PARK NATIONAL CORPORATION
NOTES TO UNAUDITED CONSOLIDATED CONDENSED FINANCIAL STATEMENTS

Note 1 – Basis of Presentation

The accompanying unaudited consolidated condensed financial statements included in this report have been prepared for Park National Corporation (sometimes also referred to as the “Registrant”) and its subsidiaries. Unless the context otherwise requires, references to “Park”, the “Corporation” or the “Company” and similar terms mean Park National Corporation and its subsidiaries. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation of the results of operations for the interim periods included herein have been made. The results of operations for the three-month and nine-month periods ended September 30, 2018 are not necessarily indicative of the operating results to be anticipated for the fiscal year ending December 31, 2018.

The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with the instructions for Form 10-Q and, therefore, do not include all information and footnotes necessary for a fair presentation of the condensed balance sheets, condensed statements of income, condensed statements of comprehensive income, condensed statements of changes in shareholders’ equity and condensed statements of cash flows in conformity with United States (“U.S.”) generally accepted accounting principles (“U.S. GAAP”). These financial statements should be read in conjunction with the consolidated financial statements incorporated by reference in the Annual Report on Form 10-K of Park for the fiscal year ended December 31, 2017 from Park’s 2017 Annual Report to Shareholders (“Park’s 2017 Annual Report”). Prior period financial statements reflect the retrospective application of Accounting Standards Update (“ASU”) 2017-07 - Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This change in classification had no effect on reported net income.

Park’s significant accounting policies are described in Note 1 of the Notes to Consolidated Financial Statements included in Park’s 2017 Annual Report. For interim reporting purposes, Park follows the same basic accounting policies, as updated by the information contained in this report, and considers each interim period an integral part of an annual period.

Note 2 - Adoption of New Accounting Pronouncements and Issued But Not Yet Effective Accounting Standards

The following is a summary of new accounting pronouncements impacting Park's consolidated financial statements, and issued but not yet effective accounting standards:

Adoption of New Accounting Pronouncements

ASU 2014-09 - Revenue from Contracts with Customers (Topic 606): In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). This ASU creates a new topic, Topic 606, to provide guidance on revenue recognition for entities that enter into contracts with customers to transfer goods or services or enter into contracts for the transfer of nonfinancial assets. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Additional disclosures are required to provide quantitative and qualitative information regarding the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. The majority of the Company's revenues come from interest income and other sources, including loans, leases, securities and derivatives, that are outside the scope of ASC 606. Certain services that

fall within the scope of ASC 606 are presented within Other Income and are recognized as revenue as the Company satisfies its obligation to the customer. Services within the scope of ASC 606 include income from fiduciary activities, service charges on deposit accounts, other service income, checkcard fee income, ATM fees, and gain (loss) on sale of OREO, net. The adoption of this guidance on January 1, 2018 did not have a material impact on Park's consolidated financial statements. However, the adoption of this standard resulted in additional disclosures beginning with the first quarter 2018 Form 10-Q. Reference Note 20 - Revenue from Contracts with Customers, for further discussion on the Company's accounting policies for revenue sources within the scope of ASC 606.

ASU 2016-01 - Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. In January 2016, the FASB issued ASU 2016-01 - Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. Changes reflected in the current U.S. GAAP model primarily affect the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. In addition, this ASU clarifies guidance related to the

Table of Contents

valuation allowance assessment when recognizing deferred tax assets resulting from unrealized losses on available-for-sale ("AFS") securities. The new guidance is effective for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2017. The adoption of this guidance on January 1, 2018 resulted in an \$1.9 million increase to beginning retained earnings and a \$995,000 increase to beginning accumulated other comprehensive loss. Additional income of \$3.2 million, \$1.3 million and \$89,000 was recorded in the first, second and third quarters of 2018, respectively, as a result of changes to the accounting for equity investments. Further, beginning with the first quarter of 2018, Park's fair value disclosures in Note 16 - Fair Value, have incorporated the revised disclosure requirements for financial investments.

ASU 2016-15 - Statement of Cash Flows (Topic 203): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force): In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 203): Classification of Certain Cash Receipts and Cash Payments (a consensus of the Emerging Issues Task Force). This ASU provides guidance on eight specific cash flow issues where then current GAAP was either unclear or did not include specific guidance. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. The adoption of this guidance on January 1, 2018 did not have an impact on Park's consolidated financial statements. As such transactions arise, management will utilize the updated guidance in providing disclosures within Park's consolidated condensed statements of cash flows.

ASU 2017-07 - Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost: In March 2017, the FASB issued ASU 2017-07 - Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This ASU requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. As a result of the adoption of this guidance on January 1, 2018, all prior periods have been recast to separately record the service cost component and other components of net benefit cost. For all periods presented, this resulted in an increase in other income and an offsetting increase in other expense with no change to net income. See Note 14 - Benefit Plans, for further details.

ASU 2017-09 - Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting: In May 2017, the FASB issued ASU 2017-09 - Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting. This ASU amends the guidance concerning which changes to the terms or conditions of a share-based payment award require an entity to apply modification accounting under Topic 718. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2017. The adoption of this guidance on January 1, 2018 did not impact Park's consolidated financial statements.

ASU 2017-12 - Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities: In August 2017, the FASB issued ASU 2017-12 - Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities. This ASU amends the current guidance with the objective of improving the financial reporting of hedging relationships to better portray the economic results of an entity's risk management activities in its financial statements. In addition, this ASU amends the current guidance to simplify the application of the hedge accounting guidance. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted for interim or annual periods. The early adoption of this guidance on July 1, 2018 did not have an impact on Park's consolidated financial statements. Park will apply this guidance to future transactions.

ASU 2018-02 - Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income: In February 2018, the FASB issued ASU 2018-02 - Income Statement - Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income. This ASU allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects, resulting from the federal corporate income tax rate enacted under the Tax Cuts and Jobs Act. The amount of the reclassification is the difference between the historical federal corporate income tax rate and the newly-enacted 21% federal corporate income tax rate. The guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted for interim or annual periods. The early adoption of this guidance effective January 1, 2018 resulted in a \$3.8 million increase to Park's accumulated other comprehensive loss and a \$3.8 million increase to retained earnings.

ASU 2018-03 - Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. In February 2018, the FASB issued ASU 2018-03 - Technical Corrections and Improvements to Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. This ASU includes amendments that clarify certain aspects of the guidance issued in ASU 2016-01. Park considered this clarification in determining the appropriate adoption of ASU 2016-01 effective as of January 1, 2018.

Issued But Not Yet Effective Accounting Standards

ASU 2016-02 - Leases (Topic 842): In February 2016, the FASB issued ASU 2016-02 - Leases (Topic 842). This ASU will require all organizations that lease assets to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases. Additional qualitative and quantitative disclosures will be required so that users can understand more about the nature of an entity's leasing activities. The new guidance is effective for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted. Management is currently analyzing data on leased assets and is in the process of implementing a software solution to assist in the adoption of this ASU. The adoption of this guidance is expected to increase both assets and liabilities, but is not expected to have a material impact on Park's consolidated statement of income.

ASU 2016-13 - Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments: In June 2016, FASB issued ASU 2016-13 - Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The new guidance replaces the incurred loss model with an expected loss model, which is referred to as the current expected credit loss ("CECL") model. The CECL model is applicable to the measurement of credit losses on financial assets measured at amortized cost, including loan receivables, held-to-maturity ("HTM") debt securities, and reinsurance receivables. It also applies to off-balance sheet credit exposures not accounted for as insurance (loan commitments, standby letters of credit, financial guarantees, and other similar instruments) and net investments in leases recognized by a lessor. The CECL model requires an entity to estimate credit losses over the life of an asset or off-balance sheet exposure. The new guidance is effective for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2019. Early adoption is permitted for annual reporting periods and interim reporting periods within those annual periods, beginning after December 15, 2018.

Management is currently evaluating the impact of the adoption of this guidance on Park's consolidated financial statements. We anticipate that the adoption of the CECL model will result in a material increase to Park's allowance for loan losses. Management has established a committee to oversee the implementation of the CECL model and is currently in the process of implementing a software solution to assist in the adoption of this ASU. Management plans to run our current allowance model and a CECL model concurrently for 12 months prior to the adoption of this guidance on January 1, 2020.

ASU 2017-08 - Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities: In March 2017, the FASB issued ASU 2017-08 - Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities. This ASU amends the amortization period for certain purchased callable debt securities held at a premium. It shortens the amortization period for the premium to the earliest call date. Under current U.S. GAAP, premiums on callable debt securities generally are amortized to the maturity date. The new guidance is effective for annual reporting periods, and interim reporting periods within those annual periods, beginning after December 15, 2018. Early adoption is permitted for interim or annual periods. The adoption of this guidance is not expected to have a material impact on Park's consolidated financial statements.

ASU 2018-10 - Codification Improvements to Topic 842, Leases: In July 2018, the FASB issued ASU 2018-10 - Codification Improvements to Topic 842, Leases. This ASU includes amendments that clarify certain aspects of the guidance issued in ASU 2016-02. Park will consider this clarification in determining the appropriate adoption of ASU 2016-02, effective for annual and interim reporting periods within those annual periods, beginning after December 15, 2018.

ASU 2018-11 - Leases (Topic 842): Targeted Improvements: In July 2018, the FASB issued ASU 2018-11 - Leases (Topic 842): Targeted Improvements. This ASU amends the guidance in ASU 2016-02 which is not yet effective. The amendments in the ASU provide entities with an additional (and optional) transition method to adopt the new leases standard. Under this new transition method, an entity initially applies the new leases standard at the adoption date and recognizes a cumulative-effect adjustment to the opening balance of retained earnings for the period of adoption. Additionally, this amendment provides lessors with a practical expedient, by class of asset, to not separate nonlease components from the associated lease component and, instead, to account for those components as a single component if certain criteria are met. Park will consider this clarification in determining the appropriate adoption of ASU 2016-02, effective for annual and interim reporting periods within those annual periods, beginning after December 15, 2018.

ASU 2018-13 - Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement: In August 2018, the FASB issued ASU 2018-13 - Fair Value Measurement (Topic 820): Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement. This ASU modifies the disclosure requirements on fair value measurements in Topic 820, Fair Value Measurement by removing, modifying and adding certain requirements. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted upon issuance of this ASU. An entity is permitted to early adopt and remove or modify disclosures upon issuance of the ASU and delay adoption of the additional disclosures until their effective date. The adoption of this guidance will not have an impact on Park's consolidated financial statements, but will impact disclosures.

ASU 2018-14 - Compensation - Retirement Benefits - Defined Benefit Plans - General (Subtopic 715-20): Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans: In August 2018, the FASB issued ASU 2018-14 - Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans. This amendments in this ASU modify the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans by removing disclosures that are no longer considered cost beneficial, clarifying the specific requirements of disclosures and adding disclosure requirements identified as relevant. The amendments in this ASU are effective for fiscal years ending after December 15, 2020. Early adoption is permitted. The adoption of this guidance will not have an impact on Park's consolidated financial statements, but will impact disclosures.

Note 3 - Business Combinations

On July 1, 2018, NewDominion Bank, a North Carolina state-chartered bank ("NewDominion"), merged with and into The Park National Bank, the national bank subsidiary of Park ("PNB"), with PNB continuing as the surviving entity pursuant to the Agreement and Plan of Merger and Reorganization (the "Merger Agreement"), dated as of January 22, 2018, by and among Park, PNB, and NewDominion. In accordance with the Merger Agreement, NewDominion shareholders were permitted to make an election to receive for their shares of NewDominion common stock either \$1.08 in cash without interest (the cash consideration) or 0.01023 of a Park common share, plus cash in lieu of any fractional Park common share (the stock consideration). Based on the terms of the Merger Agreement, the aggregate consideration to be paid in the merger was subject to proration and allocation procedures to ensure that 60 percent of the shares of NewDominion common stock outstanding immediately prior to the completion of the merger were exchanged for the stock consideration and that the remaining 40 percent of the shares of NewDominion common stock outstanding immediately prior to the completion of the merger were to be exchanged for the cash consideration, including, in each case, shares of NewDominion common stock subject to NewDominion options and restricted stock awards.

Purchase consideration consisted of 435,457 Park common shares, valued at \$48.5 million, and \$30.7 million in cash to acquire 91.45% of NewDominion outstanding common shares. The remaining 8.55% of NewDominion's outstanding common shares were previously held by Park. Park recognized a gain of \$3.5 million as a result of remeasuring to fair value its 8.55% equity interest in NewDominion held before the business combination. The gain is included in "(Loss) gain on equity securities, net" in the consolidated condensed statements of income. The acquisition is expected to provide additional revenue growth and geographic diversification.

NewDominion's results of operations were included in Park's results beginning July 1, 2018. For the nine months ended September 30, 2018, Park recorded merger-related expenses of \$3.6 million associated with the NewDominion acquisition. Of this \$3.6 million in expense, \$1.8 million is included within "Professional fees and services", \$1.6 million is included within "Salaries", \$78,000 is included within "Employee benefits", and \$197,000 is included within "Miscellaneous", in each case within "Other expense" on the consolidated condensed statements of income.

Goodwill of \$40.4 million arising from the acquisition consisted largely of synergies and the cost savings resulting from the combining of the operations of the PNB and NewDominion. The goodwill is not deductible for income tax purposes as the transaction was accounted for as a tax-free exchange.

Park accounted for the NewDominion acquisition using the acquisition method of accounting and accordingly, assets acquired, liabilities assumed and consideration exchanged were recorded at estimated fair value on the acquisition date, in accordance with FASB ASC Topic 805, Business Combinations. The fair value measurements of assets acquired and liabilities assumed are subject to refinement for up to one year after the closing date of the acquisition as additional information relative to closing date fair values becomes available. Park continues to finalize the fair values of loans, intangible assets, and deferred taxes. As a result, the fair value adjustments are preliminary and may change as information becomes available. Fair value adjustments will be finalized no later than July 2019.

The fair value of net assets acquired includes fair value adjustments to loans that were not considered impaired as of the acquisition date. The fair value adjustments were determined using discounted contractual cash flows. However, Park believes that all contractual cash flows related to these loans will be collected. As such, these loans were not considered impaired at the acquisition date and were not subject to the guidance relating to purchased credit impaired loans, which have shown evidence of credit deterioration since origination. Loans acquired that were not subject to these requirements included non-impaired loans with a fair value and gross contractual amounts receivable of \$267.9 million and \$272.9 million, respectively, on the date of acquisition.

* Included within each of commercial, financial and agricultural loans and commercial real estate loans is an immaterial amount of consumer loans that are not broken out by class.

Loans are shown net of deferred origination fees, costs and unearned income of \$12.4 million at September 30, 2018 and \$12.2 million at December 31, 2017, which represented a net deferred income position in both periods. At September 30, 2018, loans included a purchase accounting adjustment of \$5.1 million, which represented a net deferred income position. This fair market value adjustment is expected to be recognized into interest income on a level yield basis over the remaining expected life of the loans.

Overdrawn deposit accounts of \$1.1 million and \$1.9 million had been reclassified to loans at September 30, 2018 and December 31, 2017, respectively, and are included in the commercial, financial and agricultural loan class above.

All of the loans individually evaluated for impairment were evaluated using the fair value of the underlying collateral or the present value of expected future cash flows as the measurement method.

The following table presents loans individually evaluated for impairment by class of loan, together with the related allowance recorded, as of September 30, 2018 and December 31, 2017.

