**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**SEPTEMBER 30, 2007 (UNAUDITED)**

**NOTE 1 ORGANIZATION AND ACCOUNTING POLICY**

The interim consolidated financial statements furnished herein reflect all adjustments which were, in the opinion of management, necessary to present fairly the financial position, results of operations, and cash flows at September 30, 2007 and for all periods presented. All adjustments made in the interim period were of a normal recurring nature. Certain footnote disclosures which would substantially duplicate the disclosures contained in the audited consolidated financial statements and notes thereto included in the annual report of the Company for the year ended December 31, 2006 have been omitted.

The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (S&F), conducts manufactured home sales in its communities. This company was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation.

**Employee Stock Options**

The Company accounts for its stock option plan under the provisions of SFAS No. 123 (revised 2004), Share-Based Payment (SFAS No. 123R). The Company has selected the prospective method of adoption under the provisions of SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. SFAS 123R requires that compensation cost for all stock awards be calculated and recognized over the service period (generally equal to the vesting period). This compensation cost is determined using option pricing models, intended to estimate the fair value of the awards at the grant date.

Compensation cost which has been determined consistent with SFAS No. 123R, amounted to \$33,630 and \$97,570 for the three and nine months ended September 30, 2007, respectively, and \$32,330 and \$97,957 for the three and nine months ended September 30, 2006, respectively.

Edgar Filing: UMH PROPERTIES, INC. - Form 10-Q

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighed-average assumptions used for grants in the following years:

	2007	2006
Dividend yield	6.54%	6.33%
Expected volatility	18.09%	18.50%
Risk-free interest rate	4.79%	4.63%
Expected lives	8	8

6

---

The weighted-average fair value of options granted during the nine months ended September 30, 2007 and 2006 was \$1.29 and \$1.44, respectively.

During the nine months ended September 30, 2007, the following stock options were granted:

Date of Grant	Number of Employees	Number of Shares	Option Price	Expiration Date
1/3/07	1	44,200	\$15.51	1/3/15
1/3/07	1	5,800	17.06	1/3/15
7/16/07	12	51,000	14.21	7/16/15
9/20/07	2	7,000	13.19	9/20/15

During the nine months ended September 30, 2007, one employee exercised his stock option and purchased 17,812 shares for a total of \$243,521. Additionally, stock options totaling 11,188 shares expired without being exercised. As of September 30, 2006, there were options outstanding to purchase 350,000 shares and 1,197,000 shares were available for grant under the Company's 2003 Stock Option Plan.

#### NOTE 2 NET INCOME PER SHARE AND COMPREHENSIVE (LOSS) INCOME

Basic net income per share is calculated by dividing net income by the weighted average shares outstanding for the period. Diluted net income per share is calculated by dividing net income by the weighted average number of common shares outstanding plus the weighted average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method. Options in the amount of 1,384 and 6,670 shares for the three and nine months ended September 30, 2007, respectively, and 17,642 and 16,448 shares for the three and nine months ended September 30, 2006, respectively, are included in the diluted weighted average shares outstanding.

The following table sets forth the components of the Company's comprehensive income for the three and nine months ended September 30, 2007 and 2006:

	Three Months		Nine months	
	2007	2006	2007	2006

Increase (Decrease) in unrealized gain on securities available for sale	(194,512)	(97,957)	(349,271)	(383,127)

NOTE 9 - RECENT ACCOUNTING PRONOUNCEMENTS

In June 2006, the Financial Accounting Standards Board (FASB) issued Interpretation No. 48 Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 prescribes how we should recognize, measure and present in our financial statements uncertain tax positions that have been taken or are expected to be taken in a tax return. Pursuant to FIN 48, we can recognize a tax benefit only if it is more likely than not that a particular tax position will be sustained upon examination or audit. To the extent the more likely than not standard has been satisfied, the benefit associated with a tax position is measured as the largest amount that is greater than 50% likely of being realized upon settlement.

