**Report of Independent Registered Public Accounting Firm**

To the Partners of  
Laureate Pharma L.P.

We have audited the accompanying balance sheets of Laureate Pharma L.P. (the Partnership ) as of December 31, 2003 and 2002, and the related statements of operations and partners (deficit) capital and cash flows for the years then ended. These financial statements are the responsibility of the Partnership s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the auditing standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Laureate Pharma L.P. at December 31, 2003 and 2002, and the results of its operations and its cash flows for the years then ended in conformity with United States generally accepted accounting principles.

Laureate Pharma L.P.  
Notes to Financial Statements

**1. Organization and Basis of Presentation**

Laureate Pharma L.P. (the Partnership) is a Delaware limited partnership that performs contract manufacturing services to support the development and commercialization of pharmaceutical products for pharmaceutical and biopharmaceutical companies. The Partnership is the successor to Bard Biopharma L.P. as of March 23, 2002. Laureate Pharma Inc. is the general partner of the Partnership. The limited partner is BR Holdings Associates L.P., a Delaware limited partnership.

An associated company funds the Partnership to support operations, provide liquidity and for other needs in the form of non-interest bearing advances, which amounts are included in the due to associated companies liability balance. The associated company will continue to extend this funding through at least October 31, 2005.

**2. Significant Accounting Policies**

*Use of Estimates*

The preparation of financial statements in conformity with United States generally accepted accounting principles requires the Partnership's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

*Inventories Laboratory Supplies*

Inventories are stated at the lower of cost or market, computed using the first-in, first-out (FIFO) method.

*Machinery and Equipment*

Machinery and equipment are stated at cost. Depreciation is provided principally using the straight-line method over the estimated useful lives of the related assets, as follows:

Machinery and equipment	10 years
Furniture and fixtures	10 years
Computer software and equipment	5 years
Leasehold improvements	14 to 20 years

Leasehold improvements are depreciated over the lesser of the assets' useful lives or the term of the lease.

*Long-Lived Assets*

In accordance with Statement of Financial Accounting Standards (SFAS) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Partnership evaluates the carrying value of its long-lived assets in relation to the estimated undiscounted cash flows of the underlying businesses if impairment indicators are present. If the undiscounted expected cash flow is less than the carrying amount, an impairment loss is recognized to reduce the carrying amount to fair value. See Note 3. Machinery and Equipment.

*Bank Overdrafts*

The Partnership classifies all bank overdrafts as accounts payable. Included in accounts payable at December 31, 2003 and 2002 were bank overdrafts of \$182,000 and \$90,000, respectively.

*Revenue Recognition*

Service based revenue is recognized as work is performed or completed, and payment is assured, in accordance with individual customer contracts. Billings in excess of revenue are recorded as deferred income until earned.

**Table of Contents***Income Taxes*

The Partnership is not subject to any federal or state income taxes, nor is it entitled to any financial statement tax benefits resulting from operating losses. Income taxes, which may be payable by the partners based upon their share of taxable income, have not been reflected in the accompanying financial statements.

*Business Concentrations*

In 2003, four customers accounted for approximately 95% of accounts receivable-trade and 80% of service revenues. In 2002, two customers accounted for approximately 90% of service revenues and 100% of accounts receivable-trade.

Credit is extended to customers based on an evaluation of their financial condition to reduce the risk of loss, and collateral is not generally required. The Partnership maintains allowances for doubtful accounts for estimated losses resulting from the inability of customers to make required payments. Past due status of accounts receivable is determined primarily based upon contractual terms and uncollectible trade accounts receivable are written-off once it is deemed that the accounts will not be collected.

*Fair Values of Financial Instruments*

The Partnership's financial instruments include cash, accounts receivable and accounts payable. All of these financial instruments are accounted for on an historical cost basis, which, due to the nature of these instruments, approximates fair value at the balance sheet dates.

