Section 1

-

Registrant's Business and Operations

Item 1.01

Entry into a Material Definitive Agreement.

Amended and Restated Credit Facilities

On October 26, 2015, Eversource Energy (Eversource) and its subsidiaries, The Connecticut Light and Power Company (CL&P), NSTAR Gas Company (NSTAR Gas), Public Service Company of New Hampshire (PSNH), Western Massachusetts Electric Company (WMECO) and Yankee Gas Services Company (Yankee Gas) amended and restated their existing \$1.45 billion senior, unsecured revolving credit facility with Bank of America, N.A., as Administrative Agent and Swing Line Lender and other lenders (the Eversource Facility), and extended the expiration date to September 4, 2020. The Eversource Facility allows each company to borrow the amounts set forth below, subject to the overall cap of \$1.45 billion, which remains unchanged: Eversource: \$1.45 billion; CL&P: \$600 million; each of PSNH and WMECO: \$300 million; and each of NSTAR Gas and Yankee Gas: \$200 million.

Also on October 26, 2015, NSTAR Electric Company (NSTAR Electric), another subsidiary of Eversource, amended and restated its existing \$450 million senior, unsecured revolving credit facility with Barclays Bank PLC, as Administrative Agent and Swing Line Lender and other lenders (the NSTAR Electric Facility and, together with the Eversource Facility, the Facilities), and extended the expiration date to September 4, 2020. The principal amount of the NSTAR Electric Facility also remains unchanged.

The Facilities will continue to be used for working capital, capital expenditures and repayment of debt, and to backstop the Eversource and NSTAR Electric commercial paper programs.

Interest on loans under the Facilities is payable at rates that are based on the London Interbank Offered Rate (LIBOR) plus an applicable margin that can range from 80 basis points to 147.5 basis points depending on the borrower's credit rating, as defined in each Facility agreement. Each borrower under the Facilities also pays quarterly facility fees, regardless of borrowing activity under the Facility. The quarterly fees for the Facility can range from 7.5 basis points of the Facility amount to 27.5 basis points, depending on the borrower's credit rating. Each Facility contains

Edgar Filing: EVERSOURCE ENERGY - Form 8-K

covenants that, among other things, restrict the ability of the borrowers to engage in certain mergers, consolidations and asset sales; certain transactions with affiliates and sale-leaseback transactions; or to incur liens, as set forth in each Facility agreement. Each Facility also contains a financial covenant that requires each borrower to maintain a Consolidated Indebtedness to Capitalization Ratio (as defined in each Facility agreement) not to exceed 0.65:1.00 at the end of any fiscal quarter. Upon the occurrence of certain financial or economic events, significant corporate events or certain events of default, all loans outstanding under such Facility (including accrued interest and fees payable thereunder) may be declared immediately due and payable and all commitments under the Facility may be terminated.

The foregoing description of the Eversource Facility and the NSTAR Electric Facility and related matters is qualified in its entirety by reference to the text of each Facility, copies of

which will be filed by Eversource, CL&P, NSTAR Electric, PSNH and WMECO as exhibits to the Combined Annual Report on Form 10-K for the year ending December 31, 2015.
