NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

Business

Pilgrim's Pride Corporation (referred to herein as "Pilgrim's," "PPC," "the Company," "we," "us," "our," or similar terms) is one of the largest chicken producers in the world, with operations in the United States ("U.S."), Mexico and Puerto Rico. Pilgrim's products are sold to foodservice, retail and frozen entrée customers. The Company's primary distribution is through retailers, foodservice distributors and restaurants throughout the United States and Puerto Rico and in the northern and central regions of Mexico. Additionally, the Company exports chicken products to approximately 90 countries. Pilgrim's fresh chicken products consist of refrigerated (nonfrozen) whole chickens, whole cut-up chickens and selected chicken parts that are either marinated or non-marinated. The Company's prepared chicken products include fully cooked, ready-to-cook and individually frozen chicken parts, strips, nuggets and patties, some of which are either breaded or non-breaded and either marinated or non-marinated. As a vertically integrated company, we control every phase of the production of our products. We operate feed mills, hatcheries, processing plants and distribution centers in 12 U.S. states, Puerto Rico and Mexico. As of June 26, 2016, Pilgrim's had approximately 37,700 employees and the capacity to process approximately 37 million birds per five-day work week for a total of approximately 11 billion pounds of live chicken annually. Approximately 4,035 contract growers supply poultry for the Company's operations. As of June 26, 2016, JBS S.A., through its indirect wholly-owned subsidiaries (together, "JBS"), beneficially owned 76.8% of the Company's outstanding common stock.

Consolidated Financial Statements

The accompanying unaudited consolidated financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the U.S. ("U.S. GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the U.S. Securities and Exchange Commission ("SEC"). Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal and recurring adjustments unless otherwise disclosed) considered necessary for a fair presentation have been included. Operating results for the twenty-six weeks ended June 26, 2016 are not necessarily indicative of the results that may be expected for the year ending December 25, 2016. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 27, 2015.

Pilgrim's operates on a 52/53-week fiscal year that ends on the Sunday falling on or before December 31. The reader should assume any reference we make to a particular year (for example, 2016) in the notes to these Condensed Consolidated Financial Statements applies to our fiscal year and not the calendar year.

The Condensed Consolidated Financial Statements include the accounts of the Company and its majority-owned subsidiaries. We eliminate all significant affiliate accounts and transactions upon consolidation.

The Company measures the financial statements of its Mexico subsidiaries as if the U.S. dollar were the functional currency. Accordingly, we remeasure assets and liabilities, other than non-monetary assets, of the Mexico subsidiaries at current exchange rates. We remeasure non-monetary assets using the historical exchange rate in effect on the date of each asset's acquisition. We remeasure income and expenses at average exchange rates in effect during the period. Currency exchange gains or losses are included in the line item Foreign currency transaction loss in the Condensed Consolidated Statements of Income.

Reportable Segment

We operate in one reportable business segment, as a producer and seller of chicken products we either produce or purchase for resale.

Revenue Recognition

We recognize revenue when all of the following circumstances are satisfied: (i) persuasive evidence of an arrangement exists, (ii) price is fixed or determinable, (iii) collectability is reasonably assured and (iv) delivery has occurred.

Delivery occurs in the period in which the customer takes title and assumes the risks and rewards of ownership of the products specified in the customer's purchase order or sales agreement. Revenue is recorded net of estimated incentive offerings including special pricing agreements, promotions and other volume-based incentives. Revisions to these

estimates are charged back to net sales in the period in which the facts that give rise to the revision become known.

7

Table of Contents

Book Overdraft

The majority of the Company's disbursement bank accounts are zero balance accounts where cash needs are funded as checks are presented for payment by the holder. Checks issued pending clearance that result in overdraft balances for accounting purposes are classified as accounts payable and the change in the related balance is reflected in operating activities on the Condensed Consolidated Statements of Cash Flows.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board ("FASB") issued new accounting guidance on revenue recognition, which provides for a single five-step model to be applied to all revenue contracts with customers. The new standard also requires additional financial statement disclosures that will enable users to understand the nature, amount, timing and uncertainty of revenue and cash flows relating to customer contracts. Companies have an option to use either a retrospective approach or cumulative effect adjustment approach to implement the standard. In June 2015, the FASB agreed to defer by one year the mandatory effective date of this standard, but will also provide entities the option to adopt the new guidance as of the original effective date. The provisions of the new guidance will be effective as of the beginning of our 2018 fiscal year, but we have the option to adopt the guidance as early as the beginning of our 2017 fiscal year. We are currently evaluating the impact of the new guidance on our financial statements and have not yet selected either a transition approach to implement the standard or an adoption date.

In July 2015, the FASB issued new accounting guidance on the subsequent measurement of inventory, which, in an effort to simplify unnecessarily complicated accounting guidance that can result in several potential outcomes, requires an entity to measure inventory at the lower of cost or net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. Current accounting guidance requires an entity to measure inventory at the lower of cost or market. Market could be replacement cost, net realizable value, or net realizable value less an approximately normal profit margin. The provisions of the new guidance will be effective as of the beginning of our 2017 fiscal year. We are currently evaluating the impact of the new guidance on our financial statements.

In February 2016, the FASB issued new accounting guidance on lease arrangements, which, in an effort to increase transparency and comparability among organizations utilizing leasing, requires an entity that is a lessee to recognize the assets and liabilities arising from leases on the balance sheet. This guidance also requires disclosures about the amount, timing and uncertainty of cash flows arising from leases. In transition, the entity is required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The provisions of the new guidance will be effective as of the beginning of our 2019 fiscal year. Early adoption is permitted. We are currently evaluating the impact of the new guidance on our financial statements and have not yet selected an adoption date.

In March 2016, the FASB issued new accounting guidance on employee share-based payments, which, in an effort to simplify unnecessarily complicated aspects of accounting and reporting for share-based payment transactions, requires an entity to amend accounting and reporting methodology for areas such as the income tax consequences of share-based payments, classification of share-based awards as either equity or liabilities, and classification of share-based payment transactions in the statement of cash flows. The transition approach will vary depending on the area of accounting and reporting methodology to be amended. The provisions of the new guidance will be effective as of the beginning of our 2017 fiscal year. Early adoption is permitted. We are currently evaluating the impact of the new guidance on our financial statements and have not yet selected an adoption date.

In June 2016, the FASB issued new accounting guidance on the measurement of credit losses on financial instruments, which, in an effort to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments, replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The amendments affect loans, debt securities, trade receivables, net investments in leases, off-balance sheet credit exposures, reinsurance receivables and any other financial assets not excluded from the scope that have the contractual right to receive cash. The provisions of the new guidance will be effective as of the beginning of our 2020 fiscal year. Early adoption is permitted after our 2018 fiscal year. We are currently evaluating the impact of the new guidance on our financial statements and have not yet selected an adoption

date.

2. BUSINESS ACQUISITION

On June 29, 2015, the Company acquired, indirectly through certain of its Mexican subsidiaries, 100% of the equity of Provemex Holding LLC and its subsidiaries (together, "Tyson Mexico") from Tyson Foods, Inc. and certain of its subsidiaries for cash. Tyson Mexico is a vertically integrated poultry business based in Gomez Palacio, Durango, Mexico. The acquired business has a production capacity of 2.5 million birds per five-day work week in its three plants and employs approximately 4,500 people

8

Table of Contents

in its plants, offices and seven distribution centers. The acquisition further strengthens the Company's strategic position in the Mexico chicken market. The Company plans to keep all current labor contracts in place.

The following table summarizes the consideration paid for Tyson Mexico (in thousands):

Negotiated sales price	\$400,000
Working capital adjustment (20,933)	
Final purchase price	\$379,067

Transaction costs incurred in conjunction with the purchase were approximately \$2.2 million. These costs were expensed as incurred.

The results of operations of the acquired business since June 29, 2015 are included in the Company's Condensed Consolidated Statements of Operations. Net sales generated by the acquired business during the thirteen and twenty-six weeks ended June 26, 2016 totaled \$15.2 million and \$118.1 million, respectively. This significant decrease in net sales during the thirteen weeks ended June 26, 2016 resulted from a shift in sales activity from the acquired business to the Company's legacy business operating in Mexico. The acquired business incurred a net loss during the thirteen and twenty-six weeks ended June 26, 2016 totaling \$0.2 million and \$0.4 million, respectively. The assets acquired and liabilities assumed in the Tyson Mexico acquisition were measured at their fair values at June 29, 2015 as set forth below. The excess of the purchase price over the fair values of the net tangible assets and identifiable intangible assets was recorded as goodwill. The factors contributing to the recognition of the amount of goodwill are based on several strategic and synergistic benefits that are expected to be realized from the acquisition as well the assembled workforce. These benefits include complementary product offerings, an enhanced footprint in Mexico and attractive synergy opportunities and value creation. The Company does not have tax basis in the goodwill, and therefore, the goodwill is not deductible for tax purposes. The fair values recorded were determined based upon various external and internal valuations.

The fair values recorded for the assets acquired and liabilities assumed for Tyson Mexico are as follows (in thousands):

Cash and cash equivalents	\$5,535
Trade accounts and other receivables	24,173
Inventories	68,130
Prepaid expenses and other current assets	7,661
Property, plant and equipment	209,139
Identifiable intangible assets	26,411
Other long-lived assets	199
Total assets acquired	341,248
Accounts payable	21,550
Other current liabilities	8,707
Long-term deferred tax liabilities	52,376
Other long-term liabilities	5,155
Total liabilities assumed	87,788
Total identifiable net assets	253,460
Goodwill	125,607
Total net assets	\$379,067

The Company performed a valuation of the assets and liabilities of Tyson Mexico at June 29, 2015. Significant assumptions used in the preliminary valuation and the bases for their determination are summarized as follows: Property, plant and equipment, net. Property, plant and equipment at fair value gave consideration to the highest and best use of the assets. The valuation of the Company's real property improvements and the majority of its personal property was based on the cost approach. The valuation of the Company's land, as if vacant, and certain personal property assets was based on the market or sales comparison approach.

Indefinite-lived trade names. The Company valued two indefinite-lived trade names using the income approach, specifically the relief from royalty method. Under this method, the asset value of each trade name was determined by

Table of Contents

estimating the hypothetical royalties that would have to be paid if it was not owned. Royalty rates were selected based on consideration of several factors, including (i) prior transactions involving Tyson Mexico trade names, (ii) incomes derived from license agreements on comparable trade names within the food and non-alcoholic beverages industry and (iii) the relative profitability and perceived contribution of each trade name. Royalty rates used in the determination of the fair values of the two trade names ranged from 4.0% to 5.0% of expected net sales related to the respective trade names and trade name maintenance costs were estimated as 1.4% of the royalty saved. The Company anticipates using both trade names for an indefinite period as demonstrated by the sustained use of each subject trade name. In estimating the fair value of the trade names, net sales related to the respective trade names were estimated to grow at a rate of 3.5% to 4.0% annually with a terminal year growth rate of 3.8%. Income taxes were estimated at 30.0% of pre-tax income, a tax amortization benefit was estimated considering a rate of 15.0% and the hypothetical savings generated by avoiding royalty costs were discounted using a rate of 12.0%. Trade names were valued at \$9.7 million under this approach.

Customer relationships. The Company valued Tyson Mexico's customer relationships using the income approach, specifically the multi-period excess earnings model. Under this model, the fair value of the customer relationships asset was determined by estimating the net cash inflows from the relationships discounted to present value. In estimating the fair value of the customer relationships, net sales related to Tyson Mexico's existing customers were estimated to grow at a rate of 4.0% annually, but we also anticipate losing existing Tyson Mexico customers at an attrition rate of 7.9%. Income taxes were estimated at 30.0% of pre-tax income, a tax amortization benefit was estimated considering a rate of 23.4% and net cash flows attributable to our existing customers were discounted using a rate of 13.5%. Customer relationships were valued at \$16.7 million under this approach.

The Company recognized the following change in goodwill related to this acquisition during the twenty-six weeks ended June 26, 2016 (in thousands):

Goodwill, beginning of period	\$ 156,565
Additional fair value attributed to acquired property, plant and equipment	(51,387)
Deferred tax impact related to additional fair value attributed to acquired property, plant and equipment	15,416
Deferred tax impact related to customer relationship intangibles	5,013
Goodwill, end of period	\$ 125,607

The following unaudited pro forma information presents the combined financial results for the Company and Tyson Mexico as if the acquisition had been completed at the beginning of the Company's prior year, December 29, 2014.

	Thirteen Weeks Ended June 28, 2015	Twenty-Six Weeks Ended June 28, 2015
	(In thousands, except per share amount)	
Net sales	\$2,212,223	\$4,420,442
Net income attributable to Pilgrim's Pride Corporation	250,023	461,533
Net income attributable to Pilgrim's Pride Corporation per common share - diluted	0.97	1.78

The above unaudited pro forma financial information is presented for informational purposes only and does not purport to represent what the Company's results of operations would have been had it completed the acquisition on the date assumed, nor is it necessarily indicative of the results that may be expected in future periods. Pro forma adjustments exclude cost savings from any synergies resulting from the acquisition.

3. FAIR VALUE MEASUREMENTS

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. Assets and liabilities measured at fair value must be categorized into one of three different levels depending on the assumptions (i.e., inputs) used in the valuation:

Table of Contents

Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;

Level 2 Quoted prices in active markets for similar assets and liabilities and inputs that are observable for the asset or liability; or

Level 3 Unobservable inputs, such as discounted cash flow models or valuations.

The determination of where assets and liabilities fall within this hierarchy is based upon the lowest level of input that is significant to the fair value measurement in its entirety.

As of June 26, 2016 and December 27, 2015, the Company held derivative assets and liabilities that were required to be measured at fair value on a recurring basis. Derivative assets and liabilities consist of long and short positions on exchange-traded commodity futures instruments.

The following items were measured at fair value on a recurring basis:

	June 26, 2016			
	Level 1	Level 2	Level 3	Total
	(In thousands)			
Fair value assets:				
Commodity futures instruments	\$23,119	\$ —	—	—\$23,119
Fair value liabilities:				
Commodity futures instruments	(10,201)	—	—	(10,201)
Commodity options instruments	(9,837)	—	—	(9,837)
	December 27, 2015			
	Level 1	Level 2	Level 3	Total
	(In thousands)			
Fair value assets:				
Commodity futures instruments	\$59	\$ —	—	—\$59
Commodity options instruments	1,618	—	—	1,618
Fair value liabilities:				
Commodity futures instruments	(5,436)	—	—	(5,436)

See "Note 7. Derivative Financial Instruments" for additional information.