*Accounting Developments*

In December 2003, the Financial Accounting Standards Board ( FASB ) revised Statement of Financial Accounting Standards No. 132, *Employers' Disclosures about Pensions and Other Postretirement Benefits* ( SFAS No. 132R ) to expand the disclosure requirements relating to pension plans and other postretirement benefit plans. The Partnership is required to adopt SFAS No. 132R effective January 1, 2004. As the requirements of SFAS No. 132R are disclosure related only, the adoption of the standard will not impact the Partnership's financial statements. See Note 6. Pension, Postretirement and Defined Contribution Benefit Plans .

**3. Machinery and Equipment**

	<b>December 31,</b>	
	<b>2003</b>	<b>2002</b>
	<i>(In thousands)</i>	
Machinery and equipment	<b>\$ 12,164</b>	\$ 19,943

Leasehold improvements	<b>15,795</b>	14,552
Furniture and fixtures	<b>836</b>	831
Construction in progress	<b>3,144</b>	1,755

As of December 31, 2003, the Partnership had commitments for capital expenditures aggregating approximately \$650,000.

The Partnership has reviewed its long-lived assets and has determined that the carrying values of certain manufacturing assets exceed the forecasted undiscounted cash flows of these assets due to a decline in expected volumes in connection with these manufacturing assets. The Partnership recognized asset impairment charges of \$8.1 million during 2003 on these manufacturing assets, which are all designated as assets held and used. Subsequent to year-end, the Partnership decided to offer these assets for sale.

**5. Debt**

On December 14, 2001, the Partnership, together with certain associated entities (the Companies), entered into Note Purchase Agreements (2001 Note Purchase Agreements) and issued Series A guaranteed senior notes (Series A Notes) in the original amount of \$15 million at 5.79% per annum and Series B guaranteed senior notes (Series B Notes) in the original amount of \$130 million at 6.12% per annum. The Series A Notes and the Series B Notes are herein referred to collectively as the 2001 Notes. The Series A Notes are payable in \$5 million installments on December 14, 2005, December 14, 2006 and December 14, 2007. The Series B Notes were paid in \$4.5 million installments on June 14 and December 14 in each of the years ended December 31, 2003 and 2002, and are payable in \$4.5 million installments on each June 14 and December 14 thereafter to and including June 14, 2011, with the remaining principal balance due on December 14, 2011. The 2001 Notes provide the Companies the option of prepaying the notes in whole or in part (but not in amounts less than \$10 million) together with a make-whole amount prior to the scheduled due date. The 2001 Note Purchase Agreements contain various restrictive and financial covenants, including certain minimum levels of net worth, a leverage ratio and limitations on investments. Borrowings under the 2001 Note Purchase Agreements are unsecured. The Companies had borrowings under the 2001 Note Purchase Agreements of \$127 million and \$136 million at December 31, 2003 and 2002, respectively. The Partnership is jointly and severally liable as an issuer of the 2001 Notes of under the 2001 Note Purchase Agreements. At December 31, 2003 and 2002, the Partnership had no outstanding borrowings associated with the 2001 Note Purchase Agreements.

On May 10, 2000, the Partnership, together with the Companies entered into a \$220 million revolving credit and competitive advance facility (the 2000 Revolving Credit Facility). Through various amendments, the Companies reduced the commitments under the 2000 Revolving Credit Facility from \$220 million to \$125 million. The 2000 Revolving Credit Facility expires on May 10, 2005. To the extent that certain of the Companies (the Borrowers) borrow under the 2000 Revolving Credit Facility, principal payments are made entirely at the Borrowers' discretion subject to the terms of the facility. The 2000 Revolving Credit Facility, as amended March 1, 2004, provides for the Borrowers a choice of paying interest at the Adjusted LIBO Rate, as defined under the 2000 Revolving Credit Facility, plus the applicable margin based on the Companies' financial ratios or at the Alternate Base Rate (1.49% and 4.25% at December 31, 2003 and 2002, respectively), also as defined under the 2000 Revolving Credit Facility. In addition, the 2000 Revolving Credit Facility, as amended, permits the Borrowers to obtain and accept from the lenders competitive bids for certain fixed rate and LIBOR-based loans and letters of credit.

