## FRANKLIN FINANCIAL SERVICES CORPORATION and SUBSIDIARIES

## UNAUDITED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

## Note 1 - Basis of Presentation

The consolidated financial statements include the accounts of Franklin Financial Services Corporation (the Corporation), and its wholly-owned subsidiaries, Farmers and Merchants Trust Company of Chambersburg (the Bank) and Franklin Future Fund Inc. Farmers and Merchants Trust Company of Chambersburg is a commercial bank that has one wholly-owned subsidiary, Franklin Financial Properties Corp. Franklin Financial Property Corp. holds real estate assets that are leased by the Bank. Franklin Future Fund Inc. is a non-bank investment company. The activities of non-bank entities are not significant to the consolidated totals. All significant intercompany transactions and account balances have been eliminated.

In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the consolidated financial position, results of operations, and cash flows as of June 30, 2014, and for all other periods presented have been made.

Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted. It is suggested that these consolidated financial statements be read in conjunction with the audited consolidated financial statements and notes thereto included in the Corporation's 2013 Annual Report on Form 10-K. The consolidated results of operations for the period ended June 30, 2014 are not necessarily indicative of the operating results for the full year. Management has evaluated subsequent events for potential recognition and/or disclosure through the date these consolidated financial statements were issued.

The consolidated balance sheet at December 31, 2013 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and footnotes required by GAAP for complete consolidated financial statements.

For purposes of reporting cash flows, cash and cash equivalents include cash and due from banks, interest-bearing deposits in other banks and federal funds sold. Generally, federal funds are purchased and sold for one-day periods.

Earnings per share are computed based on the weighted average number of shares outstanding during each period end. A reconciliation of the weighted average shares outstanding used to calculate basic earnings per share and diluted earnings per share follows:

	For the Three Months Ended June 30		For the Six Months Ended June 30	
(Dollars and shares in thousands, except per share data)	2014	2013	2014	2013
Weighted average shares outstanding (basic)	4,184	4,126	4,178	4,119
Impact of common stock equivalents	7	7	6	7
Weighted average shares outstanding (diluted)	4,191	4,133	4,184	4,126

Anti-dilutive options excluded from calculation	34	46	37	57
Net income	\$ 2,319	\$ 1,355	\$ 4,145	\$ 2,906
Basic earnings per share	\$ 0.55	\$ 0.33	\$ 0.99	\$ 0.71
Diluted earnings per share	\$ 0.55	\$ 0.33	\$ 0.99	\$ 0.70

## Note 2. Recent Accounting Pronouncements

Receivables (Topic 310): Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans Upon Foreclosure. ASU 2014-04 “Reclassification of Residential Real Estate Collateralized Consumer Mortgage Loans Upon Foreclosure” clarifies that a creditor is considered to have physical possession of residential real estate that is collateral for a residential mortgage loan when it obtains legal title to the collateral or a deed in lieu of foreclosure or similar legal agreement is completed. Consequently, it should reclassify the loan to other real estate owned at that time. ASU 2014-04 applies to all creditors who obtain physical possession resulting from an in substance repossession or foreclosure of residential real estate property collateralizing a consumer mortgage loan in satisfaction of a receivable. The ASU does not apply to commercial real estate loans, as the foreclosure process and applicable laws for those assets are significantly different from residential real estate. The ASU is effective for public business entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2014. The Corporation does not believe ASU 2014-04 will have a material effect on its financial statements.

Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. ASU 2013-11 “Presentation of an Unrecognized Tax Benefit

When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists,” require an entity with an unrecognized tax benefit that is ‘not available’ or not intended to be used at the reporting date to present the unrecognized tax benefit as a liability that should not be combined with deferred tax assets. Otherwise, the unrecognized tax benefit should be presented as a reduction to the related deferred tax asset. The assessment of whether a deferred tax asset is available is based on the unrecognized tax benefit and deferred tax asset that exist at the reporting date and should be made presuming disallowance of the tax position at the reporting date. The amendments in ASU 2013-11 are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. The Corporation adopted this ASU 2013-11 at March 31, 2014.

