THE INTERGROUP CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. General

The consolidated financial statements included herein are unaudited; however, in the opinion of The InterGroup Corporation ("InterGroup" or the "Company"), the interim financial information contains all adjustments, including normal recurring adjustments, necessary to present fairly the results for the interim period. These consolidated financial statements include the accounts of the Company and its subsidiaries and should be read in conjunction with the Company's June 30, 2004 audited consolidated financial statements and notes thereto.

As of December 31, 2004, the Company had the power to vote 75.5% of the voting shares of Santa Fe Financial Corporation ("Santa Fe"), a public company (OTCBB: SFEF). Santa Fe's revenue is primarily generated through the management of its 68.9% owned subsidiary, Portsmouth Square, Inc. ("Portsmouth"), a public company (OTCBB: PRSI), which derives its revenue primarily as a general partner and a 49.8% limited partner in Justice Investors, a California limited partnership ("Justice" or the "Partnership"). Justice owns the land, improvements and leaseholds commonly known as the Holiday Inn Select Downtown & Spa, a 565-room hotel in San Francisco, California (the "Hotel").

The results of operations for the three and six months ended December 31, 2004 are not necessarily indicative of results to be expected for the full fiscal year ending June 30, 2005.

Earnings Per Share

Basic earnings per share is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding. The computation of diluted earnings per share is similar to the computation of basic earnings per share except that the weighted-average number of common

Edgar Filing: INTERGROUP CORP - Form 10QSB

shares is increased to include the number of additional common shares that would have been outstanding if potential dilutive common shares had been issued. The Company's only potentially dilutive common shares are stock options. Stock options are included in diluted earnings per share by application of the treasury stock method. As of December 31, 2004, the Company had 367,500 stock options that were considered potentially dilutive common shares and 25,500 stock options that were considered anti-dilutive. These amounts were included in the calculation for diluted earnings per share.

Stock-Based Compensation Plans

Effective December 15, 2002, the Company adopted Statement of Financial Accounting Standards No. 148, "Accounting for Stock-Based Compensation-Transition and Disclosure", which amends Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" (SFAS 148). In accounting for its plans, the Company, as allowable under the provisions of SFAS 148, applies Accounting Principles Board Opinions No. 25, "Accounting for Stock issued to Employees." As a result of this election, the Company does not recognize compensation expense for its stock option plans. Had the Company determined compensation cost based on the fair value for its stock options at grant date (based on 16,500 during the six months ended December 31, 2004), net income and earnings per share would have been reduced to the pro forma amounts as follows:

-7-

Net income	\$ 2,725,000
Stock based employee Compensation expense*	(68,000)

Pro forma net income	\$ 2,657,000
	=====
Earnings per share	
Basic as reported	\$ 1.10
Basic pro forma	\$ 1.07
Diluted as reported	\$ 0.96
Diluted pro forma	\$ 0.93

*Determined based on the fair value method for awards net of related tax effects (40%).

The Black-Scholes option pricing model was used with the following weighted-average assumptions for the six months ended December 31, 2004; risk-free interest rate of 3.01%; dividend yield of 0%; expected Common Stock market price volatility factor of 25.89; and a weighted-average expected life of the options of 10 years. The weighted-average fair value of options granted during the six months ended December 31, 2004 was \$6.93 per option. The aggregate fair value of the options granted in during the six months ended December 31, 2004 was \$114,000.

The Company is currently evaluating the impact of Financial Accounting Standard 123R, "Share-Based Payments".

2. Investment in Real Estate

In September 2004, the Company sold its 442-unit multi-family apartment complex located in Houston, Texas for \$11,850,000. The Company realized a gain of \$6,006,000 and received net proceeds of \$1,364,000 after repayment of the mortgage on the property, selling costs and attorneys' fees.