The 2000 Revolving Credit Facility is unsecured and contains various restrictive covenants, including limitations on other indebtedness and distributions, plus the requirement to maintain certain minimum levels of net worth and other financial ratios. The Companies had borrowings under the 2000 Revolving Credit Facility of \$107 million and \$62 million at December 31, 2003 and 2002, respectively. The Partnership is jointly and severally liable as a guarantor

for the full amount under the 2000 Revolving Credit Facility. At December 31, 2003 and 2002, the Partnership had no outstanding borrowings associated with the 2000 Revolving Credit Facility.

As of December 31, 2003, the Partnership, together with the Companies, had five floating interest rate swap arrangements with a total notional amount of \$116.5 million, expiring on December 14, 2011. Under two of the interest rate swaps, the Companies receive fixed rate interest of 6.12% and pay 6 month LIBOR plus 0.895% (2.125% for the period December 14, 2003 through June 14, 2004), effectively converting the fixed rates associated with the long-term debt to floating rates. Under three of the interest rate swaps, the Companies receive fixed rate interest of 6.12% and pay 6 month LIBOR plus 1.71%, effectively converting the fixed rates associated with long-term debt under the 2001 Notes to floating rates. The Companies have recorded \$4.3 million and \$6.1 million at December 31, 2003 and 2002, respectively, in other liabilities to reflect the increase in the fair value of the long-term debt under the 2001 Notes associated with the interest rate swaps. There are no interest rate swaps recorded in the Partnership's financial statements. Changes in the fair value of the interest rate swaps are expected to perfectly offset changes in the fair value of the fixed rate debt due to changes in the benchmark LIBOR swap interest rate. The fair values of the interest rate swaps are based on the amounts at which they can be settled with the counterparty. The Partnership is a guarantor under the interest rate swap arrangements.

**Table of Contents****6. Pension, Postretirement and Defined Contribution Benefit Plans**

The Partnership, together with certain associated entities, provides retirement benefits to its employees through a noncontributory defined benefit pension plan. The Partnership is also party to a postretirement benefit plan that provides medical, dental and life insurance for retirees and eligible dependents.

On December 8, 2003, the Medicare Prescription Drug Improvement and Modernization Act of 2003 (the Act) was signed into law. The Partnership is evaluating how and when any federal subsidies would apply. The postretirement benefit obligation and net periodic benefit cost shown in the tables below do not reflect the possible effects of the Act on the benefit program. Specific authoritative guidance on the accounting for the federal subsidy has recently been issued and is being evaluated by the Partnership. This guidance may require the Partnership to change previously reported information.

The following represents the pension and postretirement plan information in the Partnership:

The Partnership, together with certain associated entities, sponsors a defined contribution 401(k) savings plan available to employees who meet certain minimum age and service requirements. Contributions and costs are determined at 50% of each employee's contributions to the Plan, to a maximum of 6% of each employee's covered earnings. The net cost of the plan for the Partnership totaled \$126,000 and \$107,000 in 2003 and 2002, respectively.

**Table of Contents**

The Partnership, together with certain associated entities, established a Supplemental Savings Plan on April 1, 2003 covering certain salaried employees. Employees who receive a base salary in excess of the 401(a)(17) limit who elect to participate in the plan will be eligible for an employer matching contribution not to exceed 10% of the employee's excess compensation (compensation in excess of the 401(a)(17) limit, which in 2003 was \$200,000). Awards by the Partnership under the plan vest at the time contributions are made to individual employee accounts. The expense recognized by the Partnership in 2003 was \$41,000.