Fair value and carrying value for our fixed-rate debt obligation is as follows:

	June 26, 2016		December 27, 2015	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
	(In thousands)			
Fixed-rate senior notes payable at 5.75%, at Level 1 inputs	\$(500,000)	\$(501,405)	\$(500,000)	\$(488,750)

See "Note 10. Long-Term Debt and Other Borrowing Arrangements" for additional information.

The valuation of financial assets and liabilities classified in Level 1 is determined using a market approach, taking into account current interest rates, creditworthiness, and liquidity risks in relation to current market conditions, and is based upon unadjusted quoted prices for identical assets in active markets. The valuation of financial assets and liabilities in Level 2 is determined using a market approach based upon quoted prices for similar assets and liabilities in active markets or other inputs that are observable for substantially the full term of the financial instrument. The valuation of financial assets in Level 3 is determined using an income approach based on unobservable inputs such as discounted cash flow models or valuations.

In addition to the fair value disclosure requirements related to financial instruments carried at fair value, accounting standards require periodic disclosures regarding the fair value of all of the Company's financial instruments. The methods and significant assumptions used to estimate the fair value of financial instruments and any changes in methods or significant assumptions from prior periods are also required to be disclosed.

Table of Contents

Derivative assets were recorded at fair value based on quoted market prices and are included in the line item Prepaid expenses and other current assets on the Condensed Consolidated Balance Sheets. Derivative liabilities were recorded at fair value based on quoted market prices and are included in the line item Accrued expenses and other current liabilities on the Condensed Consolidated Balance Sheets. The fair value of the Company's fixed-rate debt obligation was based on the quoted market price at June 26, 2016 or December 27, 2015, as applicable.

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company records certain assets and liabilities at fair value on a nonrecurring basis. Generally, assets are recorded at fair value on a nonrecurring basis as a result of impairment charges when required by U.S. GAAP. There were no significant fair value measurement losses recognized for such assets and liabilities in the periods reported.

4. TRADE ACCOUNTS AND OTHER RECEIVABLES

Trade accounts and other receivables, less allowance for doubtful accounts, consisted of the following:

	June 26, 2016	December 27, 2015
	(In thousands)	
Trade accounts receivable	\$333,265	\$342,466
Notes receivable - current	658	850
Other receivables	14,495	10,578
Receivables, gross	348,418	353,894
Allowance for doubtful accounts	(5,163)	(4,900)
Receivables, net	\$343,255	\$348,994

Account receivable from related parties^(a) \$1,797 \$2,668

(a) Additional information regarding accounts receivable from related parties is included in "Note 15. Related Party Transactions."

Changes in the allowance for doubtful accounts were as follows:

	Total (In thousands)
Balance at December 27, 2015	\$ (4,900)
Provision charged to operating results	(338)
Account write-offs and recoveries	75
Balance at June 26, 2016	\$ (5,163)

5. INVENTORIES

Inventories consisted of the following:

	June 26, 2016	December 27, 2015
	(In thousands)	
Live chicken and hens	\$390,535	\$ 365,062
Feed, eggs and other	232,103	215,859
Finished chicken products	195,541	191,988
Total chicken inventories	818,179	772,909
Commercial feed and other	14,386	28,448
Total inventories	\$832,565	\$ 801,357

6. INVESTMENTS IN SECURITIES

We recognize investments in available-for-sale securities as cash equivalents, current investments or long-term investments depending upon each security's length to maturity. Additionally, those securities identified by management at the time of purchase for funding operations in less than one year are classified as current.

Table of Contents

The following table summarizes our investments in available-for-sale securities:

	June 26, 2016	December 27, 2015	
	Amortized Cost	Amortized Cost	Fair Value
	Value	Value	Value
	(In thousands)		
Cash equivalents:			
Fixed income securities	\$-\$	-\$290,795	\$290,795
Other	3939	54,831	54,831

Securities classified as cash and cash equivalents mature within 90 days. Securities classified as short-term investments mature between 91 and 365 days. Securities classified as long-term investments mature after 365 days. The specific identification method is used to determine the cost of each security sold and each amount reclassified out of accumulated other comprehensive loss to earnings. Gross realized gains and gross realized losses recognized during the thirteen and twenty-six weeks ended June 26, 2016 and June 28, 2015 related to the Company's available-for-sale securities were immaterial. Proceeds received from the sale or maturity of available-for-sale securities recognized as either short- or long-term investments are historically disclosed in the Condensed Consolidated Statements of Cash Flows. No proceeds were received from the sale or maturity of available-for-sale securities recognized as either short- or long-term investments during the twenty-six weeks ended June 26, 2016 and June 28, 2015. Net unrealized holding gains and losses on the Company's available-for-sale securities recognized during the twenty-six weeks ended June 26, 2016 and June 28, 2015 that have been included in accumulated other comprehensive loss and the net amount of gains and losses reclassified out of accumulated other comprehensive loss to earnings during the twenty-six weeks ended June 26, 2016 and June 28, 2015 is disclosed in "Note 13. Stockholders' Equity - Accumulated Other Comprehensive Loss."

7. DERIVATIVE FINANCIAL INSTRUMENTS

The Company utilizes various raw materials in its operations, including corn, soybean meal, soybean oil, sorghum and energy, such as natural gas, electricity and diesel fuel, which are all considered commodities. The Company considers these raw materials generally available from a number of different sources and believes it can obtain them to meet its requirements. These commodities are subject to price fluctuations and related price risk due to factors beyond our control, such as economic and political conditions, supply and demand, weather, governmental regulation and other circumstances. Generally, the Company purchases derivative financial instruments, specifically exchange-traded futures and options, in an attempt to mitigate price risk related to its anticipated consumption of commodity inputs for approximately the next 12 months. The Company may purchase longer-term derivative financial instruments on particular commodities if deemed appropriate.

The Company has operations in Mexico and, therefore, has exposure to translational foreign exchange risk when the financial results of those operations are translated to U.S. dollars.

The fair value of derivative assets is included in the line item Prepaid expenses and other current assets on the Condensed Consolidated Balance Sheets while the fair value of derivative liabilities is included in the line item Accrued expenses and other current liabilities on the same statements. Our counterparties require that we post cash collateral for changes in the net fair value of the derivative contracts.

We have not designated the derivative financial instruments that we have purchased to mitigate commodity purchase transaction exposures as cash flow hedges. Therefore, we recognized changes in the fair value of these derivative financial instruments immediately in earnings. Gains or losses related to these derivative financial instruments are included in the line item Cost of sales in the Condensed Consolidated Statements of Income. The Company recognized net gains of \$1.8 million and net gains of \$5.6 million related to changes in the fair value of its derivative financial instruments during the thirteen weeks ended June 26, 2016 and June 28, 2015, respectively. We also recognized net gains of \$5.9 million and net gains of \$29.0 million related to changes in the fair value of its derivative financial instruments during the twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively. Information regarding the Company's outstanding derivative instruments and cash collateral posted with (owed to) brokers is included in the following table:

Table of Contents

	June 26, 2016	December 27, 2015		
	(Fair values in thousands)			
Fair values:				
Commodity derivative assets	\$23,119	\$1,677		
Commodity derivative liabilities	(20,038)	(5,436)		
Cash collateral posted with brokers	10,366	9,381		
Derivatives coverage ^(a) :				
Corn	0.8	% 7.0	%	
Soybean meal	13.8	% 4.1	%	
Period through which stated percent of needs are covered:				
Corn	May 2017	March 2017		
Soybean meal	August 2017	July 2016		

(a) Derivatives coverage is the percent of anticipated commodity needs covered by outstanding derivative instruments through a specified date.

8. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment ("PP&E"), net consisted of the following:

	June 26, 2016	December 27, 2015
	(In thousands)	
Land	\$107,391	\$105,165
Buildings	1,160,775	1,131,379
Machinery and equipment	1,759,575	1,657,573
Autos and trucks	53,096	53,408
Construction-in-progress	132,619	152,619
PP&E, gross	3,213,456	3,100,144
Accumulated depreciation	(1,798,561)	(1,747,615)
PP&E, net	\$1,414,895	\$1,352,529

The Company recognized depreciation expense of \$43.5 million and \$36.6 million during the thirteen weeks ended June 26, 2016 and June 28, 2015, respectively. The Company recognized depreciation expense of \$81.9 million and \$70.6 million during the twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively.

During the twenty-six weeks ended June 26, 2016, we spent \$94.0 million on capital projects and transferred \$128.1 million of completed projects from construction-in-progress to depreciable assets. During the twenty-six weeks ended June 28, 2015, we spent \$87.7 million on capital projects and transferred \$74.2 million of completed projects from construction-in-progress to depreciable assets. Capital expenditures were primarily incurred during the twenty-six weeks ended June 26, 2016 to improve efficiencies and reduce costs.

During the thirteen and twenty-six weeks ended June 26, 2016, the Company sold certain PP&E for cash of \$7.5 million and \$8.1 million, respectively and recognized net gains on these sales of \$6.6 million and \$6.8 million, respectively. PP&E sold in the twenty-six weeks ended included poultry farms in Mexico and Texas, an office building in Texas, vacant land in Alabama and Texas and miscellaneous equipment. During the thirteen and twenty-six weeks ended June 28, 2015, the Company sold miscellaneous equipment for cash of \$1.2 million and \$2.1 million and recognized a net gain of \$0.4 million and \$1.3 million, respectively.

Management has committed to the sale of certain properties and related assets, including, but not limited to, a processing complex in Texas, a processing plant in Louisiana and other miscellaneous assets, which no longer fit into the operating plans of the Company. The Company is actively marketing these properties and related assets for immediate sale and believes a sale of each property can be consummated within the next 12 months. At both June 26,

2016 and December 27, 2015, the Company reported properties and related assets totaling \$6.5 million and \$6.6 million, respectively, in the line item Assets held for sale on its Condensed Consolidated Balance Sheets. The Company tested the recoverability of its assets held for sale and determined that the aggregate carrying amounts of the Texas processing complex asset group and the Louisiana processing plant asset group were recoverable over the remaining life of the respective primary asset in each asset group.

14

Table of Contents

The Company has closed or idled various processing complexes, processing plants, hatcheries, broiler farms, and feed mills throughout the U.S. Neither the Board of Directors nor JBS has determined if it would be in the best interest of the Company to divest any of these idled assets. Management is therefore not certain that it can or will divest any of these assets within one year, is not actively marketing these assets and, accordingly, has not classified them as assets held for sale. The Company continues to depreciate these assets. At June 26, 2016, the carrying amount of these idled assets was \$65.5 million based on depreciable value of \$195.4 million and accumulated depreciation of \$129.9 million.

The Company last tested the recoverability of its long-lived assets held and used in December 2015. At that time, the Company determined that the carrying amount of its long-lived assets held and used was recoverable over the remaining life of the primary asset in the group and that long-lived assets held and used passed the Step 1 recoverability test under ASC 360-10-35, Impairment or Disposal of Long-Lived Assets. There were no indicators present during the twenty-six weeks ended June 26, 2016 that required the Company to test its long-lived assets held and used for recoverability.

9. CURRENT LIABILITIES

Current liabilities, other than current notes payable to banks, income taxes and current maturities of long-term debt, consisted of the following components:

	June 26, 2016	December 27, 2015
	(In thousands)	
Accounts payable:		
Trade accounts	\$407,306	\$ 436,188
Book overdrafts	55,393	44,145
Other payables	4,084	2,621
Total accounts payable	466,783	482,954
Accounts payable to related parties ^(a)	4,053	7,000
Accrued expenses and other current liabilities:		
Compensation and benefits	96,350	112,583
Interest and debt-related fees	9,022	8,928
Insurance and self-insured claims	99,210	93,336
Derivative liabilities:		
Futures	10,201	5,436
Options	9,837	—
Other accrued expenses	90,305	94,683
Total accrued expenses and other current liabilities	314,925	314,966
	\$785,761	\$ 804,920

(a) Additional information regarding accounts payable from related parties is included in “Note 15. Related Party Transactions.”

Table of Contents

10. LONG-TERM DEBT AND OTHER BORROWING ARRANGEMENTS

Long-term debt and other borrowing arrangements, including current notes payable to banks, consisted of the following components:

	Maturity	June 26, 2016	December 27, 2015
		(In thousands)	
Long-term debt and other long-term borrowing arrangements:			
Senior notes payable at 5.75%	2025	\$ 500,000	\$ 500,000

Current notes payable to banks

Mexico Credit Facility (defined below) with notes payable at TIIE Rate plus 0.90%	2016	\$—	\$ 28,726
--	------	-----	-----------

Senior Notes

On March 11, 2015, the Company completed a sale of \$500.0 million aggregate principal amount of its 5.75% senior notes due 2025 (the “Senior Notes”). The Company used the net proceeds from the sale of the Senior Notes to repay \$350.0 million and \$150.0 million of the term loan indebtedness under the U.S. Credit Facility (defined below) on March 12, 2015 and April 22, 2015, respectively. The Notes were sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the “Securities Act”), and outside the United States to non-U.S. persons pursuant to Regulation S under the Securities Act.

The Senior Notes are governed by, and were issued pursuant to, an indenture dated as of March 11, 2015 by and among the Company, its guarantor subsidiary and Wells Fargo Bank, National Association, as trustee (the “Indenture”). The Indenture provides, among other things, that the Senior Notes bear interest at a rate of 5.75% per annum from the date of issuance until maturity, payable semi-annually in cash in arrears, beginning on September 15, 2015. The Senior Notes are guaranteed on a senior unsecured basis by the Company’s guarantor subsidiary. In addition, any of the Company’s other existing or future domestic restricted subsidiaries that incur or guarantee any other indebtedness (with limited exceptions) must also guarantee the Senior Notes. The Senior Notes and related guarantees are unsecured senior obligations of the Company and its guarantor subsidiary and rank equally with all of the Company’s and its guarantor subsidiary’s other unsubordinated indebtedness. The Senior Notes and the Indenture also contain customary covenants and events of default, including failure to pay principal or interest on the Senior Notes when due, among others.