Edgar Filing: INTERGROUP CORP - Form 10QSB

Under the provisions of the Statement of Financial Accounting Standards No.144, Accounting for Impairment or Disposal of Long-Lived Assets, the sale of the Houston, Texas property is required to be accounted for as a discontinued operation. The revenues and expenses from the operation of the property have been reclassified from continuing operations for the three and six months ended December 31, 2004 and 2003 and reported as income from discontinued operations in the consolidated statements of operations. Revenues and expenses from the operation of the property for the three and six months ended December 31, 2004 and 2003 are summarized as follows:

For three months ended December 31,	2004	2003

3. Marketable Securities:

The Company's investment portfolio consists primarily of corporate equities. The Company has also invested in corporate bonds and income producing securities, which may include interests in real estate based companies and REITs, where financial benefit could inure to its shareholders through income and/or capital gain.

At December 31, 2004, all of the Company's marketable securities are classified as trading securities. In accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities," the change in the unrealized gains and losses on these investments are included earnings. Trading securities are summarized as follows:

As of December 31, 2004

-----	-----	-----	-----	-----	-----
Corporate					
Equities	\$52,026,000	\$17,770,000	(\$3,270,000)	\$14,500,000	\$66,526,000

Marketable securities are stated at market value as determined by the most recently traded price of each security at the balance sheet date. Marketable securities are classified as trading with net change in unrealized gains or

Edgar Filing: INTERGROUP CORP - Form 10QSB

losses included in earnings.

As part of the investment strategies, the Company may assume short positions in marketable securities. Short sales are used by the Company to potentially offset normal market risks undertaken in the course of its investing activities or to provide additional return opportunities. The Company has no naked short positions. As of December 31, 2004, the Company had obligations for securities sold (equities short) of \$15,295,000.

The Company may utilize margin for its marketable securities purchases through the use of standard margin agreements with national brokerage firms. The use of available leverage is guided by the business judgment of management.

Included in the net gains on marketable securities of \$6,705,000 for the three months ended December 31, 2004 are net unrealized gains of \$6,324,000 and net realized gains of \$381,000. Included in the net gains on marketable securities of \$6,583,000 for the three months ended December 31, 2003 are net unrealized gains of \$2,911,000 and net realized gains of \$3,672,000. There were no gross unrealized losses on any securities held which existed for more than one year.

Included in the net gains on marketable securities of \$2,078,000 for the six months ended December 31, 2004 are net unrealized gains of \$1,573,000 and net realized gains of \$505,000. Included in the net gains on marketable securities of \$8,611,000 for the six months ended December 31, 2003 are net unrealized gains of \$5,319,000 and net realized gains of \$3,292,000. There were no gross unrealized losses on any securities held which existed for more than one year.

4. Investment in Justice Investors:

The consolidated accounts include a 49.8% interest in Justice Investors, a California limited partnership ("Justice" or the "Partnership"), in which Portsmouth serves as one of the two general partners. The other general partner, Evon Corporation ("Evon"), serves as the managing general partner. Justice owns the land, improvements and leaseholds at 750 Kearny Street, San Francisco, California, commonly known as the Holiday Inn Select Downtown & Spa (the "Hotel"). Portsmouth records its investment in Justice on the equity basis.

-9-

The Company amortizes the step up in the asset values allocable to the depreciable assets of its investment in Justice Investors over 40 years, which approximates the remaining life of the primary asset, the hotel building.

Historically, Justice's most significant income source was a lease between the Partnership and Felcor Lodging Trust, Inc. ("Felcor") for the hotel portion of the property. Pursuant to a Settlement Agreement entered into on May 3, 2004, Felcor agreed to terminate its lease and surrender possession of the Hotel to Justice, on June 30, 2004. Effective July 1, 2004, Justice became the owner-operator of the Hotel, with the assistance of a Management Agreement with Dow Hotel Company, LLC. ("Dow") to perform the day-to-day management functions of the Hotel. The Partnership also derives income from the lease of the garage portion of the property to Evon and from a lease on the lobby level of the Hotel to Tru Spa. The Company also derives revenue from management fees from Justice for actively managing the hotel as a general partner.