We are subject to U.S. federal income tax as well as income tax in multiple state and local jurisdictions but, as a REIT, we generally do not pay tax on our net income distributed as dividends to our shareholders. Our taxable subsidiary does not join in our consolidated REIT tax filings and as such is itself subject to federal income tax as well

as income tax in multiple state and local jurisdictions. As required, we adopted FIN 48 effective January 1, 2007 and have concluded that the effect is not material to our consolidated financial statements. Accordingly, we did not record a cumulative effect adjustment related to the adoption of FIN 48.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements ( SFAS 157 ). SFAS 157 defines fair value, establishes a framework for measuring fair value in GAAP and expands disclosures about fair value measurements. This Statement applies to other accounting pronouncements that require or permit fair value measurements. Accordingly, this Statement does not require any new fair value measurements. SFAS 157 is effective for fiscal years beginning after December 15, 2007. The Company plans to adopt SFAS 157 beginning

January 1, 2008. The Company is currently assessing what impact, if any, the adoption of SFAS 157 will have on our financial position and results of operations.

In February 2007, the FASB issued Statement of Financial Accounting Standards Statement No. 159 The Fair Value Option for Financial Assets and Financial Liabilities, Including an amendment of FASB Statement No. 115 (SFAS 159). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. Furthermore, SFAS 159 establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The Company is currently evaluating the impact of SFAS 159 on our consolidated financial statements.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

### **OVERVIEW**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and notes thereto included elsewhere herein and in our annual report on Form 10-K for the year ended December 31, 2006.

The Company is a real estate investment trust (REIT). The Company's primary business is the ownership and operation of manufactured home communities leasing manufactured home spaces on a month-to-month basis to private manufactured home owners. The Company also leases homes to residents and, through, its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F), sells and finances homes to residents and prospective residents of our communities. The Company owns twenty-eight communities containing approximately 6,700 sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania and Tennessee.

The Company also holds a portfolio of securities of other REITs and home manufacturers with a balance of \$22,861,855 at September 30, 2007. The Company invests in these securities on margin from time to time when the Company can achieve an adequate yield spread and when suitable acquisitions of real property cannot be found. At September 30, 2007, the Company's portfolio consisted of 13% preferred stocks, 61% common stocks and 26% debentures. The securities portfolio provides the Company with liquidity and additional income until suitable acquisitions of real property are found.

Total revenues increased by approximately 1% for the quarter and nine months ended September 30, 2007 as compared to the quarter and nine months ended September 30, 2006. This was primarily due to an increase in rental and related income, partially offset by a decrease in sales of manufactured homes. There was also a 41% increase in the loss on securities available for sale transactions for the quarter, primarily due to the loss on settled and open futures contracts. Sales of manufactured homes decreased by approximately 5% for the quarter ended September 30, 2007 and by approximately 6% for the nine months as compared to the quarter

and nine months ended September 30, 2006. Sales in 2006 included sales into our expansions at Fairview Manor and Highland Estates, which sold out during 2006.

Total expenses increased by approximately 2% for the quarter ended September 30, 2007 as compared to the quarter ended September 30, 2006. This was primarily due to an increase in interest expense, partially offset by a decrease in selling expenses. Total expenses increased by approximately 4% for the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006. This was primarily due to an increase in community operating expenses and interest expense, partially offset by a decrease in selling expenses. The fluctuations in interest expense were primarily due to the change in fair value of the Company's interest rate swaps.

Net income decreased by approximately 60% and 21% for the quarter and nine months, respectively, ended September 30, 2007 as compared to the quarter and nine months ended September 30, 2006. Over the past five years, occupancy at our communities has declined from approximately 90% in 2000 to approximately 82% in 2006. Management believes that the availability of liberal terms on loans on conventional housing created a difficult competitive market for land leased manufactured home communities. During 2007, we have experienced a slight increase in occupancy of 69 sites or approximately 1%.

See PART I, Item 1 Business in the Company's 2006 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

### **CHANGES IN RESULTS OF OPERATIONS**

Rental and related income increased from \$5,795,685 for the quarter ended September 30, 2006 to \$6,055,129 for the quarter ended September 30, 2007. Rental and related income increased from \$17,321,774 for the nine months ended September 30, 2006 to \$17,808,024 for the nine months ended September 30, 2007. This was primarily due to the expansion of existing communities in 2006, the acquisition of a new community during 2006 and rental increases to residents. The Company has been raising rental rates by approximately 3% to 4% annually.

