ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES

On December 13, 2011, the Company announced that due to the continuing impact of the declining housing economy, the Company's Board of Directors had committed to the following actions:

- Close and eventually dispose of two of its manufacturing plants, located in Hardy County, West Virginia and Hazard, Kentucky;
 - Offer its assembly plant in Tahlequah, Oklahoma, idled in early 2009, for sale; and
 - Freeze the Company's salary and hourly employee defined benefit pension plans.

On December 12, 2011, the Company began informing employees who will be affected by the plant closings.

The two manufacturing plants are expected to cease operations by April 30, 2012. The Company expects to incur total pre-tax costs of \$17.7 million to \$19.7 million (\$10.9 million to \$12.3 million net of tax) related to the closing of the two plants, including employee severance and separation costs of approximately \$5.7 million to \$6.7 million, and charges for asset impairment of property, equipment and inventory of approximately \$12.0 million to \$13.0 million. Included in this estimate are approximately \$7.0 million of cash expenses and \$10.7 million to \$12.7 million of non-cash charges.

The defined benefit pension plans will be frozen effective May 1, 2012. The Company expects to incur pre-tax pension curtailment losses of approximately \$0.3 million as a result of freezing the defined benefit plans.

The Company expects to recognize substantially all of these charges during its third fiscal quarter ending January 31, 2012. Once completed, the Company expects to realize ongoing savings of approximately \$16.5 million to \$18.5 million per year as a result of these actions.

The Company issued a press release on December 13, 2011 announcing its plans regarding the plant closure and disposal activities and the changes to its defined benefit pension plans. The release is filed as an exhibit to this report on Form 8-K and is incorporated in this Item by reference.