**7. Related Party Transactions**

During 2003 and 2002, an associated company, provided various administrative and corporate related services at no cost to the Partnership. The associated company also provided cash flow for operating purposes such as operating expense and payroll. During 2003 and 2002, an associated company provided the Partnership \$10.8 million and \$13.3 million in cash flow, respectively. Amounts advanced by the associated company to the Partnership and / or amounts paid by them and rebilled are included in the due to associated companies liability balance and such advances and amounts due are non-interest bearing.

The Partnership performed consulting services for an associated company and recognized revenue of \$477,000 and \$151,000 during 2003 and 2002, respectively.

The Partnership entered into a 24 year operating lease, which expires on June 2025, with an associated company, during 2001 for an annual rent of \$150,000.

The Partnership and certain other associated companies have guaranteed an associated company's obligations under a 20-year operating lease with an associated company for an annual rent of \$10.8 million.

The Partnership utilizes unionized hourly-paid employees of an associated company, in connection with its manufacturing operations, including production, maintenance, shipping and receiving. The Partnership paid the associated company \$758,000 and \$678,000 for these services in the years ended December 31, 2003 and 2002, respectively.

**8. Commitments and Contingencies**

Aggregate future lease payments (including lease payments to related parties discussed above) under non-cancelable operating leases with initial or remaining terms of more than one year at December 31, 2003 are as follows:

	<i>(In thousands)</i>
2004	\$ 1,130

Laureate Pharma L.P.

Notes to unaudited financial statements

**1. Organization and Basis of Presentation**

Laureate Pharma L.P. (the Partnership) is a Delaware limited partnership that performs contract manufacturing services to support the development and commercialization of pharmaceutical products for pharmaceutical and biopharmaceutical companies. The Partnership is the successor to Bard Biopharma L.P. as of March 23, 2002. Laureate Pharma Inc. is the general partner of the Partnership. The limited partner is BR Holdings Associates L.P., a Delaware limited partnership.

Reference is made to the audited financial statements of the Partnership as of and for the years ended December 31, 2002 and 2003 for a description of Significant Accounting Policies; Debt; and Pensions, Postretirements and Defined Contribution Benefit Plans. Selected unaudited footnotes as of and for the nine months ended September 30, 2004 follow.

**2. Significant Accounting Policies**

*Use of Estimates*

The preparation of financial statements in conformity with United States generally accepted accounting principles requires the Partnership's management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

*Inventories Laboratory Supplies*

Inventories are stated at the lower of cost or market, computed using the first-in, first-out (FIFO) method.

*Machinery and Equipment*

Machinery and equipment are stated at cost. Depreciation is provided principally using the straight-line method over the estimated useful lives of the related assets, as follows:

Machinery and equipment	10 years
Furniture and fixtures	10 years
Computer software and equipment	5 years
Leasehold improvements	14 to 20 years

Leasehold improvements are depreciated over the lesser of the assets' useful lives or the term of the lease.

**Table of Contents**

**2. Significant Accounting Policies (continued)**

*Long-Lived Assets*

In accordance with Statement of Financial Accounting Standards ( SFAS ) No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, the Partnership evaluates the carrying value of its long-lived assets in relation to the estimated undiscounted cash flows of the underlying businesses if impairment indicators are present. If the undiscounted expected cash flow is less than the carrying amount, an impairment loss is recognized to reduce the carrying amount to fair value.

*Bank Overdrafts*

The Partnership classifies all bank overdrafts as accounts payable. Included in accounts payable at September 30, 2004 were bank overdrafts of \$9,000.

*Revenue Recognition*

Service based revenue is recognized as work is performed or completed, and payment is assured, in accordance with individual customer contracts. Billings in excess of revenue are recorded as deferred income until earned.

*Income Taxes*

The Partnership is not subject to any federal or state income taxes, nor is it entitled to any financial statement tax benefits resulting from operating losses. Income taxes, which may be payable by the partners based upon their share of taxable income, have not been reflected in the accompanying financial statements.

*Business Concentrations*

For the nine months ended September 30, 2004, three customers accounted for approximately 90% of accounts receivable-trade and 70% of service revenues.