Management's general practice is to proactively charge down loans individually evaluated for impairment to the fair value of the underlying collateral. At September 30, 2018 and December 31, 2017, there were \$8.9 million and \$7.9 million, respectively, of partial charge-offs on loans individually evaluated for impairment with no related allowance recorded. At both September 30, 2018 and December 31, 2017, there were \$2.1 million of partial charge-offs on loans individually evaluated for impairment that also had a specific reserve allocated.

Table of Contents

The allowance for loan losses included specific reserves related to loans individually evaluated for impairment at September 30, 2018 and December 31, 2017 of \$1.8 million and \$0.7 million, respectively. These loans with specific reserves had a recorded investment of \$5.2 million and \$3.5 million as of September 30, 2018 and December 31, 2017, respectively.

Interest income on nonaccrual loans individually evaluated for impairment is recognized on a cash basis only when Park expects to receive the entire recorded investment of the loan. Interest income on accruing TDRs individually evaluated for impairment continues to be recorded on an accrual basis. The following table presents the average recorded investment and interest income recognized subsequent to impairment on loans individually evaluated for impairment as of and for the three and nine months ended September 30, 2018 and September 30, 2017:

Credit Quality Indicators

Management utilizes past due information as a credit quality indicator across the loan portfolio. Past due information as of September 30, 2018 and December 31, 2017 is included in the tables above. The past due information is the primary credit quality indicator within the following classes of loans: (1) mortgage loans and installment loans in the construction real estate segment; (2) mortgage loans, HELOC and installment loans in the residential real estate segment; and (3) consumer loans. The primary credit indicator for commercial loans is based on an internal grading system that grades commercial loans on a scale from 1 to 8. Credit grades are continuously monitored by the responsible loan officer and adjustments are made when appropriate. A grade of 1 indicates little or no credit risk and a grade of 8 is considered a loss. Commercial loans that are pass-rated (graded an 1 through a 4) are considered to be of acceptable credit risk. Commercial loans graded a 5 (special mention) are considered to be watch list credits and a higher loan loss reserve percentage is allocated to these loans. Loans classified as special mention have potential weaknesses that require management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of Park's credit position at some future date. Commercial loans graded a 6 (substandard), also considered to be watch list credits, are considered to represent higher credit risk and, as a result, a higher loan loss reserve percentage is allocated to these loans. Loans classified as substandard are inadequately protected by the current sound worth and paying capacity of the obligor or the value of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that Park will sustain some loss if the deficiencies are not corrected. Commercial loans that are graded a 7 (doubtful) are shown as nonaccrual and Park generally charges these loans down to their fair value by taking a partial charge-off or recording a specific reserve. Loans classified as doubtful have all the weaknesses inherent in those classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable. Certain 6-rated loans and all 7-rated loans are placed on nonaccrual status and included within the impaired category. A loan is deemed impaired when management determines the borrower's ability to perform in accordance with the contractual loan agreement is in doubt. Any commercial loan graded an 8 (loss) is completely charged off.

The tables below present the recorded investment by loan grade at September 30, 2018 and December 31, 2017 for all commercial loans:

Purchase Credit Impaired ("PCI") Loans

In conjunction with the NewDominion acquisition, Park acquired loans with a book value of \$277.9 million as of July 1, 2018. These loans were recorded at the preliminary fair value of \$272.8 million.

Loans acquired with deteriorated credit quality with a book value of \$5.1 million were recorded at the preliminary fair value of \$4.9 million. The carrying amount of loans acquired with deteriorated credit quality at September 30, 2018 was \$4.5 million, while the outstanding customer balance was \$4.7 million. At September 30, 2018, no allowance for loan losses had been recognized related to the acquired impaired loans.

The following table provides changes in accretable discount for loans acquired with deteriorated credit quality:

Troubled Debt Restructurings ("TDRs")

Management classifies loans as TDRs when a borrower is experiencing financial difficulties and Park has granted a concession to the borrower as part of a modification or in the loan renewal process. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of the borrower's debt in the foreseeable future without the modification. This evaluation is performed in accordance with the Company's internal underwriting policy. Management's policy is to modify loans by extending the term or by granting a temporary or permanent contractual interest rate below the market rate, not by forgiving debt. A court's discharge of a borrower's debt in a Chapter 7 bankruptcy is considered a concession when the

borrower does not reaffirm the discharged debt.

Certain loans which were modified during the three-month periods ended September 30, 2018 and September 30, 2017 did not meet the definition of a TDR as the modification was a delay in a payment that was considered to be insignificant. Management considers a forbearance period of up to three months or a delay in payment of up to 30 days to be insignificant. TDRs may be classified as accruing if the borrower has been current for a period of at least six months with respect to loan payments and management expects that the borrower will be able to continue to make payments in accordance with the terms of the restructured note. Management reviews all accruing TDRs quarterly to ensure payments continue to be made in accordance with the modified terms.

Table of Contents

Quarterly, management reviews renewals/modifications of loans previously identified as TDRs to consider if it is appropriate to remove the TDR classification. If the borrower is no longer experiencing financial difficulty and the renewal/modification did not contain a concessionary interest rate or other concessionary terms, management considers the potential removal of the TDR classification. If deemed appropriate, the TDR classification is removed if the borrower has complied with the terms of the loan at the date of the renewal/modification and there was a reasonable expectation that the borrower would continue to comply with the terms of the loan subsequent to the date of the renewal/modification. The majority of these TDRs were originally considered restructurings in a prior year as a result of a renewal/modification with an interest rate that was not commensurate with the risk of the underlying loan at the time of the renewal/modification. The TDR classification was removed on \$0.2 million of loans during the three-month period ended September 30, 2018 and on \$2.4 million of loans during the nine-month period ended September 30, 2018. There were no TDR classifications removed during the three-month or nine-month periods ended September 30, 2017.

At September 30, 2018 and December 31, 2017, there were \$25.2 million and \$38.5 million, respectively, of TDRs included in the nonaccrual loan totals. At September 30, 2018 and December 31, 2017, \$19.4 million and \$32.4 million, respectively, of these nonaccrual TDRs were performing in accordance with the terms of the restructured note. As of September 30, 2018 and December 31, 2017, loans with a recorded investment of \$14.7 million and \$20.2 million, respectively, were included in accruing TDR loan totals. Management will continue to review the restructured loans and may determine it is appropriate to move certain nonaccrual TDRs to accrual status in the future.

At September 30, 2018 and December 31, 2017, Park had commitments to lend \$0.2 million and \$1.3 million, respectively, of additional funds to borrowers whose outstanding loan terms had been modified in a TDR.

At September 30, 2018 and December 31, 2017, there were \$0.9 million and \$0.5 million of specific reserves related to TDRs. Modifications made in 2017 and 2018 were largely the result of renewals and extending the maturity date of the loans at terms consistent with the original notes. These modifications were deemed to be TDRs primarily due to Park's conclusion that the borrower would likely not have qualified for similar terms through another lender. Many of the modifications deemed to be TDRs were previously identified as impaired loans, and thus were also previously evaluated for impairment under Accounting Standards Codification (ASC) 310. Additional specific reserves of \$150,000 were recorded during the three-month period ended September 30, 2018 as a result of TDRs identified in the period. There were no additional specific reserves recorded during the three-month period ended September 30, 2017 as a result of TDRs identified in the period. Additional specific reserves of \$160,000 and \$290,000 were recorded during the nine-month periods ended September 30, 2018 and September 30, 2017, respectively, as a result of TDRs identified in the respective periods.

The terms of certain other loans were modified during the three-month and nine-month periods ended September 30, 2018 and September 30, 2017 that did not meet the definition of a TDR. There were no substandard commercial loans modified during the three-month period ended September 30, 2018 which did not meet the definition of a TDR. Substandard commercial loans modified during the nine-month period ended September 30, 2018 which did not meet the definition of a TDR had a total recorded investment of \$0.2 million. Substandard commercial loans modified during the three-month and nine-month periods ended September 30, 2017 which did not meet the definition of a TDR had a total recorded investment of \$0.9 million and \$1.0 million, respectively. The renewal/modification of these loans: (1) resulted in a delay in a payment that was considered to be insignificant, or (2) resulted in Park obtaining additional collateral or guarantees that improved the likelihood of the ultimate collection of the loans such that each modification was deemed to be at market terms. Consumer loans modified during the three-month and nine-month periods ended September 30, 2018 which did not meet the definition of a TDR had a total recorded investment of \$6.6 million and \$17.0 million, respectively. Consumer loans with a recorded investment of \$3.1 million and \$6.7 million were modified during the three-month and nine-month periods ended September 30, 2017, respectively, and did not meet the definition of a TDR. Many of these loans were to borrowers who were not experiencing financial difficulties

but who were looking to reduce their cost of funds.

The following tables detail the number of contracts modified as TDRs during the three-month periods ended September 30, 2018 and September 30, 2017, as well as the recorded investment of these contracts at September 30, 2018 and September 30, 2017. The recorded investment pre- and post-modification is generally the same due to the fact that Park does not typically forgive principal.

Of those loans which were modified and determined to be a TDR during the nine-month period ended September 30, 2018, \$0.5 million were on nonaccrual status as of December 31, 2017. Of those loans which were modified and determined to be a TDR during the nine-month period ended September 30, 2017, \$3.0 million were on nonaccrual status as of December 31, 2016.

Table of Contents

The following table presents the recorded investment in loans which were modified as TDRs within the previous 12 months and for which there was a payment default during the three-month and nine-month periods ended September 30, 2018 and September 30, 2017, respectively. For this table, a loan is considered to be in default when it becomes 30 days contractually past due under the modified terms. The additional allowance for loan loss resulting from the defaults on TDR loans was immaterial.

Note 5 – Allowance for Loan Losses

The allowance for loan losses ("ALLL") is that amount management believes is adequate to absorb probable incurred credit losses in the loan portfolio based on management's evaluation of various factors including overall growth in the loan portfolio, an analysis of individual loans, prior and current loss experience, and current economic conditions. A provision for loan losses is charged to operations based on management's periodic evaluation of these and other pertinent factors as discussed within Note 1 of the Notes to Consolidated Financial Statements included in Park's 2017 Annual Report.

Loss factors are reviewed quarterly and updated at least annually to reflect recent loan loss history and incorporate current risks and trends which may not be recognized in historical data. The following are factors management reviews on a quarterly or annual basis.

Historical Loss Factor: Management updated the historical loss calculation during the fourth quarter of 2017, incorporating net charge-offs plus changes in specific reserves through December 31, 2017. With the addition of 2017 historical losses, management extended the historical loss period to 96 months from 84 months. The 96-month historical loss period captures all annual periods subsequent to June 2009, the end of the most recent recession, thus encompassing the full economic cycle to date.

Loss Emergence Period Factor: At least annually, management calculates the loss emergence period for each commercial loan segment. The loss emergence period is calculated based upon the average period of time it takes from the probable occurrence of a loss event to the credit being moved to nonaccrual. If the loss emergence period for any commercial loan segment is greater than one year, management applies additional general reserves to all performing loans within that segment of the commercial loan portfolio. The loss emergence period was last updated in the fourth quarter of 2017.

Loss Migration Factor: Park's commercial loans are individually risk graded. If loan downgrades occur, the probability of default increases, and accordingly, management allocates a higher percentage reserve to those accruing commercial loans graded special mention and substandard. Annually, management calculates a loss migration factor for each commercial loan segment for special mention and substandard credits based on a review of losses over the period of time a loan takes to migrate from pass-rated to impaired. The loss migration factor was last updated in the fourth quarter of 2017.

Environmental Loss Factor: Management has identified certain macroeconomic factors that trend in accordance with losses in Park's commercial loan portfolio. These macroeconomic factors are reviewed quarterly and the adjustments made to the environmental loss factor impacting each segment in the performing commercial loan portfolio correlate to changes in the macroeconomic environment. There was no change to the environmental loss factor during the third quarter of 2018.

Loans acquired as part of the acquisition of NewDominion were recorded at fair value on the date of acquisition, July 1, 2018. An allowance is only established on these NewDominion loans as a result of credit deterioration post acquisition. As of September 30, 2018, there was no allowance related to acquired NewDominion loans.

Table of Contents

Loans collectively evaluated for impairment in the following tables include all performing loans at September 30, 2018 and December 31, 2017, as well as nonperforming loans internally classified as consumer loans. Nonperforming consumer loans are not typically individually evaluated for impairment, but receive a portion of the statistical allocation of the allowance for loan losses. Loans individually evaluated for impairment include all impaired loans internally classified as commercial loans at September 30, 2018 and December 31, 2017, which are evaluated for impairment in accordance with U.S. GAAP (see Note 1 of the Notes to Consolidated Financial Statements included in Park's 2017 Annual Report).

The composition of the allowance for loan losses at September 30, 2018 and December 31, 2017 was as follows:

Note 6 – Foreclosed and Repossessed Assets

Park typically transfers a loan to other real estate owned ("OREO") at the time that Park takes deed/title to the asset. The carrying amounts of foreclosed properties held at September 30, 2018 and December 31, 2017 are listed below, as well as the recorded investment of loans secured by residential real estate properties for which formal foreclosure proceedings were in process at those dates.

| (in thousands) | September 30, 2018 | December 31, 2017 |
|----------------------------------|-----------------------|----------------------|
| OREO: | | |
| Commercial real estate | \$ 2,359 | \$ 7,888 |
| Construction real estate | 2,191 | 4,852 |
| Residential real estate | 726 | 1,450 |
| Total OREO | \$ 5,276 | \$ 14,190 |
| Loans in process of foreclosure: | | |
| Residential real estate | \$ 2,743 | \$ 2,948 |

In addition to real estate, Park may also repossess different types of collateral. As of September 30, 2018, Park had \$7.2 million in other repossessed assets which are included in other assets on the consolidated condensed balance sheet. These assets consisted of aircraft acquired as part of a loan workout. There were no other repossessed assets as of September 30, 2017.

Park awarded 48,053 and 45,788 performance based restricted stock units ("PBRsUs") to certain employees during the nine months ended September 30, 2018 and 2017, respectively. No PBRsUs were awarded during the three months ended either September 30, 2018 or 2017.

On July 1, 2018, Park issued 435,457 common shares to complete its acquisition of NewDominion and granted 13,637 restricted stock units ("RSUs") to NewDominion employees. These common shares are included in average common shares outstanding beginning on that date.

Park repurchased 50,000 common shares during the nine months ended September 30, 2018 to fund the PBRsUs, RSUs and common shares to be awarded to directors of Park and to directors of Park's subsidiary PNB (and its divisions). No common shares were repurchased during the three months ended September 30, 2018. Park repurchased 20,000 common shares during the three months ended September 30, 2017, and repurchased 70,000 common shares during the nine months ended September 30, 2017 to fund the PBRsUs and common shares to be awarded to directors of Park and to directors of Park's subsidiary PNB (and its divisions).

Note 8 – Segment Information

The Corporation is a financial holding company headquartered in Newark, Ohio. The operating segments for the Corporation are its chartered national bank subsidiary, PNB (headquartered in Newark, Ohio), SE Property Holdings, LLC ("SEPH"), and Guardian Financial Services Company ("GFSC").

Management is required to disclose information about the different types of business activities in which a company engages and also information on the different economic environments in which a company operates, so that the users of the financial statements can better understand the company's performance, better understand the potential for future cash flows, and make more informed judgments about the company as a whole. Park has three operating segments, as: (i) discrete financial information is available for each operating segment and (ii) the segments are aligned with internal reporting to Park's Chief Executive Officer and President, who is the chief operating decision maker.

