EL PASO CORPORATION COMPLETES IMPORTANT STEP IN ITS PLAN TO ENHANCE LIQUIDITY AND FINANCIAL FLEXIBILITY; EXTENDS MATURITY OF \$3-BILLION REVOLVING CREDIT FACILITY TO JUNE 2005

HOUSTON, TEXAS, APRIL 16, 2003--El Paso Corporation (NYSE:EP) today announced that it has completed an important objective of its 2003 operational and financial plan by refinancing and restructuring its major bank facilities.

"We are pleased with the support provided by our bank group that allowed for the completion of this important step in our operational and financial plan well ahead of schedule," said Ronald L. Kuehn, Jr., chairman and chief executive officer of El Paso Corporation. "These facilities provide significant value to all of our stakeholders as they further improve the company's liquidity position while simplifying and strengthening our balance sheet. They are designed to provide the company with the flexibility to aggressively reduce our leverage with our cash flow from operations and the proceeds from our asset sales program over the remainder of 2003 and 2004."

New Credit Facilities

The company has entered into a \$3-billion revolving credit facility due June 2005, which replaces the company's previous \$3-billion facility that had a one-year term-out option to May 2004. El Paso's existing \$1-billion revolving facility, which matures in August 2003, and approximately \$1 billion of other bank facilities (including leases, letters of credit and other facilities) will remain in place with no change in maturity. However, the key financial covenants of these facilities have been conformed to the \$3-billion facility and they will share in the collateral being provided to that facility.

In addition, the company restructured its approximately \$750-million remaining outstanding Clydesdale preferred interests as a term loan that will amortize in equal quarterly amounts over the next two years. The term loan is secured by the assets currently supporting the Clydesdale transaction, consisting of a production payment from El Paso, various natural gas and oil properties, and El Paso's equity ownership in Colorado Interstate Gas Company.

The \$3-billion facility and the other bank facilities are secured by El Paso's equity interests in all of its 100-percent-owned pipelines (with the

Edgar Filing: EL PASO CORP/DE - Form DEFA14A

exception of Southern Natural Gas), the common and Series C units in El Paso Energy Partners that are currently owned by El Paso Corporation, and the equity interests in the El Paso subsidiaries that own the property securing the term loan. All of the facilities have a borrowing cost of LIBOR plus 350 basis points and letter of credit fees of 350 basis points. The key financial covenant in the facilities is a requirement for the company to maintain debt to total capitalization not in excess of 75 percent, as defined in the facilities.

Next Steps of El Paso's Operational and Financial Plan

"With the completion of this new bank facility, our recent agreement in principle to resolve the principal claims arising from the Western energy crisis, and the continuing progress of our 2003 non-core asset sale program, we have made significant strides toward the completion of the repositioning of El Paso," Mr. Kuehn added. "We are now focusing on the critical next steps of our operational and financial plan, including aggressive cost reductions, recovery of significant portions of our cash collateral, debt reduction, and other actions."

These actions include:

- o Targeting at least \$250 million of additional pre-tax cost savings and business efficiencies beyond the \$150 million previously announced by the end of 2004;
- o Working to recover as promptly as practicable cash collateral currently committed to the company's trading, petroleum, refining, and other businesses; and
- o Reducing the company's obligations senior to common stock by at least \$2.5 billion by the end of 2003.

El Paso's Board of Directors has formed a strategic planning committee to ensure that El Paso maximizes all opportunities inherent in its core businesses as the company moves forward with the 2003 operational and financial plan.

"Our Board of Directors is committed to continuing the progress we have made under our plan in order to enhance the value of El Paso," Mr. Kuehn continued. "As we move beyond the repositioning phase of our plan, we will quickly and aggressively take actions to maximize value for all our shareholders."

Financing Activity Update

In order to further simplify its balance sheet, since year-end 2002 El Paso has:

- o Refinanced the Clydesdale and Trinity River preferred interests of consolidated subsidiaries and restructured the related cash restrictions;
- o Issued \$700 million in senior unsecured notes at Southern Natural Gas Company and ANR Pipeline Company;
- o Issued a \$1.2-billion two-year guaranteed term loan secured by certain of the company's natural gas and oil properties;
- o Repaid the \$1-billion Limestone Notes in March; and

Edgar Filing: EL PASO CORP/DE - Form DEFA14A

- o Extended the maturity of its \$3-billion revolving credit facility through mid-year 2005.

To continue that process, the company expects to:

- o Purchase the third-party equity in its Electron investment for \$175 million in the second quarter of 2003, resulting in the consolidation of the assets and liabilities within that entity;
- o Purchase the third-party equity in our Gemstone investment for \$50 million in the second quarter of 2003, resulting in the consolidation of the assets and liabilities within that entity; and
- o Repay the \$1.2-billion two-year term loan issued in February 2003 through the issuance of longer-term debt in the capital markets in the second or third quarter of this year to eliminate the amortization requirements of that financing in 2004 and 2005.

"We have significantly improved our liquidity over the last several months," said D. Dwight Scott, executive vice president and chief financial officer of El Paso Corporation. "While we will continue to manage our liquidity carefully, our focus in the coming months will be on implementing the additional steps of our plan that will strengthen our financial position and reduce debt at the company."

Greater detail on El Paso's new bank facility is attached to this release. In addition, the company will file the credit agreements and related documents with the SEC later today in a Form 8-K.
