- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 7.01 Regulation FD Disclosure

Pursuant to Item 7.01, "Regulation FD Disclosure", information is being furnished with respect to The J. M. Smucker Company's voluntary odd-lot program for its eligible shareholders, which will allow shareholders with fewer than 100 shares to either sell all of their shares or to purchase additional shares to

Edgar Filing: SMUCKER J M CO - Form 8-K

increase their holdings to 100 shares. Eligible shareholders are those registered and beneficial shareholders owning fewer than 100 Smucker common shares. The program will be in affect from October 14, 2004 through November 12, 2004, unless extended or earlier terminated.

The actual price per share eligible shareholders will receive or pay will be determined by the date that the shareholder's authorization to participate in the program is received in good order by Computershare Investor Services LLC, and cannot be guaranteed in advance. The odd-lot program has been divided into two pricing periods:

- Pricing Period 1: October 14, 2004 through October 28, 2004
- Pricing Period 2: October 29, 2004 through November 12, 2004

Shares submitted for sale will be matched to shares requested for purchase by other participating shareholders. If more shares are requested for sale than for purchase, shareholders will receive or pay the average of the closing market price for The J. M. Smucker Company common shares as reported on the New York Stock Exchange for the respective pricing period. The Company will repurchase these net sales of shares, which will represent a portion of the one million shares the Company's Board of Directors authorized the repurchase of in August 2004.

If more shares are requested for purchase than for sale, the balance of shares not matched will be purchased in the open market throughout the respective pricing period and a few days afterward. A weighted average price will be determined by these market trades for the respective pricing period, and that is the price shareholders will receive or will pay. Weighted averaging means the per share price is obtained by dividing the aggregate dollar amount of all purchases of shares for the participants during the respective pricing period by the total number of shares purchased on behalf of such participants during the pricing period.

A copy of the press release announcing the odd-lot program, dated October 13, 2004, is attached to this Current Report on Form 8-K as Exhibit 99, and is incorporated herein by reference.