Credit is extended to customers based on an evaluation of their financial condition to reduce the risk of loss, and collateral is not generally required. The Partnership maintains allowances for doubtful accounts for estimated losses resulting from the inability of customers to make required payments. Past due status of accounts receivable is determined primarily based upon contractual terms and uncollectable trade accounts receivable are written-off once it is deemed that the accounts will not be collected.

*Fair Values of Financial Instruments*

The Partnership's financial instruments include cash, accounts receivable and accounts payable. All of these financial instruments are accounted for on an historical cost basis, which, due to the nature of these instruments, approximates fair value at the balance sheet dates.

**5. Related Party Transactions**

During 2004, an associated company, provided various administrative and corporate related services at no cost to the Partnership. The associated company also provided cash flow for operating purposes such as operating expense and payroll. During the first nine months of 2004, an associated company provided the Partnership \$7.7 million in cash flow. Amounts advanced by the associated company to the Partnership and / or amounts paid by them and rebilled are included in the due to associated companies liability balance and such advances and amounts due are non-interest bearing.

The Partnership did not perform consulting services for the associated company from January 1 September 30, 2004.

During 2001, the Partnership entered into a 24 year operating lease, which expires on June 2025, with an associated company, for an annual rent of \$150,000.

The Partnership and certain other associated companies have guaranteed an associated company's obligations under a 20-year operating lease with an associated company for an annual rent of \$10.8 million.

The Partnership utilizes unionized hourly-paid employees of an associated company, in connection with its manufacturing operations, including production, maintenance, shipping and receiving. The Partnership paid the associated company \$1,028,000 for these services in the period January 1 September 30, 2004.

**Table of Contents****6. Commitments and Contingencies**

SAFEGUARD SCIENTIFICS, INC.  
PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION  
(UNAUDITED)

On December 3, 2004, Laureate Pharma, Inc. ( Laureate Pharma ), a Delaware corporation and an indirect, wholly owned subsidiary of Safeguard Scientifics, Inc. ( Safeguard or the Registrant ), completed the previously announced acquisition (the Acquisition ) of substantially all of the assets comprising the business of IKUWA Holdings L.P. (formerly known as Laureate Pharma L.P.) (the Seller ) in accordance with the terms and conditions of the Asset Purchase Agreement dated as of October 20, 2004, by and among the Registrant, Biopharma Acquisition Company, Inc., (now known as Laureate Pharma, Inc.), the Seller, and Purdue Pharma L.P. (the Asset Purchase Agreement ), as amended. Neither the Seller nor Purdue Pharma L.P. is affiliated with the Registrant. The purchase price for the assets consisted of approximately \$29.5 million in cash and the assumption of certain specified liabilities of Seller.

The unaudited pro forma combined financial statements have been prepared from and should be read in conjunction with the financial statements and notes thereto for the Seller for the year ended December 31, 2003 and for the nine months ended September 30, 2004, included in this Current Report on Form 8-K/A, the consolidated financial statements and notes thereto of the Registrant as of and for the year ended December 31, 2003 which are included in the Registrant s Annual Report on Form 10-K for the year ended December 31, 2003 and the consolidated financial statements and notes thereto of the Registrant as of and for the nine months ended September 30, 2004, which are included in the Registrant s Quarterly Report on Form 10-Q for the quarter ended September 30, 2004.

The pro forma condensed combined balance sheet assumes that the Acquisition took place on September 30, 2004 and combines the Registrant s unaudited consolidated balance sheet at September 30, 2004 and the Seller s unaudited balance sheet at September 30, 2004.

The unaudited pro forma condensed combined statements of operations assume the Acquisition took place as of the beginning of the periods presented. The condensed combined statement of operations for the nine months ended September 30, 2004 combines the Registrant s unaudited consolidated statement of operations for the nine months ended September 30, 2004 and the Seller s unaudited statement of operations and partners (deficit) capital for the nine months ended September 30, 2004. The condensed combined statement of operations for the year ended December 31, 2003, combines the Registrant s audited consolidated statement of operations for the year ended December 31, 2003 and the Seller s audited statement of operations for the year ended December 31, 2003.

