehicle rentals, (ii) payments from our customers with respect to certain operating expenses we incur, including gasoline and vehicle licensing fees, as well as concession fees, which we pay in exchange for the right to operate at airports and other locations, (iii) sales of loss damage waivers and insurance and rentals of navigation units and other items in conjunction with vehicle rentals, (iv) membership revenue of our car sharing operations, and (v) royalty revenue from our licensees in conjunction with their vehicle rental transactions.

Our operating results are subject to variability due to seasonality, macroeconomic conditions and other factors. Car rental volumes tend to be associated with the travel industry, particularly airline passenger volumes, or enplanements, which in turn tend to reflect general economic conditions. Our vehicle rental operations are also seasonal, with the third quarter of the year historically having been our strongest due to the increased level of leisure travel during such quarter. We have a partially variable cost structure and routinely adjust the size, and therefore the cost, of our rental fleet in response to fluctuations in demand.

We believe that the following factors, among others, may affect and/or impact our financial condition and results of operations:

- worldwide enplanements;
- fleet, pricing, marketing and strategic decisions made by us and by our competitors;
- changes in fleet costs and in conditions in the used vehicle marketplace;
- changes in borrowing costs and in market willingness to purchase corporate and vehicle-related debt;

Table of Contents

our acquisitions, our integration of acquired operations and our realization of synergies, particularly with respect to Zipcar and Avis Europe;

• demand for car sharing services;

• changes in the price of unleaded gasoline;

• changes in currency exchange rates; and

• demand for truck rentals.

Year-to-Date Highlights

In the six months ended June 30, 2013:

• Our net revenues increased 6% year-over-year to \$3.7 billion in 2013, primarily due to a 2% increase in rental days and a 1% increase in pricing (our average T&M revenue per rental day).

• Pricing increased 3% in North America, driven by a 6% increase in leisure pricing.

• Adjusted EBITDA declined 33%, from \$366 million in 2012 to \$247 million in 2013, primarily due to higher fleet costs in North America as well as higher costs in our other segments.

• We completed the acquisition of Zipcar, the world's leading car sharing network, in March 2013.

• We repurchased \$53 million principal amount of our outstanding 3½% convertible senior notes due 2014, reducing our diluted shares outstanding by approximately 3 million shares.

- We completed a three-year, €500 million (approximately \$650 million) European rental fleet securitization program, providing our subsidiaries in Germany, Italy and Spain increased capacity to finance their fleet.

Outlook

Thus far in 2013, we have faced an uneven macroeconomic environment. Our rental volumes in North America have increased slightly amid a modest economic recovery, while we continue to face softness in rental demand in Europe. We expect these trends to continue into the second half of 2013. We have achieved positive year-over-year pricing comparisons in North America as we continue to deliver against our strategies to increase realized pricing and grow higher-margin components of our business. At the same time, we expect our per-unit fleet costs in North America to be significantly higher in 2013 than they were in 2012, as used-vehicle residual values normalize from the elevated levels seen in the first half of 2012.

We seek to continue to make significant progress on our core strategic initiatives – growing profitably, strengthening our global market position, enhancing our customers' rental experience, and controlling costs and promoting efficiencies. We see, and are realizing benefits from, opportunities to grow our volumes of rental transactions with above-average profitability, to increase our realized pricing, to grow the Budget brand in Europe, to increase customer satisfaction and thereby build customer loyalty, to utilize technology both to reduce costs and enhance our interactions with customers, to achieve significant synergies as a result of our recent acquisitions, and to increase productivity throughout our operations. In addition, our March 2013 acquisition of Zipcar provides us with significant additional opportunities, as it increases our total growth potential and our ability to better serve a greater variety of customer

transportation needs.

We continue to look to take advantage of strength in the global credit markets to improve our debt profile by reducing interest costs and extending debt maturities. We may pursue acquisitions or investments and could incur additional indebtedness to help fund such transactions.