Note 9 – Loans Held For Sale

Mortgage loans held for sale are carried at their fair value. At September 30, 2018 and December 31, 2017, respectively, Park had approximately \$6.4 million and \$4.1 million in mortgage loans held for sale. These amounts are included in loans on the consolidated condensed balance sheets and in the residential real estate loan segments in Note 4 - Loans, and Note 5 - Allowance for Loan Losses. The contractual balance was \$6.4 million and \$4.1 million at September 30, 2018 and December 31, 2017, respectively. The gain expected upon sale was \$75,000 and \$55,000 at September 30, 2018 and December 31, 2017, respectively. None of these loans were 90 days or more past due or on nonaccrual status as of September 30, 2018 or December 31, 2017.

Note 10 – Investment Securities

The amortized cost and fair value of investment securities are shown in the following tables. Management performs a quarterly evaluation of investment securities for any other-than-temporary impairment. For the three-month and nine-month periods ended September 30, 2018 and 2017, there were no investment securities deemed to be other-than-temporarily impaired.

Investment securities at September 30, 2018, were as follows:

| Debt Securities Available-for-Sale (In thousands) | Amortized Cost | Gross Unrealized Holding Gains | Gross Unrealized Holding Losses | Estimated Fair Value |

| Total | \$ 33,975 | \$ 232 | \$ 79,473 |

Management does not believe any of the unrealized/unrecognized losses at September 30, 2018 or December 31, 2017 represented other-than-temporary impairment. Should the impairment of any of these securities become other-than-temporary, the cost basis of the investment will be reduced and the resulting loss recognized within net income in the period the other-than-temporary impairment is identified.

Park's U.S. Government sponsored entities' asset-backed securities consist primarily of 15-year residential mortgage-backed securities and collateralized mortgage obligations.

Table of Contents

The amortized cost and estimated fair value of investments in debt securities at September 30, 2018, are shown in the following table by contractual maturity, except for asset-backed securities, which are shown as a single total, due to the unpredictability of the timing of principal repayments.

| Securities Available-for-Sale (In thousands) | Amortized cost | Fair value | Tax equivalent yield | |
|---|----------------|--------------|-------------------------------------|---|
| U.S. Government sponsored entities' asset-backed securities | \$ 1,074,605 | \$ 1,032,265 | 2.35 | % |

| U.S. Government sponsored entities' asset-backed securities | \$ 46,974 | \$ 45,629 | 2.83 | % |

(1) The tax equivalent yield for obligations of state and political subdivisions includes the effects of a taxable equivalent adjustment using a 21% federal corporate income tax rate.

The remaining average life of the entire investment portfolio is estimated to be 4.8 years.

There were no sales of investment securities during the three-month period ended September 30, 2018. During the nine-month period ended September 30, 2018, Park sold certain AFS debt securities with a book value of \$247.0 million at a loss of \$2.6 million. Additionally, during the nine-month period ended September 30, 2018, Park sold certain HTM debt securities with a book value of \$7.4 million at a gain of \$291,000. These HTM securities had been paid down by 96.3% of the principal outstanding at acquisition. There were no sales of investment securities during the three-month or nine-month periods ended September 30, 2017.

Investment securities having a book value of \$564 million and \$557 million at September 30, 2018 and December 31, 2017, respectively, were pledged to collateralize government and trust department deposits in accordance with federal and state requirements, to secure repurchase agreements sold and as collateral for Federal Home Loan Bank ("FHLB") advance borrowings.

Note 11 – Other Investment Securities

Other investment securities consist of stock investments in the FHLB, the Federal Reserve Bank ("FRB"), and equity securities. The FHLB and FRB restricted stock investments are carried at their redemption value. Equity securities with a readily determinable fair value are carried at fair value. Beginning on January 1, 2018, with the adoption of ASU 2016-01, changes in fair value are included in other income on the consolidated condensed statement of income as opposed to in accumulated other comprehensive loss on the consolidated condensed balance sheet. Equity securities without a readily determinable fair value are recorded at cost, minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions ("modified cost").

The carrying amount of other investment securities at September 30, 2018 and December 31, 2017 was as follows:

| (In thousands) | September 30, 2018 | December 31, 2017 |
|----------------|--------------------|-------------------|
| FHLB stock | \$ 43,388 | \$ 50,086 |
| FRB stock | 8,225 | 8,225 |

| | | |

| Equity investments carried at fair value | 1,902 | 1,935 |
| Equity investments carried at cost/modified cost ⁽¹⁾ | 2,589 | 3,500 |
| Total other investment securities | \$ 56,104 | \$ 63,746 |

⁽¹⁾ There have been no impairments, downward adjustments, or upward adjustments made to equity investments carried at modified cost.

Table of Contents

During the three and nine months ended September 30, 2018, \$326,000 and \$33,000, respectively, of unrealized losses were recorded within "(Loss) gain on equity securities, net" on the consolidated condensed statements of income. An additional \$3.5 million gain recorded within "(Loss) gain on equity securities, net" on the consolidated condensed statement of income for the nine months ended September 30, 2018 relates to an investment security which was no longer held at September 30, 2018.

Note 12 – Goodwill and Other Intangibles

The following table shows the activity in goodwill and other intangibles for the first nine months of 2018.

| (in thousands) | Goodwill | Other Intangibles | Total |
|---|-----------|-------------------|-----------|
| December 31, 2017 | \$72,334 | \$ — | \$72,334 |
| Acquired goodwill and other intangibles | 40,405 | 7,549 | 47,954 |
| Amortization | — | 289 | 289 |
| September 30, 2018 | \$112,739 | \$ 7,260 | \$119,999 |

Park evaluates goodwill for impairment on April 1 of each year, with financial data as of March 31. Based on the analysis performed as of April 1, 2018, the Company determined that goodwill for Park's national bank subsidiary (PNB) was not impaired. There have been no subsequent circumstances or events triggering an additional evaluation.

Acquired Intangible Assets

The following table shows the balance of acquired intangible assets as of September 30, 2018. Park had no other intangible assets as of December 31, 2017.

| (in thousands) | 2018 Gross Carrying Amount | Accumulated Amortization |
|--------------------------|-------------------------------|--------------------------|
| Other intangible assets: | | |
| Core deposit intangibles | \$6,249 | \$ 289 |
| Trade name intangible | 1,300 | — |
| Total | \$7,549 | \$ 289 |

Core deposit intangibles are being amortized, on an accelerated basis, over a period of ten years. The trade name intangible is an indefinite life asset and is not amortized, but rather is assessed, at least annually, for impairment. Aggregate amortization expense was \$289,000 for both the three months and nine months ended September 30, 2018. There was no amortization expense during 2017.

Estimated amortization expense for each of the periods listed below follows:

| (in thousands) | Total |
|---------------------------------------|--------|
| Three months ending December 31, 2018 | \$ 289 |
| 2019 | 1,234 |
| 2020 | 1,149 |
| 2021 | 869 |

("Restricted Stock"), restricted stock unit awards that may be settled in common shares, cash or a combination of the two ("Restricted Stock Units"), unrestricted common shares ("Other Stock-Based Awards") and cash-based awards. Under the 2013 Incentive Plan, 600,000 common shares were authorized to be delivered in connection with grants under the 2013 Incentive Plan. The common shares to be delivered under the 2013 Incentive Plan are to consist of either common shares currently held or common shares subsequently acquired by Park as treasury shares, including common shares purchased in the open market or in private transactions. As of September 30, 2018, there were 92,404 common shares subject to performance-based Restricted Stock Units ("PBRsUs") issued under the 2013 Incentive Plan, which represented the only awards outstanding under the 2013 Incentive Plan.

The Park National Corporation 2017 Long-Term Incentive Plan for Employees (the "2017 Employees LTIP") was adopted by the Board of Directors of Park on January 23, 2017 and was approved by Park's shareholders at the Annual Meeting of Shareholders on April 24, 2017. The 2017 Employees LTIP makes equity-based awards and cash-based awards available for grant to participants in the form of incentive stock options, nonqualified stock options, SARs, Restricted Stock, Restricted Stock Units, Other Stock-Based Awards and cash-based awards. Under the 2017 Employees LTIP, 750,000 common shares are authorized to be delivered in connection with grants under the 2017 Employees LTIP. The common shares to be delivered under the 2017 Employees LTIP are to consist of either common shares currently held or common shares subsequently acquired by Park as treasury shares, including common shares purchased in the open market or in private transactions. At September 30, 2018, 689,773 common shares were available for future grants under the 2017 Employees LTIP.

The Park National Corporation 2017 Long-Term Incentive Plan for Non-Employee Directors (the "2017 Non-Employee Directors LTIP") was adopted by the Board of Directors of Park on January 23, 2017 and was approved by Park's shareholders at the Annual Meeting of Shareholders on April 24, 2017. The 2017 Non-Employee Directors LTIP makes equity-based awards and cash-based awards available for grant to participants in the form of nonqualified stock options, SARs, Restricted Stock, Restricted Stock Units, Other Stock-Based Awards, and cash-based awards. Under the 2017 Non-Employee Directors LTIP, 150,000 common shares are authorized to be delivered in connection with grants under the 2017 Non-Employee Directors LTIP. The common shares to be delivered under the 2017 Non-Employee Directors LTIP are to consist of either common shares currently held or common shares subsequently acquired by Park as treasury shares, including common shares purchased in the open market or in private transactions. At September 30, 2018, 138,850 common shares were available for future grants under the 2017 Non-Employee Director LTIP.

The 2017 Employees LTIP and the 2017 Non-Employee Directors LTIP have replaced the provisions of the 2013 Incentive Plan with respect to the grant of future awards. As a result of the approval of the 2017 Employees LTIP and the 2017 Non-Employee Directors LTIP, Park has not granted and will not grant any additional awards under the 2013 Incentive Plan after April 24, 2017. Awards made under the 2013 Incentive Plan prior to April 24, 2017 will remain in effect in accordance with their respective terms.

During the nine months ended September 30, 2018, the Compensation Committee of the Board of Directors of Park granted awards of PBRsUs, under the 2017 Employees LTIP, covering an aggregate of 48,053 common shares to certain employees of Park and its subsidiaries. Additionally, on July 1, 2018, Park granted 13,637 RSUs to NewDominion employees. During the nine months ended September 30, 2017, the Compensation Committee of the Board of Directors of Park granted awards of PBRsUs, under the 2013 Incentive Plan, covering an aggregate of 45,788 common shares to certain employees of Park and its subsidiaries. There were no awards granted during the three months ended September 30, 2017. The number of PBRsUs earned or settled will depend on the level of achievement with respect to certain performance criteria and are also subject to subsequent service-based vesting. The number of RSUs earned or settled are subject to subsequent service-based vesting.

Table of Contents

A summary of changes in the common shares subject to nonvested PBRsUs and RSUs for the nine months ended September 30, 2018 follows:

| | Common shares subject to PBRsUs and RSUs |
|--|---|
| Nonvested at January 1, 2018 | 116,716 |
| Granted | 61,690 |
| Vested | (18,800) |
| Forfeited | (4,655) |
| Adjustment for performance conditions of PBRsUs ⁽¹⁾ | (2,320) |
| Nonvested at September 30, 2018 | 152,631 |

(1) The number of PBRsUs earned depends on the level of achievement with respect to certain performance criteria. Adjustment herein represents the difference between the maximum number of common shares which could be earned and the actual number earned for those PBRsUs as to which the performance period was completed.

On March 31, 2018, an aggregate of 18,800 of the PBRsUs granted in 2014 and 2015 vested in full due to the level of achievement with respect to certain performance criteria and the satisfaction of the service-based vesting requirement. A total of 5,879 common shares were withheld to satisfy employee income tax withholding obligations. This resulted in a net amount of 12,921 common shares being issued to employees of Park. On March 31, 2017, 9,674 of the PBRsUs granted in 2014 vested in full due to the level of achievement with respect to certain performance criteria and the satisfaction of the service-based vesting requirement. A total of 3,293 common shares were withheld to satisfy employee income tax withholding obligations. This resulted in a net amount of 6,381 common shares being issued to employees of Park.

Share-based compensation expense of \$1.0 million and \$0.7 million was recognized for the three-month periods ended September 30, 2018 and 2017, respectively, and of \$3.1 million and \$2.1 million was recognized for the nine-month periods ended September 30, 2018 and 2017, respectively.

The following table details expected additional share-based compensation expense related to PBRsUs and RSUs outstanding as of September 30, 2018:

| (In thousands) | |

| Three months ending December 31, 2018 | \$ 1,047 |
| 2019 | 3,653 |
| 2020 | 2,440 |
| 2021 | 1,030 |
| 2022 | 226 |
| Total | \$8,396 |

Note 14 – Benefit Plans

Park has a noncontributory defined benefit pension plan (the "Pension Plan") covering substantially all of its employees. The Pension Plan provides benefits based on an employee's years of service and compensation.

There were no Pension Plan contributions for the three-month and nine-month periods ended September 30, 2018 and 2017.

Table of Contents

The following table shows the components of net periodic pension benefit income:

Park has entered into Supplemental Executive Retirement Plan Agreements (the "SERP Agreements") with certain key officers of the Corporation and its subsidiaries which provide defined pension benefits in excess of limits imposed by federal tax law. The expense for the Corporation related to the SERP Agreements for the three months and nine months ended September 30, 2018 and 2017 was as follows:

| (In thousands) | Three Months Ended | | Nine Months Ended | | Affected Line Item in the Consolidated Condensed Statement of Income |
|--------------------|--------------------|--------------------|--------------------|--------------------|--|
| | September 30, 2018 | September 30, 2017 | September 30, 2018 | September 30, 2017 | |
| Service cost | \$157 | \$185 | \$635 | \$555 | Employee benefits |
| Interest cost | 188 | 161 | 349 | 483 | Miscellaneous expense |
| Total SERP expense | \$345 | \$346 | \$984 | \$1,038 | |

Previously, the net periodic benefit income/expense related to Park's Pension Plan and the expense related to the SERP Agreements had been recorded within the "Employee benefits" line item. During the first quarter of 2018, Park adopted ASU 2017-07 - Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement. This ASU requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component. This ASU is required to be applied retrospectively to all periods presented. For all periods presented, this resulted in an increase in other income and an offsetting increase in other expense with no change to net income. As a practical expedient, Park used the amounts disclosed in "Note 12 - Pension Plan" of the Notes to Unaudited Consolidated Condensed Financial Statements, included under Item 1 of Part I of Park's Quarterly Report on Form 10-Q for the quarterly period ended September 30, 2017 as the estimation basis for applying the retrospective presentation requirements.

Note 15 – Loan Servicing

Park serviced sold mortgage loans of \$1.38 billion at September 30, 2018, \$1.37 billion at December 31, 2017 and \$1.36 billion at September 30, 2017. At September 30, 2018, \$2.6 million of the sold mortgage loans were sold with recourse, compared to \$3.0 million at December 31, 2017 and \$3.2 million at September 30, 2017. Management closely monitors the delinquency rates on the mortgage loans sold with recourse. At September 30, 2018 and December 31, 2017, management had established reserves of \$49,000 and \$270,000, respectively, to account for expected losses on loan repurchases.