As a general and limited partner, Portsmouth has significant control over the management and operation of the assets of Justice Investors. All significant partnership decisions require the active participation and approval of both general partners. The Company and Evon jointly consult and determine the

Edgar Filing: INTERGROUP CORP - Form 10QSB

amount of partnership reserves and the amount of cash to be distributed to the limited partners.

Pursuant to the terms of the partnership agreement, voting rights of the partners are determined according to the partners' entitlement to share in the net profit and loss of the partnership. The Company is not entitled to any additional voting rights by virtue of its position as a general partner. The partnership agreement also provides that no portion of the partnership real property can be sold without the written consent of the general and limited partners entitled to more than 72% of the net profit.

In May of 2004, a \$5,000,000 settlement payment was made to Justice from the hotel lessee to resolve disputes regarding certain obligations of Felcor and others under the terms of the Hotel Lease. That settlement payment is being held in a separate partnership account and will be applied towards the costs of capital repairs, replacements and improvements necessary to place the hotel in the condition required by the Hotel Lease at the end of its term. The Partnership expects to utilize all of the settlement proceeds for such during fiscal 2005, which may impact the Company's equity in net income of Justice Investors for fiscal 2005.

On December 10, 2004, Justice entered into a Franchise License Agreement for the right to operate the Hotel property as a Hilton brand hotel. Prior to operating the hotel as a Hilton, the Partnership is required to make substantial renovations to the hotel to meet Hilton standards in accordance with a product improvement plan agreed upon by Hilton and the Partnership, as well as complying with other brand standards. The Partnership estimates that the cost of the renovations will range from approximately \$22 million to \$24 million. The Agreement requires that those renovations be complete and the Hotel commence operations as a Hilton hotel no later than June 1, 2006. The term of the Agreement is for a period of 15 years commencing on the opening date, with an option to extend the license term for another five years, subject to certain conditions.

The Company amortizes the step up in the asset values allocable to the depreciable assets of its investment in Justice Investors over 40 years, which approximates the remaining life of the primary asset, the hotel building.

-10-

For the Company's investment in Justice, to the extent that projected future undiscounted cash flows from the operation of the Hotel property are less than the carrying value of the asset, the investment would be considered permanently impaired and the carrying value of the asset would be reduced to its fair value.

Item 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS AND PROJECTIONS

The discussion below and elsewhere in the Report includes forward-looking statements about the future business results and activities of the Company, which, by their very nature, involve a number of risks and uncertainties. When used in this discussion, the words "estimate", "project", "anticipate" and similar expressions, are subject to certain risks and uncertainties, such as the impact of terrorism and war on the national and international economies, including tourism and the securities markets, changes in general economic conditions, interest rates, local real estate markets, and competition, as well as uncertainties relating to uninsured losses, securities markets, and litigation, including those discussed below and in the Company's Form 10-KSB for the fiscal year ended June 30, 2004 that could cause actual results to differ materially from those projected. Readers are cautioned not to place undue reliance on these forward-looking statements. The Company undertakes no obligation to publicly release the results of any revisions to those forward-looking statements, which may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.

RESULTS OF OPERATIONS

For the Three Months Ended December 31, 2004 Compared to the
Three Months Ended December 31, 2003

The Company had net income of \$1,927,000 for the three months ended December 31, 2004 compared to net income of \$1,956,000 for the three months ended December 31, 2003. The decrease in net income was primarily due to the increase in the loss from real estate operations, the change in equity in income(loss) of Justice Investors to a loss and the increase in minority interest, partially offset by the increase in net investment gains, the

Edgar Filing: INTERGROUP CORP - Form 10QSB

decrease in margin interest and trading expenses and the decrease in general and administrative expenses.