Interest and dividend income increased from \$644,229 for the quarter ended September 30, 2006 to \$724,811 for the quarter ended September 30, 2007. Interest and dividend income increased from \$2,245,155 for the nine months ended September 30, 2006 to \$2,289,612 for the nine months ended September 30, 2007. This was primarily due to an increase in interest income from notes and other receivables.

(Loss) gain on securities available for sale transactions, net for the three and nine months ended September 30, 2007 and 2006 consisted of the following:

	<u>Three Months</u>		<u>Nine months</u>	
	<u>2007</u>	<u>2006</u>	<u>2007</u>	<u>2006</u>
(Loss) gain on sale of securities, net	(\$92,117)	(\$24,599)	\$263,675	\$314,865
Impairment loss	-0-	-0-	-0-	(823,249)
(Loss) gain on settled futures contracts	(516,264)	(137,261)	(328,167)	165,484
Gain (loss) on open futures contracts	149,767	(163,124)	102,657	(87,187)
(Loss) gain on securities available for sales transactions, net	(\$458,614)	(\$324,984)	\$38,165	(\$430,087)

Loss on sale of securities, net increased by \$67,518 for the three months ended September 30, 2007 as compared to the three months ended September 30, 2006. Gain on sale of securities, net decreased by \$51,190 for the nine months ended September 30, 2007 as compared to the nine months ended September 30, 2006. This was due primarily to the Company's decision to realize a portion of the unrealized gain in the securities portfolio existing during 2006. During 2006, the Company also recognized a loss of \$823,249 due to a write-down to the carrying value of securities available for sale which were considered other than temporarily impaired. Loss on settled futures contracts increased by \$379,003 for the three months ended September 30, 2007 as compared to the three months ended September 30, 2006. Loss on settled futures contracts increased by \$493,651 from a gain of \$165,484 for the nine months ended September 30, 2006 to a loss of \$328,167 for the nine months ended September 30, 2007. These changes were partially offset by the gain on open futures contracts for the three and nine months ended September 30, 2007 as compared to the loss on open futures contracts for the three and nine months ended September 30, 2006. The Company invests in futures contracts of ten-year treasury notes to mitigate the exposure of interest rate fluctuations on the Company's preferred equity and debt securities portfolio.

Community operating expenses remained relatively stable for the quarter ended September 30, 2007 as compared to the quarter ended September 30, 2006. Community operating expenses increased from \$8,974,775 for the nine months ended September 30, 2006 to \$9,573,986 for the nine months ended September 30, 2007. This was primarily due to the new community purchased in 2006 and an increase in real estate taxes. General and administrative expenses increased from \$838,652 for the quarter ended September 30, 2006 to \$904,927 for the quarter ended September 30, 2007. General and administrative expenses increased from \$2,493,169 for the nine months ended September 30, 2006 to \$2,618,581 for the nine months ended September 30, 2007. This was primarily due to an increase in personnel costs. Interest expense increased from \$1,117,060 for the quarter ended September 30, 2006 to

\$1,266,835 for the quarter ended September 30, 2007. Interest expense increased from \$2,381,665 for the nine months ended September 30, 2006 to \$2,871,880 for the nine months ended September 30, 2007. This was primarily due to an increase in mortgages payable, interest rates and the change in fair value of the Company's interest rate swaps. The change in fair value of the interest rate swaps increased interest expense by approximately \$265,000 and \$217,000 for the quarter and nine months ended September 30, 2007, respectively. The change in fair value of the interest rate swaps increased interest expense by approximately \$325,000 for the quarter ended September 30,

2006 and decreased interest expense by approximately \$29,000 for the nine months ended September 30, 2006. Cash paid for interest during the quarter ended September 30, 2007 and 2006 amounted to \$1,108,719 and \$853,350, respectively. Cash paid for interest during the nine months ended September 30, 2007 and 2006 amounted to \$2,643,885 and \$2,552,406, respectively. Depreciation expense remained relatively stable for the quarter and nine months ended September 30, 2007 as compared to the quarter and nine months ended September 30, 2006. Amortization of financing costs decreased from \$62,370 for the quarter ended September 30, 2006 to \$38,595 for the quarter ended September 30, 2007. Amortization of financing costs decreased from \$187,110 for the nine months ended September 30, 2006 to \$135,293 for the nine months ended September 30, 2007. This was primarily due to the expiration of our line of credit with PNC Bank.