When Park sells mortgage loans with servicing rights retained, these servicing rights are initially recorded at fair value. Park selected the “amortization method” as permissible within U.S. GAAP, whereby the servicing rights capitalized are amortized in proportion to and over the period of estimated future servicing income with respect to the underlying loan. At the end of each reporting period, the carrying value of mortgage servicing rights (“MSRs”) is assessed for impairment with a comparison to fair value. MSRs are carried at the lower of their amortized cost or fair value. The amortization of MSRs is included within other service income in the consolidated condensed statements of income.

Note 16 – Fair Value

The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that Park uses to measure fair value are as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that Park has the ability to access as of the measurement date.

Level 2: Level 1 inputs for assets or liabilities that are not actively traded. Also consists of an observable market price for a similar asset or liability. This includes the use of “matrix pricing” to value debt securities absent the exclusive use of quoted prices.

Level 3: Consists of unobservable inputs that are used to measure fair value when observable market inputs are not available. This could include the use of internally developed models, financial forecasting and similar inputs.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the balance sheet date. When possible, the Company looks to active and observable markets to price identical assets or liabilities. When identical assets and liabilities are not traded in active markets, the Company looks to observable market data for similar assets and liabilities. However, certain assets and liabilities are not traded in observable markets and Park must use other valuation methods to develop a fair value. The fair value of impaired loans is typically based on the fair value of the underlying collateral, which is estimated through third-party appraisals in accordance with Park's valuation requirements under its commercial and real estate loan policies.

There were no transfers between Level 1 and Level 2 during either of the three-month periods ended September 30, 2018 or 2017. Management's policy is to transfer assets or liabilities from one level to another when the methodology to obtain the fair value changes such that there are more or fewer unobservable inputs as of the end of the reporting period.

The following methods and assumptions were used by the Company in determining the fair value of the financial assets and liabilities discussed above:

Investment securities: Fair values for investment securities are based on quoted market prices, where available (Level 1). If quoted market prices are not available, fair values are based on quoted market prices of comparable instruments (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows (Level 3).

Fair value swap: The fair value of the swap agreement entered into with the purchaser of the Visa Class B shares represents an internally developed estimate of the exposure based upon probability-weighted potential Visa litigation losses.

Mortgage Interest Rate Lock Commitments (IRLCs): Mortgage IRLCs are based on current secondary market pricing and are classified as Level 2.

Mortgage loans held for sale: Mortgage loans held for sale are carried at their fair value. Mortgage loans held for sale are estimated using security prices for similar product types and, therefore, are classified in Level 2.

The table below presents a reconciliation of the beginning and ending balances of the Level 3 inputs for the three and six months ended September 30, 2018 and 2017, for financial instruments measured on a recurring basis and classified as Level 3:

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis:

The following methods and assumptions were used by the Company in determining the fair value of assets and liabilities measured at fair value on a nonrecurring basis described below:

Impaired Loans: At the time a loan is considered impaired, it is valued at the lower of cost or fair value. Collateral dependent impaired loans carried at fair value have been partially charged-off or receive specific allocations of the allowance for loan losses. For collateral dependent loans, fair value is generally based on real estate appraisals. These appraisals may utilize a single valuation approach or a combination of approaches including the comparable sales

approach and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments result in a Level 3 classification of the inputs for determining fair value. Collateral is then adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification. Impaired loans are evaluated on a quarterly basis for additional impairment and adjusted accordingly. Additionally, updated independent valuations are obtained annually for all impaired loans in accordance with Company policy.

Table of Contents

Other Real Estate Owned ("OREO"): Assets acquired through or in lieu of loan foreclosure are initially recorded at fair value less costs to sell when acquired. The carrying value of OREO is not re-measured to fair value on a recurring basis, but is subject to fair value adjustments when the carrying value exceeds the fair value, less estimated selling costs. Fair value is based on recent real estate appraisals and is updated at least annually. These appraisals may utilize a single valuation approach or a combination of approaches including the comparable sales approach and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments result in a Level 3 classification of the inputs for determining fair value.

Appraisals for both collateral dependent impaired loans and OREO are performed by licensed appraisers. Appraisals are generally obtained to support the fair value of collateral. In general, there are three types of appraisals received by the Company: real estate appraisals, income approach appraisals, and lot development loan appraisals. These are discussed below:

Real estate appraisals typically incorporate measures such as recent sales prices for comparable properties. Appraisers may make adjustments to the sales prices of the comparable properties as deemed appropriate based on the age, condition or general characteristics of the subject property. Management generally applies a 15% discount to real estate appraised values which management expects will cover all disposition costs (including selling costs). This 15% discount is based on historical discounts to appraised values on sold OREO properties.

Income approach appraisals typically incorporate the annual net operating income of the business divided by an appropriate capitalization rate, as determined by the appraiser. Management generally applies a 15% discount to income approach appraised values which management expects will cover all disposition costs (including selling costs).

Lot development loan appraisals are typically performed using a discounted cash flow analysis. Appraisers determine an anticipated absorption period and a discount rate that takes into account an investor's required rate of return based on recent comparable sales. Management generally applies a 6% discount to lot development appraised values, which is an additional discount above the net present value calculation included in the appraisal, to account for selling costs.

Other repossessed assets: Other repossessed assets are initially recorded at fair value less costs to sell when acquired. The carrying value of other repossessed assets is not re-measured to fair value on a recurring basis, but is subject to fair value adjustments when the carrying value exceeds the fair value, less estimated selling costs. As of September 30, 2018, other repossessed assets consisted of aircraft acquired as part of a loan workout. Fair value is based on Aircraft Bluebook and VREF Aircraft Value Reference values based on the model of aircraft and adjustments for flight hours, features and other variables. Such adjustments result in a Level 3 classification of the inputs for determining fair value.

MSRs: MSRs are carried at the lower of cost or fair value. MSRs do not trade in active, open markets with readily observable prices. For example, sales of MSRs do occur, but precise terms and conditions typically are not readily available. As such, management, with the assistance of a third-party specialist, determines fair value based on the discounted value of the future cash flows estimated to be received. Significant inputs include the discount rate and assumed prepayment speeds. The calculated fair value is then compared to market values where possible to ascertain the reasonableness of the valuation in relation to current market expectations for similar products. Accordingly, MSRs are classified as Level 2.

Table of Contents

The following tables present assets and liabilities measured at fair value on a nonrecurring basis. Collateral dependent impaired loans are carried at fair value if they have been charged down to fair value or if a specific valuation allowance has been established. As of September 30, 2018, there were no PCI loans considered impaired. A new cost basis is established at the time a property is initially recorded in OREO. OREO properties are carried at fair value if a devaluation has been taken to the property's value subsequent to the initial measurement.

The expense from credit adjustments related to impaired loans carried at fair value during the three months ended September 30, 2018 and 2017 was \$0.1 million and \$0.7 million, respectively. The expense from credit adjustments related to impaired loans carried at fair value during the nine months ended September 30, 2018 and 2017 was \$0.3 million and \$1.2 million, respectively.

MSRs totaled \$10.1 million at September 30, 2018. Of this \$10.1 million MSR carrying balance, \$1.5 million was recorded at fair value and included a valuation allowance of \$0.3 million. The remaining \$8.6 million was recorded at cost, as the fair value of the MSRs exceeded cost at September 30, 2018. At December 31, 2017, MSRs totaled \$9.7 million. Of this \$9.7 million MSR carrying balance, \$7.3 million was recorded at fair value and included a valuation allowance of \$0.6 million. The remaining \$2.4 million was recorded at cost, as the fair value exceeded cost at December 31, 2017. The expense related to MSRs carried at fair value during the three months ended September 30, 2018 and 2017 was \$26,000 and \$108,000, respectively. The income (expense) related to MSRs carried at fair value during the nine months ended September 30, 2018 and 2017 was \$356,000 and \$(8,000), respectively.

Total OREO held by Park at September 30, 2018 and December 31, 2017 was \$5.3 million and \$14.2 million, respectively. Approximately 73% and 46% of OREO held by Park at September 30, 2018 and December 31, 2017, respectively, was carried at fair value due to fair value adjustments made subsequent to the initial OREO measurement. At September 30, 2018 and December 31, 2017, OREO held at fair value, less estimated selling costs, amounted to \$3.9 million and \$6.5 million, respectively. The net expense related to OREO fair value adjustments was \$77,000 and \$22,000 for the three-month periods ended September 30, 2018 and 2017, respectively. The net expense related to OREO fair value adjustments was \$398,000 and \$367,000 for the nine-month periods ended September 30, 2018 and 2017, respectively.

Other repossessed assets totaled \$7.2 million at September 30, 2018, all of which was recorded at fair value. There were no other repossessed assets as of December 31, 2017. The net expense related to other repossessed asset fair value adjustments was \$269,000 for each of the three-month and nine-month periods ended September 30, 2018. There was no expense related to fair value adjustments on other repossessed assets for either the three-month or nine-month periods ended September 30, 2017.

Assets Measured at Net Asset Value:

The adoption of ASU 2016-01 on January 1, 2018 required Park to evaluate the accounting for equity investments, including those previously held at cost. Under the new guidance, Park determined that its portfolio of equity investments in limited partnerships which provide mezzanine funding ("Partnership Investments") should be valued using the net asset value ("NAV") practical expedient in accordance with ASC 820. The adoption of this guidance on January 1, 2018, resulted in a \$1.2 million increase to Partnership Investments, which are included within other assets on the consolidated condensed balance sheet, and a \$922,000 increase to beginning retained earnings.

As of September 30, 2018 and December 31, 2017, Park had Partnerships Investments with a NAV of \$10.7 million and \$8.8 million, respectively. As of September 30, 2018 and December 31, 2017, Park had \$6.1 million and \$7.2 million in unfunded commitments related to these Partnership Investments. For the nine months ended September 30, 2018, Park had recognized \$1.2 million in income related to these Partnership Investments.

During the nine-month period ended September 30, 2018, there was \$2.6 million (\$2.0 million net of tax) reclassified out of accumulated other comprehensive loss due to losses on the sale of AFS debt securities. These losses were recorded within net loss on sale of investment securities on the consolidated condensed statements of income. During the three-month periods ended September 30, 2018 and September 30, 2017 and the nine-month period ended September 30, 2017, there were no reclassifications out of accumulated other comprehensive loss.

Note 18 – Investment in Qualified Affordable Housing

Park makes certain equity investments in various limited partnerships that sponsor affordable housing projects. The purposes of these investments are to achieve a satisfactory return on capital, help create affordable housing opportunities, and assist the Company to achieve its goals associated with the Community Reinvestment Act.

Table of Contents

The table below details the balances of Park's affordable housing tax credit investments and related unfunded commitments as of September 30, 2018 and December 31, 2017.

| (in thousands) | SeptemberDecember | |
|---|-------------------|-----------|
| | 30, 2018 | 31, 2017 |
| Affordable housing tax credit investments | \$ 52,116 | \$ 49,669 |
| Unfunded commitments | 22,282 | 14,282 |

Commitments are funded when capital calls are made by the general partner. Park expects that the current commitments will be funded between 2018 and 2029.

During each of the three months ended September 30, 2018 and 2017, Park recognized amortization expense of \$1.9 million and during each of the nine months ended September 30, 2018 and 2017, Park recognized amortization expense of \$5.6 million, which was included within the provision for income taxes. Additionally, during the three months ended September 30, 2018 and 2017, Park recognized tax credits and other benefits from its affordable housing tax credit investments of \$2.0 million and \$2.3 million, respectively, and during each of the nine months ended September 30, 2018 and 2017, Park recognized tax credits and other benefits from its affordable housing tax credit investments of \$6.9 million which was included within the provision for income taxes.

Note 19 – Repurchase Agreement Borrowings

Securities sold under agreements to repurchase ("repurchase agreements") with customers represent funds deposited by customers, generally on an overnight basis, that are collateralized by investment securities owned by Park. Repurchase agreements with customers are included in short-term borrowings on the consolidated condensed balance sheets.

All repurchase agreements are subject to terms and conditions of repurchase/security agreements between Park and the client and are accounted for as secured borrowings. Park's repurchase agreements consisted of customer accounts and securities which are pledged on an individual security basis.

At September 30, 2018 and December 31, 2017, Park's repurchase agreement borrowings totaled \$154 million and \$183 million, respectively. These borrowings were collateralized with U.S. government and agency securities with a carrying value of \$208 million and \$213 million at September 30, 2018 and December 31, 2017, respectively. Declines in the value of the collateral would require Park to pledge additional securities. As of September 30, 2018 and December 31, 2017, Park had \$926 million and \$975 million, respectively, of available unpledged securities.

The table below shows the remaining contractual maturity of repurchase agreements by collateral pledged at September 30, 2018 and December 31, 2017:

Note 20 - Revenue from Contracts with Customers

The Company adopted ASC 606 using the modified retrospective method applied to all contracts not completed as of January 1, 2018. Results for reporting periods beginning on and after January 1, 2018 are presented under ASC 606 while prior period amounts continue to be reported in accordance with legacy GAAP. The adoption of ASC 606 did not result in a change to the accounting for any of the in-scope revenue streams; as such, no cumulative effect adjustment was recorded.

All of Park's revenue from contracts with customers within the scope of ASC 606 is recognized within "Other income" in the Consolidated Condensed Statements of Income. The following table presents the Corporation's sources of other income by revenue stream and operating segment for the three-month and nine-month periods ended September 30, 2018 and September 30, 2017.

A description of Park's revenue streams accounted for under ASC 606 follows:

Income from fiduciary activities (Gross): Park earns fiduciary fee income and investment brokerage fees from its contracts with trust customers for various fiduciary and investment-related services. These fees are earned over time as the Company provides the contracted monthly and quarterly services and are generally assessed based on the market value of the trust assets.

Service charges on deposit accounts and ATM fees: The Corporation earns fees from its deposit customers for transaction-based, account maintenance, and overdraft services. Transaction-based fees, which include services such as ATM use fees, stop payment charges, statement rendering, and ACH fees, are recognized at the time the transaction is executed as that is the point in time the Corporation fulfills the customer's request. Account maintenance fees, which relate primarily to monthly maintenance, are generally recognized at the end of the month, representing the period over which the Corporation satisfies the performance obligation. Overdraft fees are recognized at the point in

time that the overdraft occurs. Service charges on deposits are withdrawn from the customer's account balance.

Other service income: Other service income includes income from 1) the sale and servicing of loans sold to the secondary market, 2) incentive income from third-party credit card issuers, and 3) loan customers for various loan-related activities and services. These fees are generally recognized at a point in time following the completion of a loan sale or related service activity.

Table of Contents

Checkcard fee income: Park earns interchange fees from debit cardholder transactions conducted primarily through the Visa payment network. Interchange fees from cardholder transactions represent a percentage of the underlying transaction value and are recognized daily, net of card network fees, concurrently with the transaction processing services provided to the cardholder.

Gain on sale of OREO, net: The Corporation records a gain or loss from the sale of OREO when control of the property transfers to the buyer, which generally occurs at the time of delivery of an executed deed. When Park finances the sale of OREO to the buyer, the Corporation assesses whether the buyer is committed to perform the buyer's obligation under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the OREO asset is derecognized and the gain or loss on sale is recorded upon the transfer of control of the property to the buyer. In determining the gain or loss on the sale, the Corporation adjusts the transaction price and related gain (loss) on sale if a significant financing component is present.