U.S. Credit Facility

On February 11, 2015, the Company and its subsidiaries, To-Ricos, Ltd. and To-Ricos Distribution, Ltd., entered into a Second Amended and Restated Credit Agreement (the “U.S. Credit Facility”) with Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A., Rabobank Nederland, New York Branch (“Rabobank”), as administrative agent, and the other lenders party thereto. The U.S. Credit Facility provides for a revolving loan commitment of up to \$700.0 million and a term loan commitment of up to \$1.0 billion (the “Term Loans”). The U.S. Credit Facility also includes an accordion feature that allows the Company, at any time, to increase the aggregate revolving loan and term loan commitments by up to an additional \$1.0 billion, subject to the satisfaction of certain conditions, including

obtaining the lenders' agreement to participate in the increase.

16

Table of Contents

The revolving loan commitment under the U.S. Credit Facility matures on February 10, 2020. All principal on the Term Loans is due at maturity on February 10, 2020. No installments of principal are required to be made prior to the maturity date of the Term Loans. Covenants in the U.S. Credit Facility also require the Company to use the proceeds it receives from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the U.S. Credit Facility. The Company had Term Loans outstanding totaling \$500.0 million as of June 26, 2016.

The U.S. Credit Facility includes a \$75.0 million sub-limit for swingline loans and a \$125.0 million sub-limit for letters of credit. Outstanding borrowings under the revolving loan commitment and the Term Loans bear interest at a per annum rate equal to (i) in the case of LIBOR loans, LIBOR plus 1.50% through June 26, 2016 and, based on the Company's net senior secured leverage ratio, between LIBOR plus 1.25% and LIBOR plus 2.75% and (ii) in the case of alternate base rate loans, the base rate plus 0.50% through June 26, 2016 and, based on the Company's net senior secured leverage ratio, between the base rate plus 0.25% and base rate plus 1.75% thereafter.

Actual borrowings by the Company under the revolving loan commitment of the U.S. Credit Facility are subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of Rabobank, in its capacity as administrative agent. The borrowing base formula will be reduced by the sum of (i) inventory reserves, (ii) rent and collateral access reserves, and (iii) any amount more than 15 days past due that is owed by the Company or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower's or producer's lien or other security arrangement. As of June 26, 2016, the applicable borrowing base was \$665.8 million and the amount available for borrowing under the revolving loan commitment was \$571.0 million. The Company had letters of credit of \$42.7 million and \$52.1 million outstanding borrowings under the revolving loan commitment as of June 26, 2016.

The U.S. Credit Facility contains financial covenants and various other covenants that may adversely affect the Company's ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain assets sales, enter into certain transactions with JBS and the Company's other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets. The U.S. Credit Facility requires the Company to comply with a minimum level of tangible net worth covenant. The U.S. Credit Facility also provides that we may not incur capital expenditures in excess of \$500.0 million in any fiscal year. The Company is currently in compliance with the covenants under the U.S. Credit Facility.

All obligations under the U.S. Credit Facility continue to be unconditionally guaranteed by certain of the Company's subsidiaries and continue to be secured by a first priority lien on (i) the accounts receivable and inventory of our company and its non-Mexico subsidiaries, (ii) 100% of the equity interests in our domestic subsidiaries, To-Ricos, Ltd. and To-Ricos Distribution, Ltd., and 65% of the equity interests in our direct foreign subsidiaries and (iii) substantially all of the assets of the Company and the guarantors under the U.S. Credit Facility.

Mexico Credit Facility

On July 23, 2014, certain of our Mexican subsidiaries entered into an unsecured credit agreement (the "Mexico Credit Facility") with BBVA Bancomer, S.A. Institución de Banca Múltiple, Grupo Financiero BBVA Bancomer, as lender. The loan commitment under the Mexico Credit Facility is \$1.5 billion Mexican pesos. Outstanding borrowings under the Mexico Credit Facility will accrue interest at a rate equal to the Interbank Equilibrium Interest Rate plus 0.90%. The Mexico Credit Facility will mature on July 23, 2017. As of June 26, 2016, the U.S. dollar-equivalent loan commitment under the Mexico Credit Facility was \$79.2 million, and there were \$79.2 million outstanding borrowings under the Mexico Credit Facility that bear interest at a per annum rate of 4.99%. As of June 26, 2016, there was no borrowing availability.

11. INCOME TAXES

The Company recorded income tax expense of \$141.0 million, a 34.2% effective tax rate, for the twenty-six weeks ended June 26, 2016 compared to income tax expense of \$240.6 million, a 35.1% effective tax rate, for the twenty-six weeks ended June 28, 2015. The decrease in income tax expense in 2016 resulted primarily from a decrease in pre-tax income.

In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent

upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities (including the impact of available carry back and carry forward periods), projected future taxable income and tax-planning strategies in making this assessment. As of June 26, 2016, the Company did not believe it had sufficient positive evidence to conclude that realization of its federal capital loss carry forwards and a portion of its foreign net deferred tax assets are more likely than not to be realized.

17

Table of Contents

For the twenty-six weeks ended June 26, 2016 and June 28, 2015, there is tax effect of \$5.3 million and \$4.1 million, respectively, reflected in other comprehensive income.

For the twenty-six weeks ended June 26, 2016, there is no tax effect reflected in additional paid-in-capital due to excess tax benefits related to compensation. For the twenty-six weeks ended June 28, 2015, there is a tax effect of \$7.8 million reflected in additional paid-in-capital due to excess tax benefits related to compensation on dividend equivalent rights and vested stock awards.

With few exceptions, the Company is no longer subject to U.S. federal, state or local income tax examinations by taxing authorities for years prior to 2010 and is no longer subject to Mexico income tax examinations by taxing authorities for years prior to 2009.

The United States Fifth Circuit Court of Appeals (the "Fifth Circuit") rendered judgment in favor of the Company regarding the IRS' amended proof of claim relating to the tax year ended June 26, 2004 for Gold Kist Inc. ("Gold Kist"). See "Note 16. Commitments and Contingencies" for additional information.

12. PENSION AND OTHER POSTRETIREMENT BENEFITS

The Company sponsors programs that provide retirement benefits to most of its employees. These programs include qualified defined benefit pension plans, nonqualified defined benefit retirement plans, a defined benefit postretirement life insurance plan and defined contribution retirement savings plans. Expenses recognized under all of these retirement plans totaled \$1.4 million, \$3.0 million, \$1.6 million and \$6.1 million in the thirteen and twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively.

Defined Benefit Plans Obligations and Assets

The change in benefit obligation, change in fair value of plan assets, funded status and amounts recognized in the Condensed Consolidated Balance Sheets for these defined benefit plans were as follows:

	Twenty-Six Weeks Ended June 26, 2016		Twenty-Six Weeks Ended June 28, 2015

Net actuarial loss (gain)	\$52,065	\$ (7)	\$38,115	\$ (79)
---------------------------	----------	---------	----------	----------

The accumulated benefit obligation for our defined benefit pension plans was \$176.9 million and \$166.0 million at June 26, 2016 and December 27, 2015, respectively. Each of our defined benefit pension plans had accumulated benefit obligations that exceeded the fair value of plan assets at June 26, 2016 and December 27, 2015, respectively. As of June 26, 2016, the weighted average duration of our defined benefit obligation is 33.5 years.

Net Periodic Benefit Costs

Net defined benefit pension and other postretirement costs included the following components:

	Thirteen Weeks Ended June 26, 2016		Thirteen Weeks Ended June 28, 2015		Twenty-Six Weeks Ended June 26, 2016		Twenty-Six Weeks Ended June 28, 2015	
	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits

Economic Assumptions

The weighted average assumptions used in determining pension and other postretirement plan information were as follows:

	June 26, 2016		December 27, 2015	
	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits
Assumptions used to measure benefit obligation at end of period:				
Discount rate	3.88%	3.35 %	4.47%	4.47 %
	Twenty-Six Weeks Ended June 26, 2016		Twenty-Six Weeks Ended June 28, 2015	
	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits
Assumptions used to measure net pension and other postretirement cost:				
Discount rate	4.47%	4.47 %	4.22%	4.22 %
Expected return on plan assets	5.50%	NA	6.00%	NA

The discount rate represents the interest rate used to determine the present value of future cash flows currently expected to be required to settle the Company's pension and other benefit obligations. The weighted average discount rate for each plan

19

Table of Contents

was established by comparing the projection of expected benefit payments to the AA Above Median yield curve. The expected benefit payments were discounted by each corresponding discount rate on the yield curve. For payments beyond 30 years, the Company extended the curve assuming the discount rate derived in year 30 is extended to the end of the plan's payment expectations. Once the present value of the string of benefit payments was established, the Company determined the single rate on the yield curve, that when applied to all obligations of the plan, would exactly match the previously determined present value. As part of the evaluation of pension and other postretirement assumptions, the Company applied assumptions for mortality that incorporate generational white and blue collar mortality trends. In determining its benefit obligations, the Company used generational tables that take into consideration increases in plan participant longevity. As of June 26, 2016 and December 27, 2015, all pension and other postretirement benefit plans used variations of the RP2014 mortality table and the MP2015 mortality improvement scale.

The sensitivity of the projected benefit obligation for pension benefits to changes in the discount rate is set out below. The impact of a change in the discount rate of 0.25% on the projected benefit obligation for other benefits is less than \$1,000. This sensitivity analysis is based on changing one assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to variations in significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as for calculating the liability recognized in the Condensed Consolidated Balance Sheet.

	Increase in Discount Rate of 0.25%	Decrease in Discount Rate of 0.25%
	(In thousands)	

Impact on projected benefit obligation for pension benefits	\$(4,888)	\$ 5,197
---	-----------	----------

The expected rate of return on plan assets was primarily based on the determination of an expected return and behaviors for each plan's current asset portfolio that the Company believes are likely to prevail over long periods. This determination was made using assumptions for return and volatility of the portfolio. Asset class assumptions were set using a combination of empirical and forward-looking analysis. To the extent historical results were affected by unsustainable trends or events, the effects of those trends or events were quantified and removed. The Company also considered anticipated asset allocations, investment strategies and the views of various investment professionals when developing this rate.

Plan Assets

The following table reflects the pension plans' actual asset allocations:

	June 26, December 27, 2016 2015			
Cash and cash equivalents	—	%	—	%
Pooled separate accounts ^(a) :				
Equity securities	6	%	7	%
Fixed income securities	7	%	7	%
Common collective trust funds ^(a) :				
Equity securities	57	%	57	%
Fixed income securities	30	%	29	%
Total assets	100	%	100	%

(a) Pooled separate accounts ("PSAs") and common collective trust funds ("CCTs") are two of the most common types of alternative vehicles in which benefit plans invest. These investments are pooled funds that look like mutual funds, but they are not registered with the SEC. Often times, they will be invested in mutual funds or other marketable securities, but the unit price generally will be different from the value of the underlying securities because the fund

may also hold cash for liquidity purposes, and the fees imposed by the fund are deducted from the fund value rather than charged separately to investors. Some PSAs and CCTs have no restrictions as to their investment strategy and can invest in riskier investments, such as derivatives, hedge funds, private equity funds, or similar investments. Absent regulatory or statutory limitations, the target asset allocation for the investment of pension assets in the pooled separate accounts is 50% in each of fixed income securities and equity securities and the target asset allocation for the investment of pension assets in the common collective trust funds is 30% in fixed income securities and 70% in equity securities. The plans only invest in fixed income and equity instruments for which there is a readily available public market. We develop our expected long-term rate of return assumptions based on the historical rates of returns for equity and fixed income securities of the type in which our plans invest.

20

Table of Contents

The fair value measurements of plan assets fell into the following levels of the fair value hierarchy as of June 26, 2016 and December 27, 2015:

	June 26, 2016				December 27, 2015			
	Level 1(a)	Level 2(b)	Level 3(c)	Total	Level 1(a)	Level 2(b)	Level 3(c)	Total
	(In thousands)							
Cash and cash equivalents	\$105	\$—	\$	-\$105	\$147	\$—	\$	-\$147
Pooled separate accounts:								
Large U.S. equity funds ^(d)	—	4,301	—	4,301	—	3,816	—	3,816
Small/Mid U.S. equity funds ^(e)	—	536	—	536	—	969	—	969
International equity funds ^(f)	—	1,539	—	1,539	—	1,606	—	1,606
Fixed income funds ^(g)	—	6,435	—	6,435	—	6,337	—	6,337
Common collective trusts funds:								
Large U.S. equity funds ^(d)	—	22,919	—	22,919	—	22,069	—	22,069
Small U.S. equity funds ^(e)	—	16,483	—	16,483	—	16,843	—	16,843
International equity funds ^(f)	—	16,574	—	16,574	—	16,629	—	16,629
Fixed income funds ^(g)	—	28,970	—	28,970	—	28,531	—	28,531
Total assets	\$105	\$97,757	\$	-\$97,862	\$147	\$96,800	\$	-\$96,947

(a) Unadjusted quoted prices in active markets for identical assets are used to determine fair value.

(b) Quoted prices in active markets for similar assets and inputs that are observable for the asset are used to determine fair value.

(c) Unobservable inputs, such as discounted cash flow models or valuations, are used to determine fair value.

This category is comprised of investment options that invest in stocks, or shares of ownership, in large,

(d) well-established U.S. companies. These investment options typically carry more risk than fixed income options but have the potential for higher returns over longer time periods.

This category is generally comprised of investment options that invest in stocks, or shares of ownership, in small to

(e) medium-sized U.S. companies. These investment options typically carry more risk than larger U.S. equity investment options but have the potential for higher returns.

(f) This category is comprised of investment options that invest in stocks, or shares of ownership, in companies with their principal place of business or office outside of the U.S.

This category is comprised of investment options that invest in bonds, or debt of a company or government entity

(g) (including U.S. and non-U.S. entities). It may also include real estate investment options that directly own property. These investment options typically carry more risk than short-term fixed income investment options (including, for real estate investment options, liquidity risk), but less overall risk than equities.

The valuation of plan assets in Level 2 is determined using a market approach based upon quoted prices for similar assets and liabilities in active markets, or other inputs that are observable for substantially the full term of the financial instrument. Level 2 securities primarily include equity and fixed income securities funds.

Benefit Payments

The following table reflects the benefits as of June 26, 2016 expected to be paid through 2025 from our pension and other postretirement plans. Because our pension plans are primarily funded plans, the anticipated benefits with respect to these plans will come primarily from the trusts established for these plans. Because our other postretirement plans are unfunded, the anticipated benefits with respect to these plans will come from our own assets.

	Pension Benefits	Other Benefits
	(In thousands)	
2016 (remaining)	\$7,102	\$ 69
2017	11,660	139
2018	11,406	140
2019	11,063	139

2020	11,075	138
2021-2025	49,795	643
Total	\$102,101	\$ 1,268

We anticipate contributing \$7.5 million and \$0.1 million, as required by funding regulations or laws, to our pension plans and other postretirement plans, respectively, during the remainder of 2016.

21

Table of Contents

Unrecognized Benefit Amounts in Accumulated Other Comprehensive Loss

The amounts in accumulated other comprehensive loss that were not recognized as components of net periodic benefits cost and the changes in those amounts are as follows:

	Twenty-Six Weeks Ended June 26, 2016		Twenty-Six Weeks Ended June 28, 2015	
	Pension Benefits	Other Benefits	Pension Benefits	Other Benefits
	(In thousands)			
Net actuarial loss (gain), beginning of period	\$38,115	\$ (79)	\$43,907	\$ (127)
Amortization	(329)	—	(357)	—
Curtailment and settlement adjustments	—	—	(3,272)	—
Actuarial loss	12,736	72	(7,033)	(26)
Asset loss (gain)	1,543	—	(112)	—
Net actuarial loss (gain), end of period	\$52,065	\$ (7)	\$33,133	\$ (153)

The Company expects to recognize in net pension cost throughout the remainder of 2016 an actuarial loss of \$0.3 million that was recorded in accumulated other comprehensive loss at June 26, 2016.

Risk Management

Through its defined benefit plans, the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility. The plan liabilities are calculated using a discount rate set with reference to corporate bond yields; if plan assets under perform this yield, this will create a deficit. The pension plans hold a significant proportion of equities, which are expected to outperform corporate bonds in the long-term while contributing volatility and risk in the short-term. The Company monitors the level of investment risk but has no current plan to significantly modify the mixture of investments. The investment position is discussed more below.

Changes in bond yields. A decrease in corporate bond yields will increase plan liabilities, although this will be partially offset by an increase in the value of the plans' bond holdings.

The investment position is managed and monitored by a committee of individuals from various departments. This group actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the pension obligations. The group has not changed the processes used to manage its risks from previous periods. The group does not use derivatives to manage its risk. Investments are well diversified, such that the failure of any single investment would not have a material impact on the overall level of assets. The majority of equities are in U.S. large and small cap companies with some global diversification into international entities. The plans are not exposed to significant foreign currency risk.

Remeasurement

The Company remeasures both plan assets and obligations on a quarterly basis.

13. STOCKHOLDERS' EQUITY

Accumulated Other Comprehensive Loss

The following tables provide information regarding the changes in accumulated other comprehensive loss:

Table of Contents

(a) Amounts in parentheses represent debits to results of operations.

(b) The Company sponsors the Pilgrim's Pride Retirement Plan for Union Employees, a qualified defined benefit pension plan covering certain locations or work groups with collective bargaining agreements.

(c) The Company sponsors the Pilgrim's Pride Plan for Legacy Gold Kist Employees, a qualified defined benefit pension plan covering certain eligible U.S. employees who were employed at locations that the Company purchased through its acquisition of Gold Kist in 2007, the Former Gold Kist Inc. Supplemental Executive

Retirement Plan, a nonqualified defined benefit retirement plan covering certain former Gold Kist executives, the Former Gold Kist Inc. Directors' Emeriti Plan, a nonqualified defined benefit retirement plan covering certain former Gold Kist directors, and the Gold Kist Inc. Retiree Life Insurance Plan, a defined benefit postretirement life insurance plan covering certain retired Gold Kist employees.

These accumulated other comprehensive income components are included in the computation of net periodic (d)pension cost. See "Note 12. Pension and Other Postretirement Benefits" to the Condensed Consolidated Financial Statements.

Share Repurchase Program and Treasury Stock

On July 28, 2015, the Company's Board of Directors approved a \$150.0 million share repurchase authorization. The Company plans to repurchase shares through various means, which may include but are not limited to open market purchases, privately negotiated transactions, the use of derivative instruments and/or accelerated share repurchase programs. The share repurchase program was originally scheduled to expire on July 27, 2016. On February 10, 2016, the Company's Board of Directors approved an increase of the share repurchase authorization to \$300.0 million and an extension of the expiration to February 9, 2017. The extent to which the Company repurchases its shares and the timing of such repurchases will vary and depend upon market conditions and other corporate considerations, as determined by the Company's management team. The Company reserves the right to limit or terminate the repurchase program at any time without notice. As of June 26, 2016, the Company had repurchased approximately 5.2 million shares under this program with a market value of approximately \$106.6 million. The Company accounted for the shares repurchased using the cost method.

Special Cash Dividends

Table of Contents

On May 18, 2016, the Company paid a special cash dividend from retained earnings of approximately \$700.0 million, or \$2.75 per share, to stockholders of record on May 10, 2016. The Company used proceeds from the U.S. Credit Facility, along with cash on hand, to fund the special cash dividend.

On February 17, 2015, the Company paid a special cash dividend from retained earnings of approximately \$1.5 billion, or \$5.77 per share, to stockholders of record as of January 30, 2015. The Company used proceeds from the U.S. Credit Facility, along with cash on hand, to fund the special cash dividend.

Restrictions on Dividends

Both the U.S. Credit Facility and the Indenture governing the Senior Notes restrict, but do not prohibit, the Company from declaring dividends.

14. INCENTIVE COMPENSATION

The Company sponsors a short-term incentive plan that provides the grant of either cash or share-based bonus awards payable upon achievement of specified performance goals (the "STIP"). Full-time, salaried exempt employees of the Company and its affiliates who are selected by the administering committee are eligible to participate in the STIP. The Company has accrued \$12.6 million in costs related to the STIP at June 26, 2016 related to cash bonus awards that could potentially be awarded during the remainder of 2016 and 2017.

The Company also sponsors a performance-based, omnibus long-term incentive plan that provides for the grant of a broad range of long-term equity-based and cash-based awards to the Company's officers and other employees, members of the Board of Directors and any consultants (the "LTIP"). The equity-based awards that may be granted under the LTIP include "incentive stock options," within the meaning of the Internal Revenue Code, nonqualified stock options, stock appreciation rights, restricted stock awards ("RSAs") and restricted stock units ("RSUs"). At June 26, 2016, we have reserved approximately 5.1 million shares of common stock for future issuance under the LTIP.

The following awards were outstanding during the twenty-six weeks ended June 26, 2016:

Award Type	Benefit Plan	Awards Granted	Grant Date	Grant Date Fair Value per Award ^(a)	Vesting Condition	Vesting Date	Estimated Forfeiture Rate	Awards Forfeited to Date	Settlement Method
RSU	LTIP	449,217	02/19/2014	16.70	Service	12/31/2016	13.49 %	86,458	Stock
RSU	LTIP	269,662	03/03/2014	17.18	Performance / Service	12/31/2017	12.34 %	55,516	Stock
RSU	LTIP	158,226	02/26/2015	27.51	Performance / Service	12/31/2018	(b)	158,226	Stock
RSU	LTIP	251,136	03/30/2016	25.36	Performance / Service	12/31/2019	(c)	—	Stock

(a) The fair value of each RSA and RSU granted or vested represents the closing price of the Company's common stock on the respective grant date or vesting date.

(b) Performance conditions associated with these awards were not satisfied. Therefore, 100% of the awards were forfeited.

(c) The estimated forfeiture rate for these awards will be set if or when performance conditions associated with the awards are satisfied.

Compensation costs and the income tax benefit recognized for our share-based compensation arrangements are included below:

Sales to JBS Global (UK) Ltd.	—	122	—

JBS USA Food Company Holdings ("JBS USA Holdings") arranged for letters of credit to be issued on its account in the aggregate amount of \$56.5 million to an insurance company on behalf of the Company in order to allow that insurance company to return cash it held as collateral against potential workers' compensation, auto liability and general liability claims. In return for providing this letter of credit, the Company has agreed to reimburse JBS USA Holdings for the letter of credit fees the Company would otherwise incur under its U.S. Credit Facility. The letter of credit arrangements for \$40.0 million and \$16.5 million were terminated on March 7, 2016 and April 1, 2016, respectively. For the twenty-six weeks ended June 26, 2016, the Company reimbursed JBS USA Holdings \$0.1 million for letter of credit fees.

We routinely execute transactions to both purchase products from JBS USA Food Company ("JBS USA") and sell products to them. As of June 26, 2016 and December 27, 2015, the outstanding payable to JBS USA was \$4.1 million and \$7.0 million, respectively. As of June 26, 2016 and December 27, 2015, the outstanding receivable from JBS USA was \$1.8 million and \$2.6 million, respectively. As of June 26, 2016, approximately \$0.1 million of goods from JBS USA were in transit and not reflected on our Condensed Consolidated Balance Sheet.

The Company has an agreement with JBS USA to allocate costs associated with JBS USA's procurement of SAP licenses and maintenance services for its combined companies. Under this agreement, the fees associated with procuring SAP licenses and maintenance services are allocated between the Company and JBS USA in proportion to the percentage of licenses used by each company. The agreement expires on the date of expiration, or earlier termination, of the underlying SAP license agreement. The Company also has an agreement with JBS USA to allocate the costs of supporting the business operations by one consolidated corporate team, which have historically been supported by their respective corporate teams. Expenditures paid by JBS USA on behalf of the Company will be reimbursed by the Company and expenditures paid by the Company on behalf of JBS USA will be reimbursed by JBS USA. This agreement expires on December 31, 2016.

The Company entered into a tax sharing agreement during 2014 with JBS USA Holdings effective for tax years starting in 2010. The net tax receivable of \$3.7 million for tax year 2015 was accrued in 2015 and paid in January 2016. The net tax receivable of \$3.8 million for tax years 2010 through 2014 was accrued in 2014 and paid in January 2015.

On June 25, 2015, the Company signed an intercompany revolving note to its indirect wholly-owned subsidiary, Pilgrim's Pride S. de R.L. de C.V., in a principal amount of \$100.0 million. The note bears interest based on three-month LIBOR plus a margin of 2.5% and had a maturity date of June 24, 2020. The agreement was terminated

in May 2016. The proceeds of the note were used to fund a portion of the purchase price of the acquisition of Tyson Mexico (as defined in “Note 2. Business Acquisition”). Interest is payable quarterly and principal is due upon maturity. The outstanding note balance eliminates upon consolidation. As of June 26, 2016, there was no outstanding borrowings.

16. COMMITMENTS AND CONTINGENCIES

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. Among other considerations, we have not recorded a liability for any of these indemnities as based upon the likelihood of payment, the fair value of such indemnities would not have a material impact on our financial condition, results of operations and cash flows.

The Company is subject to various legal proceedings and claims which arise in the ordinary course of business. In the Company’s opinion, it has made appropriate and adequate accruals for claims where necessary; however, the ultimate liability for these matters is uncertain, and if significantly different than the amounts accrued, the ultimate outcome could have a material effect on the financial condition or results of operations of the Company. For a discussion of the material legal proceedings and claims, see Part II, Item 1. “Legal Proceedings.” Below is a summary of some of these material proceedings and claims. The Company believes it has substantial defenses to the claims made and intends to vigorously defend these cases.

Tax Claims and Proceedings

Table of Contents

In 2009, the IRS asserted claims against the Company totaling \$74.7 million. We entered into two Stipulations of Settled Issues agreements with the IRS on December 12, 2012 that accounted for approximately \$29.3 million of the claims and should result in no additional tax due.

In connection with the remaining \$45.4 million claimed by the IRS, we filed a petition in the U.S. Tax Court (“Tax Court”) on May 26, 2010 in response to a Notice of Deficiency that was issued to the Company as the successor in interest to Gold Kist. The Notice of Deficiency and the Tax Court proceeding related to an ordinary loss that Gold Kist claimed for its tax year ended June 26, 2004. On December 11, 2013, the Tax Court issued its opinion in the Tax Court case holding the loss that Gold Kist claimed for its tax year ended June 26, 2004 was capital in nature. On April 14, 2014, the Company appealed the Tax Court’s findings of fact and conclusions of law to the Fifth Circuit. On February 25, 2015, the Fifth Circuit issued its opinion, which reversed the Tax Court’s judgment and rendered judgment in favor of the Company. The IRS did not appeal the Fifth Circuit’s decision, which has become final, and no additional tax should be due in connection with this matter.

ERISA Claims and Proceedings

Claims have been brought against certain current and former directors, executive officers and employees of the Company, the Pilgrim’s Pride Administrative Committee and the Pilgrim’s Pride Pension Committee seeking unspecified damages under section 502 of the Employee Retirement Income Security Act of 1974 (“ERISA”), 29 U.S.C. §1132. These claims were brought by individual participants in the Pilgrim’s Pride Retirement Savings Plan, individually and on behalf of a putative class, alleging that the defendants breached fiduciary duties to plan participants and beneficiaries or otherwise violated ERISA. Although the Company is not a named defendant in these claims, our bylaws require us to indemnify our current and former directors and officers from any liabilities and expenses incurred by them in connection with actions they took in good faith while serving as an officer or director. In these actions, the plaintiffs assert claims in excess of \$35.0 million. The likelihood of an unfavorable outcome or the amount or range of any possible loss to the Company cannot be determined at this time.

ITEM MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Description of the Company

We are one of the largest chicken producers in the world, with operations in the United States (“U.S.”), Mexico and Puerto Rico. We operate feed mills, hatcheries, processing plants and distribution centers in 12 U.S. states, Puerto Rico and Mexico. As of June 26, 2016, we had approximately 37,700 employees and the capacity to process more than 37 million birds per five-day work week for a total of more than 11 billion pounds of live chicken annually. Approximately 4,035 contract growers supply poultry for our operations. As of June 26, 2016, JBS S.A., through its indirect wholly-owned subsidiaries (together, “JBS”), beneficially owned 76.8% of our outstanding common stock. See “Note 1. Description of Business and Basis of Presentation” of our Condensed Consolidated Financial Statements included in this quarterly report for additional information.

We operate on a 52/53-week fiscal year that ends on the Sunday falling on or before December 31. The reader should assume any reference we make to a particular year (for example, 2016) in this report applies to our fiscal year and not the calendar year.

Executive Summary

We reported net income attributable to Pilgrim’s Pride Corporation of \$152.9 million, or \$0.60 per diluted common share, for the thirteen weeks ended June 26, 2016. These operating results included gross profit of \$286.1 million. During the thirteen weeks ended June 26, 2016, we generated \$111.1 million of cash from operations.

We reported net income attributable to Pilgrim’s Pride Corporation of \$271.3 million, or \$1.06 per diluted common share, for the twenty-six weeks ended June 26, 2016. These operating results included gross profit of \$523.7 million. During the twenty-six weeks ended June 26, 2016, we generated \$289.0 million of cash from operations.

Market prices for feed ingredients remain volatile. Consequently, there can be no assurance that our feed ingredients prices will not increase materially and that such increases would not negatively impact our financial position, results of operations and cash flow. The following table compares the highest and lowest prices reached on nearby futures for one bushel of corn and one ton of soybean meal during the current year and previous two years:

	Corn		Soybean Meal	
	Highest	Lowest	Highest	Lowest
	Price	Price	Price	Price
2016:				
Second Quarter	\$4.38	\$ 3.52	\$418.30	\$266.80
First Quarter	3.73	3.52	275.30	257.20
2015:				
Fourth Quarter	3.98	3.58	320.70	269.00
Third Quarter	4.34	3.48	374.80	302.40
Second Quarter	4.10	3.53	326.40	286.50
First Quarter	4.13	3.70	377.40	317.50
2014:				
Fourth Quarter	4.14	3.21	411.60	304.60
Third Quarter	4.24	3.23	464.20	307.20
Second Quarter	5.16	4.39	506.00	448.40
First Quarter	4.92	4.12	470.50	416.50

We purchase derivative financial instruments, specifically exchange-traded futures and options, in an attempt to mitigate price risk related to our anticipated consumption of commodity inputs such as corn, soybean meal, sorghum, wheat, soybean oil and natural gas. We will sometimes take a short position on a derivative instrument to minimize the impact of a commodity's price volatility on our operating results. We will also occasionally purchase derivative financial instruments in an attempt to mitigate currency exchange rate exposure related to the financial statements of our Mexico operations that are denominated in Mexican pesos. We do not designate derivative financial instruments that we purchase to mitigate commodity purchase or currency exchange rate exposures as cash flow hedges; therefore, we recognize changes in the fair value of these derivative financial instruments immediately in earnings. During the thirteen weeks ended June 26, 2016 and June 28, 2015, we recognized net gains totaling \$1.8 million and \$5.6 million, respectively, related to changes in the fair values of our derivative financial instruments.

Although changes in the market price paid for feed ingredients impact cash outlays at the time we purchase the ingredients, such changes do not immediately impact cost of sales. The cost of feed ingredients is recognized in cost of sales, on a first-in-first-out basis, at the same time that the sales of the chickens that consume the feed grains are recognized. Thus, there is a lag between the time cash is paid for feed ingredients and the time the cost of such feed ingredients is reported in cost of goods sold. For example, corn delivered to a feed mill and paid for one week might be used to manufacture feed the following week. However, the chickens that eat that feed might not be processed and sold for another 42 to 63 days, and only at that time will the costs of the feed consumed by the chicken become included in cost of goods sold.

Commodities such as corn, soybean meal, sorghum, wheat and soybean oil are actively traded through various exchanges with future market prices quoted on a daily basis. These quoted market prices, although a good indicator of the commodity's base price, do not represent the final price for which we can purchase these commodities. There are several components in addition to the quoted market price, such as freight, storage and seller premiums, that are included in the final price that we pay for grain. Although changes in quoted market prices may be a good indicator of the commodity's base price, the components mentioned above may have a significant impact on the total change in grain costs recognized from period to period.

Market prices for chicken products are currently at levels sufficient to offset the costs of feed ingredients. However, there can be no assurance that chicken prices will not decrease due to such factors as competition from other proteins and substitutions by consumers of non-protein foods because of uncertainty surrounding the general economy and unemployment.

Recent Developments

Tyson Mexico Acquisition. On June 29, 2015, we acquired, indirectly through certain of our Mexican subsidiaries, 100% of the equity of Provemex Holding LLC and its subsidiaries (together, “Tyson Mexico”) from Tyson Foods, Inc. and certain of its subsidiaries for cash. Tyson Mexico is a vertically integrated poultry business based in Gomez Palacio, Durango, Mexico. The acquired business has a production capacity of 2.5 million birds per five-day work week in its three plants and employs more than 4,500 people in its plants, offices and seven distribution centers. The acquisition further strengthens our strategic position in the Mexico chicken market. We plan to keep all current labor contracts in place. The results of operations of the acquired business since June 29, 2015 are included in our Condensed Consolidated Statements of Operations. Net sales generated by the acquired business during the thirteen and twenty-six weeks ended June 26, 2016 totaled \$15.2 million and \$118.1 million, respectively. This significant decrease in net sales during the thirteen weeks ended June 26, 2016 resulted from a shift in sales activity from the acquired business to our legacy business operating in Mexico. The acquired business incurred a net loss during the thirteen and twenty-six weeks ended June 26, 2016 totaling \$0.2 million and \$0.4 million, respectively.

Special Cash Dividend. On May 18, 2016, we paid a special cash dividend from retained earnings of approximately \$700.0 million, or \$2.75 per share, to stockholders of record on May 10, 2016. We used proceeds from the U.S. Credit Facility (defined below), along with cash on hand, to fund the special cash dividend. For additional information, see “Note 13. Stockholders' Equity - Special Cash Dividends” of our Condensed Consolidated Financial Statements included in this quarterly report.

Prepared Foods Recall and Production. During the twenty-six weeks ended June 26, 2016, we ordered a recall of approximately 5.6 million pounds of cooked chicken products after consumers and federal meat inspectors found contamination by certain foreign materials, including wood, plastic, rubber and metal, at one of our prepared foods facilities. At this time, there have been no confirmed reports of adverse reactions from the consumption of the recalled products. We are still assessing the full impact of this recall, and we have not included any of these expenses in our 2016 results. We currently do not expect that the recall and its direct effects will have a material impact on our financial position or results of operations. Unrelated to the recall, we also made operational improvements in one of our prepared foods facilities that negatively impacted production during the thirteen weeks ended June 26, 2016, but positioned that facility for future long-term growth.

Business Segment and Geographic Reporting

We operate in one reportable business segment, as a producer and seller of chicken products we either produce or purchase for resale in the U.S., Puerto Rico and Mexico. We conduct separate operations in the U.S., Puerto Rico and Mexico; however, for geographic reporting purposes, we include Puerto Rico within our U.S. operations. Corporate expenses are allocated to Mexico based upon various apportionment methods for specific expenditures incurred related thereto with the remaining amounts allocated to the U.S.

Results of Operations

Thirteen Weeks Ended June 26, 2016 Compared to Thirteen Weeks Ended June 28, 2015

Net sales. Net sales generated in the thirteen weeks ended June 26, 2016 decreased \$25.6 million, or 1.2%, from net sales generated in the thirteen weeks ended June 28, 2015. The following table provides net sales information:

Sources of net sales	Thirteen	Change from	
	Weeks	Thirteen Weeks	
	Ended	Ended	
	June 26,	June 28, 2015	
	2016	Amount	Percent
	(In thousands, except percent data)		
United States	\$1,677,445	\$(161,414)	(8.8)% (a)
Mexico	350,870	135,853	63.2 % (b)
Total net sales	\$2,028,315	\$(25,561)	(1.2)%

(a) U.S. net sales generated in the thirteen weeks ended June 26, 2016 decreased \$161.4 million, or 8.8%, from U.S. net sales generated in the thirteen weeks ended June 28, 2015 primarily because of decreased sales volume. The decrease in sales volume contributed \$101.3 million, or 5.5 percentage points, to the net sales decrease. The

decrease in sales volume was partially due to production limitations caused by operational improvements in one of our prepared foods facilities during the period. Lower net sales per pound, which reflects a slight shift in product mix toward lower-priced fresh chicken products when compared to the same period in the prior year, contributed \$60.2 million, or 3.2 percentage points, to the net sales decrease. Included in U.S. net sales generated during the thirteen weeks ended June 26, 2016 and June 28, 2015 were net sales to JBS USA Food Company totaling \$4.1 million and \$5.4 million, respectively.

(b) Mexico net sales generated in the thirteen weeks ended June 26, 2016 increased \$135.9 million, or 63.2%, from Mexico net sales generated in the thirteen weeks ended June 28, 2015 primarily because of an increase in sales volume and an increase in net sales per pound partially offset by the impact of foreign currency translation. The increase in sales volume contributed \$167.8 million, or 78.1 percentage points, to the increase in net sales.

The increase in net sales per pound contributed \$30.5 million, or 14.2 percentage points to the increase in net sales. The impact of foreign currency translation contributed \$62.5 million, or 29.1 percentage points, to the decrease in net sales. Other factors affecting the increase in Mexico net sales were immaterial.

Gross profit. Gross profit decreased by \$145.9 million, or 33.8%, from \$432.0 million generated in the thirteen weeks ended June 28, 2015 to \$286.1 million generated in the thirteen weeks ended June 26, 2016. The following tables provide information regarding gross profit and cost of sales information:

Components of gross profit	Thirteen Weeks Ended June 26, 2016	Change from Thirteen Weeks Ended June 28, 2015		Percent of Net Sales Thirteen Weeks Ended June 26, 2016		Percent of Net Sales Thirteen Weeks Ended June 28, 2015	
		Amount	Percent	2016	2015	2016	2015

Net sales	\$2,028,315	\$(25,561)	(1.2)%	100.0%	100.0%		
Cost of sales	1,742,184	120,328	7.4%	85.9%	79.0%	(a)(b)	
Gross profit	\$286,131	\$(145,889)	(33.8)%	14.1%	21.0%		

Sources of gross profit	Thirteen Weeks Ended June 26, 2016	Change from Thirteen Weeks Ended June 28, 2015		Percent	
		Amount	Percent	2016	2015
(In thousands, except percent data)					
United States	\$206,176	\$(178,014)	(46.3)%	(a)	
Mexico	79,931	32,125	67.2%	(b)	
Elimination	24	—	—%		
Total gross profit	\$286,131	\$(145,889)	(33.8)%		

Sources of cost of sales	Thirteen Weeks Ended June 26, 2016	Change from Thirteen Weeks Ended June 28, 2015		Percent	
		Amount	Percent	2016	2015
(In thousands, except percent data)					
United States	\$1,471,269	\$16,600	1.1%	(a)	
Mexico	270,939	103,728	62.0%	(b)	
Elimination	(24)	—	—%		
Total cost of sales	\$1,742,184	\$120,328	7.4%		

Cost of sales incurred by the U.S. operations during the thirteen weeks ended June 26, 2016 increased \$16.6 million, or 1.1%, from cost of sales incurred by the U.S. operations during the thirteen weeks ended June 28, 2015. Cost of sales primarily increased because of a \$20.9 million increase in wage and benefits costs, a \$8.7 million increase in contract labor costs, a \$5.9 million increase in contract grower costs, derivative gains of \$1.7 million recognized in the thirteen weeks ended June 26, 2016 as compared to derivative gains of \$5.6 million recognized in the thirteen weeks ended June 28, 2015, a \$3.8 million increase in repairs and maintenance costs, a \$3.3 million increase in supplies and equipment costs, a \$2.5 million increase in co-pack labor and meat costs, and a \$1.7 million increase in rent and lease costs. These increases in cost of sales components were partially offset by a \$28.8 million decrease in feed ingredients costs, and a \$6.3 million decrease in freight and storage costs. Other factors affecting cost of sales were individually immaterial.

(b) Cost of sales incurred by the Mexico operations during the thirteen weeks ended June 26, 2016 increased \$103.7 million, or 62.0%, from cost of sales incurred by the Mexico operations during the thirteen weeks ended June 28, 2015.

2015. Cost of sales primarily increased because of increased sales and feed ingredients costs. Cost of sales increased because of a \$17.4 million increase in wages and benefits, a \$6.9 million increase in depreciation and amortization costs, a \$6.3 million increase in freight and storage, a \$5.6 million increase in contract grower costs, and a \$5.0 million increase in utilities. Increases to cost of sales were primarily offset because of the impact of foreign currency translation, which contributed \$48.2 million, or 28.9 percentage points, to the decrease in cost of sales. Other factors affecting cost of sales were individually immaterial.

Operating income. Operating income decreased by \$141.8 million, or 37.5%, from \$378.4 million generated in the thirteen weeks ended June 28, 2015 to \$236.6 million generated in the thirteen weeks ended June 26, 2016. The following tables provide information regarding operating income, SG&A expense and administrative restructuring charges:

Mexico	7,838	2,598	49.6% (b)
Total SG&A expense	\$49,520	\$686	1.4%

Sources of administrative restructuring charges	Thirteen Weeks Ended June 26, 2016	Change from Thirteen Weeks Ended June 28, 2015	
		Amount	Percent
(In thousands, except percent data)			
United States	\$—	\$(4,813)	(100.0)% (c)
Mexico	—	—	—%
Total administrative restructuring charges	\$—	\$(4,813)	(100.0)%

(a) SG&A expense incurred by the U.S. operations during the thirteen weeks ended June 26, 2016 decreased \$1.9 million, or 4.4%, from SG&A expense incurred by the U.S. operations during the thirteen weeks ended June 28, 2015, primarily because of a \$2.3 million decrease in brokerage expenses and a \$0.5 million decrease in outside services expenses. These decreases were partially offset by a \$1.2 million increase in professional fees and a \$0.5 million increase in advertising and promotion expense. Other factors affecting SG&A expense were individually immaterial.

(b) SG&A expense incurred by the Mexico operations during the thirteen weeks ended June 26, 2016 increased \$2.6 million, or 49.6%, from SG&A expense incurred by the Mexico operations during the thirteen weeks ended June 28, 2015 primarily because of a \$1.0 million increase in employee relations, a \$0.6 million increase in wages

and benefits, a \$0.5 million increase in contract labor and a \$0.4 million loss on asset disposal. Other factors affecting SG&A expense were individually immaterial.