Rental income increased to \$3,508,000 for the three months ended December 31, 2004 from \$2,467,000 for the three months ended December 31, 2003 primarily due to the inclusion of rental income in the current quarter of the Company's 358-unit apartment in Las Colinas, Texas that was acquired in April 2004 and the exclusion from rental income in the comparable quarter of the Houston, Texas property that was sold in September 2004. The revenues and expenses of the Houston, Texas property were excluded from the real estate operations and required to be included under discontinued operations. The increase in rental income was partially offset by the reduction in rental income from the Company's Austin and Irving, Texas properties. The reduction in rental income from these two properties was due to higher vacancies and higher rent concessions given to tenants as the result of the soft rental market. Property operating expenses increased to \$1,699,000 from \$1,488,000 primarily as the result of the inclusion of operating expenses related to the new property in the current quarter. Mortgage interest expense increased to \$1,111,000 from \$863,000 primarily due to the addition of a \$20,000,000 mortgage related to the purchase of the Las Colinas, Texas property partially offset by the repayment of the \$1,180,000 mortgage on the Irving, Texas property. Real estate taxes and depreciation expense also increased primarily as the result of the purchase of the Las Colinas, Texas property. The amortization expense of \$166,000 was due to the amortization of the intangible asset acquired along with the purchase of the Las Colinas, Texas property.

-14-

Equity in net income(loss) of Justice Investors changed to a loss of \$357,000 from income of \$236,000. Effective July 1, 2004, Justice became the owner-operator of the Hotel rather than a lessor. Thus, the Partnership net income for the three months ended December 31, 2004 includes the direct operating results of the Hotel, whereas in the prior year Justice received rental income from Felcor pursuant to a lease. The net operating loss from the Hotel for the three months ended December 31, 2004 was approximately \$490,000 while the Partnership received approximately \$625,000 in rent from the Hotel lease for the three months ended December 31, 2003. The overall decrease in Partnership net income was primarily attributable to the net operating loss from the Hotel and increased costs in the current quarter related to professional fees for the repositioning of the Hotel and additional depreciation and interest costs related to the build-out of the new spa and meeting rooms in the Hotel and other capital improvements.

Average daily room rates for the Hotel decreased to approximately \$88 for the three months ended December 31, 2004, compared to approximately \$92 for the three months ended December 31, 2003, while average monthly occupancy rates remained relatively flat at approximately 64%. Those results primarily reflect the inability of the Hotel to currently meet its competition. The Hotel is facing more competition from new properties and from higher end properties that provide greater amenities to its guests, especially for the business traveler. The Partnership is committed to making the Hotel competitive in its market by undertaking a significant renovation of the property and entering into a new License Agreement to operate the Hotel as a Hilton Brand hotel after the renovation is complete. In addition, the hotel business in the San Francisco Bay Area has lagged behind the recovery seen in other major cities in the United States due to the continued weakness in the local economy and a decline in international travel.

Net investment gains on marketable securities increased to \$6,705,000 for the three months ended December 31, 2004 from \$6,583,000 for the three months ended December 31, 2003. For the three months ended December 31, 2004, the Company

Edgar Filing: INTERGROUP CORP - Form 10QSB

had net unrealized gains of \$6,324,000 and net realized gains of \$381,000. For the three months ended December 31, 2003, the Company had net unrealized gains of \$2,911,000 and net realized gains of \$3,672,000. Gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net income. However, the amount of gain or loss on marketable securities for any given period may have no predictive value and variations in amount from period to period may have no analytical value. For a more detailed description of the composition of the Company's marketable securities please see the Marketable Securities section below.

During the quarter, the Company recorded an impairment loss of \$258,000 related to a private placement investment.

Margin interest and trading expenses decreased to \$824,000 from \$1,932,000 primarily due to the decrease in the performance-based compensation earned by the Company's CEO for his management of the Company's investment portfolio to \$320,000 from \$1,192,000. Margin interest expense also decreased to \$209,000 from \$348,000 and trading expenses decreased to \$293,000 from \$392,000.

General and administrative expenses decreased to \$321,000 from \$483,000 primarily to due to the reduction of annual corporate tax preparation fees to \$30,000 from \$120,000. Management continues to make efforts to reduce general and administrative expenses across the board.

Other income decreased to \$8,000 from \$49,000 primarily due to the one time receipt of \$36,000 in administrative fees for services provided by management to a third party during the three months ended December 31, 2003.

-15-

Minority interest expense increased to \$596,000 from \$444,000 due to the higher income generated by the Company's subsidiary, Santa Fe, in the current quarter.

The Company had net income of \$2,725,000 for the six months ended December 31, 2004 compared to net income of \$2,557,000 for the six months ended December 31, 2003. The increase in net income was primarily due to the gain on sale of real estate, the decrease in margin interest and trading expenses, the increase in dividend and interest income, the decrease in general and administrative expenses and the decrease in minority interest expense partially offset by the decrease in net investment gains, the higher loss from real estate operations, the change in the equity in net income(loss) from Justice Investors to a loss and the impairment loss on other investments.

Rental income increased to \$7,012,000 for the six months ended December 31, 2004 from \$5,346,000 for the six months ended December 31, 2003 primarily due to the inclusion of rental income in the six months ended December 31, 2004 of the Company's 358-unit apartment in Las Colinas, Texas that was acquired in April 2004 and the exclusion from rental income in the comparable six months ended December 31, 2003 of the Houston, Texas property that was sold in September 2004. Mortgage interest expense increased to \$2,176,000 from \$1,606,000 primarily due to the addition of a \$20,000,000 mortgage related to the purchase of the Las Colinas, Texas property partially offset by the repayment of the \$1,180,000 mortgage on the Irving, Texas property. Real estate taxes and depreciation expense also increased primarily as the result of the purchase of the Las Colinas, Texas property. The amortization expense of \$333,000 was due to the amortization of the intangible asset acquired along with the purchase of the Las Colinas, Texas property.

The Company incurred a loss on early termination of debt in the amount of \$133,000 as the result of the repayment of the \$1,180,000 mortgage on its property located in Irving, Texas in August 2004.

In September 2004, the Company sold its 442-unit multi-family apartment complex located in Houston, Texas for \$11,850,000. The Company realized a gain of \$6,006,000 on the sale. The gain on the sale and the operations of the property for the six months ended December 31, 2004 and 2003 were required to be reported as discontinued operations on the Statement of Operations.

Equity in net income(loss) of Justice Investors changed to a loss of \$280,000 compared to income of \$444,000. Effective July 1, 2004, Justice became the owner-operator of the Hotel rather than a lessor. Thus, the Partnership net income for the first six months of fiscal 2005 includes the direct operating results of the Hotel, whereas in the prior year Justice received rental income from Felcor pursuant to a lease. six months ended December 31, 2004 was approximately \$185,000, while the Partnership received approximately \$1,250,000 in rent from the Hotel lease for the six months ended December 31, 2003. The overall decrease in Partnership net income was primarily attributable to the net operating loss from the Hotel and increased costs in the current quarter related to professional fees for the repositioning of the Hotel and additional depreciation and interest costs related to the build-out of the new spa and meeting rooms in the Hotel and other capital improvements.

Average daily room rates for the Hotel increased modestly to approximately \$93 for the six months ended December 31, 2004, compared to approximately \$91 for the six months ended December 31, 2003, while average monthly occupancy rates decreased to approximately 69% compared to approximately 72% in the prior year. Those results primarily reflect the inability of the Hotel to currently meet its competition. The Hotel is facing more competition from new properties and from higher end properties that provide greater amenities to its guests, especially for the business traveler. The Partnership is committed to making the Hotel competitive in its market by undertaking a significant renovation of the property and by entering into a new Franchise License Agreement to operate the Hotel as a Hilton Brand hotel after the renovation is complete. In addition, the hotel business in the San Francisco Bay Area has lagged behind the recovery seen in other major cities in the United States due to the continued weakness in the local economy and a decline in international travel.