Note 21 - Subsequent Events

On September 12, 2018, Park and CAB Financial Corporation, a South Carolina corporation (“CABF”), entered into an Agreement and Plan of Merger and Reorganization (the “CABF Merger Agreement”), pursuant to which CABF will merge with and into Park (the “CABF Merger”). Following the CABF Merger, CABF’s wholly-owned bank subsidiary, Carolina Alliance Bank, will merge with and into Park's wholly-owned bank subsidiary, PNB, with PNB as the surviving bank. Subject to the terms and conditions of the CABF Merger Agreement, at the effective time of the CABF Merger (the “Effective Time”), CABF shareholders will receive, for each share of CABF’s common stock, \$1.00 par value per share, (i) \$3.80 in cash and (ii) 0.1378 of Park's common shares (the “Merger Consideration”).

At the Effective Time, CABF stock options with an exercise price of less than \$19.00 will be cancelled and converted into the right to receive the Merger Consideration. CABF stock options with an exercise price of \$19.00 or more will be assumed and converted into an option to purchase Park common shares, on the same terms and conditions as were applicable under such CABF stock option. At the Effective Time, CABF restricted stock awards will fully vest (with any performance-based vesting condition deemed satisfied) and will be cancelled and converted automatically into the right to receive Merger Consideration.

The CABF Merger Agreement contains customary representations, warranties, and covenants of each party. Subject to certain terms and conditions, the CABF Merger Agreement provides that the board of directors of CABF will recommend the approval and adoption of the CABF Merger Agreement by the shareholders of CABF. CABF has also agreed not to solicit acquisition proposals relating to alternative business combination transactions. In addition, CABF has agreed not to participate in discussions or negotiations or provide information in connection with any acquisition proposals for alternative business combination transactions unless certain conditions are satisfied.

Closing of the CABF Merger is subject to customary conditions, including, among others, approval of the CABF Merger Agreement by CABF’s shareholders, receipt of required regulatory approvals, effectiveness of the registration statement to be filed by Park, and approval for listing on NYSE AMERICAN with respect to the Park common shares to be issued in the CABF Merger.

The CABF Merger Agreement provides certain termination rights for each party and further provides that, in the event the CABF Merger Agreement is terminated under certain circumstances in connection with a competing acquisition transaction, CABF will be required to pay Park a termination fee equal to \$5,317,500.

In connection with the CABF Merger Agreement, Park entered into voting and support agreements with the directors and executive officers of CABF, in their capacities as shareholders. Pursuant to the terms of the voting and support agreements, each director and executive officer of CABF has agreed to vote the shares of CABF common stock they own in favor of the CABF Merger Agreement, subject to the exceptions set forth in the voting agreements.

disruption in the liquidity and other functioning of U.S. financial markets; our liquidity requirements could be adversely affected by changes to regulations governing bank and bank holding company capital and liquidity standards as well as by changes in our assets and liabilities; competitive factors among financial services organizations could increase significantly, including product and pricing pressures, changes to third-party relationships and our ability to attract, develop and retain qualified banking professionals; customers could pursue alternatives to bank deposits, causing us to lose a relatively inexpensive source of funding; uncertainty regarding the nature, timing, cost and effect of changes in banking regulations or other regulatory or legislative requirements affecting the respective businesses of Park and our subsidiaries, including major reform of the regulatory oversight structure of the financial services industry and changes in laws and regulations concerning taxes, pensions, bankruptcy, consumer protection, rent regulation and housing, financial accounting and reporting, environmental protection, insurance, bank products and services, bank capital and liquidity standards, fiduciary standards, securities and other aspects of the financial services industry, specifically the reforms provided for in the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the "Dodd-Frank Act") and the Basel III regulatory capital reforms, as well as regulations already adopted and which may be adopted in the future by the relevant regulatory agencies, including the Consumer Financial Protection Bureau, the Office of the Comptroller of the Currency, the Federal Deposit Insurance Corporation, and the Federal Reserve Board, to implement the Dodd-Frank Act's provisions, and the Basel III regulatory capital reforms; the effects of easing restrictions on participants in the financial services industry; the effect of changes in accounting policies and practices, as may be adopted by the Financial Accounting Standards Board, the SEC, the Public Company Accounting Oversight Board and other regulatory agencies, and the accuracy of our assumptions and estimates used to prepare our financial statements; changes in law and policy accompanying the current presidential administration, including the Tax Cuts and Jobs Act, and uncertainty or speculation pending the enactment of such changes; uncertainties in Park's preliminary review of, and additional analysis of, the impact of the Tax Cuts and Jobs Act; significant changes in the tax laws, which may adversely affect the fair values of net deferred tax assets and obligations of state and political subdivisions held in Park's investment securities portfolio; the impact of our ability to anticipate and respond to technological changes on our ability to respond to customer needs and meet competitive demands; operational issues stemming from and/or capital spending necessitated by the potential need to adapt to industry changes in information technology systems on which Park and our subsidiaries are highly dependent; the ability to secure confidential information and deliver products and services through the use of computer systems and telecommunications networks; a failure in or breach of our operational or security systems or infrastructure, or those of our third-party vendors and other service providers, resulting in failures or disruptions in customer account management, general ledger, deposit, loan, or other systems, including as a result of cyber attacks; the existence or exacerbation of general geopolitical instability and uncertainty; the effect of trade policies (including the impact of tariffs, a U.S. withdrawal from or significant renegotiation of trade agreements, trade wars and other changes in trade regulations), monetary and other fiscal policies (including the impact of money supply and interest rate policies of the Federal Reserve Board) and other governmental policies of the U.S. federal government; the impact on financial markets and the economy of any

changes in the credit ratings of the U.S. Treasury obligations and other U.S. government - backed debt, as well as issues surrounding the levels of U.S., European and Asian government debt and concerns regarding the creditworthiness of certain sovereign governments, supranationals and financial institutions in Europe and Asia; the uncertainty surrounding the actions to be taken to implement the referendum by United Kingdom voters to exit the European Union; our litigation and regulatory compliance exposure, including the costs and effects of any adverse developments in legal proceedings or other claims and the costs and effects of unfavorable resolution of regulatory and other governmental examinations or other inquiries; continued availability of earnings and excess capital sufficient for the lawful and prudent declaration of dividends; fraud, scams and schemes of third parties; the impact of widespread natural and other disasters, pandemics, dislocations, civil unrest, terrorist activities or international hostilities on the economy and financial markets generally and on us or our counterparties specifically; the effect of healthcare laws in the U.S. and potential changes for such laws which may increase our healthcare and other costs and negatively impact our operations and financial results; Park's ability to integrate recent acquisitions (including NewDominion Bank) as well as any future acquisitions, which may be unsuccessful, or may be more difficult, time-consuming or costly than expected; the ability to obtain required governmental and shareholder approvals with respect to, and

the ability to complete the proposed merger of Park and CAB Financial Corporation ("CAB") on the proposed terms and within the expected time frame; the risk that the businesses of Park and CAB will not be integrated successfully or such integration may be more difficult, time-consuming or costly than expected; expected revenue synergies and cost savings from the proposed merger of Park and CAB may not be fully realized or realized within the expected time frame; revenues following the proposed merger of Park and CAB may be lower than expected; customer and employee relationships and business operations may be disrupted by the proposed merger of Park and CAB; Park issued equity securities in the acquisition of NewDominion Bank and may issue equity securities in connection with future acquisitions, including the proposed merger of Park and CAB, which could cause ownership and economic dilution to Park's current shareholders; and other risk factors relating to the banking industry as detailed from time to time in Park's reports filed with the SEC including those described in "Item 1A. Risk Factors" of Part I of Park's Annual Report on Form 10-K for the fiscal year ended December 31, 2017. Park does not undertake, and specifically disclaims any obligation, to publicly release the results of any revisions that may be made to update any forward-looking statement to reflect the events or circumstances after the date on which the forward-looking statement was made, or reflect the occurrence of unanticipated events, except to the extent required by law.

Critical Accounting Policies

Note 1 of the Notes to Consolidated Financial Statements included in Park's 2017 Annual Report lists significant accounting policies used in the development and presentation of Park's consolidated financial statements. The accounting and reporting policies of Park conform with U.S. GAAP and general practices within the financial services industry. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Park believes the determination of the allowance for loan losses involves a higher degree of judgment and complexity than its other significant accounting policies. The allowance for loan losses is calculated with the objective of maintaining a reserve level believed by management to be sufficient to absorb probable incurred credit losses in the loan portfolio. Management's determination of the adequacy of the allowance for loan losses is based on periodic evaluations of the loan portfolio and of current economic conditions. However, this evaluation has subjective components requiring material estimates, including expected default probabilities, the expected loss given default, the amounts and timing of expected future cash flows on impaired loans, and estimated losses on consumer loans and residential mortgage loans based on historical loss experience and current economic conditions. All of these factors may be susceptible to significant change. To the extent that actual results differ from management estimates, additional loan loss provisions may be required that would adversely impact earnings in future periods. Refer to the "Credit Metrics and Provision for (Recovery of) Loan Losses" section within this MD&A for additional discussion.

Other real estate owned ("OREO"), property acquired through foreclosure, is recorded at estimated fair value less anticipated selling costs (net realizable value). If the net realizable value is below the carrying value of the loan on the date of transfer, the difference is charged to the allowance for loan losses. Subsequent declines in value, OREO devaluations, are reported as adjustments to the carrying amount of OREO and are expensed within other income. Gains or losses not previously recognized, resulting from the sale of OREO, are recognized within other income on the date of sale.

U.S. GAAP requires management to establish a fair value hierarchy, which has the objective of maximizing the use of observable market inputs. U.S. GAAP also requires enhanced disclosures regarding the inputs used to calculate fair value. These are classified as Level 1, Level 2, and Level 3. Level 3 inputs are those with significant unobservable inputs that reflect a company's own assumptions about the market for a particular instrument. Some of these inputs could be based on internal models and cash flow analyses. The large majority of Park's assets whose fair value is

determined using Level 2 inputs consists of AFS securities. The fair value of these AFS securities is obtained largely through the use of matrix pricing, which is a mathematical technique widely used in the financial services industry to value debt securities without relying exclusively on quoted market prices for the specific securities but rather relying on the securities' relationship to other benchmark quoted securities. Please see Note 16 - Fair Value of the Notes to Unaudited Consolidated Condensed Financial Statements in this Quarterly Report on Form 10-Q for additional information on fair value.

Management believes that the accounting for goodwill and other intangibles also involves a higher degree of judgment than most other significant accounting policies. U.S. GAAP establishes standards for the impairment assessment of goodwill. Goodwill arising from business combinations represents the value attributable to unidentifiable intangible assets in the business acquired. Park's goodwill, as of September 30, 2018, relates to the value inherent in the banking industry and that value is dependent upon the ability of Park's national bank subsidiary, The Park National Bank ("PNB") to provide quality, cost-effective banking services in a competitive marketplace. The goodwill value is supported by revenue that is in part driven by the volume of business transacted. A decrease in earnings resulting from a decline in the customer base, the inability to deliver

Table of Contents

cost-effective services over sustained periods or significant credit problems can lead to impairment of goodwill that could adversely impact earnings in future periods. U.S. GAAP requires an annual evaluation of goodwill for impairment, or more frequently if events or changes in circumstances indicate that the asset might be impaired. Park's most recent evaluation was completed during the second quarter of 2018 and resulted in no impairment of goodwill. Further, there have been no events subsequent to that analysis that provide any evidence that goodwill is impaired. The fair value of the goodwill, which resides on the books of PNB, is estimated by reviewing the past and projected operating results for PNB, deposit and loan totals for PNB and banking industry comparable information.

The determination of pension plan obligations and related expenses requires the use of assumptions to estimate the amount of benefits that employees will earn while working, as well as the present value of those benefits. Annual pension expense is principally based on four components: (1) the value of benefits earned by employees for working during the year (service cost), (2) the increase in the liability due to the passage of time (interest cost), and (3) other gains and losses, reduced by (4) the expected return on plan assets for our pension plan.

Significant assumptions used to measure our annual pension expense include:

- the interest rate used to determine the present value of liabilities (discount rate);
- certain employee-related factors, such as turnover, retirement age and mortality;
- the expected return on assets in our funded pension plan; and
- the rate of salary increases where benefits are based on earnings.

Our assumptions reflect our historical experience and management's best judgment regarding future expectations. Due to the significant management judgment involved, our assumptions could have a material impact on the measurement of our pension plan expense and obligation.

Comparison of Results of Operations

For the Three and Nine Months Ended September 30, 2018 and 2017

Summary Discussion of Results

Net income for the three months ended September 30, 2018 was \$24.8 million, compared to \$22.1 million for the third quarter of 2017. Diluted earnings per common share were \$1.56 for the third quarter of 2018, compared to \$1.44 for the third quarter of 2017. Weighted average diluted common shares outstanding were 15,832,734 for the third quarter of 2018, compared to 15,351,590 weighted average diluted common shares outstanding for the third quarter of 2017.

Net income for the nine months ended September 30, 2018 was \$84.1 million, compared to \$61.4 million for the nine months ended September 30, 2017. Diluted earnings per common share were \$5.41 for the first nine months of 2018, compared to \$3.99 for the first nine months of 2017. Weighted average diluted common shares outstanding were 15,560,666 for the first nine months of 2018, compared to 15,394,199 weighted average diluted common shares outstanding for the first nine months of 2017.

During the first quarter of 2018, Park adopted ASU 2017-07, Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. This ASU requires that an employer report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost. This ASU is required to be applied retrospectively to all periods presented. As a result of the adoption of this ASU, all prior periods have been recast to separately record the service cost component and other components of net benefit cost. For all periods presented for Park, this resulted in an increase in other income and an offsetting increase in other expense with no change to net income.

During the first quarter of 2018, Park adopted ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. Changes reflected in the current U.S. GAAP model primarily affect the accounting for equity investments, financial liabilities under the fair value option, and the presentation and disclosure requirements for financial instruments. As a result of the adoption of this ASU, Park recorded an increase of \$1.9 million to beginning retained earnings and a \$995,000 increase to beginning accumulated other comprehensive loss. Additional income of \$3.2 million, \$1.3 million and \$89,000 was recorded in other income in the first, second and third quarters of 2018, respectively, as the result of changes to the accounting for equity investments.

On July 1, 2018, NewDominion Bank, a North Carolina state-chartered bank ("NewDominion"), merged with and into PNB, with PNB continuing as the surviving entity pursuant to the Agreement and Plan of Merger and Reorganization, dated as of January 22, 2018, by and among Park, PNB, and NewDominion. On the acquisition date, NewDominion had \$328 million in total assets, \$278 million in total loans, and \$284 million in total deposits. The acquisition was valued at \$79.2 million and resulted in Park issuing 435,457 Park common shares and paying \$30.7 million in cash as merger consideration in exchange for 91.45% of NewDominion's outstanding common shares. The remaining 8.55% of NewDominion's outstanding common shares were previously held by Park. For the nine months ended September 30, 2018, Park recorded merger-related expenses of \$3.6 million associated with the NewDominion acquisition.

Financial Results by Segment

The table below reflects the net income (loss) by segment for the first, second and third quarters of 2018, for the first nine months of 2018 and 2017, and for the fiscal years ended December 31, 2017 and 2016. Park's segments include PNB, Guardian Financial Services Company ("GFSC"), SE Property Holdings, LLC ("SEPH") and all other which primarily consists of Park as the "Parent Company."

The category "Parent Company" above excludes the results for SEPH, an entity which is winding down commensurate with the disposition of SEPH's nonperforming assets. Management considers the "Ongoing operations" results, which exclude the results of SEPH, to reflect the business of Park and Park's subsidiaries going forward. The discussion below provides additional information regarding the segments that make up the "Ongoing operations", followed by additional information regarding SEPH.