Revenue from Contracts with Customers (Topic 606). The amendments in this Update (ASU 2014-09) establish a comprehensive revenue recognition standard for virtually all industries under U.S. GAAP, including those that previously followed industry-specific guidance such as the real estate, construction and software industries. The revenue standard’s core principle is built on the contract between a vendor and a customer for the provision of goods and services. It attempts to depict the exchange of rights and obligations between the parties in the pattern of revenue recognition based on the consideration to which the vendor is entitled. To accomplish this objective, the standard requires five basic steps: i) identify the contract with the customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, and (v) recognize revenue when (or as) the entity satisfies a performance obligation. The ASU is effective for public entities for annual periods beginning after December 15, 2016, including interim periods therein. Three basic transition methods are available – full retrospective, retrospective with certain practical expedients, and a cumulative effect approach. Under the third alternative, an entity would apply the new revenue standard only to contracts that are incomplete under legacy U.S. GAAP at the date of initial application (e.g. January 1, 2017) and recognize the cumulative effect of the new standard as an adjustment to the opening balance of retained earnings. That is, prior years would not be restated and additional disclosures would be required to enable users of the financial statements to understand the impact of adopting the new standard in the current year compared to prior years that are presented under legacy U.S. GAAP. Early adoption is prohibited under U.S. GAAP. The Corporation does not believe ASU 2014-09 will have a material effect on its financial statements.

### Note 3. Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive loss included in shareholders' equity are as follows:

	June 30 2014	December 31 2013
(Dollars in thousands)		
Net unrealized gains (losses) on securities	\$ 1,232	\$ (741)
Tax effect	(419)	252
Net of tax amount	813	(489)
Net unrealized losses on derivatives	(384)	(561)
Tax effect	131	191
Net of tax amount	(253)	(370)

Accumulated pension adjustment	(5,814)	(5,814)
Tax effect	1,977	1,977
Net of tax amount	(3,837)	(3,837)
Total accumulated other comprehensive loss	\$ (3,277)	\$ (4,696)

Note 4. Guarantees

The Corporation does not issue any guarantees that would require liability recognition or disclosure, other than its standby letters of credit. Standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Generally, all letters of credit, when issued, have expiration dates within one year. The credit risk involved in issuing letters of credit is essentially the same as those that are involved in extending loan facilities to customers. The Bank generally holds collateral and/or personal guarantees supporting these commitments. The Bank had \$22.5 million and \$20.2 million of standby letters of credit as of June 30, 2014 and

December 31, 2013, respectively. Management believes that the proceeds obtained through a liquidation of collateral and the enforcement of guarantees would be sufficient to cover the potential amount of future payments required under the corresponding guarantees. The amount of the liability as of June 30, 2014 and December 31, 2013 for guarantees under standby letters of credit issued was not material.

Note 5. Investments

## Impairment:

The investment portfolio contained 99 securities with \$75.8 million of temporarily impaired fair value and \$1.9 million in unrealized losses at June 30, 2014. The total unrealized loss position has improved by \$1.6 million since year-end 2013.

For securities with an unrealized loss, Management applies a systematic methodology in order to perform an assessment of the potential for other-than-temporary impairment. In the case of debt securities, investments considered for other-than-temporary impairment: (1) had a specified maturity or repricing date; (2) were generally expected to be redeemed at par, and (3) were expected to achieve a recovery in market value within a reasonable period of time. In addition, the Bank considers whether it intends to sell these securities or whether it will be forced to sell these securities before the earlier of amortized cost recovery or maturity. Equity securities are assessed for other-than-temporary impairment based on the length of time of impairment, dollar amount of the impairment and general market and financial conditions relating to specific issues. The impairment identified on debt and equity securities and subject to assessment at June 30, 2014, was deemed to be temporary and required no further adjustments to the financial statements, unless otherwise noted.

The following table reflects temporary impairment in the investment portfolio (excluding restricted stock), aggregated by investment category, length of time that individual securities have been in a continuous unrealized loss position and the number of securities in each category as of June 30, 2014 and December 31, 2013:
