**REGAL-BELOIT REPORTS 52% INCREASE  
IN FIRST QUARTER EARNINGS PER SHARE**

April 28, 2005 (Beloit, WI): REGAL-BELOIT CORPORATION (NYSE:RBC) today announced its first quarter 2005 financial results.

Net income in the first quarter of 2005 was \$12.3 million, a 78% increase from \$6.9 million reported in the first quarter of 2004. Earnings per share were \$.41 for the first quarter as compared to \$.27 in the comparable period of 2004. This was an increase of 52% after the impact of 5.3 million additional shares outstanding. The added shares were a result of the shares issued to General Electric as part of the consideration paid for the acquisition of the HVAC Motors and Capacitors business and the dilutive effect of the Company's April 2004 convertible senior subordinated debt offering.

First quarter net sales of the Company increased 107.1% to \$337.8 million from \$163.1 million in the first quarter of 2004. Excluding the impact of the Commercial AC Motors and HVAC Motors and Capacitors acquisitions of 2004, sales were \$182.8 million, an increase of 12.1%. The Company continued to see strong demand throughout the Company's markets. Sales in the Electrical segment, excluding the impact of the acquisitions, increased 15.5%. Sales in the Mechanical segment increased 3.6%.

Income from operations increased 108.9% to \$25.9 million from \$12.4 million reported for the first quarter of 2004. Income from operations as a percent of net sales for the first quarter of 2005 was 7.7%, as compared to the 7.6% reported in the first quarter last year. The Company's operations continued to be impacted by raw material inflation in the first quarter of 2005, which offset price increases and productivity improvements.

The Company's long-term debt increased to \$563.6 million at the end of the first quarter of 2005 from \$547.4 million at the end of the fourth quarter of 2004. The increase was primarily due to an increase in working capital requirements to support the strong sales volume and higher levels of capital spending.

"We are extremely pleased with the performance of our Company in the first quarter," said Henry W. Knueppel, President and CEO. "Our legacy electrical businesses achieved improved performance on solid revenue growth and the results from the acquisitions were strong and consistent with our previously announced guidance. While raw material costs continue to be a concern, we are confident in our ability to continue to execute our strategic initiatives and improve the margins of our businesses. The increase in the quarterly dividend announced this morning is another demonstration of our confidence in our ability to deliver strong financial results."

"Earnings for the second quarter are projected to be in a range of \$.60- \$.64 per share using the first quarter's average diluted shares," Knueppel added. "This guidance reflects the somewhat seasonal nature of the sales of the HVAC motor business and reflects our continued confidence in our legacy businesses and the earnings guidance previously provided for the acquisitions."
