Magic Software Wins an iBOLT Portal Deal

with Vodafone Netherlands

Portal Solution to Be Used To Enhance Service Management Platform

Houten, Netherlands (July 19, 2004) Magic Software Enterprises (Nasdaq: MGIC), a leading provider of state-of-the-art business integration and development technology, announced the signing of an iBOLT Portal deal with Vodafone Netherlands, one of Netherlands leading telecommunication companies. In this engagement, iBOLT Portal will be used to enhance a Service Management platform, to provide real time information and services to internal support and operations personnel.

The portal will help to increase the level and quality of service that customers receive. It will provide the ability to target and prioritize customer groups and users, such as corporate customers and monitor services received with special login areas and work zones. Various departments including customer services, marketing, product management, operations and corporate customer support are expected to use the system.

The iBOLT Portal in conjunction with other technologies will be implemented by one of the biggest system integrators in the market as part of a solution providing an end-to-end real time view of services that customers are receiving. Using this system, it is expected that customers will receive better customer service and improved operational efficiency.

We are pleased to receive this endorsement from one of the largest telecom companies in the world, said Regev Yativ, Managing Director of Magic EMEA; iBOLT Portal was chosen based on its unique and advanced architecture and following a significant product evaluation managed by top technology and business experts. We expect iBOLT Portal to play a significant role in enhancing the organization's customer services and operations, and help generate more satisfied customers, better revenue and ROI. The iBolt offering was chosen by many organizations for complicated and mission critical tasks and we are very pleased with the growing number of satisfied iBolt customers in EMEA.

About Magic Software Enterprises

Magic Software Enterprises, a subsidiary of Formula Systems (**Nasdaq: FORTY**), develops, markets and supports software development, deployment and integration technology that enables enterprises to accelerate the process of building and deploying applications that can be rapidly customized and integrated with existing systems.