The Park National Bank (PNB)

The table below reflects PNB's net income for the first, second and third quarters of 2018, for the first nine months of 2018 and 2017, and for the fiscal years ended December 31, 2017 and 2016.

| Net income | \$27,856 | \$28,797 | \$26,745 | \$83,398 | \$62,946 | \$87,315 | \$84,451 |

Net interest income of \$190.3 million for the nine months ended September 30, 2018 represented a \$15.6 million, or 8.9%, increase compared to \$174.7 million for the nine months ended September 30, 2017. The increase was the result of a \$15.1 million increase in interest income and a \$472,000 decrease in interest expense.

The \$15.1 million increase in interest income was due to a \$13.4 million increase in interest income on loans, along with a \$1.7 million increase in interest income on investments. The increase in interest income on loans was partially the result of a \$102.8 million increase in average loans from \$5.28 billion for the nine months ended September 30, 2017, to \$5.38 billion for the nine months ended September 30, 2018. Additionally, the yield on loans increased by 24 basis points to 4.79% for the nine months ended September 30, 2018, compared to 4.55% for the nine months ended September 30, 2017. Included in interest income for the nine months ended September 30, 2018 and 2017 was

\$817,000 and \$149,000, respectively, in interest income, related to PNB participations in legacy Vision Bank ("Vision") assets.

Table of Contents

The \$472,000 decrease in interest expense was due to a \$8.7 million increase in interest expense on deposits being more than offset by a \$9.1 million decrease in interest expense on borrowings. The increase in interest expense on deposits was partially the result of a \$104.6 million, or 2.4%, increase in average interest-bearing deposits from \$4.36 billion for the nine months ended September 30, 2017, to \$4.46 billion for the nine months ended September 30, 2018. Additionally, the cost of deposits increased by 24 basis points from 0.43% for the nine months ended September 30, 2017 to 0.67% for the nine months ended September 30, 2018. The decrease in interest expense on borrowings was the result of a decrease in long-term debt. During the fourth quarter of 2017, Park utilized excess cash to repay \$350 million of long-term debt which matured during November 2017. The effective interest rate on the repaid long-term debt had been 3.22%.

The provision for loan losses of \$4.5 million for the nine months ended September 30, 2018 represented a decrease of \$4.6 million, compared to \$9.1 million for the nine months ended September 30, 2017. Refer to the “Credit Metrics and Provision for (Recovery of) Loan Losses” section for additional details regarding the level of the provision for (recovery of) loan losses recognized in each period presented above.

Other income of \$64.5 million for the nine months ended September 30, 2018 represented an increase of \$3.1 million, or 5.0%, compared to \$61.5 million for the nine months ended September 30, 2017. The \$3.1 million increase was primarily related to a \$2.0 million increase in income from fiduciary activities, a \$1.3 million increase in gain on sale of OREO, net, a \$961,000 increase in checkcard fee income, a \$747,000 increase in other components of net periodic pension benefit income, a \$526,000 increase in equity investment income which is included in miscellaneous income, a \$515,000 increase in gains on sale of assets, net, and a \$400,000 increase in other service income, offset by a \$2.3 million net loss on sales of investment securities during the nine months ended September 30, 2018, a \$901,000 decrease in service charges on deposit accounts and a \$677,000 decrease in bank owned life insurance income, primarily from the change in death benefits paid on policies during 2018 and 2017.

Other expense of \$149.2 million for the nine months ended September 30, 2018 represented an increase of \$11.3 million, or 8.2%, compared to \$137.9 million for the nine months ended September 30, 2017. The \$11.3 million increase was primarily related to a \$4.2 million increase in salaries expense, a \$3.6 million increase in employee benefits expense, a \$829,000 increase in professional fees and services expense, a \$828,000 increase in furniture and equipment expense, a \$722,000 increase in occupancy expense, a \$565,000 increase in state tax expense, a \$556,000 increase in data processing expense, a \$477,000 increase in marketing expense, a \$323,000 increase in non-loan related losses which are included in miscellaneous expense, and a \$289,000 increase in core deposit intangible expense which are included in amortization of intangibles, offset by a \$1.5 million decrease in contribution expense which is included in miscellaneous expense and a \$562,000 decrease in insurance expense.

Income tax expense of \$17.8 million for the nine months ended September 30, 2018 represented a decrease of \$8.4 million compared to \$26.2 million for the nine months ended September 30, 2017. The decrease in income tax expense was largely due to a decrease in the corporate federal income tax rate from 35% to 21%, effective January 1, 2018.

PNB's results for the first nine months of 2018 and 2017, and for the fiscal year ended December 31, 2017, included income and expense related to participations in legacy Vision assets. The impact of these participations on particular items within PNB's income and expense for these periods is detailed in the table below:

The net interest income (expense) for Park's parent company included, for all periods presented, interest income on subordinated debt investments in PNB, which were eliminated in the consolidated Park National Corporation totals. For the fiscal year ended December 31, 2016, the net interest expense included interest income on loans to SEPH (paid off on December 14, 2016). Additionally, net interest income (expense) for the first nine months of 2017 and for the fiscal years ended December 31, 2017 and 2016, included interest expense related to the \$30.00 million of 7% Subordinated Notes due April 20, 2022 issued by Park to accredited investors on April 20, 2012, which Park prepaid in full (principal plus accrued interest) on April 24, 2017.

Other income of \$6.0 million for the nine months ended September 30, 2018 represented an increase of \$4.8 million compared to \$1.2 million for the nine months ended September 30, 2017. The \$4.8 million increase was largely due to a \$3.2 million increase in income related to certain equity securities and a \$1.5 million increase in bank owned life insurance income, primarily from death benefits paid on policies during 2018.

Other expense of \$11.1 million for the nine months ended September 30, 2018 represented an increase of \$4.7 million, or 74.0%, compared to \$6.4 million for the nine months ended September 30, 2017. The \$4.7 million increase was primarily related to an increase of \$3.3 million in salaries expense, which included \$1.6 million of merger-related expenses related to the acquisition of NewDominion, and an increase of \$2.4 million in professional fees and services, which included \$2.0 million of merger-related expenses related to the acquisition of NewDominion, offset by a \$475,000 decrease in state tax expense.

SEPH

The table below reflects SEPH's net (loss) income for the first, second and third quarters of 2018, for the first nine months of 2018 and 2017, and for the fiscal years ended December 31, 2017 and 2016. SEPH holds the remaining assets and liabilities retained by Vision subsequent to the sale of the Vision business on February 16, 2012. Prior to holding the remaining Vision assets, SEPH held OREO assets that were transferred from Vision to SEPH. This segment represents a run-off portfolio of the legacy Vision assets.

Table of Contents

Net interest income increased to \$2.6 million for the nine months ended September 30, 2018 from \$884,000 for the nine months ended September 30, 2017. The increase was the result of an increase in interest payments received from SEPH impaired loan relationships.

For the nine months ended September 30, 2018, SEPH had net recoveries of loan losses of \$678,000, compared to net recoveries of loan losses of \$1.8 million for the nine months ended September 30, 2017.

The \$3.1 million increase in other income for the nine months ended September 30, 2018, compared to the nine months ended September 30, 2017, was primarily the result of a \$2.6 million increase in gains on sale of OREO and a \$853,000 increase in loan fee income as a result of payments received from SEPH impaired loan relationships.

The \$348,000 increase in other expense for the nine months ended September 30, 2018, compared to the nine months ended September 30, 2017, was the result of a \$1.0 million increase in management and consulting fees associated with the collection of payments on certain SEPH impaired loan relationships during 2018, offset by a \$742,000 decrease in legal fees.

Legacy Vision assets at SEPH totaled \$4.0 million as of September 30, 2018, compared to \$18.8 million at December 31, 2017 and \$18.7 million at September 30, 2017. In addition to these SEPH assets, PNB participations in legacy Vision assets totaled \$2.5 million at September 30, 2018, compared to \$9.0 million at both December 31, 2017 and September 30, 2017.

Net Interest Income

Park's principal source of earnings is net interest income, the difference between total interest income and total interest expense. Net interest income results from average balances outstanding for interest earning assets and interest bearing liabilities in conjunction with the average rates earned and paid on them.

Comparison for the Third Quarters of 2018 and 2017

Net interest income increased by \$6.1 million, or 10.0%, to \$67.7 million for the third quarter of 2018, compared to \$61.6 million for the third quarter of 2017. See the discussion under the table below.

(1) Loan interest income includes the effects of taxable equivalent adjustments using a 21% federal corporate income tax rate in 2018 and a 35% federal corporate income tax rate in 2017. The taxable equivalent adjustment was \$129,000 for the three months ended September 30, 2018 and \$228,000 for the same period of 2017.

(2) Interest income on tax-exempt investment securities includes the effects of taxable equivalent adjustments using a 21% federal corporate income tax rate in 2018 and a 35% federal corporate income tax rate in 2017. The taxable equivalent adjustment was \$587,000 for the three months ended September 30, 2018 and \$1.1 million for the same period of 2017.

Average interest earning assets for the third quarter of 2018 decreased by \$123 million, or 1.7%, to \$7,206 million, compared to \$7,329 million for the third quarter of 2017. The average yield on interest earning assets increased by 43 basis points to 4.46% for the third quarter of 2018, compared to 4.03% for the third quarter of 2017.

Interest income for the three months ended September 30, 2018 included \$120,000 related to payments received on certain SEPH impaired loan relationships, some of which are participated with PNB, as well as \$439,000 related to the accretion of purchase accounting adjustments related to the acquisition of NewDominion. Interest income for the three months ended September 30, 2017 included \$552,000 related to payments received on certain SEPH impaired loan relationships, some of which are participated with PNB. Excluding these additional sources of income, the yield on loans was 4.91% and 4.68% for the three months ended September 30, 2018 and 2017, respectively, and the yield on earning assets was 4.42% and 4.01% for the three months ended September 30, 2018 and 2017, respectively.

Average interest bearing liabilities for the third quarter of 2018 decreased by \$319 million, or 5.7%, to \$5,237 million, compared to \$5,556 million for the third quarter of 2017. The average cost of interest bearing liabilities increased by 12 basis points to 0.95% for the third quarter of 2018, compared to 0.83% for the third quarter of 2017.

Approximately \$608,000 of the cost of funds increase, or 5 basis points, during the three months ended September 30, 2018, resulted from an accrual for an interest rate adjustment on an interest bearing deposit product. Without this adjustment the cost of funds for total interest bearing deposits was 0.78% and the cost of funds for interest bearing liabilities was 0.90%.

Table of Contents

Removing the impacts of interest income related to payments on certain SEPH loan relationships, the accretion related to purchase accounting adjustments and the accrual for an interest rate adjustment on an interest bearing deposit product, the net interest margin was 3.77% and 3.38% for the three months ended September 30, 2018 and 2017, respectively.

Yield on Loans: Average loan balances increased by \$273 million, or 5.1%, to \$5,610 million for the third quarter of 2018, compared to \$5,337 million for the third quarter of 2017. (1) Loan interest income includes the effects of taxable equivalent adjustments using a 21% federal corporate income tax rate in 2018 and a 35% federal corporate income tax rate in 2017. The taxable equivalent adjustment was \$378,000 for the nine months ended September 30, 2018 and \$794,000 for the same period of 2017.

(2) Interest income on tax-exempt investment securities includes the effects of taxable equivalent adjustments using a 21% federal corporate income tax rate in 2018 and a 35% federal corporate income tax rate in 2017. The taxable equivalent adjustment was \$1.7 million for the nine months ended September 30, 2018 and \$2.7 million for the same period of 2017.

Average interest earning assets for the first nine months of 2018 decreased by \$160 million, or 2.2%, to \$6,988 million, compared to \$7,149 million for the first nine months of 2017. The average yield on interest earning assets increased by 37 basis points to 4.41% for the first nine months of 2018, compared to 4.04% for the first nine months of 2017.

Interest income for the nine months ended September 30, 2018 included \$3.4 million related to payments received on certain SEPH impaired loan relationships, some of which are participated with PNB, as well as \$439,000 related to the accretion of purchase accounting adjustments related to the acquisition of NewDominion. Interest income for the nine months ended September 30, 2017 included \$1.0 million related to payments received on certain SEPH impaired loan relationships, some of which are participated with PNB. Excluding these sources of income, the yield on loans was 4.84% and 4.64% for the nine months ended September 30, 2018 and 2017, respectively, the yield on earning assets was 4.34% and 4.03% for the nine months ended September 30, 2018 and 2017, respectively, and the net interest margin was 3.74% and 3.43% for the nine months ended September 30, 2018 and 2017, respectively.

Average interest bearing liabilities for the first nine months of 2018 decreased by \$276 million, or 5.1%, to \$5,117 million, compared to \$5,393 million for the first nine months of 2017. The average cost of interest bearing liabilities

increased by 2 basis points to 0.82% for the first nine months of 2018, compared to 0.80% for the first nine months of 2017.

Credit Metrics and Provision for (Recovery of) Loan Losses

The provision for (recovery of) loan losses is the amount added to the allowance for loan and lease losses ("ALLL") to ensure the allowance is sufficient to absorb probable, incurred credit losses. The amount of the provision for (recovery of) loan losses is determined by management after reviewing the risk characteristics of the loan portfolio, historic and current loan loss experience and current economic conditions.

Park's ongoing operation subsidiaries, PNB and GFSC, are the only subsidiaries that carry an ALLL balance. The table below provides additional information on the provision for (recovery of) loan losses and the ALLL for Park, Park's ongoing operations, and SEPH for the three-month and nine-month periods ended September 30, 2018 and 2017.

Loans acquired as part of the acquisition of NewDominion were recorded at fair value on the date of acquisition. An allowance is only established on these loans as a result of credit deterioration post acquisition. As of September 30, 2018, there was no allowance related to acquired loans.

SEPH, as a non-bank subsidiary of Park, does not carry an ALLL balance, but recognizes a provision for loan losses when a charge-off is taken and recognizes a recovery of loan losses when a recovery is received.

The allowance for loan losses of \$50.2 million at September 30, 2018 represented a \$258,000, or 0.5%, increase compared to \$50.0 million at December 31, 2017. This increase was the result of a \$904,000 decrease in general reserves, offset by a \$1.2 million increase in specific reserves. As of September 30, 2018, no allowance had been established for acquired loans. Excluding acquired loans, the general reserve as a percentage of total loans less impaired commercial loans was 0.91%.

Generally, management obtains updated valuations for all nonperforming loans, including those held at SEPH, at least annually. As new valuation information is received, management performs an evaluation and applies a discount for anticipated disposition costs to determine the net realizable value of the collateral, which is compared against the outstanding principal balance to determine if additional write-downs are necessary.

Nonperforming Assets: Nonperforming assets include: 1) loans whose interest is accounted for on a nonaccrual basis; 2) TDRs on accrual status; 3) loans which are contractually past due 90 days or more as to principal or interest payments but whose interest continues to accrue; (4) OREO which results from taking possession of property that served as collateral for a defaulted loan; and (5) other nonperforming assets which consist of other foreclosed or repossessed assets.

The following table compares Park's nonperforming assets at September 30, 2018, December 31, 2017 and September 30, 2017.