RESULTS OF OPERATIONS

We measure performance using the following key operating statistics: (i) rental days, which represents the total number of days (or portion thereof) a vehicle was rented and (ii) T&M revenue per rental day, which represents the average daily revenue we earned from rental and mileage fees charged to our customers. Our vehicle rental operating statistics (rental days and T&M revenue per rental day) are all calculated based on the actual rental of the vehicle during a 24-hour period. We believe that this methodology, while conservative, provides our management with the most relevant statistics in order to manage the business. Our calculation may not be comparable to other companies' calculation of similarly-titled statistics.

We assess performance and allocate resources based upon the separate financial information of our operating segments. In identifying our reportable segments, we also consider the nature of services provided by our operating segments, the geographical areas in which our segments operate and other relevant factors. Management evaluates the operating results of each of our reportable segments based upon revenue and "Adjusted EBITDA", which we define as income from continuing operations before non-vehicle related depreciation and amortization, any impairment charge, transaction-related costs, non-vehicle related interest and income taxes. Our presentation of Adjusted EBITDA may not be comparable to similarly-titled measures used by other companies.

During second quarter 2013, our net revenues increased principally as a result of \$76 million of revenue from Zipcar, a 3% increase in total rental days (excluding Zipcar) and a 6% increase in ancillary revenues. Movements in currency exchange rates had virtually no effect on revenues during second quarter 2013 compared to 2012.

Total expenses increased as a result of higher vehicle depreciation and lease charges resulting from a 3% increase in our car rental fleet and a 36% increase in our per-unit fleet costs (excluding Zipcar); higher operating expenses as a result of increased volumes, increased maintenance costs and inflationary pressures on costs; higher selling, general and administrative costs, driven by the acquisition of Zipcar; and an increase in debt extinguishment costs in connection with the retirement of a portion of our outstanding corporate debt. These increases were partially offset by decreases in vehicle interest expense and in interest expense on corporate debt. Our expenses were not materially impacted by currency exchange rates. As a result of these items,

Table of Contents

and a \$60 million decrease in our provision for income taxes, our net income decreased \$107 million. Our effective tax rates were a benefit of 26% and a provision of 39% for the three months ended June 30, 2013 and 2012, respectively.

In the three months ended June 30, 2013:

• Operating expenses decreased to 50.3% of revenue from 51.1% in the prior-year period.

• Vehicle depreciation and lease charges increased to 23.8% of revenue from 17.9% in second quarter 2012, principally due to higher per-unit fleet costs amid an anticipated normalization of used-car residual values.

• Selling, general and administrative costs increased to 13.7% of revenue from 12.5% in second quarter 2012, primarily due to the acquisition of Zipcar.

• Vehicle interest costs declined to 3.3% of revenue compared to 4.3% in the prior-year period, principally due to lower borrowing rates.

Going forward, we do not expect to incur debt extinguishment costs of the same magnitude as in second quarter 2013.

Following is a more detailed discussion of the results of each of our reportable segments:

^(a) Includes unallocated corporate overhead and the elimination of transactions between segments. In first quarter 2013, we refined our allocation of corporate costs to reflect the benefit provided across our segments. As a result, Corporate and Other segment includes \$5 million of costs in the three months ended June 30, 2013 that were included in North America for the three months ended June 30, 2012.

^(b) For 2013, primarily represents costs related to the integration of the operations of Avis Europe and our acquisition and integration of Zipcar and, for 2012, primarily represents costs related to the integration of the operations of Avis Europe.

North America

	2013	2012	% Change
Revenue	\$1,292	\$1,184	9 %
Adjusted EBITDA	114	184	(38 %)

Revenues increased 9% in second quarter 2013 compared with second quarter 2012, primarily due to the acquisition of Zipcar, a 2% increase in rental volumes and a 1% increase in pricing (excluding Zipcar), and a 6% increase in ancillary revenues.