Net investment gains on marketable securities decreased to \$2,078,000 for the six months ended December 31, 2004 from \$8,611,000 for the six months ended December 31, 2003. During the six months ended December 31, 2004, operating activities generated cash of \$403,000, investing activities provided cash of \$8,526,000 and financing activities used cash of \$8,701,000.

During the six months ended December 31, 2004, the Company made property improvements in the aggregate amount of \$1,813,000. Management believes the improvements to its properties will enhance market values, maintain the competitiveness of the Company's properties and potentially enable the Company to obtain a higher yield through higher rents.

In September 2004, the Company sold its 442-unit multi-family apartment complex located in Houston, Texas for \$11,850,000. The Company realized a gain of \$6,006,000 and received net proceeds of \$1,364,000 after repayment of the

mortgage of \$9,832,000 on the property, selling costs and attorneys' fees.

In August 2004, the Company repaid the mortgage in the amount of \$1,180,000 on its 54-unit multi-family apartment located in Irving, Texas. Related to the repayment of the mortgage, the Company incurred an early termination fee of \$133,000.

In August 2004, the Company purchased an approximately two acre parcel of unimproved land in Kihei, Maui, Hawaii for \$1,450,000. The land will be held for sale or development. To facilitate the purchase of the property, the Company obtained a loan in the amount of \$750,000 with the balance of the purchase price paid in cash. The loan is for a term of three years at a floating interest rate equal to the bank's base rate (currently 4.5%) plus 1%. Interest only is payable monthly.

The Company's Board of Directors has given the Company the authority to repurchase, from time to time, shares of its Common Stock. Such repurchases may be made at the discretion of management and depending on market conditions. During the six months ended December 31, 2004, the Company purchased 60,000 shares of its stock for \$803,000.

The Company has invested in short-term, income-producing instruments and in equity and debt securities when deemed appropriate. The Company's marketable securities are classified as trading with unrealized gains and losses recorded through the statement of operations.

Management believes that the net cash flow generated from future operating activities and its capital resources will be adequate to meet its current and future obligations.

OFF-BALANCE SHEET ARRANGEMENTS

The Company has no off balance sheet arrangements.

The Company also does not have any material contractual obligations or commercial commitments.

IMPACT OF INFLATION

The Company's residential and commercial rental properties provide income from short-term operating leases and no lease extends beyond one year. Rental increases are expected to offset anticipated increased property operating expenses.

Hotel room rates are typically impacted by supply and demand factors, not inflation, since rental of a hotel room is usually for a limited number of nights. Room rates can be, and usually are, adjusted to account for inflationary cost increases. To the extent that the hotel lessee is able to adjust room rates, there should be minimal impact on partnership revenues due to inflation. Partnership revenues are also subject to interest rate risks, which may be influenced by inflation. For the two most recent fiscal years, the impact of inflation on the Company's income is not viewed by management as material.

CRITICAL ACCOUNTING POLICIES

Edgar Filing: INTERGROUP CORP - Form 10QSB

The Company reviews its long-lived assets and other investments for impairment when circumstances indicate that a potential loss in carrying value may have occurred. To the extent that projected future undiscounted cash flows from the operation of the Company's hotel property, owned through the Company's investment in Justice Investors, and rental properties are less than the carrying value of the asset, the carrying value of the asset is reduced to its fair value. For other investments, the Company reviews the investment's operating results, financial position and other relevant factors to determine whether the estimated fair value of the asset is less than the carrying value of the asset.

Marketable securities are stated at market value as determined by the most recently traded price of each security at the balance sheet date. Marketable securities are classified as trading with net unrealized gains or losses included in earnings.