(c) Administrative restructuring charges incurred by the U.S. operations during the thirteen weeks ended June 28, 2015 represented impairment costs of \$4.8 million related to assets held for sale in Louisiana and Texas.

Net interest expense. Net interest expense increased 6.1% to \$10.9 million recognized in the thirteen weeks ended June 26, 2016 from \$10.2 million recognized in the thirteen weeks ended June 28, 2015 primarily because of an increase in average borrowings compared to the same period in the prior year. Average borrowings increased from \$1.0 billion in the thirteen weeks ended June 28, 2015 to \$1.1 billion in the thirteen weeks ended June 26, 2016 due to increased borrowings related to our Senior Notes and U.S. Credit Facility term notes. The weighted average interest rate was 3.7% in the thirteen weeks ended June 28, 2015 and June 26, 2016.

Income taxes. Income tax expense decreased to \$78.4 million, a 33.9% effective tax rate, for the thirteen weeks ended June 26, 2016 compared to income tax expense of \$129.1 million, a 34.8% effective tax rate, for the thirteen weeks ended June 28, 2015. The decrease in income tax expense in 2016 resulted primarily from a decrease in pre-tax income.

Edgar Filing: PILGRIMS PRIDE CORP - Form 10-Q

Twenty-Six Weeks Ended June 26, 2016 Compared to Twenty-Six Weeks Ended June 28, 2015

Net sales. Net sales generated in the twenty-six weeks ended June 26, 2016 decreased \$115.5 million, or 2.8%, from net sales generated in the twenty-six weeks ended June 28, 2015. The following table provides net sales information:

Sources of net sales	Twenty-Six Change from		
	Weeks Ended	Twenty-Six Weeks Ended	
	June 26, 2016	June 28, 2015	
	Amount	Percent	
(In thousands, except percent data)			
United States	\$3,347,726	\$(333,891)	(9.1) % (a)
Mexico	643,526	218,348	51.4 % (b)
Total net sales	\$3,991,252	\$(115,543)	(2.8) %

U.S. net sales generated in the twenty-six weeks ended June 26, 2016 decreased \$333.9 million, or 9.1%, from U.S. net sales generated in the twenty-six weeks ended June 28, 2015 primarily because of decrease in sales volume and a decrease net sales per pound. The decrease in sales volume contributed \$170.3 million, or 4.6 percentage points, to the decrease in net sales. The decrease in sales volume was partially due to production limitations caused by (a) operational improvements in one of our prepared foods facilities during the period. Lower net sales per pound, which reflects a slight shift in product mix toward lower-priced fresh chicken products when compared to the same period in the prior year, contributed \$163.6 million, or 4.4 percentage points, to the net sales decrease. Included in U.S. net sales generated during the twenty-six weeks ended June 26, 2016 and June 28, 2015 were net sales to JBS USA Food Company totaling \$7.4 million and \$12.2 million, respectively.

Mexico net sales generated in the twenty-six weeks ended June 26, 2016 increased \$218.3 million, or 51.4%, from Mexico net sales generated in the twenty-six weeks ended June 28, 2015 primarily because of an increase in sales volume and an increase in net sales per pound partially offset by the impact of foreign currency translation. The (b) increase in sales volume contributed \$336.7 million, or 79.2 percentage points, to the increase in net sales. The increase in net sales per pound contributed \$4.5 million, or 1.0 percentage points, to the increase in net sales. The impact of foreign currency translation contributed \$122.8 million, or 28.9 percentage points, to the decrease in net sales. Other factors affecting the increase in Mexico net sales were immaterial.

Gross profit. Gross profit decreased by \$285.4 million, or 35.3%, from \$809.1 million generated in the twenty-six weeks ended June 28, 2015 to \$523.7 million generated in the twenty-six weeks ended June 26, 2016. The following tables provide information regarding gross profit and cost of sales information:

Components of gross profit	Twenty-Six Weeks Ended	Change from		Percent of Net	
		Twenty-Six Weeks Ended	Twenty-Six Weeks Ended	Sales	Twenty-Six Weeks Ended

32

(a) Cost of sales incurred by the U.S. operations during twenty-six weeks ended June 26, 2016 decreased \$33.7 million, or 1.1%, from cost of sales incurred by the U.S. operations during the twenty-six weeks weeks ended June 28, 2015. Cost of sales decreased primarily because of a \$88.7 million decrease in feed ingredients costs, a \$11.5 million decrease in freight and storage costs, a \$4.2 million decrease in vehicle costs, and a \$2.4 million decrease in utilities costs. These decreases in cost of sales were primarily offset by derivative gains of \$5.9 million recognized in the twenty-six weeks ended June 26, 2016 as compared to derivative gains of \$28.7 million recognized in the twenty-six weeks ended June 28, 2015, a \$18.6 million increase in wage and benefits costs, a \$14.9 million increase in contract labor costs, a \$7.9 million increase in supplies and equipment cost, a \$7.0 million increase in contract grower costs, and a \$6.3 million increase in repairs and maintenance costs. Other factors affecting cost of sales were individually immaterial.

(b) Cost of sales incurred by the Mexico operations during the twenty-six weeks ended June 26, 2016 increased \$203.6 million, or 60.1%, from cost of sales incurred by the Mexico operations during the twenty-six weeks ended June 28, 2015. Cost of sales primarily increased because of increased sales and feed ingredients costs. Cost of sales increased because of a \$27.6 million increase in wages and benefits, a \$11.4 million increase in depreciation and amortization costs, a \$12.7 million increase in freight and storage, a \$7.5 million increase in contract grower costs, and a \$7.2 million increase in utilities. Increases to cost of sales were primarily offset because of the impact of foreign currency translation, which contributed \$103.5 million, or 16.8 percentage points to the decrease in cost of sales. Other factors affecting cost of sales were individually immaterial.

Operating income. Operating income decreased by \$280.6 million, or 39.7%, from \$706.0 million generated in the twenty-six weeks ended June 28, 2015 to \$425.4 million generated in the twenty-six weeks ended June 26, 2016. The following tables provide information regarding operating income, SG&A expense and administrative restructuring charges:

Components of operating income	Change from		Percent of Net	
	Twenty-Six Weeks Ended June 26, 2016	Twenty-Six Weeks Ended June 28, 2015	Twenty-Six Weeks Ended June 26, 2016	Twenty-Six Weeks Ended June 28, 2015

Sources of administrative restructuring charges	Twenty-Six Weeks Ended			Change from Twenty-Six Weeks Ended June 28, 2015 Amount Percent
	June 26, 2016	June 28, 2015	Amount	
	(In thousands, except percent data)			
United States	\$—	\$(4,813)	(100.0)	% (c)
Mexico	—	—	—	%
Total administrative restructuring charges	\$—	\$(4,813)	(100.0)	%

(a) SG&A expense incurred by the U.S. operations during the twenty-six weeks ended June 26, 2016 decreased \$5.1 million, or 5.7%, from SG&A expense incurred by the U.S. operations during the twenty-six weeks ended June 28, 2015 primarily because of a \$3.7 million decrease in brokerage expenses, a \$1.1 million decrease in wages and benefits, and \$1.1 million decrease in outside services expense. These decreases were partially offset by an increase in advertising and promotion expenses. Other factors affecting SG&A expense were individually immaterial.

(b) SG&A expense incurred by the Mexico operations during the twenty-six weeks ended June 26, 2016 increased \$5.0 million, or 51.2%, from SG&A expense incurred by the Mexico operations during the twenty-six weeks ended June 28, 2015 primarily because of a \$2.9 million increase in wages

and benefits, a \$1.6 million increase in employee relations expense, and a \$0.5 million increase in contract labor expense. Other factors affecting SG&A expense were individually immaterial.

(c) Administrative restructuring charges incurred by the U.S. operations during the twenty-six weeks ended June 28, 2015 represented impairment costs of \$4.8 million related to assets held for sale in Louisiana and Texas.

Net interest expense. Net interest expense increased 6.1% to \$22.2 million recognized in the twenty-six weeks ended June 26, 2016 from \$13.6 million recognized in the twenty-six weeks ended June 28, 2015 primarily because of an increase in average borrowings compared to the same period in the prior year. Average borrowings increased from \$861.3 million in the twenty-six weeks ended June 28, 2015 to \$1.0 billion in the twenty-six weeks ended June 26, 2016 due to increased borrowings related to our Senior Notes and U.S. Credit Facility term notes. The increase in higher average borrowings was partially offset by a decrease in the weighted average interest rate. The weighted average interest rate decreased from 4.3% in the twenty-six weeks ended June 28, 2015 to 3.7% in the twenty-six weeks ended June 26, 2016.

Income taxes. Income tax expense decreased to \$141.0 million, a 34.2% effective tax rate, for the twenty-six weeks ended June 26, 2016 compared to income tax expense of \$240.6 million, a 35.1% effective tax rate, for the twenty-six weeks ended June 28, 2015. The decrease in income tax expense in 2016 resulted primarily from a decrease in pre-tax income.

Liquidity and Capital Resources

The following table presents our available sources of liquidity as of June 26, 2016:

Source of Liquidity	Facility Amount	Amount Outstanding	Amount Available	
	(In millions)			
Cash and cash equivalents			\$ 41.0	
Borrowing arrangements:				
U.S. Credit Facility	\$700.0	\$ 52.1	571.0	(a)
Mexico Credit Facility	79.2	79.2	—	(b)

Actual borrowings under our U.S. Credit Facility (as described below) are subject to a borrowing base, which is a formula based on certain eligible inventory and eligible receivables. The borrowing base in effect at June 26, 2016 (a) was \$665.8 million. Availability under the U.S. Credit Facility is also reduced by our outstanding standby letters of credit. Standby letters of credit outstanding at June 26, 2016 totaled \$42.7 million.

As of June 26, 2016, the U.S. dollar-equivalent amount available under the Mexico Credit Facility (as described (b) below) was \$79.2 million. The Mexico Credit Facility provides for a loan commitment of 1.5 billion Mexican pesos.

Long-Term Debt and Other Borrowing Arrangements

Senior Notes

On March 11, 2015, the Company completed a sale of \$500.0 million aggregate principal amount of its 5.75% senior notes due 2025 (the "Senior Notes"). The Company used the net proceeds from the sale of the Senior Notes to repay \$350.0 million and \$150.0 million of the term loan indebtedness under the U.S. Credit Facility (defined below) on March 12, 2015 and April 22, 2015, respectively. The Notes were sold to qualified institutional buyers pursuant to Rule 144A under the Securities Act of 1933, as amended (the "Securities Act"), and outside the United States to non-U.S. persons pursuant to Regulation S under the Securities Act.

The Senior Notes are governed by, and were issued pursuant to, an indenture dated as of March 11, 2015 by and among the Company, its guarantor subsidiary and Wells Fargo Bank, National Association, as trustee (the "Indenture"). The Indenture provides, among other things, that the Senior Notes bear interest at a rate of 5.75% per annum from the date of issuance until maturity, payable semi-annually in cash in arrears, beginning on September 15, 2015. The Senior Notes are guaranteed on a senior unsecured basis by the Company's guarantor subsidiary. In addition, any of the Company's other existing or future domestic restricted subsidiaries that incur or guarantee any other indebtedness (with limited exceptions) must also guarantee the Senior Notes. The Senior Notes and related guarantees are unsecured senior obligations of the Company and its guarantor subsidiary and rank equally with all of the Company's and its guarantor subsidiary's other unsubordinated indebtedness. The Senior Notes and the Indenture also contain customary covenants and events of default, including failure to pay principal or interest on the Senior Notes when due,

among others.

U.S. Credit Facility

On February 11, 2015, the Company and its subsidiaries, To-Ricos, Ltd. and To-Ricos Distribution, Ltd., entered into a Second Amended and Restated Credit Agreement (the “U.S. Credit Facility”) with Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A., Rabobank Nederland, New York Branch (“Rabobank”), as administrative agent, and the other lenders party thereto. The U.S. Credit Facility provides for a revolving loan commitment of up to \$700.0 million and a term loan

34

commitment of up to \$1.0 billion (the “Term Loans”). The U.S. Credit Facility also includes an accordion feature that allows the Company, at any time, to increase the aggregate revolving loan and term loan commitments by up to an additional \$1.0 billion, subject to the satisfaction of certain conditions, including obtaining the lenders’ agreement to participate in the increase.

The revolving loan commitment under the U.S. Credit Facility matures on February 10, 2020. All principal on the Term Loans is due at maturity on February 10, 2020. No installments of principal are required to be made prior to the maturity date of the Term Loans. Covenants in the U.S. Credit Facility also require the Company to use the proceeds it receives from certain asset sales and specified debt or equity issuances and upon the occurrence of other events to repay outstanding borrowings under the U.S. Credit Facility. The Company had Term Loans outstanding totaling \$500.0 million as of June 26, 2016.

The U.S. Credit Facility includes a \$75.0 million sub-limit for swingline loans and a \$125.0 million sub-limit for letters of credit. Outstanding borrowings under the revolving loan commitment and the Term Loans bear interest at a per annum rate equal to (i) in the case of LIBOR loans, LIBOR plus 1.50% through June 26, 2016 and, based on the Company’s net senior secured leverage ratio, between LIBOR plus 1.25% and LIBOR plus 2.75% and (ii) in the case of alternate base rate loans, the base rate plus 0.50% through June 26, 2016 and, based on the Company’s net senior secured leverage ratio, between the base rate plus 0.25% and base rate plus 1.75% thereafter.