Adjusted EBITDA decreased 38% in second quarter 2013 compared with second quarter 2012, primarily due to higher fleet costs and higher expenses related to increased volumes, partially offset by lower vehicle interest expense, as our borrowing rates declined year-over-year.

Zipcar contributed \$76 million to revenues and \$6 million to Adjusted EBITDA in second quarter 2013.

Table of Contents

In the three months ended June 30, 2013:

Operating expenses were 48.3% of revenue, a decrease from 50.2% in the prior-year period, primarily due to increased pricing and our cost-reduction efforts.

Vehicle depreciation and lease charges increased to 26.0% of revenue from 16.6% in second quarter 2012, due to 60% higher per-unit fleet costs, excluding Zipcar.

Selling, general and administrative costs increased to 12.9% of revenue from 11.9% in the prior-year period, principally due to the acquisition of Zipcar.

Vehicle interest costs declined to 3.9% of revenue compared to 5.7% in second quarter 2012, principally due to lower borrowing rates.

International

	2013	2012	% Change	
Revenue	\$608	\$579	5	%
Adjusted EBITDA	53	59	(10	%)

Revenues increased 5% during second quarter 2013 compared to second quarter 2012, primarily due to an 8% increase in ancillary revenues, the October 2012 acquisition of Apex Car Rentals (“Apex”), a 4% increase in rental volume excluding Apex, and a \$4 million increase related to currency exchange rates, partially offset by a 2% decrease in average pricing excluding Apex.

Adjusted EBITDA decreased 10% in second quarter 2013 compared to second quarter 2012, primarily due to the decline in pricing.

Apex contributed \$7 million to revenue and decreased Adjusted EBITDA by \$1 million in the second quarter, which is typically a seasonally slower quarter for car rental demand in Apex’ markets.

In the three months ended June 30, 2013:

Operating expenses were 52.3% of revenue, an increase from 51.1% in the prior-year period, primarily due to the effect of lower achieved pricing and inflationary cost increases.

Vehicle depreciation and lease costs decreased to 21.3% of revenue from 21.8% in the second quarter 2012, primarily due to lower per-unit fleet costs.

Selling, general and administrative costs increased to 14.7% of revenue from 13.3% in the prior-year period, primarily due to increased marketing commissions.

Vehicle interest costs increased to 2.0% of revenue compared to 1.6% in second quarter 2012, as prior-year results benefited from the temporary use of corporate cash to help fund International fleet purchases.

Truck Rental

	2013	2012	% Change	
Revenue	\$102	\$103	(1	%)
Adjusted EBITDA	8	17	(53	%)

Revenues decreased 1% during second quarter 2013 compared with second quarter 2012, primarily due to a 9% decrease in rental days amid a 7% reduction in our rental fleet, largely offset by a 9% increase in pricing.

Adjusted EBITDA decreased in second quarter 2013 compared with second quarter 2012, principally due to restructuring expenses we incurred as we reposition this business.

During the six months ended June 30, 2013, our net revenues increased principally as a result of \$90 million of revenue from Zipcar, a 2% increase in total rental days and a 1% increase in pricing (excluding Zipcar), and a 5% increase in ancillary revenues. Movements in currency exchange rates had virtually no effect on revenues during the six months ended June 30, 2013 compared with the same period in 2012.

Total expenses increased as a result of higher vehicle depreciation and lease charges resulting from a 3% increase in our car rental fleet and a 27% increase in our per-unit fleet costs (excluding Zipcar); an increase in operating expenses as a result of increased volumes, increased maintenance costs and inflationary pressures on costs; and an increase in debt extinguishment costs in connection with the retirement of a portion of our outstanding corporate debt. These increases were partially offset by decreases in vehicle interest expense and in interest expense on corporate debt. Our expenses were not materially impacted by currency exchange rates. As a result of these items, and a \$67 million decrease in our provision for income taxes, our net income decreased \$130 million. Our effective tax rates were a benefit of 22% and a provision of 45% for the six months ended June 30, 2013 and 2012, respectively.