Sales of manufactured homes amounted to \$3,565,742 and \$3,741,867 for the quarters ended September 30, 2007 and 2006, respectively. Sales of manufactured homes amounted to \$9,809,790 and \$10,479,863 for the nine months ended September 30, 2007 and 2006, respectively. Cost of sales of manufactured homes amounted to \$3,026,775 and \$2,947,594 for the quarters ended September 30, 2007 and 2006, respectively. Cost of sales of manufactured homes amounted to \$8,105,230 and \$8,087,309 for the nine months ended September 30, 2007 and 2006, respectively. Selling expenses amounted to \$417,809 and \$540,821 for the quarters ended September 30, 2007 and 2006, respectively. Selling expenses amounted to \$1,335,900 and \$1,547,339 for the nine months ended September 30, 2007 and 2006, respectively. Income from sales operations (defined as sales of manufactured homes less cost of sales of manufactured homes less selling expenses) amounted to \$121,158, or 3% of total sales, for the quarter ended September 30, 2007, as compared to \$253,452, or 7% of total sales, for the quarter ended September 30, 2006. Income from sales operations amounted to \$368,660, or 4% of total sales, for the nine months ended September 30, 2007 as compared to \$845,215, or 8% of total sales, for the nine months ended September 30, 2006. This decrease was primarily due to a decrease in sales. Sales in 2006 included sales into our expansions at Fairview Manor and Highland Estates, which sold out during 2006. These sales had also generated a higher gross profit. The Company believes that sales of new homes into the Company's communities produce new rental revenue and upgrade the communities.

## **LIQUIDITY AND CAPITAL RESOURCES**

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory, investment in debt and equity securities of other REITs and payments of expenses relating to real estate operations. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, proceeds from the DRIP, and access to the capital markets.

Net cash provided (used) by operating activities decreased from \$3,238,705 for the nine months ended September 30, 2006 to (\$69,659) for the nine months ended September 30,

2007. This decrease was primarily due to an increase in inventory and notes and other receivables. The Company received, including dividends reinvested of \$1,290,611, new capital of \$4,453,580 through its Dividend Reinvestment and Stock Purchase Plan (DRIP). The Company sold \$4,657,266, at cost, and purchased \$9,959,797 of securities of other real estate investment trusts. Mortgages payable increased by \$15,446,174 and loans payable increased by \$875,852. The Company obtained an \$11,480,000 mortgage on Fairview Manor and a \$10,439,000 mortgage loan on Highland Estates. Proceeds from these mortgages were used to pay off the existing Fairview Manor and Laurel Woods mortgages, pay down our margin loans and lines of credit, and for other investing activities. The Company believes that funds generated from operations together with the financing and refinancing of its properties will be sufficient to meet its needs over the next several years.

### **FUNDS FROM OPERATIONS**

Funds from Operations (FFO) is defined as net income excluding gains (or losses) from sales of depreciable assets, plus depreciation. FFO should be considered as a supplemental measure of operating performance used by real estate investment trust (REITs). FFO excludes historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost bases. The items excluded from FFO are significant components in understanding and assessing the Company's financial performance. FFO (1) does not represent cash flow from operations as defined by generally accepted accounting principles; (2) should not be considered as an alternative to net income as a measure of operating performance or to cash flows from operating, investing and financing activities; and (3) is not an alternative to cash flow as a measure of liquidity. FFO, as calculated by the Company, may not be comparable to similarly entitled measures reported by other REITs.

The Company's FFO for the three and nine months ended September 30, 2007 and 2006 is calculated as follows:

	Three Months		Nine months	
	2007	2006	2007	2006
Net Income	\$110,239	\$276,075	\$2,875,807	\$3,634,549
Gain on Sales of				
Depreciable Assets	(23,236)	(40,767)	(89,760)	(100,398)
Depreciation Expense	919,751	861,183	2,695,723	2,544,541
FFO	\$1,006,754	\$1,096,491	\$5,481,770	\$6,078,692

The following are the cash flows provided by (used in) operating, investing and financing activities for the nine months ended September 30, 2007 and 2006:

	2007	2006
Operating Activities	(\$69,659)	\$3,238,705
Investing Activities	(13,583,091)	(4,050,502)
Financing Activities	12,817,683	(3,168,276)
