Forward-Looking Statements

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The words expect, anticipate, estimate, forecast, initiative, objective, plan, goal, project, priorities, target, intend, evaluate, pursue, commence, seek, may, would, could, should, believe, and the negative of any of those words or similar expressions is intended to identify forward-looking statements. All statements contained in this presentation, other than statements of historical fact, including without limitation, statements about our plans, strategies, prospects and expectations regarding future events and our financial performance, are forward-looking statements that involve certain risks and uncertainties. While these statements represent our current judgment on what the future may hold, and we believe these judgments are reasonable, these statements are not guarantees of any events or financial results, and our actual results may differ materially. Important factors that could cause our actual results to be materially different from our expectations include, among others, the risk that CIT is unsuccessful in its efforts to complete the remaining stages of its business restructuring, the risk that CIT is delayed in completing its management changes, the risk that CIT is delayed in completing its transition to a bank-centric business model, and the risk that CIT continues to be subject to liquidity constraints and higher funding costs. Further, there is a risk that the valuations resulting from our fresh start accounting analysis, which are inherently uncertain and still subject to change, will differ significantly from our expectations, due to the complexity of the valuation process, the degree of judgment required, and the amount of work still remaining. Accordingly, you should not place undue reliance on the forward-looking statements contained in this presentation. These forward-looking statements speak only as of the date on which the statements were made. More detailed information about these factors are described in CIT's filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the year ended December 31, 2009 and its Quarterly Report on Form 10-Q for the quarter ended March 31, 2010. CIT is under no obligation to (and expressly disclaims any such obligation to) update or alter its forward-looking statements, whether as a result of new information, future events or otherwise.