In the six months ended June 30, 2013:

Operating expenses decreased to 52.5% of revenue from 52.9% in the prior-year period.

• Vehicle depreciation and lease charges increased to 23.4% of revenue from 18.7% in the first half of 2012, principally due to higher per-unit fleet costs amid an anticipated normalization of used-car residual values.

• Selling, general and administrative costs increased to 13.5% of revenue from 13.0% in the first half of 2012, principally due to the acquisition of Zipcar.

• Vehicle interest costs declined to 3.3% of revenue compared to 4.4% in the prior-year period, principally due to lower borrowing rates.

As a result, Corporate and Other segment includes \$11 million of costs in the six months ended June 30, 2013 that were included in North America for the six months ended June 30, 2012.

For 2013, primarily represents costs related to the integration of the operations of Avis Europe and our acquisition (b) and integration of Zipcar and, for 2012, primarily represents costs related to the integration of the operations of Avis Europe.

North America

	2013	2012	% Change
Revenue	\$2,392	\$2,222	8 %
Adjusted EBITDA	205	277	(26 %)

Revenues increased 8% in the six months ended June 30, 2013 compared with the same period in 2012, primarily due to the acquisition of Zipcar, a 3% increase in pricing and 2% growth in rental volumes (excluding Zipcar), and a 4% increase in ancillary revenues.

Adjusted EBITDA decreased 26% in the six months ended June 30, 2013 compared with the same period in 2012 due to higher fleet costs, partially offset by lower vehicle interest expense, as our borrowing rates have declined year-over-year.

Zipcar contributed \$90 million to revenues and \$7 million to Adjusted EBITDA in the six months ended June 30, 2013.

In the six months ended June 30, 2013:

Operating expenses were 49.9% of revenue, a decrease from 51.4% in the prior-year period, primarily due to higher pricing and our cost-reduction efforts.

• Vehicle depreciation and lease charges increased to 25.1% of revenue from 17.9% in the first half of 2012, due to 44% higher per-unit fleet costs, excluding Zipcar.

• Selling, general and administrative costs, at 12.3% of revenue, remained level compared to the prior-year period.

• Vehicle interest costs declined to 4.0% of revenue compared to 5.9% in the prior-year period, principally due to lower borrowing rates.

FINANCIAL CONDITION, LIQUIDITY AND CAPITAL RESOURCES

The largest components of our assets and liabilities are rental vehicles and the financings, including asset-backed debt, that we use to fund our rental vehicles. We present the financial data of these vehicle programs separately in our financial statements. These programs are distinct from our other activities as the assets under vehicle programs are generally funded through the issuance of debt that is collateralized by such assets. The income generated by these assets is used, in part, to repay the principal and interest associated with the debt. Cash inflows and outflows relating to the generation or acquisition of such assets and the principal debt repayment or financing of such assets are classified as activities of our vehicle programs. We believe it is appropriate to segregate the financial data of our vehicle programs because, ultimately, the source of repayment of such debt is the realization of such assets.

FINANCIAL CONDITION

	June 30, 2013	December 31, 2012	Change
Total assets exclusive of assets under vehicle programs	\$5,734	\$5,119	\$615
Total liabilities exclusive of liabilities under vehicle programs	5,892	5,197	695
Assets under vehicle programs	12,762	10,099	2,663
Liabilities under vehicle programs	11,958	9,264	2,694
Stockholders' equity	646	757	(111)

Total assets exclusive of assets under vehicle programs increased primarily due to the acquisition of Zipcar and a seasonal increase in taxes paid which are recoverable from government agencies (see Notes 4 and 5 to our Consolidated Condensed Financial Statements).