The pro forma financial information is presented for illustrative purposes only. The pro forma combined financial information is based upon the operating results and financial condition of the Seller during the period when the business acquired was not under the control, influence or management of Safeguard. As a result, the information presented may not be indicative of the financial position or results of operations of the Registrant after the Acquisition, or of the financial position or results of operation of the Registrant that would have actually occurred had the Acquisition been effected as of the dates described above. Pro forma adjustments that give effect to actions taken by management or other efficiencies expected to be realized after the Acquisition are not reflected in the pro forma combined financial information. The pro forma adjustments are based upon available information and certain assumptions that we believe are reasonable under the circumstances. A final determination of fair values relating to the Acquisition may differ materially from the preliminary estimates and will include the final valuation of the fair values of assets acquired and liabilities assumed. The final valuation may change the allocations of the purchase price, which could affect the fair value assigned to the assets and liabilities and could result in a change to the pro forma condensed combined financial information. These adjustments are more fully described in the notes to the unaudited pro forma combined financial information.

SAFEGUARD SCIENTIFICS, INC.  
 NOTES TO UNAUDITED PRO FORMA CONDENSED COMBINED FINANCIAL INFORMATION

The following adjustments give pro forma effect to the transaction:

- (a) Reflects the elimination of the Seller's historical net deficit as well as the elimination of assets not acquired and liabilities not assumed by the Registrant as part of the acquisition. The Registrant purchased selected accounts receivable, inventory, property and equipment, and other assets, and assumed certain liabilities from the Seller. The purchase price was approximately \$29.5 million in cash and the Registrant incurred approximately \$1.2 million in transaction costs.
- (b) Reflects the use of \$24.5 million of the Registrant's available cash and borrowings made by Laureate Pharma, Inc. under a Term Loan of \$5 million to finance the approximate \$29.5 million purchase price and to reflect the preliminary purchase price allocation. The Term Loan has a maturity date of December 1, 2009. A total of \$1.0 million has been allocated to Current maturities of other long-term debt and \$4.0 million to Long-term debt on the pro forma combined balance sheet as of September 30, 2004 based on the scheduled repayment dates of the term debt. Concurrent with the closing of this transaction, the Registrant funded \$1 million of working capital to Laureate Pharma, Inc. The estimated purchase price allocation is as follows:

Purchase price	\$ 29,500
Transaction costs	1,158
<b>Total</b>	<b>\$ 30,658</b>
Estimated fair value of assets and liabilities acquired:	
Receivables	\$ 4,554
Inventories	432
Other current assets	21
Property and equipment	24,483
Intangibles	2,130
Accrued liabilities	(962)
<b>Total</b>	<b>\$ 30,658</b>

Intangible assets consist of tradenames (\$1.7 million), which have an indefinite life, and customer relationships (\$0.4 million), which have an estimated useful life of two years. The Company has not finalized the allocation of the purchase price for the acquisition. Therefore, the preliminary allocation of the purchase price may be adjusted upon completion of the valuation of assets acquired and liabilities assumed.

- (c) Reflects amortization expense of \$0.2 million for the nine months ended September 30, 2004 and year ended December 31, 2003, respectively, related to intangible assets with a definite life of two years acquired by the Registrant as part of the acquisition. This also reflects \$0.9 million and \$1.2 million of additional depreciation related to the step up in basis of acquired property and equipment for the nine months ended September 30, 2004 and year ended December 31, 2003, respectively. The fixed assets will be depreciated over their weighted average useful lives ranging from 0.5 years to 14 years.
- (d) The increase in interest and financing expense relates to \$5 million of term debt incurred by Laureate Pharma, Inc. to finance a portion of the purchase price of the acquisition. The interest rate on the term debt is assumed to

be the prime rate less 0.50% for the periods presented (as adjusted for changes in the prime rate during such periods).