Impaired Loans: Park's allowance for loan losses includes an allocation for loans specifically identified as impaired under GAAP. At September 30, 2018, loans considered to be impaired consisted substantially of commercial loans graded as "substandard" or "doubtful" and placed on non-accrual status. Specific reserves on impaired commercial loans are typically based on management's best estimate of the fair value of collateral securing these loans. The amount ultimately charged off for these loans may be different from the specific reserve as the ultimate liquidation of the collateral may be for an amount different from management's estimate.

When determining the quarterly loan loss provision, Park reviews the grades of commercial loans. These loans are graded from 1 to 8. A grade of 1 indicates little or no credit risk and a grade of 8 is considered a loss. Commercial loans that are pass-rated (graded an 1 through a 4) are considered to be of acceptable credit risk. Commercial loans graded a 5 (special mention) are considered to be watch list credits and a higher loan loss reserve percentage is allocated to these loans. Commercial loans graded a 6 (substandard), also considered to be watch list credits, represent higher credit risk than those rated special mention and, as a result, a higher loan loss reserve percentage is allocated to these loans. Commercial loans that are graded a 7 (doubtful) are shown as nonperforming and Park charges these loans down to their fair value by taking a partial charge-off or recording a specific reserve. Certain 6-rated loans and all 7-rated loans are included within the impaired category. A loan is deemed impaired when management determines that the borrower's ability to perform in accordance with the contractual loan agreement is in doubt. Any commercial

loan graded an 8 (loss) is completely charged-off.

As of September 30, 2018, Park had taken partial charge-offs of \$11.1 million related to the \$46.7 million of commercial loans considered to be impaired, compared to partial charge-offs of \$10.0 million related to the \$56.5 million of impaired commercial loans at December 31, 2017.

Purchase credit impaired ("PCI") loans: In conjunction with the NewDominion acquisition, Park acquired loans with a book value of \$277.9 million as of July 1, 2018. These loans were recorded at the preliminary fair value of \$272.8 million. Loans acquired with deteriorated credit quality with a book value of \$5.1 million were recorded at the preliminary fair value of \$4.9 million. The carrying amount of loans acquired with deteriorated credit quality at September 30, 2018 was \$4.5 million, while the outstanding customer balance was \$4.7 million.

Allowance for loan losses: Loss factors are reviewed quarterly and updated at least annually to reflect recent loan loss history and incorporate current risks and trends which may not be recognized in historical data. The historical loss factors were last updated in the fourth quarter of 2017 to incorporate losses through December 31, 2017.

Excluding acquired loans, the allowance for loan losses related to performing commercial loans was \$31.5 million, or 1.18% of the outstanding principal balance of performing commercial loans at September 30, 2018. Excluding acquired loans, at September 30, 2018, the coverage level within the commercial loan portfolio was approximately 3.19 years compared to 3.24 years at December 31, 2017. Historical loss experience, defined as charge-offs plus changes in specific reserves, over the 96-month period ended December 31, 2017, for the commercial loan portfolio was 0.37%. This 96-month loss experience includes only the performance of the PNB loan portfolio and excludes the impact of PNB participations in Vision loans.

Excluding acquired loans, the overall reserve of 1.18% for other accruing commercial loans breaks down as follows: pass-rated commercial loans are reserved at 1.17%; special mention commercial loans are reserved at 2.94%; and substandard commercial loans are reserved at 10.37%. The reserve levels for pass-rated, special mention and substandard commercial loans in excess of the 96-month loss experience of 0.37% are due to the following factors which management reviews on a quarterly or annual basis:

Historical Loss Factor: Management updated the historical loss calculation during the fourth quarter of 2017, incorporating net charge-offs plus changes in specific reserves through December 31, 2017. With the addition of 2017 historical losses, management extended the historical loss period to 96 months from 84 months. The 96-month historical loss period captures all annual periods subsequent to June 2009, the end of the most recent recession, thus encompassing the full economic cycle to date.

Loss Emergence Period Factor: At least annually, management calculates the loss emergence period for each commercial loan segment. The loss emergence period is calculated based upon the average period of time it takes from the probable occurrence of a loss event to the credit being moved to nonaccrual. If the loss emergence period for any commercial loan segment is greater than one year, management applies additional general reserves to all performing loans within that segment of the commercial loan portfolio. The loss emergence period was last updated in the fourth quarter of 2017.

Loss Migration Factor: Park's commercial loans are individually risk graded. If loan downgrades occur, the probability of default increases, and accordingly, management allocates a higher percentage reserve to those accruing commercial loans graded special mention and substandard. Annually, management calculates a loss migration factor for each commercial loan segment for special mention and substandard credits based on a review of losses over the period of time a loan takes to migrate from pass-rated to impaired. The loss migration factor was last updated in the fourth quarter of 2017.

Environmental Loss Factor: Management has identified certain macroeconomic factors that trend in accordance with losses in Park's commercial loan portfolio. These macroeconomic factors are reviewed quarterly and the adjustments made to the environmental loss factor impacting each segment in the performing commercial loan portfolio correlate to changes in the macroeconomic environment. There was no change to the environmental loss factor during the third quarter of 2018.

Generally, consumer loans are not individually graded. Consumer loans include: (1) mortgage and installment loans included in the construction real estate segment of the loan portfolio; (2) mortgage, home equity lines of credit

("HELOC"), and installment loans included in the residential real estate segment of the loan portfolio; and (3) all loans included in the consumer segment of the loan portfolio. The amount of loan loss reserve assigned to these loans is based on historical loss experience over the past 96 months, through December 31, 2017. Management generally considers a one-year coverage period (the "Historical Loss Factor") appropriate because the probable loss on any given loan in the consumer loan pool should ordinarily become apparent in that time frame. However, management may incorporate adjustments to the Historical Loss Factor as circumstances warrant additional reserves (e.g., increased loan delinquencies, improving or deteriorating economic conditions, changes in lending management and changes in underwriting standards). Excluding acquired loans, at September 30, 2018, the coverage level

Table of Contents

within the consumer loan portfolio was approximately 1.88 years compared to 1.92 years at December 31, 2017. Historical loss experience, over the 96-month period ended December 31, 2017, for the consumer loan portfolio was 0.34%.

Loans acquired as part of the acquisition of NewDominion were recorded at fair value on the date of acquisition. An allowance is only established on these NewDominion loans as a result of credit deterioration post acquisition. As of September 30, 2018, there was no allowance related to acquired NewDominion loans.

The judgmental increases discussed above incorporate management's evaluation of the impact of environmental qualitative factors which pose additional risks and assignment of a component of the allowance for loan losses in consideration of these factors. Such environmental qualitative factors include: global, national and local economic trends and conditions; experience, ability and depth of lending management and staff; effects of any changes in lending policies and procedures; and levels of, and trends in, consumer bankruptcies, delinquencies, impaired loans and charge-offs and recoveries. The determination of this component of the allowance for loan losses requires considerable management judgment. Actual loss experience may be more or less than the amount allocated.

Income from fiduciary activities, which represents revenue earned from Park's trust activities, increased by \$486,000, or 8.2%, to \$6.4 million for the three months ended September 30, 2018, compared to \$5.9 million for the same period in 2017 and increased \$2.0 million, or 11.5%, to \$19.5 million for the nine months ended September 30, 2018, compared to \$17.5 million for the same period in 2017. Fiduciary fees charged are generally based on the market value of customer accounts. The average market value for assets under management for the nine months ended September 30, 2018 was \$5,496 million compared to \$4,976 million for the nine months ended September 30, 2017.

Service charges on deposit accounts decreased by \$355,000, or 11.0%, to \$2.9 million for the three months ended September 30, 2018, compared to \$3.2 million for the same period in 2017 and decreased \$902,000, or 9.5%, to \$8.6 million for the nine months ended September 30, 2018, compared to \$9.5 million for the same period in 2017, largely as a result of a decline in non-sufficient funds (NSF) fee income and service charges on demand deposit accounts.

Other service income increased by \$1.3 million, or 13.3%, to \$10.9 million for the nine months ended September 30, 2018, compared to \$9.6 million for the same period of 2017. The primary reason for the increase was the recovery of fees from certain SEPH impaired relationships.

Checkcard fee income increased by \$378,000, or 9.5%, to \$4.4 million for the three months ended September 30, 2018, compared to \$4.0 million for the same period of 2017 and increased \$961,000, or 8.2%, to \$12.7 million for the nine months ended September 30, 2018, compared to \$11.8 million for the same period of 2017. The increases in 2018 were attributable to continued increases in the volume of debit card transactions. The number of transactions for the nine months ended September 30, 2018 increased 7.2% from the same period in 2017.

Bank owned life insurance income increased by \$1.0 million, or 64.3%, to \$2.6 million for the three months ended September 30, 2018, compared to \$1.6 million for the same period of 2017 and increased \$835,000, or 22.0%, to \$4.6 million for the nine months ended September 30, 2018, compared to \$3.8 million for the same period of 2017. The increases were primarily related to fluctuations in income from death benefits paid on policies. Park recorded \$1.5 million of income from death benefits paid on policies for the three months ended September 30, 2018, compared to \$478,000 for the same period of 2017 and recorded \$1.5 million in income from death benefits paid on policies for the nine months ended September 30, 2018, compared to \$478,000 for the same period of 2017.

Gain on sale of OREO, net increased by \$3.9 million, to \$4.1 million for the nine months ended September 30, 2018, compared to \$204,000 for the same period in 2017. The increase was primarily due to a \$4.1 million gain on the sale of one OREO property during the first three months of 2018, which was partially participated to PNB from SEPH.

During the nine months ended September 30, 2018, investment securities with a book value of \$254.3 million were sold at a net loss of \$2.3 million. There were no securities sold during the same period of 2017.

During the nine months ended September 30, 2018, \$33,000 of unrealized losses were recorded within "(Loss) gain on equity securities, net". An additional \$3.5 million gain recorded within "(Loss) gain on equity securities, net" for the nine months ended September 30, 2018 relates to an investment security which was no longer held at September 30, 2018. Prior to January 1, 2018, gains on equity securities were recognized in other comprehensive income. With the adoption of ASU 2016-01 on January 1, 2018, Park recorded an increase of \$1.9 million to beginning retained earnings with all future changes in unrealized gains/loss on equity securities being recorded on the consolidated condensed statement of income.

Other components of net periodic pension benefit income increased by \$257,000, or 17.7%, to \$1.7 million for the three months ended September 30, 2018, compared to \$1.4 million for the same period in 2017 and increased \$771,000, or 17.7%, to \$5.1 million for the nine months ended September 30, 2018, compared to \$4.3 million for the same period in 2017. The increase was largely due to an increase in the expected return on plan assets.

Miscellaneous income decreased by \$522,000 to \$2.9 million for the three months ended September 30, 2018, compared to \$3.4 million for the three months ended September 30, 2017 and increased \$1.2 million to \$6.3 million for the nine months ended September 30, 2018, compared to \$5.1 million for the nine months ended September 30, 2017. The increase for the year-to-date period was primarily related to a \$601,000 increase in rental income from repossessed assets and a \$515,000 increase in net gain on sale of assets for the nine months ended September 30, 2018, compared to the nine months ended September 30, 2017.

Salaries increased by \$3.9 million, or 16.9%, to \$27.2 million for the three months ended September 30, 2018, compared to \$23.3 million for the same period in 2017 and increased by \$7.6 million, or 11.1%, to \$76.7 million for the nine months ended September 30, 2018, compared to \$69.0 million for the same period in 2017. The increase for the three months ended September 30, 2018 was due to a \$1.6 million increase in salary expense related to the acquisition of NewDominion, a \$1.1 million increase in salary expense, a \$556,000 increase in incentive compensation expense, and a \$320,000 increase in share-based compensation expense related to PBR SU awards granted under the 2013 Incentive Plan (prior to 2017) and the 2017 Employee LTIP. The increase for the nine months ended September 30, 2018 was due to a \$1.1 million one-time incentive paid out in March 2018, along with a \$2.3 million increase in salary expense, a \$1.6 million increase in salary expense related to the acquisition of NewDominion, a \$949,000 increase in share-based compensation expense related to PBR SU awards granted under the 2013 Incentive Plan (prior to 2017) and the 2017 Employee LTIP, and a \$1.1 million increase in incentive compensation expense.

Employee benefits increased by \$1.7 million, or 28.8%, to \$7.7 million for the three months ended September 30, 2018, compared to \$5.9 million for the same period in 2017 and increased by \$3.7 million, or 19.8%, to \$22.3 million for the nine months ended September 30, 2018, compared to \$18.6 million for the same period in 2017. The increase for the three months ended September 30, 2018 was primarily due to a \$776,000 increase in group insurance costs, a \$452,000 increase in expense related to Park's voluntary salary deferral plan and a \$277,000 increase in pension service cost expense. The increase for the nine months ended September 30, 2018 was primarily due to a \$1.2 million increase in expense related to Park's voluntary salary deferral plan, a \$1.4 million increase in group insurance costs and a \$832,000 increase in pension service cost expense. The Company matching contribution under the voluntary salary deferral plan was increased from 25% to 50% in March of 2018.

Occupancy expense increased by \$417,000, or 16.3%, to \$3.0 million for the three months ended September 30, 2018, compared to \$2.6 million for the same period in 2017 and increased by \$723,000, or 9.3%, to \$8.5 million for the nine months ended September 30, 2018, compared to \$7.8 million for the same period in 2017. The increases were primarily related to the acquisition of NewDominion and an increase in maintenance and repairs on building and grounds.

Furniture and equipment expense decreased by \$61,000, or 1.6%, to \$3.8 million for the three months ended September 30, 2018, compared to \$3.9 million for the same period in 2017 and increased by \$843,000, or 7.6%, to \$12.0 million for the nine months ended September 30, 2018, compared to \$11.1 million for the same period in 2017. The increases for the nine months ended September 30, 2018 was primarily due to maintenance and repairs on equipment.

Data processing fees increased by \$661,000, or 34.4%, to \$2.6 million for the three months ended September 30, 2018, compared to \$1.9 million for the same period of 2017 and increased by \$695,000, or 12.5%, to \$6.3 million for the nine months ended September 30, 2018, compared to \$5.6 million for the same period 2017. The increases were primarily related to a re-classification of expenses from Professional fees and services as well as an increase in data processing fees related to the acquisition of NewDominion.

Professional fees and services increased by \$2.0 million, or 32.2%, to \$8.1 million for the three months ended September 30, 2018, compared to \$6.1 million for the same period in 2017 and increased \$3.5 million, or 20.2%, to \$20.4 million for the nine months ended September 30, 2018, compared to \$16.9 million for the same period in 2017. The \$467,000 decrease at SEPH for the three months ended September 30, 2018 was the result of a \$307,000 decrease in legal fees and a \$154,000 decrease in management and consulting expense. The \$2.4 million increase at the Park less SEPH operations for the three months ended September 30, 2018 was largely the result of a \$1.5 million increase in management and consulting expense and a \$399,000 increase in other fees at the Parent Company, both primarily related to the acquisition of NewDominion. PNB had a \$668,000 increase in other fees for the three months ended

September 30, 2018, primarily related to activities associated with repossessed assets.

The \$319,000 increase at SEPH for professional fees and services for the nine months ended September 30, 2018 was primarily the result of a \$1.0 million increase in management and consulting fees associated with the collection of payments on certain SEPH impaired loan relationships during the first nine months of 2018, offset by a \$742,000 decrease in legal expense. The \$3.1 million increase at Park less SEPH operations for the nine months ended September 30, 2018 was largely the result of a \$1.5 million increase in management and consulting expense and a \$411,000 increase in legal expense at the Parent Company, both primarily related to the acquisition of NewDominion. PNB had an increase of \$430,000 in management and consulting expense and an increase of \$484,000 in other fees expense, primarily related to activities associated with repossessed assets.