Total liabilities exclusive of liabilities under vehicle programs increased primarily due to an increase in corporate debt and the acquisition of Zipcar (see "Liquidity and Capital Resources—Debt and Financing Arrangements" regarding the changes in our corporate financings).

The increases in assets under vehicle programs and liabilities under vehicle programs are principally related to the seasonal increases in the size of our vehicle rental fleet and associated funding.

The decrease in stockholders' equity is primarily due to our net loss for the six months ended June 30, 2013 and currency translation adjustments. Our net loss in the first half of 2013 reflects our decision to incur debt extinguishment costs to retire outstanding convertible notes at a premium and to refinance other debt at lower rates.

LIQUIDITY AND CAPITAL RESOURCES

Our principal sources of liquidity are cash on hand and our ability to generate cash through operations and financing activities, as well as available funding arrangements and committed credit facilities, each of which is discussed below.

During the six months ended June 30, 2013, we completed several corporate financing arrangements:

- issuing \$500 million of 5½% notes due 2023;
- amending and borrowing an incremental \$300 million under the floating rate term loan due 2019; and

issuing €250 million (approximately \$325 million) of 6% Euro-denominated notes due 2021.

Table of Contents

The proceeds from these borrowings were primarily used to:

• fund our acquisition of Zipcar;

• retire the entire \$450 million principal amount of outstanding 9 % notes due 2018;

• repay \$100 million of our floating rate notes due 2014;

• repurchase \$53 million of our 3½% convertible notes due 2014; and

• repay approximately \$26 million of our outstanding 9¾% notes due 2020.

During the six months ended June 30, 2013, we also increased our borrowings under vehicle programs to fund the seasonal increase in our rental fleet and completed a three-year, €500 million (approximately \$650 million) European securitization program, which matures in 2016 and will be used to finance fleet purchases for a portion of our European operations.

CASH FLOWS

The following table summarizes our cash flows:

	Six Months Ended June 30,		
	2013	2012	Change
Cash provided by (used in):			
Operating activities	\$874	\$722	\$152
Investing activities	(3,458)) (2,965) (493
Financing activities	2,498	2,162	336
Effect of exchange rate changes	(17)) 1	(18
Net decrease in cash and cash equivalents	\$(103)) \$(80) \$(23
Cash and cash equivalents, beginning of year	606	534	72
Cash and cash equivalents, end of period	\$503	\$454	\$49

During the six months ended June 30, 2013, we generated more cash from operating activities compared with the same period in 2012.

The increase in cash used in investing activities during the six months ended June 30, 2013 compared with the same period in 2012 primarily reflects the acquisition of Zipcar.

The increase in cash provided by financing activities during the six months ended June 30, 2013 compared with the same period in 2012 primarily reflects an increase in net proceeds from corporate borrowings to fund the acquisition of Zipcar, partially offset by lower net vehicle debt borrowings during the six months ended June 30, 2013.

DEBT AND FINANCING ARRANGEMENTS

At June 30, 2013, we had approximately \$12.8 billion of indebtedness, including corporate indebtedness of approximately \$3.4 billion and debt under vehicle programs of approximately \$9.4 billion.

Corporate indebtedness consisted of:

	Maturity Dates	As of June 30, 2013	As of December 31, 2012
Floating rate notes ^(a)	May 2014	\$ 150	\$ 250
3½% convertible notes ^(c)	October 2014	75	128
Floating rate term loan ^{(b) (d)}	May 2016	47	49
4 % notes	November 2017	300	300
9 % notes	March 2018	—	446
8¼% notes	January 2019	730	730
Floating rate term loan ^{(b) (e)}	March 2019	994	689
9¾% notes	March 2020	224	250
6% Euro-denominated notes	March 2021	325	—
5½% notes	April 2023	500	—
		3,345	2,842
Other		71	63
		\$3,416	\$2,905

^(a) As of June 30, 2013, the floating rate notes due 2014 bear interest at three-month LIBOR, plus 250 basis points, for an aggregate rate of 2.78%.