Actual borrowings by the Company under the revolving loan commitment of the U.S. Credit Facility are subject to a borrowing base, which is a formula based on certain eligible inventory, eligible receivables and restricted cash under the control of Rabobank, in its capacity as administrative agent. The borrowing base formula will be reduced by the sum of (i) inventory reserves, (ii) rent and collateral access reserves, and (iii) any amount more than 15 days past due that is owed by the Company or its subsidiaries to any person on account of the purchase price of agricultural products or services (including poultry and livestock) if that person is entitled to any grower’s or producer’s lien or other security arrangement. As of June 26, 2016, the applicable borrowing base was \$665.8 million and the amount available for borrowing under the revolving loan commitment was \$571.0 million. The Company had letters of credit of \$42.7 million and \$52.1 million outstanding borrowings under the revolving loan commitment as of June 26, 2016. The U.S. Credit Facility contains financial covenants and various other covenants that may adversely affect the Company’s ability to, among other things, incur additional indebtedness, incur liens, pay dividends or make certain restricted payments, consummate certain assets sales, enter into certain transactions with JBS and the Company’s other affiliates, merge, consolidate and/or sell or dispose of all or substantially all of our assets. The U.S. Credit Facility requires the Company to comply with a minimum level of tangible net worth covenant. The U.S. Credit Facility also provides that we may not incur capital expenditures in excess of \$500.0 million in any fiscal year. The Company is currently in compliance with the covenants under the U.S. Credit Facility.

All obligations under the U.S. Credit Facility continue to be unconditionally guaranteed by certain of the Company’s subsidiaries and continue to be secured by a first priority lien on (i) the accounts receivable and inventory of our company and its non-Mexico subsidiaries, (ii) 100% of the equity interests in our domestic subsidiaries, To-Ricos, Ltd. and To-Ricos Distribution, Ltd., and 65% of the equity interests in our direct foreign subsidiaries and (iii) substantially all of the assets of the Company and the guarantors under the U.S. Credit Facility.

Mexico Credit Facility

On July 23, 2014, certain of our Mexican subsidiaries entered into an unsecured credit agreement (the “Mexico Credit Facility”) with BBVA Bancomer, S.A. Institución de Banca Múltiple, Grupo Financiero BBVA Bancomer, as lender. The loan commitment under the Mexico Credit Facility is \$1.5 billion Mexican pesos. Outstanding borrowings under the Mexico Credit Facility will accrue interest at a rate equal to the Interbank Equilibrium Interest Rate plus 0.90%. The Mexico Credit Facility will mature on July 23, 2017. As of June 26, 2016, the U.S. dollar-equivalent loan commitment under the Mexico Credit Facility was \$79.2 million, and there were \$79.2 million outstanding borrowings under the Mexico Credit Facility that bear interest at a per annum rate of 4.99%. As of June 26, 2016, there was no borrowing availability.

Off-Balance Sheet Arrangements

We maintain operating leases for various types of equipment, some of which contain residual value guarantees for the market value of assets at the end of the term of the lease. The terms of the lease maturities range from one to ten years. We estimate the maximum potential amount of the residual value guarantees is approximately \$6.5 million; however, the actual amount would be offset by any recoverable amount based on the fair market value of the underlying leased assets. No liability has been recorded related to this contingency as the likelihood of payments under these guarantees is not considered to be probable, and the fair value of the guarantees is immaterial. We historically have not experienced significant payments under similar residual guarantees.

We are a party to many routine contracts in which we provide general indemnities in the normal course of business to third parties for various risks. Among other considerations, we have not recorded a liability for any of these indemnities as, based upon the likelihood of payment, the fair value of such indemnities would not have a material impact on our financial condition, results of operations and cash flows.

Historical Flow of Funds

Cash provided by operating activities was \$289.0 million and \$588.1 million for the twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively. The decrease in cash flows provided by operating activities was primarily a result of decreased net income for the twenty-six weeks ended June 26, 2016 as compared to the twenty-six weeks ended June 28, 2015 and an increase in net operating assets for the twenty-six weeks ended June 26, 2016 as compared to a decrease in net operating assets for the twenty-six weeks ended June 28, 2015. The impact of net income and net operating assets on cash provided by operating activities was partially offset by increased net noncash expenses for the twenty-six weeks ended June 26, 2016 as compared to the twenty six weeks ended June 28, 2015. Trade accounts and other receivables, including accounts receivable from related parties, decreased \$6.6 million, or 1.9%, to \$345.1 million at June 26, 2016 from \$351.7 million at December 27, 2015. The change resulted primarily from a decrease in sales generated in the two weeks ended June 26, 2016 as compared to sales generated in the two weeks ended December 27, 2015. Trade accounts and other receivables, including accounts receivable from related parties, decreased \$35.0 million, or 9.1%, to \$349.1 million at June 28, 2015 from \$384.1 million at December 28, 2014. The change resulted primarily from a decrease in sales generated in the two weeks ended June 28, 2015 as compared to sales generated in the two weeks ended December 28, 2014.

Inventories increased \$31.2 million, or 3.9%, to \$832.6 million at June 26, 2016 from \$801.4 million at December 27, 2015. This change resulted primarily from increased costs for feed grains and their impact on the value of our live chicken inventories. Inventories decreased \$3.2 million, or 0.4%, to \$787.1 million at June 28, 2015 from \$790.3 million at December 28, 2014. This change resulted primarily from decreased costs for feed grains and their impact on the value of our live chicken inventories.

Prepaid expenses and other current assets increased \$19.8 million, or 26.2%, to \$95.4 million at June 26, 2016 from \$75.6 million at December 27, 2015. This change resulted primarily from a \$23.2 million increase in open derivative positions and a \$2.5 million increase in value-added tax receivables partially offset by a \$7.8 million decrease in prepaid insurance premiums. Prepaid expenses and other current assets decreased \$7.2 million, or 7.6%, to \$88.2 million at June 28, 2015 from \$95.4 million at December 28, 2014. This change resulted primarily from a \$7.6 million decrease in open derivative positions and margin cash on deposit with our derivatives traders.

Accounts payable, including accounts payable to related parties, decreased \$19.1 million, or 3.9%, to \$470.8 million at June 26, 2016 from \$490.0 million at December 27, 2015. This change resulted primarily from an \$16.2 million decrease in trade payables and a \$2.9 million decrease in the payable to related parties. Accounts payable, including accounts payable to related parties, increased \$69.2 million, or 17.1%, to \$473.5 million at June 28, 2015 from \$404.3 million at December 28, 2014. This change resulted primarily from a shift in our supply chain finance structure.

Accrued expenses and other current liabilities of \$314.9 million at June 26, 2016 were relatively unchanged from accrued expenses and other current liabilities of \$315.0 million at December 27, 2015. Accrued expenses and other current liabilities decreased \$15.2 million, or 4.9%, to \$296.7 million at June 28, 2015 from \$311.9 million at December 28, 2014. This change resulted primarily from a \$22.6 million decrease in accrued compensation and benefits costs, and a \$1.5 million decrease in derivative liabilities that was partially offset by an \$ 8.9 million increase in accrued interest.

Income taxes, which includes income taxes receivable, income taxes payable, deferred tax assets, deferred tax liabilities reserves for uncertain tax positions, and the tax components within accumulated other comprehensive income (loss), increased by \$26.7 million, or 33.7%, to a net liability position of \$105.9 million at June 26, 2016 from a net liability position of

36

\$79.2 million at December 27, 2015. This change resulted primarily from tax expense recorded on our year-to-date income and the timing of estimated tax payments. Income taxes changed from a net liability position of \$84.3 million at December 28, 2014 to a net liability position of \$47.8 million at June 28, 2015. This change resulted primarily from tax expense recorded on our year-to-date income and timing of estimated tax payments.

Net noncash expenses totaled \$83.1 million and \$75.0 million for the twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively. Net noncash expenses for the twenty-six weeks ended June 26, 2016 included depreciation and amortization expense of \$88.7 million, a net gain on property disposals of \$6.8 million and other net noncash expenses totaling \$1.2 million. Net noncash expenses for the twenty-six weeks ended June 28, 2015 included depreciation and amortization expense of \$75.1 million and other net noncash income totaling \$0.1 million.

Cash used in investing activities was \$85.9 million and \$85.6 million for the twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively. Capital expenditures totaled \$94.0 million and \$87.7 million in the twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively. Capital expenditures increased by \$6.3 million primarily because of the number of projects that were active during the twenty-six weeks ended June 26, 2016 as compared to the twenty-six weeks ended June 28, 2015. Capital expenditures for 2016 cannot exceed \$500.0 million under the U.S. Credit Facility. Cash proceeds from property disposals in the twenty-six weeks ended June 26, 2016 and June 28, 2015 were \$8.1 million and \$2.1 million, respectively.

Cash used in financing activities was \$601.7 million and \$504.5 million in the twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively. During the twenty-six weeks ended June 26, 2016, cash of \$699.9 million was used to fund a special cash dividend, cash of \$219.8 million was used for payments on our revolving lines of credit and capital lease obligations, cash of \$65.6 million was used for payments on a current note payable to bank, cash of \$7.3 million was used to purchase common stock under the share repurchase program and cash of \$0.7 million was used to pay capitalized loan costs. During the twenty-six weeks ended June 26, 2016, cash of \$351.1 million was provided through our revolving lines of credit and cash of \$36.8 million was provided through a current note payable to bank. During the twenty-six weeks ended June 28, 2015, cash of \$1.5 billion was used to fund special cash dividends, cash of \$683.7 million was used to repay revolving line of credit obligations, long-term borrowings and capital lease obligations, and cash of \$10.1 million was used to pay capitalized loan costs. During the twenty-six weeks ended June 28, 2015, cash of \$1.7 billion was provided from borrowings under our revolving line of credit and long-term borrowings and cash of \$7.8 million was provided through a tax benefit related to share-based compensation.

Contractual Obligations

Contractual obligations at June 26, 2016 were as follows:

Contractual Obligations ^(a)	Total	Less than One Year	One to Three Years	Three to Five Years	Greater than Five Years
	(In thousands)				
Long-term debt ^(b)	\$1,131,319	\$—	\$ 79,248	\$552,071	\$ 500,000
Interest ^(c)	299,991	21,502	80,381	68,733	129,375
Capital leases	500	61	244	195	—
Operating leases	97,127	14,135	41,695	26,709	14,588
Derivative liabilities	20,038	20,038	—	—	—
Purchase obligations ^(d)	270,051	269,351	700	—	—
Total	\$1,819,026	\$325,087	\$ 202,268	\$647,708	\$ 643,963

The total amount of unrecognized tax benefits at June 26, 2016 was \$16.8 million. We did not include this amount (a) in the contractual obligations table above as reasonable estimates cannot be made at this time of the amounts or timing of future cash outflows.

(b) Long-term debt is presented at face value and excludes \$42.7 million in letters of credit outstanding related to normal business transactions.

(c) Interest expense in the table above assumes the continuation of interest rates and outstanding borrowings as of June 26, 2016.

(d) Includes agreements to purchase goods or services that are enforceable and legally binding on us and that specify all significant terms, including fixed or minimum quantities to be purchased; fixed, minimum, or variable price

provisions; and the approximate timing of the transaction.

We expect cash flows from operations, combined with availability under the U.S. Credit Facility, to provide sufficient liquidity to fund current obligations, projected working capital requirements, maturities of long-term debt and capital spending for at least the next twelve months.

Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued new accounting guidance on revenue recognition, which provides for a single five-step model to be applied to all revenue contracts with customers.

In July 2015, the FASB issued new accounting guidance on the subsequent measurement of inventory, which, in an effort to simplify unnecessarily complicated accounting guidance that can result in several potential outcomes, requires an entity to measure inventory at the lower of cost or net realizable value.

In February 2016, the FASB issued new accounting guidance on lease arrangements, which requires an entity that is a lessee to recognize the assets and liabilities arising from leases on the balance sheet.

In March 2016, the FASB issued new accounting guidance on employee share-based payments, which requires an entity to amend accounting and reporting methodology for areas such as the income tax consequences of share-based payments, classification of share-based awards as either equity or liabilities, and classification of share-based payment transactions in the statement of cash flows.

In June 2016, the FASB issued new accounting guidance on the measurement of credit losses on financial instruments, which replaces the current incurred loss impairment methodology with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates.

See “Note 1. Description of Business and Basis of Presentation” of our Condensed Consolidated Financial Statements included in this quarterly report for additional information relating to these new accounting pronouncements.

Critical Accounting Policies

During the thirteen weeks ended June 26, 2016, (i) we did not change any of our existing critical accounting policies, (ii) no existing accounting policies became critical accounting policies because of an increase in the materiality of associated transactions or changes in the circumstances to which associated judgments and estimates relate and (iii) there were no significant changes in the manner in which critical accounting policies were applied or in which related judgments and estimates were developed.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

Market Risk-Sensitive Instruments and Positions

The risk inherent in our market risk-sensitive instruments and positions is primarily the potential loss arising from adverse changes in commodity prices, foreign currency exchange rates, interest rates and the credit quality of investments as discussed below. The sensitivity analyses presented do not consider the effects that such adverse changes may have on overall economic activity, nor do they consider additional actions our management may take to mitigate our exposure to such changes. Actual results may differ.

Commodity Prices

We purchase certain commodities, primarily corn, soybean meal and sorghum, for use as ingredients in the feed we either sell commercially or consume in our live operations. As a result, our earnings are affected by changes in the price and availability of such feed ingredients. In the past, we have from time to time attempted to minimize our exposure to the changing price and availability of such feed ingredients using various techniques, including, but not limited to, (i) executing purchase agreements with suppliers for future physical delivery of feed ingredients at established prices and (ii) purchasing or selling derivative financial instruments such as futures and options.

For this sensitivity analysis, market risk is estimated as a hypothetical 10.0% change in the weighted-average cost of our

primary feed ingredients as of June 26, 2016. However, fluctuations greater than 10.0% could occur. Based on our feed consumption during the thirteen weeks ended June 26, 2016, such a change would have resulted in a change to cost of sales of approximately \$61.7 million, excluding the impact of any feed ingredients derivative financial instruments in that period. A 10.0% change in ending feed ingredient inventories at June 26, 2016 would be \$11.5 million, excluding any potential impact on the production costs of our chicken inventories.

The Company purchases commodity derivative financial instruments, specifically exchange-traded futures and options, in an attempt to mitigate price risk related to its anticipated consumption of commodity inputs for the next 12 months. A 10.0% change in corn, soybean meal and soybean oil prices on June 26, 2016 would have resulted in a change of approximately \$0.3 million in the fair value of our net commodity derivative asset position, including margin cash, as of that date.

Interest Rates

Our variable-rate debt instruments represent approximately 55.7% of our total debt at June 26, 2016. Holding other variables constant, including levels of indebtedness, an increase in interest rates of 25 basis points would have increased our interest expense by \$0.4 million for the thirteen weeks ended June 26, 2016.