Table of Contents

Miscellaneous expense decreased \$1.1 million, or 39.9%, to \$1.8 million for the three months ended September 30, 2018, compared to \$2.9 million for the same period in 2017 and decreased \$1.0 million, or 15.8%, to \$5.3 million for the nine months ended September 30, 2018, compared to \$6.3 million for the same period in 2017. The decrease for the three months ended September 30, 2018 was primarily the result of a \$1.5 million decrease in contribution expense, and the decrease for the nine months ended September 30, 2018 was primarily the result of a \$1.5 million decrease in contribution expense, partially offset by a \$322,000 increase in fraud losses and a \$183,000 increase in supplies expense.

Income Tax

Federal income tax expense was \$4.7 million for the third quarter of 2018, compared to \$8.4 million for the third quarter of 2017, and was \$16.6 million for the nine months ended September 30, 2018, compared to \$23.6 million for the nine months ended September 30, 2017. Effective January 1, 2018, the federal corporate income tax rate was lowered to 21% from 35%. The effective federal income tax rate for the third quarter of 2018 was 16.0%, compared to 27.6% for the same period in 2017 and the effective federal income tax rate for the nine months ended September 30, 2018 was 16.5%, compared to 27.8% for the nine months ended September 30, 2017. The difference between the statutory federal income tax rate and Park's effective federal income tax rate is due to permanent tax differences, primarily consisting of tax-exempt interest income from investments and loans, the tax benefit of investments in qualified affordable housing projects, bank owned life insurance income, and dividends paid on the common shares held within Park's salary deferral plan. Park expects permanent tax differences for the 2018 year will be approximately \$5.7 million.

Park and its Ohio-based affiliates do not pay state income taxes to the state of Ohio, but Park pays a franchise tax based on Park's year-end equity. The franchise tax expense is included in "state taxes" as part of other expense on Park's Consolidated Condensed Statements of Income.

Total liabilities increased by \$165.9 million, or 2.4%, during the first nine months of 2018 to \$6,947 million at September 30, 2018, from \$6,782 million at December 31, 2017. This increase was primarily due to the following:

Total deposits increased by \$462.0 million, or 7.9%, of which \$268.6 million was due to the acquisition of NewDominion, to \$6,279 million at September 30, 2018, compared to \$5,817 million at December 31, 2017.

Short-term borrowings decreased by \$211.5 million, or 54.0%, to \$179.8 million at September 30, 2018, compared to \$391.3 million at December 31, 2017.

Long-term borrowings decreased by \$100.0 million, or 20.0%, to \$400.0 million at September 30, 2018, compared to \$500.0 million at December 31, 2017.

Total shareholders' equity increased by \$53.0 million, or 7.0%, to \$809.1 million at September 30, 2018, from \$756.1 million at December 31, 2017.

Retained earnings increased by \$41.2 million during the period as a result of net income of \$84.1 million and cumulative effects of changes in accounting principles of \$5.7 million, offset by common share dividends of \$48.3 million.

Treasury shares increased by \$4.5 million during the period as a result of the repurchase of treasury shares, offset by the issuance of treasury shares.

Common shares increased by \$50.0 million during the period as a result of the issuance of common shares related to the acquisition of NewDominion.

Accumulated other comprehensive loss, net of taxes increased by \$33.7 million during the period as a result of unrealized net holding losses on securities available for sale, net of taxes, of \$30.9 million, and the cumulative effects of changes in accounting principles of \$4.8 million, offset by a net realized loss on the sale of securities of \$2.0 million reclassified from accumulated other comprehensive loss.

Increases or decreases in the investment securities portfolio, short-term borrowings and long-term debt are greatly dependent upon the growth in loans and deposits. The primary objective of management is to grow loan and deposit totals. To the extent that management is unable to grow loan totals at a desired growth rate, additional investment securities may be acquired. Likewise, both short-term borrowings and long-term debt are utilized to fund the growth in earning assets if the growth in deposits and cash flow from operations are not sufficient to do so.

Liquidity

Cash provided by operating activities was \$98.1 million and \$66.7 million for the nine months ended September 30, 2018 and 2017, respectively. Net income was the primary source of cash from operating activities for each of the nine months ended September 30, 2018 and 2017.

Cash provided by investing activities was \$65.6 million for the nine months ended September 30, 2018 and cash used in investing activities was \$82.4 million for the nine months ended September 30, 2017. Proceeds from the sale, repayment, or maturity of investment securities provide cash and purchases of investment securities use cash. Net investment securities

Table of Contents

transactions provided cash of \$32.4 million for the nine months ended September 30, 2018 and provided cash of \$15.0 million for the nine months ended September 30, 2017. Another major use or source of cash in investing activities is the net increase or decrease in the loan portfolio. Cash provided by the net decrease in the loan portfolio was \$12.0 million and cash used by the net increase in the loan portfolio was \$95.8 million for the nine months ended September 30, 2018 and 2017, respectively.

Cash used in financing activities was \$188.2 million for the nine months ended September 30, 2018 and cash provided by financing activities was \$319.6 million for the nine months ended September 30, 2017. A major source of cash for financing activities is the net change in deposits. Deposits increased and provided \$177.6 million and \$452.4 million of cash for the nine months ended September 30, 2018 and 2017, respectively. Another major source/use of cash from financing activities is borrowings in the form of short-term borrowings and long-term debt. For the nine months ended September 30, 2018, net short-term borrowings decreased and used \$211.5 million in cash, and net long-term borrowings decreased and used \$100.0 million in cash. For the nine months ended September 30, 2017, net short-term borrowings decreased and used \$201.9 million in cash, while net long-term borrowings increased and provided \$120.0 million in cash. Finally, cash declined by \$47.9 million for the nine months ended September 30, 2018 and \$43.1 million for the nine months ended September 30, 2017, from the payment of dividends.

Effective liquidity management ensures that the cash flow requirements of depositors and borrowers, as well as the operating cash needs of the Corporation, are met. Funds are available from a number of sources, including the securities portfolio, the core deposit base, FHLB borrowings, the capability to securitize or package loans for sale, and a \$50.0 million revolving line of credit with another financial institution, which had no outstanding balance as of September 30, 2018. The Corporation's loan to asset ratio was 72.52% at September 30, 2018, compared to 71.28% at December 31, 2017 and 68.24% at September 30, 2017. Cash and cash equivalents were \$144.6 million at September 30, 2018, compared to \$169.1 million at December 31, 2017 and \$450.4 million at September 30, 2017. Management believes that the present funding sources provide more than adequate liquidity for the Corporation to meet its cash flow needs.

Capital Resources

Shareholders' equity at September 30, 2018 was \$809.1 million, or 10.4% of total assets, compared to \$756.1 million, or 10.0% of total assets, at December 31, 2017 and \$759.4 million, or 9.7% of total assets, at September 30, 2017.

Financial institution regulators have established guidelines for minimum capital ratios for banks, thrifts and bank holding companies. Park has elected not to include the net unrealized gain or loss on AFS debt securities in computing regulatory capital. During the first quarter of 2015, Park adopted the Basel III regulatory capital framework as approved by the federal banking agencies. The adoption of this framework modified the calculation of the various capital ratios, added a new ratio, common equity tier 1, and revised the adequately and well capitalized thresholds under the prompt corrective action regulations applicable to PNB. Additionally, under this framework, in order to avoid limitations on capital distributions, including dividend payments, and repurchases of common shares, Park must hold a capital conservation buffer above the adequately capitalized risk-based capital ratios. The capital conservation buffer is being phased in from 0.0% for 2015 to 2.50% by 2019. The capital conservation buffer for 2018 is 1.875%. The amounts shown below as the adequately capitalized ratio plus capital conservation buffer includes the fully phased-in 2.50% buffer. The Federal Reserve Board has also adopted requirements Park must satisfy to be deemed "well capitalized" and to remain a financial holding company.

Park and PNB met each of the well capitalized ratio guidelines applicable to them at September 30, 2018. The following table indicates the capital ratios for PNB and Park at September 30, 2018 and December 31, 2017.

Contractual Obligations and Commitments

In the ordinary course of operations, Park enters into certain contractual obligations. Such obligations include the funding of operations through debt issuances as well as leases for premises. See page 43 of Park's 2017 Annual Report (Table 38) for disclosure concerning contractual obligations and commitments at December 31, 2017. There were no significant changes in contractual obligations and commitments during the first nine months of 2018.

Financial Instruments with Off-Balance Sheet Risk

PNB is a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include loan commitments and standby letters of credit. The instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated financial statements.

The exposure to credit loss (for PNB) in the event of nonperformance by the other party to the financial instrument for loan commitments and standby letters of credit is represented by the contractual amount of those instruments. PNB uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments. Since many of the loan commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan commitments to customers.

The total amounts of off-balance sheet financial instruments with credit risk were as follows:

| (In thousands) | September 30, 2018 | December 31, 2017 |
|---------------------------|--------------------------|----------------------|
| Loan commitments | \$1,052,880 | \$893,205 |
| Standby letters of credit | \$14,320 | \$13,421 |

ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Management reviews interest rate sensitivity on a monthly basis by modeling the consolidated financial statements under various interest rate scenarios. The primary reason for these efforts is to guard Park from adverse impacts of unforeseen changes in interest rates. Management continues to believe that further changes in interest rates will have a small impact on net income, consistent with the disclosure on page 43 of Park's 2017 Annual Report.

On page 43 (Table 37) of Park's 2017 Annual Report, management reported that Park's twelve-month cumulative rate sensitivity gap was a positive (assets exceeding liabilities) \$407 million or 5.88% of total interest earning assets at December 31, 2017. At September 30, 2018, Park's twelve-month cumulative rate sensitivity gap was a positive (assets exceeding liabilities) \$302 million or 4.24% of total interest earning assets.

Management supplements the interest rate sensitivity gap analysis with periodic simulations of balance sheet sensitivity under various interest rate and what-if scenarios to better forecast and manage the net interest margin. Management uses a 50 basis point change in market interest rates per quarter for a total of 200 basis points per year in evaluating the impact of changing interest rates on net interest income and net income over a twelve-month horizon.

On page 43 of Park's 2017 Annual Report, management reported that at December 31, 2017, the earnings simulation model projected that net income would decrease by 1.8% using a rising interest rate scenario and decrease by 5.2% using a declining interest rate scenario over the next year. At September 30, 2018, the earnings simulation model projected that net income would decrease by 2.4% using a rising interest rate scenario and would decrease by 1.8% in a declining interest rate scenario. At September 30, 2018, management continues to believe that gradual changes in interest rates (50 basis points per quarter for a total of 200 basis points per year) will have a small impact on net income.

ITEM 4 – CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

With the participation of the Chief Executive Officer and President (the principal executive officer) and the Chief Financial Officer, Secretary and Treasurer (the principal financial officer) of Park, Park's management has evaluated the effectiveness of Park's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the quarterly period covered by this Quarterly Report on Form 10-Q. Based on that evaluation, Park's Chief Executive Officer and President and Park's Chief Financial Officer, Secretary and Treasurer have concluded that:

information required to be disclosed by Park in this Quarterly Report on Form 10-Q and other reports that Park files or submits under the Exchange Act would be accumulated and communicated to Park's management, including its principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure;

information required to be disclosed by Park in this Quarterly Report on Form 10-Q and the other reports that Park files or submits under the Exchange Act would be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and

Park's disclosure controls and procedures were effective as of the end of the quarterly period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in Park's internal control over financial reporting (as defined in Rule 13a-5(f) under the Exchange Act) that occurred during Park's fiscal quarter ended September 30, 2018, that have materially affected, or are reasonably likely to materially affect, Park's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

There are no pending legal proceedings to which Park or any of its subsidiaries is a party or to which any of their property is subject, except for routine legal proceedings which Park's subsidiaries are parties to incidental to their respective businesses. Park considers none of those proceedings to be material.

Item 1A. Risk Factors

There are certain risks and uncertainties in our business that could cause our actual results to differ materially from those anticipated. In “ITEM 1A. RISK FACTORS” of Part I of Park’s Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (the “2017 Form 10-K”), we included a detailed discussion of our risk factors. All of these risk factors should be read carefully in connection with evaluating our business and in connection with the forward-looking statements contained in this Quarterly Report on Form 10-Q. Any of the risks described in the 2017 Form 10-K could materially adversely affect our business, financial condition or future results and the actual outcome of matters as to which forward-looking statements are made. These are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

(c) The following table provides information concerning purchases of Park’s common shares made by or on behalf of Park or any “affiliated purchaser” as defined in Rule 10b-18(a)(3) under the Securities Exchange Act of 1934, as amended, during the three months ended September 30, 2018, as well as the maximum number of common shares that may be purchased under Park’s previously announced stock repurchase authorizations to fund the 2017 Long-Term Incentive Plan for Employees (the “2017 Employees LTIP”) and the 2017 Long-Term Incentive Plan for Non-Employee Directors (the “2017 Non-Employee Directors LTIP”) and Park's previously announced 2017 stock repurchase authorization:

| Period | Total number of common shares purchased | Average price paid per common share | Total number of shares purchased as part of publicly announced plans or programs | Maximum number of common shares that may yet be purchased under the plans or programs (1) |
|--|---|-------------------------------------|--|---|
| July 1 through July 31, 2018 | — | \$ — | — | 1,330,000 |
| August 1 through August 31, 2018 | — | — | — | 1,330,000 |
| September 1 through September 30, 2018 | — | — | — | 1,330,000 |
| Total | — | \$ — | — | 1,330,000 |

(1) The number shown represents, as of the end of each period, the maximum number of common shares that may yet be purchased as part of Park’s publicly announced stock repurchase authorizations to fund the 2017 Employees LTIP which became effective on April 24, 2017, and to fund the 2017 Non-Employee Directors LTIP, both of

which became effective on April 24, 2017; and Park's publicly announced 2017 stock repurchase authorization which became effective on January 23, 2017.

At the 2017 Annual Meeting of Shareholders held on April 24, 2017, Park's shareholders approved the 2017 Employees LTIP and the 2017 Non-Employee Directors LTIP. The common shares to be issued and delivered under the 2017 Employees LTIP and the 2017 Non-Employee Directors LTIP may consist of either common shares currently held or common shares subsequently acquired by Park as treasury shares. No newly-issued common shares will be delivered under the 2017 Employees LTIP or the 2017 Non-Employee Directors LTIP. On April 24, 2017, Park's Board of Directors authorized the

purchase, from time to time, of up to 750,000 common shares and 150,000 common shares, respectively, to be held as treasury shares for subsequent issuance and delivery under the 2017 Employees LTIP and the 2017 Non-Employee Directors LTIP.

On January 23, 2017, the Park Board of Directors authorized Park to purchase, from time to time, up to an aggregate of 500,000 Common Shares. Purchases may be made through NYSE American, in the over-the-counter market or in privately negotiated transactions, in each case in compliance with applicable laws and regulations and the rules applicable to issuers having securities listed on NYSE American. Purchases will be made upon such terms and conditions and at such times and in such amounts as any one or more of the authorized officers of Park deem to be appropriate, subject to market conditions, regulatory requirements and other factors, and in the best interest of Park and Park's shareholders. The January 23, 2017 stock repurchase authorization is distinct from the stock repurchase authorizations to fund the 2017 Employees LTIP and the 2017 Non-Employee Directors LTIP.