The floating rate term loans are part of our senior credit facility, which also includes our revolving credit facility maturing 2016, and is secured by pledges of all of the capital stock of our domestic subsidiaries and 65% of the capital stock of each direct foreign subsidiary, subject to certain exceptions, and liens on substantially all of our intellectual property and certain other real and personal property.

^(c) The 3½% convertible notes due 2014 are convertible by the holders into approximately 5 million shares of our common stock as of June 30, 2013.

^(d) As of June 30, 2013, the floating rate term loan due 2016 bears interest at three-month LIBOR, plus 300 basis points, for an aggregate rate of 3.28%.

^(e) As of June 30, 2013, the floating rate term loan due 2019 bears interest at the greater of three-month LIBOR or 0.75%, plus 225 basis points, for an aggregate rate of 3.00%.

The following table summarizes the components of our debt under vehicle programs, including related party debt due to Avis Budget Rental Car Funding (AESOP) LLC ("Avis Budget Rental Car Funding"):

	As of June 30, 2013	As of December 31, 2012
North America - Debt due to Avis Budget Rental Car Funding ^(a)	\$6,986	\$5,203
North America - Canadian borrowings ^(a)	631	353
International - Debt borrowings ^(a)	912	679
International - Capital leases ^(a)	455	315
Truck Rental - Debt borrowings	257	253
Other	116	3
Total	\$9,357	\$6,806

- (a) The increase principally reflects increased borrowing to fund a seasonal increase in the size of our car rental fleet.

Table of Contents

As of June 30, 2013, the committed corporate credit facilities available to us and/or our subsidiaries included:

	Total Capacity	Outstanding Borrowings	Letters of Credit Issued	Available Capacity
Revolving credit facility maturing 2016 ^(a)	\$1,500	\$—	\$1,069	\$431
Other facilities ^(b)	12	2	—	10

This revolving credit facility matures in 2016 and bears interest of one-month LIBOR, plus 300 basis points. The senior credit facility, which encompasses our floating rate term loans and the revolving credit facility, is secured by ^(a) pledges of all of the capital stock of all of our direct or indirect domestic subsidiaries and 65% of the capital stock of each direct foreign subsidiary subject to certain exceptions, and liens on substantially all of our intellectual property and certain other real and personal property.

^(b) These facilities encompass bank overdraft lines of credit, bearing interest of 4.50% to 5.80% as of June 30, 2013. The following table presents available funding under our debt arrangements related to our vehicle programs at June 30, 2013:

	Total Capacity ^(a)	Outstanding Borrowings	Available Capacity
North America - Debt due to Avis Budget Rental Car Funding ^(b)	\$7,291	\$6,986	\$305
North America - Canadian borrowings ^(c)	727	631	96
International - Debt borrowings ^(d)	1,321	912	409
International - Capital leases	527	455	72
Truck Rental - Debt borrowings ^(e)	259	257	2
Other ^(f)	135	116	19
Total	\$10,260	\$9,357	\$903

^(a) Capacity is subject to maintaining sufficient assets to collateralize debt.

^(b) The outstanding debt is collateralized by approximately \$8.7 billion of underlying vehicles and related assets.

^(c) The outstanding debt is collateralized by \$833 million of underlying vehicles and related assets.

^(d) The outstanding debt is collateralized by approximately \$1.3 billion of underlying vehicles and related assets.

^(e) The outstanding debt is collateralized by \$432 million of underlying vehicles and related assets.

^(f) The outstanding debt is collateralized by \$182 million of underlying vehicles and related assets.

LIQUIDITY RISK

Our primary liquidity needs include the payment of operating expenses, servicing of corporate and vehicle related debt and procurement of rental vehicles to be used in our operations. The present intention of management is to reinvest the undistributed earnings of its foreign subsidiaries indefinitely in its foreign operations. We do not anticipate the need to repatriate funds to the United States to service corporate debt or for other U.S. needs. Our primary sources of funding are operating revenue, cash received upon sale of vehicles, borrowings under our vehicle-backed borrowing arrangements and our revolving credit facility, and other financing activities.

