Each of the New Facilities amends and restates the relevant prior credit facility which was scheduled to expire in October of 2019. The amount of each New Facility is set forth below:

- Xcel Energy’s New Facility is in the initial maximum amount of \$1.0 billion, and under certain conditions may be increased by up to an additional \$200 million;
- NSP-Minnesota’s New Facility is in the initial maximum amount amount of \$500 million, and under certain conditions may be increased by up to \$100 million;
- PSCo’s New Facility is in the initial maximum amount amount of \$700 million, and under certain conditions may be increased by up to \$100 million;
- SPS’ New Facility is in the initial maximum amount \$400 million, and under certain conditions may be increased by up to an additional \$50 million; and
- NSP-Wisconsin’s New Facility is in the maximum amount of \$150 million.

Each of the New Facilities is unsecured, has a five-year term, and except for NSP-Wisconsin’s credit facility, contains maturity extension provisions for two additional one-year periods. The New Facilities permit borrowings at interest rates equal to the Eurodollar rate, plus a margin that ranges from 75.0 basis points to 150.0 basis points, or an alternate base rate, plus a margin that ranges from 0.0 basis points to 50.0 basis points. The New Facilities also provide for a commitment fee that ranges from 6.0 basis points to 22.5 basis points on the unused portion of the line. Advances under the New Facilities are subject to certain conditions precedent, including the accuracy of certain representations and warranties and the absence of any default or event of default. Advances under the New Facilities will be used for general corporate purposes, including the repayment of outstanding indebtedness from time to time and for issuances of letters of credit (subject to certain sublimits on aggregate outstanding issuances).

Each of the New Facilities has one financial covenant, requiring that the applicable borrower’s consolidated funded debt to total capitalization ratio be less than or equal to 65 percent. The New Facilities also contain covenants, which restrict the borrowers and certain subsidiaries in respect of, among other things, mergers and consolidations, sales of all or substantially all assets and incurrence of liens. The New Facilities are subject to acceleration upon the occurrence of an event of default, including, among other things, cross-default to indebtedness in excess of \$75 million in the aggregate, change of control (as defined in the applicable borrower’s New Facility), nonpayment of monetary judgments of \$75 million or more, and the occurrence of certain Employee Retirement Income Security Act of 1974 and bankruptcy events.