Market risk for fixed-rate debt is estimated as the potential increase in fair value resulting from a hypothetical decrease in interest rates of 10.0%. Using a discounted cash flow analysis, a hypothetical 10.0% decrease in interest rates would have decreased the fair value of our fixed-rate debt by approximately \$8.6 million as of June 26, 2016.

Foreign Currency

Our earnings are also affected by foreign exchange rate fluctuations related to the Mexican peso net monetary position of our Mexico subsidiaries. We manage this exposure primarily by attempting to minimize our Mexican peso net monetary position. We are also exposed to the effect of potential currency exchange rate fluctuations to the extent that amounts are repatriated from Mexico to the U.S. We currently anticipate that the future cash flows of our Mexico subsidiaries will be reinvested in our Mexico operations.

The Mexican peso exchange rate can directly and indirectly impact our financial condition and results of operations in several ways, including potential economic recession in Mexico because of devaluation of their currency. Foreign currency exchange gains, representing the change in the U.S. dollar value of the net monetary assets of our Mexican subsidiaries denominated in Mexican pesos, were a gain of \$4.7 million and a loss of \$2.1 million in the thirteen weeks ended June 26, 2016 and June 28, 2015, respectively. Foreign currency exchange gains, representing the change in the U.S. dollar value of the net monetary assets of our Mexican subsidiaries denominated in Mexican pesos, were a gain of \$5.0 million and a loss of \$11.0 million in the twenty-six weeks ended June 26, 2016 and June 28, 2015, respectively. The average exchange rates for the thirteen weeks ended June 26, 2016 and June 28, 2015 were 18.04 Mexican pesos to 1 U.S. dollar and 15.32 Mexican pesos to 1 U.S. dollar, respectively. For this sensitivity analysis, market risk is estimated as a hypothetical 10.0% deterioration in the current exchange rate used to convert Mexican pesos to U.S. dollars as of June 26, 2016 and June 28, 2015. However, fluctuations greater than 10.0% could occur. Based on the net monetary asset position of our Mexico operations at June 26, 2016, such a change would have resulted in a decrease in foreign currency transaction gains recognized in the thirteen weeks ended June 26, 2016 of approximately \$1.2 million. Based on the net monetary asset position of our Mexico operations at June 28, 2015, such a change would have resulted in an increase in foreign currency transaction losses recognized in the thirteen weeks ended June 28, 2015 of approximately \$38.0 million. No assurance can be given as to how future movements in the Mexican peso could affect our future financial condition or results of operations.

Quality of Investments

Certain retirement plans that we sponsor invest in a variety of financial instruments. We have analyzed our portfolios of investments and, to the best of our knowledge, none of our investments, including money market funds units, commercial paper and municipal securities, have been downgraded, and neither we nor any fund in which we participate hold significant amounts of structured investment vehicles, auction rate securities, collateralized debt obligations, credit derivatives, hedge funds investments, fund of funds investments or perpetual preferred securities. Certain postretirement funds in which we participate hold significant amounts of mortgage-backed securities. However, none of the mortgages collateralizing these securities are considered subprime.

Impact of Inflation

Due to low to moderate inflation in the U.S. and Mexico and our rapid inventory turnover rate, the results of operations have not been significantly affected by inflation during the past three-year period.

Forward Looking Statements

Certain written and oral statements made by our Company and subsidiaries of our Company may constitute “forward-looking statements” as defined under the Private Securities Litigation Reform Act of 1995. This includes statements made herein, in our other filings with the SEC, in press releases, and in certain other oral and written presentations. Statements of our intentions, beliefs, expectations or predictions for the future, denoted by the words “anticipate,” “believe,” “estimate,” “expect,” “project,” “plan,” “imply,” “intend,” “should,” “foresee” and similar expressions, forward-looking statements that reflect our current views about future events and are subject to risks, uncertainties and assumptions. Such risks, uncertainties and assumptions include the following:

-

Matters affecting the chicken industry generally, including fluctuations in the commodity prices of feed ingredients and chicken;

39

- Our ability to obtain and maintain commercially reasonable terms with vendors and service providers;
- Our ability to maintain contracts that are critical to our operations;
- Our ability to retain management and other key individuals;
- Outbreaks of avian influenza or other diseases, either in our own flocks or elsewhere, affecting our ability to conduct our operations and/or demand for our poultry products;
- Contamination of our products, which has previously and can in the future lead to product liability claims and product recalls;
- Exposure to risks related to product liability, product recalls, property damage and injuries to persons, for which insurance coverage is expensive, limited and potentially inadequate;
- Changes in laws or regulations affecting our operations or the application thereof;
- New immigration legislation or increased enforcement efforts in connection with existing immigration legislation that cause our costs of business to increase, cause us to change the way in which we do business or otherwise disrupt our operations;
- Competitive factors and pricing pressures or the loss of one or more of our largest customers;
- Inability to consummate, or effectively integrate, any acquisition, including the acquisition of Tyson Mexico, or to realize the associated anticipated cost savings and operating synergies;
- Currency exchange rate fluctuations, trade barriers, exchange controls, expropriation and other risks associated with foreign operations;
- Disruptions in international markets and distribution channels;
- Our ability to maintain favorable labor relations with our employees and our compliance with labor laws;
- Extreme weather or natural disasters;
- The impact of uncertainties in litigation; and
- Other risks described herein and under “Risk Factors” in our annual report on Form 10-K for the year ended December 27, 2015 as filed with the SEC.

Actual results could differ materially from those projected in these forward-looking statements as a result of these factors, among others, many of which are beyond our control.

In making these statements, we are not undertaking, and specifically decline to undertake, any obligation to address or update each or any factor in future filings or communications regarding our business or results, and we are not undertaking to address how any of these factors may have caused changes to information contained in previous filings or communications. Although we have attempted to list comprehensively these important cautionary risk factors, we must caution investors and others that other factors may in the future prove to be important and affect our business or results of operations.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934 (the “Exchange Act”), “disclosure controls and procedures” means controls and other procedures that are designed to ensure that information required to be disclosed by the Company in the reports that it files with the U.S. Securities and Exchange Commission (“SEC”) is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms.

Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by our company in the reports that it files with the SEC is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

As of June 26, 2016, an evaluation was performed under the supervision and with the participation of the Company’s management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company’s disclosure controls and procedures. Based on that evaluation, the Company’s management, including the Chief

Executive Officer and Chief Financial Officer, concluded the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and that information we are required to disclose in our reports filed with the SEC is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

In connection with the evaluation described above, the Company's management, including the Chief Executive Officer and Chief Financial Officer, identified no change in the Company's internal control over financial reporting that occurred during the thirteen weeks ended June 26, 2016 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Tax Claims and Proceedings

In 2009, the IRS asserted claims against us totaling \$74.7 million. Following a series of objections, motions and opposition filed by both parties in the federal court system, we worked with the IRS through the normal processes and procedures that are available to resolve the IRS' claims. On December 12, 2012, we entered into two Stipulation of Settled Issues agreements with the IRS. The first Stipulation related to our 2003, 2005, and 2007 tax years and resolved all of the material issues in the case. The second Stipulation related to us as the successor in interest to Gold Kist for the tax years ended June 30, 2005 and September 30, 2005, and resolved all substantive issues in the case. These Stipulations accounted for approximately \$29.3 million of the claims and should result in no additional tax due.

In connection with the remaining \$45.4 million claimed by the IRS, we filed a petition in Tax Court on May 26, 2010 in response to a Notice of Deficiency that was issued to us as the successor in interest to Gold Kist. The Notice of Deficiency and the Tax Court proceeding related to an ordinary loss that Gold Kist claimed for its tax year ended June 26, 2004. On December 11, 2013, the Tax Court issued its opinion in the Tax Court case holding the loss that Gold Kist claimed for its tax year ended June 26, 2004 was capital in nature. On April 14, 2014, we appealed the Tax Court's findings of fact and conclusions of law to the Fifth Circuit. On February 25, 2015, the Fifth Circuit issued its opinion, which reversed the Tax Court's judgment and rendered judgment in our favor. The IRS did not appeal the Fifth Circuit's decision, which has become final, and no additional tax should be due in connection with this matter.

ERISA Claims and Proceedings

On December 17, 2008, Kenneth Patterson filed suit in the Marshall Court against Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, Clifford E. Butler, J. Clinton Rivers, Richard A. Cogdill, Renee N. DeBar, our Compensation Committee and other unnamed defendants (the "Patterson action"). On January 2, 2009, a nearly identical suit was filed by Denise M. Smalls in the same court against the same defendants (the "Smalls action"). The complaints in both actions, brought pursuant to section 502 of the Employee Retirement Income Security Act of 1974 ("ERISA"), 29 U.S.C. §1132, alleged that the individual defendants breached fiduciary duties to participants and beneficiaries of the Pilgrim's Pride Stock Investment Plan (the "Stock Plan"), as administered through the Pilgrim's Pride Retirement Savings Plan (the "RSP"), and the To-Ricos, Inc. Employee Savings and Retirement Plan (the "To-Ricos Plan") (collectively, the "Plans") by failing to sell the common stock held by the Plans before it declined in value in late 2008. Patterson and Smalls further alleged that they purported to represent a class of all persons or entities who were participants in or beneficiaries of the Plans at any time between May 5, 2008 through the present and whose accounts held our common stock or units in our common stock. Both complaints sought actual damages in the amount of any losses the Plans suffered, to be allocated among the participants' individual accounts as benefits due in proportion to the accounts' diminution in value, attorneys' fees, an order for equitable restitution and the imposition of constructive trust, and a declaration that each of the defendants have breached their fiduciary duties to the Plans' participants.

On July 20, 2009, the Marshall Court entered an order consolidating the Smalls and Patterson actions. On August 12, 2009, the Marshall Court ordered that the consolidated case will proceed under the caption "In re Pilgrim's Pride Stock Investment Plan ERISA Litigation, No. 2:08-cv-472-TJW."

Patterson and Smalls filed a consolidated amended complaint ("Amended Complaint") on March 2, 2010. The Amended Complaint names as defendants the Pilgrim's Pride Board of Directors, Lonnie "Bo" Pilgrim, Lonnie Ken Pilgrim, Charles L. Black, Linda Chavez, S. Key Coker, Keith W. Hughes, Blake D. Lovette, Vance C. Miller, James G. Vetter, Jr., Donald L. Wass, J. Clinton Rivers, Richard A. Cogdill, the Pilgrim's Pride Pension Committee, Robert A. Wright, Jane Brookshire, Renee N. DeBar, the Pilgrim's Pride Administrative Committee, Gerry Evenwel, Stacey Evans, Evelyn Boyden, and "John Does 1-10." The Amended Complaint purports to assert claims on behalf of persons who were participants in or beneficiaries of the RSP or the To-Ricos Plan at any time between January 29, 2008 through December 1, 2008 ("the alleged class period"), and whose accounts included investments in the Company's common stock.

Like the original Patterson and Smalls complaints, the Amended Complaint alleges that the defendants breached ERISA fiduciary duties to participants and beneficiaries of the RSP and To-Ricos Plan by permitting both Plans to

continue investing in the Company's common stock during the alleged class period. The Amended Complaint also alleges that certain defendants were "appointing" fiduciaries who failed to monitor the performance of the defendant-fiduciaries they appointed. Further, the Amended Complaint alleges that all defendants are liable as co-fiduciaries for one another's alleged breaches. Plaintiffs seek actual damages in the amount of any losses the RSP and To-Ricos Plan attributable to the decline in the value of the common stock held by the Plans, to be allocated among the participants' individual accounts as benefits due in proportion to the accounts' alleged diminution

Table of Contents

in value, costs and attorneys' fees, an order for equitable restitution and the imposition of constructive trust, and a declaration that each of the defendants have breached their ERISA fiduciary duties to the RSP and To-Ricos Plan's participants.

The Defendants filed a motion to dismiss the Amended Complaint on May 3, 2010. On August 29, 2012, the Magistrate judge issued a Report and Recommendation to deny the Defendants' motion to dismiss the complaint on grounds that the complaint included too many exhibits. Defendants filed objections with the Marshall Court, and on October 29, 2012, the Marshall Court adopted the Recommendation of the Magistrate Judge and entered an order denying Defendants' motion to dismiss. On November 11, 2012, Plaintiffs filed a motion for class certification. The motion is fully briefed and was argued to the Marshall Court on February 28, 2013. The parties are awaiting a decision on the motion.

Other Claims and Proceedings

We are subject to various other legal proceedings and claims, which arise in the ordinary course of our business. In the opinion of management, the amount of ultimate liability with respect to these actions will not materially affect our financial condition, results of operations or cash flows.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this quarterly report, you should carefully consider the risks discussed in our annual report on Form 10-K for the year ended December 27, 2015, including under the heading "Item 1A. Risk Factors", which, along with risks disclosed in this report, are risks we believe could materially affect the Company's business, financial condition or future results. These risks are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that it currently deems to be immaterial also may materially adversely affect the Company's business, financial condition or future results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On July 28, 2015, our Board of Directors approved a \$150.0 million share repurchase authorization. We plan to repurchase shares through various means, which may include but are not limited to open market purchases, privately negotiated transactions, the use of derivative instruments and/or accelerated share repurchase programs. The share repurchase program was originally scheduled to expire on July 27, 2016. On February 10, 2016, the Company's Board of Directors approved an increase of the share repurchase authorization to \$300.0 million and an extension of the expiration to February 9, 2017. The extent to which we repurchase our shares and the timing of such repurchases will vary and depend upon market conditions and other corporate considerations, as determined by our management team. We reserve the right to limit or terminate the repurchase program at any time without notice. As of June 26, 2016, we had repurchased 5,170,458 shares under this program with a market value of approximately \$106.6 million. Set forth below is information regarding our stock repurchases for the thirteen weeks ended June 26, 2016.

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of the Shares of the Shares That May Yet Be Purchased Under the Plans or Programs
March 28, 2016 through April 24, 2016	78,418	\$ 23.92	78,418	\$ 196,234,248
April 25, 2016 through May 29, 2016	117,600	23.77	117,600	193,438,871
May 30, 2016 through June 26, 2016	—	—	—	193,438,871
Total	196,018	\$ 23.83	196,018	\$ 193,438,871