As discussed above, as of June 30, 2013, we have cash and cash equivalents of \$503 million, available borrowing capacity under our revolving credit facility of \$431 million and available capacity under our vehicle programs of approximately \$900 million. In August 2013, the Board of Directors authorized a new share repurchase program that will enable us to purchase up to \$200 million of our common stock, which we intend to fund with our cash flow from operations.

Our liquidity position may be negatively affected by financial market disruptions or a downturn in the U.S. and worldwide economies, which may result in unfavorable conditions in the vehicle rental industry, in the asset-backed

financing market, and in the credit markets generally. We believe these factors have in the past affected and could in the future affect the debt ratings assigned to us by credit rating agencies and the cost of our borrowings. Additionally, a downturn in the worldwide economy or a disruption in the credit markets could impact our liquidity due to (i) decreased demand and pricing for vehicles in the used-vehicle market, (ii) increased costs associated with, and/or reduced capacity or increased collateral needs under, our financings, (iii) the adverse impact of vehicle manufacturers, including Ford Motor Company, General Motors Company, Chrysler Group LLC, PSA Peugeot Citroën, Volkswagen Group, Kia Motors America, Fiat Group Automobiles S.p.A., BMW Group, Subaru of America, Inc., Toyota Motor Corporation, Volvo Group and Daimler AG, being unable or unwilling to honor their obligations to repurchase or guarantee the depreciation on the related program vehicles, (iv) disruption in our ability to obtain financing due to negative credit events specific to us or affecting the overall debt market and (v) the effect of any of Realogy, Wyndham or Travelport being unable or unwilling to honor their respective obligations under the agreements governing the Separation.

Table of Contents

Our liquidity position also may be negatively affected if we are unable to remain in compliance with the financial and other covenants associated with our senior credit facility and other borrowings. The financial covenants of our senior credit facility include maximum leverage and minimum coverage ratio requirements. As of June 30, 2013, we were in compliance with the financial covenants in our senior credit facility. For additional information regarding our liquidity risks, see Part I, Item 1A, “Risk Factors” of our 2012 Form 10-K.

CONTRACTUAL OBLIGATIONS

Our future contractual obligations have not changed significantly from the amounts reported within our 2012 Form 10-K with the exception of our commitment to purchase vehicles, which decreased by approximately \$2.7 billion from December 31, 2012, to approximately \$2.5 billion at June 30, 2013. Changes to our obligations related to corporate indebtedness and debt under vehicle programs are presented above within the section titled “Liquidity and Capital Resources—Debt and Financing Arrangements” and also within Notes 11 and 12 to our Consolidated Condensed Financial Statements.

ACCOUNTING POLICIES

The results of the majority of our recurring operations are recorded in our financial statements using accounting policies that are not particularly subjective, nor complex. However, in presenting our financial statements in conformity with generally accepted accounting principles, we are required to make estimates and assumptions that affect the amounts reported therein. Several of the estimates and assumptions that we are required to make pertain to matters that are inherently uncertain as they relate to future events. Presented within the section titled “Critical Accounting Policies” of our 2012 Form 10-K are the accounting policies (related to goodwill and other indefinite-lived intangible assets, business combinations, vehicles, income taxes and public liability, property damage and other insurance liabilities) that we believe require subjective and/or complex judgments that could potentially affect 2013 reported results. There have been no significant changes to those accounting policies or our assessment of which accounting policies we would consider to be critical accounting policies.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to a variety of market risks, including changes in currency exchange rates, interest rates and gasoline prices.

We manage our exposure to market risks through our regular operating and financing activities and, when deemed appropriate, through the use of derivative financial instruments, particularly swap contracts, futures and options contracts, to manage and reduce the interest rate risk related to our debt; foreign currency forward contracts to manage and reduce currency exchange-rate risk; and derivative commodity instruments to manage and reduce the risk of changing unleaded gasoline prices.

We are exclusively an end user of these instruments. We do not engage in trading, market-making or other speculative activities in the derivatives markets. We manage our exposure to counterparty credit risk related to our use of derivatives through specific minimum credit standards, diversification of counterparties, and procedures to monitor concentrations of credit risk. Our counterparties are substantial investment and commercial banks with significant experience providing such derivative instruments.

Our total market risk is influenced by a wide variety of factors including the volatility present within the markets and the liquidity of the markets. There are certain limitations inherent in the sensitivity analyses presented below. These “shock tests” are constrained by several factors, including the necessity to conduct the analysis based on a single point in time and the inability to include the complex market reactions that normally would arise from the market shifts modeled. For additional information regarding our long-term borrowings and financial instruments, see Notes 7, 11 and 12 to our Consolidated Condensed Financial Statements.

Currency Risk Management

We have currency exchange rate exposure to exchange rate fluctuations worldwide and particularly with respect to the Australian, Canadian and New Zealand dollars, the Euro and the British pound sterling. We use currency forward contracts and currency swaps to manage exchange rate risk that arises from certain intercompany transactions, and from non-functional currency denominated assets and liabilities and earnings denominated in non-U.S. dollar currencies. Our foreign currency forward contracts are often not designated as hedges and therefore changes in the fair value of these derivatives are recognized in earnings as they occur. We anticipate that such currency exchange rate risk will remain a market risk exposure for the foreseeable future.

We assess our market risk based on changes in currency exchange rates utilizing a sensitivity analysis. Based on our currency forward contracts as of June 30, 2013, we estimate that a 10% change in currency exchange rates would not have a material impact on our earnings. Because gains or losses related to currency forward contracts are expected to be offset by corresponding gains or losses on the underlying exposures being hedged, when combined, these currency forward contracts and the underlying exposures do not create a material impact to our results of operations, balance sheet or liquidity.

Interest Rate Risk Management

Our primary interest rate exposure at June 30, 2013, was interest rate fluctuations in the United States, specifically LIBOR and commercial paper interest rates due to their impact on variable rate borrowings and other interest rate sensitive liabilities. We use interest rate swaps and caps to manage our exposure to interest rate movements. We anticipate that LIBOR and commercial paper rates will remain a primary market risk exposure for the foreseeable future.

We assess our market risk based on changes in interest rates utilizing a sensitivity analysis. Based on our interest rate derivatives as of June 30, 2013, we estimate that a 10% change in interest rates would not have a material impact on our earnings. Because gains or losses related to interest rate derivatives are expected to be offset by corresponding gains or losses on the underlying exposures being hedged, when combined, these interest rate contracts and the offsetting underlying commitments do not create a material impact to our results of operations, balance sheet or liquidity.

Commodity Risk Management

We have commodity price exposure related to fluctuations in the price of unleaded gasoline. We anticipate that such commodity risk will remain a market risk exposure for the foreseeable future. We determined that a hypothetical 10% change in the price of unleaded gasoline would not have a material impact on our earnings for the period ended June 30, 2013.

Item 4. Controls and Procedures

Disclosure Controls and Procedures. Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management conducted an evaluation of the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of the period ended June 30, 2013.

(a) Changes in Internal Control Over Financial Reporting. During the fiscal quarter to which this report relates, there has been no change in the Company’s internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that has materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings.

For the quarter ended June 30, 2013, the Company had no material developments to report with respect to its legal proceedings. For additional information regarding the Company’s legal proceedings, please refer to the Company’s 2012 Form 10-K and the legal proceedings update provided in Part II, Item 1., “Legal Proceedings,” of the Company’s Form 10-Q for the quarter ended March 31, 2013.
